1. To the fullest extent allowed by law, Contractor shall defend, indemnify, and save and hold harmless City, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of Contractor's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from City's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed. Contractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

2. Contractor is an independent contractor, and shall not be considered an officer, agent or employee of the City.

3. Without the written consent of the City, this Agreement is not assignable by Contractor either in whole or in part.

4. Time is of the essence of this Agreement.

5. At any time during the term of this Agreement, the City has the right to terminate this Agreement, provided Contractor is given thirty (30) days written notice. City's termination shall be without further liability to City; however, Contractor shall be entitled to all costs reasonably incurred prior to the date of termination. Contractor acknowledges that City may terminate this Agreement should funds not be appropriated by its governing body to continue services under this Agreement.

6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.

7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.

8. Unless notified to the contrary, in writing, the City assumes that the Contractor has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement.

9. All fair employment practices must be adhered to. In addition, if the project referenced on this service agreement is a Public Works project, all prevailing wage laws must be complied with. For prevailing wage contracts over $25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm. In compliance with Labor Code Section 1773.2, as may be amended from time to time, Contractor shall cause a copy of this website to be posted at each jobsite, as applicable.

10. Contractor agrees to the below insurance requirements:

    a. Unless otherwise specified, the Contractor shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance

Docusign Envelope ID: 29F2683F-4C96-4401-B642-F11956BBE9E0

coverage.

b. Form. Contractor shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

c. Additional Insureds. Contractor shall also provide a separate endorsement or section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage, except for Workers' Compensation. Such insurance shall specifically cover the contractual liability of Contractor. The additional insured coverage under the Contractor's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office (ISO) CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be:

(1) the minimum coverage and limits specified in this Agreement; or
(2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

d. Cancellation/Modification. Contractor shall provide thirty (30) days written notice to City prior to cancellation or modification of any insurance required by this Agreement.

e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.

f. Subcontractors. Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, Contractor shall require its subcontractors to agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under this Agreement. Additionally, Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

g. Self-Insured Retentions. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

h. Waiver of Subrogation. Contractor hereby agrees to waive subrogation which any insurer of Contractor may acquire from Contractor by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or

Docusign Envelope ID: 29F2683F-4C96-4401-B642-F11956BBE9E0

Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Contractor, its employees, agents and subcontractors.

i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Contractor of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.

11. Contractor shall comply with all federal, state, and local laws and ordinances, including but not limited to the City's storm water regulations, as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances may result in monetary fines and cancellation of this Agreement. Refer to www.roseville.ca.us/stormwater for links to more information on the City's storm water regulations.

12. In the event that the terms of any attachment or exhibit conflict with any terms of this Agreement, the terms of this Agreement shall control.

13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original hereof.

14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

17. For purposes of this Agreement, the terms "Contractor," "Consultant," and "Supplier" are used interchangeably.

18. If the project referenced on this agreement is a Public Works project, then the following shall apply: No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

19. Contractor/consultant's duties and services under this agreement shall not include preparing or assisting the public entity with any portion of the public entity's preparation of a request for proposals, request for qualifications, or any other solicitation regarding a subsequent or additional contract with the public entity. The public entity entering this agreement shall at all times retain responsibility for public contracting, including with

Docusign Envelope ID: 29F2683F-4C96-4401-B642-F11956BBE9E0

respect to any subsequent phase of this project. Contractor/consultant's participation in the planning, discussions, or drawing of project plans or specifications, if any, shall be limited to conceptual, preliminary, or initial plans or specifications. Contractor/consultant shall cooperate with the public entity to ensure that all bidders for a subsequent contract on any subsequent phase of this project have access to the same information, including all conceptual, preliminary, or initial plans or specifications prepared by contractor pursuant to this agreement.

20. If the project referenced on this agreement is a Public Works project, then the following shall apply: Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.

21. Contractor certifies that Contractor, its employees, directors, officers, agents, subcontractors, vendors, and volunteers are not presently debarred, excluded, suspended, declared ineligible, voluntarily excluded, or proposed for debarment, exclusion, suspension, or ineligibility by any federal, state, or local department or agency.

22. The Levine Act (Govt. Code, Section 84308) requires a Party (and its agent(s), if any) to a Proceeding before the City of Roseville that involves any action or consideration related to their contract, license, permit, or other entitlement for use, to disclose any campaign contributions made to City elected or appointed officers totaling more than $500 within the twelve (12) months prior to the City decision and while a proceeding is pending, and includes certain prohibitions on contribution activity thereafter. If applicable campaign contributions have been made by Contractor and/or its agent(s), Contractor is responsible for compliance, including for its disclosure obligations, if any, as further described at: https://www.roseville.ca.us/government/departments/city_clerk/transparency/levine_act.

23. This Agreement may be amended via change order, but only if such change order is made in writing, approved by the City, and signed by both parties.

24. CONTRACTOR agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONTRACTOR and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

    CONTRACTOR and CITY agree that: (a) CONTRACTOR is free from the control and direction of CITY in connection with the performance of the work; (b) CONTRACTOR is providing services directly to CITY; (c) CONTRACTOR has and will maintain at all relevant times a business license; (d) CONTRACTOR maintains a business location that is separate from CITY; (e) CONTRACTOR is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) CONTRACTOR actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) CONTRACTOR advertises and holds itself out to the public as available to provide the same or similar services; (h) CONTRACTOR provides its own tools, vehicles, and equipment to perform the services; (i) CONTRACTOR has negotiated its own rates; (j) CONTRACTOR set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONTRACTOR has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

25. If Contractor produces any "web content" pursuant to this Agreement, as that term is defined in section 35.104 of Title 28 of the Code of Federal Regulations, as may be amended, Contractor shall ensure that any such web content is in full compliance with all applicable requirements of the most current version of the Web Content Accessibility Guidelines, the Americans with Disabilities Act, Code of Federal Regulations and/or

Docusign Envelope ID: 29F2683F-4C96-4401-B642-F11956BBE9E0

California law. Contractor shall defend, indemnify, and hold harmless City, its officers, employees, and agents from and against any and all claims, liabilities, damages, or expenses arising out of Contractor's failure to comply with such requirements. This provision shall survive expiration and/or termination of this Agreement.

The supplier named hereon by the acceptance of this order agrees to the provisions of this document titled "Contract Purchase Agreement" and all accompanying terms, conditions, and attachments.

Insurance Submission Process

The City of Roseville Human Resources/Risk Management Department uses a service called EBIX to manage our insurance certificate tracking.

How It Works

- The vendor's contact information is entered into EBIX. EBIX will contact the vendor to request proof of insurance.
- The Vendor can forward the request to their Insurance Agent(s) if necessary.
- Vendor/Insurance Agent submits insurance to EBIX by email to roseville@ebix.com or by fax to (770) 325-5727. After faxing or emailing the certificate, please DO NOT send the certificate by mail to EBIX. Please do not mail, email or fax any certificates to the City of Roseville.
- Once submitted, EBIX reviews the insurance documentation. If there are deficiencies, EBIX will send a follow up letter or email requesting additional information.

Questions Regarding Insurance Submission: Contact EBIX at (951) 652-4239
Questions Regarding Insurance Requirements Contact Risk Management at (916) 774-5202

CITY OF ROSEVILLE CALIFORNIA

April, 2022

RE: Contractor and Grantee Compliance with Economic Sanctions Imposed in Response to Russia's Actions in Ukraine

Dear Vendor:

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (EO) regarding sanctions in response to Russian aggression in Ukraine. The EO is located at https://www.gov.ca.gov/wp-content/uploads/2022/03/3.4.22-Russia-Ukraine-Executive-Order.pdf.

The EO directs all agencies and departments that are subject to the Governor's authority to take certain immediate steps, including notifying all contractors and grantees of their obligations to comply with existing economic sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law.

This correspondence serves as a notice under the EO that as a contractor or grantee, compliance with the economic sanctions imposed in response to Russia's actions in Ukraine is required, including with respect to, but not limited to, the federal executive orders identified in the EO and the sanctions identified on the U.S. Department of the Treasury website (https://home.treasury.gov/policy-issues/financial-sanctions/sanctions-programs-and-country-information/ukraine-russia-related-sanctions). Failure to comply may result in the termination of contracts or grants, as applicable.

Please note that for any agreements or grants valued at $5 million or more you must report to the City of Roseville your compliance with economic sanctions including steps you have taken in response to Russia's actions in Ukraine, including, but not limited to, desisting from making new investments in, or engaging in financial transactions with, Russian entities, not transferring technology to Russia or Russian entities, and directly providing support to the government and people of Ukraine.

Sincerely,

DocuSigned by:

F. Cost Proposal

We present herein a transparent and detailed cost proposal for providing Confined Space Rescue Services and Safety Training Courses to the City of Roseville. Our pricing is outlined in the following tables, reflecting a commitment to comprehensive service and value.

Confined Space Services Rates

The following rates apply to our confined space rescue services:

Type	Number of Staff	Regular Rate 1-8 hrs.	Overtime Rate 8-12 hrs.	Double Time rate After 12 hrs.
Regular	2-person	$330	$495	$660
Shift Work Differential	2-person	$350	$525	$700
Vehicle and equipment	N/A	$500 day	N/A	N/A
Additional Personnel CSR Trained	1-person	$165	$247.50	$300
Additional Personnel CS Awareness Trained	1-person	$100	$150	$200

The following terms apply to our services:

- In the event of cancellations after a team has arrived onsite, HMI will charge a 4-hour straight-time cancellation fee.
- For work completed in less than 4 hours, HMI will bill a minimum charge equivalent to 4 hours.
- Our cost proposal is all-inclusive, ensuring no additional charges for lodging, travel, airfare, or meals will be incurred.

Confined Spaces and Safety Training Courses

Safety Training Course	Duration	Class Size	Price per Class
First Aid/CPR/AED	6 hours	Up to 12	$1,200
Hot Work/Fire Extinguisher	8 hours	Up to 12	$2,400
Trenching Excavation Competent Person	8 hours	Up to 12	$1,950
Fall Protection Competent Person	8 hours	Up to 10	$2,350
Confined Space Entry "Competent Person" Training	7 hours	Up to 30	$1950

Jason Sherrer
Generation Maintenance Scheduler-Coordinator

IMPORTANT!!!

The City is not responsible for misdelivered proposals, and the proposer is strictly liable for its chosen method of delivery. It is the proposer's sole responsibility to make sure that proposals arrive at the proper location. Any proposal which does not actually arrive in the City Clerk's Office by the RFP due date and time will be rejected as non-responsive, even if properly addressed or delivered to another City Department.

Your proposal **MUST** be addressed and delivered as follows:

City of Roseville
Attn: City Clerk Department
311 Vernon Street
Roseville, CA 95678

The proposer is also directed to include the attached "Sealed Proposal" label on the outside of the package or envelope, so that it is visible when delivered to the City.

Or emailed to:
cityclerkroseville@roseville.ca.us

Note: Email submissions are limited to 25 megabytes.

PREVAILING WAGE NOTIFICATION

This is a prevailing wage project. Accordingly, all prevailing wage and fair employment laws and regulations shall be adhered to. For prevailing wage contracts over $25,000.00, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the Department of Industrial Relations and/or the following website address:

http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm

1.0 INTRODUCTION

The City of Roseville (hereinafter "City"), is soliciting proposals for Confined Space Rescue Services. This will be a competitive negotiation process. Qualified individuals, firms, contractors, consultants or entities (hereinafter "Consultant(s)"), that meet the requirements set forth in this Request for Proposals (hereinafter "RFP"), and are capable of providing the services requested are encouraged to participate.

1.1 Background

The City owns and/or operates multiple power plant sites. The primary site is the Roseville Energy Park (hereinafter "REP") which is a gas-fired 165 MW combined-cycle power generation facility with an additional 2 – GE TM2500 simple cycle turbines, and a zero liquid discharge system. The Roseville Power Plant #2 (hereinafter "RPP2") is a gas fired 50 MW simple cycle peaking power plant which has 2 – GE Frame 5. Power generation operations and maintenance includes confined space work in heat recovery steam generators, a cooling tower, crystallizers, sumps, tanks and other pieces of equipment. The City is seeking proposals from qualified Contractors to provide confined space rescue services for City owned or operated electric generation systems.

REP and RPP2 locations are:

Roseville Energy Park
5120 Phillip Road
Roseville, CA 95747

Roseville Power Plant #2
2155 Nichols Drive
Rocklin, CA 95677

1.2 City Overview

The City of Roseville is an incorporated city with a population of more than 145,000 residents, located in Placer County off of Interstate 80, approximately 16 miles northeast of Sacramento, California. The City of Roseville is a Charter city operating under the City Council/City Manager form of government.

1.3 Proposal Submittal

RFP proposal submittals may be delivered to the Office of the City Clerk, Civic Center, 311 Vernon St., Roseville, CA 95678 via common carrier, hand delivered, **or** submitted via electronic mail to **cityclerkroseville@roseville.ca.us** by the specified proposal due date and time. Complete and attach the "Sealed Proposal" label to the outside of the proposal packaging if delivering or hand carrying a hard copy of the proposal, so it is visible to the City Clerk. If submitting a proposal via electronic mail, then include the RFP title and RFP number in the subject line of the email.

1.4 California Secretary of State Registration

The City requires all corporations, limited liability companies and limited partnerships to be registered to do business in the State of California. On a separate Attachment F page, please include a screenshot of your "ACTIVE" status with your proposal submittal, which can be obtained by accessing this link: https://bizfileonline.sos.ca.gov/search/business. All proposers must be registered with the Secretary of State or have a valid exemption by the time of award.

1.5 Instructions

This RFP is exclusively an invitation to submit Proposals for the Generation – Confined Space Rescue Services project. This RFP shall not be construed as a request or authorization to perform any work. In addition, this RFP does not represent a commitment to purchase, lease, or license any product or software. Any work performed by a Vendor to respond to this RFP will be at the Vendor's own discretion and expense. The City will not be obligated for any Vendor costs related to this RFP, nor does any Vendor's work in responding to this RFP bind the City to any obligations. The costs of developing Proposals are entirely the responsibility of the Vendor. This RFP includes a description of the scope of services, proposal requirements, and instructions for submitting your proposal. Failure to follow these instructions may result in rejection of your proposal.

No oral representations or interpretations will be made to any proposer as to the meaning of this RFP.

Direct all inquiries regarding this RFP in writing to Steve Hancock sjhancock@roseville.ca.us or by accessing the RFP from the City's website at: https://www.roseville.ca.us/business/procurement_services/bids_rfps by no later than 1/28/2026 5:00pm PST.

Do not contact other individuals or City departments in this regard. Information provided by anyone other than the above contact may be invalid and proposals which are submitted in accordance with such information may be declared non-responsive.

In the event that it becomes necessary to revise any part of this RFP, written addenda will be issued. Any amendment to this RFP is valid only if it is in writing and issued by the City department issuing the RFP. No oral interpretations or answers shall bind the City unless confirmed by the City in writing.

All addenda for this RFP will be distributed through PublicPurchase.com to proposers who have registered with PublicPurchase.com and who have downloaded the RFP. Additionally, the Notice of Intent to Award will be posted on PublicPurchase.com. **It is the proposer's sole responsibility to monitor PublicPurchase.com for possible addenda to this RFP and for the Notice of Intent to Award. Failure of proposer to retrieve addenda or the Notice of Intent to Award** from PublicPurchase.com shall not relieve him/her of the requirements contained therein or the timelines associated therewith. Additionally, failure of proposer to return a signed addendum, when required, may be cause for rejection of his/her proposal.

2.0 TENTATIVE SCHEDULE

The following represents the tentative schedule for this RFP. Any change in the scheduled dates for the Optional Pre-Proposal Job Walk, Deadline for Final Questions, or Proposal Submission Deadline will be advertised in the form of an addendum to this RFP. The schedule for the evaluation process and other future dates may be adjusted without notice.

RFP Released by the City……	12/18/2025
Pre-Proposal Job Walk..……	1/21/2026
Deadline for Final Questions……...	1/28/2026
City Responses to Written Questions……..	2/4/2026
Proposal Submission Deadline……	2/18/2026
Consultant Interviews as needed…….	TBD
Contract Negotiations……	TBD
Contract Approval by City Council…….	TBD
Commencement of Services.……	7/1/2026

3.0 OPTIONAL PRE-PROPOSAL JOB WALK

An optional on-site pre-proposal conference and job walk has been scheduled for Wednesday, January 21, at 8:00am. Prospective proposers are encouraged to pre-register by Monday, January 19th with Steve Hancock at sjhancock@roseville.ca.us by filling out and returning Attachment G – Intent to Attend Pre-Proposal Job Walk. Registrants will be asked to provide the name of the attendee(s), company name, phone number, and email address(es). Pre-registering is not required but does help us plan for the session better.

The conference and job walk will last approximately 2 hours. Attendance will be taken at the beginning of the conference.

Time will be spent in both a conference room and walking the Roseville Energy Park. We will be conscious of the current weather and take breaks as needed.

Closed toed shoes and pants will be required. Hard hats and safety glasses will be provided during the job walk if needed.

The optional on-site pre-proposal conference and job walk will take place at multiple places. The conference and job walk will start and end at:

Roseville Energy Park
5120 Phillip Road
Roseville, California

Interested firms will have an opportunity to submit questions regarding the requirements outlined in this RFP. While attendance is not mandatory, interested proposers are highly encouraged to attend. In order to make the meeting more effective for all participants, attendees should read this document thoroughly prior to the meeting.

Substantial clarifications or changes required as a result of the meeting will be issued in the form of a written addendum to the RFP. A list of attendees will be distributed upon request.

4.0 SCOPE OF SERVICES

4.1 Responsibilities of the Rescue Contractor

- Develop and present a detailed Confined Space Rescue Plan that complies with all relevant safety regulations, standards, and client-specific requirements.

- Assign and provide appropriately trained and certified rescue personnel to be on-site during confined space entry operations in order to perform rescue operations as needed
- Ensure all rescue personnel have the necessary qualifications, training, certifications, and medical clearances as required by industry standards.
- Conduct thorough pre-entry assessments of confined spaces to identify potential hazards and develop appropriate rescue strategies
- Supply and maintain all required rescue equipment, including but not limited to: harnesses, winches, communication systems, ventilation equipment, gas detectors, lighting, and personal protective equipment (PPE).
- Upon request by the City, provide documentation that demonstrates that all onsite rescue equipment is regularly inspected, tested, and maintained to ensure its functionality and compliance with regulations.
- Establish clear communication channels and protocols between the rescue team, entry personnel, and site management
- Upon request by the City, conduct practice drills and mock rescue scenarios periodically to ensure the competency and readiness of the rescue team
- Maintain accurate documentation of all rescue-related activities, including pre-entry assessments, equipment inspections, and rescue incident reports.
- Provide timely reports to the client detailing the progress, findings, and outcomes of confined space entry and rescue operations

4.2 Responsibilities of the Client

- Provide detailed information about the confined spaces at the worksite, including layouts, potential hazards, and previous risk assessments
- Coordinate with the rescue contractor to schedule confined space entry operations and communicate changes or updates as necessary.
- Ensure all personnel requiring access to confined spaces are properly trained and informed about the rescue procedures and emergency protocols
- Collaborate with the rescue contractor to establish a clear chain of command and communication flow during rescue operations
- Provide necessary permits and access to the worksite for the rescue team to perform their duties effectively
- Promptly address any concerns or issues raised by the rescue contractor related to safety, access, or equipment.

4.3 Deliverables

- A comprehensive Confined Space Rescue Plan that outlines strategies, procedures, and communication protocols.
- Trained and certified rescue personnel on-site during confined space entry operations.
- Well-maintained and functional rescue equipment meeting industry standards.
- Documentation of pre-entry assessments, equipment inspections, and rescue incident reports.
- Regular progress reports detailing the status of confined space entry and rescue operations.

4.4 Multiyear Agreements

The initial contract will be from date of award through five (5) years. The Vendor(s) receiving the contract award for the initial contract will retain that contract award throughout the life of the contract.

The contract will be awarded based on the prices determined through the initial contract negotiation process. The City is willing to re-negotiate pricing (increases and/or decreases) based on market fluctuations. The pricing will be evaluated based on what the City deems to be fair and reasonable pricing. Any requests made by the Vendor for a price increase must be fully documented utilizing an appropriate Consumer or Producer Price Index or other relevant market data to justify a price change. In its request for price increases Vendor shall cite sources, specific conditions, and document how those conditions affect the cost. The City of Roseville is also willing to re-negotiate pricing if it is affected by catastrophic circumstances (example: unforeseen national/world crisis or acts of God).

Price adjustments will not be automatic. They must be mutually agreed upon by both the City and the Vendor. The City will review the proposed pricing and determine if it is allowable, fair, reasonable, and in the best interest of the City to modify the agreement.

5.0 ASSURANCE OF DESIGNATED PROJECT TEAM

Proposer shall assure that the designated project team, including sub-consultants or sub-contractors (if any), is used for this project. Departure or reassignment of, or substitution for, any member of the designated project team, sub-consultant(s) or sub-contractor(s) shall not be made without the prior written approval of the City.

6.0 PROPOSAL FORMAT REQUIREMENTS

Each response to this RFP shall include the information described in this section. Provide the information in the specified order. Failure to include all of the information specified may be cause for rejection. Additional information may be provided, but should be succinct and relevant to the goals of this RFP. Any additional information that a proposing Consultant wishes to include that is not specifically requested should be included in an appendix to the proposal.

Consultants are encouraged to keep the proposals brief and to the point, but sufficiently detailed to allow evaluation of the project approach. Unauthorized conditions, omissions, limitations or provisions attached to a proposal may render the proposal non-responsive and may cause its rejection.

Proposers are warned against making erasures or alterations of any kind, without initialing each and every such change. Proposals that contain erasures or irregularities of any kind, without such initialing, or omissions, may be rejected.

If provided via regular mail, the proposal should be bound or contained in a loose leaf binder. Document pages shall be 8-1/2 inches by 11 inches in size or folded to such a size. Use section dividers, tabbed in accordance with this section as specified below.

6.1 Cover Letter

A Cover Letter must be included with the following information:

- Title of this RFP
- Name and Mailing Address of Firm (include physical location if mailing address is a PO Box)
- Contact Person, Telephone Number, Fax Number, and Email Address

- A statement that the submitting Consultant will perform the services and adhere to the requirements described in this RFP, including any addenda (*reference the addenda by date and/or number*).

6.2 Signature Requirements

The attached Proposer's Certification (**Attachment A)** shall be executed by an official(s) legally authorized to bind the Consultant which states that the proposal is valid for ninety (90) days. Include the executed copy of the Proposer's Certification under Tab G. Note: This is ninety (90) days following the closing date for the receipt of all proposals.

- Proposals submitted on behalf of a Partnership shall be signed in the firm name by a partner or the Attorney-in-Fact. If signed by the Attorney-in-Fact, there shall be attached to the proposal a Power-of-Attorney evidencing authority to sign proposals, dated the same date as the proposal and executed by all partners of the firm.
- Proposals which are submitted on behalf of a Corporation shall have the correct corporate name thereon and the actual signature of the authorized officer of the corporation written (not typed) below the corporate name. The title of the office held by the person signing for the corporation shall appear below the signature of the officer.
- Proposals which are submitted on behalf of a Limited Liability Company ("LLC") shall be signed by the person or persons authorized to bind the LLC under the LLC's articles of organization.
- Proposals which are submitted by an Individual Doing Business under a firm name ("dba") shall be signed in the name of the individual doing business under the proper firm name and style.

6.3 TAB A: Firm's Qualifications

Describe your firm and provide a statement of your firm's qualifications for performing the requested services. Identify the services which would be completed by your firm's staff and those that would be provided by sub-consultants or sub-contractors, if any. Identify any sub-consultants or sub-contractors you propose to utilize to supplement your firm's staff. Include the firm's organizational chart, including its constituent parts, and size variation of staffing levels in the past five (5) years.

6.4 TAB B: Experience and References

Provide a summary of your firm's experience in providing these or similar services. Provide a minimum of three (3) references for projects or services similar in nature and scope that your firm's team members have completed in the last five (5) years. Include brief descriptions of the projects, dates, client names and contact persons' names, addresses and telephone numbers. Public sector references are preferred.

6.5 TAB C: Qualifications of Team

Provide a brief summary of the role, qualifications and experience of each team member and designated project manager/lead assigned to this project, including length of service with the firm and the qualifications/experience of any sub-consultant or sub-contractor staff on your project team. A project team organizational diagram and brief resume of each team member and the designated project manager/lead for each applicable category shall be included. The geographic location of the firm and key personnel shall also be identified. Any proposed sub-consultants or sub-contractors shall be listed. Include sub-consultant's and sub-contractor's assigned task(s) and experience. Full resumes may be included in the appendix.

6.6 TAB D: Project Understanding

Based on the available information, supplemental research, field observations, and experience with similar projects, provide a narrative describing your understanding of the services requested in this RFP, your general approach and any major challenges to achieving the City's stated goals. Include any issues that you believe will require special consideration for this project. Also identify any unique approaches or strengths that your firm may have related to this project. City staff will assess your understanding of all aspects of the project based on the overview.

6.7 TAB E: Project Plan

Provide a detailed discussion of your firm's approach to the successful implementation of this project. Include thorough discussions of methodologies you believe are essential to accomplishing this project. Include a proposed work schedule to accomplish all of the required tasks within the desired timeline. Identify the staff who would be assigned to each task, including sub-consultants and sub-contractors. List any necessary equipment, training or installation services required.

6.8 TAB F: Cost Proposal

Provide a total cost proposal for all products and services to be delivered, and a breakdown of costs delineated by tasks as described in your project plan. Include a schedule of hourly rates for all proposed staff and the amount of time each person will be devoted to this project. Define any reimbursable expenses requested to be paid by the City.

6.9 TAB G: Required Statements/Documents

Include statements of assurance regarding the following requirements in the proposal:

- Non-substitution for the designated members of the team without approval by City staff **(Section 5.0)**
- The absence of a conflict of interest **(Section 10.4)**
- Indicate your ability and agreement to fulfill the indemnification and insurance requirements contained in the sample contract **(Section 10.7)**. (Please note that actual certificates of insurance are not required as part of your submittal.)
- A statement that nothing contained in the submitted proposal will be proprietary. (**Section 10.23**)

Submit the following documents with proposal:

- Proof of registration with California Secretary of State. **Note:** All proposers must be registered with the Secretary of State or have a valid exemption by the time of award.
- Executed copy of Proposer's Certification (**Attachment A**)
- Levine Act Disclosure Statement Form (**Attachment B**)
- Executed copy of Non-collusion Declaration (**Attachment** D)

6.10 TAB H: Exceptions

Describe any and all proposed exceptions, alterations or amendments to the Scope of Services or other requirements of this RFP, including the Sample Contract (**Attachment C**). The nature and scope of your proposed exceptions may negatively affect the evaluation of your submittal and the City's determination of whether it is possible to successfully negotiate a contract with your firm.

6.11 TAB I: Competency of Proposers

The City wants to ensure that the successful Consultants has the necessary facilities, ability, experience, and financial resources to provide the services specified herein in a satisfactory and timely manner. Please list and explain any pending bankruptcies, liens, stop payment notices, judgments, lawsuits, arbitrations, mediations, foreclosures, and any similar actions filed or resolved in the past seven (7) years. Please indicate whether a client has ever terminated a contract with your firm for breach, and if so, please explain.

7.0 SUBMITTAL INSTRUCTIONS

7.1 Your submittal package shall include the following:

- **One (1) original and four (4) printed copies** of your proposal; and
- **One (1) electronic copy** of your proposal in PDF format on CD, flash drive or other electronic media

OR

If submitting your proposal via electronic mail, then send one (1) copy of the proposal to cityclerkroseville@roseville.ca.us. The file size limit is 25 megabytes.

7.2 Proposals shall be submitted not later than the time and date indicated on the cover page of this RFP. If mailing the proposal, then it shall be submitted in a sealed envelope or container and clearly marked with the RFP title on the outside of the parcel. **Complete and attach the "Sealed Proposal" label (Attachment E) to the outside of the envelope or package containing your proposal.**

7.3 If submitting electronically to cityclerkroseville@roseville.ca.us, please keep attachments under 25mb and do not include a compressed file (zip, rar, etc) as these may not be properly delivered. Once the email is sent with the proposal attached, please send an additional email to the same email address with no attachments letting the City Clerk know that the proposal was sent in a separate email. This will allow the City Clerk to confirm if the proposal email with attachments was received or not to help avoid emails and/or attachments being blocked and the City Clerk not knowing they were potentially blocked.

7.4 If submitting electronically, please include "RFP 07-117" at a minimum in all email subject line correspondence.

7.5 Proposals shall be delivered to:

City of Roseville
Attn: City Clerk Department
311 Vernon Street
Roseville, CA 95678

Or electronically mailed to: cityclerkroseville@roseville.ca.us

7.6 The City shall not be responsible for proposals delivered to a person or location other than that specified herein.

7.7 Postmarks will not be accepted and proposals received after the deadline date and time will not be accepted or considered. **No exceptions.**

7.8 The City reserves the right to waive minor defects and/or irregularities in proposals, and shall be the sole judge of the materiality of any such defect or irregularity.

7.9 All costs associated with proposal preparation shall be borne by the proposer.

8.0 EVALUATION CRITERIA

The following evaluation criteria and rating schedule will be used to determine the most highly qualified firm(s).

Evaluation Criteria	**Maximum Points Possible**
A. Experience and qualifications of firm and proposed staff/sub-consultants/sub-contractors (per Sections 6.3 - 6.5)	35
B. Understanding of the Project – Proposed Project Plan (per Section 6.6 – 6.7)	25
C. Proposed Cost (per Section 6.8)	40
Total Possible Points:	**100**

9.0 SELECTION PROCESS

9.1 Award of the RFP shall be made to the responsible proposer whose proposal is determined, through a formal evaluation panel process, to be the most advantageous to the City after the evaluation panel has taken into consideration the evaluation factors set forth in the RFP. A master averaged score sheet shall be created based on the evaluation panel's initial evaluation. Proposals shall be scored according to the criteria stated in the RFP.

9.2 Proposals submitted will be reviewed by a selection committee. Consultants that have submitted the best and most complete proposals may be invited to an interview. The number of Consultants invited to an interview may vary depending upon the number of proposals submitted.

9.3 Should the City elect to conduct interviews with any proposers, the following criteria shall be considered and each proposer ranked by the evaluation panel during the interview process: a) Quality of presentation, b) Ability to meet the City's business goals, c) Communication style.

9.4 The City reserves the right to make a selection after review of the proposals without oral interviews; therefore, the proposal should be submitted initially on the most favorable terms that the Consultant might propose.

9.5 A contract will be negotiated with the Consultant considered best meeting the City's need for this project. In the event a mutually satisfactory contract cannot be negotiated with the City's first choice, negotiations may be terminated and commenced with the Consultant considered next best in meeting the City's needs for this particular project.

9.6 The selected Consultant will be required to execute a City prepared contract. The contract may further refine the scope of services and will provide for the terms and conditions of employment.

9.7 The award of any contract is expressly contingent upon City Council approval and the availability of funds. City staff may not legally bind the City to a contract.

9.8 The City reserves the right to reject any or all proposals, or to waive minor irregularities in said proposals, or to negotiate minor deviations with the successful Consultant(s). In the case of differences between written words and figures in a proposal, the amount stated in written words shall govern. In the case of a difference in unit price versus the extended figure, the unit price shall govern.

9.9 The City reserves the right to seek clarification on any or all proposal submittals to ensure the RFP specifications are met. Proposals may be rejected from any proposer who does not comply with the City's request for clarification.

9.10 Once a decision has been made to award the contract, then a formal notice of the intent to award to the recommended proposer(s) shall be made by the Department.

9.11 A City of Roseville business license as well as all applicable permits, licenses and certifications required by local, state or federal law are required before the award of contract.

10.0 GENERAL TERMS & CONDITIONS

10.1 Standard Contract

Upon completion of the evaluation and recommendation for award, the selected Consultant will be required to execute an agreement prepared by the City, a sample of which is included as **Attachment C**.

10.2 Independent Contractor

At all times the Consultant shall represent himself/herself to be an independent contractor offering such services to the general public and shall not represent himself/herself, or his/her employees, to be an employee of the City. Therefore, the Consultant shall assume all legal and financial responsibility for taxes, FICA, employee fringe benefits, workers' compensation, employee insurance, minimum wage requirements, overtime, etc., and agrees to indemnify, save, and hold the City, its officers, agents, and employees, harmless from and against, any and all loss, cost (including attorneys' fees), and damage of any kind related to such matters.

10.3 Non-Appropriation

The City may terminate any resulting contract at the end of any fiscal year, June 30th, without further liability other than payment of debt incurred during such fiscal year, should funds not be appropriated by its governing body to continue services for which the contract was intended.

10.4 Conflict of Interest

The Consultant shall warrant that no official or employee of the City has an interest, has been employed or retained to solicit or aid in the procuring of the resulting contract, nor that any such person will be employed in the performance of such contract without immediate divulgence of such fact to the City. Consultants submitting a proposal in response to this RFP must disclose any actual, apparent, direct, indirect, or potential conflicts of interest that may exist with respect to the Consultant or the Consultant's management or employees relative to the services to be provided to the City. Conflict of interest issues may require consultation with legal counsel. If a Consultant has no conflicts of interest, a statement to that effect must be included in the proposal. Violation of this section shall be a material breach of the contract entitling the City to any and all remedies by law or in equity.

10.5 Undue Influence

The Consultant shall warrant via an executed Proposer's Certification (**Attachment A**) that no undue influence or pressure is used against or in concert with any officer or employee of the City in connection with the award or terms of the contract that will be executed as a result of this RFP, including any method of coercion, confidential financial arrangement or financial inducement. No officer or employee of the City shall receive compensation, directly or indirectly, from the Consultant, or from any officer, employee or agent of the Consultant, in connection with the award of the contract or any work to be conducted as a result of this RFP. Violation of this section shall be a material breach of the contract entitling the City to any and all remedies by law or in equity.

10.6 Non-Collusion

Consultant submitting proposals shall warrant via an executed Proposer's Certification (**Attachment A)** that their offer is made without any previous understanding, agreement or connection with any person, firm or corporation submitting a separate proposal for the same project and is in all respects fair, without outside control, collusion, fraud or otherwise illegal action. This condition shall not apply to proposals which are submitted by firms who have partnered with others to submit a cooperative proposal that clearly identifies a primary consultant and the associated sub-consultants or sub-contractors. Proposers shall also submit a properly completed and executed "Non-collusion Declaration" which is attached as **Attachment D**. Additionally, the Contractor shall provide a completed Levine Act Disclosure Statement Form (**Attachment B**). A party to a proceeding before an agency involving a license, permit, or other entitlement for use, including contracts not competitively bid and awarded to the lowest responsible bidder with a responsive bid shall disclose on the record of the proceeding any contribution in an amount of more than two hundred fifty dollars ($250) made within the preceding 12 months by the party or the party's agent to a City official/campaign. (Gov. Code, § 84308.) For additional information: https://www.roseville.ca.us/government/departments/city_clerk/transparency/levine_act.

10.7 Indemnification & Insurance Requirements

The City's standard indemnification and insurance requirements are provided in the sample contract, included in **Attachment C**. All costs of complying with the insurance requirements shall be as included in your pricing. The selected Consultant shall provide complete and valid insurance certificates within ten (10) days of the City's written request. Failure to provide the documents within the time stated may result in rejection of the Consultant's proposal. If a proposer takes exception to the indemnification and insurance requirements, then the nature and scope of the proposed exceptions may negatively affect the evaluation of that proposer's

submittal and the City's determination of whether it is possible to successfully negotiate a contract with that firm. Submitting exceptions are at the proposer's own risk.

10.8 Cost of Preparing Proposal

The City will not pay any costs incurred by any Consultant in preparing or submitting a proposal in response to this RFP.

10.9 Proposals Property of the City

All documents or materials submitted with or in conjunction with any proposal, including but not limited to electronic files, shall become the property of the City after the proposal submission deadline. No submission documents will be returned. During negotiations, the scope of services may be amended by the City and negotiated based upon ideas provided by other proposers or any other source.

10.10 Proposals are Public Records

All proposals submitted are subject to the public disclosure requirements under the laws of the State of California, unless the City identifies and exercises a right or obligation to exempt any record from public disclosure. However, proposals will not be disclosed until negotiations are complete and a recommendation for selection and award is made.

10.11 Protests

(a) Protest Requirements

(1) Any proposer who is aggrieved in connection with the solicitation or award of a contract may file a protest with the City Clerk's office. The protest must be received in writing by the City Clerk's office within seven (7) calendar days after such aggrieved proposer 1) knows or should have known of the facts giving rise thereto or 2) the date of the notice of intent to award, whichever is sooner. In no event shall a protest be allowed after an award has been made by City Council. If the seventh calendar day falls on a weekend or City holiday, the protesting party may submit the protest prior to close of business on the first business day following such weekend or holiday. Failure to submit a timely protest shall bar consideration of a protest.

(b) Grounds for Protest

(1) The alleged grounds for protest shall be limited to the following: (a) computation errors, (b) violations of local, state, or federal law, or (c) the City failed to follow the procedures specified in this Policy.
(2) The protest shall state all grounds claimed for the protest and include supporting documentation. Failure to clearly state the grounds for the protest and provide supporting documentation shall be deemed a waiver of all protest rights.

(c) Administrative Review

Upon receipt of the protest and after determining the protest was properly filed, the Department Director shall provide a copy of the protest to other proposers who might become aggrieved as a result of the protest and issue a written decision within fourteen (14) calendar days after receipt of the protest. The protest will be evaluated by the Department Director, the City Attorney's Office, and the Purchasing Manager. The protesting proposer shall promptly provide any information requested by City staff as part of such investigation.

The decision shall either deny or uphold the protest and include reasons for the decision. The written decision shall be final.

(d) Stay of Action During a Protest

In the event a protest is filed under Section 10.11, the City shall not proceed further with the award of the contract until the protest is resolved, unless:

(1) The City Manager or designee makes a determination that the award of the contract without delay is necessary to protect a substantial interest of the City, or
(2) The City decides to reject all proposals and issue a new RFP.

10.12 Rejection of RFP

The City reserves the right to reject any or all proposals, to waive defects or irregularities in any proposal or in the RFP process, and to offer to negotiate or contract with any Consultant in response to any RFP. This RFP does not constitute any form of offer to contract.

10.13 Multiple Awards

The City reserves the right to award the contract to multiple contractors when applicable.

10.14 Increasing/Decreasing Portions of RFP

The City reserves the right to increase or decrease the amount of any portions of the work represented in the RFP and/or to omit portions of said work, as may be deemed necessary by the City.

10.15 Rejection as Non-Responsive

Proposals may be rejected as non-responsive at the City's sole discretion if there are alterations of form, the proposal is conditional or the proposal is incomplete.

10.16 Modifying RFP

The City reserves the right to modify any portion of, or to postpone or cancel this RFP at any time, and/or reject any and all submissions without indicating any reason.

10.17 If no proposal is accepted:

The City may elect to have the services performed in some other manner.

10.18 Rejecting Team Members, Firms or Sub-consultants

The City reserves the right to reject individual team members, firms, sub-consultants or sub-contractors and request substitution prior to contract award.

10.19 Local Business, Small Business, Minority and Women Owned Business

Although no preferences will be given, the City highly encourages submission of proposals by local businesses, by small business owners, and by minority and women-owned businesses

10.20 Withdrawal of Proposals

Proposals may be withdrawn prior to the date and time specified for proposal submission with a formal written notice by an authorized representative of the proposer delivered to the City Clerk's Office. Proposals submitted will become property of the City after the proposal submission deadline.

Proposals may not be withdrawn for ninety (90) days after the due date unless the City enters into a contract with another Consultant prior to the expiration of that ninety (90) day period.

10.21 Prohibited Transmittals

No telephone or facsimile proposals will be accepted. If a photocopy is submitted, the proposal must be signed in ink.

10.22 Proposal Postponement and Amendment

The City reserves the right to revise or amend the RFP or specifications up to the time set for opening of the proposals. Such revisions and amendments, if any, shall be announced by amendments to this RFP through the City's web site. Copies of such amendments shall be furnished to all prospective proposers. Prospective proposers are defined as those proposers who have registered and are on the City's RFP list for this service. If revisions and amendments require changes in quantities, prices or scope of services, the date set for opening of the proposals may be postponed by such number of days as in the opinion of the City shall enable proposers to revise their proposals. Proposals which fail to acknowledge a substantive addendum to the RFP, as determined by the City Attorney's Office, on the City supplied addendum form will be rejected as non-responsive. Any revisions or amendments to the RFP will become incorporated into any contract awarded pursuant to the RFP.

10.23 Proprietary Information

Proposers submitting a proposal in response to this RFP must provide a statement that nothing contained in the submitted proposal will be proprietary. However, if a proposer desires to claim a privilege against public disclosure for a trade secret or other proprietary information, such information must be submitted with the proposal in a separate envelope marked "confidential." The City Attorney's Office will determine if the information is in fact proprietary, based on state and federal law. Note that under California law, a price proposal to a public agency is not a trade secret. The Consultant shall defend, indemnify and hold harmless the City regarding any claim by any third party for the public disclosure of the "confidential" portion of the proposal.

10.24 Right to Request Additional Information

During the evaluation process, the City reserves the right, where it may serve the best interests of the City, to request additional information and clarifications from proposers. Such information will be requested in writing to the specific proposer. This information will become a part of the original proposal submitted by the specific proposer and will be used by the City in evaluating the proposal and will not be shared with other proposers during the evaluation and negotiation process.

10.25 Modification of Proposals

Modification of a proposal already received will be considered only if the modification is received prior to the deadline date for receiving proposals. All modifications shall be made in writing, executed, and submitted in the same form and manner as the original proposal.

10.26 Examination of Contract Documents

Each proposer shall thoroughly examine and be familiar with the terms of this RFP, the sample contract attached as **Attachment C**, legal and procedural documents, general conditions, specifications, and addenda (if any), which will constitute the contract documents. Submission of a proposal shall constitute acknowledgement, upon which the City may rely, that the proposer

has thoroughly examined and is familiar with the contract documents. Failure or neglect of a proposer to receive or examine any of the contract documents shall in no way relieve the proposer of any obligation with respect to their proposal or to the contract. No claim for additional compensation will be allowed which is based upon lack of knowledge of any contract document.

10.27 Non-Discrimination

The City maintains various policies related to contractual service providers. Among these is an anti-discrimination policy, which requires that the City's contractors not discriminate in hiring on the basis of gender, race, religion, sexual orientation, medical condition, and all other categories protected by law. Upon acceptance of a proposal, the City may request that the selected Consultant sign a statement affirming its compliance with this policy.

10.28 No Assignment or Modifications

This awarded contract is to be binding on the successors and assigns of the parties hereto. The services called for herein are deemed unique and except as provided herein Consultant shall not assign, transfer, subcontract, or otherwise substitute its interest in the agreement or any of its obligations herein without the written consent of the City. The Agreement may be modified only by a written amendment signed by the parties.

10.29 Bankruptcy

Upon filing for any bankruptcy or insolvency proceeding whether voluntary or involuntary, or upon the appointment of a receiver, trustee, or assignee for the benefit of creditors, the Consultant must notify the City immediately. Upon learning the actions herein identified, the City reserves the right, at its sole discretion, to cancel the contract.

10.30 Debarment

Consultant certifies that Consultant, its employees, directors, officers, agents, subcontractors, vendors, consultants, and volunteers are not presently debarred, excluded, suspended, declared ineligible, voluntarily excluded, or proposed for debarment, exclusion, suspension or ineligibility by any federal, state, or local department or agency.

Attachment A

PROPOSER'S CERTIFICATION

I hereby propose to furnish the goods or services specified in the Request for Proposals ("RFP"). I agree that my proposal will remain firm for a period of up to ninety (90) days in order to allow the City of Roseville ("City") adequate time to evaluate the qualifications submitted.

I have carefully examined the Request for Proposals and any other documents accompanying or made a part of this RFP. The information contained in this proposal is true and correct to the best of my knowledge and is signed under penalty of perjury under the laws of the State of California. I further certify that I am duly authorized to submit this proposal on behalf of the firm as its authorized agent and that the firm is ready, willing and able to perform if awarded the contract.

I further certify that this proposal is made without prior understanding, agreement, connection, discussion, or conspiracy with any other person, firm or corporation submitting a proposal for the same product or service; that this proposal is fair and made without outside control, collusion, fraud or illegal action; that no officer, employee or agent of the City or any other proposer is financially interested in said proposal; that no undue influence or pressure was used against or in concert with any officer, employee or agent of the City in connection with the award or terms of the contract that will be executed as a result of this RFP; and that the undersigned executed this Proposer's Certification with full knowledge and understanding of the matters therein contained and was duly authorized to do so.

LEVINE ACT DISCLOSURE STATEMENT

(The completed form submitted to the City of Roseville is a public record.)

California Government Code Section 84308, commonly referred to as the "Levine Act," prohibits any "Officer" (elected or appointed officer, any alternate thereto, and any candidate for elective office) from participating in any consideration or action related to a proceeding if they receive political contribution(s) from a party, or its agent(s), totaling more than $250 within the previous twelve (12) months, while a proceeding is pending, and for twelve (12) months following the date of a final decision in a proceeding concerning a license, permit, other entitlement for use, franchise, or contract (collectively "license, permit, or contract"). For additional information: https://www.roseville.ca.us/government/departments/city_clerk/transparency/levine_act.

City Officers are listed at the following sites:

- The Members of City Council - https://www.roseville.ca.us/government/city_council/meet_council
- Boards & Commission Members - https://www.roseville.ca.us/government/boards_commissions

Parties and their Agents are responsible for reviewing and disclosing their applicable contributions to City Officers on the record of a proceeding.

1. Have you or your entity, or any agent on behalf of you or your entity, made any political contribution(s) totaling more than $250 to any City Officer in the twelve (12) months preceding the date of the submission of your license, permit, or contract, or the anticipated date of any City Council, Board, or Commission consideration or action related to this license, permit, or contract?

YES _____ NO _____

If yes, please identify the City Officer(s):_____

2. Do you or your entity, or any agent on behalf of you or your entity, anticipate or plan to make any political contribution(s) totaling more than $250 to any City Officer in the twelve (12) months following any City Council, Board, or Commission consideration or action related to this license, permit, or contract?

YES _____ NO _____

If yes, please identify the City Officer(s):_____

Answering yes to either of the two questions above does not preclude the City of Roseville from considering and/or taking action on a license, permit, or contract. It does, however, potentially preclude the identified City Officers from participating in consideration of and in taking any actions related to the license, permit, or contract. Please accurately complete and sign this form, under the penalty of perjury:

_____	_____	_____
(Date)	(Printed Name/Title of Authorized Representative)	(Name of business/legal entity)

_____

(Signature)

You must submit a supplemental form if you make any new reportable contribution(s) while the contract, license, permit, or other entitlement is being considered. If this form has not previously been submitted in connection with a contracting, licensing, entitlement or permitting process, please provide the completed form to the Office of the City Clerk for appropriate departmental routing, at: City Clerk, 311 Vernon St., Roseville, CA 95678, CityClerkRoseville@roseville.ca.us

LEVINE ACT DISCLOSURE STATEMENT

(The completed form submitted to the City of Roseville is a public record.)

Term	Definition	Law
Covered "proceedings"	A proceeding to grant, deny, revoke, restrict, or modify a license, permit or other entitlement for use, that does not solely involve purely ministerial decisions and is: (1) Applied for by the party; (2) Formally or informally requested by the party; or (3) A contract between the agency and the party or a franchisee granted by the agency to the party, other than a contract that is **competitively bid**, a **labor contract**, or a **personal employment contract**.	FPPC Reg 18438.2(a)
Party	Any person who files an application for, or is the subject of, a proceeding involving a license, permit, or other entitlement for use.	Gov. Code 84308(a)(1)
Participant	Any person who is not a party but who actively supports or opposes a particular decision in a proceeding involving a license, permit, or other entitlement for use and who has a financial interest in the decision. A person actively supports or opposes a particular decision in a proceeding if that person lobbies in person the officers or employees of the agency, testifies in person before the agency, or otherwise acts to influence officers of the agency.	Gov. Code 84308(a)(2) FPPC Reg 18438.4
Agent	A person who represents a party or participant for compensation and appears before or otherwise communicates with the governmental agency for the purpose of influencing the pending proceeding. See FPPC Reg 18438.3 for exceptions for certain consultants.	FPPC Reg 18438.3
Competitively Bid	A contract required by law to be awarded to the lowest responsible bidder with a responsive bid, or, if the successful bidder refuses or fails to execute the contract, to the next lowest bidder with a responsive bid.	FPPC Reg 18438.2(a)(3)(A)
Labor Contract	A contract or agreement reached through collective bargaining or with a representative group regarding the salary, benefits, or terms and conditions under an employment or retirement policy for employees or retirees, including a project labor agreement entered under Public Contract Code Section 2500.	FPPC Reg 18438.2(a)(3)(B)
Personal Employment Contract	A contract for employment, including the terms and conditions of employment, between the agency and an agency employee. A contract with an independent contractor is NOT a personal employment contract.	FPPC Reg 18438.2(a)(3)(C)-(D)

A **party** to a proceeding before an agency involving a license, permit, or other entitlement for use **shall disclose on the record of the proceeding** any contribution in an amount of more than two hundred fifty dollars ($250) made within the preceding 12 months by the party or the party's agent.

A **party**, **or agent to a party**, to a proceeding involving a license, permit, or other entitlement for use pending before any agency or a participant, or agent to a participant, in the proceeding **shall not make a contribution** of more than two hundred fifty dollars ($250) to any officer of that agency during the proceeding and for 12 months following the date a final decision is rendered by the agency in the proceeding.

(Gov. Code, § 84308, emphasis added.)

NONCOLLUSION DECLARATION TO BE EXECUTED BY BIDDER AND SUBMITTED WITH BID

The undersigned declares:

I am the _____ of _____, the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The bidder has not directly or indirectly induced or solicited any other bidder to put in a false or sham bid. The bidder has not directly or indirectly colluded, conspired, connived, or agreed with any bidder or anyone else to put in a sham bid, or to refrain from bidding. The bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the bidder or any other bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other bidder. All statements contained in the bid are true. The bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, bid depository, or to any member or agent thereof, to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the bidder.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on _____ [date], at _____ [city], _____ [state].

TAB C : Qualifications of Team

Rescue Team Coordinator - DESIGNATED PROJECT MANAGER
Derrik Palomo - EMT/Rescue Technician

- Derrik has been with PSR since March of 2020. He is licensed EMT and a former Fire Fighter for Kern County Fire. Derrik is a certified Rescue Technician, Instructor, EMT, and is responsible for the coordination for rescue teams, rescue training and works as a customer liaison for the EMS and Rescue Divisions. Derrik has vast experience in rescue services for power generation plants, refineries, manufacturing and construction industries.

Director of Operations
Jessie Pierce, CHST, OHC

- As a Founder of Pro Safety & Rescue, Jessie has led the company to become what it is today, the pinnacle of our industry. With a background in Industrial Construction and Oil & Gas, his leadership approach is embodied by our core values : Integrity and Servant-Leadership.

Safety Training Coordinator
Cristhian Cruz

- Cristhian Cruz has been with PSR since 2025. He oversees PSR's safety training and verification and validation programs (V&V). He has a extensive background in safety, serving in the Construction, and Oil & Gas industries.

EMS Coordinator
Christopher Fain

- Christopher has worked his way through the ranks of our organization since 2019. Initially hired as an EMT serving the community through our ambulance service, he quickly revealed himself to be a leader. He now manages drug testing, compliance testing, and supplements Cristhian in our safety training.

Customer Relations
Zachari Pierce

- Zachari Pierce has been with PSR since 2018 and is a certified Confined Space Rescue Technician and Rope Rescue Technician. He brings extensive experience in rescue operations, on-site safety, and breathing air and gas detection systems. Zachari oversees Business Development and serves as a liaison for key clients, leading After Action Reports for major outages to drive performance and client satisfaction.

TAB D : Project Understanding

City of Roseville Experience…

Pro Safety & Rescue has been providing Confined Space Rescue Services to the City of Roseville in partnership with Performance Mechanical, Inc. since August 2020.

Our team has partnered with facility leadership teams in Roseville, gaining intimate knowledge of how the plants are laid out and how they operate. We understand the confined space needs of the City of Roseville and its contractors, and we will work closely with the City of Roseville leadership team to meet their expectations. It has been our privilege to serve the City of Roseville.

Pro Safety & Rescue has a clear understanding of the city's requirements. We will assign a team leader who will serve as a single point of contact to cater to all of the city's confined space rescue needs as outlined in the RFP.

TAB E : Project Plan

Project Plan

Our company is dedicated to providing exceptional customer service and we understand the importance of meeting the high standards demanded by the City of Roseville. To ensure a seamless customer service experience across the multiple facilities, we employ several key strategies including 24/7 availability and digital scheduling software.

We understand the importance of being accessible at any time, regardless if it's day or night. Our customer service operations run 24/7, allowing the City of Roseville various facilities to reach out for assistance at their convenience.

We have employed robust performance measurement mechanisms and data-driven analysis to track key metrics and identify areas for improvement. Through continuous evaluation and feedback, we have consistently optimized processes, streamlined operations, and enhanced overall performance to achieve the desired outcomes in our schedule and deployment of Technical Rescue Teams.

Below is an example of the software used to schedule qualified rescue technicians, assign equipment and dispatch rescue crews to projects for the City of Roseville and other customers.

PROPOSER'S CERTIFICATION

I hereby propose to furnish the goods or services specified in the Request for Proposals ("RFP"). I agree that my proposal will remain firm for a period of up to ninety (90) days in order to allow the City of Roseville ("City") adequate time to evaluate the qualifications submitted.

I have carefully examined the Request for Proposals and any other documents accompanying or made a part of this RFP. The information contained in this proposal is true and correct to the best of my knowledge and is signed under penalty of perjury under the laws of the State of California. I further certify that I am duly authorized to submit this proposal on behalf of the firm as its authorized agent and that the firm is ready, willing and able to perform if awarded the contract.

I further certify that this proposal is made without prior understanding, agreement, connection, discussion, or conspiracy with any other person, firm or corporation submitting a proposal for the same product or service; that this proposal is fair and made without outside control, collusion, fraud or illegal action; that no officer, employee or agent of the City or any other proposer is financially interested in said proposal; that no undue influence or pressure was used against or in concert with any officer, employee or agent of the City in connection with the award or terms of the contract that will be executed as a result of this RFP; and that the undersigned executed this Proposer's Certification with full knowledge and understanding of the matters therein contained and was duly authorized to do so.

LEVINE ACT DISCLOSURE STATEMENT

(The completed form submitted to the City of Roseville is a public record.)

California Government Code Section 84308, commonly referred to as the "Levine Act," prohibits any "Officer" (elected or appointed officer, any alternate thereto, and any candidate for elective office) from participating in any consideration or action related to a proceeding if they receive political contribution(s) from a party, or its agent(s), totaling more than $250 within the previous twelve (12) months, while a proceeding is pending, and for twelve (12) months following the date of a final decision in a proceeding concerning a license, permit, other entitlement for use, franchise, or contract (collectively "license, permit, or contract"). For additional information: https://www.roseville.ca.us/government/departments/city_clerk/transparency/levine_act.

City Officers are listed at the following sites:

- The Members of City Council - https://www.roseville.ca.us/government/city_council/meet_council
- Boards & Commission Members - https://www.roseville.ca.us/government/boards_commissions

Parties and their Agents are responsible for reviewing and disclosing their applicable contributions to City Officers on the record of a proceeding.

1. Have you or your entity, or any agent on behalf of you or your entity, made any political contribution(s) totaling more than $250 to any City Officer in the twelve (12) months preceding the date of the submission of your license, permit, or contract, or the anticipated date of any City Council, Board, or Commission consideration or action related to this license, permit, or contract?

YES _____ NO X

If yes, please identify the City Officer(s):_____

2. Do you or your entity, or any agent on behalf of you or your entity, anticipate or plan to make any political contribution(s) totaling more than $250 to any City Officer in the twelve (12) months following any City Council, Board, or Commission consideration or action related to this license, permit, or contract?

YES _____ NO X

If yes, please identify the City Officer(s):_____

Answering yes to either of the two questions above does not preclude the City of Roseville from considering and/or taking action on a license, permit, or contract. It does, however, potentially preclude the identified City Officers from participating in consideration of and in taking any actions related to the license, permit, or contract. Please accurately complete and sign this form, under the penalty of perjury:

2/18/26	Jessie Pierce, Vice President	Pro Safety & Rescue, Inc.
(Date)	(Printed Name/Title of Authorized Representative)	(Name of business/legal entity)

(Signature)

You must submit a supplemental form if you make any new reportable contribution(s) while the contract, license, permit, or other entitlement is being considered. If this form has not previously been submitted in connection with a contracting, licensing, entitlement or permitting process, please provide the completed form to the Office of the City Clerk for appropriate departmental routing, at: City Clerk, 311 Vernon St., Roseville, CA 95678, CityClerkRoseville@roseville.ca.us

NONCOLLUSION DECLARATION TO BE EXECUTED BY BIDDER AND SUBMITTED WITH BID

The undersigned declares:

I am the Vice President of Pro Safety & Rescue, Inc., the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The bidder has not directly or indirectly induced or solicited any other bidder to put in a false or sham bid. The bidder has not directly or indirectly colluded, conspired, connived, or agreed with any bidder or anyone else to put in a sham bid, or to refrain from bidding. The bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the bidder or any other bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other bidder. All statements contained in the bid are true. The bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, bid depository, or to any member or agent thereof, to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the bidder.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on 2/18/2026 [date], at Bakersfield [city], California [state].

SUBCONTRACTOR LIST

If subcontractors will not be used, proposer must write "NONE". For construction contracts, in accordance with the Public Contract Code, Part 1, Chapter 4, Subletting and Subcontracting, Contractors must list the name and business address of each subcontractor who will perform work or labor or render service to the prime contractor in or about the construction of the work or improvement, or who will specially fabricate and install a portion of the work or improvement according to detailed drawings contained in the plans and specifications, in an amount in excess of one-half of one percent (0.5%) of the prime contractor's total bid, or in the case of bids or offers for the construction of streets and highways, including bridges, in excess of one-half of one percent (0.5%) of the prime contractor's total bid or ten thousand dollars ($10,000) whichever is greater.

No Subcontractors will be utilized.

Subject: Proposal for Confined Space Rescue Services

To whom it may concern,

We at the Hazardous Materials Institute (HMI) are excited to submit our proposal for the Confined Space Rescue Services for the City of Roseville. With a sense of pride and a deep understanding of the community we aim to serve, we present a team whose roots in emergency response are indelibly intertwined with the city's own fabric.

Our CEO and Confined Space Specialist, Rich Harlan, along with the entire team of dedicated specialists – Kent Freeman, Joe Tuoto, Dean Morra, Scott Parrett and Rich Sisk – are all seasoned veterans of the Roseville Fire Department. Together, we have not only served but also shaped the emergency response framework within Roseville, accruing a wealth of local knowledge and operational expertise. Our combined tenure at the Roseville Fire Department underscores a track record of commitment and excellence that we now bring to HMI.

At HMI, we understand the gravity of confined space rescue and the intricate demands such operations entail. Our proposal is meticulously crafted to meet the detailed requirements set forth in your Scope of Work, ensuring that every aspect of our service – from pre-entry assessments to the provision of expert on-site personnel and the maintenance of critical rescue equipment – is delivered with precision and in full compliance with industry standards.

We have been a part of the city's successes and have worked through its challenges, equipping us with a nuanced perspective that goes beyond technical expertise. Our approach is founded on familiarity, fortified by experience, and focused on the safety and well-being of Roseville's residents and workforce.

By partnering with HMI, the City of Roseville will benefit from the following:

- **Expertise in Specialized Rescue Services:** With extensive experience in providing high and low angle rescue services, our certified personnel possess the skills and training required to tackle intricate rescue scenarios. Their proficiency guarantees a swift and secure response to any emergency, ensuring your staff's safety remains in capable hands.

- **Dedication to Safety and Compliance:** Safety is our top priority at HMI. We are unwavering in our dedication to adhere to all relevant regulations, including CAL/OSHA standards, ensuring maximum safety for both our team and yours. Our thorough understanding of confined space entry requirements ensures meticulous procedure adherence, thereby reducing risks and potential liabilities.

- **Customized Rescue Plan Development:** At HMI, we understand that each confined space presents unique challenges. Leveraging our extensive experience in emergency response, we will develop a Confined Space Rescue Plan that is not just compliant with safety regulations but also tailored to the specific characteristics and risks of each site. This plan will include detailed procedures for various rescue scenarios, ensuring that our team is prepared for any eventuality.

- **Comprehensive Hazard Assessment and Strategy Formulation:** Before any confined space entry, our team will conduct comprehensive hazard assessments. These assessments will draw upon the practical insights we gained in the field, ensuring a meticulous evaluation of potential risks. Based on these assessments, we will formulate strategies that are not only effective in ensuring safety but also efficient in execution, ensuring that rescue operations are both swift and secure.

- **Full Compliance with Equipment Standards:** The safety of our equipment is as crucial as the skill of our personnel. We will supply, maintain, and regularly inspect all required rescue equipment, such as harnesses, winches, and gas detectors. Our commitment to meeting and exceeding industry standards is a promise to ensure that every piece of equipment functions reliably in critical moments.

- **Effective Communication and Drill Protocols:** Effective communication and regular drills are essential for a successful rescue operation. Drawing from our experience in coordinating complex rescue efforts, we will establish clear communication channels and protocols. Additionally, conducting regular practice drills will ensure that our team's response is not just theoretically sound but also practically proficient.

- **Detailed Reporting and Documentation:** Transparency and accountability are cornerstones of our service. HMI will maintain detailed documentation of all activities related to confined space rescue. This includes pre-entry assessments, equipment inspections, and incident reports. Regular and timely reporting to our clients will not just keep them informed but also involved in the continuous improvement of safety protocols.

We look forward to the possibility of collaborating once more with the City of Roseville, this time through the Hazardous Materials Institute, to continue our tradition of excellence in emergency services. Please find attached our comprehensive proposal, which details our tailored approach to meeting your confined space rescue needs.

Thank you for considering our proposal. We are eager to discuss how our unique background and professional capabilities align with the City of Roseville's objectives. We are available at your convenience to schedule a meeting for a deeper conversation about our shared goals.

Kind regards,

Rich Harlan

Founder & CEO
Hazardous Materials Institute (HMI)

Phone : 916-203-9508

Preamble

This proposal has been meticulously structured in strict accordance with the guidelines provided in Section 6 of the RFP. Every essential aspect and detail, as outlined in the requirements, has been thoughtfully addressed and incorporated into this submission. Our approach aims to provide a clear and comprehensive response that aligns precisely with the outlined expectations.

Confidentiality statement

This proposal contains confidential material that is proprietary to Hazardous Materials Institute. The materials, ideas and concepts contained herein are to be used exclusively to evaluate the capabilities of Hazardous Materials Institute to provide a proposal for the City of Roseville. The information and ideas herein may not be disclosed to anyone outside of the City of Roseville to be used for purposes other than the evaluation of the capabilities of Hazardous Materials Institute and its subcontractors. Hazardous Materials Institute believes the information in this document is accurate as of its publication date.

A. Firm's Qualifications

1. Hazardous Materials Institute (HMI)

Hazardous Materials Institute was established as a LLC at 799 Deerbrooke Trl, Auburn, California 95603 with the expectation of rapid expansion in the safety training for industrial workers and first responders' industry.

The Company was formed on 05/01/2021 as an LLC California state laws and headed by Richard Harlan.

Rich is a retired Roseville Fire Battalion Chief passionate about training and technical rescue. Rich served on Roseville special operations team his entire career.

Rich started HMI in 2021 and led the company to where it is today—providing confined space rescue standbys/consulting and safety training to industrial workers and first responders. Rich is also a Fire/Safety professor for Sierra College and Yuba College.

2. Business Mission

At HMI, we believe that customer service is the key to our success. We understand that providing exceptional service is not only good for our customers, but it's also good for our business. Our customers are our top priority, and we're committed to delivering the best possible experience to everyone we work with. We believe that our commitment to customer service is one of the things that sets us apart from other training providers.

Our approach to customer service is simple: we listen to our customers, understand their needs, and work with them to provide the best possible service. We understand that training can be challenging, especially in high-risk situations, which is why we offer a wide range of courses designed to meet the needs of every customer. Whether you're a first responder, an industrial technician, or an organization in need of specialized safety training, we have the expertise and resources to help you succeed.

3. Certifications:

As of today, HMI possesses the following certifications:

- State Fire Marshals certified confined space rescue technician.
- State Fire Marshal Instructors
- California Specialized Training Institute
- Paramedic
- Hazmat specialist
- OSHA 10, 30 certified/instructor CPR

We specialize confined space rescue technician training and standbys and consulting. Safety training for construction workers and first responders. The Company currently employs 3 full-time employees and 32 part-time employees.

4. Qualification Statement

HMI is uniquely qualified to perform the requested services, having a proven track record of success in similar projects. Our team comprises highly trained and certified professionals, each possessing extensive knowledge and expertise in confined space rescue operations. We are well-versed in adhering to safety regulations and standards, ensuring that all operations are conducted with utmost precision and care.

- All services outlined in the RFP will be completed by our firm's in-house staff. This includes:
- Developing and presenting a detailed Confined Space Rescue Plan.
- Providing appropriately trained and certified rescue personnel for on-site operations.
- Conducting thorough pre-entry assessments and developing rescue strategies.
- Supplying and maintaining all necessary rescue equipment.
- Establishing clear communication channels and protocols.
- Maintaining accurate documentation and providing timely reports.

We do not propose to utilize any sub-consultants or sub-contractors for this project. Our firm is fully equipped and capable of executing all aspects of the project with our current resources and staff.

5. Organizational Chart

Our organizational framework is underpinned by a team whose expertise is deeply rooted in the City of Roseville itself. **Rich Harlan**, our CEO & Confined Space Specialist, leads with over three decades of emergency response proficiency, notably recognized through awards for his exceptional service to the Roseville Fire Department. His stewardship in the department, combined with his entrepreneurial spirit, has been instrumental in shaping the high standards of safety training at our institute.

Alongside Rich, **Kent Freeman**, **Joe Tuoto**, and **Rich Sisk** round out our team of Confined Space Specialists, each having honed their skills within the same department that protects and serves the Roseville community.

This collective experience within the local fire service translates to an unparalleled understanding of the city's unique operational landscape and its specific emergency response needs. Our team's comprehensive familiarity with Roseville's protocols, infrastructure, and personnel ensures an insider's approach to confined space rescue, fostering a synergy with city operations that only a shared history can provide.

B. Experience and References

We take pride in our work, and we believe that our satisfied customers are the best evidence of our commitment to quality and excellence.
We have worked with businesses of all sizes, and we have a proven track record of delivering effective safety and emergency response solutions. Our customer references attest to our professionalism, expertise, and ability to deliver top-notch services, and we are always grateful for their support and trust in our abilities.

C. Qualifications of Team

Rich Harlan - CEO, Confined Space Specialist & Project Manager

Rich Harlan serves as the CEO, a Confined Space Specialist, and the Project Manager for this initiative. With a distinguished 30-year career in fire safety and emergency response, including significant roles in the Roseville Fire Department, his expertise is well-aligned with the city's requirements. Rich's qualifications include certifications as a Confined Space Rescue Technician, Hazmat Specialist, and Licensed Paramedic, with recognized instruction credentials under the State Fire Marshal.

His leadership at HMI and previous accolades from the Roseville Fire Department for exceptional service illustrate his dedication to community safety. Rich's experience also extends to managing high-risk safety education and overseeing complex emergency operations. Located in Auburn, CA, he has maintained a close working relationship with the Roseville area, ensuring his commitment and availability for local projects.

Kent Freeman - Confined Space Specialist

Kent Freeman's background is steeped in confined space consulting and safety. As a former member of the Roseville Fire Department, his expertise is tailored to the needs and challenges of the local community. Kent's role in HMI leverages his extensive experience to oversee and implement safety protocols in high-risk operations.

Joe Tuoto - Confined Space Specialist

Joe Tuoto's professional journey has been characterized by his roles in confined space safety and medical emergency services. His tenure at the Roseville Fire Department has imbued him with a comprehensive understanding of incident command and confined space rescues, skills that he brings to HMI to enhance our confined space rescue capabilities.

Rich Sisk - Confined Space Specialist

Rich Sisk offers a wealth of knowledge in crisis management and regulatory compliance. His experience with the Roseville Fire Department has prepared him to handle the complexities of confined space rescue with precision and authority. At HMI, he is instrumental in ensuring that all operations not only meet but exceed the required safety standards.

Note: We have annexed to our proposal the resumes of each team member.

D. Project Understanding

Hazardous Materials Institute has thoroughly evaluated the City of Roseville's Request for Proposal (RFP) for Confined Space Rescue Services. We understand the generation facility and its confined space risks. Risks we have considersed are when work is being done in the turbine enclosures, HRSG's, cooling towers, ZLD systems, sump and tanks, elevated entries / limited pick points just to name a few.

1. Scope of Services

The RFP calls for a comprehensive suite of services to ensure the safety and effectiveness of confined space operations. This includes developing a detailed Confined Space Rescue Plan, providing trained personnel, equipment management, risk assessment, and maintaining communication protocols. Our understanding extends to ensuring compliance with CAL/OSHA standards and integrating with the City's existing emergency services.

2. General Approach

Our approach is founded on the principles of readiness, risk mitigation, and regulatory compliance. We will implement a multi-tiered strategy that encompasses:

- **Development of a Confined Space Rescue Plan:** Crafting a plan that is both compliant and customized to the City's specific needs, accounting for the varied nature of confined spaces within municipal operations.
- **Personnel Readiness:** Ensuring all rescue personnel are not only certified but also undergo continuous training to maintain sharp skills and awareness of best practices.
- **Equipment Management:** Instituting a rigorous maintenance and inspection schedule for all rescue equipment to ensure reliability and performance during critical operations.
- **Risk Assessment:** Conducting in-depth risk assessments for each confined space, which will inform our rescue strategies and ensure the safety of both rescue personnel and city workers.
- **Communication Protocols:** Establishing clear and efficient communication channels to ensure coordination among all stakeholders in rescue operations.

3. Expected Challenges and Special Considerations

We anticipate the following challenges:

- **Adapting to Varied Confined Spaces:** The diversity of confined spaces, each with unique risks, requires bespoke rescue strategies.
- **Regulatory Compliance:** Keeping pace with evolving safety regulations to ensure uninterrupted

- **Interdepartmental Coordination:** Navigating the complexities of coordinating with various city departments and ensuring that our operations are integrated smoothly with the City's processes.

Certain aspects of the City's infrastructure may necessitate special consideration. For example, older confined spaces may have legacy risks not present in newer structures.

In anticipation of these diverse challenges inherent to confined space rescue, HMI has formulated a cohesive strategy to ensure the highest standards of safety and efficiency for the City of Roseville. Understanding that each confined space presents its own set of challenges, we have prepared our rescue units to be highly adaptable, with personnel cross-trained to pivot their strategies to the unique demands of each environment. To stay at the forefront of regulatory compliance, our dedicated compliance team will keep a vigilant watch on evolving safety regulations, proactively integrating any updates into our operational protocols and training programs. Recognizing the critical importance of interdepartmental communication, we will assign a liaison officer tasked with establishing and maintaining open lines of communication among all relevant city departments. This role will be crucial in weaving our operations into the city's fabric, ensuring a harmonious and integrated response to any emergency.

Special considerations, such as navigating the complexities of older infrastructure, will be met with comprehensive site-specific assessments that bring historical context into our planning, thereby informing our rescue strategies with a depth of understanding that can only be gained through experience. By analyzing historical data on past incidents, we will build a preventative framework that anticipates and mitigates potential risks before they manifest. This approach is complemented by our commitment to continuous improvement and innovation, which will see us developing state-of-the-art training simulations and integrating advanced technological solutions to enhance both the safety and efficiency of our rescue operations. Our firm's deep roots in the community of Roseville fortify our commitment to engage with local stakeholders, ensuring that our operations not only meet the technical requirements of the project but also resonate with the community values and the specific needs of the city.

4. Unique Approaches and Strength

HMI's unique strengths lie in our team's direct experience with the Roseville Fire Department, enabling us to provide services that are acutely attuned to the City's operational framework and community ethos. Our localized knowledge is complemented by our:

- **Proven Track Record:** Demonstrated history of excellence in confined space rescue within the public sector, specifically within the City of Roseville.
- **Specialized Training:** Advanced training capabilities, including simulated rescue scenarios tailored to the City's specific environments.
- **Innovative Equipment:** Access to state-of-the-art rescue equipment and the ability to leverage technology for enhanced safety and efficiency.
- **Community Integration:** A deep-rooted presence in Roseville, fostering trust and ensuring that our response is not only technical but also community-centric.

HMI is fully equipped to address all aspects of the City of Roseville's confined space challenges with a level of detail and expertise that assures safety, efficiency, and regulatory adherence. Our proposal, shaped by nuanced understanding and strategic foresight, is designed to meet the City's needs, and exceed its expectations for a partner in confined space rescue services.

E. Project Plan

In this chapter, we present a comprehensive project plan for the successful implementation of confined space rescue services for the City of Roseville. This plan delineates our methodologies, schedules, personnel assignments, and resource allocations to accomplish all required tasks within the project timeline.

1. Methodologies

HMI's methodologies are structured around our core principles of safety, compliance, and operational excellence:

1. Pre-Site Evaluation & Hazard Assessment

Procedure: Each phase begins with a detailed inspection of the confined space in question. The team rigorously assesses various factors such as structural integrity, air quality, and the potential presence of toxic or flammable atmospheres, along with other environmental hazards, to ensure a comprehensive understanding of the site conditions.

Safety Protocols: Based on these assessments, we develop site-specific safety protocols. These protocols are meticulously crafted to include crucial aspects such as emergency exit strategies and comprehensive communication plans, ensuring preparedness for any eventuality.

Equipment Setup: The final step involves a careful determination of the necessary safety and rescue equipment tailored to each site's unique requirements. This includes the deployment of essential items like ventilation systems, gas detectors, and rescue harnesses, ensuring that our team is well-equipped to handle the specific challenges of each confined space.

2. Customized Training for Preparedness

Training Curriculum: Development of a comprehensive training curriculum tailored to the specific types of confined spaces in Roseville, focusing on both theoretical knowledge and practical skills.

Scenario-Based Drills: Conducting drills that simulate various rescue scenarios to enhance decision-making and technical skills under pressure.

Certification and Recertification: Ensuring all team members are up to date with relevant certifications and conducting regular refresher courses.

3. Effective Communication and Coordination

Rich Harlan, as the project manager of this contract, will manage the essential task of establishing and maintaining clear communication protocols. His role ensures efficient coordination during rescue operations, while Rich Sisk's input in developing on-site communication strategies enhances the team's ability to respond effectively in crisis situations, making sure all operations run smoothly and cohesively.

Standard Operating Procedures (SOPs): Establishment of clear SOPs for communication during rescue operations, including the use of hand signals, radios, and other communication devices.

Regular Briefings and Debriefings: Implementing pre-operation briefings and post-operation debriefings to ensure all team members are aware of their roles and learn from each operation.

Coordination with External Agencies: Establishing protocols for coordination with external agencies such as the local fire department and emergency medical services.

4. Continuous Improvement and Adaptive Approach

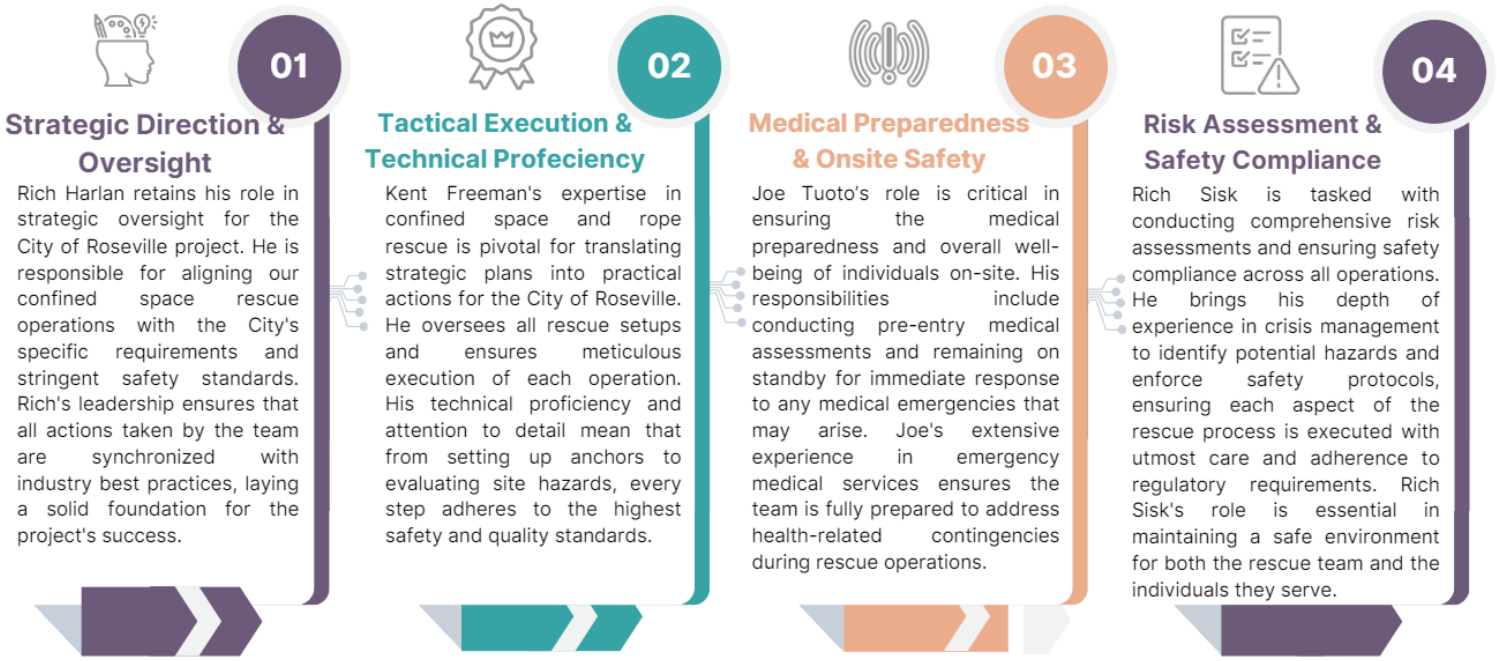
Operational Reviews: Conducting regular reviews of rescue operations to identify successes and areas for improvement.

Feedback Mechanisms: Establishing mechanisms for receiving and integrating feedback from team members and city staff.

Technology and Techniques Update: Staying informed of the latest developments in rescue techniques and equipment and integrating them into our operations.

5. Integrated Reporting and Documentation

Incident Reporting: Developing a standardized format for reporting incidents, including details of the operation, any challenges encountered, and the outcomes.



Data Analysis: Analyzing data from reports to identify patterns or trends that can inform future operations.

Record Maintenance: Maintaining comprehensive records of all training sessions, drills, and rescue operations for accountability and regulatory compliance.

Through this detailed and systematic methodology, we aim to address every aspect of confined space rescue operations for the City of Roseville. Our approach is designed to ensure the highest levels of preparedness, safety, and efficiency, while also being adaptable to evolving conditions and requirements.

2. Team Dynamic

Rich Harlan, Kent Freeman, Joe Tuoto and Rich Sisk form a seamlessly integrated team, each contributing unique strengths to ensure a comprehensive and effective confined space rescue operations. Their collaboration unfolds seamlessly. Rich, as the visionary, outlines the strategic path while Kent, the executor, brings plans to life with technical precision. Joe, the medical expert, ensures that safety is prioritized at all times.

3. Project Schedule

The following represents an estimated work schedule for the Confined Space Rescue Services project with the City of Roseville, prepared by Hazardous Materials Institute (HMI). This schedule outlines a hypothetical timeline and phases, starting in July 2026. Please note that the final dates and specific milestones will be determined in collaboration with the City officials to ensure alignment with their operational needs and requirements.

Phase 1: Assessment and Planning (1-2 days)

- Undertaking initial site evaluations to identify specific risks and requirements.
- Coordinating with City staff to align on project goals and obtain critical information.
- Drafting a Confined Space Rescue Plan that incorporates site assessment data and City staff input.

Phase 2: Training and Equipment Setup (1-2 days)

- Procuring and setting up the required rescue equipment at designated sites.
- Launching targeted training programs designed for the unique demands of the City's confined spaces.
- Validating and updating the rescue team's certifications to meet current standards.

Phase 3: Drills and Practice Scenarios (1 day)

- Conducting intensive drills and simulations that mirror real-life rescue scenarios.
- Evaluating the team's effectiveness and equipment functionality through scenario-based exercises.
- Adjusting training methods and equipment arrangements based on drill feedback.

Phase 4: Operational Implementation and Evaluation (1 day)

- Implementing the Confined Space Rescue Plan across the designated sites.
- Continuous monitoring and assessment of operational efficiency and effectiveness.
- Implementing continuous improvement measures based on operational feedback and performance analysis.
- Conducting an end-of-year review to assess overall performance and identify areas for future enhancements.

5-Year Service Mode

We will also implement a structured evaluation process. This will involve a systematic review of all confined space rescue activities conducted over the month. Key performance indicators will be analyzed, including response times, team efficiency, equipment usage, and adherence to safety protocols. This regular evaluation aims to identify trends, capture lessons learned, and facilitate the continuous refinement of rescue strategies and training programs. Year 1: Validation, plan refresh, drills, Years 2–4: Sustainment, refresher drills, Year 5: Full program review & transition

4. Necessary Equipment

To fulfill the project requirements, the following equipment will be supplied and maintained by Hazardous Materials Institute (HMI):

- **Harnesses:** A variety of harnesses suitable for different confined space scenarios.
- **Winches:** Winches for secure and efficient lifting and lowering operations.
- **Communication Systems:** Reliable communication devices, including radios and other essential communication tools, to maintain contact between team members.
- **Ventilation Equipment:** Necessary ventilation systems to ensure safe air quality within confined spaces.
- **Gas Detectors:** Advanced gas detectors to monitor and identify hazardous gases.
- **Lighting:** Adequate lighting equipment suited for the varied environments of confined spaces.
- **Personal Protective Equipment (PPE):** Including helmets, gloves, eye protection, and other necessary gear to ensure the safety of all team members.

5. Safety Training Courses

In our commitment to excellence in confined space rescue operations, HMI places a strong emphasis on rigorous safety training. Our specialized programs are designed to ensure that our team is thoroughly prepared, both in knowledge and practice, to meet the unique challenges of confined space environments safely and effectively.

These trainings are crucial to maintaining our high standards of safety and operational readiness for the City of Roseville. By prioritizing continuous learning and improvement, we aim to foster a culture of safety that permeates every aspect of our operations.

1. First Aid/CPR/AED

- Duration: 6 hours
- Class Size: Maximum 12 students per class

Course Description:

The First Aid/CPR/AED training is a six-hour program that focuses on life-saving skills, specifically for adult victims. Participants will learn how to respond effectively in medical emergencies, including providing CPR and assistance in choking situations. Additionally, the course covers the use of devices such as pocket masks and the proper deployment of automatic external defibrillators (AED).

Course Highlights:

- CPR and Choking Response: Participants will receive comprehensive training in cardiopulmonary resuscitation (CPR) and effective responses to choking for adult victims.
- Use of Devices: The course includes instruction on the use of pocket masks to facilitate safer and more hygienic rescue efforts.
- AED Training: Participants will gain the knowledge and skills necessary to operate automatic external defibrillators (AED) in critical situations.

---

2. Hot Work/Fire Extinguisher

- Duration: 8 hours
- Class Size: Maximum 12 students per class

Course Description:

The Hot Work/Fire Extinguisher training is an eight-hour program that equips participants with essential skills for safe hot work activities and the effective use of fire extinguishers. The course also includes live fire training to prepare participants for real-world scenarios, ensuring they are ready to respond confidently in case of fire emergencies.

Course Highlights:

- Safe Hot Work: Participants will learn to safely perform hot work activities, including welding and cutting, while minimizing fire hazards.
- Fire Extinguisher Use: The course includes hands-on training in the proper use of fire extinguishers, ensuring participants can respond effectively to fire incidents.
- Live Fire Training: To enhance practical skills, participants will engage in live fire training, simulating real fire situations.

3. Trenching Excavation Competent Person

- Duration: 8 hours
- Class Size: Maximum 12 students per class

Course Description:

The Trenching Excavation Competent Person course is an eight-hour program designed to provide a comprehensive understanding of trenching and excavation hazards. Participants will gain knowledge of safe work practices, protective systems, soil classification, interpreting tabulated data sheets, identifying underground utility markings, and reporting criteria. The course also covers information on atmospheric monitoring.

Course Highlights:

- Trenching Hazards: Participants will identify and understand the hazards associated with trenching activities, enabling them to take appropriate safety measures.
- Protective Systems: The course includes instruction on protective systems for trenching to prevent accidents and protect workers.
- Soil Classification: Participants will learn to classify soil, which is crucial for evaluating trench stability.
- Utility Markings: Understanding underground utility markings and reporting criteria is essential for workplace safety.
- Atmospheric Monitoring: The course provides knowledge on monitoring atmospheric conditions to safeguard workers.

---

4. Fall Protection Competent Person

- Duration: Customized based on requirements
- Class Size: Maximum 10 students per class

Course Description:

The Fall Protection Competent Person course is a customized training program tailored to your organization's specific fall protection needs. This program provides in-depth training to identify, assess, and mitigate fall hazards using passive, restraint, arrest, and administrative control systems. It is intended for individuals responsible for workplace assessments, equipment selection, fall protection program management, and ensuring the presence of effective rescue procedures.

Course Highlights:

- Customized Content: The course content will be adapted to address the fall protection requirements and challenges specific to your organization.
- Fall Hazard Identification: Participants will learn to identify and assess existing and predictable fall hazards in the workplace.
-

- Program Management: Participants will understand how to manage a comprehensive fall protection program, including equipment selection and maintenance.
- Rescue Procedures: Ensuring the presence of effective rescue procedures is a crucial aspect of the course, with a focus on timely response to fall incidents.

---

5. Confined Space Entry "Competent Person" Training

- Duration: 7 hours
- Max Class Size: 30 participants

Course Description:

This course offers a comprehensive overview of Confined Space Entry, aligned with Cal-OSHA Title 8 sections 5156-5158. It encompasses key areas such as regulations, entry procedures, equipment, atmospheric monitoring, ventilation techniques, hazard control, and case study reviews.

Course Highlights:

- In-depth understanding of Confined Space Regulations.
- Practical insights into entry procedures and personnel requirements.
- Strategies for atmospheric monitoring and ventilation.
- Focus on hazard identification and control measures.
- Analysis of real-life case histories for applied learning.

F. Cost Proposal

We present herein a transparent and detailed cost proposal for providing Confined Space Rescue Services and Safety Training Courses to the City of Roseville. Our pricing is outlined in the following tables, reflecting a commitment to comprehensive service and value.

Confined Space Services Rates

The following rates apply to our confined space rescue services:

Type	Number of Staff	Regular Rate 1-8 hrs.	Overtime Rate 8-12 hrs.	Double Time rate After 12 hrs.
Regular	2-person	$330	$495	$660
Shift Work Differential	2-person	$350	$525	$700
Vehicle and equipment	N/A	$500 day	N/A	N/A

G. Statements

HMI hereby provides the following statements of assurance as part of our proposal for the City of Roseville's Confined Space Rescue Services:

Team Composition Assurance:

HMI understands the importance of continuity and the specific expertise each team member brings to the project. We assure the City that there will be no substitution of the designated team members outlined in our proposal without prior approval from City staff, in accordance with Section 5.0 of the RFP.

Conflict of Interest Statement:

We declare that there is no conflict of interest that could be perceived as affecting our ability to perform the services required impartially and with the best interest of the City of Roseville in mind, as stipulated in Section 10.4.

Indemnification and Insurance Agreement:

HMI acknowledges the indemnification and insurance requirements specified in Section 10.7 of the sample contract. We confirm our ability and agreement to fulfill these requirements upon contract award. HMI understands that actual certificates of insurance are not required at this proposal stage but is prepared to provide them upon request.

Proprietary Information Statement:

We agree that nothing contained within our submitted proposal will be considered proprietary and that all information is provided for the explicit use of the City of Roseville in assessing our suitability for the project, as per Section 10.23 of the RFP.

We are committed to full compliance with all stipulations outlined by the City of Roseville and is dedicated to delivering service of the highest quality and integrity.

SPACE LEFT BLANK INTENTIONALLY

H. Exceptions

Hazardous Materials Institute (HMI) assures the City of Roseville of our robust capabilities in delivering the specified services. Since it was founded:

- HMI has not encountered any financial difficulties such as bankruptcies, liens, stop payment notices, judgments, lawsuits, arbitrations, mediations, foreclosures, or any similar actions. Our financial history is clear of any such records, underscoring our financial stability and responsible management practices.

- There have been no instances where a client has terminated a contract with HMI due to a breach. Our commitment to fulfilling contractual obligations and maintaining productive client relationships has been unwavering and a cornerstone of our business ethics.

- HMI possesses the necessary facilities, ability, experience, and financial resources to provide the services specified in the RFP in a satisfactory and timely manner. We have a proven track record of managing and executing complex projects efficiently and effectively, aligning with our clients' objectives and requirements.

PROPOSER'S CERTIFICATION

I hereby propose to furnish the goods or services specified in the Request for Proposals ("RFP"). I agree that my proposal will remain firm for a period of up to ninety (90) days in order to allow the City of Roseville ("City") adequate time to evaluate the qualifications submitted.

I have carefully examined the Request for Proposals and any other documents accompanying or made a part of this RFP. The information contained in this proposal is true and correct to the best of my knowledge and is signed under penalty of perjury under the laws of the State of California. I further certify that I am duly authorized to submit this proposal on behalf of the firm as its authorized agent and that the firm is ready, willing and able to perform if awarded the contract.

I further certify that this proposal is made without prior understanding, agreement, connection, discussion, or conspiracy with any other person, firm or corporation submitting a proposal for the same product or service; that this proposal is fair and made without outside control, collusion, fraud or illegal action; that no officer, employee or agent of the City or any other proposer is financially interested in said proposal; that no undue influence or pressure was used against or in concert with any officer, employee or agent of the City in connection with the award or terms of the contract that will be executed as a result of this RFP; and that the undersigned executed this Proposer's Certification with full knowledge and understanding of the matters therein contained and was duly authorized to do so.

Attachment B

LEVINE ACT DISCLOSURE STATEMENT

(The completed form submitted to the City of Roseville is a public record.)

California Government Code Section 84308, commonly referred to as the "Levine Act," prohibits any "Officer" (elected or appointed officer, any alternate thereto, and any candidate for elective office) from participating in any consideration or action related to a proceeding if they receive political contribution(s) from a party, or its agent(s), totaling more than $250 within the previous twelve (12) months, while a proceeding is pending, and for twelve (12) months following the date of a final decision in a proceeding concerning a license, permit, other entitlement for use, franchise, or contract (collectively "license, permit, or contract"). For additional information: https://www.roseville.ca.us/government/departments/city_clerk/transparency/levine_act.

City Officers are listed at the following sites:

- The Members of City Council - https://www.roseville.ca.us/government/city_council/meet_council
- Boards & Commission Members - https://www.roseville.ca.us/government/boards_commissions

Parties and their Agents are responsible for reviewing and disclosing their applicable contributions to City Officers on the record of a proceeding.

1. Have you or your entity, or any agent on behalf of you or your entity, made any political contribution(s) totaling more than $250 to any City Officer in the twelve (12) months preceding the date of the submission of your license, permit, or contract, or the anticipated date of any City Council, Board, or Commission consideration or action related to this license, permit, or contract?

YES _____ NO _**X**____

If yes, please identify the City Officer(s):_____

2. Do you or your entity, or any agent on behalf of you or your entity, anticipate or plan to make any political contribution(s) totaling more than $250 to any City Officer in the twelve (12) months following any City Council, Board, or Commission consideration or action related to this license, permit, or contract?

YES _____ NO **X**_____

If yes, please identify the City Officer(s):_____

Answering yes to either of the two questions above does not preclude the City of Roseville from considering and/or taking action on a license, permit, or contract. It does, however, potentially preclude the identified City Officers from participating in consideration of and in taking any actions related to the license, permit, or contract. Please accurately complete and sign this form, under the penalty of perjury:

01/25/2026	(Printed Name/Title of Authorized Representative)	_(Name of business/legal entity)
	_Rich Harlan	Hazardous Materials Institute LLC

Rich Harlan

You must submit a supplemental form if you make any new reportable contribution(s) while the contract, license, permit, or other entitlement is being considered. If this form has not previously been submitted in connection with a contracting, licensing, entitlement or permitting process, please provide the completed form to the Office of the City Clerk for appropriate departmental routing, at: City Clerk, 311 Vernon St., Roseville, CA 95678, CityClerkRoseville@roseville.ca.us

LEVINE ACT DISCLOSURE STATEMENT

(The completed form submitted to the City of Roseville is a public record.)

Term	Definition	Law
Covered "proceedings"	A proceeding to grant, deny, revoke, restrict, or modify a license, permit or other entitlement for use, that does not solely involve purely ministerial decisions and is: (1) Applied for by the party; (2) Formally or informally requested by the party; or (3) A contract between the agency and the party or a franchisee granted by the agency to the party, other than a contract that is **competitively bid**, a **labor contract**, or a **personal employment contract**.	FPPC Reg 18438.2(a)
Party	Any person who files an application for, or is the subject of, a proceeding involving a license, permit, or other entitlement for use.	Gov. Code 84308(a)(1)
Participant	Any person who is not a party but who actively supports or opposes a particular decision in a proceeding involving a license, permit, or other entitlement for use and who has a financial interest in the decision. A person actively supports or opposes a particular decision in a proceeding if that person lobbies in person the officers or employees of the agency, testifies in person before the agency, or otherwise acts to influence officers of the agency.	Gov. Code 84308(a)(2) FPPC Reg 18438.4
Agent	A person who represents a party or participant for compensation and appears before or otherwise communicates with the governmental agency for the purpose of influencing the pending proceeding. See FPPC Reg 18438.3 for exceptions for certain consultants.	FPPC Reg 18438.3
Competitively Bid	A contract required by law to be awarded to the lowest responsible bidder with a responsive bid, or, if the successful bidder refuses or fails to execute the contract, to the next lowest bidder with a responsive bid.	FPPC Reg 18438.2(a)(3)(A)
Labor Contract	A contract or agreement reached through collective bargaining or with a representative group regarding the salary, benefits, or terms and conditions under an employment or retirement policy for employees or retirees, including a project labor agreement entered under Public Contract Code Section 2500.	FPPC Reg 18438.2(a)(3)(B)
Personal Employment Contract	A contract for employment, including the terms and conditions of employment, between the agency and an agency employee. A contract with an independent contractor is NOT a personal employment contract.	FPPC Reg 18438.2(a)(3)(C)-(D)

A **party** to a proceeding before an agency involving a license, permit, or other entitlement for use **shall disclose on the record of the proceeding** any contribution in an amount of more than two hundred fifty dollars ($250) made within the preceding 12 months by the party or the party's agent.

A **party**, **or agent to a party**, to a proceeding involving a license, permit, or other entitlement for use pending before any agency or a participant, or agent to a participant, in the proceeding **shall not make a contribution** of more than two hundred fifty dollars ($250) to any officer of that agency during the proceeding and for 12 months following the date a final decision is rendered by the agency in the proceeding.

(Gov. Code, § 84308, emphasis added.)

Attachment D

NONCOLLUSION DECLARATION TO BE EXECUTED BY BIDDER AND SUBMITTED WITH BID

The undersigned declares:

I am the Owner of Hazardous Materials Institute (HMI), the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The bidder has not directly or indirectly induced or solicited any other bidder to put in a false or sham bid. The bidder has not directly or indirectly colluded, conspired, connived, or agreed with any bidder or anyone else to put in a sham bid, or to refrain from bidding. The bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the bidder or any other bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other bidder. All statements contained in the bid are true. The bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, bid depository, or to any member or agent thereof, to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the bidder.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on January 25th 2026 at 8;30 pm Auburn , Ca .

PROFESSIONAL PROFILE

Personable and results-driven ***Veteran Fire Battalion Chief, Trainer/ Instructor, and Founder of Hazardous Materials institutes*** with 30+ years of experience and expertise to facilitate successful safety/emergency operations by applying advanced training & technical rescue proficiencies. Possesses a solid foundation in startup management, data analysis, contracting & documentation, customer service, business expansion, and safety administration from time spent in entrepreneurial capacities. Significantly gifted in identifying organizational problems and developing practical solutions. Attentive listener committed to building solid and trusted relationships with clients and Executive leadership. An asset, grow daily as a professional, and work hard in achieving the defined mission, vision and goals. Skilled in crisis management, situational awareness, stress mitigation, vicarious traumatization, peer support, and instruction. I believe in developing an environment where people can develop, grow, achieve stretch targets, and create a "can do" work ethic within my teams.

In addition, my experience has incorporated advocacy skills for building and refining processes that streamline business development to accelerate growth and produce a more exciting experience that drastically reduces churn. I have solid expertise in providing independent, hands-on leadership to facilitate startup growth, strategy and execution, and global expansion. I am industrious and only let up once the goal has been achieved. I am also confident and dependable but am open to seeking guidance if unsure of the way forward. My most valued trait is 'integrity'. I am naturally optimistic, essential when working in a leadership environment.

Notable Achievements:

- *Owner of the Hazardous Material Institute and California Safety Training.*
- *Awarded in 1998 and 2006 for exceptional contribution to the Roseville Fire Department.*
- *Certified Confined Space Rescue Technician by the State Fire Marshal.*
- *Recognized Instructor under the State Fire Marshal's guidance.*
- *Recognized Instructor under the California Specialized Training Institute.*
- *Licensed Paramedic.*
- *Expertise as a Hazmat Specialist.*
- *OSHA authorized instructor.*

STRENGTHS & CAPABILITIES

- ***Leadership & Training:*** *Leveraged strong leadership, coaching, and mentoring skills encouraged and influenced a positive safety culture, led by example, and performed what we say we will do.*
- ***Cost-effective solutions:*** *Developed budget-driven strategies to provide a cost-effective solution while maintaining standards and regulatory requirements.*
- ***Expertise in Management:*** *Strong management acumen, including problem-solving skills, critical thinking abilities, coaching skills, and project management abilities, along with an ability to build trust and relate to people at all levels.*
- ***Expertise in Specialized Rescue Services:*** *extensive experience in providing high and low-angle rescue services, successfully led organizations for delivering training required to tackle intricate rescue scenarios. Ensured the team had a swift and secure response to any emergency and safety remained in capable hands.*
- ***Dedication to Safety and Compliance:*** *provided unwavering dedication to adhering to all relevant regulations, including CAL/OSHA standards, ensuring maximum safety for both team and clients. Leveraged thorough understanding of confined space entry requirements ensures meticulous procedure adherence, thereby reducing risks and potential liabilities.*
- ***Effective Communication and Collaboration:*** *Developed organizations based upon teamwork, open communication, continuous collaboration, and transparency throughout every project and ensured that the project manager oversaw seamless coordination, timely updates, and a robust partnership with the team.*
- ***Emergence Planning:*** *Created practical, systematic, strategic emergency management planning with a risk-based approach.*

PROFESSIONAL EXPERIENCE

HMI (Hazmat Material Institute)

Technical Rescue / Safety Instructor and Confined Space Standby Team Member (2022-Present)

- Provide confined space rescue training, safety management, and standbys for the HMI's Rescue & Medical Standby Team.
- Build strong business by providing individuals and organisations with high-quality, high-risk safety education.
- Coordinate with several safety team members and responded to traumatic events.
- Maintained relevant certifications for teaching and implementing relevant tasks to come alongside others who were struggling; expand offerings and improve the services provided to the clients.
- Develop and deliver training to introduce new equipment and techniques to Haz-Mat Specialists.
- Assists in assessing potential hazards and drafts a Confined Space Rescue Preplan and a Rescue Safety Analysis.
- Identifies and communicates potential hazards to all affected parties.
- Determines hazard controls and emergency contingency plans and ensures required safety equipment and PPE is readily available and in good working order.
- Performs on-going monitoring of job conditions and equipment resources and reports observations and recommendations to supervisor to assure both worker and team safety is maintained throughout the duration of the task.
- Completes daily ICS (Incident Command System) reports.
- In case of accident, locates the patient, assesses any injuries, packages for extrication, removes patient from the threatening environment and turns over to EMS for medical attention and transport. Renders first aid and CPR to the level of training.
- Follows handling, inspection, cleaning, and preventative maintenance guidelines for all rescue equipment to be in a constant state of readiness.
  Maintains and accurately inventories and documents all rescue related equipment.

Sierra College

Instructor (2007- 2022)

- Provide training on Emergency Medical Responder, Emergency Medical Technician, Confined Space Awareness, Low Angle Rescue, and Firefighting skills.
- Prepared performance-based objectives and outlines for course of study following curriculum guidelines and requirements of the school, State and Federal initiatives.
- Developed annual goals for program improvement; revised and updated program curriculum using performance based open entry/open exit individualized curriculum materials, as needed.
- Organized program of practical and technical instruction, including demonstrations of skills required in health care professions, and lectures on theory, techniques, and terminology; prepared outline of instructional programs and studies and assembled materials to be presented; reviewed with supervisor, as needed.
- Instructed students in subject areas, i.e., use, maintenance, and the safe operation of tools and equipment, codes or regulations related to the health occupations program.
- Instructed students in the importance of accuracy, neatness, efficiency, resourcefulness and good work habits in obtaining employment in hospitals or other health care related facilities.
- Assisted students to develop and implement effective study skills, practices and techniques.

California Health & Rescue Training

Instructor & CE Coordinator (1992-Present)

- Served as the Primary Instructor for CPR, First Aid, Emergency Medical Responder, Fall Protection, Confined Space Entry and Rescue, Trench Rescue, and Low Angle Rescue.

FF/ EMT Early member of Technical Rescue Team - Roseville Fire Department **(1988 – 1994)**
Fire Dispatcher - South Placer Fire District **(1986 – 1988)**
Resident Fire Fighter I, II and III - South Placer Fire District **(1985 – 1988)**

EXPERIENCE HIGHLIGHTS

Roseville Fire Department

- Using Interest Based Negotiations, evaluated Fire Department priorities and structure with Management to reorganize Roseville Fire Department, preventing loss of services and saving $1.5M under a new budget.
- Performing responsible management, technical and administrative work in commanding and coordinating fire emergency operations, training and other related programs and services.
- Overseeing, leading and managing fire personnel and ensuring operational readiness of personnel and equipment.
- Conducting routine inspections of personnel, equipment and facilities to ensure a proper and immediate state of readiness and initiate disaster operational plans as necessary.
- Maintaining sufficient knowledge of new trends in the field of fire science and emergency medical services and supervising the development of new fire mutual aid and automatic agreements & procedures.

Regional Truck Operations

- Developed, presented then evaluated Truck Co. specific drills for Regional Partners in Placer County.
- Ensured all truck operations are operated in a manner consistent with meetings and exceeding all company targets.
- Ensured all drilling issues are reviewed and addressed in a timely manner.
- Led the drilling operation in a way that promotes a safe environment for all workers.
- Performed data analysis & provided recommendations to achieve performance & accelerate commercialization of Pathmaker.
- Conducted all business activities in accordance with HSE and legal requirements.

Fire Station One Budget

- Prepared, tracked and overseen all budget items associated with Station One Budget.
- Recommended financial solutions to the department based on detailed financial analysis.
- Performed fiscal analysis, formulated the annual fuels management budget, and maintained a system of accounts to track expenditures.
- Managed the budget from out-year planning to year-end closure.

Captain, Truck One "A" Shift

- Gained critical experience responding to multi-company incidents. Assigned to Truck One since 2006.
- Perform supervisory and administrative duties; overseen a daily performance which includes training, day-to-day operations, prevention & maintenance, and responding to emergencies.
- Acted as the Coordinator of Incident Management Services; designed and disseminated training standards and methods.
- Scheduled and supervised the work activities of employees; prepared reports on field operations at specific stations.
- Maintained emergency and non-emergency incident response records on a regular basis.

Haz-Mat "A" Shift Team Leader

- Served as the Haz-Mat Group Supervisor on hazardous materials incidents, Level II or greater.
- Prepared, scheduled and conducted Haz-Mat training for "A" Shift.
- Provided training on Hazardous Material Incidents, First Responder Operations, First Responders Awareness, Decontamination, OSHA training, CPR/First aid, Wildland fires, and Wildland mitigation.
- Build strong business by providing individuals and organizations with high-quality, high-risk safety education.
- Mentored several team members to become safety champions and be successfully promoted to department leadership roles.
- Responded to traumatic events for first responders, receivers, peer support, law enforcement, fire service, emergency medical services, hospital personnel, and emergency management.
- Learned, modelled, taught, and implemented best practices; expanded offerings and improved the services provided to the clients.

Department Elevator and Lockout Tagout Training

- Researched, scheduled and provided training for Roseville Fire Department.
- Ensured the purpose and function of the training program are understood by the employees as well the skills required for the safe applications are acquired by the employees.
- Instructed employees regarding every aspect of Lockout Tagout Training under OSHA guidelines.
- Provided training and consultation of LOTO including how to use rapid LOTO app and online software programs.

Salvage Equipment Purchases and Repair

- Monitored inventory of salvage equipment through a fixed budget, as well as oversee repairs of equipment.
- Ensured that the parts are available within short lead times, at the most competitive price with quality and fulfilling safety standards.
- Overseen the ordering, storing, receiving and distributing processes of the supplies.
- Tracked inventory maintenance activities and controlled the flow of equipment.

Item ID: 2026-471

Title:	Managed Relay Utility Interactive Voice Response System – Contract Purchase Agreement
Contact:	Jorence Wu 916-746-1261 jwu@roseville.ca.us

SUMMARY

Staff recommends approval to execute a five-year contract purchase agreement with Selectron Technologies, Inc. for continued Interactive Voice Response (IVR) system services in the Utilities Customer Care division. The agreement will ensure the continued availability of critical customer service functions, including 24/7 customer access to utility account information and payment processing, outbound delinquency notification campaigns, and the Screen Pop feature implemented in 2025 to improve call-handling efficiency and customer experience. The total cost of the five-year contract is $569,848.08 and funding for the first year of the contract of $118,324.88 has been requested in the proposed FY2026-27 Utilities Customer Care budget in the Electric Fund and the Environmental Utilities Department's operations funds. There is no impact to the General Fund.

RECOMMENDATION

Staff recommends that the City Council adopt a resolution to approve Contract Purchase Agreement (3005390) with Selectron Technologies, Inc. for Managed Relay Utility Interactive Voice Response System services, and authorize the City Manager to execute it on behalf of the City of Roseville.

BACKGROUND

Selectron Technologies, Inc. currently provides the City's Utilities Customer Care Division with an Interactive Voice Response (IVR) system that supports utility customer services through a variety of automated features, including the implementation of the Screen Pop feature in 2025. The IVR system allows customers to access utility account information and make payments via credit card or e-check 24 hours a day, 7 days a week, providing convenient self-service options outside of normal business hours.

In addition to customer-initiated services, the IVR system supports outbound notification campaigns for delinquent utility accounts through automated customer calls. These notifications provide an important and relied upon service by reminding customers of pending payments and helping reduce customer non-payment service interruptions.

The recently implemented Screen Pop feature has further improved the efficiency of handling incoming customer calls by automatically displaying customer account information associated with the incoming phone number. This enhancement minimizes the customer verification process, reduces average call handle time, and supports the City’s ongoing efforts to improve operational efficiency and overall customer satisfaction.

This five-year contract continues our IVR system services with Selectron Technologies, Inc. The agreement will help optimize valuable City resources, provide multiple levels of redundancy and failover

protection, and ensure 24-hour system support and monitoring.

This contract utilizes GSA contact GS-35F-0315X, which expires in April 2031.

FISCAL IMPACT

The total cost of the five-year contract is $569,848.08. Funding for the first year of the contract of $118,324.88 has been requested in the proposed FY2026-27 Utilities Customer Care budget in the Electric Fund and the Environmental Utilities Department's operations funds. Future funding will be contingent on the approval of the respective annual budgets. There is no impact to the General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The Managed Relay Utility Interactive Voice Response System Contract Purchase Agreement meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

4. Invest in well-planned infrastructure and growth
6. Deliver exceptional City services

Respectfully Submitted,
Jorence Wu, Customer Care Manager

Daniel Beans, Electric Utility Director

Contract Terms and Conditions

1. These Contract Terms and Conditions supplement the Letter of Understanding entered into between the parties, attached hereto (the "LOU"). Together, these Contract Terms and Conditions, the LOU, and all attachments to the LOU, are referred to as the "Agreement." In the event that the terms of these Contract Terms and Conditions conflict with any other terms of this agreement, the order of precedence laid out in the LOU will apply.

   To the fullest extent allowed by law, each party shall indemnify and defend the other party, and the other party's officers, agents, employees and volunteers from any and all claims, demands, costs or liability that arise out of, or pertain to, or relate to the negligence, or willful misconduct of the indemnifying party or its agents in the performance of services under this contract, but this indemnity does not apply to the extent the liability for damages for death or bodily injury to persons, injury to property, or other loss, arose solely due to negligence or willful misconduct by the indemnified party or the agents, servants, or independent contractors who are directly responsible to the indemnified party, or arising solely from the active negligence of the indemnified party. Each party's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

2. Consultant is an independent contractor, and shall not be considered an officer, agent or employee of the City.

3. Without the written consent of the City, this Agreement is not assignable by Consultant either in whole or in part.

4. Time is of the essence of this Agreement.

5. At any time during the term of this Agreement, the City has the right to terminate this Agreement, provided Consultant is given thirty (30) days written notice. Consultant acknowledges that City may terminate this Agreement should funds not be appropriated by its governing body to continue services under this Agreement; provided, however, that City considers the Software and Services to constitute essential services, and accordingly at all time during the Term will use its best efforts to obtain and maintain all necessary appropriations for payment of the Fees.

6. This Agreement may only be amended or modified in writing. This Agreement, and all attachments thereto, including the Letter of Understanding and Master Service and Hosting Agreement between the parties, is integrated and contains the complete understanding of the parties.

7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.

8. Unless notified to the contrary, in writing, the City assumes that the Consultant has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement. Any work product created for City pursuant to this Agreement is deemed owned by City.

9. All prevailing wages and fair employment practices must be adhered to. For prevailing wage contracts over $25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address:

Docusign Envelope ID: F3E80904-64E3-80A3-8261-5E14223166A0

http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm

10. Consultant agrees to the below insurance requirements:

a. Unless otherwise specified, the Consultant shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance coverage.

b. Form. Consultant shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

c. Additional Insureds. Consultant shall also provide a separate endorsement or section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of Consultant. The additional insured coverage under the Consultant's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office (ISO) CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be:

(1) the minimum coverage and limits specified in this Agreement; or

(2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater

d. Cancellation/Modification. Consultant shall provide ten (10) days written notice to City prior to cancellation or modification of any insurance required by this Agreement.

e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.

f. Subconsultants. Consultant agrees to include in its contracts with all subconsultants the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subconsultants work. Furthermore, Consultant shall require its subconsultants to agree to be bound to Consultant and City in the same manner and to the same extent as Consultant is bound to City under this Agreement. Additionally, Consultant shall obligate its subconsultants to comply with these same provisions with respect to any tertiary subconsultant, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subconsultant or tertiary subconsultant upon request.

g. Self-Insured Retentions. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

h. Waiver of Subrogation. Consultant hereby agrees to waive subrogation which any insurer

Docusign Envelope ID: F3E80904-64E3-80A3-8261-5E14223166A0

of Consultant may acquire from Consultant by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all worked performed by Consultant, its employees, agents and sub consultants.

i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Consultant of liability in excess of such coverage, if and to the extent the limitations on liability in this contract provide such so much liability nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.

11. Consultant shall comply with all federal, state, local laws, ordinances and policies as may be applicable to the performance of services under this Agreement.

12. This section is intentionally left blank.

13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ". pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original thereof.

14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

17. For purposes of this Agreement, the terms "Contractor," "Consultant," and "Supplier" are used interchangeably.

18. This section is intentionally left blank.

19. All facilities, devices, networks and services used to store, deliver, process, backup or purge Proprietary Information (as defined in the Master Services and Hosting Agreement) will employ administrative, physical, technical, and procedural safeguards and best no less protective than those used to secure Consultant's own information of a similar type, and in no event less than reasonable in view of the type and nature of the information involved. It is the City's expectation that Consultant, at its own expense, shall perform annual audits for any data centers that house Proprietay Information, using an independent third-party audit that meets industry standards applicable to the services under this Agreement, and provide the audit report or certification upon request to City.

20. Consultant will retain Confidential Information until deleted by City or City-authorized third party, or for a time period mutually agreed upon by the parties to this Agreement.

Docusign Envelope ID: F3E80904-64E3-80A3-8261-5E14223166A0

21. Upon termination or expiration of this Agreement, Consultant will ensure that all Confidential Information is securely transferred to City within thirty (30) calendar days. Consultant will ensure that any transfer of Confidential Information is accomplished by methods that are compatible with the relevant City systems, and that City will have access to all Confidential Information during any such transfer. Consultant shall securely dispose of all Confidential Information when requested by City and Consultant will provide written notification to City once all Confidential Information has been securely disposed of.

22. This section is intentionally left blank.

23. This section is intentionally left blank.

24. Consultant acknowledges that services rendered under this agreement shall be performed in accordance with industry standards.

25. If the project referenced on this agreement is a Public Works project, then the following shall apply: No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

26. If the project referenced on this agreement is a Public Works project, then the following shall apply: Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.

27. Consultant certifies that Consultant, its employees, directors, officers, agents, subcontractors, vendors, and volunteers are not presently debarred, excluded, suspended, declared ineligible, voluntarily excluded, or proposed for debarment, exclusion, suspension or ineligibility by any federal, state, or local department or agency.

28. This Agreement may be amended via change order, but only if such change order is made in writing, approved by the City, and signed by both parties.

29. CONSULTANT agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONSULTANT and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

    CONSULTANT and CITY agree that: (a) CONSULTANT is free from the control and direction of CITY in connection with the performance of the work; (b) CONSULTANT is providing services directly to CITY; (c) CONSULTANT has and will maintain at all relevant times a business license; (d) CONSULTANT maintains a business location that is separate from CITY; (e) CONSULTANT is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) CONSULTANT actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) CONSULTANT advertises and holds itself out to the public as available to provide the same or similar services; (h) CONSULTANT provides its own tools, vehicles, and equipment to perform the services; (i) CONSULTANT has negotiated its own rates; (j) CONSULTANT set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONSULTANT has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

Contract Terms and Conditions
Addendum
Negotiated for Selectron Technologies, Inc. Rev. 5/20/26 JM

This Addendum amends the existing negotiated City of Roseville Contract Terms and Conditions to include additional legislative requirements. The existing negotiated City of Roseville Contract Terms remain unchanged, unless expressly stated below, except that these legally required terms are now expressly incorporated.

Updated Section 9

All prevailing wages and fair employment practices must be adhered to. For prevailing wage contracts over $25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm In compliance with Labor Code Section 1773.2, as may be amended from time to time, Contractor shall cause a copy of this website to be posted at each jobsite, as applicable.

New Terms and Conditions

1. Contractor/consultant's duties and services under this agreement shall not include preparing or assisting the public entity with any portion of the public entity's preparation of a request for proposals, request for qualifications, or any other solicitation regarding a subsequent or additional contract with the public entity. The public entity entering this agreement shall at all times retain responsibility for public contracting, including with respect to any subsequent phase of this project. Contractor/consultant's participation in the planning, discussions, or drawing of project plans or specifications, if any, shall be limited to conceptual, preliminary, or initial plans or specifications.

2. The Levine Act (Govt. Code, Section 84308) requires a Party (and its agent(s), if any) to a Proceeding before the City of Roseville that involves any action or consideration related to their contract, license, permit, or other entitlement for use, to disclose any campaign contributions made to City elected or appointed officers totaling more than $500 within the twelve (12) months prior to the City decision and while a proceeding is pending, and includes certain prohibitions on contribution activity thereafter. If applicable campaign contributions have been made by Contractor and/or its agent(s), Contractor is responsible for compliance, including for its disclosure obligations, if any, as further described at: https://www.roseville.ca.us/government/departments/city_clerk/transparency/levine_act

3. If Consultant produces any "web content" pursuant to this Agreement, as that term is defined in section 35.104 of Title 28 of the Code of Federal Regulations, as may be amended, Consultant shall ensure that any such web content is in full compliance with all applicable requirements of the most current version of the Web Content Accessibility Guidelines, the Americans with Disabilities Act, Code of Federal Regulations and/or California law. This provision shall survive expiration and/or termination of this Agreement.

Insurance Submission Process

The City of Roseville Human Resources/Risk Management Department uses a service called EBIX to manage our insurance certificate tracking.

How It Works

- The vendor's contact information is entered into EBIX. EBIX will contact the vendor to request proof of insurance.
- The Vendor can forward the request to their Insurance Agent(s) if necessary.
- Vendor/Insurance Agent submits insurance to EBIX by email to roseville@ebix.com or by fax to (770) 325-5727. After faxing or emailing the certificate, please DO NOT send the certificate by mail to EBIX. Please do not mail, email or fax any certificates to the City of Roseville.
- Once submitted, EBIX reviews the insurance documentation. If there are deficiencies, EBIX will send a follow up letter or email requesting additional information.

Questions Regarding Insurance Submission: Contact EBIX at (951) 652-4239
Questions Regarding Insurance Requirements Contact Risk Management at (916) 774-5202

RE: Contractor and Grantee Compliance with Economic Sanctions Imposed in Response to Russia's Actions in Ukraine

Dear Vendor:

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (EO) regarding sanctions in response to Russian aggression in Ukraine. The EO is located at https://www.gov.ca.gov/wp-content/uploads/2022/03/3.4.22-Russia-Ukraine-Executive-Order.pdf.

The EO directs all agencies and departments that are subject to the Governor's authority to take certain immediate steps, including notifying all contractors and grantees of their obligations to comply with existing economic sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law.

This correspondence serves as a notice under the EO that as a contractor or grantee, compliance with the economic sanctions imposed in response to Russia's actions in Ukraine is required, including with respect to, but not limited to, the federal executive orders identified in the EO and the sanctions identified on the U.S. Department of the Treasury website (https://home.treasury.gov/policy-issues/financial-sanctions/sanctions-programs-and-country-information/ukraine-russia-related-sanctions). Failure to comply may result in the termination of contracts or grants, as applicable.

Please note that for any agreements or grants valued at $5 million or more you must report to the City of Roseville your compliance with economic sanctions including steps you have taken in response to Russia's actions in Ukraine, including, but not limited to, desisting from making new investments in, or engaging in financial transactions with, Russian entities, not transferring technology to Russia or Russian entities, and directly providing support to the government and people of Ukraine.

Sincerely,

Roseville CA 95678

Dear Ms. Wu,

This letter is intended to be a letter of understanding between the City and Selectron Technologies, Inc., regarding the Scope of Work and for the implementation of your Selectron system.

As accepted by the City, this will constitute acceptance of the items within this letter, the enclosed Statement of Work and the terms and conditions currently in effect in the Master Services and Hosting Agreement for the renewal and purchase of the Selectron Solution. If there is a conflict with a term within these documents, the order of precedence will be:

- Letter of Understanding
- Scope of Work starting on page 2 of this letter
- Statement of Work starting on page 6 of this letter
- Master Services and Hosting Agreement executed on September 7, 2022

If you have any questions or concerns, please do not hesitate to contact us at your earliest convenience.

Sincerely,

Todd A. Johnston
President and CEO

PRICING & PAYMENT INFORMATION

The contract period begins upon execution. Pricing does not include additional application integration charges that may be required as part of this solution. This includes Application Vendor API, user, or implementation fees, additional licensing fees, or other surcharges directly or indirectly charged by or remitted to the Application Vendor.

ANNUAL FEES, BUNDLES, AND SUPPORT

100% Recurring fees are invoiced 45 days prior to renewal.

CHANGE ORDERS INCLUDING TIME AND MATERIAL RATES

- All service work and/or deliverables not listed, defined, or provided as optional deliverables in this document are considered outside of the scope of this project effort. Out of scope services will be invoiced at Selectron's then current Time and Material rate, currently $167.51 per hour.

- If the out of scope services require a formal change order, the Company and Customer will mutually agree in writing, which will include a scope of work, timeline for delivery, Company and Customer responsibilities and the price terms and conditions. Customer acknowledges that such Change Orders may affect the implementation schedule and dates otherwise established as part of the project plan.

- If Customer requires additional documentation, services to prepare this documentation will be invoiced at Selectron's then current Time and Material rate, currently $167.51 per hour, 4-hour minimum.

TAXES

Sales Tax or any other applicable taxes are ***not included*** in any of the pricing in this agreement. All applicable taxes will be invoiced, collected and remitted in accordance with state and local tax laws.

PAYMENT TERMS

Terms are net 30 days from date of invoice. Past due invoices are subject to a 1.5% per month late fee. All presented pricing is in US Dollars.

1. Overview

This Statement of Work (SOW) outlines the services provided by Selectron Technologies, Inc. (Selectron) to Roseville, CA (Roseville or Customer). This agreement includes the continuation of the Customer's existing Selectron solutions, with all functionality remaining unchanged.

1.1. Revision History

Version #	Details	Date
1.0	Initial Release	06/29/2021
2.0	Contract Renewal	02/10/2026

Docusign Envelope ID: F3E80904-64E3-80A3-8261-5E14223166A0

Selectron TECHNOLOGIES, INC

2. Current Functionality

Please note that for these solutions, no new functionality is included in this contract renewal agreement. This section details an overview of existing functionality that will continue to operate as outlined in the initial Statement of Work from date 6/29/2021, with additional functionality deployed since then. All functions and features continue to depend on the Customer's application database(s) being accessible to Relay to provide the requested data. The current business rules for these solutions will not be changed under this Statement of Work.

2.1. The Relay Platform – Utility Pack

The Customer's solution is currently configured with the Relay Utility Pack and, per the contract renewal, this configuration will continue. This includes:

Relay Utility IVR
Selectron will continue to maintain, support, and host the Customer's Relay IVR solutions integrated with Harris – Cayenta. All existing IVR features and functionality will continue unchanged.

Relay Outbound
Selectron will continue to maintain, support, and host the Customer's Relay Outbound solution, which includes 2 automated notifications: Bill Delinquency and Final Notice.

Screen Pop
The Relay solution will continue to use Screen Pop features and functionality for 15 agent licenses.

Custom Transfer Features
The custom express routing from the CSR to the IVR for payment processing will also be included in this contract renewal. All current functionality, including custom reporting and optional transfer back to CSR, will continue.

Administrative Tools
Selectron will continue to maintain, support, and host the administrative tools that allow the Customer to manage options and view reporting for the solution.

3. System Integration

It is anticipated that Selectron will continue integrating with the Customer's backend application database. All data-based interactivity on the solution is reliant upon data being available via the application vendor currently used APIs. If at any time the necessary data are not available via the included APIs, the solution's functionality will be affected.

Docusign Envelope ID: F3E80904-64E3-80A3-8261-5E14223166A0

4. Deployment Model

This implementation of Relay will continue being deployed in Selectron's Relay Managed Services environment. Relay Managed Services is a hosted application environment, located in Selectron's hosting facility. Selectron's hosting facility is a co-located data center featuring keyed entry and individual server locks for security. With a Managed Services solution, Selectron owns all hardware and is responsible for security, ongoing maintenance, and proactive support.

5. Responsibilities

5.1. Selectron Technologies, Inc.

This section outlines Selectron Technologies' responsibilities regarding continuation of service and solution functionality.

5.1.1. Continuation of Service

After contract renewal, Selectron Technologies' solutions for the Customer shall continue in functionality and service.

5.1.2. Interface Upgrades

Should the Customer's database application release new updates to their application or its interface, upgrading the Relay interface to be compatible with any of the Customer's application databases (or other application database software) may require professional services outside the scope of this service.

5.2. Roseville, CA

This section outlines the Customer's service implementation and maintenance requirements and responsibilities.

5.2.1. Provide System Access

Selectron Technologies may require access to the Customer's network and database/ system. Changing or deleting access accounts could disrupt service for the interactive solution and/or Selectron Technologies' ability to provide timely support. Please notify Selectron Technologies immediately if the accounts for the Application Database, the payment gateway, or the network are modified. The Customer is responsible for providing Selectron with appropriate application database and payment gateway network access as defined in the System Integration section.

Docusign Envelope ID: F3E80904-64E3-80A3-8261-5E14223166A0

5.2.2. Contact Customer Support

Anytime the Customer requests a significant change to their Selectron interactive solution, an authorized contact from the agency must provide acknowledgment to Selectron's Customer Support Department. The Customer is responsible for updating Selectron of the current authorized contact and any changes to the contact in the future. A significant change is a modification that will A) change system behavior, B) allow users to change the system, or C) allow access to protected data.

Docusign Envelope ID: F3E80904-64E3-80A3-8261-5E14223166A0

Selectron TECHNOLOGIES, INC.

Master Services and Hosting Agreement

This Master Services and Hosting Agreement (this "**Agreement**") by and between Selectron Technologies, Inc., an Oregon corporation having a principal place of business at 12323 SW 66th Avenue, Portland, OR 97223, and its successors and assigns ("**Selectron**"), and Roseville, CA ("**Licensee**").

Recitals

Whereas, as between Selectron and Licensee, Selectron is the owner of all rights, titles, and interest in and to certain software and materials, identified more particularly in this Agreement as the "**Licensed Software**"; and

Whereas, Selectron wishes to grant to Licensee, and Licensee desires to obtain from Selectron, certain rights to access and use, and to permit authorized Licensee employees to access and use the Licensed Software through Selectron's application hosting service, as more particularly described below and in accordance with the terms and conditions of this Agreement.

Now, Therefore, in consideration of the mutual promises and covenants contained herein, the parties agree to the following terms and conditions, which set forth the rights, duties and obligations of the parties:

Agreement

1. Definitions

For purposes of this Agreement, the following terms shall have the following meanings. Any capitalized terms used in this Agreement that are not defined in this Section 1 shall have the meaning given to them elsewhere in this Agreement.

1.1 "**Aggregate Data**" means information, data, and statistics about a group of individuals, organizations, or transactions that cannot be used to identify Licensee or a particular individual, including Licensee Data that has been de-identified and anonymized and combined with data about other individuals and transactions.

1.2 "**Authorized User**" means an Employee that Licensee provides with access to the Licensed Software.

1.3 "**Customer Tools**" means the Licensed Software components and interfaces that, as described in the Documentation, are designed and intended to be accessed by customers of Licensee through an application that is set up and maintained as part of the Services and/or Licensee's website.

1.4 "**Derivative Work**" shall mean a new or modified work that is based on or derived from a preexisting work, including, without limitation, a work that in the absence of a license, would infringe the Intellectual Property Rights associated with such preexisting work.

1.5 "**Documentation**" shall mean the standard documentation for the Licensed Software, as generally provided by Selectron to its other customers.

1.6 "**Employee**" shall mean a then-current employee of Licensee.

1.7 "**Intellectual Property Rights**" shall mean all rights associated with (a) patents, designs, algorithms, and other industrial property rights; (b) works of authorship, including copyrights, "moral rights", and derivative works thereof; (c) the protection of trade and industrial secrets and confidential information; (d) Trademarks (as defined herein); (e) all other intellectual and industrial property rights (of every kind and nature throughout the world and however designated), whether arising by operation of law, contract, license, or otherwise; and (f) all registrations, initial applications, divisions, continuations, renewals, extensions, divisions, and re-issuances of any of the foregoing, now existing or acquired in the future.

1.8 "**Licensed Software**" shall mean, collectively, (a) the software programs that are listed in Exhibit A and further described in the included Statement of Work; (b) the Documentation; and (c) any Updates.

Docusign Envelope ID: F3E80904-64E3-80A3-8261-5E14223166A0

1.9 "**Licensee Data**" means structured data about and identifiable to customers of Licensee, including without limitation data about transactions between such customers and Licensee, (a) that Licensee provides to Selectron to enable Selectron to provide the Licensed Software and the Services, (b) that Selectron collects from Licensee's customers to facilitate payments by those customers to Licensee, or (c) that Selectron otherwise collects or creates, including by automated means, in the course of performing the Services or providing the Licensed Software to Licensee.

1.10 "**PCI Data**" means Cardholder Data (including, without limitation, Primary Account Number, cardholder name, expiration date, and Service Code) and Sensitive Authentication Data (including without limitation full magnetic stripe data or the equivalent on a chip, CAV2/CVC2/CW2/CID, PINs/PIN block), as such terms are defined by the PCI Security Standards Council.

1.11 "**Security Incident**" means a breach of security resulting in an unauthorized third party gaining access to Licensee Data if (a) such breach creates a substantial risk of harm to Licensee or any individual(s) and (b) the Licensee Data was accessed in unencrypted, usable, or readable form or it is reasonably likely that the unauthorized third party has acquired or will acquire the decryption key or other means of converting the Licensee Data to readable or usable form.

1.12 "**Services**" means the outbound call management, customization, training, set-up, configuration, or other services listed in Exhibit A and further described in the included Statement of Work hereto, the Technical Support Services, and any other services Selectron provides to Licensee as described herein.

1.13 "**Technical Support Services**" means the maintenance and technical support services described in Exhibit B hereto.

1.14 "**Term**" shall have the meaning set forth in Section 11.1.

1.15 "**Trademarks**" shall mean (a) the trademarks, trade names, and service marks used by a party, whether registered or unregistered; (b) the respective stylistic marks and distinctive logotypes for such trademarks, trade names, and service marks; (c) such other marks and logotypes as either party may designate from time to time in writing; and (d) the goodwill connected with the use of and symbolized by any of the foregoing.

1.16 "**Updates**" shall mean any modifications, error corrections, bug fixes, new releases, or other updates of or to Licensed Software, including the Documentation, that may be provided or otherwise made available hereunder by Selectron to Licensee during the Term.

1.17 "**Work Product**" means any and all work product, deliverables, materials, drawings, works of authorship, creative works, designs, inventions, documentation, methods, processes, techniques, software, reports, or data created or developed by Selectron in the course of performing the Services or providing the Licensed Software, excluding Licensee Data.

2. Grant of License; Restrictions

2.1 Grant of License to Use Licensed Software. Subject to the terms and conditions of this Agreement, including the End User License Agreement ("**EULA**") attached hereto as Exhibit D which is incorporated into and made a part hereof, and the timely payment of all fees hereunder, Selectron hereby grants to Licensee a non-exclusive, nontransferable, nonsublicensable, limited license, during the Term, to access and use the Licensed Software solely in accordance with the Documentation and the EULA and solely for Licensee's own internal business use. Except as set forth in this Section 2.1 or the EULA, no other right or license of any kind is granted by Selectron to Licensee hereunder with respect to the Licensed Software.

2.2 Software Restrictions. Licensee hereby acknowledges and agrees that it shall not use the Licensed Software for any purpose other than the purpose for which Selectron has developed the Licensed Software, and that it shall use the Licensed Software in accordance with the EULA and all applicable laws, rules, and regulations. In the event of any violation of this Section 2.2 or the terms of the EULA by Licensee or any person Licensee provides with access to the Licensed Software (whether or not such person is an Authorized User), Selectron may terminate this Agreement in accordance with Section 11.2, and shall be entitled to equitable relief in accordance with Section 12.5.

2.3 Data Restrictions. Selectron hereby acknowledges that the Licensee Data may contain sensitive, personally-identifiable information. Selectron will not disclose Licensee Data to any third-party except as required to perform its obligations under this Agreement

Docusign Envelope ID: F3E80904-64E3-80A3-8261-5E14223166A0

(e.g., transmittal of PCI Data to Licensee's designated payment gateway) and will maintain and use the Licensee Data only for purposes of performing its obligations under this Agreement. Except as otherwise expressly provided herein, Selectron will promptly delete any Licensee Data that Licensee requests in writing to be deleted (except for data retention required by law).

2.4 Rights in Aggregate Data. Notwithstanding Section 2.3, Selectron may, (a) during the term of this Agreement, use and analyze the Licensee Data to generate Aggregate Data and (b) during and after the term of this Agreement, retain, use, publish, and otherwise disclose Aggregate Data without restriction, so long as the Aggregate Data is disclosed in a form in which it cannot be used to identify Licensee or any particular individual(s). By way of example and without creating any limitation, Selectron may analyze the Licensee Data along with data gathered from other sources to generate statistics and analytics about success rates of municipalities in collecting payments in response to application notification calls.

3. Deliverables and Services

3.1 Services. Selectron shall perform the Services described in Exhibit A and the included Statement of Work and the Technical Support Services described in Exhibit B in accordance with the terms of this Agreement.

3.2 Delivery, Testing, and Acceptance. All deliveries of equipment or physical goods required under this Agreement shall be F.C.A. Selectron's facilities. Selectron shall provide Licensee with the Documentation and access to the Licensed Software according to the delivery, testing, and acceptance schedule and terms and conditions set forth in Exhibit A and the included Statement of Work. Unless a testing period of different duration is set forth in Exhibit A or the included Statement of Work, Licensee shall have a testing period of thirty (30) days from the date of delivery of any Licensed Software, including any customized Licensed Software, to inspect and test the Licensed Software. If Licensee provides Selectron with written notice during the applicable testing period describing the Licensed Software's failure to substantially comply with the limited warranty set forth in Section 7.2 in sufficient detail to enable Selectron to reproduce such failure, the Service Fees for the non-conforming Licensed Software shall be suspended until Selectron corrects any such substantial non-conformity. If Licensee does not provide such notice during the testing teriod, the Licensed Software shall be deemed accepted, and Licensee's sole remedy for any non-conformance shall be the Technical Support Services provided hereunder.

3.3 Authorized Users; Licensee Identification and Passwords. Except as provided in Section 3.4, Licensee shall not permit any person to access the Licensed Software other than Employees whom Licensee has designated as Authorized Users. Each individual natural person shall be a separate Authorized User for purposes of this Agreement. Licensee shall create or request that Selectron create unique log-in credentials, consisting of a "**User Identification**" and "**User Password**", for each individual Authorized User who shall be accessing the Licensed Software. Licensee hereby acknowledges that Licensee and its Authorized Users bear sole responsibility for protecting the confidentiality of all User Passwords and shall remain fully responsible and liable for(and Selectron shall not be responsible or liable for) any unauthorized use of any User Identifications or User Passwords. Licensee shall not share or disclose, and shall not permit any Authorized User to share or disclose, such Authorized User's log-in credentials with or to any other individual or entity, even if such other individual is also anAuthorized User. A User Identification may not be transferred from one Authorized User to another Authorized User. Licensee shall promptly terminate (or cause to be terminated by requesting that Selectron terminate) the User Identification for any individual who ceases to be an Authorized User for any reason, including without limitation due to termination of such individual's employment with Licensee. Licensee shall promptly notify Selectron if it discovers or suspects that any log-in credentials have been accessed or used by any person other than the Authorized User to which such log-in credentials were granted, in which case Selectron shall promptly reset or provide Licensee with a means of resetting the password associated with such log-in credentials.

3.4 Customer Tools. Licensee maypermit its customers to access and use the Customer Tools solely through Licensee's website and/or an application that is set up and maintained as part of the Services, and solely for the purpose of enabling such customers to (a) receive notifications sent by or on behalf of Licensee, (b) make payments to Licensee, (c) view their invoices from Licensee and history of payments to Licensee, and (d) update their contact information with Licensee.

3.5 Hosting. During the Term, Selectron and/or its designees shall host and maintain the Licensed Software, and provide access thereto, subject to the terms and conditions of this Agreement and the EULA.

3.6 Updates, Maintenance, and Technical Support. During the Term, Selectron shall provide

Docusign Envelope ID: F3E80904-64E3-80A3-8261-5E14223166A0

Licensee with Updates as they are made generallyavailable by Selectron to its other customers, as well as maintenance and technical support, in accordance with the terms and conditions set forth in Exhibit B. Any Updateprovided or made available by Selectron hereunder shall be deemed part of the Licensed Software and shall be subject to the terms and conditions of this Agreement.

3.7 Other Modifications to the Licensed Software. Licensee understands and agrees that Selectron may make modifications and updates to the Licensed Software from time to time. Selectron may determine in its sole discretion whether to provide such modifications and updates to Licensee and its other customers as an Update hereunder, or whether such modifications andupdates will be issued as a separate or new product or premium version of the Licensed Software that is available only at an additional charge.

3.8 Further Licensee Obligations. Licensee shall be solely responsible for acquiring and maintaining, at its own expense, the necessary equipment and Internet and telecommunication services required to access the Licensed Software and the Services. Licensee acknowledges that Selectron shall have no obligation to assist Licensee in using or accessing the Licensed Software or the Service except as expressly set forth in this Agreement.

4. Fees and Payment

4.1 Service Fees. Licensee shall pay to Selectron service fees ("**Service Fees**") in the amounts and according to the terms and conditions set forth in Exhibit A. In addition to the payment of Service Fees, unless different terms are provided for in Exhibit A, Licensee agrees to reimburse Selectron for all actual, documented and reasonable travel and out-of-pocket expenses incurred by Selectron in connection with the performance of any Services.

4.2 Payment Terms. Unless different payment terms are set forth in Exhibit A, all fees and expenses payable hereunder shall be due thirty (30) days from the date of invoice, and any amounts not paid when due will incur late fee charges at the rate of 1.5% per month, or the maximum rate permitted by applicable law, whichever is lower, calculated on a daily basis. If any amounts are past due and outstanding, Selectron reserves the right to suspend the licenses granted hereunder, suspend access to the Licensed Software, and discontinue the Services until all outstanding amounts are paid. Selectron is entitled to recover all costs of collection, including attorney's fees and related expenses.

4.3 Disputed Amounts. Any disputed charges must be presented by Licensee to Selectron in writing within fifteen (15) days of the date of invoice, and the parties agree to cooperate in good faith to promptly resolve any disputed invoice within fifteen (15) days of Selectron's receipt of Licensee's written notice of dispute. In the event Licensee disputes any amounts invoiced by Selectron in good faith, the undisputed amount shall be paid when due, and only disputed amounts shall be withheld pending resolution of the dispute. If payment ofa disputed amount has already been made and later resolution of the dispute is in Licensee's favor, a credit will be issued by Selectron to Licensee on the next invoice.

4.4 Fee Increases. During the Initial Term, the Service Fees set forth in Exhibit A shall apply. After the Initial Term (as defined in Section 11.1 below), Selectron may increase or change its fees by providing Licenseewith notice of such increase or change at least ninety (90) days prior to the effective date of such increase or change. Licensee's sole alternative to such fee increase or change shall be to terminate this Agreement by providing notice of termination to Selectron within twenty (20) days after receipt of the notice of price increase or change, which termination will become effective thirty (30) days after such written notice of termination.

4.5 Taxes. All prices set forth in this Agreement are in U.S. Dollars and are exclusive of any applicable taxes. Licensee shall pay, indemnify, and hold Selectron harmless from all import and export duties, customs fees, levies, or imposts, and all sales, use, value added, or other taxes or governmental charges of any nature, including penalties and interest, and all government permit or license fees assessed upon or with respect to any products sold, leased, or licensed to Licensee and any services rendered to Licensee; provided, however, that Licensee shall not be responsible for paying any taxes imposed on, or with respect to, Selectron's income, revenues, gross receipts, personnel, or real or personal property or other assets.

5. Proprietary Rights

As between Selectron and Licensee, Selectron and/or its licensors own and shall retain all right, title and interest, including, without limitation, all Intellectual Property Rights in and to the Licensed Software and any Work Product resulting from performance of the Services and any portions thereof, including without limitation any copy

Docusign Envelope ID: F3E80904-64E3-80A3-8261-5E14223166A0

or Derivative Work of the Licensed Software (or any portion thereof) and any Updates and upgrades thereto. Licensee agrees to take any action reasonably requested by Selectron to evidence, maintain, enforce, or defend the foregoing. Licensee shall not take any action to jeopardize, encumber, limit, or interfere in any manner with Selectron's or its licensors' ownership of and rights with respect to the Licensed Software or Service, or any Derivative Work or Update or upgrade thereto. The Licensed Software and any Work Product are licensed, not sold, and Licensee shall have only those rights in and to the Licensed Software and Work Product and any Derivative Work or Update or upgrade thereto as are expressly granted to it under this Agreement, including the EULA.

6. Proprietary Information

During the Term of this Agreement and after the termination of this Agreement, the parties will take all steps reasonably necessary to hold the other party's Proprietary Information in confidence, will not use the disclosing party's Proprietary Information in any manner or for any purpose not expressly set forth in this Agreement, and will not disclose any such Proprietary Information to any third party without the disclosing party's expressprior written consent; provided, however, that each party (the "**receiving party**") may disclose Proprietary Information of the other party (the "**disclosing party**") (a) to such receiving party's employees, directors, officers, contractors, and agents (collectively, "**Representatives**") who have a need to know such information and who have been advised of and have agreed to comply with the confidentiality restrictions contained in this Section 6 and (b) to such third parties as are authorized or directed by the disclosing party in writing. Each party shall be responsible and liable for the actions and omissions of its Representatives. "**Proprietary Information**" belonging to a disclosing party includes, but is not limited to, such disclosing party's (a) trade secrets, inventions, ideas, processes, formulas, source and object codes, data, other works of authorship, know-how, improvements, discoveries, developments, designs, and techniques; (b) information regarding its plans for research, development, new products, marketing and selling, budgets and unpublished financial statements, licenses, prices and costs, suppliers and customers; (c) information regarding the skills and compensation of employees, and (d) other information about or belonging to such disclosing party that the receiving party should reasonably know, due to the nature of the information or the circumstances surrounding its disclosure, is regarded by the disclosing party as confidential. Proprietary Information includes reports, analyses, notes, and other information or materials that contain or are derived using the disclosing party's Proprietary Information, even if developed in whole or in part by the receiving party.

For clarity, information about the Licensed Software, including information about its features, functionality, and pricing, are and shall remain the Proprietary Information of Selectron. For further clarity, Licensee Data is and shall remain the Proprietary Information of Licensee.

Notwithstanding the foregoing, information will not be considered to be Proprietary Information if (a) it is readily available to the public other than by a breach of this Agreement; (b) it has been rightfully received by the receiving party from a third party without confidentiality limitations; (c) it has been independently developed by the receiving party without reference to or use of the disclosing party's Proprietary Information; or (d) it was rightfully known to the receiving party prior to its first receipt from the disclosing party. The receiving party shall be entitled to disclose the disclosing party's Proprietary Information if required by law or a judicial order; provided that the receiving party first provides prompt notice of the required disclosure to the disclosing party, and complies with any protective or similar order obtained by the disclosing party limiting the required disclosure.

7. Representations and Warranties; Warranty Disclaimer.

7.1 Mutual Representations. Each party represents and warrants to the other party that the execution, delivery and performance of this Agreement (a) is within its corporate, municipal, or governmental powers, as the case may be (b) has been duly authorized by all necessary corporate, municipal, or governmental action on such party's part, and (c) does not and shall not contravene or constitute a default under, and is not and shall not be inconsistent with, any law, regulation, judgment, decree or order, or any contract, agreement, or other undertaking, applicable to such party.

7.2 Limited Software Warranty and Exclusive Remedy. Subject to the limitations set forth in this Agreement, Selectron represents and warrants to Licensee that the Licensed Software, when used in accordance with the Documentation, shall throughout the Term substantially conform to the functional specifications in such Documentation. If Licensee finds what it reasonably believes to be a failure of the Licensed Software to substantially conform to the functional specifications in the Documentation, and provides Selectron with a written report that describes such failure

Docusign Envelope ID: F3E80904-64E3-80A3-8261-5E14223166A0

in sufficient detail to enable Selectron to reproduce such failure, Selectron shall use commercially reasonable efforts to correct or provide a workaround for such failure at no additional charge to Licensee in accordance with Exhibit B hereto. Outside the United States, this limited warranty is only available with proof of purchase from an authorized source. EXCEPT FOR THE EXPRESS WARRANTY ABOVE, SELECTRON PROVIDES THE LICENSED SOFTWARE TO LICENSEE "AS IS" AND "AS AVAILABLE." SELECTRON MAKES NO WARRANTY THAT ALL ERRORS, FAILURES, OR DEFECTS SHALL BE CORRECTED, OR THAT ACCESS TO OR USE OF THE LICENSED SOFTWARE SHALL BE UNINTERRUPTED, ERROR-FREE, OR SECURE. NO ORAL OR WRITTEN INFORMATION OR ADVICE PROVIDED BY SELECTRON, ITS AGENTS, OR ITS EMPLOYEES, SHALL CREATE ANY WARRANTY OR IN ANY WAY INCREASE THE SCOPE OF THE WARRANTIES EXPRESSLY PROVIDED IN THIS
AGREEMENT. This Section states the entire liability of Selectron and the sole and exclusive remedy of Licensee with respect to any breach of the foregoing express warranty.

7.3 Limited Services Warranty and Exclusive Remedy. Subject to the limitations set forth in this Agreement, Selectron warrants that the Services shall be performed in a professional and workmanlike manner. Selectron's sole obligation, and Licensee's exclusive remedy for breach of the foregoing warranty, is that Selectron shall use its commercially reasonable efforts to re-perform the Services or otherwise cure such breach. If, in Selectron's sole judgement, curing the breach is not commercially feasible, Selectron shall credit Licensee for a portion of the fees allocable to the affected period of time that is proportionate to the period the Services or Licensee's ability to access or use the Licensed Software was impaired.

7.4 Disclaimer of Other Warranties. THE EXPRESS WARRANTIES SET FORTH IN THIS SECTION 7 AND SECTION 8.5.5 CONSTITUTE THE ONLY WARRANTIES MADE BY SELECTRON WITH RESPECT TO THE LICENSED SOFTWARE AND THE SERVICES AND ANY OTHER SUBJECT MATTER OF THIS AGREEMENT. SELECTRON MAKES NO OTHER, AND HEREBY DISCLAIMS ALL OTHER, REPRESENTATIONS, WARRANTIES, OR CONDITIONS OF ANY KIND, WHETHER EXPRESS, IMPLIED (EITHER IN FACT OR BY OPERATION OF LAW), OR STATUTORY, WITH RESPECT TO THE LICENSED SOFTWARE, THE SERVICES, OR ANY OTHER SUBJECT MATTER OF THIS AGREEMENT. SELECTRON EXPRESSLY DISCLAIMS ALL WARRANTIES OR CONDITIONS OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, AND NONINFRINGEMENT, AND ALL WARRANTIES THAT MAY ARISE FROM COURSE OF DEALING, COURSE OF PERFORMANCE, OR USAGE OF TRADE. SELECTRON DOES NOT WARRANT THAT ANY USE OF OR ACCESS TO THE LICENSED SOFTWARE SHALL BE ERROR-FREE OR SECURE, OR THAT OPERATION OF THE LICENSED SOFTWARE SHALL BE UNINTERRUPTED, AND HEREBY DISCLAIMS ANY AND ALL LIABILITY IN CONNECTION THEREWITH. LICENSEE ACKNOWLEDGES THAT IT HAS RELIED ON NO WARRANTIES OTHER THAN THE EXPRESS WARRANTIES IN SECTION 7 AND SECTION 8.55 OF THIS AGREEMENT.

7.5 Defects Not Covered by Warranties. Selectron shall have no obligations under Section 7.2 to the extent any nonconformance or failure of, or error in, the Licensed Software is caused by (a) use of any attachment, feature, hardware, software, or device in connection with the Licensed Software, or combination of the Licensed Software with any other materials or service, unless the combination is performed by Selectron;
(b) transportation, neglect, misuse, or misapplication of the Licensed Software, or any use of the Licensed Software that is not in accordance with this Agreement, the EULA, and/or the Documentation; (c) alteration, modification, or enhancement of the Licensed Software, except as may be performed by Selectron; (d) failure to provide a suitable use environment for all or any part of the Licensed Software; or (e) failure to maintain systems and environments that are compatible with Updates.

8. Security

8.1 Internet Security. Selectron's Licensed Software is made available through the Internet and may be used to access and transfer information over the Internet. Licensee is solely responsible for the security and integrity of information it transfers from the Licensed Software, if any. Selectron makes no representations or warranties to Licensee regarding (a) the security or privacy of Licensee's network environment, or (b) any third-party technologies' or services' ability to meet Licensee's security and privacy needs. These third-party technologies and services may include, but are not limited to, operating systems, database management systems, web servers, and payment processing services. Licensee is solely responsible for ensuring a secure environment for information it transfers from the Licensed Software, if any. Further, Licensee acknowledges and agrees that Selectron does not operate or control the Internet and that Selectron shall have no responsibility or liability in connection with a breach of security or privacy regarding the Licensed Software or information contained therein that is caused by (a) viruses, worms, Trojan horses, or other undesirable data or software; (b) unauthorized users, e.g., hackers; or

Docusign Envelope ID: F3E80904-64E3-80A3-8261-5E14223166A0

(c) any other third party or activity beyond Selectron's reasonable control; in each of the foregoing cases, except to the extent caused by Selectron's breach of Section 8.4 or 8.5.

8.2 Remote Access Security. In order to enable code development and support and maintenance of the software, Selectron may require remote access capability. Remote access is normally provided by installing PC-Anywhere, ControlIT, or other industry standard remote access software. It may also be provided through a Licensee solution such as VPN access. Regardless of what method is used to provide remote access, or which party provides remote access software, it is Licensee's responsibility to ensure that the remote access method meets Licensee's security requirements. Selectron makes no representations or warranties to Licensee regarding the remote access software's ability to meet Licensee's security or privacy needs. Selectron also makes no recommendation for any specific package or approach with regard to security. Licensee is solely responsible for ensuring a secure network environment.

8.3 Outbound Services Disclaimer. Outbound services are intended to create additional methods of communication for Licensee's employees who use the Licensed Software in support of existing processes. These services are not intended to replace all interaction with Licensee's end users or employees. While the outbound services have been created with the best available tools and practices, they are dependent on infrastructure that is inherently not fail-proof, including but not limited to infrastructure such as software, computer hardware, network services, telephone services, and e-mail. Examples of situations that could cause failure include but are not limited to: down phone lines, all lines busy, equipment failure, email address changes, and Internet service disruptions. For this reason, while outbound services are valuable in providing enhanced communication, they are specifically not designed to be used as the sole method to deliver critical messages. Licensee acknowledges that it is aware of the potential hazards associated with relying on an automated outbound service feature, when using the Licensed Software, and Licensee acknowledges and agrees that it is giving up in advance any right to sue or make any claim against Selectron, and that Licensee forever releases Selectron from any and all liability caused by (a) any failed call attempts (including excess of calls over and above network or system capacity), incomplete calls, or any busy-outs; (b) any failure to transmit, obtain or collect data from callers or for human and machine errors, faulty or erroneous input, inarticulate caller communication, caller delays or call lengths exceeding estimated call lengths or omissions, delays and losses in connection with the Services provided hereunder; or (c) if Licensee, Licensee's employees, or Licensee's end user suffer injury or damage due to the failure of outbound services to operate, even though Licensee does not know what or how extensive those injuries or damages might be, unless such losses were directly attributable to Selectron's gross negligence or willful misconduct.

8.4 Privacy and Security Standards. Selectron agrees that it will gather, collect, receive, generate, store, use, maintain, transmit, process, import, export, transfer and disclose the Licensee Data substantially in compliance with applicable data protection, security, breach notification and privacy laws, rules, regulations and industry standards to which Selectron is subject. Selectron shall, at all times, use reasonable measures to protect the confidentiality of the Licensee Data in its possession or care, including technical, administrative, and physical safeguards that are appropriate given the nature of the Licensee Data.

8.5 PCI Compliance. Selectron warrants that, during the Term of this Agreement, (a) all system components, people, processes, and the cardholder data environment that are used in Selectron's collection, transmittal, or other processing of PCI Data on behalf of Licensee are and shall remain compliant with the applicable provisions of PCI DSS; and (b) Selectron PayEngine™, Selectron's proprietary payment application, is and shall remain compliant with PA-DSS. On an annual basis or upon Licensee's request, Selectron shall provide Licensee with an Attestation of Compliance or Attestation of Validation confirming such compliance.

8.6 Incident Response. In the event Selectron becomes aware of a confirmed or suspected Security Incident involving the unauthorized disclosure or theft of PCI Data, Selectron shall (a) notify Licensee, (b) cooperate in any investigation, (c) promptly take reasonable measures to prevent further unauthorized access or use of the Licensee Data, (d) cooperate with Licensee's notification to affected individuals if such notification is required by applicable law or regulation, and (e) perform all such other acts, or cooperate with Licensee's performance of all such other acts, that are required with respect to such Security Incident by applicable law or regulation.

8.7 Limited Scope of PCI Data Processing. The parties acknowledge that Selectron's sole processing of PCI Data on behalf of Licensee shall consist of (a)

Docusign Envelope ID: F3E80904-64E3-80A3-8261-5E14223166A0

collecting PCI Data needed to facilitate payments to Licensee, (b) transmitting such PCI Data to a third party payment gateway designated by Licensee, and (c) receiving confirmation via the payment gateway that the payment transaction has been completed. After transmittal of PCI Data to the payment gateway, Selectron will not retain, store, or continue to use or process such PCI Data.

8.8 Data Transfers Between Licensee and Selectron. The parties acknowledge that, to facilitate providing the Services and the Licensed Software, Selectron and Licensee shall regularly transfer Licensee Data to each other. Licensee, not Selectron, is responsible for providing and maintaining a secure file transfer protocol for such transfer of Licensee Data, and shall be responsible for maintaining the security of the system components, environment, and procedures of such file transfer protocol.

8.9 Licensee's Privacy Practices. Licensee acknowledges that the Licensee Data includes information about individuals with whom Licensee, rather than Selectron, has direct relationships. Therefore, it is Licensee's obligation, and not Selectron's obligation, to provide any privacy notices or disclosures to, and obtain any consent from, such individuals as may be required by applicable law with respect to processing of the Licensee Data by Selectron on Licensee's behalf. Licensee represents, warrants, and covenants to Selectron that (a) Licensee has the authority to transmit the Licensee Data to Selectron; and (b) Selectron's collection, storage, transmittal, and other processing of the Licensee Data on behalf of Licensee, as described in the Documentation and this Agreement, does not and will not violate any applicable laws, regulations, ordinances, contracts, policies, orders, or decrees to which Licensee is subject.

9. Indemnification

9.1 Infringement Indemnity Obligations of Selectron. Selectron shall defend any action brought against Licensee to the extent it is based on a third party claim that use by Licensee of the Licensed Software as furnished hereunder, which use is in accordance with the terms and conditions of this Agreement, directly infringes or misappropriates any valid United States patent, copyright, or trade secret. Selectron shall pay any liabilities, costs, damages, and expenses (including reasonable attorney's fees) finally awarded against Licensee in such action that are attributable to such claim. Licensee agrees to promptly notify Selectron of any known or suspected infringement or misappropriation of Selectron's proprietary rights of which Licensee becomes aware. Should the Licensed Software become, or be likely to become in Selectron's opinion, the subject of any claim of infringement, Selectron may, at its option (a) procure for Licensee the right to continue using the potentially infringing materials; (b) replace or modify the potentially infringing materials to make them non-infringing; or (c) terminate this Agreement and provide Licensee with a refund equal to the set-up fees paid by Licensee, less an amount equal to the depreciated portion of such fees calculated on a five (5) year straight-line basis. This Section 9.1 states the entire liability of Selectron andthe exclusive remedy of Licensee with respect to infringement of any third-party intellectual property or other rights, whether under theory of warranty, indemnity, or otherwise.

9.2 Infringement Indemnity Obligations of Licensee. Selectron shall have no liability for any claim based upon (a) the use, operation, or combination of the Licensed Software with non-Selectron programs, data, equipment, or documentation if liability would have been avoided but for such use, operation, or combination; (b) use of other than the then-current, unaltered version of the Licensed Software that incorporates all Updates; (c) Licensee's or its agents' or Employees' activities after Selectron has notified Licensee that Selectron believes such activities may result in infringement; (d) any modifications to or markings of the Licensed Software that are not specifically authorized in writing by Selectron; (e) any third party software; (f) any Licensee Data; or (g) Licensee's breach or alleged breach of this Agreement. Licensee shall indemnify, defend, and hold Selectron harmless for, from and against all liabilities, costs, damages, and expenses (including reasonable attorney's fees) awarded against or incurred by Selectron in such action(s) that are attributable to such claim.

9.3 Security Related Indemnity Obligations of Selectron. If an investigation performed by a qualified third party forensic investigator confirms that a Security Incident was caused solely by an act or omission of Selectron, including any security vulnerability in system components, procedures, or environments owned or controlled by Selectron, then Selectron shall defend, indemnify, and hold harmless Licensee for, from and against all liabilities, costs, damages, fines, penalties, and expenses (including reasonable attorney's fees) incurred by Licensee as a result of such Security Incident, including the reasonable costs of investigation and reasonablecosts of notification to affected individuals and providing credit monitoring or other fraud prevention services, but only to the extent such notification, credit monitoring, or other

Docusign Envelope ID: F3E80904-64E3-80A3-8261-5E14223166A0

fraud prevention services are required by applicable laws, regulations, a court order or consent decree, or the terms of a settlement and release of claims arising from such Security Incident that Selectron has consented to (collectively, "**Losses**").

9.4 Security Related Indemnity Obligations of Licensee. Selectron shall have no liability or obligation to defend or indemnify Licensee with respect to any Losses caused by Licensee's breach of Sections 8.8 or 8.9 or any Security Incident to the extent caused in whole or in part by an act or omission of Licensee or any third party (other than Selectron's subcontractors) or any of their affiliates, employees, directors, officers, agents, or contractors (other than Selectron), including without limitation any of the following acts or omissions: (a) their loss of control of any device, (b) their failure to maintain the confidentiality of log-in credentials, (c) their transmission of data via methods that are not secure, (d) their failure to maintain systems and environments that are compatible with any Update, (e) their violation of the applicable terms of this Agreement or any applicable laws, regulations, or industry standards, or (f) any vulnerability in their environment, systems, hardware, software, or physical or administrative security safeguards or procedures, including without limitation any vulnerability in the file transfer protocol maintained by Licensee pursuant to Section 8.8. Licensee shall indemnify, defend, and hold harmless Selectron for, from and against all Losses arising from any such Security Incident or Licensee's breach of Sections 8.7 or 8.8, including without limitation any expenses incurred by Selectron in complying with its obligations under Section 8.6.

9.5 Conditions for Indemnification. The parties' indemnification obligations hereunder shall apply only if (a) the party to be indemnified (the "**indemnitee**" notifies the party obligated to indemnify them (the "**indemnitor**") in writing of a claim promptly upon learning of or receiving the same; and (b) the indemnitee provides the indemnitor with reasonable assistance requested by the indemnitor, at the indemnitor's expense, for the defense and settlement, if applicable, of any claim. The indemnitee's failure to perform any obligations or satisfy any conditions under this Section 9.5 shall not relieve the indemnitor of its obligations hereunder except to the extent that the indemnitor can demonstrate that it has been materially prejudiced as a result of such failure.

9.6 Control of Defense. After receipt of notice of a claim, the indemnitor shall be entitled, if it so elects, at its own cost, risk and expense (a) to take control of the defense and investigation of such lawsuit or action; and (ii) to employ and engage attorneys of its own choice to handle and defend the same; *provided, however,* that the indemnitee's consent shall be required for any settlement that does not include a full release of all claims. If the indemnitor fails to assume the defense of such claim within ten (10) business days after receipt of notice of the claim, the indemnitee will (upon delivering notice to such effect to the indemnitor) have the right to undertake, at the indemnitor's cost and expense, the defense, compromise or settlement of such claim on behalf of and for the account and risk of the indemnitor; provided, however, that such claim shall not be compromised or settled without the written consent of the indemnitor. The party that assumes control of the defense of the claim will keep the other party reasonably informed of the progress of any such defense, compromise or settlement. Notwithstanding the foregoing, the indemnitee shall be entitled to conduct its own defense at the cost and expense of the indemnitor if the indemnitee establishes that the conduct of its defense by the indemnitor would reasonably be likely to prejudice materially the indemnitee due to a conflict of interest between the indemnitee and the indemnitor; and provided further that in any event, the indemnitee may participate in such defense at its own expense.

10. Limitation of Liability

10.1 Limited Remedy. EXCEPT AS EXPRESSLY PROVIDED HEREIN, TO THE MAXIMUM EXTENT ALLOWED BY APPLICABLE LAW, IN NO EVENT SHALL SELECTRON OR ITS SUPPLIERS OR LICENSORS BE LIABLE FOR, OR BE OBLIGATED TO INDEMNIFY LICENSEE FOR, ANY LOSS OF PROFITS, LOSS OF BUSINESS, LOSS OF USE OR DATA, OR INTERRUPTION OF BUSINESS, OR FOR INDIRECT, SPECIAL, INCIDENTAL, CONSEQUENTIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND OR OTHER ECONOMIC LOSS ARISING FROM OR RELATING TO THIS AGREEMENT OR THE SUBJECT MATTER HEREOF, EVEN IF SELECTRON HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, HOWEVER CAUSED.

10.2 Maximum Liability. Notwithstanding anything in this Agreement to the contrary or the failure of essential purpose of any limited remedy or limitation of liability, Selectron's entire liability arising from or relating to this Agreement or the subject matter hereof, under any legal theory (whether in contract, tort or otherwise), shall not exceed the lesser of: (a) the amounts actually received by Selectron from Licensee hereunder in the twelve (12) months immediately preceding the action that gave rise to the claim; or (b) the amount actually covered and paid by Selectron's insurance carrier for the applicable claim. Licensee acknowledges that the Service Fees reflect the allocation of risk set forth in this Agreement and that

Docusign Envelope ID: F3E80904-64E3-80A3-8261-5E14223166A0

Selectron would not enter into this Agreement without the limitations on liability set forth in this Agreement. This limitation of liability provision does not reduce available insurance.

11. Term and Termination

11.1 Term. The term of this Agreement shall commence on the Effective Date and continue for an initial period of four (4) years therefrom (the "**Initial Term**"), and shall may renew for successive one (1) year periods (collectively, the "**Term**"). If Licensee cancels prior to the end of the Initial Term of four (4) years, all fees for the Initial Term of this agreement that are unpaid will become immediately due.

11.2 Termination for Default. If either party materially defaults in any of its obligations under this Agreement, the non-defaulting party, at its option, shall have the right to terminate this Agreement by written notice to the other party unless, within sixty (60) calendar days after written notice of such default, the defaulting party remedies the default, or, in the case of a default which cannot with due diligence be cured within a period of sixty (60) calendar days, the defaulting party institutes within the sixty (60) day-period substantial steps necessary to remedy the default and thereafterdiligently prosecutes the same to completion. Notwithstanding anything herein to the contrary, in the event Licensee breaches the EULA or Sections 2.2, 5 and/or 6 of this Agreement, Selectron may immediately terminate this Agreement. Licensee shall notify Selectron within twenty-four (24) hours of Licensee's becoming aware of any breach (other than by Selectron) of the terms and conditions of this Agreement, including, without limitation, any breach of Sections 2.2, 5 or 6.

11.3 Termination for Bankruptcy. Either party may terminate this Agreement if the other party (a) becomes insolvent; (b) fails to pay its debts or perform its obligations in the ordinary course of business as they mature; (c) is declared insolvent or admits its insolvency or inability to pay its debts or perform its obligations as they mature; or (d) becomes the subject of any voluntary or involuntary proceeding in bankruptcy, liquidation, dissolution, receivership, attachment, or composition, or makes a general assignment for the benefit of creditors, provided that, in the case of an involuntary proceeding, the proceeding is not dismissed with prejudice within sixty (60) days after the institution thereof.

11.4 Effect of Termination. Upon the expiration or termination of this Agreement, all rights and licenses granted to Licensee hereunder shall immediately and automatically terminate. Within ten (10) days after any termination or expiration of this Agreement, Licensee shall, at its sole expense, return to Selectron (or destroy, at Selectron's sole election) all Licensed Software and Proprietary Information of Selectron (and all copies, summaries, and extracts thereof) then in the possession or under the control of Licensee and its current or former employees. Licensee shall furnish to Selectron an affidavit signed by an officer of Licensee certifying that, to the best of its knowledge, such delivery or destruction has been fully effected. Termination of this Agreement by either party shall not act as a waiver of any breach of this Agreement and shall not act as a release of either party from any liability for breach of such party's obligations under this Agreement. Neither party shall be liable to the other for damages of any kind solely as a result of terminating this Agreement in accordance with its terms. Either party's termination of this Agreement shall be without prejudice to any other right or remedy that itmay have at law or in equity, and shall not relieve either party of liability for breaches occurring prior to the effective date of such termination. Any provisions that would reasonably be expected by the parties to survive termination of this Agreement shall survive such termination, including without limitation the provisions of the EULA and Sections 1 ("Definitions"), 2.2 ("Software Restrictions"), 2.3 ("Data Restrictions"), 2.4 ("Rights in Aggregate Data"), 4 ("Fees and Payment") (with respect to amounts accrued but as-yet unpaid), 5 ("Proprietary Rights"), 6 ("Proprietary Information"), 7 ("Representations and Warranties; Warranty Disclaimer"), 8 ("Security"), 9 ("Indemnification"), 10 ("Limitation of Liability"), 11 ("Term and Termination") and 12 ("General Provisions").

12. General Provisions

12.1 Notices. Any notice, request, demand or other communication required or permitted hereunder shall be in writing, shall reference this Agreement, and shall be deemed to be properly given (on the earliest of) (a) when delivered personally; (b) when sent by facsimile, with written confirmation of receipt; or (c) upon receipt three (3) days after having been sent by registered or certified mail, return receipt requested, postage prepaid. All notices shall be sent to the address set forth on the signature page below (or to such other address as may be designated by a party by giving written notice to theother party pursuant to this Section 12.1).

12.2 Governing Law; Jurisdiction. This Agreement shall be governed by and construed in accordance with the laws of the State of California, U.S.A.,

Docusign Envelope ID: F3E80904-64E3-80A3-8261-5E14223166A0

without reference to its conflicts of law provisions. The United Nations Convention on Contracts for the International Sale of Goods does not apply to and shall not be used to interpret this Agreement. Any dispute regarding this Agreement must be brought in the state or federal courts located in Placer County, California, U.S.A.

12.3 Construction. This Agreement has been negotiated by the parties and their respective counsel. This Agreement shall be interpreted fairly in accordance with its terms and without any construction in favor of or against either party.

12.4 Attorneys' Fees. If any legal action is brought relating to this Agreement or the breach hereof, the prevailing party in any final judgment shall be entitled to the full amount of all reasonable expenses, includingall court costs and reasonable attorney fees paid or incurred.

12.5 Injunctive Relief. In the event that Licensee breaches any provision of the EULA or Sections 2, 5, or 6 or any other material provision of this Agreement, Licensee acknowledges and agrees that there may be no adequate remedy at law to compensate Selectron for such breach, that any such breach may result in irreparable harm to Selectron that would be difficult to measure; and, therefore, that upon any such breach or threat thereof, Selectron shall be entitled to seek injunctive and other appropriate equitable relief (without the necessity of proving actual damages or of posting a bond or other security), in addition to whatever remedies Selectron may have at law, in equity, under this Agreement, or otherwise.

12.6 Waiver. The waiver by either party of a breach of or a default under any provision of this Agreement, shall be in writing and shall not be construed as a waiver of any subsequent breach of or default under the same or any other provision of this Agreement, nor shall any delay or omission on the part of either party to exercise or avail itself of any right or remedy that it has or may have hereunder, operate as a waiver of any right or remedy.

12.7 Severability. If the application of any provision of this Agreement to any particular facts or circumstances shall be held to be invalid or unenforceable, then (a) the validity and enforceability of such provision as applied to any other particular facts or circumstances and the validity of other provisions of this Agreement shall not in any way be affected or impaired thereby, and (b) such provision shall be enforced to the maximum extent possible so as to effect the intent of the parties, and reformed without further action by the parties, to the extent necessary to make such provision valid and enforceable. Without limiting the generality of the foregoing, Licensee agrees that Section 7.4 will remain in effect notwithstanding the unenforceability of any other provision hereof.

12.8 Independent Contractor Relationship. Selectron's relationship with Licensee will be that of independent contractor, and nothing contained in this Agreement shall be deemed or construed as creating a joint venture, partnership, or employer-employee relationship. Licensee is not an agent of Selectron and is not authorized to make any representation, contract, or commitment on behalf of Selectron, or to bind Selectron in any way. Selectron is not an agent of Licensee and is not authorized to make any representation, contract, or commitment on behalf of Licensee, or to bind Licensee in any way. Selectron will not be entitled to any of the benefits that Licensee may make available to its employees, such as group insurance, profit sharing, or retirement benefits.

12.9 Force Majeure. Except for the payment of monies due hereunder, neither party shall be responsible or have any liability for any delay or failure to perform to the extent due to unforeseen circumstances or causes beyond its reasonable control, including, without limitation, acts of God, earthquake, fire, flood, embargoes, labor disputes and strikes, riots, war, error in the coding of electronic files, Internet or other network "brownouts" or failures, power failures, novelty of product manufacture or other unanticipated product development problems, and acts of civil and military authorities; provided that such party gives the other party prompt written notice of the failure to perform and the reason therefor and uses its reasonable efforts to limit the resulting delay in its performance and to mitigate the harm or damage caused by such delay.

12.10 Public Announcements. Licensee shall cooperate with Selectron so that Selectron may issue a press release concerning this Agreement; provided, however, Selectron may not release any such press release without the prior approval of Licensee (which shall not be unreasonably withheld, delayed, or conditioned). However, without seeking prior approval in each instance, Selectron shall have the right to use Licensee's name as a customer reference, and to use Licensee's trade name on Selectron's customer lists.

12.11 U.S. Government Rights. (a) The Licensed Software is a "commercial item," as that term is

Docusign Envelope ID: F3E80904-64E3-80A3-8261-5E14223166A0

defined at 48 C.F.R. 2.101, consisting of "commercial computer software" and "commercial computer software documentation," as such terms are used in 48 C.F.R. 12.212 or 48 C.F.R. 227.7202, as applicable. Consistent with 48 C.F.R. 12.212 and 48 C.F.R 227.7202-1 through 227.7202-4, the Licensed Software are licensed to any U.S. Government End Users (i) only as a commercial item and (ii) with only those rights as are granted to all other end users pursuant to the terms and conditions herein. Manufacturer is Selectron Technologies, Inc., 12323 SW 66th Avenue, Portland, OR 97223, USA. This Section, consistent with 48 C.F.R. § 12.212 and 48 C.F.R. § 227.7202 is in lieu of, and supersedes, any other Federal Acquisition Regulation, Defense Federal Acquisition Regulation Supplement, or other clause or provision that addresses United States Government rights in computer software, technical data, or computer software documentation.

(b) The parties agree that, in the event that Licensee is a governmental entity, all other state and local governments within Licensee's state may purchase a license from Selectron to use the LicensedSoftware under the same terms and conditions as set forth in this Agreement by entering into a master services and hosting agreement with the same terms and conditions as set forth herein with Selectron.

12.12 Export Controls. The Licensed Software is subject to the export control laws of the United States and other countries. Licensee may not export or re-export the Licensed Software, unless Licensee has first obtained Selectron's prior written permission and the appropriate United States and foreign government licenses, at Licensee's sole expense. Licensee must otherwise comply with, and contractually require that all of its employees comply with, all applicable export control laws and regulations in the use of the Licensed Software. None of the Licensed Software may be downloaded or otherwise exported or re-exported (a) into any country for which the United States has a trade embargo, or (b) to anyone on the U.S. Treasury Department's list of Specially Designated Nationals or the U.S. Commerce Department's Denied Persons List. Licensee represents and warrants that it is not located in, under the control of, or a national or resident of any such country or on any such list. Licensee shall defend, indemnify and hold Selectron and allsuccessors, assigns, affiliates, suppliers, and each of their officers, directors, employees, and agents harmless for, from, and against any and all claims, allegations, damages, liabilities, and costs and expenses (including without limitation attorneys' fees and costs) arising out of Licensee's violation of such export control laws. Licensee further agrees to comply with the United States Foreign Corrupt Practices Act, as amended.

12.13 Captions and Section Headings. The captions and Section and paragraph headings used in this Agreement are inserted for convenience only and shall not affect the meaning or interpretation of thisAgreement.

12.14 Counterparts. This Agreement may be signed in one or more counterparts, each of which will be deemed to be an original copy of this Agreement, and, when taken together, shall be deemed to constitute one and the same agreement. Each party agrees that the delivery of this Agreement by facsimile transmission or by PDF attachment to an e-mail transmission will be deemed to be an original of the Agreement so transmitted and, at the request of either party, the other party will confirm facsimile or e-mail transmitted signatures by providing the original document.

12.15 Modification; Subsequent Terms. No amendment or modification of any provision of this Agreement shall be effective unless in writing and signed by a duly authorized signatory of Selectron and Licensee. To the extent that the terms and conditions of the Exhibits hereto or Exhibits to subsequent amendments or modifications of or to the Agreement ("Subsequent Terms") differ from those herein, those Subsequent Terms shall control the interpretation and any conflict resolution thereof. The terms on any purchase order or similar document submitted by Licensee to Selectron will not modify the terms and conditions of this Agreement.

12.16 Entire Agreement; Amendment. This Agreement, including the Exhibit(s) attached hereto, constitutes the entire agreement between the parties concerning the subject matter hereof, and supersedes (a) all prior or contemporaneous representations, discussions, proposals, negotiations, conditions, agreements, and communications, whether oral or written, between the parties relating to the subject matter of this Agreement, and (b) all past courses of dealing and industry custom.

EXHIBIT B

Maintenance and Technical Support

This Exhibit describes the software maintenance and support services that Selectron shall provide for Licensee.

I. Definitions

Unless defined otherwise herein, capitalized terms used in this Exhibit shall have the same meaning as set forth in the Agreement.

A. "**Error**" means any failure of the Licensed Software to conform in any material respect with the Documentation.

B. "**Error Correction**" means either a bug fix, patch, or other modification or addition that brings the Licensed Software into material conformity with the Documentation.

C. "**Priority A Error**" means an Error that renders Licensed Software inoperative or causes a complete failure of the Licensed Software, as applicable.

D. "**Priority B Error**" means an Error that substantially degrades the performance of Licensed Software, as applicable, or materially restricts Licensee's use of the Licensed Software, as applicable.

E. "**Priority C Error**" means an Error that causes only a minor impact on Licensee's use of Licensed Software, as applicable.

II. Error Reporting and Resolution

A. Error Reporting. Selectron shall provide Licensee with telephone customer support twenty-four (24) hours per day, seven (7) days per week for the reporting of Priority A Errors, and telephone support during Selectron's normal business hours for the reporting of Priority B and Priority C Errors, in each event excluding Selectron holidays.

B. Licensed Software Error Resolution. Selectron shall use commercially reasonable efforts to: (a) notify applicable Vendors of all Licensed Software Errors properly reported by Licensee in accordance with Section II(A) of this Exhibit B; (b) make available to Licensee any Error Corrections that are made available by such Vendor(s) to Selectron promptly after such Error Corrections are delivered to Selectron; and (c) update Licensee with respect to the progress of the resolution of all Licensed Software Errors.

C. Error Resolution. Licensee shall report all Errors in the Licensed Software to Selectron in sufficient detail, with sufficient explanation of the circumstances under which the Error occurred or is occurring, and shall reasonably classify the Error as a Priority A, B, or C Error. Selectron shall use commercially reasonable efforts to correct any Error in the Licensed Software reported by Licensee, in accordance with the priority level actually assigned by Selectron to such Error, as follows:

1. Priority A Errors. In the event of a Priority A Error, Selectron shall, within two (2) hours of receiving Licensee's report, commence verification of the Error. Upon verification, Selectron shall use commercially reasonable efforts to resolve the Error with an Error Correction. Selectron shall use commercially reasonable efforts to provide a workaround for the Error within twenty-four (24) hours of receiving Licensee's report of such Error, and an Error Correction within forty-eight (48) hours of receiving Licensee's report. Selectron shall provide Licensee with periodic reports (no less frequently than once every eight (8) hours) on the status of the Error Correction.

Docusign Envelope ID: F3E80904-64E3-80A3-8261-5E14223166A0

2. Priority B Errors. In the event of a Priority B Error, Selectron shall, within six (6) hours of receiving Licensee's report, commence verification of the Error. Upon verification, Selectron shall use commercially reasonable efforts to resolve the Error with an Error Correction. Selectron shall use commercially reasonable efforts to provide a workaround for the Error within forty-eight (48) hours of receiving Licensee's report of such Error, and an Error Correction within six (6) business days of receiving Licensee's report. Selectron shall provide Licensee with periodic reports (no less frequently than once every twelve (12) hours) on the status of the Error Correction.

3. Priority C Errors. In the event of a Priority C Error, Selectron shall, within two (2) business days of receiving Licensee's report, commence verification of the Error. Upon verification, Selectron shall use commercially reasonable efforts to resolve the Error with an Error Correction. Selectron shall use commercially reasonable efforts to provide a workaround for the Error within six (6) business days of receiving Licensee's report of such Error, and an Error Correction within three (3) weeks of receiving Licensee's report. Selectron shall provide Licensee with periodic reports on the status of the Error Correction.

SELECTRON TECHNOLOGIES, INC.

END USER LICENSE AGREEMENT

This End User License Agreement (this "**EULA**") is part of a Master Services and Hosting Agreement (the "**Master Agreement**") between Selectron Technologies, Inc., an Oregon corporation ("**Selectron**", "**we**", "**our**", or "**us**") and the person or entity identified in the Master Agreement as the Licensee purchasing Services from us ("**Licensee**"). This EULA governs use by Licensee and all natural persons to whom Licensee provides access to the Licensed Software (each, an "**Authorized User**"). In this EULA, unless the context clearly indicates otherwise, all references to "**you**," or "**your**" means both the Licensee and the Authorized User. All capitalized terms used but not defined in this EULA have the meanings given to them in the Master Agreement.

SELECTRON PROVIDES THE LICENSED SOFTWARE SOLELY ON THE TERMS AND CONDITIONS SET FORTH IN THIS EULA AND ON THE CONDITION THAT YOU ACCEPT AND COMPLY WITH THEM. IF YOU DO NOT AGREE TO THE TERMS OF THIS EULA, SELECTRON WILL NOT AND DOES NOT LICENSE THE LICENSED SOFTWARE TO YOU, AND YOU MUST NOT USE OR ACCESS THE SOFTWARE.

1. License Grant. Subject to your strict compliance with this EULA, Selectron hereby grants you a non-exclusive, non-transferable, non-sublicensable, limited license to use the Licensed Software solely in accordance with the Documentation, the Master Agreement, and this EULA, for Licensee's internal business purposes. The foregoing license will terminate immediately on the earlier to occur of:

(a) the expiration or earlier termination of the Master Agreement between Selectron and Licensee; or

(b) your ceasing to be authorized by Licensee to use the Licensed Software for any or no reason.

2. Scope of License. Subject to and conditioned upon Licensee's timely payment of the fees set forth in the Master Agreement and your strict compliance with all terms and conditions set forth in this EULA and the Master Agreement, you have a limited right and license to:

(a) Use and access the Licensed Software in accordance with this EULA and the Documentation, solely for Licensee's internal business purposes.

(b) Download, display, and use the Documentation, solely in support of Licensee's use and access of the Licensed Software in accordanceherewith.

(c) Download, display, copy, use, and create derivative works of reports and structured data generated using the Licensed Software, solely for Licensee's internal business purposes.

3. Copies. All copies of the Licensed Software and Documentation made by you:

(a) Will be the exclusive property of Selectron;

(b) Will be subject to the terms and conditions of the Master Agreement and this EULA; and

Docusign Envelope ID: F3E80904-64E3-80A3-8261-5E14223166A0

(c) Must include all trademark, copyright, patent and other intellectual property rights notices contained in the original.

4. Use Restrictions. You shall not, directly or indirectly:

(a) Use the Licensed Software beyond the scope of the license granted in the Master Agreement and Section 2 of this EULA;

(b) Copy all or any portion of the Licensed Software, except as expressly permitted in Section 2 of this EULA;

(c) Decompile, disassemble, decode, or otherwise reverse engineer the Licensed Software, or any portion thereof, or determine or attempt to determine any source code, algorithms, methods, or techniques used or embodied in the Licensed Software or any portion thereof;

(d) Modify, translate, adapt or otherwise create derivative works or improvements, whether or not patentable, of the Licensed Software or any part thereof;

(e) Provide any other person, including any subcontractor, independent contractor, affiliate, service provider, or other employee of Licensee, with access to or use of the Licensed Software, except as expressly permitted by the Master Agreement or this EULA;

(f) Distribute, disclose, market, rent, lease, lend, sell, timeshare, sublicense, assign, distribute, pledge, publish, transfer or otherwise make available the Licensed Software or any features or functionality of the Licensed Software, to any third party for any reason, whether or not over a network and whether or not on a hosted basis, including in connection with the internet, web hosting, wide area network (WAN), virtual private network (VPN), virtualization, time-sharing, service bureau, software as a service, cloud or other technology or service, except as expressly permitted by the Master Agreement or this EULA;

(g) Use the Licensed Software for the commercial or other benefit of a third party;

(h) Permit the Licensed Software to be used for or in connection with any facility management, service bureau, or time-sharing purposes, services, or arrangements, or otherwise used for processing data or other information on behalf of any third party;

(i) Remove, delete, alter or obscure any trademarks or any copyright, trademark, patent or other intellectual property or proprietary rights notices, legends, symbols, or labels appearing on or in the Licensed Software, including any copy thereof;

(j) Perform, or release the results of, benchmark tests or other comparisons of the Licensed Software with other software or materials;

(k) Incorporate the Licensed Software or any portion thereof into any other materials, products, or services, except as expressly permitted by the Master Agreement or this EULA;

(l) Use the Licensed Software for any purpose other than in accordance with the terms and conditions of this EULA and the Master Agreement.

(m) Use the Licensed Software in, or in association with, the design, construction, maintenance or operation of any hazardous environments or systems, including (i) power generation systems; (ii) aircraft navigation or communication systems, air traffic control systems or any other transport management systems; (iii) safety-critical applications, including medical or life-support systems, vehicle operation applications or

Docusign Envelope ID: F3E80904-64E3-80A3-8261-5E14223166A0

any police, fire or other safety response systems; (iv) military or aerospace applications, weapons systems or environments;

(n) Use the Licensee Data or the Licensed Software in any way that is fraudulent, misleading, or in violation of any applicable laws or regulations (including federal, state, local, and international laws and regulations), including but not limited to export or import control laws, information privacy laws, and laws governing the transmission of commercial electronic messages; or

(o) Use the Licensed Software for purposes of competitive analysis of the Licensed Software, the development of a competing software product or service or any other purpose that is to Selectron's commercial disadvantage.

5. Collection and Use of Information. Selectron may, directly or indirectly through the services of others, including by automated means and by means of providing maintenance and support services, collect and store information regarding your use of the Licensed Software, its performance, the equipment through which the Licensed Software accessed and used, such as dates and times of use by each Authorized User, activities conducted using the Licensed Software, the type of web browser used to access the Licensed Software, the operating system/platform you are using, your IP address, and your CPU speed. You agree that the Selectron may use such information for any purpose related to the Licensed Software, including but not limited to improving the performance of the Licensed Software, developing Updates, and verifying compliance with the terms of this Agreement and enforcing Selectron's rights, including all intellectual property rights in and to the Licensed Software.

6. Intellectual Property Rights. You acknowledge that the Licensed Software is provided under license, and not sold, to you. You do not acquire any ownership interest in the Licensed Software under this EULA or the Master Agreement, or any other rights to the Licensed Software other than to use the Licensed Software in accordance with the license granted under this EULA and the Master Agreement, subject to all terms, conditions and restrictions contained therein and herein. Selectron reserves and shall retain its entire right, title and interest in and to the Licensed Software and all intellectual property rights arising out of or relating to the Licensed Software, subject to the licenses expressly granted in the Master Agreement and this EULA. You shall use commercially reasonable efforts to safeguard all Licensed Software (including all copies thereof) from infringement, misappropriation, theft, misuse or unauthorized access.

7. Login Credentials. You, the Authorized User, shall not share or disclose your log-in credentials with or to any other individual or entity, even if such other individual is also an Authorized User. If you discover or suspect that log-in credentials of any Authorized User have been accessed or used by anyone other than the individual to whom such log-in credentials were originally granted, you will promptly notify Selectron, and Selectron shall promptly reset or provide Licensee with a means of resetting the password associated with such log-in credentials.

8. Export Regulation. The Licensed Software may be subject to US export control laws, including the US Export Administration Act and its associated regulations. You shall not, directly or indirectly, export, re-export or release the Licensed Software to, or make the Licensed Software accessible from, any jurisdiction or country to which export, re-export or release is prohibited by law, rule or regulation. You shall comply with all applicable federal laws, regulations and rules, and complete all required undertakings (including obtaining any necessary export license or other governmental approval), prior to exporting, re-exporting, releasing or otherwise making the Licensed Software available outside the US.

9. Governing Law. This EULA shall be governed by and construed in accordance with the internal laws of the State of California without giving effect to any choice or conflict of law provision or rule (whether of the State of California or any other jurisdiction) that would cause the application of laws of any jurisdiction other than those of the State of California.

EXHIBIT E

HOSTING, MAINTENANCE, AND TECHNICAL SUPPORT

This Exhibit provides the terms and conditions and service levels for Selectron's Hosting and Maintenance of the Licensed Software, including both the production and test severs.

1.0 DEFINITIONS

Any capitalized terms used in this Exhibit, "Hosting, Maintenance, and Technical Support," that are not defined below shall have the same meaning as defined in Section 1 of the Agreement. The following definitions are used only within this Exhibit and shall have the meaning stated herein only for application within this Exhibit.

"Basic Support Hours" shall mean Monday through Friday, 5:00 am to 5:00 pm Pacific Time, excluding United States statutory holidays.

"Downtime" means minutes when the Licensed Software is unavailable.

"Emergency Maintenance" means Maintenance performed in response to a Force Majeure Event or with the aim to prevent an Error; Selectron shall notify the City as soon as possible, but no later than within two hours after commencement of Emergency Maintenance.

"Error" means any failure of the Licensed Software or the Service, as applicable, to conform in any material respect with the Documentation.

"Error Correction" means either a bug fix, patch, or other modification or addition that brings the Licensed Software or the Service, as applicable, into conformity with the Documentation.

"Maintenance" means Services provided by Selectron to the City to keep the System conforming to the Documentation and to respond to requests by the City.

"Priority A Error" means an Error that causes the Licensed Software or Services to be (i) severely impacted, resulting in a complete loss of Access or Use, or (ii) significantly degraded resulting from an essential element of the Licensed Software or Services being non-functional and materially unavailable to a material percentage of Authorized Users without a Workaround being available.

"Priority B Error" means an Error that (i) substantially degrades the performance of the System, (ii) materially restricts Customer's Use of the System, or (iii) causes the System to be materially unstable or have periodic interruptions over a sustained period of time.

"Priority C Error" means an Error that (i) causes only a minor impact on Customer's Use the System, (ii) causes a minor degradation not visible to Users, or (iii) that is cosmetic or otherwise not material to the essential functions of the System.

"Scheduled Maintenance" means the number of minutes that is scheduled for regular maintenance on the System, maintenance normally occurs weekly on any weekday between 09:00pm to 06:00am Pacific Time with a maximum planned Downtime of 240 minutes per month. Whenever possible the City will be provided advance written notice of Downtime relating to Scheduled Maintenance.

"System Availability" means the total number of minutes within the applicable month less any time designated by Selectron as planned Downtime.

DocuSign Envelope ID: F3E80904-64E3-80A3-8261-5E14223166A0

"Scheduled Downtime" means Scheduled Maintenance, Customer Configuration Maintenance, and Emergency Maintenance.

"Unscheduled Downtime" means a System outage (other than those arising from Maintenance, Scheduled Maintenance, Emergency Maintenance, events of Force Majeure, or City systems or the City 's third party systems) that prevents City Users or the City 's end users from consummating transactions.

"Workaround" means with respect to any Error, the provision of a temporary repair used to bypass, mask or otherwise avoid the Error until a permanent repair is available.

2.0 ERROR REPORTING

2.1 Selectron shall provide Maintenance and Error Corrections to the Licensed Software and Services as required to keep the Licensed Software and Services performing in all respects to the Documentation, and to correct reported Errors that are diagnosed by the City. Selectron shall coordinate isolation and diagnosis of Errors, testing and repair work for the response, tracking, and resolution of all Errors.

2.2 Selectron shall provide Customer with telephone support twenty-four (24) hours per day, seven (7) days per week for the reporting of and response to Priority A Errors, and telephone support during Basic Support Hours for the reporting of Priority B and Priority C Errors.

2.3 When reporting an Error, the City will provide Selectron with sufficient explanation of the circumstances under which the Error occurred or is occurring, and the City shall reasonably classify the Error as a Priority A, B, or C Error.

3.0 ERROR RESPONSE AND RESOLUTION

3.1 Selectron shall use commercially reasonable efforts to correct Errors. Selectron shall provide a first response, first update and subsequent updates for each Error according to time periods described in the following table, in accordance with the priority level actually assigned by the City to such Error.

Incident	First Response	First Update	Subsequent Updates	Resolution
Priority A Error	1 hour after report of Error is received in accordance with Section 2	1 hour after First Response	Every 2 hours	Workaround within 24 hours; Error Correction within 48 hours, or other time as mutually agreed
Priority B Error	3 hours during Basic Support Hours after report of Error is received in accordance with Section 2	2 hours after First Response during Basic Support Hours	Every 2 hours during Basic Support Hours	Workaround within 2 Business Days; Error Correction within 5 Business Days, or other time as mutually agreed
Priority C Error	3 business days after report of Error is received in accordance with Section 2	5 business days after First Response	5 business days	Workaround within 6 Business Days; Error Correction within three weeks, or other time as mutually agreed

Docusign Envelope ID: F3E80904-64E3-80A3-8261-5E14223166A0

3.4 A response may be provided to the City by email. A status update on the Error may be provided by email or may be made available online, on a status website which has been communicated to the City. Each update shall include a description of (a) functionality affected; (b) the start time of the Error; and (c) current status of Error Correction.

3.5 If the Parties have a good faith dispute whether an Error is priority level B or C, the Parties shall negotiate in good faith, including escalation to their respective executives, for resolution within three (3) Calendar Days of notice of the dispute. The Parties, in their respective discretion, may mutually agree to an alternative dispute resolution process for prompt and discrete resolution of the Severity Level dispute.

4.0 SYSTEM AVAILABILITY

4.1 Selectron's goal for System Availability is set forth in the table below.

Service Level	Goal	Measure Start	Measure End
System Availability (24x7x365)	99.9%	First day of the month	Last day of the month

System Availability shall be measured over the period of each calendar month and calculated as set forth above. System Availability shall be measured on a pro-rated basis for the month of Acceptance.

4.2 Availability shall be calculated as a percentage using the following formula:

$$\text{System Availability} = \frac{\text{(total minutes in given month minus Unscheduled Downtime)}}{\text{divided by total minutes in a given month}}$$

The System Availability and goal is for the production server only. The test server shall be considered independent and not calculated as part of System Availability.

5.0 CREDIT FOR FAILURE TO ACHIEVE SYSTEM AVAILABILITY GOAL

5.1 In the event the goal for System Availability is not attained in any given calendar month, the City may continue to Use the System, and Selectron shall credit the City the following percentage of the monthly production IVR Call and Hosting fees paid by the City, based on the System Availability for a given calendar month.

Downtime Measurement	System Availability (estimate)	County Credit
Up to **48 hours** of cumulative Unscheduled Downtime	93% - 100%	No City credit
Up to **72 hours** of cumulative Unscheduled Downtime	90% - 92.99%	10% of one month's fee credit
Up to **96 hours** of cumulative Unscheduled Downtime	87% - 89.99%	25% of one month's fee credit
Up to **120 hours** of cumulative Unscheduled Downtime	83% - 86.99%	40% of one month's fee credit
More than **144 hours** of cumulative Unscheduled Downtime	80% - 82.99%	100% of one month's fee credit

Docusign Envelope ID: F3E80904-64E3-80A3-8261-5E14223166A0

6.0 BACK-UP

6.1 Selectron shall back up City data collected by Selectron on a periodic basis throughout the day, with a full backup performed nightly. On a weekly basis, Selectron shall verify such backups are complete, accurate, and accessible. The combination of incremental and daily backups will ensure that no more than twenty-four (24) hours of data loss will be incurred in the event of a disaster.

6.2 Within the primary datacenter, Selectron shall maintain redundancy for all required server, storage, data base, network, and Internet connectivity to prevent against disruption of the System due to a single hardware device or connectivity failure.

7.0 DISASTER RECOVERY

7.1 In the event that Selectron declares a "disaster" status (as described in section 7.2 below), Selectron will use best efforts to restore the system at a secondary hosting site (either the current alternate collocation site or Selectron's own facilities) on a temporary basis. This effort may take between 2 and 10 days, or longer, and requires support from the City. As the solution is a complex system reliant on third party systems, Selectron's ability to restore the system will be limited to the elements within Selectron's immediate control. Examples of other systems that could delay restoration include the hosted backend database, the City's network, the regional and national telephone and internet backbones, as well as other interdependent systems.

7.2 Declaration of Disaster Status. Selectron will declare "disaster" status within one day of its reaching the reasonable belief that an event will cause a complete loss of Service for seventy-two (72) hours or more. At this time Selectron will use its best efforts to contact the City to initiate a recovery plan. The City will be requested to provide direction on priority and availability of necessary assistance for restoration. Selectron will begin recovery efforts coordinated with the City's priorities for bringing systems back on line.

8. EXCEPTIONS

The terms of this Exhibit do not apply during the following times of exception:

8.1 Service outages beyond Selectron's immediate control, such as Force Majeure Events or an outage caused by the City, such as the City's permitting or utility databases being unavailable.

8.2 Outages following a scheduled Update or Upgrade of the Software, where the City did not participate in coordinated functional testing and the coordinated functional testing could have reasonably determined the issue.

8.3 Outages during the initial project implementation phase, or any subsequent major changes to the Software and/or Hosting environment that the City requests, or any major changes being made to the City's networks or systems.

9.0 LIMITATIONS

9.1 The terms and conditions of this Exhibit apply only to Services related to the production and test environments of the Licensed Software and Services in conformity with the Documentation.

9.2 Unless agreed to by the Parties in writing, this Exhibit does not apply to, and the City may not deploy to City's end users, the Licensed Software on beta, test and other pre-production release Hardware or operating systems.

9.2 Services provided by Selectron under this Exhibit do not include the restoration of data which has been modified or deleted by the City, the provision of additional training because of Updates to the Licensed Software,

Docusign Envelope ID: F3E80904-64E3-80A3-8261-5E14223166A0

consulting and training regarding the Use of the Licensed Software or Services and the adjustment of interfaces within the City's systems.

City Council Communication

Title:	Utility Rebate Management System - Contract Purchase Agreement
Contact:	Susan Hernandez 916-774-5623 shernandez2@roseville.ca.us

SUMMARY

Staff recommends approval of a contract purchase agreement with Brillion, Inc. to provide a comprehensive cloud-based rebate management platform to support programs administered by Roseville Electric Utility and the Environmental Utilities Department. The total cost for the two-year contract purchase agreement is $699,193. Funding will be included in Roseville Electric Utility's and Environmental Utilities' proposed budgets for FY2026-27 and FY2027-28, subject to City Council approval. The contract also includes five optional one-year renewal terms, with projected costs of $365,406 in FY2028-29, $376,368 in FY2029-30, $387,659 in FY2030-31, $399,289 in FY2031-32, and $411,267 in FY2032-33.

RECOMMENDATION

Staff recommends that the City Council adopt a resolution authorizing the City Manager to execute a two-year Contract Purchase Agreement (3005356) with Brillion, Inc.

Staff further recommends that the Council authorize the City Manager or his designee to execute five (5) additional one (1) year renewals without further City Council approval, provided that the applicable budget is approved by the City Council each year, or until staff determines that continuing with this vendor is not in the best interest of the City.

BACKGROUND

Roseville Electric Utility and Environmental Utilities administer energy efficiency and water conservation programs that require a reliable system to manage applications, eligibility verification, approvals, incentive payments, financial tracking, and regulatory reporting.

Per state law, Roseville Electric Utility is required to track and report on the use of public benefits funding for energy efficiency and low-income programs and spending of funds received from the State of California for electric vehicles and chargers. Environmental Utilities is required to track the results of water conservation efforts. Both Roseville Electric Utility and Environmental Utilities use the utility rebate management system to fulfill these state obligations.

The current rebate management agreement is set to expire on June 30, 2026. Roseville Electric Utility issued Request for Proposals 07-123. The vendor, Brillion, Inc., was the selected respondent, and their proposal was selected based on their qualifications, experience, project understanding, and proposed cost.

FISCAL IMPACT

The total cost for the two-year contract purchase agreement is $699,193. Funding will be included in

Roseville Electric Utility's and Environmental Utilities' proposed budgets for FY2026-27 and FY2027-28, subject to City Council approval. The contract also includes five optional one-year renewal terms, with projected costs of $365,406 in FY2028-29, $376,368 in FY2029-30, $387,659 in FY2030-31, $399,289 in FY2031-32, and $411,267 in FY2032-33.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines 15061 (b) (3)). The Utility Rebate Management System project does not include the potential for a significant environmental effect, and therefore is not subject to CEQA.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

6. Deliver exceptional City services

RESOLUTION NO. 26-219

APPROVING A CONTRACT PURCHASE AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND BRILLION, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, a Contract Purchase Agreement (3005356) for the Utility Rebate Management System, by and between the City of Roseville and Brillion, Inc., has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said agreement is hereby approved and the City Manager is authorized to execute it on behalf of the City of Roseville.

BE IT FURTHER RESOLVED, that the City Manager or his or her designee is authorized to execute five (5) additional one (1) year renewals without further City Council approval, provided that the applicable budget is approved by the City Council, or until staff determines that continuing with this vendor is not in the best interest of the City.

Contract Terms and Conditions

1. To the fullest extent allowed by law, Consultant shall defend, indemnify, and save and hold harmless City, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of Consultant's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from City's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed. Consultant's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.
2. Consultant is an independent contractor, and shall not be considered an officer, agent, or employee of the City.
3. Without the written consent of the City, this Agreement is not assignable by Consultant either in whole or in part.
4. Time is of the essence of this Agreement.
5. At any time during the term of this Agreement, the City has the right to terminate this Agreement, provided Consultant is given thirty (30) days written notice. City's termination shall be without further liability to City; however, Consultant shall be entitled to all costs reasonably incurred prior to the date of termination. Consultant acknowledges that City may terminate this Agreement should funds not be appropriated by its governing body to continue services under this Agreement.
6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.
7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.
8. Unless notified to the contrary, in writing, the City assumes that the Consultant has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement. Any work product created for City pursuant to this Agreement is deemed owned by City.
9. All prevailing wages and fair employment practices must be adhered to. For prevailing wage contracts over $25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm. In compliance with Labor Code Section 1773.2, as may be amended from time to time, Contractor shall cause a copy of this website to be posted at each jobsite, as applicable.
10. Consultant agrees to the below insurance requirements:
    a. Unless otherwise specified, the Consultant shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance coverage.
    b. Form. Consultant shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.
    c. Additional Insureds. Consultant shall also provide a separate endorsement or section of the policy showing City, its officers, agents, employees, and volunteers as additional

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of Consultant. The additional insured coverage under the Consultant's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office (ISO) CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be:

(1) the minimum coverage and limits specified in this Agreement; or

(2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

d. Cancellation/Modification. Consultant shall provide thirty (30) days written notice to City prior to cancellation or modification of any insurance required by this Agreement.

e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.

f. Subconsultants. Consultant agrees to include in its contracts with all subconsultants the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subconsultants work. Furthermore, Consultant shall require its subconsultants to agree to be bound to Consultant and City in the same manner and to the same extent as Consultant is bound to City under this Agreement. Additionally, Consultant shall obligate its subconsultants to comply with these same provisions with respect to any tertiary subconsultant, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subconsultant or tertiary subconsultant upon request.

g. Self-Insured Retentions. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

h. Waiver of Subrogation. Consultant hereby agrees to waive subrogation which any insurer of Consultant may acquire from Consultant by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees, and volunteers for all worked performed by Consultant, its employees, agents, and sub consultants.

i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Consultant of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.

11. Consultant shall comply with all federal, state, local laws, ordinances, and policies as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances may result in monetary fines and cancellation of this Agreement.

12. In the event that the terms of any attachment or exhibit conflict with any terms of this Agreement, the terms of this Agreement shall control.

13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ". pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

such facsimile or ".pdf" signature page were an original thereof.

14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.
16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
17. For purposes of this Agreement, the terms "Contractor," "Consultant," and "Supplier" are used interchangeably.
18. Consultant agrees that any and all information furnished by City shall be deemed proprietary and confidential. All such information, to the extent previously, presently, or subsequently disclosed to Consultant and/or processed and derived by Consultant services is the property of City and such property shall be deemed and treated as "Confidential Information" of City. Consultant acknowledges that such Confidential Information may contain information provided and/or generated by third-parties. Consultant agrees that such Confidential Information shall not be disclosed to any third party without written permission from City, except as required by law. Consultant shall not use the Confidential Information except to perform Consultant's services as directed by City.
19. All facilities, devices, networks, and services used to store, deliver, process, backup or purge Confidential Information will employ administrative, physical, technical, and procedural safeguards and best practices at a level sufficient to secure Confidential Information from unauthorized access, destruction, use, modification, or disclosure. Such measures will be no less protective than those used to secure Consultant's own information of a similar type, and in no event less than reasonable in view of the type and nature of the information involved. It is the City's expectation that Consultant, at its own expense, shall perform annual audits for any data centers that house Confidential Information, using an independent third-party audit that meets industry standards applicable to the services under this Agreement, and provide the audit report or certification upon request to City.
20. Consultant will retain Confidential Information until deleted by City or City-authorized third party, or for a time period mutually agreed upon by the parties to this Agreement.
21. Upon termination or expiration of this Agreement, Consultant will ensure that all Confidential Information is securely transferred to City within thirty (30) calendar days. Consultant will ensure that any transfer of Confidential Information is accomplished by methods that are compatible with the relevant City systems, and that City will have access to all Confidential Information during any such transfer. Consultant shall securely dispose of all Confidential Information when requested by City and Consultant will provide written notification to City once all Confidential Information has been securely disposed of.
22. Consultant shall report to City any data compromise or unauthorized access to Confidential Information within twenty-four (24) hours after Consultant discovers such data compromise or unauthorized access. Consultant will take commercially reasonable measures to address any such data compromise or unauthorized access in a timely manner. Except as otherwise required by law, Consultant will not provide notice to end users or other entities of any such data compromise or unauthorized access without written permission from City. Consultant will promptly reimburse City in full for all fees and costs incurred by City in any investigation, remediation or litigation resulting from any such data compromise or unauthorized access, including identity protection and restoration services for each person, who in the City's sole discretion, could be impacted by identity theft.

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

23. Consultant may not advertise that City is a client, list City as a reference or otherwise use City's name, logos, trademarks, or service marks without prior written permission from City.
24. Consultant acknowledges that services rendered under this agreement (including but not limited to service levels and operational levels) shall be performed in accordance with industry standards.
25. If the project referenced on this agreement is a Public Works project, then the following shall apply: No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
26. If the project referenced on this agreement is a Public Works project, then the following shall apply: Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.
27. Contractor/consultant's duties and services under this agreement shall not include preparing or assisting the public entity with any portion of the public entity's preparation of a request for proposals, request for qualifications, or any other solicitation regarding a subsequent or additional contract with the public entity. The public entity entering this agreement shall at all times retain responsibility for public contracting, including with respect to any subsequent phase of this project. Contractor/consultant's participation in the planning, discussions, or drawing of project plans or specifications, if any, shall be limited to conceptual, preliminary, or initial plans or specifications. Contractor/consultant shall cooperate with the public entity to ensure that all bidders for a subsequent contract on any subsequent phase of this project have access to the same information, including all conceptual, preliminary, or initial plans or specifications prepared by contractor pursuant to this agreement.
28. Consultant certifies that Consultant, its employees, directors, officers, agents, subcontractors, vendors, and volunteers are not presently debarred, excluded, suspended, declared ineligible, voluntarily excluded, or proposed for debarment, exclusion, suspension, or ineligibility by any federal, state, or local department or agency.
29. The Levine Act (Govt. Code, Section 84308) requires a Party (and its agent(s), if any) to a Proceeding before the City of Roseville that involves any action or consideration related to their contract, license, permit, or other entitlement for use, to disclose any campaign contributions made to City elected or appointed officers totaling more than $500 within the twelve (12) months prior to the City decision and while a proceeding is pending, and includes certain prohibitions on contribution activity thereafter. If applicable campaign contributions have been made by Contractor and/or its agent(s), Contractor is responsible for compliance, including for its disclosure obligations, if any, as further described at: https://www.roseville.ca.us/government/departments/city_clerk/transparency/levine_act.
30. This Agreement may be amended via change order, but only if such change order is made in writing, approved by the City, and signed by both parties.
31. CONSULTANT agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONSULTANT and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

    CONSULTANT and CITY agree that: (a) CONSULTANT is free from the control and direction of CITY in connection with the performance of the work; (b) CONSULTANT is providing services directly to CITY; (c) CONSULTANT has and will maintain at all relevant times a business license; (d) CONSULTANT maintains a business location that is separate from CITY; (e) CONSULTANT is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f)

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

CONSULTANT actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) CONSULTANT advertises and holds itself out to the public as available to provide the same or similar services; (h) CONSULTANT provides its own tools, vehicles, and equipment to perform the services; (i) CONSULTANT has negotiated its own rates; (j) CONSULTANT set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONSULTANT has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

32. If Consultant produces any "web content" pursuant to this Agreement, as that term is defined in section 35.104 of Title 28 of the Code of Federal Regulations, as may be amended, Consultant shall ensure that any such web content is in full compliance with all applicable requirements of the most current version of the Web Content Accessibility Guidelines, the Americans with Disabilities Act, Code of Federal Regulations and/or California law. Consultant shall defend, indemnify, and hold harmless City, its officers, employees, and agents from and against any and all claims, liabilities, damages, or expenses arising out of Consultant's failure to comply with such requirements. This provision shall survive expiration and/or termination of this Agreement.

The supplier named hereon by the acceptance of this order agrees to the provisions of this document titled "Contract Purchase Agreement" and all accompanying terms, conditions, and attachments.

Insurance Submission Process

The City of Roseville Human Resources/Risk Management Department uses a service called EBIX to manage our insurance certificate tracking.

How It Works

- The vendor's contact information is entered into EBIX. EBIX will contact the vendor to request proof of insurance.
- The Vendor can forward the request to their Insurance Agent(s) if necessary.
- Vendor/Insurance Agent submits insurance to EBIX by email to roseville@ebix.com or by fax to (770) 325-5727. After faxing or emailing the certificate, please DO NOT send the certificate by mail to EBIX. Please do not mail, email or fax any certificates to the City of Roseville.
- Once submitted, EBIX reviews the insurance documentation. If there are deficiencies, EBIX will send a follow up letter or email requesting additional information.

Questions Regarding Insurance Submission: Contact EBIX at (951) 652-4239
Questions Regarding Insurance Requirements Contact Risk Management at (916) 774-5202

CONFIDENTIALITY AND NON-DISCLOSURE AGREEMENT

ARTICLE I – GENERAL

_____ Brillion, Inc. _____ ("Consultant") agrees that information furnished by the City of Roseville ("City") shall be deemed proprietary and confidential, and all such foregoing information, to the extent previously, presently, or subsequently disclosed to Consultant or processed and derived by Consultant services is hereinafter referred to as "Confidential Information" of City. Consultant acknowledges that such Confidential Information may contain information provided and/or generated by third parties. In recognition of the proprietary and confidential nature of such Confidential Information, Consultant agrees to treat the Confidential Information as provided by this Agreement.

ARTICLE II – TREATMENT OF CONFIDENTIAL INFORMATION

Consultant shall, and shall cause each of Consultant's affiliates, agents, employees, directors, partners, and representatives to safeguard and maintain as confidential all Confidential Information, including, without limitation, information in written, magnetic, electronic or any other form, and take reasonable precautions to protect the Confidential Information (including, without limitation, all precautions Consultant employs with respect to Consultant's own proprietary and confidential information). Consultant shall not, and Consultant shall cause each of Consultant's affiliates, agents, employees, directors, partners, and representatives not to: (a) use the Confidential Information except to perform Consultant's services as directed by City; (b) do anything to impair the business relationships, intellectual property or other proprietary rights of City; (c) claim, or reverse engineer any of the Confidential Information; or (d) disclose the Confidential Information to anyone unless required to do so by law or with prior written consent of City. Any Consultant employee, affiliate, advisor, agent, director, partner or representative given access to any of the Confidential Information must have undergone and passed City approved criminal background screenings, and have a legitimate "need to know"; and Consultant will notify such employee, affiliate, advisor, director, partner, or representative that they are bound by the same restrictions as Consultant regarding the Confidential Information. No Confidential Information may be stored or transmitted outside the continental United States without prior written consent of City. For Confidential Information that is protected under Federal, State or Local law, including, without limitation, personally identifiable information, health care information and criminal history information, Consultant will use best practices to protect such information in conformity with applicable law.

ARTICLE III – EXCEPTIONS

The foregoing restrictions of confidentiality and non-use will not apply to information that: (a) is or becomes publicly available without breach of this Agreement; (b) is disclosed to Consultant by a third party, provided such information was not obtained by such third party, directly or indirectly, from City on a confidential basis; (c) is already known to Consultant without obligations of confidentiality; (d) is independently developed or discovered by Consultant without access to the Confidential Information as evidenced by the Consultant's business records; or (e) is the subject of a written permission to disclose provided by City.

ARTICLE IV – PERMITTED DISCLOSURES

Notwithstanding any provisions of this Agreement to the contrary, Consultant may disclose the Confidential Information to applicable regulatory authorities or if required by judicial or administrative process or timely disclosure requirements imposed by law, provided that Consultant first provides to City prompt written notice of such required disclosure, maintains confidentiality to the greatest extent permissible and takes such steps as may be reasonable in the circumstances to allow City to seek a protective order with respect to the confidentiality of the information required to be disclosed. If City receives a legal order or request seeking Confidential Information being held by Consultant, City will supply a copy to Consultant. Consultant will supply City with copies of the Confidential Information within two business days.

ARTICLE V – NO LICENSE

This Agreement shall not be construed as creating, conveying, transferring, granting or conferring upon Consultant any rights, license or authority in or to the Confidential Information. Furthermore and specifically, no license or conveyance of any intellectual property rights is granted or implied by this Agreement.

ARTICLE VI – RETURN OF CONFIDENTIAL INFORMATION

Immediately upon the decision of either party to terminate this Agreement, Consultant shall, and shall cause each of Consultant's affiliates, agents, employees, directors, partners, and representatives to, return to City all documents, media and data, in any form, containing Confidential Information and any and all copies or extracts in a usable format deemed acceptable by City thereof, within thirty (30) calendar days of such decision. Furthermore, within thirty (30) calendar days of the decision of either party to terminate the Agreement, Consultant shall remove all Confidential Information from any computer system used by Consultant's agents or business partners.

ARTICLE VII – REQUIRED DISCLOSURES

Consultant must disclose information regarding participation, directly or indirectly, in any arrangement, agreement, investment, or other activity with any vendor, supplier, or other entity, which has resulted or could result in a benefit to Consultant, if said participation creates potential conflicts or competition with this Agreement or other agreements involving City.

ARTICLE VIII – REMEDIES FOR BREACH

Consultant agrees that the limitations contained herein are reasonable and necessary for the protection of City, and given the unique nature of the Confidential Information, the breach of this Agreement cannot be adequately remedied by law. Therefore, in the event of a breach of this Agreement by Consultant, City shall be entitled to pursue equitable remedies, which shall include, but not be limited to, injunctive relief, and recovery of any associated reasonable attorney's fees and legal costs, along with any other available remedies at law. Consultant will notify City in writing immediately upon discovery of any such unauthorized release or other breach of Confidential Information, or any belief that unauthorized access to Confidential Information has transpired,

ARTICLE IX – VALIDITY

Any provision of this Agreement held to be illegal, invalid, or unenforceable by law or rule or regulation shall be fully severable, and the remaining provisions of this Agreement shall remain in full force and effect. Additionally, the parties hereby agree to negotiate in good faith to modify and amend this Agreement to maintain the original intent of the parties with respect to such provisions so severed.

CITY OF ROSEVILLE CALIFORNIA

April, 2022

RE: Contractor and Grantee Compliance with Economic Sanctions Imposed in Response to Russia's Actions in Ukraine

Dear Vendor:

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (EO) regarding sanctions in response to Russian aggression in Ukraine. The EO is located at https://www.gov.ca.gov/wp-content/uploads/2022/03/3.4.22-Russia-Ukraine-Executive-Order.pdf.

The EO directs all agencies and departments that are subject to the Governor's authority to take certain immediate steps, including notifying all contractors and grantees of their obligations to comply with existing economic sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law.

This correspondence serves as a notice under the EO that as a contractor or grantee, compliance with the economic sanctions imposed in response to Russia's actions in Ukraine is required, including with respect to, but not limited to, the federal executive orders identified in the EO and the sanctions identified on the U.S. Department of the Treasury website (https://home.treasury.gov/policy-issues/financial-sanctions/sanctions-programs-and-country-information/ukraine-russia-related-sanctions). Failure to comply may result in the termination of contracts or grants, as applicable.

Please note that for any agreements or grants valued at $5 million or more you must report to the City of Roseville your compliance with economic sanctions including steps you have taken in response to Russia's actions in Ukraine, including, but not limited to, desisting from making new investments in, or engaging in financial transactions with, Russian entities, not transferring technology to Russia or Russian entities, and directly providing support to the government and people of Ukraine.

Sincerely,

Proposal Summary

Brillion, Inc. (dba Brillion) is pleased to submit this proposal in response to the City of Roseville Request for Proposal to RFP #07-123 Utility Rebate Management System. Our proposed solution, Brillion Fulfill (formerly known as energyOrbit) is currently in use by Roseville Electric since 2012. Through this RFP response, Brillion proposes continued platform licensing and a new Application Managed Services (AMS) subscription to deliver new functionality while improving reporting, customer and contractor access, and internal staff workflows—providing Roseville Electric with an industry-leading DSM program management platform that supports sustained performance and continuous improvement for years to come.

Brillion, Inc. is the respondent to this RFP. Brillion was formed through the strategic acquisition and integration of several established utility technology companies, bringing together decades of experience serving utilities across North America.

- **Apogee Interactive, Inc.**, incorporated in the State of Georgia in 1994, has long been a leading provider of customer engagement and education software for electric, gas, and water utilities.
- **crmOrbit, Inc.**, incorporated in California in 2005, a premier Salesforce.com partner with nearly two decades of experience delivering EE/DSM program management software.
- **AIQUEOUS**, a provider of customer relationship and program management solutions focused on water and energy conservation programs.
- **EnergyX**, a trusted platform supporting program operations, trade ally collaboration, and energy efficiency delivery across gas and electric utility programs.

Together, these organizations now operate as a single company under Brillion, Inc., delivering an integrated, enterprise-grade DSM program management platform and unified services organization. The four companies are backed by the equity firm M33 Growth. The newly formed Brillion brings together a best-in-class suite of technologies for DSM, customer engagement, program tracking, and behavioral energy insights.

As part of this consolidation, the flagship DSM platform developed by crmOrbit, Inc. (previously marketed as energyOrbit) was selected as the go-forward product for program tracking, rebate management, and reporting. Today, this product is known as Brillion Fulfill.

Highlights and Key Features

- **End-to-End DSM Program Management:** Tracks program applications from intake through incentive processing and project closeout, with branching workflows, approval gates, and notification triggers.
- **Customer and Contractor Portals:** Simple, efficient, Roseville Electric-branded portals for self-service application tracking, document uploads, and customer feedback.

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

- **Salesforce CRM Integration:** Maintains a 360-degree view of customer interactions, expandable capabilities through the Salesforce AppExchange marketing and survey tools for campaign management and segmentation.
- **Robust Reporting and Dashboards:** Leverages Salesforce reporting and analytics for real-time program performance insights and regulatory compliance reporting.
- **Seamless Integrations:** Secure API architecture enables real-time data exchange with Roseville Electric systems.
- **Security and Compliance:** Meets ISO/IEC 27001 standards and CPAU's cybersecurity policy requirements, including SAML 2.0 SSO and full audit logging.

If awarded this contract, Brillion will partner with Roseville Electric through continued platform licensing and an Application Management Services (AMS) subscription that delivers functionality through a structured, Agile, backlog-driven process.

Application Management Services (AMS) Overview

Brillion proposes a prepaid Application Management Services (AMS) subscription to enhance, optimize, and operationally support Roseville Electric's existing Salesforce platform while maintaining stability and enabling continuous improvement. This 0.5 FTE model provides a dedicated, blended Brillion delivery team with predictable capacity, disciplined governance, and priority access—eliminating the cost, disruption, and risk of repeated standalone projects.

The AMS approach delivers lower effective costs, consistent forward progress, and reduced delivery risk through continuity of resources and deep platform familiarity, while allowing Roseville to flex effort across evolving priorities without repeated re-contracting. A structured, backlog-driven Agile delivery framework ensures transparency, accountability, and measurable value each month. A detailed description of the AMS delivery, benefits, governance, and value to Roseville Electric, is further defined in **Tab E: Project Plan**.

The AMS engagement will be used to implement functionality identified in Brillion's Requirements Matrix response and the RFP functionality backlog that is either **(a) planned for completion prior to the next contract term** or **(b) not yet implemented and requiring development as part of the upcoming contract**. This approach ensures transparent prioritization, controlled delivery, and steady progress aligned with Roseville Electric's program and operational objectives.

Brillion's proposal commitment is grounded in the following pillars:

1. **Ongoing Platform Enhancement**
   Deliver new functionality and targeted platform improvements through the AMS subscription, ensuring the Fulfill DSM program management platform continues to evolve in alignment with Roseville Electric's program, regulatory, and operational needs.
2. **Improved Reporting & Insights**
   Enhance reporting capabilities to provide greater visibility into program performance,

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

savings, and compliance, supporting data-driven decision-making and regulatory reporting requirements.

3. **Enhanced Customer & Contractor Experience**
   Improve customer and contractor access through streamlined portals, workflows, and self-service capabilities that reduce friction and increase program participation.
4. **Operational Efficiency & Staff Workflow Optimization**
   Optimize internal staff workflows through configuration, automation, and usability enhancements that improve efficiency, consistency, and day-to-day program administration.
5. **Sustained Partnership & Support**
   Provide ongoing application support, maintenance, and governance through clearly defined service levels and a structured AMS delivery model to ensure long-term platform stability, adoption, and value realization.

Brillion looks forward to partnering with Roseville Electric to continue delivering an industry-leading DSM platform with ongoing improvements in functionality, reporting, access, and workflows for sustained long-term value.

Tab A: Firm's Qualifications

Company Overview

Brillion brings nearly two decades of experience delivering DSM and program management solutions to utilities across North America. Our flagship product, Brillion Fulfill, is purpose-built to streamline energy efficiency, electrification, and demand-side management programs while integrating with our client's enterprise systems.

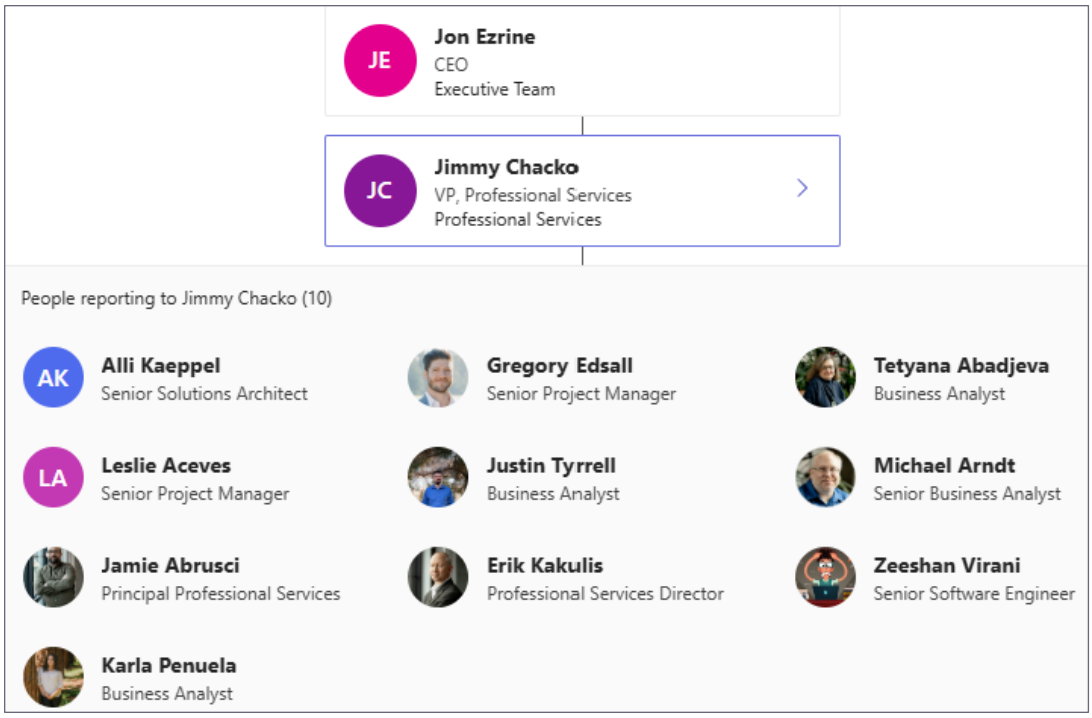
Brillion Fulfill has been successfully deployed to utilities of varying sizes and structures, including investor-owned utilities, municipal utilities, and community choice aggregators. These implementations demonstrate our ability to manage complex program portfolios, configure customized workflows, and deliver superior customer experience while supporting regulatory compliance and utility program goals.

Brillion Fulfill is currently leveraged by multiple California municipal utilities, including Roseville Electric and Environmental Utilities, Modesto Irrigation District, Silicon Valley Power, and Turlock Irrigation District. In addition to some of the largest investor-owned utilities in North America: Eversource Energy, Dominion Energy, and Enbridge Gas.

Through these projects, Brillion has consistently delivered:

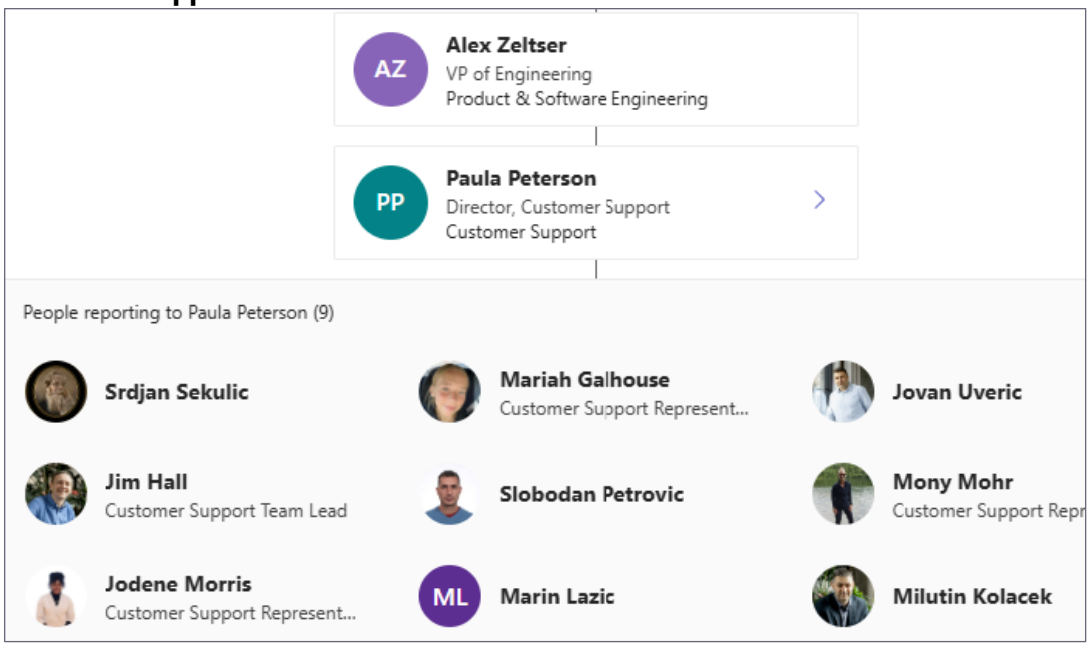
- Configurable workflows to support evolving DSM requirements.
- Robust reporting capabilities for compliance and performance tracking.
- Integration with utility enterprise systems to ensure operational continuity.
- Proven adherence to budgets and timelines, ensuring successful go-lives and long-term client satisfaction.

Subcontractors



Brillion staff will perform all proposed services delivered to Roseville Electric; no subcontractors will be used.

Organizational Structure and Staffing Levels



Brillion currently employs approximately 60 full-time professionals. Included with this response are organizational charts for Brillion's Professional Services team and Customer Support team—the primary groups that support Roseville Electric today, and that would continue to do so under this RFP.

Tab B: Experience and References

Brillion has extensive experience delivering rebate and incentive management systems for California public-sector utilities, including projects similar in scope, complexity, and regulatory environment to the services described in this RFP. Brillion has successfully implemented and supported Salesforce-based rebate management platforms encompassing customer portals, workflow automation, integration with utility back-office systems, reporting, and ongoing operational support.

Listed below are three (3) California public-sector references that represent comparable rebate management system projects completed by Brillion. Each reference includes a brief project description, project dates, client name, and primary contact information, as requested.

Project Name	Modesto Irrigation District Utility Program Management Platform
Client	Modesto Irrigation District
Description of work performed	Brillion Fulfill was implemented for Modesto Irrigation District (MID) as the central platform for program management, project tracking, and reporting across its residential, commercial/industrial (C&I), and solar energy efficiency and renewable programs. The system serves as a comprehensive repository for program participation data, customer project records, energy efficiency measures, incentive processing, and all related program information. Program managers and staff rely on Brillion Fulfill as their primary day-to-day system to manage workflows, track project progress, and ensure compliance with program requirements. Built-in operational and management reporting within Brillion Fulfill provides MID with real-time insights into program performance, budget utilization, and customer participation trends, enabling more informed decision-making and streamlined program delivery. In addition, Brillion Fulfill supports integration with external systems where needed, ensuring data consistency across MID's enterprise applications. The platform provides MID with the scalability and flexibility to adapt as programs evolve, while maintaining a clear audit trail and robust reporting framework. By implementing Brillion Fulfill, MID has centralized program operations, improved reporting accuracy, and enhanced the customer and staff experience—ultimately ensuring more efficient management of its energy efficiency and renewable portfolio.

Period work was completed	Initial deployment in 2016
Client contact	Linh Nguyen linh.nguyen@mid.org

Project Name	Turlock Irrigation District Utility Rebate Management Platform
Client	Turlock Irrigation District
Description of work performed	Brillion Fulfill was implemented for Turlock Irrigation District (TID) to serve as TID's platform used to manage, track, and report on its residential energy efficiency programs. The system serves as a centralized repository for residential program enrollment, customer project records, energy efficiency measures, incentive processing, and all supporting documentation. TID program staff rely on Brillion Fulfill daily to manage project workflows, monitor progress, and ensure program compliance. The platform's integrated reporting provides timely insights into participation levels, incentive utilization, and overall program performance, enabling TID to make data-driven decisions that strengthen program delivery and customer engagement. Brillion Fulfill also gives TID the flexibility to adapt as residential program offerings evolve, while maintaining consistent data quality and transparency. This has led to more streamlined operations, improved reporting accuracy, and enhanced experience for both TID staff and participating residential customers.
Period work was completed	Initial deployment in 2021
Client contact	Erica Salado ejsalado@tid.org

Project Name	Silicon Valley Clean Energy Management Platform
Client	Silicon Valley Clean Energy
Description of work performed	Brillion Fulfill was implemented for Silicon Valley Clean Energy (SVCE) to serve as SVCE's comprehensive program management solution supporting end-to-end customer, vendor, and internal workflows. Key capabilities

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

	include configuration of up to twelve incentive and grant programs and associated measures; an online customer application intake and review solution (authenticated or unauthenticated, determined during discovery); and automated workflows with status-based notifications, including Bill.com payment communications. The solution also includes CRM functionality to track customer interactions and participation history; role-based access for external vendors, including bulk data uploads; and configurable enrollment and budget dashboards and reports. Additional scope covers DocuSign eSignature integration for customer agreements, legacy data import templates and guidance, and integrations with external systems including Calpine, PG&E (4013), DAISY, Concierge Salesforce CRM, and Bill.com.
Period work was completed	Initial deployment in 2024
Client contact	Doug Bernard doug.bernard@svcleanenergy.org

Tab C: Qualifications of Team

Brillion will staff this project with an experienced, U.S.-based professional services team that brings deep expertise in Salesforce-based utility solutions, demand-side management platforms, and long-term application management engagements. The designated project leadership includes a Senior Project Manager and senior subject-matter experts with extensive tenure at Brillion and direct experience supporting the City of Roseville's existing platform and customer portal. Team members collectively offer decades of experience in SaaS delivery, Salesforce configuration, Agile project management, and utility program operations, enabling efficient execution with minimal ramp-up.

All work will be performed by Brillion employees; no sub-consultants or sub-contractors will be utilized for this engagement. Brief resumes for each team member, including geographic location and length of service with Brillion, are provided below.

Michael Arndt, Senior Salesforce Business Analyst

Location: Milwaukee, WI
Tenure: 11 years
Michael Arndt has over ten years of experience supporting Salesforce-based utility and demand-side management solutions, with deep expertise in the Brillion Fulfill platform. He has worked extensively with the City of Roseville and possesses detailed, institutional knowledge of Roseville's existing platform configuration, customer rebate portal, and operational workflows.

Michael has led configuration and enhancement efforts across Salesforce, including security models, objects, automation (Flows, approval processes, validation rules), reporting, and Lightning experiences. He regularly translates Roseville's business and program requirements into practical, scalable system enhancements, ensuring continuity with existing configurations while introducing improvements aligned to current needs.

Throughout his career, Michael has acted as a primary liaison between customers and technical teams, facilitating workshops, interviews, and working sessions to gather requirements, document business processes, and guide configuration decisions. He has supported Agile delivery using Scrum methodologies, managing backlogs, participating in sprint planning, and leading testing and UAT to ensure solutions meet operational and customer needs.

As a trusted advisor, Michael conducts targeted discovery sessions, supports backlog prioritization, and leads testing and UAT to ensure enhancements are delivered accurately and with minimal disruption. His deep familiarity with Roseville's environment significantly reduces project ramp-up time and risk, making him a key contributor to the success of this engagement.

Greg Edsall, Senior Project Manager, Professional Services

Location: Leesburg, VA

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

Tenure: 1.5 years
Greg Edsall is an experienced IT Project Manager with a strong background leading technology initiative across the energy, financial services, logistics, and design industries. He has over six years of progressive experience managing full project lifecycles, from planning and execution through delivery and closeout, in both startup and enterprise environments.

Greg has led remote and hybrid teams, coordinated vendors, and driven cross-functional collaboration to ensure projects are delivered on time, within scope, and aligned with stakeholder expectations. His approach emphasizes clear communication, proactive risk management, and consistent progress tracking, providing transparency and predictability throughout the engagement.

As Senior Project Manager, Greg supports day-to-day execution, status reporting, issue resolution, and coordination between Roseville staff and Brillion delivery resources. His well-rounded background in IT delivery, operations, and business administration enables him to balance technical execution with practical business needs, contributing to a smooth and well-governed implementation.

Jimmy Chacko, Senior Director, Professional Services

Location: Atlanta, GA
Tenure: 1 year
Jimmy Chacko is a seasoned SaaS implementation and professional services leader with over 20 years of experience delivering complex enterprise software deployments and driving customer success initiatives. He provides executive oversight for professional services delivery, ensuring projects are aligned with client objectives, delivered efficiently, and governed by best-practice methodologies.

Jimmy has a proven track record of building and scaling high-performing onboarding, solution architecture, and customer success teams across both startup and enterprise environments. His leadership has consistently resulted in reduced implementation timelines, improved delivery predictability, and customer satisfaction ratings exceeding 94%. He brings deep expertise in aligning technology solutions with strategic business goals, ensuring measurable outcomes for clients.

In his role, Jimmy provides strategic direction, delivery governance, and escalation support for complex engagements. His experience leading cross-functional teams and enterprise programs ensures that Roseville benefits from disciplined execution, strong accountability, and a services organization optimized for long-term success.

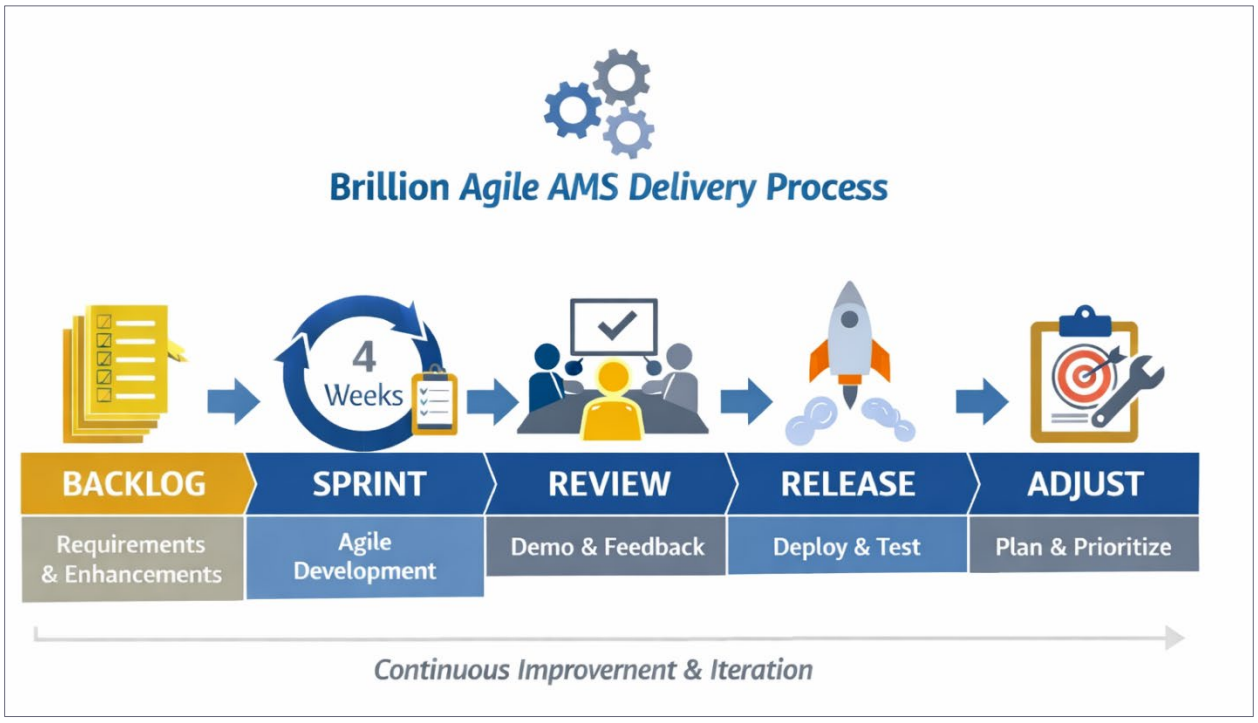
Zeeshan Virani, Solution Architect, Professional Services

Location: Tucker, VA

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

Tenure: 12 years
Zeeshan is a seasoned Solution Architect specializing in Salesforce.com platforms, with over a decade of experience designing and implementing scalable, integrated solutions. Since 2013, he has led the architecture and enhancement of Salesforce applications, developing custom Apex code, Visualforce pages, and API integrations to meet complex business requirements.

Zeeshan excels at translating client needs into technical solutions, building robust web service APIs for seamless third-party integrations, and guiding cross-functional teams through design and implementation phases. His broad expertise spans multiple operating systems, programming languages, databases, and web technologies, enabling him to deliver end-to-end, innovative solutions that align with strategic goals.



Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

Tab D: Project Understanding

Roseville Electric has partnered with Brillion since 2012, and our Professional Services and Customer Support teams bring deep, hands-on knowledge of Roseville's DSM programs, Salesforce configuration, customer rebate portal, and operational workflows. This long-standing relationship provides Brillion with a clear understanding of the City's objectives, regulatory environment, constraints, and the practical realities of operating and evolving a mature, best in class utility program management platform.

Recognizing the delivery challenges experienced in the prior year under the existing time-and-materials model, **Brillion is proposing an alternate AMS approach designed to improve continuity, delivery consistency, and value realization**. Rather than consuming a budget through intermittent, reactive usage, the AMS model ensures dedicated capacity focused on forward-looking platform enhancements and operational improvements. Brillion will continue to provide the same level of transparency into hours consumed, work performed, and outcomes delivered, ensuring Roseville has clear visibility that AMS dollars are being spent efficiently and aligned to agreed priorities.

Brillion AMS Visual Process Representation

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

The services requested in this RFP are best understood as two integrated and complementary workstreams.

- First, Roseville is seeking the continued enhancement and refinement of its existing Salesforce-based platform and customer rebate portal focused on improving functionality, efficiency, and customer experience while preserving system stability and historical program data.
- Second, Roseville is seeking ongoing, end-to-end operational support delivered by dedicated, Roseville-knowledgeable resources, supported by full documentation and cross-trained staff to ensure continuity of operations and timely response to Roseville-specific needs.

AMS 0.5 FTE Subscription (Professional Services and Enhancements)

To support the professional services and enhancement objectives, Brillion proposes an Application Management Services (AMS) 0.5 FTE subscription that provides predictable, dedicated delivery capacity aligned to Roseville's priorities. This model supports targeted discovery and due diligence, delivery of enhancements identified in the existing backlog and RFP requirements, and a governed, backlog-driven framework to address new priorities as program and business needs evolve—without the disruption or overhead of repeated standalone projects.

A central challenge in achieving Roseville's objectives is balancing uninterrupted program operations with continuous improvement, ensuring enhancements are delivered efficiently, accurately, and with minimal risk to customers and staff. Brillion's deep institutional knowledge of Roseville's platform, combined with a proven AMS delivery model purpose-built for utility environments, enables disciplined change control, consistent forward progress, and rapid response to emerging needs. This approach reduces delivery risk, improves predictability, and maximizes the long-term value of Roseville's existing investment.

The AMS engagement will be used to implement functionality identified in Brillion's Requirements Matrix response and the RFP functionality backlog that is either planned for completion prior to the next contract term or requires development under the upcoming contract. This ensures transparent prioritization, controlled execution, and measurable progress aligned with Roseville Electric's operational and program goals.

AMS 0.25 FTE Subscription (Ongoing Operational Support)

To support Roseville Electric's ongoing operational needs, Brillion proposes an Application Management Services (AMS) 0.25 FTE subscription focused on production support, system stability, and continuity of operations. This model provides dedicated, Roseville-knowledgeable support resources with direct experience in the City's specific configuration, supported by documented build and support procedures, cross-trained staff, and standard support tools including a formal help desk and ticketing system. The AMS framework ensures timely issue resolution, clear escalation paths, and effective coordination with enhancement activities.

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

Maintaining reliable day-to-day operations while the platform continues to evolve requires disciplined processes, deep platform familiarity, and predictable support capacity. Brillion's long-standing partnership with Roseville and proven AMS support model reduce operational risk, minimize disruption to customers and staff, and ensure consistent service levels. This subscription-based approach provides Roseville with confidence that its platform is actively supported, well-governed, and resilient—protecting the City's investment while enabling continued program evolution.

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

Tab E: Project Plan

This Project Plan section summarizes Brillion's approach to successful project implementation, including delivery methodology, governance, staffing, and schedule. It addresses Roseville Electric's requirements for a dedicated Project Manager, regular progress meetings, formal defect tracking, testing and acceptance processes, change control, and risk management. The response also covers document review, PMO differentiation, project tools, staffing responsibilities for Brillion and Roseville Electric participants, training and knowledge transfer, deployment readiness, and any equipment or installation considerations—demonstrating a complete, low-risk, and well-governed implementation approach aligned to Roseville's objectives.

For the purposes of this section, Brillion focuses exclusively on the delivery approach, governance, and execution of the AMS 0.5 FTE Professional Services and Enhancements engagement.

Implementation Approach Overview

To support the professional services and enhancement objectives, Brillion proposes a prepaid Application Management Services (AMS) 0.5 FTE subscription to support Roseville Electric's Salesforce-based platform optimization, process improvement, and ongoing operational readiness objectives. This engagement is designed to complete targeted discovery and due diligence, deliver currently identified system enhancements, and provide a flexible, governed framework to address additional priority items identified throughout the engagement.

Under this model, Roseville Electric receives a dedicated, blended Brillion delivery team—including Solution Architecture, Business Analysis, Project Management, and Integration expertise—allocated at 80 hours per month, with guaranteed availability and priority access.

Compared to traditional time-and-materials engagements, this approach reduces effective hourly costs, minimizes ramp-up time, and provides Roseville Electric with predictable, well-governed service delivery. This subscription-based model also reduces delivery risk by ensuring continuity of resources and deep familiarity with Roseville Electric's platform and operational workflows.

Delivery Methodology

Brillion will deliver services using a proven Agile AMS framework designed to provide transparency, predictability, and continuous value delivery. Core elements of the methodology include:

- **Discounted Effective Hourly Rate**
  A prepaid AMS subscription lowers the blended effective hourly rate compared to ad-hoc or time-and-materials engagements, maximizing the value of Roseville Electric's investment while reducing administrative overhead.

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

- **Guaranteed Resource Allocation**
  A committed 0.5 FTE ensures predictable capacity and consistent forward progress, eliminating delays caused by resource availability, onboarding, or reprioritization across competing initiatives.
- **Priority Access to Brillion Expertise**
  Roseville Electric's work is prioritized within Brillion's delivery queue, providing direct access to experienced platform experts and enabling faster turnaround for high-value enhancements and issue resolution.
- **Flexibility Without Re-Contracting**
  The AMS model allows effort to be shifted across approved backlog items as program and business priorities evolve, without requiring change orders for routine reprioritization.
- **Backlog-Driven, Governed Delivery**
  All work is documented, estimated, prioritized by Roseville Electric, and delivered through a controlled backlog and sprint framework to ensure transparency, scope control, and predictable outcomes.
- **Training, Enablement, and Knowledge Transfer**
  Targeted training is provided for all functional areas addressed, supported by clear documentation to enable Roseville staff to independently maintain and adjust configurations, emphasizing long-term self-sufficiency.
- **Deployment and Validation**
  All delivered functionality is fully tested by Brillion prior to deployment, with end-to-end validation to ensure production readiness and minimal disruption to ongoing operations.
- **Reduced Delivery and Operational Risk**
  Continuity of resources, deep platform familiarity, and disciplined delivery processes minimize implementation risk and protect system stability while enhancements are introduced.
- **Assured Value from Prepaid AMS Hours**
  To ensure Roseville consistently realizes value from its AMS subscription, Brillion delivers work through a structured, backlog-driven Agile model with regular reviews and planning checkpoints, ensuring transparency and measurable progress each month

This structured approach ensures Roseville consistently realizes value from prepaid AMS hours with measurable progress each month.

Proposed Work Schedule and Timeline

Brillion will execute the AMS 0.5 FTE Professional Services and Enhancements engagement using a phased, sprint-based delivery methodology aligned with Roseville Electric's desired timeline while maintaining uninterrupted program operations. The engagement begins with targeted discovery, document collection and review, and backlog validation, followed by ongoing four-week sprint cycles focused on prioritized enhancements, testing, and deployment. Sprint reviews, quarterly

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

planning checkpoints, and regular progress meetings (minimum weekly) provide continuous visibility into schedule, scope, and progress.

Brillion's AMS delivery model is structured to enable an efficient, low-friction project kickoff immediately upon contract execution and authorization to proceed. Because the engagement is subscription-based and leverages an established AMS framework, no extended startup, procurement, or staffing ramp-up period is required. Brillion maintains ready-to-deploy delivery resources and proven onboarding processes, allowing work to commence promptly following contract approval.

Within the first two weeks of kickoff, Brillion will conduct a structured project initiation and readiness phase that includes confirmation of governance, validation of roles and responsibilities, establishment of the communication cadence, and collection and review of existing documentation and system artifacts. During this phase, Brillion will validate assumptions, confirm priorities, and establish the initial City-prioritized backlog, ensuring alignment on objectives, success criteria, and delivery expectations while minimizing demands on City staff.

A dedicated Project Manager, responsible for all phases from kickoff through implementation, will coordinate all kickoff activities, facilitate minimum weekly progress meetings, and establish the tools and workflows used for backlog management, formal defect tracking, change control, and reporting. Roseville Electric will have immediate and ongoing visibility into planned work, sprint timelines, risks, and upcoming deliverables, ensuring transparency from day one.

Because the AMS model provides guaranteed resource allocation (0.5 FTE) and continuity of assigned personnel, Brillion transitions seamlessly from kickoff into active delivery without delays caused by resource availability, contracting dependencies, or re-onboarding. Enhancements may begin as early as the first sprint following kickoff, enabling Roseville Electric to realize value quickly while maintaining strong governance, quality assurance, and risk controls.

All software releases will be fully tested by Brillion prior to production deployment. Roseville Electric staff will assist with acceptance testing and defect reporting, supported by formal defect tracking tools with defined prioritization, response timelines, and resolution workflows.

This approach ensures Roseville Electric experiences a rapid, well-organized project start, predictable work commencement, and early momentum—while maintaining flexibility to adjust priorities as program and business needs evolve.

Proposed Kickoff Timeline Overview

Week 0 – Contract Execution / Authorization to Proceed

- Contract executed and AMS subscription activated
- Dedicated Project Manager and delivery team confirmed
- Formal kickoff meeting scheduled

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

Weeks 1–2 – Project Initiation & Readiness

- Formal project kickoff meeting
- Confirmation of governance, roles, and communication cadence
- Document collection and review
- Validation and prioritization of the initial delivery backlog
- Setup of project tools (backlog management, defect tracking, reporting)

Weeks 3–6 – Sprint 1 (Initial Delivery)

- Begin first four-week sprint
- Design, configuration, and development of prioritized enhancements
- Minimum weekly progress meetings
- Vendor-led testing of completed functionality

End of Sprint 1 – Review & Acceptance

- Sprint review and demonstration
- City participation in acceptance testing and defect reporting
- Deployment of approved enhancements to production, as appropriate

Ongoing – Continuous Delivery

- Four-week sprint cadence with regular sprint reviews
- Quarterly planning aligned to operational and program goals
- Continuous enhancement, testing, deployment, and knowledge transfer

Project Management and Governance

Brillion will assign a dedicated Project Manager responsible for all phases of the engagement, from kickoff through implementation. The Project Manager will:

- Facilitate weekly progress meetings (at minimum)
- Manage the project backlog and sprint planning
- Coordinate delivery resources
- Serve as Roseville Electric's primary point of contact
- Oversee schedule, scope, and communications

Delivery governance follows the Agile AMS framework, ensuring disciplined execution, transparency, and accountability throughout the engagement.

Project Staffing and Role Assignments

Brillion will staff the engagement with a dedicated, blended delivery team aligned to the AMS model and scope of work:

- **Project Manager** – governance, schedule, communications, backlog management
- **Solution Architect** – design oversight and alignment with Roseville's platform standards

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

- **Business Analyst** – requirements definition, validation, and acceptance criteria
- **Salesforce Configuration and Integration Resources** – build, test, and deploy approved enhancements

Brillion does not anticipate the use of subcontractors or sub-consultants for this engagement.

Document Collection and Review

At the outset of the engagement, Brillion will collect and review existing program documentation, system configuration materials, prior enhancement artifacts, and relevant operational procedures provided by Roseville Electric. These materials will be validated against the current Salesforce configuration to identify gaps, confirm assumptions, and inform backlog prioritization. Documentation will be updated as enhancements are delivered to ensure alignment with the production environment and support ongoing operations and knowledge transfer.

Testing, Defect Management, and Acceptance

All software releases will be fully tested by Brillion prior to production deployment. Roseville staff will participate in acceptance testing, supported by formal defect tracking tools with clearly defined prioritization, response timelines, and resolution workflows. This approach ensures quality, accountability, and readiness before functionality is promoted to production.

Change Management and Control

Brillion will utilize a formal change management process in which enhancement requests are documented, estimated, and communicated with clear cost and timeline implications prior to execution. This process ensures transparency, predictability, and informed decision-making by City staff while maintaining controlled delivery.

Risk Mitigation and Quality Assurance

Risk mitigation is embedded throughout the AMS model and includes early discovery, incremental delivery, regular stakeholder communication, and controlled deployment practices. By leveraging Brillion's deep institutional knowledge of Roseville Electric's existing configuration, the engagement minimizes delivery risk, avoids unnecessary rework, and reduces disruption to customers and staff.

Project Management Tools and Technology

Brillion will utilize industry-standard tools to manage delivery, including backlog management, sprint tracking, defect tracking, and deployment tooling aligned with Salesforce best practices. These tools provide transparency into status, progress, risks, and delivered outcomes for both Brillion and Roseville Electric stakeholders.

Staffing Requirements and City Participation

Brillion will provide all professional services resources required to deliver the scope of work through the AMS 0.5 FTE subscription. Roseville Electric's involvement is focused on governance and validation activities, including backlog prioritization, participation in sprint reviews and

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

demonstrations, and execution of acceptance testing with defect reporting. No third-party staffing is required.

Project Management Office (PMO) Differentiation

Brillion's Project Management Office is purpose-built for utility environments and long-term platform operations rather than short-term, standalone implementations. The AMS-driven PMO emphasizes continuity of resources, backlog governance, disciplined change control, and close integration with operational support. Combined with Brillion's long-standing relationship with Roseville and deep platform knowledge, this approach delivers measurable progress, reduced risk, and long-term value without repeated re-contracting or fragmented execution.

Equipment, Training, and Installation Requirements

No specialized equipment or on-premise installation services are required from Roseville Electric. All work will be performed within Roseville's existing Salesforce environment using cloud-based tools. Targeted training and knowledge transfer will be provided as part of the AMS engagement to support City staff and ensure long-term operational readiness.

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

Tab F: Cost Proposal

Brillion has provided a total cost proposal for a two-year base contract with five optional annual renewals, as required. The cost proposal includes all products and services necessary to successfully deliver the proposed solution, including professional services, ongoing operational support, and platform licensing. Costs are presented on an annual basis and are sufficient to support Roseville Electric's current environment, as well as anticipated growth in users, data, and file storage over the proposed contract term.

The cost proposal represents the maximum not-to-exceed contract amount across the three (3) cost components, providing Roseville Electric with cost certainty and budget control. Brillion anticipates working collaboratively with Roseville Electric prior to each annual renewal term to evaluate evolving needs related to licensing, professional services and enhancements, and ongoing operational support, while maintaining transparency and predictability. Unless otherwise noted, no reimbursable expenses are requested.

For budgetary and planning purposes, subscription and licensing levels have been held consistent across the proposed contract term. Platform licensing costs reflect a 5% increase in the initial contract term, followed by a 3% annual increase beginning in the second contract year and applied to each optional renewal year thereafter—representing the first increase to Brillion's license fees for Roseville Electric since 2017.

Professional Services and Ongoing Operational Support costs reflected in this proposal have increased compared to the prior agreement and are aligned with current market rates for Brillion's specialized expertise in utility DSM program management and Salesforce-based rebate platforms, reflecting the depth of experience, continuity of staffing, and domain-specific knowledge provided to Roseville Electric. Professional Services and Ongoing Operational Support costs reflect a 3% annual increase beginning in the second contract year and applied to each optional renewal year thereafter.

Each cost component directly aligns to the scope, staffing, and delivery approach described in the Project Plan section of this proposal. Detailed descriptions of each cost component are provided in the following sections.

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

Cost Components

1. Application Management Services (AMS) for Professional Services and Enhancements.
2. Application Management Services (AMS) for Ongoing Operational Support
3. Platform licensing that provides access to all Brillion Fulfill and Salesforce platform features and the Brillion Fulfill application portal for customers and contractors.

Initial two-year contract term

Cost Component	Annual Cost	Year 1	Year 2
AMS 0.5 FTE Subscription (Professional Services and Enhancements)	$180,000	$180,000	$185,400
AMS 0.25 FTE Subscription (Ongoing Operational Support)	$81,600	$81,600	$84,048
Platform Licensing	$82,830	$82,830	$85,315
Total Cost	**$344,430**	**$344,430**	**$354,763**

Five optional one-year renewal term

Cost Component	Option Year 1	Option Year 2	Option Year 3	Option Year 4	Option Year 5
AMS 0.5 FTE Subscription (Professional Services and Enhancements)	$190,962	$196,691	$202,592	$208,669	$214,929
AMS 0.25 FTE Subscription (Ongoing Operational Support)	$86,569	$89,167	$91,842	$94,597	$97,435
Platform Licensing	$87,874	$90,511	$93,226	$96,023	$98,903
Total Cost	**$365,406**	**$376,368**	**$387,659**	**$399,289**	**$411,267**

Component 1: AMS Proposal Summary (Professional Services and Enhancements)

As described in the Project Understanding section, Brillion proposes an Application Management Services (AMS) 0.5 FTE subscription to support the professional services and enhancement objectives captured in Brillion's Requirements Matrix response and the RFP functionality backlog.

The prepaid Application Management Services (AMS) **0.5 FTE subscription** provides Roseville Electric with a guaranteed, blended delivery team allocated at **80 hours per month**. This model delivers predictable costs, priority access to resources, and a discounted effective hourly rate compared to ad-hoc or time-and-materials engagements.

The AMS subscription covers Solution Architecture, Business Analysis, Project Management, and Integration expertise under a single monthly fee, enabling Roseville to flexibly prioritize work without re-contracting for each enhancement.

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

Cost Component	Description	Annual Cost
AMS 0.5 FTE Subscription (Professional Services and Enhancements)	Prepaid blended Brillion delivery team (SA, BA, PM, Integrations) – 80 hours/month	$180,000

2026 Brillion Rate Card (AMS Professional Services and Enhancements)

Cost Component	Value
Monthly AMS Hours	80 hours
Blended Effective Hourly Rate (AMS)	$187.50

What Is Included

- Dedicated 0.5 FTE Brillion delivery capacity (80 hours/month)
- Priority access to Brillion delivery resources
- Backlog-driven Agile delivery with 4-week sprint cadence
- Sprint reviews and demonstrations
- Quarterly planning
- Discovery, configuration, testing, deployment, and knowledge transfer
- Ongoing backlog refinement and prioritization support

Component 2: AMS 0.25 FTE Subscription (Ongoing Operational Support)

As described in the Project Understanding section, Brillion proposes an Application Management Services (AMS) 0.25 FTE subscription to provide on-going, dedicated production support, system stability, and continuity of operations.

The prepaid Application Management Services (AMS) – Support **0.25 FTE subscription** provides Roseville Electric with a dedicated support capacity allocated at **40 hours per month.** This model delivers predictable costs, priority handling of support requests, and a more cost-effective alternative to ad-hoc or time-and-materials support engagements.

The AMS – Support subscription is focused exclusively on ongoing operational support, including issue resolution, minor configuration assistance, administrative support, and platform troubleshooting, under a single monthly fee.

Cost Component	Description	Annual Cost
AMS 0.25 FTE Subscription (Ongoing Operational Support)	Prepaid ongoing operational support – 40 hours/month	$81,600

2026 Brillion Rate Card (Ongoing Operational Support)

Cost Component	Value
Monthly AMS Hours	40 hours
Effective Hourly Rate (AMS)	$170.00

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

What Is Included

- Dedicated 0.25 FTE Brillion support capacity (40 hours/month)
- Priority access to Brillion support resources
- Structured intake, triage, and prioritization of support requests
- Issue investigation, troubleshooting, and resolution
- Minor configuration and administrative support
- Coordination with Brillion Professional Services when escalation is required
- Knowledge transfer and documentation updates related to supported items

Component 3: Platform Licensing

Licensing costs are presented on an annual basis and are sized to support Roseville Electric's current environment, as well as anticipated growth in users, data, and file storage over the proposed contract term. For planning and budgeting purposes, licensing levels have been held consistent across the term, with the understanding that Brillion and Roseville Electric will review licensing needs together prior to each annual renewal to ensure continued alignment with operational requirements.

License Type	Quantity	Annual Cost	Total Cost	Description
Brillion System Administrators	5	$1,733	$8,665	Full administrative access to configure, maintain, and manage the system
General Administrators	5	$1,733	$8,665	Approval-level access for operational oversight and program management
General Users	10	$1,733	$17,330	Standard internal user access for day-to-day processing and program support
Additional Users	Up to ~10	$1,733	$17,330	May be added as needed at a per-user, per-year rate (prorated for partial-year access)
Portal Accounts	Up to 8,000	$0.80	$6,400	Customer and contractor access to the online rebate processing tool
Full Sandbox	2	$3,670	$7,340	Full-copy sandbox environments for configuration and UAT purposes.
File Storage	1 TB	$7,500	$7,500	Additional file storage for all attachments and corresponding documents uploaded to the platform.
Data Storage	20 GB	$9,600	$9,600	Additional data storage for all records added to the platform.
Platform Licensing - Total Cost			**$82,830**	

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

Note: Annual platform licensing costs reflected in this proposal include a 5% increase over the current agreement. This represents the first increase to Brillion's license fees for Roseville Electric since 2017.

Note: Any additional licenses approved by Roseville Electric will be co-termed to the subscription end date and prorated accordingly.

Note: Roseville Electric currently utilizes 32% of the available platform data storage, and 134% of the available platform file storage. To date, an additional 50GB of file storage have been provisioned to the Roseville Electric platform and to address the current overage (using 134% of available) our base cost for licenses and products, including data and file storage includes costs for an additional 1TB of file storage and 50GB of data storage -- beyond what is currently provisioned.

Note: The Brillion Fulfill Platform license model is all-inclusive. Brillion Fulfill updates and general maintenance are included at no additional cost, some examples of these no cost benefits are listed here:

- All Brillion Fulfill platform upgrades will be made available to Roseville as part of the platform licensing fee. No upgrades are mandatory (although we recommend staying up to date with our latest release). We hold release Webinars for each release and publish those Webinars in our support community.
- Brillion continually upgrades and enhances our software. We provide 3 releases each year. We have a standard release process, with pre-release Webinars, release notes, schedules, lists of known issues, post-installation steps, etc. Roseville system administrators will be responsible to review, test and properly release new packages.
- There will be occasional scheduled maintenance periods for Brillion Fulfill and Salesforce during non-working hours; most timeframes are no more than 10- 30 minutes in duration.
- Brillion Fulfill Roadmap releases incorporate major new features from the product roadmap as well as minor product enhancements and fixes for reported defects. These releases are cumulative, and customers can choose when (or if) they want to install a particular release.
- Upgrades to Brillion Fulfill are backwards compatible with local customizations and configurations in our customer environments.

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

2026 Standard Rate Card

The proposed AMS pricing is based on a discounted blended hourly rate, which provides cost efficiencies compared to traditional time-and-materials engagements. For transparency, Brillion has included its 2026 standard rate card for comparison purposes to illustrate the cost savings achieved through the AMS subscription model.

Role	**Rate**
Solution Architect	$250
Business Analyst	$210
Project Manager	$210
Development / Integrations	$250
Support	$185

Brillion's 2026 rate card reflects competitive, market-aligned pricing for senior, onshore consulting resources, particularly for specialized Salesforce and utility DSM program management expertise.

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

Tab G: Required Statements/Documents

Brillion has provided the following required documents are submitted as attachments to this proposal:

1. Proof of registration with the California Secretary of State
2. Executed Proposer's Certification (Attachment I)
3. Completed Levine Act Disclosure Statement Form (Attachment II)
4. Executed Non-Collusion Declaration (Attachment III)

Brillion provides the statements of assurance:

1. Non-Substitution of Key Personnel (Section 5.0):
Brillion acknowledges and agrees that the designated members of the proposed project team will not be substituted without the prior written approval of City staff.

2. Conflict of Interest (Section 10.4):
Brillion affirms that no conflict of interest exists that would impair its ability to perform the services described in this RFP. Brillion agrees to promptly disclose any potential or actual conflict of interest that may arise during the term of the agreement.

3. Indemnification and Insurance (Section 10.7):
Brillion confirms its understanding of and ability to comply with the indemnification and insurance requirements set forth in the Sample Contract. Brillion agrees to fulfill *all such requirements upon contract execution. Certificates of insurance will be provided as requi*red and are not included with this submittal.

4. Non-Proprietary Proposal Content (Section 10.23):
Brillion confirms that no portion of the submitted proposal is proprietary and that all information provided may be reviewed, disclosed, or retained by the City in accordance with applicable laws and RFP requirements.

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

Tab H: Exceptions

Brillion has no proposed exceptions, alterations, or amendments to the Scope of Services or other requirements of this RFP, including the Sample Contract (Attachment Page 20 VI).

Brillion has included additional reference and supporting documents for the City's consideration, which are intended to supplement and be incorporated into the City's agreement without modifying or conflicting with the RFP requirements or Sample Contract terms.

Brillion proposes inclusion of the following exhibit and schedule documents to the City Roseville Agreement; these are standard documents for the implementation of Brillion Fulfill. These are provided below and include the following:

- Exhibit A: Scope of Services
- Schedule 1 to Exhibit A: SFDC Terms of Use
- Schedule 2 to Exhibit A: Support Services

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

Tab I: Competency of Proposers

Brillion has no pending or resolved bankruptcies, liens, stop payment notices, judgments, lawsuits, arbitrations, mediations, foreclosures, or similar actions filed against the company within the past seven (7) years. Additionally, no client has ever terminated a contract with Brillion for breach. Brillion maintains a strong record of financial stability, ethical business practices, and successful long-term client relationships.

Statement of Financial Resources

Brillion has been in operation for over 20 years and is solely dedicated to providing SaaS software solutions and services to the Utilities Industry across Canada and the United States. We currently partner with approximately 150 utility providers and maintain multi-year licensing agreements with some of the largest investor-owned utilities, publicly owned utilities, utility cooperatives, program implementers, and government organizations. Financially, Brillion is backed by the private equity firm M33 Growth (headquartered in Boston, MA), providing an additional level of financial stability and strategic guidance.

As a privately held company, Brillion does not publicly distribute detailed financial statements as part of proposal submissions. **To provide assurance regarding Brillion's financial resources and long-term viability—and to demonstrate our ability to maintain the staff, sub-consultants, and equipment necessary for continuous project performance—Brillion's Chief Financial Officer will meet with City representatives to discuss the company's financial position and provide appropriate insights.** This approach allows Roseville Electric to assess Brillion's financial strength while preserving the confidentiality of proprietary information.

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

Tab J: Technology Projects

The following documents are provided as attachments to this proposal: the completed Technology Security and Standards Matrix (Attachment IV) and the completed Requirements Matrix (Attachment V).

Brillion has provided our Support Services agreement in the following pages for Roseville Electric review. This agreement addresses Brillion's support hours, contact processes, severity classifications, and resolution times.

Recovery Time Objective and Recovery Point Objective

Salesforce's Recovery Time Objective (RTO) is 12 hours and Recovery Point Objective (RPO) is 4 hours. Salesforce's disaster recovery plans currently have the following target recovery objectives: (a) restoration of the Service within 12 hours after Salesforce's declaration of a disaster; and (b) maximum Customer Data loss of 4 hours; excluding, however, a disaster or multiple disasters causing the compromise of both multiple Salesforce data centers at the same time, and excluding development and test bed environments, such as the Sandbox service.

Training Overview and Approach

Roseville Electric, as an established Brillion customer and already has access to Brillion's standard training materials, documentation, and support resources. As part of the proposed Application Management Services (AMS) engagement, Brillion's training efforts will focus on reinforcing existing knowledge, addressing changes introduced through system enhancements, and updating Roseville-specific implementation guides to reflect current configurations and best practices.

Rather than delivering a full implementation training program, Brillion will leverage Roseville's existing familiarity with the platform and apply targeted, role-based training aligned to enhancements delivered under the AMS backlog. The specific training approach, timing, and materials will be confirmed during AMS planning and sprint execution to ensure alignment with Roseville's priorities and minimize disruption to ongoing operations.

The primary objective of Brillion's training and professional services approach is to maintain and strengthen Roseville's long-term self-sufficiency in administering and using the Brillion platform. Brillion continues to rely on a proven "train-the-trainer" model, empowering designated Roseville staff and super users to support broader internal training needs as system updates are introduced. Targeted end-user or administrator training sessions may be provided as needed to support specific enhancements or operational changes delivered through AMS.

Training materials and documentation continue to support two core audiences: end users responsible for managing DSM and energy efficiency program activities, and system administrators—including both IT and line-of-business staff—responsible for configuration and

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

ongoing administration. As part of AMS, Roseville-specific implementation guides and documentation will be reviewed and updated to reflect current workflows, configurations, and any enhancements delivered during the engagement.

System administrator enablement will continue to build upon Roseville's existing Salesforce knowledge, leveraging Salesforce-provided training resources where appropriate and focusing Brillion-led efforts on platform architecture, configuration patterns, and Fulfill-specific administration. End-user enablement will emphasize practical workflows and Roseville-specific business processes to ensure enhancements are adopted smoothly and consistently.

As an existing customer, Roseville Electric will continue to have access to:

- The Brillion Support Community
- Product documentation and knowledge base
- Online Brillion implementation guides
- The Brillion Knowledge Base
- Roseville-specific documentation updated as part of the AMS engagement
- Online training, troubleshooting resources, and support communities

Brillion Fulfill Roadmap

Safe Harbor Product Roadmap

The following roadmap outlines Brillion's current product direction and areas of investment under consideration. This roadmap is provided for informational purposes only and reflects Brillion's present plans and priorities, which are subject to change based on customer feedback, regulatory requirements, market conditions, and product strategy.

1. Implementation Cycle Enhancements

Objective: Reduce complexity and dependency on deep Salesforce expertise during program and measure configuration.

- Continued enhancements to Program Process Builder capabilities to simplify configuration of program workflows and approvals
- Expanded Measure Builder tools to streamline measure setup, calculations, and validation
- Exploration of AI-assisted configuration capabilities to accelerate setup, reduce errors, and improve usability

2. Reporting and Tracking Enhancements

Objective: Improve visibility into program performance for both operational teams and executive stakeholders.

- Expansion of high-level dashboards to support program performance monitoring beyond the core DSM team
- Integration of Fulfill reporting into the Brillion Control Center for consolidated operational insights
- Increased flexibility and scalability of cross-measure and cross-program reporting, supporting trend analysis and portfolio-level decision-making

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

3. Program Enrollment Support

Objective: Continue evolving enrollment capabilities while aligning with customer-specific portal strategies.

4. Evolutionary Platform Enhancements

Objective: Modernize the platform and reduce long-term operational overhead.

- Potential integration with additional third-party equipment databases, such as AHRI, to improve measure validation and automation
- Continued UX modernization leveraging component-based technologies to improve performance, accessibility, and maintainability
- Introduction of enhanced storage management capabilities designed to reduce overall system storage consumption and associated costs

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

Terms and Conditions

Brillion proposes inclusion of the following exhibit and schedule documents to the City Roseville Agreement; these are standard documents for the implementation of Brillion Fulfill. These are provided below and include the following:

- **Exhibit A: Scope of Services**
- **Schedule 1 to Exhibit A: SFDC Terms of Use**
- **Schedule 2 to Exhibit A: Support Services**

EXHIBIT A: SCOPE OF SERVICES

CONSULTANT shall provide the Services detailed in this Exhibit A, entitled "SCOPE OF SERVICES". Notwithstanding any provision herein to the contrary, CONSULTANT's duties and services described in this Scope of Services shall not include preparing or assisting CITY with any portion of CITY's preparation of a request for proposals, request for qualifications, or any other solicitation regarding a subsequent or additional contract with CITY. CITY shall at all times retain responsibility for public contracting, including with respect to any subsequent phase of this project. CONSULTANT's participation in the planning, discussions, or drawing of project plans or specifications shall be limited to conceptual, preliminary, or initial plans or specifications. CONSULTANT shall cooperate with CITY to ensure that all bidders for a subsequent contract on any subsequent phase of this project have access to the same information, including all conceptual, preliminary, or initial plans or specifications prepared by CONSULTANT pursuant to this Scope of Services.

1. Summary.

"Commencement Date" means July 1, 2026.

Initial two-year contract term

Cost Component	Annual Cost	Year 1	Year 2
AMS 0.5 FTE Subscription (Professional Services and Enhancements)	$180,000	$180,000	$185,400
AMS 0.25 FTE Subscription (Ongoing Operational Support)	$81,600	$81,600	$84,048
Platform Licensing (SaaS Fee)	$82,830	$82,830	$85,315
Total Cost	**$344,430**	**$344,430**	**$354,763**

Five optional one-year renewal term

Cost Component	Option Year 1	Option Year 2	Option Year 3	Option Year 4	Option Year 5
AMS 0.5 FTE Subscription (Professional Services and Enhancements)	$190,962	$196,691	$202,592	$208,669	$214,929
AMS 0.25 FTE Subscription (Ongoing Operational Support)	$86,569	$89,167	$91,842	$94,597	$97,435

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

Platform Licensing	$87,874	$90,511	$93,226	$96,023	$98,903
Total Cost	**$365,406**	**$376,368**	**$387,659**	**$399,289**	**$411,267**

2. SaaS Solution, Services, and Fees.

(a) SaaS Solution. The SaaS Fee owed by City for the delivery by Consultant to City of the SaaS Solution and Software is set forth above in Section 1 of this Exhibit A. In consideration of City's payment of the SaaS Fee and for the duration of the Subscription Term (defined below), Consultant will deliver to City the "**SaaS Solution**" consisting of access to the Software detailed in Section 1 above via the Salesforce.com platform ("**SFDC Platform**") detailed herein. Consultant is an authorized reseller of the SFDC Platform. By signing this Schedule 1, City agrees to the terms and conditions of the **SFDC Service Terms of Use** attached hereto as Schedule 1. Notwithstanding the foregoing, if City has a pre-existing relationship with SFDC, then SFDC will be responsible for delivering any technical assistance related to this SFDC Platform to City.

SFDC Upgrades for Software

All releases and upgrades to the Salesforce Platform can be monitored in the Customer Production Environment Release Update page, available through Setup as described at: https://help.salesforce.com/s/articleView?id=sf.release_updates_manage.htm&type=5

SFDC Platform Availability for Software

Platform availability for the SaaS Solution – Production Environment resides under the SFDC Main Services Agreement.

(a) Support Services. In consideration of City's payment of the SaaS Fee and for the duration of the Subscription Term (defined below), Consultant will deliver to City the "**Support Services**" detailed in Schedule 2 to this Exhibit A for the Software detailed in Section 1 above.

(b) Subscription Term. The initial term of Consultant's delivery of the SaaS Solution will commence on the Commencement Date and extend through the length of time set forth in Section 1 above.

(c) Implementation Services. The fee for the Implementation Services is set forth above in Section 1 of this Exhibit A (the "**Implementation Services Fee**"). In consideration of City's payment of the Implementation Services Fee, Consultant will deliver to City the "**Implementation Services**" more fully described in Exhibit A-1.

SCHEDULE 1 TO EXHIBIT A
(SFDC Service Terms of Use)

"AppExchange" means the online directory of on-demand applications that work with the Service, located at http://www.appexchange.com or at any successor websites.
"Reseller" means crmOrbit, Inc., a wholly owned subsidiary of Apogee Interactive, Inc.
"Reseller Application" means Brillion Fulfill software.

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

"Platform" means the online, Web-based platform service provided by SFDC to Reseller in connection with Reseller's provision of the Reseller Application to You.
"SFDC Service" means the online, Web-based application and platform service generally made available to the public via http://www.salesforce.com and/or other designated websites, including associated offline components but excluding AppExchange applications.
"**SFDC**" means salesforce.com.
"Users" means Your employees, representatives, consultants, contractors or agents who are authorized to use the Service subject to the terms of these SFDC Service Terms of Use as a result of a subscription to the Reseller Application having been purchased for such User, and have been supplied user identifications and passwords by You (or by Salesforce.com or Reseller at Your request).
"You" and **"Your"** means the customer entity which has contracted to purchase subscriptions to use the Reseller Application subject to the conditions of these SFDC Service Terms of Use, together with any other terms required by Reseller.
"Your Data" means all electronic data or information submitted by You as and to the extent it resides in the Service.

1. **Use of Service**.
   a. Each User subscription to the Reseller Application shall entitle one User to use the Service via the Reseller Application, subject to the terms of these SFDC Service Terms of Use, together with any other terms required by Reseller. User subscriptions cannot be shared or used by more than one User (but may be reassigned from time to time to new Users who are replacing former Users who have terminated employment with You or otherwise changed job status or function and no longer require use of the Service). For clarity, Your subscription to use the Platform hereunder does not include a subscription to use the SFDC Service. If You wish to use the SFDC Service or any of its functionalities or services, or to create or use additional custom objects beyond those which appear in the Reseller Application in the form that it has been provided to You by Your Reseller, visit www.salesforce.com to contract directly with SFDC for such services. In the event Your access to the Reseller Application provides You with access to the SFDC Service generally or access to any SFDC Service functionality within it that is in excess to the functionality described in the Reseller Application's user guide, and You have not separately subscribed under a written contract with SFDC for such access, then You agree to not access and use such functionality, and You agree that Your use of such functionality, or Your creation or use of additional custom objects in the Reseller Application beyond that which appears in the Reseller Application in the form that it has been provided to You by your Reseller, would be a material breach of this Agreement.
   b. Notwithstanding any access You may have to the Platform or the SFDC Service via the Reseller Application, Reseller is the sole provider of the Reseller Application and You are entering into a contractual relationship solely with Reseller. In the event that Reseller ceases

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

operations or otherwise ceases or fails to provide the Reseller Application, SFDC has no obligation to provide the Reseller Application or to refund You any fees paid by You to Reseller.

c. You (i) are responsible for all activities occurring under Your User accounts; (ii) are responsible for the content of all Your Data; (iii) shall use commercially reasonable efforts to prevent unauthorized access to, or use of, the Platform and the SFDC Service, and shall notify Reseller or Salesforce.com promptly of any such unauthorized use You become aware of; and (iv) shall comply with all applicable local, state, federal and foreign laws and regulations in using the Platform and the SFDC Service.

d. You shall use the Platform and the SFDC Service solely for Your internal business purposes and shall not: (i) license, sublicense, sell, resell, rent, lease, transfer, assign, distribute, time share or otherwise commercially exploit or make the Platform or the SFDC Service available to any third party, other than to Users or as otherwise contemplated by these SFDC Service Terms of Use; (ii) send spam or otherwise duplicative or unsolicited messages in violation of applicable laws; (iii) send or store infringing, obscene, threatening, libelous, or otherwise unlawful or tortious material, including material that is harmful to children or violates third party privacy rights; (iv) send or store viruses, worms, time bombs, Trojan horses and other harmful or malicious code, files, scripts, agents or programs; (v) interfere with or disrupt the integrity or performance of the Platform or the SFDC Service or the data contained therein; or (vi) attempt to gain unauthorized access to the Platform or the SFDC Service or its related systems or networks.

e. You shall not (i) modify, copy or create derivative works based on the Platform or the SFDC Service; (ii) frame or mirror any content forming part of the Platform or the SFDC Service, other than on Your own intranets or otherwise for Your own internal business purposes; (iii) reverse engineer the Platform or the SFDC Service; or (iv) access the Platform or the SFDC Service in order to (A) build a competitive product or service, or (B) copy any ideas, features, functions or graphics of the Platform or the SFDC Service.

2. **Third-Party Providers.** Reseller and other third-party providers, some of which may be listed on pages within SFDC's website and including providers of AppExchange applications, offer products and services related to the Platform, the SFDC Service, and/or the Reseller Application, including implementation, customization and other consulting services related to customers' use of the Platform and/or the SFDC Service, and applications (both offline and online) that interoperate with the Platform, SFDC Service, and/or the Reseller Application, such as by exchanging data with the Platform, the SFDC Service, and/or the Reseller Application, or by offering additional functionality within the user interface of the Platform, the SFDC Service, and/or the Reseller Application through use of the Platform and/or SFDC Service's application programming interface. SFDC does not warrant any such third-party providers or any of their products or services, including but not limited to the Reseller Application or any other product or service of Reseller, whether or not such products

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

or services are designated by SFDC as "certified," "validated" or otherwise. Any exchange of data or other interaction between You and a third-party provider, including but not limited to the Reseller Application, and any purchase by You of any product or service offered by such third-party provider, including but not limited to the Reseller Application, is solely between You and such third-party provider. In addition, from time to time, certain additional functionality (not defined as part of the Platform or SFDC Service) may be offered by SFDC or Reseller to You, for an additional fee, on a pass-through or OEM basis pursuant to terms specified by the licensor and agreed to by You in connection with a separate purchase by You of such additional functionality. Your use of any such additional functionality shall be governed by such terms, which shall prevail in the event of any inconsistency with the terms of these SFDC Service Terms of Use.

3. **Proprietary Rights.** Subject to the limited rights expressly granted hereunder, SFDC reserves all rights, title and interest in and to the Platform and the SFDC Service, including all related intellectual property rights. No rights are granted to You hereunder other than as expressly set forth in these SFDC Service Terms of Use. The Platform and the SFDC Service is deemed SFDC confidential information, and You will not use it or disclose it to any third party except as permitted in these SFDC Service Terms of Use.
4. **Compelled Disclosure**. If either You or SFDC is compelled by law to disclose confidential information of the other party, it shall provide the other party with prior notice of such compelled disclosure (to the extent legally permitted) and reasonable assistance, at the other party's cost, if the other party wishes to contest the disclosure.
5. **Suggestions**. You agree that SFDC shall have a royalty-free, worldwide, transferable, sublicenseable, irrevocable, perpetual license to use or incorporate into any SFDC products or services any suggestions, enhancement requests, recommendations or other feedback provided by You or Your Users relating to the operation of the Platform and/or the SFDC Service.
6. **Termination.** Your use of the Platform and the SFDC Service may be immediately terminated and/or suspended upon notice due to (a) a breach of the terms of these SFDC Service Terms of Use by You or any User, (b) the termination or expiration of Reseller's agreement with SFDC pursuant to which Reseller is providing the Platform as part of the Reseller Application to You, and/or (c) a breach by Reseller of its obligations to SFDC with respect to the subscriptions it is providing to You in connection with these SFDC Service Terms of Use.
7. **Subscriptions Non-Cancelable**. Subscriptions for the Platform and the SFDC Service are non-cancelable during a subscription term, unless otherwise specified in Your agreement with Reseller.
8. **Data Storage.** The Platform and SFDC Service includes a certain cumulative amount of storage per User subscription for no additional charge. Contact Your Reseller for additional information. Additional storage may be available for purchase from the Reseller.

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

9. **No Warranty.** SALESFORCE.COM MAKES NO WARRANTIES OF ANY KIND, INCLUDING BUT NOT LIMITED TO WITH RESPECT TO THE PLATFORM, THE SFDC SERVICE, AND/OR THE RESELLER APPLICATION, WHETHER EXPRESS, IMPLIED, STATUTORY OR OTHERWISE. SALESFORCE.COM MAKES NO REPRESENTATION, WARRANTY, OR GUARANTY AS TO THE RELIABILITY, TIMELINESS, QUALITY, SUITABILITY, AVAILABILITY, ACCURACY OR COMPLETENESS OF THE RESELLER APPLICATION. SALESFORCE.COM DOES NOT REPRESENT OR WARRANT THAT (A) THE RESELLER APPLICATION WILL BE AVAILABLE, SECURE, TIMELY, UNINTERRUPTED OR ERROR-FREE OR OPERATE IN COMBINATION WITH THE SALESFORCE.COM SERVICE OR ANY OTHER APPLICATION, SOFTWARE, HARDWARE, SYSTEM OR DATA, (B) THE RESELLER APPLICATION, THE PLATFORM OR THE SFDC SERVICE WILL MEET YOUR REQUIREMENTS OR EXPECTATIONS, (C) ANY DATA STORED USING THE RESELLER APPLICATION WILL BE ACCURATE, RELIABLE, OR SECURE, (D) ERRORS OR DEFECTS IN THE RESELLER APPLICATION, THE PLATFORM, OR THE SFDC SERVICE WILL BE CORRECTED, OR (E) THE RESELLER APPLICATION OR THE SYSTEMS USED BY RESELLER TO MAKE RESELLER APPLICATION AVAILABLE ARE FREE OF VIRUSES OR OTHER HARMFUL COMPONENTS. THE PLATFORM AND THE SFDC SERVICE IS PROVIDED STRICTLY ON AN "AS IS" BASIS. TO THE MAXIMUM EXTENT PERMITTED BY LAW, SALESFORCE.COM DISCLAIMS ALL CONDITIONS, REPRESENTATIONS AND WARRANTIES, WHETHER EXPRESS, IMPLIED, STATUTORY OR OTHERWISE, WITH RESPECT TO RESELLER APPLICATION AND THE SERVICE, INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR NON-INFRINGEMENT OF THIRD PARTY RIGHTS.
10. **No Liability.** IN NO EVENT SHALL SFDC HAVE ANY LIABILITY TO YOU OR ANY USER FOR ANY DAMAGES WHATSOEVER, INCLUDING BUT NOT LIMITED TO DIRECT, INDIRECT, SPECIAL, INCIDENTAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES, OR DAMAGES BASED ON LOST PROFITS, HOWEVER CAUSED AND, WHETHER IN CONTRACT, TORT OR UNDER ANY OTHER THEORY OF LIABILITY, WHETHER OR NOT YOU HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
11. **Further Contact.** SFDC may contact You regarding new SFDC service features and offerings.
12. **Google Programs and Services.** Platform or SFDC Service features that interoperate with Google programs and services depend on the continuing availability of applicable Google application programming interfaces ("APIs") and programs for use with the Platform and the SFDC Service. If Google Inc. ceases to make such APIs and/or programs available on reasonable terms to SFDC, SFDC may cease providing such features without entitling You or Reseller to any refund, credit, or other compensation.
13. **Third Party Beneficiary.** SFDC shall be a third party beneficiary to the agreement between You and Reseller solely as it relates to these SFDC Service Terms of Use.

SCHEDULE 2 TO EXHIBIT A
(Support Services)

This Schedule 2 (the "**Schedule**") details the Support Services that Consultant will deliver to City. For the avoidance of doubt, Consultant will not deliver support services directly to an end user of City.

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

Support Description. Consultant will provide support to City through the support portal, telephone and email ("**Support**") as defined in the Service Availability – Initial Contact and Response section below.

Support Service Availability – Initial Contact and Response

Request for Support. Authorized Users will make Support requests by submitting a request via Consultant's customer support web portal at https://brillion.my.site.com/support/ or emailing support@brillion.ai.

Coverage parameters specific to the services covered in this Schedule are as follows:

- Support Community: Monitored 6:00 A.M. to 8:00 P.M. Monday – Friday, Eastern Time Zone.
    - Service Requests received outside of office hours will be collected; no action, however, can be guaranteed until the next business day.
- Consultant shall not offer support on the following days; inquiries received during these holidays will be addressed on the next business day.

Day or Date	Official Name
January 1	New Year's Day
Third Monday in January	Martin Luther King, Jr. Day
Last Monday in May	Memorial Day
July 4	Independence Day
First Monday in September	Labor Day
Fourth Thursday in November	Thanksgiving Day
Friday after Thanksgiving	Day after Thanksgiving
December 24	Christmas Eve
December 25	Christmas

Service Tiers

Standard and Premier Support activities are defined as follows.

Standard Support

- Answer "How-to" questions on using the system
- Access to knowledge base and relevant documentation
- Address bugs and defects on work delivered by Consultant
- Regular monthly Customer Support calls as needed
- Troubleshoot integrations owned and maintained by Consultant, including renewal of certificates and tokens
- Troubleshoot third-party tools provided by Consultant

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

- Software release training & specifications
- Consult on Salesforce updates
- User license requests

As part of the Standard Support Services, Consultant will deliver to City up to ten (10) hours of Standard Support per month. If more than 10 hours are needed, City will need to purchase a Premier Support Subscription.

Inquiry Settlement (Service Defect) Request and Response

The following definitions will be used for this Schedule.

- CRITICAL: Defect Severity Level 1 (S1) – Defined as application is not available to all or substantial number of users and production processing is not available for any business purposes. (i.e. software does not operate. Excludes Internet connectivity issues).
- HIGH: Defect Severity Level 2 (S2) – Defined as part of production application is not working and there is no workaround; major functionality is inoperable or unusable for a small number of users. Also defined as software does not meet in-scope business requirements without a manual work-around or a specific in-scope module of the software is not usable without a manual work-around.
- MEDIUM: Defect Severity Level 3 (S3) – Defined as part of the application is not working for in-scope software features as intended, but a reasonable, jointly agreed-upon work-around exists leaving the essential functions intact and operable.
- LOW: Defect Severity Level 4 (S4) – Defined as minor cosmetic problems within in-scope features of the software that do not impact the established business processes.
- General support (G) – General end user questions about in-scope functionality
- Training requests (T) – Requests for training on in-scope features

Inquiry Settlement (Service Defect) Request and Response Table

Note: General support and Training requests will be prioritized and assessed as part of the support queue.

Request Type	Response Time	Initial Assessment	Update Frequency	Maximum Resolution Time
S1 Critical	During Business hours: 30 minutes Outside business hours: 2 hours	2 business hours	2 business hours	16 business hours
S2 High	2 business hours	4 business hours	4 business hours	24 business hours
S3 Medium	8 business hours	16 business hours	Weekly	40 business hours

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

S4 Low	None.	24 business hours	Weekly	Prioritized as part of product roadmap

Inquiry Resolution Reporting

Consultant agrees to report on Inquiry Resolution metrics to City at least once every ninety days.

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

Attachment I

PROPOSER'S CERTIFICATION

I hereby propose to furnish the goods or services specified in the Request for Proposals ("RFP"). I agree that my proposal will remain firm for a period of up to ninety (90) days in order to allow the City of Roseville ("City") adequate time to evaluate the qualifications submitted.

I have carefully examined the Request for Proposals and any other documents accompanying or made a part of this RFP. The information contained in this proposal is true and correct to the best of my knowledge and is signed under penalty of perjury under the laws of the State of California. I further certify that I am duly authorized to submit this proposal on behalf of the firm as its authorized agent and that the firm is ready, willing and able to perform if awarded the contract.

I further certify that this proposal is made without prior understanding, agreement, connection, discussion, or conspiracy with any other person, firm or corporation submitting a proposal for the same product or service; that this proposal is fair and made without outside control, collusion, fraud or illegal action; that no officer, employee or agent of the City or any other proposer is financially interested in said proposal; that no undue influence or pressure was used against or in concert with any officer, employee or agent of the City in connection with the award or terms of the contract that will be executed as a result of this RFP; and that the undersigned executed this Proposer's Certification with full knowledge and understanding of the matters therein contained and was duly authorized to do so.

Attachment II

LEVINE ACT DISCLOSURE STATEMENT

(The completed form submitted to the City of Roseville is a public record.)

California Government Code Section 84308, commonly referred to as the "Levine Act," prohibits any "Officer" (elected or appointed officer, any alternate thereto, and any candidate for elective office) from participating in any consideration or action related to a proceeding if they receive political contribution(s) from a party, or its agent(s), totaling more than $250 within the previous twelve (12) months, while a proceeding is pending, and for twelve (12) months following the date of a final decision in a proceeding concerning a license, permit, other entitlement for use, franchise, or contract (collectively "license, permit, or contract"). For additional information: https://www.roseville.ca.us/government/departments/city_clerk/transparency/levine_act.

City Officers are listed at the following sites:

- The Members of City Council - https://www.roseville.ca.us/government/city_council/meet_council
- Boards & Commission Members - https://www.roseville.ca.us/government/boards_commissions

Parties and their Agents are responsible for reviewing and disclosing their applicable contributions to City Officers on the record of a proceeding.

1. Have you or your entity, or any agent on behalf of you or your entity, made any political contribution(s) totaling more than $250 to any City Officer in the twelve (12) months preceding the date of the submission of your license, permit, or contract, or the anticipated date of any City Council, Board, or Commission consideration or action related to this license, permit, or contract?

YES _____ NO X

If yes, please identify the City Officer(s):_____

2. Do you or your entity, or any agent on behalf of you or your entity, anticipate or plan to make any political contribution(s) totaling more than $250 to any City Officer in the twelve (12) months following any City Council, Board, or Commission consideration or action related to this license, permit, or contract?

YES _____ NO X

If yes, please identify the City Officer(s):_____

Answering yes to either of the two questions above does not preclude the City of Roseville from considering and/or taking action on a license, permit, or contract. It does, however, potentially preclude the identified City Officers from participating in consideration of and in taking any actions related to the license, permit, or contract. Please accurately complete and sign this form, under the penalty of perjury:

1/16/26	Jon Ezrine	Brillion, Inc.

You must submit a supplemental form if you make any new reportable contribution(s) while the contract, license, permit, or other entitlement is being considered. If this form has not previously been submitted in connection with a contracting, licensing, entitlement or permitting process, please provide the completed form to the Office of the City Clerk for appropriate departmental routing, at: City Clerk, 311 Vernon St., Roseville, CA 95678, CityClerkRoseville@roseville.ca.us

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

LEVINE ACT DISCLOSURE STATEMENT

(The completed form submitted to the City of Roseville is a public record.)

Term	Definition	Law
Covered "proceedings"	A proceeding to grant, deny, revoke, restrict, or modify a license, permit or other entitlement for use, that does not solely involve purely ministerial decisions and is: (1) Applied for by the party; (2) Formally or informally requested by the party; or (3) A contract between the agency and the party or a franchisee granted by the agency to the party, other than a contract that is **competitively bid**, a **labor contract**, or a **personal employment contract**.	FPPC Reg 18438.2(a)
Party	Any person who files an application for, or is the subject of, a proceeding involving a license, permit, or other entitlement for use.	Gov. Code 84308(a)(1)
Participant	Any person who is not a party but who actively supports or opposes a particular decision in a proceeding involving a license, permit, or other entitlement for use and who has a financial interest in the decision. A person actively supports or opposes a particular decision in a proceeding if that person lobbies in person the officers or employees of the agency, testifies in person before the agency, or otherwise acts to influence officers of the agency.	Gov. Code 84308(a)(2) FPPC Reg 18438.4
Agent	A person who represents a party or participant for compensation and appears before or otherwise communicates with the governmental agency for the purpose of influencing the pending proceeding. See FPPC Reg 18438.3 for exceptions for certain consultants.	FPPC Reg 18438.3
Competitively Bid	A contract required by law to be awarded to the lowest responsible bidder with a responsive bid, or, if the successful bidder refuses or fails to execute the contract, to the next lowest bidder with a responsive bid.	FPPC Reg 18438.2(a)(3)(A)
Labor Contract	A contract or agreement reached through collective bargaining or with a representative group regarding the salary, benefits, or terms and conditions under an employment or retirement policy for employees or retirees, including a project labor agreement entered under Public Contract Code Section 2500.	FPPC Reg 18438.2(a)(3)(B)
Personal Employment Contract	A contract for employment, including the terms and conditions of employment, between the agency and an agency employee. A contract with an independent contractor is NOT a personal employment contract.	FPPC Reg 18438.2(a)(3)(C)-(D)

A **party** to a proceeding before an agency involving a license, permit, or other entitlement for use **shall disclose on the record of the proceeding** any contribution in an amount of more than two hundred fifty dollars ($250) made within the preceding 12 months by the party or the party's agent.

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

A **party**, **or agent to a party**, to a proceeding involving a license, permit, or other entitlement for use pending before any agency or a participant, or agent to a participant, in the proceeding **shall not make a contribution** of more than two hundred fifty dollars ($250) to any officer of that agency during the proceeding and for 12 months following the date a final decision is rendered by the agency in the proceeding.

(Gov. Code, § 84308, emphasis added.)

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

NONCOLLUSION DECLARATION TO BE EXECUTED BY BIDDER AND SUBMITTED WITH BID

The undersigned declares:

I am the CEO of Brillion, Inc., the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The bidder has not directly or indirectly induced or solicited any other bidder to put in a false or sham bid. The bidder has not directly or indirectly colluded, conspired, connived, or agreed with any bidder or anyone else to put in a sham bid, or to refrain from bidding. The bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the bidder or any other bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other bidder. All statements contained in the bid are true. The bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, bid depository, or to any member or agent thereof, to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the bidder.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on January 16, 2026 [date], at Atlanta [city], Georgia [state].

Attachment IV

TECHNOLOGY SECURITY AND STANDARDS MATRIX

The Technology Security and Standards Matrix ("Matrix") will be used to determine the compatibility of proposer's solution to the security and technology standards of the City of Roseville. In the third column from the left, please enter the response to the requirement based upon the possible responses below. An omitted response or a deviation from the alpha responses provided below will be construed to be a "NO" – not supported and/or is not provided as part of the proposal. If you need to add any comments to further clarify your response, please do so in the column specified

Response Code	Definition
Y (YES)	The proposed solution is in compliance with the described standard/requirement
N (NO)	The proposed solution is not in compliance with the described standard/requirement
P (PENDING)	Compliance with the described standard/requirements is scheduled for future release and will be incorporated at no additional charge prior to the system implementation. Please state the estimated release date.
C (COST)	Compliance with the described standard/requirements is not currently available, but can be provided as a modification at an additional cost. The Proposer is to provide an explanation requested in the functional requirements Comments column along with the number of hours and cost for the modification.
E (EXCEPTION)	Notes an exception to the standard/requirement (if the Proposer's solution achieves the same or similar outcome with a different standard).
NA (Not Applicable)	This requirement is not applicable to the proposed solution

#	Solution Standard or Requirement	Response Code	Comments
1	Cloud solutions are hosted on Microsoft GCC with FedRAMP High Impact Level compliance, or similar	Y	The Brillion Fulfill application, built of the Salesforce platform provides industry leading compliance and security. For a comprehensive overview, please visit Salesforce Compliance Site
	Authentication		
2	For City staff logons, vendor is able to integrate with the City's SSO for user accounts using SAML 2.0 standard	Y	The Brillion Fulfill application is fully compatible with the SAML 2 SSO standard and can integrate with SAML-compatible identity providers
3	For logons non-integrated with SSO, system can require password complexity rules (e.g. password length, upper/lower case, numbers, special characters, etc.)	NA	See response to item #2 above.
4	For logons non-integrated with SSO, if system-generated passwords are provided, system allows the option for organization to enforce customers to change the initial password the first time they log in.	NA	See response to item #2 above.
5	For logons non-integrated with SSO, system will allow staff to reset passwords and password is not viewable - self-service is preferred.	NA	See response to item #2 above.
	Server & Operating System		

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

6	Vendor solutions runs on one of the City's supported Operating Systems (Please specify which in comments) • Microsoft: Server 2019 or above (preferred) • Linux: RHEL	NA	Brillion Fulfill is a cloud-based application built on and powered by the Salesforce Platform.
7	Operating System is fully licensed and under active support	NA	Brillion Fulfill is a cloud-based application built on and powered by the Salesforce Platform.
8	Operating System is supported by vendor for 5+ years	NA	Brillion Fulfill is a cloud-based application built on and powered by the Salesforce Platform.
9	Physical servers are compatible with 220V rack provided power	NA	Brillion Fulfill is a cloud-based application built on and powered by the Salesforce Platform.
10	Servers can be mounted in existing Roseville racks	NA	Brillion Fulfill is a cloud-based application built on and powered by the Salesforce Platform.
11	Servers do not require separate UPS	NA	Brillion Fulfill is a cloud-based application built on and powered by the Salesforce Platform.
12	Servers do not require any separate batteries or consumables	NA	Brillion Fulfill is a cloud-based application built on and powered by the Salesforce Platform.
	Database		
13	Vendor's solution runs on City's supported database platform (Microsoft SQL Server 2022+)	NA	Brillion Fulfill is a cloud-based application built on and powered by the Salesforce Platform.
14	Solution can function without sysadmin, server, or db_owner roles	NA	Brillion Fulfill is a cloud-based application built on and powered by the Salesforce Platform.
15	Solution can run with Common Language Runtime (CLR) and xp_commandshell disabled	NA	Brillion Fulfill is a cloud-based application built on and powered by the Salesforce Platform.
16	Vendor will provide a Data dictionary to customer	Y	Brillion can provide a data dictionary for the Fulfill application.
	Data Privacy		

17	All city data and end user data will be stored on servers located solely within the continental United States. Please provide exact geographical location of servers.	Y	Roseville Electric's existing Fulfill application is hosted within the continental US. Roseville Electric can determine the server location by using Find My Instance - Trust | Availability
18	Vendor shall provide a third-party audit report(s) (i.e. SOC type II/III) as evidence that all facilities used to store and process city and end user data will implement and maintain administrative, physical, technical, and procedural safeguards and best practices at a level sufficient to secure such data from unauthorized access, destruction, use, modification, or disclosure.	Y	The Brillion Fulfill application, built of the Salesforce platform provides industry leading compliance and security. For a comprehensive overview, please visit Salesforce Compliance Site
	Data Security and Integrity		
19	Vendor warrants that all City data and end user data will be encrypted in transmission (including via web interface) at a level equivalent to or stronger than 128-bit level encryption.	Y	In Motion: All transmissions between the user and the Salesforce Services are secured using TLS 1.2 or higher and encrypted using 256 or 128-bit encryption. The Services use International/Global Step Up SSL certificates with 2048-bit Public Keys. At rest: In addition to the encryption in transit described above our solution includes the feature to encrypt custom text fields.
20	Vendor warrants that all city data and end user data that meets Federal criteria for Personally Identifiable Information (PII) will be encrypted in storage (database / data files) at a level equivalent to or stronger than 128-bit level encryption.	Y	In Motion: All transmissions between the user and the Salesforce Services are secured using TLS 1.2 or higher and encrypted using 256 or 128-bit encryption. The Services use International/Global Step Up SSL certificates with 2048-bit Public Keys. At rest: In addition to the encryption in transit described above our solution includes the feature to encrypt custom text fields.
21	Vendor maintains a certification of Payment Card Industry ("PCI") compliance to protect cardholder data.	NA	Brillion Fulfill does not contain any cardholder data.
22	Vendor has geographically diverse hosting facilities that provide redundancy for the system.	Y	Roseville Electric's existing Fulfill application is hosted within the continental US. Roseville Electric

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

			can determine the server location by using Find My Instance - Trust | Availability
23	Vendor has network firewalls and security in place to protect hosted customers from internet threats.	Y	Multilevel security products from leading security vendors and proven security practices ensure network security. To prevent malicious attacks through unmonitored ports, external firewalls allow only http and https traffic on ports 80 and 443, along with ICMP traffic. Switches ensure that the network complies with the RFC 1918 standard, and address translation technologies further enhance network security. IDS sensors protect all network segments. Internal software systems are protected by two-factor authentication, along with the extensive use of technology that controls points of entry. All networks are certified through third-party vulnerability assessment programs.
	Data retention and Disposal		
24	Vendor will retain data in an end user's account, including attachments, until the end user deletes them or for the time mutually agreed upon by the parties to the agreement.	Y	The underlying platform Oracle databases are backed up using Oracle Recovery Manager, EMC Data Domain, Veritas NetBackup and Oracle StorageTek tape libraries. Customer data, up to the last committed transaction, is replicated to disk in near-real time at the designated disaster recovery data center and backed up at the primary and disaster recovery data centers. Backups are performed daily at each data center facility without stopping access to the application. Replication is transmitted over an encrypted network (our 10 Gigabit WAVE network with inline high-speed Ethernet encryptors across all data

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

			centers). Backups are retained for 90 days. Backup media never leave our secure data center facilities, unless they are to be retired and destroyed through a secure destruction process. The backup retention policy is 90 days (30 days for sandboxes). Deleted / modified data cannot be recovered after 90 days (30 days for sandboxes). For longer retention, there is a weekly export feature available in the system.
25	Vendor will regularly and reliably backup City and end user data – at least daily - and retain copies of such backups for the time mutually agreed upon by the parties to the agreement.	Y	See response to item #24 above.

#	Requirement	Optional Y/N	Current System Functionality Y/N	Supporting Documentation Required Y/N	Included; Custom; Not Available; Unsure of Feasibility	Included in Base Proposal Cost (Y/N)	Additional Cost	Vendor Comments
	Customer and User Management							
	Ability to provide differing access control via permission levels.	N	Y	N	Included	Y		This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to provide Utility authentication supporting Single Sign-On (SSO) using OAuth 2.0, OpenID Connect, SAML, or Ping Federate integration.	N	Y	Y	Included	Y		This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to build customer authentication online access through entering Harris based CIS tool, Cayenta	Y	N	N	Custom	Y	See Tab F: Cost Proposal for details on the proposed AMS subscription services and associated fees.	This requirement will be managed and delivered through the proposed Application Management Services (AMS) subscription using a structured backlog, with prioritization and sprint-based execution performed in collaboration with Roseville Electric. This requirement would be addressed by Brillion Development resources in collaboration with Roseville Electric's IT staff and thus is being labeled as Custom.
	Ability to allow for password free access to online customer self-serve rebate processing through validating account number and verifying through email or phone.	Y	N	N	Unsure of Feasibility	N		Customer access to the existing portal environments is likely not possible through account number or email verification.
	Ability to build in CRM features to collect customer contact info, document conversations, manage parent-child account relationships, support mass email campaigns, track customer responses, and allow opt-outs. *	Y	N	N	Included	Y	See Tab F: Cost Proposal for details on the proposed AMS subscription services and associated fees.	Brillion proposes to address this capability through the Application Management Services (AMS) engagement, where it has been included in the initial AMS backlog. The requirement will be further evaluated during discovery and due diligence, prioritized in coordination with the City, and delivered in alignment with the AMS implementation approach. Scope, configuration approach, and delivery timing will be determined through backlog refinement and sprint planning to ensure the requirement is addressed efficiently and in accordance with overall project priorities
	Ability to integrate with City's current email system, Microsoft Outlook	Y	N	N	Included	Y	See Tab F: Cost Proposal for details on the proposed AMS subscription services and associated fees.	Brillion proposes to address this capability through the Application Management Services (AMS) engagement, where it has been included in the initial AMS backlog. The requirement will be further evaluated during discovery and due diligence, prioritized in coordination with the City, and delivered in alignment with the AMS implementation approach. Scope, configuration approach, and delivery timing will be determined through backlog refinement and sprint planning to ensure the requirement is addressed efficiently and in accordance with overall project priorities
	Upgrade Compatibility							
	Ability for full build and any custom components to be compatible with future OS upgrades.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Integration and Data Management							
	System Migration and Historical Data Management							
	Ability to provide historical data conversion and import information including account information, project information, files attached to projects and data collected on specific technology measure offerings.	N	Y	N	Included	Y	N/A	If selected, Brillion will continue to provide the same Salesforce environment to Roseville Electric, thus, no historical data migration is required.
	Ability to provide import historical data for 240,000 accounts (468.9MB), 160,00 contacts (312.3 MB), 75,000 projects (146 MB), 100,000 project measures (191.6 MB), 8,542 email messages (191.6 MB) and 150 GB of files attached to projects.	N	Y	N	Included	Y	N/A	If selected, Brillion will continue to provide the same Salesforce environment to Roseville Electric, thus, no historical data migration is required.
	Ability to provide scalable data storage capacity included in base cost, up to 1 terabyte.	Y	N	N	Included	Y	Included in Base Cost for Licenses and Products	Roseville Electric currently utilizes 32% of the available platform data storage, and 134% of the available platform file storage. To date, an additional 50GB of file storage have been provisioned to the Roseville Electric platform and to address the current overage (using 134% of available) our base cost for licenses and products, including data and file storage includes costs for an additional 1TB of file storage and 20GB of data storage -- beyond what is currently provisioned.
	Ability to provide a means to run reporting on historical data including accounts, projects, and data collected on specific technology measure offerings. Data export capabilities needed in multiple formats (CSV, Excel, XML, JSON).	N	Y	N	Included	Y	N/A	If selected, Brillion will continue to provide the same Salesforce environment to Roseville Electric, thus, no historical data migration is required.
	Data Upload and Backup							
	Ability to have monthly (or more frequent) upload capability for City of Roseville customer account info such as account name, contacts, account number, premise, address, email and phone number should through API interaction with IICS Informatica system or CSV uploading tool. Ability for data uploads to allow for updates to existing accounts in system as well as uploading of new accounts.	N	Y	N	Included	Y		This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to have automated export and backup of system data and metadata with vendor collaboration including for replica or sandbox environments. This can include export to third party offsite/cloud backup environment.	N	Y	N	Included	Y		This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to maintain two replica environments including one for development and testing of enhancements and another for testing solutions to defects in the production environment. Replicas should include all data necessary to fully test solutions in the environments	N	Y	N	Included	Y	Included in Base Cost for Licenses and Products	Roseville Electric currently has 2 full sandbox environments provisioned to the Roseville Electric platform. Our base cost for licenses and products includes the continued subscription for these 2 full sandbox environments.
	Ability to auto export in mass solutions created in the replica environments rather than manual build process duplication.	N	Y	N	Included	Y		This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to upload in mass CSV files for automated project creation of up to 100 projects. Project info may include quantity, energy savings, tons, square ft, horsepower, etc., and may also include direction on a name and address to received payment including identifying current customer or contractor accounts.	N	Y	N	Included	Y		This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Data Retention							
	Ability to permanently store 13,000 solar projects plus an additional 1,500 for new solar projects annually. Each solar project will contain several attachments, and data for several solar arrays and batteries that must be accessible. Ability to temporarily store about 20,000 projects for between 2 and 5 years. Temporarily stored projects to include attachments and measure offering data.	N	Y	N	Included	Y	Included in Base Cost for Licenses and Products	As described in our response to "Ability to provide scalable data storage capacity included in base cost, up to 1 terabyte." our base cost includes adequate data and file storage for these projects and supporting attachments/files.
	Security and Compliance							
	Certifications and Standards • SOC 2 Type II and ISAE 3402 reports. • ISO 27001 and FISMA certifications. • Industry-standard encryption and secure data transmission and storage. • Security patching and data destruction policies.	N	Y	N	Included	Y		The security and compliance requirements are currently met through the Salesforce platform and energyOrbit application and will continue to be supported for any future platform upgrades.
	Technology Stack and Hosting							
	Vendor to be able to provide description of system architecture, third-party dependencies, development and hosting environment and data center locations and security protocols.	N	Y	Y	Included	Y		By building Brillion Fulfill on the Force.com platform we can provide unmatched reliability, security, and scalability. For a detailed overview please see the Appendix: Platform Security
	Disaster Recovery							
	Vendor to be able to provide a documented disaster recovery plan with recovery time objectives and routine testing to be provided. Ability to guarantee no more than 15 hours of system downtime per year, except if utilizing overnight hours for system maintenance and upgrade.	N	Y	Y	Included	Y		By building Brillion Fulfill on the Force.com platform we have achieved 99.99% system uptime since 1999. The platform's disaster recovery is supported through real-time replication within each data center and near real-time replication between the primary and disaster recovery data centers, with all data transmitted over encrypted links and regularly tested to verify projected recovery times and customer data integrity.

Docusign Envelope ID: 1D06B931-C2FB-829B-815E-896DE4FD852B

	Privacy							
	Vendor to be able to conduct business while ensuring no sharing or selling of Roseville customer information outside of City of Roseville.	N	Y	N	Included	Y		Brillion will never share or sell any Roseville Electric customer data.
	Processing Requirements							
	Vendor to be able to provide quick processing speeds. Target CPU processing times of 10 seconds or less for synchronous Apex, experience page time loads and no more than 60 seconds for asynchronous apex, DML operations, SQL queries and SOQL queries. System to provide tools to monitor and optimize transaction processing speeds.	N	Y	N	Included	Y		By building Brillion Fulfill on the Force.com platform we are able to deliver to these processing requirements, today and in the future.
	Program and Measure Build							
	Vendor to be able to build out all programs and measure offerings described in scope including Environmental Utilities programs with annual cloning capability, Electric Energy Efficiency programming, New Construction programming, Electric Vehicle and Charging programs, Solar Programming, Invoice Tracking Programming and Behavior Programming.	N	Y	N	Included	Y		Roseville Electric's existing platform already supports many of the current, existing program types and measures. These program configurations are delivered using proven, existing platform functionality. Any new or upcoming programs, measures, or modifications identified within this RFP that are not already configured will be implemented through the proposed Application Management Services (AMS) subscription. Under AMS, Brillion will collaborate with the Client to catalog, prioritize, and configure these requirements within a structured backlog and sprint-based delivery model, ensuring timely implementation aligned with program objectives.
	Account Functionality							
	Ability to build system accounts that store multiple contacts.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to set a primary contact to be utilized for automated attachment to projects as a primary contact to be utilized in automated emails.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for accounts to store account number, premise number, and customer numbers from CIS system.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for accounts to store all automated outgoing emails.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for accounts to store notes and attachments.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for accounts to store records for all projects related to the account.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Trade Ally Account Functionality							
	Ability for Trade Allys to self create accounts to be utilized by the rebate processing system through an online fillable form or portal.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for contractor account creation to support storing of state and local business licenses numbers, business type information and a tax ID.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for Trade Ally application process to support online agreement verification to Roseville's contractor code of conduct.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for contractor account application process to support approvals or denial by Roseville staff.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for Trade Ally accounts to store links to outgoing emails and projects their account is involved in.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Program Fields and Functionality							
	Ability for programs to allow multiple measures or project offerings.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for programs to allow for updating offerings/measures names, incentives, incentive calculations, deemed energy savings or energy savings calculations	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for measures to be able to be expired through date editing.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for measure offerings to have cloning or copying functionality to allow for easy creation of similar measures while changing one or more attributes such as the naming convention, incentive level, or assigned energy or water savings.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for programs to allow for maintaining program requirements that will be presented to customers or staff in processing including free form answers, drop downs, yes/no, and attachments.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for program requirements to be able to be edited and expired through date editing.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to have programs tracking dollars spent against program and remaining annual budgets.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to have programs that allow for multiple simultaneous budget tracking such as storing and tracking budgets for calendar year and fiscal year date ranges simultaneously. Example:7/1/2026-6/30/2027 and 1/1/2026-12/31/2026.	Y	N	N	Included	Y	See Tab F: Cost Proposal for details on the proposed AMS subscription services and associated fees.	Brillion proposes to address this capability through the Application Management Services (AMS) engagement, where it has been included in the initial AMS backlog. The requirement will be further evaluated during discovery and due diligence, prioritized in coordination with the City, and delivered in alignment with the AMS implementation approach. Scope, configuration approach, and delivery timing will be determined through backlog refinement and sprint planning to ensure the requirement is addressed efficiently and in accordance with overall project priorities
	Ability to have programs that allow for attaching a multi part GL codes which will then roll up to a project and eventual project payment reporting so that project payments can be paid out of appropriate budgets.	Y	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for programs to track links of projects created under them with information displayed such as project name, status, created date, payment date, and included measures/offerings, incentive, kW savings, kWh savings, info on if created in customer portal or not.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for projects linked to program to be sortable based on created date, paid date or measure offering.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Project Fields and Functionality							
	Ability for project to include links back to associated program, accounts and contacts.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for projects to have functionality for automated project naming formulas with program names, customer names, and customer addresses included.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for projects to store a project manager field based on a formula copying from assigned manager to program.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for project contact assignment and info to be editable and allow for email additions and updates.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for project fields/interface to be customizable based on program type – i.e. water, electric, solar, residential, commercial.	Y	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for projects to allow for adding multiple project measures/offerings into one project.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for project to store totals rolled up from the measure offering level in terms of total energy savings, water savings, incentives, or solar size from one or multiple measure offerings that may be added on the project.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for project status selection to be possible to tailor to program type – i.e. water, electric, solar, residential, commercial.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.

	Ability for projects to be able to store automated outgoing emails on the project to make possible to view content and recipients at later dates.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to pay Account Holder, Alternate Account Contact, Contractor, or other third party and view name and address payments will be sent to.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to drag and drop attachments and emails into project.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to configure links between specific program requirement questions and specific measure offerings on a program so that requirements only populate when specific measures are chosen as part of a project.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to configure project requirements to include options to fill in free form answers, drop downs, or to allow attachments.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for requirements to allow for satisfaction through simple checking of a check box even if alternative satisfaction meeting functionality is also available.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to configure projects that allow the ability to set time limits for expiration and automated status changes and emails that will be set after this time limit is met.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Project Approval							
	Ability to designate approval workflow based off of program types or individual program names.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to have project approval workflow visible to staff processing projects, including locating exactly which supervisory employee has a project available for them in their queue to approve.	Y	N	N	Included	Y	See Tab F: Cost Proposal for details on the proposed AMS subscription services and associated fees.	Brillion proposes to address this capability through the Application Management Services (AMS) engagement, where it has been included in the initial AMS backlog. The requirement will be further evaluated during discovery and due diligence, prioritized in coordination with the City, and delivered in alignment with the AMS implementation approach. Scope, configuration approach, and delivery timing will be determined through backlog refinement and sprint planning to ensure the requirement is addressed efficiently and in accordance with overall project priorities
	Ability for project approval workflow to allow for between 1 and 4 approvers.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for additional project approver assigning to be configurable for automation based off of various incentive thresholds .	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for approval queue owners to be reassigned so that with one change the approver for all programs under a certain category can be changed.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for project approval workflow to allow for projects to accumulate for approver users in a queue to view all projects available for approver in one list, complete either individual or mass approval.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for approval queues to display project names, program incentives, payment recipient, and payment recipient address and any special notes from processor.	Y	N	N	Included	Y	See Tab F: Cost Proposal for details on the proposed AMS subscription services and associated fees.	Brillion proposes to address this capability through the Application Management Services (AMS) engagement, where it has been included in the initial AMS backlog. The requirement will be further evaluated during discovery and due diligence, prioritized in coordination with the City, and delivered in alignment with the AMS implementation approach. Scope, configuration approach, and delivery timing will be determined through backlog refinement and sprint planning to ensure the requirement is addressed efficiently and in accordance with overall project priorities
	Ability for project approval workflows to optionally allow for each approver user to decide if they would like alerts for new projects in their queue to come through with an email notification including link to the project. Equally important is that a project arriving in approval queue does not have to occur through email notification.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to configure approvals so that the last necessary approver in the approval chain will trigger an automated status change marking the project as ready for payment.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Project Date Stamps							
	is created, reserved, approved for payment and finale through payment processing. These date stamps will then be utilized for reporting purposes. Environmental Utilities project to include date stamps for pre and post inspection with functionality for time allotments between statuses, and time thresholds initiating project expiration.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Project Payment Processing							
	Ability to produce report of a batch of projects that have moved through all necessary approvals and are ready for payment.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for batch reports to be able to be separated between Environmental Utility specific projects, Energy Efficiency projects and EV related projects, and any newly created categories.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for batch payment reports to be stamped for the day they were created, include project names, payee names, payee address, and identify whether the payee is a customer or contractor, include an identifying number for the batch report and include the accounting string for projects to be paid out of.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Project Payment Processing Through Bill Credit							
	Ability to configure system to integrate with Harris Customer Information System, Cayenta, or to utilize an API to populate bill credits for appropriate accounts with project incentive amounts.	N	N	N	Included	Y	See Tab F: Cost Proposal for details on the proposed AMS subscription services and associated fees.	Brillion proposes to address this capability through the Application Management Services (AMS) engagement, where it has been included in the initial AMS backlog. The requirement will be further evaluated during discovery and due diligence, prioritized in coordination with the City, and delivered in alignment with the AMS implementation approach. Scope, configuration approach, and delivery timing will be determined through backlog refinement and sprint planning to ensure the requirement is addressed efficiently and in accordance with overall project priorities
	Ability to configure system to utilize information uploaded from Utility Billing system in the creation of system accounts such as account number and premise number and utilize this information to credit the appropriate accounts through an automated process.	N	N	N	Included	Y	See Tab F: Cost Proposal for details on the proposed AMS subscription services and associated fees.	Brillion proposes to address this capability through the Application Management Services (AMS) engagement, where it has been included in the initial AMS backlog. The requirement will be further evaluated during discovery and due diligence, prioritized in coordination with the City, and delivered in alignment with the AMS implementation approach. Scope, configuration approach, and delivery timing will be determined through backlog refinement and sprint planning to ensure the requirement is addressed efficiently and in accordance with overall project priorities
	Measure/Offering Fields							
	Ability to collect information on quantity, tons, length, square ft, horsepower make, model, date purchased, date installed, price before rebate, serial number, CFM High, CFM low, vehicle class, efficiency rating, building type etc. and unlimited customizable options to collect data on measures/offerings.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for some measure fields to be displayed only to staff, and others to both customers and staff.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to include validation rules which alert if entered values on measure offerings are outside of expected range or pre determined limits.	Y	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for validation rules to include incentive caps, and quantity limits.	Y	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to create validation rules which prevent process from moving forward when not followed.	Y	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to copy or clone measures to create new offerings on same, new or different programs utilizing the same fields sets and calculations but attaching new inputs such as new measure names, new energy savings inputs, and new incentive inputs when needed.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.

	Measure Calculation Functionality							
	calculations: o Incentives per ton o Incentives per Quantity o Incentives per length o Incentives per Horsepower o Incentive per square ft o Energy savings per ton, horsepower, length, square ft, and CFM quantity. o Water savings per square ft	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to configure the ability for staff to override both calculated energy savings and calculated incentives.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to customize future calculations for energy, water savings or incentives based on multiple customizable variables.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Online Customer and Trade Ally Portal							
	Portal Accessibility							
	Ability for portal to follow California specific guidelines for Title II of the Americans with Disabilities Act (ADA) and Web Content Accessibility Guidelines (WCAG) Version 2.1, Level AA for web content and mobile apps. This includes: • Providing text alternatives for images and document links (e.g., alt text) • Providing captions for videos • Ensuring sufficient color contrast between text and background • Ensuring that all PDF documents adhere to the aforementioned accessibility requirements. • The text within the PDFs should be selectable, allowing users to highlight it with their mouse.	N	N	Y	Included	Y	See Tab F: Cost Proposal for details on the proposed AMS subscription services and associated fees.	As described in the letter from Brillion on December 5, 2025, Brillion is committed to the following deliverables and timelines. By April 24, 2026, our energyOrbit / Fulfill software will: • Support WCAG 2.1 Level AA conformance for public-facing interfaces and outputs, as required by federal and California law. • Support compatibility with assistive technologies, including screen readers and keyboard navigation. • Provide documentation of accessibility conformance, such as a VPAT, upon request. This approach enables Brillion customers to meet their obligations under laws including ADA Title II, Section 508, and California Government Code Section 7405. The company expects to release these updates to customers no later than March 27, 2026. Brillion performs WCAG compliance scans across all customer environments to assess accessibility status and identify any gaps. Brillion will collaborate with Roseville Electric personnel to prioritize, remediate, and validate the resolution of identified items, with the goal of achieving and maintaining WCAG compliance. Any product configurations, branding, styling, and other portal elements that must be updated to meet WCAG compliance will be managed between Brillion and Roseville Electric under the proposed Application Management Services (AMS) engagement.
	Ability for portal pages to be optimized for AI compatibility.	N	N	N	Included	Y	See Tab F: Cost Proposal for details on the proposed AMS subscription services and associated fees.	Brillion proposes to address this capability through the Application Management Services (AMS) engagement, where it has been included in the initial AMS backlog. The requirement will be further evaluated during discovery and due diligence, prioritized in coordination with the City, and delivered in alignment with the AMS implementation approach. Scope, configuration approach, and delivery timing will be determined through backlog refinement and sprint planning to ensure the requirement is addressed efficiently and in accordance with overall project priorities
	Online Application Portal Functionality							
	Ability to build portal application process for all residential programs listed in scope for Electric and Environmental Utilities. (Solar not included)	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to expand portal access to 10-15 commercial programs described in scope.	Y	N	N	Included	Y	See Tab F: Cost Proposal for details on the proposed AMS subscription services and associated fees.	Brillion proposes to address this capability through the Application Management Services (AMS) engagement, where it has been included in the initial AMS backlog. The requirement will be further evaluated during discovery and due diligence, prioritized in coordination with the City, and delivered in alignment with the AMS implementation approach. Scope, configuration approach, and delivery timing will be determined through backlog refinement and sprint planning to ensure the requirement is addressed efficiently and in accordance with overall project priorities
	Ability for portal application process to be accessible from all major browsers including chrome, and edge.	Y	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for portal application to be accessible in all major cell phone and tablet devices including iPhone, android, pixel, galaxy, iPad, Samsung tablet, amazon fire, Microsoft surface, and Chromebook tablets.	N	Y	N	Included	Y	See Tab F: Cost Proposal for details on the proposed AMS subscription services and associated fees.	Brillion proposes to address this capability through the Application Management Services (AMS) engagement, where it has been included in the initial AMS backlog. The requirement will be further evaluated during discovery and due diligence, prioritized in coordination with the City, and delivered in alignment with the AMS implementation approach. Scope, configuration approach, and delivery timing will be determined through backlog refinement and sprint planning to ensure the requirement is addressed efficiently and in accordance with overall project priorities
	Ability for Trade ally application process to support Trade Ally access to adding customer email for notifications if one is not already provided in the system.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for customers to be able to add in their email for notifications if one is not already in the system.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to provide portal links directly to individual portal application pages for each of Roseville's program webpages but also allow for options for customers to be able to view all available portal programs.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for online application process to facilitate applying for multiple offerings in one application and to be able to easily drill down to preferred selection.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for applicants to be able to fill in any measure specific data through portal application process such as quantity, tons, length, square ft, gallons etc.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for customers to be able to enter application process without password via entering account number and street address digits.	Y	N	N	Unsure of Feasibility	N		Customer access to the existing portal environments is likely not possible through account number or email verification.
	Ability to facilitate username and password entry into portal application process for customers and facilitate customer password self reset process.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to configure requirement questions within portal process that can be answered by customers or contractors utilizing free form answers, drop down question answers and attachments. Information to automatically populate in back end processing viewability once submitted by customer or contractor.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to allow for dragging and dropping of files into online rebate portal process to satisfy requirements.	Y	N	N	Included	Y	See Tab F: Cost Proposal for details on the proposed AMS subscription services and associated fees.	Brillion proposes to address this capability through the Application Management Services (AMS) engagement, where it has been included in the initial AMS backlog. The requirement will be further evaluated during discovery and due diligence, prioritized in coordination with the City, and delivered in alignment with the AMS implementation approach. Scope, configuration approach, and delivery timing will be determined through backlog refinement and sprint planning to ensure the requirement is addressed efficiently and in accordance with overall project priorities
	Ability for portal to allow attachment of word, pdf, excel and varied image attachments without stringent file size limits, or with functionality in app to easily reduce file sizes.	N	Y	N	Included	Y	N/A	The platform allows for attachment of multiple file types, however, there are strict file size limitations of the Salesforce platform. The maximum file size is 2GB. There is no current or known future functionality on the Salesforce platform roadmap to help users reduce file size within the portal experience.
	customer and contractor access after initial submittal but allow for re-entry into the application process through staff status change such as "need info," or "application rejected."	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for portal application process to facilitate re-entering online portal application when additional attachments or information is required.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for portal application process to facilitate a "reservation" phase and a "post reservation" phase supporting separate requirement questions and document collection for the reservation portion of the project and the final docs portion of the project.	Y	N	N	Included	Y	See Tab F: Cost Proposal for details on the proposed AMS subscription services and associated fees.	Brillion proposes to address this capability through the Application Management Services (AMS) engagement, where it has been included in the initial AMS backlog. The requirement will be further evaluated during discovery and due diligence, prioritized in coordination with the City, and delivered in alignment with the AMS implementation approach. Scope, configuration approach, and delivery timing will be determined through backlog refinement and sprint planning to ensure the requirement is addressed efficiently and in accordance with overall project priorities

	Functionality allowing online portal process to contain a viewable list of projects to customers and or contractors showing all historical projects, incentive amounts and their statuses, including functionality to sort projects by date.	Y	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Functionality in online portal application process to allow designating an alternate address for payment recipient.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Contractor Trade Ally Online Application Functionality							
	Ability for Contractor application process to allow for multiple contracts from a single company to have access to submitting project on the company's behalf.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for Trade Ally to be able to apply for rebates on behalf of customers through providing customer's utility account number and digits from street address, or some other accessible verification that includes information not available to a contractor unless working directly with a customer.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for Trade Allys to be able to select per project if they will receive rebate payment, or if they elect to send rebate payment to the customer, the customer at their account address, a different address, or a third party corporate office.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for Trade Ally application process to allow sending incentives to an alternate corporate office name and address, or alternate address for customer.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Email Functionality							
	Ability for outgoing emails to both be sent by and cc City of Roseville shared email addresses allowing for customer's replies to populate directly into shared City email inboxes.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to customize automated emails sent during various project milestones such as project status changes.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for automated emails to have small sections populated through manual entry in project processing system such as "reason for rejection" fill in or drop down options, or fill ins for what additional information in required with the project.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability for automated emails to be accessible for full manual edits prior to being sent if desired.	Y	N	N	Included	Y	See Tab F: Cost Proposal for details on the proposed AMS subscription services and associated fees.	Brillion proposes to address this capability through the Application Management Services (AMS) engagement, where it has been included in the initial AMS backlog. The requirement will be further evaluated during discovery and due diligence, prioritized in coordination with the City, and delivered in alignment with the AMS implementation approach. Scope, configuration approach, and delivery timing will be determined through backlog refinement and sprint planning to ensure the requirement is addressed efficiently and in accordance with overall project priorities
	Ability to have automated emails pulling in key project information fields such as project name, primary project contact, primary contractor, project id numbers, reason for rejection, information needed, incentive amounts, etc.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	the following: Interconnection approval for solar, permission to operate notices for solar, reservation confirmations, rebate application received confirmations, rebate reservation approved confirmations, notice for pre inspection scheduling, notice for post inspection scheduling, information needed request, application rejected notice, rebate approved confirmation, and rebate payment on it's way confirmations.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to allow DKIM keys or other spoof prevention technology.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	AI Enhancements							
	Ability to provide enhancements leading towards AI recognition of documents and images provided on online portal application process or uploaded by staff to automate the creation of projects and fill in data regarding various	Y	N	N	Included	Y	See Tab F: Cost Proposal for details on the proposed AMS subscription services and associated fees.	Brillion proposes to address this capability through the Application Management Services (AMS) engagement, where it has been included in the initial AMS backlog. The requirement will be further evaluated during discovery and due diligence, prioritized in coordination with the City, and delivered in alignment with the AMS implementation approach. Scope, configuration approach, and delivery timing will be determined through
	Vendor to provide documentation of any AI functionality in it's product currently or in development.	Y	N	Y	Included	Y	See Tab F: Cost Proposal for details on the proposed AMS subscription services and	where it has been included in the initial AMS backlog. The requirement will be further evaluated during discovery and due diligence, prioritized in coordination with the City, and delivered in alignment with the AMS implementation approach. Scope, configuration approach, and delivery timing will be determined through
	Reporting Functionality							
	Ability for Utility staff to have access to create reports themselves without the need to rely on vendor.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to access reports that include the option to bring in fields and filter on fields within multiple objects simultaneously such as accounts, contacts, programs, projects, measures/offerings and various fields stored on each of these objects such as specific fields collected within measure offerings.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to configure reports to include or exclude results based off of key words in programs, measures or project statuses.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to run reports from fully customizable date ranges.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Ability to schedule report running including automated date adjustments for new week, new month, new year and automated emailing of report results.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Key Reports Required							
	Ability for system to produce the following Reports:				Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Interconnection Weekly automated report showing number of solar arrays and battery interconnections under each solar program type. Data included would be account names, address, project name, solar expansion status, account premise number, and various kW and kWh ratings related to the arrays and batteries.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	All time solar Report that can generate data on all time solar array interconnections and batteries similar to the interconnection report which will include historical data back to around 2012.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	1037 A report with customizable dates typically set for fiscal year that can display all incentivized energy efficiency measures over the course of a year under their program category and display info for each measure category of total kW saved, kWh saved, total tons, total CFM units, length, horsepower, total quantity of each measure and total incentive of each measure.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.

	1099 A report showing all payments over the course of a calendar year including which payments went to customers, contractors, or other third parties. Data must also show what programs these payments occurred under. Payments for contractors must display contractor business type and tax ID. Report will be utilized with a pivot table after extract unless other functionality can be provided within application. Roseville must track entities with $600 or more of cumulative incentives paid by Roseville in order to issue 1099 tax forms to businesses and individuals.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	All time EVs and Chargers Report that can generate data on all time LCFS payments based off of a tag in program names. Report data must include historical projects dating back to around 2012.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Budget Reports Reports with customizable date ranges which can be used to show year to date spending per program including reservations and remaining budgets based off of budgets entered per program for the set time period such as fiscal year or calendar year.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Measures over time Reports that can show participation, quantity and energy savings of any group of measures over any customizable time period including historical data.	N	Y	N	Included	Y	N/A	This functionality is currently part of the existing Roseville Electric configuration and will continue to be supported for any future platform upgrades.
	Dashboards Ability to see trendlines for measure participation and spending over a particular measure category, which will include several measures combined into one data category. These trendlines should be able to track participation, spending and energy savings of a measure category month to month over several years. (i.e. showing the trends of Heat Pump HVAC measures as a category although there will be several individual offerings that fall under that category)	Y	N	N	Included	Y	See Tab F: Cost Proposal for details on the proposed AMS subscription services and associated fees.	Brillion proposes to address this capability through the Application Management Services (AMS) engagement, where it has been included in the initial AMS backlog. The requirement will be further evaluated during discovery and due diligence, prioritized in coordination with the City, and delivered in alignment with the AMS implementation approach. Scope, configuration approach, and delivery timing will be determined through backlog refinement and sprint planning to ensure the requirement is addressed efficiently and in accordance with overall project priorities
	Dashboard showing total number of created or paid projects by month for several key categories such as Res Energy Efficiency, Res Electric Vehicles, Commercial Energy Efficiency, and Commercial Electric Vehicles. Meeting Date: 6/17/2026
Item #: VII.31
File #: 0900-04-01
Item ID: 2026-456

Title:	Fiscal Year (FY) 2026-27 Road Maintenance and Rehabilitation Account Project Identification
Contact:	Laura Salcedo 916-774-5437 lsalcedo@roseville.ca.us

SUMMARY

Staff recommends, as required by Senate Bill 1, approval to identify the South Cirby and Cirby Ranch Residential Resurfacing Project for use of the City's FY2026-27 funding allotment from the State Road Maintenance & Rehabilitation Account Fund. No General Fund resources will be used for the project.

RECOMMENDATION

Staff recommends that the City Council adopt a resolution, as required by Senate Bill 1 (SB-1), identifying the South Cirby and Cirby Ranch neighborhood resurfacing project for use of the City's FY2026-27 funding allotment from the State Road Maintenance & Rehabilitation Account (RMRA) Fund.

BACKGROUND

Senate Bill 1 (SB-1), the Road Repair and Accountability Act of 2017, was signed into law in April 2017 to address the budget shortfall for maintenance of existing infrastructure throughout the state. As part of the legislation, local agencies are required to list all proposed projects scheduled to receive SB-1 funding by resolution prior to receiving an apportionment of Road Maintenance and Rehabilitation Account (RMRA) funds in a fiscal year. The funding is restricted to street maintenance, rehabilitation, safety, and transit projects. The California Transportation Commission (CTC) issued the requirement that project lists for the 2026-2027 fiscal year are due by July 1, 2026. The attached resolution fulfills that requirement.

The Project includes the installation of ADA-compliant curb ramps, repairs of damaged curb and gutter, removal and replacement of failed asphalt roadway sections, and the application of a preventative maintenance surface treatment. The streets scheduled to receive the new curb ramps, maintenance and resurface application are shown on the attached map.

The estimated useful life of these improvements is 7 to 10 years. Construction of South Cirby and Cirby Ranch Resurfacing Project is planned to begin in late 2026 with the installation of ADA compliant curb ramps and concrete repairs, followed by the resurfacing application beginning in the summer of 2027. This project is a part of the City's proactive street pavement maintenance program designed to seal, protect, and preserve the underlying pavement by applying relatively affordable asphalt resurfacing products. Preventative maintenance surface treatments protect the existing asphalt surfaces and extend the life of the underlying pavement. This keeps our streets in good condition, avoiding pavement failures that would require more costly rehabilitation and reconstruction.

In addition, the City maintains a pavement management software database to help guide staff as to which streets should be resurfaced in any given year based on field inspections and pavement condition data collected at three-year intervals. The software allows staff to resurface streets in a systematic way that

ensures we get the most out of the City's limited funding over the long term.

Public Works staff will work closely with the Public Affairs and Communications Department to keep the community informed of the project and its impact. Notifications may include, but are not limited to: mailers, door hangers, signage, social media, website (roseville.ca.gov/resurfacing), and email newsletters.

FISCAL IMPACT

The City is estimated to receive $4.4 million from the Road Maintenance & Rehabilitation Account (RMRA — also known as SB-1) Fund in Fiscal Year 2026-27. The engineer's estimate for the South Cirby and Cirby Ranch Resurfacing project is $7.5 million and will be funded by the FY26/27 allotment of RMRA funding. Staff plans to return next year to identify the project for the FY27/28 allotment of RMRA to fund the remaining portion of the project. Additionally, some Highway User Tax funds may be used. No General Fund resources will be used for the project.

ENVIRONMENTAL REVIEW

The proposed project involves the maintenance and minor alteration of existing facilities. This activity is categorically exempt from CEQA as a Class 1 Exemption (State CEQA Guidelines Section 15301). The Exemption has been prepared and no further CEQA action is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

2. Remain fiscally responsible in a changing world
4. Invest in well-planned infrastructure and growth

Respectfully Submitted,
Laura Salcedo, Assistant Engineer

Jason Shykowski, Public Works Director

RESOLUTION NO. 26-237

RESOLUTION ADOPTING A LIST OF PROJECTS FOR FISCAL YEAR 2026-27 FUNDED BY SB 1: THE ROAD REPAIR AND ACCOUNTABILITY ACT OF 2017

WHEREAS, Senate Bill 1 (SB 1), the Road Repair and Accountability Act of 2017 (Chapter 5, Statutes of 2017) was passed by the Legislature and Signed into law by the Governor in April 2017 to address the significant multi-modal transportation funding shortfalls statewide; and

WHEREAS, SB 1 includes accountability and transparency provisions that will ensure the residents of our City are aware of the projects proposed for funding in our community and which projects have been completed each fiscal year; and

WHEREAS, the City must adopt by resolution a list of projects proposed to receive fiscal year funding from the Road Maintenance and Rehabilitation Account (RMRA), created by SB 1, which must include a description and the location of each proposed project, a proposed schedule for the project's completion, and the estimated useful life of the improvement; and

WHEREAS, the City, will receive an estimated $4,460,000 in RMRA funding in Fiscal Year 2026-27 from SB 1; and

WHEREAS, this is the tenth year in which the City is receiving SB 1 funding and will enable the City to continue essential road maintenance and rehabilitation projects, safety improvements, repairing and replacing aging bridges, and increasing access and mobility options for the traveling public that would not have otherwise been possible without SB 1; and

WHEREAS, the City used a Pavement Management System to develop the SB 1 project list to ensure revenues are being used on the most high-priority and cost-effective projects that also meet the communities priorities for transportation investment; and

WHEREAS, the funding from SB 1 will help the City maintain and rehabilitate roads infrastructure throughout the City this year and many similar projects into the future; and

WHEREAS, the 2023 California Statewide Local Streets and Roads Needs Assessment found that the City's streets and roads are in an "at-risk" condition and this revenue will help us increase the overall quality of our road system; and

WHEREAS, the SB 1 project list and overall investment in our local streets and roads infrastructure with a focus on basic maintenance and safety, investing in complete streets infrastructure, and using cutting-edge technology, materials and practices, will have significant positive co-benefits statewide.

NOW, THEREFORE IT IS HEREBY RESOLVED, ORDERED AND FOUND by the City Council of the City of Roseville, State of California, as follows:

1. The foregoing recitals are true and correct.

2. The following list of newly proposed projects will be funded in-part or solely with Fiscal Year 2026-27 Road Maintenance and Rehabilitation Account revenues:

The Cirby Ranch and South Cirby Resurfacing Project. The Project includes the installation of ADA-compliant curb ramps, repairs of damaged curb and gutter, removal and replacement of failed asphalt roadway sections, and the application of a preventative maintenance surface treatment. The project is located at Cirby Ranch and South Cirby neighborhoods (Exhibit A). The project is estimated to start late 2026 based on the component being funded with RMRA funds. The estimated useful life of these improvements is 7 to 10 years.

Recorder's Office
2954 Richardson Drive
Auburn, CA 95603

From: City of Roseville
Development Services Dept.
311 Vernon Street
Roseville, CA 95678

Project Title: Cirby Ranch and South Cirby Resurfacing Project

Project Location(s): Local streets located east of Sunrise Avenue and south of Cirby Way in the Cirby Ranch and South Cirby neighborhoods.

Project Description: The proposed project includes the installation of ADA-compliant curb ramps, repairs of damaged curb and gutter, removal and replacement of failed asphalt roadway sections, and the application of a preventative maintenance surface treatment on and along existing residential roadways in the Cirby Ranch and South Cirby neighborhoods. Preventative maintenance surface treatment provides waterproof membrane to protect the existing asphalt surface and extend the life of the underlying pavement. None of the maintenance actions or repairs would increase the capacity of the roadways or their use.

Public Agency Approving Project: Roseville City Council

Agency/Individual Carrying Out Project: City of Roseville Public Works Department

Reason why this Project is Exempt: This project qualifies for a Class 1 Exemption as described in Section 15301 of the California Environmental Quality Act (CEQA) guidelines which states:

> "Class 1 consists of …maintenance...[and] minor alteration of existing public facilities, ….involving negligible or no expansion of use beyond that previously existing…. examples include highways, streets, sidewalks, gutters, bicycle and pedestrian trails…."

The project is confined to existing streets within City right-of-way and would not result in expansion of use. No environmentally sensitive resources are located within the project site; therefore the Class 1 exemption is applicable to the proposed project.

Lead Agency Contact Person: Laura Salcedo, Public Works Department, 311 Vernon Street, Roseville, CA 95678 (916) 774-5437.

Title:	Ferric Chloride (BACC 06-2026) - Contract Purchase Agreement
Contact:	Becky Philipp 916-746-1110 bphilipp@roseville.ca.us

SUMMARY

Staff recommends approval of a contract purchase agreement with Kemira Water Solutions, Inc. in the amount of $1,085,450 for the supply and delivery of ferric chloride for FY2026-27. Sufficient funding is included in the Environmental Utilities Department's proposed FY2026-27 Wastewater Operations Fund budget.

RECOMMENDATION

Staff recommends that the City Council adopt a resolution approving Contract Purchase Agreement (3005339) with Kemira Water Solutions, Inc. as the lowest responsive bidder for Bay Area Chemical Consortium (BACC) Bid No. 06-2026 for the supply and delivery of ferric chloride for the Dry Creek Wastewater Treatment Plant and Pleasant Grove Wastewater Treatment Plant and authorizing the City Manager to execute the agreement on behalf of the City of Roseville.

Staff further requests that the City Council authorize the City Manager or his or her designee to execute three (3) additional one (1) year renewals without further City Council approval, provided that the applicable budget is approved by the City Council, or until staff determines that continuing with this vendor is not in the best interest of the City.

BACKGROUND

The Environmental Utilities Department's Dry Creek Wastewater Treatment Plant and Pleasant Grove Wastewater Treatment Plant have an ongoing requirement for ferric chloride, which is used to treat digesting sludge to reduce the amount of hydrogen sulfide gas produced during the digestion process. This chemical will be purchased as needed throughout the year.

In February 2026, the City participated in a regional chemical bid led by the BACC, with the Bay Area Clean Water Agency serving as the coordinating agency. BACC is comprised of water and wastewater agencies in the Northern California area, working together to purchase chemicals by combining bid solicitations. BACC is an informal cooperative that advertises and opens sealed competitive bids and then prepares bid recommendations. Combined bid solicitations offer vendors an opportunity to sell greater quantities of their products. Because more than 50 public agencies are now participating, significant savings for chemical purchases are being passed along to the agencies' water and wastewater customers.

FISCAL IMPACT

The FY 2026-27 not-to-exceed amount included in this agreement is $1,085,450. Sufficient funding is included in the Environmental Utilities Department's proposed FY 2026-27 Wastewater Operations Fund

budget for this purchase. Projected spending for the optional renewal years is as follows: FY 2027-28, $1,194,000; FY 2028-29, $1,313,400; and FY 2029-30, $1,444,740.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)). The hauling and delivery of hazardous substances is regulated by the state. Hazardous material transport consistent with applicable safety regulations should not result in a significant environmental effect. Therefore, the proposed contract purchase agreement does not include the potential for significant environmental effect and is not subject to CEQA.

Contract Terms and Conditions

1. To the fullest extent allowed by law, Contractor shall defend, indemnify, and save and hold harmless City, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of Contractor's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from City's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed. Contractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.
2. Contractor is an independent contractor, and shall not be considered an officer, agent or employee of the City.
3. Without the written consent of the City, this Agreement is not assignable by Contractor either in whole or in part.
4. Time is of the essence of this Agreement.
5. At any time during the term of this Agreement, the City has the right to terminate this Agreement, provided Contractor is given thirty (30) days written notice. City's termination shall be without further liability to City; however, Contractor shall be entitled to all costs reasonably incurred prior to the date of termination. Contractor acknowledges that City may terminate this Agreement should funds not be appropriated by its governing body to continue services under this Agreement.
6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.
7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.
8. Unless notified to the contrary, in writing, the City assumes that the Contractor has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement.
9. All fair employment practices must be adhered to. In addition, if the project referenced on this service agreement is a Public Works project, all prevailing wage laws must be complied with. For prevailing wage contracts over $25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm. In compliance with Labor Code Section 1773.2, as may be amended from time to time, Contractor shall cause a copy of this website to be posted at each jobsite, as applicable.
10. Contractor agrees to the below insurance requirements:
    a. Unless otherwise specified, the Contractor shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance coverage.
    b. Form. Contractor shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management

Docusign Envelope ID: 9E1A2DDB-00AA-8BF3-81D8-A8C58EB6A9C0

and the City Attorney.

c. Additional Insureds. Contractor shall also provide a separate endorsement or section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage, except for Workers' Compensation. Such insurance shall specifically cover the contractual liability of Contractor. The additional insured coverage under the Contractor's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office (ISO) CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be:
(1) the minimum coverage and limits specified in this Agreement; or
(2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

d. Cancellation/Modification. Contractor shall provide thirty (30) days written notice to City prior to cancellation or modification of any insurance required by this Agreement.

e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.

f. Subcontractors. Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, Contractor shall require its subcontractors to agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under this Agreement. Additionally, Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

g. Self-Insured Retentions. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

h. Waiver of Subrogation. Contractor hereby agrees to waive subrogation which any insurer of Contractor may acquire from Contractor by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Contractor, its employees, agents and subcontractors.

i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Contractor of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.

11. Contractor shall comply with all federal, state, and local laws and ordinances, including

Docusign Envelope ID: 9E1A2DDB-00AA-8BF3-81D8-A8C58EB6A9C0

but not limited to the City's storm water regulations, as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances may result in monetary fines and cancellation of this Agreement. Refer to www.roseville.ca.us/stormwater for links to more information on the City's storm water regulations.

12. In the event that the terms of any attachment or exhibit conflict with any terms of this Agreement, the terms of this Agreement shall control.
13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original hereof.
14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.
16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
17. For purposes of this Agreement, the terms "Contractor," "Consultant," and "Supplier" are used interchangeably.
18. If the project referenced on this agreement is a Public Works project, then the following shall apply: No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
19. Contractor/consultant's duties and services under this agreement shall not include preparing or assisting the public entity with any portion of the public entity's preparation of a request for proposals, request for qualifications, or any other solicitation regarding a subsequent or additional contract with the public entity. The public entity entering this agreement shall at all times retain responsibility for public contracting, including with respect to any subsequent phase of this project. Contractor/consultant's participation in the planning, discussions, or drawing of project plans or specifications, if any, shall be limited to conceptual, preliminary, or initial plans or specifications. Contractor/consultant shall cooperate with the public entity to ensure that all bidders for a subsequent contract on any subsequent phase of this project have access to the same information, including all conceptual, preliminary, or initial plans or specifications prepared by contractor pursuant to this agreement.
20. If the project referenced on this agreement is a Public Works project, then the following shall apply: Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.
21. Contractor certifies that Contractor, its employees, directors, officers, agents,

Docusign Envelope ID: 9E1A2DDB-00AA-8BF3-81D8-A8C58EB6A9C0

subcontractors, vendors, and volunteers are not presently debarred, excluded, suspended, declared ineligible, voluntarily excluded, or proposed for debarment, exclusion, suspension, or ineligibility by any federal, state, or local department or agency.

22. The Levine Act (Govt. Code, Section 84308) requires a Party (and its agent(s), if any) to a Proceeding before the City of Roseville that involves any action or consideration related to their contract, license, permit, or other entitlement for use, to disclose any campaign contributions made to City elected or appointed officers totaling more than $500 within the twelve (12) months prior to the City decision and while a proceeding is pending, and includes certain prohibitions on contribution activity thereafter. If applicable campaign contributions have been made by Contractor and/or its agent(s), Contractor is responsible for compliance, including for its disclosure obligations, if any, as further described at: https://www.roseville.ca.us/government/departments/city_clerk/transparency/levine_act.

23. This Agreement may be amended via change order, but only if such change order is made in writing, approved by the City, and signed by both parties.

24. CONTRACTOR agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONTRACTOR and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

    CONTRACTOR and CITY agree that: (a) CONTRACTOR is free from the control and direction of CITY in connection with the performance of the work; (b) CONTRACTOR is providing services directly to CITY; (c) CONTRACTOR has and will maintain at all relevant times a business license; (d) CONTRACTOR maintains a business location that is separate from CITY; (e) CONTRACTOR is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) CONTRACTOR actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) CONTRACTOR advertises and holds itself out to the public as available to provide the same or similar services; (h) CONTRACTOR provides its own tools, vehicles, and equipment to perform the services; (i) CONTRACTOR has negotiated its own rates; (j) CONTRACTOR set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONTRACTOR has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

25. If Contractor produces any "web content" pursuant to this Agreement, as that term is defined in section 35.104 of Title 28 of the Code of Federal Regulations, as may be amended, Contractor shall ensure that any such web content is in full compliance with all applicable requirements of the most current version of the Web Content Accessibility Guidelines, the Americans with Disabilities Act, Code of Federal Regulations and/or California law. Contractor shall defend, indemnify, and hold harmless City, its officers, employees, and agents from and against any and all claims, liabilities, damages, or expenses arising out of Contractor's failure to comply with such requirements. This provision shall survive expiration and/or termination of this Agreement.

The supplier named hereon by the acceptance of this order agrees to the provisions of this document titled "Contract Purchase Agreement" and all accompanying terms, conditions, and attachments.

Insurance Submission Process

The City of Roseville Human Resources/Risk Management Department uses a service called EBIX to manage our insurance certificate tracking.

How It Works

- The vendor's contact information is entered into EBIX. EBIX will contact the vendor to request proof of insurance.
- The Vendor can forward the request to their Insurance Agent(s) if necessary.
- Vendor/Insurance Agent submits insurance to EBIX by email to roseville@ebix.com or by fax to (770) 325-5727. After faxing or emailing the certificate, please DO NOT send the certificate by mail to EBIX. Please do not mail, email or fax any certificates to the City of Roseville.
- Once submitted, EBIX reviews the insurance documentation. If there are deficiencies, EBIX will send a follow up letter or email requesting additional information.

Questions Regarding Insurance Submission: Contact EBIX at (951) 652-4239
Questions Regarding Insurance Requirements Contact Risk Management at (916) 774-5202

City Council Communication

Meeting Date: 6/17/2026
Item #: VII.33
File #: 0203-03
Item ID: 2026-462

Title:	Liquid Aluminum Sulfate (BACC 01-2026) - Contract Purchase Agreement
Contact:	Becky Philipp 916-746-1110 bphilipp@roseville.ca.us

SUMMARY

Staff recommends approval of a contract purchase agreement with Chemtrade Chemicals US LLC in the amount of $345,000 for the supply and delivery of liquid aluminum sulfate for FY2026-27. Sufficient funding is included in the proposed FY2026-27 Water Operations Fund budget for this purchase.

RECOMMENDATION

Staff recommends that the City Council adopt a resolution approving Contract Purchase Agreement (3005313) with Chemtrade Chemicals US LLC as the lowest responsive bidder for Bay Area Chemical Consortium (BACC) Bid No. 01-2026 for the supply and delivery of liquid aluminum sulfate for the Environmental Utilities Water Treatment Plant and authorizing the City Manager to execute the agreement on behalf of the City of Roseville.

Staff further requests that the City Council authorize the City Manager or his or her designee to execute three (3) additional one (1) year renewals without further City Council approval, provided that the applicable budget is approved by the City Council, or until staff determines that continuing with this vendor is not in the best interest of the City.

BACKGROUND

The City's Water Treatment Plant has an ongoing need for liquid aluminum sulfate (alum), which is used as a flocculating agent in the water treatment process. The chemical is purchased on an as-needed basis throughout the year.

In February 2026, the City participated in a regional chemical procurement led by the Bay Area Chemical Consortium (BACC), with the Bay Area Clean Water Agency serving as the coordinating agency. BACC is an informal cooperative of Northern California water and wastewater agencies that combines chemical purchases through competitive bidding. By aggregating demand from more than 50 participating agencies, BACC increases purchasing power and achieves cost savings that benefit water and wastewater ratepayers.

FISCAL IMPACT

The FY2026-27 not-to-exceed amount is $345,000. Funding is included in the FY2026-27 Water Operations Fund budget. Projected spending for the optional renewal years is as follows: FY2027-28, $379,500; FY2028-29, $417,450; and FY2029-30, $459,195.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no

possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)). The hauling and delivery of hazardous substances is regulated by the state. Hazardous material transport consistent with applicable safety regulations should not result in a significant environmental effect. Therefore, the proposed contract purchase agreement does not include the potential for significant environmental effect and is not subject to CEQA.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

1. Ensure a safe and healthy community

Respectfully Submitted,
Becky Philipp, Purchasing Supervisor

Scott Pettingell, Finance Director

Contract Terms and Conditions

1. To the fullest extent allowed by law, Contractor shall defend, indemnify, and save and hold harmless City, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of Contractor's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from City's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed. Contractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.
2. Contractor is an independent contractor, and shall not be considered an officer, agent or employee of the City.
3. Without the written consent of the City, this Agreement is not assignable by Contractor either in whole or in part.
4. Time is of the essence of this Agreement.
5. At any time during the term of this Agreement, the City has the right to terminate this Agreement, provided Contractor is given thirty (30) days written notice. City's termination shall be without further liability to City; however, Contractor shall be entitled to all costs reasonably incurred prior to the date of termination. Contractor acknowledges that City may terminate this Agreement should funds not be appropriated by its governing body to continue services under this Agreement.
6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.
7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.
8. Unless notified to the contrary, in writing, the City assumes that the Contractor has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement.
9. All fair employment practices must be adhered to. In addition, if the project referenced on this service agreement is a Public Works project, all prevailing wage laws must be complied with. For prevailing wage contracts over $25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm. In compliance with Labor Code Section 1773.2, as may be amended from time to time, Contractor shall cause a copy of this website to be posted at each jobsite, as applicable.
10. Contractor agrees to the below insurance requirements:
    a. Unless otherwise specified, the Contractor shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance coverage.
    b. Form. Contractor shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management

Docusign Envelope ID: EA885C0D-EF6B-4D15-8E64-B776A01D6643

and the City Attorney.

c. Additional Insureds. Contractor shall also provide a separate endorsement or section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage, except for Workers' Compensation. Such insurance shall specifically cover the contractual liability of Contractor. The additional insured coverage under the Contractor's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office (ISO) CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be:
(1) the minimum coverage and limits specified in this Agreement; or
(2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

d. Cancellation/Modification. Contractor shall provide thirty (30) days written notice to City prior to cancellation or modification of any insurance required by this Agreement.

e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.

f. Subcontractors. Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, Contractor shall require its subcontractors to agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under this Agreement. Additionally, Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

g. Self-Insured Retentions. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

h. Waiver of Subrogation. Contractor hereby agrees to waive subrogation which any insurer of Contractor may acquire from Contractor by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Contractor, its employees, agents and subcontractors.

i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Contractor of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.

11. Contractor shall comply with all federal, state, and local laws and ordinances, including

Docusign Envelope ID: EA885C0D-EF6B-4D15-8E64-B776A01D6643

but not limited to the City's storm water regulations, as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances may result in monetary fines and cancellation of this Agreement. Refer to www.roseville.ca.us/stormwater for links to more information on the City's storm water regulations.

12. In the event that the terms of any attachment or exhibit conflict with any terms of this Agreement, the terms of this Agreement shall control.
13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original hereof.
14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.
16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
17. For purposes of this Agreement, the terms "Contractor," "Consultant," and "Supplier" are used interchangeably.
18. If the project referenced on this agreement is a Public Works project, then the following shall apply: No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
19. Contractor/consultant's duties and services under this agreement shall not include preparing or assisting the public entity with any portion of the public entity's preparation of a request for proposals, request for qualifications, or any other solicitation regarding a subsequent or additional contract with the public entity. The public entity entering this agreement shall at all times retain responsibility for public contracting, including with respect to any subsequent phase of this project. Contractor/consultant's participation in the planning, discussions, or drawing of project plans or specifications, if any, shall be limited to conceptual, preliminary, or initial plans or specifications. Contractor/consultant shall cooperate with the public entity to ensure that all bidders for a subsequent contract on any subsequent phase of this project have access to the same information, including all conceptual, preliminary, or initial plans or specifications prepared by contractor pursuant to this agreement.
20. If the project referenced on this agreement is a Public Works project, then the following shall apply: Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.
21. Contractor certifies that Contractor, its employees, directors, officers, agents,

Docusign Envelope ID: EA885C0D-EF6B-4D15-8E64-B776A01D6643

subcontractors, vendors, and volunteers are not presently debarred, excluded, suspended, declared ineligible, voluntarily excluded, or proposed for debarment, exclusion, suspension, or ineligibility by any federal, state, or local department or agency.

22. The Levine Act (Govt. Code, Section 84308) requires a Party (and its agent(s), if any) to a Proceeding before the City of Roseville that involves any action or consideration related to their contract, license, permit, or other entitlement for use, to disclose any campaign contributions made to City elected or appointed officers totaling more than $500 within the twelve (12) months prior to the City decision and while a proceeding is pending, and includes certain prohibitions on contribution activity thereafter. If applicable campaign contributions have been made by Contractor and/or its agent(s), Contractor is responsible for compliance, including for its disclosure obligations, if any, as further described at: https://www.roseville.ca.us/government/departments/city_clerk/transparency/levine_act.

23. This Agreement may be amended via change order, but only if such change order is made in writing, approved by the City, and signed by both parties.

24. CONTRACTOR agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONTRACTOR and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

    CONTRACTOR and CITY agree that: (a) CONTRACTOR is free from the control and direction of CITY in connection with the performance of the work; (b) CONTRACTOR is providing services directly to CITY; (c) CONTRACTOR has and will maintain at all relevant times a business license; (d) CONTRACTOR maintains a business location that is separate from CITY; (e) CONTRACTOR is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) CONTRACTOR actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) CONTRACTOR advertises and holds itself out to the public as available to provide the same or similar services; (h) CONTRACTOR provides its own tools, vehicles, and equipment to perform the services; (i) CONTRACTOR has negotiated its own rates; (j) CONTRACTOR set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONTRACTOR has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

25. If Contractor produces any "web content" pursuant to this Agreement, as that term is defined in section 35.104 of Title 28 of the Code of Federal Regulations, as may be amended, Contractor shall ensure that any such web content is in full compliance with all applicable requirements of the most current version of the Web Content Accessibility Guidelines, the Americans with Disabilities Act, Code of Federal Regulations and/or California law. Contractor shall defend, indemnify, and hold harmless City, its officers, employees, and agents from and against any and all claims, liabilities, damages, or expenses arising out of Contractor's failure to comply with such requirements. This provision shall survive expiration and/or termination of this Agreement.

The supplier named hereon by the acceptance of this order agrees to the provisions of this document titled "Contract Purchase Agreement" and all accompanying terms, conditions, and attachments.

Insurance Submission Process

The City of Roseville Human Resources/Risk Management Department uses a service called EBIX to manage our insurance certificate tracking.

How It Works

- The vendor's contact information is entered into EBIX. EBIX will contact the vendor to request proof of insurance.
- The Vendor can forward the request to their Insurance Agent(s) if necessary.
- Vendor/Insurance Agent submits insurance to EBIX by email to roseville@ebix.com or by fax to (770) 325-5727. After faxing or emailing the certificate, please DO NOT send the certificate by mail to EBIX. Please do not mail, email or fax any certificates to the City of Roseville.
- Once submitted, EBIX reviews the insurance documentation. If there are deficiencies, EBIX will send a follow up letter or email requesting additional information.

Questions Regarding Insurance Submission: Contact EBIX at (951) 652-4239
Questions Regarding Insurance Requirements Contact Risk Management at (916) 774-5202

April, 2022

RE: Contractor and Grantee Compliance with Economic Sanctions Imposed in Response to Russia's Actions in Ukraine

Dear Vendor:

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (EO) regarding sanctions in response to Russian aggression in Ukraine. The EO is located at https://www.gov.ca.gov/wp-content/uploads/2022/03/3.4.22-Russia-Ukraine-Executive-Order.pdf.

The EO directs all agencies and departments that are subject to the Governor's authority to take certain immediate steps, including notifying all contractors and grantees of their obligations to comply with existing economic sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law.

This correspondence serves as a notice under the EO that as a contractor or grantee, compliance with the economic sanctions imposed in response to Russia's actions in Ukraine is required, including with respect to, but not limited to, the federal executive orders identified in the EO and the sanctions identified on the U.S. Department of the Treasury website (https://home.treasury.gov/policy-issues/financial-sanctions/sanctions-programs-and-country-information/ukraine-russia-related-sanctions). Failure to comply may result in the termination of contracts or grants, as applicable.

Please note that for any agreements or grants valued at $5 million or more you must report to the City of Roseville your compliance with economic sanctions including steps you have taken in response to Russia's actions in Ukraine, including, but not limited to, desisting from making new investments in, or engaging in financial transactions with, Russian entities, not transferring technology to Russia or Russian entities, and directly providing support to the government and people of Ukraine.

Sincerely,

DocuSigned by:

CH THALE

DELEGATION OF AUTHORITY

I, Scott Rook, President and Chief Executive of Chemtrade Chemicals US LLC, a Delaware limited liability company ("Chemtrade"), do hereby delegate and appoint the following agents of Chemtrade to execute all municipal contracts and instruments, including bids, proposals and quotations, which in the ordinary course of business are processed by the Marketing Group of the company:

Parul Kachhia-Patel; Lisa Brownlee; Paul Peters; Elizabeth Ryno; Lelina Gossa; Christine LeSala; Delana Peralta; Michele Schrosher; Marie-Josee Joly

Set forth below is a certified copy of the resolution of Chemtrade authorizing such action.

Dated as of the 15th day of April, 2025.

Scott Rook
President and Chief Executive Officer

CERTIFICATE OF SECRETARY

I, Susan Pare, hereby certify that I am the Corporate Secretary of Chemtrade Chemicals US LLC ("Chemtrade") and that set forth below is a true and correct copy of the resolution of the Board of Managers of Chemtrade, adopted by unanimous written consent as of the 10th day of November 2003 and that the same has not been modified or revoked and is on the date hereofin full force and effect:

> RESOLVED that any officer of the Company be, and he hereby is, authorized to delegate, with the right of further delegation, to any other officer, employee or agent of the Company, all or any part of the authority granted to them by the Board of Managers; and that any such delegations may be general or specific and subject to such limitations and restrictions as the delegating officer shall determine.

I FURTHER CERTIFY that Scott Rook is the duly elected President and Chief Executive Officer of Chemtrade and holds such offices on the date hereof, that Mr. Rook is, in his capacity as President and Chief Executive Officer is authorized to represent and bind Chemtrade in all matters including, but not limited to, contracts and that set forth below is the genuine signature of such officer:

Scott Rook
President and Chief Executive Officer

IN WITNESS WHEREOF, I have hereunto set my hand and have caused the seal of the Company to be affixed effective this 15th day of April, 2025.

Seal

Emergency Delivery Plan
Chemtrade Chemicals

Chemtrade Chemicals is fully prepared, and possesses the necessary resources, to support municipal customers under conditions that may require extraordinary measures. We take both *preventative measures and a comprehensive back-up procedure* have been implemented to assure that alum requirements are fully satisfied, even in the unlikely event of a disaster.

In order to prepare for any potential disruption in service, Chemtrade Chemicals has implemented the following preventative measures to assure that our customers' requirements are always satisfied:

- Chemtrade Chemicals maintains key raw material inventory levels of aluminum hydrate and sulfuric acid on site at all times. In the unlikely event of a raw material transportation delay, products can be produced from raw materials on site providing, on average 15-day alum supply. Back-up trucking of key raw materials from one of Chemtrade Chemical's alternate production facilities (over 30 in North America, back-up facilities typically within 300 miles of a customer's location) will allow for an uninterrupted supply line to the customer.
- Chemtrade Chemicals maintains our manufacturing plants finished goods inventory as close to capacity as possible. Storage of finished product on average provides additional day's alum supply.
- The above referenced raw material management and finished inventory storage, allows Chemtrade Chemicals to supply product demand to all customers for a full 3 weeks.
- All critical or long lead-time spare parts for manufacturing equipment are maintained on site. Other spare parts are within a 24-hour reach of each plant. In the event of equipment malfunction, all necessary items will be on hand and available within 24 hours.

Disruption of Product, Power Outages, Sources of Supply, Strike:
In addition to the above preventative measures, Chemtrade Chemicals will also implement the following procedure in the unlikely event of a disaster resulting in complete shutdown of operations:

1. Material will be initially supplied from storage providing a minimum 5-day supply, even during worst-case peak scenarios.
2. One local back-up plant is located within 300 miles of your facilities, will supply material as required, within 24 hours, to either the customer or to Chemtrade Chemicals' storage tanks. Shipments from back-up plants will begin immediately to assure that the customer's supply is never interrupted.

Summary:
Chemtrade Chemicals (formerly General Chemical) has been producing alum in North America since 1912. The NSF and ISO-9002 certification of our entire network of over 30 manufacturing plants and technical resources ensure that Chemtrade Chemicals will consistently provide our municipal customers with the highest level of quality and technical service available in the industry. Chemtrade Chemicals' 24-hour customer service, and back-up production facilities provide for the most comprehensive and dependable service even in the event of unforeseen emergencies.

City Council Communication

Meeting Date: 6/17/2026
Item #: VII.34
File #: 0203-03
Item ID: 2026-460

Title:	Hydrofluosilicic Acid (BACC 08-2026) - Contract Purchase Agreement
Contact:	Becky Philipp 916-746-1110 bphilipp@roseville.ca.us

SUMMARY

Staff recommends approval of a contract purchase agreement with DuBois Chemicals, Inc. in the amount of $200,000 for FY2026-27 to supply and deliver hydrofluosilicic acid. Adequate funding is available in the proposed FY2026-27 Water Operations Fund budget for this purchase.

RECOMMENDATION

Staff recommends that the City Council adopt a resolution to approve Contract Purchase Agreement (3005347) with DuBois Chemicals, Inc. as the lowest responsive bidder for Bay Area Chemical Consortium (BACC) Bid No. 08-2026 for the supply and delivery of hydrofluosilicic acid for the Barton Road Water Treatment Plant and authorize the City Manager to execute it on behalf of the City of Roseville.

Staff further requests that the City Council authorize the City Manager or his or her designee to execute three (3) additional one (1) year renewals without further City Council approval, provided that the applicable budget is approved by the City Council, or until staff determines that continuing with this vendor is not in the best interest of the City.

BACKGROUND

The City's Barton Road Water Treatment Plant has an ongoing requirement for hydrofluosilicic acid (fluoride), which is added to the water to prevent dental cavities, also known as tooth decay. This chemical will be purchased as needed throughout the year.

In February 2026, the City participated in a regional chemical bid led by the BACC, with the Bay Area Clean Water Agency serving as the coordinating agency. BACC is comprised of water and wastewater agencies in the Northern California area, working together to purchase chemicals by combining bid solicitations. BACC is an informal cooperative that advertises and opens sealed competitive bids and then prepares bid recommendations. Combined bid solicitations provide vendors with an opportunity to sell larger quantities of their products. Because more than 50 public agencies are now participating, significant savings for chemical purchases are being passed along to the agencies' water and wastewater customers.

FISCAL IMPACT

The FY2026-27 not-to-exceed amount is $200,000. Funding is included in the FY2026-27 Water Operations Fund budget. Projected spending for the optional renewal years is as follows: FY2027-28,

$220,000; FY2028-29, $242,000; FY2029-30, $266,200.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)). The hauling and delivery of hazardous substances is regulated by the state. Hazardous material transport consistent with applicable safety regulations should not result in a significant environmental effect. Therefore, the proposed contract purchase agreement does not include the potential for significant environmental effect and is not subject to CEQA.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

1. Ensure a safe and healthy community

Contract Terms and Conditions

1. To the fullest extent allowed by law, Contractor shall defend, indemnify, and save and hold harmless City, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of Contractor's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from City's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed. Contractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.
2. Contractor is an independent contractor, and shall not be considered an officer, agent or employee of the City.
3. Without the written consent of the City, this Agreement is not assignable by Contractor either in whole or in part.
4. Time is of the essence of this Agreement.
5. At any time during the term of this Agreement, the City has the right to terminate this Agreement, provided Contractor is given thirty (30) days written notice. City's termination shall be without further liability to City; however, Contractor shall be entitled to all costs reasonably incurred prior to the date of termination. Contractor acknowledges that City may terminate this Agreement should funds not be appropriated by its governing body to continue services under this Agreement.
6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.
7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.
8. Unless notified to the contrary, in writing, the City assumes that the Contractor has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement.
9. All fair employment practices must be adhered to. In addition, if the project referenced on this service agreement is a Public Works project, all prevailing wage laws must be complied with. For prevailing wage contracts over $25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm. In compliance with Labor Code Section 1773.2, as may be amended from time to time, Contractor shall cause a copy of this website to be posted at each jobsite, as applicable.
10. Contractor agrees to the below insurance requirements:
    a. Unless otherwise specified, the Contractor shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance coverage.
    b. Form. Contractor shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management

Docusign Envelope ID: F9C0C486-E238-881F-803C-A915703A2679

and the City Attorney.

c. Additional Insureds. Contractor shall also provide a separate endorsement or section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage, except for Workers' Compensation. Such insurance shall specifically cover the contractual liability of Contractor. The additional insured coverage under the Contractor's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office (ISO) CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be:
(1) the minimum coverage and limits specified in this Agreement; or
(2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

d. Cancellation/Modification. Contractor shall provide thirty (30) days written notice to City prior to cancellation or modification of any insurance required by this Agreement.

e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.

f. Subcontractors. Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, Contractor shall require its subcontractors to agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under this Agreement. Additionally, Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

g. Self-Insured Retentions. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

h. Waiver of Subrogation. Contractor hereby agrees to waive subrogation which any insurer of Contractor may acquire from Contractor by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Contractor, its employees, agents and subcontractors.

i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Contractor of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.

11. Contractor shall comply with all federal, state, and local laws and ordinances, including

Docusign Envelope ID: F9C0C486-E238-881F-803C-A915703A2679

but not limited to the City's storm water regulations, as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances may result in monetary fines and cancellation of this Agreement. Refer to www.roseville.ca.us/stormwater for links to more information on the City's storm water regulations.

12. In the event that the terms of any attachment or exhibit conflict with any terms of this Agreement, the terms of this Agreement shall control.
13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original hereof.
14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.
16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
17. For purposes of this Agreement, the terms "Contractor," "Consultant," and "Supplier" are used interchangeably.
18. If the project referenced on this agreement is a Public Works project, then the following shall apply: No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
19. Contractor/consultant's duties and services under this agreement shall not include preparing or assisting the public entity with any portion of the public entity's preparation of a request for proposals, request for qualifications, or any other solicitation regarding a subsequent or additional contract with the public entity. The public entity entering this agreement shall at all times retain responsibility for public contracting, including with respect to any subsequent phase of this project. Contractor/consultant's participation in the planning, discussions, or drawing of project plans or specifications, if any, shall be limited to conceptual, preliminary, or initial plans or specifications. Contractor/consultant shall cooperate with the public entity to ensure that all bidders for a subsequent contract on any subsequent phase of this project have access to the same information, including all conceptual, preliminary, or initial plans or specifications prepared by contractor pursuant to this agreement.
20. If the project referenced on this agreement is a Public Works project, then the following shall apply: Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.
21. Contractor certifies that Contractor, its employees, directors, officers, agents,

Docusign Envelope ID: F9C0C486-E238-881F-803C-A915703A2679

subcontractors, vendors, and volunteers are not presently debarred, excluded, suspended, declared ineligible, voluntarily excluded, or proposed for debarment, exclusion, suspension, or ineligibility by any federal, state, or local department or agency.

22. The Levine Act (Govt. Code, Section 84308) requires a Party (and its agent(s), if any) to a Proceeding before the City of Roseville that involves any action or consideration related to their contract, license, permit, or other entitlement for use, to disclose any campaign contributions made to City elected or appointed officers totaling more than $500 within the twelve (12) months prior to the City decision and while a proceeding is pending, and includes certain prohibitions on contribution activity thereafter. If applicable campaign contributions have been made by Contractor and/or its agent(s), Contractor is responsible for compliance, including for its disclosure obligations, if any, as further described at: https://www.roseville.ca.us/government/departments/city_clerk/transparency/levine_act.
23. This Agreement may be amended via change order, but only if such change order is made in writing, approved by the City, and signed by both parties.
24. CONTRACTOR agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONTRACTOR and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

    CONTRACTOR and CITY agree that: (a) CONTRACTOR is free from the control and direction of CITY in connection with the performance of the work; (b) CONTRACTOR is providing services directly to CITY; (c) CONTRACTOR has and will maintain at all relevant times a business license; (d) CONTRACTOR maintains a business location that is separate from CITY; (e) CONTRACTOR is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) CONTRACTOR actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) CONTRACTOR advertises and holds itself out to the public as available to provide the same or similar services; (h) CONTRACTOR provides its own tools, vehicles, and equipment to perform the services; (i) CONTRACTOR has negotiated its own rates; (j) CONTRACTOR set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONTRACTOR has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.
25. If Contractor produces any "web content" pursuant to this Agreement, as that term is defined in section 35.104 of Title 28 of the Code of Federal Regulations, as may be amended, Contractor shall ensure that any such web content is in full compliance with all applicable requirements of the most current version of the Web Content Accessibility Guidelines, the Americans with Disabilities Act, Code of Federal Regulations and/or California law. Contractor shall defend, indemnify, and hold harmless City, its officers, employees, and agents from and against any and all claims, liabilities, damages, or expenses arising out of Contractor's failure to comply with such requirements. This provision shall survive expiration and/or termination of this Agreement.

The supplier named hereon by the acceptance of this order agrees to the provisions of this document titled "Contract Purchase Agreement" and all accompanying terms, conditions, and attachments.

Insurance Submission Process

The City of Roseville Human Resources/Risk Management Department uses a service called EBIX to manage our insurance certificate tracking.

How It Works

- The vendor's contact information is entered into EBIX. EBIX will contact the vendor to request proof of insurance.
- The Vendor can forward the request to their Insurance Agent(s) if necessary.
- Vendor/Insurance Agent submits insurance to EBIX by email to roseville@ebix.com or by fax to (770) 325-5727. After faxing or emailing the certificate, please DO NOT send the certificate by mail to EBIX. Please do not mail, email or fax any certificates to the City of Roseville.
- Once submitted, EBIX reviews the insurance documentation. If there are deficiencies, EBIX will send a follow up letter or email requesting additional information.

Questions Regarding Insurance Submission: Contact EBIX at (951) 652-4239
Questions Regarding Insurance Requirements Contact Risk Management at (916) 774-5202

April, 2022

RE: Contractor and Grantee Compliance with Economic Sanctions Imposed in Response to Russia's Actions in Ukraine

Dear Vendor:

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (EO) regarding sanctions in response to Russian aggression in Ukraine. The EO is located at https://www.gov.ca.gov/wp-content/uploads/2022/03/3.4.22-Russia-Ukraine-Executive-Order.pdf.

The EO directs all agencies and departments that are subject to the Governor's authority to take certain immediate steps, including notifying all contractors and grantees of their obligations to comply with existing economic sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law.

This correspondence serves as a notice under the EO that as a contractor or grantee, compliance with the economic sanctions imposed in response to Russia's actions in Ukraine is required, including with respect to, but not limited to, the federal executive orders identified in the EO and the sanctions identified on the U.S. Department of the Treasury website (https://home.treasury.gov/policy-issues/financial-sanctions/sanctions-programs-and-country-information/ukraine-russia-related-sanctions). Failure to comply may result in the termination of contracts or grants, as applicable.

Please note that for any agreements or grants valued at $5 million or more you must report to the City of Roseville your compliance with economic sanctions including steps you have taken in response to Russia's actions in Ukraine, including, but not limited to, desisting from making new investments in, or engaging in financial transactions with, Russian entities, not transferring technology to Russia or Russian entities, and directly providing support to the government and people of Ukraine.

Sincerely,

Title:	Fiscal Year 2025-26 Year-End Budget Adjustments
Contact:	Jackie Rice 916-774-5326 jrice@roseville.ca.us

SUMMARY

Staff recommends approval of year-end budget adjustments to the Fiscal Year 2025-26 budget to ensure compliance with the annual budget ordinance. The recommended year-end budget adjustments are: (1) Placer County Water Agency wheeling charges, (2) Roseville Housing Authority Housing Choice Voucher and Mainstream Programs, (3) Sierra Vista Specific Plan Area infrastructure reimbursement payment, (4) Internal Revenue Service tax credit payments, and (5) Blue Oaks Boulevard Widening Project funding adjustments.

RECOMMENDATION

Staff recommends that the City Council

1. Adopt an ordinance to approve adjustments to the FY2025-26 budget.
2. Acting as the governing board of the Roseville Housing Authority (RHA), adopt a resolution to approve a budget adjustment for the Housing Authority Choice Voucher and Mainstream Programs.

BACKGROUND

Staff recommends the following adjustments to the FY2025-26 budget:

1. **Placer County Water Agency (PCWA) Wheeling Charges** – This $1,199,615 budget adjustment is requested to increase budgeted revenue for water wheeling services provided to Placer County Water Agency.

2. **Roseville Housing Authority Housing Choice Voucher and Mainstream Programs** – This $3,547,000 budget adjustment is requested to increase revenue and expenditure budgets for the Housing Choice Voucher and Mainstream programs.

3. **Sierra Vista Specific Plan Area** – This budget adjustment appropriates reimbursement revenue received pursuant to the Development Agreement to accelerate construction of a portion of Westbrook Boulevard and related public infrastructure within the Sierra Vista Specific Plan Area. The payment represents an installment toward repayment of infrastructure costs previously advanced by the City.

4. **Internal Revenue Service Tax Credits** – This budget adjustment appropriates approximately $31.27 million in federal clean energy tax credit payments received for wastewater infrastructure and electric vehicle investments. Approximately $31.24 million will be transferred to the South Placer Wastewater Authority to reimburse project costs. The remainder will be used to offset City fleet costs associated with the purchase of electric vehicles.

5. **Blue Oaks Boulevard Widening Project** – This budget adjustment is requested to fund construction of the West Roseville Specific Plan Fiddyment Ranch Blue Oaks Boulevard Widening Project. The project is funded by $4.6 million in Fiddyment Ranch CFD No. 5 bond funds and $5.5 million in Traffic Mitigation Funds.

FISCAL IMPACT

The recommended adjustments to the FY2025-26 budget will result in the changes in the table below. For fund balance reductions, there are adequate resources available in each fund.

Budget Adjustment	Fund	Expenditure Budget Adjustment	Revenue Budget Adjustment	Available Resources Adjustment
1. Placer County Water Agency (PCWA) Wheeling Charges	Water Operations	$ -	$ 1,199,615	$ 1,199,615
2. Roseville Housing Authority Housing Choice Voucher and Mainstream Programs	Housing Choice Voucher	$ 3,517,000	$ 3,517,000	$ -
	Mainstream Vouchers	$ 30,000	$ 30,000	$ -
3. Sierra Vista Specific Plan Area	Strategic Improvement	$ -	$ 1,200,853	$ 1,200,853
	Electric	$ -	$ 976,907	$ 976,907
4. Internal Revenue Service Tax Credits	Wastewater Construction	$ 31,237,247	$ 31,237,247	$ -
	Fleet Services	$ -	$ 37,500	$ 37,500
5. Blue Oaks Boulevard Widening Project	Traffic Mitigation	$ 5,493,744	$ -	$ (5,493,744)
	Fiddyment Ranch CFD 5 Overlay Capital	$ 4,644,052	$ -	$ (4,644,052)

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a

project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378.

Approval of the recommended adjustments to the FY2025-26 budget meets the above criteria and is not subject to CEQA. No additional environmental review is required.

ORDINANCE NO. 7081

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AUTHORIZING CERTAIN AMENDMENTS TO THE FISCAL YEAR 2025-26 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION MEASURE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. The City of Roseville Annual Budget, Fiscal Year 2025-26, is hereby amended as listed on the attached budget adjustments.

SECTION 2. This ordinance is hereby declared to be an appropriation measure, immediately effective pursuant to the provisions of Section 5.03 of the Charter.

SECTION 3. The City Clerk is hereby authorized and directed to post a true copy of the foregoing ordinance in each of three (3) conspicuous locations in the City and she shall immediately after such posting enter in the ordinance book, under the record of the ordinance, a certificate under her hand stating the time and place of such publication by posting.

	3601	00000	000000		
	3601	00000	000000		
			FUND BALANCE TOTAL	(7,922,536)	

Justification for Budget Adjustment:

Staff recommends the following budget adjustments:

On May 3, 2023, the City Council approved a City/Developer Reimbursement Agreement with John Mourier Construction, Inc. (JMC) to accelerate construction of a portion of Westbrook Boulevard and related public infrastructure within the Sierra Vista Specific Plan area. The recommended budget adjustment establishes a budget for reimbursement revenue received from JMC pursuant to the agreement. This payment represents an installment toward repayment of infrastructure costs previously advanced by the City and will be returned to the Electric Fund in the amount of $976,907 and the Strategic Improvement Fund in the amount of $1,200,852.

The recommended budget adjustment appropriates approximately $31.27 million in federal tax credit payments, including interest, received for eligible wastewater infrastructure and electric vehicle investments. Approximately $31,237,247 will be transferred to the South Placer Wastewater Authority to reimburse project costs it funded, and $37,500 will be used to offset City fleet costs associated with the purchase of electric vehicles.

The Development Services Department recommends that Council authorize the establishment of a new Capital Improvement Project- Fiddyment Ranch Blue Oaks Widening Reimbursement (500712) and adopt an ordinance to approve a budget adjustment appropriating $10,137,796 to fund the project. The project is funded by $4,644,052 in Fiddyment Ranch CFD No. 5 bond reserve funds that became available through the replacement of the cash-funded reserve requirement with a surety policy, and $5,493,744 in Traffic Mitigation Funds. On May 20, 2026, the City of Roseville entered into an agreement with JEN California 15 LLC in the amount of $10,137,796 for the construction of the West Roseville Specific Plan Fiddyment Ranch Blue Oaks Boulevard Widening Project. These appropriations will provide the necessary funding to reimburse eligible project costs and support the construction of the roadway widening improvements identified in the agreement.

FUND BALANCE TOTAL				1,199,615	

Justification for Budget Adjustment:

The Environmental Utilities Department is requesting a budget adjustment of $1,199,615 to increase the Wheeling Charges revenue budget.

Unexpected revenues were received from Placer County Water Agency for water wheeling services provided by the Water Utility.

This adjustment increases the revenue budget from $16,000 to $1,215,615, and increases the Water Operations Fund balance by $1,199,615.

Justification for Budget Adjustment:

The Economic Development Department is requesting a budget adjustment of $3,547,000 for the Roseville Housing Authority to increase revenue and expenditure budgets for the Housing Choice Voucher and Mainstream programs. The adjustment is needed to support higher housing assistance payment costs resulting from increased rents and additional project vouchers.

This adjustment increases the Housing Choice Voucher revenue and expenditure budget by $3,517,000, from $10,746,300 to $14,263,300.

The adjustment also increases the Mainstream revenue and expenditure budget by $30,000, from $637,672 to $667,672.

Meeting Date: 6/17/2026
Item #: VII.36
File #: 0203-03
Item ID: 2026-463

Title:	Sodium Hydroxide Solution (BACC 12-2026) - Contract Purchase Agreement
Contact:	Becky Philipp 916-746-1110 bphilipp@roseville.ca.us

SUMMARY

Staff recommends approval of a contract purchase agreement with Univar Solutions USA LLC, doing business as Univar Solutions USA, in the amount of $2,205,000 for the supply and delivery of sodium hydroxide solution for FY2026-27. Sufficient funding is included in the Environmental Utilities and Electric Departments' proposed FY2026-27 budgets for this purchase.

RECOMMENDATION

Staff recommends that the City Council adopt a resolution approving Contract Purchase Agreement (3005348) with Univar Solutions USA LLC, doing business as Univar Solutions USA, in the amount of $2,205,000 for the supply and delivery of sodium hydroxide solution for FY2026-27. Sufficient funding is included in the Environmental Utilities and Electric Departments' proposed FY2026-27 budgets for this purchase.

Staff further recommends that the City Council authorize the City Manager or his or her designee to execute three (3) additional one (1) year renewals without further City Council approval, provided that the applicable budget is approved by the City Council, or until staff determines that continuing with this vendor is not in the best interest of the City.

BACKGROUND

The wastewater treatment plants, water treatment plant, and Roseville Energy Park have ongoing needs for sodium hydroxide solution (caustic soda), which is used to adjust pH and reduce corrosion in water and wastewater treatment processes. The chemical is purchased on an as-needed basis throughout the year.

In February 2026, the City participated in a regional chemical procurement led by the Bay Area Chemical Consortium (BACC), with the Bay Area Clean Water Agency serving as the coordinating agency. BACC is an informal cooperative of Northern California water and wastewater agencies that combines chemical purchases through competitive bidding. By aggregating demand from more than 50 participating agencies, BACC increases purchasing power and achieves cost savings that benefit utility customers.

FISCAL IMPACT

The FY2026-27 not-to-exceed amount is $2,205,000. Funding is included in the Environmental Utilities and Electric Departments' FY2026-27 budgets. Projected spending for the optional renewal years is as follows: FY2027-28, $2,425,500; FY2028-29, $2,668,050; and FY2029-30, $2,935,000.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to

cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)). The hauling and delivery of hazardous substances is regulated by the state. Hazardous material transport consistent with applicable safety regulations should not result in a significant environmental effect. Therefore, the proposed contract purchase agreement does not include the potential for significant environmental effect and is not subject to CEQA.

Contract Terms and Conditions

1. To the fullest extent allowed by law, Contractor shall defend, indemnify, and save and hold harmless City, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of Contractor's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from City's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed. Contractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.
2. Contractor is an independent contractor, and shall not be considered an officer, agent or employee of the City.
3. Without the written consent of the City, this Agreement is not assignable by Contractor either in whole or in part.
4. Time is of the essence of this Agreement.
5. At any time during the term of this Agreement, the City has the right to terminate this Agreement, provided Contractor is given thirty (30) days written notice. City's termination shall be without further liability to City; however, Contractor shall be entitled to all costs reasonably incurred prior to the date of termination. Contractor acknowledges that City may terminate this Agreement should funds not be appropriated by its governing body to continue services under this Agreement.
6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.
7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.
8. Unless notified to the contrary, in writing, the City assumes that the Contractor has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement.
9. All fair employment practices must be adhered to. In addition, if the project referenced on this service agreement is a Public Works project, all prevailing wage laws must be complied with. For prevailing wage contracts over $25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm. In compliance with Labor Code Section 1773.2, as may be amended from time to time, Contractor shall cause a copy of this website to be posted at each jobsite, as applicable.
10. Contractor agrees to the below insurance requirements:
    a. Unless otherwise specified, the Contractor shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance coverage.
    b. Form. Contractor shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management

Docusign Envelope ID: 799BA11F-D91E-8489-8234-E540274FD82E

and the City Attorney.

c. Additional Insureds. Contractor shall also provide a separate endorsement or section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage, except for Workers' Compensation. Such insurance shall specifically cover the contractual liability of Contractor. The additional insured coverage under the Contractor's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office (ISO) CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be:
(1) the minimum coverage and limits specified in this Agreement; or
(2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

d. Cancellation/Modification. Contractor shall provide thirty (30) days written notice to City prior to cancellation or modification of any insurance required by this Agreement.

e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.

f. Subcontractors. Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, Contractor shall require its subcontractors to agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under this Agreement. Additionally, Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

g. Self-Insured Retentions. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

h. Waiver of Subrogation. Contractor hereby agrees to waive subrogation which any insurer of Contractor may acquire from Contractor by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Contractor, its employees, agents and subcontractors.

i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Contractor of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.

11. Contractor shall comply with all federal, state, and local laws and ordinances, including

Docusign Envelope ID: 799BA11F-D91E-8489-8234-E540274FD82E

but not limited to the City's storm water regulations, as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances may result in monetary fines and cancellation of this Agreement. Refer to www.roseville.ca.us/stormwater for links to more information on the City's storm water regulations.

12. In the event that the terms of any attachment or exhibit conflict with any terms of this Agreement, the terms of this Agreement shall control.
13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original hereof.
14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.
16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
17. For purposes of this Agreement, the terms "Contractor," "Consultant," and "Supplier" are used interchangeably.
18. If the project referenced on this agreement is a Public Works project, then the following shall apply: No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
19. Contractor/consultant's duties and services under this agreement shall not include preparing or assisting the public entity with any portion of the public entity's preparation of a request for proposals, request for qualifications, or any other solicitation regarding a subsequent or additional contract with the public entity. The public entity entering this agreement shall at all times retain responsibility for public contracting, including with respect to any subsequent phase of this project. Contractor/consultant's participation in the planning, discussions, or drawing of project plans or specifications, if any, shall be limited to conceptual, preliminary, or initial plans or specifications. Contractor/consultant shall cooperate with the public entity to ensure that all bidders for a subsequent contract on any subsequent phase of this project have access to the same information, including all conceptual, preliminary, or initial plans or specifications prepared by contractor pursuant to this agreement.
20. If the project referenced on this agreement is a Public Works project, then the following shall apply: Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.
21. Contractor certifies that Contractor, its employees, directors, officers, agents,

Docusign Envelope ID: 799BA11F-D91E-8489-8234-E540274FD82E

subcontractors, vendors, and volunteers are not presently debarred, excluded, suspended, declared ineligible, voluntarily excluded, or proposed for debarment, exclusion, suspension, or ineligibility by any federal, state, or local department or agency.

22. The Levine Act (Govt. Code, Section 84308) requires a Party (and its agent(s), if any) to a Proceeding before the City of Roseville that involves any action or consideration related to their contract, license, permit, or other entitlement for use, to disclose any campaign contributions made to City elected or appointed officers totaling more than $500 within the twelve (12) months prior to the City decision and while a proceeding is pending, and includes certain prohibitions on contribution activity thereafter. If applicable campaign contributions have been made by Contractor and/or its agent(s), Contractor is responsible for compliance, including for its disclosure obligations, if any, as further described at: https://www.roseville.ca.us/government/departments/city_clerk/transparency/levine_act.

23. This Agreement may be amended via change order, but only if such change order is made in writing, approved by the City, and signed by both parties.

24. CONTRACTOR agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONTRACTOR and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

    CONTRACTOR and CITY agree that: (a) CONTRACTOR is free from the control and direction of CITY in connection with the performance of the work; (b) CONTRACTOR is providing services directly to CITY; (c) CONTRACTOR has and will maintain at all relevant times a business license; (d) CONTRACTOR maintains a business location that is separate from CITY; (e) CONTRACTOR is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) CONTRACTOR actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) CONTRACTOR advertises and holds itself out to the public as available to provide the same or similar services; (h) CONTRACTOR provides its own tools, vehicles, and equipment to perform the services; (i) CONTRACTOR has negotiated its own rates; (j) CONTRACTOR set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONTRACTOR has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

25. If Contractor produces any "web content" pursuant to this Agreement, as that term is defined in section 35.104 of Title 28 of the Code of Federal Regulations, as may be amended, Contractor shall ensure that any such web content is in full compliance with all applicable requirements of the most current version of the Web Content Accessibility Guidelines, the Americans with Disabilities Act, Code of Federal Regulations and/or California law. Contractor shall defend, indemnify, and hold harmless City, its officers, employees, and agents from and against any and all claims, liabilities, damages, or expenses arising out of Contractor's failure to comply with such requirements. This provision shall survive expiration and/or termination of this Agreement.

The supplier named hereon by the acceptance of this order agrees to the provisions of this document titled "Contract Purchase Agreement" and all accompanying terms, conditions, and attachments.

Insurance Submission Process

The City of Roseville Human Resources/Risk Management Department uses a service called EBIX to manage our insurance certificate tracking.

How It Works

- The vendor's contact information is entered into EBIX. EBIX will contact the vendor to request proof of insurance.
- The Vendor can forward the request to their Insurance Agent(s) if necessary.
- Vendor/Insurance Agent submits insurance to EBIX by email to roseville@ebix.com or by fax to (770) 325-5727. After faxing or emailing the certificate, please DO NOT send the certificate by mail to EBIX. Please do not mail, email or fax any certificates to the City of Roseville.
- Once submitted, EBIX reviews the insurance documentation. If there are deficiencies, EBIX will send a follow up letter or email requesting additional information.

Questions Regarding Insurance Submission: Contact EBIX at (951) 652-4239
Questions Regarding Insurance Requirements Contact Risk Management at (916) 774-5202

RE: Contractor and Grantee Compliance with Economic Sanctions Imposed in Response to Russia's Actions in Ukraine

Dear Vendor:

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (EO) regarding sanctions in response to Russian aggression in Ukraine. The EO is located at https://www.gov.ca.gov/wp-content/uploads/2022/03/3.4.22-Russia-Ukraine-Executive-Order.pdf.

The EO directs all agencies and departments that are subject to the Governor's authority to take certain immediate steps, including notifying all contractors and grantees of their obligations to comply with existing economic sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law.

This correspondence serves as a notice under the EO that as a contractor or grantee, compliance with the economic sanctions imposed in response to Russia's actions in Ukraine is required, including with respect to, but not limited to, the federal executive orders identified in the EO and the sanctions identified on the U.S. Department of the Treasury website (https://home.treasury.gov/policy-issues/financial-sanctions/sanctions-programs-and-country-information/ukraine-russia-related-sanctions). Failure to comply may result in the termination of contracts or grants, as applicable.

Please note that for any agreements or grants valued at $5 million or more you must report to the City of Roseville your compliance with economic sanctions including steps you have taken in response to Russia's actions in Ukraine, including, but not limited to, desisting from making new investments in, or engaging in financial transactions with, Russian entities, not transferring technology to Russia or Russian entities, and directly providing support to the government and people of Ukraine.

Sincerely,

DocuSigned by:

WE ACKNOWLEDGE RECEIVING ADDENDUM/ADDENDA NUMBER 1 **THROUGH** _____.

SPECIFIC DEVIATIONS:

☒ This box must be checked if bidder has any proposed specific deviations. Per Section 2.12 Proposed Deviations from the Specifications by the Bidder, the absence of a proposed changed in the specifications will hold the bidder strictly accountable to the specifications as described in the bid document, including any addendum.

Describe the specific deviations below. A copy of the proposed specifications must be attached to this Standard Agreement at the time of submission, with bidder's name clearly shown on each document.
Any order less than 2,000 gal will be charged an LTL fee of $575.00 per delivery.
If a load is split between multiple sites and the delivery volume is less than 2,000 gal, the LTL fee will be charged to the first delivery.

Please see the attached 2 pages, which lists the Sodium Hydroxide deviations

Description of Emergency Supply Plan: Provide a summary of vendor's plans to continue to supply product in the event of an unexpected disaster or urgent emergency event.
We have our pwn fleet of trucks and drivers, if our facilities are up and running. Municipalities our our first priority.
We have tanks of chemicals at our facilities that can supply chemicals. We also have deep water tanks to pull from. We can pull from Redwood Cityy, Santa Fe Springs, K2, Dow and IMTT Richmond, CA

Re: **BACC Bid No. 12-2026: Deviation from BACC NaOH Specifications**

In accordance with BACC Bid No. 12-2026, Section 2.12, Proposed Deviations from the Specifications by the Bidder, Univar Solutions intends to supply sodium hydroxide solution to BACC meeting the following technical specifications:

UNIVAR SOLUTIONS PRODUCT TECHNICAL SPECIFICATIONS
SODIUM HYDROXIDE, 20% Solution

Characteristics	Units	Minimum	Maximum
Sodium Hydroxide, NaOH	Wt. %	18	22
Sodium Oxide, Na_2O	Wt. %	13.6	17.4
Sodium Chloride, NaCl	PPM	0	100
Sodium Carbonate, Na_2CO_3	Wt. %	0	0.15
Sodium Chlorate, $NaClO_3$	PPM	0	33
Sodium Sulfate, Na_2SO_4	PPM	0	67
Nickel, Ni	PPM	0	0.5 *
Iron, Fe	PPM	0	5 *
Mercury, Hg	PPM	0	2
Specific Gravity		1.21	1.23

* Sodium hydroxide for wastewater treatment applications may contain up to 9 mg/L iron (Fe) and 3 mg/L nickel (Ni)

UNIVAR SOLUTIONS PRODUCT TECHNICAL SPECIFICATIONS
SODIUM HYDROXIDE, 25% Solution

Characteristics	Units	Minimum	Maximum
Sodium Hydroxide, NaOH	Wt. %	23	27
Sodium Oxide, Na_2O	Wt. %	17.4	21.3
Sodium Chloride, NaCl	PPM	0	100
Sodium Carbonate, Na_2CO_3	Wt. %	0	0.15
Sodium Chlorate, $NaClO_3$	PPM	0	42
Sodium Sulfate, Na_2SO_4	PPM	0	83
Nickel, Ni	PPM	0	0.5 *
Iron, Fe	PPM	0	5 *
Mercury, Hg	PPM	0	2
Specific Gravity		1.20	1.35

* Sodium hydroxide for wastewater treatment applications may contain up to 9 mg/L iron (Fe) and 3 mg/L nickel (Ni)

Docusign Envelope ID: 799BA11F-D91E-8489-8234-E540274FD82E

UNIVAR SOLUTIONS PRODUCT TECHNICAL SPECIFICATIONS
SODIUM HYDROXIDE, 30% Solution

Characteristics	Units	Minimum	Maximum

Over the past 15 years, Univar has participated in 100's of Municipal bids, we have listed the 6 projects represent our capabilities in California.

All of our operational personnel participated in making sure all delivery requirements were met to each customer.

Our customer service department takes care of all orders, they communicate with operations and the customer to make sure all requests are satisfied.

We meet 100% of our contractual obligations; any municipality that is under contract with Univar is serviced first if there is a shortage in the market place.

**Highligted bid prices are only to show the apparent low bid and should not be construed as any indication that BACC has accepted such bid as responsive; see bid review for award recommendation.*

Per Section 2.16 Method of Award
Bids may be awarded by the participating BACC agencies to the lowest, responsive, and responsible bidder for each listed region meeting the specifications for bulk loads for the chemical. The lowest responsive bidder for this chemical will be determined for each region listed on the Bid Form. The bidder that meets the specifications and submits the lowest overall bid price for a particular region may be awarded the bid by the participating agencies in that region, assuming the bid is determined by BACC to be complete and in compliance with the bid requirements. The lowest overall bid price for each region will be determined by multiplying the estimated annual quantity for each participating agency within the particular region by the bid prices for the region, and adding up the aggregate cost.

SPECIFIC DEVIATIONS:

☒ This box must be checked if bidder has any proposed specific deviations. Per Section
Proposed Deviations from the Specifications by the Bidder, the absence of a proposed change
the specifications will hold the bidder strictly accountable to the specifications as described in
bid document, including any addendum.

Describe the specific deviations below. A copy of the proposed specifications must be attached to
Standard Agreement at the time of submission, with bidder's name clearly shown on each document
Any order less than 2,000 gal will be charged an LTL fee of $575.00 per delivery.
If a load is split between multiple sites and the delivery volume is less than 2,000 gal, the LT
fee will be charged to the first delivery.

Please see the attached 2 pages, which lists the Sodium Hydroxide deviations

Title:	Sodium Hypochlorite (BACC 13-2026) - Contract Purchase Agreement
Contact:	Becky Philipp 916-746-1110 bphilipp@roseville.ca.us

SUMMARY

Staff recommends approval of a contract purchase agreement with Pioneer Americas LLC, doing business as Olin Finance Company, in the amount of $1,802,000 for the supply and delivery of sodium hypochlorite for FY2026-27. The chemical will be used at the Pleasant Grove Wastewater Treatment Plant, Barton Road Water Treatment Plant, Roseville Energy Park, groundwater well sites, West Side Tank and Pump Station, Johnson Pool, Mike Shellito Pool, and the Roseville Aquatic Complex. Sufficient funding is included in the Environmental Utilities, Electric, and Parks, Recreation and Libraries Departments' proposed FY2026-27 budgets for this purchase.

RECOMMENDATION

Staff recommends that the City Council adopt a resolution approving Contract Purchase Agreement (3005349) with Pioneer Americas LLC, doing business as Olin Finance Company, as the lowest responsive bidder for Bay Area Chemical Consortium (BACC) Bid No. 13-2026 for the supply and delivery of sodium hypochlorite and authorizing the City Manager to execute the agreement on behalf of the City of Roseville.

Staff further requests that the City Council authorize the City Manager or his or her designee to execute three (3) additional one (1) year renewals without further City Council approval, provided that the applicable budget is approved by the City Council, or until staff determines that continuing with this vendor is not in the best interest of the City.

BACKGROUND

The Pleasant Grove Wastewater Treatment Plant, Barton Road Water Treatment Plant, Roseville Energy Park, groundwater well sites, West Side Tank and Pump Station, Johnson Pool, Mike Shellito Pool, and the Roseville Aquatic Complex have ongoing needs for sodium hypochlorite (chlorine), which is used to maintain water quality standards and provide disinfection at these facilities. The chemical is purchased on an as-needed basis throughout the year.

In February 2026, the City participated in a regional chemical procurement led by the Bay Area Chemical Consortium (BACC), with the Bay Area Clean Water Agency serving as the coordinating agency. BACC is an informal cooperative of Northern California water and wastewater agencies that combines chemical purchases through competitive bidding. By aggregating demand from more than 50 participating agencies, BACC increases purchasing power and achieves cost savings that benefit utility customers.

FISCAL IMPACT

The FY2026-27 not-to-exceed amount is $1,802,000. Funding is included in the proposed FY2026-27 Environmental Utilities, Electric, and Parks, Recreation, and Libraries Departments' budgets. Projected

spending for the optional renewal years is as follows: FY2027-28, $1,982,200; FY2028-29, $2,180,420; and FY2029-30, $2,398,462.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)). The hauling and delivery of hazardous substances is regulated by the state. Hazardous material transport consistent with applicable safety regulations should not result in a significant environmental effect. Therefore, the proposed contract purchase agreement does not include the potential for significant environmental effect and is not subject to CEQA.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

1. Ensure a safe and healthy community

Respectfully Submitted,
Becky Philipp, Purchasing Supervisor

Scott Pettingell, Finance Director

Contract Terms and Conditions

1. To the fullest extent allowed by law, Contractor shall defend, indemnify, and save and hold harmless City, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of Contractor's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from City's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed. Contractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.
2. Contractor is an independent contractor, and shall not be considered an officer, agent or employee of the City.
3. Without the written consent of the City, this Agreement is not assignable by Contractor either in whole or in part.
4. Time is of the essence of this Agreement.
5. At any time during the term of this Agreement, the City has the right to terminate this Agreement, provided Contractor is given thirty (30) days written notice. City's termination shall be without further liability to City; however, Contractor shall be entitled to all costs reasonably incurred prior to the date of termination. Contractor acknowledges that City may terminate this Agreement should funds not be appropriated by its governing body to continue services under this Agreement.
6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.
7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.
8. Unless notified to the contrary, in writing, the City assumes that the Contractor has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement.
9. All fair employment practices must be adhered to. In addition, if the project referenced on this service agreement is a Public Works project, all prevailing wage laws must be complied with. For prevailing wage contracts over $25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm. In compliance with Labor Code Section 1773.2, as may be amended from time to time, Contractor shall cause a copy of this website to be posted at each jobsite, as applicable.
10. Contractor agrees to the below insurance requirements:
    a. Unless otherwise specified, the Contractor shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance coverage.
    b. Form. Contractor shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management

and the City Attorney.

c. Additional Insureds. Contractor shall also provide a separate endorsement or section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage, except for Workers' Compensation. Such insurance shall specifically cover the contractual liability of Contractor. The additional insured coverage under the Contractor's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office (ISO) CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be:
(1) the minimum coverage and limits specified in this Agreement; or
(2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

d. Cancellation/Modification. Contractor shall provide thirty (30) days written notice to City prior to cancellation or modification of any insurance required by this Agreement.

e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.

f. Subcontractors. Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, Contractor shall require its subcontractors to agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under this Agreement. Additionally, Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

g. Self-Insured Retentions. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

h. Waiver of Subrogation. Contractor hereby agrees to waive subrogation which any insurer of Contractor may acquire from Contractor by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Contractor, its employees, agents and subcontractors.

i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Contractor of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.

11. Contractor shall comply with all federal, state, and local laws and ordinances, including

but not limited to the City's storm water regulations, as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances may result in monetary fines and cancellation of this Agreement. Refer to www.roseville.ca.us/stormwater for links to more information on the City's storm water regulations.

12. In the event that the terms of any attachment or exhibit conflict with any terms of this Agreement, the terms of this Agreement shall control.
13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original hereof.
14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.
16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
17. For purposes of this Agreement, the terms "Contractor," "Consultant," and "Supplier" are used interchangeably.
18. If the project referenced on this agreement is a Public Works project, then the following shall apply: No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
19. Contractor/consultant's duties and services under this agreement shall not include preparing or assisting the public entity with any portion of the public entity's preparation of a request for proposals, request for qualifications, or any other solicitation regarding a subsequent or additional contract with the public entity. The public entity entering this agreement shall at all times retain responsibility for public contracting, including with respect to any subsequent phase of this project. Contractor/consultant's participation in the planning, discussions, or drawing of project plans or specifications, if any, shall be limited to conceptual, preliminary, or initial plans or specifications. Contractor/consultant shall cooperate with the public entity to ensure that all bidders for a subsequent contract on any subsequent phase of this project have access to the same information, including all conceptual, preliminary, or initial plans or specifications prepared by contractor pursuant to this agreement.
20. If the project referenced on this agreement is a Public Works project, then the following shall apply: Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.
21. Contractor certifies that Contractor, its employees, directors, officers, agents,

subcontractors, vendors, and volunteers are not presently debarred, excluded, suspended, declared ineligible, voluntarily excluded, or proposed for debarment, exclusion, suspension, or ineligibility by any federal, state, or local department or agency.

22. The Levine Act (Govt. Code, Section 84308) requires a Party (and its agent(s), if any) to a Proceeding before the City of Roseville that involves any action or consideration related to their contract, license, permit, or other entitlement for use, to disclose any campaign contributions made to City elected or appointed officers totaling more than $500 within the twelve (12) months prior to the City decision and while a proceeding is pending, and includes certain prohibitions on contribution activity thereafter. If applicable campaign contributions have been made by Contractor and/or its agent(s), Contractor is responsible for compliance, including for its disclosure obligations, if any, as further described at: https://www.roseville.ca.us/government/departments/city_clerk/transparency/levine_act.
23. This Agreement may be amended via change order, but only if such change order is made in writing, approved by the City, and signed by both parties.
24. CONTRACTOR agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONTRACTOR and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

    CONTRACTOR and CITY agree that: (a) CONTRACTOR is free from the control and direction of CITY in connection with the performance of the work; (b) CONTRACTOR is providing services directly to CITY; (c) CONTRACTOR has and will maintain at all relevant times a business license; (d) CONTRACTOR maintains a business location that is separate from CITY; (e) CONTRACTOR is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) CONTRACTOR actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) CONTRACTOR advertises and holds itself out to the public as available to provide the same or similar services; (h) CONTRACTOR provides its own tools, vehicles, and equipment to perform the services; (i) CONTRACTOR has negotiated its own rates; (j) CONTRACTOR set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONTRACTOR has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.
25. If Contractor produces any "web content" pursuant to this Agreement, as that term is defined in section 35.104 of Title 28 of the Code of Federal Regulations, as may be amended, Contractor shall ensure that any such web content is in full compliance with all applicable requirements of the most current version of the Web Content Accessibility Guidelines, the Americans with Disabilities Act, Code of Federal Regulations and/or California law. Contractor shall defend, indemnify, and hold harmless City, its officers, employees, and agents from and against any and all claims, liabilities, damages, or expenses arising out of Contractor's failure to comply with such requirements. This provision shall survive expiration and/or termination of this Agreement.

The supplier named hereon by the acceptance of this order agrees to the provisions of this document titled "Contract Purchase Agreement" and all accompanying terms, conditions, and attachments.

Insurance Submission Process

The City of Roseville Human Resources/Risk Management Department uses a service called EBIX to manage our insurance certificate tracking.

How It Works

- The vendor's contact information is entered into EBIX. EBIX will contact the vendor to request proof of insurance.
- The Vendor can forward the request to their Insurance Agent(s) if necessary.
- Vendor/Insurance Agent submits insurance to EBIX by email to roseville@ebix.com or by fax to (770) 325-5727. After faxing or emailing the certificate, please DO NOT send the certificate by mail to EBIX. Please do not mail, email or fax any certificates to the City of Roseville.
- Once submitted, EBIX reviews the insurance documentation. If there are deficiencies, EBIX will send a follow up letter or email requesting additional information.

Questions Regarding Insurance Submission: Contact EBIX at (951) 652-4239

RE: Contractor and Grantee Compliance with Economic Sanctions Imposed in Response to Russia's Actions in Ukraine

Dear Vendor:

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (EO) regarding sanctions in response to Russian aggression in Ukraine. The EO is located at https://www.gov.ca.gov/wp-content/uploads/2022/03/3.4.22-Russia-Ukraine-Executive-Order.pdf.

The EO directs all agencies and departments that are subject to the Governor's authority to take certain immediate steps, including notifying all contractors and grantees of their obligations to comply with existing economic sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law.

This correspondence serves as a notice under the EO that as a contractor or grantee, compliance with the economic sanctions imposed in response to Russia's actions in Ukraine is required, including with respect to, but not limited to, the federal executive orders identified in the EO and the sanctions identified on the U.S. Department of the Treasury website (https://home.treasury.gov/policy-issues/financial-sanctions/sanctions-programs-and-country-information/ukraine-russia-related-sanctions). Failure to comply may result in the termination of contracts or grants, as applicable.

Please note that for any agreements or grants valued at $5 million or more you must report to the City of Roseville your compliance with economic sanctions including steps you have taken in response to Russia's actions in Ukraine, including, but not limited to, desisting from making new investments in, or engaging in financial transactions with, Russian entities, not transferring technology to Russia or Russian entities, and directly providing support to the government and people of Ukraine.

Sincerely,

DocuSigned by:

2026 BACC Chemical Bid Specific Deviation

BACC Bid 13-2026 – Sodium Hypochlorite

Olin is the largest producer/supplier of bulk sodium hypochlorite to municipal water treatment in North America and the state of California. We have successfully serviced the requirements of most of the BACC membership at one time or another in recent years. Olin looks forward to negotiating with individual BACC members to develop mutually agreeable terms and conditions for sale of sodium hypochlorite. We are committed to try to comply with the inclusive intent of this bid and shall continue to make all good faith efforts to mutually work individually with members of the BACC on servicing their unique requirements if recommended for award of their business. Since there are some individual requirements that are undisclosed or we may be unfamiliar with, if recommended for bid award, we will need to review and assess these case by case with individual members as advised in the bid. These may possibly include such things as follow:

- Unattended deliveries at unmanned sites to be deemed safe and mutually agreed upon case by case.
- Delivery requirements at new or unfamiliar remote sites requiring specialized metering or non-standard bulk delivery equipment requirements to be assessed and agreed upon case by case. Some member sites may not be serviceable by Olin after sites are reviewed and Olin reserves the right to make that determination.
- Product samples, when required for shipments, would need to be mutually agreed upon so as to provide a safe and secure process for samples to be supplied to protect drivers, site attendants and the environment.
- New delivery sites must successfully complete and meet Olin's minimum safety and security requirements site questionnaire prior to first scheduled deliveries.

In addition, we would request consideration of the following issues:

- We would like to see the product specifications consistently align with meeting limits in current published NSF STD 60 and AWWA B-300-18 standards for 12.5 weight % sodium hypochlorite (including: pH of 12-14 to better align with free alkaline limits as noted in the bid; 12.5% AvCl minimum be revised to 11.9% AvCl (which equates to 12.5% NaOCl wt%); AvCl in gpl be removed or revised to match desired AvCl wt% and NaOCl wt%). Product is produced in a continuous manufacturing process to these quality certifications and making product to individual specifications by individual customer is not reasonably possible for standard operations. Our product specification and ISO lab analysis is included in the bid.
- We would request "insoluble matter" be removed from individual COA's reporting as this component is already managed through the "Filtration Limitations" testing noted on page 21. It cannot be analyzed and reported on the COA for every individual load without interrupting

processes and timely delivery of orders. We have SPC data on regular sampling available upon request.

- Acceptance of orders delivered with a min. 72 hours ARO as a standard and 24 hours in emergencies.
- Acceptance of Olin corporate insurance coverages.
    - Note: Olin does not maintain a separate pollution liability policy. The General Liability Policy contains coverage for Time Element/Sudden and Accidental Pollution Liability, and the Auto Liability Policy includes the Pollution Liability Broadened Coverage for Covered Autos (CA 9948).
    - Insurance is Primary and Non-Contributory for Additional Insured's (applies to General Liability & Auto Liability only).
- We request the right by written notice to review and recover increases in the cost of products to Seller due to significant unanticipated increases in prevailing market energy costs effecting the costs of raw materials or finished product. Seller to provide reasonable explanations and independent public documentation for any requested price adjustments.
- **Full Truck-load Bulk Shipments –** Bid pricing submitted is for bulk full truck-load, one-stop deliveries**.** Due to significant cost increases in transportation and fuel costs, additional adjustments for carrier charges for less than truck-load or split shipments may apply individually case by case as follows:
    - **Less than full truck-load shipments –** Short shipments < 2,000 gals. may incur a $500 freight adder per shipment to the bulk delivered unit price upon invoice.
    - **Mini-bulk Shipments –** Shipments <1,500 gals. may incur a $800 freight adder per shipment to the delivered unit price upon invoice.

        - Shipments of < 700 gals. may not physically be safely serviceable by Olin's standard bulk tanker equipment. We can review any case by case. Olin reserves rights for final approval of very small aquatic and remote rural sites like Pt Reyes Station, Oakwood Lake Water well sites , City of Morgan Hill well sites, City of Stockton well sites, City of Turlock well sites, Roseville well sites, City of Morgan Hill well sites, DVC power plant, Contra Costa Water District pump stations, Diablo Water District, Pleasant Hill Aquatic, Yuba City swimming pool, Town of Discovery Bay and Dublin San Ramon Services District Reservoir 1A, 10A and 300B pumpstations. These type deliveries typically require specialized delivery equipment and we cannot safely service and meet min. Olin site safety requirements. If, at Olin's sole discretion, it's determined they can be safely serviceable with standard bulk delivery equipment, there will be a $2,200/ shipment freight surcharge plus stop charges added to base unit pricing per shipment for these specific requirements to cover the high-cost labor-intensive service required.

Item #	BACC RECOMMENDATION
1	Received via bid platform by bid deadline above
2	Bids submitted on forms provided
3	Must include a base unit price for each geographic area
4	Additional charges for "short load" deliveries shown as a standard deviation on bid form
5	References: minimum of 3
6	Product Specification Deviations - if any, proposed specification must be attached
7	Fully Executed Standard Agreement
8	Fully Executed Non-Collusion Affidavit
9	For potable application only: Affidavit of Compliance to AWWA and/or NSF standard or Statement by chemical manufacturer, signed on letterhead attesting to the affidavit's validity or current printout from NSF.org
10	Representative lab analysis of the chemical prepared by reputable outside laboratory or ISO Certified
11	Name /Address of chemical manufacturer
12	Product Bulletin and Typical Properties
13	Safety Data Sheet (SDS)
14	Addendum/Addenda Acknowledgement
15	Third Party Hauler? If applicable, name, address, Affidavit signed by Bidder
16	Specific Deviations Noted

SPECIFIC DEVIATIONS:

☑ This box must be checked if bidder has any proposed specific deviations. Per Section 2.12 Proposed Deviations from the Specifications by the Bidder, the absence of a proposed changed in the specifications will hold the bidder strictly accountable to the specifications as described in the bid document, including any addendum.

Describe the specific deviations below. A copy of the proposed specifications must be attached to this Standard Agreement at the time of submission, with bidder's name clearly shown on each document.

Any order less than 2,000 gal will be charged an LTL fee of $575.00 per delivery.

If a load is split between mutliple sites and the delivery volume is less than 2,000 gal., one LTL fee will be applied.

Price includes Mill Fee

Title:	Roseville Natural Gas Financing Authority – Fiscal Year 2026-27 Budget
Contact:	Teri Quinlan 916-774-5316 tquinlan@roseville.ca.us

SUMMARY

Staff recommends approval of the $16.6 million Roseville Natural Gas Financing Authority (RNGFA) budget for FY2026-27. The RNGFA issued the 2007 Gas Revenue Bonds which financed the prepayment of natural gas used for power generation at the Roseville Energy Park. Approval of the annual budget has no new fiscal impact.

RECOMMENDATION

Staff recommends the City Council, acting as the Roseville Natural Gas Financing Authority, adopt the attached resolution approving the Roseville Natural Gas Financing Authority FY2026-27 budget.

BACKGROUND

The Roseville Natural Gas Financing Authority (RNGFA) budget for FY2026-27 includes a debt service expense budget of $16,546,131, which represents principal and interest payments on the 2007 Gas Revenue Bonds. These bonds financed the prepayment of natural gas used for power generation at the Roseville Energy Park.

FISCAL IMPACT

The budget document provides a financial summary of the revenues and expenses of the RNGFA. Approval of the annual budget has no new fiscal impact.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The FY2026-27 RNGFA budget meets the above criteria and is not subject to CEQA. No additional environmental review is required.

Title:	Enterprise Project Management Software - Budget Adjustment
Contact:	Deanne Baquera 916-774-5157 dmbaquera@roseville.ca.us

SUMMARY

Staff recommends approval of a budget adjustment in the amount of $319,106 for internal labor charges for the Enterprise Project Management Software project. Funding is available proportionally from the nine City funds originally approved to fund the project, including the General Fund.

RECOMMENDATION

Staff recommends that the City Council adopt an ordinance to approve a budget adjustment in the amount of $319,106 for the Enterprise Project Management Software project.

BACKGROUND

On September 3, 2025, the City Council approved a contract purchase agreement with Metafuse Incorporated dba Project Insight for delivery of a citywide enterprise project management solution.

The original project budget included estimates for City staff labor to support implementation and deployment activities over the course of one year. After approval, citywide discussions regarding the project scope led to valuable input and adjustments. These changes required the project team to adapt staffing levels, deliver additional training, and bring on a limited-term employee once the work resumed. As a result, the project is now set for completion in the second quarter of FY2026-27.

With the project's later start, City staff dedicated extra time to implementation, retraining, vendor coordination, and refining the project's scope and design. These additional efforts were not anticipated in the original labor budget. The proposed budget adjustment will ensure that all remaining labor and overhead costs are fully covered, allowing for the successful completion of the project.

FISCAL IMPACT

Estimated labor and vendor costs to complete the project are $319,106 more than available funds. The current project budget is $402,412. With this budget adjustment, the revised project budget will total $721,519.

The project is funded by multiple, so funding is proposed to come proportionally from the following funds: General Fund - 56.60%; Fleet - 1.80%; Facility Rehabilitation – 1.50%; Electric - 15.20%; Water Rehabilitation – 6.70%; Wastewater Rehabilitation - 9.60%; Solid Waste Rehabilitation - 7.60%; Transit -

0.50%; Transportation – 0.50%.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The budget adjustment meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Title:	Customer Relationship Management Project - Budget Adjustment
Contact:	Deanne Baquera 916-774-5157 dmbaquera@roseville.ca.us

SUMMARY

Staff recommends approval of a budget adjustment in the amount of $261,374 for internal labor costs for the Customer Relationship Management project. Funding is available in the Information Technology Operations Fund budget.

RECOMMENDATION

Staff recommends that the City Council adopt a resolution to approve a budget adjustment in the amount of $261,374 for the Customer Relationship Management project.

BACKGROUND

On September 7, 2022, the City Council approved the Customer Relationship Management (CRM) capital improvement project to modernize and streamline resident service requests, improve internal workflows, and enhance communication between the City and the community. The project also incorporates suggestive AI and online chat features that further enhance customer service, improves response efficiency, and provides residents with more accessible and intuitive ways to engage with the City.

The City entered into an agreement with Granicus, formerly Rock Solid Technology, Inc., to provide CRM software and implementation services. The project scope included system configuration, data migration, integration with existing City systems, and deployment of a unified customer service platform, which went live May 2025.

During the integration phase, Granicus (Rock Solid) faced some delivery challenges that extended the timeline for key project components by approximately one year. In response, the Information Technology Department dedicated more internal labor hours to ensure the project's continued progress and successful implementation, resulting in higher than anticipated IT labor costs being charged to the project.

This one-time budget adjustment is designed to account for these additional IT labor costs and facilitate the final closeout of the project.

FISCAL IMPACT

The one-year delay added $261,374 in extra Information Technology labor costs billed to the project. Funding is available in the IT Operations Fund to fully fund the project.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The budget adjustment meets the above criteria and is not subject to CEQA. No additional environmental review is required.

Justification for Budget Adjustment:

The Information Technology Department is requesting a budget adjustment of $261,374 to increase the budget for the Customer Relationship Management project (500132) to cover additional labor costs. Once the adjustment is made, the project will be ready to be closed.

The current project budget is $701,811. With this adjustment, the revised project budget will total $963,185. Adequate resources are available in the IT Operations Fund.

Title:	On-Call Transportation Impact Studies - Professional Services Agreements
Contact:	Stacie Marchetti 916-774-5278 smarchetti2@roseville.ca.us

SUMMARY

Staff recommends approval of three (3) professional services agreements with (1) DKS Associates, (2) Fehr & Peers, and (3) Kimley-Horn and Associates, Inc., for On-Call Transportation Impact Studies. The agreements include an annual not-to-exceed limit of $500,000 per contract. Funding is included in the Development Services Department's Full Cost-Consolidated Billing Project(s) budget and is fully recoverable through project applicant funding. Staff also recommends authorization for the City Manager to execute future amendments to extend the agreements for up to four (4) additional one (1) year renewal terms on behalf of the City. All development projects are required to pay the full cost of traffic impact studies prior to the City authorizing work to begin, resulting in no net fiscal impact on the General Fund.

RECOMMENDATION

Staff recommends that the City Council adopt three (3) resolutions to approve Professional Services Agreements with (1) DKS Associates, (2) Fehr & Peers, and (3) Kimley-Horn and Associates, Inc., for On-Call Transportation Impact Studies and authorize the City Manager to execute the agreements on behalf of the City of Roseville.

Staff additionally requests authority for the City Manager or his designee to execute up to four (4) additional one (1) year renewals without further City Council approval, provided that the applicable budget is approved by the City Council, or until staff determines that continuing with this consultant is not in the best interest of the City.

BACKGROUND

New development projects are often required to evaluate impacts to the City's transportation network during the entitlement and environmental review process, depending on the size and scope of the development project proposed. If a traffic impact study is deemed necessary, staff solicits a scope of work and not-to-exceed cost from the City's on-call transportation impact consulting firms, which are reviewed and approved by staff, then forwarded to the project applicant for review and approval. Once the scope is approved by all parties, the applicant is required to pay the entire not-to-exceed cost of the study before the study is authorized to begin by the City.

The City's current on-call transportation impact study agreements expire on June 30, 2026. To ensure business continuity, the City issued a competitive Request for Proposals (RFP) for on-call transportation impact studies on February 19, 2026. Seven (7) firms submitted proposals in response to the RFP, and three (3) firms, consisting of (1) DKS Associates, (2) Fehr & Peers, and (3) Kimley-Horn and Associates, Inc., ranked highest based on experience and qualifications, project understanding, service approach, and cost. Consistent with best and past practices, three (3) separate firms will be engaged to reduce potential conflicts of interest that may arise from existing or future contractual relationships with other private

entities, including developers and development interests.

If approved, the initial terms of the agreements will commence on July 1, 2026, and expire on June 30, 2027. The agreements authorize the City Manager to extend each agreement in one-year increments for up to an additional four (4) years. All costs associated with on-call transportation impact studies must be agreed upon by all parties and paid in full by the project applicant prior to the City authorizing work to begin.

FISCAL IMPACT

The contracts with DKS Associates, Fehr & Peers, and Kimley-Horn and Associates, Inc. shall not exceed $500,000 per fiscal year for each agreement. Funding for these professional services is included in the Development Services Department's Full Cost-Consolidated Billing Project(s) budget. All development projects are required to pay the full cost of traffic impact studies prior to the City authorizing work to begin, resulting in no net fiscal impact on the General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)). No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

ON-CALL PROFESSIONAL SERVICES AGREEMENT

On-Call Transportation Impact Studies

THIS AGREEMENT is made and entered into this ___ day of _____, 20__, by and between the City of Roseville, a municipal corporation ("CITY"), and DKS Associates, a California corporation ("CONSULTANT"); and

W I T N E S S E T H:

WHEREAS, CITY issued Request for Proposal # 06-0010 for professional services consisting of on-call transportation impact studies services; and

WHEREAS, CONSULTANT has prepared a response to the Request for Proposal dated March 24, 2026, which describes the scope of services to be performed by CONSULTANT, and the hourly rates for performance of such services; and

WHEREAS, CONSULTANT is qualified and experienced to provide professional transportation impact studies services on an on-call basis.

NOW, THEREFORE, the parties agree as follows:

1. Term. The term of this Agreement shall commence upon execution and expire on June 30, 2027. The City Manager may, in his or her discretion, elect to extend the Agreement in one (1) year increments for up to an additional four (4) years by giving CONSULTANT thirty (30) days advance written notice of each optional one (1) year renewal. Such extensions shall be memorialized by a written amendment to this Agreement.

2. Services. CONSULTANT shall perform, at the direction of CITY, the scope of the on-call services as described in EXHIBIT "A," attached hereto and incorporated herein by this reference. Individual tasks will be awarded by CITY on an as-needed basis. CITY may assign work to one, or more than one consultant from an approved qualified list. CITY reserves the right to unilaterally assign work to any consultant as it deems prudent or, if no services are required, no work. CITY makes no specific guarantee of a minimum or maximum number of hours or amount of tasks or services, which shall be required of any single consultant. In addition, the inclusion of any consultant on any qualified list, if so utilized by CITY, shall in no way be considered an exclusive agreement to provide service for CITY.

3. Compensation. For its services provided hereunder, CONSULTANT shall be compensated on a time and expense basis in accordance with the hourly rates as described in EXHIBIT "B," attached hereto and incorporated herein by this reference. Any proposed increase in the effective rates for future services must be preceded by at least a 90-day written notice to the contracting department. Total compensation shall not exceed five hundred thousand dollars ($500,000) for the initial term. Total compensation for optional renewal years of this Agreement shall not exceed five hundred thousand dollars ($500,000). Total compensation for the initial term and all optional renewal years shall not exceed two million, five hundred thousand dollars ($2,500,000). Adjustment to the total compensation per year shall require a written amendment to this Agreement, subject to approval by the City Council.

CONSULTANT shall submit one monthly invoice for its services. Such invoices shall be delineated by task, the person performing the services, and the hourly rate, which shall be stated in time increments of not greater than one tenth (1/10) hours. CITY shall pay invoices within

thirty (30) days after receipt, if the services specified in the invoice have been satisfactorily completed.

4. Indemnification. To the fullest extent allowed by law, CONSULTANT shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of CONSULTANT's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

CONSULTANT agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONSULTANT and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

CONSULTANT's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

5. Insurance. CONSULTANT agrees to continuously maintain, in full force and effect, the following minimum policies of insurance during the term of this Agreement.

COVERAGE	LIMITS OF LIABILITY
Workers' Compensation	Statutory
Commercial General Liability	$1,000,000 each occurrence $2,000,000 aggregate Personal Injury: $1,000,000 each occurrence $2,000,000 aggregate
Automobile Liability	$1,000,000 combined single limit
Professional Liability (errors and omissions)	$1,000,000 per claim $2,000,000 aggregate

a. Form. CONSULTANT shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. CONSULTANT shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of CONSULTANT. The additional insured coverage under the CONSULTANT's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and

limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. CONSULTANT shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Subcontractors. CONSULTANT agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, CONSULTANT shall require its subcontractors to agree to be bound to CONSULTANT and CITY in the same manner and to the same extent as CONSULTANT is bound to CITY under this Agreement. Additionally, CONSULTANT shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of CITY's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

f. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full

certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

g. Waiver of Subrogation. CONSULTANT hereby agrees to waive subrogation which any insurer of CONSULTANT may acquire from CONSULTANT by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all worked performed by CONSULTANT, its employees, agents and subcontractors.

h. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve CONSULTANT of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

6. Records. CONSULTANT and its subcontractors shall maintain all files and records relating to the services performed hereunder during the term of this Agreement and for a period of not less than one (1) year after the date of termination or expiration. Provided, however, that in the event of litigation or settlement of claims arising from the performance of this Agreement, CONSULTANT and its subcontractors shall maintain all files and records until such litigation, appeals or claims are resolved. Duly authorized representatives of CITY shall have right of access during normal business hours and after reasonable notice to CONSULTANT's and subcontractors' files and records relating to the services performed hereunder and may review and copy the files and records at appropriate stages during performance of the services and during the one (1) year period following termination or

expiration of this Agreement. CONSULTANT shall include this provision in its contracts with all subcontractors.

7. Prevailing Wages. When applicable, for purposes of this Agreement, CONSULTANT and its subcontractors shall comply with all applicable prevailing wage laws, e.g., but not limited to, California Labor Code Sections 1770 et seq. In accordance with said Section 1775, CONSULTANT shall forfeit as a penalty to the City two hundred dollars ($200) for each calendar day or portion thereof for each worker paid less than the prevailing rates for such work or craft in which such worker is employed for any work done on-site under the Agreement by CONSULTANT or by any subcontractor in violation of the provisions of the Labor Code and in particular, Labor Code Sections 1770 to 1780, inclusive. In addition to said penalty and pursuant to said Section 1775, the difference between such stipulated prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the stipulated prevailing wage shall be paid to each worker by CONSULTANT or the applicable subcontractor.

Pursuant to the provisions of California Labor Code Section 1773, the contracting department has identified the source, stated below, of the general prevailing rate of wages applicable to the site to be done, for straight time, overtime, and holiday work. The holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of the particular craft, classification or type of worker concerned. These wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm.

Pursuant to Labor Code Section 1773.2, general prevailing wage rates set forth above, which forms a part of this Agreement, shall be posted by CONSULTANT at a prominent place at

the work site. Prevailing wage rates to be posted at the work site will be furnished by the contracting department. The possibility of wage increases is one of the elements to be considered by CONSULTANT in determining its proposal and will not under any circumstances be considered as the basis of a claim against CITY or the Agreement.

8. Contractor Registration. No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this Agreement, CONSULTANT and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. CONSULTANT is hereby notified that this Agreement is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

9. Time is of the Essence. Time is of the essence of this Agreement.

10. Compliance with Laws. CONSULTANT shall comply with all federal, state and local laws, ordinances and policies as may be applicable to the performance of services under this Agreement.

11. Public Contracts: Conflicts of Interest. CONSULTANT's duties and services under this Agreement shall not include preparing or assisting CITY with any portion of the CITY's preparation of a request for proposals, request for qualifications, or any other solicitation regarding a subsequent or additional contract with CITY. CITY shall at all times retain responsibility for public contracting, including with respect to any subsequent phase of this project. CONSULTANT's participation in the planning, discussions, or drawing of project plans or specifications shall be limited to conceptual, preliminary, or initial plans or specifications. CONSULTANT shall cooperate with CITY to ensure that all bidders for a subsequent contract on any subsequent phase of this project have access to the same information, including all

conceptual, preliminary, or initial plans or specifications prepared by CONSULTANT pursuant to this Agreement.

12. Ability to Perform. CONSULTANT agrees and represents that it has the time, ability and professional expertise to perform the services required under this Agreement.

13. Governing Agreement. In the event of any conflict between this Agreement and its EXHIBITS, the provisions of this Agreement shall govern. In the event of any conflict between any of the EXHIBITS, the provisions of the first in order of attachment shall govern.

14. Assignment. CONSULTANT is employed to perform unique personal services. CONSULTANT shall not assign this Agreement without the prior written consent of CITY. CONSULTANT shall not employ or otherwise incur any obligation to pay other specialists or experts for services in connection with this Agreement, without prior written consent of CITY.

15. Independent Contractor. CONSULTANT, inclusive of its agents, officers, employees, volunteers, independent contractors, and subcontractors, shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

CONSULTANT and CITY agree that: (a) CONSULTANT is free from the control and direction of CITY in connection with the performance of the work; (b) CONSULTANT is providing services directly to CITY; (c) CONSULTANT has and will maintain at all relevant times a business license; (d) CONSULTANT maintains a business location that is separate from CITY; (e) CONSULTANT is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) CONSULTANT actually contracts with other businesses to provide the same or

similar services and maintains a clientele without restrictions from CITY; (g) CONSULTANT advertises and holds itself out to the public as available to provide the same or similar services; (h) CONSULTANT provides its own tools, vehicles, and equipment to perform the services; (i) CONSULTANT has negotiated its own rates; (j) CONSULTANT set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONSULTANT has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

16. Representations and Warranties. CONSULTANT warrants that it has not employed or retained any company or person, other than a bona fide employee working for CONSULTANT, to solicit or secure this Agreement, and that it has not paid or agreed to pay any company or person, other than a bona fide employee, any fee, commission, percentage, brokerage fee, gift or any other consideration, contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, CITY shall have the right to terminate as void this Agreement, without liability, or, in its discretion, to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such fee, commission, percentage, brokerage fee, gift or contingent fee.

17. Successors in Interest. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

18. Copyright, Ownership and Use of Materials. All tangible material ("Material") created or delivered pursuant to this Agreement is considered a work made for hire under the Copyright Act. To the extent such Material does not qualify as a work made for hire, CONSULTANT hereby assigns to CITY all right, title, and interest, including but not limited to all copyrights, in all Material created by CONSULTANT in its performance under this

Agreement. Material constitutes the scope of work outlined in Exhibit A and attached hereto, and all written and other tangible expressions, including but not limited to, drawings (including computer aided drawings), papers, documents, reports, surveys, renderings, exhibits, sketches, maps, models, prints, paintings or photographs, in any and all media or formats in which such materials have been created or are maintained. All Material furnished by CONSULTANT is, and shall remain, the property of CITY.

CONSULTANT shall execute any documents necessary to effectuate such assignment. In the event that CONSULTANT uses, employs, designates, or retains any person or entity who is not an employee of CONSULTANT, to perform any work required of it pursuant to this Agreement, CONSULTANT shall require said person or entity to execute an agreement containing the preceding paragraph.

19. Termination of Agreement. CITY may terminate this Agreement without cause by giving CONSULTANT ten (10) days advance written notice from the City Manager. CONSULTANT may terminate this Agreement without cause by giving CITY thirty (30) days advance written notice. CONSULTANT understands that continuation of this Agreement past June 30th of any given year is contingent upon appropriation of funds for such purpose in the budget of the City of Roseville in the sole discretion of the City Council. In the event of termination through no fault of CONSULTANT, CITY shall compensate CONSULTANT for services performed as of the date of termination, upon the release to CITY of all Material hereunder, in any and all media or formats in which such materials have been created or are maintained. CITY retains the right to receive and use any MATERIAL, notwithstanding any termination or any dispute regarding the amount to be paid.

20. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance hereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

21. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

22. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

23. Notices. Any notices to parties required by this Agreement shall be delivered personally or mailed, U.S. first class postage prepaid, addressed as follows:

CITY OF ROSEVILLE	CONSULTANT
Development Services Department Attn: Mike Isom 311 Vernon Street Roseville, CA 95678	DKS Associates Attn: John Bosket 428 J Street, Suite 340 Sacramento, CA 95814

Either party may amend its address for notice by giving notice to the other party in writing.

24. Integrated Agreement. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ___ day of _____, 20__, and CONSULTANT has caused this Agreement to be executed.

EXHIBIT “A”

PROJECT UNDERSTANDING

UNDERSTANDING THE CITY'S NEEDS

DKS has supported the City of Roseville for more than 25 years, providing transportation impact analysis, travel demand modeling, operations analysis, corridor studies, ITS implementation, and public outreach. Through this experience, we understand the City's expectations for timely, objective, and cost-effective transportation studies that support development while protecting the City's transportation system and community character.

The City relies on its on-call consultants to serve as an extension of staff—providing technically sound, defensible analyses; maintaining consistency with City standards and guidelines; and supporting a collaborative, solution-oriented development review process. We understand the importance of balancing thorough analysis with efficient project delivery to avoid unnecessary delays or costs.

APPROACH TO MEETING THE CITY'S NEEDS

We will work closely with City staff at the outset of each task order to define the appropriate study type (short-term or long-term), confirm assumptions, and establish a clear scope, schedule, and budget. Our familiarity with the City's procedures allows us to initiate work quickly and avoid unnecessary iteration.

KEY TECHNICAL STRENGTHS

DKS brings extensive expertise in all aspects of transportation impact studies, including:

- **Travel demand forecasting:** Deep experience with SACOG's SACSIM model and regional modeling tools, enabling efficient and accurate project forecasting.
- **Traffic operations and simulation:** Advanced use of microsimulation and analytical tools to evaluate complex roadway and intersection operations.
- **Signal timing and operations analysis:** Nationally recognized expertise in level of service analysis and signal system optimization.
- **CEQA and SB 743 compliance:** Preparation of defensible VMT analyses and environmental documentation consistent with current guidance and case law.
- **Multimodal planning and design:** Integration of bicycle, pedestrian, transit, and complete streets considerations into all analyses.
- **Data collection and GIS analysis:** Use of advanced data collection methods and spatial analysis to support accurate and efficient studies.

MAJOR CHALLENGES AND SPECIAL CONSIDERATIONS

Based on our experience with the City and similar projects, key challenges include:

- **Balancing development review timelines with analytical rigor,** particularly for complex or phased projects
- **Applying SB 743 VMT requirements consistently** across project types while aligning with City thresholds and policies
- **Maintaining consistency** between travel demand model outputs and localized operational analyses
- **Coordinating assumptions across multiple stakeholders**, including City staff, applicants, and regional agencies
- **Avoiding rework due to changing project assumptions**, which can affect schedule and cost

DKS addresses these challenges through early coordination, clear documentation of assumptions, and ongoing communication with City staff throughout each study.

UNIQUE STRENGTHS

DKS offers several unique advantages for this on-call contract:

- **Long-standing relationship with the City**, allowing immediate productivity without a learning curve.
- **Public-sector-only practice in the Sacramento region**, eliminating potential conflicts of interest and reinforcing objectivity.
- **Direct involvement in development of regional travel demand models**, including SACSIM.
- **Strong communication and visualization capabilities,** enabling clear presentation of complex technical information to decision-makers and the public.
- **Proven ability to deliver defensible, practical, and cost-effective studies** that support both City goals and successful project outcomes.

PROJECT PLAN

"Project Manager [Josh Pilachowski] is committed to this project; he offers direction and advice before I can even think to ask for it! ... I'm confident this project will continue to be a success through the very end."

- Sarah Poe, Senior Planner, SacRT Safe Routes to Transit

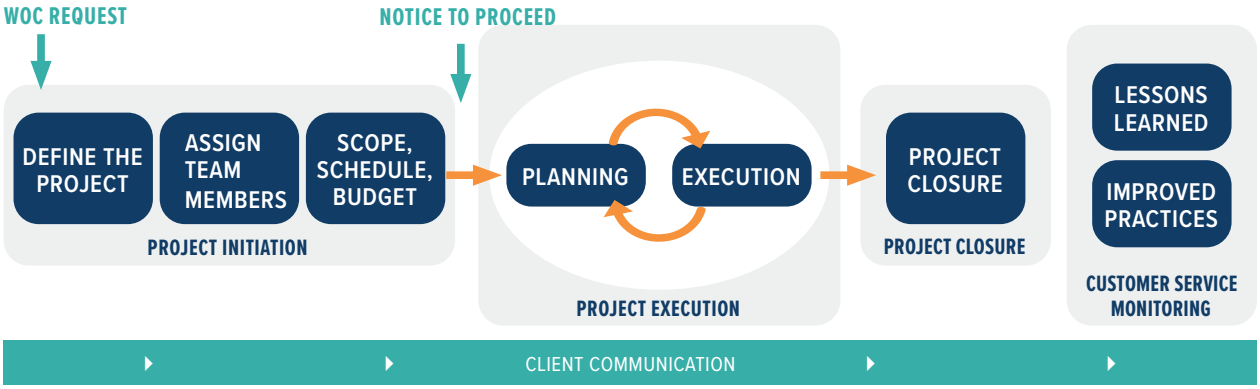
APPROACH TO SERVICES

DKS understands the City of Roseville's expectations for timely, high-quality on-call transportation impact studies. With over 20 years of experience supporting the City, we are familiar with applicable procedures, standards, and guidelines, allowing us to initiate work efficiently without a learning curve. We work closely with City staff to define a clear, cost-effective scope, schedule, and budget tailored to each project. This approach will be applied, as appropriate, to both short-term and long-term traffic studies.

PROJECT MANAGEMENT AND STAFFING

DKS is organized to provide responsive, high-quality support for each task order. Josh Pilachowski will lead overall coordination as On-Call Manager and serve as the City's primary point of contact. Jim Damkowitch, serving as Principal-in-Charge and QA/QC Manager, will provide senior oversight to help ensure that all work products are thorough, consistent, and aligned with quality expectations. Ben Stabler will provide senior advisory support.

Project assignments will be matched to the specific technical needs of each effort. Key staff roles include David Tokarski for travel demand modeling, Josh Pilachowski for engineering and safety studies, and Udit Molakatalla for CEQA/VMT analysis. Additional support will be provided by staff such as John Gibb and Sean Carney, whose technical expertise will supplement the core team as needed.



All work will be completed by DKS personnel, and no subconsultants are anticipated.

METHODOLOGY

DKS tailors each study to project-specific conditions in coordination with City staff. Key elements of our approach include:

- Determining if cumulative analysis is needed
- Confirming study area limits, study intersections/ segments, and analysis assumptions
- Evaluating the need for travel demand modeling versus other forecasting methods
- Assessing site access, circulation, and local roadway operations
- Applying appropriate level of service and queuing methodologies
- Conducting CEQA VMT analysis consistent with SB 743, including identification of mitigation strategies where applicable

We use industry-standard tools including travel demand models, microsimulation, Synchro/SimTraffic, and MMLOS methodologies to evaluate safety, operations, VMT, and multimodal performance.

TYPICAL WORK PLAN AND SCHEDULE

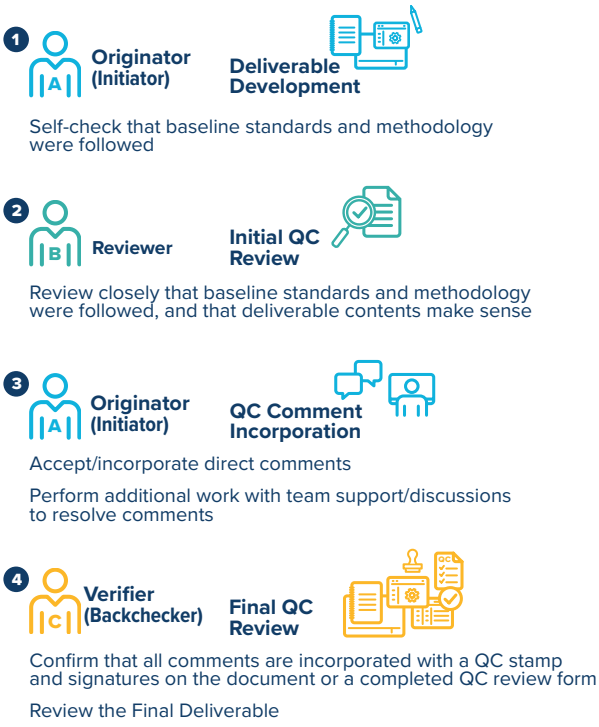
DKS will develop a project-specific work plan for each task order. A typical schedule for a TIA includes:

- **Draft scope, schedule, and budget:** within two to three weeks of request
- **Kickoff meeting:** within one week of notice to proceed
- **Data review and assumptions memorandum:** within two to four weeks of receiving project information
- **Trip Generation/Distribution memorandum:** within three to four weeks of receiving project information
- **Draft forecasts and analysis results:** within six to twelve weeks of agreement on assumptions
- **Administrative draft report:** within eight to fourteen weeks of agreement on assumptions, unless project complexity requires a longer analysis period
- **Final report:** within two weeks of receiving City comments

Small projects, such as single-parcel developments with limited complexity, would generally fall at the shorter end of these schedule ranges. Larger projects, such as multi-developer studies, uncommon land use types, or projects with complex access requirements, would typically fall toward the upper end. The specific schedule for each task order will be discussed during the initial scoping phase.

EQUIPMENT AND RESOURCES

DKS maintains all necessary equipment and software to complete traffic studies, including travel demand modeling platforms, traffic operations software, and data analysis tools. Staff are trained in current methodologies, including SB 743 VMT analysis. No special installation services are required.



QUALITY CONTROL AND COMMUNICATION

DKS employs a structured project management approach to ensure on-time and within-budget delivery, including:

- Weekly internal coordination meetings
- Ongoing budget and schedule tracking
- Bi-weekly communication with City staff
- Senior-level QA/QC review for all deliverables

Our approach, illustrated below, ensures transparency, minimizes rework, and maintains alignment with City expectations.

COST PROPOSAL

DKS will invoice monthly for work completed on a time-and-materials basis, with not-to-exceed amounts and scopes established for each authorized task order. Hourly billing rates for DKS team members are based on the attached 2026 Fee Schedule. Reimbursable expenses will be billed at cost and may include transportation, subsistence, delivery/postage, reproduction/printing, and other direct project expenses. Billing rates are subject to annual escalation.

Billing rates and roles of key staff are provided below. A summary of DKS's hourly rates by staff classification are provided on the next page:

Title | Key Staff	2026 HOURLY RATES
Principal | Jim Damkowitch	$335
Principal | Ben Stabler, GISP	$325
Senior Project Manager | Udit Molakatalla, TE	$330
Senior Project Manager | Josh Pilachowski, PhD, TE, RSP1	$280
Senior Planner | John Gibb, PE	$290
Senior Planner | David Tokarski	$255
Senior Planner | Sean Carney, TE	$250

Fee Schedule

Effective January 1, 2026 through December 31, 2026

RESOLUTION NO. 26-201

APPROVING AN ON-CALL PROFESSIONAL SERVICES AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND FEHR & PEERS, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, an On-Call Professional Services Agreement for On-Call Transportation Impact Studies, by and between the City of Roseville and Fehr & Peers, has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said professional services agreement is hereby approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

BE IT FURTHER RESOLVED, that the City Manager or his designee is authorized to execute four (4) additional one (1) year renewals without further City Council approval, provided that the applicable budget is approved by the City Council, or until staff determines that continuing with this consultant is not in the best interest of the City.

PASSED AND ADOPTED by the Council of the City of Roseville this ___ day of _____, 2026, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

_____
MAYOR

ATTEST:

_____
City Clerk

ON-CALL PROFESSIONAL SERVICES AGREEMENT

On-Call Transportation Impact Studies

THIS AGREEMENT is made and entered into this ___ day of _____, 20__, by and between the City of Roseville, a municipal corporation ("CITY"), and Fehr & Peers, a California corporation ("CONSULTANT"); and

W I T N E S S E T H:

WHEREAS, CITY issued Request for Proposal # 06-0010 for professional services consisting of on-call transportation impact studies services; and

WHEREAS, CONSULTANT has prepared a response to the Request for Proposal dated March 24, 2026, which describes the scope of services to be performed by CONSULTANT, and the hourly rates for performance of such services; and

WHEREAS, CONSULTANT is qualified and experienced to provide professional transportation impact studies services on an on-call basis.

NOW, THEREFORE, the parties agree as follows:

1. Term. The term of this Agreement shall commence upon execution and expire on June 30, 2027. The City Manager may, in his or her discretion, elect to extend the Agreement in one (1) year increments for up to an additional four (4) years by giving CONSULTANT thirty (30) days advance written notice of each optional one (1) year renewal. Such extensions shall be memorialized by a written amendment to this Agreement.

2. Services. CONSULTANT shall perform, at the direction of CITY, the scope of the on-call services as described in EXHIBIT "A," attached hereto and incorporated herein by this reference. Individual tasks will be awarded by CITY on an as-needed basis. CITY may assign work to one, or more than one consultant from an approved qualified list. CITY reserves the right to unilaterally assign work to any consultant as it deems prudent or, if no services are required, no work. CITY makes no specific guarantee of a minimum or maximum number of hours or amount of tasks or services, which shall be required of any single consultant. In addition, the inclusion of any consultant on any qualified list, if so utilized by CITY, shall in no way be considered an exclusive agreement to provide service for CITY.

3. Compensation. For its services provided hereunder, CONSULTANT shall be compensated on a time and expense basis in accordance with the hourly rates as described in EXHIBIT "B," attached hereto and incorporated herein by this reference. Any proposed increase in the effective rates for future services must be preceded by at least a 90-day written notice to the contracting department. Total compensation shall not exceed five hundred thousand dollars ($500,000) for the initial term. Total compensation for optional renewal years of this Agreement shall not exceed five hundred thousand dollars ($500,000). Total compensation for the initial term and all optional renewal years shall not exceed two million, five hundred thousand dollars ($2,500,000). Adjustment to the total compensation per year shall require a written amendment to this Agreement, subject to approval by the City Council.

CONSULTANT shall submit one monthly invoice for its services. Such invoices shall be delineated by task, the person performing the services, and the hourly rate, which shall be stated in time increments of not greater than one tenth (1/10) hours. CITY shall pay invoices within

thirty (30) days after receipt, if the services specified in the invoice have been satisfactorily completed.

4. Indemnification. To the fullest extent allowed by law, CONSULTANT shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of CONSULTANT's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

CONSULTANT agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONSULTANT and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

CONSULTANT's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

5. Insurance. CONSULTANT agrees to continuously maintain, in full force and effect, the following minimum policies of insurance during the term of this Agreement.

COVERAGE	LIMITS OF LIABILITY
Workers' Compensation	Statutory
Commercial General Liability	$1,000,000 each occurrence $2,000,000 aggregate Personal Injury: $1,000,000 each occurrence $2,000,000 aggregate
Automobile Liability	$1,000,000 combined single limit
Professional Liability (errors and omissions)	$1,000,000 per claim $2,000,000 aggregate

a. Form. CONSULTANT shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. CONSULTANT shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of CONSULTANT. The additional insured coverage under the CONSULTANT's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and

limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. CONSULTANT shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Subcontractors. CONSULTANT agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, CONSULTANT shall require its subcontractors to agree to be bound to CONSULTANT and CITY in the same manner and to the same extent as CONSULTANT is bound to CITY under this Agreement. Additionally, CONSULTANT shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of CITY's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

f. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full

certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

g. Waiver of Subrogation. CONSULTANT hereby agrees to waive subrogation which any insurer of CONSULTANT may acquire from CONSULTANT by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all worked performed by CONSULTANT, its employees, agents and subcontractors.

h. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve CONSULTANT of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

6. Records. CONSULTANT and its subcontractors shall maintain all files and records relating to the services performed hereunder during the term of this Agreement and for a period of not less than one (1) year after the date of termination or expiration. Provided, however, that in the event of litigation or settlement of claims arising from the performance of this Agreement, CONSULTANT and its subcontractors shall maintain all files and records until such litigation, appeals or claims are resolved. Duly authorized representatives of CITY shall have right of access during normal business hours and after reasonable notice to CONSULTANT's and subcontractors' files and records relating to the services performed hereunder and may review and copy the files and records at appropriate stages during performance of the services and during the one (1) year period following termination or

expiration of this Agreement. CONSULTANT shall include this provision in its contracts with all subcontractors.

7. Prevailing Wages. When applicable, for purposes of this Agreement, CONSULTANT and its subcontractors shall comply with all applicable prevailing wage laws, e.g., but not limited to, California Labor Code Sections 1770 et seq. In accordance with said Section 1775, CONSULTANT shall forfeit as a penalty to the City two hundred dollars ($200) for each calendar day or portion thereof for each worker paid less than the prevailing rates for such work or craft in which such worker is employed for any work done on-site under the Agreement by CONSULTANT or by any subcontractor in violation of the provisions of the Labor Code and in particular, Labor Code Sections 1770 to 1780, inclusive. In addition to said penalty and pursuant to said Section 1775, the difference between such stipulated prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the stipulated prevailing wage shall be paid to each worker by CONSULTANT or the applicable subcontractor.

Pursuant to the provisions of California Labor Code Section 1773, the contracting department has identified the source, stated below, of the general prevailing rate of wages applicable to the site to be done, for straight time, overtime, and holiday work. The holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of the particular craft, classification or type of worker concerned. These wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm.

Pursuant to Labor Code Section 1773.2, general prevailing wage rates set forth above, which forms a part of this Agreement, shall be posted by CONSULTANT at a prominent place at

the work site. Prevailing wage rates to be posted at the work site will be furnished by the contracting department. The possibility of wage increases is one of the elements to be considered by CONSULTANT in determining its proposal and will not under any circumstances be considered as the basis of a claim against CITY or the Agreement.

8. Contractor Registration. No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this Agreement, CONSULTANT and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. CONSULTANT is hereby notified that this Agreement is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

9. Time is of the Essence. Time is of the essence of this Agreement.

10. Compliance with Laws. CONSULTANT shall comply with all federal, state and local laws, ordinances and policies as may be applicable to the performance of services under this Agreement.

11. Public Contracts: Conflicts of Interest. CONSULTANT's duties and services under this Agreement shall not include preparing or assisting CITY with any portion of the CITY's preparation of a request for proposals, request for qualifications, or any other solicitation regarding a subsequent or additional contract with CITY. CITY shall at all times retain responsibility for public contracting, including with respect to any subsequent phase of this project. CONSULTANT's participation in the planning, discussions, or drawing of project plans or specifications shall be limited to conceptual, preliminary, or initial plans or specifications. CONSULTANT shall cooperate with CITY to ensure that all bidders for a subsequent contract on any subsequent phase of this project have access to the same information, including all

conceptual, preliminary, or initial plans or specifications prepared by CONSULTANT pursuant to this Agreement.

12. Ability to Perform. CONSULTANT agrees and represents that it has the time, ability and professional expertise to perform the services required under this Agreement.

13. Governing Agreement. In the event of any conflict between this Agreement and its EXHIBITS, the provisions of this Agreement shall govern. In the event of any conflict between any of the EXHIBITS, the provisions of the first in order of attachment shall govern.

14. Assignment. CONSULTANT is employed to perform unique personal services. CONSULTANT shall not assign this Agreement without the prior written consent of CITY. CONSULTANT shall not employ or otherwise incur any obligation to pay other specialists or experts for services in connection with this Agreement, without prior written consent of CITY.

15. Independent Contractor. CONSULTANT, inclusive of its agents, officers, employees, volunteers, independent contractors, and subcontractors, shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

CONSULTANT and CITY agree that: (a) CONSULTANT is free from the control and direction of CITY in connection with the performance of the work; (b) CONSULTANT is providing services directly to CITY; (c) CONSULTANT has and will maintain at all relevant times a business license; (d) CONSULTANT maintains a business location that is separate from CITY; (e) CONSULTANT is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) CONSULTANT actually contracts with other businesses to provide the same or

similar services and maintains a clientele without restrictions from CITY; (g) CONSULTANT advertises and holds itself out to the public as available to provide the same or similar services; (h) CONSULTANT provides its own tools, vehicles, and equipment to perform the services; (i) CONSULTANT has negotiated its own rates; (j) CONSULTANT set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONSULTANT has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

16. Representations and Warranties. CONSULTANT warrants that it has not employed or retained any company or person, other than a bona fide employee working for CONSULTANT, to solicit or secure this Agreement, and that it has not paid or agreed to pay any company or person, other than a bona fide employee, any fee, commission, percentage, brokerage fee, gift or any other consideration, contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, CITY shall have the right to terminate as void this Agreement, without liability, or, in its discretion, to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such fee, commission, percentage, brokerage fee, gift or contingent fee.

17. Successors in Interest. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

18. Copyright, Ownership and Use of Materials. All tangible material ("Material") created or delivered pursuant to this Agreement is considered a work made for hire under the Copyright Act. To the extent such Material does not qualify as a work made for hire, CONSULTANT hereby assigns to CITY all right, title, and interest, including but not limited to all copyrights, in all Material created by CONSULTANT in its performance under this

Agreement. Material constitutes the scope of work outlined in Exhibit A and attached hereto, and all written and other tangible expressions, including but not limited to, drawings (including computer aided drawings), papers, documents, reports, surveys, renderings, exhibits, sketches, maps, models, prints, paintings or photographs, in any and all media or formats in which such materials have been created or are maintained. All Material furnished by CONSULTANT is, and shall remain, the property of CITY.

CONSULTANT shall execute any documents necessary to effectuate such assignment. In the event that CONSULTANT uses, employs, designates, or retains any person or entity who is not an employee of CONSULTANT, to perform any work required of it pursuant to this Agreement, CONSULTANT shall require said person or entity to execute an agreement containing the preceding paragraph.

19. Termination of Agreement. CITY may terminate this Agreement without cause by giving CONSULTANT ten (10) days advance written notice from the City Manager. CONSULTANT may terminate this Agreement without cause by giving CITY thirty (30) days advance written notice. CONSULTANT understands that continuation of this Agreement past June 30th of any given year is contingent upon appropriation of funds for such purpose in the budget of the City of Roseville in the sole discretion of the City Council. In the event of termination through no fault of CONSULTANT, CITY shall compensate CONSULTANT for services performed as of the date of termination, upon the release to CITY of all Material hereunder, in any and all media or formats in which such materials have been created or are maintained. CITY retains the right to receive and use any MATERIAL, notwithstanding any termination or any dispute regarding the amount to be paid.

20. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance hereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

21. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

22. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

23. Notices. Any notices to parties required by this Agreement shall be delivered personally or mailed, U.S. first class postage prepaid, addressed as follows:

CITY OF ROSEVILLE	CONSULTANT
Development Services Department Attn: Mike Isom 311 Vernon Street Roseville, CA 95678	Fehr & Peers Attn: John Gard 1013 Galleria Boulevard, Suite 255 Roseville, CA 95678

Either party may amend its address for notice by giving notice to the other party in writing.

24. Integrated Agreement. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ___ day of _____, 20__, and CONSULTANT has caused this Agreement to be executed.

EXHIBIT “A”

D. Project Understanding

Fehr & Peers has demonstrated competence, creativity, and responsiveness in conducting traffic studies within the City of Roseville. This has ranged from simple access studies (e.g., Pleasant Grove Boulevard Coffee Store), to complex access studies (e.g., Foothills Station), to highly controversial projects such as Villasport and LifeTime Family Fitness projects. We have also completed work for entire Specific Plans (e.g., Amoruso) and Major Project Permits (e.g., Campus Oaks).

We are intimately familiar with City of Roseville design standards and approaches to analyzing the traffic impacts of proposed land developments.

- We understand when short-term versus long-term studies are needed.
- We are well-versed in City design standards related to driveway spacing and permitted turning movements.
- We have intimate knowledge of the City's travel demand model and use it often to support these studies.

Project Access Reviews

Analysis of project access focuses on a variety of traffic engineering and planning concepts including (but not limited to):

- Driveway design (placement, permitted movement, widths, curb return radii, throat depth)
- Need for deceleration lanes
- Median treatments including turn lane storage
- Sight distance considerations
- Traffic signal phasing changes and effects of new signals on signalized corridors
- Spacing of new traffic signals
- Adequacy of design to accommodate anticipated truck traffic
- Accommodation of bicyclists and pedestrians

On-Site Circulation Reviews

The review of on-site circulation is also important. This includes review of parking lot layouts, drive-through storage capacity, dead-end drive aisles, pedestrian connections to adjacent streets, etc. Often, Fehr & Peers develops site access and on-site circulation recommendation in an illustrative format that can be used in public hearings and to develop conditions of approval for a project.

Unique Approaches and Strengths

Through extensive work experience in the city, we can anticipate potential issues of concern to city staff, elected officials, and the general public. We therefore tailor our approaches to those conditions.

Many of the studies performed under this on-call are third party agreements involving a project applicant who funds the study through the city. We are also keenly aware that both time and cost are important factors. In response to this, we routinely manage more complex studies in the following proactive way:

- If a serious site access design issue is identified, we stop work on the study and advise city staff (who then share this with the applicant team).

The ongoing Fiddyment/Pleasant Grove Retail Center study is an excellent example of this proactive approach.

As a firm, we offer numerous tools to address built environment issues such as: crosswalk placement, bicyclist/pedestrian comfort, shared parking among complementary land uses, and curbspace requirements for pick-up/drop-off. We have built or have access to customized tools for these and other topics.

E. Project Plan

Analysis Methodologies

Our extensive work history in Roseville has provided us with a strong understanding of the analysis methodologies preferred by City staff. Our analytical approaches are well-aligned with City staff when scoping studies. Following lists some simple examples of how our analysis methods are targeted to the particular type of study:

- Busy travel corridors – typically analyzed using microsimulation models so that signal coordination benefits and effects of vehicle queue spillback are considered.
- Roundabouts – typically analyzed using Sidra, but can also be analyzed using VISSIM when a complex multi-lane roundabout is proposed (e.g., Washington Boulevard/Oak Street)
- Trip Generation – we often use our proprietary Mixed-use Trip Generation Model (MXD) to estimate internalization of trips generated by complementary land uses. We did recently for the Roseville Commons TIS.
- VMT Analysis – For significant VMT impacts (under CEQA), we rely on state-of-the-practice transportation demand management (TDM) strategies to quantify their effectiveness at reducing VMT to less than significant levels.

Work Schedule

The complexity of the project and type of study will dictate the schedule. Following are typical scheduled:

- For smaller, site-access studies, we can typically perform the study in as little as four weeks from authorization.
- For larger, more complex studies, up to eight weeks may be required

Assigned Staff

All Fehr & Peers staff listed in this proposal have considerable prior work experience in the City of Roseville. We will staff this on-call assignment almost exclusively from our Roseville and Sacramento offices. On occasion, we may call upon experts from outside our region to provide specialized expertise. We do not propose including any subconsultants on our team.

Necessary Equipment/Training

We do not require any special equipment or training to perform these studies. We have an excellent understanding of City design standards from years of work in the City. We know the City's travel demand model very well, being in the midst of updating it and using it on projects for decades. We know which City staff to contact to request a range of data such as: engineering speed surveys, as-built drawings, etc.

Public Hearings

Fehr & Peers has attended numerous public hearings while serving as a consultant on behalf of the City. We work cooperatively with Development Services staff on a range of traffic and land use issues. We understand that our role may differ at Planning Commission and City Council hearings based on the type of project. In some instances, we will be present in the event questions should arise. In other instances, we may need to deliver a presentation on a complex transportation issue or to support City staff that are making this presentation.

EXHIBIT “B”

F. Cost Proposal

For this on-call agreement, Fehr & Peers proposes to bill the City of Roseville for our services on a time-and-materials basis with a not-to-exceed limit defined by the work assignment.

Below is our current hourly billing rate schedule by classification, which is valid through June 2026. Billing rate ranges change annually in response to overall market and economic conditions. Also shown below are reimbursable expenses requested to be paid by the City.

Current hourly billing rates for key staff mentioned in this submittal are shown below:

- John Gard: $410 / hour
- Rob Hananouchi: $265 / hour
- David Manciati: $230 / hour

Fehr & Peers

(July 2025 through June 2026)

Hourly Billing Rates

Classification	Hourly Rate
Principal	$280.00 - $500.00
Senior Associate	$210.00 - $410.00
Associate	$185.00 - $360.00
Senior Engineer/Planner	$160.00 - $295.00
Engineer/Planner	$130.00 - $240.00
Senior Engineering Technician	$150.00 - $300.00
Senior Project Accountant	$185.00 - $245.00
Senior Project Coordinator	$125.00 - $235.00
Project Coordinator	$125.00 - $225.00
Technician	$145.00 - $240.00
Intern	$100.00 - $160.00

- *Other Direct Costs / Reimbursable expenses are invoiced at cost plus 10% for handling.*
- *Personal auto mileage is reimbursed at the then current IRS approved rate (70 cents per mile as of Jan 2025).*
- *Technology and Security Fee (software licensing, hardware upgrades, secure data storage, etc.) are invoiced and calculated as a percentage of monthly project labor.*

Fehr & Peers reserves the right to change these rates at any time with or without advance notice.

RESOLUTION NO. 26-202

APPROVING AN ON-CALL PROFESSIONAL SERVICES AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND KIMLEY-HORN AND ASSOCIATES, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, an On-Call Professional Services Agreement for On-Call Transportation Impact Studies, by and between the City of Roseville and Kimley-Horn and Associates, Inc., has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said professional services agreement is hereby approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

BE IT FURTHER RESOLVED, that the City Manager or his designee is authorized to execute four (4) additional one (1) year renewals without further City Council approval, provided that the applicable budget is approved by the City Council, or until staff determines that continuing with this consultant is not in the best interest of the City.

PASSED AND ADOPTED by the Council of the City of Roseville this ___ day of _____, 2026, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

_____
MAYOR

ATTEST:

_____
City Clerk

ON-CALL PROFESSIONAL SERVICES AGREEMENT

On-Call Transportation Impact Studies

THIS AGREEMENT is made and entered into this ___ day of _____, 20__, by and between the City of Roseville, a municipal corporation ("CITY"), and Kimley-Horn and Associates, Inc., a North Carolina corporation ("CONSULTANT"); and

W I T N E S S E T H:

WHEREAS, CITY issued Request for Proposal # 06-0010 for professional services consisting of on-call transportation impact studies services; and

WHEREAS, CONSULTANT has prepared a response to the Request for Proposal dated March 24, 2026, which describes the scope of services to be performed by CONSULTANT, and the hourly rates for performance of such services; and

WHEREAS, CONSULTANT is qualified and experienced to provide professional transportation impact studies services on an on-call basis.

NOW, THEREFORE, the parties agree as follows:

1. Term. The term of this Agreement shall commence upon execution and expire on June 30, 2027. The City Manager may, in his or her discretion, elect to extend the Agreement in one (1) year increments for up to an additional four (4) years by giving CONSULTANT thirty (30) days advance written notice of each optional one (1) year renewal. Such extensions shall be memorialized by a written amendment to this Agreement.

completed.

4. Indemnification. To the fullest extent allowed by law, CONSULTANT shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of CONSULTANT's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

CONSULTANT agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONSULTANT and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

CONSULTANT's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

5. Insurance. CONSULTANT agrees to continuously maintain, in full force and effect, the following minimum policies of insurance during the term of this Agreement.

COVERAGE	LIMITS OF LIABILITY
Workers' Compensation	Statutory

c. Cancellation/Modification. CONSULTANT shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Subcontractors. CONSULTANT agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, CONSULTANT shall require its subcontractors to agree to be bound to CONSULTANT and CITY in the same manner and to the same extent as CONSULTANT is bound to CITY under this Agreement. Additionally, CONSULTANT shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of CITY's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

f. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

7. Prevailing Wages. When applicable, for purposes of this Agreement, CONSULTANT and its subcontractors shall comply with all applicable prevailing wage laws, e.g., but not limited to, California Labor Code Sections 1770 et seq. In accordance with said Section 1775, CONSULTANT shall forfeit as a penalty to the City two hundred dollars ($200) for each calendar day or portion thereof for each worker paid less than the prevailing rates for such work or craft in which such worker is employed for any work done on-site under the Agreement by CONSULTANT or by any subcontractor in violation of the provisions of the Labor Code and in particular, Labor Code Sections 1770 to 1780, inclusive. In addition to said penalty and pursuant to said Section 1775, the difference between such stipulated prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the stipulated prevailing wage shall be paid to each worker by CONSULTANT or the applicable subcontractor.

Pursuant to the provisions of California Labor Code Section 1773, the contracting department has identified the source, stated below, of the general prevailing rate of wages applicable to the site to be done, for straight time, overtime, and holiday work. The holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of the particular craft, classification or type of worker concerned. These wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm.

Pursuant to Labor Code Section 1773.2, general prevailing wage rates set forth above, which forms a part of this Agreement, shall be posted by CONSULTANT at a prominent place at the work site. Prevailing wage rates to be posted at the work site will be furnished by the contracting department. The possibility of wage increases is one of the elements to be

CONSULTANT shall cooperate with CITY to ensure that all bidders for a subsequent contract on any subsequent phase of this project have access to the same information, including all conceptual, preliminary, or initial plans or specifications prepared by CONSULTANT pursuant to this Agreement.

12. Ability to Perform. CONSULTANT agrees and represents that it has the time, ability and professional expertise to perform the services required under this Agreement.

13. Governing Agreement. In the event of any conflict between this Agreement and its EXHIBITS, the provisions of this Agreement shall govern. In the event of any conflict between any of the EXHIBITS, the provisions of the first in order of attachment shall govern.

14. Assignment. CONSULTANT is employed to perform unique personal services. CONSULTANT shall not assign this Agreement without the prior written consent of CITY. CONSULTANT shall not employ or otherwise incur any obligation to pay other specialists or experts for services in connection with this Agreement, without prior written consent of CITY.

15. Independent Contractor. CONSULTANT, inclusive of its agents, officers, employees, volunteers, independent contractors, and subcontractors, shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

CONSULTANT and CITY agree that: (a) CONSULTANT is free from the control and direction of CITY in connection with the performance of the work; (b) CONSULTANT is providing services directly to CITY; (c) CONSULTANT has and will maintain at all relevant times a business license; (d) CONSULTANT maintains a business location that is separate from CITY; (e) CONSULTANT is customarily engaged in an

CONSULTANT hereby assigns to CITY all right, title, and interest, including but not limited to all copyrights, in all Material created by CONSULTANT in its performance under this Agreement. Material constitutes the scope of work outlined in Exhibit A and attached hereto, and all written and other tangible expressions, including but not limited to, drawings (including computer aided drawings), papers, documents, reports, surveys, renderings, exhibits, sketches, maps, models, prints, paintings or photographs, in any and all media or formats in which such materials have been created or are maintained. All Material furnished by CONSULTANT is, and shall remain, the property of CITY.

CONSULTANT shall execute any documents necessary to effectuate such assignment. In the event that CONSULTANT uses, employs, designates, or retains any person or entity who is not an employee of CONSULTANT, to perform any work required of it pursuant to this Agreement, CONSULTANT shall require said person or entity to execute an agreement containing the preceding paragraph.

19. Termination of Agreement. CITY may terminate this Agreement without cause by giving CONSULTANT ten (10) days advance written notice from the City Manager. CONSULTANT may terminate this Agreement without cause by giving CITY thirty (30) days advance written notice. CONSULTANT understands that continuation of this Agreement past June 30th of any given year is contingent upon appropriation of funds for such purpose in the budget of the City of Roseville in the sole discretion of the City Council. In the event of termination through no fault of CONSULTANT, CITY shall compensate CONSULTANT for services performed as of the date of termination, upon the release to CITY of all Material hereunder, in any and all media or formats in which such materials have been created or are maintained. CITY retains the right to receive and use any MATERIAL, notwithstanding any

under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ___ day of _____, 20__, and CONSULTANT has caused this Agreement to be executed.

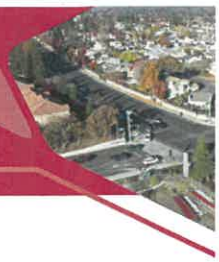
TAB D: PROJECT UNDERSTANDING

The public development process in California requires a deep understanding of regulatory requirements. The California Environmental Quality Act (CEQA) provides the overall analysis framework, defining the necessity and requirements for documentation, analysis, mitigation, and other considerations. In addition, local agencies, such as the City of Roseville, provide additional guidance and requirements specific to their local needs.



To this end, the City has published guidelines for the preparation of traffic impact studies (City of Roseville Design Standards, Section 4, January 2016) to "ensure consistency of analysis and adequacy of information to aid City staff and decision makers in the consideration of project approval with regard to impacts to the City's transportation system." It is important to note that Senate Bill 743 (SB 743) and the associated change in the metric used to identify significant transportation impacts (from delay/Level of Service to Vehicle Miles Traveled) is accommodated separately through the City's recently adopted Vehicle Miles Traveled (VMT) Impact Studies documentation. As such, the City's Design Standards inform the nature of the typical studies required to maintain the safety of the City's transportation network and include several critical considerations for conducting traffic impact studies, including:

- **Short-term vs. Long-term Studies.** Using a 50 PM peak-hour trip threshold and the project's consistency with the General Plan, studies are classified as short-term or long-term. Short-term studies focus primarily on existing and near-term conditions, while long-term studies consider future conditions using the City's CIP travel demand model.
  - Kimley-Horn recently provided short-term traffic study support on the proposed Blue Oaks Commercial Development project, an effort the called for nuanced driveway trip assignment and microsimulation (SimTraffic) to account for closely spaced, coordinated study intersections and properly quantify vehicle queueing.
- **LOS C Threshold.** The City's LOS policy specifies the requirement to maintain LOS C at a minimum of 70 percent of all signalized intersections and roadway segments during the PM peak-hour.
  - Kimley-Horn recently referenced this threshold in providing microsimulation (VISSIM) analysis services to identify a preferred alternative for the Blue Oaks Boulevard Widening project (ongoing).
- **Site Access Considerations.** Driveway configurations, in particular throat depths, are an important site development feature that must satisfy specific requirements specified in the traffic study guidelines. When designed and constructed adequately, off-site traffic is much less likely to be adversely affected by onsite operations. This resultant environment improves safety and operations for the general project area for all users. It is important that site access considerations are vetted early in the project development as modifications to access could trickle down and affect site trip assignment and, subsequently, the evaluation of project trips at the surrounding transportation facilities.
  - Kimley-Horn has recently provided responsive site access circulation analysis and field visits on priority City task orders related to local schools (Campo Street Abandonment and Cirby Pacific Charter Institute) and private developments (Cottages at the Terraces Access).
- **Off-Site Signal Progression.** Awareness of, and consideration for, the complexity and operational features of the City's coordinated signal systems must be accounted for in the proposal and consideration of offsite mitigation measures. Introducing mid-block driveways and even adding new traffic signals must be considered and evaluated in the context of the broader ITS. Changes to the system's traffic volumes, in number, direction, and peak period characteristics, all have to be considered as they affect the current coordinated signal timing's ability to most efficiently handle traffic demand.
  - Kimley-Horn has performed travel time runs related to the City's traffic signal infrastructure on corridors throughout the City while using microsimulation (VISSIM and SimTraffic) to thoroughly assess the benefits associated with corridor-focused improvements along Blue Oaks Boulevard and Roseville Parkway.

Other Considerations

Our team is well-versed in the City documents that guide development of projects. The City documents include the General Plan, ITS Master Plan, Pedestrian Master Plan, Bicycle Master Plan, and Long Range and Short-Range Transit Plans, each including their own respective requirements that must be considered as land develops in the City. It is the awareness of these documents and their effect on both onsite and offsite project features that is critical to the thorough evaluation of a project's impacts.

While projects developed within the City of Roseville may only be bound to abide by the City's development requirements, traffic from some projects may be determined to adversely affect facilities in adjacent jurisdictions. Because of this dynamic, traffic studies in Roseville must allow for the concerns of adjoining agencies and must adequately document the project's traffic effect in these jurisdictions according to their own individual traffic study guidelines. Accordingly, it is important for the City's traffic consultant to have a thorough understanding of the policies, guidelines, thresholds, and other requirements for each of the following agencies: Caltrans, City of Rocklin, City of Citrus Heights, Placer County, Sutter County, and Sacramento County. Kimley-Horn has strong working relationships with staff at each of the aforementioned agencies, providing the City with confidence that coordination on scoping and task orders will proceed smoothly.

TAB E: PROJECT PLAN

Detailed Typical Short-Term Traffic Study Approach & Methodologies

TASK 1: PROJECT ADMINISTRATION/QUALITY CONTROL

This task includes general project administration, including management of project staff, project accounting, and quality control.

The QC/QA plan that Kimley-Horn and its team members will follow in the execution services is used firmwide to maintain consistency with our clients. It includes the following six key elements:

- **Structure:** Each QC/QA plan includes a contract or program manager responsible for contract delivery, technical managers responsible for discipline design development, and a QC/QA manager responsible for verifying implementation of QC/QA plan.
- **Procedures:** Intra-disciplinary checking of documents will be performed by a competent individual within each discipline other than the designer. We have established a color coded comment process that involves the following steps: an initial check (performed by the checker); a review of comments to verify their adequate consideration and documented resolution (performed by the designer); a review of the completed changes in the original documents (performed by the designer); and a review that confirms accurate completion of changes to the documents (performed by the checker).
- **Inter-Disciplinary Reviews:** Inter-disciplinary reviews and coordination are performed throughout the project and prior to key submittals when senior staff from the various discipline groups meet to discuss and comment on the overall project elements.
- **Quality Assurance Audit:** The QC/QA manager will be responsible for conducting a QC audit after completion of the checking and review process and prior to the submittal of any document or deliverable.
- **Deliverables and Document Control:** The program manager will manage the submission of design documents after the QC/QA audit is complete and at milestone completion dates.
- **Corrective Action Measures:** Corrective action measures will be taken if incorrect or nonconforming work is discovered in deliverable items that have already completed the QC/QA process.

Staff Involved: Stephen Dillon, Matt Weir

TASK 2: DATA COLLECTION

With each task order, Kimley-Horn will rely on the completeness and accuracy of all information provided by the City. The City will provide all information requested by Kimley-Horn during the project including, but not limited to the following:

- Proposed project information including existing/proposed uses
- Information pertaining to approved and/or pending transportation improvements in the project vicinity
- Traffic signal timing information and traffic count data for the study area (counts are assumed to be obtained from the City's current ITS infrastructure)

As necessary, Kimley-Horn will complete site visit(s) to observe existing project site operations, including the following typical characteristics:

- Intersection/driveway lane configurations
- Vehicle storage lengths
- Lane utilization
- Existing traffic control
- Speed limits
- Adjacent land uses

We will typically complete an evaluation of sight distance for the site access driveway(s) based on observed horizontal and vertical geometric conditions. These evaluations will be performed in accordance with the guidelines presented in the Geometric Design of Highways and Streets published by the American Association of State Highway and Transportation Officials (AASHTO), and the Highway Design Manual, published by Caltrans.

Kimley-Horn will endeavor to obtain readily available intersection turning movement traffic count data from the City's internet Traffic Count Tool. In the event that this data is not readily available from City sources, Kimley-Horn will leverage relationships with area subconsultants to obtain necessary, high-quality traffic data at a competitive price.

Staff Involved: Curtis Yee, Bryant Lee

TASK 7: FINAL REPORT

Kimley-Horn will address one set of consolidated, non-conflicting City comments on the Draft Report. If the comments require additional analysis or data collection beyond that provided for in this Scope of Services, this work will be considered as an additional service. Kimley-Horn will prepare and submit a Final Report to the City.

Staff Involved: Stephen Dillon, Pedro Cortes Tinoco

TASK 8: QUANTITATIVE VMT ANALYSIS (OPTIONAL)

If requested and authorized, and as per the findings of Task 4 above, Kimley-Horn will prepare a quantitative VMT analysis consistent with the methodology included in the Vehicle Miles Traveled (VMT) Impact Studies guidelines recently approved by the Roseville City Council. This effort is anticipated to include a comparison of the net change in VMT between existing conditions and the addition of the proposed project. This effort will be completed using the City's Travel Demand Model (TDM) by comparing the region's VMT without the project to the region's VMT with the addition of the project. The addition of the project will be determined to result in a significant impact if the region's VMT increases by more than 1,000 daily VMT compared to existing conditions.

Staff Involved: Chris Gregerson, Tyler Mickelson

Typical Schedule

We will provide our services as expeditiously as practicable. We typically anticipate delivery of the Draft Report within three (3) weeks of receipt of a Notice-to-Proceed and all required information (including traffic data).

Workload and Availability

The members of our project team have firsthand experience in responding effectively and efficiently to the needs and requirements of clients under many different types of projects. We constantly prepare the variety of traffic services the City is requesting. We not only have the detailed technical expertise that is required to complete the requested analysis, we proactively plan and set aside adequate time and staff availability provide the City with a high level of responsiveness. Our proposed team all have experience working on typical development projects of different sizes and complexity for agencies across California.

Our workload planning features a two-step process called Milestones (short-term workload) and Castaheads (long-term workload). For Milestones, each Kimley-Horn team meets weekly to discuss workload for the following week and determine deliverables, staffing needs, and adjust staff hours accordingly. After each office meets, representatives from each office attend a conference call to determine if staff reallocation ("shift") are needed to meet deadlines. Since we have six major offices in Northern California, we can easily shift staff between offices and assign the most qualified staff to a particular project. If needed, we also have the ability to shift staff from throughout California and across the country if needed to work on larger or more complex projects.

For Castaheads, Kimley-Horn's forecast summarizes every work plan for all Kimley-Horn projects and provides an accurate projection of staffing needs and overloads with detailed information for the upcoming month and summary information for the next six months. Kimley-Horn's production managers use this tool to facilitate the shifting and balancing of work across our entire firm. The cast-ahead process provides the following benefits:

- Enables us to better serve our clients and meet their deadlines
- Assigns specialists to tackle more complex project issues
- Facilitates teamwork through a one-profit center approach
- Keeps our people productive and our firm stable

EXHIBIT “B”

Kimley-Horn and Associates, Inc.

Hourly Labor Rate Schedule

Classification	Rate
Analyst I	$145 - $190
Analyst II	$190 - $240
Professional	$240 - $275
Senior Professional I	$280 - $355
Senior Professional II	$365 - $450
Senior Technical Support	$135 - $325
Technical Support	$115 - $185
Support Staff	$100 - $165

BR00PUPRF.A.CCT

Effective through June 30, 2027. Subject to annual adjustment thereafter.

Other Direct Costs: Outside Printing/Reproduction, Delivery Services/USPS, Misc. Field Equipment/Supplies, and Travel Expenses will be billed at actual cost. Mileage will be billed at the Federal Rate.

Internal Reimbursable Expenses will be charged at 5% of Labor Billings

Sub-Consultants will be billed at 10% mark-up, or per the Contract

For each Task Order issued under the On-Call, staff will be billed within the appropriate category range shown above, based on their role, responsibilities, and classification at the time services are performed.

The category ranges are structured to provide the City access to a broad range of experienced professionals, allowing work to be assigned to the most appropriate level of expertise to support efficient delivery, consistent quality, and cost-effective outcomes across all assignments.

Roseville, CA 95678

NOTICE OF INTENT TO AWARD

To: All **On-Call Transportation Impact Studies** proposers concerning **RFP #06-0010 On-Call Transportation Impact Studies**

From: Development Services, Matthew Todd, Principal Engineer

Subject: Notice of Intent to Award

For **RFP #06-0010,** pending City Council approval, the City recommends awarding a contract to **the following three consultants:**

DKS Associates
Fehr & Peers
Kimley-Horn

To inquire about the recommended award, please write to Development Services, Matthew Todd, Principal Engineer at mtodd@roseville.ca.us.

Proposal Submission Deadline	3/24/2026
Consultant Interviews	3/25/26 - 3/31/2026
Contract Negotiations	April
Contract Approval by City Council	May
Commencement of Services	7/1/2026

Department: Development Services
Date: Interviews No Conducted
RFP No. 06-0010
for
On-Call Transportation Impact Studies

Ranking	Company Name
1	Fehr & Peers
2	Kimley-Horn
3	DKS
4	Iteris
5	Dudek
6	W-Trans
7	LLG

The above ranking shows the vendor placement in terms of first place, second place, third place, etc. for selection of the contract award. Proposers are ranked using the following criteria: a) Quality of presentation b) Ability to meet the City's business goals c) Communication style

Instructions to end users: Delete this section before publishing the score sheet.

Ranking Process. Should the City elect to conduct interviews with any proposers, the following criteria shall be considered and each proposer ranked by the evaluation panel during the interview process: a) Quality of presentation b) Ability to meet the City's business goals c) Communication style. Enter a "1" in the Ranking column beside the first place company, a "2" beside the second place company, etc.

Novus. Publish the completed score sheet in Novus as a "non-public" document.

Ranking Sheet. Upon a request pursuant to section 1.8 (Public Disclosure) of the City's RFP Policy document , a proposer is entitled to a ranking from any interview round. The ranking shall be prepared by City staff prior to notifying any proposers of the results.

Section 1.8 Public Disclosure. In accordance with the California Public Records Act, proposals submitted in response to a RFP, master averaged score sheets from the initial evaluation, and/or rankings from any interview shall be made available upon a public records request only after: (1) the proposal evaluation process is complete, (2) a contract has been negotiated, and (3) notice of intent to award has been made and/or the contract is placed on a City Council meeting agenda.

City Council Communication

Meeting Date: 6/17/2026
Item #: VII.42
File #: 0400-04-12-1 & 0400-07
Item ID: 2026-495

Title:	Sierra Vista Village JM-01 - Final Map and Subdivision Agreement
Contact:	Ed Winston 916-774-5432 ewinston@roseville.ca.us

SUMMARY

Staff recommends approval of the Sierra Vista Village JM-01 Subdivision Agreement with John Mourier Construction, Inc., and the final map. Review of the final map has been completed, and it is in compliance with the approved tentative map. This map will create 134 residential lots, a private street (Lot A), and one (1) remainder parcel. The actions requested have no fiscal impact to the City's General Fund.

RECOMMENDATION

Staff recommends that the City Council take the following actions:

1. Approve the final map on file with the City Clerk and accept on behalf of the public right of way and public easements offered thereon; and
2. Adopt the attached resolution approving the Subdivision Agreement and authorizing the City Manager to execute the agreement on behalf of the City of Roseville.

BACKGROUND

The Development Services, Engineering section has reviewed the subject final map and found that it is in compliance with the Subdivision Map Act and the City's Subdivision Ordinance, and all conditions of the tentative map have been met. This map will create 134 residential lots, 1 private street (Lot A), and 1 remainder lot.

FISCAL IMPACT

There is no fiscal impact to the City's General Fund associated with this approval.

ENVIRONMENTAL REVIEW

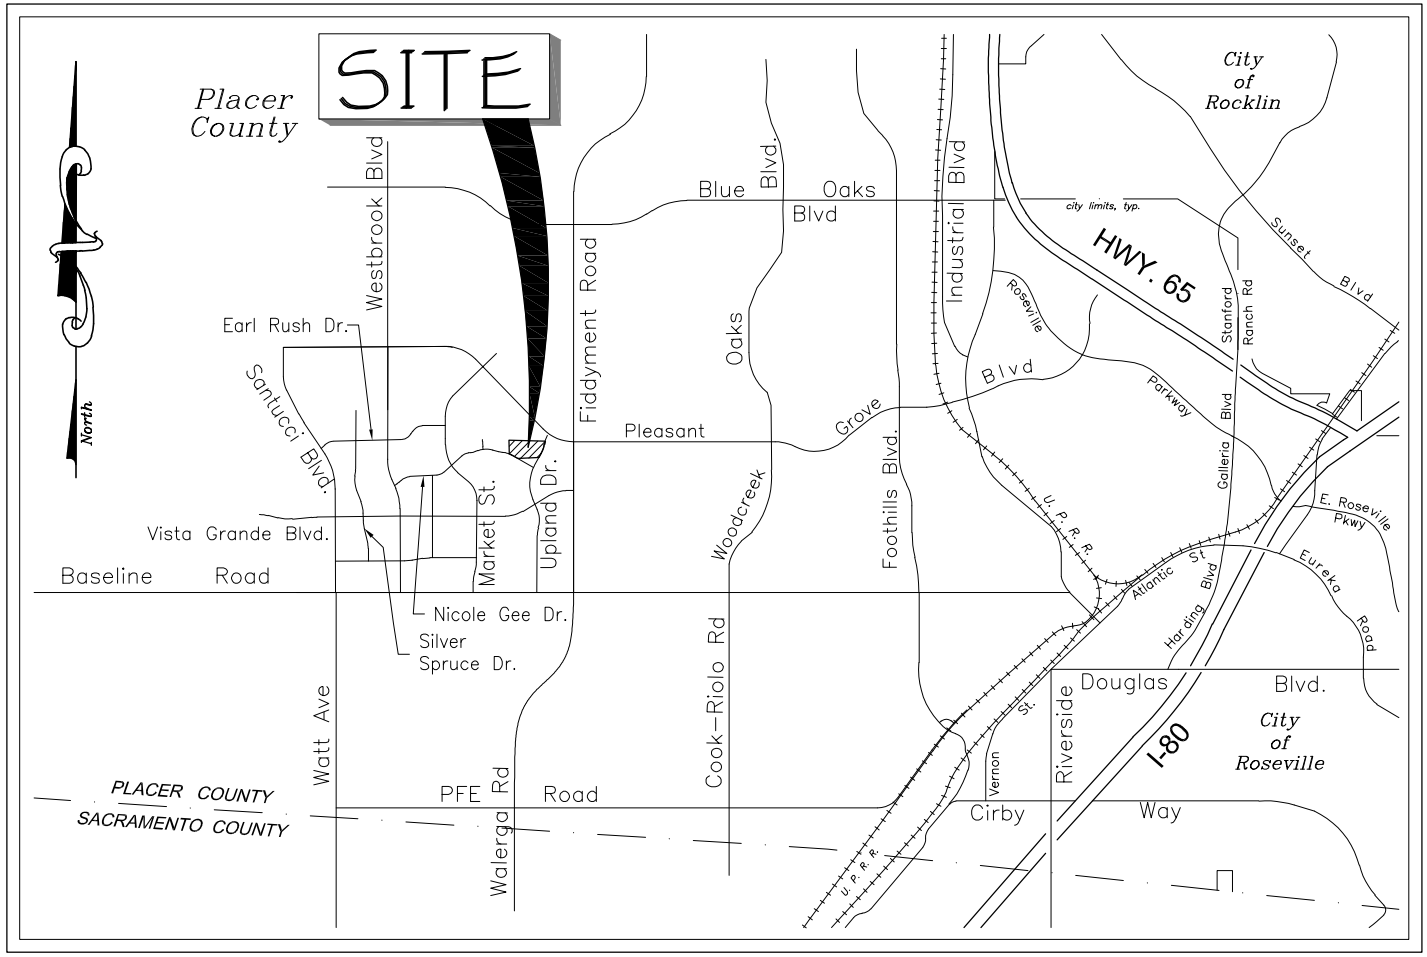
Development of the Sierra Vista Village JM-01 residential subdivision was previously evaluated in the Sierra Vista Specific Plan EIR (certified May 5, 2020, SCH# 2008032115) and identified in the associated Sierra Vista Specific Plan. Construction of the Sierra Vista Village JM-01 residential subdivision is found to be within the scope of the project covered by the Sierra Vista Specific Plan EIR and is therefore exempt from CEQA pursuant to Section 15182. As discussed in the Specific Plan EIR, the EIR provides environmental analyses of community infrastructure and facilities, including residential subdivisions. Because the project is consistent with the Sierra Vista Specific Plan EIR and Specific Plan, no new effects

would be expected to occur, and all applicable mitigation measures from the Sierra Vista Specific Plan EIR will be implemented during the design and construction of the Sierra Vista Village JM-01 residential subdivision. Because the proposed project meets the requirements identified in the State CEQA Guidelines Section 15182, no additional CEQA review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

4. Invest in well-planned infrastructure and growth

Respectfully Submitted,
Ed Winston, Associate Engineer



Mike Isom, Development Services Director

ATTACHMENTS:

1. Vicinity Map
2. Final Map

SUBDIVISION AGREEMENT

Sierra Vista Village JM-01 SUBDIVISION

THIS AGREEMENT, made and entered into this ___ day of _____, 20__, by and between the CITY OF ROSEVILLE, a municipal corporation ("CITY"), and John Mourier Construction, Inc, a California corporation, ("SUBDIVIDER"),

W I T N E S S E T H:

WHEREAS, SUBDIVIDER is possessed of a tract of land lying in the City of Roseville, County of Placer, known as "Sierra Vista Village JM-01 Subdivision" (Subdivision no. PL17-204; "the Subdivision"); and

WHEREAS, a tentative map of the Subdivision was approved by the City Planning Commission on the 9th day of January, 2020, and the final map of the Subdivision has been approved subject to the execution of this Agreement; and

WHEREAS, the final map has been filed on the ____ day of _____, 20__ in Book _____ of Parcel/Subdivision Maps at Page _____ in the Official Records, Placer County Recorder, file no. _____; and

WHEREAS, Section 18.20.110 of the Roseville Municipal Code, regulating the subdivision of land in the City, requires that SUBDIVIDER shall execute and file an agreement between itself and CITY relating to the improvements to be made in a subdivision, prior to the approval by the City Council of the final map.

NOW, THEREFORE, the parties agree as follows:

1. Rights-of-Way. Except as otherwise provided by this Agreement, CITY rejects all lands, right-of-ways, and easements offered for dedication on the final map of the Subdivision. All such offers shall, however, remain open, and shall constitute irrevocable offers of dedication in accordance with Government Code Section 66477.2. All such offers may be accepted by CITY in its sole discretion at any later date without further notice to SUBDIVIDER as provided by law.

By way of explanation only, it is the current intention of CITY to accept all or part of such irrevocable offers to dedicate upon acceptance of the improvements called for in this Agreement.

2. Improvements - Time Limit. SUBDIVIDER agrees to cause all improvements to be made and constructed in the Subdivision to fully comply with the requirements of the Roseville Municipal Code and the Subdivision Map Act of the State of California according to the improvement plans for the Subdivision prepared by Baker Williams Engineering Group, dated March , 2025 and approved by the City Engineer and including any changes or

alterations to such improvements required by the City Engineer, and to install, on or before December 31, 2026, such survey monuments as may be required by the City Engineer ("the Work"). SUBDIVIDER agrees to pay for any materials, provisions or other supplies used in, upon, for or about the performance of the Work, or for any work or labor of any kind done in connection with the Work, or for any amounts due under the Unemployment Insurance Act with respect to such work or labor.

SUBDIVIDER agrees to complete all of the Work on or before twenty-four (24) months from the date of this Agreement. If in the opinion of the City Engineer of CITY, an extension of this Agreement is not detrimental to the public welfare, he or she is, in his or her sole discretion, hereby authorized to extend the time within which the Work shall be completed for a period not to exceed twelve (12) months. Upon a written application made by SUBDIVIDER, further extensions, not to exceed an additional six (6) months, shall be reviewed and approved at the discretion of the City Engineer of CITY. Any such application extension request by SUBDIVIDER shall fully state the grounds and facts relied upon for the granting of additional extensions.

In the event that SUBDIVIDER shall fail to complete the Work within the time provided by this Agreement, CITY may, in its sole discretion and in addition to any other remedy provided in this Agreement or by law, enter upon the Subdivision and complete the Work and recover the full cost and expense of such construction from SUBDIVIDER, SUBDIVIDER's successors and assigns, or from the then owner of the Subdivision, and/or place a lien upon the Subdivision for such cost and expense.

If at anytime prior to the expiration of the time provided by this Agreement the City Engineer of CITY determines that a safety hazard exists within an existing public right-of-

way, the City Engineer shall give written notice to SUBDIVIDER to eliminate the safety hazard. If SUBDIVIDER fails to eliminate the safety hazard within five (5) calendar days of the written notice, CITY may, in its sole discretion and in addition to any other remedy provided in this Agreement or by law, eliminate the safety hazard and recover the full cost and expense of such work from SUBDIVIDER, SUBDIVIDER's successors and assigns, or from the then owner of the Subdivision, and/or place a lien upon the Subdivision for such cost and expense.

3. Acquisition and Dedication of Easements or Rights-of-Ways. If any of the Work is to be constructed or installed on land not within the Subdivision or already existing public right-of-way, no construction or installation shall be commenced before:

a. The irrevocable offer of dedication or conveyance to CITY of appropriate right-of-ways, easements or other interest in real property, and appropriate authorization from the property owner to allow construction or installation of the improvements or work; or

b. The issuance of an order of possession by a court of competent jurisdiction pursuant to the State Eminent Domain Law. SUBDIVIDER shall comply in all respects with any such order of possession.

Nothing in this Section 3 shall be construed as authorizing or granting an extension of time to SUBDIVIDER for completion of the Work.

4. Inspection Fees and Costs. The City Engineer shall inspect all of the Work improvements made in the Subdivision to see that they comply with CITY's subdivision regulations and specifications. SUBDIVIDER shall deposit the estimated inspection fee and reimburse CITY for the cost of such inspections in accordance with Roseville Municipal Code section 18.20.070.

5. Securities.

a. SUBDIVIDER shall file with this Agreement two (2) improvement securities as set forth in Roseville Municipal Code Sections 18.20.150 and 18.20.160. Each security shall be in the amount of one hundred percent (100%) of the total estimated cost of the Work as determined by the City Engineer which amount is the sum of $ 5,891,973 . One improvement security shall secure faithful performance of this Agreement as required by Section 66499.3(a) of the Government Code of the State of California (the "faithful performance" security). The second improvement security shall, as required by Section 66499.3(b) of the Government Code of the State of California, secure the obligations set forth in Title 1 (commencing with Section 8000) of Part 6 of Division 4 of the Civil Code of the State of California for payment to the contractor, his subcontractors and to persons renting equipment or furnishing labor or materials to them for the Work (the "payment security"). The improvement securities required under this paragraph shall also secure placement of monumentation and guarantee payment therefor as provided by California Government Code section 66496.

b. SUBDIVIDER shall also file with this Agreement a "guarantee and warranty security" in the amount of ten percent (10%) of the City Engineer's estimated cost of the Work as set forth in Section 18.20.170 of the Roseville Municipal Code to guarantee and warrant the Work for a period of one year following its completion and acceptance against any defective work or labor done, or defective materials furnished, as required by Section 66499(a)(5) of the Government Code of the State of California. The guarantee and warranty security shall be released upon SUBDIVIDER's request following expiration of the warranty period and subject to the reasonable determination of the City Engineer that SUBDIVIDER's warranty obligations have been satisfied.

c. Any bonds submitted as security pursuant to this section shall be executed by a surety company authorized to transact a surety business in the State of California. All required securities shall be in a form approved by the City Attorney of CITY.

6. Successors and Assigns – Covenant Running with the Land. This Agreement shall inure to the benefit of, and be binding upon, the successors and assigns of the respective parties. It shall be recorded in the Office of the Recorder of Placer County concurrently with the final map of the Subdivision, and shall constitute a covenant running with the land and an equitable servitude upon the real property within the Subdivision.

7. Acceptance of Improvements Upon Completion. Upon satisfactory completion of the Work, in accordance with this Agreement, CITY agrees to accept the Work and its improvements and the offers of dedication described in paragraph 1, subject to the provisions of paragraphs 1 and 10 of this Agreement.

8. Notice Regarding Construction. SUBDIVIDER shall notify the City Engineer of CITY in writing three (3) days prior to the commencement of construction of the Work.

9. Subdivider's Obligation to Warn Public During Construction. Until final acceptance of the Work, SUBDIVIDER shall give good and adequate warning to the public of each and every dangerous condition which may exist in the Work, and will take all reasonable actions to protect the public from any such dangerous condition.

10. Warranty.

a. SUBDIVIDER guarantees and warrants the public improvements which constitute the Work required by this Agreement, and agrees to remedy any defects in the improvements or the Work arising from faulty or defective materials or construction of said improvements or the Work occurring within twelve (12) months after their acceptance by CITY.

SUBDIVIDER agrees to permit inspection of all improvements in the Subdivision by the City Engineer of CITY for such period, and to reimburse CITY for the cost of such inspections.

b. If, within the warranty period, the Work or improvement or any part of the Work done, furnished, installed, or constructed fails to fulfill any of the requirements of this Agreement or the improvement plans and specifications, SUBDIVIDER shall, without delay or cost to CITY, repair, replace or reconstruct any defective or otherwise unsatisfactory part or parts of the Work. CITY may, at its sole option, perform such repair or replacement itself if SUBDIVIDER has failed to commence such repair within twenty (20) days after CITY has mailed written notice of default to SUBDIVIDER and to SUBDIVIDER'S Surety. In such event, SUBDIVIDER agrees to pay the cost of such repair and replacement by CITY and CITY may, at its option, recover such cost as a lien against the Subdivision should the cost exceed the inspection fee deposited pursuant to paragraph 4 of this Agreement.

Should CITY determine that the public safety requires repairs or replacements to be made before SUBDIVIDER can be notified, CITY may, in its sole discretion, make the necessary repairs or replacement or perform the necessary work. SUBDIVIDER shall pay to CITY the cost of such repairs and CITY may at its option recover such cost as a lien against the Subdivision.

11. Indemnification. To the fullest extent allowed by law, SUBDIVIDER shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of SUBDIVIDER 's willful misconduct or negligent act or omission while engaged in the performance of obligations or

exercise of rights created by this Agreement, except those matters arising from CITY's sole or active negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

SUBDIVIDER's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

12. Insurance. SUBDIVIDER agrees to continuously maintain, in full force and effect, at a minimum the following policies of insurance during the term of this Agreement.

COVERAGE	LIMITS OF LIABILITY
General Liability	$2,000,000 per occurrence $3,000,000 aggregate Personal Injury: $2,000,000 per occurrence $3,000,000 aggregate
Automobile Liability	$1,000,000 combined single limit
Workers' Compensation	Statutory

a. Form. SUBDIVIDER shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. SUBDIVIDER shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation, for ongoing and completed operations. Such insurance shall specifically cover the contractual

liability of SUBDIVIDER. The additional insured coverage under the SUBDIVIDER's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. SUBDIVIDER shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

f. Waiver of Subrogation. SUBDIVIDER hereby agrees to waive subrogation which any insurer of SUBDIVIDER may acquire from SUBDIVIDER by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all worked performed by SUBDIVIDER, its employees, agents and subcontractors.

g. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve SUBDIVIDER of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

13. Irrevocability of Security. The improvement securities furnished pursuant to paragraph 5 shall be irrevocable, shall not be limited as to time (except as to the one-year guarantee and warranty period specified in paragraph 10) and shall provide that they may be released, in whole or part, only upon the written approval of the City Engineer of CITY.

14. Attorney's Fees; Venue; Governing Law. Any action by any party to this Agreement, or any action concerning a security furnished pursuant to paragraph 5, shall be brought in the appropriate court of competent jurisdiction within the County of Placer, State of California, notwithstanding any other provision of law which may provide that such action may be brought in some other location. In the event it becomes necessary for either party to bring an action with respect to enforcement of the provisions of this Agreement, or the security therefor, the prevailing party in such action shall be awarded a reasonable attorney's fee, as may be

determined by the Court. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

15. Release of Faithful Performance Security. Release of faithful performance security shall be in compliance with and pursuant to the procedures set forth in Government Code Section 66499.7. Upon the completion of all secured Work by SUBDIVIDER and written acceptance of that completed Work by CITY, and the furnishing of the warranty security as required by paragraph 5(b), the City Engineer shall authorize the release of the remaining faithful performance security.

16. Release of Payment Security. Thirty-five (35) days after a notice of completion is recorded with respect to the Work, the City Engineer of CITY may authorize the release of the payment security, in the event that no claims have been filed against said security. In the event that claims or actions are filed against the security, the City Engineer may release so much of such security as is in excess of the total of the claims made against it, plus a reasonable amount of costs and attorney's fees.

17. Automatic Termination Upon Completion and Sale of Residential Unit. This Agreement and any lien pursuant hereto shall automatically be terminated, without any further action by either party or need to record any additional document, with respect to any single-family residential lot within a parcel designated by the Specific Plan for residential use, upon completion of construction and issuance by the City of a final inspection for a dwelling unit upon such residential lot and conveyance of such improved residential lot to a bona-fide good faith purchaser thereof. In connection with its issuance of a final inspection for such improved lot, City shall confirm that: (i) all improvements which are required to serve the lot, as determined by City, have been accepted by City; (ii) the lot is included within the Maintenance CFD as required

by the applicable Development Agreement or other financing mechanism acceptable to the City, to the extent required hereby; and (iii) if and to the extent applicable to such lot, an affordable purchase or rental housing agreement has been recorded on the lot. Termination of this Agreement for any such residential lot as provided for in this section shall not in any way be construed to terminate or modify any assessment district or Mello-Roos Community Facilities District lien affecting such lot at the time of termination.

18. Failure of Performance. In addition to any other remedies provided in this Agreement or by law, in the event SUBDIVIDER fails to perform one or more of the covenants or conditions of this Agreement, CITY shall have recourse to the security given to guarantee the performance of such acts. CITY may do, or cause to be done, those acts required of SUBDIVIDER, and shall have recourse against so much of the security as is necessary to discharge the responsibility of SUBDIVIDER. In the event CITY seeks recourse against a security, CITY shall also have recourse against SUBDIVIDER for any and all amounts necessary to complete the obligations of SUBDIVIDER in the event the security is insufficient to pay such amounts. All administrative costs, including reasonable attorney's fees pursuant to Section 66499.4 of the Government Code, incurred by CITY, in addition to the costs of the improvements, shall be a proper charge against the security and SUBDIVIDER.

19. Integration. This Agreement is an integrated agreement. It supersedes all prior negotiations, representations, or agreements, either written or oral.

20. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

21. Notices. Any notices sent to the parties relating to this Agreement shall be sent by first class mail, postage prepaid or delivered to the following addresses:

Marc Stout, City Engineer
City of Roseville
311 Vernon Street
Roseville, CA 95678

Ryan Biziewski
John Mourier Construction, Inc.
1430 Blue Oaks Boulevard
Roseville, CA 95747

Either party may amend its address by giving written notice to the other.

22. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. ____, adopted by the Council of the City of Roseville on the ___ day of _____, 20__, and SUBDIVIDER has caused this Agreement to be executed.

Title:	Sierra Vista Village FD-07 - Final Map and Subdivision Agreement
Contact:	Jeff Hendrix 916-774-5463 jhendrix@roseville.ca.us

SUMMARY

Staff recommends approving the Sierra Vista Village FD-07 Subdivision Agreement with John Mourier Construction, Inc., and the final map. Review of the final map has been completed, and it is in compliance with the approved tentative map. This map will create 58 residential lots, a private street (Lot A), one (1) public landscape lot (Lot B), and two (2) public drainage lots (Lots C and D). The actions requested have no fiscal impact to the City's General Fund.

RECOMMENDATION

Staff recommends that the City Council take the following actions:

1. Approve the final map on file with the City Clerk and accept on behalf of the public the public easements offered thereon, and accept subject to improvement, Lots B, C, and D and the rights of way offered thereon.
2. Adopt the attached resolution approving the Subdivision Agreement and authorize the City Manager to execute the agreement on behalf of the City of Roseville.

BACKGROUND

The Development Services, Engineering section has reviewed the subject final map and found that it is in compliance with the Subdivision Map Act and the City's Subdivision Ordinance, and all conditions of the tentative map have been met. This map will create 58 residential lots, 1 private street (Lot A), 1 public landscape lot, and 2 public drainage lots.

FISCAL IMPACT

There is no fiscal impact to the City's General Fund associated with this approval.

ENVIRONMENTAL REVIEW

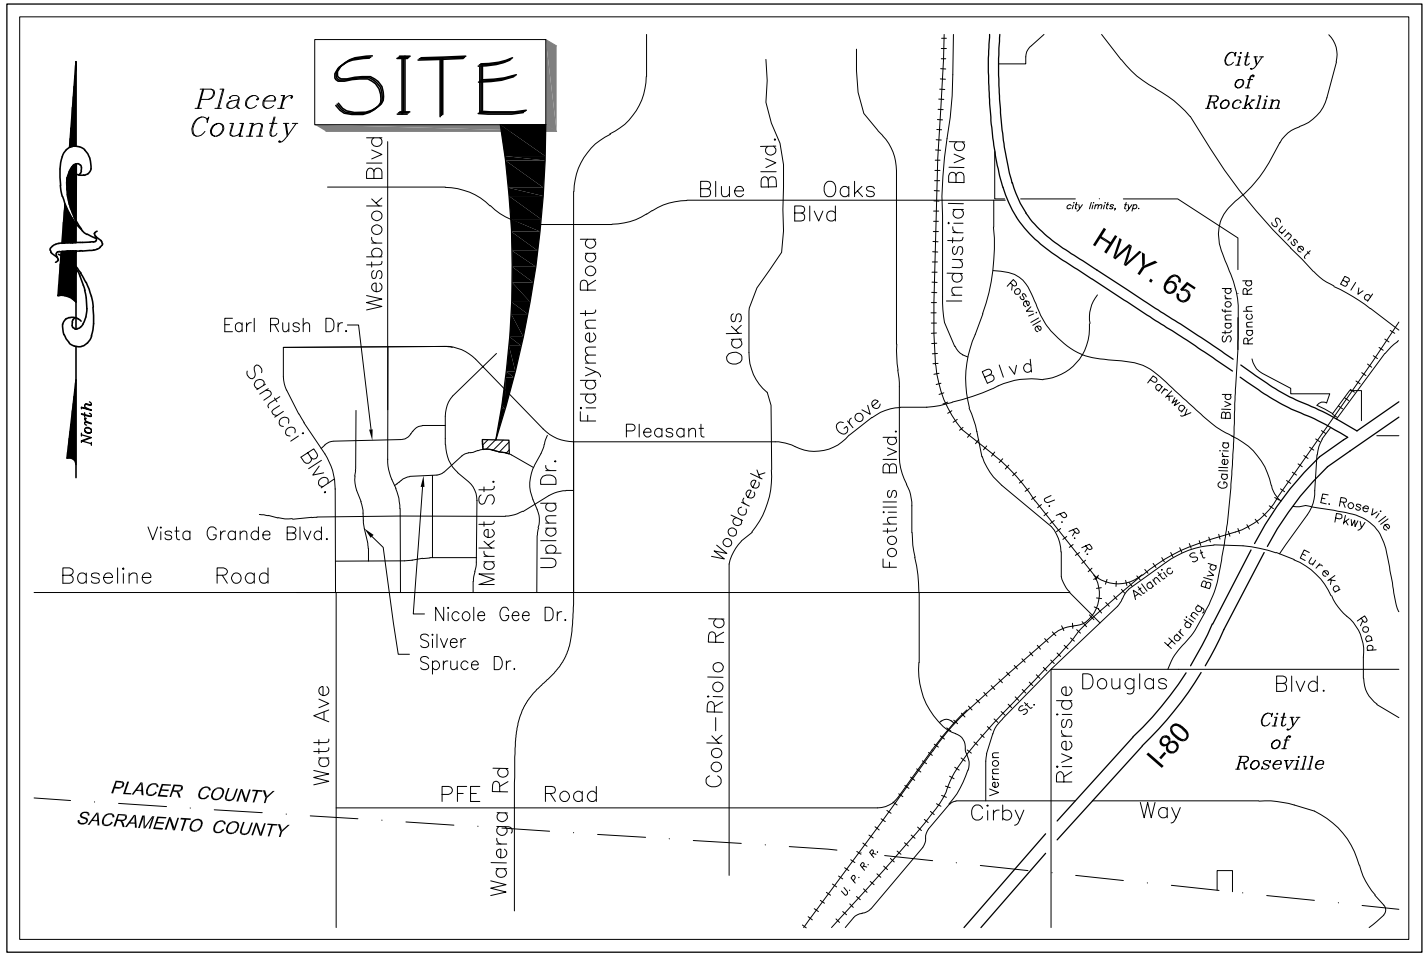
Development of the Sierra Vista Village FD-07 residential subdivision was previously evaluated in the Sierra Vista Specific Plan EIR (certified May 5, 2020, SCH# 2008032115) and identified in the associated Sierra Vista Specific Plan. Construction of the Sierra Vista Village FD-07 residential subdivision is found to be within the scope of the project covered by the Sierra Vista Specific Plan EIR and is therefore exempt

from CEQA pursuant to Section 15182. As discussed in the Specific Plan EIR, the EIR provides environmental analyses of community infrastructure and facilities, including residential subdivisions. Because the project is consistent with the Sierra Vista Specific Plan EIR and Specific Plan, no new effects would be expected to occur, and all applicable mitigation measures from the Sierra Vista Specific Plan EIR will be implemented during the design and construction of the Sierra Vista Village FD-07 residential subdivision. Because the proposed project meets the requirements identified in the State CEQA Guidelines Section 15182, no additional CEQA review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

4. Invest in well-planned infrastructure and growth

Respectfully Submitted,
Jeff Hendrix, Associate Engineer



Mike Isom, Development Services Director

SUBDIVISION AGREEMENT

Sierra Vista Village FD-07 SUBDIVISION

THIS AGREEMENT, made and entered into this ___ day of _____, 20__, by and between the CITY OF ROSEVILLE, a municipal corporation ("CITY"), and John Mourier Construction, Inc., a California corporation, ("SUBDIVIDER"),

W I T N E S S E T H:

WHEREAS, SUBDIVIDER is possessed of a tract of land lying in the City of Roseville, County of Placer, known as "Sierra Vista Village FD-07 Subdivision" (Subdivision no. PL17-0204; "the Subdivision"); and

WHEREAS, a tentative map of the Subdivision was approved by the City Planning Commission on the 9th day of January, 2020, and the final map of the Subdivision has been approved subject to the execution of this Agreement; and

WHEREAS, the final map has been filed on the ____ day of _____, 20__ in Book _____ of Parcel/Subdivision Maps at Page _____ in the Official Records, Placer County Recorder, file no. _____; and

WHEREAS, Section 18.20.110 of the Roseville Municipal Code, regulating the subdivision of land in the City, requires that SUBDIVIDER shall execute and file an agreement between itself and CITY relating to the improvements to be made in a subdivision, prior to the approval by the City Council of the final map.

NOW, THEREFORE, the parties agree as follows:

1. Rights-of-Way. Except as otherwise provided by this Agreement, CITY rejects all lands, right-of-ways, and easements offered for dedication on the final map of the Subdivision. All such offers shall, however, remain open, and shall constitute irrevocable offers of dedication in accordance with Government Code Section 66477.2. All such offers may be accepted by CITY in its sole discretion at any later date without further notice to SUBDIVIDER as provided by law.

By way of explanation only, it is the current intention of CITY to accept all or part of such irrevocable offers to dedicate upon acceptance of the improvements called for in this Agreement.

2. Improvements - Time Limit. SUBDIVIDER agrees to cause all improvements to be made and constructed in the Subdivision to fully comply with the requirements of the Roseville Municipal Code and the Subdivision Map Act of the State of California according to the improvement plans for the Subdivision prepared by Baker Williams Engineering Group, dated _____ and approved by the City Engineer and including any changes or

alterations to such improvements required by the City Engineer, and to install, on or before December 31, 2026, such survey monuments as may be required by the City Engineer ("the Work"). SUBDIVIDER agrees to pay for any materials, provisions or other supplies used in, upon, for or about the performance of the Work, or for any work or labor of any kind done in connection with the Work, or for any amounts due under the Unemployment Insurance Act with respect to such work or labor.

SUBDIVIDER agrees to complete all of the Work on or before twenty-four (24) months from the date of this Agreement. If in the opinion of the City Engineer of CITY, an extension of this Agreement is not detrimental to the public welfare, he or she is, in his or her sole discretion, hereby authorized to extend the time within which the Work shall be completed for a period not to exceed twelve (12) months. Upon a written application made by SUBDIVIDER, further extensions, not to exceed an additional six (6) months, shall be reviewed and approved at the discretion of the City Engineer of CITY. Any such application extension request by SUBDIVIDER shall fully state the grounds and facts relied upon for the granting of additional extensions.

In the event that SUBDIVIDER shall fail to complete the Work within the time provided by this Agreement, CITY may, in its sole discretion and in addition to any other remedy provided in this Agreement or by law, enter upon the Subdivision and complete the Work and recover the full cost and expense of such construction from SUBDIVIDER, SUBDIVIDER's successors and assigns, or from the then owner of the Subdivision, and/or place a lien upon the Subdivision for such cost and expense.

If at anytime prior to the expiration of the time provided by this Agreement the City Engineer of CITY determines that a safety hazard exists within an existing public right-of-

way, the City Engineer shall give written notice to SUBDIVIDER to eliminate the safety hazard. If SUBDIVIDER fails to eliminate the safety hazard within five (5) calendar days of the written notice, CITY may, in its sole discretion and in addition to any other remedy provided in this Agreement or by law, eliminate the safety hazard and recover the full cost and expense of such work from SUBDIVIDER, SUBDIVIDER's successors and assigns, or from the then owner of the Subdivision, and/or place a lien upon the Subdivision for such cost and expense.

3. Acquisition and Dedication of Easements or Rights-of-Ways. If any of the Work is to be constructed or installed on land not within the Subdivision or already existing public right-of-way, no construction or installation shall be commenced before:

a. The irrevocable offer of dedication or conveyance to CITY of appropriate right-of-ways, easements or other interest in real property, and appropriate authorization from the property owner to allow construction or installation of the improvements or work; or

b. The issuance of an order of possession by a court of competent jurisdiction pursuant to the State Eminent Domain Law. SUBDIVIDER shall comply in all respects with any such order of possession.

Nothing in this Section 3 shall be construed as authorizing or granting an extension of time to SUBDIVIDER for completion of the Work.

4. Inspection Fees and Costs. The City Engineer shall inspect all of the Work improvements made in the Subdivision to see that they comply with CITY's subdivision regulations and specifications. SUBDIVIDER shall deposit the estimated inspection fee and reimburse CITY for the cost of such inspections in accordance with Roseville Municipal Code section 18.20.070.

5. Securities.

a. SUBDIVIDER shall file with this Agreement two (2) improvement securities as set forth in Roseville Municipal Code Sections 18.20.150 and 18.20.160. Each security shall be in the amount of one hundred percent (100%) of the total estimated cost of the Work as determined by the City Engineer which amount is the sum of $ 3,097,955 . One improvement security shall secure faithful performance of this Agreement as required by Section 66499.3(a) of the Government Code of the State of California (the "faithful performance" security). The second improvement security shall, as required by Section 66499.3(b) of the Government Code of the State of California, secure the obligations set forth in Title 1 (commencing with Section 8000) of Part 6 of Division 4 of the Civil Code of the State of California for payment to the contractor, his subcontractors and to persons renting equipment or furnishing labor or materials to them for the Work (the "payment security"). The improvement securities required under this paragraph shall also secure placement of monumentation and guarantee payment therefor as provided by California Government Code section 66496.

b. SUBDIVIDER shall also file with this Agreement a "guarantee and warranty security" in the amount of ten percent (10%) of the City Engineer's estimated cost of the Work as set forth in Section 18.20.170 of the Roseville Municipal Code to guarantee and warrant the Work for a period of one year following its completion and acceptance against any defective work or labor done, or defective materials furnished, as required by Section 66499(a)(5) of the Government Code of the State of California. The guarantee and warranty security shall be released upon SUBDIVIDER's request following expiration of the warranty period and subject to the reasonable determination of the City Engineer that SUBDIVIDER's warranty obligations have been satisfied.

c. Any bonds submitted as security pursuant to this section shall be executed by a surety company authorized to transact a surety business in the State of California. All required securities shall be in a form approved by the City Attorney of CITY.

6. Successors and Assigns – Covenant Running with the Land. This Agreement shall inure to the benefit of, and be binding upon, the successors and assigns of the respective parties. It shall be recorded in the Office of the Recorder of Placer County concurrently with the final map of the Subdivision, and shall constitute a covenant running with the land and an equitable servitude upon the real property within the Subdivision.

7. Acceptance of Improvements Upon Completion. Upon satisfactory completion of the Work, in accordance with this Agreement, CITY agrees to accept the Work and its improvements and the offers of dedication described in paragraph 1, subject to the provisions of paragraphs 1 and 10 of this Agreement.

8. Notice Regarding Construction. SUBDIVIDER shall notify the City Engineer of CITY in writing three (3) days prior to the commencement of construction of the Work.

9. Subdivider's Obligation to Warn Public During Construction. Until final acceptance of the Work, SUBDIVIDER shall give good and adequate warning to the public of each and every dangerous condition which may exist in the Work, and will take all reasonable actions to protect the public from any such dangerous condition.

10. Warranty.

a. SUBDIVIDER guarantees and warrants the public improvements which constitute the Work required by this Agreement, and agrees to remedy any defects in the improvements or the Work arising from faulty or defective materials or construction of said improvements or the Work occurring within twelve (12) months after their acceptance by CITY.

SUBDIVIDER agrees to permit inspection of all improvements in the Subdivision by the City Engineer of CITY for such period, and to reimburse CITY for the cost of such inspections.

b. If, within the warranty period, the Work or improvement or any part of the Work done, furnished, installed, or constructed fails to fulfill any of the requirements of this Agreement or the improvement plans and specifications, SUBDIVIDER shall, without delay or cost to CITY, repair, replace or reconstruct any defective or otherwise unsatisfactory part or parts of the Work. CITY may, at its sole option, perform such repair or replacement itself if SUBDIVIDER has failed to commence such repair within twenty (20) days after CITY has mailed written notice of default to SUBDIVIDER and to SUBDIVIDER'S Surety. In such event, SUBDIVIDER agrees to pay the cost of such repair and replacement by CITY and CITY may, at its option, recover such cost as a lien against the Subdivision should the cost exceed the inspection fee deposited pursuant to paragraph 4 of this Agreement.

Should CITY determine that the public safety requires repairs or replacements to be made before SUBDIVIDER can be notified, CITY may, in its sole discretion, make the necessary repairs or replacement or perform the necessary work. SUBDIVIDER shall pay to CITY the cost of such repairs and CITY may at its option recover such cost as a lien against the Subdivision.

11. Indemnification. To the fullest extent allowed by law, SUBDIVIDER shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of SUBDIVIDER 's willful misconduct or negligent act or omission while engaged in the performance of obligations or

exercise of rights created by this Agreement, except those matters arising from CITY's sole or active negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

SUBDIVIDER's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

12. Insurance. SUBDIVIDER agrees to continuously maintain, in full force and effect, at a minimum the following policies of insurance during the term of this Agreement.

COVERAGE	LIMITS OF LIABILITY
General Liability	$2,000,000 per occurrence $3,000,000 aggregate Personal Injury: $2,000,000 per occurrence $3,000,000 aggregate
Automobile Liability	$1,000,000 combined single limit
Workers' Compensation	Statutory

a. Form. SUBDIVIDER shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. SUBDIVIDER shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation, for ongoing and completed operations. Such insurance shall specifically cover the contractual

liability of SUBDIVIDER. The additional insured coverage under the SUBDIVIDER's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. SUBDIVIDER shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

f. Waiver of Subrogation. SUBDIVIDER hereby agrees to waive subrogation which any insurer of SUBDIVIDER may acquire from SUBDIVIDER by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all worked performed by SUBDIVIDER, its employees, agents and subcontractors.

g. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve SUBDIVIDER of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

13. Irrevocability of Security. The improvement securities furnished pursuant to paragraph 5 shall be irrevocable, shall not be limited as to time (except as to the one-year guarantee and warranty period specified in paragraph 10) and shall provide that they may be released, in whole or part, only upon the written approval of the City Engineer of CITY.

14. Attorney's Fees; Venue; Governing Law. Any action by any party to this Agreement, or any action concerning a security furnished pursuant to paragraph 5, shall be brought in the appropriate court of competent jurisdiction within the County of Placer, State of California, notwithstanding any other provision of law which may provide that such action may be brought in some other location. In the event it becomes necessary for either party to bring an action with respect to enforcement of the provisions of this Agreement, or the security therefor, the prevailing party in such action shall be awarded a reasonable attorney's fee, as may be

determined by the Court. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

15. Release of Faithful Performance Security. Release of faithful performance security shall be in compliance with and pursuant to the procedures set forth in Government Code Section 66499.7. Upon the completion of all secured Work by SUBDIVIDER and written acceptance of that completed Work by CITY, and the furnishing of the warranty security as required by paragraph 5(b), the City Engineer shall authorize the release of the remaining faithful performance security.

16. Release of Payment Security. Thirty-five (35) days after a notice of completion is recorded with respect to the Work, the City Engineer of CITY may authorize the release of the payment security, in the event that no claims have been filed against said security. In the event that claims or actions are filed against the security, the City Engineer may release so much of such security as is in excess of the total of the claims made against it, plus a reasonable amount of costs and attorney's fees.

17. Automatic Termination Upon Completion and Sale of Residential Unit. This Agreement and any lien pursuant hereto shall automatically be terminated, without any further action by either party or need to record any additional document, with respect to any single-family residential lot within a parcel designated by the Specific Plan for residential use, upon completion of construction and issuance by the City of a final inspection for a dwelling unit upon such residential lot and conveyance of such improved residential lot to a bona-fide good faith purchaser thereof. In connection with its issuance of a final inspection for such improved lot, City shall confirm that: (i) all improvements which are required to serve the lot, as determined by City, have been accepted by City; (ii) the lot is included within the Maintenance CFD as required

by the applicable Development Agreement or other financing mechanism acceptable to the City, to the extent required hereby; and (iii) if and to the extent applicable to such lot, an affordable purchase or rental housing agreement has been recorded on the lot. Termination of this Agreement for any such residential lot as provided for in this section shall not in any way be construed to terminate or modify any assessment district or Mello-Roos Community Facilities District lien affecting such lot at the time of termination.

18. Failure of Performance. In addition to any other remedies provided in this Agreement or by law, in the event SUBDIVIDER fails to perform one or more of the covenants or conditions of this Agreement, CITY shall have recourse to the security given to guarantee the performance of such acts. CITY may do, or cause to be done, those acts required of SUBDIVIDER, and shall have recourse against so much of the security as is necessary to discharge the responsibility of SUBDIVIDER. In the event CITY seeks recourse against a security, CITY shall also have recourse against SUBDIVIDER for any and all amounts necessary to complete the obligations of SUBDIVIDER in the event the security is insufficient to pay such amounts. All administrative costs, including reasonable attorney's fees pursuant to Section 66499.4 of the Government Code, incurred by CITY, in addition to the costs of the improvements, shall be a proper charge against the security and SUBDIVIDER.

19. Integration. This Agreement is an integrated agreement. It supersedes all prior negotiations, representations, or agreements, either written or oral.

20. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

21. Notices. Any notices sent to the parties relating to this Agreement shall be sent by first class mail, postage prepaid or delivered to the following addresses:

Marc Stout, City Engineer
City of Roseville
311 Vernon Street
Roseville, CA 95678

Ryan Biziewski
John Mourier Construction, Inc
1430 Blue Oaks Boulevard, Ste. 190
Roseville, CA 95747

Either party may amend its address by giving written notice to the other.

22. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. ____, adopted by the Council of the City of Roseville on the ___ day of _____, 20__, and SUBDIVIDER has caused this Agreement to be executed.

Title:	On-Call Building Plan Review and Inspection Services - On-Call Professional Services Agreement
Contact:	Stacie Marchetti 916-774-5278 smarchetti2@roseville.ca.us

SUMMARY

Staff recommends approval of five (5) professional services agreements with (1) 4LEAF, Inc., (2) BPR Consulting Group LLC, (3) Bureau Veritas North America, Inc., (4) TRB and Associates, Inc., and (5) Urban37, Inc., for on-call building plan review and inspection services. The agreements include an annual not-to-exceed limit of $350,000 per contract for 4LEAF, BPR Consulting, TRB and Associates, and Urban37, and an annual not-to-exceed limit of $750,000 for Bureau Veritas due to anticipated increased workload and specialized project support. Funding is included in the Development Services Department's Contracted Building Plan Review operating budget and is fully recoverable through permit fee revenue. Staff also recommends authorization for the City Manager to execute future amendments to extend the agreements for up to four (4) additional one-year renewal terms on behalf of the City.

RECOMMENDATION

Staff recommends that the City Council adopt five (5) resolutions to approve On-Call Professional Services Agreements with (1) 4LEAF, Inc., (2) BPR Consulting Group LLC, (3) Bureau Veritas North America, Inc., (4) TRB and Associates, Inc., and (5) Urban37, Inc., for on-call building plan review and inspection services and authorize the City Manager to execute the agreements on behalf of the City of Roseville.

Staff additionally requests authority for the City Manager or his designee to execute up to four (4) additional one (1) year renewals without further City Council approval, provided that the applicable budget is approved by the City Council, or until staff determines that continuing with these consultants is not in the best interest of the City.

BACKGROUND

The Development Services Department is responsible for performing plan review and inspection services for all residential and commercial building construction within the City. During periods of significant development activity, the Department utilizes qualified consulting firms to supplement internal staffing resources to maintain targeted turnaround times and customer service levels. The Department also relies on contract inspectors during periods of prolonged vacancies, peak demand, and for specialized plan review and inspection services associated with complex development projects, or where specialized licenses or expertise are required.

Staff continues to rely on contracted services for plan review and specialized inspections related to the ongoing Bosch Semiconductor Facility project. Additionally, contracted services are used to maintain continuity of review for large or complex commercial structures within the City, including the Westfield Galleria. The use of qualified consultants strengthens the Department's ability to respond to fluctuating workloads while maintaining a high level of customer service.

To support these needs, the City issued a competitive Request for Proposals (RFP) for on-call building plan review and inspection services on February 19, 2026. Twelve (12) firms submitted proposals in response to the RFP, and eight (8) firms were selected for interviews based on the initial evaluation and ranking process. Following interviews and final evaluations, five (5) firms consisting of (1) 4LEAF, Inc., (2) BPR Consulting Group, (3) Bureau Veritas North America, Inc., (4) TRB and Associates, Inc., and (5) Urban37, Inc. ranked highest based on experience and qualifications, service approach, and cost.

Consistent with best and past practices, five (5) separate firms will be engaged to reduce potential conflicts of interest that may arise from existing or future contractual relationships with private entities. To ensure consistency and maintain the City's customer service expectations, staff will regularly coordinate and meet with the consultant firms throughout the duration of the contracts.

If approved, the initial terms of the agreements will commence on July 1, 2026, and expire on June 30, 2027. The agreements authorize the City Manager to extend each agreement in one-year increments for up to an additional four (4) years. All costs associated with on-call building plan review and inspection services are fully recoverable through permit fee revenue and will have no net impact on the General Fund.

FISCAL IMPACT

The contracts with 4LEAF, Inc., BPR Consulting Group, TRB and Associates, Inc., and Urban37, Inc. shall not exceed $350,000 per fiscal year for each agreement. To support continuity of services and the increased workload associated with the ongoing Bosch Semiconductor Facility project and specialized plan review and inspection services, including services related to the Westfield Galleria, the contract with Bureau Veritas North America, Inc., shall not exceed $750,000 per fiscal year unless otherwise approved by the City Council through a future contract amendment.

Funding for these professional services is included in the Development Services Department's annual operating budget. All costs associated with on-call building plan review and inspection services are fully recoverable through permit fee revenue generated by development activity, resulting in no net fiscal impact on the General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)). No additional environmental review is required.

RESOLUTION NO. 26-210

APPROVING AN ON-CALL PROFESSIONAL SERVICES AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND 4LEAF, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, an On-Call Professional Services Agreement for Building Plan Review and Inspection Services, by and between the City of Roseville and 4LEAF, Inc., has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said on-call professional services agreement is hereby approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

BE IT FURTHER RESOLVED, that the City Manager or his designee is authorized to execute four (4) additional one (1) year renewals without further City Council approval, provided that the applicable budget is approved by the City Council, or until staff determines that continuing with this consultant is not in the best interest of the City.

ON-CALL PROFESSIONAL SERVICES AGREEMENT

Building Plan Review and Inspection Services

THIS AGREEMENT is made and entered into this ___ day of _____, 20__, by and between the City of Roseville, a municipal corporation ("CITY"), and 4LEAF, Inc., a California corporation ("CONSULTANT"); and

W I T N E S S E T H:

WHEREAS, CITY issued Request for Proposal # 06-0009 for professional services consisting of on-call building plan review and inspection services; and

WHEREAS, CONSULTANT has prepared a response to the Request for Proposal dated March 24, 2026, which describes the scope of services to be performed by CONSULTANT, and the hourly rates for performance of such services; and

WHEREAS, CONSULTANT is qualified and experienced to provide professional building plan review and inspection services on an on-call basis.

NOW, THEREFORE, the parties agree as follows:

1. Term. The term of this Agreement shall commence upon execution and expire on June 30, 2027. The City Manager may, in his or her discretion, elect to extend the Agreement in one (1) year increments for up to an additional four (4) years by giving CONSULTANT thirty (30) days advance written notice of each optional one (1) year renewal. Such extensions shall be memorialized by a written amendment to this Agreement.

2. Services. CONSULTANT shall perform, at the direction of CITY, the scope of the on-call services as described in EXHIBIT "A," attached hereto and incorporated herein by this reference. Individual tasks will be awarded by CITY on an as-needed basis. CITY may assign work to one, or more than one consultant from an approved qualified list. CITY reserves the right to unilaterally assign work to any consultant as it deems prudent or, if no services are required, no work. CITY makes no specific guarantee of a minimum or maximum number of hours or amount of tasks or services, which shall be required of any single consultant. In addition, the inclusion of any consultant on any qualified list, if so utilized by CITY, shall in no way be considered an exclusive agreement to provide service for CITY.

3. Compensation. For its services provided hereunder, CONSULTANT shall be compensated on a time and expense basis in accordance with the hourly rates as described in EXHIBIT "B," attached hereto and incorporated herein by this reference. Any proposed increase in the effective rates for future services must be preceded by at least a 90-day written notice to the contracting department. Total compensation shall not exceed three hundred fifty thousand dollars ($350,000) for the initial term. Total compensation for optional renewal years of this Agreement shall not exceed three hundred fifty thousand dollars ($350,000). Total compensation for the initial term and all optional renewal years shall not exceed one million, seven hundred fifty thousand dollars ($1,750,000). Adjustment to the total compensation per year shall require a written amendment to this Agreement, subject to approval by the City Council.

CONSULTANT shall submit one monthly invoice for its services. Such invoices shall be delineated by task, the person performing the services, and the hourly rate, which shall be stated in time increments of not greater than one tenth (1/10) hours. CITY shall pay invoices within

thirty (30) days after receipt, if the services specified in the invoice have been satisfactorily completed.

4. Indemnification. To the fullest extent allowed by law, CONSULTANT shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of CONSULTANT's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

CONSULTANT agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONSULTANT and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

CONSULTANT's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

5. Insurance. CONSULTANT agrees to continuously maintain, in full force and effect, the following minimum policies of insurance during the term of this Agreement.

COVERAGE	LIMITS OF LIABILITY
Workers' Compensation	Statutory
Commercial General Liability	$1,000,000 each occurrence $2,000,000 aggregate Personal Injury: $1,000,000 each occurrence $2,000,000 aggregate
Automobile Liability	$1,000,000 combined single limit
Professional Liability (errors and omissions)	$1,000,000 per claim $2,000,000 aggregate

a. Form. CONSULTANT shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. CONSULTANT shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of CONSULTANT. The additional insured coverage under the CONSULTANT's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and

limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. CONSULTANT shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Subcontractors. CONSULTANT agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, CONSULTANT shall require its subcontractors to agree to be bound to CONSULTANT and CITY in the same manner and to the same extent as CONSULTANT is bound to CITY under this Agreement. Additionally, CONSULTANT shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of CITY's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

f. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full

certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

g. Waiver of Subrogation. CONSULTANT hereby agrees to waive subrogation which any insurer of CONSULTANT may acquire from CONSULTANT by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all worked performed by CONSULTANT, its employees, agents and subcontractors.

h. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve CONSULTANT of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

6. Records. CONSULTANT and its subcontractors shall maintain all files and records relating to the services performed hereunder during the term of this Agreement and for a period of not less than one (1) year after the date of termination or expiration. Provided, however, that in the event of litigation or settlement of claims arising from the performance of this Agreement, CONSULTANT and its subcontractors shall maintain all files and records until such litigation, appeals or claims are resolved. Duly authorized representatives of CITY shall have right of access during normal business hours and after reasonable notice to CONSULTANT's and subcontractors' files and records relating to the services performed hereunder and may review and copy the files and records at appropriate stages during performance of the services and during the one (1) year period following termination or

expiration of this Agreement. CONSULTANT shall include this provision in its contracts with all subcontractors.

7. Prevailing Wages. When applicable, for purposes of this Agreement, CONSULTANT and its subcontractors shall comply with all applicable prevailing wage laws, e.g., but not limited to, California Labor Code Sections 1770 et seq. In accordance with said Section 1775, CONSULTANT shall forfeit as a penalty to the City two hundred dollars ($200) for each calendar day or portion thereof for each worker paid less than the prevailing rates for such work or craft in which such worker is employed for any work done on-site under the Agreement by CONSULTANT or by any subcontractor in violation of the provisions of the Labor Code and in particular, Labor Code Sections 1770 to 1780, inclusive. In addition to said penalty and pursuant to said Section 1775, the difference between such stipulated prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the stipulated prevailing wage shall be paid to each worker by CONSULTANT or the applicable subcontractor.

Pursuant to the provisions of California Labor Code Section 1773, the contracting department has identified the source, stated below, of the general prevailing rate of wages applicable to the site to be done, for straight time, overtime, and holiday work. The holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of the particular craft, classification or type of worker concerned. These wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm.

Pursuant to Labor Code Section 1773.2, general prevailing wage rates set forth above, which forms a part of this Agreement, shall be posted by CONSULTANT at a prominent place at

the work site. Prevailing wage rates to be posted at the work site will be furnished by the contracting department. The possibility of wage increases is one of the elements to be considered by CONSULTANT in determining its proposal and will not under any circumstances be considered as the basis of a claim against CITY or the Agreement.

8. Contractor Registration. No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this Agreement, CONSULTANT and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. CONSULTANT is hereby notified that this Agreement is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

9. Time is of the Essence. Time is of the essence of this Agreement.

10. Compliance with Laws. CONSULTANT shall comply with all federal, state and local laws, ordinances and policies as may be applicable to the performance of services under this Agreement.

11. Public Contracts: Conflicts of Interest. CONSULTANT's duties and services under this Agreement shall not include preparing or assisting CITY with any portion of the CITY's preparation of a request for proposals, request for qualifications, or any other solicitation regarding a subsequent or additional contract with CITY. CITY shall at all times retain responsibility for public contracting, including with respect to any subsequent phase of this project. CONSULTANT's participation in the planning, discussions, or drawing of project plans or specifications shall be limited to conceptual, preliminary, or initial plans or specifications. CONSULTANT shall cooperate with CITY to ensure that all bidders for a subsequent contract on any subsequent phase of this project have access to the same information, including all

conceptual, preliminary, or initial plans or specifications prepared by CONSULTANT pursuant to this Agreement.

12. Ability to Perform. CONSULTANT agrees and represents that it has the time, ability and professional expertise to perform the services required under this Agreement.

13. Governing Agreement. In the event of any conflict between this Agreement and its EXHIBITS, the provisions of this Agreement shall govern. In the event of any conflict between any of the EXHIBITS, the provisions of the first in order of attachment shall govern.

14. Assignment. CONSULTANT is employed to perform unique personal services. CONSULTANT shall not assign this Agreement without the prior written consent of CITY. CONSULTANT shall not employ or otherwise incur any obligation to pay other specialists or experts for services in connection with this Agreement, without prior written consent of CITY.

15. Independent Contractor. CONSULTANT, inclusive of its agents, officers, employees, volunteers, independent contractors, and subcontractors, shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

CONSULTANT and CITY agree that: (a) CONSULTANT is free from the control and direction of CITY in connection with the performance of the work; (b) CONSULTANT is providing services directly to CITY; (c) CONSULTANT has and will maintain at all relevant times a business license; (d) CONSULTANT maintains a business location that is separate from CITY; (e) CONSULTANT is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) CONSULTANT actually contracts with other businesses to provide the same or

similar services and maintains a clientele without restrictions from CITY; (g) CONSULTANT advertises and holds itself out to the public as available to provide the same or similar services; (h) CONSULTANT provides its own tools, vehicles, and equipment to perform the services; (i) CONSULTANT has negotiated its own rates; (j) CONSULTANT set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONSULTANT has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

16. Representations and Warranties. CONSULTANT warrants that it has not employed or retained any company or person, other than a bona fide employee working for CONSULTANT, to solicit or secure this Agreement, and that it has not paid or agreed to pay any company or person, other than a bona fide employee, any fee, commission, percentage, brokerage fee, gift or any other consideration, contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, CITY shall have the right to terminate as void this Agreement, without liability, or, in its discretion, to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such fee, commission, percentage, brokerage fee, gift or contingent fee.

17. Successors in Interest. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

18. Copyright, Ownership and Use of Materials. All tangible material ("Material") created or delivered pursuant to this Agreement is considered a work made for hire under the Copyright Act. To the extent such Material does not qualify as a work made for hire, CONSULTANT hereby assigns to CITY all right, title, and interest, including but not limited to all copyrights, in all Material created by CONSULTANT in its performance under this

Agreement. Material constitutes the scope of work outlined in Exhibit A and attached hereto, and all written and other tangible expressions, including but not limited to, drawings (including computer aided drawings), papers, documents, reports, surveys, renderings, exhibits, sketches, maps, models, prints, paintings or photographs, in any and all media or formats in which such materials have been created or are maintained. All Material furnished by CONSULTANT is, and shall remain, the property of CITY.

CONSULTANT shall execute any documents necessary to effectuate such assignment. In the event that CONSULTANT uses, employs, designates, or retains any person or entity who is not an employee of CONSULTANT, to perform any work required of it pursuant to this Agreement, CONSULTANT shall require said person or entity to execute an agreement containing the preceding paragraph.

19. Termination of Agreement. CITY may terminate this Agreement without cause by giving CONSULTANT ten (10) days advance written notice from the City Manager. CONSULTANT may terminate this Agreement without cause by giving CITY thirty (30) days advance written notice. CONSULTANT understands that continuation of this Agreement past June 30th of any given year is contingent upon appropriation of funds for such purpose in the budget of the City of Roseville in the sole discretion of the City Council. In the event of termination through no fault of CONSULTANT, CITY shall compensate CONSULTANT for services performed as of the date of termination, upon the release to CITY of all Material hereunder, in any and all media or formats in which such materials have been created or are maintained. CITY retains the right to receive and use any MATERIAL, notwithstanding any termination or any dispute regarding the amount to be paid.

20. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance hereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

21. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

22. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

23. Notices. Any notices to parties required by this Agreement shall be delivered personally or mailed, U.S. first class postage prepaid, addressed as follows:

CITY OF ROSEVILLE	CONSULTANT
Development Services Department Attn: Mike Isom 311 Vernon Street Roseville, CA 95678	4LEAF, Inc. Attn: Joe Nicolas 8896 N. Winding Way Fair Oaks, CA 95628

Either party may amend its address for notice by giving notice to the other party in writing.

24. Integrated Agreement. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ___ day of _____, 20__, and CONSULTANT has caused this Agreement to be executed.

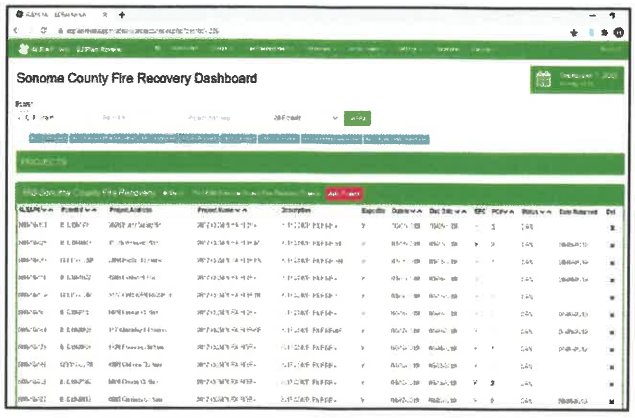
EXHIBIT "A"

TAB E: SERVICE PLAN

4LEAF has extensive knowledge and staff experience in all the scopes of services requested by the City. Due to our experience performing these services for many municipalities *(including the City itself)*, 4LEAF has the knowledge and personnel to successfully work on the City's project endeavors. We have thoroughly read the City's RFP and understand the scopes needed, the contract terms, and current procedures.

Building Plan Review Services

4LEAF will provide Plan Review for any type of structure to ensure compliance with all adopted codes, local ordinances (including Tier 1 of Cal Green, if required) and State and federal laws that pertain to Building and Safety, and for compliance with the adopted International Code Council (ICC) Building, Plumbing, Electrical, Mechanical, National Fire Protection codes and standards, and the Accessibility and Noise and Energy Conservation requirements as mandated by the State of California Title 24, State of California Water Efficient Landscape Ordinance, the State of California Certified Access Specialist (CASp) compliance, and all other applicable ordinances. The types of structures we provide these services for include Single-Family Dwellings, large Multi-Family Mixed-Use Dwelling Units, Commercial, Industrial, and ***HCAI/OSHPD-3 facilities***.



Approach

We understand that the specific building plan review responsibilities will include, but are not limited to:

- Examining plans, drawings, specifications, computations documents, soils reports, and additional data.
- Ascertaining whether projects are in accordance with applicable building and fire codes, and City ordinances, including but not limited to Title 24 and Title 25.
- Performing such reviews as structural, MEP, green building, fire and life safety, grading and drainage.
- Reviewing plans to ensure conformity to the required strengths, stresses, strains, loads, and stability.
- Reviewing plans to ensure conformity with use and occupancy classification, general building heights and areas, types of construction, fire resistance construction and protection systems, means of egress, accessibility, structural design, soils and foundations, and masonry.
- Providing additional plan review services as requested by the City.
- Conducting all plan review at the City Department or at a site mutually agreed upon in writing and.
- Supplying all plan review staff with all code books and other basic professional references.

4LEAF's EZPlan Review

EZPlan Review is our in-house tracking software that acts as a communication tool between 4LEAF and the jurisdictions we work with. The use of EZPlan makes communication easy. This web portal allows users to visualize project due dates, notes, and status updates so that projects can be followed from start to finish. Additionally, 4LEAF provides electronically stamped and uploaded copies of approved project plans, a value which saves clients time and resources. With the use of EZPlan, 4LEAF hopes to provide a level of ease and transparency during the off-site plan review process.

Plan Review QA/QC Review Process

Task 1 – Project Tracking Set-up

The first step of our process will be to set up the project in our system to enable 4LEAF and the City each to track the progress of the review. Our plan tracking procedures are designed to track each submittal throughout the review process and maintain accurate and comprehensive records for each submittal.

Task 2 - Complete Submittal Review

Upon receiving the plans from the City, 4LEAF will triage (preliminary plan review performed by 4LEAF plan review project lead) the submittal to verify that the submittal received is complete (i.e., all pertinent plans, calculations, reports, and other related documents) in order that we can begin our review. If the submitted package is incomplete, we will communicate with the City to discuss the deficient documents needed to proceed with our review.

Task 3 - Plan Review Assignment

After the triage process is performed and a complete package is verified, the project will be assigned to the most qualified Plans Examiner, and a turnaround time will be established. We will log each application into our database the same day the plans are received to ensure that they are routed in a timely manner and to allow for daily project tracking.

Task 4 - Plan Review

4LEAF will provide the project contact (Developer, Contractor, Architect, or Engineer) desired by the City with a list of any items needing correction and clarification to comply with applicable building codes, ordinances, and regulations. A correction list will be created based on the missing codes and ordinances.

Task 5 - Quality Control

Prior to submitting the plan review correction list to the City, the designated plan review project lead will review the correction list for adherence to applicable codes and ordinances as well as for accuracy and completeness. After completion of our quality control review a correction list will be e-mailed to a designated staff member at the City or as directed by the City. The correction list and a 4LEAF transmittal form will include the following information: a description of the work, type of construction, occupancy group, square footage, number of floors, and sprinkler requirements.

Task 6 - Plan Review Rechecks

Plans received for rechecks will be reviewed for conformance. Our goal is to actively work with the designers to resolve all unresolved issues after our second review. If it appears that there are complicated issues that might cause a project to go beyond our second review, we will communicate directly with the designer to resolve these concerns.

Task 7 - Project Approval

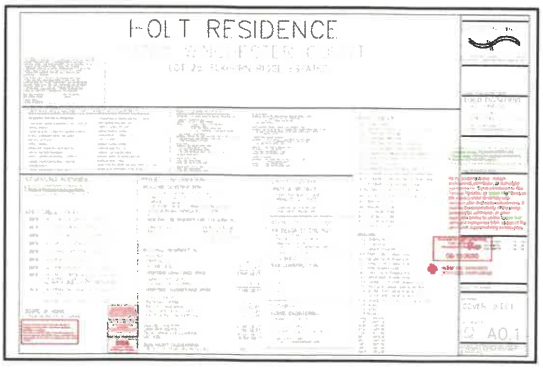
Once the final plan reviews are completed and ready for approval, 4LEAF will organize the plans and supporting documents per the City's processing requirements and return them to the City, along with our letter of completion.

Turn-Around Times

4LEAF has a tremendous reputation for completing projects on-time and under budget. 4LEAF's plan review team is widely recognized for quick turn-around times and prompt service. Off-site plan reviews are performed at our office, with plans transmitted by personal delivery or overnight service. The standard turn-around time is within 10 business days for residential plan reviews and within 10 days for commercial/industrial plan reviews. **However, these timeframes are negotiable based on your needs.** 4LEAF also provides Fire Plan Review services.

Type of Plans	Transportation	Initial Review	Resubmittal Review	Resubmittal Review #2	Expedited Review	Expedited Resubmittal
*Residential	< 24 Hours (pick up & delivery)	< 10 Days	< 5 Days	< 5 Days	< 5 Days	< 3 Days
**Multi-Family	< 24 Hours (pick up & delivery)	< 10 Days	< 5 Days	< 5 Days	< 5 Days	< 3 Days
Commercial	< 24 Hours (pick up & delivery)	< 10 Days	< 5 Days	< 5 Days	< 5 Days	< 3 Days
***Large Commercial > 15,000 s.f.	< 24 Hours (pick up & delivery)	Negotiable	Negotiable	Negotiable	Negotiable	Negotiable

**Larger complex plan reviews can be negotiated to achieve the best possible pricing. 4LEAF has a proven track record of working with municipalities to provide expedited reviews with special discounted pricing.*



In addition, 4LEAF will communicate directly with design professionals for each set of plans that is reviewed so that **all residential alteration projects, ADUs, commercial alterations, and tenant improvement projects are approved within no more than two rounds of plan review.**

On- and Off-Site Review

4LEAF can supply Registered Professional Plan Review personnel to the City to work on-site performing reviews for residential addition and alteration projects, up to two days a week, as needed. The staff provided will have experience working on-site at municipal permit counters and will seamlessly integrate with City staff.

Document Control

When plans and documents are received for review, 4LEAF's Plan Review Manager and Document Control Technician analyze the project, creates a job number, and completes a Job Setup Sheet. This form highlights both the jurisdiction, applicable contact information, and all project specific design criteria and notes. Jobs are then transmitted through 4LEAF's easily accessed EZPlan Review Portal which tracks initial and subsequent reviews and is open for view by the client. The City and their customers can view 4LEAF's plan review control log through 4LEAF's EZPlan Review Portal.

Plans then get distributed for review to a 4LEAF team consisting of Plan Review Engineers, Architect (a licensed state professional) and/or an ICC Certified Plans Examiner, as applicable. Our staff then performs their function

of analyzing the plans and documentation for effective conformance to the state codes, referenced construction standards, and City amendments. 4LEAF's code review methodology is "The Effective Use of the Codes" reinforced through proprietary and jurisdictional checklists. When complete, the Plan Review Manager overviews the project for quality control purposes and forwards comments or approvals to the client's pre-designated contacts.

Off-Site Electronic Plan Review

Digital plan review allows 4LEAF the ability to review, markup and transport plans of any size electronically. We strongly encourage this service for our clients. This process delivers a high degree of cost effectiveness, time efficiency, and a "green" and environmentally friendly system. Through our strong focus on utilizing this digital capability, we offer full access to all 4LEAF engineers and plans examiners company-wide, from any of our office locations. A protected online portal will be established to allow property owners, contractors, developers, businesses, designers, and stakeholders to submit plans electronically for review. Access to the online portal will be given to City staff for immediate access to information regarding project status during the review process.

4LEAF has successfully implemented and used Bluebeam for electronic review of files to help eliminate the use of paper and take the plan review workflow to a whole new level. 4LEAF's offices are equipped with large scale monitors for easy review of plans. Bluebeam Revu combines powerful PDF editing, markup, and collaboration technology with reliable file creation. Bluebeam integrates flawlessly with our Green Line™ approach for electronic and timely turnarounds resulting in permit issuance within 5-7 business days.

Additional Technologies

Having served more than 500 jurisdictions, 4LEAF and our staff are knowledgeable and have experience in working with a variety of different technologies for Electronic Plan Review, Permit Tracking, and Building Inspections. **Our team is exceptionally familiar with the City's choice of software, *DigEplan*, and will have no trouble utilizing this tool.** Additionally, 4LEAF has experience with other tracking technologies including, but not limited to:

DigEplan™

e-PlanSoft™ CRW SYSTEMS ProjectDox eTRAKIT Online Permitting System Accela esri

Building Inspection Services

4LEAF has a team of more than 200 ICC Certified Building Inspectors, HCAI (OSHPD)/DSA Inspectors of Record, Fire Personnel, and Construction Inspectors working on various contracts. 4LEAF has a team committed to working in the Roseville area who will remain for the duration of projects to ensure we capture the goals and performance that have made our inspection system successful.

We maintain the largest on-call database of qualified inspectors of varied qualifications for as-needed requests from our clients. 4LEAF utilizes this service for more than 400 municipalities, and we have included a snapshot of our inspection database below for your review. Inspectors vary from current, full-time inspection staff, idle staff (temporarily between assignments), and pre-qualified staff which include inspectors who are available subject to client demand. 4LEAF's inspectors are all ICC Certified and experienced working within a municipal work environment. 4LEAF will provide inspectors with all the necessary tools, equipment, and current

code books sufficient to facilitate all required inspections. **4LEAF can provide interim or full-time inspectors same day or within one business day**—simply call, email, or text our assigned Management team for an immediate response. Our on-call database is utilized for all our clients for as-needed requests.

Periodic Inspection Services → Available Next Day

4LEAF can fulfill inspection requests immediately upon request including same day. 4LEAF has a wealth of local and available inspectors ready to serve the City. In addition, 4LEAF has a proven track record of providing such services to a number of different building departments.

Part-Time Inspection Services → Available Next Day

4LEAF will provide the City with part-time inspectors upon request. 4LEAF can provide part-time staff within 24 hours of request for any duration of time. 4LEAF's Project Manager will work closely with the department to identify the right personnel and determine the appropriate work schedule.

Full-Time Inspection Services → Available Two Days or Less

4LEAF can provide full-time inspectors upon request. 4LEAF provides this service regularly to many clients throughout Northern California, including the North Bay, Peninsula/South Bay, East Bay, Sacramento Valley, Central Coast, and Central Valley.

Project Specific Inspection Services → Available Two Days or Less

4LEAF is often tasked with providing inspection services to large projects on behalf of municipalities. 4LEAF currently handles large-scale projects for such clients as the City of Palo Alto, City of Cupertino, etc. These projects are developer-funded into a separate City account which is distributed to 4LEAF using a separate invoice and contract number. This is particularly helpful for fast-paced projects looking for continuous inspection services over a short period of time (i.e. 6 - 36 Months).

Project Inspection Services

4LEAF is a local firm with the depth of resources to handle any inspection request. Our firm has been managing and performing inspection work since our inception in 1999 and has performed inspection assignments ranging from $100,000 to $6 Billion. 4LEAF desires to work with City Project Managers to deliver projects along during the construction phase to save the City time and money when applicable. 4LEAF has a proven track record of

working in compliance with all regulations set forth by our clients and has completed numerous projects under budget.

Craig Tole, our Executive Manager, will meet with the City's designated Project Manager to discuss the nature and proposed scope of services required and the project schedule. Craig will assign the appropriate inspector to the project and then establish a schedule for completing the work at the time specified and provide you with the total compensation for the services requested. 4LEAF plans to:

- Provide the City with **highly qualified, experienced professionals** necessary for this project. The proposed personnel will be appropriately registered, certified, or have a license and can effectively collaborate with the City's Project Managers, design team, and contractors.
- Bring **innovative technology** that will enhance our open lines of communication with the City and design team that will interface with the City's technology systems and software platforms.
- Make our team available during the **Construction Document** and **Construction Administration** phases of the project which will expedite issues that may arise.
- Have a well-planned approach throughout the Pre-Construction Phase, Construction Phase, and Closeout Phase to ensure we begin the preparations to close the project out from the day we begin.

The 4LEAF team will make on-site inspections to check the quality and quantity of the work performed by all trades and guard against defects and deficiencies in the work by the Contractor. As necessary, the 4LEAF team will inspect construction means, methods, techniques and sequences to evaluate the Contractor's compliance with the intent of the construction documents and recommend necessary remedial action to the Contractor as required.

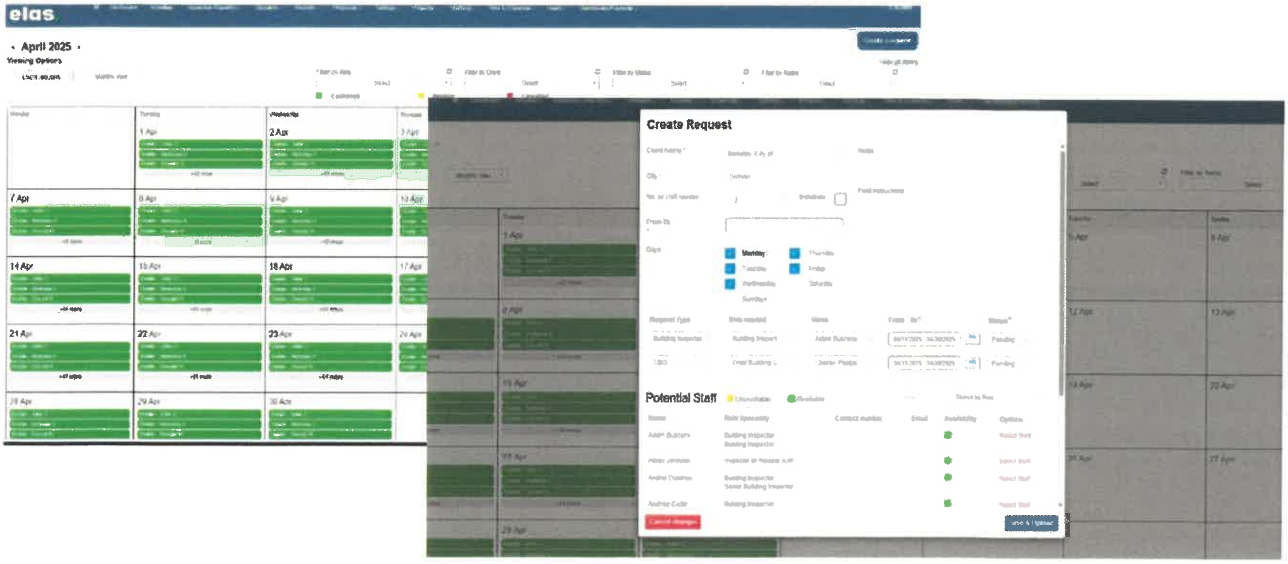
The following represents the normal responsibilities associated with providing construction inspection during the construction phase of a project. The actual services are tailored to meet the specific needs of each project:

- Provide daily inspection and documentation of job-related activities.
- Monitor and document Contractor's work for adherence to contract plans and specifications.
- Prepare and maintain thorough daily inspection reports.
- Provide continual review of plans and specifications.
- Coordinate schedules for testing and surveying.
- Document information related to manpower, equipment, & time for extra or force account work.
- Attend all necessary meetings.
- Provide accurate measured quantities and review pay estimates submitted by contractor.
- Provide pictorial and/or video logbook of construction activities and maintain separate "as-builts".
- Report all discrepancies requiring corrective actions to the construction manager and/or owner.
- Meet with contractor to review proposed work and schedule inspection.
- Develop "Punch List" items and follow-up with corrective measures.

Projects requiring HCAI, DSA, ICC, Etc.

4LEAF maintains an updated database complete with each Inspectors' skill sets, certifications, project history, continuing education, etc. 4LEAF's Project Manager will work closely to identify the right inspector for each

assignment/task. 4LEAF has a proven track record of providing Inspectors for daily assignments or specialty assignments. This includes staff augmentation and project staff augmentation roles.



Inspection of Mechanical, Electrical, Plumbing, and Structural Systems

4LEAF will ensure that personnel inspecting Mechanical, Electrical, and Plumbing Structural Systems will have the proper qualifications, certifications, and experience prior to assignment. Our staff will be routinely checking the structural systems simultaneously with general mechanical, electrical, and plumbing code provisions to ensure that there is no delay in the overall project schedule.

Inspection Technology

4LEAF has extensive experience working with various inspection reporting technologies, including **elas.™** and GoFormz which 4LEAF used this for all scopes of the Apple 2 Campus **(~$8 Billion)**, and for the Encore Boston Harbor Casino **(~$2.6 Billion)**, San Mateo County Project Development Unit **(~$1.1 Billion)**, and at San Jose State University **(~$1 Billion)**. Innovative technology allows every piece of information collected on a project to be accessible by all staff as every inspection report is stored securely and safely in the cloud. The information can be accessed through a user's web account where any inspection report can be viewed, and reports can be run using stored project data. With inspection technology, 4LEAF inspectors are able to leave detailed notes under the inspections and observations box and instantaneously attach pictures to reports to show the items inspected. By means of an iPad, inspectors sign reports using a mobile signature block and attached pictures of the item inspected that were taken using the iPad.

BASIS OF CHARGES

- Rates are inclusive of "tools of the trade" such as forms, telephones, and consumables, basic PPE (project specific PPR will be charged at cost plus 20%).
- All invoices will be submitted monthly.
- All invoices will be charged a 5% administrative fee.
- Approved expenses such as flights/ferry/hotels/etc. as well as subconsultants will be charged at cost plus 20%

- Staff Augmentation work (excluding plan review) is subject to 4-hour minimum charges unless stated otherwise. Services billed in 4-hour increments.
- Inspection services canceled less than 24 hours of requested time of service will be subject to a two (2) hour minimum charge.
- Expedited reviews will be billed at 1.5x the plan review fee listed in the fee schedule. Return time will be within seven (7) days of receipt of the plans from the Jurisdiction.
- Most plan reviews will be reviewed in 10 business days or less and 5 business days or less for re-checks. This is not inclusive of holidays or the day of the pick-up of plans.
- Plan review of deferred submittals & revisions will be billed at the hourly rates listed.
- All plan review services are billed on a percentage basis and includes the initial review and 2 rechecks.
    - Plan reviews will be billed on an hourly basis only after the initial review and 2 rechecks unless otherwise agreed upon on a case-by-case basis.
    - Fire and Civil Reviews are billed on an hourly basis and are not included in our plan review perce ntage.
- 4LEAF assumes that these rates reflect the FY2026-2027 contract period. There will be a 5% escalation for FY2027-2028, FY2028-2029, etc.
    - Overtime and Premium time will be charged as follows:
    - *Regular time (work begun after 5AM or before 4PM) ..... 1 x hourly rate*
    - *Nighttime (work begun after 4PM or before 5AM)..... 1.125 x hourly rate*
    - *Overtime (over 8-hour M-F or Saturdays) ..... 1.5 x hourly rate*
    - *Overtime (over 8 hours Sat or 1st 8-hour Sun)..... 2 x hourly rate*
    - *Overtime (over 8 hours Sun or Holidays)..... 3 x hourly rate*
- Overtime will only be billed with prior authorization of the client unless required by governing documents.
- All work with less than 8 hours rest between shifts will be charged the appropriate overtime rate.
- Mileage driven during the course of project work or assignment will be charged at cost plus 20%.
- Payment due on receipt. All payments over 30 days will be assessed a 1.5% interest charge.
- Client shall pay attorneys' fees, or other costs incurred in collecting delinquent amounts.
- Client agrees that 4LEAF's liability will be limited to the value of services provided.
- In accordance with California's Meal Break and Rest Break Law requirements, Client will be billed one (1) additional hour per day at the regular rate for each missed meal or rest break due to Client directed tasks or requirements. Client will allow 4LEAF staff the opportunity to take their entitled rest and meal breaks during each work shift as required by law.

BASIS OF CHARGES – PREVAILING WAGE

- Rates shown assume the projects will require compliance with California Prevailing Wage rate requirements and assumes the Client will be filing a PWC-100 Form to the California Department of Industrial Relations (DIR) for the projects.
- Rates for prevailing wage categories are subject to annual escalations in accordance with the bi-annual wage determinations from the California DIR at cost, plus multiplier, and profit.
- Per the new requirements being enforced under SB 854 and because it is assumed that a PWC-100 Form will be filed by the Client to the CA DIR for each project, 4LEAF is required to notify an authorized Apprenticeship Committee through submittal of a DAS-140 form. We are then required to make an official request to an

authorized Apprenticeship Committee for an apprentice by submitting a DAS-142 form. We are not assured the apprenticeship committee will be able to provide a suitable / qualified apprentice for the project. Per the apprenticeship requirements, the hours worked by the apprentice must be in a ratio of 1:5 for apprentice to journeyman hours. 4LEAF will not know the labor classification of the Public Works Apprentice until an Apprentice is dispatched to the site; therefore, the rates for the five Periods listed under the California DIR's Wage determination for Building Construction Inspector.

RESOLUTION NO. 26-211

APPROVING AN ON-CALL PROFESSIONAL SERVICES AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND BPR CONSULTING GROUP LLC, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, an On-Call Professional Services Agreement for Building Plan Review and Inspection Services, by and between the City of Roseville and BPR Consulting Group LLC, has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said on-call professional services agreement is hereby approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

BE IT FURTHER RESOLVED, that the City Manager or his designee is authorized to execute four (4) additional one (1) year renewals without further City Council approval, provided that the applicable budget is approved by the City Council, or until staff determines that continuing with this consultant is not in the best interest of the City.

PASSED AND ADOPTED by the Council of the City of Roseville this ___ day of _____, 2026, by the following vote on roll call:

ON-CALL PROFESSIONAL SERVICES AGREEMENT

Building Plan Review and Inspection Services

THIS AGREEMENT is made and entered into this ___ day of _____, 20__, by and between the City of Roseville, a municipal corporation ("CITY"), and BPR Consulting Group LLC, a California limited liability company ("CONSULTANT"); and

W I T N E S S E T H:

WHEREAS, CITY issued Request for Proposal # 06-0009 for professional services consisting of on-call building plan review and inspection services; and

WHEREAS, CONSULTANT has prepared a response to the Request for Proposal dated March 24, 2026, which describes the scope of services to be performed by CONSULTANT, and the hourly rates for performance of such services; and

WHEREAS, CONSULTANT is qualified and experienced to provide professional building plan review and inspection services on an on-call basis.

NOW, THEREFORE, the parties agree as follows:

1. Term. The term of this Agreement shall commence upon execution and expire on June 30, 2027. The City Manager may, in his or her discretion, elect to extend the Agreement in one (1) year increments for up to an additional four (4) years by giving CONSULTANT thirty (30) days advance written notice of each optional one (1) year renewal. Such extensions shall be memorialized by a written amendment to this Agreement.

2. Services. CONSULTANT shall perform, at the direction of CITY, the scope of the on-call services as described in EXHIBIT "A," attached hereto and incorporated herein by this reference. Individual tasks will be awarded by CITY on an as-needed basis. CITY may assign work to one, or more than one consultant from an approved qualified list. CITY reserves the right to unilaterally assign work to any consultant as it deems prudent or, if no services are required, no work. CITY makes no specific guarantee of a minimum or maximum number of hours or amount of tasks or services, which shall be required of any single consultant. In addition, the inclusion of any consultant on any qualified list, if so utilized by CITY, shall in no way be considered an exclusive agreement to provide service for CITY.

3. Compensation. For its services provided hereunder, CONSULTANT shall be compensated on a time and expense basis in accordance with the hourly rates as described in EXHIBIT "B," attached hereto and incorporated herein by this reference. Any proposed increase in the effective rates for future services must be preceded by at least a 90-day written notice to the contracting department. Total compensation shall not exceed three hundred fifty thousand dollars ($350,000) for the initial term. Total compensation for optional renewal years of this Agreement shall not exceed three hundred fifty thousand dollars ($350,000). Total compensation for the initial term and all optional renewal years shall not exceed one million, seven hundred fifty thousand dollars ($1,750,000). Adjustment to the total compensation per year shall require a written amendment to this Agreement, subject to approval by the City Council.

CONSULTANT shall submit one monthly invoice for its services. Such invoices shall be delineated by task, the person performing the services, and the hourly rate, which shall be stated in time increments of not greater than one tenth (1/10) hours. CITY shall pay invoices within

thirty (30) days after receipt, if the services specified in the invoice have been satisfactorily completed.

4. Indemnification. To the fullest extent allowed by law, CONSULTANT shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of CONSULTANT's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

CONSULTANT agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONSULTANT and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

CONSULTANT's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

5. Insurance. CONSULTANT agrees to continuously maintain, in full force and effect, the following minimum policies of insurance during the term of this Agreement.

COVERAGE	LIMITS OF LIABILITY
Workers' Compensation	Statutory
Commercial General Liability	$1,000,000 each occurrence $2,000,000 aggregate Personal Injury: $1,000,000 each occurrence $2,000,000 aggregate
Automobile Liability	$1,000,000 combined single limit
Professional Liability (errors and omissions)	$1,000,000 per claim $2,000,000 aggregate

a. Form. CONSULTANT shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. CONSULTANT shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of CONSULTANT. The additional insured coverage under the CONSULTANT's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and

limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. CONSULTANT shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Subcontractors. CONSULTANT agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, CONSULTANT shall require its subcontractors to agree to be bound to CONSULTANT and CITY in the same manner and to the same extent as CONSULTANT is bound to CITY under this Agreement. Additionally, CONSULTANT shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of CITY's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

f. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full

certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

g. Waiver of Subrogation. CONSULTANT hereby agrees to waive subrogation which any insurer of CONSULTANT may acquire from CONSULTANT by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all worked performed by CONSULTANT, its employees, agents and subcontractors.

h. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve CONSULTANT of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

6. Records. CONSULTANT and its subcontractors shall maintain all files and records relating to the services performed hereunder during the term of this Agreement and for a period of not less than one (1) year after the date of termination or expiration. Provided, however, that in the event of litigation or settlement of claims arising from the performance of this Agreement, CONSULTANT and its subcontractors shall maintain all files and records until such litigation, appeals or claims are resolved. Duly authorized representatives of CITY shall have right of access during normal business hours and after reasonable notice to CONSULTANT's and subcontractors' files and records relating to the services performed hereunder and may review and copy the files and records at appropriate stages during performance of the services and during the one (1) year period following termination or

expiration of this Agreement. CONSULTANT shall include this provision in its contracts with all subcontractors.

7. Prevailing Wages. When applicable, for purposes of this Agreement, CONSULTANT and its subcontractors shall comply with all applicable prevailing wage laws, e.g., but not limited to, California Labor Code Sections 1770 et seq. In accordance with said Section 1775, CONSULTANT shall forfeit as a penalty to the City two hundred dollars ($200) for each calendar day or portion thereof for each worker paid less than the prevailing rates for such work or craft in which such worker is employed for any work done on-site under the Agreement by CONSULTANT or by any subcontractor in violation of the provisions of the Labor Code and in particular, Labor Code Sections 1770 to 1780, inclusive. In addition to said penalty and pursuant to said Section 1775, the difference between such stipulated prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the stipulated prevailing wage shall be paid to each worker by CONSULTANT or the applicable subcontractor.

Pursuant to the provisions of California Labor Code Section 1773, the contracting department has identified the source, stated below, of the general prevailing rate of wages applicable to the site to be done, for straight time, overtime, and holiday work. The holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of the particular craft, classification or type of worker concerned. These wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm.

Pursuant to Labor Code Section 1773.2, general prevailing wage rates set forth above, which forms a part of this Agreement, shall be posted by CONSULTANT at a prominent place at

the work site. Prevailing wage rates to be posted at the work site will be furnished by the contracting department. The possibility of wage increases is one of the elements to be considered by CONSULTANT in determining its proposal and will not under any circumstances be considered as the basis of a claim against CITY or the Agreement.

8. Contractor Registration. No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this Agreement, CONSULTANT and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. CONSULTANT is hereby notified that this Agreement is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

9. Time is of the Essence. Time is of the essence of this Agreement.

10. Compliance with Laws. CONSULTANT shall comply with all federal, state and local laws, ordinances and policies as may be applicable to the performance of services under this Agreement.

11. Public Contracts: Conflicts of Interest. CONSULTANT's duties and services under this Agreement shall not include preparing or assisting CITY with any portion of the CITY's preparation of a request for proposals, request for qualifications, or any other solicitation regarding a subsequent or additional contract with CITY. CITY shall at all times retain responsibility for public contracting, including with respect to any subsequent phase of this project. CONSULTANT's participation in the planning, discussions, or drawing of project plans or specifications shall be limited to conceptual, preliminary, or initial plans or specifications. CONSULTANT shall cooperate with CITY to ensure that all bidders for a subsequent contract on any subsequent phase of this project have access to the same information, including all

conceptual, preliminary, or initial plans or specifications prepared by CONSULTANT pursuant to this Agreement.

12. Ability to Perform. CONSULTANT agrees and represents that it has the time, ability and professional expertise to perform the services required under this Agreement.

13. Governing Agreement. In the event of any conflict between this Agreement and its EXHIBITS, the provisions of this Agreement shall govern. In the event of any conflict between any of the EXHIBITS, the provisions of the first in order of attachment shall govern.

14. Assignment. CONSULTANT is employed to perform unique personal services. CONSULTANT shall not assign this Agreement without the prior written consent of CITY. CONSULTANT shall not employ or otherwise incur any obligation to pay other specialists or experts for services in connection with this Agreement, without prior written consent of CITY.

15. Independent Contractor. CONSULTANT, inclusive of its agents, officers, employees, volunteers, independent contractors, and subcontractors, shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

CONSULTANT and CITY agree that: (a) CONSULTANT is free from the control and direction of CITY in connection with the performance of the work; (b) CONSULTANT is providing services directly to CITY; (c) CONSULTANT has and will maintain at all relevant times a business license; (d) CONSULTANT maintains a business location that is separate from CITY; (e) CONSULTANT is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) CONSULTANT actually contracts with other businesses to provide the same or

similar services and maintains a clientele without restrictions from CITY; (g) CONSULTANT advertises and holds itself out to the public as available to provide the same or similar services; (h) CONSULTANT provides its own tools, vehicles, and equipment to perform the services; (i) CONSULTANT has negotiated its own rates; (j) CONSULTANT set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONSULTANT has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

16. Representations and Warranties. CONSULTANT warrants that it has not employed or retained any company or person, other than a bona fide employee working for CONSULTANT, to solicit or secure this Agreement, and that it has not paid or agreed to pay any company or person, other than a bona fide employee, any fee, commission, percentage, brokerage fee, gift or any other consideration, contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, CITY shall have the right to terminate as void this Agreement, without liability, or, in its discretion, to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such fee, commission, percentage, brokerage fee, gift or contingent fee.

17. Successors in Interest. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

18. Copyright, Ownership and Use of Materials. All tangible material ("Material") created or delivered pursuant to this Agreement is considered a work made for hire under the Copyright Act. To the extent such Material does not qualify as a work made for hire, CONSULTANT hereby assigns to CITY all right, title, and interest, including but not limited to all copyrights, in all Material created by CONSULTANT in its performance under this

Agreement. Material constitutes the scope of work outlined in Exhibit A and attached hereto, and all written and other tangible expressions, including but not limited to, drawings (including computer aided drawings), papers, documents, reports, surveys, renderings, exhibits, sketches, maps, models, prints, paintings or photographs, in any and all media or formats in which such materials have been created or are maintained. All Material furnished by CONSULTANT is, and shall remain, the property of CITY.

CONSULTANT shall execute any documents necessary to effectuate such assignment. In the event that CONSULTANT uses, employs, designates, or retains any person or entity who is not an employee of CONSULTANT, to perform any work required of it pursuant to this Agreement, CONSULTANT shall require said person or entity to execute an agreement containing the preceding paragraph.

19. Termination of Agreement. CITY may terminate this Agreement without cause by giving CONSULTANT ten (10) days advance written notice from the City Manager. CONSULTANT may terminate this Agreement without cause by giving CITY thirty (30) days advance written notice. CONSULTANT understands that continuation of this Agreement past June 30th of any given year is contingent upon appropriation of funds for such purpose in the budget of the City of Roseville in the sole discretion of the City Council. In the event of termination through no fault of CONSULTANT, CITY shall compensate CONSULTANT for services performed as of the date of termination, upon the release to CITY of all Material hereunder, in any and all media or formats in which such materials have been created or are maintained. CITY retains the right to receive and use any MATERIAL, notwithstanding any termination or any dispute regarding the amount to be paid.

20. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance hereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

21. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

22. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

23. Notices. Any notices to parties required by this Agreement shall be delivered personally or mailed, U.S. first class postage prepaid, addressed as follows:

CITY OF ROSEVILLE	CONSULTANT
Development Services Department Attn: Mike Isom 311 Vernon Street Roseville, CA 95678	BPR Consulting Group Attn: Ron Beehler 2130 Professional Drive, Suite 150 Roseville, CA 95661

Either party may amend its address for notice by giving notice to the other party in writing.

24. Integrated Agreement. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ___ day of _____, 20__, and CONSULTANT has caused this Agreement to be executed.

EXHIBIT “A”

SERVICE UNDERSTANDING

BPR Consulting Group's staff members have provided services to the City of Roseville for many years, and we have assisted the City to develop policies and standards, and other service enhancements. Our staff has developed excellent working relationships with City staff. Additionally, BPR staff are experienced working with many of the City's largest developers and builders.

General Approach / Scope of Work

BPR Consulting Group understands the scope of services requested by the City and we are prepared to complete these services as required by the City.

- **Primary Point of Contact:** The City's single point of contact will be Bill Rodgers. Bill has worked closely with the City on a wide range of projects for many years. His contact information is as follows:

  Bill Rodgers, SE
  2130 Professional Drive
  Suite #150
  Roseville, CA 95661
  916.662.0665 | brodgers@bpr-grp.com

- **Response Times:** BPR staff will respond to requests for services and project questions from City staff within one business day.
- **Electronic document review:** BPR staff will perform plan check reviews on the City's electronic document review system (DigEplan), and will status our work in Accela in accordance with City instructions.
- **Communication with Applicants:** BPR staff understand the importance of professional, respectful communications. We understand that we represent the City to applicants while conducting our work. Our team will communicate directly with applicants and other applicable City and County departments through the plan review and/or inspection process.
- **City's permitting system:** BPR staff will update workflow status and enter review charges in the City's Accela permitting system. Approved hourly charges will be entered into Accela for City review and approval prior to updating workflow status.
- **Plan review timeframes:** BPR is committed to completing plan review services within a timeframe that meets or exceeds the City's requirements. As described in the City's RFP, we understand the first review is to be performed within 13 business days and any subsequent review (resubmittal, revision or deferred

submittal) within 8 business days. If for any reason we aren unable to meet the designated timeframes, we will notify the applicant and the City of when to expect completion.

- **Expedited plan review:** Upon notification of the need for expedited plan review, BPR will confirm our ability to provide the expedited services and establish a schedule with the applicant, while conveying that information to the City. As outlined in the RFP, we understand the first review is to be performed within 6 business days and any subsequent review (resubmittals), within 6 business days.
- **Third-party plan review services:** BPR is ready and able to provide third-party plan review services upon request from the City.
- **Field inspection services:** We have proposed a team of building inspectors who are able to provide comprehensive building inspection services on an as-needed basis.
- **Weekly Status Reports:** We will provide the City with weekly status reports on call City plan review projects in progress.
- **Availability to meet with City staff:** BPR project management and staff are always available to meet with City staff, either in-person or virtually, on an as-needed basis and/or on a regularly scheduled basis. Our team will attend quarterly coordination meeting at the City's Civic Center as requested at no additional charge to the City. Our staff will also attend intermittent, project-specific meetings at the City of Roseville Civic Center at the request of the City.
- **Minimum Qualifications:** BPR project staff will meet or exceed the City's minimum qualifications for each service type. The staff we have proposed to provide these services are either registered design professionals or hold current ICC certifications in the disciplines for which they are proposed. Updated resumes for staff members and a updated organizational chart will be provided to the City on an annual basis as requested.
- **Plan Review Consultants Standards:** BPR staff will follow the the City's Plan Review Consultant Standards, Policy number 1.6 as showin in Attachement F of the RFP, when providing plan review services for the City of Roseville.
- **Applicable Codes:** BPR staff will review plans and/or inspect for compliance with California Building Code (CBC), California Residential Code (CRC), California Mechanical Code (CMC), California Plumbing Code (CPC), California Electrical Code (CEC), California Energy Code (CEC Part 6 of the California Building Standards Code), California Green Building Standards Code (CGBSC), California Fire Code (CFC), applicable municipal codes and standards as adopted and amended by the City of Roseville.
- **Plan Review / Inspection Approval:** BPR plans examiners will not recommend plan review approval to the City until all code compliance issues are resolved and all City requirements for permit issuance are satisfied. Similiarly, BPR inspectors will not recommend inspection approval to the City until all code compliance issues are resolved.
- **Plan Review Services:** BPR will perform services, including complete plan review, administration and transportation of documents to and from the City Permit Center within the aggeed upon time frames established by the City.
- **BPR Staff:** BPR will furnish assigned staff with all necessary materials, resources and training to provide plan review and/or inspection services to the City. All staff assigned to provide services to the City will be

professionally qualified to plan review and/or inspection services. Our staff will posses the following minimum qualifications:

1. ICC Plans Examiner Certification
2. ICC Building Inspection Certification
3. Professional Architect or Engineering License
4. CASp Certification
5. A valid California Driver's License

- **Invoicing:** BPR will provide monthly invoices that are itemized by technical discipline and will match charges identified in the City's permitting system. BPR will notify the City if the charges deviate from amounts specified in the City's permitting system prior to the time of approval.
- **Additional Consulting Services:** BPR is prepared to provide miscellaneous technical consulting that falls outside the scope of services at the City's request on an as-needed basis. Such services will be provided at an agreed-upon hourly rate. See Section F for additional information.
- **Issues or Challenges:** BPR has not identified any issues or challenges that would prevent the achievement of the City's stated goals.
- **Unique Approaches and Strengths:** All of our staff maintain appropriate certifications or professional licenses for the services they provide. We ensure our staff is properly trained and require ongoing training for our staff equal or greater than that required by California Health and Safety Code Section 18949.29. We continually encourage our staff to obtain additional certifications and support ongoing training and education for our staff.
- **Code Quiz:** BPR's proposed Principal-in-Charge, Ron Beehler, has authored the well-received monthly Code Quiz for over eight years for multiple California ICC Chapters. The Code Quiz has become an education component of monthly ICC Chapter meetings throughout California. BPR is now the sponsor of the Code Quiz and uses the quiz as an internal training element for our staff. Current year Code Quizzes may be found on our website, http://www.bpr-grp.com/code-quiz.

We propose to provide the City the with the following:

- **Customer service.** Our founders and the staff working under their direction have always provided high levels of customer service to the City and its customers. BPR Consulting Group commits to continue this high level of service.
- **Budget-conscious approach and implementation.** Our services are provided in a cost-effective manner and will be adjusted to remain within the City's budget constraints. We will monitor and evaluate our areas of responsibility and make recommendations for additional cost savings to the City where possible.
- **Tailored, City-specific services.** We deliver skilled and thorough plan review and inspection services for assurance of compliance with the City's adopted codes and ordinances. The City can expect a high-level of technical assistance to architects, engineers, contractors and most importantly homeowners. Our staff of experienced engineers, architects and inspectors possess the ability to provide code assistance through the plan checking and inspection process to help your community develop cost-effective projects that comply with the City's Municipal Code and the California Building Standards Codes.

- **Timely turnaround service.** BPR staff is committed to meeting or exceeding our proposed turnaround times, and has a demonstrated history of doing so.
- **Effective coordination with other City Departments.** We have a history of promoting collaboration and coordination with all project stakeholders, whether internal departments or external design teams/applicants, etc.
- **A wealth of code knowledge and building industry experience.** Our staff is licensed and certified, and collectively possess nearly 200 years of experience in the building safety industry.
- **Ability to adjust service levels to meet your needs.** We are skilled at assessing time commitments, developing accurate work plans, and applying dedicated, professional personnel. We have the ability to scale our staffing to suit City's workload.
- **Local presence and attention to the City of Roseville.** We are locally-owned and operated. Our local presence and availability ensures a consistent level of service and the ability to respond immediately to the needs of the City of Roseville.

SERVICE PLAN

We understand that the Building Division of the City of Roseville desires to contract with a professional consultant to provide building plan review and inspection services for a broad range of projects, from residential to commercial projects. These services include a thorough review of building plans/construction documents to ensure compliance with City Municipal Code and State of California Building Standard Code requirements, as well as thorough field inspections to ensure conformance with the approved plans and applicable codes. BPR Consulting Group has the experience and the qualifications to provide these services. Staff proposed to provide the requested services are experienced, qualified and appropriately licensed; details can be found in ***Tab C*** of this proposal. We will not be utilizing any sub-consultants to provide the requested services.

QUALITY CONTROL AND QUALITY ASSURANCE

Upon award of a contract, our proposed Project Manager will schedule a meeting with the City's representative to familiarize the team with the City's plan review and inspection requests and performance processes, methods and style. BPR's staff of inspectors are experienced in working with multiple jurisdictions, learning and adjusting quickly so that they become an extension of your staff. We utilize a comprehensive "New Client Checklist" that documents specific requirements of each community we serve. Upon selection and before commencement of services, we schedule a meeting with our new clients to review specific inspections requirements and systems utilized by your building department so our services can be integrated in a seamless manner.

BPR will select appropriately qualified, customer-focused inspectors with applicable experience and specific code knowledge based on the types of projects assigned for inspection and the level of inspector being requested. All BPR inspectors are ICC certified, with many maintaining CASp certification. In addition, BPR employs OSHPD certified inspectors available for inspection of OSHPD designated facilities. Qualified inspectors with the appropriate experience, certifications and proficiency will be assigned as appropriate. Qualified inspectors with appropriate knowledge and experience with residential and commercial buildings of all construction types will be assigned as appropriate.

Assigned staff will perform assigned inspections to verify that the work of construction is in conformance with the approved project plans as well as identifying issues of non-compliance with applicable building codes. When necessary for large or fast-track projects, multiple inspectors are available.

Projects under construction by permit from the City will be inspected for compliance with the State of California Building, Mechanical, Plumbing, Electrical, Energy, Green, and Fire Codes. Projects will also be inspected for conformance with the accessibility, noise and energy conservation requirements as mandated by the State of California's Title 24, applicable ordinances and NPDES requirements as assigned. Inspectors are accessible and available to meet with the project design team and/or the client's representatives to work out problems and

help resolve issues quickly and efficiently. As necessary, inspectors will perform follow-up inspections to verify correction notices. Our inspection staff easily integrate into client organizations, consistently implementing policies and procedures and remaining transparent to the jurisdiction's applicants and customers.

We understand that personality and customer service is crucial to on-the-job success, therefore, we will select building inspectors who are customer service-oriented and skilled in dealing with people both at the public counter and in the field. All building inspection personnel assigned will be ICC certified as required and have the knowledge and ability to update the City's permitting database on a daily basis with inspection results.

Utilizing well qualified and experienced building and fire inspectors reduces the potential for critical code related items not being thoroughly verified during the inspection process. Late calls on critical code related issues or identification of deviations from the approved plans late in the inspection process can result in avoidable project delays. We meet with our inspection team on a weekly basis to discuss inspection-related code provisions and more importantly, inspection issues that can become problematic. We believe that through utilization of experienced, well-qualified inspection staff, and providing ongoing training for our inspection staff many common inspection-related issues can be avoided. BPR's experienced and well qualified ICC/CASp certified inspectors have performed building and fire inspection services on a wide variety of construction projects including master planned developments, single-family production, custom homes, commercial, manufacturing, institutional, assembly, essential service, industrial projects, and historically designated buildings. BPR's inspectors will inspect projects to verify conformance with approved project drawings and specifications which will include review of the permit documents to verify that onsite conditions are consistent with the approved documents for size, setbacks, heights, and other applicable requirements. At the completion of inspections, BPR's inspectors will accurately update database information and complete necessary forms and documents as required to provide seamless service.

BPR will utilize appropriately qualified inspectors with applicable experience and specific code knowledge based on the types of projects assigned for inspection. Inspection personnel will have the ability to read, understand and interpret construction plans, truss drawings and calculations, fire sprinkler plans, prepare and maintain accurate records and reports, communicate effectively orally and in writing and to work effectively with contractors, permit applicants, homeowners and agency staff. Inspectors will possess knowledge of approved and modern methods, materials, tools and safety used in building inspection and the most current building and fire standards.

Maximum Proposed Turnaround Times for Building Plan Check

We are committed to meeting or exceeding the City's required plan check timeframes. We consistently complete plan reviews within required timeframes for both commercial and residential projects as our standard business practice. We strive to accommodate any turnaround schedule desired by the City. Multi-disciplinary plan reviews are typically performed in our offices, but we are available for onsite work when required, upon the City's request.

We propose the following turn-around times for initial checks and re-checks:

Project Type	Maximum Turn-Around Time (Business Days)	
	Initial Submittal	Backcheck Reviews
Residential (Single Family)		
New Construction	10	5
Addition	10	5
Remodel	10	5
Residential Solar	3	3
Non-Residential		
New Construction	10	5
Addition	10	5
Remodel, Tenant Improvement	10	5
Large, Complex Commercial or Residential Multi-Family Projects	Turnaround times negotiated on a project-by-project basis	

Expedited plan review will be provided within the six (6) working day time frames established by the City of Roseville.

EXHIBIT “B”

COST PROPOSAL

Building and Fire Plan Review – Fees

For building and fire plan review services, we agree to the City's proposed breakdown of costs as follows:

Package A: **Complete commercial plan review for private development projects** including CBC, CMC, CPC, CEC, CEC Part 6 of the California Building Standards Code, CGBSC, and CFC, applicable Roseville Municipal Code and Roseville Fire Department Standards. Cost is to be ***65 percent of the plan review fee paid to the City*** for each project. This fee shall include a maximum of three (3) plan review iterations. Iterations beyond the maximum number will be reimbursed at the hourly rate for additional plan review services as outlined in *Package E*.

Package B: **Complete commercial plan review for City projects** including CBC, CMC, CPC, CEC, CEC Part 6 of the California Building Standards Code, CGBSC, and CFC, applicable Roseville Municipal Code, Roseville Fire Department Standards, and Americans with Disabilities Act (ADA). Cost is to be ***65 percent of the plan review fee paid to the City*** for each project. This fee shall include a maximum of three (3) plan review iterations. Iterations beyond the maximum number will be reimbursed at the hourly rate for additional plan review services as outlined in *Package E*.

Package C: **Complete residential plan review** including CBC and/or CRC, CMC, CPC, CBC, CEC Part 6 of the California Building Standards Code, CGBSC, CFC (California Building Standards Commission), applicable Roseville Municipal Code and Roseville Fire Department Standards. Cost is to be ***75 percent of the plan review fee paid to the City*** for each project. This fee shall include a maximum of three (3) plan review iterations. Iterations beyond the maximum number will be reimbursed at the hourly rate for additional plan review services as outlined in *Package E*.

Package D: **Complete commercial fire system plan review** including CFC, applicable Roseville Municipal Code and Roseville Fire Department Standards. Cost is to be ***65 percent of the plan review fee paid to the City*** for each project. This fee shall include a maximum of three (3) plan review iterations. Iterations beyond the maximum number will be reimbursed at the hourly rate for additional plan review services as outlined in *Package E*.

Package E: **Additional plan review services**, including revisions and deferred submittals, shall be provided at a ***rate of $150/hour***.

Package F: **Expedited plan review** of the tasks outlined above. For **Package A**, **Package B**, **Package C** and **Package D**, cost is to be ***the percentage of the plan check fee paid to the City as designated in the applicable package and $150/hour***. For **Package E**, cost is to be ***$225/hour***.

Other:

For special projects, projects that are out-of-the-ordinary and require special considerations, miscellaneous technical consultation serviced, or long-term in-house support services, we propose to negotiate a mutually

agreeable fee based on the specific project, considering the special circumstances involved and the experience of the staff required to provide the requested services.

Notes:

- BPR will not charge for mileage, shipping costs or courier fees for plan pick-up and delivery.
- Per City approval, cost for partial reviews such as structural-only, foundation-only, electrical-only, preliminary reviews, etc., will be the hourly rate specified in *Package E*.
- Review of deferred submittals (defined by CBC 107.3.4.2) submitted after a project has been approved will be billed using the hourly rate specified in *Package E*.
- Review of revisions to previously approved drawings will be billed using the hourly rate specified in *Package E*.
- In the event submittal documents are deemed incomplete or changed so as to require more than three (3) plan review iterations, additional plan reviews ***may*** be billed using the hourly rate specified in Package E, ***with prior approval from the City***.

Building Inspection – Fees

For building inspection services, we will bill for services at the hourly rates shown in the Schedule of Hourly Billing Rates included below. Building inspectors will be assigned based on experience relative to the complexity and specific requirements for the inspections to be performed.

SCHEDULE OF HOURLY BILLING RATES

The hourly billing rates shown below will be applied to building plan review, inspection services and additional services outside the scope-of-work specifically requested by the City and detailed above. These rates will remain unchanged through the initial term of the contract. In the event of a contract extension, we would appreciate the opportunity to revisit these rates to reflect appropriate cost-of-living-adjustments (COLA).

SCHEDULE OF HOURLY BILLING RATES	
Licensed Plan Review Engineer or Architect (structural, civil, electrical, mechanical, fire protection)	$150
Engineering Plans Examiner	150
ICC Certified Plans Examiner	150
CASp Plans Examiner	150
CASp Inspector	145
ICC Certified Inspector	95 to 120*
ICC Fire Plans Examiner	150
ICC Fire Inspector	125
Plan Intake Coordinator	100
Permit Technician	80
Permit Technician Trainee/ Building Department Support Staff	55

*Depending on qualifications and experience

- **Overtime:** Inspection services and other hourly services provided within City offices in excess of eight hours per day, nights, and weekends will be charged at 140% of the billing rates indicated above.
- **Mileage Expenses**: Mileage utilized while performing inspection services will be charged at the current Internal Revenue Service (IRS) vehicle mileage rates plus 20%.
- **Minimum Daily Charge**: There will be a minimum 8-hour daily charge for all on-call plan review, inspection, permit technician and support services provided within City offices.
- **Cost Escalation:** On each anniversary of the contract start date, BPR may increase hourly rates based on the change of the non-seasonally adjusted CPI for the applicable region, not to exceed 3% annually.
- **Hourly Rates:** All hourly rates include salaries, benefits, workers compensation insurance and miscellaneous office expenses.

RESOLUTION NO. 26-212

APPROVING AN ON-CALL PROFESSIONAL SERVICES AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND BUREAU VERITAS NORTH AMERICA, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, an On-Call Professional Services Agreement for Building Plan Review and Inspection Services, by and between the City of Roseville and Bureau Veritas North America, Inc., has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said on-call professional services agreement is hereby approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

BE IT FURTHER RESOLVED, that the City Manager or his designee is authorized to execute four (4) additional one (1) year renewals without further City Council approval, provided that the applicable budget is approved by the City Council, or until staff determines that continuing with this consultant is not in the best interest of the City.

PASSED AND ADOPTED by the Council of the City of Roseville this ___ day of _____, 2026, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

_____
MAYOR

ATTEST:

City Clerk

ON-CALL PROFESSIONAL SERVICES AGREEMENT

Building Plan Review and Inspection Services

THIS AGREEMENT is made and entered into this ___ day of _____, 20__, by and between the City of Roseville, a municipal corporation ("CITY"), and Bureau Veritas North America, Inc., a Delaware corporation ("CONSULTANT"); and

W I T N E S S E T H:

WHEREAS, CITY issued Request for Proposal # 06-0009 for professional services consisting of on-call building plan review and inspection services; and

WHEREAS, CONSULTANT has prepared a response to the Request for Proposal dated March 24, 2026, which describes the scope of services to be performed by CONSULTANT, and the hourly rates for performance of such services; and

WHEREAS, CONSULTANT is qualified and experienced to provide professional building plan review and inspection services on an on-call basis.

NOW, THEREFORE, the parties agree as follows:

1. Term. The term of this Agreement shall commence upon execution and expire on June 30, 2027. The City Manager may, in his or her discretion, elect to extend the Agreement in one (1) year increments for up to an additional four (4) years by giving CONSULTANT thirty (30) days advance written notice of each optional one (1) year renewal. Such extensions shall be memorialized by a written amendment to this Agreement.

2. Services. CONSULTANT shall perform, at the direction of CITY, the scope of the on-call services as described in EXHIBIT "A," attached hereto and incorporated herein by this reference. Individual tasks will be awarded by CITY on an as-needed basis. CITY may assign work to one, or more than one consultant from an approved qualified list. CITY reserves the right to unilaterally assign work to any consultant as it deems prudent or, if no services are required, no work. CITY makes no specific guarantee of a minimum or maximum number of hours or amount of tasks or services, which shall be required of any single consultant. In addition, the inclusion of any consultant on any qualified list, if so utilized by CITY, shall in no way be considered an exclusive agreement to provide service for CITY.

3. Compensation. For its services provided hereunder, CONSULTANT shall be compensated on a time and expense basis in accordance with the hourly rates as described in EXHIBIT "B," attached hereto and incorporated herein by this reference. Any proposed increase in the effective rates for future services must be preceded by at least a 90-day written notice to the contracting department. Total compensation shall not exceed seven hundred fifty thousand dollars ($750,000) for the initial term. Total compensation for optional renewal years of this Agreement shall not exceed seven hundred fifty thousand dollars ($750,000). Total compensation for the initial term and all optional renewal years shall not exceed three million, seven hundred fifty thousand dollars ($3,750,000). Adjustment to the total compensation per year shall require a written amendment to this Agreement, subject to approval by the City Council.

CONSULTANT shall submit one monthly invoice for its services. Such invoices shall be delineated by task, the person performing the services, and the hourly rate, which shall be stated in time increments of not greater than one tenth (1/10) hours. CITY shall pay invoices within

thirty (30) days after receipt, if the services specified in the invoice have been satisfactorily completed.

4. Indemnification. To the fullest extent allowed by law, CONSULTANT shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of CONSULTANT's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

CONSULTANT agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONSULTANT and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

CONSULTANT's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

5. Insurance. CONSULTANT agrees to continuously maintain, in full force and effect, the following minimum policies of insurance during the term of this Agreement.

COVERAGE	LIMITS OF LIABILITY
Workers' Compensation	Statutory
Commercial General Liability	$1,000,000 each occurrence $2,000,000 aggregate Personal Injury: $1,000,000 each occurrence $2,000,000 aggregate
Automobile Liability	$1,000,000 combined single limit
Professional Liability (errors and omissions)	$1,000,000 per claim $2,000,000 aggregate

a. Form. CONSULTANT shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. CONSULTANT shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of CONSULTANT. The additional insured coverage under the CONSULTANT's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and

limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. CONSULTANT shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Subcontractors. CONSULTANT agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, CONSULTANT shall require its subcontractors to agree to be bound to CONSULTANT and CITY in the same manner and to the same extent as CONSULTANT is bound to CITY under this Agreement. Additionally, CONSULTANT shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of CITY's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

f. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full

certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

g. Waiver of Subrogation. CONSULTANT hereby agrees to waive subrogation which any insurer of CONSULTANT may acquire from CONSULTANT by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all worked performed by CONSULTANT, its employees, agents and subcontractors.

h. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve CONSULTANT of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

6. Records. CONSULTANT and its subcontractors shall maintain all files and records relating to the services performed hereunder during the term of this Agreement and for a period of not less than one (1) year after the date of termination or expiration. Provided, however, that in the event of litigation or settlement of claims arising from the performance of this Agreement, CONSULTANT and its subcontractors shall maintain all files and records until such litigation, appeals or claims are resolved. Duly authorized representatives of CITY shall have right of access during normal business hours and after reasonable notice to CONSULTANT's and subcontractors' files and records relating to the services performed hereunder and may review and copy the files and records at appropriate stages during performance of the services and during the one (1) year period following termination or

expiration of this Agreement. CONSULTANT shall include this provision in its contracts with all subcontractors.

7. Prevailing Wages. When applicable, for purposes of this Agreement, CONSULTANT and its subcontractors shall comply with all applicable prevailing wage laws, e.g., but not limited to, California Labor Code Sections 1770 et seq. In accordance with said Section 1775, CONSULTANT shall forfeit as a penalty to the City two hundred dollars ($200) for each calendar day or portion thereof for each worker paid less than the prevailing rates for such work or craft in which such worker is employed for any work done on-site under the Agreement by CONSULTANT or by any subcontractor in violation of the provisions of the Labor Code and in particular, Labor Code Sections 1770 to 1780, inclusive. In addition to said penalty and pursuant to said Section 1775, the difference between such stipulated prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the stipulated prevailing wage shall be paid to each worker by CONSULTANT or the applicable subcontractor.

Pursuant to the provisions of California Labor Code Section 1773, the contracting department has identified the source, stated below, of the general prevailing rate of wages applicable to the site to be done, for straight time, overtime, and holiday work. The holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of the particular craft, classification or type of worker concerned. These wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm.

Pursuant to Labor Code Section 1773.2, general prevailing wage rates set forth above, which forms a part of this Agreement, shall be posted by CONSULTANT at a prominent place at

the work site. Prevailing wage rates to be posted at the work site will be furnished by the contracting department. The possibility of wage increases is one of the elements to be considered by CONSULTANT in determining its proposal and will not under any circumstances be considered as the basis of a claim against CITY or the Agreement.

8. Contractor Registration. No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this Agreement, CONSULTANT and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. CONSULTANT is hereby notified that this Agreement is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

9. Time is of the Essence. Time is of the essence of this Agreement.

10. Compliance with Laws. CONSULTANT shall comply with all federal, state and local laws, ordinances and policies as may be applicable to the performance of services under this Agreement.

11. Public Contracts: Conflicts of Interest. CONSULTANT's duties and services under this Agreement shall not include preparing or assisting CITY with any portion of the CITY's preparation of a request for proposals, request for qualifications, or any other solicitation regarding a subsequent or additional contract with CITY. CITY shall at all times retain responsibility for public contracting, including with respect to any subsequent phase of this project. CONSULTANT's participation in the planning, discussions, or drawing of project plans or specifications shall be limited to conceptual, preliminary, or initial plans or specifications. CONSULTANT shall cooperate with CITY to ensure that all bidders for a subsequent contract on any subsequent phase of this project have access to the same information, including all

conceptual, preliminary, or initial plans or specifications prepared by CONSULTANT pursuant to this Agreement.

12. Ability to Perform. CONSULTANT agrees and represents that it has the time, ability and professional expertise to perform the services required under this Agreement.

13. Governing Agreement. In the event of any conflict between this Agreement and its EXHIBITS, the provisions of this Agreement shall govern. In the event of any conflict between any of the EXHIBITS, the provisions of the first in order of attachment shall govern.

14. Assignment. CONSULTANT is employed to perform unique personal services. CONSULTANT shall not assign this Agreement without the prior written consent of CITY. CONSULTANT shall not employ or otherwise incur any obligation to pay other specialists or experts for services in connection with this Agreement, without prior written consent of CITY.

15. Independent Contractor. CONSULTANT, inclusive of its agents, officers, employees, volunteers, independent contractors, and subcontractors, shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

CONSULTANT and CITY agree that: (a) CONSULTANT is free from the control and direction of CITY in connection with the performance of the work; (b) CONSULTANT is providing services directly to CITY; (c) CONSULTANT has and will maintain at all relevant times a business license; (d) CONSULTANT maintains a business location that is separate from CITY; (e) CONSULTANT is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) CONSULTANT actually contracts with other businesses to provide the same or

similar services and maintains a clientele without restrictions from CITY; (g) CONSULTANT advertises and holds itself out to the public as available to provide the same or similar services; (h) CONSULTANT provides its own tools, vehicles, and equipment to perform the services; (i) CONSULTANT has negotiated its own rates; (j) CONSULTANT set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONSULTANT has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

16. Representations and Warranties. CONSULTANT warrants that it has not employed or retained any company or person, other than a bona fide employee working for CONSULTANT, to solicit or secure this Agreement, and that it has not paid or agreed to pay any company or person, other than a bona fide employee, any fee, commission, percentage, brokerage fee, gift or any other consideration, contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, CITY shall have the right to terminate as void this Agreement, without liability, or, in its discretion, to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such fee, commission, percentage, brokerage fee, gift or contingent fee.

17. Successors in Interest. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

18. Copyright, Ownership and Use of Materials. All tangible material ("Material") created or delivered pursuant to this Agreement is considered a work made for hire under the Copyright Act. To the extent such Material does not qualify as a work made for hire, CONSULTANT hereby assigns to CITY all right, title, and interest, including but not limited to all copyrights, in all Material created by CONSULTANT in its performance under this

Agreement. Material constitutes the scope of work outlined in Exhibit A and attached hereto, and all written and other tangible expressions, including but not limited to, drawings (including computer aided drawings), papers, documents, reports, surveys, renderings, exhibits, sketches, maps, models, prints, paintings or photographs, in any and all media or formats in which such materials have been created or are maintained. All Material furnished by CONSULTANT is, and shall remain, the property of CITY.

CONSULTANT shall execute any documents necessary to effectuate such assignment. In the event that CONSULTANT uses, employs, designates, or retains any person or entity who is not an employee of CONSULTANT, to perform any work required of it pursuant to this Agreement, CONSULTANT shall require said person or entity to execute an agreement containing the preceding paragraph.

19. Termination of Agreement. CITY may terminate this Agreement without cause by giving CONSULTANT ten (10) days advance written notice from the City Manager. CONSULTANT may terminate this Agreement without cause by giving CITY thirty (30) days advance written notice. CONSULTANT understands that continuation of this Agreement past June 30th of any given year is contingent upon appropriation of funds for such purpose in the budget of the City of Roseville in the sole discretion of the City Council. In the event of termination through no fault of CONSULTANT, CITY shall compensate CONSULTANT for services performed as of the date of termination, upon the release to CITY of all Material hereunder, in any and all media or formats in which such materials have been created or are maintained. CITY retains the right to receive and use any MATERIAL, notwithstanding any termination or any dispute regarding the amount to be paid.

20. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance hereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

21. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

22. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

23. Notices. Any notices to parties required by this Agreement shall be delivered personally or mailed, U.S. first class postage prepaid, addressed as follows:

CITY OF ROSEVILLE	CONSULTANT
Development Services Department Attn: Mike Isom 311 Vernon Street Roseville, CA 95678	Bureau Veritas North America, Inc. Attn: Craig Baptista 180 Promenade Circle, Suite 150 Sacramento, CA 95834

Either party may amend its address for notice by giving notice to the other party in writing.

24. Integrated Agreement. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ___ day of _____, 20__, and CONSULTANT has caused this Agreement to be executed.

EXHIBIT “A”

SERVICE UNDERSTANDING

BV understands that the City of Roseville is seeking consultants to provide Building Plan Review and Inspection Services. We are uniquely qualifed to provide these services to the City due to our our decade-long relationship, intimate knowledge of the City's needs and consistent and successful delivery of services.

We have provided plan review services to the City on multiple large projects, including 10 years of service on Westfield Galleria at Roseville, recently including a new bowling, cinema and amusement center tenant improvement. Other new projects include a 5-story Kaiser Medical Office Building & Pavilion, Main Street Plaza Apartments and Retail Offices, and Lifetime Fitness Center.

BV is currently providing building safety support at the Bosch Semiconductor facility.

BV maintains a robust staff and breadth of resources which allows us to expand or contract our services based on the needs of the City of Roseville.

BV is able to meet all of the requirements of the City's current RFP. We are in agreement to provide the following Scope of Services outlined in the RFP, including, but not limited to:

- Designate one individual as the responsible contact for communications between the City and Consultant.
- Respond to requests for service and project specific questions from City staff within one business day.
- Provide electronic plan check services using computer programs or platforms specified or deployed by the City, which may be modified from time to time at the City's discretion.
- Upon receiving the request for plan review service, proceed with electronic plan review of plan and construction documents through the assigned platforms designated by the City.
- Communicate directly with applicants and other applicable City and County departments through the plan review and/or inspection process.
- Upon request, evaluate and confirm or deny the ability to accommodate expedited plan review services, as outlined in the City's agreement for expedited plan review (Attachment E).
- Upon request, have the ability to accommodate third party plan review services, as outlined in the City's agreement for third party review (Attachment F). Compensation shall be negotiated for this service, as needed.
- Upon request, have the ability to provide field inspection services. Compensation to be negotiated for this service as needed. Provide range of hourly rates for this service.
- Provide a weekly status report on all City plan review projects in progress.
- Attend quarterly coordination meetings at the City of Roseville civic center at no additional cost to the City.
- Attend intermittent, project-specific meetings at the City of Roseville civic center.
- On an annual basis, provide an updated organizational chart and resume for each staff member, and designate a responsible contact person assigned to respond to requests for the City.
- Follow the City's Plan Review Consultant Standards, Policy number 1.6.

- BV shall review plans and/or inspect for compliance with California Building Code (CBC), California Residential Code (CRC), California Mechanical Code (CMC), California
- Plumbing Code (CPC), California Electrical Code (CEC), California Energy Code (CEC Part 6 of the California Building Standards Code), California Green Building Standards Code (CGBSC), California Fire Code (CFC), applicable municipal codes and standards as adopted and amended by the City of Roseville.
- BV shall not recommend plan review approval to the City until all code compliance issues are resolved and all City requirements for permit issuance are satisfied. BV shall not recommend inspection approval to the City until all code compliance issues are resolved. BV shall contact the City if there are any questions.
- BV shall perform services, including complete plan review, administration and, if applicable, transportation of documents to and from the Permit Center, within appropriate timeframes established by the City. First review is to be performed within 13 business days and any subsequent review (resubmittal, revision or deferred submittal) within 8 business days. In the event that BV cannot perform these services within the designated timeframes, BV shall notify the applicant and the City of when to expect completion.
- BV shall perform expedited services, including complete plan review, administration and, if applicable, transportation of documents to and from the Permit Center, within appropriate timeframes established by the City. First review is to be performed within 6 business days and any subsequent review (resubmittals), within 6 business days. In the event that BV cannot perform these services within the designated timeframes, BV shall notify the applicant and the City of when to expect completion.
- BV shall furnish assigned personnel with all necessary materials, resources and training to provide plan review and/or inspection services for the City. BV shall assign personnel who are professionally qualified to perform plan review and/or inspection services. BV shall possess the following minimum qualifications:
  - » ICC Plans Examiner Certification
  - » ICC Building Inspector Certification or equivalent
  - » Professional Architect or Engineer License
  - » CASp Certification
  - » Valid California driver's license
- BV shall be granted access to the City's electronic document review system (DigEplan) to perform plan check reviews.
- BV shall be granted access to the City's permitting system (Accela) to update workflow status and submit review charges.
- BV shall upload all charges assessed at an hourly rate to the City's permitting system prior to updating workflow status and approval.
- BV will notify the City immediately if charges deviate from amounts specified in the City's permitting system at time of approval. This information must be emailed to Buildingdevelopmenttechs@roseville.ca.us within 2 business days of the date of approval.
- The invoices shall be itemized by technical discipline for auditing purposes.
- Invoices shall be emailed to DSAccounting@roseville.ca.us monthly. The monthly invoices shall match charges identified in the City's permitting system. Should a discrepancy occur, and the City was not notified of the deviation via email within 2 business days of the date of approval, the City will not approve the additional charges.
- BV will email monthly statements to Buildingdevelopmenttechs@roseville.ca.us to ensure invoices are being received and paid in a timely manner.
- BV shall agree to provide miscellaneous technical consulting to the City on an as-needed basis at mutually agreed upon hourly rates.

BV team members are familiar and proficient in the use of the City of Roseville's digital plan review platform, **DigEplan**. In collaboration with your team, we are well positioned seamlessly continue to meet your plan review needs with the use of this platform.

BUILDING PLAN CHECK SERVICES

BV has the capacity to provide the following plan review, inspections and permitting services to the City of Roseville:

- Architectural plans examination
- Structural plans structural calculations and engineering reports examination for compliance
- OSHPD and Commercial Modular ("Commercial Coach") Site and Foundation reviews
- OSHPAD III reviews for Healthcare facilities
- Mechanical, electrical, and plumbing code (MEP) plans examination
- Review and approval of alternate materials, alternative design and methods of construction
- Energy code plans examination
- Accessibility requirements including:
  - » Barrier free plans examination requirements
  - » Disabled access
  - » CASp
  - » ADA
- Green Building and LEED consulting including:
  - » LEED submittal consultation
  - » Green building consulting including CAL Green
  - » ENERGY STAR verification
  - » Energy efficiency audits
- Solar
- Civil Plans Examination including:
  - » Soils, grading and drainage
  - » NPDES/SWPPP
  - » Development
  - » Infrastructure
  - » Water and wastewater
  - » Sewer
- Fire, life & safety plan reviews including:
  - » Fire sprinkler/fire alarm
  - » Smoke detection and dampers
  - » Underground fire systems

Architectural Review

BV blends the knowledge of local conditions with a large pool of California licensed or certified building safety experts equipped to handle all building department needs. The firm is able to tailor its solutions specific to the City as a result of having provided plan review, inspection services, specialty reviews, and municipal administrative support for over 50 years.

Structural Review

BV is uniquely qualified and experienced in structural review and inspection. The firm has plan review and inspection personnel which have specialized experience with multi-family residential, hotels, resorts, retail, commercial, industrial, high-tech facilities, etc. BV has several experienced structural engineers on staff who are immediately available to tackle the City's most complex projects. BV can provide a complete structural review of design drawings, details, and calculations for both vertical loads and lateral seismic and wind forces, in accordance with the California Building Code structural provisions.

Mechanical Review

The California Building Code is supported by ancillary codes such as the California Mechanical Code and any others specifically designated and adopted by the City. BV's staff includes licensed and certified mechanical engineers and inspectors who have the knowledge, training, and experience necessary to review plans for compliance with these codes. Firm staff, who are available immediately to the City, have reviewed heating, cooling, distribution and return air systems, hoods, and product conveyance system plans for a variety of projects including single family residential, multi-family residential, custom homes, resorts, and hotels.

Electrical Review

Electrical review and inspection to verify energy compliance is included in all projects in accordance with mandates from the applicable energy standards for non-residential construction. The firm has licensed and certified electrical engineers and inspectors with extensive plan review and inspection experience which have reviewed service installation, transformers, emergency power, panel distribution, single line diagrams, power, and lighting system plans for single family residential, multi family residential, custom homes, resorts, and hotels.

Plumbing Review

The California Building Code is supported by ancillary codes such as the California Plumbing Code and any others specifically designated and adopted by the City. BV's staff has the knowledge, training, and experience necessary to review plans and inspect construction for compliance with these codes. The firm has licensed and certified mechanical engineers on staff to assist with plumbing reviews when needed. Firm staff have reviewed fuel gas, medical gas, potable and non-potable water piping and waste piping systems, and rainwater system plans for single family residential, multi family residential, custom homes, resorts, and hotels.

CASp / Disabled Access Review

BV has CASp certified individuals who are able to respond to the needs of the City quickly. The firm currently provides CASp certified individuals to jurisdictions throughout California to meet the requirements of SB 1608. Additionally, the team includes ICC Certified accessibility plans examiners and inspectors who routinely conduct accessibility reviews of

BUREAU VERITAS 180 Promenade Circle, Suite 150, Sacramento, CA 95834
P. 916.725.4200 | **F.** 916.725.8242 | www.bvna.com

projects throughout the state from minor restroom upgrades to significant ADA compliance improvements.

Green Building Review

BV has plan review engineers, plans examiners, and inspectors who are well versed and experienced with energy code compliance. Firm staff have been involved at various levels of energy code development in California and are certified to review and inspect for energy codes. BV staff have reviewed plans, and inspected projects, which incorporate new technology, and complex energy code compliance. The firm has staff available to the City who are CAL Green Certified.

Civil Engineering Review

BV's professional staff will familiarize themselves with all city, state, and federal requirements applicable to the project before beginning a review. Requirements for civil infrastructure originate from multiple sources including statutory requirements, local ordinances and design guidelines, federal requirements including ADA and NPDES, state requirements, and the requirements of any affected utilities, districts, or agencies.

Civil infrastructure and site plans are reviewed for conformance to the following quality standards:

- Greenbook
- Geotechnical report recommendations
- Conditions of approval of the use permit or tentative map
- Municipal code and local ordinances
- Jurisdiction's design guidelines and standard plans and specifications
- ADA and Title 24 accessibility standards
- NPDES C.3 requirements when applicable
- Environmental mitigation requirements
- Requirements of affected outside agencies and utility districts

Fire Plan Review

BV staff have the capacity to consult closely with the local Fire Department Chief or their designated representative on any areas which require code interpretation or where alternate methods are being proposed and considered. The firm's proposed fire plan check engineers have specific experience working with multiple types of facilities to ensure compliance with applicable codes, standards, and amendments, including CFC, CBC, the Adopted National Fire Protection Standards, the California Health and Safety Codes, CSFM, and U.L. BV's experience includes written comments and verbal communication with applicants to better understand requirements and provide direction for compliance, as well as close communication with fire departments to clarify policies, code interpretations, plan review status, and procedures. BV has reviewed hundreds of projects for fire safety components, including NFPA 13, NFPA. 72, and NFPA 101, among others.

BUILDING INSPECTION SERVICES OVERVIEW

In addition to the requested necessary deliverables outlined in the City of Roseville's RFQ, (pre-construction meetings, phone calls, photo uploads, My Government Online (MGO), etc.), BV inspectors are ICC certified and have extensive experience in the construction trades as well. BV inspectors are certified, at minimum, as either a Combination Residential Building Inspector or Combination Commercial Building Inspector. Fast track projects may be built into small phases based on incremental design and fabrication steps. In such cases, the firm's inspection team keeps daily logs to track corrections and plan review changes.

Inspector of Record

Bureau Veritas brings unparalleled expertise in serving as Inspector of Record (IOR) for building construction projects throughout California and the West Coast. BV's team of ICC-certified inspectors ensures rigorous code compliance against adopted California Building Codes, approved construction drawings, and project-specific documentation including RFIs, revisions, and shop drawings. Our inspectors are trained in comprehensive quality assurance protocols, maintain detailed daily logs, photographs, and inspection records, and coordinate seamlessly with project teams—from pre-construction meetings through final occupancy—to verify that all work conforms to approved plans and applicable regulations. Whether conducting routine inspections, special inspections (CASp accessibility, fire protection systems, or structural work), or managing complex multi-phase construction sequences, BV's IOR services provide jurisdictions with the technical rigor, responsiveness, and documentation integrity necessary to protect public safety and maintain regulatory compliance throughout the construction lifecycle.

Inspections Approach

The BV team has a two-step approach to ensuring the delivery of high quality services. BV is subject to regular controls and audits by authorities and accreditation bodies to ensure that its procedures, the qualifications of its personnel and its management systems comply with the applicable standards, norms, references or regulations. To maintain the accreditations and certifications, quality assurance methods are built into every function of our service. Quality assurance is achieved through a number of systems and tools.

- Service goals for timeliness, quality and professionalism are defined and tracked
- Training and education is required
- Random audits are performed
- Documented procedures are accessible, monitored, and updated

Fire Inspections (optional/available)

BV can place an experienced fire inspector for a single project or to augment existing staff to cover staff vacations and other leaves of absence. We can even provide all fire inspection on a daily basis. Systems and components we inspect include (but are not limited to):

- Fire sprinklers, including systems beginning at property line, as directed
- Fire pumps
- Fire alarm systems
- Automatic suppression systems, including Halon, FM200, and CO2
- Hoods
- Duct extinguishing systems
- Exits
- Emergency lighting
- Voice evacuation systems
- Fire permit inspections

PLAN REVIEW PROCESS & METHODOLOGY

Our team becomes familiar with the requirements of a public agency before beginning a review and continually monitors trends and legislation in order to advise the City on ordinances and standard practices to consider for adoption. BV has extensive public sector experience, which assures that public interests are fully protected. We understand that careful consideration of issues and impacts are needed in addition to technical expertise. We have devoted a great deal of time over the years to refining our approach and developing documentation to assist our clients and train our personnel to ensure highly efficient plan review procedures.

BV will work to ensure that submittals are properly coordinated and tracked by following an established internal plan check coordination process in which each plan received for review is entered into our ProTrack database, processed and returned on time to the client.

Our plan tracking procedures are designed to track each submittal throughout the review process and maintain accurate and comprehensive records for each submittal. To accomplish this we:

- **Screen and log each application** to assure that they are routed to all plan reviewers in a timely manner.
- **Submittals are reviewed for compliance** with all construction codes, local ordinances and state laws. Interpret code requirements for members of the public and City employees. The log serves as a tracking device to assure turnaround times and completeness of the review.
- **Plan reviews will be done in accordance** with local, state and federal regulations with which local jurisdictions are mandated to enforce as well as all codes and ordinances in effect by adoption at the time of plan review. Preliminary consultations will be provided to the applicant upon request, to assist and guide them in the design and plans preparation process.
- **Information shown on each permit application is verified**. Construction valuation is based on information provided by the City of Roseville and compared to estimates provided by the applicant.
- **Provide a thorough architectural and structural review** of design drawings and details for compliance with the California Building Code architectural provisions, including provisions for safety glazing, building security and noise insulation performance standards, to name a few. These reviews can also be performed on revisions to plans which have previously been approved for permit issuance.
- Preparation of a **review letter report.**
- **Plan review management.**
- **BV assures that corrections are handled as quickly and as clearly as possible.** Our goal is to help the applicant through the plan review process. All corrections are identified based on compliance with specified codes and regulations.
- **Weekly, Quarterly** (and/or other requested dates) status reports and/or coordination meeting times will be made available. (Templates/samples available upon request).
- **Adherence** to City of Roseville's Policy 1.6 Manual of Policies and Procedures (dated 05-05-11). BV team members are or will familiarize themselves with the requirements within Policy 1.6.

BV assures that corrections are handled as quickly and as clearly as possible. Our goal is to help the applicant through the plan review process. All corrections are identified based on compliance with specified codes and regulations.

Generally, corrections are identified in two ways. Notes are made on plans during electronic review or on hard copy plans if appropriate, and a correction sheet is generated, detailing what items need to be addressed before plans can be approved. The City shall approve the development of any customized correction sheets. Correction sheets for specific projects shall be forwarded to the City along with a cover memo containing at least the following:

- The date(s) plans were received and reviewed
- The date(s) the applicant was notified of completed plan reviews
- The name and telephone number of the applicant

During the plan review process, BV is prepared to meet with the applicant or architect/engineer, City employees or consultants at any time. Telephone discussions or meetings

at project sites are welcomed to assure that any plan review issues are handled efficiently. BV staff will investigate, resolve and respond to complaints, as assigned. Make referrals to appropriate departments and/or staff. We propose to meet at the offices of the building and safety division or at a particular project site. Our goal is to issue approved plans as quickly as possible but in full compliance with laws, codes, ordinances and regulations. Upon completion of the plan review, the following information package is prepared and logged as a minimum:

- ✓ Pick-up of plans to be reviewed
- ✓ Completed plan check documents including sign-offs
- ✓ Transmittal letter documenting any conditions associated with issuance of a permit, if any
- ✓ Marked up plan review documents
- ✓ Two sets of approved building plans
- ✓ Backup documents and reports
- ✓ Documents provided in desired City format
- ✓ Be available within one (1) business day to respond to questions from the City

BV assumes responsibility for the pickup and return of plans via courier/FedEx and/or other requested methods, should the City request. All plans shall be picked up from the City offices within 24 hours of notification. Should the volume of work be sufficient, we propose to establish regular pick up of plans on a consistent basis. We will also utilize shipping courier, at no additional cost to the City. Upon completion of each plan review, we will forward a copy of the correction list to both the City and the applicant, by email. When corrected plans are resubmitted, the previous procedure will be followed or the applicant may schedule an office visit to go over any corrections in person. When plans are completed they are stamped, signed and forwarded by BV personnel. Our transmittal forms will be customized for the City of Roseville.

Accurate, Timely, and Responsive Plan Reviews

BV's plan check process highlights the tools and techniques the firm will employ to deliver quality, accurate, timely, and responsive plan reviews:

- Reliable and Responsive Service: BV's Project Manager, through the firm's **CARE** plan review and processing program, proactive communication, proven project management tools, and best practices will anticipate the City's needs and quickly respond with accurate and detailed information every step of the way. The firm is available to meet with the City at its convenience to discuss procedures and projects to maintain momentum and schedule.
- Efficiently Meet Turnaround Review Schedule and Maintain Development Momentum: A premium will be placed on BV staff's already well-grounded knowledge of the City's processes and requirements to pro-actively facilitate communication and processing. The firm will work to ensure proven quality assurance and schedule control measures are implemented.
- Maintain Accuracy and Cost Savings Through Proven Processes and Continuity: BV is able to provide integrated, standardized processes and innovative digital, web-based solutions at no additional cost. Utilized by seasoned staff members who have worked successfully on plan check projects, this helps ensure reviews are consistent, thorough, accurate, and done right the first time. The firm is able to customize its approach for the City based on its needs in order to deliver solutions with positive results.
- Customized Check Lists and Tracking Logs: A key to maintaining close communication is the ability to give the stakeholders (including elected officials, City staff, businesses, property owners, and other members of the public) status updates on where projects are in the review process. BV will utilize customized check lists and tracking logs for the City according to its needs to ensure the successful delivery of services.

Electronic Plan Review

BV provides an alternative solution to traditional plan checking. By utilizing electronic plan submittal and commenting, our plan reviewers can quickly and accurately review plans for compliance with applicable codes; this allows for economical movement of plans and quick turnaround, eliminating shipping time and costs. In this way, electronic plans with comments can be viewed and discussed with tenant, designer, and plans examiner as needed to resolve issues quickly and efficiently.

The proposed personnel have extensive experience using many commonly used platforms such as **DigEplan** (Roseville's current provider), Energov, Bluebeam & ProjectDox, e-PlanSoft, Energov, iWorq, Central Square, and Cityworks, etc.

As part of this process, plans are first submitted as PDF files via a secure and confidential FTP site in which the client also has access. Our staff then reviews these plans and places comments and redlines directly on the plans, corresponding to areas needing revisions.

Next, redlined plans with comments are forwarded to, or placed on, the secure FTP site for the designers, engineers, and architects. Plans can then be revised and resubmitted via the same method described. Once all items are resolved, hard copy plans are sent to BV for approval stamps and signatures. Finally, these stamped and signed approved drawings are sent to the jurisdiction for permitting.

Benefits of Electronic Plan Review to the City

- A paperless solution – available anytime, anywhere

- A web-based tool accessible by customers, applicants and employees
- Improved project management and communication
- Delivers online reports and other data as required by the project
- Simplifies administrative procedures and streamlines communications
- No expensive hardware / software requirements or extensive training

PERMIT TECHNICIAN SERVICES

BV staff will work with the jurisdiction staff to seamlessly staff the public counter, issue counter permits, answer plan review or inspection questions, and assist the public with a high level of customer service. Our staff will be trained and proficient in the policies, procedures, and administrative and technical regulations of the jurisdiction. All staff members are familiar with various software systems and are able to answer questions pertaining to inspections, plan approvals, business license approvals, and certificates of occupancy

Permit technician services may include:

- Interfacing with the public, internal staff, and related departments
- Review of permit applications for completeness
- Acceptance and routing of plans
- Calculation and/or fee collection
- Issuance of permits
- Review and issuance of counter permits, when authorized
- Maintenance of permit records
- Use of jurisdiction permitting programs and/or software, where applicable (the City's current provider, **Accela**)

QUALITY ASSURANCE PROGRAM

BV associates all share the responsibility for continual improvement of the firm's quality management process and believe the program, supported by the BV business model and its code of ethics, will ensure the continual delivery of high quality products and services to the City of Roseville. In doing so, the firm will establish itself as the City's preferred supplier in conformity assessment and certification services in the fields of quality assurance, health and safety, environment, and social responsibility (QHSE).

BV's quality management system provides the framework for continual improvement of its internal management processes and resources which will in turn add value for the City through the services offered and delivered. In addition, our quality management system gives the company and the City the confidence that the provision of services and products will be delivered consistently to predetermined high standards worldwide.

Budget Controls and Billing Related Quality Assurance - FLEX

Budget control is achieved by closely monitoring work assignment labor and direct expenses. Work reports must be completed by each individual and the labor hours must be approved by the project manager before being charged to The City. Similarly, expense reports and other direct expenses must be approved by the project manager prior to entering into the cost data system.

To ensure optimal administration of the main functionalities of contract management and the facilitation of billing related quality assurance, BV utilizes FLEX, a software developed by J.D. Edwards World Solution Company. FLEX is a reference repository which is comprised of all billing and contractual information (invoices, work assignments, expenses, labor reports, project reports, etc.). This state of the art system assists BV in implementing and maintaining a number of budget and cost control processes which:

- Ensures data integrity and allows for a flexible and secure billing process
- Enhances billing efficiency and productivity
- Minimizes revenue leakage by monitoring its sources through control reports

FLEX ensures contract and budget control via standardized features and alignment of project information in real time. Additionally, the system is designed to promote contract follow up from project outset to closing, which helps to establish and maintain optimal communication.

Project Management and Schedule Controls - Quickbase Protrack

Work assignment schedules will be managed on several levels. The project manager will maintain regular contact with the City manager to communicate the project status and progress on deliverables. In addition, an internal schedule including critical milestones and deliverable due dates will be established prior to initiating the task work. This allows ample time for editorial and technical review, changes, and assurance in schedule compliance.

In order to efficiently and effectively track project workflow BV employs Protrack, a quality assurance software solution created by Quickbase. This custom-built program was developed specifically to meet the needs of the firm and enhance its project management capabilities in service to its clients. Protrack monitors numerous pieces of project data in real time including, but not limited to, project schedule status, active projects by office, project type, number of active projects per client, weekly number of new projects initiated, and much more. The program's dashboard allows users to generate reports which can provide an overall snapshot of BV's current activities or can be filtered to present precise

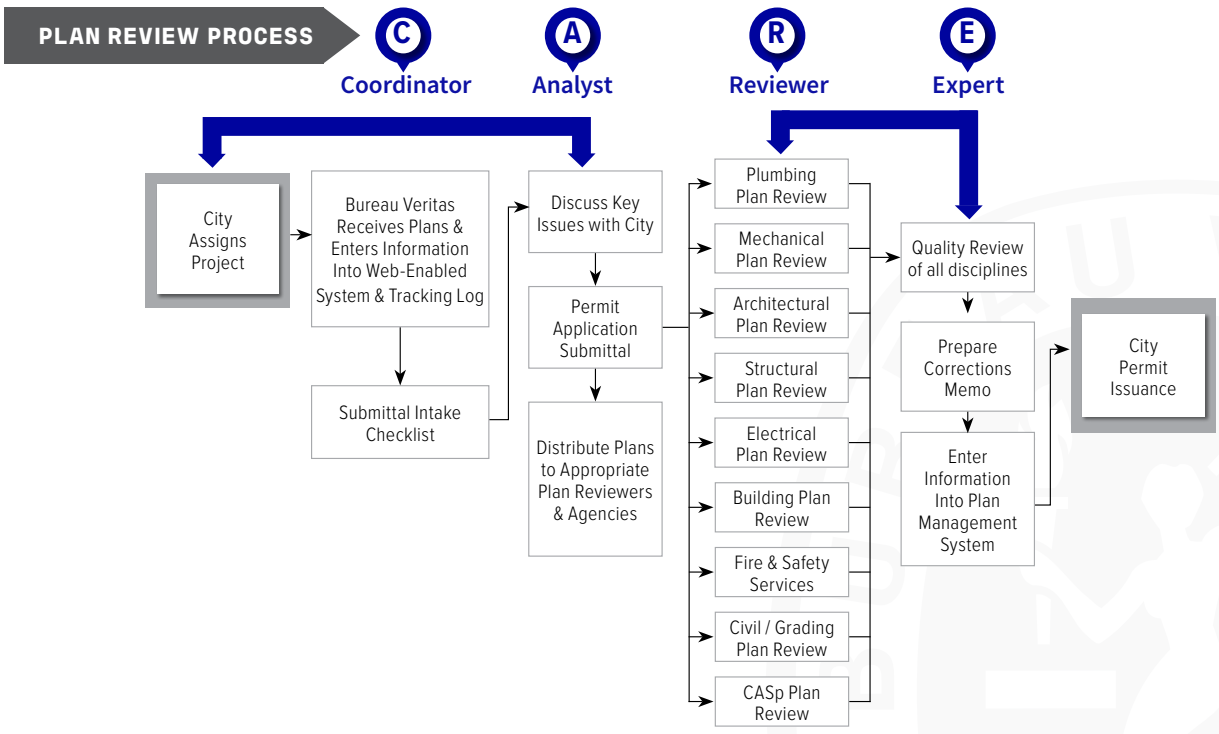
details regarding a specific project or client. The crucial information monitored in Protrack not only aids in maintaining schedules and project turnaround times but also gives the firm the capacity to make decisive course corrections which ensure deliverables of the highest caliber and complete customer satisfaction. Furthermore, Protrack is designed to work collaboratively with BV's billing and invoicing software, FLEX, to enable the consistent completion of projects on-time and on-budget.

CARE Program – A Proven, Formalized & Integrated Plan Review Process



The plan review process we follow for efficient completion of concurrent task management is shown in the flowchart below and managed through our CARE Program, a formalized and integrated process whereby Coordination, Analytical, Review, and Expert management/quality control functions are consistently implemented on each and every project. We will implement a comprehensive program based on best practices to validate that each and every review is thorough, accurate, consistent, and timely. This system's success is based on thousands of hours of practical, real-world experience by our dedicated personnel and their unique ability to interact quickly and efficiently with your staff. The specific roles of each of our CARE elements include:

Coordinator: Our clerical personnel will handle various administrative functions, such as logging information (project tracking, time budgeting), managing project controls, maintaining and distributing communications, reviewing agendas and ordinance issues, and fielding calls on project status. The Coordinator is the first line of contact for each project submittal.

Analyst: Our analysts will review submittals, title sheets, and non-design items; maintain files; monitor due dates; monitor contract budget and status tracking reports; and coordinate invoicing. Our analysts also maximize and "right place" personnel resources to meet turnaround times in a quality manner. When assigning resubmittals to staff, our Analyst ensures consistency by passing the project to the same reviewer that performed the previous reviews. Reassignments are done when unforeseen circumstances dictate.

Reviewer: Our experienced public works plan reviewers will routinely review agency standards, ordinances, guidelines, and checklists; create comments letters; coordinate project return with the coordinator; attend review meetings; and communicate questions/solutions to project stakeholders. Because of our depth of resources and project tools (checklists, corrections letters, etc), reassigned projects can be reviewed without missing deadlines or causing unnecessary rechecks.

Expert: Our experts will provide quality review of applicable plans, studies, and reports in accordance with all accepted engineering, Subdivision Map Act, and industry professional practices and shall comply with the applicable regulations; visit the client contact regularly; monitor project progress with the reviewer; disseminate project/agency information to the team; train team members; peer review comments letters; and communicate questions/solutions to stakeholders. Our Experts provide the quality assurance reviews to each project which will minimize the number of resubmittals.

5.7 TAB E: SERVICE PLAN

SERVICE LEVEL AGREEMENT

BV is able to meet the City of Roseville's requested service response times. These include but not limited to:

- One business day response commitment for answering emails, phone calls, requests, etc.
- Turnaround times assurance
- Field Inspections requests
- Escalation procedures for delays
- Document transportation logistics
- Immediate availability of staff due to BV's large pool of certified experts

PLAN REVIEW TURN AROUND TIMES

BV is able to meet the City of Roseville's needed turnaround times, including plan review activities on a fast-track basis.

Turnaround times for each submittal will relate to the size and nature of the project and its impact on the construction schedule. To reduce turnaround times for plan review, the firm can use electronic submittals, phased submittals, conference calling, and videoconferencing.

BV has established long-term partnerships with numerous agencies. The firm understands accuracy, efficiency, and integrity in all aspects of professional services are required. Testimony to its professional excellence is the fact it has provided services to many of its municipal clients since their incorporation and numerous others are either repeat clients or come from client referrals. Because of the firm's large pool of accessible resources it is able to assemble experienced personnel in order to help with project schedule recovery when necessary. BV's team will maintain efficient turnaround times on all reviews as a key measurement of its performance for plan review services. The schedule below is representative of the review times associated with the type of construction the City can anticipate.

Plan Review Turnaround Times*:	INITIAL REVIEW	RECHECK	EXPEDITED INITIAL REVIEW	EXPEDITED RECHECK
Residential				
New Construction: Single family dwelling	7 working days	5 working days	5 working days	3 working days
New Construction: Multi-Family/Apartments/ Condominiums (and most major projects)	10 working days	7 working days	7 working days	5 working days
Additions including 2-Story Additions/ Remodels/Pools-Spas (and minor projects)	7 working days	5 working days	5 working days	3 working days
Fire Sprinklers and Fire Alarms	10 working days	5 working days	5 working days	3 working days
Non-Residential				
New Construction/Large Tenant Improvement (and most complex/major projects)	10 working days	7 working days	7 working days	5 working days
Additions/Remodel/Minor Tenant Improvements (and minor projects)	10 working days	7 working days	7 working days	5 working days
Commercial Fire Sprinklers, Alarm, Detection and Suppression	10 working days	7 working days	7 working days	5 working days

*Extremely large and/or complex projects to be negotiated

INSPECTION TURN AROUND TIMES

- Perform all inspections on the following day after receiving inspection requests
- Weekend and emergency response type of inspections are available upon request

EXHIBIT “B”

5.8 TAB F: COST PROPOSAL

BV's pricing reflects our commitment to the success of the City of Roseville by helping you maintain significant quality and cost saving benefits. These include:

- ✓ Reduced plan review turnaround times and rapid responses to inspection requests
- ✓ Implementation of electronic plan review processes to help improve efficiency and control costs
- ✓ Commitment to maintain a proposed rate structure for the life of the initial contract period
- ✓ Highly qualified and licensed/certified staff
- ✓ Confidence of working with a well-established consultant in business since 1828

RESOLUTION NO. 26-213

APPROVING AN ON-CALL PROFESSIONAL SERVICES AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND TRB AND ASSOCIATES, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, an On-Call Professional Services Agreement for Building Plan Review and Inspection Services, by and between the City of Roseville and TRB and Associates, Inc., has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said on-call professional services agreement is hereby approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

BE IT FURTHER RESOLVED, that the City Manager or his designee is authorized to execute four (4) additional one (1) year renewals without further City Council approval, provided that the applicable budget is approved by the City Council, or until staff determines that continuing with this consultant is not in the best interest of the City.

PASSED AND ADOPTED by the Council of the City of Roseville this ___ day of _____, 2026, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

_____
MAYOR

City Clerk

ON-CALL PROFESSIONAL SERVICES AGREEMENT

Building Plan Review and Inspection Services

THIS AGREEMENT is made and entered into this ___ day of _____, 20__, by and between the City of Roseville, a municipal corporation ("CITY"), and TRB and Associates, Inc., a California corporation ("CONSULTANT"); and

W I T N E S S E T H:

WHEREAS, CITY issued Request for Proposal # 06-0009 for professional services consisting of on-call building plan review and inspection services; and

WHEREAS, CONSULTANT has prepared a response to the Request for Proposal dated March 24, 2026, which describes the scope of services to be performed by CONSULTANT, and the hourly rates for performance of such services; and

WHEREAS, CONSULTANT is qualified and experienced to provide professional building plan review and inspection services on an on-call basis.

NOW, THEREFORE, the parties agree as follows:

1. Term. The term of this Agreement shall commence upon execution and expire on June 30, 2027. The City Manager may, in his or her discretion, elect to extend the Agreement in one (1) year increments for up to an additional four (4) years by giving CONSULTANT thirty (30) days advance written notice of each optional one (1) year renewal. Such extensions shall be memorialized by a written amendment to this Agreement.

2. Services. CONSULTANT shall perform, at the direction of CITY, the scope of the on-call services as described in EXHIBIT "A," attached hereto and incorporated herein by this reference. Individual tasks will be awarded by CITY on an as-needed basis. CITY may assign work to one, or more than one consultant from an approved qualified list. CITY reserves the right to unilaterally assign work to any consultant as it deems prudent or, if no services are required, no work. CITY makes no specific guarantee of a minimum or maximum number of hours or amount of tasks or services, which shall be required of any single consultant. In addition, the inclusion of any consultant on any qualified list, if so utilized by CITY, shall in no way be considered an exclusive agreement to provide service for CITY.

3. Compensation. For its services provided hereunder, CONSULTANT shall be compensated on a time and expense basis in accordance with the hourly rates as described in EXHIBIT "B," attached hereto and incorporated herein by this reference. Any proposed increase in the effective rates for future services must be preceded by at least a 90-day written notice to the contracting department. Total compensation shall not exceed three hundred fifty thousand dollars ($350,000) for the initial term. Total compensation for optional renewal years of this Agreement shall not exceed three hundred fifty thousand dollars ($350,000). Total compensation for the initial term and all optional renewal years shall not exceed one million, seven hundred fifty thousand dollars ($1,750,000). Adjustment to the total compensation per year shall require a written amendment to this Agreement, subject to approval by the City Council.

CONSULTANT shall submit one monthly invoice for its services. Such invoices shall be delineated by task, the person performing the services, and the hourly rate, which shall be stated in time increments of not greater than one tenth (1/10) hours. CITY shall pay invoices within

thirty (30) days after receipt, if the services specified in the invoice have been satisfactorily completed.

4. Indemnification. To the fullest extent allowed by law, CONSULTANT shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of CONSULTANT's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

CONSULTANT agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONSULTANT and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

CONSULTANT's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

5. Insurance. CONSULTANT agrees to continuously maintain, in full force and effect, the following minimum policies of insurance during the term of this Agreement.

COVERAGE	LIMITS OF LIABILITY
Workers' Compensation	Statutory
Commercial General Liability	$1,000,000 each occurrence $2,000,000 aggregate Personal Injury: $1,000,000 each occurrence $2,000,000 aggregate
Automobile Liability	$1,000,000 combined single limit
Professional Liability (errors and omissions)	$1,000,000 per claim $2,000,000 aggregate

a. Form. CONSULTANT shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. CONSULTANT shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of CONSULTANT. The additional insured coverage under the CONSULTANT's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and

limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. CONSULTANT shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Subcontractors. CONSULTANT agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, CONSULTANT shall require its subcontractors to agree to be bound to CONSULTANT and CITY in the same manner and to the same extent as CONSULTANT is bound to CITY under this Agreement. Additionally, CONSULTANT shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of CITY's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

f. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full

certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

g. Waiver of Subrogation. CONSULTANT hereby agrees to waive subrogation which any insurer of CONSULTANT may acquire from CONSULTANT by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all worked performed by CONSULTANT, its employees, agents and subcontractors.

h. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve CONSULTANT of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

6. Records. CONSULTANT and its subcontractors shall maintain all files and records relating to the services performed hereunder during the term of this Agreement and for a period of not less than one (1) year after the date of termination or expiration. Provided, however, that in the event of litigation or settlement of claims arising from the performance of this Agreement, CONSULTANT and its subcontractors shall maintain all files and records until such litigation, appeals or claims are resolved. Duly authorized representatives of CITY shall have right of access during normal business hours and after reasonable notice to CONSULTANT's and subcontractors' files and records relating to the services performed hereunder and may review and copy the files and records at appropriate stages during performance of the services and during the one (1) year period following termination or

expiration of this Agreement. CONSULTANT shall include this provision in its contracts with all subcontractors.

7. Prevailing Wages. When applicable, for purposes of this Agreement, CONSULTANT and its subcontractors shall comply with all applicable prevailing wage laws, e.g., but not limited to, California Labor Code Sections 1770 et seq. In accordance with said Section 1775, CONSULTANT shall forfeit as a penalty to the City two hundred dollars ($200) for each calendar day or portion thereof for each worker paid less than the prevailing rates for such work or craft in which such worker is employed for any work done on-site under the Agreement by CONSULTANT or by any subcontractor in violation of the provisions of the Labor Code and in particular, Labor Code Sections 1770 to 1780, inclusive. In addition to said penalty and pursuant to said Section 1775, the difference between such stipulated prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the stipulated prevailing wage shall be paid to each worker by CONSULTANT or the applicable subcontractor.

Pursuant to the provisions of California Labor Code Section 1773, the contracting department has identified the source, stated below, of the general prevailing rate of wages applicable to the site to be done, for straight time, overtime, and holiday work. The holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of the particular craft, classification or type of worker concerned. These wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm.

Pursuant to Labor Code Section 1773.2, general prevailing wage rates set forth above, which forms a part of this Agreement, shall be posted by CONSULTANT at a prominent place at

the work site. Prevailing wage rates to be posted at the work site will be furnished by the contracting department. The possibility of wage increases is one of the elements to be considered by CONSULTANT in determining its proposal and will not under any circumstances be considered as the basis of a claim against CITY or the Agreement.

8. Contractor Registration. No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this Agreement, CONSULTANT and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. CONSULTANT is hereby notified that this Agreement is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

9. Time is of the Essence. Time is of the essence of this Agreement.

10. Compliance with Laws. CONSULTANT shall comply with all federal, state and local laws, ordinances and policies as may be applicable to the performance of services under this Agreement.

11. Public Contracts: Conflicts of Interest. CONSULTANT's duties and services under this Agreement shall not include preparing or assisting CITY with any portion of the CITY's preparation of a request for proposals, request for qualifications, or any other solicitation regarding a subsequent or additional contract with CITY. CITY shall at all times retain responsibility for public contracting, including with respect to any subsequent phase of this project. CONSULTANT's participation in the planning, discussions, or drawing of project plans or specifications shall be limited to conceptual, preliminary, or initial plans or specifications. CONSULTANT shall cooperate with CITY to ensure that all bidders for a subsequent contract on any subsequent phase of this project have access to the same information, including all

conceptual, preliminary, or initial plans or specifications prepared by CONSULTANT pursuant to this Agreement.

12. Ability to Perform. CONSULTANT agrees and represents that it has the time, ability and professional expertise to perform the services required under this Agreement.

13. Governing Agreement. In the event of any conflict between this Agreement and its EXHIBITS, the provisions of this Agreement shall govern. In the event of any conflict between any of the EXHIBITS, the provisions of the first in order of attachment shall govern.

14. Assignment. CONSULTANT is employed to perform unique personal services. CONSULTANT shall not assign this Agreement without the prior written consent of CITY. CONSULTANT shall not employ or otherwise incur any obligation to pay other specialists or experts for services in connection with this Agreement, without prior written consent of CITY.

15. Independent Contractor. CONSULTANT, inclusive of its agents, officers, employees, volunteers, independent contractors, and subcontractors, shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

CONSULTANT and CITY agree that: (a) CONSULTANT is free from the control and direction of CITY in connection with the performance of the work; (b) CONSULTANT is providing services directly to CITY; (c) CONSULTANT has and will maintain at all relevant times a business license; (d) CONSULTANT maintains a business location that is separate from CITY; (e) CONSULTANT is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) CONSULTANT actually contracts with other businesses to provide the same or

similar services and maintains a clientele without restrictions from CITY; (g) CONSULTANT advertises and holds itself out to the public as available to provide the same or similar services; (h) CONSULTANT provides its own tools, vehicles, and equipment to perform the services; (i) CONSULTANT has negotiated its own rates; (j) CONSULTANT set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONSULTANT has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

16. Representations and Warranties. CONSULTANT warrants that it has not employed or retained any company or person, other than a bona fide employee working for CONSULTANT, to solicit or secure this Agreement, and that it has not paid or agreed to pay any company or person, other than a bona fide employee, any fee, commission, percentage, brokerage fee, gift or any other consideration, contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, CITY shall have the right to terminate as void this Agreement, without liability, or, in its discretion, to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such fee, commission, percentage, brokerage fee, gift or contingent fee.

17. Successors in Interest. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

18. Copyright, Ownership and Use of Materials. All tangible material ("Material") created or delivered pursuant to this Agreement is considered a work made for hire under the Copyright Act. To the extent such Material does not qualify as a work made for hire, CONSULTANT hereby assigns to CITY all right, title, and interest, including but not limited to all copyrights, in all Material created by CONSULTANT in its performance under this

Agreement. Material constitutes the scope of work outlined in Exhibit A and attached hereto, and all written and other tangible expressions, including but not limited to, drawings (including computer aided drawings), papers, documents, reports, surveys, renderings, exhibits, sketches, maps, models, prints, paintings or photographs, in any and all media or formats in which such materials have been created or are maintained. All Material furnished by CONSULTANT is, and shall remain, the property of CITY.

CONSULTANT shall execute any documents necessary to effectuate such assignment. In the event that CONSULTANT uses, employs, designates, or retains any person or entity who is not an employee of CONSULTANT, to perform any work required of it pursuant to this Agreement, CONSULTANT shall require said person or entity to execute an agreement containing the preceding paragraph.

19. Termination of Agreement. CITY may terminate this Agreement without cause by giving CONSULTANT ten (10) days advance written notice from the City Manager. CONSULTANT may terminate this Agreement without cause by giving CITY thirty (30) days advance written notice. CONSULTANT understands that continuation of this Agreement past June 30th of any given year is contingent upon appropriation of funds for such purpose in the budget of the City of Roseville in the sole discretion of the City Council. In the event of termination through no fault of CONSULTANT, CITY shall compensate CONSULTANT for services performed as of the date of termination, upon the release to CITY of all Material hereunder, in any and all media or formats in which such materials have been created or are maintained. CITY retains the right to receive and use any MATERIAL, notwithstanding any termination or any dispute regarding the amount to be paid.

20. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance hereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

21. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

22. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

23. Notices. Any notices to parties required by this Agreement shall be delivered personally or mailed, U.S. first class postage prepaid, addressed as follows:

CITY OF ROSEVILLE	CONSULTANT
Development Services Department Attn: Mike Isom 311 Vernon Street Roseville, CA 95678	TRB and Associates, Inc. Attn: Todd Bailey 3841 N. Freeway Boulevard, Suite 135 Sacramento, CA 95834

Either party may amend its address for notice by giving notice to the other party in writing.

24. Integrated Agreement. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ___ day of _____, 20__, and CONSULTANT has caused this Agreement to be executed.

EXHIBIT "A"

Understanding the Needs of the City of Roseville

TRB understands that the City of Roseville is looking to contract for Building Plan Review and Inspection Services to assist the Development Services Division on an as-needed (on-call) basis, as scoped in the City's Request for Proposal (RFP) document. The achievement of the City's goals is at the heart of the services we provide. We have been able to consistently meet our clients' goals by implementing the following principles:

- ✓ Garnering a problem-solving attitude
- ✓ Gaining awareness of the issues that affect the community
- ✓ Applying the right expertise in a responsive manner

As a highlight, TRB has provided the requested scope of services to the City of Roseville since 2021. Given our work history serving the City of Roseville, we submit that we are well equipped to perform the services requested under the City's current RFP.

To verify, we would like to confirm that we are in agreement with the Scope of Services as presented in Section 3.0 of the City's RFP document.

Project Approach Overview

Our approach to this engagement is centered on using experience staff and fostering open communication between our firm and the City of Roseville. On an ongoing basis, our **Project Manager, Petya McInnis,** is committed to maintaining regular communication with City staff to ensure that we are kept appraised of current code interpretations and policies, and to enhance our ability to quickly respond to any issues that may arise during permit counter, document review, and/or inspection activities. We value the importance of the City's projects and are committed to meeting all project service delivery deadlines. We will diligently document and report all plan review and inspection findings, tracking information, and other reports, as required by the City.

Throughout this engagement, our key team members will be available to meet with City staff either via phone or in person to address questions that may come up during the course of a project. We understand that being accessible to project stakeholders is essential in helping ensure that decisions are made in timely manner; as such, our firm is committed to responding to all inquiries within 1 business day. We encourage discussions via in-person meeting, telecon, and/or Zoom, WebEx or similar formats as agreeable and necessary to achieve the most expeditious results.

Project Workplan

Project Initialization, Scheduling & Management

From our prior experience supporting municipal building departments and divisions, we know that developing a comprehensive understanding of the project construction documents, and supporting the timely execution of the project schedule is of critical importance. To confirm, for any plan review or inspection assignment, TRB members will possess a thorough understanding of the project documents and will be committed to supporting the City with its specific project schedule needs.

Preliminary Meetings and Project Administration

Shortly after project award, we would propose holding a meeting to verify project expectations, deliverables, scheduling, and logistical considerations. To this end, we would seek to verify the key roles and responsibilities for all team's party to the project. We would also request information specific to each plan review or inspection assignment including plan drawings and specifications, as appropriate. Further, we can outline and discuss applicable standards and provide an overview of our Document Management System if desired.

Our Project Manager will coordinate with our Plan Review and Inspection Services Managers, to allocate plan review and inspection resources appropriately. The Plan Review Manager will be responsible for oversight of all plan review services provided, and our Inspection Services Manager will be responsible for monitoring and managing any and all Field Inspection and Safety activities. Regular communication between our Project Manager and the TRB team will be ongoing throughout this engagement to ensure alignment of project staffing and schedule needs.

Project Communications

We understand that ongoing communication is essential to ensuring project success. We promote and endorse any tools which help enhance communications between all project participants. We have found that maintaining regularly scheduled conference calls can be an effective tool for doing so. We have utilized these calls as a means for TRB, designated project owner, constructor, designer representatives, and others to discuss project schedule and critical path, manpower needs, potential challenges, and other related matters. Having these discussions allows teams to identify when additional support may be needed and how resources may be best allocated to accommodate the project schedule and critical path.

Throughout this engagement, our team members will be available to attend meetings with City staff, as well as design, constructor, and owner teams as needed. We understand that these meetings are crucial to help ensure that important decisions are made in timely manner.

Plan Review

TRB is prepared to perform as-needed plan review services for residential, multi-family residential, commercial, and industrial projects encompassing building code, electrical, plumbing, mechanical, fire protection (if requested), Title-24 energy, accessibility, and green building standards; as well as floodplain, wildland urban interface fire severity zone, stormwater, hazardous materials, and state housing law Title-25 factory-built structure considerations, as applicable.

Please refer to **Tab E** of this proposal for further details on our plan review scope and approach.

Inspection

TRB is prepared to provide Onsite Inspection staffing to the City. Our field inspector's role would include performing all code-mandated inspections as well as those designated by the City; and reviewing change orders / engineering change notices, information requests and similar documentation to verify that any field changes are reviewed for code compliance by City staff as necessary. Our field inspectors will maintain daily inspection activity records and take photo documentation (if desired by the City) as directed.

Please also refer to **Tab E** of this proposal for further details on our inspection and staff augmentation scope and approach.

Quality Control Assurance

Quality and on-time service are of paramount importance to us. Though we employ only licensed and experienced plan reviewers, certified inspectors and key administrative staff and expect their work to be of high standard, we have instituted a quality control policy to ensure this standard is maintained. At the core of our quality control approach is a "two sets of eyes" policy in place.

All work performed by staff is reviewed for quality control by senior members of our team. Our Project Manager, Plan Review Manager, and Inspection Services Manager hold primary responsibility for ensuring accuracy and consistency (QA/QC) in the application of adopted codes and standards. On an ongoing basis, our Inspection Services Manager assesses Inspector performance, and our Plan Review Manager assesses Plan Review and Document Control performance for both employees and any subcontractors. In addition, our organization performs annual Performance Evaluations to monitor project performance and identify training and promotional opportunities.

Code Interpretation & Conflict Resolution

The TRB team is well versed with the intent of codes and standards as they apply to the noted range of projects expected on this assignment. To ensure that our technical findings are easily understood, we work to ensure that all of our plan review and inspection findings and communications are done in a clear and concise manner. As part of this effort, we include references to any applicable Code or Standard sections to help ensure recipients understand the basis of our findings. Throughout the project, our team will be available to answer questions related to codes or standards at any time.

For those items where additional information may be needed, our team has access to additional resources in the form of code and commentary guidelines, illustrations, and agency interpretations. TRB is prepared to offer any reference information to whomever may be requesting the clarifying material.

In addition, our team has experience supporting public agencies with Alternate Materials and Methods Requests. If a project warrants such consideration, we are qualified and prepared to review all AMMR requests.

As part of his purview, **Paul Armstrong, PE, CBO** will serve as a facilitator on any code interpretation items. Paul has extensive expert code interpretation experience on projects of great complexity in California and in national and international settings. Of note, Mr. Armstrong's experience includes working for International Code Council (ICC/ICBO) for over 14 years.

Occasionally competing interpretations or conflicts between stakeholders may necessitate meeting to discuss matters where there may be disagreement. In such cases, it has been our experience that simply having face-to-face discussions with all relevant participants can be an effective tool for making progress toward resolution. For those rare cases where a disagreement cannot be resolved, our project manager will coordinate with the City to discuss the item in question, offer our basis for interpretation, and verify a suitable path forward.

Record Keeping and Document Management

TRB understands that projects can involve concurrent, fast-track design and construction efforts, thereby necessitating implementation and management of well-organized processes in place to name and track documents in their various stages of development and review. TRB understands that tracking and maintaining well documented plan review and inspection findings is of paramount importance.

To facilitate timely access to construction inspection results and status information, TRB will initiate its project tracking system, *PlanTrack Plus®* for use on this assignment. With our system, all plan review and inspection activities can be documented and posted daily. Correspondence issued by our team is posted and maintained for access by City and designated project stakeholder staff. Our postings can include plan review comment letters and detailed inspection reports (i.e. approval/correction notices), project information, meeting notes, etc.; all of which may be updated on a daily basis. In addition, if so desired by the City, we can also accommodate incoming electronic document postings (i.e. electronic plans, calculations, RFI's, etc.) to allow paperless documentation of the project. Our Document Control Team will oversee all plan submittal and inspection record processing, utilizing proven document management control methods.

Stable, Professional Team Assurance

In our Firm's **20 years in business**, we have assembled a team of professionals that have been committed to the success of TRB and our clients. Competitive salaries and benefits, flexibility in work schedules and a desire to continually recruit the best candidates for our growing company are just some of the ingredients to our operation and ability to retain staff. Our employee turnaround is low, and a majority of staff proposed on this project have been with TRB for at least 5 years.

Our senior staff members continue to train new team members, and our firm actively recruits recent engineering graduates to work in our internship program. Many of our proposed staff have been with the firm since the company's inception. As the organization continues to grow, we have maintained our core belief in providing a welcoming environment, training and promotional opportunities, and providing the best service possible to our clients.

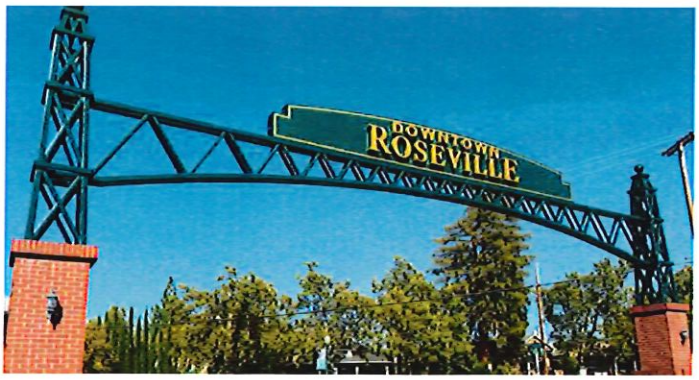
Scope of Work

In brief, it is our understanding that the City of Roseville Development Services Division is seeking qualified consultants to assist with as-needed Plan Review and Inspection Services on a range of project types, as detailed in the Scope of Services included in Section 3.0 of the City's Request for Proposal documents. It is understood that plan review and inspection task would comprise reviewing projects for adherence to the City's latest adopted Municipal Codes and Title 24 California Building Standards Codes covering structural, fire prevention, life safety, disabled access, energy conservation, green building, plumbing, mechanical, and electrical provisions.

Workload Accommodation

TRB has extensive resources and a large pool of licensed engineers and certified building safety experts, equipped to handle a wide range of building department needs. The majority of our services are delivered on an as-needed, ongoing basis. Having a large pool of resources allows us to accommodate existing and future workload effectively. To confirm, we do not have any current or anticipated engagements which would affect our ability to staff for this assignment - we are committed to supporting the City of Roseville and have resources available for the anticipated needs noted in the City RFP.

Please note that all proposed key staff members intended to fulfill the project Scope of Work are identified in proposal **Tab C – Qualifications of the Team.** To confirm, classifications clarifying each staffmember's role are included (ie all plans examiners, plan review engineers, inspectors, and related are clearly identified).



Building Code Instruction

TRB is also prepared to provide Building Code Instruction support to the City in either classroom or field-type settings on a range of technical subjects. **Paul Armstrong** is an award-winning California Building Standards Codes instructor whose accolades includes being named **CALBO Instructor of the Year.** Paul is currently providing extensive training on the upcoming code cycle changes to the California Building and Residential Codes to TRB clients, local ICC Chapters, and CALBO Education Week attendees. Paul will be available to provide tailored training to the City and its invited guests upon request.

Project Approach Overview

As noted earlier, our approach to this engagement emphasizes open communication between our firm and the City. Our Project Manager is committed to maintaining regular communication with and being reachable by City staff. We are committed to meeting all project service delivery deadlines and will diligently document and report all plan review and inspection findings, tracking information, and other reports, as required by the City.

Please see the following pages for our specific **Scope and Approach** to **Building Plan Review and Inspection** tasks.

Plan Review Scope & Approach

TRB is prepared to perform as-needed plan review services for residential, multi-family residential, commercial, institutional, and industrial projects encompassing building code, electrical, plumbing, mechanical, fire protection, energy, accessibility, and green building standards; as well as grading, drainage, floodplain, wildland urban interface fire severity zone, stormwater, hazardous materials, and State housing law Title-25 factory-built structure considerations, as applicable.

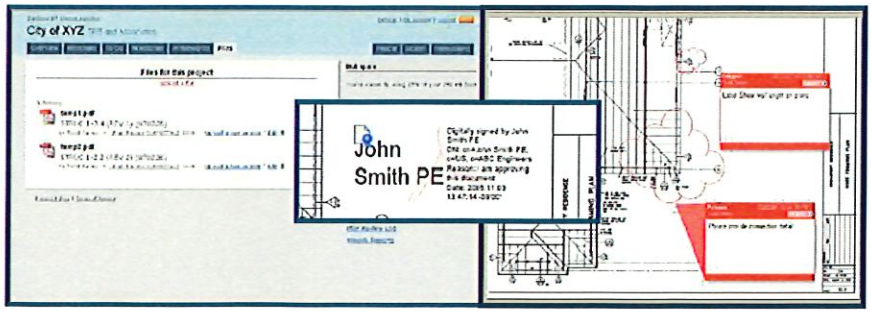
Our reviews consider all relevant project documentation including plans, specifications, calculations, and other related correspondence to verify conformance to adopted local codes, ordinances, regulations and standards, including the following California Building Standards Codes:

- 2025 California Building Code
- 2025 California Residential Code
- 2025 California Electrical Code
- 2025 California Plumbing Code
- 2025 California Mechanical Code
- 2025 California Fire Code
- 2025 Title 24 Energy Standards
- 2025 California Green Building Standards Code

Our team also has extensive experience with Federal ADA, NFPA, ASCE, ASME, FEMA, NEHRP, and ANSI Standards.

Alternate Material and Methods

TRB recognizes that there are alternate materials and methods of construction that can be used to satisfy and comply with the provisions of the code. Our experience with the use of alternate materials, alternate design and methods of construction enhances our ability to solve specific issues that arise in design and construction.



Electronic Plan Review and Workflow Status

To confirm, TRB is prepared to track and communicate all plan review comments and approvals through the City's designated Accela and the DigEplan permit tracking and electronic plan review platforms.

The staff of TRB has been leaders in the field of digital plan review and workflow management; as such, we have the experience and know-how to efficiently manage the review of electronic documents. Our team has extensive experience working with the electronic plan review systems including Accela, OpenGov, eTRAKIT, Energov, DigEplan, Bluebeam, and ProjectDox.

Online Plan Check Status and Records

As highlighted earlier, to facilitate access to plan review findings and status information, TRB is prepared to initiate its Project Website and tracking system *PlanTrack Plus®* for use on this assignment if desired by the City. The plan review status of any assigned project may be viewed utilizing our website interface. To confirm, there is no additional cost for this service.

Plan Review Process

The following process represents an example plan review workflow. Please note that the plan review workflow utilized for the City will align with the City's specific workflow requirements and needs.

Step 1 - Preliminary Discussions: Prior to beginning our initial plan review project, our Project Manager proposes to conduct a meeting or conference call with the City to discuss local code policies, documentation procedures, plan processing protocols, plan review checklist items, and scheduling.

Step 2 - Initial Review: Upon receipt of a complete set of plan documents, we will perform our plan review in the agreed-upon timeframe, checking for compliance to all applicable code standards. All corrections are identified based on compliance with specified codes and regulations and worded so the designer will know what needs attention and how to respond to the issue stated.

Step 3 - Transmittal of Plans and Comment Lists for Plan Review: At the heart of our approach in delivering our services to you is the recognition that there must be a coordinated effort to track and coordinate all submittals and requests received. To help assure that submittals are properly coordinated and tracked, TRB has established an internal plan review coordination process to ensure that each plan received for review is properly handled, processed, and returned on time. Our plan tracking procedures are computerized to track each submittal through the review process and maintain accurate and comprehensive records for each submittal. Upon completion of our review, any comments generated are consolidated into a correction letter in the City's preferred format (e.g. DigEplan, Bluebeam, Adobe Acrobat, or other format) which is remitted to the City for its reference.

Step 4 - Rechecks: Upon receipt of the resubmittal package from the applicant, once we have verified that the resubmittal package is complete, we perform a recheck in the agreed-upon timeframe. This process is repeated until the project plan documents are ready to be recommended for approval.

Step 5 - Plan Approval: When all review comments are satisfied, we will forward all relevant correspondence bearing our company's "Reviewed for Code Compliance" stamp (including plans, calculations, and specifications), along with a transmittal letter indicating our recommendation for project approval, and the project file to the City for processing.

Shipping and Delivery of Plans

TRB provides pre-printed overnight shipping labels and/or pickup services to facilitate the transport of hardcopy plan submittals to our office. Please note that the pickup, shipment and delivery of plan documents and other relevant correspondence to the City is provided at no additional cost to the City.

Plan Review Turnaround Timeframes

To confirm, TRB will adhere to all City-mandated plan review turnaround schedule requirements. In general, project reviews are completed in 5 to 10 business days or less for initial reviews, and 5 business days or less for subsequent review cycles; expedited reviews are generally provided within 3 to 5 business days. Turnaround timeframes for exceptionally large projects would be as mutually agreed upon. Please note that timeframes will be modified to meet the City's specific needs.

Type of Projects*	Maximum Timeframe for Delivery
Minor Plan Check – First Cycle Review e.g. Room additions for single family houses, detached structures, tenant improvements, and related project types	5-10 Business Days
Major Plan Check – First Cycle Review e.g. Multi-family residential, complex commercial, and other complex nonresidential project types	10 Business Days
Plan Check Resubmittals – Subsequent Cycle Reviews	5 Business Days
Expedited Plan Check	3-5 Business Days

* For projects which may be complex in nature, TRB's project manager will coordinate with the City Building Official or their designated representative to verify a mutually agreeable timeframe.

Inspection Scope & Approach

TRB is prepared to perform inspection, referring to plans and material specifications for structures located within the City limits, upon 48-hour notice. Our inspectors are proficient at verifying project conformance to model code standards and locally adopted ordinances. TRB provides all labor and technical, administrative, professional, and other personnel; supplies, materials, equipment, and all other resources necessary to perform the specified work. TRB will use existing City forms or can develop correction sheets which meet with the approval of the City and shall maintain written lists of corrections needed to ensure conformance to codes and regulations.

Field Inspection Process

Our experienced team includes individuals with extensive field inspection experience on a range of project assignment types including municipality "Called Inspections," "Clerk of the Works," and "Inspector of Record" roles; our team can assist with a broad range of inspection responsibilities. Our scope of service areas includes residential, commercial, and industrial facilities, capital improvement projects, municipal agency services and infrastructure revitalization. Our inspectors are careful to document all inspection activities, adhere to agency-adopted protocols, and follow field procedures and policies as dictated by the Building Official. TRB will maintain daily inspection records and all necessary documents on file for reference by the City.

To confirm, TRB staff are available for applicant inquiries and/or conferences during normal City business hours. Our inspections include those identified in the California Model Codes and which would be amended or modified as directed by the City.

- Foundation Inspection
- Framing Inspection(s)
- Electrical, Mechanical, Plumbing systems inspection
- Lath and/or Gypsum Board Inspection
- Fire Code Inspection, e.g. fire suppression, alarms, etc. (if requested)
- Concrete Slab or under-floor Inspection
- Energy Efficiency Measures Inspections
- Green Building Inspection
- Fire Resistance Rated Construction Inspection
- Floodplain Inspection
- Final Inspection

Disabled Access (CASp) Inspection Services

TRB offers Certified Accessibility Specialist (CASp) Consulting Services to assist agencies with the compliance requirements of State of California Senate Bill 1608 (Corbett). Our team is skilled at reviewing facility plans and specifications for compliance with State and Federal accessibility laws, codes, and regulations; evaluating facilities for compliance with State and Federal accessibility codes and regulations; conducting accessibility research, preparing accessibility reports, and performing accessibility inspections. We offer email/phone consultations, onsite facility inspections and certifications, and expert testimony services as part of our CASp consulting services portfolio.

Administration, Permit Processing, and Code Enforcement Scope & Approach (Option)

TRB is prepared to provide Permit Technician, Code Enforcement, and Administrative services support to the City on an as-needed basis. TRB staff are prepared to work at the City's offices as an extension of City staff under the supervision of the Chief Building Official or their designee with the knowledge, skills and abilities to perform the following functions:

Permit Technician / Administrative Assistant

- Enter permit and related data into the City permit tracking system.
- Research, compile and prepare various limited reports and presentation graphics.
- Assist the general public at the front counter or by phone regarding building, planning, and engineering permit requirements, application and permit fees, application filing procedures and processing, and permit status.
- Accept permit and related applications and collect fees.
- Screen plans and application materials for completeness and for conformance with City ordinances standards, policies and guidelines.
- Review application materials for compliance with conditions of project approval; route plans to other City departments for review; approve and issue minor permits; research and respond to public inquiries.
- Other duties as directed.

Code Enforcement

- Enforce compliance with agency regulations and ordinances including those pertaining to zoning, land use, nuisance housing, building codes, health and safety, blight, graffiti, water waste, and other matters.
- Respond to complaints and reports from other agencies and departments on alleged violations of agency zoning and related municipal codes and ordinances; conduct investigations and provide recommendations for resolution.
- Conduct field investigations; inspect properties for violations; issue and post warning notices, notices of violation, corrective notices, orders to comply, and related documentation for code violations; schedule and performing follow-up functions to gain compliance including letters, inspections, calls, meetings, discussions, and negotiations to ensure compliance with appropriate codes and ordinances.
- Maintain accurate documentation and case files on investigations, inspections, enforcement actions, and other job-related activities including accurate and detailed information regarding code enforcement activity to substantiate violations, drawing diagrams and illustrations and taking photographs
- Other duties as directed.

EXHIBIT "B"

Cost Proposal

TRB offers the following fixed-fee and hourly rate schedules for services provided. Please note that Building Plan Review services may be rendered on either a fixed fee or hourly rate basis, as noted below. If additional services are requested such as Fire Plan Review, Building Inspection, Staff Augmentation and Other services (e.g., CASp consulting), those services can be provided on an hourly basis at rates shown in the provided Schedule of Hourly Rates and Reimbursables.

Plan Review Services

Our plan review fees may be calculated as a percentage of the Building Plan Review Fee collected by the City. The fee compensation shown covers three total plan review cycles – the initial plan review and up to two rechecks. Any further review cycles which become necessary and reviews of revisions to approved plans would be billed based upon a negotiated hourly rate. Please note that the turnaround timeframe for providing expedited and express plan reviews would be negotiated/mutually agreed upon prior to commencement of the review. Please also note that all plan reviews are subject to a minimum $250 fee.

Turnaround Timeframe (in business days)	Package A	Package B	Package C	Package D	Package E
Standard - 13 days first check - 8 days rechecks	65%	65%	75%	65%	$150/hr.
Package F - Expedited - 6 days first check - 6 days rechecks	65% plus $150/hr.	65% plus $150/hr.	75% plus $150/hr.	65% plus $150/hr.	$225/hr.

* Review scope associated with Packages A through F is as defined on pages 10 and 11 of the City's RFP document.

Please note that the pickup, shipment, and delivery of hardcopy and/or electronic plan documents and other relevant correspondence to the City is included in the above-noted cost.

Schedule of Hourly Rates and Reimbursables

TRB and Associates offers the billing rates for services rendered on an hourly basis.

Position	Hourly Rate
Principal	$215.00
Project / Division Manager	$185.00
Building Official	$180.00
Assistant Building Official	$170.00
Principal Plan Review Engineer/Architect	$175.00
Supervising Plan Review Engineer/Architect	$165.00
Senior Plan Review Engineer/Architect	$160.00
Senior Plans Examiner (Building & Fire)	$155.00
Plan Review Engineer/Architect	$150.00
Plans Examiner (Building & Fire)	$140.00
Engineering Technician	$ 95.00 - $120.00
Permit Technician	$ 75.00 - $ 95.00
Clerical/Admin	$ 70.00
Fire Protection Engineer	$220.00
CASp Certified Inspector/Examiner	$165.00
Grading/Storm Water Plan Review Engineer	$205.00
QSP Storm Water Inspector	$195.00
Inspection Task Leader / Inspector of Record	$170.00
Supervising Inspector (Building & Fire)	$160.00
Senior Inspector (Building & Fire)	$125.00 - $150.00
Inspector (Building & Fire)	$110.00 - $125.00
Intern Inspector	$ 95.00
Planner	$135.00 - $175.00

Notes:

- Overtime, Emergency, Expedited, and After-hours work is billed at the above-noted rates plus an additional 50 percent (Note that no overtime will be charged without client authorization)
- Project inspections subject to prevailing wage requirements are at the above-published rates plus 30 percent.
- All requested inspection and other staff-augmentation services are subject to a minimum 4-hour fee.
- Reimbursement for direct expenses, incurred in connection with the work, will be at cost plus 15 percent.
- An additional hourly fee of $6 per billable hour will be added to the above-published rates for the use of TRB / non-City vehicles used in connection with the work.
- Other in-house charges for prints, reproductions and equipment use, etc. will be at standard company rates.

The above Schedule is valid through June 30, 2027 and may be adjusted thereafter to account for CPI changes

RESOLUTION NO. 26-214

APPROVING AN ON-CALL PROFESSIONAL SERVICES AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND URBAN 37, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, an On-Call Professional Services Agreement for Building Plan Review and Inspection Services, by and between the City of Roseville and Urban 37, Inc., has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said on-call professional services agreement is hereby approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

BE IT FURTHER RESOLVED, that the City Manager or his designee is authorized to execute four (4) additional one (1) year renewals without further City Council approval, provided that the applicable budget is approved by the City Council, or until staff determines that continuing with this consultant is not in the best interest of the City.

PASSED AND ADOPTED by the Council of the City of Roseville this ___ day of _____, 2026, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

_____
MAYOR

ATTEST:

_____
City Clerk

ON-CALL PROFESSIONAL SERVICES AGREEMENT

Building Plan Review and Inspection Services

THIS AGREEMENT is made and entered into this ___ day of _____, 20__, by and between the City of Roseville, a municipal corporation ("CITY"), and Urban 37, Inc., a California corporation ("CONSULTANT"); and

W I T N E S S E T H:

WHEREAS, CITY issued Request for Proposal # 06-0009 for professional services consisting of on-call building plan review and inspection services; and

WHEREAS, CONSULTANT has prepared a response to the Request for Proposal dated March 24, 2026, which describes the scope of services to be performed by CONSULTANT, and the hourly rates for performance of such services; and

WHEREAS, CONSULTANT is qualified and experienced to provide professional building plan review and inspection services on an on-call basis.

NOW, THEREFORE, the parties agree as follows:

1. Term. The term of this Agreement shall commence upon execution and expire on June 30, 2027. The City Manager may, in his or her discretion, elect to extend the Agreement in one (1) year increments for up to an additional four (4) years by giving CONSULTANT thirty (30) days advance written notice of each optional one (1) year renewal. Such extensions shall be memorialized by a written amendment to this Agreement.

2. Services. CONSULTANT shall perform, at the direction of CITY, the scope of the on-call services as described in EXHIBIT "A," attached hereto and incorporated herein by this reference. Individual tasks will be awarded by CITY on an as-needed basis. CITY may assign work to one, or more than one consultant from an approved qualified list. CITY reserves the right to unilaterally assign work to any consultant as it deems prudent or, if no services are required, no work. CITY makes no specific guarantee of a minimum or maximum number of hours or amount of tasks or services, which shall be required of any single consultant. In addition, the inclusion of any consultant on any qualified list, if so utilized by CITY, shall in no way be considered an exclusive agreement to provide service for CITY.

3. Compensation. For its services provided hereunder, CONSULTANT shall be compensated on a time and expense basis in accordance with the hourly rates as described in EXHIBIT "B," attached hereto and incorporated herein by this reference. Any proposed increase in the effective rates for future services must be preceded by at least a 90-day written notice to the contracting department. Total compensation shall not exceed three hundred fifty thousand dollars ($350,000) for the initial term. Total compensation for optional renewal years of this Agreement shall not exceed three hundred fifty thousand dollars ($350,000). Total compensation for the initial term and all optional renewal years shall not exceed one million, seven hundred fifty thousand dollars ($1,750,000). Adjustment to the total compensation per year shall require a written amendment to this Agreement, subject to approval by the City Council.

CONSULTANT shall submit one monthly invoice for its services. Such invoices shall be delineated by task, the person performing the services, and the hourly rate, which shall be stated in time increments of not greater than one tenth (1/10) hours. CITY shall pay invoices within

thirty (30) days after receipt, if the services specified in the invoice have been satisfactorily completed.

4. Indemnification. To the fullest extent allowed by law, CONSULTANT shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of CONSULTANT's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

CONSULTANT agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONSULTANT and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

CONSULTANT's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

5. Insurance. CONSULTANT agrees to continuously maintain, in full force and effect, the following minimum policies of insurance during the term of this Agreement.

COVERAGE	LIMITS OF LIABILITY
Workers' Compensation	Statutory
Commercial General Liability	$1,000,000 each occurrence $2,000,000 aggregate Personal Injury: $1,000,000 each occurrence $2,000,000 aggregate
Automobile Liability	$1,000,000 combined single limit
Professional Liability (errors and omissions)	$1,000,000 per claim $2,000,000 aggregate

a. Form. CONSULTANT shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. CONSULTANT shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of CONSULTANT. The additional insured coverage under the CONSULTANT's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and

limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. CONSULTANT shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Subcontractors. CONSULTANT agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, CONSULTANT shall require its subcontractors to agree to be bound to CONSULTANT and CITY in the same manner and to the same extent as CONSULTANT is bound to CITY under this Agreement. Additionally, CONSULTANT shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of CITY's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

f. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full

certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

g. Waiver of Subrogation. CONSULTANT hereby agrees to waive subrogation which any insurer of CONSULTANT may acquire from CONSULTANT by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all worked performed by CONSULTANT, its employees, agents and subcontractors.

h. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve CONSULTANT of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

6. Records. CONSULTANT and its subcontractors shall maintain all files and records relating to the services performed hereunder during the term of this Agreement and for a period of not less than one (1) year after the date of termination or expiration. Provided, however, that in the event of litigation or settlement of claims arising from the performance of this Agreement, CONSULTANT and its subcontractors shall maintain all files and records until such litigation, appeals or claims are resolved. Duly authorized representatives of CITY shall have right of access during normal business hours and after reasonable notice to CONSULTANT's and subcontractors' files and records relating to the services performed hereunder and may review and copy the files and records at appropriate stages during performance of the services and during the one (1) year period following termination or

expiration of this Agreement. CONSULTANT shall include this provision in its contracts with all subcontractors.

7. Prevailing Wages. When applicable, for purposes of this Agreement, CONSULTANT and its subcontractors shall comply with all applicable prevailing wage laws, e.g., but not limited to, California Labor Code Sections 1770 et seq. In accordance with said Section 1775, CONSULTANT shall forfeit as a penalty to the City two hundred dollars ($200) for each calendar day or portion thereof for each worker paid less than the prevailing rates for such work or craft in which such worker is employed for any work done on-site under the Agreement by CONSULTANT or by any subcontractor in violation of the provisions of the Labor Code and in particular, Labor Code Sections 1770 to 1780, inclusive. In addition to said penalty and pursuant to said Section 1775, the difference between such stipulated prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the stipulated prevailing wage shall be paid to each worker by CONSULTANT or the applicable subcontractor.

Pursuant to the provisions of California Labor Code Section 1773, the contracting department has identified the source, stated below, of the general prevailing rate of wages applicable to the site to be done, for straight time, overtime, and holiday work. The holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of the particular craft, classification or type of worker concerned. These wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm.

Pursuant to Labor Code Section 1773.2, general prevailing wage rates set forth above, which forms a part of this Agreement, shall be posted by CONSULTANT at a prominent place at

the work site. Prevailing wage rates to be posted at the work site will be furnished by the contracting department. The possibility of wage increases is one of the elements to be considered by CONSULTANT in determining its proposal and will not under any circumstances be considered as the basis of a claim against CITY or the Agreement.

8. Contractor Registration. No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this Agreement, CONSULTANT and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. CONSULTANT is hereby notified that this Agreement is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

9. Time is of the Essence. Time is of the essence of this Agreement.

10. Compliance with Laws. CONSULTANT shall comply with all federal, state and local laws, ordinances and policies as may be applicable to the performance of services under this Agreement.

11. Public Contracts: Conflicts of Interest. CONSULTANT's duties and services under this Agreement shall not include preparing or assisting CITY with any portion of the CITY's preparation of a request for proposals, request for qualifications, or any other solicitation regarding a subsequent or additional contract with CITY. CITY shall at all times retain responsibility for public contracting, including with respect to any subsequent phase of this project. CONSULTANT's participation in the planning, discussions, or drawing of project plans or specifications shall be limited to conceptual, preliminary, or initial plans or specifications. CONSULTANT shall cooperate with CITY to ensure that all bidders for a subsequent contract on any subsequent phase of this project have access to the same information, including all

conceptual, preliminary, or initial plans or specifications prepared by CONSULTANT pursuant to this Agreement.

12. Ability to Perform. CONSULTANT agrees and represents that it has the time, ability and professional expertise to perform the services required under this Agreement.

13. Governing Agreement. In the event of any conflict between this Agreement and its EXHIBITS, the provisions of this Agreement shall govern. In the event of any conflict between any of the EXHIBITS, the provisions of the first in order of attachment shall govern.

14. Assignment. CONSULTANT is employed to perform unique personal services. CONSULTANT shall not assign this Agreement without the prior written consent of CITY. CONSULTANT shall not employ or otherwise incur any obligation to pay other specialists or experts for services in connection with this Agreement, without prior written consent of CITY.

15. Independent Contractor. CONSULTANT, inclusive of its agents, officers, employees, volunteers, independent contractors, and subcontractors, shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

CONSULTANT and CITY agree that: (a) CONSULTANT is free from the control and direction of CITY in connection with the performance of the work; (b) CONSULTANT is providing services directly to CITY; (c) CONSULTANT has and will maintain at all relevant times a business license; (d) CONSULTANT maintains a business location that is separate from CITY; (e) CONSULTANT is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) CONSULTANT actually contracts with other businesses to provide the same or

similar services and maintains a clientele without restrictions from CITY; (g) CONSULTANT advertises and holds itself out to the public as available to provide the same or similar services; (h) CONSULTANT provides its own tools, vehicles, and equipment to perform the services; (i) CONSULTANT has negotiated its own rates; (j) CONSULTANT set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONSULTANT has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

16. Representations and Warranties. CONSULTANT warrants that it has not employed or retained any company or person, other than a bona fide employee working for CONSULTANT, to solicit or secure this Agreement, and that it has not paid or agreed to pay any company or person, other than a bona fide employee, any fee, commission, percentage, brokerage fee, gift or any other consideration, contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, CITY shall have the right to terminate as void this Agreement, without liability, or, in its discretion, to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such fee, commission, percentage, brokerage fee, gift or contingent fee.

17. Successors in Interest. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

18. Copyright, Ownership and Use of Materials. All tangible material ("Material") created or delivered pursuant to this Agreement is considered a work made for hire under the Copyright Act. To the extent such Material does not qualify as a work made for hire, CONSULTANT hereby assigns to CITY all right, title, and interest, including but not limited to all copyrights, in all Material created by CONSULTANT in its performance under this

Agreement. Material constitutes the scope of work outlined in Exhibit A and attached hereto, and all written and other tangible expressions, including but not limited to, drawings (including computer aided drawings), papers, documents, reports, surveys, renderings, exhibits, sketches, maps, models, prints, paintings or photographs, in any and all media or formats in which such materials have been created or are maintained. All Material furnished by CONSULTANT is, and shall remain, the property of CITY.

CONSULTANT shall execute any documents necessary to effectuate such assignment. In the event that CONSULTANT uses, employs, designates, or retains any person or entity who is not an employee of CONSULTANT, to perform any work required of it pursuant to this Agreement, CONSULTANT shall require said person or entity to execute an agreement containing the preceding paragraph.

19. Termination of Agreement. CITY may terminate this Agreement without cause by giving CONSULTANT ten (10) days advance written notice from the City Manager. CONSULTANT may terminate this Agreement without cause by giving CITY thirty (30) days advance written notice. CONSULTANT understands that continuation of this Agreement past June 30th of any given year is contingent upon appropriation of funds for such purpose in the budget of the City of Roseville in the sole discretion of the City Council. In the event of termination through no fault of CONSULTANT, CITY shall compensate CONSULTANT for services performed as of the date of termination, upon the release to CITY of all Material hereunder, in any and all media or formats in which such materials have been created or are maintained. CITY retains the right to receive and use any MATERIAL, notwithstanding any termination or any dispute regarding the amount to be paid.

20. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance hereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

21. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

22. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

23. Notices. Any notices to parties required by this Agreement shall be delivered personally or mailed, U.S. first class postage prepaid, addressed as follows:

CITY OF ROSEVILLE	CONSULTANT
Development Services Department Attn: Mike Isom 311 Vernon Street Roseville, CA 95678	Urban37, Inc. Attn: Raylee Glasser 2108 N. Street #9189 Sacramento, CA 95816

Either party may amend its address for notice by giving notice to the other party in writing.

24. Integrated Agreement. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ___ day of _____, 20__, and CONSULTANT has caused this Agreement to be executed.

EXHIBIT “A”

TAB E – Service Plan

Urban37, Inc.'s service plan is built to deliver structured, reliable, and fully integrated plan review and inspection services that align seamlessly with the City of Roseville's established workflows, systems, and performance expectations. Our approach combines technical expertise with disciplined processes, strong internal controls, and proactive communication, ensuring consistent, high-quality outcomes across all assignments.

Our goal is to function as a true extension of City staff. While our services may be delivered remotely or in the field, our approach ensures that it feels as though our team is working alongside City personnel, maintaining the same standards, communication style, and level of accountability.

Plan Review Services

Urban37 provides comprehensive, multi-discipline plan review services across architectural, structural, mechanical, electrical, plumbing, energy, green building, accessibility, and fire/life safety requirements. All reviews are conducted in full alignment with the California Building Standards Code, applicable state regulations, and the City of Roseville's adopted codes, standards, and procedures.

Although plan review services may be performed remotely, our model ensures that it feels as though your reviewer is working just down the hall. We prioritize accessibility, responsiveness, and consistency so that City staff and applicants experience dependable, predictable outcomes throughout the review process.

Structured Plan Review Process

Urban37's process is designed to ensure clarity, coordination, and efficiency from intake through approval:

- Projects are logged, evaluated, and assigned to qualified discipline-specific reviewers based on project type and complexity
- Reviewers are matched to residential, commercial, and specialized project types to ensure technical accuracy
- High-complexity or high-visibility projects receive senior-level technical oversight
- Reviews are conducted directly within DigEplan using consistent markup and documentation standards
- All discipline comments are coordinated and consolidated prior to issuance to eliminate conflicting or fragmented feedback

Each correction letter is code-based, clearly cited, organized by discipline, and aligned with City standards, providing applicants with clear, actionable direction.

This structured approach allows Urban37 to deliver reviews that are not only technically accurate, but also consistent in tone, format, and expectations, creating a predictable and efficient experience for both City staff and applicants.

Urban37 also offers collaborative page-turning sessions for complex, high-profile, or time-sensitive projects. These sessions bring together the reviewer, design team, and City staff to walk through plans in real time, identify key issues early, and align on expectations prior to or during the review process. This proactive approach reduces unnecessary back-and-forth, minimizes resubmittals, and helps projects move more efficiently through the review cycle.

Minimizing Re-Submittals

Urban37 understands the importance of reducing unnecessary review cycles and maintaining project momentum. To support this, we:

- Deliver comprehensive first-cycle reviews that identify all material issues
- Consolidate comments across disciplines to eliminate duplication
- Communicate with applicants when clarification can prevent incomplete resubmittals
- Offer collaborative page-turning sessions for complex or high-profile projects
- Provide clear prioritization of corrections to support complete resubmittals

Our goal is to achieve approval efficiently, typically within the first review cycle and one recheck whenever feasible.

Quality Control & Consistency

Urban37 utilizes a structured, multi-level QA/QC process to ensure accuracy, consistency, and alignment across all reviews:

1. Primary review by the assigned plans examiner
2. Technical oversight for complex or specialized projects
3. Final consistency check prior to issuance

This layered approach ensures technical accuracy, reduces conflicting comments, and maintains a consistent voice across all correction letters.

Turnaround Performance

Urban37 will meet and consistently exceed the City's required turnaround timelines:

- First-cycle reviews: within 13 business days (Urban37 standard: 10 business days or less)
- Rechecks: within 8 business days (Urban37 standard: 5 business days or less)
- Expedited reviews: within 6 business days (Urban37 standard: 5 business days or less, with resubmittals typically completed within 2–3 business days)

Our team is structured to deliver efficient, predictable turnaround times while maintaining thorough, code-compliant reviews.

Building Inspection Services

Urban37 provides comprehensive inspection services to ensure that all construction complies with approved plans, adopted codes, and safety standards. Our inspectors bring extensive field experience across residential, commercial, and mixed-use construction.

Inspection Operations & Field Coordination

Urban37 inspectors:

- Document inspection results directly within the City's permitting system
- Issue clear, code-referenced correction notices
- Maintain consistent reporting aligned with City procedures
- Communicate directly with contractors and applicants in the field

Our inspectors arrive prepared, uphold City standards, and represent the City with professionalism, clarity, and a solution-oriented approach. We understand that inspections are often a critical path item in the construction process and that delays can directly impact project timelines, business openings, and residents returning to their homes. Our approach is not enforcement-driven for its own sake, but focused on achieving compliance efficiently. We work collaboratively with contractors and applicants to clearly communicate requirements, resolve issues in real time where appropriate, and help move projects forward while maintaining the City's standards for safety and code compliance.

Responsive & Scalable Coverage

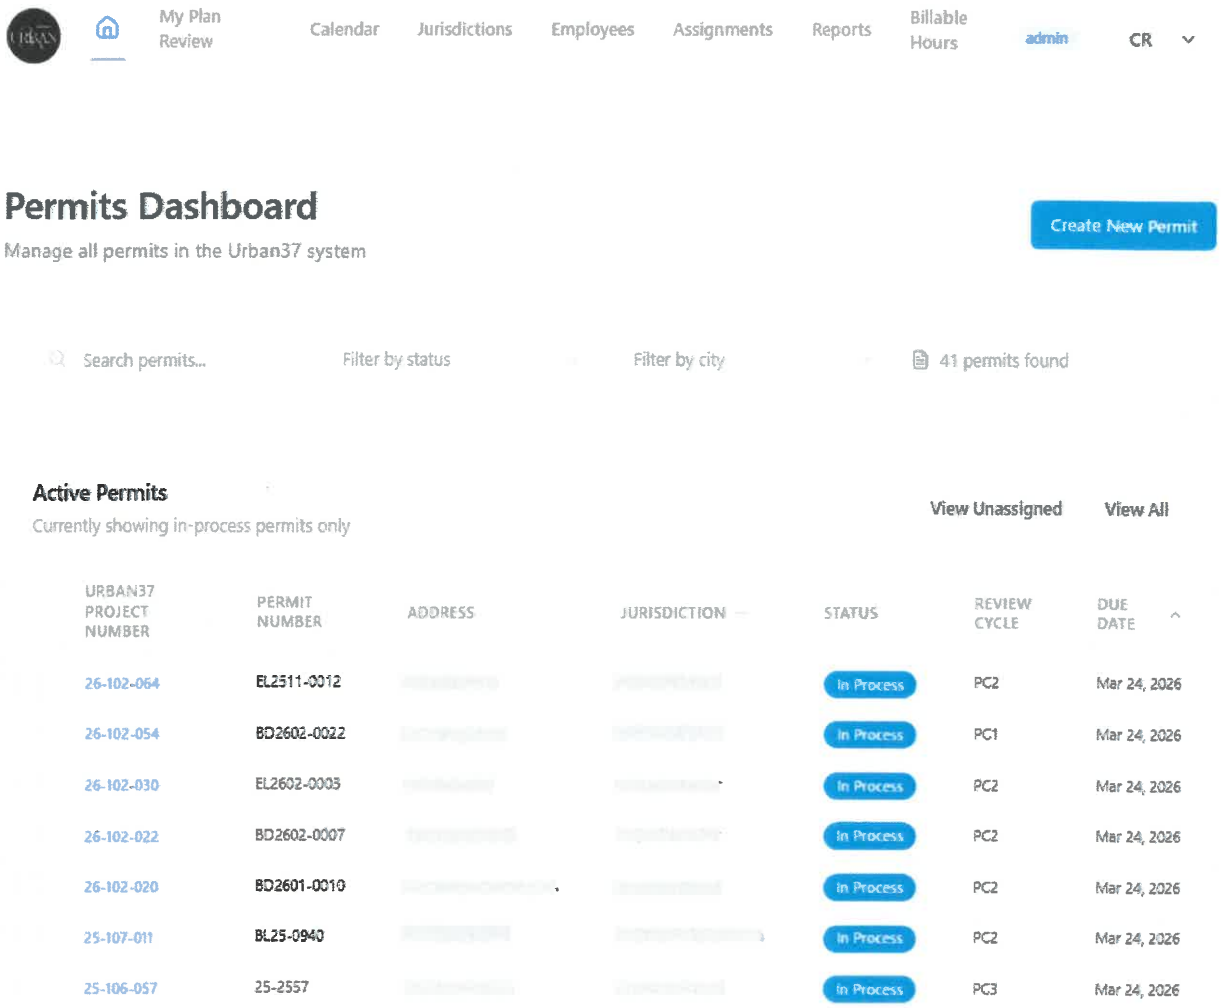
Urban37 maintains a bench of certified inspectors capable of supporting:

- Short-term or long-term assignments
- Surge demand and peak workloads
- Same-day or urgent inspection needs

This flexibility ensures the City has reliable access to qualified inspection resources without delays or service disruptions.

Integrated Workflow & Technology

Urban37 performs all plan review services directly within the City's designated platforms, including DigEplan and Accela. Our team has extensive experience working in these systems and understands the importance of maintaining accurate workflow status, document control, and fee coordination.



Behind the scenes, all services are supported by U37, Urban37's proprietary web-based platform. U37 allows our team to manage plan reviews, track deadlines, coordinate assignments, log fees, and maintain City-specific notes and procedures. While all official work product and updates are entered into the City's systems, U37 provides an additional layer of internal oversight that ensures consistency, accountability, and performance tracking across all assignments.

Through U37, Urban37 is able to:

- Track turnaround times and ensure deadlines are consistently met
- Monitor workload distribution across reviewers
- Maintain consistency in comments, formatting, and code application
- Store City-specific standards and preferences for long-term alignment
- Provide internal QA/QC oversight before work is issued

A screenshot of the U37 dashboard is provided below for visual reference.

This dual-system approach allows Urban37 to operate efficiently within the City's platforms while maintaining a high level of internal control and service quality.

Urban37 maintains proactive and consistent communication throughout all phases of service delivery:

- Response to City inquiries within one business day
- Weekly status reports detailing all active plan review projects
- Direct coordination with applicants, design professionals, and City staff
- Immediate escalation of complex or time-sensitive issues

Billing & System Alignment

Urban37 understands that accurate billing and system coordination are essential components of the City's operations. Our team will:

- Enter all plan review charges into Accela prior to approval
- Ensure all invoicing aligns with system-recorded charges
- Notify the City of any discrepancies within required timeframes
- Provide itemized invoices by technical discipline

Staffing & Coordination

Urban37 has intentionally assembled a team with direct experience in structured municipal workflows and digital permitting systems, allowing for immediate integration and minimal onboarding.

- Project Manager (Raylee Glasser, CBO): Overall oversight and primary point of contact
- Assistant Project Manager (Shantelle Fuentes): Workflow management and system coordination
- Technical Team: Multi-discipline reviewers and inspectors assigned based on project needs

Implementation & Service Schedule

Urban37's onboarding process is designed for immediate integration and minimal disruption to existing operations:

Week 1: Onboarding & Alignment

- Kickoff meeting with City staff
- System access confirmation (Accela and DigEplan)
- Review of City standards and workflows
- Assignment of initial staff

Week 2–4: Service Initiation

- Begin plan review and inspection services
- Establish reporting and communication cadence
- Monitor workflow integration

Ongoing Service Delivery

- Full operational integration
- Weekly reporting and coordination
- Continuous workload monitoring and staffing adjustments
- Ongoing process refinement

Urban37 requires no additional equipment or installation services. All personnel are fully equipped and trained to operate within Accela, DigEplan, and remote plan review environments.

Scalability & Responsiveness

Urban37 maintains a deep bench of qualified professionals across all disciplines, allowing us to scale services based on workload demands, support expedited reviews, and respond quickly to changing project volumes.

This approach ensures the City receives consistent, responsive, and high-performing service, supported by a team that is structured to adapt, scale, and deliver without disruption.

EXHIBIT "B"

TAB F – Cost Proposal

Urban37, Inc. proposes to provide Building Plan Review and Inspection Services in accordance with the cost structure outlined in the City of Roseville's Request for Proposals (RFP 06-0009). Urban37 agrees to the percentage-based and hourly rate structure identified for each package and will perform services in alignment with the City's requirements.

Statement of Cost Structure Agreement

Urban37 agrees to the following cost structure:

- **Package A – Commercial Plan Review (Private Development):**
  65% of the plan review fee paid to the City, inclusive of up to three (3) review iterations
- **Package B – Commercial Plan Review (City Projects):**
  65% of the plan review fee paid to the City, inclusive of up to three (3) review iterations
- **Package C – Residential Plan Review:**
  75% of the plan review fee paid to the City, inclusive of up to three (3) review iterations
- **Package D – Commercial Fire System Plan Review:**
  65% of the plan review fee paid to the City, inclusive of up to three (3) review iterations
- **Package E – Additional Plan Review Services (Revisions/Deferred Submittals):**
  $150 per hour
- **Package F – Expedited Plan Review:**
  Percentage-based fee as outlined above, plus $150 per hour
  (Additional plan review services under Package E billed at $225 per hour)

Urban37 acknowledges that plan review iterations beyond the initial three (3) reviews will be billed at the hourly rate identified in Package E.

HOURLY RATE SCHEDULE

Urban37 provides the following fully burdened hourly rates for services performed under this agreement:

Building Services

Position	Hourly Rate
Building Official/CBO	$160
Assistant Building Official	$120
Building Inspector I	$95
Building Inspector II	$110
Building Inspector III	$130

Inspector of Record	$160
Plans Examiner (Structural)	$155
Plans Examiner (Non-Structural)	$135
Certified Access Specialist (CASp)	$160
Permit Center Manager	$110
Senior Permit Technician	$98
Permit Technician	$85

Fire Services

Position	Hourly Rate
Fire Protection Engineer	$160
Fire Inspector I	$110
Fire Inspector II	$120
Fire Plan Review	$150

Additional Services

Position	Hourly Rate
Project Manager	$180
Administrative Support	$78
Analyst	$115
Director	$180

Estimated Level of Effort

Due to the on-call nature of this contract, specific hours cannot be predetermined. Urban37 will assign staff based on project type, complexity, and workload demands to ensure required turnaround times and service expectations are consistently met.

Reimbursable Expenses

Urban37 does not anticipate significant reimbursable expenses for standard plan review services. Any reimbursable expenses, if required, will be coordinated with and approved by the City in advance.

Billing & Invoicing

Urban37 will perform all services in accordance with the City's billing requirements. All charges will be entered into the City's permitting system prior to approval, and invoices will be submitted monthly. Invoices will be itemized by technical discipline and will align with the charges identified in the City's permitting system.

Cost Structure Acknowledgement

Urban37 acknowledges and agrees to the cost structure, billing procedures, and requirements outlined in the City of Roseville's Request for Proposals.

311 Vernon Street
Roseville, CA 95678

NOTICE OF INTENT TO AWARD

To: All **On-Call Building Plan Review and Inspection Services** proposers concerning **RFP #06-0009 Building Plan Review and Inspection Services**

From: Development Services, Mitch Raese, Building Official

Subject: Notice of Intent to Award

For **RFP #06-0009,** pending City Council approval, the City recommends awarding a contract to **the following five consultants:**

Bureau Veritas North America, Inc
BPR Consulting Group
TRB and Associates, Inc
4LEAF, Inc
Urban 37, Inc

To inquire about the recommended award, please write to Development Services, Mitch Raese, Building Official at mraese@roseville.ca.us.

Title:	Sierra Vista Specific Plan Mitigation Fee Program Administration - Sole Source Professional Services Agreement Amendment
Contact:	Stacie Marchetti 916-774-5278 smarchetti2@roseville.ca.us

SUMMARY

Staff recommends approval of a sole source professional services agreement amendment with Economic and Planning Systems, Inc. in the amount of $7,500 to provide Sierra Vista Specific Plan Mitigation Fee Program administration, and authorize the City Manager to execute the agreement. To accommodate the increased workload and maintain consistency and continuity of services, staff recommends increasing the contract authority by $7,500 for FY2025-26, raising the annual not-to-exceed contract limit from $300,000 to $307,500. This amendment will cover EPS's work through June 30, 2026. The consulting services are funded by the fee revenue collected through the fee program. There is no impact to the General Fund.

RECOMMENDATION

Staff recommends that the City Council adopt a resolution to approve a First Amendment to Professional Services Agreement with Economic and Planning Systems, Inc. for Sierra Vista Specific Plan (SVSP) Mitigation Fee Program administration and authorize the City Manager to execute it on behalf of the City of Roseville.

BACKGROUND

In May of 2010, the City Council approved the Development Agreement(s) (DA) for the Sierra Vista Specific Plan (SVSP). The DA calls for the implementation of an owner-sponsored SVSP Fee Program that specifies the use of a third-party administrator to organize and monitor the program to the fullest extent legally possible. To minimize the cost to the City, the City is to rely on the administrator to obtain, maintain, process, and prepare the information required of the program to calculate and re-calculate the fees in accordance with the fee program.

Due to increased requests for project true-ups and higher costs of engaging sub-consultants and engineers in FY2025-26, the level of effort by EPS has exceeded original projections. EPS also needed to allocate budget to contract Integra for an updated appraisal in support of the Fee Program. To accommodate the increased workload and maintain consistency and continuity of services, staff recommends increasing contract authority by $7,500 for FY2025-26, raising the annual not-to-exceed contract limit from $300,000 to $307,500. This amendment will cover EPS's work through June 30, 2026.

FISCAL IMPACT

All work performed under this professional services agreement amendment will be paid by fee revenue collected through the fee program. There is no impact to the General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)).

FIRST AMENDMENT TO

PROFESSIONAL SERVICES AGREEMENT

Sierra Vista Specific Plan Mitigation Fee Program Administration

THIS FIRST AMENDMENT TO AGREEMENT is made and entered into this ___ day of _____, 20__, by and between the City of Roseville, a municipal corporation ("CITY"), and Economic and Planning Systems, Inc., a California corporation ("CONSULTANT"); and

W I T N E S S E T H:

WHEREAS, CITY and CONSULTANT previously entered into a Professional Services Agreement dated March 5, 2025 ("Agreement") consisting of providing Sierra Vista Specific Plan Mitigation Fee Program Administration ("Project"); and

WHEREAS, CITY desires to amend the Agreement to include additional services as described in CONSULTANT's letter/proposal dated May 4, 2026, which is attached hereto as Exhibit "A" and incorporated herein by reference; and

WHEREAS, CONSULTANT is willing and able to provide such additional services.

NOW, THEREFORE, the parties agree as follows:

1. CONSULTANT shall provide additional services as described in Exhibit "A" of this First Amendment to Agreement.

2. Section 2 of the Agreement is amended by adding an additional paragraph to read as follows:

"CITY shall pay seven thousand five hundred dollars ($7,500), in consideration of the additional services as set forth in Exhibit "A" to the First Amendment to Agreement. This brings the total not to exceed contract amount to three hundred seven thousand, five hundred dollars ($307,500)."

3. All other provisions of the Agreement shall remain unchanged and in full force and effect.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this First Amendment to Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ___ day of _____, 20__, and CONSULTANT has caused this First Amendment to Agreement to be executed.

Subject: Budget Amendment Request—Sierra Vista Specific Plan Mitigation Fee Program Administration, Task 1; EPS #252028

Marc:

Economic & Planning Systems, Inc. (EPS) appreciates the opportunity to continue its engagement with the City of Roseville (City) under contract to the City as the Third-Party Fee Program Administrator (TPA) for the Sierra Vista Specific Plan Mitigation Fee Program (SVSP Fee Program). EPS understands the role of the TPA is to assist the City in administering the SVSP Fee Program and understands it is the City's desire to minimize City involvement in fee program administration as much as possible.

As you know, EPS has been working diligently with the City to provide adequate support in the administration of the Fee Program. While EPS anticipated increased requests for project true-ups and higher costs of engaging subconsultants and engineers in FY 25-26, the level of effort required has exceeded original projections. In particular, the volume of credit, reimbursement, and transfer requests has increased considerably compared to prior years, requiring significant additional time to reconcile outstanding balances. EPS also needed to allocate budget to contract Integra for an updated appraisal in support of the Fee Program.

The purpose of this letter is to request a budget amendment of $7,500 to cover EPS's work as the TPA for the SVSP Fee Program through June 30, 2026. EPS is amenable to a minimal budget amendment to carry our administrative work through to the end of the fiscal year or preparing an updated contract for the next two months plus the upcoming fiscal year depending on the City's preference.

EPS charges for its services on a direct-cost (hourly billing rates plus direct expenses), not-to-exceed basis; therefore, you will be billed only for the work completed up to the authorized budget amount. Travel, data, or reproduction expenses will be billed at cost, and invoices are submitted monthly and are payable on receipt. If additional work or meetings are required, EPS will request authorization for additional budget with the understanding that terms will be negotiated in good faith.

Thank you for your consideration of this request. Please call me at (916) 649-8010 if you have questions or need additional information related to this request.

Sincerely,

ECONOMIC & PLANNING SYSTEMS, INC.

Jamie Gomes
Managing Principal

Title:	Electronic Plan Review - Sole Source Agreement
Contact:	Chris Fanucchi 916-746-1353 CFanucchi@roseville.ca.us

SUMMARY

Staff recommends approval of a sole source agreement with Lifecycle Technologies, LLC dba LCT Software for access to its cloud-based electronic plan review platform, DigEplan, with a not-to-exceed (NTE) amount of $63,953 for the initial term and a total NTE amount of $210,193 over the full three-year term, including renewal options. Funding is included in the Development Services Department's Technology Replacement Fund, which is funded through permit fees designated for development-driven technology improvements, and is included in the Department's FY2025–26 budget. Approval of the agreement will have no net fiscal impact on the General Fund. Staff also recommends authorization for the City Manager to execute future amendments to extend the agreement for up to two (2) additional one (1) year renewal terms on behalf of the City.

RECOMMENDATION

Staff recommends that the City Council adopt a resolution to approve a Sole Source Agreement with Lifecycle Technologies, LLC dba LCT Software for the electronic plan review platform, DigEplan, and authorize the City Manager to execute the agreement on behalf of the City of Roseville.

Staff additionally requests authority for the City Manager or his designee to execute two (2) additional one (1) year renewals without further City Council approval, provided that the applicable budget is approved by the City Council, or until staff determines that continuing with this vendor is not in the best interest of the City.

BACKGROUND

In March 2020, the City Council approved an agreement with LCT Software (then licensed under TruePoint Solutions LLC) following a formal Request for Proposal (RFP) process for electronic plan review software. The software was selected to support the City's transition from paper-based plan review processes to a fully electronic plan review environment integrated with the City's enterprise permitting system, Accela.

Since then, the Development Services Department has utilized DigEplan, a cloud-based electronic plan review platform, to enable City staff and contracted third-party plan reviewers to electronically review, mark up, and approve construction plans and supporting documents directly within the City's permitting system. The integrated platform streamlines the review process while providing applicants with clear, consistent, and standardized feedback on their plan submissions.

Staff recommends continuing with LCT Software on a sole-source basis because DigEplan is fully integrated with the City's Accela permitting system and has become a critical component of the Department's electronic plan review workflow. Over the past five years, staff, consultants, and customers

have established business processes and workflows around the platform. Transitioning to an alternative solution would require significant staff time and resources to evaluate, procure, configure, test, and implement a replacement platform, as well as retrain staff, consultants, and customers. Staff has determined that renewing the agreement with LCT Software is the most cost-effective and operationally efficient option for maintaining continuity of service and minimizing disruption to permit processing operations.

FISCAL IMPACT

The agreement includes a not-to-exceed (NTE) amount of $63,953 for the initial term, $70,620 for the first renewal term, and $75,620 for the second renewal term, for a total NTE amount of $210,193 over three (3) years. Funding is included in the Development Services Department's Technology Replacement Fund, which is funded through permit fees designated for development-driven technology improvements. As a result, approval of the agreement will have no net fiscal impact on the General Fund. Funding for FY2025–26 is included in the Department's budget.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA (CEQA Guidelines §15061(b)(3)). No additional environmental review is required.

Exp Date: 5/15/2026

DigEplan SaaS Subscription Pricing

The Customer will upgrade its existing DigEplan Software as a Service (SaaS) subscription to the Custom Bundle for both Production and Test Environments, as set forth in this Order Form. The Custom Bundle includes Avolve AI Submit, Avolve Insights, and Digital Certificates.

Table 1. SaaS Subscription Pricing (Avolve Insights Retained)
Annual subscription pricing, assuming Avolve Insights is retained for the full contract term.

Contract Year	Term	Base Subscription	Custom Bundle Upgrade	Avolve Insights Step-Up	Annual Subscription Fee
Year 1	Mar 1, 2026 – Feb 28, 2027	$55,620.00	$8,333.00	—	$63,953.00
Year 2	Mar 1, 2027 – Feb 28, 2028	$55,620.00	$10,000.00	$5,000.00	$70,620.00
Year 3	Mar 1, 2028 – Feb 28, 2029	$55,620.00	$10,000.00	$10,000.00	$75,620.00
Total (3 Years)					**$210,193.00**

Table 2. Alternative Pricing (If Avolve Insights Is Discontinued After Year 1)
In the event Customer elects to discontinue Avolve Insights after the first contract year, as set forth below, the pricing for all renewal periods thereafter shall be governed solely by the standard annual three percent (3%) uplift. In such case, the two five-thousand-dollar ($5,000) step-ups scheduled for Years 2 and 3 shall not apply.

Contract Year	Term	Base Subscription	Custom Bundle Upgrade	3% Annual Uplift	Annual Subscription Fee
Year 1	Mar 1, 2026 – Feb 28, 2027	$55,620.00	$8,333.00	—	$63,953.00
Year 2	Mar 1, 2027 – Feb 28, 2028	$55,620.00	$10,000.00	3%	$67,588.60
Year 3	Mar 1, 2028 – Feb 28, 2029	$55,620.00	$10,000.00	3%	$69,616.26
Total (3 Years)					**$201,157.86**

Pricing Notes

1. The Custom Bundle price is prorated for the initial term to account for the new features not being available to Customer during the first two months of the term, reducing the total initial term price by $1,667.00 ($833.50 per month).
2. The Base Subscription includes the Customer's existing deployment for Roseville, California, as set forth in the Additional Subscription Scope section below.
3. The Custom Bundle includes Avolve AI Submit, Avolve Insights, and Digital Certificates, and is structured as a base amount of $10,000 plus incremental Avolve Insights step-ups, resulting in a total annual subscription fee consistent with the pricing reflected herein.
4. The annual subscription fee without Avolve Insights step-ups, shown in Table 1, is $65,620.
5. If Avolve Insights is discontinued after Year 1, all subsequent pricing will be subject solely to a 3% annual increase, as reflected in Table 2.

Subscription Term and Fees

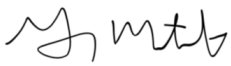
The initial term of the SaaS subscription is 36 months, from March 1, 2026 through February 28, 2029. Following the initial term, subscription fees will be subject to an annual increase of 3%, unless otherwise amended by agreement. Professional services fees shall be as set forth above.

Billing and Payment Terms

100% of SaaS and Subscriptions shall be invoiced upon execution of Agreement. Services will be billed monthly on a Time and Material Basis. Payment for the remaining amount is due net thirty days (30) from invoice after work has occurred. Payment via EFT. Travel and Expenses are not included in this total and will be invoiced as incurred.

Additional Subscription Scope

The Customer's deployment for Roseville, California includes access to the following features and capabilities, as configured and made available by the Supplier pursuant to the applicable order and documentation: DigEplan and DPC; Compare and Overlay; Online Plan Submission (Digital Projects); Calibrated Measurements; Interactive Collaboration; Standard Comments; Audit Trail; Batch Stamping; Multi-Page File & Sheet Version Management; Role Based User Interface; Real Time Collaboration; Third Party Review Collaboration; Multi File Format Support; Corrections Management; Navigate; Automation APIs & Webhooks; Document Composer, MFA & SSO; stand-alone Excel document Comment Letter; and related core functionality. This agreement also includes



the use of unlimited user licenses strictly for the use of Roseville, CA and third-party contractors operating for Roseville, CA.

Included in this Agreement are 3 tickets to the 2026 Avolve Inspire Conference, hosted in Park City Utah, April 13-15, 2026. Custom Ticket discount codes will be provided for registration.

The deployment further includes Data Warehouse Connection, DigEplan Digital Certificates, Avolve Insights, and Avolve AI, subject to the terms herein. Avolve Insights may be discontinued by Customer following the first contract year, effective at the beginning of the first renewal term (i.e., the second contract year). If Customer elects to discontinue Avolve Insights, Customer must provide written notice of such discontinuation at least thirty (30) days before the applicable renewal date. Absent such notice, the Customer's subscription to Avolve Insights shall automatically continue for the subsequent renewal term, as reflected in Table 1.

Terms and Conditions

By signing below, the parties indicate their agreement to this Order Form, the Terms and Conditions attached below, and any additional attachments to this Order Form (collectively, the "Agreement"). By signing below, Customer acknowledges and agrees that it has reviewed and accepts the Terms and Conditions and other attachments hereto.

Terms and Conditions

Between

LCT Software
(an Avolve Software Company)

and

City of Roseville, CA

These Terms and Conditions (these "Terms"), together with the Order to which these Terms are attached and any additional exhibits or attachments to the Order or these Terms (collectively, this "Agreement") are entered into as of the date of last signature (the "Effective Date") by and between Lifecycle Technologies, LLC, d/b/a LCT Software, a Florida limited liability company principally located at 4500, 140th Avenue North Suite, 101 Clearwater, FL 33762 (the "Supplier"), and City of Roseville, California, 311 Vernon Street (the "Customer".)

Background

a) The Supplier has developed certain software applications and platforms which it makes available to subscribers via the internet for the purpose of subscribers.
b) The Customer wishes to use the Supplier's service in its business operations.
c) The Supplier has agreed to provide, and the Customer has agreed to take and pay for, the Supplier's service subject to the terms and conditions of this Agreement, including these Terms.

Agreed terms

1. Definitions. Unless otherwise defined in these Terms, capitalized terms used herein have the same meanings as set out in the Exhibits to this Agreement (including any supplements or attachments thereto).

1.1. "**Optional Services**" refers to certain optional add-ons to the Subscription Service as may be offered by the Supplier from time to time.

1.2. "**Professional Services**" refers to the implementation Partner's training, configuration and related services as set out in the Professional Services Terms.

1.3. "**Professional Services Terms**" refers to those additional Professional Services Terms and Conditions by the Partner to the Customer, outlined in a separate agreement.

1.4. **"Subscription Service"** refers to DigEplan's cloud-based service designed to provide government entities with Integrated Electronic Plan Review.

1.5. **"Subscription Terms of Service**" refers to the Subscription Terms of Service attached hereto at Exhibit C.

2. Procurement of Services

Customer may purchase the Subscription Services by submitting orders in a form designated or approved by the Supplier (each, an "**Order**"); accepted forms of Order submission may also involve procuring the Subscription Services from the Partner, at the discretion of the Partner and Customer.

Upon Order acceptance and subject to Customer's payment of the corresponding Subscription Services Fees, the Supplier will make the Subscription Services available to Customer.

2.1. **Governing Terms**. The Subscription Service will be subject to this Agreement, including the Subscription Terms of Service, for the Subscription Period and for the number of End Users as specified

in each Order. Any Optional Services will also be subject to this Agreement or such other documentation as designated by the Supplier.

2.2. **Order Acceptance**. No Order for Services will be deemed accepted by the Supplier unless and until the Supplier accepts such Order in writing. Any terms and conditions contained in any quote, invoice, purchase order or Order that are inconsistent with the terms and conditions of this Agreement will be deemed stricken, unless expressly agreed to in writing by the Supplier with explicit reference to the accepted terms and conditions. All Orders will reference these Terms. Upon acceptance of an Order as provided above, it will become part of this Agreement.

2.3. **Adding Products**. If Customer desires to add additional products that are permitted for use in the Subscription Service, a new Order must be issued for the additional Products. The Supplier may, in its discretion, allow or require the initial Subscription Period of newly-purchased subscriptions to be adjusted to expire or renew simultaneously with Customer's pre-existing subscription(s).

2.4. **Optional Services**. Purchase of Optional Services from the Supplier will be subject to any price quote the Supplier provides to Customer and the Order procedure described above. As designated by the Supplier at the time of Customer's purchase, use of the Optional Services may be subject to additional terms and conditions beyond or in lieu of those in Exhibit C.

3. Fees and Payment for Services

3.1. **Fees**. Customer will pay all fees for the Services per the prices quoted to Customer by the Supplier and finalized via an Order, Unless expressly set out in an Order, price increases will not apply to any Order that has already been accepted by the Supplier. Except as otherwise agreed by the parties in writing, Services Fees are quoted and payable in United States dollars, and Customer's payment obligations are non-cancelable, and Fees paid are non-refundable.

3.2. **Invoicing and Payment**. The Supplier will invoice Customer in advance for the Services unless otherwise expressly agreed by the parties.

3.3. **Subscription Service fees** are due upon invoice and payable within thirty (30) days of the invoice date. Subscription Service fees will be due no later than the first day of each Subscription Period to which the payment relates. If Customer orders additional Products part-way through an existing Subscription Period, and the initial Subscription Period for the additional Products is adjusted as described in Section 2.3, then the Subscription fee for such additional quantity will be pro-rated accordingly. Optional Services will be due at the same time as payment for the corresponding Subscription Service, or (if applicable) as otherwise specified in the applicable Order or governing terms. Subscription Service fees will be subject to an automatic annual increase by the percentage of the prior year's Subscription Service fees (the "**Uplift**") listed in the Order.

3.4. **Billing Info & Overdue Charges**. Customer is responsible for keeping the Supplier accurately and fully informed of Customer's billing and contact information, including providing any purchase order numbers in advance of invoice issuance. If any Fees are not received from Customer by the due date, they will accrue interest at the rate of one and a half percent (1.5%) of the outstanding balance per month, or the maximum rate permitted by law, whichever is lower.

3.5. **Overdue Payments**. If any amount owing by Customer under this Agreement for any of the Services is thirty (30) or more days overdue, the Supplier may, without limiting the Supplier's other rights and

remedies, accelerate Customer's unpaid fee obligations under this Agreement (including any Order) so that all such obligations become immediately due and payable, suspend the Subscription Service and/or stop performance of the Professional Services until such amounts are paid in full.

3.6. **Taxes**. The Supplier's Services fees do not include any taxes, levies, duties or similar governmental assessments of any nature, including but not limited to value-added, sales, use or withholding taxes, assessable by any local, state, provincial, federal or foreign jurisdiction (collectively, "**Taxes**"). Customer is responsible for paying all Taxes associated with Customer's purchases hereunder. If Supplier has the legal obligation to pay or collect Taxes for which Customer is responsible under this paragraph, the appropriate amount will be invoiced to and paid by Customer, unless Customer provides the Supplier with a valid tax exemption certificate authorized by the appropriate taxing authority prior to invoice issuance. For clarity, the Supplier is solely responsible for taxes assessable against it based on the Supplier income, property and employees.

3.7. **Piggyback procurement**. Customer reserves the right to extend the terms and conditions of this solicitation to any and all other agencies be it federal, state, municipal, county, or local governmental agency under the jurisdiction of the United States and its territories. This shall include but not be limited to private schools, parochial schools, non-public schools such as charter schools, special districts, intermediate units, non- profit agencies providing services on behalf of government, and/or state.

4. Term and Termination

4.1. **Term of Agreement**. Unless terminated earlier in accordance with Section 4.2, this Agreement commences on the Effective Date and will continue until terminated as set forth below:

4.1.1. **Subscription Service Term**. The Subscription Terms of Service at **Exhibit C** will commence on the date listed under Subscription Term in the Order or, if provisioning of software takes place more than two (2) weeks after such subscription date, the subscription start date will be updated to the provisioning date and communicated to the Customer via email. The initial subscription period will last for 3 Years (the "**Initial Subscription Period**"). Thereafter, the Subscription Term will automatically renew for additional one-year periods (each a "**Renewal Subscription Period**") unless and until either party gives written notice of non-renewal at least sixty (60) days in advance of the end of the then-current subscription period. Customer must send written notice of non-renewal to **Accounts@lctsoftware.com**. Should Customer not provide written notice of non-renewal at least sixty (60) days in advance, then Customer is obligated to pay for the subsequent Renewal Subscription Period in full.

4.2. **Termination.** Either party may terminate this Agreement upon written notice if the other party materially breaches this Agreement and fails to correct the breach within thirty (30) days following written notice specifying the breach. The Services will be subject to additional termination provisions if and as designated in the respective Exhibits to these Terms.

4.3. **Effect of Termination**. Termination or expiration of this Agreement will not terminate any then-current Customer Subscriptions to the Subscription Service (which will continue to be governed by the terms of **Exhibit C**, including the termination provisions set forth therein); provided, however, that in the case of termination of this Agreement by the Supplier for Customer's uncured breach of this Agreement, the Supplier may simultaneously terminate any such Subscriptions. Subject to the Professional Services Terms, termination of this Agreement will terminate all on-going and planned Professional Services.

5. Additional Customer Terms.

This Agreement shall not be construed as creating any debt by or on behalf of the Customer and all obligations of the Customer are specifically contingent upon continued appropriations for payment hereunder. Accordingly, and in addition to any other authority to terminate this Agreement, if the governing body of Customer does not appropriate funds to continue paying for the goods and services to be provided under this Agreement, Customer may then terminate this Agreement as of the last day for which funds were appropriated. Unless provided otherwise by law or by this Agreement, Customer shall be obligated to pay all charges incurred before such a termination of this Agreement.

6. General

6.1 The parties acknowledge that the terms of each of the Exhibits to these Terms (inclusive of any supplements or attachments thereto), including, but not limited to, the disclaimers, limitations of liability, and other general provisions thereof, are incorporated into and form a part of this Agreement.

6.2 In the event of a direct conflict between the body of these Terms and the terms of the Exhibits hereto, the terms in the body of these Terms will govern. Each party specifies its address set forth above for receipt of notices under this Agreement. This Agreement may be signed in one or more identical counterparts, each of which will be an original, but all of which together will constitute one instrument.

Exhibits List:

Exhibit A - Standard Support Policy

Exhibit B – Service Level Commitment

Exhibit C – Subscription Terms of Service

Exhibit A

Standard Support Policy

This LCT Software SaaS Support Policy ("**Support Policy**") is a policy governing the use of DigEplan's software-as-a-service products (the "**Service(s)**") under the terms of the Agreement between LCT Software, LLC and its affiliates ("**LCT Software**", "**us**" or "**we**") and the purchaser of DigEplan's Service ("Customer"). This Support Policy may be updated from time to time by LCT Software at its sole discretion.

General Requirements and Hours of Operation

Ticketing Support: LCT Software will provide access to a ticketing system, which will be available twenty-four (24) hours per day, seven (7) days per week. A qualified support specialist shall use commercially reasonably efforts to answer questions and resolve problems regarding the Subscription Service during normal business hours of Monday-Friday, 8:00 A.M. until 5:00 P.M Pacific.

Telephone and E-mail Support: DigEplan's Customer Support Department, a live technical support facility, will be available to Customer from 8:00 A.M. until 5:00 P.M Pacific Monday through Friday, excluding LCT Software's observed holidays.

Online Support Material: Available twenty-four (24) hours, seven (7) days a week, LCT Software will make available to Customer certain technical information in DigEplan's online support database.

Updates

Updates may address security fixes, critical patches, general maintenance functionality, and documentation and shall be made available at LCT Software's discretion. LCT Software is under no obligation to develop any future functionality or enhancements unless otherwise specified in the Agreement. If an update for the Service is made available to Customer pursuant to this Support Policy, it will automatically replace the previous version of the applicable Service.

Where practical, LCT Software will schedule Updates during non-business hours and will provide Customers with advance notice of all Updates.

Upgrade/Downgrade of Severity Level

If, during the Support Request process, the issue either warrants assignment of a higher severity level than currently assigned or no longer warrants the severity level currently assigned based on its current impact on the production operation of the SaaS offering, then the severity level will be upgraded or downgraded accordingly to the severity level that most appropriately reflects its current impact.

Third Party Product Support

If any third-party software is not supplied by LCT Software, LCT Software disclaims all support obligations for such third-party software, unless expressly specified by LCT Software in Customer's Agreement.

Exclusions

The following Support Exclusions are not covered by this Support Policy: (a) Support required due to Customer's or any End User's or third party's misuse of the Services; (b) Support during times outside of LCT Software regular business hours stated above; (c) Support necessitated by external factors outside of LCT Software's reasonable control, including any force majeure event or Internet access or related problems beyond the Service demarcation point; (d) Support of or caused by customizations (if outside of LCT Software's best practice recommendations), configuration changes, scripting, or data loss caused by or on behalf of Customer or any End User; (e) Support of or caused by Customer's or any End User's or third party's equipment, software or other technology (other than third party equipment within LCT Software's direct control); (f) Support to resolve or work-around conditions which cannot be reproduced in LCT Software's support environment and (g) Support of any software add-ons supplied together with the Service (except where specified in the Agreement). Any support services falling within these Support Exclusions may be provided by LCT Software at its discretion and, if so provided, may be subject to additional pricing and support terms as specified by LCT Software.

Support Classifications

Error Classification	Criteria
Critical Severity Issue (Priority 1)	The Service is down or there is a major malfunction (deeming Service non-functional or severely affected), resulting in a business revenue loss and impacting the Service functionality for a majority of users. No reasonable workaround exists.
High Severity Issue (Priority 2)	High loss of Service functionality or performance, impacting the Service functionality for a high number of users (e.g. Service response is very slow, day to day operations continue, but are impacted by the issue). No reasonable workaround available or the workaround is impractical.
Medium Severity Issue (Priority 3)	Moderate loss of Service functionality or performance, impacting multiple users. A convenient workaround exists (e.g. non-critical feature is unavailable or requires additional user intervention).
Low Severity Issue (Priority 4)	Minor loss of Service functionality or feature in question.

Functional Definitions: For the purposes of error classification, essential or major functions include: data capture features, SLA and alarming features, performance management features and application performance problem resolution features.

Response Time: LCT Software shall use commercially reasonable efforts to respond to error reports in accordance with the table set forth below. LCT Software will use reasonable means to repair the error and keep Customer informed of progress. LCT Software makes no representations as to when a full resolution of the error may be made.

Error Classification	Initial Response and Acknowledgement	Updates	Resolution Goal
Critical	1 Business Hour	Daily	LCT Software will put forth our best effort to provide a workaround, fix, or estimated completion date within seventy-two (**72**) hours after the problem has been diagnosed and/or replicated.
High	4 Business Hours	Weekly	LCT Software will put forth our best effort to provide a workaround or fix or estimated completion date within four (**4**) business days after the problem has been diagnosed and/or replicated.
Medium	8 Business Hours	As available	LCT Software will put forth our best effort to provide a workaround or fix or estimated completion date within seven (**7**) business days after the problem has been diagnosed and/or replicated.
Low	24 Business Hours	None	Resolution for the Issue may be released as a patch set or be incorporated into a future schedule release of the product.

Exhibit B

SERVICE LEVEL COMMITMENT

This SaaS Service Level Commitment ("SLC") is a policy governing the use of LCT software-as-service products (individually or collectively, the "Service" or "DigEplan") under the terms of the LCT Software Master Services Agreement (the "Agreement") between LCT Software and its affiliates ("LCT Software", "us" or "we") and the purchaser of LCT Software's Subscription Service ("Customer").

Unless otherwise provided herein, this SLC is subject to the terms of the Agreement and capitalized terms will have the meaning specified in the Agreement. LCT Software reserves the right to change the terms of this SLC in accordance with the Agreement.

Definitions

"Monthly Uptime Percentage" is calculated by subtracting from 100% the percentage of minutes during the month in which the Service was Unavailable. Measurement of the Monthly Uptime Percentage excludes downtime resulting directly or indirectly from any SLC Exclusion.

"Service Credit" is a dollar credit, calculated as set forth below, that LCT Software may credit back to an eligible Customer account.

"Unavailable" means, as applicable: (i) Customer is repeatedly unable to log into the Service; (ii) Customer experiences repeated connection request failures; (iii) Customer experiences lack of connectivity of external, public instances or sites lasting for more than ten (10) minutes;

The foregoing events must be verifiable or replicable by LCT Software or its designee. Availability of Accela APIs which are used by DigEplan to connect, is expressly excluded from this SLC.

Service Commitment

LCT Software will use commercially reasonable efforts to make the Service available with a Monthly Uptime Percentage of at least 99.9%, in each calendar month of the Subscription Period (the "Commitment"). In the event the Service does not meet this Commitment, Customer will be eligible to receive a Service Credit as described below.

Scheduled & Emergency Maintenance

LCT Software will maintain certain scheduled maintenance windows during which regular, planned maintenance of the Service may be performed. LCT Software will use commercially reasonable efforts to provide Customer with no less than twenty-four (24) hours' notice prior to Services unavailability due to planned maintenance. LCT Software's standard maintenance window will generally fall between the hours of 12:00 AM (00:00) and 5:00 AM [05:00] on a day of our choosing, local time.

In exceptional circumstances where updates may take more time than the weekly time slot, it may be necessary to run updates over w-ends.

LCT Software will endeavour to provide as much notice as is practicable under the circumstances for patches, updates, fixes and other emergency maintenance activities which may be applied on an urgent basis.

LCT Software will provide three (3) business days' notice prior to any planned network, server hardware, operating environment, or database modifications of a material nature.

Service Credits Monthly Uptime Percentage	Service Credit Percentage
Less than 99.9% but equal to or greater than 99.0%	2%
Less than 99.0%	5%

LCT Software will apply any Service Credits only against future Service payments otherwise due from Customer. Service Credits will not entitle Customer to any refund or other payment from LCT Software.

Service Credits may not be transferred or applied to any other account.

Unless otherwise provided in the Agreement, Customer's sole and exclusive remedy for any unavailability, non-performance, or other failure by LCT Software to provide the Service is the receipt of a Service Credit (if eligible) in accordance with the terms of this SLC.

Service Credit Requests

To receive a Service Credit, Customer must submit a claim in writing to accounts@lctsoftware.com

To be eligible for a Service Credit, the claim must be received by LCT Software in the calendar quarter in which the incident occurred and must include:

- the words "SLC Credit Request" in the subject line;
- the dates and times of each Unavailability incident that Customer is claiming; and
- the quantity or scope of affected Users (as indicated by User ID, number of departments or similar metric);
- Supporting evidence from the support service desk

If the Monthly Uptime Percentage of such Service Credit request is confirmed by us and is less than the Service Commitment, LCT Software will issue the Service Credit to Customer within one billing cycle following the month in which Customer's request is confirmed by LCT Software. Customer's failure to provide the request and other information as required above will disqualify Customer from receiving a Service Credit.

SLC Exclusions

The Service Commitment does not apply to any unavailability, suspension or termination of the Service or any Service performance issues: (i) caused by factors outside of LCT Software's reasonable control, including any force majeure event or Internet access or related problems beyond the Service demarcation point; (ii) that result from customizations (if outside of LCT Software's best practice recommendations), configuration changes by or on behalf of Customer or any End User; (iii) that result from Customer's or any End User's or third party's equipment, software or other technology or integrations (other than third party equipment within LCT Software's direct control); (iv) that result from any maintenance as provided for pursuant to the above terms; or (vii) arising from our suspension or termination of Customer's right to use the Service in accordance with the Agreement (collectively, the "SLC Exclusions"). If availability is impacted by factors other than those used in the Monthly Uptime Percentage calculation, LCT Software may issue a Service Credit with consideration to pertinent factors as assessed by LCT Software in its sole discretion.

EXHIBIT C

Subscription Terms of Service

Purchase or use of the Service (defined below) is subject to these Subscription Terms and Conditions (these "**Terms**").

1. DEFINITIONS

"**Agreement**" means these Terms and, if applicable, the written master service agreement or other written agreement between Customer and LCT Software that incorporates these Terms by reference.

"**Communication Data**" means any and all information transmitted, shared, or exchanged between Customer and any End User, or between End User and any third party (including any third-party network or website), using the Service, with respect to any transaction or other communication enabled by the Service, but excluding Security Data.

"**Customer**" means the entity that purchases a subscription to the Service, directly from LCT Software or through an authorized reseller, distributor, or other channel partner of LCT Software.

"**End Users**" means individuals who are authorized by Customer to use the Service and for whom Customer has purchased a subscription to the Service. End Users may include but are not limited to Customer's employees, contractors and agents. Each End User will be associated with a single, unique email address for purposes of accessing (and being identified within) the Service.

"**Intellectual Property Rights**" means patent rights (including, without limitation, patent applications and disclosures), copyrights, trade secrets, know-how, and any other intellectual property rights recognized in any country or jurisdiction in the world.

"**Optional Services**" mean the optional add-ons to the Service that may be available for purchase either directly from LCT Software or through an authorized reseller or partner of LCT Software, as more particularly described or identified in the applicable Order.

"**Order**" means written orders to purchase subscriptions to use the Service (or, where applicable, to purchase Optional Services).

"**Security Data**" means any and all information provided by Customer or any End User to establish secure transmissions through use of the Service, including but not limited to personal information, information used to identify account names or numbers, routing information, usernames, passwords, access codes and prompts.

"**Service**" or "**Subscription Service**" means the cloud-based network security service(s) for which Customer has obtained a subscription either directly from LCT Software or through an authorized reseller or other partner of LCT Software, as more particularly described in the applicable agreement or order under which such subscription was obtained. If and as designated in the Specifications, the Service may be inclusive of application programming interfaces (APIs) developed by LCT Software to enable interaction and integration with the Service. Unless otherwise specified herein or other applicable contractual terms, all references to "Service" will be deemed to include any and all Optional Services.

"**Software**" means any software (including client software for End Users' devices) that LCT Software makes available for download or otherwise provides for use with the Service.

"**Specifications**" means the key features and functionality of the Service as described in the then-current user documentation for the Service or in this Agreement.

"**Subscription Period(s)**" means the duration of Customer's and End Users' active, paid access to the Service, as designated in the Order(s).

"Supported Modification" means a configuration of or modification to the Service requested by Customer that can be consistently supported by LCT Software via APIs, does not require direct database changes and is capable of being tested and maintained by LCT Software.

2. AUTHORIZED USERS. Only End Users may access or use the Service under Customer's account. Each End User may use any reasonable number of compatible devices for purposes of accessing the Service; provided that, LCT Software reserves the right to determine whether a number of devices is reasonable and, in its sole discretion, to place a corresponding cap on the number of devices. Unless expressly authorized by LCT Software, End User subscriptions cannot be shared or used by more than one individual but may be permanently reassigned to new End Users.

3. USE OF THE SERVICE

3.1. **LCT Software's Responsibilities**. LCT Software will: (i) provide to Customer support related to the Service in accordance with the LCT Software Support Terms accessible at **https://zdrive.eu/gVe** (which URL location and content may be updated from time to time by LCT Software) and (ii) provide the Service only in accordance with applicable laws and government regulations.

3.2. **Customer's Responsibilities**. Customer will (i) be responsible for meeting LCT Software's applicable minimum system requirements for use of the Service; (ii) be responsible for End Users' compliance with these Terms and for any other activity (whether or not authorized by Customer) occurring under Customer's account, (iii) be solely responsible for the accuracy, quality, integrity and legality of Communication Data, (iv) use commercially reasonable efforts to prevent unauthorized access to or use of the Service under its account, and notify LCT Software promptly of any such unauthorized access or use, and (v) use the Service only in accordance with the applicable documentation, laws and government regulations, and any written instructions provided by LCT Software to Customer.

3.3. **Prohibitions.** Customer will not, and will ensure that its End Users do not, (i) make the Service available to anyone other than End Users; (ii) sell, resell, rent, lease or transfer the Service in whole or in part to any third party (including Customer affiliates) without the express permission of LCT Software and execution of designated transfer documentation; (iii) use the Service to store or transmit infringing, libelous, or otherwise unlawful or tortious material, or to store or transmit material in violation of third-party privacy or intellectual property rights; (iv) use the Service to store or transmit viruses, worms, time bombs, Trojan horses and other harmful or malicious code, files, scripts, agents or programs; (v) interfere with or disrupt the integrity or performance of the Service or third-party data contained therein; (vi) attempt to gain unauthorized access to the Service or any related systems or networks; or (vii) obtain intellectual property rights to the use of any component of the Services (inclusive of APIs).

3.4. **Software**. End Users may need to download and install client Software (as made available by LCT Software or other third party authorized by LCT Software) on each device through which they intend to use the Service. All use of such Software will be governed by terms of the applicable license agreement or terms of use that accompanies or is made available in connection with the Software. Customer acknowledges that each End User (or authorized Customer representative) must accept such license agreement, and have Service-compatible device(s), to download, install, and/or use the Software. Nothing in these Terms will be deemed to grant to Customer rights of any kind in the Software.

3.5**. Security Data and Privacy**. Customer understands that failure to protect Security Data may allow an unauthorized person or entity to access the Service. In addition, Customer acknowledges that LCT Software

generally does not have access to and cannot retrieve lost Security Data. If Customer loses Security Data, Customer may no longer have access to the Service. Customer agrees that: (i) Customer (or its End User) is solely responsible for collecting, inputting and updating all Security Data; (ii) LCT Software assumes no responsibility for supervision, management or control of Customer's and End Users' Security Data; and (iii) LCT Software assumes no responsibility for any fraudulent or unauthorized use of the Software or any portion of the Service.

4. **PROPRIETARY RIGHTS**

4.1. **Reservation of Rights**. Subject to the limited rights expressly granted hereunder, LCT Software reserves all rights, title and interest in and to the Service and any associated Software and documentation, including all related Intellectual Property Rights. No rights are granted to Customer hereunder other than as expressly set forth herein.

4.2. **Restrictions**. In addition to the other prohibitions set forth in these Terms, Customer will not and will ensure that its agents do not (i) create derivate works based on the Service, (ii) copy, frame or mirror any part or content of the Service, other than copying or framing on Customer's own intranets or otherwise for Customer's internal business purposes in accordance with LCT Software's applicable documentation, (iii) reverse engineer the Service, or (iv) access the Service (inclusive of any APIs) in order to build or patent a competitive product or service or to copy any features, functions or graphics of the Service.

4.3. **Communication Data Ownership**. Customer reserves all its rights, title and interest in and to the Communication Data. No rights are granted to LCT Software hereunder with respect to the Communication Data, except that LCT Software may (i) store, copy, process, and transmit such Communication Data for purposes of providing the Service to Customer and (ii) otherwise utilize Communication Data if and as permitted by LCT Software's Privacy Policy.

4.4. **Customer Suggestions**. Customer grants LCT Software a royalty-free, worldwide, transferable, sublicensable, irrevocable, perpetual license to use or incorporate into the Service (or LCT's other software or services) any suggestions, enhancement requests, recommendations, or other feedback provided by Customer or End Users relating to the operation or features of the Service.

5. **CONFIDENTIALITY**

5.1. Definition. As used herein, "**Confidential Information**" means all confidential information disclosed by a party ("**Disclosing Party**") to the other party ("**Receiving Party**"), whether orally or in writing, that is designated as confidential or that reasonably should be understood to be confidential given the nature of the information and the circumstances of disclosure. However, Confidential Information will not include any information that (i) is or becomes generally known to the public without breach of any obligation owed to the Disclosing Party, (ii) was known to the Receiving Party prior to its disclosure by the Disclosing Party without breach of any obligation owed to the Disclosing Party, (iii) is received from a third party without breach of any obligation owed to the Disclosing Party, (iv) was independently developed by the Receiving Party, or (v) is available to the public pursuant to applicable law.

5.2. **Protection**. Except as otherwise permitted in writing by the Disclosing Party and subject to the other terms of this Agreement and LCT Software's Privacy Policy, (i) the Receiving Party will use the same degree of care that it uses to protect the confidentiality of its own confidential information of like kind (but in no event less than reasonable care) not to disclose or use any Confidential Information of the Disclosing Party for any purpose outside the scope of these Terms, and (ii) the Receiving Party will limit access to Confidential Information of the Disclosing Party to those of its employees, contractors and agents who need such access for purposes consistent with these Terms and who are legally bound to protect such Confidential Information consistent with these Terms.

5.3. **Compelled Disclosure**. The Receiving Party may disclose Confidential Information of the Disclosing Party if it is compelled by law to do so, provided the Receiving Party gives the Disclosing Party prior notice of such compelled

disclosure (to the extent legally permitted) and reasonable assistance, at the Disclosing Party's cost, if the Disclosing Party wishes to contest, limit, or protect the disclosure.

6. **WARRANTIES AND DISCLAIMERS**

6.1. **Specifications.** Subject to the limitations set forth below, LCT Software warrants that the Service will operate in all material respects in accordance with the Specifications. As Customer's sole and exclusive remedy and LCT Software's entire liability for any breach of the foregoing warranty, LCT Software will use commercially reasonable efforts to modify the Service so that it conforms to the foregoing warranty.

6.2. **Disclaimers**. EXCEPT AS EXPRESSLY PROVIDED HEREIN, LCT SOFTWARE DOES NOT MAKE ANY WARRANTIES OF ANY KIND, WHETHER EXPRESS, IMPLIED, STATUTORY OR OTHERWISE, AND LCT SOFTWARE SPECIFICALLY DISCLAIMS ALL IMPLIED WARRANTIES, INCLUDING ANY WARRANTIES OF MERCHANTABILITY, NON-INFRINGEMENT OR FITNESS FOR A PARTICULAR PURPOSE, OR ANY WARRANTIES ARISING OUT OF THE COURSE OF DEALING OR USAGE OF TRADE, TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW. LCT Software will not be responsible to the extent failure of the Service to operate as warranted is caused by or results from: (i) any modification to the Service other than a Supported Modification; (ii) combination, operation or use of the Service with Customer's or a third party's applications, software or systems; (iii) abuse, willful misconduct or negligence by anyone other than LCT Software or LCT Software's designee; (iv) use of the Service other than in accordance with the terms of this Agreement and/or the applicable Specifications and LCT Software's user documentation for the Service or (v) any of the SLC Exclusions (as defined in Exhibit B, the Service Level Commitment).

7. **MUTUAL INDEMNIFICATION**

7.1**. Indemnification by Customer**. To the extent permitted by applicable law, Customer will defend (or settle), indemnify and hold harmless LCT Software, its officers, directors, employees and subcontractors, from and against any liabilities, losses, damages and expenses, including court costs and reasonable attorneys' fees, arising out of or in connection with any third-party claim: (i) that a third party has suffered injury, damage or loss resulting from Customer's or any End User's breach of this Agreement, gross negligence or intentional misconduct; or (ii) arising out of Customer's or any End User's use of the Service in a manner that violates these Terms or applicable law. Customer's obligations under this Section 7.1 are contingent upon: (a) LCT Software providing Customer with prompt written notice of such claim; (b) LCT Software providing reasonable cooperation to Customer, at Customer's expense, in defense and settlement of such claim; and (c) Customer having sole authority to defend or settle such claim.

7.2. **Indemnification by LCT Software**. LTC Software will defend (or settle) any suit or action brought against Customer its officers, directors, employees and subcontractors, from and against any liabilities, losses, damages and expenses, including court costs and reasonable attorneys' fees, arising out of or in connection with any third-party claim: (i) that a third party has suffered injury, damage or loss resulting from LCT Software's or its personnel's breach of this Agreement, gross negligence, or intentional misconduct; (ii) arising out of LCT Software's or its personnel's use of the Service in a manner that violates these Terms or applicable law; or (iii) that the Service, as provided by LCT Software, infringes or misappropriates the Intellectual Property Rights of such third party. LCT Software's obligations under this Section 7.2 are contingent upon: (a) Customer providing LCT Software with prompt written notice of such claim; (b) Customer providing reasonable cooperation to LCT Software, at LCT Software's expense, in defense and settlement of such claim; and (c) LCT Software having sole authority to defend or settle such claim. LCT Software will have no liability for an infringement claim to the extent that the claim is based on any combination of the Service with products, services, methods, or other elements not furnished by LCT Software, or any use of the Service in a manner that violates this Agreement or the instructions given to Customer by LCT Software.

7.3. **Mitigation Measures.** In the event that (i) any claim or potential claim covered by Section 7.2 arises or (ii) LCT Software's right to provide the Service is enjoined or in LCT Software's reasonable opinion is likely to be enjoined, LCT Software may, in its discretion, seek to mitigate the impact of such claim or injunction by obtaining the right to continue providing the Service, by replacing or modifying the Service to make it non-infringing, and/or by suspending or terminating Customer's use of the Service with reasonable notice to Customer. In the case of a suspension or termination pursuant to this Section 7.3, LCT Software will refund to Customer a portion of fees prepaid by Customer for the then-current Subscription period, to the portion of that Subscription period that is affected by the suspension or termination.

8. **LIMITATIONS OF LIABILITY.** EXCEPT THE PARTIES' INDEMNIFICATION OBLIGATIONS UNDER SECTIONS 7.1 AND 7.2, MISAPPROPRIATION OR VIOLATION OF LTC SOFTWARE'S INTELLECTUAL PROPERTY RIGHTS, OR CUSTOMER'S FAILURE TO PAY AMOUNTS OWED TO LTC SOFTWARE, IN NO EVENT WILL EITHER PARTY'S LIABILITY TO OTHER PARTY OR ANY THIRD PARTY ARISING OUT OF OR IN CONNECTION WITH THIS AGREEMENT OR FROM THE USE OF OR INABILITY TO USE THE SERVICE, WHETHER IN CONTRACT, TORT OR UNDER ANY OTHER THEORY OF LIABILITY, EXCEED THE TOTAL AMOUNT PAID BY CUSTOMER HEREUNDER OR, WITH RESPECT TO ANY SINGLE INCIDENT, THE GREATER OF THE AMOUNT PAID BY CUSTOMER HEREUNDER IN THE TWELVE (12) MONTH PERIOD PRECEDING THE INCIDENT, OR THE AMOUNTS AVAILABLE UNDER LTC SOFTWARE'S INSURANCE COVERAGE.

8.1. **Exclusion of Damages**. EXCEPT IN THE CASE OF MISAPPROPRIATION OR VIOLATION OF LTC SOFTWARE'S INTELLECTUAL PROPERTY RIGHTS, NEITHER PARTY NOR ANY OTHER PERSON OR ENTITY INVOLVED IN CREATING, PRODUCING, OR DELIVERING THE SERVICE WILL BE LIABLE FOR ANY INCIDENTAL, SPECIAL, EXEMPLARY OR CONSEQUENTIAL DAMAGES, INCLUDING LOST PROFITS, LOSS OF DATA OR LOSS OF GOODWILL, SERVICE INTERRUPTION, COMPUTER DAMAGE OR SYSTEM FAILURE, OR THE COST OF SUBSTITUTE PRODUCTS OR SERVICES, ARISING OUT OF OR IN CONNECTION WITH THIS AGREEMENT OR FROM THE USE OF OR INABILITY TO USE THE SERVICE, WHETHER BASED ON WARRANTY, CONTRACT, TORT (INCLUDING NEGLIGENCE), PRODUCT LIABILITY OR ANY OTHER LEGAL THEORY. THE FOREGOING EXCLUSIONS APPLY WHETHER OR NOT PARTY HAS BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGE, AND EVEN IF A LIMITED REMEDY SET FORTH HEREIN IS FOUND TO HAVE FAILED OF ITS ESSENTIAL PURPOSE. NOTHING IN THESE TERMS EXCLUDES OR RESTRICTS THE LIABILITY OF EITHER PARTY FOR DEATH OR PERSONAL INJURY RESULTING FROM ITS NEGLIGENCE.

8.2. **Security and Other Risks**. Customer acknowledges that, notwithstanding security features of the Service, no product, hardware, software or service can provide a completely secure mechanism of electronic transmission or communication and that there are persons and entities, including enterprises, governments and quasi-governmental actors, as well as technologies, that may attempt to breach any electronic security measure.

Subject only to its limited warranty obligations set forth in Section 6, LCT Software will have no liability for any security breach caused by any such persons, entities, or technologies. Customer further acknowledges that the Service is not guaranteed to operate without interruptions, failures, or errors. If Customer or End Users use the Service in any application or environment where failure could cause personal injury, loss of life, or other substantial harm, Customer assumes any associated risks and will, to the extent permitted by applicable law, indemnify LCT Software and hold it harmless against those risks.

8.3. **Basis of Bargain**. THE LIMITATIONS OF LIABILITY AND EXCLUSIONS OF DAMAGES SET FORTH IN THIS SECTION 8 ARE FUNDAMENTAL ELEMENTS OF THE BASIS OF THE BARGAIN BETWEEN LCT SOFTWARE AND CUSTOMER AND WILL APPLY TO THE MAXIMUM EXTENT ALLOWED UNDER APPLICABLE LAW.

9. **SUBSCRIPTION PERIOD AND TERMINATION**

9.1. Term of End User Subscriptions. End User Subscriptions purchased by Customer commence on the start date specified in the applicable Order and, unless terminated earlier in accordance with these Terms, continue for the term specified therein (the "Subscription Period"). A Subscription Period and/or pricing there on may be subject to

prorating where LCT Software deems it appropriate to cause newly purchased Subscriptions to expire or renew simultaneously with Customer's pre-existing Subscription(s). Except as otherwise specified in the applicable Order, all Subscriptions will automatically renew for additional Subscription Periods equal to the expiring Subscription Period or one year (whichever is shorter), unless either party gives the other at least sixty (60) days' notice of non-renewal before the end of the relevant Subscription Period. The per-unit pricing during any such renewal Subscription Period may be subject to annual pricing increase as designated by LCT Software and notified to Customer. Pricing increases will be effective upon renewal of the Subscription Period and annually thereafter, unless otherwise agreed to by the parties. If either party provides notice of non-renewal as set forth above, Customer's right to use the Service will terminate at the end of the relevant Subscription Period.

9.2. **Termination or Suspension for Cause**. A party may terminate any Subscription for cause upon thirty (30) days' written notice to the other party of a material breach if such breach remains uncured at the expiration of such thirty (30) day period. In addition, LCT Software may, at its sole option, suspend or terminate Customer's or any End User's access to the Service, or any portion thereof, immediately if LCT Software, in its sole discretion: (i) if suspects that any person other than Customer or an End User is using or attempting to use Security Data, (ii) suspects that Customer or an End User is using the Service in a way that violates these Terms and could expose LCT Software or any other entity to harm or legal liability, or (iii) is or reasonably believes it is required to do so by law or court order.

9.3. **Effect of Termination**. Within thirty (30) calendar days following the end of Customer's final Subscription Period, Customer may request in writing LCT Software to provide a copy of Customer's data and associated documents in a database dump file format. LCT Software will comply in a timely manner with such request, provided that Customer (a) pays all costs of and associated with such copying, as calculated at LCT Software's then-current time-and-materials rates; and (b) pays any and all unpaid amounts due to LCT Software.

9.4. **Surviving Provisions**. Sections 4 (Proprietary Rights), 5 (Confidentiality), 6.2 (Disclaimer), 7 (Mutual Indemnification), 8 (Limitation of Liability), 9.3 (Effect of Termination), 9.4 (Surviving Provisions) and 10 (General Provisions) of these Terms will survive any termination or expiration of this Agreement.

10. **GENERAL**

10.1. **Notice.** Except as otherwise specified in these Terms, all notices, permissions and approvals hereunder will be in writing and will be deemed to have been given upon: (i) personal delivery, (ii) the second business day after mailing, or (iii) sending by confirmed email if sent during the recipient's normal business hours (or, if not, then on the next business day). Notices will be sent to the address specified by the recipient in writing when entering into this Agreement or establishing Customer's account for the Service (or such other address as the recipient may thereafter specify by notice given in accordance with this Section 10.1).

10.2. **Governing Law and Jurisdiction**. This Agreement and any action related thereto will be governed by the laws of the State of CA without regard to its conflict of law's provisions. The exclusive jurisdiction and venue of any action related to the Service or this Agreement will be the state and federal courts located in CA and each of the parties hereto waives any objection to jurisdiction and venue in such courts.

10.3. **Compliance with Laws**. Each party will comply with all applicable laws and regulations with respect to its activities under this Agreement including, but not limited to, export laws and regulations of the United States and other applicable jurisdictions. Without limiting the foregoing, Customer will not permit End Users to access or use the Service in violation of any U.S. export embargo, prohibition or restriction.

10.4. **Relationship of the Parties**. This Agreement does not create a partnership, franchise, joint venture, agency, fiduciary or similar relationship between the parties.

10.5. **Waiver and Cumulative Remedies**. No failure or delay by either party in exercising any right under this Agreement will constitute a waiver of that right. Other than as expressly stated herein, the remedies provided herein are in addition to, and not exclusive of, any other remedies of a party at law or in equity.

10.6. **Severability**. If any provision of this Agreement is held by a court of competent jurisdiction to be illegal or unenforceable, the provision will be modified by the court and interpreted so as best to accomplish the objectives of the original provision to the fullest extent permitted by law, or if it cannot be so modified, then severed, and the remaining provisions of this Agreement will remain in full force and effect.

10.7. **Assignment**. Customer may not assign or transfer this Agreement, whether by operation of law or otherwise, without the prior written consent of LCT Software. Any attempted assignment or transfer, without such consent, will be void. Subject to the foregoing, this Agreement will bind and inure to the benefit of the parties, their respective successors and permitted assigns.

10.8. **Publicity**. Subject to the provisions of Section 5, each party will have the right to publicly announce the existence of the business relationship between parties. In addition, during the Subscription Period of Customer's Service use, LCT Software may use Customer's name, trademarks, and logos (collectively, "**Customer's Marks**") on LCT Software's websites and marketing materials to identify Customer as LCT Software's customer, and for providing the Service to Customer; provided that, LCT Software will use commercially reasonable efforts to adhere to any usage guidelines furnished by Customer with respect to Customer's Marks.

10.9. **Force Majeure**. The Parties will not be liable for any delay or failure to perform under this Agreement to the extent such delay or failure results from acts of God; flood, fire, earthquake or explosion; war or hostilities; terrorist threats or acts; cyberattacks; riot or other civil unrest; government order, law, or other acts of governmental authorities; embargoes or blockades; emergencies; epidemic or other illness outbreaks; or other circumstances or causes beyond the reasonable control of the Party. The impacted Party will promptly notify the other Party of such force majeure event and shall use reasonable efforts to reduce the consequences of the event and to resume performance of all relevant obligations as soon as possible.

10.10. **Entire Agreement.** These Terms, including any attachments hereto as mutually agreed upon by the Parties, constitute the entire agreement between the parties concerning its subject matter and supersedes all prior communications, agreements, proposals or representations, written or oral, concerning its subject matter. No modification, amendment, or waiver of any provision of these Terms will be effective unless in writing and signed by a duly authorized representative of each party against whom the modification, amendment or waiver is to be asserted. Notwithstanding any language to the contrary therein, no additional or conflicting terms or conditions stated in Customer's order documentation will be incorporated into or form any part of these Terms, and all such terms or conditions will be null.

PURCHASING FINANCE

SOLE SOURCE INSTRUCTIONS

1. Departments may request a waiver of the competitive bid/proposal process for either goods or services by submitting a "Sole Source Form" to Purchasing. Sole Source purchases are an exception to the competitive procurement function. The requesting department shall avoid sole source purchases whenever possible.

2. The Sole Source Form is not required when purchasing from existing public agency contracts that allow for "piggy-back" purchases and/or any other cooperative purchasing contracts as long as the contract complies with all provisions of Roseville Municipal Code Section 4.12.105. This form is also not required for professional services under the bid limit. For professional services above the bid limit, compelling reasons shall be provided on the form to support the request (see RFP Policy Section III, paragraph B).

3. The Sole Source Form is required for all sole source purchase requests valued at or over $5,000, including costs such as taxes, freight, and any other miscellaneous fees. The completed form must be attached to Purchase Requisitions (PR) for Purchase Orders (PO) and Contract Purchase Agreements (CPA). It must also be attached to Requests for Legal Services (Greenies) sent to the City Attorney's Office for the preparation of Professional Service Agreements (PSA) and Professional Design Service Agreements (PDSA).

4. If the sole source request is over the formal bid limit, then the end using department is responsible for submitting the Sole Source Form to the City Attorney's office for final review/signature after obtaining departmental signatures. The Department is also responsible for submitting the Council Communication into Novus after obtaining the proper signatures on this form. The original, signed Sole Source Form does not need to be included with your hard copy submittal to the City Clerk; however, a copy of the fully signed form needs to be attached in Novus as a non-public attachment.

5. The Sole Source Form is <u>never</u> to be used for emergency construction services or goods. Procurement of emergency construction services or goods over the bid limit must comply with Public Contracts Code Sections 1102, 20168, and 22050. Consultation with the City Attorney's Office is recommended.

<u>Approval process for Sole Source purchases:</u>

REQUIRED SIGNATURES:	
$5000 to $74,999.99	**At or Above Formal Bid Limit ($75,000)**
Requestor	Requestor
Division Manager	Division Manager
Purchasing Official	Department Head
	City Attorney
	City Manager (for professional services only)
	Council Approval

a) The criteria for a sole source justification, at a minimum, shall be as follows:

<u>Sole Source Definition</u>: a) There is only one known provider or distributor capable of providing a particular service or commodity required by the City. No other commodities or services are known to exist which perform the same function; or b) There is more than one provider or distributor capable of providing a particular service or commodity required by the City; however, certain compelling reasons require a specific vendor.

<u>Personal preference, history of dealing, or familiarity with a facility, good or service are not adequate justifications for a sole source purchase.</u> Independent research must be conducted by the end using department to support their request.

The Purchasing Official shall review sole source requests for conformity to the requirements of the City's Municipal Code and policies. Potential denial of a sole source request shall be discussed with the requesting Division Manager or Department Head. The City Attorney's Office shall review exceptions to these requirements and make the final determinations of approval or denial of sole source requests. Typically the Sole Source Form will be active for a one year period. The renewal process is one year from approval or through the coverage period of any multi-year contracts. If a contract has approval to be renewed annually without further City Council authorization, a new Sole Source Form is still required for each annual renewal.

PURCHASING FINANCE

SOLE SOURCE FORM

Requesting Department: Development Services
Name of Requestor: Chris Fanucchi

Division: Business & Administrative Services
Extension: 1353

Total Dollar Amount: $210,193.00

Vendor Name: LCT Software

Sole Source forms are not required for purchases less than $5,000

DEFINITIONS: Sole Source means that there is only **one** supplier who can provide the required product or service; or there may be more than one available supplier for a particular product or service; however, a ***sole provider*** is being selected based upon one or more of the following reasons:

Check applicable criteria and complete explanation section.

☒ *Standardization*: Sole Brand items are used in cases where the City requires the item(s) to standardize parts, design, quality, etc. with a particular brand or model. Sole Brand items may be items which perform a certain function for which no other items are known to exist. *(Explain below)*

☐ *Critical Schedule Requirements*: Supplier is the firm best able to meet critical schedule requirements. NOTE: This is not available for construction goods or services over the Council limit. (*Explain below)*

☐ *Specialized Test Facilities/Equipment*: Supplier is known to have facilities and/or test equipment which is highly specialized. *(Explain below)*

☐ *Patented, Copyrighted, or Licensed Item or Service:* The item or service is held under exclusive title, trademark or copyright by a private person or company. (*Attach letter from manufacturer authorizing specific supplier.)*

☐ *Distributorship*: Manufacturer defines limited or proprietary distribution channels, i.e., one designated vendor for the local sales territory. (*Attach letter from manufacturer authorizing specific supplier.)*

☐ *Professional Services Over Bid Limit (Requires City Manager and City Attorney approval):* Contracts for professional services not conducive to bidding (including, without limitation, contracts for engineering, architectural, accounting or legal services). Compelling reasons warrant an exception to the competitive procurement process. *(Explain below)*

Explanation: (Attach additional pages if needed.)
LCT Software is the sole provider of the electronic plan review software DigEplan, which has provided unique features and capabilities utilized by City staff to electronically review plans since March 2020. DigEplan is also highly integrated with, and customized for, the City's enterprise online permitting software, Accela.

Please note this request is for the renewal of an existing software subscription service that is currently integrated with the City's permitting system.

ADDITIONAL INFORMATION:

Vendor Name:LCT Software (an Avolve Company) Phone: (801) 707-8687

Contact Person:Jacob Byers Email Address: jbyers@avolvesoftware.com

Address: 21001 N Tatum Blvd, Ste 1630-503 Phoenix, AZ 85050

Define / Describe specific product(s) or service(s): ***required**

DigEplan is electronic plan review software that is fully integrated inside our enterprise online permitting software, Accela. It allows city staff plan reviewers to open, markup, and approve plans without leaving the permitting software interface.

AUTHORIZATION:

"I, the Undersigned, understand the City's requirement for competitive bidding. I also understand sole source purchases do not allow a competitive bid process. I have researched alternatives and other sources and have made a concerted effort to review comparable/equal equipment and sources. I believe, to the best of my knowledge, this sole source request to be justified and have found the supplier identified above to be the best source for this procurement action, with the agreed-upon pricing to be fair and reasonable and in the best interest of the City of Roseville for the utilization of its public funds."

Title:	Assistance to Firefighters Grant Program - Grant Application
Contact:	Jordan Paul 916-774-5802 jpaul@roseville.ca.us

SUMMARY

Staff recommends approval for staff to submit an application to the U.S. Federal Emergency Management Agency (FEMA) for the FY2025 Assistance to Firefighters Grant for $511,217, with a ten percent matching funds requirement, or $51,121, to implement an updated Knox Box rapid entry system, and authorize the Fire Chief or designee to execute all related forms and agreements. An updated electronic system would improve security, accountability, and emergency response capabilities by allowing immediate deactivation of compromised keys without replacing physical locks. If awarded the grant, the matching funds would be provided by the Fire Department budget or the General Fund contingency budget.

RECOMMENDATION

Staff recommends that the City Council adopt a resolution to authorize staff to submit an application to the U.S. Federal Emergency Management Agency (FEMA) for the FY2025 Assistance to Firefighters Grant for $511,217, with a ten percent matching funds requirement, to implement an updated Knox Box rapid entry system, and authorize the Fire Chief or designee to execute all related forms and agreements.

BACKGROUND

The Roseville Fire Department is pursuing grant funding through the FEMA Assistance to Firefighters Grant (AFG) program to support replacement and modernization of the department's Knox Box rapid entry system infrastructure. Knox rapid entry systems provide secure, standardized access for emergency responders into commercial buildings, gated communities, and secured facilities during emergencies without forcing entry or causing property damage.

The current Knox key inventory and associated equipment are aging and increasingly difficult to support operationally. Modernization of the system would improve emergency response efficiency and building security while reducing delays during fire alarms, medical emergencies, hazardous materials incidents, and other critical responses. The project would allow for interoperability and regional coordination with neighboring agencies that utilize compatible Knox systems.

An additional driver for this project is the enhanced security electronic keys provide over the current mechanical key system. Under the existing system, if a Knox master key is lost, compromised, or stolen, the security integrity of the entire system is impacted. This can require replacement or re-keying of Knox cores citywide to maintain security. Historically, these costs are often passed on to individual property owners, creating a significant financial burden and eroding confidence in the Knox Box program. Transitioning to an electronic key management system would substantially reduce this risk by allowing electronic credential management, auditing, and rapid deactivation of lost or compromised keys without requiring replacement of physical locks throughout the city.

The proposed project includes procurement of updated Knox electronic lock cores, secure apparatus-mounted key management hardware, electronic access devices, and associated implementation costs.

FISCAL IMPACT

The total project cost is estimated at approximately $511,217, with a required local match of ten percent, or $51,121, under FEMA AFG cost-share requirements. If awarded the grant, the matching funds would be provided by the Fire Department budget or the General Fund contingency budget.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)).

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

APPROVING A GRANT APPLICATION TO THE U.S. FEDERAL EMERGENCY MANAGEMENT AGENCY FOR THE FISCAL YEAR 2025 ASSISTANCE TO FIREFIGHTERS GRANT PROGRAM, AND AUTHORIZING THE FIRE CHIEF OR DESIGNEE TO EXECUTE ALL RELATED FORMS AND AGREEMENTS ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, the Roseville Fire Department is pursuing grant funding through the Federal Emergency Management Agency (FEMA) Assistance to Firefighters Grant (AFG) program to support replacement and modernization of the department's Knox Box rapid entry system infrastructure; and

WHEREAS, Knox rapid entry systems provide secure, standardized access for emergency responders into commercial buildings, gated communities, and secured facilities during emergencies without forcing entry or causing property damage; and

WHEREAS, the current Knox key inventory and associated equipment are aging and increasingly difficult to support operationally; and

WHEREAS, modernization of the system would improve emergency response efficiency and building security while reducing delays during fire alarms, medical emergencies, hazardous materials incidents, and other critical responses; and

WHEREAS, staff is requesting authorization to submit an application to FEMA for the FY2025 Assistance to Firefighters Grant for $511,217 in order to implement an updated Knox Box rapid entry system; and

NOW, THEREFORE, BE IT RESOLVED that the City Council of the City of Roseville hereby authorizes staff to submit a grant application to the U.S. Federal Emergency Management Agency for the FY2025 Assistance to Firefighter Grant Program.

BE IT FURTHER RESOLVED that the City agrees to contribute a ten percent (10%) match of funds as required for acceptance of the grant funds.

BE IT FURTHER RESOLVED that the Fire Chief is hereby designated as an Authorized Agent to the Federal Emergency Management Agency for all matters pertaining to obtaining federal financial assistant and is authorized to execute all related forms and agreements to comply with all grant terms and conditions.

Title:	Vegetation and Firebreak Management - Contract Purchase Agreement Amendment
Contact:	Eric Dexter 916-746-1769 edexter@roseville.ca.us

SUMMARY

Staff recommends approval of an amendment to a contract purchase agreement with Sperber Landscape Companies LLC dba Cagwin & Dorward LLC, in the amount of $100,000, increasing the not-to-exceed amount from $180,000 to $280,000, to provide weed abatement for firebreaks and vegetation management throughout the city. This is in the final year of a five-year agreement. Funding is included in the Parks, Recreation & Libraries budget in the General Fund and Open Space Fund.

RECOMMENDATION

Staff recommends that the City Council adopt a resolution to approve Contract Purchase Agreement (3004647) Amendment #1 with Sperber Landscape Companies LLC dba Cagwin & Dorward LLC for vegetation management and firebreak installations, and authorize the City Manager to execute it on behalf of the City of Roseville.

BACKGROUND

The City is required by Title 14 California Code of Regulation, per the California Department of Forestry and Fire Protection, to install firebreaks on City property before July 1st of each year. A minimum 30-foot firebreak is installed between residential structures and City-owned open space. The City has utilized a combination of City staff and contract staff to complete the task of firebreak installation. We install roughly 200 acres of firebreaks throughout the City, which consist of 125 locations. There are an additional 102 locations that include vegetation reduction and management for clearance, asset protection and other regulatory measures that will also be conducted as part of the project. Services in this contract may be utilized by Park Operations, as well as the Public Works and Environmental Utilities Departments. This is the final year of a five-year contract and there were additional locations as part of the contract that were not accounted for in the original estimated amount.

FISCAL IMPACT

The original amount of the contract purchase agreement for FY2025-26 is $180,000, and the amendment is requested to increase the agreement to an updated not-to-exceed amount of $280,000 in this final year of the agreement. Funding is included in the Parks, Recreation & Libraries budget in the General Fund and Open Space Fund.

ENVIRONMENTAL REVIEW

The proposed project involves minor alteration in the condition of the land, water, and or vegetation which will not remove healthy, mature scenic trees. This activity is categorically exempt from CEQA as a Class 4 Exemption (State CEQA Guidelines Section 15304). The Exemption has been prepared and has been previously approved by the council on 5/19/2021 and has no changes except for the increase in funding. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

1. Ensure a safe and healthy community
6. Deliver exceptional City services

Project Title: Vegetation Management and Firebreak – Agreement for Services

Project Location(s): Citywide, City of Roseville, CA.

Project Description: The City of Roseville is required by Title 14 California Code of Regulations, per California Department of Forestry and Fire protection, to install firebreaks on City property prior to July 1st annually. A minimum 30-foot firebreak will be installed between residential structures and City-owned open space. The City has utilized a combination of City staff and contract staff to complete the task of firebreak installation. Approximately 125 locations (200 acres of firebreaks) will be installed throughout the City. An additional 102 locations will include vegetation reduction and management for clearance, asset protection and other regulatory measures. Services in this contract may be utilized by Park Operations, Public Works and Environmental Utilities Department.

Public Agency Approving Project: Roseville City Council

Agency/Individual Carrying Out Project: City of Roseville Parks, Recreation and Libraries Department, Public Works Department, Environmental Utilities Department

Reason why this Project is Exempt: The proposed project qualifies for a Class 4 Categorical Exemption (CEQA Section 15304). Class 4 applies to minor alterations to land which will not remove healthy, mature, or scenic trees, which will not occur with the proposed vegetation management activities. Therefore the Class 4 Exemption is applicable.

Title:	School Resource Officers - Memorandum of Understanding
Contact:	Courtney Scurria 916-746-1051 CScurria@roseville.ca.us

SUMMARY

Staff recommends approval of the Memorandum of Understanding between the City and the Roseville Joint Union High School District for the School Resource Officers (SRO's). Their primary role is to investigate crimes that occur on campus or that involve the student population, educate and develop positive relationships with students and staff, monitor and enforce truancy laws and act as liaison with county agencies that also support and work with student populations, including probation, children's protective services, mental health, social service agencies and the courts. SRO's help school officials maintain a safe and secure learning environment on campuses. The net cost to the City is approximately $319,550 for 2026-2027, $303,490 for 2027-2028, and $287,030 for 2028-2029. Funding for the five SRO's is included in the Police Department's General Fund budget.

RECOMMENDATION

Staff recommends that the City Council adopt a resolution to approve the Memorandum of Understanding (MOU) between the City of Roseville and the Roseville Joint Union High School District (RJUHSD) regarding School Resource Officers, and authorize the City Manager to execute it.

BACKGROUND

The Police Department assigns sworn police officers as School Resource Officers (SRO's), formerly known as Youth Services Officers, to high school campuses. SRO's are assigned to the Social Services Unit. SRO's investigate crimes that occur on campus or that involve the student population, educate and develop positive relationships with students and staff, monitor and enforce truancy laws and act as liaison with county agencies that also support and work with student populations including probation, children's protective services, mental health, social service agencies and the courts. SRO's help school officials maintain a safe and secure learning environment on campuses.

For the 2026-2029 school years, the City and the Roseville Joint Union High School District have agreed to assign SRO's to the District's five school campuses in Roseville, which are Oakmont High School, Roseville High School, Woodcreek High School, Adelante High School, and West Park High School.

FISCAL IMPACT

The City's cost for providing SRO's for the nine-month school year is approximately $165,175 per officer for salary and benefits and $27,204 for vehicle cost, for a total amount of $961,895 for five officers. This cost does not include the cost of uniforms or equipment. Costs to the City may increase with additional years, due to increase cost for salaries, benefits, and vehicles.

RJUHSD has agreed to offset the costs as follows:
2026-2027: Five Officers = $642,345

2027-2028: Five Officers = $658,405
2028-2029: Five Officers = $674,865

The net cost to the City is approximately $319,550 for 2026-2027, $303,490 for 2027-2028, and $287,030 for 2028-2029. Funding for the five SRO's is included in the Police Department's General Fund Budget.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)).

MEMORANDUM OF UNDERSTANDING
BETWEEN THE CITY OF ROSEVILLE AND THE
ROSEVILLE JOINT UNION HIGH SCHOOL DISTRICT
REGARDING SCHOOL RESOURCE OFFICERS

THIS MEMORANDUM OF UNDERSTANDING ("MOU") is made and entered into this day of July 1, 2026, by and between the City of Roseville, a municipal corporation ("CITY"), and the Roseville Joint Union High School District, a public school district ("DISTRICT"); and

WITNESSETH:

WHEREAS, DISTRICT desires the Roseville Police Department ("RPD") to assign sworn police officers for service as School Resource Officers ("SROs") to high school campuses to assist DISTRICT in providing its pupils with safe and secure learning environments; and

WHEREAS, DISTRICT is willing to partially compensate CITY for CITY's operational costs in providing the SROs;

WHEREAS, CITY is willing to provide the SROs to perform regular duty law enforcement services in support of its social law enforcement goals; and

WHEREAS, any and all prior MOUs or agreements between CITY and DISTRICT are hereby repealed and replaced by this MOU.

NOW, THEREFORE, the parties agree as follows:

1. Law Enforcement Services.

1.1 CITY will provide one SRO at each of the following District sites: ***Woodcreek High School, Roseville High School, Oakmont High School, Roseville Pathways, and West Park High School,*** to perform regular duty law enforcement services during the schools' ***2026-2027, 2027-2028, and 2028-2029*** school calendars on student days of attendance and during the schools' normal hours of operation, typically defined as 8:15 a.m. to 3:45 p.m. on student days of operation; subject, however, to the availability of the SROs as determined by CITY as set forth in subsection (1.6).

1.2 The scope of work of the SROs shall be limited to those duties as described in the Scope of Work document attached hereto as Exhibit "A" and incorporated by this reference. Services to be performed by the SROs will primarily be at the specified DISTRICT sites but services will also include off-site work such as investigating reports involving juveniles enrolled at the school sites, checking for truant students and conducting juvenile probation searches.

1.4 The SRO will be reasonably familiar with the DISTRICT'S policies and regulations related to safety, student conduct, and discipline issues, including the DISTRICT'S Code of Conduct, Board Policies ("BP") and Administrative Regulations ("AR") 5132.6, 5142, 5145.11, 5145.12, 5145.13, and 3515.31.

1.5 SROs will typically work a 9/80 flex schedule with every other Monday or Friday being flexed. This includes paid time for both a physical training session and a lunch break, Monday through Friday; however, the SROs' work schedules and hours at the specified DISTRICT sites shall be at the discretion of the Chief of Police, or his/her designated representative.

1.6 For purposes of this MOU, "availability" shall be in the sole determination of RPD's Chief of Police, or his/her designated representative, taking into consideration any factors including, without limitation, the health of the SROs, vacations, shortage of manpower, required trainings and briefings, and duty assignment of SROs to higher priority matters. However, in specific instances of a SRO taking a leave of absence for more than one week, another available police officer will be assigned temporarily to the applicable school during such leave. RPD will communicate with and notify school site administration as soon as possible when a SRO will not be available on a student day of attendance. CITY shall advise the SROs to take into consideration the school vacation calendar when scheduling time off.

1.6 On an as-needed basis and subject to the availability of the requested SRO, DISTRICT may request law enforcement services by a SRO on an overtime basis immediately following the schools' normal hours of operations and on a call back basis at school functions later in the evenings and on weekends. At the beginning of each school semester, DISTRICT will provide to CITY a list of dates and times the SROs will be needed on an overtime basis. This list is subject to change based upon the mutual agreement of the parties. DISTRICT shall pay CITY in accordance with the overtime and call back rates then in effect for each SRO at the time of performance. After services have been rendered, CITY shall send DISTRICT an invoice for any overtime charges, which DISTRICT shall pay within thirty (30) days from the date of the invoice. Overtime charges shall be in addition to the annual payment required of DISTRICT pursuant to Section 2.

1.7 The parties agree that CITY retains control over assignments, wages and other terms and conditions of employment by CITY of the SROs. DISTRICT acknowledges that the SROs are held to the requirements of the law and RPD policy. DISTRICT agrees that it shall not have authority to direct the SROs' law enforcement activities. DISTRICT will immediately notify RPD's Social Services Sergeant or Social Services Administrator of any concerns regarding the SROs.

1.8 The certificated administrators of each school shall be responsible for student discipline and shall make all decisions regarding the imposition of discipline for students enrolled at their campus. The parties understand and acknowledge that the SRO, as a law enforcement officer, can only detain or take into physical custody those individuals for whom there is reasonable suspicion or probable cause that a criminal offense has been committed. SRO will not be used to enforce California Educational Code violations unless they include a Penal Code violation as an element of the violation.

2. <u>Student Records.</u>

2.1 The parties agree that the SRO shall be deemed to be a "school official" for the performance of the SRO's duties on behalf of the DISTRICT. The SRO shall therefore be allowed access to student records, but the DISTRICT is in direct control of the use, maintenance, and disclosure of student records in accordance with Education Code section 49076 and other applicable provisions of law. School officials shall allow the SRO to inspect and copy any student records maintained by the school for which the SRO has a "legitimate educational interest" within the scope of the SRO's service under this Agreement. This includes access to student directory information to the extent permitted by DISTRICT policy, classroom assignments, attendance records, intervention records, and discipline files. However, the SRO may not inspect or copy confidential student records outside the scope of the SRO's service, except as allowed by law.

2.2 If confidential student record information is needed in an emergency to protect the health or safety of a student or others, the DISTRICT may disclose to the SRO information that is needed to respond to the emergency situation based on the seriousness of the threat to someone's health or safety, the need of the information to meet the emergency situation, and the extent to which time is of the essence.

2.3 If confidential student record information is needed by the SRO, but no emergency situation exists, unless section 13.4 applies, the information may be released only upon the issuance of a subpoena, a court order, or written authorization of the parent/guardian.

2.4 Pursuant to Education Code section 48902, the principal or designee shall notify the

SRO of any acts of a student that may violate specified provisions of the Penal Code and Education Code. This may require the disclosure of the student's name or other identifying information to the SRO, along with information related to the underlying offense.

3. Law Enforcement Records and Juvenile Case File Information.

Pursuant to Welfare and Institutions Code sections 827, 828.1, and 828.3, certain law enforcement records, probation reports, and juvenile case file information may be provided to the DISTRICT Superintendent or his/her designee.

4. DISTRICT Payment.

4.1 It is understood and agreed by DISTRICT and CITY that DISTRICT will pay CITY less than full time cost of providing the SROs. To partially offset CITY's operational budget costs in providing SROs for the 2026-2027 through 2028-2029 school years, DISTRICT shall pay CITY the following:

2026-2027: five (5) SROs at one hundred twenty-eight thousand, four hundred eighty six dollars ($128,486) for a total of six hundred forty two thousand, three hundred forty five dollars ($642,345).
2027-2028: five (5) SROs at one hundred thirty one thousand, six hundred eighty one dollars ($131,681) for a total of six hundred fifty eight thousand, four hundred five dollars ($658,405).
2028-2029: five (5) SROs at one hundred thirty four thousand, nine hundred seventy three dollars ($134,973) for a total of six hundred seventy four thousand, eight hundred sixty five dollars ($674,865).

4.2 If CITY receives additional funding from a Federal or State agency to be used to address school safety, the DISTRICT's payment may be negotiated at the DISTRICT's request.

5. Term of Agreement.

This MOU shall commence upon execution and expire on June 30, 2029, unless terminated earlier in accordance with this MOU. The parties may elect to extend the MOU and may negotiate the term of any optional renewal. Such extensions shall be memorialized by a written amendment to this Agreement.

6. Indemnification.

Each party shall defend, indemnify, and hold harmless from liability the other party, its officers, agents, and employees of and from all claims, damages, costs, liabilities, or expenses which any of them shall become obligated to pay by reason of liability imposed by law because of injury to or death of persons or damage to property caused or resulting from or arising out of the party's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this MOU, except those matters arising from the other party's sole or active negligence. The parties intend that this provision shall be broadly construed.

7. Insurance.

7.1 Each party hereto shall procure and maintain insurance policies or self-insurance programs to fund their respective liabilities under this MOU. CITY and DISTRICT agree to maintain the following coverages during the term of this MOU:

COVERAGE	LIMITS OF LIABILITY
Workers Compensation	Statutory
Commercial General Liability	$1,000,000 each occurrence $2,000,000 aggregate Personal Injury: $1,000,000 each occurrence $2,000,000 aggregate
Automobile Liability	Bodily Injury: $500,000 per person $1,000,000 per accident Property Damage: $100,000 per occurrence

7.2 Each party shall submit a certificate evidencing such coverage in a form satisfactory to the other party. Each party shall also provide a separate endorsement form or section of the policy showing the other party, its officers, agents and employees as additional named insureds for each type of coverage, except for Workers' Compensation.

8. Governing Agreement.

In the event of any conflict between this Agreement and its Exhibits, the provisions of this Agreement shall govern.

9. Assignment.

This MOU and the rights and duties hereunder shall not be assigned in whole or in part without the express written consent of the parties.

10. Independent Capacity.

For purposes of this MOU, CITY and DISTRICT shall each act in an independent capacity and not as officers, employees or agents of the other. Nothing in this MOU establishes, constitutes or will be construed as establishing or constituting a partnership, agency or employment relationship between CITY and DISTRICT. Officers providing services under this MOU shall remain the employees of CITY, and shall not be employees of DISTRICT. CITY shall retain full authority to direct and control the activities of the SROs and supervise and discipline the SROs in accordance with CITY policies and procedures.

11. No Liability for Other Party's Officers.

Each party shall assume responsibility and liability for the acts of its own officers, agents, or employees in connection with the performance of their official duties under this MOU. For tort liability purposes, neither party shall be considered the agent of the other party. Each party shall be liable, if at all, only for the torts of its own personnel that occur within the scope of their official duties and for which liability may be imposed under the law.

12. No Third Party Beneficiary.

The parties to this MOU do not intend for any third party to obtain a right by virtue of this MOU.

13. Termination of Agreement.

Either party may terminate this Agreement by giving the other party one (1) years advance written notice. In the event of termination, CITY shall be paid for all work performed to the date of termination, on a prorated basis.

14. Attorney's Fees; Venue; Governing Law.

If either party commences any legal action against the other party arising out of this MOU or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out

of this MOU shall be brought in Placer County, California, regardless of where else venue may lie. This MOU shall be governed by and construed in accordance with the laws of the State of California.

15. Modification.

This MOU and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

16. Severability.

If any of the provisions contained in this MOU are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the MOU as a whole.

17. Notices.

Any notices to parties required by this MOU shall be delivered personally or mailed, U.S. first class postage prepaid, addressed as follows:

CITY OF ROSEVILLE

Jeff Beigh
Police Chief
City of Roseville
1051 Junction Blvd.
Roseville, CA 95678

DISTRICT

Julie Winkel
Director, Student Services
Roseville Joint Union High School District
1750 Cirby Way
Roseville, CA 95661

Either party may amend its address for notice by giving notice to the other party in writing.

18. Integrated Agreement.

This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this MOU in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ___ day of _____, 20__, and DISTRICT has caused this MOU to be executed.

EXHIBIT "A"

Scope of Work

A. **Maintaining Safety, Order and Discipline**. SROs will maintain safety, order and discipline within their assigned school by:

1. Patrolling the assigned school buildings, grounds and surroundings
2. Conducting searches of students, vehicles and lockers when requested by school administration or when necessary in investigating criminal activity
3. Monitoring campus activity
4. Assisting school staff in preventing and eliminating violent conflicts
5. The SRO will work to prevent juvenile delinquency and campus violence through close contact and building positive relationships with students.
6. The SRO will conduct themselves in a manner that demonstrates a positive role model to students.
7. SROs shall wear a City supplied police uniform and operate a marked police patrol vehicle while on duty, unless otherwise authorized by RPD for a specific purpose
8. Provide assistance to school administrators, faculty, and staff upon request, in developing emergency procedures, emergency management plans, and participate with behavioral threat assessment and management (BTAM) protocols (BP 5132.6) to include prevention and/or minimization of dangerous situations, which may result from student conduct, unrest, or unauthorized intruders.
9. The SRO shall not be used for regularly assigned lunchroom duties, hall monitoring, or other monitoring duties. If there is a problem area, the SRO may assist the DISTRICT until the problem is solved.

B. **Maintaining Relationships with school staff.** The SRO will work to establish and maintain a collaborative partnership with the school and district administration in order to provide a safe school environment.

1. The SRO will regularly communicate with all school / district administration in an effort to share information, to extent allowed by law, discuss issues and address concerns of mutual interest.
2. Attend, whenever possible and at the invitation of the DISTRICT Superintendent or designee, faculty, student, administration, parent, and other meetings to provide information regarding the SRO program and provide opportunities for involvement and support. (school site safety meetings and district SRO / Probation Collaborative)

C. **Investigating Crimes on Campus**. SROs will investigate crimes on their assigned campuses by:

1. Conducting interviews of witnesses, victims or suspects
2. Collecting and packaging evidence, pursuant to RPD policy
3. Writing reports

4. Working collaboratively with school / district administration and sharing information, to the extent allowed by law
5. Developing intelligence on criminal activity in the schools and in the Community

D. **Community Relations**. SROs will establish relationships with students, parents and school staff by:

1. Monitoring the social and cultural environment around school sites to identify existing or emerging youth gangs.
2. Gang prevention and early intervention strategies shall be coordinated between the CITY and the DISTRICT.
3. Counseling students on an individual basis in a variety of areas
4. Counseling parents on parenting, drug awareness and the judicial system
5. Sharing information with school staff on drug awareness, laws and law enforcement
6. Assisting school administration with policy decisions regarding campus safety and discipline

E. **Instruction**. The SRO may become involved, as directed by the DISTRICT Superintendent or designee, with schools' curriculum and provide instructional presentations that enhance the students' understanding of the law enforcement mission and the responsibilities of citizenship.

1. Teaching classes or lecturing students as requested by teachers and with alignment CA state educational standards. Topic may include but are not limited to: opioid awareness, suicide prevention, targeted violence prevention, and human trafficking.
2. However, responding to incidents or conducting investigations will always take precedence over instructing in the classroom

F. **Truancy Laws**. SROs will monitor and enforce state truancy laws by:

1. Supporting attendance awareness campaigns
2. When deemed necessary by the SRO and reasonable under the circumstances, offering interventions, including needs assessments, home visits, and community resource outreach
3. Support school representation at the County SARB hearing if requested

G. **Liaison with other Agencies**. SROs will serve as a liaison between various Placer County departments, agencies, and students as appropriate, including, but not limited to, the following:

1. Probation
2. Child Protective Services
3. Mental Health Agencies
4. Law Enforcement and Court Agencies

H. **Training**.

1. SROs shall attend all State of California and RPD mandated training sessions, seminars and briefings. SROs will be absent from their designated school sites during such mandated training sessions, seminars and briefings.

2. Attend, whenever possible, schools and DISTRICT in-service training at the invitation of the DISTRICT Superintendent or designee.

3. The SROs shall make all reasonable and good faith efforts to advance the goals of education and promotion of positive relationships with law enforcement while on campuses; and to adhere to Board Policies, including but not limited to BP and AR 5132.6, 5142, 5145.11, 5145.12, 5145.13, and 3515.31, unless otherwise prohibited by law. In order to accomplish this goal, SROs are strongly encouraged to attend DISTRICT trainings as part of their job assignments, including but not limited to District-sponsored to include but not limited to: Crisis Prevention Intervention (CPI), PREPaRE, and Behavioral Threat Assessment and Management. The City of Roseville Police Department shall train the SRO according to applicable law enforcement standards.

City Council Communication

Title:	Sutter Roseville Medical Center Neighborhood Policing Program - Grant Award Agreement and Budget Adjustment
Contact:	Mark Peinado 916-774-5021 mcpeinado@roseville.ca.us

SUMMARY

Staff recommends approval of the Sutter Roseville Medical Center (SRMC) Neighborhood Policing Grant Award to provide a dedicated police officer presence on the SRMC campus, and approve a budget adjustment in the amount of $985,642 to the project budget. The budget adjustment increases revenue and expenditure budgets for the new award agreement of $938,794 in the General Fund, and increases revenue and expenditure budgets for the Fleet Operations and Fleet Replacement internal service funds totaling $46,848 for the maintenance and replacement cost of one patrol vehicle.

RECOMMENDATION

Staff recommends that the City Council adopt a resolution to approve the Grant Award Agreement for the Sutter Roseville Medical Center (SRMC) Neighborhood Policing Program, and authorize the City Manager to execute the grant agreement on behalf of the City.

Staff also recommends that the City Council adopt an ordinance to approve a budget adjustment in the amount of $985,642 to the project revenue and labor budget of the Neighborhood Policing Grant Agreement SRMC Project.

BACKGROUND

In August 2020, the City Council approved the initial Sutter Roseville Medical Center (SRMC) Neighborhood Policing Grant Agreement, with a program start date of February 13, 2021. Approval of the attached third SRMC Grant Award Agreement will extend the program through February 12, 2028. The SRMC Neighborhood Policing program establishes a dedicated beat encompassing the SRMC campus, ensuring a consistent police presence seven days a week from 11:30 a.m. to 10:00 p.m. The assigned officers remain available for citywide response as needed; the grant award will allow for better allocation of Patrol resources.

FISCAL IMPACT

The recommended budget adjustment totals $985,642, establishing the revenue and expenditure budgets for the new award agreement of $938,794 in the General Fund, and increases revenue and expenditure budgets of the Fleet Operations and Fleet Replacement internal service funds totaling $46,848 for the maintenance and replacement cost of one patrol vehicle.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)).

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

1. Ensure a safe and healthy community
2. Remain fiscally responsible in a changing world
6. Deliver exceptional City services

NEIGHBORHOOD POLICING
GRANT AWARD AGREEMENT

Sutter Valley Hospitals, a California nonprofit public benefit corporation d/b/a Sutter Roseville Medical Center ("Hospital") is pleased to announce the annual grant award of up to $474,908.80 ("Grant") to the Roseville Police Department ("RPD") for the purpose of implementing a neighborhood policing program including police officer presence and patrol as further described herein. Hospital's actual payments to RPD will vary with officer staffing levels provided by RPD, as further set forth in Section 4.1. Hospital and RPD agree that this Grant will be subject to the following terms and conditions ("Agreement").

The Goal of the Program:

The goal of the program is to develop a comprehensive neighborhood policing program within the area encompassed below, including police officer presence and patrol within Hospital's Sutter Roseville Medical Center Campus located on Medical Plaza Drive (the "Facility"), with an emphasis in/at the Emergency Department located at 1 Medical Plaza Drive.

Objectives of the Program:

A. Using a Community Oriented Policing philosophy, RPD will provide law enforcement resources at Hospital's Facility, including police officer presence and patrol within Facility and surrounding area, primarily in its emergency department including the following:

1. RPD will provide training seminars, as requested by Hospital and mutually agreed by the parties, to enhance personal safety and awareness.
2. RPD will assist security staff in providing police services for the Hospital campus and immediate surrounding area.
3. RPD will develop working relationships with the Hospital staff and the local area surrounding the campus to assist in developing community-based policing practices consistent with the needs of the area.

Hospital and RPD further agree as follows:

ARTICLE 1
GENERAL OBLIGATIONS OF RPD

1.1 Program. RPD agrees that the neighborhood policing program ("Program") will be consistent with the services set forth in the Goals and Objectives stated above, which are incorporated into this Agreement by this reference, as requested by Hospital. At all times when performing services under the Program, the RPD uniformed officers ("Officers") shall be subject to and required to comply with the rules and regulations of the City of Roseville Police Department. Officers performing under the Program at the Facility are expected to remain at the Facility, with the exception of the following circumstances:

1. An emergency as determined in RPD's discretion to include emergency calls for service in the immediate area of the Facility or response to critical incidents (i.e. Officer assigned to the program is subject to call out for specialized response such as SWAT).
2. While performing responsibilities related to an on-campus event that require the Officer to leave the Facility (e.g., transporting suspect arrested on campus to jail) or engaging in community-based policing as referenced above.

1.2 Supplies and Equipment. RPD shall provide, at its own expense, all equipment, supplies and materials necessary to perform the Program, and Hospital shall provide no supplies and equipment, with the exception of funding for a vehicle, as set forth below. The Hospital will provide funding for one police vehicle for the following costs:

1. Recurring yearly vehicle replacement cost of $15,000
2. Yearly vehicle fuel cost of $8,424

The funding amounts set forth in this Section 1.2 are part of the total Grant amount identified above.

1.3 Supervision and Direction of Personnel. All Officers used to perform the Program shall be employees of RPD. RPD shall determine the wages, working hours and other working conditions for such Officers, and shall monitor and control the quality of their work performance. Should performance or misconduct issues be identified and confirmed to have occurred with a particular RPD Officer, the Hospital reserves the right to have RPD immediately remove the RPD Officer identified to have engaged in such activity. Hospital agrees that it shall not have authority to direct the assigned officers' law enforcement activities and that the officers are held to the requirements of all Federal and State laws as well as to the requirements of RPD policy and procedure. If an Officer leaves the premises, the Officer shall advise the Protective Services Site Lead Officer and maintain radio contact with Protective Services personnel.

Should any questions arise over shifts or allocation of Officers to the Facility, the Hospital shall have its Department of Protective Services Manager contact the RPD Lieutenant assigned to the Program in an effort to informally resolve any questions. Should the Department of Protective Services Manager and assigned RPD Lieutenant be unable to resolve an issue, the parties may resort to the good faith, dispute resolution methods set forth below in Section 5.19, in an effort to resolve any remaining questions.

1.4 Required Hours, Shifts, and Staffing. Consistent with the Goals and Objectives set forth above, and commencing on the Effective Date, the RPD shall provide Officers for one (1) shift per day (subject to the lunch and physical fitness time described in this paragraph) as follows:

1. Officers will be assigned work hours at the Facility in conjunction with the RPD-RPOA MOU which outlines a 3-day work week-11-hour shift/4 day work week-11 hour shift rotation basis such that one team of officers will work Wednesday through Friday and every other Tuesday while the second team off officers will work Saturday through Monday and every other Tuesday. The schedule includes a nine-hour training day for Department-wide training to be incurred on a day when officers are not assigned to the facility. The schedule and RPOA MOU also required a mandatory workout period each shift as outlined below.

2. Officers will be assigned shifts in coordination with current RPD Patrol shifts to maintain supervisor coverage as follows:

a. Relief shift
   i. 1000-1130 hours: Report at RPD for required workout and briefing
   ii. 1130-1145 hours: Travel time to Hospital
   iii. 1145-2145 hours: On-site at Hospital
   iv. 21455-2200 hours: Travel time to RPD and off-duty

3. If the assigned officer is not available for their shift (i.e. vacation, sick leave, training), RPD will attempt to fill the vacancy via overtime assignment of another officer. If the shift if not voluntarily filled, RPD will not be required to force fill the shift on overtime. If this occurs, RPD will notify the Hospital of the staffing issue and will ensure that the unfilled shift is not billed to Hospital.

4. Lunch Break: In conjunction with the RPD-RPOA MOU, officers are entitled to 10 minutes of travel time and a 40-minute lunch break during their shift. Officers are expected to take lunch break on the Hospital site or in the immediate area. Officers will notify the Protective Services Site Lead Officer if they will be off the Hospital site for a break and maintain radio contact with Protective Services personnel.

5. Assignment Duration: Officers assigned to the program will be assigned for a period of six months in conjunction with the standard Patrol Shift Rotation period with shift changes to occur in February and August of each year.

6. Hospital and RPD acknowledge and agree that the Officers are not intended to be utilized for sitter services or to otherwise provide relief to other agencies who have a prisoner/forensic patient at the Hospital for medical care, absent an extreme emergency requiring the RPD Officer to become involved.

Hospital acknowledges that the RPOA MOU and/or any other terms and conditions of employment are subject to modification, from time to time, and RPD and Hospital agree to use commercially reasonable efforts to agree on changes to the requirements of this Section 1.4 as may be required under any current version of the RPOA MOU and/or any other terms and conditions of employment of Officers by RPD. Any changes to the terms of this Agreement shall be made in accordance with Section 5.14 of this Agreement.

1.5 Background Investigation/Compliance with Immigration Law. RPD represents and warrants that it has performed a background investigation of the Officers to verify the Officers' suitability to perform the Program and the ability of the Officers to be employed in the United States.

1.6 Acknowledgement of Standards. RPD acknowledges that Hospital is an affiliate of Sutter Health. RPD further acknowledges that, notwithstanding anything contained herein,

neither party shall engage in any conduct that may violate the policies, procedures, or directives of the Sutter Health Standards for Business Conduct and Hospital's Standards of Behavior.

1.7 OIG List of Excluded Providers. RPD shall provide documentation to verify that RPD and the Officers are not listed on the General Services Administration's List of Parties Excluded from Federal Programs (available through the Internet at http://epls.arnet.gov) and the HHS/OIG List of Excluded Individuals/Entities (available through the Internet at http://www.hhs.gov/oig).

1.8 Bloodborne Pathogens. RPD shall provide education, vaccinations and post exposure follow-up to the Officers as outlined in OSHA's Bloodborne Pathogens Standard and Tuberculosis Standard prior to the start of any assignment. Hospital will provide appropriate additional training on both standards specific to Hospital or Facility, if necessary. Hospital will also provide "Fit testing" for protective equipment utilized in care of Tuberculosis patients, as necessary and appropriate in Hospital's discretion.

1.9 Health Screening. Upon request, RPD shall provide documentation to Hospital to show that all Officers performing the Program for Hospital have received all screenings specified in this paragraph, which screenings shall be provided at the sole expense of RPD:

(i) PPD results (to be completed annually). In the event PPD is positive, a chest x-ray or evidence of symptom review by a health care professional would be required.
(ii) Hepatitis B vaccines, or titer, or statement of refusal.
(iii) Annual Influenza participation (proof of vaccination or signed declination).

ARTICLE 2
GENERAL OBLIGATIONS OF HOSPITAL

2.1 Access. Hospital shall provide RPD with access to the Facility as needed for performance of the Program.

2.2 Facilities. Hospital shall retain professional and administrative responsibility for the operation of the Facility, as and to the extent required by Title 22, California Code of Regulations, Section 70713. Hospital's retention of such responsibility is not intended and shall not be construed to diminish, limit, alter or otherwise modify in any way the obligations of RPD under this Agreement.

The Hospital will maintain interior radio signal amplifier capabilities such that the RPD radio signal is transmitted and receivable inside buildings on the Hospital campus to an acceptable level.

ARTICLE 3
TERM AND TERMINATION

3.1 Term. This Agreement shall become effective as of February 13, 2026 ("Effective Date") and shall remain in force for two (2) years through February 12, 2028, unless earlier terminated as provided herein ("Term"). This Agreement may be renewed upon mutual written agreement of the parties for a one-year term. Should this Agreement be terminated before the end of the Term, or a subsequent term, payment for any partial quarter shall be prorated to reflect the number of days in the quarter that services were provided prior to termination.

3.2 Termination.

(a) Without Cause. This Agreement may be terminated without cause, with at least one-hundred eighty (180) days' advance written notice from one party to the other.

(b) Termination for Breach. Either party may terminate this Agreement in the event of the other party's breach of a material provision, covenant or condition of this Agreement and subsequent failure to cure said breach within ten (10) calendar days after written notice by the non-defaulting party of said breach.

(c) Termination on the Advice of Counsel. In the event legal counsel for either party advises that this Agreement or any practices which could be, or are, employed in exercising rights under this Agreement may violate any existing or future law, regulation, or accrediting agency standard, or compromise Hospital's status as a non-profit corporation under Section 501(c)(3) of the Internal Revenue Code, the parties in good faith will undertake to revise this Agreement to comply with such law, accrediting agency standard, or Internal Revenue Code requirement. In the event the parties are unable to agree upon the revised terms in a timely manner, this Agreement will terminate immediately upon written notice by one party to the other.

(d) Patient Safety. Hospital may, in its sole discretion, immediately terminate or suspend this Agreement at any time if, in its sole discretion, the provision of Program under this Agreement by RPD threatens the health or safety of Hospital's patients.

(e) Non-Appropriation of Funds. Hospital acknowledges that RPD may terminate this agreement should funds not be appropriated by its governing body to continue services under this Agreement.

(f) Effects of Termination. Termination or expiration of this Agreement for any reason shall not relieve either party of any obligation or liability incurred prior to the

expiration or termination of this Agreement. Section 5.20 (Survival) shall apply. Hospital's quarterly payment per Section 4.2 (Invoice and Payment) for any partial quarter during which this Agreement is in effect shall be prorated to reflect only the portion of the applicable quarter during which services were provided to RPD. No further payment shall be due.

ARTICLE 4
FEES AND BILLING

4.1 Grant Funding. The parties agree and acknowledge that the Grant is the maximum amount of annual funding Hospital will pay to RPD during the term of this Agreement. Hospital's actual payments to RPD will vary with the number of police officer FTEs RPD provides to Hospital during the Term.

4.2 Fees. Hospital shall be billed for all services provided by RPD at the rates set forth in the applicable table below. Such rates identify the fees payable per 1.0 officer FTE provided by RPD. The parties agree and acknowledge that the number of officer FTEs provided by RPD to Hospital will vary between one (1) and two (2) over the Term, and the fees payable by Hospital to RPD will vary with the FTEs provided. Staffing labor rates shall increase in 2027 as identified in the tables below. tables below.

In addition to labor rates, Hospital shall also pay to RPD annual vehicle replacement cost of $15,000 and annual fuel and maintenance cost of $8,424.

Extraordinary coverage ("Overtime") will be considered to occur in the event of any of the following:

1. Specific police officer(s) are requested to work more hours than a regularly scheduled shift by Hospital in advance and in electronic or written communication.
2. Additional temporary coverage above staffing levels stated in Rate Table is requested.
3. Hospital approved overtime will be invoiced at the Overtime Bill Rate identified in the table below.
4. Overtime expenses are not included in the total annual cost projection but listed as the rate for any potential overtime billing.

In the event RPD cannot provide staffing during a shift, the RPD and Hospital will track these hours per quarter and apply this underage to the quarterly billing cycle. Some examples of reasons why coverage may not be provided could be an emergency call out requiring the assigned officers to be deployed elsewhere or a call-off where no backfill was available for occurrences like training, vacation, sick leave, or a required court appearance.

2026 RPD Staffing Labor Rates per 1.0 officer FTE						
Position	Regular Bill Rate	Overtime Bill Rate	FTE	Weekly Hours	Annual Hours	Annual Cost
RPD Police Officer Rates per 1.0 FTE	$105.88	$92.45	1.0	40	2,080	$220,230.40

2027 RPD Staffing Labor Rates per 1.0 officer FTE						
Position	Regular Bill Rate	Overtime Bill Rate	FTE	Weekly Hours	Annual Hours	Annual Cost
RPD Police Officer Rates per 1.0 FTE	$108.53	$94.76	1.0	40	2,080	$225.742.40

2025 RPD Staffing Labor Rates:

RPD costs are based on salary costs under the Roseville Police Officer's Association Memorandum of Understanding with the City of Roseville which is in place through 12/31/29. The contract includes a market median adjust beginning 1/1/26 through 12/31/26, and a subsequent adjustment beginning 1/1/27 through 12/31/27. The cost is based on a market median study conducted by the City of Roseville during 2025, a second study is to be conducted during 2027. The contract costs for the Hospital from January 1, 2028 through the end of the Term will be determined following the market median studies. A new RPOA-City MOU will commence beginning in 2030. Any changes to projected costs associated with MOU changes are subject to review by the Hospital prior to implementation as noted in section 4.4 of this agreement.

4.3 Invoice and Payment. Within fourteen (30) days of the end of each contract quarter, RPD shall submit an accurate invoice reflecting the actual hours of on-site coverage provided by RPD Officers. Such hours shall not include any workout time, briefing time or travel time to and from Hospital, but shall identify actual hours on-site at the Facility, including any overtime hours. Hospital shall confirm the accuracy of such invoices using its own records, and pay RPD a portion of the Grant as determined in accordance with Sections 4.1 and 4.2 above. Such payment shall be made within fourteen (30) days of receiving RPD's quarterly invoice. The Department of Protective Services Manager will also track all staffing hours and extraordinary coverage for purposes of confirming the accuracy of RPD invoices. For purposes

of this Agreement, the term "contract quarter" shall mean every three-month period of time, commencing on the Effective Date.

4.4 Annual Agreement Fee Review. RPD may, on an annual basis, make recommendations to adjust the Agreement fee to correct discrepancies between the Agreement Fee and any increase in RPD's salary and benefit costs resulting from changes to collective bargaining agreements specific to the positions authorized in this Agreement. Any changes to the Agreement Fee, as listed in Section 4.1, above, shall not be effective unless and until negotiated in good faith by both Parties, and mutually agreed upon in a written amendment to this Agreement, signed by both Parties.

ARTICLE 5
MISCELLANEOUS PROVISIONS

5.1 Prohibition Against Discrimination. Neither Hospital nor RPD shall discriminate against any person because of race, color, creed, age, national origin, sex, marital status, veteran's status or any other protected status as provided by law. In addition, neither Hospital nor RPD shall discriminate against any person because of handicap to the extent prohibited by Section 504 of the federal Rehabilitation Act of 1973 or disability to the extent prohibited by the Americans with Disabilities Act of 1990.

5.2 Compliance with Laws/HIPAA. RPD and Hospital shall comply with all applicable federal, state, and local laws, ordinances, codes, rules, regulations, and accrediting agency standards, including but not limited to all applicable laws relating to patient confidentiality. RPD acknowledges that Hospital will only disclose to the Officers patient individually identifiable health information that is the minimum necessary for law enforcement purposes as set forth in 45 C.F.R. §164.512(f) of the Health Insurance Portability and Accountability Act of 1996 ("HIPAA"), or otherwise permitted by HIPAA and other law. All Officers shall undergo appropriate privacy and security training provided by Hospital prior to performing the Program under this Agreement.

5.3 Relationship of the Parties; Independent Contractors. Hospital and RPD are independent contractors, and shall not be construed to be the partner, employee, agent or representative of each other. Hospital does not, by this Agreement, reserve control over the methods or procedures to be utilized by RPD or any of RPD's employees. RPD acknowledges that neither it nor its employees and agents have any right, entitlement or claim against Hospital for Social Security benefits, workers' compensation benefits, overtime wages, disability insurance, pension pay, vacation pay, sick pay or any other employee benefit of any kind. RPD warrants and agrees that it will comply fully with all applicable payroll tax, employment, and labor laws with respect to all Officers assigned to Hospital, including but not limited to, all tax withholding, social security, unemployment insurance, wage-hour, employment discrimination,

occupational safety and health, immigration, workplace safety, family and medical leave, and employee benefit laws.

5.4 Indemnity. RPD further agrees to indemnify, defend, and hold harmless Hospital for any and all damages, costs, and/or attorneys' fees incurred by Hospital, its officers, agents, directors, and employees, or awarded or assessed against Hospital, its officers, agents, directors, employees, in connection with any claim, asserted claim, finding, award or liability resulting from any negligent or intentional act or omission attributed to any officer, agent, director or employee of RPD arising from performance under this Agreement. Hospital agrees to indemnify, defend, and hold harmless RPD for any and all damages, costs, and/or attorneys' fees incurred by RPD, its officers, agents, directors, and employees, or awarded or assessed against RPD, its officers, agents, directors, employees, in connection with any claim, asserted claim, finding, award or liability resulting from any negligent or intentional act or omission attributed to any officer, agent, director, or employee of Hospital arising from performance under this Agreement. It is the intention of the parties that, where comparative fault is determined to have been contributory, principles of comparative fault will be followed and each party shall bear the proportionate cost of any damage attributable to the fault of that party, its officers, agents, directors, and employees.

5.5 Insurance. Hospital and RPD both agree to maintain appropriate insurance coverage throughout the term of this Agreement and for a period of five (5) years following expiration or termination of this Agreement. All or a portion of the required insurance may be satisfied through the use of a self-insurance program. With respect to Hospital and RPD, such insurance shall include at a minimum:

i. General Liability Insurance in an amount not less than $1,000,000 per occurrence, $3,000,000 General Aggregate,

ii. Workers' Compensation Insurance as required by California law. Where permitted by law, such insurance shall contain waivers of the insurer's right of subrogation against Hospital, its affiliates, officers, directors and employees.

iii. Automobile Liability Insurance in an amount not less than $1,000,000 per accident coverage all owned, non-owned and hired automobiles.

5.6 Notice. Any notices required or permitted to be given by one party to the other, may be given by personal delivery in writing, or by registered or certified mail, postage prepaid, with return receipt requested. Notices shall be addressed to the parties at the addresses appearing below, but each party may change their address in accordance with this paragraph. Notices delivered personally will be deemed communicated as of actual receipt. Mailed notices will be deemed communicated as of three (3) days after mailing.

VP & Chief Legal Officer, Valley Area/ Penny Westfall
2200 River Plaza Drive
Sacramento, CA 95833

5.7 Governing Law. The validity, interpretation and performance of this Agreement shall be governed by and construed in accordance with the laws of the State of California.

5.8 Assignment or Delegation. Except as otherwise specifically set forth in this Agreement, RPD shall not assign or delegate any or all of RPD's rights or responsibilities under this Agreement without the prior written consent of Hospital.

5.9 Severability. The provisions of the Agreement shall be deemed severable, and if any portion shall be held invalid, illegal or unenforceable for any reason, the remainder of this Agreement shall be effective and binding upon the parties.

5.10 Headings. The headings are inserted into this Agreement for reference and convenience only, and will not affect the meaning or interpretation of any provision of this Agreement.

5.11 Reports. RPD shall provide to the Hospital daily reports documenting RPD activity, statistical data, etc. Requests for crime and incident reports shall be done in accordance with applicable laws.

5.12 No Waiver. No waiver of a breach of any provision of this Agreement may be construed as a waiver of any breach of any other provision. To be effective, a waiver must be in writing. No single waiver may be treated as an ongoing waiver unless expressly agreed in writing.

5.13 No Third-Party Benefit. Unless otherwise set forth in this Agreement, nothing contained in the Agreement is intended nor shall be construed to create rights running to the benefit of third parties.

5.14 Entire Agreement/Modification. This Agreement contains a full and complete expression of the rights and obligations of the parties and it shall supersede all other agreements, representations, and offers, written or oral, made by the parties regarding any of the subject matter contained herein. This Agreement may be modified only in writing, signed by both parties.

5.15 Access to Records. For the purpose of implementing Section 1861(v)(1)(I) of the Social Security Act, and any written regulations thereto, RPD shall comply with the following statutory requirements governing the maintenance of documentation to verify the cost of services rendered under this Agreement:

(a) Until the expiration of four (4) years after the furnishing of services pursuant to the Agreement, RPD shall make available to the Secretary of Health and Human Services and the Comptroller General of the United States, or their duly authorized representatives, upon written request of any of them, this Agreement, and all books, documents and records that are necessary to certify the nature and extent of the cost of services hereunder, and

(b) If RPD carries out any of the duties of this Agreement through a subcontract with a value or cost of Ten Thousand Dollars ($10,000.00) or more over a twelve (12) month period, with a related organization, such subcontract shall contain a clause to the effect that until the expiration of four (4) years after the furnishing of such services pursuant to such subcontract, the related organization shall make available, upon written request to the Secretary or the Comptroller General, or any of their duly authorized representatives, the subcontract, and books, documents and records of such organization that are necessary to verify the nature and extent of such costs.

5.16 Counterparts. This Agreement may be executed simultaneously in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

5.17 Use of Trademark(s). RPD will not use the name(s), trademark(s), or tradename(s) of Hospital or its affiliates, except with the prior written consent of Hospital. The Hospital or its affiliates shall not use the City seal or RPD logo, except with the proper written consent of the City.

5.18 Confidentiality.

(a) The parties acknowledge this Agreement can be made available to a person upon a properly made California Public Records Act request or pursuant to the "Ralph M. Brown Act". Nonetheless, each party agrees to hold the following "Confidential Information" in strict confidence and not disclose the same to any other person or entity: each other's proprietary and confidential records and information, including but not limited to all

service and product data, trade secrets, financial data, business plans and any other information or technology confidentially received from the other party in implementing this Agreement; all personally identifiable information of a party's employees, agents, patients and customers; and all information derived from the foregoing.

(b) Notwithstanding the above:

(1) A party may disclose Confidential Information to the personnel within its organization and its legal and accounting advisors who require the Confidential Information in connection with the party's internal business processes and its rights and obligations under this Agreement, provided that such disclosing party uses commercially reasonable efforts to require any such recipient to use the information solely for these purposes and to keep it strictly confidential, except as required by law and subject to the requirements of (b)(2) below.

(2) A party may disclose Confidential Information as required by law, provided that, if reasonably possible, such disclosing party provides reasonable prior notice to the other party to enable such other party to attempt to prevent or limit the disclosure and the disclosing party assists the other party upon request in seeking relief from or limiting the disclosure.

(3) A party may disclose Confidential Information with the prior written consent of the other party.

(c) Neither party shall be obligated to hold the following information in confidence (and such information shall not be deemed to be Confidential Information): information that is or becomes publicly available through no fault of the recipient, information developed by a party without using any Confidential Information, information lawfully possessed by a party before receipt from the disclosing party, and information lawfully disclosed to a party on a non-confidential basis from a person or entity that is not bound by a duty of confidentiality.

5.19 Dispute Resolution. In the event of any dispute arising out of or in connection with this Agreement, including but not limited to any question regarding its existence, interpretation, validity, termination or shift hours of assigned Officers, either party may by written notice call a meeting regarding such dispute to be attended by an executive officer of each party who has the authority to negotiate and bind that party to a resolution. At the meeting, the parties will attempt in good faith to resolve the dispute. If the dispute cannot be resolved within forty-five (45) days from the date of the initial notice, and if either party wishes to pursue the dispute, the dispute shall be instituted and maintained in state or federal court located in Placer County. However, upon a mutual written agreement of the parties any dispute arising

out of or in connection with this Agreement may be referred to arbitration, mediation, or another form of an agreed upon alternative dispute resolution.

5.20 Survival. Termination or expiration of this Agreement for any reason shall not relieve either party of any obligation or liability incurred prior to the expiration or termination of this Agreement. The following provisions shall survive termination or expiration of this Agreement, in addition to those that by their nature are intended to survive termination: Relationship of the Parties; Insurance; Confidentiality; Indemnity; and Dispute Resolution.

5.21 Agent Authorization. Hospital authorizes the Roseville Police Department, and/or any Roseville police officer, pursuant to Penal Code section 602(0), to act on its behalf as an agent of this property when encountering any person(s) found on the property without written consent or without apparent lawful purpose. Hospital, or Hospital's agent, will cooperate in the prosecution of persons arrested and/or cited for these offenses. Hospital understand that this authorization is valid for a maximum period of (12) months and it is Hospital's responsibility to renew the authorization after that time if the need still exists. By signing below Hospital authorizes the Roseville Police Department, and/or any Roseville police officer, to act on Hospital's behalf as an agent, to enforce no trespassing (including arrest) on Hospital property.

IN WITNESS WHEREOF, the parties have duly executed this Agreement to be effective as of the Effective Date.

Justification for Budget Adjustment:

The Police Department is requesting a budget adjustment to increase the budget for the Neighborhood Policing Grant Agreement Sutter Roseville Medical Center project (700018) in the General Fund (1001). This Adjustment reflects the increases to project revenue and expenditure budgets for the new award agreement of $938,794 for the period 02/13/26 – 02/12/28, and increases expenditure and revenue budgets and available resources of Internal Service funds for maintenance and replacement costs of a patrol vehicle.

The current project budget is $1,947,257. With this adjustment, the revised project budget will total $2,886,051.

City Council Communication

Meeting Date: 6/17/2026
Item #: VII.51
File #: 0323
Item ID: 2026-495

Title:	Downtown Roseville Security Patrol - Professional Services Agreement Amendment
Contact:	Mark Peinado 916-774-5021 mcpeinado@roseville.ca.us

SUMMARY

Staff recommends approval of a second amendment to a professional services agreement with Universal Protection Service, LP dba Allied Universal Security Services to increase the contract amount by $28,825.23, to a total of $195,236.82 for private security patrols in the Downtown and Historic Old Town areas to assist in providing public safety. Funding for the increase is included in the Police Department's operating budget in the General Fund.

RECOMMENDATION

Staff recommends that the City Council adopt a resolution to approve the Second Amendment to Professional Services Agreement with Universal Protection Service, LP dba Allied Universal Security Services, and authorize the City Manager to execute it on behalf of the City of Roseville.

BACKGROUND

The Police Department is requesting approval of a second amendment to the professional services agreement with Universal Protection Service, LP dba Allied Universal Security Services. The amendment will increase the total agreement compensation by $28,825.23. The additional funding will compensate Allied Universal Security Services for patrol services that exceeded the original agreement amount during the billing period of January 1, 2026, through February 18, 2026, and will ensure sufficient funding for additional services throughout the remainder of the contract term.

FISCAL IMPACT

Funding for this amendment is included in the Police Department's FY2025-26 operating budget in the General Fund. The new not-to-exceed amount of the amendment is $195,236.82. Funding for future years will be contingent upon approval of the Police Department's budget each fiscal year.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)).

SECOND AMENDMENT TO

PROFESSIONAL SERVICES AGREEMENT

Downtown Roseville Security Patrol

THIS SECOND AMENDMENT TO AGREEMENT is made and entered into this ___ day of _____, 20__, by and between the City of Roseville, a municipal corporation ("CITY"), and Universal Protection Service, LP dba Allied Universal Security Services, a California limited partnership ("CONSULTANT"); and

W I T N E S S E T H:

WHEREAS, CITY and CONSULTANT previously entered into a Professional Services Agreement dated February 19, 2025 and amended February 18, 2026 ("Agreement") regarding Downtown Roseville Security Patrol ("Project"); and

WHEREAS, CITY wishes to increase the total compensation to the current contract term of the Agreement in order to compensate CONSULTANT for additional services associated with the Project.

NOW, THEREFORE, the parties agree as follows:

1. Section 2 of the Agreement is amended by adding an additional paragraph to read as follows:

"CITY shall pay twenty-eight thousand, eight hundred twenty-five dollars and twenty-three cents ($28,825.23), in consideration of the additional services to the Second Amendment to Agreement. This brings the total not to exceed contract amount to one

hundred ninety-five thousand, two-hundred thirty-six dollars, and eighty-two cents ($195,236.82)."

Total compensation for optional renewal years shall not exceed one hundred ninety-five thousand, two hundred thirty-six dollars and eighty-two cents ($195,236.82). Adjustment to the total compensation per year shall require a written amendment to this Agreement, subject to approval by the City Council."

2. All other provisions of the Agreement shall remain unchanged and in full force and effect.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Second Amendment to Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ___ day of _____, 20__, and CONSULTANT has caused this Second Amendment to Agreement to be executed.

City Council Communication

Meeting Date: 6/17/2026
Item #: VII.52
File #: 0203-12
Item ID: 2026-496

Title:	Body-Worn Cameras - Contract Purchase Agreement Amendment
Contact:	Mark Peinado 916-774-5021 mcpeinado@roseville.ca.us

SUMMARY

Staff recommends approval of an amendment to a contract purchase agreement with Axon Enterprise, Inc. to increase the agreement total by $7,446.44, bringing the total five-year agreement amount to $2,536,810.72 to purchase additional license bundles and docking stations for the Police Department. Funding for the first-year cost was included in the Police Body-worn Camera Replacement project, through the Equipment Replacement Fund.

RECOMMENDATION

Staff recommends that the City Council adopt a resolution to approve Contract Purchase Agreement (3005011) Amendment 1 with Axon Enterprise, Inc. for the purchase of additional basic body-worn camera license bundles and docking stations, and authorize the City Manager to execute it on behalf of the City of Roseville.

BACKGROUND

The Police Department requires fifteen additional basic Axon Evidence licenses and four single docking stations for body-worn cameras (BWCs). The additional licenses will grant Axon Evidence system access to essential personnel, including Police Cadets, Dispatchers, and Police Officers. The four single docking stations will be deployed to assigned high schools for use by School Resource Officers (SROs). These remote stations will allow SROs to efficiently download body-worn camera footage directly from their assigned locations.

FISCAL IMPACT

The amendment increases the agreement total by $7,446.44, from $2,529,364.28 to $2,536,810.72. The first-year cost for the additional software licenses and equipment will be $1,546.08. Funding is included in the Police Body-worn Camera Replacement project, through the Equipment Replacement Fund, in the FY2025-26 budget. Funding for future years will be contingent upon approval of the Police Department's General Fund budget each fiscal year.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)).

Title:	Homeless Outreach Worker Program - Contract Amendment
Contact:	Suzanne Acrell 916-774-5469 sacrell@roseville.ca.us

SUMMARY

Staff recommends approval of the second amendment for the Homeless Outreach Worker Program Contract between the Placer County Department of Health and Human Services and the City. The amendment will extend the contract through June 30, 2027 and will allow outreach workers to continue building relationships with members of the community who are experiencing homelessness, assist with navigation of services and resources, and serve as liaisons to the downtown business community. No General Fund resources will be used for this contract extension.

RECOMMENDATION

Staff recommends that the City Council adopt a resolution authorizing the City Manager to execute the Second Amendment for the Homeless Outreach Worker Program, by and between the Placer County Department of Health and Human Services and the City of Roseville, for the extension of the contract through June 30, 2027.

BACKGROUND

In 2018, the City partnered with Placer County to hire a part-time Homeless Outreach Worker who was embedded with the Roseville Police Department's Social Services Unit (SSU) and assisted in completing outreach to members of the community who are experiencing homelessness. Through this position, individuals were connected to housing, shelter, and services, including chronically homeless individuals who obtained permanent housing. Based on further research on the results, best practices, as well as discussions with the Downtown Roseville Partnership (DRP) Clean and Safe Committee, it was concluded that additional outreach staff was necessary to continue making an impact on decreasing instances of local homelessness. Through consistent outreach, outreach staff are able to:

- Build relationships with individuals who may have a difficult time trusting others due to life history, mental illness, trauma, etc.;
- Connect people to the services and housing they need when they are seeking help; and
- Be responsive to the business community by reaching out to individuals in the downtown area.

In 2024, the City, Placer County Health and Human Services, and the DRP continued this partnership with a new Homeless Outreach Worker Contract. The contract funded the hiring of two 28-hour/week Homeless Outreach Workers within Roseville's SSU. The workers complete outreach with the unit's Problem-Oriented Policing (POP) Officers in the downtown and other identified areas and track specific data to measure results and report quarterly to the DRP Board. Data measures include:

- Number of contacts with individuals experiencing homelessness
- Number of unduplicated individuals referred to services
- Number of unduplicated individuals referred to shelter, including transitional housing
- Number of unduplicated individuals housed experiencing chronic homelessness

This multi-agency collaboration between Placer County, Roseville Police Department, and the DRP has proven to be mutually beneficial and has strengthened the Homeless Liaison Team. Due to intermittent staffing of the outreach worker positions, existing funds are sufficient to extend the program through June 30, 2027, without the need for additional funding. Extending this contract will allow outreach workers to continue building relationships with members of the community who are experiencing homelessness, assist with navigation of services and resources, and serve as liaisons to the downtown business community.

FISCAL IMPACT

The City originally funded its portion of this contract with Low and Moderate Income Housing Asset Fund (Low/Mod funds). No General Fund resources were used for the Homeless Outreach Worker Contract and no additional funding is required at this time.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects that have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3).

CONTRACT AMENDMENT
PLACER COUNTY DEPARTMENT OF HEALTH & HUMAN SERVICES

DESCRIPTION:	Homeless Outreach Worker
CONTRACT NO.	**HHS000825~~*A*~~*B***
BEGINS:	January 1, 2024
ENDS:	June 30, ~~2026~~***2027***
ADMINISTERING AGENCY:	Health and Human Services, Adult System of Care

---

DESCRIPTION: Second amendment to this contract between City of Roseville, a municipal corporation, hereinafter referred to as "CITY" and the County of Placer, hereinafter referred to as "COUNTY".

WHEREAS, COUNTY and CITY wish to further identify and outreach with individuals who are homeless and in need of housing coordination and services; and

WHEREAS, CITY will receive $15,000 from the Downtown Roseville Partnership (DRP) to provide outreach services within the downtown area; and

WHEREAS, COUNTY has experience in the identification and hiring of outreach workers in other homeless services programs as well as overseeing case management for adults within Adult System of Care programs; and

WHEREAS, CITY has experience in identifying individuals and families who are homeless and in need of connection to services in Roseville and has previously coordinated on other COUNTY contracts to utilize homeless outreach workers; and

WHEREAS, COUNTY wishes to extend the contract term to allow for completion of the Homeless Outreach Worker program, and

WHEREAS, COUNTY wishes to extend the term of the agreement to ensure the full utilization of authorized funding to complete the Homeless Outreach Worker program, and

WHEREAS, the parties wish to enter into this Agreement to provide a full and complete statement of their respective responsibilities in connection with the recitals set forth above,

NOW, THEREFORE, in consideration of the mutual covenants and agreements of this Agreement, the parties hereby agree the following amendment is made to the original contract, additions are shown in bold italics, deletions are shown in strike-through:

8. **CONTRACT TERM:** This Agreement shall remain in full force and effect from January 1, 2024 through June 30, ~~2026~~***2027***. Contract provisions that contain report deadlines or record obligations which occur after contract termination survive as enforceable continuing obligations.

//Signatures on following page

Title:	Roseville Housing Authority - Administrative Plan Amendment
Contact:	Suzi Cook-Turner, Trisha Isom 916-774-5414, 916-746-1239 smcook-turner@roseville.ca.us, tisom@roseville.ca.us

SUMMARY

Staff recommends approval of revisions to Chapters 7 and 16 of the Roseville Housing Authority Administrative Plan to align with updated guidance from the United States Department of Housing and Urban Development. The Administrative Plan has no impact on the City's General Fund.

RECOMMENDATION

Staff recommends that Roseville City Council, acting as the Roseville Housing Authority Board, adopt the attached resolution approving the proposed amendments to Chapters 7 and 16 of the Housing Authority Administrative Plan.

BACKGROUND

The U.S. Department of Housing and Urban Development (HUD) requires each housing authority to adopt a written administrative plan that establishes federal, state and local policies for administering the Housing Choice Voucher (HCV) rental assistance program. The Roseville Housing Authority (RHA) is required to revise its administrative plan, as necessary, to comply with HUD regulations and must include revisions to the Housing Authority's discretionary policies. Revisions to the plan must be formally adopted.

To ensure that RHA remains in full compliance with current HUD regulations and continues to apply its discretionary policies consistently and equitably, staff is recommending several key updates to the Administrative Plan. These revisions are necessary to clarify existing procedures, incorporate recent HUD guidance, and strengthen policy transparency for program participants. Collectively, these changes support fair housing practices, improve administrative accuracy, incorporate cost-saving measures, and enhance the overall effectiveness of the HCV Program. The proposed updates to the Administrative Plan include the following key revisions:

Revisions to Repayment Agreement Policy - The Roseville Housing Authority is implementing revisions to its repayment agreement policy to enhance compliance and ensure timely recovery of program funds. The updated policy increases the late fee from $10 to $30 and maintains the requirement that payments be received by the 10th of each month. Additionally, the revision establishes a $30 fee for returned payments due to non-sufficient funds (NSF) and requires participants with an NSF occurrence to submit all future payments by money order or cashier's check. These changes are intended to promote accountability and administrative efficiency.

Revisions to Criminal Background Check Policies - The criminal background screening policy is being

updated to align with federal regulations and strengthen consistency in eligibility determinations. The revised policy formalizes the use of Live Scan fingerprinting for all adult applicants and household additions, allows access to nationwide FBI-verified records, and expands screening to include violent, drug-related, methamphetamine-related, and lifetime sex-offender offenses. It also clarifies confidentiality protocols, limits the release of criminal history information to the individual upon in-person request, and mandates destruction of all records within 30 days of the final eligibility decision. This update enhances accuracy and compliance while maintaining strict protections for sensitive information.

Revisions to Zero Annual Income Policy - The proposed revision of the Housing Choice Voucher Administrative Plan strengthens RHA's procedures for verifying and monitoring households that report zero income. The revisions expand required income verifications, adding monthly reporting of income and expenses, and require all adult household members attend in-office appointments while offering to provide reasonable accommodations for disability-related needs.

The proposed changes aim to support households through structured engagement, improve program integrity, ensure consistent oversight, and support cost-saving measures, with no direct fiscal impact and the potential to reduce future administrative burden. Staff requests that the Roseville Housing Authority Board approve the proposed updates to the Administrative Plan to support continued program compliance and administration.

FISCAL IMPACT

The HCV Program is federally funded through the US Department of Housing and Urban Development (HUD). Through this HUD-funded program, RHA provides an important social service locally to ensure safe and affordable housing for residents, which is an essential component of the foundation of the community's economic stability. Through monthly rental assistance payments, the HCV Program invests over $12 million into the local rental economy annually.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guidelines §15061(b)(3)). The updates to Roseville Housing Authority's Administrative Plan do not include the potential for a significant environmental effect and therefore are not subject to CEQA.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

1. Ensure a safe and healthy community

HOUSING AUTHORITY OF THE CITY OF ROSEVILLE
RESOLUTION NO. 5-26

APPROVING THE UPDATED ROSEVILLE HOUSING AUTHORITY ADMINISTRATIVE PLAN

WHEREAS, the United States (U.S.) Department of Housing and Urban Development (HUD) requires each housing authority to adopt a written administrative plan that establishes local policies for administering the Housing Choice Voucher Rental Assistance Program; and

WHEREAS, staff has proposed revisions to Chapters 7 and 16 of the Roseville Housing Authority's Administrative Plan that helps to align with the updated guidance from the U.S. Department of Housing and Urban Development; and

WHEREAS, the Housing Authority has reviewed the proposed changes to the Roseville Housing Authority Administrative Plan.

NOW, THEREFORE, BE IT RESOLVED by the Housing Authority of the City of Roseville that it hereby approves the updated Roseville Housing Authority Administrative Plan.

PASSED AND ADOPTED by the Housing Authority of the City of Roseville this ___ day of _____, 20__, by the following vote on roll call:

Chapter 7

VERIFICATION

[24 CFR 982.516, 24 CFR 982.551, 24 CFR 5.230, Notice PIH 2010-19]

INTRODUCTION

The PHA must verify all information that is used to establish the family's eligibility and level of assistance and is required to obtain written authorization from the family in order to collect the information. Applicants and program participants must cooperate with the verification process as a condition of receiving assistance. The PHA must not pass on the cost of verification to the family.

The PHA must follow the verification guidance provided by HUD in Notice PIH 2023-27 and any subsequent guidance issued by HUD. This chapter summarizes those requirements and provides supplementary PHA policies.

Part I describes the general verification process. Part II provides more detailed requirements related to family information. Part III provides information on income and assets, and Part IV covers mandatory deductions.

Verification policies, rules and procedures will be modified as needed to accommodate persons with disabilities. All information obtained through the verification process will be handled in accordance with the records management policies of the PHA.

PART I: GENERAL VERIFICATION REQUIREMENTS

7-I.A. FAMILY CONSENT TO RELEASE OF INFORMATION [24 CFR 982.516; 982.551; CFR 5.230; and Notice PIH 2023-27]

Consent Forms

The family must supply any information that the PHA or HUD determines is necessary to the administration of the program and must consent to PHA verification of that information [24 CFR 982.551]. All adult family members must sign consent forms as needed to collect information relevant to the family's eligibility and level of assistance. While PHAs must use form HUD-9886, this form does not release all the information necessary to the administration of the program. The PHA must also develop its own release forms to cover all other necessary information. Form HUD-9886 [24 CFR 5.230(b)(1), b(2), (c)(4), and (c)(5)]; Notice PIH 2023-27

All adult applicants and participants sign form HUD-9886, Authorization for Release of Information. All adult family members (and the head and spouse/cohead, regardless of age) are required to sign the Form HUD-9886 at admission. Participants, prior to January 1, 2024, signed and submitted Form HUD-9886 at each annual reexamination. HOTMA eliminated this requirement and instead required that the Form HUD-9886 be signed only once. On or after January 1, 2024 (regardless of the PHA's HOTMA compliance date), current program participants must sign and submit a new Form HUD-9886 at their next interim or annual reexamination. This form will only be signed once. Another Form HUD-9886 will not be submitted to the PHA except under the following circumstances

- When any person 18 years or older becomes a member of the family;
- When a current member of the family turns 18; or
- As required by HUD or the PHA in administrative instructions.

The PHA has the discretion to establish policies around when family members must sign consent forms when they turn 18. PHAs must establish these policies stating when family members will be required to sign consent forms at intervals other than at reexamination.

Roseville Housing Authority (RHA) Policy

Family members turning 18 years of age between annual recertifications will be notified in writing that they are required to sign the required Consent to the Release of Information Form HUD-9886 at the family's next annual or interim reexamination, whichever is earlier.

The purpose of form HUD-9886 is to facilitate automated data collection and computer matching from specific sources and provides the family's consent only for the specific purposes listed on the form. HUD and the PHA may collect information from State Wage Information Collection Agencies (SWICAs) and current and former employers of adult family members. Only HUD is authorized to collect information directly from the Internal Revenue Service (IRS) and the Social Security Administration (SSA).

The PHA may obtain any financial record from any financial institution, as the terms financial record and financial institution are defined in the Right to Financial Privacy Act (12 U.S.C. 3401), whenever the PHA determines, the record is needed to determine an applicant's or participant's eligibility for assistance or level of benefits [24 CFR 5.230(c)(4)].

The executed form will remain effective until the family is denied assistance, assistance is terminated, or the family provides written notification to the PHA to revoke consent.

Penalties for Failing to Consent [24 CFR 5.232]

If any family member who is required to sign a consent form fails to do so, the PHA must deny admission to applicants and terminate assistance of participants. The family may request an informal review (applicants) or informal hearing (participants) in accordance with PHA procedures. However, this does not apply if the applicant, participant, or any member of their family, revokes their consent with respect to the ability of the PHA to access financial records from financial institutions, unless the PHA establishes a policy that revocation of consent to access financial records will result in denial or termination of assistance or admission [24 CFR 5.232(c)]. PHAs may not process interim or annual reexaminations of income without the family's executed consent forms.

Roseville Housing Authority (RHA) Policy

RHA has established a policy that revocation of consent to access financial records will result in denial of admission or termination of assistance in accordance with RHA policy.

In order for a family to revoke their consent, the family must provide written notice to RHA.

Within 10 business days of the date the family provides written notice, RHA will send the family a notice acknowledging receipt of the request and explaining that revocation of consent will result in denial or termination of assistance, as applicable. At the same time, RHA will notify their local HUD office.

7-I.B. USE OF OTHER PROGRAMS' INCOME DETERMINATIONS [24 CFR 5.609(c)(3) and Notice PIH 2023-27]

PHAs may, but are not required to, determine a family's annual income, including income from assets, prior to the application of any deductions, based on income determinations made within the previous 12-month period, using income determinations from means-tested federal public assistance programs. PHAs are not required to accept or use determinations of income from other federal means-tested forms of assistance. If the PHA adopts a policy to accept this type of verification, the PHA must establish in policy when they will accept Safe Harbor income determinations and from which programs. PHAs must also create policies that outline the course action when families present multiple verifications from the same or different acceptable Safe Harbor programs.

Means-tested federal public assistance programs include:
• Temporary Assistance for Needy Families (TANF) (42 U.S.C. 601, et seq.);
• Medicaid (42 U.S.C. 1396 et seq.);
• Supplemental Nutrition Assistance Program (SNAP) (42 U.S.C. 2011 et seq.);
• Earned Income Tax Credit (EITC) (26 U.S.C. 32);
• Low-Income Housing Credit (LIHTC) program (26 U.S.C. 42);
• Special Supplemental Nutrition Program for Woman, Infants, and Children (WIC) (42 U.S.C. 1786);
• Supplemental Security Income (SSI) (42 U.S.C. 1381 et seq.);
• Other programs administered by the HUD Secretary;

• Other means-tested forms of federal public assistance for which HUD has established a memorandum of understanding; and

• Other federal benefit determinations made in other forms of means-tested federal public assistance that the Secretary determines to have comparable reliability and announces through the Federal Register.

If the PHA elects to use the annual income determination from one of the above-listed forms of means-tested federal public assistance, then they must obtain the income information by means of a third-party verification. The third-party verification must state the family size, must be for the

entire family, and must state the amount of the family's annual income. The annual income need not be broken down by family member or income type. Annual income includes income earned from assets, therefore when using Safe Harbor to verify a family's income, PHAs will neither further inquire about a family's net family assets, nor about the income earned from those assets, except with respect to whether or not the family owns assets that exceed the asset limitation in 24 CFR 5.618. The Safe Harbor documentation will be considered acceptable if any of the following dates fall into the 12-month period prior to the receipt of the documentation by the PHA:

• Income determination effective date;
• Program administrator's signature date;
• Family's signature date;
• Report effective date; or
• Other report-specific dates that verify the income determination date.

The only information that PHAs are permitted to use to determine income under this method is the total income determination made by the federal means-tested program administrator. Other federal programs may provide additional information about income inclusions and exclusions in their award letters; however, these determinations and any other information must not be considered by the PHA. PHAs are not permitted to mix and match Safe Harbor income determinations and other income verifications.

If the PHA is unable to obtain Safe Harbor documentation or if the family disputes the other program's income determination, the PHA must calculate the family's annual income using traditional methods as outlined in Notice PIH 2023-27 and this chapter.

If the PHA uses a Safe Harbor determination to determine the family's income, the family is obligated to report changes in income that meet the PHA's reporting requirement and occur after the effective date of the transaction. The amounts of unreimbursed reasonable attendant care expenses and child-care expenses deducted from a family's annual income, except for when a family is approved for a child-care expense hardship exemption, must still be capped by the amount earned by any family member who is enabled to work as a result of the expense. PHAs are therefore required to obtain third-party verification of the applicable employment income and cap the respective expense deductions accordingly.

7-I.D. VERIFICATION HIERARCHY [Notice PIH 2023-27]

When the PHA does not use a streamlined determination of income or an income determination from a means-tested federal assistance program, HUD requires the PHA to obtain third-party verification of:

• Reported family annual income;

• The value of net family assets when the net value exceeds $50,000 (as adjusted annually);

• Expenses related to deductions from annual income; and

• Other factors that affect the determination of adjusted income.

HUD mandates the use of the EIV system and offers administrative guidance on the use of other methods to verify family information and specifies the circumstances in which each method will be used. In general HUD requires the PHA to use the most reliable form of verification that is available and to document the reasons when the PHA uses a lesser form of verification.

HUD developed a hierarchy that described verification documentation from most acceptable to least acceptable. The PHA must demonstrate efforts to obtain third party verification prior to accepting self-certification except instances when self-certification is explicitly allowed.

In order of priority, the hierarchy is:

- Highest: Level 6: Up-front Income Verification (UIV) using HUD's Enterprise Income Verification (EIV) system
- Highest: Level 5: Up-front Income Verification (UIV) using a non-EIV system
- High: Level 4:
- Written third-party verification from the source, also known as "family-provided verification"
- Or EIV plus self-certification
- Medium: Level 3: Written third-party verification form
- Medium: Level 2: Oral third-party verification
- Low: Level 1: Self-certification (not third-party verification)

Each of the verification methods is discussed in subsequent sections below.

File Documentation

The PHA must document in the file how the figures used in income and rent calculations were determined. All verification attempts, information obtained, and decisions reached during the verification process will be recorded in the family's file in sufficient detail to demonstrate that the PHA has followed all of the verification policies set forth in this plan. The record should be sufficient to enable a staff member or HUD reviewer to understand the process followed and conclusions reached.

7-I.E. LEVEL 5 AND 6 VERIFICATION: UP-FRONT INCOME VERIFICATION (UIV)

Up-front income verification (UIV) refers to the PHA's use of the verification tools available from independent sources that maintain computerized information about earnings and benefits for a number of individuals. PHAs may use UIV sources before or during a family reexamination.

UIV will be used to the extent that these systems are available to the PHA.

There may be legitimate differences between the information provided by the family and UIV-generated information. If the family disputes the accuracy of UIV data, no adverse action can be taken until the PHA has independently verified the UIV information and the family has been granted an opportunity to contest any adverse findings through the informal review/hearing process of the PHA.

Upfront Income Verification Using HUD's Enterprise Income Verification (EIV) System (Mandatory) PHAs must use HUD's EIV system in its entirety as a third-party source to verify tenant employment and income information during annual and streamlined reexaminations of family composition and income in accordance with 24 CFR 5.236 and Notice PIH 2023-27.

HUD's EIV system contains data showing earned income, unemployment benefits, social security benefits, and SSI benefits for participant families

The income validation tool (IVT) in EIV provides projections of discrepant income for wages, unemployment compensation, and SSA benefits pursuant to HUD's data sharing agreements with other departments.

The following policies apply to the use of HUD's EIV system.

EIV Income and IVT Reports

PHAs are required to obtain an EIV Income and IVT report for each family any time the PHA conducts an annual reexamination. However, PHAs are not required to use the EIV Income and IVT reports:

- At annual reexamination if the PHA used Safe Harbor verification from another means-test federal assistance program to determine the family's income; or
- During any interim reexaminations.

The EIV Income and IVT Reports are also not available for program applicants at admission. When required to use the EIV Income Report, in order for the report to be considered current, the PHA must pull the report within 120 days of the effective date of the annual reexamination.

The EIV Income Report may be used to verify and calculate income at annual reexamination if the family self-certifies that the amount is accurate and representative of current income. The family must be provided with the information in EIV.

Roseville Housing Authority (RHA) Policy

RHA will obtain income reports for annual reexaminations on a monthly basis. Reports will be generated as part of the regular reexamination process.

Income reports will be compared to family-provided information as part of the annual reexamination process. Income reports may be used in the calculation of annual income, as described in Chapter 6-I.C. Income reports may also be used to meet the regulatory requirement for third party verification, as described above. Policies for resolving discrepancies between income reports and family-provided information will be resolved as described in Chapter 6-I.C. and in this chapter.

Income reports will be used in interim reexaminations to identify any discrepancies between reported income and income shown in the EIV system, and as necessary to verify and calculate earned income, unemployment benefits, Social Security and/or SSI benefits. EIV will also be used to verify if families claiming zero income are not receiving income from any of these sources.

Income reports will be retained in participant files with the applicable annual or interim reexamination documents.

When RHA determines through income reports and third-party verification that a family has concealed or under-reported income, corrective action will be taken pursuant to the policies in Chapter 14, Program Integrity

New Hires Report [Notice PIH 2023-27]

The New Hires Report identifies participant families who have new employment within the last six months. The report is updated monthly.

PHAs must review this information at annual reexamination except when the PHA uses Safe Harbor verification from another means-tested federal assistance program to determine the family's income.

PHAs that do not require families to undergo interim reexaminations for earned income increases after an interim decrease are not required to review this report between a family's annual reexamination. If the PHA requires an interim for increases in earned income after an interim decrease, then the PHA must review the report quarterly after the family's interim decrease.

Roseville Housing Authority (RHA) Policy

***In accordance with RHA policies in Chapter 11, RHA does not process interim reexaminations for families who have increases of less than 10% in earned income.**

**This rule will take effect when HOTMA is authorized by HUD*

No Income Reported by HHS or SSA Report

This report is a tool for PHAs to identify participants who passed the SSA identity test, but no income information was reported by either HHS or SSA records. This scenario does not mean that the participant does not have any income. PHAs obtain written, third-party verification of any income reported by the participant. The PHA must identify in its policies and procedures when this report will be pulled [Notice PIH 2023-27].

Roseville Housing Authority (RHA) Policy

The PHA will generate the No Income Reported by HHS or SSA Report quarterly and will retain the report.

The PHA will re-verify the status of participants identified on the report quarterly. Based on the information provided by the family and in EIV, the PHA may require that family members provide verifications or sign release forms in order to obtain additional verification.

When the PHA determines through this report and third-party verification that a family has concealed or under-reported income, corrective action will be taken pursuant to the policies in Chapter 14, Program Integrity

EIV Identity Verification Report

The EIV system verifies tenant identities against SSA records. These records are compared to HUD data for a match on social security number, name, and date of birth.

PHAs are required to use EIV's Identity Verification Report on a monthly basis to improve the availability of income information in EIV [Notice PIH 2023-27].

When identity verification for a participant fails, a message will be displayed within the EIV system, and no income information will be displayed.

Roseville Housing Authority (RHA) Policy

RHA will identify participants whose identity verification has failed by reviewing EIV's Identity Verification Report on a monthly basis. RHA will attempt to resolve PIC/SSA discrepancies by obtaining appropriate documentation from the participant. When RHA determines that discrepancies exist due to PHA errors such as spelling errors or incorrect birth dates, the errors will be corrected as soon as possible.

Deceased Tenants Reports [Notice PIH 2012-4 and Notice PIH 2023-27]

The Deceased Tenant Report identifies residents that have been reported by the SSA as deceased. The PHA is required to review the report at least quarterly.

Roseville Housing Authority (RHA) Policy

The PHA will review the Deceased Tenants Report on a monthly basis.

When the Deceased Tenants Report identifies an individual as being deceased, PHAs must immediately send a letter to the head of household or emergency contact person (if the head of

Roseville Housing Authority

HCV Administrative Plan Page 7-10 Adopted May 18, 2016 household is deceased and there is no other adult household member) to confirm the death of the listed household member. The PHA must notify the owner in writing of the deceased head of household.

PHAs may list the EOP as the last day of the month in which the death occurred. The landlord is entitled to receive the full HAP amount for the month in which the tenant death occurred.

Roseville Housing Authority (RHA) Policy

RHA will list the EOP as the last day of the month in which the death occurred. The landlord is entitled to receive the full HAP amount for the month in which the tenant death occurred.

When the only remaining household member is the live-in aide, the live-in aide is not entitled or eligible for any rental assistance or continued occupancy. The PHA may not designate the live-in aide as the new head of household or change the relation code on the Form HUD-50058

Other EIV Reports [Notice PIH 2023-27]

The PHA is required to review the Multiple Subsidy Report at least quarterly and the Failed EIV Pre-Screening and Failed Verification (Failed SSA Identity Test) reports at least monthly.

7-I.F. LEVEL 4 VERIFICATION [Notice PIH 2023-27]

HUD identifies two types of Level 4 verification: written-third party verification from the source and EIV + self-certification. EIV may be used as written third-party verification and may be used to calculate income if the family agrees with the information in EIV and self-certifies that the amount is accurate and representative of current income. This practice is known as EIV + self-certification. When calculating income using this method, the PHA may use its discretion to determine which method of calculation is reasonable: the last four quarters combined or an average of any number of quarters. The family must be provided with the information from EIV.

Roseville Housing Authority (RHA) Policy

At annual reexamination, if RHA is unable to use a determination of income from a means-tested federal assistance program or an upfront verification such as The Work Number and if there are no reported changes to an income source, RHA will use EIV + self-certification as verification of employment income, provided the family agrees with the amounts listed in EIV.

RHA will use an average of the last two quarters of income listed in EIV to determine income from employment. RHA will provide the family with the information in EIV. The family will be required to sign a self-certification stating that the amount listed in EIV is accurate and representative of current income. If the family disagrees with the amount in EIV, the amount is not reflective of current income, or if less than two quarters are available in EIV, RHA will use written third-party verification from the source as outlined below.

RHA will not use this method of verification at new admission since EIV is not available for applicant families or at interim reexamination since the income information in EIV is not current.

Written Third-Party Verification from the Source

Written, third-party verification from the source is also known as "tenant-provided verification." In order to qualify as written-third party verification from the source, the documents must be original or authentic and (generally) dated within 120 days of the date received by the PHA. For fixed- income sources, a statement dated within the appropriate benefit year is acceptable documentation. Documents may be supplied by the family or received from a third-party source.

Examples of acceptable tenant-provided documents include, but are not limited to pay stubs, payroll summary reports, employer notice or letters of hire and termination, SSA benefit verification letters, bank statements, child support payment stubs, welfare benefit letters and/or printouts, and unemployment monetary benefit notices. Income tax returns with corresponding official tax forms and schedules attached and including third-party receipt of transmission for income tax return filed (i.e., tax preparer's transmittal receipt, summary of transmittal from online source, etc.) are an acceptable form of written, third-party verification.

The PHA is required to obtain, at minimum, two current and consecutive pay stubs when calculating income using third-party verification from the source. For new income sources or when two pay stubs are not available, the PHA should determine income based on the information from traditional written, third-party verification form or the best available information.

When the family disputes EIV-reported employment income, the PHA uses written third-party verification.

When verification of assets is required, PHAs are required to obtain a minimum of one statement that reflects the current balance of banking/financial accounts.

Roseville Housing Authority (RHA) Policy

In general, RHA will use third-party verification from the source in the following circumstances:

At annual reexamination when EIV + self-certification is not used; and

For all new admissions; and

For all interim reexaminations.

RHA will not use this method if RHA is able to use an income determination from a means-tested federal assistance program, an upfront verification system or if RHA uses EIV + self-certification as outlined above. In general, third-party documents provided by the family or the source must be dated within 120 days of the date received by RHA. However, for fixed-income sources, a statement dated within the appropriate benefit year is acceptable documentation.

RHA may reject documentation provided by the family if the document is not an original, if the document appears to be forged, or if the document is altered, mutilated, or illegible. If RHA determines that third-party documents provided by the family are not acceptable, RHA will explain the reason to the family and request additional documentation from the family or will use a lower form of verification such as a written third-party verification form.

When verification of assets held by a banking or financial institution is required, RHA will obtain one statement that reflects the current balance of the account. When pay stubs are used, RHA will require the family to provide the two most current, consecutive pay stubs. At RHA's discretion, if additional paystubs are needed due to the family's circumstances (e.g., sporadic income, fluctuating schedule, etc.), RHA may request additional paystubs or a payroll record.

7-I.G. LEVEL 3 VERIFICATION: WRITTEN, THIRD-PARTY FORM [Notice PIH 2023 - 27]

This type of verification is a form developed by the PHA and used uniformly for all families when needed to collect information from a third-party source. This is known as "traditional third-party verification." PHAs send a PHA-developed form directly to the third-party source by mail, fax, or email and the source completes the form by hand (in writing or typeset).

The PHA may use this method when higher forms are unavailable or are rejected by the PHA or when the family is unable to provide acceptable verification. The PHA may skip this level of verification and may instead substitute oral third-party verification before moving to self-certification.

Roseville Housing Authority (RHA) Policy

Program participants are responsible for providing RHA requested documentation, however on a case-by-case basis RHA will attempt to send written third-party verification forms to the verification source whenever higher forms of verification are unavailable.

However, on a case-by-case basis, the PHA may choose to obtain oral third-party verification without first attempting, and in lieu of, a written-third party verification form.

7.I.H. LEVEL 2: ORAL THIRD-PARTY VERIFICATION [Notice PIH 2023-27]

For third-party oral verification, PHAs contact sources, identified by UIV techniques or by the family, by telephone or in person.

Third-party oral verification may be used when requests for written third-party verification forms have not been returned within a reasonable time—e.g., 10 business days.

PHAs must document in the file the date and time of the telephone call or visit, the name of the person contacted, the telephone number, as well as the information confirmed.

The PHA may skip this level of verification if they attempted written third-party verification via a form and the source did not respond and move directly to self-certification.

Roseville Housing Authority (RHA) Policy

In general, RHA will attempt to obtain written third-party verification via a form from the verification source. If written third-party verification forms are not returned within 10 business days, RHA will accept attempt to obtain oral third-party verification.

IF RHA chooses to obtain oral third-party verification, RHA will document in the file the date and time of the telephone call or visit, the name of the person contacted and the telephone number, as well as the information confirmed.

When Third-Party Verification is Not Required [Notice PIH 2023-27]

Third-party verification may not be available in all situations. HUD has acknowledged that it may not be cost-effective or reasonable to obtain third-party verification of income, assets, or expenses when these items would have a minimal impact on the family's total tenant payment.

Roseville Housing Authority Policy

If the family cannot provide original documents, RHA will pay the service charge required to obtain third-party verification, unless it is not cost effective in which case a self-certification will be acceptable as the only means of verification. The cost of verification will not be passed on to the family.

The cost of postage and envelopes to obtain third-party verification of income, assets, and expenses is not an unreasonable cost [VG, p. 18].

Primary Documents

Third-party verification is not required when legal documents are the primary source, such as a birth certificate or other legal documentation of birth.

Imputed Assets

HUD permits PHAs to accept a self-certification from a family as verification of assets disposed of for less than fair market value [HCV GB, p. 5-28].

Value of Assets and Asset Income [24 CFR 982.516(a)]

For families with net assets totaling $5,000 or less, the PHA may accept the family's declaration of asset value and anticipated asset income. However, the PHA is required to obtain third-party verification of all assets regardless of the amount during the intake process and at least every three years thereafter.

Roseville Housing Authority Policy

For families with net assets totaling $5,000 or less, RHA will accept the family's self-certification of the value of family assets and anticipated asset income when applicable. The family's declaration must show each asset, and the amount of income expected from that asset. All family members 18 years of age and older must sign the family's declaration.

RHA will use third-party documentation for assets as part of the intake process, whenever a family member is added to verify the individual's assets, and every three years thereafter

7-I.I. LEVEL 1: NON-THIRD-PARTY VERIFICATION TECHNIQUE: SELF-CERTIFICATION [Notice PIH 2023-27]

Non-third-party verification consists of a signed statement of reported income and/or expenses. This verification method should be used as a last resort when the PHA has not been successful in obtaining information via all other required verification techniques.

Self-certification, however, is an acceptable form of verification when:

- A source of income is fully excluded
- Net family assets total $50,000 or less and the PHA has adopted a policy to accept self-certification
- The family declares that they do not have any present ownership in any real property
- A family states that they have non-recurring income that will not be repeated in the coming year;

and/or

- The PHA has adopted a policy to implement streamlined annual recertifications for fixed sources of income (See Chapter 11)

When the PHA was required to obtain third-party verification but instead relies self-certification, the family's file must be documented to explain why third-party verification was not available.

HUD does not require that a self-certification be notarized; however, HUD recommends including language on any self-certification to ensure the certifier understands the consequences of knowingly providing false information.

Roseville Housing Authority Policy

When information cannot be verified by a third party or by review of documents, family members will be required to submit self-certifications attesting to the accuracy of the information they have provided to RHA

RHA may require a family to certify that a family member does not receive a particular type of income or benefit.

The self-certification must be made in a format acceptable to RHA and must be signed by the family member whose information or status is being verified

All self-certifications will include the following language:

"I/We, the undersigned, certify under penalty of perjury that the information provided here is true and correct, to the best of my knowledge and recollection. WARNING: Anyone who knowingly submits a false claim or knowingly makes a false statement is subject to criminal and/or civil penalties, including confinement for up to five years, fines, and civil and administrative penalties (18 U.S.C. 287, 1001, 1010, 1012; 31 U.S.C. 3279, 3802)."

PART II: VERIFYING FAMILY INFORMATION

7-II.A. VERIFICATION OF LEGAL IDENTITY

Roseville Housing Authority (RHA) Policy

RHA will require families to furnish verification of legal identity for each household member.

Verification of Legal Identity for Adults	Verification of Legal Identity for Children
Certificate of birth, naturalization papers Church issued baptismal certificate Current, valid driver's license or Department of Motor Vehicles identification card U.S. military discharge (DD 214) Current U.S. passport Current government employer identification card with picture	Certificate of birth Adoption papers Custody agreement Health and Human Services ID Certified school records

If a document submitted by a family is illegible or otherwise questionable, more than one of these documents may be required.

If none of these documents can be provided and at RHA's discretion, a third party who knows the person may attest to the person's identity. The certification must be provided in a format acceptable to RHA and must be signed by the family member whose information or status is being verified.

Legal identity will be verified for all applicants at the time of eligibility determination and in cases where RHA has reason to doubt the identity of a person representing themselves to be a participant.

7-II.B. SOCIAL SECURITY NUMBERS [24 CFR 5.216, Notice PIH 2023-27]

The family must provide documentation of a valid Social Security number (SSN) for each member of the household, with the exception of individuals who do not contend eligible immigration status. Exemptions also include existing program participants who were at least 62 years of age as of January 31, 2010, and had not previously disclosed an SSN.

Note that an individual who previously declared to have eligible immigration status may not change their declaration for the purpose of avoiding compliance with the SSN disclosure and documentation requirements or penalties associated with noncompliance with these requirements. Nor may the head of household opt to remove a household member from the family composition for this purpose.

The PHA must accept the following documentation as acceptable evidence of the social security number

- A n original SSN card issued by the Social Security Administration (SSA)
- An original SSA-issued document, which contains the name and SSN of the individual
- An original document issued by a federal, state, or local government agency, which contains the name and SSN of the individual

While PHAs must attempt to gather third-party verification of SSNs prior to admission as listed above, PHAs also have the option of accepting a self-certification and a third-party document (such as a bank statement, utility or cell phone bill, or benefit letter) with the applicant's name printed on it to satisfy the SSN disclosure requirement if the PHA has exhausted all other attempts to obtain the required documentation. If verifying an individual's SSN using this method, the PHA must document why the other SSN documentation was not available.

If the tenant's SSN becomes verified in EIV, then no further verification is required. If the tenant's SSN fails the SSA identity match, then the PHA must obtain a valid SSN card issued by the SSA or an original document issued by a federal or state government agency that contains the name of the individual and the SSN of the individual, along with other identifying information of the individual. The tenant's assistance must be terminated if they fail to provide the required documentation.

Roseville Housing Authority Policy

RHA will verify an individual's SSN in the situations described above using the method described above as a last resort when no other forms of verification of the individual's SSN are available.

The PHA may only reject documentation of an SSN provided by an applicant or participant if the document is not an original document or if the original document has been altered, mutilated, is illegible, or if the document appears to be forged.

Roseville Housing Authority Policy

RHA will explain to the applicant or participant the reasons the document is not acceptable and request that the individual obtain and submit acceptable documentation of the SSN to RHA within 30 days with extensions given when through no fault of their own they could not obtain the documents within 30 days.

In the case of Moderate Rehabilitation Single Room Occupancy (SRO) individuals, the required documentation must be provided within 90 calendar days from the date of admission into the program. The PHA must grant one additional 90-day extension if it determines that the applicant's failure to comply was due to circumstances that were beyond the applicant's control and could not have been reasonably foreseen.

Roseville Housing Authority Policy

RHA will grant one additional 90-day extension if needed for reasons beyond the participant's control such as delayed processing of the SSN application by the SSA, natural disaster, fire, death in the family, or other emergency. If the individual fails to comply with SSN disclosure and documentation requirements upon expiration of the provided time period, RHA will terminate the individual's assistance.

If an applicant family includes a child under 6 years of age who joined the household within the 6 months prior to the date of voucher issuance, an otherwise eligible family may be admitted to the program and the family must provide documentation of the child's SSN within 90 days of the effective date of the initial HAP contract. A 90-day extension will be granted if the PHA determines that the participant's failure to comply was due to unforeseen circumstances and was outside of the participant's control.

Roseville Housing Authority Policy

RHA will grant one additional 90-day extension if needed for reasons beyond the applicant's control, such as delayed processing of the SSN application by the SSA, natural disaster, fire, death in the family, or other emergency.

When the participant requests to add a new household member, and has an SSN, the participant must provide the complete and accurate SSN assigned to each new member at the time of reexamination or recertification, in addition to the documentation required to verify it. The PHA may not add the new household member until such documentation is provided.

When a participant requests to add a new household member who is under the age of 6 and has not been assigned an SSN, the participant must provide the SSN assigned to each new child and the required documentation within 90 calendar days of the child being added to the household. A 90-day extension will be granted if the PHA determines that the participant's failure to comply was due to unforeseen circumstances and was outside of the participant's control. During the period the PHA is awaiting documentation of the SSN, the child will be counted as part of the assisted household.

Roseville Housing Authority (RHA) Policy

RHA will grant one additional 90-day extension if needed for reasons beyond the participant's control such as delayed processing of the SSN application by the SSA, natural disaster, fire, death in the family, or other emergency.

Social security numbers must be verified only once during continuously assisted occupancy.

Roseville Housing Authority (RHA) Policy

RHA will verify each disclosed SSN by:

Obtaining documentation from applicants and participants that is acceptable as evidence of social security numbers

Making a copy of the original documentation submitted, returning it to the individual, and retaining a copy in the file folder

7-II.C. DOCUMENTATION OF AGE

A birth certificate or other official record of birth is the preferred form of age verification for all family members. For elderly family members an original document that provides evidence of the receipt of social security retirement benefits is acceptable.

Roseville Housing Authority (RHA) Policy

If an official record of birth or evidence of social security retirement benefits cannot be provided, RHA will require the family to submit other documents that support the reported age of the family ember (e.g., school records, driver's license if birth year is recorded), in addition to providing, a self-certification.

Age must be verified only once during continuously assisted occupancy.

7-II.D. FAMILY RELATIONSHIPS

Applicants and program participants are required to identify the relationship of each household member to the head of household. Definitions of the primary household relationships are provided in the Eligibility chapter.

Roseville Housing Authority (RHA) Policy

Family relationships are verified only to the extent necessary to determine a family's eligibility and level of assistance. Certification by the head of household normally is sufficient verification of family relationships.

Marriage

Roseville Housing Authority (RHA) Policy

Certification by the head of household is normally sufficient verification. If RHA has reasonable doubts about a marital relationship, RHA will require the family to document the marriage.

If verification of marriage is required, a marriage certificate is generally accepted.

Separation or Divorce

Roseville Housing Authority (RHA) Policy

Certification by the head of household is acceptable as supplemental verification but will not be used as sole verification. RHA will require the family to provide documentation of the divorce or separation using one of the following:

- **A certified copy of a divorce decree, signed by a court officer, is required to document that a couple is divorced.**
- **A copy of a court-ordered maintenance or other court record is required to document a separation.**
- **If no court document is available, documentation from a community-based agency will be accepted.**

Absence of Adult Member

Roseville Housing Authority (RHA) Policy

If an adult member who was formerly a member of the household is reported to be permanently absent, the family must provide evidence to support that the person is no longer a member of the family (e.g., documentation of another address at which the person resides such as a lease or utility bill).

Foster Children and Foster Adults

Roseville Housing Authority (RHA) Policy

Third-party verification from the state or local government agency responsible for the placement of the individual with the family is required.

7-II.E. VERIFICATION OF STUDENT STATUS

General Requirements

Roseville Housing Authority (RHA) Policy

RHA requires families to provide information about the student status of all students who are 18 years of age or older. This information will be verified only if:

• The family reports full-time student status for an adult other than the head, spouse, or co-head.

• The family reports childcare expenses to enable a family member to further his or her education.

• The family includes a student enrolled in an institution of higher education.
Restrictions on Assistance to Students Enrolled in Institutions of Higher Education

This section applies only to students who are seeking assistance on their own, separately from their parents. It does not apply to students residing with parents who are seeking or receiving HCV assistance.

Roseville Housing Authority (RHA) Policy

In accordance with the verification hierarchy described in Section 7-1.B, the PHA will determine whether the student is exempt from the restrictions in 24 CFR 5.612 by verifying any one of the following exemption criteria:

• The student is enrolled at an educational institution that does not meet the definition of institution of higher education in the Higher Education Act of 1965 (see Section Exhibit 3-2).

• The student is at least 24 years old.

• The student is a veteran, as defined in Section 3-II.E.

• The student is married.

• The student has at least one dependent child, as defined in Section 3-II.E.

• The student is a person with disabilities, as defined in Section 3-II.E, and was receiving assistance prior to November 30, 2005.

If RHA cannot verify at least one of these exemption criteria, RHA will conclude that the student is subject to the restrictions on assistance at 24 CFR 5.612. In addition to verifying the student's income eligibility, RHA will then proceed to verify either the student's parents' income eligibility (see Section 7-III.J) or the student's independence from his/her parents (see below).

Independent Student

Roseville Housing Authority (RHA) Policy

RHA will verify a student's independence from his/her parents to determine that the student's parents' income is not relevant for determining the student's eligibility. Written certification may be requested from the student's parents identifying the

amount of support they will be providing to the student, even if the amount of support is $0.

7-II.F. DOCUMENTATION OF DISABILITY

The PHA must verify the existence of a disability in order to allow certain income disallowances and deductions from income. The PHA is not permitted to inquire about the nature or extent of a person's disability [24 CFR 100.202(c)]. The PHA may not inquire about a person's diagnosis or details of treatment for a disability or medical condition. If the PHA receives a verification document that provides such information, the PHA will not place this information in the tenant file. Under no circumstances will the PHA request a participant's medical record(s). For more information on health care privacy laws, see the Department of Health and Human Services'website at http://www.hhs.gov/ocr/privacy/.

The above cited regulation does not prohibit the following inquiries, provided these inquiries are made of all applicants, whether or not they are persons with disabilities [VG, p. 24]:

Inquiry into an applicant's ability to meet the requirements of ownership or tenancy

Inquiry to determine whether an applicant is qualified for a dwelling available only to person swith disabilities or to persons with a particular type of disability

Inquiry to determine whether an applicant for a dwelling is qualified for a priority available to persons with disabilities or to persons with a particular type of disability

Inquiring whether an applicant for a dwelling is a current illegal abuser or addict of a controlled substance

Inquiring whether an applicant has been convicted of the illegal manufacture or distribution of a controlled substance

Family Members Receiving SSA Disability Benefits

Verification of the receipt of disability benefits from the Social Security Administration (SSA) is sufficient verification of disability for the purpose of qualifying for waiting list preferences (if applicable) or certain income disallowances and deductions [VG, p. 23].

Roseville Housing Authority (RHA) Policy

For family members claiming disability who receive disability benefits from the SSA, and for adult family members less than 62 years of age receiving SS and/or SSI benefits,

RHA will attempt to obtain information about disability benefits through the HUD Enterprise Income Verification (EIV) system. If documentation from HUD's EIV

System is not available, RHA will request a current SSA benefit verification letter from each family member claiming disability status. If the family is unable to provide the document(s), RHA will ask the family to request a benefit verification letter by either calling SSA at 1-800-772-1213, or by requesting it from www.ssa.gov. Once the applicant or participant receives the benefit verification letter they will be required to provide it to RHA.

Family Members Not Receiving SSA Disability Benefits

Receipt of veteran's disability benefits, worker's compensation, or other non-SSA benefits based the individual's claimed disability are not sufficient verification that the individual meets HUD's definition of disability in 24 CFR 5.403.

Roseville Housing Authority (RHA) Policy

For family members claiming disability who do not receive disability benefits from the SSA, a knowledgeable professional must provide third-party verification that the family member meets the HUD definition of disability. See the Eligibility chapter for the HUD definition of disability. The knowledgeable professional will verify whether the family member does or does not meet the HUD definition of disability.

Developmental disability will be verified one-time – there is no need to reverify this disability.

7-II.G. CITIZENSHIP OR ELIGIBLE IMMIGRATION STATUS [24 CFR 5.508]

Overview

Housing assistance is not available to persons who are not citizens, nationals, or eligible immigrants. Prorated assistance is provided for "mixed families" containing both eligible and ineligible persons. A discussion of eligibility requirements is in the Eligibility chapter. This verifications chapter discusses HUD and PHA verification requirements related to citizenship status.

The family must provide a certification that identifies each family member as a U.S. citizen, a U.S. national, an eligible noncitizen or an ineligible noncitizen and submit the documents discussed below for each family member. Once eligibility to receive assistance has been verified it need not be collected or verified again during continuously assisted occupancy. [24 CFR 5.508(g)(5)]

U.S. Citizens and Nationals

HUD requires a declaration for each family member who claims to be a U.S. citizen or national. The declaration must be signed by any family member 18 or older and by a guardian for minors. The PHA may request verification of the declaration by requiring presentation of a birth certificate, United States passport or other appropriate documentation.

Roseville Housing Authority (RHA) Policy

Family members who claim U.S. citizenship or national status will not be required to provide additional documentation unless RHA receives information indicating that an individual's declaration may not be accurate.

Eligible Immigrants

Documents Required

All family members claiming eligible immigration status must declare their status in the same manner as U.S. citizens and nationals. The documentation required for eligible noncitizens varies depending upon factors such as the date the person entered the U.S., the conditions under which eligible immigration status has been granted, age, and the date on which the family began receiving HUD-funded assistance. Exhibit 7-1 at the end of this chapter summarizes documents family members must provide.

PHA Verification [HCV GB, pp. 5-3 and 5-7]

For family members age 62 or older who claim to be eligible immigrants, proof of age is required in the manner described in 7-II.C. of this plan. No further verification of eligible immigration status is required.

For family members under the age of 62 who claim to be eligible immigrants, the PHA must verify immigration status with the United States Citizenship and Immigration Services (USCIS).

The PHA will follow all USCIS protocols for verification of eligible immigration status.

7-II.H. VERIFICATION OF PREFERENCE STATUS

The PHA must verify any preferences claimed by an applicant that determined placement on the waiting list.

PART III: VERIFYING INCOME AND ASSETS

Chapter 6, Part I of this plan describes in detail the types of income that are included and excluded and how assets and income from assets are handled. Any assets and income reported by the family must be verified. This part provides PHA policies that supplement the general verification procedures specified in Part I of this chapter.

7-III.A. EARNED INCOME

Tips

Roseville Housing Authority (RHA) Policy

Unless tip income is included in a family member's W-2 by the employer, persons who work in industries where tips are standard will be required to sign a certified estimate of tips received for the prior year and tips anticipated to be received in the coming year.

Wages

Roseville Housing Authority (RHA) Policy

For wages other than tips, the family must provide originals of the two most current, consecutive pay stubs.

7-III.B. BUSINESS AND SELF EMPLOYMENT INCOME

Roseville Housing Authority (RHA) Policy

Business owners and self-employed persons will be required to provide:

• An audited financial statement for the previous fiscal year if an audit was conducted. If an audit was not conducted, a statement of income and expenses must be submitted, and the business owner or self-employed person must certify to its accuracy.

• All schedules completed for filing federal and local taxes in the preceding year. RHA may require copies of receipts to support business deductions. Deductions will be allowed to the extent they are verifiable and in accord with IRS regulations.

• Transportation expenses for self-employment will be calculated using actual miles to and from work appointments and the standard business mileage rate instead of actual expenses for gas and oil.

For self-employed individuals who claim they do not to file tax returns, The PHA will obtain a completed copy of IRS Form 4506-T to verify that no return has been filed.

For those employed in "gig employment" (i.e., those in formal agreements with on-demand companies such as Uber, Lyft, or DoorDash), the PHA will provide a format for the individual to declare their income and expenses. The PHA will also review the printed statement of monthly income from the applicable app for all hours worked and pay received as well as the Schedule C of the individual's tax return and the corresponding IRS Form 1099 or 1099k

The PHA will provide a format for any person who is unable to provide such a statement to record income and expenses for the coming year. The business owner/self-employed person will be required to submit the information requested and to certify to its accuracy at all future reexaminations. At any reexamination the PHA may request documents that support submitted financial statements such as manifests, appointment books, cash books, or bank statements.

If a family member has been self-employed less than three (3) months, the PHA will accept the family member's certified estimate of income and schedule an interim reexamination in three (3) months. If the family member has been self-employed for three (3) to twelve (12) months the PHA will require the family to provide documentation of income and expenses for this period and use that information to project income.

7-III.C. PERIODIC PAYMENTS AND PAYMENTS IN LIEU OF EARNINGS

For policies governing streamlined income determinations for fixed sources of income, please see Chapter 11.

Social Security/SSI Benefits [Notice PIH 2023-27]

Verification requirements for Social Security (SS) and Supplemental Security Income (SSI) benefits differ for applicants and participants.

For applicants, since EIV does not contain SS or SSI benefit information, the PHA must ask applicants to provide a copy of their current SS and/or SSI benefit letter (dated within the last 120 calendar days) for each family member that receives SS and/or SSI benefits. If the family is unable to provide the document or documents, the PHA should help the applicant request a benefit verification letter from SSA's website at www.ssa.gov or ask the family to request one by calling SSA at 1-800-772-1213. The PHA must obtain the original benefit letter from the applicant, make a photocopy of the document for the file, and return the original to the family.

For participants, the PHA must obtain information through the HUD EIV system and confirm with the participants that the current listed benefit amount is correct.

If the participant agrees with the amount reported in EIV, the PHA must use the EIV-reported gross

benefit amount to calculate annual income from Social Security. PHAs are required to use the EIV-reported SS and SSI benefit amounts when calculating income unless the tenant disputes the EIV-reported amount. For example, an SSA benefit letter may list the monthly benefit amount as $450.80 and EIV displays the amount as $450.00. The PHA must use the EIV-reported amount unless the participant disputes the amount.

If the participant disputes the EIV-reported benefit amount, or if benefit information is not available in EIV, the PHA must request a current SSA benefit verification letter (dated within the last 120 calendar days) from each family member that receives SS and/or SSI benefits. If the family is unable to provide the document or documents, the PHA should help the participant request a benefit verification letter from SSA's website at www.ssa.gov or ask the family to request one by calling SSA at 1-800-772-1213. The PHA must obtain the original benefit letter from the participant, make a photocopy of the document for the file, and return the original to the family.

Photocopies of social security checks or bank statements are not acceptable forms of verification for SS/SSI benefits.

7-III.D. ALIMONY OR CHILD SUPPORT

Roseville Housing Authority (RHA) Policy

If the family declares that it *receives regular, irregular, or no payments*, verification will be sought in the following order.

- **RHA will ask the family to provide a 12 Months Payment History printout from www.childsup.ca.gov. If the family does not have access to the internet RHA**
- **staff will schedule an appointment to allow the family use RHA's computer to print their Child Support payment history.**
- **Third-party verification form from the state or local child support agency with a request for a record of payments for the past 12 months and any known information about the likelihood of future payments.**
- **Third-party verification from the person paying the support**
- **Copy of the latest check and/or payment stubs.**
- **Family's self-certification of amount received Note: Families are not required to undertake independent enforcement action.7-III.E. NONRECURRING INCOME [Notice PIH 2023-27]**

Income that will not be repeated beyond the coming year (i.e., the 12 months following the effective date of the certification), based on information provided by the family, is considered nonrecurring income and is excluded from annual income. PHAs may accept a self-certification from the family stating that the income will not be repeated in the coming year.

Roseville Housing Authority Policy

RHA will require third-party verification that income sources will not be repeated in the coming year.

7-III.E. ASSETS AND INCOME FROM ASSETS

Net Family Assets [24 CFR 5.603]

At admission and reexam, for families with net assets totaling $50,000 or less (adjusted annually), the PHA may, but is not required to, accept the family's self-certification that the family's assets do not exceed $50,000 without taking any additional steps to verify the accuracy of the declaration. The declaration must include the amount of income the family expects to receive from assets which must be included in the family's income. This includes declaring income from checking and savings accounts which, although excluded from the calculation of net family assets (because the combined value of non-necessary personal property does not exceed $50,000), may generate asset income. PHAs must clarify during the self-certification process which assets are included/excluded from net family assets.

For PHAs that choose to accept self-certification, the PHA is required to obtain third-party verification of all assets, regardless of the amount, at least once every three years.

PHAs who choose not to accept self-certifications of assets must verify all families' assets on an annual basis

When net family assets have a total value over $50,000, the PHA may not rely on the family's self-certification. Third-party verification of assets is required when net family assets exceed $50,000, adjusted annually by HUD.

When verification of assets is required, PHAs are required to obtain a minimum of one statement that reflects the current balance of banking/financial accounts.

Roseville Housing Authority Policy

Families are to provide one month of verification of assets for annual recertification. In some cases, additional months may be requested.

When verification is required, in determining the value of checking or savings accounts, RHA will use the current balance.

In determining the anticipated income from an interest-bearing checking or savings account when verification is required and the rate of return is known, RHA will multiply the current balance of the account by the current rate of interest paid on the account. If a checking account does not bear interest, the anticipated income from the account is zero.

Self-Certification of Real Property Ownership [24 CFR 5.618(b)(2)]

The PHA must determine whether a family has present ownership in real property that is suitable for occupancy for purposes of determining whether the family is compliant with the asset limitation described in Chapters 3 and 12. At admission and reexam, the PHA may accept a self-certification from the family that the family does not have any present ownership in any real property that is suitable for occupancy. If the family declares they have present ownership in real property, the PHA must obtain third-party verification.

Roseville Housing Authority Policy

If the family declares they have a present ownership in real property, RHA will obtain third-party verification of the following factors: whether the family has the legal right to reside in the property; whether the family has effective legal authority to sell the property; and whether the property is suitable for occupancy by the family as a residence. However, in cases where a family member is a victim of domestic violence, dating violence, sexual assault, or stalking, RHA will comply with confidentiality requirements under 24 CFR 5.2007 and will accept a self-certification.

Both at admission and reexam, RHA may request self-certification from the family that the family does not have any present ownership in any real property. The certification will state that the family does not have any present ownership interest in any real property and must be signed by all family members 18 years of age and older. The PHA reserves the right to require additional verification in situations where the accuracy of the declaration is in question.

7-III.G. ASSETS DISPOSED OF FOR LESS THAN FAIR MARKET VALUE

The family must certify whether any assets have been disposed of for less than fair market value in the preceding two years. The PHA needs to verify only those certifications that ~~warranty~~warranty documentation [HCV GB, p. 5-28].

Roseville Housing Authority (RHA) Policy

RHA will verify the value of assets disposed of only if:

- **RHA does not already have a reasonable estimation of its value from previously collected information, or**
- **The amount reported by the family in the certification appears obviously in error.**

7-III.H. NET INCOME FROM RENTAL PROPERTY

Roseville Housing Authority (RHA) Policy

The family must provide both of the following:

- **A current executed lease for the property that shows the rental amount or certification from the current tenant**
- **A self-certification from the family members engaged in the rental of property providing an estimate of expenses for the coming year and the most recent IRS**

Form 1040 with Schedule E (Rental Income). If schedule E was not prepared, RHA will require the family members involved in the rental of property to provide a self-certification of income and expenses for the previous year and may request documentation to support the statement including tax statements, insurance invoices, bills for reasonable maintenance and utilities, and bank statements or amortization schedules showing monthly interest expense.

7-III.I. FEDERAL TAX REFUNDS OR REFUNDABLE TAX CREDITS [Notice PIH 2023-27]

PHAs are not required to verify the amount of the family's federal tax refund or refundable tax credit(s) if the family's net assets are equal to or below $50,000 (adjusted annually for inflation), even in years when full verification of assets is required or if the PHA does not accept self-certification of assets. PHAs must verify the amount of the family's federal tax refund or refundable tax credits if the family's net assets are greater than $50,000.

7-III.J. RETIREMENT ACCOUNTS

Roseville Housing Authority (RHA) Policy

RHA will accept written third-party documents provided by the family as evidence of the status of retirement accounts.

The type of original document that will be accepted depends upon the family member's retirement status.

***Before retirement*, RHA will accept an original document from the entity holding the account with a date that shows it is the most recently scheduled statement for the**

account but in no case earlier than 6 months from the effective date of the examination.

***Upon retirement*, RHA will accept an original document from the entity holding the account that reflects any distributions of the account balance, any lump sums taken and any regular payments.**

***After retirement*, RHA will accept an original document from the entity holding the account dated no earlier than 12 months before that reflects any distributions of the account balance, any lump sums taken and any regular payments.**

If the family does not have documentation of retirement accounts RHA will send third-party verification forms to the source of the retirement account.

7-III.K. INCOME FROM EXCLUDED SOURCES [Notice PIH 2023-27]

A detailed discussion of excluded income is provided in Chapter 6, Part I.

HUD guidance on verification of excluded income draws a distinction between income which is fully excluded and income which is only partially excluded.

For fully excluded income, the PHA is not required to follow the verification hierarchy, document why third-party verification is not available, or report the income on the 50058. Fully excluded income is defined as income that is entirely excluded from the annual income determination (for example, food stamps, earned income of a minor, or foster care funds) [Notice PIH 2013-04].

PHAs may accept a family's signed application or reexamination form as self-certification of fully excluded income. They do not have to require additional documentation. However, if there is any doubt that a source of income qualifies for full exclusion; PHAs have the option of requiring additional verification.

For partially excluded income, the PHA is required to follow the verification hierarchy and all applicable regulations, and to report the income on the 50058. Partially excluded income is defined as income where only a certain portion of what is reported by the family qualifies to be excluded and the remainder is included in annual income (for example, the income of an adult full-time student, or income excluded under the earned income disallowance).

Roseville Housing Authority (RHA) Policy

RHA will accept the family's self-certification as verification of fully excluded income. RHA may request additional documentation if necessary to document the income source.

RHA will verify the source and amount of partially excluded income as described in Part 1 of this chapter.

7-III.L. ZERO INCOME STATUS REVIEWS [Notice PIH 2023-27]

A zero-income review is an assessment, sometimes periodic, performed by the PHA of the income of a family who claims that they do not receive income from any source, including from assets. During such reviews, it is common for PHAs to request that families complete and sign a worksheet explaining how they pay for the household's expenses. HUD does not require PHAs to conduct periodic zero income reviews. In calculating annual income, PHAs must not assign monetary value to nonmonetary in-kind donations from a food bank or similar organization received by the family [24 CFR § 5.609(b)(24)(vi)]. PHAs that perform zero income reviews must update local discretionary policies, procedures, and forms. Families who begin receiving income which does not trigger an interim reexamination should no longer be considered zero income even though the family's income is not reflected on the Form HUD-50058.

Roseville Housing Authority (RHA) Policy

Pursuant to 24 CFR Part 5, 24 CFR 982.551, and 24 CFR 982.552, the Roseville Housing Authority (RHA) will utilize all available Up-Front Income Verification (UIV) methods, including HUD's Enterprise Income Verification (EIV) system when applicable, and may obtain independent third-party verification to confirm the accuracy and completeness of all income information reported by program participants. This includes, but is not limited to, verification of unemployment benefits, Temporary Assistance for Needy Families (TANF), Social Security (SS), and Supplemental Security Income (SSI).

Households reporting zero annual income, or households whose reported income and/or assetsthat do not reasonable support disclosed recurring expenses,, will be required to disclose, certify, and provide documentation of all sources of financial support and all recurring monthly expenses. This requirement is consistent with family obligations under 24 CFR 982.551(b) to supply complete and accurate information necessary for RHA to administer the program.

RHA retains sole discretion to request additional documentation, conduct follow-up reviews, or require supplemental verification whenever reported information is incomplete, inconsistent, contradictory, unverifiable, or otherwise insufficient for RHA to make an eligibility determination.

RHA will schedule an in-office appointment to review income, expenses, and any documentation RHA deems necessary to determine eligibility or continued assistance. All adult household members will be required to attend, unless RHA approves an alternative method of participation as a reasonable accommodation under Section 504 of the Rehabilitation Act and HUD nondiscrimination regulations.

If the household fails to attend the scheduled appointment, RHA will allow one opportunity to reschedule. Failure to attend the second appointment, without good cause, constitutes a violation of family obligations under 24 CFR 982.551 and may result in denial or termination of assistance under 24 CFR 982.552. Any termination action will be subject to the family's right to an informal hearing under 24 CFR 982.555.

For purposes of this policy, RHA defines good cause as a circumstance beyond the household's reasonable control that prevents attendance at a required appointment or timely submission of documentation. Good cause may include, but is not limited to:

- **Serious illness, hospitalization, or medical emergency of a household member**
- **Death of an immediate family member**
- **Verified lack of necessary transportation**
- **A court appearance or legal obligation requiring attendance**
- **Severe weather or natural disaster preventing safe travel**
- **Circumstances requiring reasonable accommodation under Section 504**
- **Other unforeseeable circumstances that RHA, in its sole discretion, determines to be legitimate and unavoidable**

Documentation supporting a good-cause claim may be required. Failure to provide requested evidence may result in denial of the good-cause request.

~~**RHA will check UIV sources and/or request information from third-party sources to verify that certain forms of income such as unemployment benefits, TANF, SS, SSI, and general relief/assistance are not being received by families claiming to have zero annual income. Each adult family member with zero income, or insufficient assets and income to support anticipated monthly expenses will be required to provide monthly income and expense reports and the family may be asked to provide copies of utility bills.**~~

~~**If monthly income and expense reports are required, the due date for each month's form is 10 days following the end of each reporting month. If the form is not returned completed by the due date a reminder letter will be sent giving two more weeks to return the form. If the second deadline is missed, then the family will have their assistance terminated. If an exception to termination of assistance is made the family will be required to sign a form stating that they understand that this is a one-time exception of termination for late submittal of the required monthly income and expense reports.**~~

7-III.M. STUDENT FINANCIAL ASSISTANCE [24 CFR 5.609(b)(9)]

Any financial assistance, in excess of amounts received for tuition, that a person attending an institution of higher education receives under the Higher Education Act of 1965, from private sources, or from an institution of higher education must be considered income unless the student is over the age of 23 with dependent children or is residing with parents who are seeking or receiving HCV assistance [24 CFR 5.609(b)(9) and FR 4/10/06].

For students over the age of 23 with dependent children or students residing with parents who are seeking or receiving HCV assistance, the full amount of student financial assistance is excluded from annual income [24 CFR 5.609(c)(6)]. The full amount of student financial assistance is also excluded for students attending schools that do not qualify as institutions of higher education (as defined in Exhibit 3-2). Excluded amounts are verified only if, without verification, the PHA would

not be able to determine whether or to what extent the income is to be excluded (see Section 7-III.H).

Roseville Housing Authority Policy

For a student subject to having a portion of his/her student financial assistance included in annual income in accordance with 24 CFR 5.609(b)(9), RHA will request written third-party verification of both the source and the amount. Family-provided documents from the educational institution attended by the student will be requested, as well as documents generated by any other person or entity providing such assistance, as reported by the student.

In addition, RHA will request written verification of the student's tuition amount. If RHA is unable to obtain third-party written verification of the requested information, RHA will pursue other forms of verification following the verification hierarchy in Section 7-I.B.

*The regulations under HOTMA distinguish between two categories of student financial assistance paid to both full-time and part-time students. Any assistance to students under section 479B of the Higher Education Act of 1965 (Tile IV of the HEA) must be excluded from the family's annual income [24 CFR 5.609(b)(9)(i)]. Any other grant-in-aid, scholarship, or other assistance amounts an individual receives for the actual covered costs charged by the institute of higher education not otherwise excluded by the federally mandated income exclusions are excluded [24 CFR 5.609(b)(9)(ii)].

Roseville Housing Authority Policy

RHA will request written third-party verification of both the source and the amount of student financial assistance. Family-provided documents from the educational institution attended by the student will be requested, as well as documents generated by any other person or entity providing such assistance, as reported by the student.

In addition, unless the student's only source of assistance is assistance under Title IV of the HEA, RHA will request written verification of the cost of the student's tuition, books, supplies, room and board, and other required fees and charges to the student from the educational institution.

If RHA is unable to obtain third-party written verification of the requested information, RHA will pursue other forms of verification following the verification hierarchy in section 7-I.B.

7-III.N. PARENTAL INCOME OF STUDENTS SUBJECT TO ELIGIBILITY RESTRICTIONS

If a student enrolled at an institution of higher education is under the age of 24, is not a veteran, is not married, does not have a dependent child, and is not a person with disabilities receiving HCV assistance as of November 30, 2005, the income of the student's parents must be considered when determining income eligibility, unless the student is determined independent from his or her parents in accordance with PHA policy [24 CFR 5.612 and FR 4/10/06, p. 18146].

This provision does not apply to students residing with parents who are seeking or receiving HCV assistance. It is limited to students who are seeking or receiving assistance on their own, separately from their parents.

Roseville Housing Authority (RHA) Policy

If RHA is required to determine the income eligibility of a student's parents, RHA will request an income declaration and certification of income from the appropriate parent(s) (as determined in Section 3-II.E). RHA will send the request directly to the parents, who will be required to certify to their income under penalty of perjury. The parents will be required to submit the information directly to RHA. The required information must be submitted (postmarked) within 10 business days of the date of RHA's request or within any extended timeframe approved by RHA.

RHA reserves the right to request and review supporting documentation at any time if it questions the declaration or certification. Supporting documentation may include, but is not limited to, Internal Revenue Service (IRS) tax returns, consecutive and original pay stubs, bank statements, pension benefit statements, benefit award letters, and other official and authentic documents from a federal, state, or local agency.

PART IV: VERIFYING MANDATORY DEDUCTIONS

7-IV.A. DEPENDENT AND ELDERLY/DISABLED HOUSEHOLD DEDUCTIONS

The dependent and elderly/disabled family deductions require only that the PHA verify that the family members identified as dependents or elderly/disabled persons meet the statutory definitions. No further verifications are required.

Dependent Deduction

See Chapter 6 (6-II.B.) for a full discussion of this deduction. The PHA must verify that:

- Any person under the age of 18 for whom the dependent deduction is claimed is not the head, spouse, or co-head of the family and is not a foster child
- Any person age 18 or older for whom the dependent deduction is claimed is not a foster adult or live-in aide, and is a person with a disability or a full-time student

Elderly/Disabled Family Deduction

See Eligibility chapter for a definition of elderly and disabled families and Chapter 6 (6-II.C.) for a discussion of the deduction. The PHA must verify that the head, spouse, or co-head is 62 years of age or older or a person with disabilities.

7-IV.B. HEALTH AND MEDICAL CARE EXPENSE DEDUCTION

Policies related to medical expenses are found in 6-II.D. The amount of the deduction will be verified following the standard verification procedures described in Part I.

The PHA must comply with the Health Insurance Portability and Accountability Act (HIPAA) (Pub. L. 104-191, 110 Stat. 1936) and the Privacy Act of 1974 (Pub. L. 93-579, 88 Stat. 1896) when requesting documentation to determine unreimbursed health and medical care expenses. The PHA may not request documentation beyond what is sufficient to determine anticipated health and medical care costs. Before placing bills and documentation in the tenant file, the PHA must redact all personally identifiable information [FR Notice 2/14/23]

Amount of Expense

Roseville Housing Authority (RHA) Policy

RHA cannot request information to verify medical expenses due to privacy laws.

Medical expenses will be verified through:

Written third-party documents provided by the family, such as pharmacy printouts, receipts and copies of cancelled checks used to make medical expense payments. RHA will make a best effort to determine what expenses from the past are likely to continue to occur in the future. RHA will also accept evidence of monthly payments or total payments that will be due for medical expenses during the upcoming 12 months.

Before placing bills and documentation in the tenant file, the PHA will redact all personally identifiable information.

If the PHA receives documentation from a verification source that contains the individual's specific diagnosis, information regarding the individual's treatment, and/or information regarding the nature or severity of the person's disability, the PHA will immediately dispose of this confidential information; this information will never be maintained in the individual's file. If the information needs to be disposed of, the PHA will note in the individual's file that verification was received, the date received, and the name and address of the person/organization that provided the verification. Under no circumstances will PHA include an applicant's or resident's medical records in the file [Notice PIH 2010-26].

In addition, the PHA must verify that:

• The household is eligible for the deduction.

• The costs to be deducted are qualified medical expenses.

• The expenses are not paid for or reimbursed by any other source.

• Costs incurred in past years are counted only once.

Eligible Household

The medical expense deduction is permitted only for households in which the head, spouse, or co-head is at least 62, or a person with disabilities. The PHA must verify that the family meets the definition of an elderly or disabled family provided in the Eligibility chapter and as described in Chapter 7 (7-IV.A.) of this plan.

Qualified Expenses

To be eligible for the medical expenses deduction, the costs must qualify as medical expenses. See Chapter 6 (6-II.D.) for the PHA's policy on what counts as a medical expense.

Unreimbursed Expenses

To be eligible for the medical expenses deduction, the costs must not be reimbursed by another source.

Roseville Housing Authority Policy

The family will be required to certify that the medical expenses are not paid or reimbursed to the family from any source. If expenses are verified through a third party, the third party must certify that the expenses are not paid or reimbursed from any other source.

Expenses Incurred in Past Years

Roseville Housing Authority Policy

When anticipated costs are related to on-going payment of medical bills incurred in past years, RHA will verify:

• the anticipated repayment schedule; and

• the amounts paid in the past, and

• whether the amounts to be repaid have been deducted from the family's annual income in past years

7-IV.C. DISABILITY ASSISTANCE EXPENSES

Policies related to disability assistance expenses are found in 6-II.E. The amount of the deduction will be verified following the standard verification procedures described in Part I.

The PHA must comply with the Health Insurance Portability and Accountability Act (HIPAA) (Pub. L. 104-191, 110 Stat. 1936) and the Privacy Act of 1974 (Pub. L. 93-579, 88 Stat. 1896) when requesting documentation to determine unreimbursed auxiliary apparatus or attendance care costs. The PHA may not request documentation beyond what is sufficient to determine anticipated reasonable attendant care and auxiliary apparatus costs. Before placing bills and documentation in the tenant file, the PHA must redact all personally identifiable information [FR Notice 2/14/23].

Amount of Expense

Attendant Care

Roseville Housing Authority (RHA) Policy

RHA will accept written third-party documents provided by the family.

If family-provided documents are not available, RHA will provide a third-party

verification form directly to the care provider requesting the needed information.

Expenses for attendant care will be verified through:

Third-party verification form signed by the provider, when possible

Auxiliary Apparatus

Roseville Housing Authority (RHA) Policy Expenses

for auxiliary apparatus will be verified

In addition, the PHA must verify that:

- The family member for whom the expense is incurred is a person with disabilities (as described in 7-II.F above).
- The expense permits a family member, or members, to work (as described in 6-II.E.).
- The expense is not reimbursed from another source (as described in 6-II.E.).

Family Member is a Person with Disabilities

To be eligible for the disability assistance expense deduction, the costs must be incurred for attendant care or auxiliary apparatus expense associated with a person with disabilities. The PHA will verify that the expense is incurred for a person with disabilities (See 7-II.F.)

Family Member(s) Permitted to Work

The PHA must verify that the expenses claimed actually enable a family member, or members,

(including the person with disabilities) to work.

Roseville Housing Authority (RHA) Policy

RHA will request that the family provide third-party verification from a rehabilitation agency or knowledgeable medical professional indicating that the person with disabilities requires attendant care or an auxiliary apparatus to be employed, or that the attendant care or auxiliary apparatus enables another family member, or members, to work (See 6-II.E.).

If third-party verification has been attempted and is either unavailable or proves unsuccessful, the family must certify that the disability assistance expense frees a family member, or members (possibly including the family member receiving the assistance), to work.

Unreimbursed Expenses

To be eligible for the disability expenses deduction, the costs must not be reimbursed by another source.

Roseville Housing Authority (RHA) Policy

The family will be required to certify that attendant care or auxiliary apparatus expenses are not paid by or reimbursed to the family from any source.

7-IV.D. CHILD CARE EXPENSES

Policies related to childcare expenses are found in Chapter 6 (6-II.F). The amount of the deduction will be verified following the standard verification procedures described in Part I of this chapter. In addition, the PHA must verify that:

- The child is eligible for care (12 or younger).
- The costs claimed are not reimbursed.
- The costs enable a family member to work, actively seek work, or further their education.
- The costs are for an allowable type of childcare.
- The costs are reasonable

Eligible Child

To be eligible for the childcare deduction, the costs must be incurred for the care of a child under the age of 13. The PHA will verify that the child being cared for (including foster children) is under the age of 13 (See 7-II.C.).

Unreimbursed Expense

To be eligible for the childcare deduction, the costs must not be reimbursed by another source.

Roseville Housing Authority (RHA) Policy

The family (and the care provider) will be required to certify that the childcare expenses are not paid or reimbursed to the family from any source.

Pursuing an Eligible Activity

The PHA must verify that the family member(s) that the family has identified as being enabled to seek work, pursue education, or be gainfully employed, are actually pursuing those activities

Roseville Housing Authority (RHA) Policy

Information to be Gathered

RHA will verify information about how the schedule for the claimed activity relates to the hours of care provided, the time required for transportation, the time required for study (for students), the relationship of the family member(s) to the child, and any special needs of the child that might help determine which family member is enabled to pursue an eligible activity.

Seeking Work

Whenever possible, RHA will use documentation from a state or local agency that monitors work-related requirements (e.g., welfare or unemployment). In such cases the PHA will request verification from the agency of the member's job seeking efforts to date and require the family to submit to RHA any reports provided to the other agency.

In the event third-party verification is not available, RHA will provide the family with a form on which the family member must record job search efforts. RHA will review this information at each subsequent reexamination for which this deduction is claimed.

Furthering Education

RHA will ask that the academic or vocational educational institution verify that the person permitted to further his or her education by the childcare is enrolled and provide information about the timing of classes for which the person is registered

Gainful Employment

RHA may seek verification from the employer of the work schedule of the person who is permitted to work by the childcare. In cases in which two or more family members could be permitted to work, the work schedules for all relevant family members may be verified.

Allowable Type of Child Care

The type of care to be provided is determined by the family, but must fall within certain guidelines, as discussed in Chapter 6.

Roseville Housing Authority (RHA) Policy

RHA will verify that the type of childcare selected by the family is allowable, as described in Chapter 6 (6-II.F).

RHA will verify that the fees paid to the childcare provider cover only child care costs (e.g., no housekeeping services or personal services) and are paid only for the care of an eligible child (e.g., prorate costs if some of the care is provided for ineligible family members).

RHA will verify that the childcare provider is not an assisted family member. Verification will be made through the head of household's declaration of family members who are expected to reside in the unit.

Reasonableness of Expenses

Only reasonable childcare costs can be deducted.

Roseville Housing Authority (RHA) Policy

The actual costs the family incurs will be compared with RHA's established standards of reasonableness for the type of care in the locality to ensure that the costs are reasonable.

If the family presents a justification for costs that exceed typical costs in the area, RHA will request additional documentation, as required, to support a determination that the higher cost is appropriate.

EXHIBIT 7-1: SUMMARY OF DOCUMENTATION REQUIREMENTS

FOR NONCITIZENS [HCV GB, pp. 5-9 and 5-10]

<table>
<tr><td colspan="2">• All noncitizens claiming eligible status must sign a declaration of eligible immigrant status
• on a form acceptable to the PHA.
• Except for persons 62 or older, all noncitizens must sign a verification consent form
• • Additional documents are required based upon the person's statu</td></tr>
<tr><td colspan="2">Elderly Noncitizens
• A person 62 years of age or older who claims eligible immigration status also must provide proof of age such as birth certificate, passport, or documents showing receipt of SS old age benefits.</td></tr>
<tr><td colspan="2">All other Noncitizens
• Noncitizens that claim eligible immigration status also must present the applicable USCIS document. Acceptable USCIS documents are listed below.</td></tr>
<tr><td>• Form I-551 Alien Registration Receipt
• Card (for permanent resident aliens)
• Form I-94 Arrival-Departure Record
• annotated with one of the following:
• “Admitted as a Refugee Pursuant to
• Section 207”
• “Section 208” or “Asylum”
• “Section 243(h)” or “Deportation
• stayed by Attorney General”
• “Paroled Pursuant to Section 221 (d)(5) of the USCIS”</td><td>• Form I-94 Arrival-Departure Record with no annotation accompanied by:
• A final court decision granting asylum (but only if no appeal is taken);
• A letter from a USCIS asylum officer granting asylum (if application is filed on or after 10/1/90) or from a USCIS district director granting asylum (application filed before 10/1/90);
• A court decision granting withholding of deportation; or
• A letter from an asylum officer granting
• withholding or deportation (if application filed on or after 10/1/90).</td></tr>
<tr><td>• Form I-688 Temporary Resident Card
• annotated “Section 245A” or Section 210”</td><td>Form I-688B Employment Authorization Card annotated “Provision of Law 274a. 12(11)” or
“Provision of Law 274a.12”.</td></tr>
<tr><td colspan="2">A receipt issued by the USCIS indicating that an application for issuance of a replacement document in one of the above listed categories has been made and the applicant’s entitlement to the document has been verified; or
• Other acceptable evidence. If other documents are determined by the USCIS to constitute acceptable evidence of eligible immigration status, they will be announced by notice published in the Federal Register</td></tr>
</table>

Chapter 16

PROGRAM ADMINISTRATION

INTRODUCTION

This chapter discusses administrative policies and practices that are relevant to the activities covered in this plan. The policies are discussed in seven parts as described below:

Part I: Administrative Fee Reserve. This part describes the PHA's policies with regard to oversight of expenditures from its administrative fee reserve.

Part II: Setting Program Standards and Schedules. This part describes what Payment Standards are, and how they are updated, as well as how utility allowances are established and revised.

Part III: Informal Reviews and Hearings. This part outlines the requirements and procedures for informal reviews and hearings, and for informal hearings regarding citizenship status.

Part IV: Owner or Family Debts to the PHA. This part describes policies for recovery of monies that the PHA has overpaid on behalf of families, or to owners, and describes the circumstances under which the PHA will offer repayment agreements to owners and families. Also discussed are the consequences for failure to make payments in accordance with a repayment agreement.

Part V: Section 8 Management Assessment Program (SEMAP). This part describes what the SEMAP scores represent, how they are established, and how those scores affect a PHA.

Part VI: Record-Keeping. All aspects of the program involve certain types of record-keeping. This part outlines the privacy rights of applicants and participants and record retention policies the PHA will follow.

Part VII: Reporting and Record Keeping for Children with Environmental Intervention Blood Lead Level. This part describes the PHA's responsibilities for reporting, data collection, and record keeping relative to children with environmental intervention blood lead levels that are less than six years of age, and are receiving HCV assistance.

Part VIII: Determination of Insufficient Funding. This part describes the PHA's policies for determining if there is sufficient funding to issue vouchers, to approve moves to higher cost units or areas, and to continue assistance for all participant families.

Part IX: Violence against Women Act (VAWA): Notification, Documentation, Confidentiality. This part contains key terms used in VAWA and describes requirements related to notifying families and owners about their rights and responsibilities under VAWA; requesting documentation from victims of domestic violence, dating violence, sexual assault and stalking; and maintaining the confidentiality of information obtained from victims.

PART I: ADMINISTRATIVE FEE RESERVE [24 CFR 982.155]

The PHA will maintain administrative fee reserves, or unrestricted net assets (UNP) for the program to pay program administrative expenses in excess of administrative fees paid by HUD for a PHA fiscal year. HUD appropriations acts beginning with FFY 2004 have specified that administrative fee funding may be used only for activated related to the provision of HCV assistance, including related development activities. Administrative fees that remain in the UNP account from funding provided prior to 2004 may be used for "other housing purposes permitted by state and local law," in accordance with 24 CFR 982.155(b)(1).

If a PHA has not adequately administered its HCV program, HUD may prohibit use of funds in the UNP account and may direct the PHA to use funds in that account to improve administration of the program, for HCV HAP expenses, or to reimburse ineligible expenses in accordance with the regulation at 24 CFR 982.155(b)(3).

Roseville Housing Authority (RHA) Policy

Expenditures from the UNP account will be made in accordance with all applicable federal requirements.

PART II: SETTING PROGRAM STANDARDS AND SCHEDULES

16-II.A. OVERVIEW

Although many of the program's requirements are established centrally by HUD, the HCV program's regulations recognize that some flexibility is required to allow the PHA to adapt the program to local conditions. This part discusses how the PHA establishes and updates certain schedules and standards that are used to administer the program locally. Details about how these schedules are applied to individual families are provided in other chapters. The schedules and standards discussed here include:

- *Payment Standards*, which dictate the maximum subsidy a family can receive (application of the Payment Standards is discussed in Chapter 6); and
- *Utility Allowances*, which specify how a family's payment should be adjusted to account for tenant-paid utilities (application of utility allowances is discussed in Chapter 6).

Roseville Housing Authority (RHA) Policy

Copies of the Payment Standard and utility allowance schedules are available for review in RHA's office during normal business hours or online at www.roseville.ca.gov/rha.

Families, owners, and members of the public may submit written comments on the schedules discussed in this part, at any time, for consideration during the next revision cycle.

Establishing and updating the PHA passbook rate, which is used to calculate imputed income from assets, is covered in Chapter 6 (see Section 6-I.G.)

16-II.B. PAYMENT STANDARDS [24 CFR 982.503; HCV GB, Chapter 7]

The Payment Standard sets the maximum subsidy payment a family can receive from the PHA each month [24 CFR 982.505(a)]. Payment Standards are based on **F**air **M**arket **R**ents (FMRs) published annually by HUD. FMRs are set at a percentile within the rent distribution of standard quality rental housing units in each FMR area. For most jurisdictions FMRs are set at the 40th percentile of rents in the market area.

The PHA must establish a Payment Standard schedule that establishes Payment Standard amounts for each FMR area within the PHA's jurisdiction, and for each unit size within each of the FMR areas. For each unit size, the PHA may establish a single Payment Standard amount for the whole FMR area, or may set different Payment Standards for different parts of the FMR area. Unless HUD grants an exception, the PHA is required to establish a Payment Standard within a "basic range" established by HUD – between 90 and 110 percent of the published FMR for each unit size.

Updating Payment Standards

When HUD updates its FMRs, the PHA must update its Payment Standards if the standards are no longer within the basic range [24 CFR 982.503(b)]. HUD may require the PHA to make

further adjustments if it determines that rent burdens for assisted families in the PHA's jurisdiction are unacceptably high 24 CFR 982.503(g)].

Roseville Housing Authority (RHA) Policy

RHA will review the appropriateness of the Payment Standards when the new FMR is published, and at other times as deemed necessary. In addition to ensuring the Payment Standards are always within the "basic range" RHA will consider the following factors when determining whether an adjustment should be made to the Payment Standard schedule:

1. **Funding Availability: RHA will review the budget to determine the impact projected subsidy adjustments will have on funding available for the program and the number of families served. RHA will compare the number of families who could be served under revised Payment Standard amounts with the number assisted under current Payment Standard amounts.**
2. **Rent Burden of Participating Families: Rent burden will be determined by identifying the percentage of families, for each unit size, that are paying more than 30 percent of their monthly adjusted income as the family share. When 40 percent or more of families, for any given unit size, are paying more than 30 percent of adjusted monthly income as the family share, RHA may consider increasing the Payment Standard for the impacted bedroom size. In evaluating rent burdens, RHA will not include families renting a larger unit than their family voucher size.**
3. **Quality of Units Selected: RHA will review the quality of units selected by participant families when making the determination of the percent of income families are paying for housing, to ensure that Payment Standard increases are only made when needed for adequate quality housing.**

Changes to Payment Standard amounts will be effective as soon as possible based on when FMRs are published and when the analysis of Payment Standard is complete.

Exception Payment Standards [982.503(c)]

The PHA must request HUD approval to establish Payment Standards that are higher than the basic range. At HUD's sole discretion, HUD may approve a Payment Standard amount that is higher than the basic range for a designated part of the FMR area. HUD may approve an exception Payment Standard amount (in accordance with program requirements) for all units, or for all units of a given size, leased by program families in the exception area. Any PHA with jurisdiction in the exception area may use the HUD-approved exception Payment Standard amount. The total population of all HUD-approved exception areas in an FMR area may not include more than 50 percent of the population of the FMR area.

Unit-by-Unit Exceptions [24 CFR 982.503(c)(2)(ii), 24 CFR 982.505(d), Notice PIH 2010-26]

Unit-by-unit exceptions to the PHA's Payment Standards generally are not permitted. However, an exception may be made as a reasonable accommodation for a family that includes a person with disabilities. (See Chapter 2 for a discussion of reasonable accommodations.) This type of exception does not affect the PHA's Payment Standard schedule.

When needed as a reasonable accommodation, the PHA may make an exception to the Payment Standard without HUD approval if the exception amount does not exceed 110 percent of the applicable FMR. The PHA may request HUD approval for an exception to the Payment Standard for a particular family if the required amount falls between 110 and 120 percent of the FMR.

Roseville Housing Authority (RHA) Policy

A family that requires a reasonable accommodation may request a higher Payment Standard at the time the Request for Tenancy Approval (RFTA) is submitted. The family must document the need for the exception. In order to approve an exception, or request an exception from HUD, RHA must determine that:

1. **There is a shortage of affordable units that would be appropriate for the family;**
2. **The family's TTP would otherwise exceed 40 percent of adjusted monthly income; and**
3. **The rent for the unit is reasonable.**

"Success Rate" Payment Standard Amounts [24 CFR 982.503(e)]

If a substantial percentage of families have difficulty finding a suitable unit, the PHA may request a "success rate Payment Standard" that applies to the entire jurisdiction. If approved by HUD, a success rate Payment Standard allows the PHA to set its Payment Standards at 90-110 percent of a higher FMR (the 50th, rather than the 40th percentile FMR). To support the request, the PHA must demonstrate that during the most recent 6-month period for which information is available:

- Fewer than 75 percent of families who were issued vouchers became participants;
- The PHA had established Payment Standards for all unit sizes, and for the entire jurisdiction, at 110 percent of the published FMR; and
- The PHA had a policy of allowing voucher holders who made sustained efforts to locate units at least 90 days to search for a unit.

Although HUD approves the success rate Payment Standard for all unit sizes in the FMR area, the PHA may choose to adjust the Payment Standard for only some unit sizes in all, or a designated part, of the PHA's jurisdiction within the FMR area.

Decreases in the Payment Standard below the Basic Range [24 CFR 982.503(d)]

The PHA must request HUD approval to establish a Payment Standard amount that is lower than the basic range. At HUD's sole discretion, HUD may approve establishment of a Payment Standard lower than the basic range. HUD will not approve a lower Payment Standard if the family share for more than 40 percent of program participants exceeds 30 percent of adjusted monthly income.

16-II.C. UTILITY ALLOWANCES [24 CFR 982.517]

A PHA-established utility allowance schedule is used in determining family share and PHA subsidy. The PHA must maintain a utility allowance schedule for (1) all tenant-paid utilities, (2) the cost of tenant-supplied refrigerators and ranges, and (3) other tenant-paid housing services such as trash collection.

The utility allowance schedule must be determined based on the typical cost of utilities and services paid by energy-conservative households that occupy housing of similar size and type in the same locality.

The utility allowance must include the utilities and services that are necessary in the locality to provide housing that complies with housing quality standards. Costs for telephone, cable/satellite television, and internet services are not included in the utility allowance schedule.

In the utility allowance schedule, the PHA must classify utilities and other housing services according to the following general categories: space heating; air conditioning; cooking; water heating; water; sewer; trash collection; other electric; cost of tenant-supplied refrigerator; cost of tenant-supplied range; and other specified housing services.

The cost of each utility and housing service must be stated separately by unit size and type.

Air Conditioning

An allowance for air-conditioning must be provided when the majority of housing units in the market have central air-conditioning or are wired for tenant-installed air conditioners.

Roseville Housing Authority (RHA) Policy

RHA has included an allowance for air-conditioning in its schedule. Central air-conditioning or a portable, window or wall air conditioner must be present in a unit before RHA will apply this allowance to a family's rent and subsidy calculations. A swamp cooler does not qualify for the air-conditioning allowance.

Reasonable Accommodation

HCV program regulations require a PHA to approve a utility allowance amount higher than shown on the PHA's schedule if a higher allowance is needed as a reasonable accommodation for a family member with a disability. For example, if a family member with a disability requires such an accommodation, the PHA will approve an allowance for air-conditioning, even if the PHA has determined that an allowance for air-conditioning generally is not needed (See Chapter 2 for policies regarding the request and approval of reasonable accommodations).

Utility Allowance Revisions

The PHA must review its schedule of utility allowances each year, and must revise the schedule if there has been a change of 10 percent or more in any utility rate since the last time the allowance for that utility was revised.

The PHA must maintain information supporting its annual review of utility allowance and any revisions made in its utility allowance schedule.

PART III: INFORMAL REVIEWS AND HEARINGS

16-III.A. OVERVIEW

Both applicants and participants have the right to disagree with, and appeal, certain decisions of the PHA that may adversely affect them. PHA decisions that may be appealed by applicants and participants are discussed in this section.

The process for applicant appeals of PHA decisions is called the "informal review." For participants (or applicants denied admission because of citizenship issues), the appeal process is called an "informal hearing". PHAs are required to include informal review procedures for applicants, and informal hearing procedures for participants in their administrative plans [24 CFR 982.54(d)(12) and (13)].

16-III.B. INFORMAL REVIEWS

Informal reviews are provided for program applicants. An applicant is someone who has applied for admission to the program, but is not yet a participant in the program. Informal reviews are intended to provide a "minimum hearing requirement" [24 CFR 982.554], and need not be as elaborate as the informal hearing requirements ([*Federal Register* 60, no. 127 (3 July 1995):34690]).

Decisions Subject to Informal Review

The PHA must give an applicant the opportunity for an informal review of a decision denying assistance [24 CFR 982.554(a)]. Denial of assistance may include any or all of the following [24 CFR 982.552(a)(2)]:

- Denying listing on the PHA waiting list
- Denying or withdrawing a voucher
- Refusing to enter into a HAP contract or approve a lease
- Refusing to process or provide assistance under portability procedures

Informal reviews are *not* required for the following reasons [24 CFR 982.554(c)]:

- Discretionary administrative determinations by the PHA
- General policy issues or class grievances
- A determination of the family voucher size under the PHA subsidy standards
- A PHA determination not to approve an extension or suspension of a voucher term
- A PHA determination not to grant approval of the tenancy
- A PHA determination that the unit is not in compliance with the HQS
- A PHA determination that the unit is not in accordance with the HQS due to family size or composition

Roseville Housing Authority (RHA) Policy

RHA will only offer an informal review to applicants for whom assistance is being denied. Denial of assistance includes: denying placement on RHA waiting list; denying or withdrawing a voucher; refusing to enter into a HAP contract or approve a lease; refusing to process or provide assistance under portability procedures.

Notice to the Applicant [24 CFR 982.554(a)]

The PHA must give an applicant prompt notice of a decision denying assistance. The notice must contain a brief statement of the reasons for the PHA decision, and must also state that the applicant may request an informal review of the decision. The notice must describe how to obtain the informal review.

Scheduling an Informal Review

Roseville Housing Authority (RHA) Policy

A request for an informal review must be made in writing and delivered to RHA either in person or by first class mail, by the close of the business day, no later than 14 calendar days from the date of RHA's denial of assistance.

Informal Review Procedures [24 CFR 982.554(b)]

Roseville Housing Authority (RHA) Policy

The informal review must be conducted by a person other than the one who made or approved the decision under review and other than a subordinate of this person.

The informal review will consist of consideration of written information provided by the applicant regarding their objections to the decision of RHA. The applicant may also provide additional back-up documentation to be considered as part of their review.

Informal Review Decision [24 CFR 982.554(b)]

The PHA must notify the applicant of the PHA's final decision, including a brief statement of the reasons for the final decision.

Roseville Housing Authority (RHA) Policy

In rendering a decision, RHA will evaluate the following matters:

- **Whether or not the grounds for denial were stated factually in the notice to the family.**
- **The validity of grounds for denial of assistance. If the grounds for denial are not specified in the regulations, then the decision to deny assistance will be overturned.**
- **The validity of the evidence. RHA will evaluate whether the facts presented prove the grounds for denial of assistance. If the facts prove that there are grounds for denial, and the denial is required by HUD, RHA will uphold the decision to deny assistance.**
- **If the facts prove the grounds for denial, and the denial is discretionary, RHA will consider the recommendation of the person conducting the informal review in making the final decision whether to deny assistance.**

RHA will notify the applicant of the final decision, including a statement explaining the reason(s) for the decision. The notice will be mailed within 14 calendar days of the informal review, to the applicant.

If the decision to deny assistance is overturned as a result of the informal review, processing of their application will resume.

If the family fails to provide information needed to complete their informal review, the denial of placement on the wait list or admission will stand and the family will be notified.

16-III.C. INFORMAL HEARINGS FOR PARTICIPANTS [24 CFR 982.555]

PHAs must offer an informal hearing for certain PHA determinations relating to the individual circumstances of a participant family. A participant is defined as a family that has been admitted to the PHA's HCV program and is currently assisted in the program. The purpose of the informal hearing is to consider whether the PHA's decisions related to the family's circumstances are in accordance with the law, HUD regulations and PHA policies.

The PHA is not permitted to terminate a family's assistance until the time allowed for the family to request an informal hearing has elapsed, and any requested hearing has been completed. Termination of assistance for a participant may include any or all of the following:

- Refusing to enter into a HAP contract or approve a lease
- Terminating housing assistance payments under an outstanding HAP contract
- Refusing to process or provide assistance under portability procedures

Decisions Subject to Informal Hearing

Circumstances for which the PHA must give a participant family an opportunity for an informal hearing are as follows:

- A determination of the family's annual or adjusted income, and the use of such income to compute the housing assistance payment
- A determination of the appropriate utility allowance (if any) for tenant-paid utilities from the PHA utility allowance schedule
- A determination of the family unit size under the PHA's subsidy standards
- A determination to terminate assistance for a participant family because of the family's actions or failure to act
- A determination to terminate assistance because the participant has been absent from the assisted unit for longer than the maximum period permitted under PHA policy and HUD rules
- A determination to terminate a family's Family Self Sufficiency contract, withhold supportive services, or propose forfeiture of the family's escrow account [24 CFR 984.303(i)]

Circumstances for which an informal hearing is not required are as follows:

- Discretionary administrative determinations by the PHA
- General policy issues or class grievances
- Establishment of the PHA schedule of utility allowances for families in the program
- A PHA determination not to approve an extension or suspension of a voucher term
- A PHA determination not to approve a unit or tenancy
- A PHA determination that a unit selected by the applicant is not in compliance with the HQS
- A PHA determination that the unit is not in accordance with HQS because of family size
- A determination by the PHA to exercise or not to exercise any right or remedy against an owner under a HAP contract

Roseville Housing Authority (RHA) Policy

RHA will offer participants the opportunity for an informal hearing when required by the Federal regulations as cited above.

Informal Hearing Procedures

Notice to the Family **[24 CFR 982.555(c)]**

When the PHA makes a decision that is subject to informal hearing procedures, the PHA must inform the family of its right to an informal hearing at the same time that it informs the family of the decision.

For decisions related to the family's annual or adjusted income, the determination of the appropriate utility allowance, and the determination of the family voucher size, the PHA must notify the family that they may ask for an explanation of the basis of the determination, and that if they do not agree with the decision, they may request an informal hearing on the decision.

For decisions related to the termination of the family's assistance, or the denial of a family's request for an exception to the PHA's subsidy standards, the notice must contain a brief statement of the reasons for the decision, a statement that if the family does not agree with the decision, the family may request an informal hearing on the decision, and a statement of the deadline for the family to request an informal hearing.

Roseville Housing Authority (RHA) Policy

In cases where RHA makes a decision for which an informal hearing must be offered, the notice to the family will include all of the following:

1. **The proposed action or decision of RHA;**
2. **The date the proposed action will take place;**
3. **A statement of the family's right to an explanation of the basis for RHA's decision;**

4. **A statement that if the family does not agree with the decision the family may request an informal hearing of the decision; and**
5. **A deadline for the family to request the informal hearing.**

Scheduling an Informal Hearing [24 CFR 982.555(d)]

When an informal hearing is required, the PHA must proceed with the hearing in a reasonably expeditious manner upon the request of the family.

Roseville Housing Authority (RHA) Policy

A request for an informal hearing must be made in writing and delivered to RHA either in person or by first class mail, by the close of the business day, no later than 14 calendar days from the date of RHA's decision or notice to terminate assistance.

RHA will schedule and send written notice of the informal hearing to the family when the hearing has been scheduled. The family may request to reschedule a hearing for "good cause", or if it is needed as a reasonable accommodation for a person with disabilities. "Good cause" is defined as an unavoidable conflict which seriously affects the health, safety or welfare of the family. Requests to reschedule a hearing must be made in writing prior to the hearing date. At its discretion, RHA may request documentation of the "good cause" prior to rescheduling the hearing.

If the appellant does not appear, or appears later than ten minutes after the scheduled time, and was unable to reschedule the hearing in advance due to the nature of the conflict, the family must contact RHA within 24 hours of the scheduled hearing date, excluding weekends and holidays. RHA will reschedule the hearing only if the family can show good cause for the failure to appear, or if it is needed as a reasonable accommodation for a person with disabilities. If there was no good cause for failing to appear, the appellant forfeits his right to a hearing.

Pre-Hearing Right to Discovery [24 CFR 982.555(e)]

Participants and the PHA are permitted pre-hearing discovery rights. The family must be given the opportunity to examine before the hearing any PHA documents that are directly relevant to the hearing. The family must be allowed to copy any such documents at their own expense. If the PHA does not make the document available for examination on request of the family, the PHA may not rely on the document at the hearing.

The PHA hearing procedures may provide that the PHA must be given the opportunity to examine at the PHA offices before the hearing, any family documents that are directly relevant to the hearing. The PHA must be allowed to copy any such document at the PHA's expense. If the family does not make the document available for examination on request of the PHA, the family may not rely on the document at the hearing.

For the purpose of informal hearings, *documents* include records and regulations.

Roseville Housing Authority (RHA) Policy

The family must request discovery of RHA documents no later than 12:00 p.m. on the business day prior to the scheduled hearing date.

RHA must be given an opportunity to examine at the RHA offices before the hearing any family documents that are directly relevant to the hearing. Any documents presented by the family at the time of the hearing may delay the timely rendering of the Hearing Officer's decision; however, the documents will be admitted for consideration, just as Witness testimony will be considered at the time of the hearing.

Participant's Right to Bring Counsel [24 CFR 982.555(e)(3)]

At its own expense, the family may be represented by a lawyer or other representative at the informal hearing.

Roseville Housing Authority (RHA) Policy

If the appellant will be represented by an attorney, they must notify RHA within 7 days from the date of the hearing appointment letter so that RHA can arrange to have legal representation. If necessary the hearing may be rescheduled to a later date to accommodate the attorney for RHA.

Informal Hearing Officer [24 CFR 982.555(e)(4)]

Informal hearings will be conducted by a person or persons approved by the PHA, other than the person who made or approved the decision or a subordinate of the person who made or approved the decision.

Roseville Housing Authority (RHA) Policy

An audio recording of the hearing may be made to assist the Hearing Officer in preparing the hearing decision. If a recoding has been made, once the hearing decision has been completed, the audio file will be destroyed. An exception to this policy would be if a copy of the recording is requested by the client at the hearing. When a copy of the recording is provided to the client, a copy will also be retained in the client file.

Attendance at the Informal Hearing

Roseville Housing Authority (RHA) Policy

Hearings will be attended by a hearing officer, the participant and applicable RHA staff and may be attended by:

- **Witnesses for RHA and/or the participant**
- **The participant's counsel or other representative**
- **Any other person approved by RHA as a reasonable accommodation for a person with a disability**

Conduct at Hearings

The person who conducts the hearing may regulate the conduct of the hearing in accordance with the PHA's hearing procedures [24 CFR 982.555(4)(ii)].

Roseville Housing Authority (RHA) Policy

The Hearing Officer is responsible to manage the order of business and to ensure that hearings are conducted in a professional and businesslike manner. Attendees

are expected to comply with all hearing procedures established by the Hearing Officer and guidelines for conduct. Any person demonstrating disruptive, abusive or otherwise inappropriate behavior will be excused from the hearing at the discretion of the Hearing Officer.

Evidence **[24 CFR 982.555(e)(5)]**

The PHA and the family must be given the opportunity to present evidence and question any witnesses. In general, all evidence is admissible at an informal hearing. Evidence may be considered without regard to admissibility under the rules of evidence applicable to judicial proceedings.

Roseville Housing Authority (RHA) Policy

Any evidence to be considered by the Hearing Officer must be presented at the time of the hearing. There are four categories of evidence.

1. **Oral evidence: the testimony of witnesses**
2. **Documentary evidence: a writing which is relevant to the case, for example, a letter written to RHA. Writings include all forms of recorded communication or representation, including letters, words, pictures, sounds, videotapes or symbols or combinations thereof.**
3. **Demonstrative evidence: Evidence created specifically for the hearing and presented as an illustrative aid to assist the hearing officer, such as a model, a chart or other diagram.**
4. **Real evidence: A tangible item relating directly to the case.**

Hearsay Evidence **is evidence of a statement that was made other than by a witness while testifying at the hearing and that is offered to prove the truth of the matter. Even though evidence, including hearsay, is generally admissible, hearsay evidence alone cannot be used as the sole basis for the hearing officer's decision.**

If either RHA or the family fail to comply with the discovery requirements described above, the hearing officer will refuse to admit such evidence.

Other than the failure of a party to comply with discovery, the hearing officer has the authority to overrule any objections to evidence.

Hearing Officer's Decision **[24 CFR 982.555(e)(6)]**

The person who conducts the hearing must issue a written decision, stating the reasons for the decision. Factual determinations relating to the individual circumstances of the family must be based on a preponderance of evidence presented at the hearing. A copy of the hearing decision must be furnished promptly to the family.

Roseville Housing Authority (RHA) Policy

In rendering a decision, the Hearing Officer will consider the following matters:

1. **RHA Notice to the Family: The Hearing Officer will determine if the reasons for RHA's decision are factually stated in the Notice.**

2. **<u>Discovery</u>: The hearing officer will determine if RHA and the family were given the opportunity to examine any relevant documents in accordance with RHA policy.**
3. **<u>RHA Evidence to Support RHA Decision</u>: The evidence consists of the facts presented. The Hearing Officer will evaluate the facts to determine if they support RHA's conclusion.**
4. **<u>Validity of Grounds for Termination of Assistance (when applicable)</u>: The Hearing Officer will determine if the termination of assistance is for one of the grounds specified in the HUD regulations and RHA policies. If the grounds for termination are not specified in the regulations or in compliance with RHA policies, then the decision of RHA will be overturned.**

The Hearing Officer will issue a written decision to the family and RHA no later than 14 calendar days after the hearing. The report will contain the following information:

- **<u>Hearing information</u>:**
  1. **Name of the participant;**
  2. **Date, time and place of the hearing;**
  3. **Name of the Hearing Officer;**
  4. **The hearing decision and the basis for the decision.**
     - **If the decision is to uphold the proposed termination, the date of termination will be 45 days from the date of the hearing decision letter.**

Procedures for Rehearing or Further Hearing

<u>Roseville Housing Authority (RHA) Policy</u>

The Hearing Officer may ask the family for additional information and/or might adjourn the hearing in order to reconvene at a later date, before reaching a decision. If the family misses an appointment or deadline ordered by the hearing officer, the action of RHA will take effect and another hearing will not be granted.

PHA Notice of Final Decision [24 CFR 982.555(f)]

The PHA is not bound by the decision of the Hearing Officer for matters in which the PHA is not required to provide an opportunity for a hearing, decisions that exceed the authority of the Hearing Officer, decisions that conflict with or contradict HUD regulations, requirements, or are otherwise contrary to federal, state or local laws.

If the PHA determines it is not bound by the Hearing Officer's decision in accordance with HUD regulations, the PHA must promptly notify the family of the determination and the reason for the determination.

<u>Roseville Housing Authority (RHA) Policy</u>

RHA will mail the notice of final decision to the participant and their representative. This notice will be sent by first-class mail, postage pre-paid with an affidavit of

mailing enclosed. A copy of the notice of final decision along with the original proof mailing will be maintained in RHA's file.

16-III.D. HEARING AND APPEAL PROVISIONS FOR NON-CITIZENS [24 CFR 5.514]

Denial or termination of assistance based on immigration status is subject to special hearing and notice rules. Applicants who are denied assistance due to immigration status are entitled to an informal hearing, not an informal review.

Assistance to a family may not be delayed, denied, or terminated on the basis of immigration status at any time prior to a decision under the United States Citizenship and Immigration Services (USCIS) appeal process. Assistance to a family may not be terminated or denied while the PHA hearing is pending, but assistance to an applicant may be delayed pending the completion of the informal hearing.

A decision against a family member, issued in accordance with the USCIS appeal process or the PHA informal hearing process, does not preclude the family from exercising the right, that may otherwise be available, to seek redress directly through judicial procedures.

Notice of Denial or Termination of Assistance [24 CFR 5.514(d)]

The notice of denial or termination of assistance for noncitizens must advise the family:

- That financial assistance will be denied or terminated, and provide a brief explanation of the reasons for the proposed denial or termination of assistance.
- The family may be eligible for proration of assistance.
- In the case of a participant, the criteria and procedures for obtaining relief under the provisions for preservation of families [24 CFR 5.514 and 5.518].
- That the family has a right to request an appeal to the USCIS of the results of secondary verification of immigration status and to submit additional documentation or explanation in support of the appeal.
- That the family has a right to request an informal hearing with the PHA either upon completion of the USCIS appeal or in lieu of the USCIS appeal.
- For applicants, assistance may not be delayed until the conclusion of the USCIS appeal process, but assistance may be delayed during the period of the informal hearing process.

USCIS Appeal Process [24 CFR 5.514(e)]

When the PHA receives notification that the USCIS secondary verification failed to confirm eligible immigration status, the PHA must notify the family of the results of the USCIS verification. The family will have 30 calendar days from the date of the notification to request an appeal of the USCIS results. The request for appeal must be made by the family in writing directly to the USCIS. The family must provide the PHA with a copy of the written request for appeal and the proof of mailing.

Roseville Housing Authority (RHA) Policy

RHA will notify the family in writing of the results of the USCIS secondary verification within 14 calendar days of receiving the results.

The family must provide RHA with a copy of the written request for appeal and proof of mailing within 14 calendar days of sending the request to the USCIS.

The family must forward to the designated USCIS office any additional documentation or written explanation in support of the appeal. This material must include a copy of the USCIS document verification request (used to process the secondary request) or such other form specified by the USCIS, and a letter indicating that the family is requesting an appeal of the USCIS immigration status verification results.

The USCIS will notify the family, with a copy to the PHA, of its decision. When the USCIS notifies the PHA of the decision, the PHA must notify the family of its right to request an informal hearing.

Roseville Housing Authority (RHA) Policy

RHA will send written notice to the family of its right to request an informal hearing within 14 calendar days of receiving notice of the USCIS decision regarding the family's immigration status.

Informal Hearing Procedures for Applicants [24 CFR 5.514(f)]

After notification of the USCIS decision on appeal, or in lieu of an appeal to the USCIS, the family may request that the PHA provide a hearing. The request for a hearing must be made either within 30 days of receipt of the PHA notice of denial, or within 30 days of receipt of the USCIS appeal decision.

The informal hearing procedures for applicant families are described below.

Informal Hearing Officer

The PHA must provide an informal hearing before an impartial individual, other than a person who made or approved the decision under review, and other than a person who is a subordinate of the person who made or approved the decision.

Evidence

The family must be provided the opportunity to examine and copy at the family's expense, at a reasonable time in advance of the hearing, any documents in the possession of the PHA pertaining to the family's eligibility status, or in the possession of the USCIS (as permitted by USCIS requirements), including any records and regulations that may be relevant to the hearing.

The family must be provided the opportunity to present evidence and arguments in support of eligible status. Evidence may be considered without regard to admissibility under the rules of evidence applicable to judicial proceedings.

The family must also be provided the opportunity to refute evidence relied upon by the PHA, and to confront and cross-examine all witnesses on whose testimony or information the PHA relies.

Representation and Interpretive Services

The family is entitled to be represented by an attorney or other designee, at the family's expense, and to have such person make statements on the family's behalf.

Roseville Housing Authority (RHA) Policy

If the appellant will be represented by an attorney, they must notify RHA within 7 days from the date of the hearing appointment letter so that RHA can arrange to have legal representation. If necessary the hearing may be rescheduled to a later date to accommodate the attorney for RHA.

The family is entitled to arrange for an interpreter to attend the hearing, at the expense of the family, or the PHA, as may be agreed upon by the two parties.

Roseville Housing Authority (RHA) Policy

If interpretation services are provided by RHA, they may be conducted via conference call versus onsite language interpretation.

Recording of the Hearing

The family is entitled to have the hearing recorded by audiotape. The PHA may, but is not required to provide a transcript of the hearing.

Hearing Decision

The PHA must provide the family with a written final decision, based solely on the facts presented at the hearing, within 14 calendar days of the date of the informal hearing. The decision must state the basis for the decision.

Informal Hearing Procedures for Residents [24 CFR 5.514(f)]

After notification of the USCIS decision on appeal, or in lieu of an appeal to the USCIS, the family may request that the PHA provide a hearing. The request for a hearing must be made either within 30 days of receipt of the PHA notice of termination, or within 30 days of receipt of the USCIS appeal decision.

For the informal hearing procedures that apply to participant families whose assistance is being terminated based on immigration status, see Section 16-III.C.

Retention of Documents [24 CFR 5.514(h)]

The PHA must retain for a minimum of 5 years the following documents that may have been submitted to the PHA by the family, or provided to the PHA as part of the USCIS appeal or the PHA informal hearing process:

- The application for assistance
- The form completed by the family for income reexamination
- Photocopies of any original documents, including original USCIS documents
- The signed verification consent form
- The USCIS verification results
- The request for a USCIS appeal
- The final USCIS determination
- The request for an informal hearing
- The final informal hearing decision

PART IV: OWNER OR FAMILY DEBTS TO THE PHA

16-IV.A. OVERVIEW

PHAs are required to include in the Administrative Plan, policies concerning repayment by a family of amounts owed to the PHA [24 CFR 982.54]. This part describes the PHA's policies for recovery of monies owed to the PHA by families or owners.

Roseville Housing Authority (RHA) Policy

When an action or inaction of an owner or participant family results in the overpayment of housing assistance, RHA holds the owner or participant family liable to return any overpayments to RHA.

RHA will enter into repayment agreements in accordance with the policies contained in this part as a means to recover overpayments.

When an owner or ~~participant~~ participant family refuses to repay monies owed to RHA, RHA will utilize other available collection alternatives including, but not limited to, the following:

- **Collection agencies**
- **Small claims court**
- **Civil law suit**
- **State income tax off-set program**

16-IV.B. REPAYMENT POLICY

Owner Debts to the PHA

Roseville Housing Authority (RHA) Policy

- **Any amount due to RHA by an owner must be repaid by the owner within 30 calendar days of RHA determination of the debt.**
- **If the owner fails to repay the debt within the required time frame and is entitled to future HAP payments, RHA will reduce the future HAP payments by the amount owed until the debt is paid in full.**
- **If the owner refuses to repay the debt, RHA will ban the owner from future participation in the program and pursue other means of collection.**

Family Debts to the PHA

Roseville Housing Authority (RHA) Policy

- **Any amount due to RHA by an HCV participant must be repaid by the family. If the family is unable to repay the debt within 30 days, RHA may offer to enter into a Repayment Agreement in accordance with RHA's policies.**

- **If the participant family refuses to repay the debt, enter into a Repayment Agreement, or breaches a Repayment Agreement, RHA will terminate the assistance upon notification to the family and pursue other means of collection.**

Repayment Agreement [24 CFR 792.103]

The term *Repayment Agreement* refers to a formal written document signed by a ~~tenant~~ participant family or owner and provided to the PHA in which a ~~tenant~~ participant family or owner acknowledges a debt in a specific amount and agrees to repay the amount due at specific time periods.

Repayment Agreement Guidelines

Roseville Housing Authority (RHA) Policy

- **When calculating a Repayment Agreement, unreported income will begin to be counted the month following the start of the unreported income.**
- **If the unreported income, calculated with all other income, does not result in an increase of >$400 per month, a Repayment Agreement is not required as the RHA would not have processed an interim reexamination for the income had it been reported.**
- **If the unreported income, calculated with all other income, does not initially result in an increase of >$400 per month, the Repayment Agreement calculations will begin the first month that the change in income results in an increase of income of >$400 per month.**
- **If during the calculation of the Repayment Agreement there are some months of underpaid HAP, those months of underpaid HAP will be included in the calculations to determine the total amount of overpaid HAP. If the final result is an underpayment of HAP, there will be no Repayment Agreement, and there will be no payment of the underpaid HAP that resulted from unreported income.**
- **The RHA 30 day's notice of increased tenant rent is forfeited for failing to report the increased income.**

Payment Thresholds

Roseville Housing Authority (RHA) Policy

The amount of monthly payment will be based on amount owed as follows:

- **The minimum monthly payment will be $50.00**
- **All amounts owed must be paid within 3 years**
- **All payment amounts will be rounded up to the nearest $5.00**

Written requests will be considered to reduce monthly payments as cited above in cases of hardship.

Execution of the Agreement

Roseville Housing Authority (RHA) Policy

All adult household members must sign the Repayment Agreement. RHA will not consider a Repayment Agreement valid or enforceable until all required signatures have been obtained.

~~The head of household and spouse/co-head (if applicable) must sign the Repayment~~ Agreement.

Due Dates

Roseville Housing Authority (RHA) Policy

All payments are due by the close of business on the first day of the month. If the first day of the month does not fall on a business day, the due date is the close of business on the next business day.

Non-Payment

Roseville Housing Authority (RHA) Policy

Payments under a repayment agreement are due on the 1st of each month. If the full payment has not been received by the 10th of the month the payment will be considered late and a $3~~1~~0 late fee will be assessed. RHA will send ~~the family~~ a delinquency notice giving the family 14 calendar days to make the late payment and a reminder of the $~~1~~30 late fee. ~~If the payment and~~Failure to submit the required payment and late fee ~~are not received~~ by the ~~due date of~~deadline stated in the delinquency notice ~~it~~ will ~~be considered~~constitute a breach of the agreement and RHA will propose termination of the family's current assistance and the repayment agreement will be ~~sent~~ referred to the City Attorney for collections.

If a payment is returned due to non-sufficient funds (NSF), a $30 NSF fee will be assessed and must be paid in addition to all other amounts owed. Following an NSF occurrence, RHA will no longer accept personal checks from the participant and will require all future payments to be made by money order or cashier's check.

A third late payment will cause the balance of the repayment agreement to become due and payable. Notice will be sent to the family that the balance of the repayment agreement is due and payable in full in order to continue to receive rental assistance. If payment in full is not received within 30 days, RHA will propose termination of the family's rental assistance and the repayment agreement will be sent to the City Attorney for collections.

No Offer of Repayment Agreement

Roseville Housing Authority (RHA) Policy

RHA will not enter into a Repayment Agreement if:

1. There is already a Repayment Agreement in place with the family;
2. There has previously been an overpayment of HAP for the same reason; or
3. Monies owed are a result of intentional fraud or omission.

PART V: SECTION 8 MANAGEMENT ASSESSMENT PROGRAM (SEMAP)

16 V.A. OVERVIEW

The Section 8 Management Assessment Program (SEMAP) is a tool that allows HUD to measure PHA performance in key areas to ensure program integrity and accountability. SEMAP scores translate into a rating for each PHA as high performing, standard, or troubled. Scores on individual SEMAP indicators, as well as overall SEMAP ratings, can affect the PHA in several ways.

- High-performing PHAs can be given a competitive advantage under notices of funding availability [24 CFR 985.103].
- PHAs with deficiencies on one or more indicators are required to correct the deficiencies and report to HUD [24 CFR 985.106].
- PHAs with an overall rating of "troubled" are subject to additional HUD oversight, including on-site reviews by HUD staff, a requirement to develop a corrective action plan, and monitoring to ensure the successful implementation of the corrective action plan. In addition, PHAs that are designated "troubled" may not use any part of the administrative fee reserve for other housing purposes [24 CFR 985.107].
- HUD may determine that a PHA's failure to correct identified SEMAP deficiencies or to prepare and implement a corrective action plan required by HUD constitutes a default under the ACC [24 CFR 985.109].

16-V.B. SEMAP CERTIFICATION [24 CFR 985.101]

PHAs must submit the HUD-required SEMAP certification form within 60 calendar days after the end of its fiscal year. The certification must be approved by PHA board resolution and signed by the PHA executive director. If the PHA is a unit of local government or a state, a resolution approving the certification is not required, and the certification must be executed by the Section 8 program director.

PHAs with less than 250 voucher units are only required to be assessed every other PHA fiscal year. HUD will assess such PHAs annually if the PHA elects to have its performance assessed on an annual basis; or is designated as "troubled" [24 CFR 985.105].

Failure of a PHA to submit its SEMAP certification within the required time frame will result in an overall performance rating of "troubled."

A PHA's SEMAP certification is subject to HUD verification by an on-site confirmatory review at any time.

Upon receipt of the PHA's SEMAP certification, HUD will rate the PHA's performance under each SEMAP indicator in accordance with program requirements.

HUD Verification Method

Several of the SEMAP indicators are scored based on a review of a quality control sample selected for this purpose. The PHA or the Independent Auditor must select an unbiased sample

that provides an adequate representation of the types of information to be assessed, in accordance with SEMAP requirements [24 CFR 985.2].

If the HUD verification method for the indicator relies on data in the Form-50058 module (formerly known as MTCS) in the PIH Information Center (PIC), and HUD determines that those data are insufficient to verify the PHA's certification on the indicator due to the PHA's failure to adequately report family data, HUD will assign a zero rating for the indicator [24 CFR 985.3].

16-V.C. SEMAP INDICATORS [24 CFR 985.3 and form HUD-52648]

The table below lists each of the SEMAP indicators, contains a description of each indicator, and explains the basis for points awarded under each indicator.

A PHA that expends less than $300,000 in Federal awards and whose Section 8 programs are not audited by an independent auditor, is not be rated under SEMAP indicators 1-7.

SEMAP Indicators
Indicator 1: Selection from the waiting list **Maximum Score: 15** • This indicator shows whether the PHA has written policies in its Administrative Plan for selecting applicants from the waiting list and whether the PHA follows these policies when selecting applicants for admission from the waiting list. • Points are based on the percent of families that are selected from the waiting list in accordance with the PHA's written policies, according to the PHA's quality control sample.
Indicator 2: Rent reasonableness **Maximum Score: 20** • This indicator shows whether the PHA has and implements a reasonable written method to determine and document for each unit leased that the rent to owner is reasonable based on current rents for comparable unassisted units • Points are based on the percent of units for which the PHA follows its written method to determine reasonable rent and has documented its determination that the rent to owner is reasonable, according to the PHA's quality control sample.
Indicator 3: Determination of adjusted income **Maximum Score: 20** • This indicator measures whether the PHA verifies and correctly determines adjusted income for each assisted family, and where applicable, uses the appropriate utility allowances for the unit leased in determining the gross rent. • Points are based on the percent of files that are calculated and verified correctly, according to the PHA's quality control sample.
Indicator 4: Utility allowance schedule **Maximum Score: 5** • This indicator shows whether the PHA maintains an up-to-date utility allowance schedule.

- Points are based on whether the PHA has reviewed the utility allowance schedule and adjusted it when required, according to the PHA's certification.

Indicator 5: HQS quality control inspections
Maximum Score: 5

- This indicator shows whether a PHA supervisor reinspects a sample of units under contract during the PHA fiscal year, which meets the minimum sample size requirements for quality control of HQS inspections.
- Points are based on whether the required quality control reinspections were completed, according to the PHA's certification.

Indicator 6: HQS enforcement
Maximum Score: 10

- This indicator shows whether, following each HQS inspection of a unit under contract where the unit fails to meet HQS, any cited life-threatening deficiencies are corrected within 24 hours from the inspection and all other deficiencies are corrected within no more than 30 calendar days from the inspection or any PHA-approved extension.
- Points are based on whether the PHA corrects all HQS deficiencies in accordance with required time frames, according to the PHA's certification.

Indicator 7: Expanding housing opportunities
Maximum Points: 5

- Only applies to PHAs with jurisdiction in metropolitan FMR areas.
- This indicator shows whether the PHA has adopted and implemented a written policy to encourage participation by owners of units located outside areas of poverty or minority concentration; informs voucher holders of the full range of areas where they may lease units both inside and outside the PHA's jurisdiction; and supplies a list of landlords or other parties who are willing to lease units or help families find units, including units outside areas of poverty or minority concentration.
- Points are based on whether the PHA has adopted and implemented written policies in accordance with SEMAP requirements, according to the PHA's certification.

Indicator 8: FMR limit and Payment Standards
Maximum Points: 5 points

- This indicator shows whether the PHA has adopted a Payment Standard schedule that establishes Payment Standard amounts by unit size for each FMR area in the PHA's jurisdiction, that are within the basic range of 90 to 110 percent of the published FMR.
- Points are based on whether the PHA has appropriately adopted a Payment Standard schedule(s), according to the PHA's certification.

Indicator 9: Annual reexaminations
Maximum Points: 10

- This indicator shows whether the PHA completes a reexamination for each participating family at least every 12 months.
- Points are based on the percent of reexaminations that are more than 2 months overdue, according to data from PIC.

Indicator 10: Correct tenant rent calculations
Maximum Points: 5

- This indicator shows whether the PHA correctly calculates the family's share of the rent to owner.
- Points are based on the percent of correct calculations of family share of the rent, according to data from PIC.

Indicator 11: Pre-contract HQS inspections
Maximum Points: 5

- This indicator shows whether newly leased units pass HQS inspection on or before the effective date of the assisted lease and HAP contract.
- Points are based on the percent of newly leased units that passed HQS inspection prior to the effective date of the lease and HAP contract, according to data from PIC.

Indicator 12: Annual HQS inspections
Maximum Points: 10

- This indicator shows whether the PHA inspects each unit under contract at least annually.
- Points are based on the percent of annual HQS inspections of units under contract that are more than 2 months overdue, according to data from PIC.

Indicator 13: Lease-up
Maximum Points: 20 points

- This indicator shows whether the PHA enters HAP contracts for the number of units or funding reserved under ACC for at least one year.
- Points are based on the percent of units leased during the last completed PHA fiscal year, or the percent of allocated budget authority that has been expended by the PHA, according to data from the PHA's last year-end operating statement that is recorded in HUD's accounting system.

Indicator 14: Family self-sufficiency (FSS) enrollment and escrow account balances
Maximum Points: 10

- Only applies to PHAs with mandatory FSS programs.
- This indicator shows whether the PHA has enrolled families in the FSS program as required, and measures the percent of current FSS participants that have had increases in earned income which resulted in escrow account balances.
- Points are based on the percent of mandatory FSS slots that are filled and the percent of families with escrow account balances, according to data from PIC.

Success Rate of Voucher Holders
Maximum Points: 5

- Only applies to PHAs that have received approval to establish success rate Payment Standard amounts, and isn't effective until the second full PHA fiscal year following the date of HUD approval of success rate Payment Standard amounts.
- This indicator shows whether voucher holders were successful in leasing units with voucher assistance.

- Points are based on the percent of families that were issued vouchers, and that became participants in the voucher program.

Deconcentration Bonus Indicator
Maximum Points: 5

- Submission of data for this indicator is mandatory for a PHA using one or more Payment Standard amount(s) that exceed(s) 100 percent of the published FMR set at the 50 percentile rent, starting with the second full PHA fiscal year following initial use of Payment Standard amounts based on the FMRs set at the 50th percentile.
- Additional points are available to PHAs that have jurisdiction in metropolitan FMR areas and that choose to submit the required data.
- Points are based on whether the data that is submitted meets the requirements for bonus points.

PART VI: RECORD KEEPING

16-VI.A. OVERVIEW

The PHA must maintain complete and accurate accounts and other records for the program in accordance with HUD requirements, in a manner that permits a speedy and effective audit. All such records must be made available to HUD or the Comptroller General of the United States upon request.

In addition, the PHA must ensure that all applicant and participant files are maintained in a way that protects an individual's privacy rights.

16-VI.B. RECORD RETENTION [24 CFR 982.158]

During the term of each assisted lease, and for at least three years thereafter, the PHA must keep:

- A copy of the executed lease;
- The HAP contract; and
- The application from the family.

In addition, the PHA must keep the following records for at least three years:

- Records that provide income, racial, ethnic, gender, and disability status data on program applicants and participants;
- An application from each ineligible family and notice that the applicant is not eligible;
- HUD-required reports;
- Unit inspection reports;
- Lead-based paint records as required by 24 CFR 35, Subpart B.
- Accounts and other records supporting PHA budget and financial statements for the program;
- Records to document the basis for PHA determination that rent to owner is a reasonable rent (initially and during the term of a HAP contract); and
- Other records specified by HUD.

If an informal hearing to establish a family's citizenship status is held, longer retention requirements apply for some types of documents. For specific requirements, see Section 16-III.D., Retention of Documents.

16-VI.C. RECORDS MANAGEMENT

PHAs must maintain applicant and participant files and information in accordance with the regulatory requirements described below.

Roseville Housing Authority (RHA) Policy

All applicant and participant information will be kept in a secure location and access will be limited to authorized RHA staff.

RHA staff will not discuss personal family information unless there is a business reason to do so. Inappropriate discussion of family information or improper disclosure of family information by staff will result in disciplinary action.

Copies of Documents

Roseville Housing Authority (RHA) Policy

If an applicant or participant request copies of file documents, RHA will determine if they are able to provide the requested documents. Certain information may only be released to the applicable household member, such as copies of adult household member's social security card, driver's license, EIV information or other documents containing personal information. When copies are provided, the first 9 copies will be provided at no charge. Additional copies will be charged at the rate of 5 cents each.

Privacy Act Requirements [24 CFR 5.212 and Form-9886]

The collection, maintenance, use, and dissemination of social security numbers (SSN), employer identification numbers (EIN), any information derived from these numbers, and income information of applicants and participants must be conducted, to the extent applicable, in compliance with the Privacy Act of 1974, and all other provisions of Federal, State, and local law.

Applicants and participants, including all adults in the household, are required to sign a consent form, HUD-9886, Authorization for Release of Information. This form incorporates the Federal Privacy Act Statement and describes how the information collected using the form may be used, and under what conditions HUD or the PHA may release the information collected.

Upfront Income Verification (UIV) Records

PHAs that access UIV data through HUD's Enterprise Income Verification (EIV) system are required to adopt and follow specific security procedures to ensure that all EIV data is protected in accordance with federal laws, regardless of the media on which the data is recorded (e.g. electronic, paper). These requirements are contained in the HUD-issued document, *Enterprise Income Verification (EIV) System, Security Procedures for Upfront Income Verification data.*

Roseville Housing Authority (RHA) Policy

Prior to utilizing HUD's EIV system, RHA will adopt and implement EIV security procedures required by HUD.

Criminal Records

Pursuant to California Penal Code Section 11105.03, local law enforcement agencies are authorized to provide state criminal summary history information obtained through CLETS (California Law Enforcement Telecommunications System) to the PHA for purposes of screening prospective participants. The PHA may only disclose the criminal conviction records which the PHA receives from a law enforcement agency to officers or employees of the PHA, or to authorized representatives of the PHA who have a job-related need to have access to the information [24 CFR 5.903(e)].

The PHA must establish and implement a system of records management that ensures that any criminal record received by the PHA from a law enforcement agency is maintained confidentially, not misused or improperly disseminated, and destroyed, once the purpose for which the record was requested has been accomplished, including expiration of the period for filing a challenge to the PHA action without institution of a challenge or final disposition of any such litigation [24 CFR 5.903(g)].

The PHA must establish and implement a system of records management that ensures that any sex offender registration information received by the PHA from a State or local agency is maintained confidentially, not misused or improperly disseminated, and destroyed, once the purpose for which the record was requested has been accomplished, including expiration of the period for filing a challenge to the PHA action without institution of a challenge or final disposition of any such litigation. However, a record of the screening, including the type of screening and the date performed must be retained [Notice PIH 2012-28].This requirement does not apply to information that is public information, or is obtained by a PHA other than under 24 CFR 5.905.

Roseville Housing Authority (RHA) Policy

RHA conducts criminal background checks on all adult household members at new admission and whenever an adult (age 18 or older) is added to an assisted household, as authorized under 24 CFR 5.903 and 24 CFR 982.553.

RHA will determine whether any adult household member has engaged in:

- **○ Violent criminal activity**
- **○ Drug-related criminal activity**
- **○ Criminal activity threatening the health, safety, or peaceful enjoyment of others**
- **○ Methamphetamine manufacture on federally assisted property**
- **○ Any lifetime sex-offender registration offense (24 CFR 982.553(a)(2)(i))**

RHA will conduct a nationwide sex-offender check using the Dru Sjodin National Sex Offender Public Website.

All screening is completed exclusively through Live Scan fingerprinting at the RHA office. Fingerprints are transmitted electronically to the FBI via NCR, an FBI-approved channeler, which returns the results to RHA.

RHA may also use non-federal criminal history sources as permitted by 24 CFR

5.903.

Criminal history information obtained under 24 CFR 5.903 is confidential and stored in secure, restricted-access locations.

Under 24 CFR 5.903(f), RHA will provide an individual with a copy of their own criminal history only when the individual:

1. ~~The request is s~~Submit~~sted~~ the request in writing;

2. ~~The individual a~~Appears in person; and

3. Presents valid government-issued photo identification.

No criminal background records will be mailed, emailed, faxed, or released to any third party.

In accordance with 24 CFR 5.903(g), all criminal history information and copies will be destroyed within 30 days of RHA's final eligibility decision through a commercial shredding service.

~~Criminal background checks are conducted on all adult household members at new admission and adult additions (age 18 or older) to the household. RHA will provide Roseville Police Department (PD) the names of applicants for HCV rental assistance (this includes adults requesting to be added to an assisted household). Roseville PD will identify if any applicant has been arrested and convicted for violent criminal or drug related activity, other criminal activity that may threaten the health, safety, or right to peaceful enjoyment of the premises by other residents or persons residing in the immediate vicinity, for manufacturing methamphetamine, or if~~ they are a registered sex offender.

~~For applicants that have been identified as having been convicted of the above criminal activity, RHA will require the applicant to be fingerprinted which will be submitted to an agency that obtains detailed criminal records from the FBI. All confidential criminal history information received will be maintained in secure areas not accessible to the general public. This information will only be available to the Housing Supervisor, RHA Housing Analyst, Senior Housing Technician and Housing Technicians.~~

~~The summary criminal history information in the possession of RHA, and all copies made from it, shall be destroyed not more than 30 days after RHA's final decision~~

whether to act on the housing status of the individual to whom the information relates. The records will be destroyed by a commercial shredding service.

Medical/Disability Records

PHAs are not permitted to inquire about the nature or extent of a person's disability. The PHA may not inquire about a person's diagnosis or details of treatment for a disability or medical condition. If the PHA receives a verification document that provides more information than is necessary to verify a requested accommodation, the PHA will not place this information in the tenant file. The PHA will either destroy the document or redact confidential information that is not required.

Documentation of Domestic Violence, Dating Violence, Sexual Assault or Stalking

For requirements and PHA policies related to management of documentation obtained from victims of domestic violence, dating violence, sexual assault or stalking, see section 16-IX.E..

PART VII: REPORTING AND RECORD KEEPING FOR CHILDREN WITH ENVIRONMENTAL INTERVENTION BLOOD LEAD LEVEL

16-VII.A. OVERVIEW

The PHA has certain responsibilities relative to children with environmental intervention blood lead levels that are receiving HCV assistance. The notification, verification, and hazard reduction requirements are discussed in Chapter 8. This part deals with the reporting requirements, and data collection and record keeping responsibilities that the PHA is subject to.

16-VII.B. REPORTING REQUIREMENT [24 CFR 35.1225(e)]

The PHA must report the name and address of a child identified as having an environmental intervention blood lead level to the public health department within 5 business days of being so notified by any other medical health care professional.

Roseville Housing Authority (RHA) Policy

RHA will provide the Placer County Public Health Department written notice of the name and address of any child identified as having an environmental intervention blood lead level.

PART VIII: DETERMINATION OF INSUFFICIENT FUNDING

16-VIII.A. OVERVIEW

The HCV regulations allow PHAs to deny families permission to move and to terminate Housing Assistance Payments (HAP) contracts if funding under the consolidated ACC is insufficient to support continued assistance [24 CFR 982.354(e)(1) and 982.454]. If a PHA denies a family a portability move based on insufficient funding, the PHA is required to notify the local HUD office within 10 business days [24 CFR 982.354].Insufficient funding may also impact the PHA's ability to issue vouchers to families on the waiting list. This part discusses the methodology the PHA will use to determine whether or not the PHA has sufficient funding to issue vouchers, approve moves, and to continue subsidizing all families currently under a HAP contract.

16-VIII.B. METHODOLOGY

Roseville Housing Authority (RHA) Policy

RHA will determine whether there is adequate funding to issue vouchers, approve moves to higher cost units and areas, and continue subsidizing all current participants by comparing RHA's annual budget authority to the annual total HAP needs on a monthly basis. The total HAP needs for the calendar year will be projected by establishing the actual HAP costs year to date. To that figure, RHA will add anticipated HAP expenditures for the remainder of the calendar year. Projected HAP expenditures will be calculated by multiplying the projected number of units leased for the remaining months by the most current month's average HAP. The projected number of units leased per month will take into account the average monthly turnover of participant families. If the total annual HAP needs equal or exceed the annual budget authority, or if RHA cannot support the cost of the proposed subsidy commitment (voucher issuance or move) based on the funding analysis, RHA will be considered to have insufficient funding.

For action that will be taken by RHA if there is insufficient funding, see Section 12-I.E. MANDATORY POLICIES AND OTHER AUTHORIZED TERMINATIONS

PART IX: VIOLENCE AGAINST WOMEN ACT (VAWA): NOTIFICATIONS, DOCUMENTATION, CONFIDENTIALITY

16-IX.A. OVERVIEW

The Violence against Women Act of 2013 (VAWA) provides special protections for victims of domestic violence, dating violence, sexual assault or stalking who are applying for or receiving assistance under the housing choice voucher (HCV) program. If your state or local laws provide greater protection for such victims, those laws apply in conjunction with VAWA.

In addition to definitions of key terms used in VAWA, this part contains general VAWA requirements and PHA policies in three areas: notification, documentation, and confidentiality.

16-IX.B. DEFINITIONS [24 CFR 5.2003, 42 USC 13925]

As used in VAWA

- The term *bifurcate* means, with respect to a public housing or Section 8 lease, to divide a lease as a matter of law such that certain tenants can be evicted or removed while the remaining family members' lease and occupancy rights are allowed to remain intact.
- The term *dating violence* means violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim; and where the existence of such a relationship shall be determined based on a consideration of the following factors:
  - The length of the relationship
  - The type of relationship
  - The frequency of interaction between the persons involved in the relationship
- The term *domestic violence* includes felony or misdemeanor crimes of violence committed by a current or former spouse or intimate partner of the victim, by a person with whom the victim shares a child in common, by a person who is cohabitating with or has cohabitated with the victim as a spouse or intimate partner, by a person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction receiving grant monies, or by any other person against an adult or youth victim who is protected from that person's acts under the domestic or family violence laws of the jurisdiction.
- The term *affiliated individual* means, with respect to a person:
  - A spouse, parent, brother or sister, or child of that individual, or an individual to whom that individual stands in the position or place of a parent; or
  - Any other individual, tenant, or lawful occupant living in the household of the victim of domestic violence, dating violence, sexual assault or stalking.
- The term *sexual assault* means:
  - Any nonconsensual sexual act proscribed by federal, tribal, or state law, including when the victim lacks the capacity to consent.

- The term *stalking* means:
  - To engage in a course of conduct directed at a specific person that would cause a reasonable person to fear for his or her safety or the safety of others, or suffer substantial emotional distress.

16-IX.C. NOTIFICATION [24 CFR 5.2005(a)]

Notification to Program Applicants and Participants [24 CFR 5.2005(a)(1)]

PHAs are required to inform program participants of their rights under VAWA, including their right to confidentiality and the limits thereof.

Roseville Housing Authority (RHA) Policy
RHA will provide all participants with notification of their protections and rights under VAWA at the time of admission.

The notice will explain the protections afforded under the law and inform the participant of RHA confidentiality requirements.

RHA will also include in all assistance termination notices a statement explaining assistance termination protection provided by VAWA.

Notification to Applicants

Roseville Housing Authority (RHA) Policy
RHA will provide all applicants with notification of their protections and rights under VAWA at the time they request an application for housing assistance. The notice will explain the protections afforded under the law and inform each applicant of RHA confidentiality requirements.

Notification to Owners and Managers [24 CFR 5.2007(3)(ii)]

VAWA requires PHAs to notify owners and managers of their rights and responsibilities under this law.

Roseville Housing Authority (RHA) Policy
RHA may utilize any or all of the following means to notify owners of their VAWA responsibilities:

- **As appropriate in day to day interactions with owners and managers.**
- **Informational inserts in HAP payments, 1099s, owner workshops, classes, orientations, owner information packets, and/or newsletters. Signs in RHA lobby and/or mass mailings which include model VAWA certification forms.**

16-IX.D DOCUMENTATION [24 CFR 5.2007]

A PHA presented with a claim for initial or continued assistance based on status as a victim of domestic violence, dating violence, stalking, or criminal activity related to any of these forms of abuse may – but is not required to – request that the individual making the claim document the abuse. Any request for documentation must be in writing, and the individual must be allowed at

least 14 business days after receipt of the request to submit the documentation. The PHA may extend this time period at its discretion. [24 CFR 5.2007(a)]

The individual may satisfy the PHAs' request by providing any one of the following three forms of documentation [24 CFR 5.2007(b)]:

(1) A completed and signed HUD-approved certification form (HUD-50066, Certification of Domestic Violence, Dating Violence, or Stalking), which must include the name of the perpetrator only if the name of the perpetrator is safe to provide and known to the victim

(2) A federal, state, tribal, territorial, or local police report or court record, or an administrative record.

(3) Documentation signed by a person who has assisted the victim in addressing domestic violence, dating violence, sexual assault, or stalking, or the effects of such abuse. This person may be an employee, agent, or volunteer of a victim service provider; an attorney; a mental health professional; or a medical professional The person signing the documentation must attest under penalty of perjury to the person's belief that the incidents in questions are bona fide incidents of abuse. The victim must also sign the documentation.

The PHA may not require third-party documentation (forms 2 and 3) in addition to certification (form 1), except as specified below under "Conflicting Documentation," nor may it require certification in addition to third-party documentation [VAWA final rule].

Roseville Housing Authority (RHA) Policy

Any request for documentation of domestic violence, dating violence, sexual assault, or staking will be in writing, will specify a deadline of 14 business days following receipt of the request, will describe the three forms of acceptable documentation, will provide explicit instructions on where and to whom the documentation must be submitted, and will state the consequences for failure to submit the documentation or request an extension in writing by the deadline.

RHA may, in its discretion, extend the deadline for 10 business days. Any extension granted by RHA will be in writing.

Conflicting Documentation [24 CFR 5.2007(e)]

In cases where the PHA receives conflicting certification documents from two or more members of a household, each claiming to be a victim and naming one or more of the other petitioning household members as the perpetrator, the PHA may determine which is the true victim by requiring each to provide acceptable third-party documentation, as described above (forms 2 and 3). The PHA must honor any court orders issued to protect the victim or to address the distribution of property.

Roseville Housing Authority (RHA) Policy

If presented with conflicting certification documents (two or more forms HUD-50066) from members of the same household, the PHA will attempt to determine which is the true victim by requiring each of them to provide third-party documentation in accordance with 24 CFR 5.2007(e)and by following any HUD guidance on how such determinations should be made.

Discretion to Require No Formal Documentation [24 CFR 5.2007(d)]

The PHA has the discretion to provide benefits to an individual based solely on the individual's statement or other corroborating evidence – i.e., without requiring formal documentation of abuse in accordance with 24 CFR 5.2007 (b)

Roseville Housing Authority (RHA) Policy

If RHA accepts an individual's statement or other corroborating evidence of domestic violence, dating violence, sexual assault, or stalking, RHA will document acceptance of the statement or evidence in the individual's file.

Failure to Provide Documentation [24 CFR 5.2007(c)]

In order to deny relief for protection under VAWA, a PHA must provide the individual requesting relief with a written request for documentation of abuse. If the individual fails to provide the documentation within 14 business days from the date of receipt, or such longer time as the PHA may allow, the PHA may deny relief for protection under VAWA.

16-IX.E CONFIDENTIALITY [24 CFR 5.2007(b)(4)]

All information provided to the PHA regarding domestic violence, dating violence, sexual assault, or stalking, including in the fact that an individual is a victim of such violence or stalking, must be retained in confidence. This means that the PHA (1) may not enter the information into any shared database, (2) may not allow employees or others to access the information unless they are explicitly authorized to do so and have a need to know the information for purposes of their work, and (3) may not provide the information to any other entity or individual, except to the extent that the disclosure is (a) requested or consented to by the individual in writing, (b) required for use in an eviction proceeding, or (c) otherwise required by applicable law.

Roseville Housing Authority (RHA) Policy

If disclosure is required for use in an eviction proceeding or is otherwise required by applicable law, RHA will inform the victim before disclosure occurs so that safety risks can be identified and addressed.

EXHIBIT 16-1: SAMPLE NOTICE TO HOUSING CHOICE VOUCHER APPLICANTS AND TENANTS REGARDING THE VIOLENCE AGAINST WOMEN ACT (VAWA)

This sample notice was adapted from a notice prepared by the National Housing Law Project.

A federal law that went into effect in 2013 protects individuals who are victims of domestic violence, dating violence, sexual assault, or stalking. The name of the law is the Violence against Women Act, or "VAWA." This notice explains your rights under VAWA.

Protections for Victims

If you are eligible for a Section 8 voucher, the housing authority cannot deny you rental assistance solely because you are a victim of domestic violence, dating violence, sexual assault, or stalking.

If you are the victim of domestic violence, dating violence, sexual assault, or stalking, you cannot be terminated from the Section 8 program or evicted based on acts or threats of violence committed against you. Also, criminal acts directly related to the domestic violence, dating violence, sexual assault, or stalking that are caused by a member of your household or a guest can't be the reason for evicting you or terminating your rental assistance if you were the victim of the abuse.

Reasons You Can Be Evicted

You can be evicted and your rental assistance can be terminated if the housing authority or your landlord can show there is an *actual* and *imminent* (immediate) threat to other tenants or employees at the property if you remain in your housing. Also, you can be evicted and your rental assistance can be terminated for serious or repeated lease violations that are not related to the domestic violence, dating violence, sexual assault, or stalking committed against you. The housing authority and your landlord cannot hold you to a more demanding set of rules than it applies to tenants who are not victims.

Removing the Abuser from the Household

Your landlord may split the lease to evict a tenant who has committed criminal acts of violence against family members or others, while allowing the victim and other household members to stay in the assisted unit. Also, the housing authority can terminate the abuser's Section 8 rental assistance while allowing you to continue to receive assistance. If the landlord or housing authority chooses to remove the abuser, it may not take away the remaining tenants' rights to the unit or otherwise punish the remaining tenants. In removing the abuser from the household, your landlord must follow federal, state, and local eviction procedures.

Moving to Protect Your Safety

The housing authority may permit you to move and still keep your rental assistance, even if your current lease has not yet expired. The housing authority may require that you be current on your rent or other obligations in the housing choice voucher program. The housing authority may ask you to provide proof that you are moving because of incidences of abuse.

Proving That You Are a Victim of Domestic Violence, Dating Violence, or Stalking

The housing authority and your landlord can ask you to prove or "certify" that you are a victim of domestic violence, dating violence, sexual assault, or stalking. The housing authority or your landlord must give you at least 14 business days (i.e., Saturdays, Sundays, and holidays do not count) to provide this proof. The housing authority and your landlord are free to extend the deadline. There are three ways you can prove that you are a victim:

- Complete the certification form given to you by the housing authority or your landlord. The form will ask for your name, the name of your abuser, the abuser's relationship to you, the date, time, and location of the incident of violence, and a description of the violence. You are only required to provide the name of the abuser if it is safe to provide and you know their name.
- Provide a statement from a victim service provider, attorney, mental health professional, or medical professional who has helped you address incidents of domestic violence, dating violence, sexual assault, or stalking. The professional must state that he or she believes that the incidents of abuse are real. Both you and the professional must sign the statement, and both of you must state that you are signing "under penalty of perjury."
- Provide a police or court record, such as a protective order.

Additionally, at its discretion, the housing authority can accept a statement or other evidence provided by the applicant or tenant. If you fail to provide one of these documents within the required time, the landlord may evict you, and the housing authority may terminate your rental assistance.

Confidentiality

The housing authority and your landlord must keep confidential any information you provide about the violence against you, unless:

- You give written permission to the housing authority or your landlord to release the information.
- Your landlord needs to use the information in an eviction proceeding, such as to evict your abuser.
- A law requires the housing authority or your landlord to release the information.

If release of the information would put your safety at risk, you should inform the housing authority and your landlord.

VAWA and Other Laws

VAWA does not limit the housing authority's or your landlord's duty to honor court orders about access to or control of the property. This includes orders issued to protect a victim and orders dividing property among household members in cases where a family breaks up.

VAWA does not replace any federal, state, or local law that provides greater protection for victims of domestic violence, dating violence, sexual assault, or stalking.

For Additional Information

If you have any questions regarding VAWA, please contact RHA at 916-774-5270.

For help and advice on escaping an abusive relationship, call the National Domestic Violence Hotline at 1-800-799-SAFE (7233) or 1-800-787-3224 (TTY).

Definitions

For purposes of determining whether a tenant may be covered by VAWA, the following list of definitions applies:

VAWA defines *domestic violence* to include felony or misdemeanor crimes of violence committed by any of the following:

- A current or former spouse or intimate partner of the victim
- A person with whom the victim shares a child in common
- A person who is cohabitating with or has cohabitated with the victim as a spouse or intimate partner
- A person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction receiving grant monies
- Any other person against an adult or youth victim who is protected from that person's acts under the domestic or family violence laws of the jurisdiction

VAWA defines *dating violence* as violence committed by a person (1) who is or has been in a social relationship of a romantic or intimate nature with the victim AND (2) where the existence of such a relationship shall be determined based on a consideration of the following factors:

- The length of the relationship
- The type of relationship
- The frequency of interaction between the persons involved in the relationship

VAWA defines *sexual assault* as "any nonconsensual sexual act proscribed by Federal, tribal, or State law, including when the victim lacks capacity to consent" (42 U.S.C. 13925(a)).

VAWA defines *stalking* as engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for his or her safety or the safety of others, or suffer substantial emotional distress.

EXHIBIT 16-2: SAMPLE NOTICE TO HOUSING CHOICE VOUCHER OWNERS AND MANAGERS REGARDING THE VIOLENCE AGAINST WOMEN ACT (VAWA)

This sample notice was adapted from a notice prepared by the National Housing Law Project.

A federal law that went into effect in 2013 protects individuals who are victims of domestic violence, dating violence, sexual assault, and stalking. The name of the law is the Violence against Women Act, or "VAWA." This notice explains your obligations under VAWA.

Protections for Victims

You cannot refuse to rent to an applicant solely because he or she is or has been a victim of domestic violence, dating violence, sexual assault, or stalking.

You cannot evict a tenant who is or has been the victim of domestic violence, dating violence, sexual assault, or stalking based on acts or threats of violence committed against the victim. Also, criminal acts directly related to the domestic violence, dating violence, sexual assault, or stalking that are caused by a household member or guest cannot be cause for evicting the victim of the abuse.

Permissible Evictions

You can evict a victim of domestic violence, dating violence, sexual assault, or stalking if you can demonstrate that there is an *actual and imminent* (immediate) threat to other tenants or employees at the property if the victim is not evicted. Also, you may evict a victim for serious or repeated lease violations that are not related to the domestic violence, dating violence, sexual assault, or stalking. You cannot hold a victim of domestic violence, dating violence, sexual assault, or stalking to a more demanding standard than you hold tenants who are not victims.

Removing the Abuser from the Household

You may bifurcate (split) the lease to evict a tenant who has committed criminal acts of violence against family members or others, while allowing the victim and other household members to stay in the unit. If you choose to remove the abuser, you may not take away the remaining tenants' rights to the unit or otherwise punish the remaining tenants. In removing the abuser from the household, you must follow federal, state, and local eviction procedures.

Certification of Domestic Violence, Dating Violence, Sexual Assault, or Stalking

If a tenant asserts VAWA's protections, you can ask the tenant to certify that he or she is a victim of domestic violence, dating violence, sexual assault, or stalking. You are not required to demand official documentation and may rely upon the victim's statement alone. If you choose to request certification, you must do so in writing and give the tenant at least 14 business days to provide documentation. You are free to extend this deadline. A tenant can certify that he or she is a victim by providing any one of the following three documents:

- A completed, signed HUD-approved certification form. The most recent form is HUD-50066. This form is available at the housing authority or online at http://www.hud.gov/offices/adm/hudclips/forms/hud5.cfm.
- A statement from a victim service provider, attorney, mental health professional, or medical professional who has helped the victim address incidents of domestic violence, dating violence, sexual assault, or stalking. The professional must state that he or she believes that the incidents of abuse are real. Both the victim and the professional must sign the statement under penalty of perjury.
- A police or court record, such as a protective order or administrative record.

If the tenant fails to provide one of these documents within 14 business days, you may evict the tenant if authorized by otherwise applicable law and lease provisions.

Confidentiality

You must keep confidential any information a tenant provides to certify that he or she is a victim of domestic violence, dating violence, sexual assault, or stalking. You cannot enter the information into a shared database or reveal it to outside entities unless:

- The tenant provides written permission releasing the information.
- The information is required for use in an eviction proceeding, such as to evict the abuser.
- Release of the information is otherwise required by law.

The victim should inform you if the release of the information would put his or her safety at risk.

VAWA and Other Laws

VAWA does not limit your obligation to honor court orders regarding access to or control of the property. This includes orders issued to protect the victim and orders dividing property among household members in cases where a family breaks up.

VAWA does not replace any federal, state, or local law that provides greater protection for victims of domestic violence, dating violence, sexual assault, or stalking.

Additional Information

- If you have any questions regarding VAWA, please contact RHA at 916-774-5270.

Definitions

Item ID: 2025-440

Title:	WB-30 Lot 1 Affordable Rental Housing Agreement
Contact:	Suzanne Acrell 916-774-5469 sacrell@roseville.ca.us

SUMMARY

Staff recommends approval of an Affordable Rental Housing Agreement between the City of Roseville and Roseville Senior Affordable LP for phase 1 of the Riviera at Roseville West. This affordable senior rental housing development is located at 3380 Pleasant Grove Boulevard within the Sierra Vista Specific Plan area. The agreement will support the City's General Plan in meeting the affordable housing goals. No General Fund resources will be used in the development of this project.

RECOMMENDATION

Staff recommends that the City Council adopt a resolution authorizing the City Manager to execute an Affordable Rental Housing Agreement between the City of Roseville and Roseville Senior Affordable LP for The Riviera at Roseville West Lot 1, an affordable rental housing project in the Sierra Vista Specific Plan.

BACKGROUND

On April 21, 2021, City Council adopted a resolution to establish the Objective Design Standards (ODS) to streamline the construction of qualified affordable housing projects. Qualified projects that comply with the ODS are subject to a non-discretionary ministerial permit process and can bypass the standard design review process as well as the public notification and hearing process and proceed directly to engineering and building permit review. A qualifying project is a housing development project where no less than 20% of the units are affordable to lower-income households. The Riviera at Roseville West Lot 1 affordable rental housing project is part of the SVSP PCL WB-30 ODS project approved January 11, 2024.

The Riviera at Roseville West Lot 1 project, located at 3380 Pleasant Grove Boulevard, will provide 224 affordable rental units for senior households earning no more than 80 percent of the Area Median Income. The development will consist of one- and two-bedroom units designed to meet the housing needs of low-income seniors. One additional unit will be reserved for onsite property management.

The purpose of this Affordable Rental Housing Agreement is to regulate and restrict the rents, occupancy, operation, and management of the project to ensure affordability for 55 years. The recommended agreement before Council will continue to support the City's General Plan in meeting the City of Roseville affordable housing goals as well as the State of California Regional Housing Needs Assessment requirements.

FISCAL IMPACT

No General Fund resources will be used for the implementation of the Affordable Rental Housing Agreement for The Riviera at Roseville West Lot 1 affordable rental housing project.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The Riviera at Roseville West Lot 1 Affordable Rental Housing Agreement meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

1. Ensure a safe and healthy community

Respectfully Submitted,
Suzanne Acrell, Housing Analyst

RESOLUTION NO. 26-251

APPROVING AN AFFORDABLE RENTAL HOUSING AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND ROSEVILLE SENIOR AFFORDABLE LP, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, an Affordable Rental Housing Agreement regarding the real property known as WB-30 Lot 1 and located at 3380 Pleasant Grove Blvd in the Sierra Vista Specific Plan, Roseville, CA, by and between the City of Roseville and Roseville Senior Affordable LP, has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said Affordable Rental Housing Agreement is hereby approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

BE IT FURTHER RESOLVED that the City Clerk is hereby directed to record the Affordable Rental Housing Agreement at the Placer County Recorder's Office on behalf of the City of Roseville.

BE IT FURTHER RESOLVED that the City Attorney is hereby authorized to make minor, non-substantive changes to the Affordable Rental Housing Agreement necessary to effectuate recording.

PASSED AND ADOPTED by the Council of the City of Roseville this ___ day of _____, 2026, by the following vote on roll call:

This Affordable Rental Housing Agreement amends, restates and replaces the Affordable Rental Housing Agreement dated October 16, 2024 and recorded with the Placer County Recorder on October 24, 2024 as document No.: 2024-0056652-00

WB-30 Lot 1 AFFORDABLE RENTAL HOUSING AGREEMENT

(Project: The Riviera at Roseville West Lot 1)

This Affordable Rental Housing Agreement ("AGREEMENT") is made this _____ day of _____, 2026 ("Effective Date"), by and between the City of Roseville, a municipal corporation ("CITY"), and Roseville Senior Affordable LP ("OWNER/DEVELOPER").

RECITALS

A. On August 18, 2021, CITY approved the updated Housing Element of the General Plan which applies ten percent (10%) affordability requirement to all new specific plan areas or properties for which zoning is amended to change residential density.

B. The OWNER/DEVELOPER is receiving the benefit of land entitlements either through the Specific Plan and Development Agreement process or by amendment of the zoning of the property to change residential density.

C. On January 11, 2024 CITY ministerially approved the qualified affordable housing project using the Objective Design Standards process (PL22-0396) (the "Project").

D. The conditions of approval of the Project require OWNER/DEVELOPER to enter into an affordable housing rental agreement to the satisfaction of City Attorney of CITY, implementing the affordable housing obligations of OWNER/DEVELOPER.

E. OWNER/DEVELOPER and CITY enter into this AGREEMENT in order to implement OWNER/DEVELOPER'S affordable housing obligations.

F. OWNER/DEVELOPER has secured the possession of real property located at 3380 Pleasant Grove Blvd., Roseville, California, 95747, also referred to as

WB-30 Lot 1 of the Sierra Vista Specific Plan (as more particularly described in **Exhibit A** (the "Property")). OWNER/DEVELOPER proposes to develop and construct a two hundred twenty-five (225) unit multi-family rental housing apartment project (the "Project") on the Property, with occupancy restricted to SENIOR CITIZENS (other than units reserved for managers of the Property), that shall be rented at rents that are affordable to Low income households (the "Regulated Units"). The Project is intended to serve as a community resource by providing decent, safe, and sanitary housing for households which would otherwise be unable to afford such housing. Development of the property is governed by the Sierra Vista Specific Plan.

G. On June 17, 2026, by Resolution No. _____ of the Roseville CITY Council, the CITY agreed to accept a promissory note from OWNER/DEVELOPER pursuant to CITY Municipal Code Section 4.04.040, which note is secured by a deed of trust on the Property in order for the developer to pay a portion of actual final building fees related to the construction of the Project.

H. The purpose of this AGREEMENT is to regulate and restrict the occupancy, rents, operation, ownership, and management of the Project for the benefit of Project occupants and the people of the City of Roseville. The covenants in this AGREEMENT are intended to run with the land and be binding on OWNER/DEVELOPER and OWNER/DEVELOPER's successors in interest for the full term of this AGREEMENT.

NOW, THEREFORE, OWNER/DEVELOPER and the CITY hereby agree as follows:

DEFINITIONS

The following terms have the meanings set forth in herein wherever used in this AGREEMENT or attached exhibits.

1. **"CITY"** means the City of Roseville, a municipal corporation.

2. **"AREA MEDIAN INCOME"** (referred to herein as "AMI") means the median income for Placer County, which includes the City of Roseville, with adjustments for household size, as published annually by the State of California Housing and Community Development ("HCD"). If HCD should cease making such determination, the City may designate another method of calculation of area median income used by any federal or state agency and applicable to the City of Roseville.

3. **"OWNER/DEVELOPER"** means Roseville Senior Affordable LP, together with its permitted successors and assigns.

4. **"PROJECT"** means the development, construction, and operation of a residential, multi-family rental apartment project on the Property, with occupancy restricted to SENIOR CITIZENS and managers, as provided herein), to be rented at

rents that are affordable to low income households. As used herein, Low-income households means households with income not more than eighty percent (80%) of AMI.

5. **"PROPERTY"** means the real property located at 3380 Pleasant Grove Blvd., Roseville, California, 95747 identified and described in **Exhibit A**, attached hereto and incorporated into this AGREEMENT by this reference, and any buildings or improvements now or hereafter situated on such real property.

6. "**PURCHASER**" has the meaning given such term in Section 51 hereof.

7. **"QUALIFYING HOUSEHOLD"** means a household in which household income does not exceed the eighty percent (80%) of AMI for the applicable housing unit by the terms of this AGREEMENT.

8. **"QUALIFYING RENT"** means the maximum monthly rent allowed under **Exhibit B,** adjusted for family size (1.5 persons per bedroom), including a reasonable allowance for tenant-paid utilities (also known as Utility Allowance). For the purposes of this definition, rent shall include, in addition to amounts charged for occupancy of a dwelling unit, any amounts charged for water, sewer, refuse service, use of common areas, amenities (e.g., pool). For avoidance of doubt, the Qualifying Rent shall be not more than (but need be not less than) thirty percent (30%) of eighty percent (80%) of AMI as adjusted for family size.

9. **"REGULATED UNITS"** means not less than Two Hundred Twenty-Four (224) rental dwelling units of the Two Hundred Twenty-Five (225) rental dwelling units on the Property constructed for the Project, with occupancy restricted to SENIOR CITIZENS, that shall be rented at rents that are affordable to Low income households and having the following composition: One hundred seventy-six (176) one (1) bedroom units and forty-eight (48) two (2) bedroom units.

10. "**SECURITY INSTRUMENT**" means a mortgage, deed of trust, or other similar security instrument.

11. **"SENIOR CITIZEN"** means at least one member of the household has attained the age of fifty-five (55) years (if applicable).

12. "**SENIOR LENDER**" means the beneficiary, mortgagee, or similar party to a Security Instrument encumbering the Property, provided that such Security Instrument is not subordinate to any other Security Instrument encumbering the Property. For the avoidance of doubt, in no event shall CITY be deemed to be a Senior Lender.

OWNER/DEVELOPER'S OBLIGATIONS

13. **TERM OF AGREEMENT.** This AGREEMENT shall commence upon the Effective Date and shall remain in full force and effect for thirty-five (35) years after the date OWNER/DEVELOPER obtains a Certificate of Occupancy from CITY for the

Project or, in the event the Project has multiple buildings or structures, a Certificate of Occupancy for the last habitable building or structure for the Project. The obligations in this AGREEMENT shall remain effective and fully binding on OWNER/DEVELOPER for this full term regardless of any expiration of the term of any loan, any payment, or prepayment of any loan, any assignment of a note, any reconveyance of a deed of trust, or any sale, assignment, transfer, or conveyance of the Property (other than certain transfers by foreclosure, deed in lieu of foreclosure, exercise of the power of sale or other similar transfer), unless terminated earlier by the CITY in a recorded writing.

14. **LEGAL INTEREST IN PROJECT**. OWNER/DEVELOPER represents that it has legal interest in the Subject Property and that all other persons holding legal or equitable interests in the Subject Property have signed an "Acknowledgement and Consent Certificate", in a form approved by the City Attorney of the CITY, acknowledging and consenting to the terms of this AGREEMENT. All persons holding any legal or equitable interest in the Subject Property shall be bound by this AGREEMENT.

PROJECT OCCUPANCY AND RENTS

15. **OCCUPANCY OF PROJECT.** OWNER/DEVELOPER shall limit, for the full term of this AGREEMENT identified in paragraph 10, above, the rental of Regulated Units to Qualifying Households according to the schedule contained in **Exhibit B** herein, which is hereby incorporated by reference into this AGREEMENT. The income levels and other qualifications of applicants shall be certified prior to initial occupancy in conformance with the Final Management Plan identified in paragraph 19.C, below, and the City of Roseville's rules governing income certification, as these rules may be amended from time to time by California law or as required in order to comply with California law. Specifically, OWNER/DEVELOPER covenants and agrees that for the full term of this Agreement it shall reserve for occupancy: One hundred and seventy-six (176) one-bedroom and forty-eight (48) two-bedroom Regulated Units for households whose income does not exceed eighty percent (80%) of AMI, and one (1) unit for use by on-site Project management staff. The developer intends for the Project to qualify for the Welfare Exemption. Following initial occupancy, the CITY will not provide any monitoring, but OWNER/DEVELOPER agrees that any Qualifying Household whose income level increases shall continue to be considered a Qualifying Household and may continue to occupy a Regulated Unit to the extent allowed in order for the Project to continue to qualify for the welfare exemption under Revenue and Taxation Code section 214.until their income exceeds one hundred twelve percent (112%) of AMI.

The Project shall be owned, managed and operated as a single, multi-family residential rental project, with occupancy restricted to SENIOR CITIZENS, which may be comprised of several buildings and structures, each consisting of more than one residential dwelling unit, together with facilities functionally related and subordinate thereto, in accordance with the applicable provisions of the Internal Revenue Code and applicable California law, as the same may be amended from time to time. All of the residential dwelling units in the Project will be similarly constructed and shall contain

separate and complete facilities for living, sleeping, eating, cooking, and sanitation for a single person or family, including sleeping area, bathing and sanitation facilities, and cooking facilities equipped with a cooking range, refrigerator, and sink. None of the residential dwelling units shall be utilized, at any time, on a transient basis. Neither the Project, nor any portion thereof, shall ever be used as a hotel, dormitory, fraternity house, sorority house, rooming house, hospital, nursing home, sanitarium, rest home, or trailer park or court.

16. **PROJECT RENTS.** Rents for Regulated Units shall be limited to Qualifying Rents as defined above. The initial Qualifying Rents are set forth in **Exhibit B** as the same may be revised from time to time in accordance with this AGREEMENT and applicable federal or state laws and regulations. Nothing in this AGREEMENT shall prevent OWNER/DEVELOPER from charging lower rents.

17. **RENTAL INCREASES FOR EXISTING TENANTS ON THE PROPERTY.** Irrespective of when income limits are published under Tax Credit Law, rents for Regulated Units may be adjusted no more frequently than: (a) twelve (12) months following the date of initial occupancy or (b) every twelve (12) months following the last permissible date of recorded rental adjustment. Rents for Regulated Units may be adjusted annually to coincide with the increases in the Annual Adjustment Factors ("AAFs") as published by the United States Department of Housing and Urban Development (HUD) for the West Region.

In the event that HUD terminates publication of the AAFs, rents shall be adjusted annually to coincide with the State Department of Housing and Community Development ("HCD") State Income Limits, using the limits established for Placer County, adjusted for household size, unit type and affordability, with rents being not more than thirty percent (30%) of eighty percent (80%) of AMI.

If OWNER/DEVELOPER does not agree with the adjustment factors provided herein, OWNER/DEVELOPER may, within fifteen (15) calendar days of notification by the CITY's Economic Development Director or successor ("the EDD") of that year's adjustment, present to the EDD information on which it wishes to base its annual rent adjustment. The EDD will review this information and decide on which adjustment factor OWNER/DEVELOPER shall base its annual rent increase. The decision of the EDD shall be final.

18. **CONDOMINIUM CONVERSION PROHIBITED.** OWNER/DEVELOPER shall not convert Project units, including Regulated Units and/or any unregulated units, to condominium or cooperative ownership or sell condominium or cooperative conversion rights to the Project units.

19. **NONDISCRIMINATION.**

A. OWNER/DEVELOPER herein covenants by and for itself, its subcontractors, its successors and assigns, and all persons claiming under or through

them, that there shall be no discrimination against or segregation of, nor denial of the benefits of this AGREEMENT to, any person or group of persons, on the basis of race, color, ancestry, national origin or ethnic group identification, religion or religious creed, sex, gender or self-identified gender, gender expression, sexual orientation, marital status, age, mental disability, physical disability or medical condition (including cancer, HIV and AIDS), genetic information, military or veteran status, familial status, source of income, or political affiliation or belief, nor any unlawful discrimination against any employee or applicant for employment because of race, color, ancestry, national origin or ethnic group identification, religion or religious creed, sex, gender or self-identified gender, gender expression, sexual orientation, marital status, age (over 40), mental disability, physical disability or medical condition (including cancer, HIV and AIDS), use of family care leave, genetic information, military or veteran status, familial status, source of income, or political affiliation or belief. OWNER/DEVELOPER shall ensure that the evaluation and treatment of employees and applicants for employment are free of such discrimination or harassment. In addition to the foregoing general obligations, OWNER/DEVELOPER shall comply with the provisions of the Fair Employment and Housing Act (Government Code Section 12900, et seq.), the regulations promulgated thereunder (Title 2, California Code of Regulations, Section 10000, et seq.), the provisions of Article 9.5, Chapter 1, Part 1, Division 3, Title 2 of the Government Code (Sections 11135-11139.5) and any state or local regulations adopted to implement any of the foregoing, as such statutes and regulations may be amended from time to time. To the extent this AGREEMENT subcontracts to OWNER/DEVELOPER services or works required of the CITY by the State of California pursuant to agreement between the CITY and the State, the applicable regulations of the Fair Employment and Housing Commission implementing Government Code Section 12990 (a) through (f), set forth in Subchapter 5 of Division 4.1 of Title 2 of the California Code of Regulations are expressly incorporated into this Regulatory Agreement by reference and made a part hereof as if set forth in full, and OWNER/DEVELOPER and any of its subcontractors shall give written notice of their obligations thereunder to labor organizations with which they have collective bargaining or other agreements.

B. The provisions of paragraph (A) shall further apply to the leasing, subleasing, transferring, use, occupancy, tenure, or enjoyment of the Project, and OWNER/DEVELOPER and any person claiming under or through the OWNER/DEVELOPER, shall not establish or permit any such practice or practices of discrimination or segregation with reference to the selection, location, number, use, or occupancy of tenants, lessees, sublessees, subtenants, or vendees in the Project.

C. OWNER/DEVELOPER shall include the provisions contained in this section in all contracts and subcontracts related to the Project.

20. **MANAGEMENT RESPONSIBILITIES.** OWNER/DEVELOPER is specifically responsible, subject to its obligations herein, for all management functions with respect to the Property, including, without limitation, the selection of tenants, certification and recertification of household size and income, evictions, collection of rents and deposits, maintenance, landscaping, routine and extraordinary repairs,

replacement of capital items, and security. The CITY shall have no responsibility over management of the Property.

21. **MANAGEMENT ENTITY.** Any contracting of management services by OWNER/DEVELOPER shall not relieve OWNER/DEVELOPER of its primary responsibilities for proper performance of management duties.

22. **DRAFT AND FINAL MANAGEMENT PLANS**.

A. **DRAFT MANAGEMENT PLAN.** OWNER/DEVELOPER shall prepare and submit to CITY a Draft Management Plan for CITY's review. The Draft Management Plan shall be submitted to CITY at least one hundred eighty (180) calendar days prior to the anticipated date for completion of construction of the Project. The Draft Management Plan shall contain, but is not limited to, specific statement as to (1) the identity, experience and duties regarding operation of the Project of any non-profit, public benefit corporation who is a partner of OWNER/DEVELOPER; (2) marketing policies and strategies; (3) tenancy occupancy rules and regulations; (4) rental procedures and tenant income limitation; (5) eviction procedures; (6) operating policies and guidelines; (7) reserve account policies; (8) maintenance and capital improvement policies; and (9) shall provide as an exhibit thereto a sample form of lease agreement. Upon transfer of the Project of OWNER/DEVELOPER'S interest in the Project, the party to whom the Project is transferred shall, as a condition of such transfer, provide CITY with a copy of such party's Management Plan for the Project, which plan shall provide statements as called for herein (for the avoidance of doubt, the preceding requirement does not apply to a transfer to a Purchaser).

B. **CITY REVIEW OF DRAFT MANAGEMENT PLAN.** Upon submittal of the Draft Management Plan by OWNER/DEVELOPER to CITY the CITY shall review the Draft Management Plan and provide written comments to OWNER/DEVELOPER within ninety (90) calendar days or as soon thereafter as is practicable.

C. **FINAL MANAGEMENT PLAN.** Prior to issuance of any Certificate of Occupancy for the Project, OWNER/DEVELOPER shall submit a Final Management Plan to the CITY for its review no later than thirty (30) calendar days prior to the anticipated date for completion of construction of the Project.

23. **MANAGEMENT AGENT**. The Project shall at all times be managed by an experienced Management Agent, with demonstrated ability to operate residential facilities like the Project in a manner that will provide decent, safe, and sanitary housing. During the monitoring as described in Section 26, CITY will assess Management Agent's ability to operate the Project in a decent, safe, and sanitary manner. One factor CITY will use to make its assessment will be a comparison of calls for police and fire services with other senior rental complexes in Roseville which offer similar services.

24. **DISMISSAL OF MANAGEMENT AGENT**. If CITY determines in its reasonable judgment that the Project is not being operated and managed in accordance

with the terms of this Agreement, CITY shall deliver notice to OWNER/DEVELOPER of its desire to cause replacement of the Management Agent, including the reasons therefor. Within fifteen (15) days of receipt by OWNER/DEVELOPER of such written notice, CITY staff and OWNER/DEVELOPER shall meet in good faith to consider methods for improving the operating status of the Project, including, without limitation, replacement of the Management Agent, which will be in OWNER/DEVELOPER's discretion.

25. **MAINTENANCE AND SECURITY.** OWNER/DEVELOPER shall at its own cost and expense maintain the Property in good condition, in good repair, and in decent, safe, sanitary, habitable, and tenantable living condition for the benefit of Project occupants. OWNER/DEVELOPER shall not commit or permit any waste on or to the Property and shall prevent and/or rectify any physical deterioration of the Property. OWNER/DEVELOPER shall provide adequate ongoing security equipment and services for Project occupants. OWNER/DEVELOPER shall maintain the Property in conformance with all applicable state, federal, and local laws, ordinances, codes, and regulations, and the Management Plan; but OWNER/DEVELOPER's maintenance obligations shall not be limited only to the standards contained in these laws or the Management Plan.

In the event the OWNER/DEVELOPER fails to maintain the Property in accordance with the foregoing standards, and after at least ten (10) calendar days' prior written notice to OWNER/DEVELOPER and the Senior Lender(s) (which notice shall be sent to such address for the Senior Lender(s) as is provided to CITY by OWNER/DEVELOPER or the applicable Senior Lender(s)), , the CITY or its agent may, but shall be under no obligation to, enter upon the Property, make such repairs or replacements as are deemed necessary in CITY's reasonable discretion (with the prior written consent of the Senior Lender(s), and provide for payment thereof. Any amount advanced by CITY to make such repairs, together with the maximum legal interest rate thereon from the date of such shall become an additional obligation of OWNER/DEVELOPER to CITY shall be immediately due and payable to CITY.

26. **UNIT VACANCIES.** OWNER/DEVELOPER shall use commercially reasonable efforts to fill vacancies in Regulated Units as quickly as possible.

27. **INSPECTION AND RECORDS.** OWNER/DEVELOPER shall maintain records which clearly document OWNER/DEVELOPER's performance of its obligations to operate the Property and the Project under the terms of this AGREEMENT. OWNER/DEVELOPER shall submit any records to the CITY within ten (10) business days of CITY's request. OWNER/DEVELOPER shall permit CITY to enter and inspect the Property and the Project for compliance with obligations under this AGREEMENT upon twenty-four (24) hours advance notice of such visit by CITY to OWNER/DEVELOPER or OWNER/DEVELOPER's management agent and to tenants of any inspected Project units, subject to the provisions of the lease regarding inspection and entry rights, which provisions must otherwise be consistent with state law.

28. **ANNUAL REPORT.** OWNER/DEVELOPER shall submit an annual report to CITY as required by California Health and Safety Code Section 33418, which shall include at a minimum for each Regulated Unit the rental rate and the income and household size of the occupants. The income information required under this report shall be supplied by the tenant in a certified statement on a form provided by CITY. CITY may request additional information be included in the annual report.

29. **MONITORING/NON-COMPLIANCE/CURE**. OWNER/DEVELOPER'S compliance with the provisions of this AGREEMENT shall be reviewed at least annually, and at such other times as CITY may require, upon thirty (30) days prior written notice from CITY. If, as a result of such review, CITY finds and determines in its reasonable discretion that OWNER/DEVELOPER has not complied in good faith with the terms and conditions of this AGREEMENT, CITY shall give written notice to OWNER/DEVELOPER of its findings and of the exact nature of OWNER/DEVELOPER'S non-compliance. OWNER/DEVELOPER shall be given a period of sixty (60) days after delivery of any such notice in which to cure, to the reasonable satisfaction of CITY, any non-compliance. In the event CITY fails to give OWNER/DEVELOPER notice of any non-compliance at or before the annual review, OWNER/DEVELOPER shall not be held responsible for any failure to comply with the terms and conditions of this AGREEMENT during the year covered by the annual review.

30. **CITY REMEDIES FOR BREACH**. If OWNER/DEVELOPER is unable or otherwise fails to cure any non-compliance within sixty (60) days after CITY delivers notice of non-compliance pursuant to Section 26, CITY may, in addition to any other remedy provided by law or equity, modify or terminate this AGREEMENT, seek liquidated damages in accordance with this AGREEMENT, or take any other action available to it under this AGREEMENT.

In particular, and without limitation by reason of enumeration, OWNER/DEVELOPER acknowledges and agrees that failure to cure any non-compliance under this AGREEMENT, whether by OWNER/DEVELOPER or any successor, shall, at the option of the CITY, constitute a breach and default under this AGREEMENT as to all other property within the Project.

In addition, and without limitation by reason of enumeration, OWNER/DEVELOPER acknowledges and agrees that CITY shall have the right to withhold issuance of all building permits within the Project until such breach is cured.

In the event of any breach/default or violation of any agreement, obligation, or warranty under this AGREEMENT, CITY shall give written notice to OWNER/DEVELOPER, with copies to the Senior Lender(s) and _____, specifying: (a) the nature of the breach or violation, (b) the action required to cure the breach or violation, and (c) a date, which shall not be less than thirty (30) calendar days from the date of the notice, by which such action to

cure must be taken. If OWNER/DEVELOPER fails to cure the breach or violation within the time frame specified in the notice CITY additionally has the right, at its sole election, to:

A. Bring an action for equitable relief seeking the specific performance by OWNER/DEVELOPER of the terms and conditions of this AGREEMENT, and/or enjoining, abating, or preventing any violation of said terms and conditions, and/or seeking declaratory relief;

B. Intentionally deleted.

C. After notice provided for herein, make such repairs or replacements to the Property as are necessary and provide for payment thereof;

E. For violations of OWNER/DEVELOPER's obligations with respect to Project rents, impose as liquidated damages a charge upon OWNER/DEVELOPER in an amount equal to the actual amount OWNER/DEVELOPER has collected from any Qualifying Household in excess of the Qualifying Rent;

F. Pursue any other remedy allowed at law or in equity.

CITY's rights hereunder shall be in addition to, and not in lieu of, every other right or remedy provided for herein or now or hereafter existing at law or in equity by statute or otherwise, including, but not limited to injunctive relief, specific performance, and damages. The exercise or beginning of exercise by CITY of any one or more rights or remedies, provided herein or now or hereafter existing at law or in equity by statute or otherwise, shall not preclude the simultaneous or later exercise by CITY of any or all other rights or remedies provided for in this AGREEMENT or now or hereafter existing at law or in equity or by statute or otherwise. All such rights and remedies shall be considered cumulative and nonexclusive.

The parties agree that the sums and formulas designated herein as liquidated damages represent a reasonable approximation of the damages CITY is likely to suffer from violations of the respective terms. OWNER/DEVELOPER agrees to pay in full any accrued liquidated damages to CITY within ten (10) calendar days of a written demand by CITY for such payment.

31. **FEES, TAXES, AND OTHER LEVIES.** OWNER/DEVELOPER shall be responsible for payment of all fees, assessments, taxes, charges, and levies imposed by any public authority or utility company with respect to the Property and the Project, and shall pay such charges prior to delinquency. However, OWNER/DEVELOPER shall not be required to pay any such charge so long as (a) the legality thereof is being contested in good faith and by appropriate proceedings, and (b) OWNER/DEVELOPER maintains reserves adequate to pay any contested liabilities.

32. **INSURANCE COVERAGE.** OWNER/DEVELOPER shall cause to have in full force and effect during the term of this AGREEMENT continuous insurance coverage as required by any lienholder.

33. **PROPERTY DAMAGE OR DESTRUCTION.** If any building or improvement erected by OWNER/DEVELOPER on the Property is damaged or destroyed, subject to the requirements of the Senior Lender(s) as set forth in the applicable Security Instrument(s) or other loan documents referenced therein, which shall govern in the event of any conflict with this Section 30. OWNER/DEVELOPER shall, at its own cost and expense, repair or restore the Property consistent with the original Plans and Specifications for the Project. Such work shall be commenced within one hundred twenty (120) calendar days after the damage or loss occurs and shall be completed within three hundred and sixty-five (365) calendar days thereafter or such longer period as may be reasonably required. Subject to the requirements of the Senior Lender(s) as set forth in the applicable Security Instrument(s) or other loan documents referenced therein, which shall govern in the event of any conflict with this Section 30, all insurance proceeds collected for such damage or destruction shall be applied to the cost of such repairs or restoration and, if insurance proceeds are insufficient for such purpose, OWNER/DEVELOPER shall make up the deficiency. For the avoidance of doubt, in the event of any conflict between this Section 30 and Section 22 hereof, this Section 30 shall govern.

GENERAL PROVISIONS

34. **SUBORDINATION.** Except as expressly set forth herein, this AGREEMENT shall be subordinated in priority to any third-party lender having a lien on the Property.

35. **TRANSFER AND ENCUMBRANCE OF PROPERTY.** During the term of this AGREEMENT, OWNER/DEVELOPER shall not make or permit any sale, agreement to sell, assignment, conveyance, lease (other than (i) the rental of Project units to eligible residential tenant occupants , (ii) the granting of any mortgage, deed of trust or similar security instrument, and (iii) the transfer toa Purchaser, or transfer of the Property or any part thereof, including the sale of any general or limited partnership interests in OWNER/DEVELOPER, the removal of any general partner, or any substantial change in operational or management control over the Property (collectively referred to as “Transfers”), without the prior written consent of CITY.

CITY shall give its consent to a Transfer provided that it determines all of the following conditions are met: (a) OWNER/DEVELOPER is in compliance with this AGREEMENT in all material respects or the Transfer will cure existing violations of this AGREEMENT; (b) the transferee agrees to assume all obligations of OWNER/DEVELOPER imposed by this AGREEMENT; (c) the transferee demonstrates to CITY’s satisfaction that it is capable of owning and/or operating the Property and the Project in full compliance with this AGREEMENT; (d) the terms of the Transfer shall not jeopardize the CITY’s security interest in the Property and is otherwise in full

compliance with all legal standards, including eligibility requirements and other conditions imposed by funding sources for the Project; and (e) the Transfer has been approved by CITY's governing body, if such approval is required.

36. **NONLIABILITY OF OFFICIALS, EMPLOYEES, AND AGENTS**. No member, official, director, employee, agent, or independent contractor of CITY shall be personally liable to OWNER/DEVELOPER or third party beneficiaries for any obligation created under the terms of this AGREEMENT.

37. **INDEMNITY AND WAIVER**. Notwithstanding the insurance coverage required herein, OWNER/DEVELOPER shall indemnify and hold CITY, its members, officials, directors, employees, agents, and independent contractors (collectively "Indemnitees"), harmless against any losses, damages, liabilities, claims, demands, judgments, actions, court costs, and legal or other expenses (including attorney's fees) which Indemnitees may incur as a result of (1) OWNER/DEVELOPER's failure to perform any obligations as and when required by this AGREEMENT; (2) any failure of OWNER/DEVELOPER's representations or warranties to be true and complete in any material respect; or (3) any act or omission by OWNER/DEVELOPER or any contractor, subcontractor, management agent, or supplier with respect to the Project or the Property, except to the extent that such losses are caused solely by the negligence or willful misconduct of Indemnitees. The duty of the OWNER/DEVELOPER to indemnify includes the duty to defend Indemnitees in any court action, administrative action, or other proceeding brought by any third party arising from the Project or the Property. OWNER/DEVELOPER's duty to indemnify Indemnitees shall survive the term of this AGREEMENT.

OWNER/DEVELOPER hereby waives any claims, suits, or actions against the CITY on account of or arising from the Costa-Hawkins Rental Housing Act, California Civil Code Sections 1954.50 *et seq.* ("CHRHA").

38. **GOVERNING LAW.** This AGREEMENT shall be interpreted under and be governed by the laws of the State of California, except for those provisions relating to choice of law and those provisions preempted by federal law.

39. **AGREEMENT CONTROLS**. In the event of a conflict between any provisions of this AGREEMENT and any of its exhibits, the terms of this AGREEMENT shall control.

40. **ATTORNEYS' FEES AND COSTS**. In the event that a legal or administrative action is brought to interpret or enforce the terms of this AGREEMENT, the prevailing party shall be entitled to recover all reasonable attorneys' fees and costs incurred in such action.

41. **TIME**. Time is of the essence in this AGREEMENT.

42. **CONSENTS AND APPROVALS**. Except as otherwise expressly provided in this AGREEMENT, any consent or approval required under the AGREEMENT shall not be unreasonably withheld or delayed.

43. **NOTICES, DEMANDS, AND COMMUNICATIONS.** Formal notices, demands, and communications between OWNER/DEVELOPER and CITY shall be given by first class or certified mail, return receipt requested, postage prepaid or delivered personally, to OWNER/DEVELOPER and CITY as follows, or at such other address as a party may designate by written notice to the other party:

CITY OF ROSEVILLE	OWNER/DEVELOPER
CITY Manager 311 Vernon Street Roseville, California 95678	Roseville Senior Affordable LP 445 Central Ave., Suite 200 Highland Park, IL 60035

44. **BINDING UPON SUCCESSORS**. All provisions of this AGREEMENT shall be binding upon and inure to the benefit of the heirs, administrators, executors, successors in interest, transferees, and assigns of OWNER/DEVELOPER and CITY, and shall run with the land for the full term of this AGREEMENT. Any successor in interest to OWNER/DEVELOPER and any purchaser or transferee of the Property shall be subject to all of the duties and obligations imposed on OWNER/DEVELOPER under this AGREEMENT for the full term of this AGREEMENT. The term "OWNER/DEVELOPER" as used in this AGREEMENT shall include all such assigns, successors-in-interest, and transferees.

45. **RELATIONSHIP OF PARTIES**. The relationship of OWNER/DEVELOPER and CITY for this Project during the term of this AGREEMENT shall not be construed as a joint venture, equity venture, or partnership. CITY neither undertakes nor assumes any responsibility or duty to OWNER/DEVELOPER or to any third party with respect to the operation of the Property or the actions of OWNER/DEVELOPER. Except as CITY may specify in writing, OWNER/DEVELOPER shall have no authority to act as an agent of CITY or to bind CITY to any obligation.

46. **WAIVER.** Any waiver by CITY of any obligation in this AGREEMENT must be in writing. No waiver shall be implied from any delay or failure by CITY to take action on any breach or default of OWNER/DEVELOPER or to pursue any remedy allowed under this AGREEMENT or applicable law. Any extension of time granted to OWNER/DEVELOPER to perform any obligation under this AGREEMENT shall not operate as a waiver or release from any of its obligations under this AGREEMENT. Consent by CITY to any act or omission by OWNER/DEVELOPER shall not be construed as the consent to any other or subsequent act or omission or to waive the requirement for CITY's written consent to future waivers.

47. **OTHER AGREEMENTS.** OWNER/DEVELOPER represents that it has not entered into any agreements that would restrict or compromise its ability to comply

with the terms of this AGREEMENT. OWNER/DEVELOPER shall not enter into any agreements that are inconsistent with the terms of this AGREEMENT without an express written waiver by CITY.

48. **AMENDMENTS AND MODIFICATIONS**. Any amendments or modifications to this AGREEMENT must be in writing and shall be effective only if executed by both OWNER/DEVELOPER and CITY, following receipt of all required approvals, and only with the consent of the Senior Lender(s).

49. **SEVERABILITY**. Every provision of this AGREEMENT is intended to be severable. If any provision of this AGREEMENT is held invalid, illegal, or unenforceable by a court of competent jurisdiction, the validity, legality, and enforceability of the remaining provisions shall not be affected or impaired.

SPECIAL PROVISIONS

50. **REFINANCING REVIEW FEE.** In the event that the Property and/or the Project is a tax credit project and is refinanced during the term of this Agreement, OWNER/DEVELOPER shall provide CITY a prepayment, upon request by OWNER/DEVELOPER, for CITY's staff costs in reviewing any refinancing documentation submitted to CITY for CITY's review; provided that City approval shall not be required for any refinancing unless the Project is a tax credit project. Such prepayment shall be submitted by OWNER/DEVELOPER prior to CITY commencing any review. The prepayment will be one thousand dollars ($1,000.00). OWNER/DEVELOPER shall not be entitled to receive a refund of any such fee in the event that OWNER/DEVELOPER fails to complete such refinancing.

51. **TENANT MONITORING FEE.** Commencing one (1) year after the final Certificate of Occupancy for the Project and annually thereafter, OWNER/DEVELOPER shall pay to CITY, not later than March 31 of each year, a tenant monitoring fee equal to FORTY DOLLARS ($40) for each occupied, rent restricted, apartment unit within the Project, with such fee to be adjusted to reflect the Project's actual occupancy rate. The fee for each unit shall be prorated over the portion of the year that the unit was occupied or leased. A penalty of one and one half percent (1.5%) per month shall be assessed against any fee not paid when due.

52. **PARTICIPATION IN HOUSING CHOICE VOUCHER PROGRAM.** During the term of this AGREEMENT, OWNER/DEVELOPER agrees to participate in the Housing Choice Voucher ("HCV") program administered by the Roseville Housing Authority (the "Authority").

53. **CHECKLIST FOR REGULATED UNITS.** OWNER/DEVELOPER agrees that each prospective tenant, prior to rental of a Regulated Unit, shall be required to complete forms required by **Exhibit C**, or OWNER/DEVELOPER'S equivalent as approved in writing by CITY.

54. **FORECLOSURE**. Notwithstanding anything to the contrary herein, in the event that any Senior Lender or any other purchaser of the Property becomes the owner of the Property or portion thereof by reason of the foreclosure of a Security Instrument or the acceptance of a deed or assignment in lieu of foreclosure or by reason of any other enforcement of a Security Instrument (any such Senior Lender or such other purchaser, a "PURCHASER"), this Agreement shall automatically terminate and will not bind the Property/Project or Purchaser. CITY and OWNER/DEVELOPER acknowledge and agree that (i) each Senior Lender is an intended third-party beneficiary of this Section 51, and its rights in the same are fully vested, and (ii) this Section same may not be amended, modified, supplemented, or waived in any respect without each Senior Lender's prior written consent in its sole discretion.

IN WITNESS WHEREOF, the parties hereto have executed this AGREEMENT as of the Effective Date.

CERTIFICATION OF RESIDENT ELIGIBILITY

Re: _____ Apt. # _____
Apartment Complex

I/we have read and answered truthfully, fully frankly and personally each of the following questions for all persons who are to occupy the unit being applied for in the above apartment project. Listed below are the names of all persons who intend to reside in the unit:

1) Name of Members of the Household	2) Relationship to head of Household	3) Age	4) Social Security No.	5) Place of Employment

CERTIFICATION OF RESIDENT ELIGIBILITY (cont.)

INCOME COMPUTATION

6) The total anticipated income calculated in accordance with this paragraph 6, of all persons (except children under the age of 18 years) listed above for the 12-month period beginning the date that I/we plan to move into a unit is $_____ .

Included in the total anticipated income listed above are:

a. All wages and salaries, overtime pay, commissions, fees and other compensation for personal services, before payroll deductions.

Excluded from such anticipated income are:

a. Casual, sporadic or irregular gifts;

b. Amounts which are specifically for or in reimbursement of medical expenses;

c. Lump sum additions to family assets, such as inheritances, insurance payments (including payments under health and accident insurance and worker's compensation), capital gains and settlements for personal or property losses;

d. Amounts of educational scholarships paid directly to the student or the educational institution and amounts paid by the government to a veteran for use in meeting the costs of tuition, fees, books, and equipment. Any amounts of such scholarships or payments to veterans not used for the above purposes are to be included in income;

e. Hazardous duty pay to a family member in the Armed Forces who is away from home and exposed to hostile fire;

f. Relocation payments under Title II of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970;

g. Foster child care payments;

h. The value of coupon allotments for the purchase of food pursuant to the Food Stamp Act of 1977.

7) This certificate is made with the knowledge that it will be relied upon by the Owner to determine maximum income for eligibility to occupy the unit; and I/we declare that all information set forth herein is true, correct and complete and based upon information I/we deem reliable and that the statement of total anticipated income contained in paragraph 6 is reasonable and based upon such investigation as the undersigned deemed necessary.

8) I/We will assist the Owner in obtaining any information or documents required to verify the statement made herein, including either an income verification from my/our present employer(s) or copies of federal tax returns for the immediately preceding calendar year.

9) I/We acknowledge that I/we have been advised that the making of any misrepresentation or misstatement in this declaration will constitute a material breach of my/our agreement with the Owner to lease the unit and will entitle the Owner to prevent or terminate my/our occupancy of the unit by institution of an action for eviction or other appropriate proceedings.

I/We declare under penalty of perjury that the foregoing is true and correct.

Executed this _____ day of _____ in the City of _____ California.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Council approval of a proclamation meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

5. Support community engagement and advocacy
6. Deliver exceptional City services

Respectfully Submitted,
Arleta Wagenhals, City Clerk Technician

Carmen Avalos, City Clerk

Dennis Kauffman, City Manager Department - Assistant City Manager	Approved - 6/9/2026

Michelle Sheidenberger, City Attorney Department	Approved - 6/9/2026
Katrina Six, City Clerk Department	Final Approval - 6/9/2026

Proclamation

PARK AND RECREATION MONTH
JULY 2026

WHEREAS, parks and recreation are an integral part of communities throughout this country; and

WHEREAS, parks and recreation promote physical, emotional and mental wellness through organized and self-directed fitness, play and activity; and

WHEREAS, parks and recreation encourage time spent in nature, which supports mental health, cognitive performance and overall well-being; and

WHEREAS, parks and recreation professionals are leaders in creating healthy communities by providing spaces for sports, trails, swimming pools, fitness and many other activities designed to promote active lifestyles; and

WHEREAS, Roseville's nationally acclaimed parks and recreation system enriches lives through innovative programs, exceptional amenities and a commitment to serving residents and visitors of all ages and abilities; and

WHEREAS, Roseville's parks, recreation facilities, trails, natural areas and community programs provide opportunities for recreation, learning, connection and enrichment that enhance quality of life; and

WHEREAS, parks and recreation support economic vitality by partnering with local businesses, increasing property values, expanding the local tax base, attracting tourism and helping create safer communities; and

WHEREAS, parks and recreation support human development and lifelong learning opportunities that foster social, intellectual, physical and emotional growth for people of all ages and abilities; and

WHEREAS, parks and recreation foster social cohesion by celebrating diversity, providing welcoming spaces to gather, modeling compassion, promoting equity and ensuring all people have access to the benefits they provide; and

WHEREAS, parks and recreation protect and enhance natural resources by preserving habitats and natural areas, connecting people to nature and supporting the ecological function of parkland; and

WHEREAS, the City of Roseville recognizes that parks and recreation make life better.

NOW, THEREFORE, I, KRISTA BERNASCONI, MAYOR OF THE CITY OF ROSEVILLE, CALIFORNIA, do hereby proclaim **JULY 2026** as **PARK AND RECREATION MONTH** and urge all residents to visit and enjoy Roseville's recreation facilities, parks, trails and natural areas.

CITY OF ROSEVILLE
INCORPORATED APRIL 10, 1909

SIGNED AND APPROVED this 17TH day of June 2026.

KRISTA BERNASCONI, MAYOR

Carmen Avalos, City Clerk

MINUTES

City Council Regular Meeting
May 20, 2026
6:00 PM
Roseville Electric Building,
116 S. Grant Street, 1st Floor

I. CALL TO ORDER

Mayor Bernasconi called the meeting to order at 6:01 P.M.

II. ROLL CALL

Present: Vice Mayor Alvord, Councilmember Houdesheldt, Councilmember Roccucci, Mayor Bernasconi.
Absent: Councilmember Mendonsa

III. PLEDGE OF ALLEGIANCE

Deputy City Attorney Chloe Porath led the Pledge of Allegiance.

IV. MEETING PROCEDURES

City Clerk Carmen Avalos announced the procedures for addressing the City Council.

V. PRESENTATIONS

1. Retirement - Jill Geller

Summary: Commend Jill Geller for 6 years of extraordinary service and outstanding leadership as Director of Parks, Recreation & Libraries, congratulate her for her accomplishments, and wish her a long, healthy, and enjoyable retirement.

CONTACT: Arleta Wagenhals 916-774-5200 amswagenhals@roseville.ca.us

City Council made the presentation to Parks, Recreation & Libraries Director Jill Geller, who responded.

2. Retirement - Megan Scheid

Summary: Commend Megan Scheid, who is retiring from the City Manager's Office, for her 19 years of extraordinary service, exemplary leadership, and enduring contributions to the City of

Roseville, and extend deep gratitude and warm wishes for a long, fulfilling, and meaningful retirement.

CONTACT: Arleta Wagenhals 916-774-5200 amswagenhals@roseville.ca.us

City Council made the presentation to Deputy City Manager Megan Scheid who responded.

VI. PUBLIC COMMENTS

This is the first opportunity to make a public comment on non-agenda items.

No public comment received.

VII. CONSENT CALENDAR

Motion by Councilmember Houdesheldt, seconded by Roccucci, to approve the Consent Calendar as recommended. The motion passed.

Ayes: Vice Mayor Alvord, Councilmember Houdesheldt, Councilmember Roccucci, Mayor Bernasconi.
Absent: Councilmember Mendonsa

3. Fuel Equipment Canopy Design and Construction - Contract Purchase Agreement

(ENVIRONMENTAL UTILITIES DEPARTMENT - WASTEWATER)

Summary: Staff recommends approval of a contract purchase agreement with Plummerbuilt Inc. for the design and construction of a fuel island canopy over the compressed natural gas filling station located at the Pleasant Grove Wastewater Treatment Plant in the amount of $199,550. The request includes a 10% contingency ($19,955) to account for potential fluctuations in material and construction costs. This project is funded by the South Placer Wastewater Authority in the Pleasant Grove Wastewater Treatment Plant Energy Recovery Project.

CONTACT: Blaine Wiegel 916-746-1833 bwiegel@roseville.ca.us

The City Council will consider the recommendation to:

a. Adopt Resolution No. 26-154 approving a contract purchase agreement, by and between the City of Roseville and Plummerbuilt Inc., and authorizing the City Manager to execute it on behalf of the City of Roseville.

4. Wastewater Climber Screens Parts and Equipment – Sole Source Purchase Order

(ENVIRONMENTAL UTILITIES DEPARTMENT - WASTEWATER)

Summary: Staff recommends approval of a sole source purchase order with Veolia WTS Services USA, Inc. to provide repair parts and replacement equipment for the Influent Climber Screens at the Dry Creek Wastewater Treatment Plant and the Pleasant Grove Wastewater Treatment Plant for $300,000, and the option to execute four additional one-year $300,000 renewals for a total not to exceed $1,500,000. Funding will be provided from the Environmental Utilities Department’s annual budgets in the Wastewater Operations Fund.

CONTACT: Katherine Gettings 916-746-1865 kgettings@roseville.ca.us

The City Council will consider the recommendation to:

a. Adopt Resolution No. 26-155 approving a sole source purchase order for Wastewater climber screens parts and equipment.

5. RiverArc Project Related to the Third Pump at Pritchard Lake Diversion Facility - Cost Share Agreements (ENVIRONMENTAL UTILITIES DEPARTMENT - WATER)

Summary: Staff recommends approval of two separate agreements for a third pump at the Pritchard Lake Diversion Facility. The first is an agreement between RiverArc Implementation Partners and Natomas Mutual Water Company. The second is an agreement between the RiverArc Implementation Partners. The City's cost share is up to $200,000. Funding for this project is from the RiverArc project in the Water Construction and Water Rehabilitation Funds.

CONTACT: Janice Gainey 916-774-5535 jrgainey@roseville.ca.us

The City Council will consider the recommendation to:

a. Adopt Resolution No. 26-162 approving an agreement for Cost Sharing for Third Pump at Pritchard Lake Diversion Facility, by and between the Natomas Central Mutual Water Company, the Placer County Water Agency, the City of Sacramento, and the City of Roseville, and authorizing the City Manager to execute it on behalf of the City of Roseville; and

b. Adopt Resolution No. 26-163 approving an agreement for RiverArc Implementation Partner Cost Sharing Related to the Agreement for Cost Sharing for Third Pump at Pritchard Lake Diversion Facility with Natomas Central Mutual Water Company, by and among the RiverArc Implementation Partners and authorize the City Manager to execute it on behalf of the City of Roseville.

6. Sodium Hypochlorite System Replacement Project - Cancellation and Budget Adjustment (ENVIRONMENTAL UTILITIES DEPARTMENT)

Summary: Staff recommends approval to cancel the Pleasant Grove Wastewater Treatment Plant Sodium Hypochlorite System Replacement project and approve a budget adjustment in the amount of $500,000 to eliminate the existing budget and return the unspent funds to fund balance in the Wastewater Rehabilitation Fund.

CONTACT: Jeremy Snyder 916-746-1829 jsnyder@roseville.ca.us

The City Council will consider the recommendation to:

a. Approve the cancellation of the Capital Improvement Project; and

b. Adopt Ordinance No. 7071 authorizing certain amendments to the fiscal year 2025-26 budget and declaring this ordinance to be immediately effective as an appropriation measure.

7. **Water Meter Retrofit Project - Budget Adjustment** (ENVIRONMENTAL UTILITIES DEPARTMENT - TECHNICAL SERVICES)

Summary: Staff recommends approval of a budget adjustment for the Water Meter Retrofit Project in the amount of $57,942 using available resources in the Water Meter Retrofit Fund to purchase additional materials required to complete the remaining Water Meter Retrofits.

CONTACT: William Montz 916-774-5545 wlmontz@roseville.ca.us

The City Council will consider the recommendation to:

a. Adopt Ordinance No. 7070 authorizing certain amendments to the fiscal year 2025-26 budget and declaring this ordinance to be immediately effective as an appropriation measure.

8. **Public Safety Computer System – License Agreement Amendment** (INFORMATION TECHNOLOGY DEPARTMENT - CLIENT SERVICES)

Summary: Staff recommends approval of an amendment to the License Agreement with Tyler Technologies Inc. to add software, services and support for interfaces and exports relating to Computer Aided Dispatch (CAD) to CAD, Enforcement Mobile and other Enterprise Public Safety modules. The amendment will increase the cost of the contract by $105,089. The total cost for the three-year amendment is $822,754.11 and is allocated to the Police and Fire departments each fiscal year by internal service fund charges from the Information Technology Operations fund.

CONTACT: Melissa Patrick 916-774-5127 mpatrick@roseville.ca.us

The City Council will consider the recommendation to:

a. Adopt Resolution No. 26-161 approving a license agreement amendment, by and between the City of Roseville and Tyler Technologies Inc., and authorizing the City Manager to execute it on behalf of the City of Roseville.

9. **Silver Spruce Drive - Segment 2B - Notice of Completion** (DEVELOPMENT SERVICES DEPARTMENT - ENGINEERING DIVISION)

Summary: Staff recommends approval of the Notice of Completion for Silver Spruce Drive - Segment 2B as complete. The Engineering Division has made final inspection of the project and has found the roadway infrastructure work complete in accordance with the improvement plans and City specifications. This action has no impact to the City's General Fund. Construction costs were paid by the developer.

CONTACT: Pablo Macias 916-746-1324 pmacias@roseville.ca.us

The City Council will consider the recommendation to:

a. Adopt Resolution No. 26-149 accepting the Public Work known as Silver Spruce Drive - Segment 2B Project, approving the "Notice of Completion", and authorizing and directing the

City Engineer to execute said Notice on behalf of the City of Roseville, therefore, and accepting a portion of the dedications offered on the recorded map of the Subdivision.

10. Sierra Vista Specific Plan Parcel WB-30 - Parcel Map (DEVELOPMENT SERVICES DEPARTMENT - ENGINEERING DIVISION)

Summary: Staff recommends approval of the Sierra Vista Specific Plan Parcel WB-30 Parcel map. Engineering has completed its review of the parcel map and found that it is in compliance with the approved tentative map. This map will create three (3) commercial and three (3) public right-of-way lots. The actions requested have no fiscal impact on the City's General Fund.

CONTACT: Jeff Hendrix 916-774-5463 jhendrix@roseville.ca.us

The City Council will consider the recommendation to:

a. Approve the Sierra Vista Specific Plan Parcel WB-30 parcel map on file with the City Clerk and accept on behalf of the public, Parcels A, B, and C offered thereon.

11. West Roseville Specific Plan Fiddyment Ranch Blue Oaks Boulevard Widening - Reimbursement Agreement (DEVELOPMENT SERVICES DEPARTMENT - ENGINEERING DIVISION)

Summary: Staff recommends approval of a Reimbursement Agreement with JEN California 15 LLC in the amount of $5,493,744 to construct West Roseville Specific Plan Fiddyment Ranch Blue Oaks Boulevard Widening. Funding is included in the Developer Reimbursement Account of the Traffic Mitigation Fund.

CONTACT: Matt Todd 916-774-5562 mtodd@roseville.ca.us

The City Council will consider the recommendation to:

a. Adopt Resolution No. 26-152 approving a reimbursement agreement, by and between the City of Roseville and JEN California 15 LLC, and authorizing the City Manager to execute it on behalf of the City of Roseville.

12. Citywide East Site Radio Communications Tower - Notice of Completion (PUBLIC WORKS DEPARTMENT - FACILITIES)

Summary: Staff recommends approval of the Notice of Completion for the Citywide East Site Radio Communication Tower Construction Project. The total cost of the construction contract with SLC, Inc was in the amount of $925,028.00 with an additional 15% contingency of $138,754.20, of which $138,534.00 was used. Funding for this project was included in the IT Replacement Fund, Public Facilities Fund, and Strategic Improvement Fund. No General Fund resources were used for the project.

CONTACT: James Kremko 916-774-5741 jakremko@roseville.ca.us

The City Council will consider the recommendation to:

a. Adopt Resolution No. 26-148 accepting the Public Work known as the Citywide East Site Radio

Communication Tower project, approving the “Notice of Completion”, and authorizing the Public Works Director to execute said notice on behalf of the City of Roseville.

13. **Society for the Prevention of Cruelty to Animals Heating, Ventilation, and Air Conditioning Replacement - Contract Purchase Agreement and Budget Adjustment** (PUBLIC WORKS DEPARTMENT - FACILITIES)

Summary: Staff recommends approval of a contract purchase agreement with B&M Civil, LLC dba B&M Builders in the amount of $140,783 for the Society for the Prevention of Cruelty to Animals (SPCA) Heating, Ventilation, and Air Conditioning (HVAC) Replacement project. Additionally, staff is requesting a budget adjustment of $56,500 to increase the Placer SPCA HVAC Replacement project budget from available resources in the Facility Rehabilitation Fund. This project is funded by the General Fund through the Facilities Rehabilitation Fund.

CONTACT: Rebecca McCoy 916-746-5706 ramccoy@roseville.ca.us

The City Council will consider the recommendation to:

a. Adopt Resolution No. 26-151 approving an agreement, by and between the City of Roseville and B&M Civil, LLC dba B&M Builders, and authorizing the City Manager to execute it on behalf of the City of Roseville; and

b. Adopt Ordinance No. 7072 authorizing certain amendments to the fiscal year 2025-26 budget and declaring this ordinance to be immediately effective as an appropriation measure.

14. **Westbrook Boulevard Signal Installation Project - Award of Construction Agreement and Budget Adjustment** (PUBLIC WORKS DEPARTMENT - ENGINEERING - CITY PROJECTS)

Summary: Staff recommends approval of a construction agreement with May-Han Electric, Inc. dba M&M Electric in the amount of $1,717,883.50 for the Westbrook Boulevard Signal Installation Project, along with the associated budget adjustment and a 10% construction change order authority. The scope of this project includes the signalization of five (5) intersections along Westbrook Boulevard. The traffic signals are located at the intersections of Solaire Drive, Earl Rush Drive, Nicole Gee Drive, Vista Grande Boulevard, and Sierra Village Drive with Westbrook Boulevard. The budget adjustment will increase project funding for the Traffic Mitigiation Fund by $600,000 for a total budget of $2,950,000. No General Fund resources will be used for this project.

CONTACT: Brian Gulewich 916-746-1376 bcgulewich@roseville.ca.us

The City Council will consider the recommendation to:

a. Adopt Resolution No. 26-156 approving a construction agreement, by and between the City of Roseville and May-Han Electric, Inc. dba M&M Electric, and authorizing the City Manager to execute it on behalf of the City of Roseville; and

b. Adopt Ordinance No. 7073 authorizing certain amendments to the fiscal year 2025-26 budget and declaring this ordinance to be immediately effective as an appropriation measure.

15. **Road Resurfacing and Maintenance Funding - Purchase Order Increase** (PUBLIC WORKS DEPARTMENT - STREET MAINTENANCE)

Summary: Staff recommends approval of an increase to the existing purchase order with Granite Construction Company Inc. in the amount of $58,500, to a total not-to-exceed amount of $133,499. This spending limit increase will provide the Public Works Street Maintenance Division the flexibility needed to complete ongoing roadway rehabilitation work in the current fiscal year including resurfacing project preparation, and repairs to emerging pavement failures and localized base deterioration. Funding for the increase is from the Highway Users Tax Fund and Traffic Safety funds already budgeted within operations budgets. No General Fund resources will be used.

CONTACT: James Shelton 916-746-1192 jshelton@roseville.ca.us

The City Council will consider the recommendation to:

a. Approve the purchase order increase with Granite Construction Company for road resurfacing and maintenance.

16. **Agricultural License To Farm Rice - Agreement** (PARKS, RECREATION, AND LIBRARIES DEPARTMENT - PARK MAINTENANCE)

Summary: Staff recommends approval of an Agricultural License to farm rice with Auburn Ravine Ranch Inc. and B & B Livestock for farming on a portion of the Al Johnson Wildlife property. Staff additionally requests authority for the City Manager or his designee to execute two (2) additional two (2) year renewals without further City Council approval. This agreement will generate revenue of $62,220 annually.

CONTACT: Eric Dexter 916-746-1769 edexter@roseville.ca.us

The City Council will consider the recommendation to:

a. Adopt Resolution No. 26-158 approving an agricultural license to farm rice, by and between the City of Roseville and Auburn Ravine Ranch, Inc. and B & B Livestock, and authorizing the City Manager to execute it on behalf of the City of Roseville.

17. **CO-61 Park Project - Award of Contract** (PARKS, RECREATION, AND LIBRARIES DEPARTMENT - PARK DEVELOPMENT)

Summary: Staff recommends approval of an agreement with Jensen Landscape Contractor, LLC in the amount of $1,399,971.99 for the CO-61 Park Project and authorization for the City Manager or his designee to approve change orders for the project, consistent with the contract terms, provided that the net cost of all change orders shall not exceed ten percent (10%) of the contract amount. Funding for construction of this park was included in the FY2025-26 budget within the Neighborhood Park – Campus Oaks Fund.

CONTACT: Joel De Jong 916-774-5924 jdejong@roseville.ca.us

The City Council will consider the recommendation to:

a. Adopt Resolution No. 26-150 approving an agreement, by and between the City of Roseville and Jensen Landscape Contractor, LLC, and authorizing the City Manager to execute it on behalf of the City of Roseville.

18. Campus Oaks Park Skate Park Project - Notice of Completion (PARKS, RECREATION, AND LIBRARIES DEPARTMENT - PARK DEVELOPMENT)

Summary: Staff recommends approval of the Notice of Completion for the Campus Oaks Park Skate Park Project. The total cost of the construction contract with American Ramp Company is $650,000. Funding for this project was included in the FY2024-25 General Fund budget.

CONTACT: Joel De Jong 916-774-5924 jdejong@roseville.ca.us

The City Council will consider the recommendation to:

a. Adopt Resolution No. 26-159 accepting the Public Work known as Campus Oaks Park Skate Park Project, approving the "Notice of Completion", and authorizing and directing the City Engineer to execute said Notice on behalf of the City of Roseville.

19. 2002 International Swaps and Derivatives Association - Master Agreement, Schedule with Gas and Power Annexes, Credit Support Annex, Paragraph 13 Elections and Variables, and Dodd-Frank Act Representations and Reporting Amending Agreement (ELECTRIC DEPARTMENT - FINANCIAL & ADMINISTRATIVE)

Summary: Staff recommends approval of the 2002 International Swaps and Derivatives Association, Inc. Master Agreement, Schedule with Gas and Power Annexes, Credit Support Annex, including Paragraph 13 Elections and Variables, and the International Energy Credit Association Dodd-Frank Act Representations and Reporting Amending Agreement, with DRW Energy Trading LLC (DRW). These documents establish standardized legal, transactional, collateral, and swap reporting terms that would apply to future wholesale natural gas, power, and related commodity transactions with DRW. There is no cost associated with the execution of these documents.

CONTACT: Patrick Zanardelli 916-774-5673 pzanardelli@roseville.ca.us

The City Council will consider the recommendation to:

a. Adopt Resolution No. 26-157 approving the 2002 International Swaps and Derivatives Association, Inc. Master Agreement, the Schedule with Gas Annex and Power Annex, the Credit Support Annex, the Paragraph 13 Elections and Variables, and the International Energy Credit Association Dodd-Frank Act Representations and Reporting Amending Agreement with DRW Energy Trading LLC., and authorizing the City Manager to execute them on behalf of the City of Roseville.

20. Renewable Energy Transaction Confirmation Amendment (ELECTRIC DEPARTMENT - RESOURCE PLANNING & GENERATION)

Summary: Staff recommends approval of the first amendment to the Renewable Energy Transaction Confirmation with Desert Breeze Solar, LLC. The transaction helps Roseville Electric Utility meet the State of California's Renewable Portfolio Standards regulations and this amendment moves the delivery start date a year earlier to June 2026 to support current compliance period requirements (Compliance Period 5, 2025-2027). This amendment increases the cost of the contract by approximately $1.9 million, for a total amended contract value of approximately $24.2 million over the 16-year term. Funding is included in the Electric Department's FY2025-26 budget in the Electric Fund. Future funding is contingent upon the City Council's approval of the respective year's budget.

CONTACT: Petra Wallace 916-774-5510 pwallace@roseville.ca.us

The City Council will consider the recommendation to:

a. Resolution No. 26-164 approving a first amendment of Transaction Confirmation between the City of Roseville and Desert Breeze Solar, LLC, and authorizing the City Manager to execute if on behalf of the City of Roseville.

21. California-Oregon Transmission Project - Amendment (ELECTRIC DEPARTMENT - RESOURCE PLANNING & GENERATION)

Summary: Staff recommends approval of an amendment to project agreement number 3 with the Transmission Agency of Northern California (TANC) for the California-Oregon Transmission Project (COTP). TANC is a joint powers agency that owns and operates high-voltage transmission facilities, including the COTP, a 500-kV transmission line that extends from central California to north of the California-Oregon Border. The City is a Member of TANC and has transmission rights on the COTP. These transmission rights support Roseville Electric Utility's overall portfolio of resources to meet the electricity needs of the community. The amendment improves the efficiency, flexibility, and clarity of the agreement. There is no fiscal impact associated with the amendment.

CONTACT: Petra Wallace 916-774-5510 pwallace@roseville.ca.us

The City Council will consider the recommendation to:

a. Adopt Resolution No. 26-165 approving amendment No. 1 to project agreement No. 3 with the Transmission Agency of Northern California-Oregon Transmission Project, and authorizing the City Manager to execute it on behalf of the City of Roseville.

22. Roseville Energy Park Tenant Improvement (RFQ 10-3441) – Contract Purchase Agreement (FINANCE DEPARTMENT - PURCHASING)

Summary: Staff recommends approval of a contract purchase agreement with Torres Project Management Inc., dba TPM Construction, Inc., as the lowest responsive and responsible bidder for Request for Quotations No.10-3441, Roseville Energy Park Tenant Improvement. The cost of the agreement is $1,249,000. Additionally, staff is requesting change order requests up to 15% ($187,350) of the contract amount for construction contingency, for a grand total of $1,436,350. Staff is requesting approval of a 15% contingency for this project due to the age of the facility

and unknown circumstances that may arise when construction and demolition begin. There has also been a fluctuation of supply costs due to the rising prices of transportation. Funding for this project is available in the Electric Fund budget.

CONTACT: Tiffany Valdez 916-746-1109 tvaldez@roseville.ca.us

The City Council will consider the recommendation to:

a. Adopt Resolution No. 26-160 approving a contract purchase agreement, by and between the City of Roseville and Torres Project Management Inc., dba TPM Construction, and authorizing the City Manager to execute it on behalf of the City of Roseville.

23. Community Facilities Districts - Budget Adjustments (FINANCE DEPARTMENT)

Summary: Staff recommends approving budget adjustments in the amount of $1,303,974 to align Community Facilities District budgets with current activity. This adjustment reflects updated pay-as-you-go disbursements, related revenues, and debt service activity, and improves the accuracy of financial reporting and analysis. Sufficient fund balance is available in all affected funds to support the proposed adjustments.

CONTACT: Scott Pettingell 916-746-1306 spettingell@roseville.ca.us

The City Council will consider the recommendation to:

a. Adopt Ordinance No. 7074 authorizing certain amendments to the fiscal year 2025-26 budget and declaring this ordinance to be immediately effective as an appropriation measure.

24. FY2025-26 Second Quarter Financial Report (FINANCE DEPARTMENT)

Summary: Staff recommends approval of the FY2026-26 Second Quarter Financial Report which provides a summary of the City's financial position through the second quarter for (1) the General Fund, (2) the enterprise funds, and (3) revenues in other selected funds. This report is provided pursuant to the Budget Control section of the City Charter (Section 7.15).

CONTACT: Nancy Rothlisberger 916-774-5314 nrothlisberger@roseville.ca.us

The City Council will consider the recommendation to:

a. This is an informational item and requires no City Council action.

25. Legal Research Software - Purchase Order Increase (CITY ATTORNEY DEPARTMENT)

Summary: Staff recommends approval of an increase in purchase order authority with West Publishing Corporation dba Thomson Reuters - West in order to add a new attorney license to the current legal research software, Westlaw. The original five (5) year purchase order amount of $216,671.64 will increase by $20,584.44 to $237,256.08. Funding for this item was included in the City Attorney's budget. Yearly funding will be subject to budget approval by the City Council.

CONTACT: Kelly Aye 916-774-5377 kaye@roseville.ca.us

The City Council will consider the recommendation to:

a. Approve a purchase order increase with West Publishing Corporation dba Thomson Reuters - West.

26. Second Reading - Roseville Municipal Code Amendment - Accessory Dwelling Units (DEVELOPMENT SERVICES - PLANNING)

Summary: Staff recommends approving an ordinance for second reading amending Roseville Municipal Code Chapter 19.60 (Accessory Dwelling Unit Ordinance) and amending Roseville Municipal Code Section 19.10.030 to update and reorganize the City's Accessory Dwelling Unit (ADU) Ordinance. Key changes include updating multiple sections to reflect legislation passed in 2025, including changing square footage limitations to be based on square footage of livable space, adding a definition for livable space, revising the number of ADUs permitted to reflect that any combination of permitted units is allowed, revising the Residential Zone General Development standards table of Roseville Municipal Code Section 19.10.030 to refer to Chapter 19.60 instead of stating the number of ADUs permitted, and limiting the owner occupancy requirement for a Junior ADU to cases where sanitation facilities (bathrooms) are shared. Additional changes include removal of the Administrative Permit process which currently allows deviation from standards for ADUs, adding references to the definition of "kitchens" found in Roseville Municipal Code Chapter 19.95, a new definition for "separate entrance" and "separate exterior entrance," and other changes to improve readability and clarity.

CONTACT: Lauren Hocker 916-774-5272 lhocker@roseville.ca.us

The City Council will consider the recommendation to:

a. Adopt Ordinance No. 7075 amending section 19.10.030 of Chapter 19.10 of Title 19 of the Roseville Municipal Code regarding Residential Zone General Development Standards and amending Chapter 19.60 of Title 19 of the Roseville Municipal Code regarding Accessory Dwelling Units.

27. Proclamation - National Public Works Week

Summary: Proclaim May 17-23, 2026 as National Public Works Week and urge all residents to recognize public works professionals, engineers, managers, and employees and the substantial contributions they make to protecting health and safety, and advancing the quality of life for all.

CONTACT: Arleta Wagenhals 916-774-5200 amswagenhals@roseville.ca.us

28. Minutes of Prior Meetings (CITY CLERK DEPARTMENT)

Summary: Staff recommends approval of the minutes of the May 6, 2026 City Council / Housing Authority Meeting.

CONTACT: Christine Mesaros 916-774-5287 crmesaros@roseville.ca.us

The City Council will consider the recommendation to:

a. Approve minutes of the May 6, 2026 City Council / Housing Authority Meeting.

29. Retirement - Stephanie Gillis

Summary: Commend Stephanie Gillis, who is retiring from the Electric Department, for 19 years of outstanding service and dedication to the City of Roseville, and extend wishes for a long, healthy and enjoyable retirement.

CONTACT: Arleta Wagenhals 916-774-5200 amswagenhals@roseville.ca.us

END OF CONSENT CALENDAR

VIII. PRESENTATIONS/REPORTS

30. Grants Advisory Commission FY2026-27 Grant Funding Recommendations (CITY MANAGER DEPARTMENT - ASSISTANT CITY MANAGER)

Summary: Staff recommends approval of the Grants Advisory Commission's FY2026-27 funding recommendations to award grants to 18 nonprofit organizations, totaling $279,940 from the Citizens' Benefit Fund. Funding for these awards is included in the proposed FY2026-27 City budget.

CONTACT: Tobi Thomas 916-746-1368 tthomas@roseville.ca.us

The City Council will consider the recommendation to:

a. Approve the Grants Advisory Commission's FY2026-27 funding recommendations, awarding $279,940 from the Citizens' Benefit Fund to 18 nonprofit organizations.

Management Analyst Tobi Thomas and Senior Deputy Attorney Jonathan Levy made the presentation to the City Council.

Grants Advisory Commission Vice Chair Lauren Razzano spoke on the funding award process.

Jennifer Chapman spoke on behalf of Valley Foothill Conservancy and funding for outreach.

Vice Mayor Alvord declared a conflict of interest with the award to Wayfinder Family Services as a family member works for the organization and left the dais.

Motion by Councilmember Houdesheldt, seconded by Councilmember Roccucci, to approve the Grants Advisory Commission's FY2026-27 funding recommendations, awarding Wayfinder Family Services $7500 from the Citizens' Benefit Fund. The motion passed.

Ayes: Councilmember Houdesheldt, Councilmember Roccucci, Mayor Bernasconi.
Absent: Vice Mayor Alvord, Councilmember Mendonsa.

Vice Mayor Alvord returned to the dais.

Councilmember Roccucci declared a conflict of interest as her spouse serves on the Roseville Historical Society Board and left the dais.

Motion by Vice Mayor Alvord, seconded by Councilmember Houdesheldt, to approve the Grants Advisory Commission's FY2026-27 funding recommendations, awarding Roseville Historical Society $9,500 from the Citizens' Benefit Fund. The motion passed.

Ayes: Vice Mayor Alvord, Councilmember Houdesheldt, Mayor Bernasconi.
Absent: Councilmember Roccucci, Councilmember Mendonsa.

Councilmember Roccucci returned to the dais.

Motion by Councilmember Roccucci, seconded by Vice Mayor Alvord, to approve the Grants Advisory Commission's FY2026-27 funding as recommended from the Citizens' Benefit Fund to the remaining 16 nonprofit organizations. The motion passed.

Ayes: Vice Mayor Alvord, Councilmember Houdesheldt, Mayor Bernasconi.
Absent: Councilmember Mendonsa.

31. General Municipal Election - November 3, 2026 (CITY CLERK DEPARTMENT)

Summary: Staff recommends approval to call a General Municipal Election to be held on Tuesday, November 3, 2026, request that the Placer County Board of Supervisors consolidate the election with any other election conducted on said date, allow for arguments and rebuttals, elect Councilmembers in Districts Two and Four, request election services from the Placer County Clerk/Registrar of Voters, and to submit the previously approved Council Compensation Adjustment and Inflation Limitation Measure to the voters of the City of Roseville.

CONTACT: Carmen Avalos 916-774-5269 cavalos@roseville.ca.us

The City Council will consider the recommendation to:

a. Adopt Resolution No. 26-166 declaring a General Municipal Election be held on Tuesday, November 3, 2026, and requesting the Placer County Board of Supervisors to consolidate the election with any other election conducted on said date, and requesting election services by the Placer County Clerk/Registrar of Voters to fill two City Council vacancies in City of Roseville Districts 2 and 4; and to submit a Council Compensation Adjustment and Inflation Limitation Measure "A" to the voters of the City of Roseville.

City Clerk Carmen Avalos made the presentation to the City Council.

No public comment received.

Motion by Councilmember Houdeshledt, seconded by Vice Mayor Alvord, to adopt Resolution No. 26-166 declaring a General Municipal Election be held on Tuesday, November 3, 2026, and requesting the Placer County Board of Supervisors to consolidate the election with any other

election conducted on said date, and requesting election services by the Placer County Clerk/Registrar of Voters to fill two City Council vacancies in City of Roseville Districts 2 and 4; and to submit a Council Compensation Adjustment and Inflation Limitation Measure "A" to the voters of the City of Roseville. The motion passed.

Ayes: Vice Mayor Alvord, Councilmember Houdesheldt, Mayor Bernasconi.
Noes: Councilmember Roccucci.
Absent: Councilmember Mendonsa.

IX. PUBLIC COMMENTS

This is the second opportunity to make a public comment on non-agenda items.

No public comment received.

X. STAFF/COUNCIL REPORTS

Councilmember Roccucci reported on various community events.

Placer County Flood Control and Water Conservation Meeting - Councilmember Roccucci reported on attendance.

Councilmember Houdesheldt reported on various community events.

Mayor Bernasconi reported on various community events.

XI. ADJOURNMENT

Mayor Bernasconi adjourned the meeting at 7:14 P.M.

Krista Bernasconi, Mayor
Karen Alvord, Vice Mayor
Bruce Houdesheldt, Councilmember
Tracy Mendonsa, Councilmember
Pauline Roccucci, Councilmember
Dominick Casey, City Manager
Michelle Sheidenberger, City Attorney
Carmen Avalos, City Clerk

MINUTES

City Council / Housing Authority Meeting
June 3, 2026
6:00 PM
Roseville Electric Building,
116 S. Grant Street, 1st Floor

I. CALL TO ORDER

Mayor Bernasconi called the meeting to order at 6:00 P.M.

II. ROLL CALL

Present: Vice Mayor Alvord, Councilmember Mendonsa, Councilmember Roccucci, Mayor Bernasconi.
Absent: Councilmember Houdesheldt.

III. PLEDGE OF ALLEGIANCE

Parks and Recreation Commissioner Kevin Hernandez led the Pledge of Allegiance.

IV. MEETING PROCEDURES

City Clerk Carmen Avalos announced the procedures for addressing the City Council.

V. PUBLIC COMMENTS

This is the first opportunity to make a public comment on non-agenda items.

Natasha Nicholson spoke on data centers in Roseville.

Jennifer Chapman spoke on the use of Council Discretionary Funds and sound walls.

VI. CONSENT CALENDAR

Motion by Councilmember Mendonsa, seconded by Councilmember Roccucci, to approve the Consent Calendar as recommended. The motion passed.

Ayes: Vice Mayor Alvord, Councilmember Mendonsa, Councilmember Roccucci, Mayor Bernasoni.
Absent: Councilmember Houdesheldt.

1. **Water Meters and Related Parts - Sole Source Purchase Order** (ENVIRONMENTAL UTILITIES DEPARTMENT)

   Summary: Staff recommends approval of a sole source purchase order with Thirkettle Corporation dba Aqua Metric Sales Company for Sensus water meters and related parts for $950,000 in FY2026-27. In addition, staff requests this purchase order be renewed annually as follows, subject to budget approval: FY2027-28 estimated at $980,000; FY2028-29 estimated at $1,010,000; and FY2029-30 estimated at $1,045,000, for an estimated total amount of $3,985.000. Funding for meter purchases comes from the Water Operations Fund, Water Rehabilitation Fund, and the Recycled Water operating budget in the Wastewater Operations Fund.

   CONTACT: Robert Strebel 916-746-1717 rjstrebel@roseville.ca.us

   The City Council will consider the recommendation to:

   a. Approve Resolution No. 26-171 approving a sole source purchase order for water meters and related parts.

2. **Louis/Orlando Bus Charging Improvement Project - Budget Adjustment** (PUBLIC WORKS DEPARTMENT - TRANSPORTATION)

   Summary: Staff recommends approval of a budget adjustment to fund the Louis/Orlando Bus Charging Improvement Project. The estimated cost of this project is $2,510,740. These costs include procurement, installation, contingencies, and staff time. The project will be fully funded with SB125 funds provided by the California State Transportation Agency (CalSTA). Both revenue and expenditure budgets in the Transit Fund will be increased accordingly. This adjustment will have no impact on the General Fund.

   CONTACT: Ed Scofield 916-774-5449 ecscofield@roseville.ca.us

   The City Council will consider the recommendation to:

   a. Adopt Ordinance No. 7075 authorizing certain amendments to the fiscal year 2025-26 budget and declaring this ordinance to be immediately effective as an appropriation measure.

3. **Fiscal Year 2025-26 Transportation Development Act Claims** (PUBLIC WORKS DEPARTMENT - TRANSPORTATION)

   Summary: Staff recommends approval of the Fiscal Year (FY) 2025-26 Transportation Development Act (TDA) claims in the amount of $12,910,937 and authorize the City Manager or his designee to execute the claim on behalf of the City.

   CONTACT: Kimberly Goulet 916-746-1320 kegoulet@roseville.ca.us

   The City Council will consider the recommendation to:

   a. Approve Resolution No. 26-170 approving and authorizing execution of the 2024/25

Transportation Development Act claims to the Placer County Transportation Planning Agency and authorize the City Manager or his designee to execute them on behalf of the City.

4. **Zero Emission Bus Depot Project (Phase 2 and 3) - Contract Purchase Agreement Amendment** (PUBLIC WORKS DEPARTMENT - TRANSPORTATION)

Summary: Staff recommends approval of an amendment to the Zero Emission Bus Depot Project (Phase 2 and 3) Contract Purchase Agreement to include the Federal Transit Administration's 2026 Federal Clauses. Approval of this amendment will allow staff to continue to use federal dollars to help pay for the Zero Emission Bus Depot Project.

CONTACT: Ed Scofield 916-774-5449 ecscofield@roseville.ca.us

The City Council will consider the recommendation to:

a. Adopt Resolution No. 26-173 approving amendment 1 to contract purchase agreement, by and between the City of Roseville and Vasko Electric Inc., and authorizing the City Manager to execute it on behalf of the City of Roseville.

5. **Dry Creek Greenway East Phase 2 - Grant Authorization** (PUBLIC WORKS DEPARTMENT - TRANSPORTATION)

Summary: Staff recommends adoption of a resolution authorizing the City Manager, or designee, to submit a grant application to the Sacramento Area Council of Governments 2026 Federal Funding Program under the Next Generation Solutions & Clean Air Program, and to execute all related grant documents and comply with timely project delivery requirements. The grant application would support the Dry Creek Greenway East Phase 2 multi-use bike trail project.

CONTACT: Suzanne Engelke 916-746-1289 sengelke@roseville.ca.us

The City Council will consider the recommendation to:

a. Adopt Resolution No. 26-175 authorizing applications for grant funding from the Sacramento Area Council of Governments (SACOG) 2026 Federal Funding Programs; authorizing the City Manager or his designee to submit City of Roseville SACOG 2026 Federal Funding Program application priorities; and authorizing the City Manager or his designee to execute all grant documents and timely project delivery requirements.

6. **Disposal and Auction Services - Contract Purchase Agreement** (FINANCE DEPARTMENT - PURCHASING)

Summary: Staff recommends approval of a contract purchase agreement with J.J. Kane Associates, Inc., dba JJ Kane Auctions, on an as-needed basis utilizing Sourcewell Contract #111424-JJK. The Fleet and Purchasing/Central Stores Divisions require auction services to liquidate retired vehicles, equipment and other surplus goods that are no longer required by the City. This is a revenue-generating agreement, with the service costs paid by successful bidders. Revenue generated from the agreement is estimated at approximately $500,000 annually. Staff also requests authorization to renew the agreement three times without further City Council

approval, contingent upon staff's determination that continued use of the service is in the City's best interest.

CONTACT: Tiffany Valdez 916-746-1109 tvaldez@roseville.ca.us

The City Council will consider the recommendation to:

a. Adopt Resolution No. 26-172 approving a contract purchase agreement, by and between the City of Roseville and J.J. Kane Associates, Inc. dba JJ Kane Auctions, and authorizing the City Manager to execute it on behalf of the City of Roseville.

7. 2090 Hilltop Backup Generator Replacement (RFQ 10-3444) – Contract Purchase Agreement (FINANCE DEPARTMENT - PURCHASING)

Summary: Staff recommends approval of a contract purchase agreement with Elite Power, Inc. as the lowest responsive and responsible bidder for Request for Quotations No.10-3444 2090 Hilltop Backup Generator Replacement. The cost of the Agreement is $107,908. Additionally, adopt a resolution authorizing the City Manager to sign the contract purchase agreement and authorizing the Public Works Director or designee to approve change order requests for this project up to 10% ($10,790) as a construction contingency, for a grand total of $118,698. Funding is included in the Electric Fund budget.

CONTACT: Tiffany Valdez 916-746-1109 tvaldez@roseville.ca.us

The City Council will consider the recommendation to:

a. Adopt Resolution No. 26-174 approving a contract purchase agreement, by and between the City of Roseville and Elite Power, Inc., and authorizing the City Manager to execute it on behalf of the City of Roseville.

8. Reservation of Affordable Housing Funds for Development of the Westpark Affordable Apartments (ECONOMIC DEVELOPMENT DEPARTMENT - HOUSING)

Summary: Staff recommends approval to reserve affordable housing funds for a proposed affordable housing project in Roseville. The request is to reserve $1,775,000 from the City's Low and Moderate Income Asset Fund (Low/Mod) for construction of St. Anton's affordable housing project, Westpark Affordable Apartments. The Low/Mod funds being considered for this loan originated from the repayment of a prior affordable housing loan and are being proposed to support a new affordable housing activity. No General Fund resources will be used.

CONTACT: Trisha Isom 916-746-1239 tisom@roseville.ca.us

The City Council will consider the recommendation to:

a. Adopt Resolution No. 26-176 authorizing reservation of Affordable Housing Funds for development of the Westpark Affordable Apartments Project.

9. HOUSING AUTHORITY BOARD/CITY COUNCIL - Quarterly Update 1st Quarter 2026 (ECONOMIC DEVELOPMENT DEPARTMENT - HOUSING)

Summary: Staff recommends City Council, acting as the Roseville Housing Authority Board, receive a quarterly report on the Housing Authority's Housing Choice Voucher Program. This report is for informational purposes only and has no impact on the City's General Fund.

CONTACT: Suzi Cook-Turner, Trisha Isom 916-774-5414, 916-746-1239 smcook-turner@roseville.ca.us, tisom@roseville.ca.us

The City Council will consider the recommendation to:

a. This quarterly report is for informational purposes only and requires no City Council action.

10. State Legislative and Regulatory Representation Consulting - Professional Services Agreement (PUBLIC AFFAIRS AND COMMUNICATIONS DEPARTMENT)

Summary: Staff requests approval of a professional services agreement with Joe A. Gonsalves & Son for State Legislative and Regulatory Representation Consulting Services to provide state legislative and regulatory representation consulting services related to legislative advocacy, regulatory monitoring, policy analysis, and strategic government relations support. Following the completion of the competitive procurement process, staff recommends awarding a professional services agreement to Joe A. Gonsalves & Son to continue providing these services to the City of Roseville. The initial one-year agreement includes a monthly retainer of $9,000, for a total annual not-to-exceed amount of $108,000. While the agreement includes the option for up to four additional one-year renewals, each renewal would be subject to annual budget approval and a determination that continuation of the services remains in the best interest of the City. Based on the proposed rate structure for the initial agreement term and all potential renewal terms, the cumulative not-to-exceed amount over the possible five-year period is $600,000. Funding for the proposed agreement is included in the Public Affairs and Communications Department General Fund budget and is incorporated into the proposed FY 2026-27 budget.

CONTACT: Rob Baquera 916-746-1170 rbaquera@roseville.ca.us

The City Council will consider the recommendation to:

a. Adopt Resolution No. 26-177 approving a professional services agreement, by and between the City of Roseville and Joe A. Gonsalves & Son, and authorizing the City Manager to execute it on behalf of the City of Roseville.

11. Appointments - City Council Auxiliary Positions (CITY CLERK DEPARTMENT)

Summary: It is recommended that the City Council approve the appointment of Vice Mayor Alvord as an alternate to the Sites Reservoir Project Joint Powers Authority Board of Directors.

CONTACT: Helen Dreyer hdreyer@roseville.ca.us

The City Council will consider the recommendation to:

a. Approve the appointment of Vice Mayor Alvord as an alternate to the Sites Reservoir Project Joint Powers Authority Board of Directors.

END OF CONSENT CALENDAR

VII. PRESENTATIONS/REPORTS

12. Park Naming Recommendations (PARKS, RECREATION, AND LIBRARIES DEPARTMENT - PARK DEVELOPMENT)

Summary: Staff recommends that the Council adopt a resolution to approve park name recommendations for four new parks. Funding for the new park identification signs is included as a part of each capital project.

CONTACT: Tara Gee 916-774-5253 tgee@roseville.ca.us

The City Council will consider the recommendation to:

a. Approve Resolution No. 26-169 approving park name recommendations.

Parks, Recreation & Libraries Director Jill Nunes introduced Park Planning and Development Manager Tara Gee.

Park Planning and Development Manager Tara Gee made the presentation to City Council.

Parks and Recreation Commissioner Kevin Hernandez spoke in support of the park naming item.

Ed Smith spoke in support of naming JM-51 Bernie Milmoe Park.

Motion by Vice Mayor Alvord, seconded by Councilmember Roccucci, to adopt Resolution No. 26-169 approving park naming recommendations. The motion passed.

Ayes: Vice Mayor Alvord, Councilmember Mendonsa, Councilmember Roccucci, Mayor Bernasoni.
Absent: Councilmember Houdesheldt.

13. Impound Fee for Out-of-Class Electric Bicycles & Pocket Bikes (POLICE DEPARTMENT)

Summary: Staff recommends adopting an electric bicycle and pocket bike impound fee in the amount of $250 pursuant to California Vehicle Code Section 22651.08 and to incorporate such fee into the City's most current master Schedule of User and Regulatory Fees. There is no fiscal impact associated with the proposed action.

CONTACT: Courtney Scurria 916-746-1051 CScurria@roseville.ca.us

The City Council will consider the recommendation to:

a. Adopt Resolution No. 26-167 adopting impound fee for out-of-class electric bicycles and pocket bikes and incorporating the fee into the schedule of User and Regulatory Fees.

Police Chief Jeff Beigh introduced Police Lieutenant Courtney Scurria and Police Services Administrator Katie Braverman.

Lieutenant Courtney Scurria made the presentation to City Council.

Police Services Administrator Katie Braverman continued the presentation to City Council.

An unknown individual inquired what happens to the impounded bikes that are not retrieved.

Jennifer Chapman inquired if violators from adjacent jurisdictions would be penalized the same as Roseville residents.

Motion by Councilmember Mendonsa, seconded by Councilmember Roccucci, to adopt Resolution No. 26-167 adopting an impound fee for out-of-class electric bicycles and pocket bikes and incorporating the fee into the schedule of User and Regulatory Fees. The motion passed.

Ayes: Vice Mayor Alvord, Councilmember Mendonsa, Councilmember Roccucci, Mayor Bernasoni.
Absent: Councilmember Houdesheldt.

14. Senate Bill 707 - Administrative Standards Update (CITY ATTORNEY DEPARTMENT)

Summary: Staff recommends approval of updates to the City Council/Boards, Commissions, & Committees Administrative Standards, the City's public meeting procedures. Senate Bill 707 (SB 707), portions of which went into effect on January 1, 2026, and other portions which go into effect on July 1, 2026, implements the most extensive revisions to the Brown Act in decades. The revisions were designed to strengthen public participation by requiring certain city councils, such as Roseville, to offer public remote access to public meetings via telephonic or audiovisual platforms. The proposed updates to the Administrative Standards include not only the necessary changes required by SB 707, but some additional revisions identified by staff due to changes in the law, to add clarity, and to address areas currently not addressed in the procedures. There will be a minor fiscal impact to the General Fund related to offering remote public participation.

CONTACT: Michelle Sheidenberger 916-774-5325 msheidenberger@roseville.ca.us

The City Council will consider the recommendation to:

a. Adopt Resolution No. 26-168 approving the City Council/Boards, Commissions, and Committees Administrative Standards updates.

City Attorney Michelle Sheidenberger introduced Chief Information Officer Sae Hong and made the presentation to City Council.

Jennifer Chapman spoke in support of the call-in option for City Council meetings and not allowing individuals to serve on more than one commission/committee.

Motion by Vice Mayor Alvord, seconded by Councilmember Mendonsa, to adopt Resolution No. 26-168 approving the City Council/Boards, Commissions, and Committees Administrative Standards updates. The motion passed.

Ayes: Vice Mayor Alvord, Councilmember Mendonsa, Councilmember Roccucci, Mayor Bernasoni.
Absent: Councilmember Houdesheldt.

VIII. PUBLIC HEARINGS

NOTICE TO THE PUBLIC: Public Hearing Process

City Council, when considering the matter, will take the following actions:

1. Open the Public Hearing
2. Presentation by staff
3. Presentation by applicant or appellant
4. Accept public testimony
5. Appellant or applicant rebuttal period
6. Close the Public Hearing
7. City Council comments and questions
8. City Council action

Any challenges in court about public hearing matters noticed on this agenda may be limited to only those issues, that were raised orally at the public hearing or in written form received by the City on or before the hearing.
Public Hearings listed for continuance will be continued and posting of this agenda will serve as notice of continuation.

15. Fiscal Year 2026-27 Landscaping and Lighting District Assessments - Amending and/or Approving the Engineer's Annual Levy Report, Ordering the Levy and Collection of Assessments (FINANCE DEPARTMENT)

Summary: Staff recommends approval of the engineer's annual levy reports for fiscal year 2026-27 and ordering the levy and collection of assessments within the described Landscaping and Lighting Districts (individually "LLD collectively "LLDs"). These LLDs were formed within the City to levy and collect assessments for maintenance of public improvements pursuant to the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the Streets and Highways Code, Sections 22500, et seq., and Article XIII D of the California Constitution. All charges are needed to fund landscape services in each LLD. There is no fiscal impact to the General Fund.

CONTACT: Jeannine Thrash 916-774-5473 jthrash@roseville.ca.us

The City Council will consider the recommendation to:

a. Adopt Resolution No. 26-178 amending and/or approving the Engineer’s Annual Levy Report for the Historic District Landscaping and Lighting District, Fiscal Year 2026/2027; and

b. Adopt Resolution No. 26-179 ordering the levy and collection of assessments within the Historic District Landscaping and Lighting District, for Fiscal Year 2026/2027; and

c. Adopt Resolution No. 26-180 amending and/or approving the Engineer's Annual Levy Report for the Infill Area Landscaping and Lighting District, Fiscal Year 2026/2027; and

d. Adopt Resolution No. 26-181 ordering the levy and collection of assessments within the Infill Area Landscaping and Lighting District for Fiscal Year 2026/2027; and

e. Adopt Resolution No, 26-182 amending and/or approving the Engineer's Annual Levy Report for the Johnson Ranch Landscaping and Lighting District, Fiscal Year 2026/2027; and

f. Adopt Resolution No. 26-183 ordering the levy and collection of assessments within the Johnson Ranch Landscaping and Lighting District for Fiscal Year 2026/2027; and

g. Adopt Resolution No. 26-184 amending and/or approving the Engineer's Annual Levy Report for the North Central Roseville Specific Plan Landscaping and Lighting District, Fiscal Year 2026/2027; and

h. Adopt Resolution No. 26-185 ordering the levy and collection of assessments within the North Central Roseville Specific Plan Landscaping and Lighting District for Fiscal Year 2026/2027; and

i. Adopt Resolution No. 26-186 amending and/or approving the Engineer's Annual Levy Report for the Northwest Roseville Specific Plan Landscaping and Lighting District, Fiscal Year 2026/2027; and

j. Adopt Resolution No. 26-187 ordering the levy and collection of assessments within the Northwest Roseville Specific Plan Landscaping and Lighting District for Fiscal Year 2026/2027; and

k. Adopt Resolution No. 26-188 amending and/or approving the Engineer's Annual Levy Report for the Olympus Pointe Landscaping and Lighting District, Fiscal Year 2026/2027; and

l. Adopt Resolution No. 26-189 ordering the levy and collection of assessments within the Olympus Pointe Landscaping and Lighting District for Fiscal Year 2026/2027; and

m. Adopt Resolution No. 26-190 amending and/or approving the Engineer's Annual Levy Report for the Riverside Avenue Landscaping and Lighting District, Fiscal Year 2026/2027; and

n. Adopt Resolution No. 26-191 ordering the levy and collection of assessments within the Riverside Avenue Landscaping and Lighting District, for Fiscal Year 2026/2027; and

o. Adopt Resolution No. 26-192 amending and/or approving the Engineer's Annual Levy Report for the Vernon Street Landscaping and Lighting District, Fiscal Year 2026/2027; and

p. Adopt Resolution No. 26-193 ordering the levy and collection of assessments within the Vernon Street Landscaping and Lighting District for Fiscal Year 2026/2027.

Finance Director Scott Pettingell made the presentation to City Council.

Jennifer Chapman spoke on the maintenance of sound walls to be included in the districts.

Motion by Councilmember Roccucci, seconded by Councilmember Mendonsa, to adopt Resolutions 26-178 through 26-193 for Fiscal Year 2026–2027, approving annual levy of assessments for the City's Landscaping and Lighting Districts, ordering the levy and collection of those assessments, and amending and/or approving the Engineer's Annual Levy Reports for each district, as set forth in the applicable resolutions and agenda materials which are incorporated by reference for. Historic District, Infill Area, Johnson Ranch, North Central Roseville Specific Plan, Northwest Roseville Specific Plan, Olympus Pointe, Riverside Avenue, Vernon Street District.The motion passed.

Ayes: Vice Mayor Alvord, Councilmember Mendonsa, Councilmember Roccucci, Mayor Bernasoni.
Absent: Councilmember Houdesheldt.

City Council Communication

Meeting Date: 6/17/2026
Item #: VIII.58
File #: 0103 & 0103-07-03 & 0103-08-03 & 0103-09-03 & & 0103-34-03 & 0103-44-03
Item ID: 2026-491

Title:	Board and Commissions Bi-Annual Vacancies
Contact:	Katrina Six 916-774-5267 kmsix@roseville.ca.us

SUMMARY

Staff recommends Council appoint two (2) individuals to the Economic Development Advisory Committee to terms expiring June 30, 2028 from the applications received from Kristen Holihan, Derek Pell, and Angela Tsukiji; appoint three (3) individuals to the Grants Advisory Commission to terms expiring June 30, 2030 from the applications received from Nina Acosta, Rick Jenkins, Loretta Odebiyi, Jim Ratliff, and David Williams; appoint Ravi Sharma to the Local Sales Tax Citizens' Oversight Committee to a term expiring June 30, 2027; and appoint three (3) individuals to the Planning Commission to terms expiring June 30, 2030 from the applications received from Sandra Pollack-Cushing, Frank Fernandez, Ed Kriz, Einar Maisch, Derek Pell, Jason Probst, and Julia Sweeney.

RECOMMENDATION

Staff recommends that the City Council:

a. Appoint two (2) individuals to the Economic Development Advisory Committee to terms expiring June 30, 2028 from the applications received from: Kristen Holihan, Derek Pell, and Angela Tsukiji; and

b. Appoint three (3) individuals to the Grants Advisory Commission to terms expiring June 30, 2030 from the applications received from Nina Acosta, Rick Jenkins, Loretta Odebiyi, Jim Ratliff, and David Williams; and

c. Appoint Ravi Sharma to the Local Sales Tax Citizens' Oversight Committee to terms expiring June 30, 2027; and

d. Appoint three (3) individuals to the Planning Commission to terms expiring June 30, 2030 from the applications received from Sandra Pollack-Cushing, Frank Fernandez, Ed Kriz, Einar Maisch, Derek Pell, Jason Probst, and Julia Sweeney.

BACKGROUND

Appointments are due to be made as part of the bi-annual recruitment process. Recruitment for all vacancies occurred in May and June. Video interviews of the applicants were conducted by the City Clerk Department, and the City Attorney’s Office reviewed the Statements of Economic Interest (Form 700) for potential conflicts of interest. The applications, video interviews, and confidential attorney review are compiled and provided to the City Council for consideration. The Local Sales Tax Citizens' Oversight Committee received one application and, as such, Ravi Sharma will be appointed to the position.

FISCAL IMPACT
There is no fiscal impact.

ENVIRONMENTAL REVIEW
The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The appointment of members to boards or commissions meets the above criteria and is not subject to CEQA. No additional environmental review is required.

Title:	Fiscal Year 2026-27 Citywide Budget, Position Allocation Schedule, Roseville Housing Authority Budget, and Roseville Finance Authority Budget
Contact:	Jackie Rice 916-774-5326 jrice@roseville.ca.us

SUMMARY

Staff recommends approval of the proposed City of Roseville Fiscal Year (FY) 2026-27 citywide budget and position allocation schedule, as incorporated into the budget document, effective July 1, 2026. The proposed FY2026-27 expenditure budget totals $876.8 million from all funding sources. The General Fund expenditure budget is $275.3 million, consisting of $257.9 million in operating expenditures and $17.4 million in non-operating expenditures. The FY2026-27 Roseville Housing Authority expenditure budget totals $12.9 million and is primarily comprised of funding from the federally funded Housing Choice Voucher Program, which provides rental assistance to up to 846 families, seniors, persons with disabilities, and veterans annually. The FY2026-27 Roseville Finance Authority budget includes $878,881 in debt service payments, reflecting scheduled payments on the Certificates of Participation for 316 Vernon Street. In addition, capital outlay expenditures totaling $645,615 are budgeted for park improvements at Crabb Park, Goto Park, and Uribe Park.

RECOMMENDATION

Staff recommends that the City Council take the following actions:
1. Adopt an ordinance approving the proposed City of Roseville FY2026-27 citywide budget and the position allocation schedule as incorporated into the budget document, effective July 1, 2026; and
2. Adopt a resolution approving the Roseville Housing Authority budget for FY2026-27; and
3. Adopt a resolution approving the Roseville Finance Authority budget for FY2026-27.

BACKGROUND

CITYWIDE BUDGET

Fiscal Summary: The FY2026-27 proposed expenditure budget totals $876.8 million from all funding sources.

Positions: The proposed budget includes a net increase of 14 positions that align with the City Council's strategic plan and address critical service level requirements. These recommended positions will increase the total citywide position count from 1,419 to 1,433. The citywide position allocation schedule is incorporated into the FY2026-27 budget document.

City Council Strategic Plan Goals: The following City Council strategic plan goals guided the budget process. The FY2026-27 budget document highlights the budget augmentations, accomplishments, City services, and performance measures aligned with these goals:

· Ensure a safe and healthy community

· Remain fiscally responsible in a changing world

· Enhance economic vitality

· Invest in well-planned infrastructure and growth

· Support community engagement and advocacy

· Deliver exceptional city services

Process: The proposed budget results from an extensive process that includes a City Council strategic planning workshop, budget development updates, utilities budget updates, a Capital Improvement Program budget overview, an update to financial policies, and a Budget Workshop.

Awareness and Outreach: Public outreach on the budget includes posting budget information on the City website, e-newsletters, and social media. The Proposed Budget and the Proposed Budget Overview can be viewed at Roseville.ca.gov/budget and hard copies are available at each of the three libraries and the City Clerk's Office.

Budget Ordinance: The annual budget ordinance includes the following modifications:

1. Section 3.3.8 (new item) – The City Manager or designee is authorized to adjust the Development Services revenue budget for the Certified Access Specialist (CASp) Fee, along with corresponding adjustments to the Accessibility Compliance Project (CASp) Non-Capital Multiyear Project, as needed to ensure compliance with Government Code Section 4467.

2. Section 3.6.5 (new item) – The City Manager or designee is authorized to change fund numbers or other fund attributes that do not increase total appropriations and are consistent with City Council intent.

GENERAL FUND

Fiscal Summary: The budget for the General Fund is $275.3 million, which includes operating ($257.9 million) and non-operating expenditures ($17.4 million). Per Council-adopted financial policies, the General Fund budget matches budgeted operating (i.e., ongoing) expenses with projected operating revenues, with resources available to increase reserves up to Council-adopted targets.

Measure B: The proposed budget includes $32.5 million in Measure B local sales tax revenues. These revenues allow the City to maintain current service levels, restore services, and strategically invest in high-priority areas while still achieving a balanced budget.

General Fund Stabilization Reserve Fund: The FY2026-27 budget includes a transfer of approximately $2 million from the General Fund to the Stabilization Reserve Fund to bring its total balance to $38.2 million or 15 percent of the General Fund operations budget. The General Fund Stabilization Reserve

Fund may be used strategically to allow time for the City to restructure its operations in a deliberate manner in an economic downturn while minimizing service disruption. Use of the Stabilization Reserve will only take place in the context of a Council-adopted long-term plan.

General Fund Emergency Reserve Fund: The FY2026-27 budget includes a transfer of approximately $1.4 million from the General Fund into the Emergency Reserve Fund to bring its total balance to $25.5 million or 10 percent of the General Fund operations budget. The purpose of this reserve is to have the ability to fund significant short-term unanticipated, nonrecurring expenditures during declared emergencies should the need arise.

ROSEVILLE HOUSING AUTHORITY BUDGET

The Roseville Housing Authority (RHA) was formed in October 1974 and administers the Housing Choice Voucher (HCV) Program and provides rental assistance for low-income residents to access quality, affordable, and safe housing. RHA ensures housing stability and economic self-sufficiency for up to 846 families, seniors, disabled persons, and veterans annually. Rental assistance for income-qualified participants is paid directly to property owners participating in the HCV Program. The Housing Authority receives funding from the Federal Department of Housing and Urban Development (HUD). Roseville's HCV program infuses over $13.5 million in federal funds into the local economy, including administration revenue that covers most of the staff costs to administer the program.

Budget Analysis: RHA is a separate legal entity from the City, and therefore its budget is approved by its Board of Directors, who the City Council represents. Financial activities are audited annually as part of the citywide audit, and its financial statements are included in the City of Roseville's annual comprehensive financial report. The details for the FY2026-27 revenues and expenditures are presented in the Budget Item Detail (attached) and are further discussed below. RHA has budgeted $11,574,061 for housing assistance payments (HAP) revenue for all vouchers. When a participating household finds rental housing that meets program requirements, written agreements are signed between the owner, tenant, and RHA, outlining their respective rights and responsibilities. Program participants pay approximately 30 percent of their income toward rent and utilities, and RHA pays the balance of the contract rent directly to the property owner each month. An additional $12,000 in fraud recovery for HAP payments is also included in the revenue estimate.

Rental Assistance Programs & Family Self-Sufficiency Funding/Revenue – Administration

RHA administers regular Housing Choice Vouchers, Non-Elderly Disabled (NED), Veterans Affairs Supportive Housing (VASH), Mainstream, Emergency Housing (EHV), and Project-Based Vouchers. Each year, the Housing Authority also participates in HUD's Family Self-Sufficiency (FSS) Program, encouraging families assisted through the HCV Program to increase their earned income and reduce their dependency on state and federal assistance and rental subsidies. In the FSS program, each time a participant's income increases, a portion of their housing assistance payment is diverted to an interest-bearing account. During their participation in the FSS program, participants set goals to decrease their dependency on welfare subsidies. After five years, if participants complete the required objectives of their program plan, they receive the balance in their escrow account. They may use the funds for various needs, such as a down payment on a house, a car, education loans, or other items that further their self-sufficiency goals. During the last year, three voucher holders graduated from the five-year program with a combined total of approximately $14,000. HUD awards FSS grants to Housing Authorities who apply for the funding. The

FSS funding for FY2026-27 of $89,945 offsets a portion of the salaries and benefits of the program coordinator and other staff who help administer the program.

Administrative and Other Miscellaneous Revenues

RHA earns administrative revenues based on the number of vouchers that have been leased. The estimated payments total $1,030,113. RHA also administers a portion of the HCV Program for tenants who live in the City of Rocklin. A minimum administrative fee is charged to recover service costs, with $20,000 budgeted for FY2026-27 based on an existing agreement with the City of Rocklin. Interest, Portability Billing, and Fraud Recovery is estimated to be $10,720, for a total of $1,150,778.

Personnel and Other Administrative Costs

The following table illustrates the estimated revenues and expenditures needed to manage the HCV program in FY2026-27 successfully. Materials, supplies, and services and indirect costs total $216,050, and salaries, wages, and benefits are $1,064,394, for a total of $1,280,444. The net expenditures are estimated to exceed the revenue by $143,697. The estimated Admin Equity in the fund balance of $682,982 will be used to fund $143,697 of expenses.

HAP Admin funds earned from projected leases:	$1,030,113
FSS Administrative Funds:	$89,945
Other Revenues (Rocklin, Repayments, and Interest):	$30,720
Total Available Revenues & Resources:	**$1,150,778**
Materials, Supplies, Services & Indirects:	$138,429
Reimbursed Indirect Costs - Charged:	$104,921
Salaries, Wages & Benefits:	$1,051,125
Total Administrative Costs:	**1,294,475**
Net Revenue over Expenditures	**($143,697)**

ROSEVILLE FINANCE AUTHORITY BUDGET

Debt service payments of $878,881, reflect scheduled payments on the Certificates of Participation (COPs) for 316 Vernon Street. The Authority has issued other bonds and COPs, but that debt service is reflected in the City's budget within each respective fund. For CFD bond issues, the Authority acts as a conduit to collect payments through the County property tax levy process to repay the outstanding debt of these special districts. Capital outlay is budgeted at $645,615 to be used for improvements to Crabb Park, Goto Park, and Uribe Park.

The Roseville Finance Authority budget for FY2026-27 is attached.

FISCAL IMPACT

The City of Roseville FY2026-27 citywide budget document provides a financial summary for each fund, department, capital improvement project, and non-capital multi-year project. The FY2026-27 Roseville Housing Authority and FY2026-27 Roseville Finance Authority budgets provide the financial summaries for those entities.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §20165 and CEQA State Guidelines §15060(c)(3) and §15378. The Fiscal Year 2026-27 Citywide Budget, Position Allocation Schedule, Housing Authority Budget, and Roseville Finance Authority Budget meet the above criteria and are not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

1. Ensure a safe and healthy community
2. Remain fiscally responsible in a changing world
3. Enhance economic vitality
4. Invest in well-planned infrastructure and growth
5. Support community engagement and advocacy
6. Deliver exceptional City services

Respectfully Submitted,
Jackie Rice, Budget Manager

Scott Pettingell, Finance Director

ORDINANCE NO. 7083

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE ADOPTING THE ANNUAL BUDGET FOR THE FISCAL YEAR 2026-27, ADOPTING BUDGET CONTROL POLICIES, ADOPTING AN APPROPRIATIONS LIMIT, ADOPTING THE BUDGET FOR THE SUCCESSOR AGENCY OF THE ROSEVILLE REDEVELOPMENT AGENCY, TO BE EFFECTIVE IMMEDIATELY AS AN URGENCY MEASURE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. The proposed budget for the City of Roseville entitled "Proposed Budget Fiscal Year 2026-27, City of Roseville, California," a copy of which is on file in the office of the City Clerk, is hereby adopted as the "Annual Budget Fiscal Year 2026-27, City of Roseville, California."

SECTION 2. The proposed expenses, expenditures, transfers out, revenues, and transfers in shown in the fund, department operating budget and project summaries of the budget document, which are incorporated herein, are hereby appropriated to the departments and activities in the amounts and purposes therein stated. Encumbrances, expenses and expenditures of the various appropriations described in the budget document shall be made by those departments and employees designated therein as the requisitioning authorities.

SECTION 3. The following budget control policies shall become effective upon the adoption of this ordinance:

3.1. Budget Approval and Oversight

3.1.1. The operating budget of the City of Roseville and the Successor Agency of the Roseville Redevelopment Agency shall be approved by the following major expenditure/expense summary categories:

a. Salaries and Wages
b. Benefits
c. Materials, Supplies, and Services
d. Internal Reimbursements
e. Capital Outlay
f. Debt Service
g. Transfers Out

3.1.2. The City Manager or designee shall apply prudent monitoring procedures to assure that actual expenditures/expenses of the City and the Successor Agency of the Roseville Redevelopment Agency do not exceed the appropriations at the department level by fund.

3.1.3. The City Manager and Assistant City Manager/Chief Financial Officer are directed to ensure that the budget complies with City Council approved financial policies.

3.2. Operating Budget

3.2.1. The City Council delegates authority to the City Manager or designee to approve the movement of City Council approved appropriations within the same fund, excluding Capital Improvement and Non-Capital Multiyear Projects.

3.2.2. The City Manager or designee is authorized to increase or decrease operating revenue estimates and/or operating expenditure appropriations up to a cumulative total of $75,000 per fund each fiscal year, provided adequate resources are available to fund the budget adjustment(s).

3.3. Capital Improvement Projects and Non-Capital Multi-Year Projects

3.3.1. Capital Improvement Plan. The Capital Budget of the City of Roseville and the Successor Agency of the Roseville Redevelopment Agency shall be approved by Capital Improvement Project. Capital project appropriations shall be used solely for the original purpose approved by the City Council.

3.3.2. Non-Capital Multiyear Projects. The non-capital multiyear project budget for the City of Roseville and the Successor Agency of the Roseville Redevelopment Agency shall be approved by Non-Capital Multiyear Project. Non-Capital project appropriations shall be used solely for the original purpose approved by the City Council.

3.3.3. City Council approval is required to establish or cancel (without completion) new Capital Improvement Projects or Non-Capital Multi-Year Projects.

3.3.4. The City Manager or designee is authorized to increase or decrease Capital Improvement Projects and Non-Capital Multiyear Projects revenues and/or expenditure budgets by up to $75,000 each, provided adequate resources are available to fund the budget adjustment(s).

3.3.5. The City Manager or designee is authorized to change project numbers or other project attributes which do not increase total project appropriations by fund and is consistent with City Council intent.

3.3.6. The City Manager or designee is authorized to adjust the revenue and expenditure budget for the Development Services reimbursable development projects to match the actual amount of revenues received and expenditures incurred each fiscal year.

3.3.7. The City Manager or designee is authorized to adjust the Development Services revenue budget for the General Plan Update Fee to reflect actual revenues received and adjust the expenditure budget by a like amount in the General Plan Update Non-Capital Multiyear Project..

3.3.8 The City Manager or designee is authorized to adjust the Development Services revenue budget for the Certified Access Specialist (CASp) Fee, along with corresponding adjustments to the Accessibility Compliance Project (CASp) Non-Capital Multiyear Project, as needed to ensure compliance with Government Code Section 4467.

3.3.9. Annually, completed or inactive Capital Improvement Projects and Non-Capital Multi-Year Projects will be closed, except for projects that have

existing litigation, payment disputes or other extenuating circumstances. An inactive project is defined as one where transaction activity is less than $1,000 over the prior three years. Closures are the responsibility of the designated project manager. The managing department and the City Manager or designee have the authority to take the necessary steps to close completed or inactive projects, including appropriate decreases to the budget for unspent appropriations and/or uncollected revenues.

3.4. Budget Carry Forward

3.4.1. All encumbrances for valid purchase orders in effect as of June 30, 2026, will remain in effect in the following fiscal year. The City Manager or designee is authorized to increase the Fiscal Year 2026-27 budget appropriations, and any associated revenue or reimbursement budgets, in the amount of the outstanding encumbrances for valid purchase orders and contracts as of June 30, 2026.

3.4.2. The City Manager or designee is authorized to increase the Fiscal Year 2026-27 budget appropriations for the remaining unspent appropriations from the prior fiscal year for City Council approved fleet replacement.

3.4.3. The City Manager or designee is authorized to carry forward any unspent appropriations in Capital Improvement and Non-Capital Multi-Year Projects.

3.5. Contingency Budgets

3.5.1. The City Manager or designee is authorized to increase appropriations in any department or project from the General Fund Administrative Contingency.

3.5.2. The City Manager or designee is authorized to increase appropriations in the Environmental Utilities funds from the respective fund's contingency budget.

3.6. Administrative Budget Revisions

3.6.1. The City Manager or designee is authorized to eliminate funds, including increasing appropriations for transfers between funds up to $75,000, as required for proper accounting and fiscal management when the purpose of a fund has expired.

3.6.2. The City Manager or designee is authorized to revise any appropriation made in the Adopted Budget where the revision does not increase total appropriations by fund and is consistent with City Council intent.

3.6.3. The City Manager or designee is authorized to increase revenue estimates and appropriations for Council-approved bond issuances.

3.6.4. The City Manager or designee is authorized to refine/add content, as may be needed to meet Government Finance Officers Association (GFOA) and California Society of Municipal Finance Officers (CSMFO) budgeting award requirements, in the Proposed Budget to create the FY2026-27 Approved Budget.

3.6.5. The City Manager or designee is authorized to change fund numbers or other fund attributes that do not increase total appropriations and are consistent with City Council intent.

SECTION 4. Pursuant to Article XIII B of the California Constitution, the appropriations limit for the City of Roseville is hereby established in the FY2026-27 Approved Budget. The State Department of Finance provides the City the annual adjustment factors used in the appropriation limit calculation. The factors are the changes in the California Per Capita Personal Income and population levels for the City or the County.

SECTION 5. It is hereby ordered that a copy of this ordinance and the budget document be certified by the City Clerk and filed in the office of the City Clerk. The City Clerk is directed to post a copy of this ordinance in three (3) conspicuous locations in the City and enter the posting thereof in the Ordinance Book.

SECTION 6. This ordinance is required for the orderly operation and maintenance of municipal activities and the appropriations for usual and current expenses of the City and the Successor Agency of the Roseville Redevelopment Agency during the 2026-27 fiscal year. Therefore, this ordinance shall take effect immediately upon passage hereof as an urgency ordinance, pursuant to Section 5.03 of the Charter of the City of Roseville.

Title:	Council Discretionary Funds - Roseville Community Crime Stoppers
Contact:	Amy Ruiz 916-746-1362 aruiz@roseville.ca.us

SUMMARY

Staff recommends City Council consider providing sponsorship to Roseville Community Crime Stoppers for its annual Fourth of July Fun Run in the amount of $1,500. The balance remaining in the Council Discretionary Funds for FY2025-26 is $4,021.

RECOMMENDATION

Staff recommends that the City Council consider providing sponsorship to Roseville Community Crime Stoppers for its annual Fourth of July Fun Run.

BACKGROUND

City Council has awarded Council Discretionary Funds in support of this community event almost annually since 2012. Last year, the City Council sponsored the event with a $2,000 donation. The sponsorship supports the community in three important ways:

1.) Providing Roseville families an opportunity to enjoy time outdoors together in a safe and healthy activity in celebration of our nation's founding.

2.) Roseville Community Crime Stoppers, in cooperation with the Roseville Police Department, is managing a new software program, having a completely anonymous tip and reward software program for our community.

3.) Using the funds raised through runners' fees and sponsorship for cash rewards for information leading to arrests and convictions for serious crimes committed in Roseville, scholarships for Roseville youth pursuing careers in public safety, and community education on public safety.

The Citizens' Benefit Fund was established in 1993 with the net proceeds from the sale of the Roseville Hospital. The City Council may, after receiving the recommendation of the Roseville Grants Advisory Commission, annually appropriate up to 90 percent of the annual earnings of the Citizens' Benefit Fund for the purpose of improving the quality of life for the citizens of the City of Roseville. The City Council, without the recommendation of the Roseville Grants Advisory Commission, may annually appropriate a minor amount up to $15,000 of the annual earnings for the purpose of improving the quality of life in Roseville.

FISCAL IMPACT

There is no fiscal impact to the City's General Fund. Annually, the Assistant City Manager/Chief Financial Officer allocates $15,000 of the annual earnings on the Citizens' Benefit Fund per section 4.06.040 in the Municipal Code and includes it in the annual budget along with the Citizens' Benefit Fund resources available for appropriation each year. These earnings are restricted for the purpose of improving the quality of life for Roseville residents and appropriated by the City Council. The balance remaining in the Council's Discretionary Funds for FY2025-26 is $4,021.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The award of funds meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

5. Support community engagement and advocacy

Respectfully Submitted,
Amy Ruiz, Executive Assistant

Dominick Casey, City Manager

Council Discretionary Fund Request

*** Name of Organization Requesting Council Discretionary Funds**

Roseville Community Crime Stoppers

*** Contact Name**

Stephanie Hill

*** Contact Phone**

9169105769

*** Contact Email**

info@runcrimeoutofroseville.com

*** Does your organization have a non-profit status**

◉ **Yes** ○ **No**

*** Requested Amount $**

1500

Date of event (if applicable) and Location

July 4, Downtown Vernon Street Square

*** Describe the event, program or project you are requesting funds for?**

We are holding our Annual Run Crime Out of Roseville. We are requesting discretionary funds to offset our expenses so more funds can go to the tip line and anonymous rewards.

*** How will the funds be used and by which date will they be expended?***

Funds will cover insurance and City expenses, and will be used by the end of July 2026.

*** Is this an annual request or a one-time request**

◉ **Annual**
○ **One-time**

*** Has your organization applied for and/or recieved grant funds from the City of Roseville in the past 24 months? (ex. Roseville Community Development Block Grant, Citizens Benefit Fund, Roseville Annual Charitable Hearts Fund, or other City Council determined grant funding sources)**

No

*** If a request for City Council Discretionary Funds has been made and received in previous years, identify strategies being implemented to eliminate reliance on Council Discretionary Funds.**

This is our sole fundraiser and all of the money we make goes back into the tip line that the Roseville Police Department uses and funds anonymous tips, as well as a local scholarship. We continue to work to build our sponsorship base in order to grow our event, and, since the pandemic, are beginning to see the funds return to our organization.

---

*

☑ **I acknowledge that no more than $1,000 of City Council Discretionary Funds can be used for capital improvement projects.**

*

☑ **I acknowledge that it is the sole responsibility of the recipient to comply with all federal, state, and local laws, regulations, ordinances, and policies as may be applicable in connection with Discretionary Funds received.**

If this is your first-time requesting Council Discretionary Funds or there has been changes with your organizations upload your most recent W-9 form.

Please note: It is highly recommended that requestors of City Council Discretionary Funds have a representative from their organization present at the scheduled City Council meeting to answer any possible questions from Council should allocation be awarded. It is also preferred that requests are submitted in advance of events or time of use.

Title:	2025 Urban Water Management Plan and Water Shortage Contingency Plan – Public Hearings and Consideration of Adoption
Contact:	Janice Gainey 916-774-5535 jrgainey@roseville.ca.us

SUMMARY

Staff recommends City Council hold two public hearings to receive comments on the Draft 2025 Urban Water Management Plan (UWMP) and the Draft Water Shortage Contingency Plan (WSCP). If found acceptable, staff is requesting that the City Council consider the adoption of the Draft 2025 UWMP and the draft WSCP upon close of the public hearing. Approving the plans has no impact on the City's General Fund.

RECOMMENDATION

Staff recommends that the City Council:

1. Hold a Public Hearing to:
   a) review and receive comments on the Draft 2025 Urban Water Management Plan (UWMP) and,

   b) review and receive comments on the Draft Water Shortage Contingency Plan (WSCP); and

2. After the Public Hearing:

   a) Adopt a resolution to adopt the 2025 Urban Water Management Plan and provide authorization to staff to submit it to the California Department of Water Resources (DWR) as final; and

   b) Adopt a resolution to adopt the Water Shortage Contingency Plan and provide authorization to staff to submit it to the California Department of Water Resources (DWR) as final.

BACKGROUND

Urban Water Management Plans (UWMPs) are prepared by urban water suppliers every five years. These plans support the suppliers' long-term resource planning to ensure that adequate water supplies are available to meet existing and future water needs. The information collected from UWMPs is useful for local, regional, and statewide water planning.

The requirements for UWMPs are found in two sections of California Water Code, §10610-10656 and §10608. Every urban water supplier that either provides over 3,000 acre-feet of water annually or serves more than 3,000 urban connections is required to submit an UWMP.

Within UWMPs, urban water suppliers must include the following:

- An assessment of the reliability of water sources over a 20-year planning time frame
- A description of demand management measures
- A water shortage contingency plan
- A discussion of the use and planned use of recycled water

The Water Shortage Contingency Plan (WSCP) is an action plan for addressing water shortages, including drought. The WSCP describes water demand reduction and supply augmentation actions to be taken in the event of a water shortage pertaining to six standard levels of water shortage: 0 to 10%, 10-20%, 20-30%, 30-40%, 40-50%, and greater than 50%. The WSCP also includes an analysis of water supply reliability, procedures for conducting its annual water supply and demand assessment, and procedures for customer compliance of shortage response actions as appropriate, and other elements. The WSCP must be adopted according to a defined public process.

WSCP must be submitted every five years as part of the UWMP. The City's last plan was developed and approved for 2020 and included a WSCP.

On September 3, 2025, after a competitive proposal process, Waterworks Engineers, Inc., was awarded a Professional Services Agreement to support the City in the development of the 2025 UWMP update as well as an update to the Water Management Plan (WMP).

Urban water suppliers are required to hold public hearings before adopting an UWMP to allow for community input, review, and comment. The 2025 UWMP updates are due to the California Department of Water Resources (DWR) by July 1, 2026.

FISCAL IMPACT

Conservation programs are a condition of City water contracts, regional agreements, and a matter of State law with the passage of SB X7-7 in 2009. Planning continues to be done on an annual basis and is included in all rate analysis and proposed budgets. Approving the plans has no impact on the City's General Fund.

ENVIRONMENTAL REVIEW

The proposed activity is statutorily exempt from the California Environmental Quality Act (CEQA). CEQA does not apply to the preparation and adoption of Urban Water Management plans (California Water Code §10652). The proposed plan would not affect water supplies for fish and wildlife, or expand or add water supplies, and therefore no further environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

4. Invest in well-planned infrastructure and growth

6. Deliver exceptional City services

RESOLUTION NO. 26-238

ADOPTING THE URBAN WATER MANAGEMENT PLAN AND AUTHORIZING STAFF TO SUBMIT TO THE CALIFORNIA DEPARTMENT OF WATER RESOURCES

WHEREAS, the Urban Water Management Plan Act requires every urban water supplier providing water for municipal purposes to more than 3,000 customers to develop and submit an Urban Water Management Plan (UWMP) every five years to the California Department of Water Resources (DWR); and

WHEREAS, with ongoing and recent updates to the DWR Guidebook for Urban Water Suppliers, staff collaborated with a consultant on the development of the 2025 UWMP update; and

WHEREAS, the City has prepared and circulated for public review the UWMP, and a properly noticed public hearing regarding said Plan was held by the City Council on June 17, 2026.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Roseville that the UWMP is hereby adopted and ordered filed with the City Clerk; and

BE IT FURTHER RESOLVED that the Mayor is hereby authorized and directed to file the UWMP with the California Department of Water Resources within 30 days after this date.

PASSED AND ADOPTED by the Council of the City of Roseville this ___ day of _____, 20__, by the following vote on roll call:

Executive Summary

ES. 1 Introduction

An Urban Water Management Plan (UWMP) is the legal and technical water management foundation for suppliers throughout California. A UWMP combines information from various sources that inform water supply and demand such as projects pertaining to local land use planning, regional water supply, infrastructure, and demand management. The City of Roseville Water Utility (City) updates its UWMP every five years, as required by law. Each UWMP update addresses all requirements pertaining to urban retail water suppliers in accordance with the Urban Water Management Planning Act and the Water Conservation Act of 2009, also referred to as Senate Bill X7-7 (SB X7-7). Information contained in this 2025 UWMP includes the components listed in the following section.

ES. 2 Plan Components

The plan consists of the following components:

- **Chapter 1:** The basis for preparing a plan and the new requirements.
- **Chapter 2:** Summary of how the plan is prepared and coordination with the public and other local and regional authorities.
- **Chapter 3:** A description of the City's treatment facilities and distribution infrastructure, as well as a description of the population and area served by the City.
- **Chapter 4:** Quantification of water use for the 5-years preceding the plan update and water use projections for a 20-year planning horizon.
- **Chapter 5:** Confirmation of compliance with SB X7-7.
- **Chapter 6:** Description of existing and planned water supplies and water supply management.
- **Chapter 7:** A drought risk assessment (DRA), which analyzes water supplies and demands in a single year or multiple years of a water shortage.
- **Chapter 8**: The Water Shortage Contingency Plan (WSCP), which outlines the process that the City will execute in the event of a water shortage.
- **Chapter 9:** Demand measures that the City integrates and plans to integrate into its regular operations to address increasing demands.
- **Chapter 10:** Record of the process by which the UWMP was adopted, submitted, and implemented with the intention of making the plan widely available to the City's customers and the public.

ES. 3 Basis for Plan Preparation and Coordination

Urban water retail suppliers (suppliers) who either deliver 3,000 acre-feet (AF) or more of water or have over 3,000 service connections are required to submit a UWMP. In 2025 the City had 53,148 service connections and supplied a total of 31,893 AF to its customers and therefore is required to prepare and submit an UWMP.

In preparation of the UWMP the City coordinated with the U.S. Bureau of Reclamation (USBR) and Placer County Water Agency (PCWA) both of which supply water to the city on a wholesale basis. The City also sought involvement from the public and other local water agencies. Neighboring water retail suppliers and the community were informed of a public hearing to be held on June 17, 2026. In this public hearing the plan will be

presented, and attendees encouraged to share questions and concerns. Following the public hearing, an adoption hearing for the UWMP will be held on June 17, 2026, during which City Council will consider adopting the UWMP.

ES. 4 System and Supply Description

Raw water from Folsom Reservoir, the City's primary water source, is conveyed to the City's water treatment plant located in the Granite Bay area. Potable water is distributed through the City's approximately 700 miles of water mains to customers. Other water facilities that the City maintains include potable water storage tanks, pump stations, interties to exchange water with other water agencies, and groundwater wells.

The City receives its contract supplies purchased from USBR and PCWA through Folsom Reservoir. Since the last UWMP update in 2020, the City has executed an update to the contract with PCWA to increase overall water supply resilience. Over the next ten years, an additional 10,000 AF of PCWA supply will be secured in increments through the updated contract. This outlook for increased supply is described in further detail in Chapter 6.

The City is currently engaged in an update to the Water Forum Agreement which applies some limitations to available supplies depending on the hydrologic water year type. The assumption in this UWMP is that the final Water Forum Agreement supply limitations will be applied to the City's increased available contract supplies (see changes to PCWA contract supply noted above) in the same way with no additional supply limitation imposed. A new obligation associated with the American River Terms for Ecosystem Support and Infrastructure Assistance Needs (ARTESIAN) Project Agreement will create potential limitations of 4,460 AF to available surface water supplies in dry or critically dry years, carrying an obligation to offset surface water with groundwater in "call" years under the agreement. If contract supply conditions change after the 2025 UWMP is finalized, the City may choose to update relevant sections of the Plan. These limiting conditions have been modelled as part of the Drought Risk Analysis in Chapter 7.

A previous supply contract with San Juan Water District (SJWD) has been terminated in the time since the 2020 UWMP; however, existing interties with SJWD will remain physically intact in case of supply emergencies. The 4,000 AF of supply previously contracted with SJWD has been incorporated into the updated contract with PCWA raising the total raw water supply quantity from 30,000 AF to 34,000 AF in 2025.

The City has seven operational groundwater wells and is planning further expansion of their Aquifer Storage and Recovery (ASR) program by an additional four wells over the next five years. These wells are maintained for emergency supply conditions for resilience in Roseville's water supply portfolio.

ES. 5 Past and Projected Water Use

The City supplies water to customers for the following water use sectors:

- Commercial
- Industrial
- Institutional and Governmental
- Multi-Family Residential
- Single Family Residential
- Landscape

The UWMP characterizes water use by sector for the years preceding the UWMP update as well as projections of water use for the next 20 years. Projections in the 2025 UWMP have been revised to include a 2045 buildout horizon, a revision from the 2020 UWMP. This adjustment of the buildout horizon is based upon recent trends in development and water usage. The City is planning for a population of up to 198,000 in the year 2045.

Additionally, the City is looking to the future by incorporating definitions of and projections for "high water users" in the technology sector, to accommodate potential data centers. These user impacts are captured in recent modeling as part of the City's Water Master Plan update as well as projections for this UWMP update under the Commercial category of water use.

The actual volume of water used by each sector for 2025 as well as the updated water use projections through the year 2045 are summarized in ES Table 1.

ES Table 1 Actual 2025 Water Use and Projected Water Use through the Year 2045

Water Use Sector	2025	2030	2035	2040	2045
Commercial	2,822	8,078	8,385	8,666	8,893
Industrial	386	667	693	716	735
Institutional/Governmental	388	671	696	720	739
Multi-Family	1,600	2,767	2,872	2,968	3,045
Single Family	17,080	29,533	30,655	31,681	32,511
Landscape	5,632	9,738	10,108	10,447	10,720
Losses	2,135	1,364	1,446	1,504	1,527
Groundwater recharge*	193	3,360	3,360	3,360	3,360
Sales/transfers/exchanges to other suppliers	1,657	0	0	0	0
Total	**31,893**	**56,179**	**58,214**	**60,061**	**61,529**
NOTES: All values are in AF/yr. Values represent potable water use only. *Groundwater recharge is expected in Normal or Wet years but not in drought years. This value is estimated for a 3-month injection window at 80% of capacity to allow for maintenance. The value each year will vary.					

In the table above, 2025 data represent actual values, while 2030-2045 are projected values of unconstrained demand. The projected values are based upon Unit Demand Factors applied to parcel data according to land use. The specific Unit Demand factors that have been applied as part of this analysis have been recently updated as part of the City's Water Master Planning effort, concurrent with this UWMP update. More information is available in Chapter 4.

ES. 6 SB X7-7

SB X7-7 called for a 20% reduction of water use from all retail water suppliers by the year 2020. The City met this target in 2020 as shown in 2025 DWR Table 5-, and that compliance is further confirmed in this 2025 UWMP update. No further action or analysis is needed in this UWMP.

ES. 7 and 8 Supply Reliability and Drought Risk Assessment and Water Shortage Contingency Plan

Assessments of supply reliability and drought risk were performed. The assessments considered the supply available for a single-year and five-year consecutive drought period for both the near-term and long-term. The

supply availability was compared to projected demand to determine if a deficit is projected for any of the conditions. Supply availability is subject to seasonal and climatic shortages, and so in dry or critically dry years increasing limitations are placed on the City for volumes of water that they receive from their supply contracts through Folsom Reservoir. The City has chosen to examine more stringent restriction sequences than they have experienced to date in this analysis. The City specifically examined a "dead pool" condition, modeled as the fifth consecutive year of drought, to simulate the circumstance of an exposed intake at Folsom Reservoir making primary supply contracts unavailable. The supply and drought risk assessment demonstrated that there are expected deficits in critically dry (single and multi-year droughts) year types that require supply augmentation by use of the City's groundwater infrastructure. Further, in year five of an extended drought, if "dead pool" were to occur at Folsom Reservoir, the City identified the need to augment supplies with a combination of groundwater, emergency intertie purchases, as well as strict conservation to meet demands. The highest level of deficiency identified represents approximately 28% of the annual demand and can be remedied by the application of a Stage 3 Drought condition through existing provisions in the municipal code. The municipal code identifies the objective of a stage 3 drought to be 30% conservation. The results of the supply reliability and drought risk assessment are summarized in ES Table 2.

ES Table 2 Near-Term and Long-Term Drought Risk Assessment Summary

Drought Type Assessed	Deficit Range	Description of Anticipated Deficit
Near-Term 5 Consecutive Dry Years	12,619	Deficit expected in fifth year only
Long-Term 5 Consecutive Dry Years	12,619 - 17,969	Deficit expected in fifth year only
NOTES: All values are in AF/yr. All other year types show that the City can adequately meet demand by augmentation of supply with necessary groundwater pumping.		

To mitigate the projected deficits in water supply, a Water Shortage Contingency Plan (WSCP) was prepared. The WSCP outlines the procedures that the City will take annually to determine whether there will be a water deficit based on projected water demand and supply availability. If a deficit is anticipated the City will formally declare a water shortage emergency condition of varying levels dependent on the severity of the deficit. The declaration of the water shortage emergency condition will trigger a set of demand reduction actions that are to be carried out by the City and all water users. These demand reduction actions are set forth in the Roseville Municipal Code Chapter 14.09 Water Conservation and Drought Mitigation Ordinance. The legal authority of the City to enforce compliance with the demand reduction actions is granted by the Water Conservation and Drought Mitigation Ordinance.

ES. 9 Demand Management Measures

In addition to the demand reduction actions of the Water Conservation and Drought Mitigation Ordinance, the City has taken a proactive approach to managing demand under normal conditions. Demand management measures include accurate metering through a meter retrofit program which was implemented from 2001 to 2011, recent deployment of Advanced Metering Infrastructure (AMI), public education and outreach, and regional rebate programs for efficient water use fixtures. System losses can account for a significant portion of water demand. The City continues to be proactive in its approach to address leaks in the system and reduce percentage

of overall losses, including a comprehensive auditory leak detection program, utilizing AMI, Water Distribution staff, and audit-based analysis to identify and repair leaks throughout the distribution system.

ES. 10 Plan Adoption and Submittal

The 2025 UWMP will be presented to City Council on June 17, 2026. The 2025 UWMP will be submitted to the California Department of Water Resources for compliance with the Urban Water Management Planning Act. Copies of the plan have been made publicly available at the City's offices, and an electronic version is also available for review and download on the City's website: www.roseville.ca.gov/UWMP.

Chapter 1 Urban Water Management Plan Purpose and Description

This chapter introduces the Urban Water Management (UWMP) including legislation requiring urban water retail suppliers to submit UWMPs, necessary information required to be reported in the 2025 UWMP, an overview of the changes to legislation since the 2020 City of Roseville UWMP, and a description of benefits to the supplier and its customers in completing a UWMP.

1.1 California Legislation

The Urban Water Management Planning Act was enacted in 1983 by the State of California Legislature (Legislature). The law established the requirement that an urban water supplier (supplier), providing municipal water to over 3,000 customers or 3,000 acre-feet (AF) annually, adopt an UWMP every five years. The aim of the Urban Water Management Planning Act was to address declarations and findings of the California Water Code (CWC):

California Water Code Section 10610.2

(a) The Legislature finds and declares all of the following:

(1) The waters of the state are a limited and renewable resource subject to ever-increasing demands.

(2) The conservation and efficient use of urban water supplies are of statewide concern; however, the planning for that use and the implementation of those plans can best be accomplished at the local level.

(3) A long-term, reliable supply of water is essential to protect the productivity of California's businesses and economic climate, and increasing long-term water conservation among Californians, improving water use efficiency within the state's communities and agricultural production, and strengthening local and regional drought planning are critical to California's resilience to drought and climate change.

(4) As part of its long-range planning activities, every urban water supplier should make every effort to ensure the appropriate level of reliability in its water service sufficient to meet the needs of its various categories of customers during normal, dry, and multiple dry water years now and into the foreseeable future, and every urban water supplier should collaborate closely with local land-use authorities to ensure water demand forecasts are consistent with current land-use planning.

(5) Public health issues have been raised over a number of contaminants that have been identified in certain local and imported water supplies.

(6) Implementing effective water management strategies, including groundwater storage projects and recycled water projects, may require specific water quality and salinity targets for meeting groundwater basins water quality objectives and promoting beneficial use of recycled water.

(7) Water quality regulations are becoming an increasingly important factor in water agencies' selection of raw water sources, treatment alternatives, and modifications to existing treatment facilities.

(8) Changes in drinking water quality standards may also impact the usefulness of water supplies and may ultimately impact supply reliability.

(9) The quality of source supplies can have a significant impact on water management strategies and supply reliability.

Additionally, efforts aimed at protecting California's water supply were expanded in 2009 with Senate Bill X7-7 (SB X7-7), where Governor Schwarzenegger called for a 20% reduction statewide in per capita water use by 2020.

1.2 Updates to 2025 UWMP

Since the reporting of the 2020 UWMP, there have not been any substantial requirements added by the Legislature to the CWC.

1.3 Benefits of UWMP Reporting

The City is required by the state to Produce a UWMP, which is a critical document for ensuring that the City remains compliant with various regulations. Additionally, completion of a UWMP is necessary for the City to be eligible for any Department of Water Resources (DWR) administered grant or loan. Completion of the most recent UWMP may also be required for other state funding.

Beyond establishing grant or loan eligibility, the UWMP is intended to be a useful tool for the supplier and the public. Thoughtful preparation of the plan provides the supplier with an opportunity for forward thinking and planning, ensuring that their water supply remains robust in the future and continues to meet the dynamic needs of its customers. Throughout plan preparation the City, other suppliers, and local and regional authorities are encouraged to coordinate with one another creating a greater understanding of the region's water demands, ultimately promoting mindful utilization of the state's water resources.

1.4 Plan Organization

This UWMP was prepared in part by use of guidance issued by DWR via the *Urban Water Management Plan Guidebook 2025* (Guidebook). Organization of the plan chapters closely follows the suggested organization in the Guidebook. Where appropriate, submittal tables provided by DWR are used to report data; these tables are denoted by the prefix, "DWR Table". Additional data reporting is done in City of Roseville Tables denoted by the prefix, "COR Table".

Chapter 2 Plan Preparation

This chapter provides an overview of the process by which the plan was prepared and the coordination that was carried out.

2.1 Basis for Preparing a Plan

The City of Roseville Water Utility (City) is a public water system (PWS), which is a system that provides drinking water for human consumption through pipes or other constructed conveyances. Because the City serves over 3,000 customers and delivers over 3,000 AF annually, it is required to submit a UWMP. Metrics for total number of customers and volume of water supplied in the City's service area for 2025 are provided in DWR Table 2-1. The UWMP is required to be reviewed and updated every five years; this UWMP is an update to the most recent 2020 UWMP, adopted by the City of Roseville in 2021. The UWMP also confirms the City's compliance with the Urban Water Management Planning Act and SB X7-7.

DWR Table 2-1

Submittal Table 2-1 Retail: Public Water Systems			
Public Water System Number	Public Water System Name	Number of Municipal Connections 2025	Volume of Water Supplied 2025 (AF)
3110008	City of Roseville	53,148	31,893
	Total	53,148	31,893
NOTES: All volumes are in AF. Units of measure remain consistent throughout the UWMP as reported in DWR Table 2-3. This value is for potable water only, sourced from DWR Table 4-1.			

2.2 Individual or Regional Planning and Compliance

The CWC provides mechanisms for participating in area-wide regional, watershed or basin-wide urban water management planning. Per *Department of Water Resources Methodologies for Calculating Baseline and Compliance Urban Per Capita Water Use* (DWR Methodologies), water suppliers who receive water from a shared wholesale supplier may form a regional alliance. Although the City and its neighboring water suppliers practice regional water supply planning, the City has not formed a regional alliance with other water suppliers. The City has prepared an individual UWMP, reporting solely on its own distribution service area, and will not adopt a Regional Urban Water Management Plan (RUWMP), stated in DWR Table 2-2.

DWR Table 2-2

Submittal Table 2-2: Plan Identification		
Select One	**Type of Plan**	**Name of Regional Alliance or RUWMP** (Drop Down List)
☑	**Individual UWMP**	
	If Water Supplier is also a member of a SB X7-7 Regional Alliance, select name from the drop-down.	
☐	**Regional Urban Water Management Plan (RUWMP)**	
	If Supplier selected RUWMP, select name from the drop-down.	

2.3 Fiscal or Calendar Year and Units of Measure

General metrics for plan preparation are provided in DWR Table 2-3.

DWR Table 2-3

Submittal Table 2-3: Supplier Identification	
Type of Supplier (select one or both)	
☐	Supplier is a wholesale supplier
☑	Supplier is a retail supplier
Fiscal or Calendar Year (select one)	
☑	UWMP Tables are in calendar years
☐	UWMP Tables are in fiscal years
If using fiscal years provide month and date that the fiscal year begins (mm/dd)	
Units of measure used in UWMP (Select from the drop down list).	
Unit	AF

2.4 Coordination and Outreach

This section discusses the City's coordination with other agencies and the public.

2.4.1 Wholesale and Retail Coordination

Pursuant to CWC Section 10631(h) the City is to coordinate with wholesale supply agencies that provide the City with water. The City has water supply contracts with Placer County Water Agency (PCWA) and the U.S. Bureau of Reclamation (USBR). As a retail supplier the City has informed the two agencies of projected water use in five-year increments for the next 20 years. Documentation of this coordination is provided in Appendix A. DWR Table 2-4 lists the two agencies outlined above with whom the City has coordinated.

DWR Table 2-4

Submittal Table 2-4 Retail: Water Supplier Information Exchange Water Code Section 10631(h)
The retail Supplier has informed the following wholesale supplier(s) of projected water use.
Wholesale Water Supplier Name
U.S. Bureau of Reclamation
Placer County Water Agency

2.4.2 Coordination with Other Agencies and the Community

The City has actively sought to coordinate preparation of the UWMP with local and regional agencies as well as with the general public. The City recognizes that how it currently utilizes and plans to utilize its water supply affects not only its own customers, but customers served by neighboring water agencies and individuals or groups that rely on private wells. As the City is dedicated to the responsible and sustainable management of local and regional water resources, it has invited participation from the agencies listed in COR Table 2-A. Documentation of this coordination is provided in Appendix B. On February 4, 2026, the City notified the neighboring cities and counties that preparation of the 2025 UWMP update had begun. Additionally, the City will hold a public hearing on June 17, 2026, to introduce the 2025 UWMP to the public and solicit feedback and answer questions regarding the plan.

COR Table 2-A Outreach with Local and Regional Agencies

Agency Name	Agency Type
U.S. Bureau of Reclamation	Wholesale Supplier
Placer County Water Agency	Water Supplier
California American Water	Water Supplier
Citrus Heights Water District	Water Supplier
Sacramento Municipal utility District	Water Supplier
Sacramento Suburban Water District	Water Supplier
City of Roseville, City Manager	Local City
Placer County Public Works Department	Local County
Placer County Community Development Resource Agency	Local County
Regional Water Authority Sacramento	Regional Organization
City of Sacramento	Water Supplier
Sacramento County	Water Supplier

Chapter 3 System Description

This chapter provides a description of the system including information on the distribution system; service area boundary; service area climate; service area population, demographics, and socioeconomics; and land uses within the service area.

3.1 General Description

The City of Roseville Water Utility (City) is a public utility owned and operated by the City of Roseville, which is on the interstate 80 corridor, approximately 15 miles northeast of downtown Sacramento, California. The City obtains its surface water from Folsom Reservoir through wholesale purchase from the United States Bureau of Reclamation (USBR) and an additional water contract with Placer County Water Agency (PCWA). The City also maintains and operates several regional interties. As an emergency supply in times of drought, the City also has a suite of ASR and production wells that provide additional water supply reliability, with plans to construct more.

3.1.1 Transmission

The City has a diversion capacity of 150 cubic feet per second (cfs) or 96 million gallons per day (MGD) at Folsom Dam. A pump station conveys raw water through parallel pipelines. The original 84-inch diameter pipeline was constructed at the same time as the pump station, and a 72-inch diameter pipeline was completed in 2010 as a joint effort between the City and other regional water purveyors. The common pipeline facilities used by regional partners split at the "Hinkel Y", and from there raw water is conveyed through parallel pipelines – a 60-inch diameter pipeline and a 48-inch diameter pipeline – to the City's Water Treatment Plant (WTP).

3.1.2 Water Treatment

The City's only water treatment plant, located near Roseville in the Granite Bay area, has a treatment capacity of 100 MGD. There are no plans to expand the facility as the WTP is sized just above the pumping capacity of the Folsom Dam pump station. The WTP is a conventional treatment plant, and the treatment processes include coagulation, flocculation and sedimentation, clarification, filtration, and disinfection. The treatment train, beginning with the intake at Folsom Reservoir, is shown in Figure 3-1.

Sedimentation takes place in three parallel clarifiers. The chemicals injected as part of the flocculation and sedimentation processes are caustic soda, alum, and a cationic polymer. There are 12 anthracite sand filters, which combined have a maximum filtration rate of about 83,000 gallons per minute (gpm). The clear wells have a total volume of 358,500 gallons. Disinfection is achieved using sodium hypochlorite. The City also adds fluoride to treated water at a concentration of 0.7 parts per million (ppm) prior to distribution.

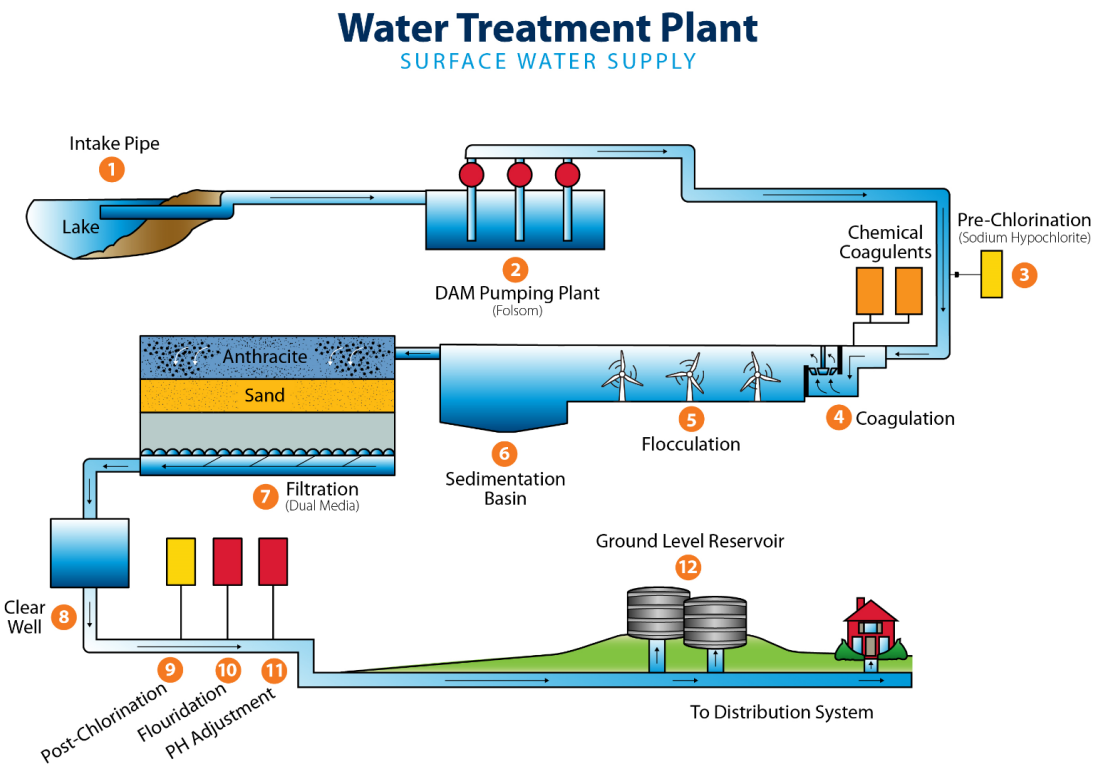

Figure 3-1 City of Roseville Water Treatment Plant Treatment Train

3.1.3 Storage

The City currently utilizes 8 potable water storage tanks located across the service area, which are critical for maintaining water supply and system pressure during typical demand fluctuations, peak demand fluctuations, and emergency demands. The eight water storage tanks have a total nominal capacity of 44 million gallons (MG). The capacity of each tank is listed in COR Table 3-A.

COR Table 3-A Potable Water Storage Tanks

Facility	Existing or Future	Year Constructed	Type	Pressure Zone Served	Capacity (MG)
WTP	Existing	1971	Steel	1, 2, 4, 5	2
WTP	Existing	1990	Pre-Stressed Concrete	1, 2, 4, 5	4
WTP	Existing	2004	Pre-Stressed Concrete	1, 2, 4, 5	6
Northeast	Existing	1998	Pre-Stressed Concrete	1, 2, 4, 5	10
Northeast	Existing	2009	Pre-Stressed Concrete	1, 2, 4, 5	7.25
Halverson	Existing	2008	Pre-Stressed Concrete	2	2.9
West Side Tank 1	Existing	2023	Pre-Stressed Concrete	4	6
West Side Tank 2	Existing	2023	Pre-Stressed Concrete	4	6

3.1.4 Distribution Network

The City maintains a distribution network consisting of approximately 723 miles of pressure pipe ranging from 1 inch to 72 inches in diameter. The network of pipes delivers potable water from the WTP to the City's customers to meet water demands during average day, maximum day, and peak hour conditions. The City aims to operate its system at a minimum pressure of 50 pounds per square inch (psi). Under existing conditions, the City meets the minimum pressure criterion in almost all cases, with few exceptions. These exceptions are not considered to be significant enough to impact the quality of customers' water service in any significant way. On average the distribution system pressure stays around 80 psi across all measured conditions.

There are several approved development plans in the western portion of the City which are currently in development and buildout. The City will serve these customers through new facilities which were designed and are being constructed by the developers under the oversight of the City's Development Services Department. These new facilities will be incorporated into the City's distribution network.

Existing pump stations throughout the City's distribution system are summarized in COR Table 3-B.

COR Table 3-B Potable Water Pump Stations

Facility	Existing or Future	Pressure Zone Served
Dual Purpose Pump Station	Existing	1, 2
Highland Reserve North Pump Station	Existing	5
Pleasant Grove Pump Station	Existing	1
Pacific Fruit Express (PFE) Pump Station	Existing	Emergency Intertie
West Side Pump Station	Existing	4

3.1.5 Groundwater Wells

The City currently maintains 7 Aquifer Storage and Recovery (ASR) and production groundwater wells, which are intended for emergency supply augmentation and have a combined capacity of approximately 23,300 acre-feet per year (AF/yr) or 20.8 MGD. Extraction capacities of each well are listed in COR Table 3-C. Realistic production capacity in an emergency supply condition is estimated as 80% of total capacity to conservatively account for maintenance.

During the 2015 drought, the water level in Folsom Reservoir was the lowest on record, resulting in significant fluctuations in water supply. This drought highlighted the risk that the Folsom Dam intake structure could become exposed, or what has been referred to as the "dead pool" condition. Although this has not occurred to date, the City relies upon this intake structure to receive supply from USBR and PCWA – the majority of its regular supply portfolio. Being cognizant of this potential vulnerability, in the early 2000's the City begun developing its Aquifer Storage and Recovery Program. Since then, the City has embarked upon a continuous expansion of the ASR program to provide increased flexibility in case of emergency. The City remains engaged in an ongoing effort along with regional partners to invest in identifying a long-term solution to the vulnerability of the intake structure at Folsom Reservoir.

As part of this UWMP, the City is examining this "dead pool" condition, and planning for the circumstance when the City is unable to receive any surface water supplies from USBR or PCWA, examined further in Chapter 6,

Section 6.2.1 and Chapter 7, Section 7.1.3.2. The City is also continuing expansion of the ASR program to maintain adequate capacity to serve the basic needs of the City in the event of extreme drought or other impacts to surface water supplies.

The City's wells are constructed to utilize Aquifer Storage and Recovery technology. ASR is the recharge of water in an aquifer through specially designed groundwater wells and recovery of water from that same well or others after time has passed. During times when there are excess surface water supplies, water can be injected using the ASR and production wells. During dry periods or when additional water is needed for the environment or other beneficial needs, this water can be withdrawn from the aquifer. Six of the existing operational wells have ASR capabilities. Two more wells with ASR capabilities are currently under construction and are expected to be completed in the Fall of 2026. The City plans to construct 2 additional wells with ASR capabilities by 2030. Following that, the City will reassess its ASR program, and as part of a future Ground Water Strategic Plan update, evaluate a potential expansion of the program beyond 2030.

COR Table 3-C Existing City of Roseville Wells

Facility	Install/Rehab Date	Well Depth (Feet)	Zone Served	Theoretical Pumping Capacity (MGD)	Production Capacity (80% of Theoretical) (MGD)	ASR Capable (Y/N)
Oakmont, No. 5	1978/ 1999	360	1	2.1	1.7	N

3.1.6 Interties

There are 18 interties that the City maintains with the surrounding jurisdictions of PCWA, San Juan Water District (SJWD), California-American Water Company (Cal-Am), Citrus Heights Water District (CHWD), and Sacramento Suburban Water District (SSWD). Some of these interties are in regular operation with water wheeling and purchases, while others are emergency use only. Although the City of Roseville no longer has a water supply contract with SJWD, those interties remain in case of emergency. Each intertie is listed in COR Table 3-D.

COR Table 3-D Interties with Neighboring Water Suppliers

Intertie Agency	Facility	Year Constructed	Operational Control Agency	Control Valve Size (Inches)	Agency Receiving Water	Avg. Days/ Yr. Utilized 2021-2025	Days Utilized 2025
SJWD	WTP	1996	Roseville	16	Roseville	0	0
	Eureka	1999	Roseville	12	Roseville	0	0
	Cavitt Stallman	1999	Roseville	12	Roseville	0	0
PCWA	Five Star	1995	PCWA	12	Roseville	0	0
	Stoneridge	1998	Roseville	12	PCWA	275	275
	Highland Park	2000	Roseville	12	PCWA	0	0
	Tinker	1989	Roseville	16	Roseville	365	365
	Blackwood – Bianchi Estates	2000	PCWA	12	PCWA	365	365
	Woodcreek	2025	PCWA & Roseville	12	Roseville	0	0
	Crowder	2001	Cal-Am	12	Cal-Am	365	365
	PFE	2005	Roseville	16	Cal-Am	365	365
	Park Drive/ Pleasant Grove	2000	PCWA	12	Roseville	0	0
	Vineyard Rd	1990	Cal-Am	12	Cal-Am	365	365
Cal-Am	Vernon Oaks	1988	Roseville	12	Cal-Am	0	0
CHWD	Orlando	1989	Roseville	6	CHWD	0	0
	Blossom Hill	1986	Roseville	10	CHWD	0	0
	Fairway	2017	Roseville	8	CHWD	0	0
SSWD	PFE/ North Antelope	2005	Roseville	20	Both	0	0

3.1.6.1 San Juan Water District Interties

The three interties that exist between the City and SJWD under normal operations remain closed and are only intended for emergency use. The intertie at the WTP can deliver water from SJWD to the City only (single direction valve). The Eureka and Cavitt Stallman interties can deliver water to and from the City (bi-directional valving).

3.1.6.2 Placer County Water Agency Interties

The Bianchi Estates, Crowder, and Vineyard interties are valved for single direction flow from Roseville out to PCWA customers (Cal-American Water). The Highland Park and Pleasant Grove interties are single direction, delivering from PCWA to Roseville. They cannot deliver water from the City to PCWA, but the other nine remaining interties can. Three of the eleven PCWA interties under normal operations remain open. The Stoneridge intertie regularly pumps water from the City to PCWA. The Blackwood intertie is regularly kept open as it feeds PCWA's Bianchi Estates system and is the only source of supply for that area. The Tinker intertie is normally open in order to deliver water from PCWA to Cal-Am through the Crowder and PFE interties. The Woodcreek intertie remains closed under normal operating conditions and is only used for emergencies or maintenance outages.

3.1.6.3 Citrus Heights Water District

The three interties between the City and CHWD are valved bidirectionally to enable water delivery to and from the City; however, system pressures in the vicinity of these interties indicates that flow into the City would likely be the only possibility. All three are intended for emergency use only and remain closed under normal operating conditions.

3.1.6.4 Sacramento Suburban Water District Intertie

The intertie between the City and SSWD is part of the regional development of conjunctive use programs. During an emergency or drought years, the PFE pump station will pump water from SSWD's service area into Zone 1 of the City. This intertie is bidirectional and can be used to deliver water from the City to SSWD. A mutual aid agreement between the City and SSWD was recently completed.

3.2 Service Area

The City's service area boundary lies within the limits of the City of Roseville. There are a few small areas within the city limits that are served by PCWA, SJWD, and CHWD, totaling approximately 1,729 services. The service area is approximately 27,421 acres (ac). The service area and the facilities mentioned in Section 3.1 are shown in Figure 3-2.

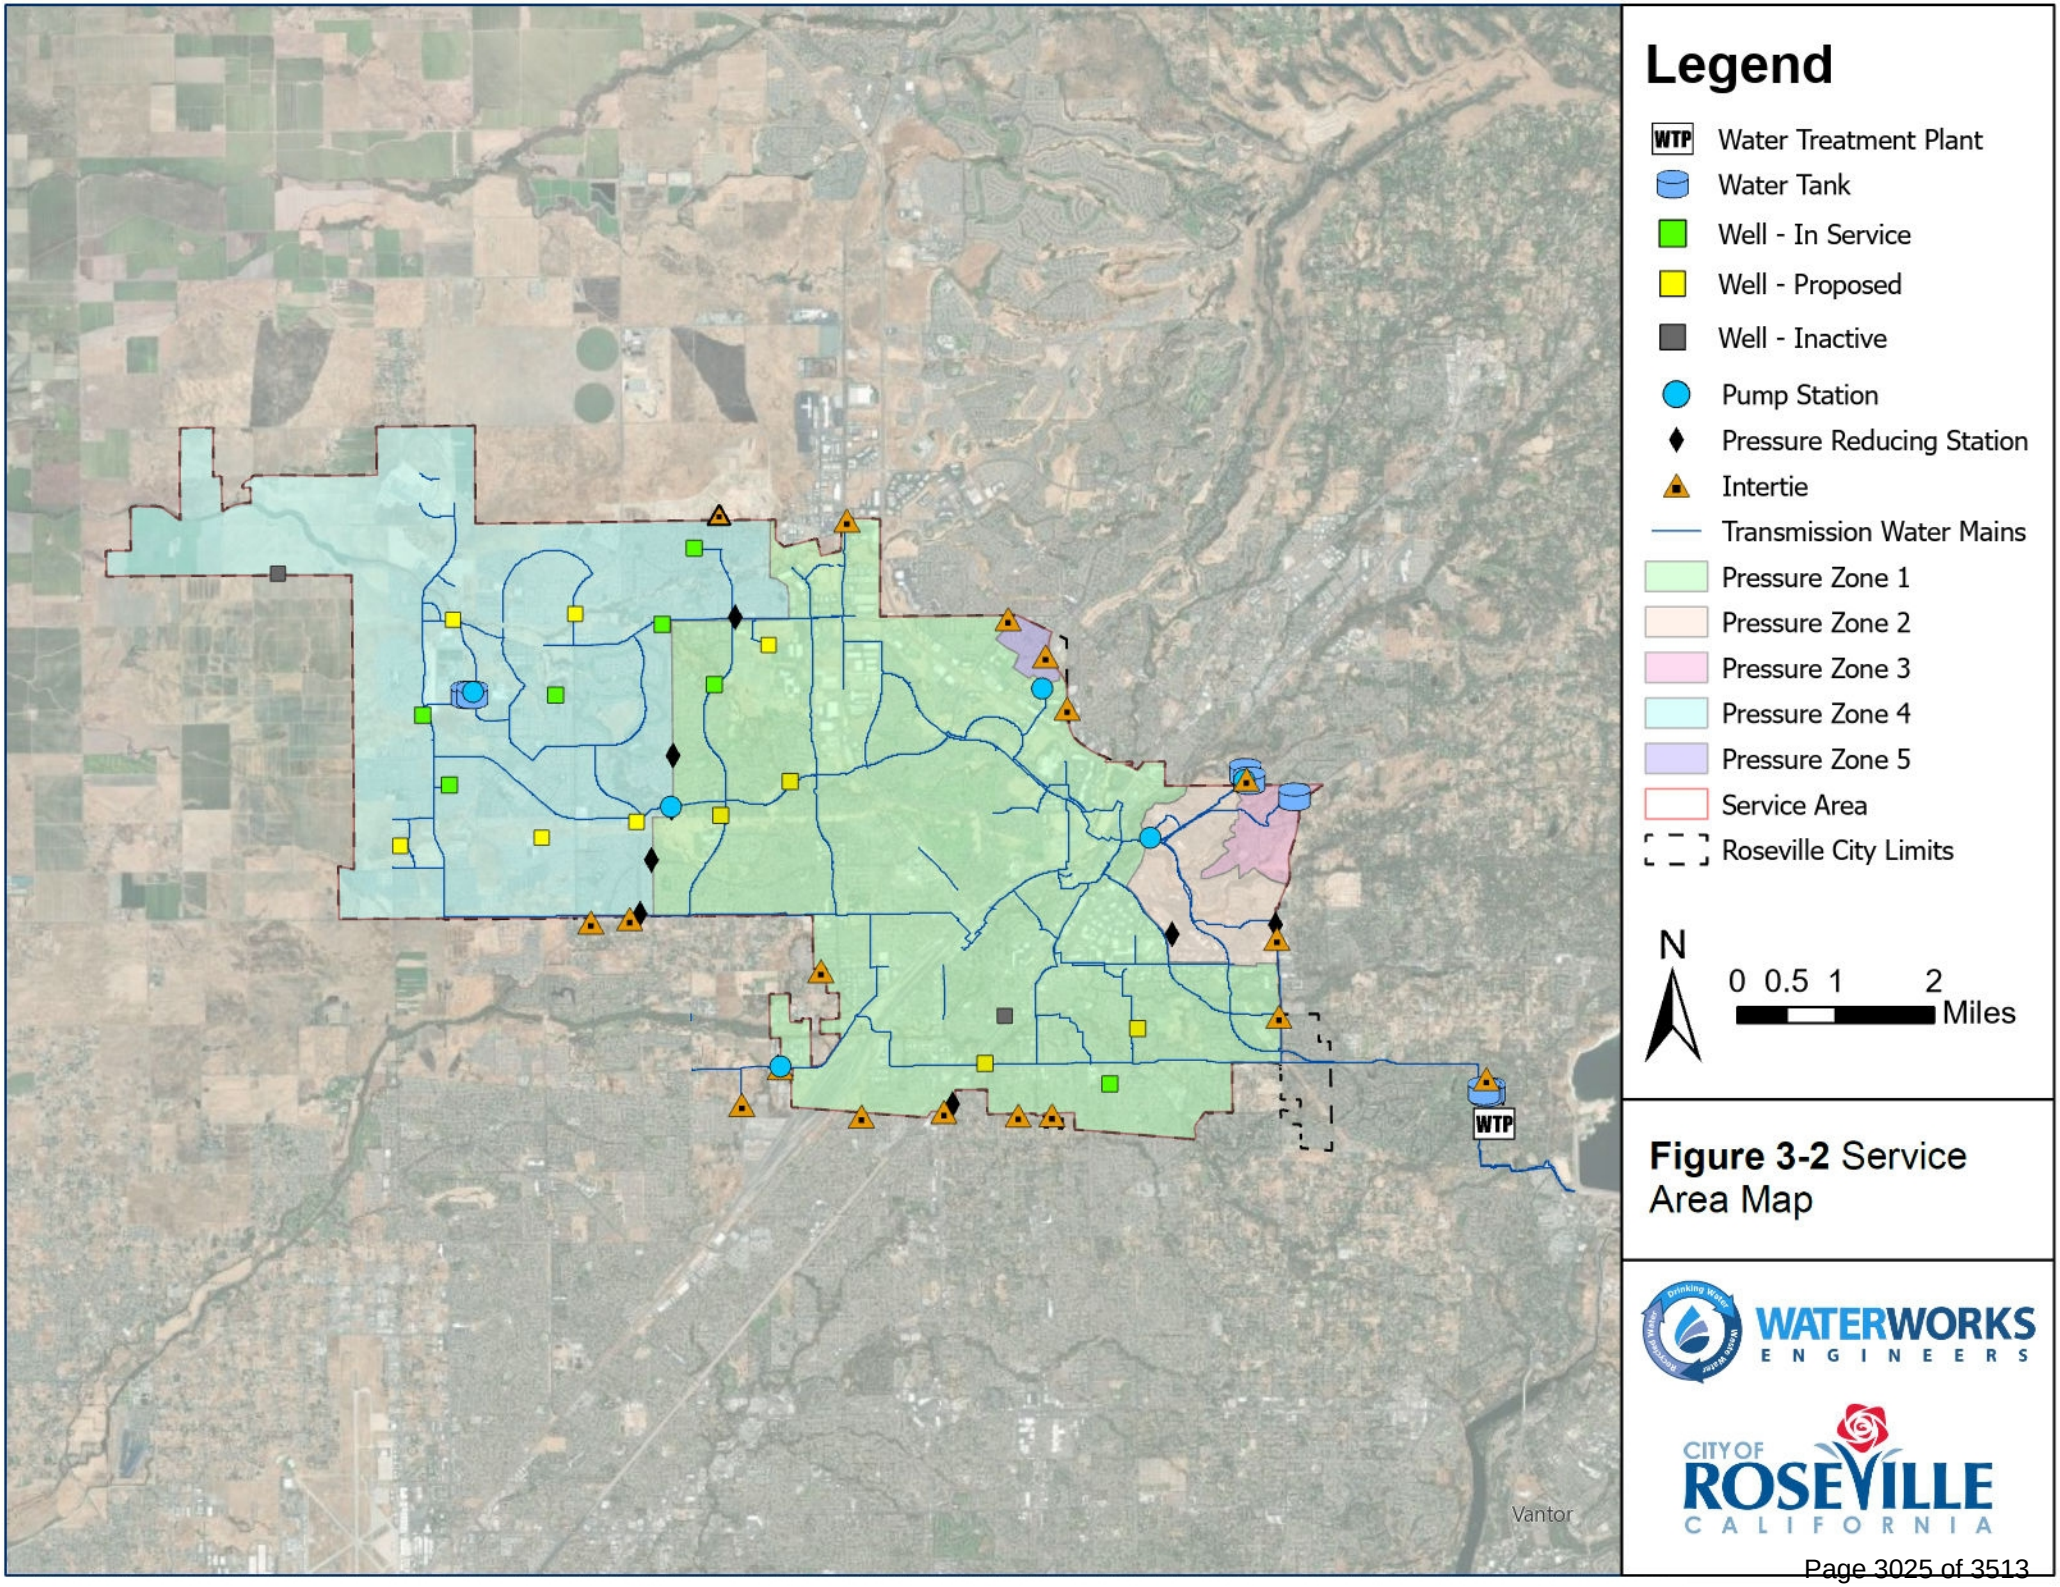

Figure 3-2 Service Area Map

WATERWORKS ENGINEERS

CITY OF ROSEVILLE CALIFORNIA

3.3 Service Area Climate

The service area experiences cool and humid winters and hot and dry summers. The City of Roseville's climate is similar to the City of Fair Oaks, which is in close proximity. Historical climate data was obtained from California Irrigation Management Information System (CIMIS) for station 131, which is located in Fair Oaks, for the reporting period of this UWMP and is summarized in COR Table 3-E. The average monthly temperature from 2021 to 2025 ranged from 39.1 degrees Fahrenheit (°F) to 96.1 °F. Typically the wet season begins in October and ends in May, with an average annual total precipitation of 21.4 inches.

COR Table 3-E Monthly Average Climate Data from 2021 through 2025

Month	Average Minimum Temperature (°F)	Average Maximum Temperature (°F)	Average Temperature (°F)	Average Monthly Precipitation (inches)
January	39.1	59.7	48.4	3.1
February	39.4	62.5	50.2	2.9
March	42.3	65.0	53.1	2.5
April	45.7	74.1	59.3	0.7
May	50.3	82.2	66.1	0.3
June	55.7	90.1	72.9	0.1
July	59.0	96.1	77.5	0.1
August	59.7	95.0	76.9	0.1
September	57.8	90.5	72.9	0.4
October	51.0	79.7	63.9	2.2
November	42.9	65.3	52.6	2.7
December	40.6	56.1	47.4	6.3
Average	48.6	76.4	61.8	1.8

3.4 Service Area Population and Demographics

This section describes the population, demographic, and employment conditions of the City's water service area during the reporting period of the UWMP as well as future projections through 2045.

3.4.1 Service Area Population

Water use is directly tied to a service area's population, and analyzing population growth and development trends is critical for the City's planning of water distribution facilities and infrastructure. Current and projected service area population estimates are provided in DWR Table 3-1.

These projections differ from total population projections since a small number of City residents are served by adjacent water purveyors. The projections were estimated in coordination with the City of Roseville's General Plan (last updated in 2020), more recent development trends, direct input from the City of Roseville's Environmental Utilities and Planning Divisions, and concurrent Water Master Planning efforts. At this time, the City of Roseville is engaged in an update to their analysis of development trends and growth, but this process will not be concluded by the time this document is published.

DWR Table 3-1

Submittal Table 3-1 Retail: Population - Current and Projected Water Code Section 10631(a)					
Population Served	2025	2030	2035	2040	2045
	171,153	172,710	183,077	190,519	193,366
NOTES: Population projections shown above are based on the buildout population projection from the 2020 General Plan of 198,000, with an empirically derived trend-based data showing on recent growth in actual population values, adjusted to reflect service area population.					

3.4.2 Social, Economic, and Demographic Factors

The City of Roseville's population in 2024 (most recent data available), according to the American Community Survey (ACS), was reported to be 56.3% White alone (not Hispanic or Latino), 20% Hispanic or Latino, 11.7% Black alone, 6.2% Asian alone, 4.6% two or more races alone, and all other race categories were less than 1%. A summary of all race categories surveyed is provided in COR Table 3-F. The United States Census Bureau reports that the median household income from 2020-2024 was $119,288. ACS reports that in 2024, 5.9% of the population was in poverty and 17.4% of the population was 65 years of age and over. The social, economic, and demographic factors are not believed to affect water management and planning.

COR Table 3-F City of Roseville 2024 Population by Race

Race Category	Percentage
American Indian and Alaska Native alone, not Hispanic or Latino	0.5%
Asian alone, not Hispanic or Latino	6.2%
Black alone, not Hispanic or Latino	11.7%
Hispanic or Latino	20.0%
Native Hawaiian and other Pacific Islander alone, not Hispanic or Latino	0.2%
White alone, not Hispanic or Latino	56.3%
Some other race alone, not Hispanic or Latino	0.5%
Two or more races alone, not Hispanic or Latino	4.6%

3.5 Land Uses within the Service Area

A requirement of the California Water Code holds that land use projections be coordinated with other local and regional land use authorities.

> *California Water Code 10631.*
>
> *(a) . . .The description shall include the current and projected land uses within the existing or anticipated service area affecting the supplier's water management planning. Urban water suppliers shall coordinate with local or regional land use authorities to determine the most appropriate land use information, including, where appropriate, land use information obtained from local or regional land use authorities, as developed pursuant to Article 5 (commencing with section 65300) of Chapter 3 of Division 1 of Title 7 of the Government Code.*

In August 2020, the City of Roseville completed its latest update to the General Plan, with a planning horizon that extends into 2035. The General Plan includes the Land Use Element, which is provided in Appendix C. The Land Use Element discusses existing and future land use conditions, with an intended purpose of setting guidelines for managing land use change. The City of Roseville has both residential and non-residential land uses; density and intensity guidelines for each land use type respectively are set forth in the Land Use Element. The land use categories as well as corresponding characteristics from the Land Use Element are summarized in COR Table 3-G and COR Table 3-H.

COR Table 3-G Residential Land Uses and Development Guidelines

Land Use Category	Dwelling Units Per Acre	Estimated Population Per Gross Acre
Low-Density Residential (LDR)	0.5 – 6.9	1.45 – 20.1
Medium-Density Residential (MDR)	7.0 – 12.9	20.3 – 37.41
High-Density Residential (HDR)	≥ 13	≥ 27.3

COR Table 3-H Non-Residential Land Uses and Development Guidelines

Land Use Category	Floor to Area Ratio
Neighborhood Commercial (NC)	20% - 40%
Community Commercial	20% - 40%
Regional Commercial	20% - 40%
Business Commercial	20% - 40%
Light Industrial	20% - 50%
Tech/ Business Park	20% - 50%
General Industrial	20% - 50%
Transfer Station	Varies
Central Business District	≤ 300%
Public/ Quasi-Public	Varies

3.6 Water Utility Planning

Currently the City of Roseville is engaged in a Water Master Planning effort in parallel with the development of this 2025 UWMP. The Water Master Planning effort will be ongoing as of the publishing of this UWMP. As part of these utility planning efforts, the City has identified recommendations for updates to water use Unit Demand Factors by parcel type. These updated Unit Demand Factors are included in Chapter 4 and have been used to develop demand projections through the planning horizon. The 2020 General Plan estimated buildout at approximately 2035. However, the City has observed recent trends indicating that residential buildout may occur in the next 5-10 years with commercial following behind in the 15–20-year range. These trends have informed an updated understanding of the pace of development and therefore identified an adjusted buildout horizon of approximately 2045, which has been used in this planning document as well as the City's Water Master Plan.

Chapter 4 Water Use Characterization

This chapter provides a description and quantification of the City's past and current water use and future water use projections through the year 2045. Projections provided herein were coordinated with other local and regional planning documents in an effort to develop reliable water demand projections.

4.1 Non-Potable Versus Potable Water Use

The City utilizes both potable and non-potable water to meet the diverse water needs of the customers within the service area. Potable water is water that is safe to drink and meets all California drinking water regulations per Title 22. The City's potable water supplies consist of raw water treated at the WTP, finished water wheeled from other agencies through interties, raw water received from other agencies through interties which is subsequently treated at the WTP, and additional emergency groundwater from various wells throughout the City that is chemically treated on site.

Additionally, the City supplies recycled water, which is non-potable water for approved uses. Recycled water is wastewater that is treated to Title 22 disinfected tertiary standards. The City operates two wastewater treatment plants (WWTPs), Dry Creek and Pleasant Grove, both of which treat wastewater to the high standard required of recycled water. The recycled water produced at the WWTPs is distributed in a separate "purple pipe" system from the potable water system and is utilized for landscape irrigation, environmental releases, cooling water, and construction uses.

Lastly, the City delivers raw water, which is also non-potable, to Linda Creek outside of the City's service area. Raw water is untreated water that is used in its natural state or with minimal treatment. The City is required to discharge 0.8 cubic feet per second (cfs) of supplemental raw water to Linda Creek when creek flows are low as part of its instream flow commitment. A 10-year average annual total for this discharge is 350 AF, but each year's total can vary significantly depending on hydrologic conditions and resulting flow within the creek. This discharge is also subject to drought restrictions and can be curtailed during Stage 3 or higher-level drought restrictions should that be necessary. The City does not deliver raw water to any of its customers within the service area.

4.2 Past, Current, and Projected Water Use by Sector

The following sections describe and quantify past, current, and projected water use. Water uses are delineated by various sectors. Additionally, a requirement as of the 2020 UWMP requires quantification of system water losses for the five years preceding each UWMP.

4.2.1 Water Use Sectors Listed in Water Code

Water Code Section 10631(d) requires that water uses be identified for at least the ten following sectors; definitions for each of the sectors are adapted from those provided in the Guidebook.

- **Single-family residential** – A single family dwelling unit. A lot with a free-standing building containing one dwelling unit that may include a detached secondary dwelling. This is a retail demand.
- **Multifamily** – Multiple dwelling units contained within one building or several buildings within one complex. This is a retail demand.
- **Commercial** – A water user that provides or distributes a product or service. Water Code 10608.12(e). This is a retail demand.

- **Industrial** – Water user that is primarily a manufacturer or processor of materials as defined by the North American Industry Classification System (NAICS) code sectors 31 to 33, inclusive, of an entity that is a water user primarily engaged in research and development. Water Code Section 10608.12(i). This is a retail demand.
- **Institutional and governmental** – A water user dedicated to public service. This type of user includes, among other users, higher-education institutions, schools, courts, churches, hospitals, government facilities, and nonprofit research institutions per Water Code Section 10608.12(j). This is a retail demand.
- **Landscape** – Water connections supplying water solely for landscape irrigation. Such landscapes may be associated with single-family residential, multi-family, commercial, industrial, or institutional/ governmental sites, but are considered a separate water use sector if the connection is solely for landscape irrigation. This is a retail demand.
- **Sales to other agencies** – These are water sales made to another agency. Projected sales may be based on projected demand provided by the receiving water supplier. This is a wholesale demand.
- **Saline Water Intrusion barriers, groundwater recharge, or conjunctive use, or any combination thereof** – *Conjunctive use* is a water management strategy where surface water and groundwater are managed together to increase the total water supply. For purposes of the UWMP, conjunctive use is seen as a management strategy rather than as a water use. This type of water use is best reported as groundwater recharge. *Groundwater recharge* can occur through both natural and artificial means. In the context of this UWMP, artificial groundwater recharge is the managed and intentional replenishment of natural groundwater supplies using techniques such as infiltration basins or injection wells. Water used for groundwater banking or storage may also be reported using this sector. If all, or a portion of, the groundwater recharge is subsequently pumped out of the basin in the same year, that water is considered "pass-through" storage and reporting this as a groundwater recharge use may lead to a double counting of water uses because of the subsequent retrieval and delivery of that same water in the same year to customers. Water used for groundwater recharge, but not retrieved in the same year, could be considered actual groundwater recharge and reported as such. *A saline water intrusion barrier* is the practice of injecting water into a freshwater aquifer to prevent the intrusion of saltwater. These may be either a wholesale or retail demand. The City currently does not have any demands under this water use sector.
- **Agricultural** – Water used for commercial agricultural practices including irrigation and other agronomic uses. Water used for processing agricultural products (e.g., food, beverage, or textile manufacturing) may also be considered industrial process water rather than agricultural water use. This may be either a wholesale or retail demand. The City currently does not have any demands under this water use sector.
- **Distribution system water losses** – Losses that were reported in accordance with the 12-month water loss for each of the prior five years.

4.2.2 Water Use Sectors in Addition to Those Listed in Water Code

Presently, the City has no additional water use sectors outside of the ten listed in CWC. Furthermore, the City expects that future water use will be restricted to the same sectors by which water is currently used based on land use projections from the Land Use Element. As a note, the City is currently engaged in an effort to define and add regulatory language for "high water users" in its municipal code to address increasing needs of the technology industry. These projected users have been incorporated into the analyses for this UWMP.

4.2.3 Past Water Use

Past potable water use by sector was analyzed to estimate water use projections into the next 20 years, as required by the CWC. By examining past water use, trends can be understood. These trends includes effects of temporary use restrictions during drought years, effects of long-term demand management measures, and the changing profile of service connections by water use sector. Water uses for 2025 and the five years preceding this plan, as well as the last two UWMP years, are summarized in COR Table 4-A.

COR Table 4-A Past Potable Water Use Volumes by Sector

Water Use Sector	2015	2020	2021	2022	2023	2024	2025
Commercial[1]	1,930	2,630	2,986	3,000	3,096	2,690	2,822
Industrial[1]	934	254	219	246	181	334	386
Institutional and Governmental	561	412	421	390	387	384	388
Multi-Family	1,464	1,416	2,115	1,327	1,437	1,589	1,600
Single-Family	11,680	17,115	16,377	15,945	15,809	17,274	17,080
Landscape	4,152	6,422	6,548	6,504	6,300	5,883	5,632
Other [2]	–		–	–	–	–	--
Total	20,721	28,249	28,667	27,412	27,210	28,155	27,909

NOTES: [1]Accounting system and categorization changes caused a recategorization of some parcels in the Industrial category to the Commercial category between 2015 and 2020. All volumes are in AF.
[2]In 2015 and subsequent years thereafter, all water demands are characterized by water use sectors defined in the CWC.

4.2.4 Current Water Use

The City's potable and non-potable water uses for 2025 by sector are reported in DWR Table 4-1. There are no existing potable or non-potable demands for the use types of saline barriers, conjunctive use, or agricultural.

DWR Table 4-1

Submittal Table 4-1 Retail: Total Uses for Potable and Non-Potable Water — Actual Water Code Section 10631(d)(1)			
Use Type	Additional Description	2025 Actual Water Use	
		Potable or Non-Potable	Volume (AF)
Commercial	Including non-metered	Potable	2,822
Industrial	Including non-metered	Potable	386
Institutional/Governmental	Including non-metered	Potable	388
Multi-Family	Including non-metered	Potable	1,600
Single Family	Including non-metered	Potable	17,080
Landscape	Including non-metered	Potable	5,632
Distribution System Water Loss	Including non-metered	Potable	2,135
Sales/Transfers/Exchanges to other Suppliers	Including non-metered	Potable	1,657
Groundwater recharge	Excludes groundwater pumped and supplied to the distribution system	Potable	193
Landscape	Recycled Water used inside the City	Non-Potable	3,029
Industrial	Recycled Water used at Roseville Energy Park	Non-Potable	428
Sales/Transfers/Exchanges to other Suppliers	Recycled Water sold outside the City	Non-Potable	301
Sales/Transfers/Exchanges to other Suppliers	Discharge to Linda Creek[1] and water wheeled on behalf of San Juan Water District.	Non-Potable	387
		Subtotal Potable	31,893
		Subtotal Non-Potable	4,145
		Total	36,038

NOTES: All volumes are in AF. The volume of losses are for potable water only; non-potable water losses are not calculated. The 2025 Water Audit has not been validated at the time of plan preparation and final losses reported in the validated Water Audit may differ.
[1]Water discharged to Linda Creek is based upon a supplemental flow requirement and creek conditions; therefore, it will vary year over year.

4.2.5 Projected Water Use

The City regularly analyses future water use demands to determine the reliability of system supplies and identify any vulnerabilities. As stated in 3.4.1, the service area population directly impacts water use demands. The City is

currently undergoing a water master planning effort. Part of that process is reexamining unit demand factors for water use which had previously been established in 2002. This 2025 UWMP update has incorporated the recommended revised unit demand factors from that effort and applied them to the demand projection analysis. To estimate projected water use through 2045, the following approach and resources were utilized.

Assumptions:

- The Planning Division's population projection from the 2020 General Plan Land Use Element was utilized, which estimates a population of 198,000 at buildout of all planned development.
- It is assumed that all planned development would be complete by 2045 as explained in Section 3.6.
- An estimated 1729 dwelling units in the City of Roseville are not served by the City. The number of dwelling units are estimated based on other utility accounts.

Population Projection and Water Use Projection Steps

1. Calculated the population not served by the City by multiplying the number of dwelling units by the 2014-2018 American Community Survey (ACS) household multiplier (2.68[1]) used in the 2020 General Plan Housing Element.
2. Subtracted the population not served by the City from the total California Department of Finance (CDoF) City of Roseville population to obtain the service area population for 2021 through 2025.
3. Estimated the current percentage of development for each specific plan from the latest Planning Department records.
4. Input current percentage of development into the City of Roseville's Environmental Utilities (EU) Department's Water Demand Tracking Tool, which calculates buildout water usage for each specific plan. Water use in the Tool is calculated by applying unit demand factors, specific to land use categories, to each of the dwelling units. Demand factors and total water use for all specific plans are provided in COR Table 4-B and COR Table 4-C, respectively.
5. Plotted the service area population from 2021 through 2025 and the projected population for 2045 to approximate the population for 2030, 2035, and 2040. The resultant population projections were previously summarized in DWR Table 3-1.
6. Updated the Water Demand Tracking Tool for 2045 to reflect 100% at buildout.

[1] https://data.census.gov/table/ACSST5Y2018.S1101?q=Roseville+city,+California

COR Table 4-B Updated (Recommended) Unit Demand Factors for Land Use Type

Residential Land Use Categories	Unit Demand Factor (gpd/DU)
Low Density Residential 1 – LDR1 (<3.5 DUs/Acre)	600
Low Density Residential 2 – LDR2 (3.5 to 5 DUs/Acre)	420
Low/Medium Density Residential 1 – LMDR1 (>5 to 6 DUs/Acre)	350
Low/Medium Density Residential 2 – LMDR2 (>6 to 8 DUs/Acre)	300
Medium Density Residential – MDR (>8 to 12 DUs/Acre)	220
High Density Residential – HDR1 (>12 to 16 DUs/Acre)	280
High Density Residential – HDR2 (>16 DUs/Acre)	190
Non-Residential Land Use Categories	**Unit Demand Factor (gpd/acre) (gpd/Acre)**
Commercial/Retail	2,100
Business Professional	2,680
Light Industrial	2,570
Industrial	2,570
Elementary School	2,800
Middle School	2,140
High School	3,420
Public (Fire Station)	2,350
Park/Recreation	2,112
Park/Recreation – Special Landscape Area	3,840
New Technology Industries[1]	**Unit Demand Factor (gpd/site)**
Medium	195,000
Large	780,000
NOTES: [1]These additional demand categories are projected in the UWMP. There have not yet been changes to zoning or land use categories in the General Plan or the Municipal Code to reflect these categories.

		Subtotal Non-Potable	4,729	5,303	5,876	6,451
		Total	60,908	63,517	65,937	67,980

NOTES: All volumes are in AF. Sales/Transfers are ideally balanced between intake and outgoing wheeled water, so the anticipated value is shown as 0 for subsequent years.

[1]Breakdown of projected use has been determined by proportional division of annual totals according to recent trends in meter data. Annual totals have been determined by the application of Unit Demand Factors to parcel data. Commercial totals have been adjusted above existing data to account for projected New Technology Industries. Water loss has been projected to match compliance with Roseville's 2028 target to reduce loss to 22.8 gallons per connection per day.

[2]Water discharged to Linda Creek is based upon a supplemental flow requirement and creek conditions; therefore, it will vary year over year. The above value of 350 AF represents an average between 2015 and 2025.

Total Gross water use projections, inclusive of recycled water, are provided in COR Table 4-D and DWR Table 4-2 (cells highlighted in green) above. Recycled water demand is further characterized in DWR Table 6-4 of Chapter 6.

4.2.6 Distribution System Water Losses

Distribution system water losses are the difference between the volume of water that is delivered into the potable drinking water distribution system and actual consumption. Losses are always present in a water system due to

pipe leaks, unauthorized connections or use, faulty meters, and unmetered institutional and governmental water use. Each year the City characterizes its water loss in accordance with the American Water Works Association (AWWA) Water Audit Method. CWC requires urban retail water suppliers to conduct and submit validated water loss audit reports annually to DWR on December 31st following the reporting year. Final Water Audit and Validation Reports are available for 2021 through 2024 and are provided in Appendix D. Distribution system water losses for five years preceding the plan update from 2020-2024 are summarized in COR Table 4-E. The submittal status of Water Loss Audit Reports to the DWR Water Loss Audit Program for the same five years can be found in DWR Table 4-5.

COR Table 4-E 12 Month Water Loss Audit Reporting for 2020-2024

Reporting Period Start Date (mm/yyyy)	Volume Water Loss (AF)
01/2020	1,089
01/2021	712
01/2022	1,663
01/2023	1,797
01/2024	2,524

DWR Table 4-5

Submittal Table 4-5 Retail: Water Loss Audit Reporting Water Code Section 10631(d)(3)(A)		
Public Water System ID # Reported in Table 2-1 R	Reporting Period	Submitted to DWR Water Loss Audit Program (yes/no)
3110008	2020	Yes
	2021	Yes
	2022	Yes
	2023	Yes
	2024	Yes
NOTES: 2025 AWWA Audit is not due to DWR until December 31, 2026, and therefore has not been included here.		

An update to the CWC requires that 2020 UWMPs and all UWMPs submitted thereafter include data showing whether the urban retail water supplier met the distribution loss standards enacted by the California State Water Resources Control Board (SWRCB) pursuant to Section 10608.34. The apparent (administrative or data-based) and real water loss standards established by the SWRCB that are to be met by the City by 2028 are 8 gallons/connection/day and 22.7 gallons/connection/day respectively. See Appendix E for the SWRCB's Calculated Water Loss Standards for the City of Roseville. Progress towards the 2028 water loss standards is reported in DWR Table 4-6. Water loss in gallons/connection/day for 2020 through 2024 is shown in COR Table 4-F.

DWR Table 4-6

Submittal Table 4-6 Retail: Progress Towards 2028 Water Loss Standard Water Code Section 10631(d)(3)(C)											
Public Water System ID # Reported in Submittal Table 2-1 R	Did the Water Board Calculate a Water Loss Standard for this Public Water System? (y/n)	Real Water Loss					Apparent Water Loss				
		State Water Board Standard		Most Recent AWWA Water Loss Audit		Real Water Loss Per Unit per Day	State Water Board Standard		Most Recent AWWA Water Loss Audit		Apparent Water Loss Per Unit per Day
		2028 Real Water Loss Standard per Unit per day	Units for Real Water Loss	Number of Units (Connections or Miles corresponding with units selected)	Volume of Total Real Loss (from AWWA Water Loss Audit) (AF)		2028 Apparent Water Loss Standard per Unit per Day	Units for Apparent Water Loss	Number of Connections	Volume of Total Apparent Loss (from AWWA Water Loss Audit) (AF)	
3110008	Yes	22.7	Gallons per Service Connection per Day (GPSCD)	52102	2098.7	36.0	8	Gallons per Service Connection per Day (GPSCD)	52102	425.7	7.3
NOTES: Data above is from 2024, the most recently completed and submitted AWWA Audit.											

COR Table 4-F Loss Reported in AWWA Water Audit for 2020-2024.

AWWA Loss Category	2020	2021	2022	2023	2024
Apparent Loss	8.23	8.09	7.47	7.23	7.29
Real Loss	12.08	5.17	22.53	16.54	35.96
Water Loss	20.31	13.26	30.00	23.77	43.25
NOTES: All values are gallons per connection per day.					

The data from 2020 through 2024 demonstrate that the City's water loss (measured as gallons per connection per day) has fluctuated year by year. The City continues to prioritize and allocate resources to detecting and repairing leaks in the distribution system to reduce water loss. Over the last ten years, the City has also increased the accuracy of reported losses by discovering better ways to quantify and examine loss, as well as the measurement points within the system that support this quantification. In dedicating resources to tracking and understanding internal unmetered uses, identifying less accurate meters, and understanding consumption of water for authorized uses, the City continues to improve their understanding of water loss. While there are necessary improvements that need to be made, the City anticipates that it is on track to meet the performance standard by 2028.

Note that in DWR Table 4-2 the projected water loss from 2030 through 2045 was calculated by multiplying the performance standard by the estimated number of service connections. The number of service connections was estimated using the same ratio of 2025 total number of service connections to 2025 population.

4.2.7 Estimating Future Water Savings

As noted in DWR Table 4-2 and the following DWR Table 4-3, water use projections do consider future water savings and lower income residential demands.

DWR Table 4-3

Submittal Table 4-3 Retail: Inclusion in Water Use Projections Water Code Section 10631 (a), 10631 (d)(4)(A), and 10631 (d)(4)(B)	
Are Future Water Savings Included in Projections? **Drop down list (y/n)**	Yes
If "Yes" to above, **state the section or page number**, in the cell to the right, where citations of the codes, ordinances, or otherwise are utilized in demand projections are found.	4.2.7.1 4.2.7.2 4.2.7.3
Are Lower Income Residential Demands Included In Projections? **Drop down list (y/n)**	Yes
If the method for accounting Lower Income Residential Demands has been included, provide page number where this accounting can be found.	4-13

The unit demand factors and resultant demands calculated by the EU department in COR Table 4-B and COR Table 4-C do not account for reduced demand from passive conservation by the public. However, based on previous years' demand data, the City has observed that passive conservation measures can result in a significant amount of efficiency. This passive demand reduction is not reflected in DWR Table 4-2 in order to support a conservative analysis with unconstrained demand represented for the potable water use categories of Commercial, Industrial,

Institutional/ Governmental, Multi-Family, Single Family, and Landscape. Conservation measures are described in the subsequent sections.

4.2.7.1 Compliance with Water Efficient Landscape Requirements

New development areas are required to reduce landscape area and calculated water demands as part of the process for land use approval, as required by the California Code of Regulations Title 23, Division 2 Chapter 2.7 Model Water Efficient Landscape Ordinance (MWELO). The City of Roseville previously developed its own standards but has more recently adopted the state of California's MWELO standards in 2026.

4.2.7.2 Increased Utilization of Recycled Water

The City of Roseville requires recycled water to be used in most land use development areas currently being planned and for construction water during drought years. Future required use includes landscaping associated with commercial, industrial, multi-family, parks, and transportation corridors. Guidelines for Recycled Water Service are outlined in Roseville Municipal Code Chapter 14.17 (available via City's website at https://qcode.us/codes/roseville/).

4.2.7.3 Implementation of Low Water Use Fixtures

Section 16.04.100 (A.) of the Roseville Municipal Code states that: "The 2019 California Building Standards Code is hereby adopted by the City of Roseville Municipal Code." The Roseville Municipal Code is available via the City's website at https://qcode.us/codes/roseville/.

Additionally, the mandatory California Green Building Standards Code (CALGreen) promotes conservation through the use of appliances and fixtures such as high-efficiency toilets, faucet aerators, and on-demand water heaters.

4.2.8 Characteristic Five-Year Water Use

The California Water Code Section 10635(a) requires that in addition to calculating water use projections over the next 20 years in five-year increments, suppliers perform a drought risk assessment lasting five consecutive years. The projected unconstrained demand for 2026-2030 is estimated in COR Table 4-G. Unconstrained demand is demand absent any water supply or usage restrictions but does include the conservation practices for new construction, outlined in the previous section. This projection informs the drought risk assessment, which is detailed in Chapter 7.

COR Table 4-G Five consecutive year unconstrained demand.

Gross Water Use	2026	2027	2028	2029	2030
Potable Water, Raw, Other Non-Potable	37,130	41,980	46,829	51,679	56,529
Recycled Water Demand	3,882	4,006	4,131	4,255	4,379
NOTES: All volumes are in AF.					

4.3 Water Use for Lower Income Housing

Policy LU5.5, of the Land Use Element, strives to uphold the City of Roseville's Affordable Housing Goal by requiring that a minimum of 10% of all new housing units cost no more than 30% of the total monthly income of very low-, low-income, and moderate-income households. The City of Roseville EU Department annually coordinates with the Planning Division to gather data related to low-income housing metrics. The total number of affordable housing units in 2025 was 3,133, of which 1,872 were single family residences and 1,261 were multi-family

residences. The water demands for low-income housing for 2025 were estimated by multiplying the number of single family and multi-family affordable housing units by the average unit demand factor for low to medium density residential and high density residential, respectively. These estimations are summarized in COR Table 4-H.

COR Table 4-H 2025 Affordable Housing Water Use

Unit Demand Factors	
Average Low to Medium Density Residential Factor for Single Family Units	378 (gpd/DU)
Average High Density Residential Factor for Multi-Family Units	235 (gpd/DU)
2025 Affordable Housing Water Use	
Single Family Residential	793 (AF/yr)
Multi-Family Residential	332 (AF/yr)
Total	1,125 (AF/yr)

As stated in DWR Table 4-3, the water use projections of DWR Table 4-2 are inclusive of water use for lower income households. The estimated water demand by sector for each specific plan, in COR Table 4-C, included affordable housing water use in the single family and multi-family water use calculations, which was used to derive the water use projections in DWR Table 4-2. The portion of water from those projections to be used by affordable housing units is shown in COR Table 4-I. As 10% of all new housing construction is required to be allocated to affordable housing, 10% of the difference between each of the five-year projections was added to the preceding period to estimate how much water would be used by low-income housing.

COR Table 4-I Affordable Housing Water Use Projections

Housing Type	2030	2035	2040	2045
Single-Family Residential	2,038	2,150	2,253	2,336
Multi-Family Residential	449	459	469	476
Total Affordable Housing Units	2,487	2,609	2,721	2,812
NOTES: All values are in AF/yr.				

4.4 Climate Change Considerations

All projections included in Chapter 4 are representative of unconstrained demand except for passive conservation efforts described in Section 4.2.7. However, consideration of effects that climate change may have on demand projections and water supply and reliability is a critical aspect of ensuring that the City is well positioned to meet future demands. The City's primary water source is surface water from Folsom Reservoir, and the City recognizes that the reliability of this source is reduced during dry years or drought. A comprehensive study aimed at understanding how climate change will impact the American River Basin, from which the City receives its surface water supplies, was performed in 2020 and is included in Section 6.14.2. The effects of climate change on water supplies are considered in future plans for the ASR program, a drought risk assessment, and a Water Shortage Contingency Plan**,** which are provided herein.

Chapter 5 SBX7-7 Baselines, Targets, and 2020 Compliance

With the adoption of the Water Conservation Act of 2009, also known as Senate Bill X7-7 (SB X7-7), the State of California was required to achieve a 20% reduction in urban per capita water use by December 31, 2020. Additionally, incremental progress towards meeting the goal was required to be demonstrated in the 2015 UWMP. The 2015 UWMP calculated gallons per capita per day (GPCD) water use and confirmed that the 2015 interim target was met, and that progress was being made toward meeting the water use target for 2020. This chapter summarizes baselines and targets, which were quantified in previous UWMPs, and confirms that the City's water use in 2020 was compliant with SB X7-7 legislation and remains compliant now in 2025.

5.1 Baselines and Targets

The City first addressed SB X7-7 in the 2010 UWMP, where baseline per capita water use, the 2015 interim target, and 2020 target were established and adopted. For the 2015 UWMP update the Department of Water Resources issued guidance that there were significant discrepancies between the estimated 2010 population and the 2010 population as determined by the 2010 U.S Census, which could result in poor baseline population estimates. Consequently, the City and other water suppliers were required to recalculate baseline population that had been reported in the 2010 UWMP and to modify the 2015 and 2020 targets accordingly.

SB X7-7 requires each urban water retailer to determine their baseline daily per capita water use measured in GPCD, over a 10-year or 15-year baseline period. The 10-year baseline period is defined as a continuous 10-year period ending no earlier than December 31, 2004, and no later than December 31, 2010. SB X7-7 also defines that for suppliers which met a minimum of 10% of their 2008 water demand through recycled water that the baseline could be extended to a maximum of a 15-year baseline period. Only 8.76% of the City's demand was met with recycled water in 2008; consequently the City used a 10 consecutive year period for its baseline. Additionally, SB X7-7 required that a 5-year baseline per capita water demand be calculated over a 5 consecutive year period ending no earlier than December 31, 2007, and no later than December 31, 2010. Given the requirements the City used the following baseline periods:

- 10-year Baseline Period: 1995-2004
- 5-year Baseline Period: 2003-2007

Between the 2015 and 2020 UWMPs, the City experienced no changes to the service area that would require recalculation of baseline or targets for 2020; there were annexations for new construction, but these did not trigger recalculation requirements. Baselines and targets presented in the 2020 UWMP are summarized in 2020 DWR Table 5-1. The historical 2015 SB X7-7 Verification Form, which provides tables for detailed calculations of baselines and targets, is provided in Appendix F.

2020 DWR Table 5-1

Submittal Table 5-1 Baselines and Targets Summary from SB X7-7 Verification Form				
Baseline Period	Start Year	End Year	Average Baseline GPCD	Confirmed 2020 Target
10-15 year	1995	2004	309	247
5 Year	2003	2007	295	

5.2 Compliance Daily Per-Capita Water Use

The 2020 compliance daily per capita water use (in GPCD) was calculated in accordance with Methodology 4 of DWR's *Methodologies for Calculating Baseline and Compliance Urban Per Capita Water Use* document. The SB X7-7 Compliance Form is a set of tables containing calculations demonstrating that the City met the 2020 target and achieved a 20% reduction from its baseline and is provided in Appendix G. Confirmation of current compliance is summarized in 2025 DWR Table 5-1 which shows that the City did in fact achieve Targeted Reduction for 2020.

2025 DWR Table 5-1

Submittal Table 5-1 Retail: SB X7-7 2020 Target Progress Water Code Section 10608.40						
Was Supplier part of a merger or consolidation since 2020?	Regional Alliance Target or Individual Target?	2020 Target	Actual 2020 GPCD	Did Supplier Achieve Targeted Reduction for 2020?	**Only for suppliers that did not meet the Target in 2020**	
					Actual 2025 GPCD (From SB X7-7 Compliance Form)	Did Supplier meet the 2020 Target in 2025?
No	Individual Target	247	203	Yes		NA

5.3 Regional Alliance

The City has complied with SB X7-7 and UWMP requirements as an individual supplier and had elected to not participate in a Regional Alliance.

Chapter 6 Water Supply Characterization

This chapter catalogues and describes the various water resources and supplies available to the City of Roseville including contract supplies from other agencies, surface water, groundwater, storm water, wastewater, and recycled water, as well as water transfers. The supply source, origin, quality, quantity, and impacts of climate change on availability for each source are discussed within this section.

6.1 Surface Water

The City's primary water supply contracts are and have historically been comprised of high-quality surface water received through Folsom Reservoir according to the terms of the City's water supply contracts with the US Bureau of Reclamation (USBR) and Placer County Water Agency (PCWA). Since these supplies are not considered self-supplied and are instead purchased through other agencies, they are described in Section 6.2 Purchased and Imported Water.

6.2 Purchased and Imported Water

The City has historically relied heavily on its water supply contracts with the US Bureau of Reclamation and PCWA. Together, these untreated surface water contract entitlements for American River water total 66,000 acre-feet per year (AF/yr). Over the coming 10 years, an additional 10,000 AF of contract entitlements will become available through the PCWA agreement, in two 5,000 AF increments which take effect in 2030 and 2035 respectively. The City's current contract supplies are outlined in COR Table 6-A.

COR Table 6-A Surface Water Supply Summary

Contract Supply	Supply Type	Quantity	Availability
USBR	Raw Surface Water	32,000 AF	Subject to CVP M&I Usage Policy [1]
PCWA	Raw Surface Water	34,000 AF (current) – 44,000 AF (future)	Most Year Types [2]
NOTES: [1]The City's USBR Supply is subject in any year to determinations of allotments based on unimpaired inflow to Folsom Reservoir and downstream operations. [2]The City's PCWA Supply will go down to 30,000 AF during any given Dry Year.			

Water supplies from the two source agencies outlined above are received through the same point location at Folsom Dam. Folsom Reservoir has been the primary source of water supply for the City of Roseville since 1971. Surface water from the American River is collected and diverted at the Folsom Reservoir Pumping Plant located at Folsom Dam. The City receives supplies from its two surface water contract entitlements through the Folsom Reservoir Municipal and Industrial (M&I) Intake at this facility.

Untreated water supplies received at this point are conveyed by gravity or pumped by USBR depending on reservoir level through two parallel pipelines (84-inch and 72-inch) to the City's Barton Road Water Treatment Plant (BRWTP), with a capacity for treatment of volumes up to 100 MGD. The 72-inch pipeline was constructed in 2010 to increase redundancy and reliability of this critical supply route, in partnership with San Juan Water District. Additionally, the City has 18 intertie facilities with neighboring agencies through which water supplies may be transferred under normal water year conditions as well as emergency or drought conditions. The City is actively

engaged with PCWA to increase system connectivity and facilitate future transfer of increased volumes of raw and treated water directly through existing and/or new intertie facilities.

6.2.1 Contract Supplies – Vulnerabilities and Restrictions

The City's contract supply with the USBR as part of the Central Valley Project is subject to yearly assignments based on each year's hydrologic conditions. Each year the City is informed in April of the determined percentage allotment of the full 32,000 AF allowed by the contract terms. This determination is made based on the unimpaired inflow of runoff into Folsom Reservoir. This supply is therefore highly vulnerable to climate change and its impacts on rainfall and snowpack conditions upstream of Folsom Reservoir in the Sierra Nevada Mountains. In recent years, this allotment has varied significantly on an annual basis, and the City has undertaken dedicated efforts to examine alternatives for increasing water supply reliability in all year types.

A minimum of 30,000 AF of the City's contract supply with PCWA is available in all hydrologic year types; it is also conveyed from the Middle Fork Project (MFP) through Folsom Reservoir and received as raw water at the same diversion point at Folsom Dam. A previous contract with San Juan Water District (SJWD) for 4,000 AF was dissolved and incorporated into the PCWA contract, contributing to the updated total supply. The City has since amended this contract agreement with PCWA to reflect a current standard availability of 34,000 AF, with an additional 10,000 AF to become available according to the schedule shown below in COR Table 6-B. At this time, there are provisions for the purchase and delivery of an additional 10 MGD or 11,200 AF of treated water from PCWA in emergency conditions, only when supplies are not available through the Folsom Dam Diversion. Additionally, this emergency supply would only be available to the City if both City and PCWA customers achieved 20% conservation. The partners are exploring further improvements to existing intertie facilities to expand and diversify opportunities for the transfer of supplies not dependent on the diversion facility at Folsom Dam.

COR Table 6-B PCWA Future Water Entitlements

Supply Type	Effective Dates	Quantity in Most Years	Quantity in Drier Years
Emergency Treated Water	After May 17, 2023	0 MGD	10 MGD
Raw Surface Water	Until July 1, 2024	29,000 AF	29,000 AF
Raw Surface Water	Until July 1, 2029	34,000 AF	30,000 AF
Raw Surface Water	Until July 1, 2034	39,000 AF	30,000 AF
Raw Surface Water	After July 1, 2034	44,000 AF	30,000 AF

The City's surface water supplies are all dependent upon the operation of Folsom Reservoir by the US Bureau of Reclamation; the dam that created the reservoir was originally constructed with a primary purpose of flood control, not water supply, and is still operated according to that primary function. The importance of this facility has led the City to examine options for redundancy, resilience, and/or improvements with respect to the intake, and best practices in terms of management of its other water resources.

The City remains engaged with regional partners in examining ways to increase the resiliency of this critical reservoir and diversion location. The City acknowledges the vulnerability of the intake elevation at Folsom Dam to the effects of extreme drought. The existing facilities cannot deliver peak season demands when the reservoir

level drops below 391 feet in elevation and cannot deliver any water when reservoir levels drop below an elevation of 310-ft. To address the potential loss of supply during low reservoir level conditions, Reclamation and the City of Folsom have successfully implemented a temporary floating pump system that can provide 30 cfs of emergency backup delivery to only Folsom and Folsom Prison. A 36-inch tap in penstock No. 1 can provide 75 cfs emergency pump station (E-pump) for water deliveries to SJWD and Roseville. In the event that the intake is exposed by an extremely low reservoir level, beyond what is described above, the City would not be able to receive supplies through either of its primary supply contracts. The City has elected to examine this "dead pool" condition as part of this UWMP in Chapter 7.

6.2.2 Water Forum Agreement

The City is a member of the Sacramento River Forum and a signatory to the Water Forum Agreement (WFA). Accordingly, the City has historically agreed to limit its diversions from the upper American River to 58,900 AF/yr during Normal and Wet water years, and to between 58,900 AF/yr and 43,800 AF/yr in Drier and Driest water years. The City is responsibly committed to the Water Forum Agreement but maintains the position that "By instituting programs to conserve water, it abandons no right, title or interest in or to any City water rights, contractual entitlements or any appurtenant rights necessary to exercise such water rights or entitlements," as described by Resolution No. 09-64, Declaring an Intent to Retain Control of Conserved Water (Appendix H). The City executed an update to this agreement in May of 2026. At this time, no further limitations will be applied to the City's available contract supply as a result of this update.

6.2.3 ARTESIAN Project Agreement

Since the last UWMP update, the City has entered an agreement, executed on June 30, 2023, with the American River Terms for Ecosystem Support and Infrastructure Assistance Needs (ARTESIAN) Project. This Project and its associated agreement are a regional initiative managed by the Sacramento Regional Water Authority (RWA). It governs state funding for early implementation of voluntary agreements, aiming to enhance water supply reliability and ecosystem health in the Sacramento region. This project provides funding for the City's ASR Program, specifically ASR and production well development, and therefore the City has committed to making 4,460 acre-feet (AF) of water available regionally through groundwater substitution/replenishment in any given "call year." A "call year" is a year type defined in the agreement where outflow through groundwater replenishment is "called for" based on conditions, typically in three out of eight dry or critically dry year types. The agreement's call years begin in 2025, with potential for further implementation in dry years between 2033 and 2036 if necessary. This initiative helps the City, in coordination with the RWA, replenish the local aquifer to ensure long-term water reliability.

6.2.4 Other Available Water Purchases

The City may purchase supplemental water supplies from the Bureau of Reclamation (USBR), including Article 3F water and Section 215 water, when available. These supplies are intermittent in nature and generally are only available during the winter and spring months, when excess or unmanaged flows are present in the system. Article 3F water consists of excess flows released by the USBR beyond the entitlements of downstream users, while Section 215 water is defined in the Reclamation Reform Act of 1982 (RRA) as un-storable irrigation water released due to flood control requirements or unmanaged flood flows. The City entered into the Section 215 Contract

Agreement with the USBR on March 15, 2023 (Contract No. 23-WC-20-6073), which provides a mechanism to access Section 215 supplies when available.

When available, these supplies can be used to support the City's Aquifer Storage and Recovery (ASR) program for groundwater recharge, consistent with the City's objectives to enhance water supply reliability and support regional conjunctive use. The City exercised the Article 3F option in 2019, acquiring approximately 950 AF and the Section 215 option in 2023, purchasing approximately 1,865 AF. The City has not utilized Article 3F supplies since the last UWMP.

6.3 Groundwater

In recent years, the City has taken significant steps to expand and strengthen their ASR Program to broaden the City's water supply portfolio. The City currently owns and maintains 7 operational groundwater wells. Six of the 7 operational wells are capable of Aquifer Storage and Recovery whereby treated water can be injected into the underlying aquifer for later extraction and use. Two more wells with ASR capabilities are currently under construction and are slated for completion in the Fall of 2026. The City also plans to construct 2 additional wells with ASR capabilities by 2030.

Groundwater is considered to be available for use as part of Roseville's water supply portfolio in supply emergencies or extreme drought scenarios.

6.3.1 Groundwater Basin Description

The City is located over the North American Subbasin of the Sacramento Valley Groundwater Basin. The North American Subbasin (DWR Groundwater Basin Number 5-21.64) is located in the eastern central portion of the Sacramento Groundwater Basin, encompassing portions of Sutter, Placer, and Sacramento Counties. As of 2025, the Basin is listed by DWR as high priority in large part due to the population in the basin and existing and projected future groundwater use, but the basin has neither been adjudicated nor is it considered in overdraft or critical overdraft conditions.

Groundwater elevations in the subbasin along the Placer/Sacramento County line declined at a rate of 1 to 1.5 feet per year for multiple decades until approximately the mid-1990s. Some of the largest decreases have occurred in the area of the former McClellan Air Force Base. From 1995, groundwater elevations stabilized, and the declining elevation trend was dampened due to groundwater management activities stemming from the Water Forum Agreement restraining further increases in groundwater pumping and implementation of in-lieu banking in the region. Groundwater elevations in Sutter and northern Placer counties generally remain stable, although some wells in southern Sutter County have experienced declines.

In addition, the subbasin has historically been pumped by agricultural and urban users. Recently, in some areas of the subbasin, agricultural land has been and is being developed and converted to urban uses. At this time, the subbasin is operating within the current estimate of sustainable yield.

6.3.2 Groundwater Management

The City actively manages groundwater resources both internally in coordination with land use planning and growth projections as well as regionally in accordance with the provisions of the Sustainable Groundwater Management Act. These efforts are discussed in the following subsections.

6.3.2.1 Western Placer County Groundwater Management Plan

The Western Placer County Groundwater Management Plan (WPCGMP) is a foundational document, originally adopted in 2007, to sustainably manage the North American River Groundwater Sub-basin (NASb). It was developed by a partnership including the cities of Roseville and Lincoln, Placer County Water Agency (PCWA), and California American Water Company. As of January 2022, this effort evolved into a mandated Groundwater Sustainability Plan (GSP) under the Sustainable Groundwater Management Act (SGMA) to prevent overdraft and ensure long-term water reliability. The GSP can be accessed, along with a schedule of public hearings, at www.nasbgroundwater.org. All GSP Annual Reports can be viewed at the DWR SGMA Portal, located here: https://sgma.water.ca.gov/portal/#gsp .

6.3.2.2 Sustainable Groundwater Management Act (SGMA)

The Sustainable Groundwater Management Act of 2014, or SGMA, was a three-bill legislative package composed of AB 1739 (Dickinson), SB 1168 (Pavley), and SB 1319 (Pavley). The package was passed in September 2014 and contains a framework for sustainable management of groundwater supplies by local agencies, with a limited role for state intervention if local agencies fail to meet the requirements of SGMA. SGMA lays out a process and a timeline for local authorities to achieve sustainable management of high and medium priority groundwater basins throughout the state. It also provides tools, authorities, and deadlines to achieve statewide sustainable groundwater management. For local agencies involved in implementation, the requirements are significant and will take years to accomplish. DWR has the responsibility to evaluate local agency progress, while the SWRCB may intervene if DWR determines that local agencies fail to make progress and achieve the requirements of SGMA. Essentially, local agencies who volunteer to comply with SGMA must form as Groundwater Sustainability Agencies (GSAs) and prepare, adopt, and implement a Groundwater Strategic Plan (GSP) that meets the requirements of SGMA.

More specifically, critical required steps include the formation of GSAs within two years of when SGMA became effective; the adoption of GSPs within 5-7 years depending on the status of the basin in question (in critical overdraft condition or not); and preparation, adoption and implementation of a GSP(s) that achieves the sustainability goal within 20 years of plan adoption.

SGMA applies to basins or subbasins designated by DWR as high- or medium-priority, based on statewide prioritization that uses criteria including population, importance and amount of groundwater pumped, extent of irrigated agriculture dependent on groundwater, and other criteria. DWR's final Basin Prioritization findings indicate that there are 127 of California's 515 groundwater basins and subbasins which are high- and/or medium-priority. These high and medium-priority basins account for 96% of California's annual groundwater pumping and include 88% of the state's population. The priority ranking for the North American sub-basin of the Sacramento Valley groundwater basin is 24 out of the state's 515 basins, with an overall ranking score of 22.5 and a designation of High Priority.

The City is well along the path of SGMA compliance, having joined the West Placer Groundwater Sustainability Agency (WPGSA) consisting of the City of Lincoln, Placer County Water Agency, Nevada Irrigation District, and the County of Placer. The WPGSA is one of a group of five GSAs formed within the North American Subbasin that consist of West Placer Groundwater Sustainability Authority, Sacramento Groundwater Authority, South Sutter Water District, Sutter County, and Recreation District 1001 GSAs. The five GSAs prepared and submitted a joint GSP to DWR on January 24, 2022, prior to the statutory deadline of January 31, 2022 (Appendix I). The GSAs of the North American Subbasin have been working over the last year to update the GSP and to prepare for the Periodic Evaluation to meet the needs of SGMA. The City adopted and began implementation of this plan on December 15, 2021. Due to the City's proactive approach to groundwater sustainability, GSP implementation is highly practical and visible; it is reflected in the ongoing construction and smart operation of ASR and production wells to store and recover water, backed by monitoring and regional coordination.

6.3.3 Historical Groundwater Production

Groundwater wells have historically been used by the City in drought or emergency conditions, with minimal pumping for the purpose of maintenance or demonstration of the City's ASR program. While this remains true, over the last ten years, the City has worked to advance and expand the ASR program to provide additional water supply reliability.

Beginning in 2018, the City began to regularly operate existing groundwater infrastructure specifically by pumping small volumes of groundwater from the City's production wells and serving that water into the distribution system as part of the maintenance plan. In 2022, 2023, and 2025, the City was able to store small quantities of excess surface water through the use of ASR and production wells by injecting that water into the aquifer. As the City continues to develop this program and look to the future of sustainable supply, groundwater pumping patterns will continue to evolve. A summary of the amount of groundwater pumped by the City over the past five years is provided in DWR Table 6-1.

DWR Table 6-1

Submittal Table 6-1 Retail: Groundwater Volume Pumped Water Code Section 10631(4) and 10631(4)(c)							
Groundwater Type	Potable or Non-Potable	Location or Basin Name	2021 (AF)	2022 (AF)	2023 (AF)	2024 (AF)	2025 (AF)
Alluvial Basin	Potable	North American Sub-basin of the Sacramento Valley Groundwater Basin 5-21.64	1472.6	120.6	115.08	119.9	291.5
		Total	1,473	121	115	120	292
NOTES: Water pumped from Roseville water wells does not need to be desalinated.							

6.3.4 Aquifer Storage and Recovery

The City considers development of a diverse and drought resistant water supply portfolio to be of the greatest importance. To this end, the City has invested in both planning and capital improvements to develop their Aquifer Storage and Recovery (ASR) Program into a highly functional and critical component of the Water Utility's future. The ASR Program utilizes groundwater pumping infrastructure along with existing water supplies to increase reliability. ASR wells are capable of injecting treated surface water from the distribution system into the groundwater aquifer for later extraction and use. A schematic of wells equipped for ASR within an urban environment, accessing the underlying aquifer for groundwater, is provided in Figure 6-1.

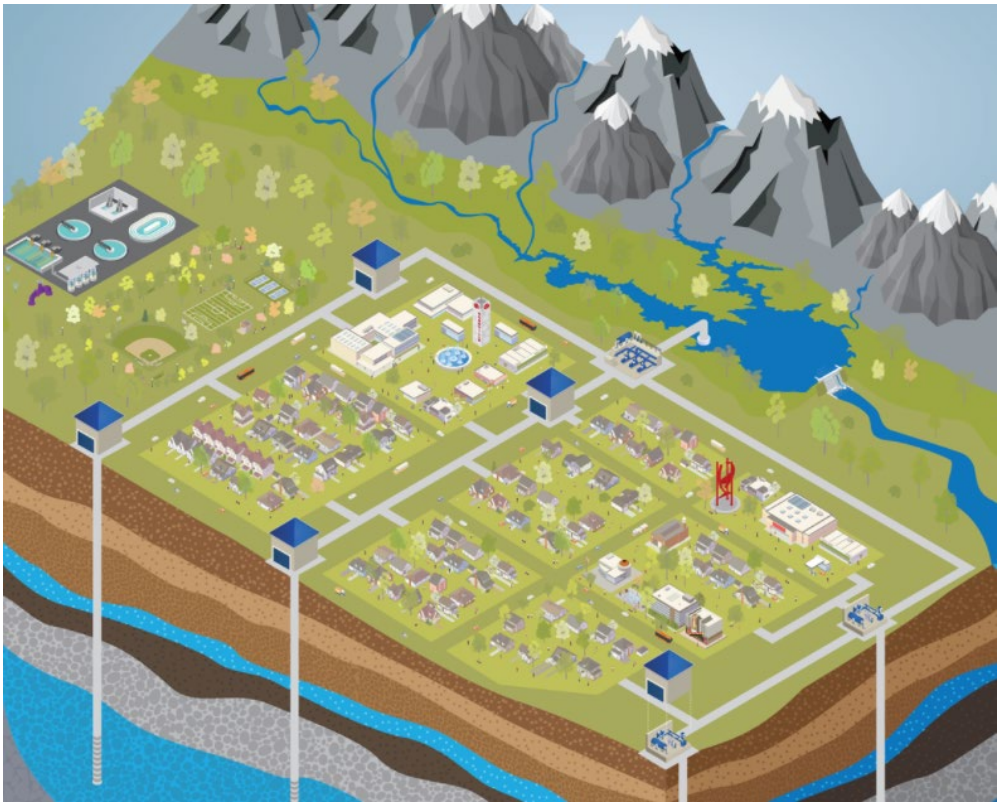

Figure 6-1 Urban Groundwater Infrastructure Schematic

ASR production wells can be used seasonally (i.e. within the water year) or periodically over many years to create a "groundwater bank", storing surface water supplies within the aquifer in times of abundance (wet season or years) for use in times of scarcity (dry season or years). An important component of an ASR Program is to maintain consistent and detailed records of groundwater levels within the aquifer and extraction/injection volumes. This information is used to ensure the groundwater basin is managed sustainably providing water supply reliability benefits while avoiding impacts to the groundwater basin. The City is a committed leader in the region with respect to the development of potential future cooperative water banking and responsible regional resource management.

6.4 Stormwater

At this time, the City does not employ any active stormwater recovery measures. In recent years, the City has invested in studies to determine whether stormwater recapture represents a possible resource for future diversity in groundwater recharge projects. Considerations include water rights, timing and quantity of available runoff, property rights, and water quality, among others. Given the complexity of the issues pertaining to stormwater capture or surface spreading, the City continues to conduct analyses to determine the feasibility of this option in the future.

6.5 Wastewater and Recycled Water

The City currently owns and operates two regional wastewater treatment facilities that treat wastewater flows collected from a combination of the City, South Placer Municipal Utilities District (SPMUD), and some areas of

unincorporated Placer County. This section provides information on wastewater management, as well as its current and potential reuse as a recycled water resource.

6.5.1 Wastewater Collection, Treatment, and Disposal

The South Placer Wastewater Authority (SPWA) was created under a Joint Powers Agreement in October 2000 and is comprised of the City of Roseville, South Placer Municipal Utilities District, and the County of Placer. The SPWA oversees policy for funding regional wastewater infrastructure. The City collaborates with the regional partners on forward planning and best practices for the management of these regional facilities.

The wastewater collection and treatment facilities within the City's service area are maintained and operated by City staff. The wastewater collection facilities outside of the City's service area are maintained by the other SPWA agencies (Placer County and SPMUD). Wastewater outside of the City's service area but within the SPWA Service Area Boundary is conveyed through trunk sewers to the City's wastewater treatment facilities located within the City limits. Metering stations are located at the City's service area boundaries to account for the wastewater entering the City's collection system originating from Placer County and SPMUD collection areas.

The City owns and operates on behalf of the SPWA the Dry Creek Wastewater Treatment Plant (Dry Creek WWTP) and the Pleasant Grove Wastewater Treatment Plant (Pleasant Grove WWTP). Both plants discharge tertiary treated wastewater to surface water. Dry Creek WWTP discharges to Dry Creek while the Pleasant Grove WWTP discharges to Pleasant Grove Creek. The two wastewater treatment plants serve an area that extends beyond the City boundaries.

The Dry Creek WWTP provides tertiary-level wastewater treatment. The treatment consists of screening, grit removal, primary clarification, aeration, nitrification and denitrification, secondary clarification, filtration, and ultraviolet disinfection. Disinfected tertiary-treated wastewater from the Dry Creek WWTP meets Title 22 regulations for full, unrestricted use. The current (2025) average dry weather flow (ADWF) is approximately 8.6 MGD, of which approximately 65%, or 5.6 MGD comes from the City of Roseville.

The plant is currently authorized to discharge up to 18 MGD ADWF into Dry Creek under the Municipal General Order. The Dry Creek WWTP discharge is assigned Municipal General Order enrollee number R5-2023-0025-008 and National Pollutant Discharge Elimination System (NPDES) permit No. CAG585001. Per the California Department of Fish and Wildlife (CDFW), the City is required to discharge four million gallons per day to Dry Creek. The Dry Creek WWTP currently (2025) produces 950 AF/yr of recycled water. A portion of recycled water from Dry Creek is discharged into a gravity line that supplies a school and Morgan Creek Golf Course, both of which are located in Placer County, outside the City's water service area. The remainder of recycled water from the Dry Creek WWTP is pumped into the recycled water distribution system and used within the City's water service area.

The Pleasant Grove WWTP currently (2025) treats approximately 8.49 MGD ADWF with approximately 65% or 5.5 MGD coming from the City of Roseville. The Pleasant Grove WWTP provides disinfected tertiary-level treatment through the process of screening, grit removal, secondary aeration, secondary clarification, filtration, and ultraviolet disinfection. The Pleasant Grove WWTP discharge is assigned Municipal General Order enrollee number R5-2023-0025-006 and National Pollutant Discharge Elimination System Permit No. CAG585001. There are no instream flow requirements for Pleasant Grove Creek.

Disinfected tertiary-treated wastewater from Pleasant Grove WWTP meets Title 22 regulations for full, unrestricted use. The Pleasant Grove WWTP currently (2025) produces approximately 2300 AF/yr of recycled water that is pumped into the recycled water distribution system and used within the City's service area boundary.

Pleasant Grove WWTP underwent construction of a major capital improvement project that began in 2019 and was completed in 2023. The project included an increase in treatment capacity from 9.5 MGD up to 12 MGD. Improvements to the treatment process included the addition of primary clarification, waste activated sludge thickening, and anaerobic digestion. This project represents a significant improvement to the capacity of the Pleasant Grove WWTP with important components of long-term resilience and improved efficiency of the City's utilities.

The project also included important improvements that have benefited the environment and have created renewable energy resources. Methane from the anaerobic digestion is converted to a renewable compressed natural gas (CNG) to fuel the City's growing solid waste fleet and fuel new microturbines that generate electricity for plant usage. The project included a receiving facility for energy-dense wastes to enhance methane production.

As previously described, both treatment plants are regional wastewater facilities and as such, wastewater is generated both inside and outside of the City from a combination of residential and non-residential sources. A summary of the volume of wastewater processed at and discharged from each of the City's wastewater treatment plant in 2025 is provided in DWR Table 6-2 and DWR Table 6-3.

DWR Table 6-2

Submittal Table 6-2 Retail: Wastewater Collected Within Service Area Water Code Section 10633(a)				
100%	Percentage of 2025 service area served by wastewater collection system			
100%	Percentage of 2025 service area population served by wastewater collection system			
Wastewater Collection			**Recipient of Collected Wastewater**	
Name of Wastewater Collection Agency	Wastewater Volume Metered or Estimated?	Volume of Wastewater Collected from UWMP Service Area 2025 (AF)	Name of Wastewater Treatment Plant (WWTP) and Place ID Number	Is WWTP Located Within UWMP Area?
City of Roseville (Dry Creek Wastewater Treatment Plant)	Metered	7,116	Roseville City Master Reclamation Permit, Place ID 239771	Yes
City of Roseville (Pleasant Grove Wastewater Treatment Plant)	Metered	6,838	Roseville City Master Reclamation Permit, Place ID 239771	Yes
Total Wastewater Received from UWMP Service Area in 2025:		13,954		

NOTES: All volumes are in AF. The top row entry reflects Dry Creek WWTP, and the bottom row entry reflects Pleasant Grove WWTP. Both are listed under a single Master Reclamation Permit which is the only option available in the drop-down menu for this table. Approximately 65% of the flow received at Dry Creek WWTP and 65% of the flow received at the Pleasant Grove WWTP originates in the City's water service area.

DWR Table 6-3

Submittal Table 6-3 Retail: Wastewater Treatment and Outcomes Within UWMP Service Area
Water Code Section 10633(b)

Wastewater Treatment Plant Name and Place ID Number	Does This Plant Treat Wastewater Generated Outside the UWMP Service Area?	2025 Volume of Wastewater Received from UWMP Service Area (As Reported in Submittal Table 6-2 R) (AF)	Total 2025 Volume of Water Treated (AF)	2025 Outcomes of Treated Wastewater										
				Water Recycled Within UWMP Service Area		Water Recycled Outside of UWMP Service Area		Effluent Discharge that is not a Permitted Recycled Water Use		Required Discharge for Instream Flow		Delivered to Another Entity for Additional Treatment

Total		13,954	21,468		3,457		301		17,821		1,464		0	

NOTES: All values are in AF. The top row entry reflects Dry Creek WWTP, and the bottom row entry reflects Pleasant Grove WWTP. Both are listed under a single Master Reclamation Permit which is the only option available in the drop-down menu for this table.

6.6 Recycled Water System

6.6.1 Recycled Water Coordination

The City regards recycled water as a valuable resource that is a key component of the City's overall water supply portfolio. The City operates its recycled water system and program in coordination with its regional wastewater partners, including South Placer Municipal Utilities District and Placer County. The City has been successfully irrigating landscaped areas throughout the City and planning recycled water implementation as part of new development surrounding the City. The City prepared the 2025 Recycled Water Systems Evaluation Report (Appendix J) to position the City for implementing the next phases of recycled water projects as new users within the City come online, and as the various UGA's plan for and install recycled water infrastructure.

The City operates the recycled water program though the requirements of Master Reclamation Permit Order 97-147 (Permit). The Permit implements the reclamation criteria of the City's Title 22 disinfected tertiary recycled water. Current uses of recycled water within the City include irrigation of landscapes and golf courses, industrial cooling for the Roseville Energy Park, and construction purposes such as dust control and soil compaction. Recycled water is also conveyed outside the City's water service area for golf course and landscape irrigation.

The City prepared the South Placer Regional Wastewater 2020 Systems Evaluation Report (Appendix K), which delineates the current and projected service area boundary, including Urban Growth Areas expected to be added in the near future as development continues. The report provides baseline and projected characterizations of its regional wastewater and recycled water systems. The Systems Evaluation Report was updated to address newer annexations by the SPWA partner agencies, planning revisions, as well as changes in wastewater characteristics and flows. Recycled water supplies and availability are directly linked to the planning and operation of the wastewater treatment plants and must be managed and planned in coordination. The City and its SPWA partners continue utilizing recycled water supplies to promote responsible water supply management. Beneficial use of available disinfected tertiary treated Title 22 recycled water allows surface water and groundwater supplies to be applied to potable uses.

All agency elements for a reuse program within the City boundary, including land planning, development, wastewater treatment, and water supply, are a part of the City of Roseville government organization.

6.7 Recycled Water Beneficial Uses

The City's recycled water program predominantly serves landscape irrigation customers. The City currently delivers recycled water to golf courses, parks, schools, and many miles of streetscape for landscape irrigation within the City's potable water service area. The City also provides recycled water to a school and a golf course outside of the City's potable water service area. The City delivers recycled water to the Roseville Energy Park, which is owned and operated by the City of Roseville Electric Utility, for industrial cooling purposes. Landscapes at both regional wastewater treatment plants also use recycled water for irrigation purposes. Recycled water can be used for construction purposes such as dust control and soil compaction.

The current and projected direct beneficial uses of recycled water in the City's water service area are shown in DWR Table 6-4.

DWR Table 6-4

Submittal Table 6-4 Retail: Recycled Water Direct Beneficial Uses Within Service Area Water Code Section 10633 (c), (d), (e)									
Name(s) of Facility/ies Producing (Treating) the Recycled Water:			Dry Creek WWTP, Pleasant Grove WWTP						
Name of Supplier Operating the Recycled Water Distribution System:			City of Roseville						
Use Type	**Potable or Non-Potable** (after treatment if treated)	Additional Information	2025 (AF)	2030 (AF)	2035 (AF)	2040 (AF)	2045 (AF)	**Potential Recycled Water Use**	
								Volume	Narrative page number
Agricultural irrigation	Non-Potable	Parks	5	6	6	7	8	8	
Landscape irrigation (not golf courses)	Non-Potable	Parks	392	456	516	576	636	636	
Landscape irrigation (not golf courses)	Non-Potable	Schools	144	168	190	212	233	233	
Landscape irrigation (not golf courses)	Non-Potable	Streetscape	945	1,101	1,246	1,390	1,534	1,534	
Golf course irrigation	Non-Potable		1,544	1,800	2,035	2,271	2,507	2,507	
Other (Description Required)	Non-Potable	Industrial cooling at Roseville Energy Park	428	499	564	629	695	695	
Other (Description Required)	Non-Potable	Morgan Creek Golf Course	270	314	356	397	438	438	
Other (Description Required)	Non-Potable	Dry Creek School District	31	36	40	45	50	50	
		Subtotal Potable	0	0	0	0	0	0	
		Subtotal Non-Potable	3,758	4,379	4,953	5,527	6,101	6,101	
		Total	3,758	4,379	4,953	5,527	6,101	6,101	0

NOTES: All values are in AF. Values correspond with projections in the 2025 Recycled Water Systems Evaluation for maximum demand, providing a conservative look at potential usage. Roseville's WWTP infrastructure is capable of exceeding the above outlined demands for recycled water production. It's difficult to project the relative timing of usage and supply and so the above values are simply an estimate. Golf course irrigation does not include golf course irrigation outside the City's service area (Morgan Creek Golf Course). Landscape irrigation for schools does not include schools outside of the service area (Dy Creek School District).

The uses listed in DWR Table 6-4 include use of recycled water supply. Recycled water uses represent demands within the City's service area boundary including all approved specific plans. The 4 million gallon per day required discharge to Dry Creek as an instream flow requirement totaling 4,480 AF/yr is not shown in DWR Table 6-4.

A comparison of the 2025 actual use of recycled water to what was projected for use in 2025 in the 2020 UWMP is provided in DWR Table 6-5.

DWR Table 6-5

Submittal Table 6-5 Retail: 2020 UWMP Recycled Water Use Projection Compared to 2025 Actual Water Code Section 10633(e)		
Use Type	2020 Projection for 2025 (AF)	2025 Actual Use (AF)
Landscape irrigation (not golf courses)	1,446	1,485
Golf course irrigation	1,888	1,544
Industrial use	310	428
Other (Description Required)	378	301
Total	4,022	3,758
NOTES: All values are in AF. Golf course irrigation does not include golf course irrigation outside the City's service area (Morgan Creek Golf Course). Landscape irrigation for schools does not include schools outside of the service area (Dry Creek School District).		

6.8 Actions to Encourage and Optimize Future Recycled Water Use

As of 2025, the peak recycled water production is approximately equal to the peak recycled water demand. For the City to further expand recycled water usage during the irrigation season, additional recycled water must be made available through expansion of operational storage, with the necessary storage volume dependent on projected demand requirements. Therefore, the City will continue to evaluate in-City and regional recycled water demands and consider its ability to develop infrastructure to support recycled water for future projects.

It is the policy of the City that where the use of recycled water is feasible, appropriate, and acceptable to all applicable regulatory agencies, the City will require an owner or customer to use recycled water for approved uses. The City has other methods of encouraging recycled water use including a rate discount and public education. The recycled water rate for customers is currently 64 percent of the potable water rate. The City also implements an extensive public education campaign to educate its customers about the reliability and other benefits of recycled water. Another major benefit to customers of using recycled water is that it can be used reliably in times of drought. In the event the City imposes drought restrictions on uses, such as irrigation and construction, recycled water is exempt from these restrictions. Under certain drought stages, the City would mandate the use of recycled water for construction purposes.

One target of future recycled water use is new development, as stated in DWR Table 6-6. Projections in the 2025 Recycled Water Systems Evaluation report indicate there will be an increase in recycled water use of approximately 2,500 AF over the course of the next 20 years. A major hindrance to expanding use of recycled water in existing developments is lack of infrastructure. Installing new infrastructure in existing areas is exceedingly expensive. The City requires use of recycled water for all commercial irrigation services in newly developed master planned areas. This is feasible because the recycled water infrastructure can be installed as part of the original project. Additionally, the City is considering expanding recycled water distribution to entities both within and outside the potable water service area and is also evaluating potential changes to the Municipal Code that would require “high water users”, such as technology sector data centers, to use available recycled water.

DWR Table 6-6

Submittal Table 6-6 Retail: Methods to Encourage Future Recycled Water Use Water Code Section 10633(f)			
6-15	Provide page location of narrative in the UWMP		
Name of Action	Description	Planned Implementation Year	Expected Increase in Recycled Water Use (AF)
Developer Agreements	Per City of Roseville development standards, recycled water must be incorporated into future construction.	2025-2045	2,500
		Total (AF)	2,500
		Unit Conversion to AF	2,500
NOTES: Consistent with assumptions elsewhere in the UWMP, the City is assuming buildout would occur in 2045. This projected increased value has been assumed to correlate with 2045. The projected value corresponds with the 2025 Recycled Water System Evaluation Report for estimated maximum projected demand.			

6.9 Desalinated Water Opportunities

There are no opportunities for the development of desalinated water within the City's service area as a future supply source. The City is not located near any bodies of water that would allow for the option.

6.10 Exchanges or Transfers

The City maintains an on-demand treated water system that is used for municipal and industrial purposes. The City maintains direct treated water interties with five surrounding jurisdictions, as described in Section 3.1.6. The City can transfer water between jurisdictions through these interties or access water to supplement its distribution system. These facilities are designed to be used for wheeling water through the service area or for demand shortage assistance.

As a condition of the Water Forum Agreement, the City has entered into a re-operation agreement with PCWA for up to 20,000 AF to be used when Roseville's surface diversion is cut back. In general, the agreement calls for PCWA to release up to an additional 20,000 AF to the American River on an annual basis during time of reduced water availability in the system. This water is to maintain flows in the Lower American River (Nimbus Dam to Sacramento River) and therefore is not available for the City's use. This re-operation water is considered a transfer, although the ultimate user of the water, if any, has not been identified as part of the agreement - only that the water would be marketed when it was identified as available. It is possible there could be multiple users as the water will flow to the Delta and theoretically be available to all Delta water users.

Also, as a condition of the Water Forum Agreement, the City has committed not to take the entire amount of contracted water from the Upper American River. The City currently has 66,000 AF/yr of water available through USBR and PCWA supply contracts and a commitment to take no more than 58,900 AF/yr from the American River Watershed. This maximum will increase as 10,000 AF of additional supplies purchased from PCWA become available. However, there is an opportunity to find a long-term transfer for the foregone 7,100 AF/yr with a user

downstream of the confluence of the American and Sacramento Rivers. The Water Code definitions of short- and long-term conditions are that short-term is considered for a period of one year or less and long-term is for a period of more than one year.

6.11 Supply Management

The City has historically relied primarily on their suite of surface water contracts, supplying high quality water through the City-owned Barton Road Water Treatment Plant, and serving the City's population through gravity flow. In most year types, the City will continue to rely primarily on these supply sources for the bulk of potable water supply. Of these surface water contracts, the City employs supplies through the USBR contract as a first priority each year, pulling secondarily from the PCWA contract as needed. Each year allocations from the USBR are subject to variations in allocation, resulting in potential differences in the duration and quantity of supply pulled from this contract annually.

City Water Utility staff plan to utilize groundwater infrastructure differently in Normal and Dry hydrologic years. In general, Roseville plans to use groundwater infrastructure in accordance with sustainable groundwater management goals and objectives. In a Normal year, the City plans to extract no water other than that which is necessary for regular maintenance of the well infrastructure. In critical drought years, the City may find the need to operate its wells to meet demands when significant impacts are seen to surface water supplies. This is outlined further in Chapter 7. As the City continues to install more ASR and production wells within the next 5 years, and beyond, provisions of the municipal code will be updated to reflect the development of groundwater strategy.

6.12 Future Water Projects

The City has taken a proactive approach to ensuring resource diversity with a focus on surface water contracts, strong groundwater infrastructure, and highly collaborative regional presence in water planning and future conjunctive use. Future water supply project opportunities, including diversifying the purchasing or importing of water, expansion of the City's ASR program, and regional cooperative conjunctive use are discussed in the following sections.

6.12.1 Purchased or Imported Water

In addition to the current contract with PCWA for 34,000 AF/yr of surface water, the City has an agreement with PCWA that allows for up to 11,200 AF or 10 MGD of treated water transfer via interties in an emergency drought condition. This additional 11,200 AF would only be available in the condition that no supplies could be taken from Folsom Reservoir due to a "dead pool" condition, or exposed intake, and if both City and PCWA customers were to achieve 20% conservation.

The City is also exploring future opportunities for water transfers with regional partner agencies in an effort to diversify regional water management strategies in conjunction with responsible groundwater management practices.

6.12.2 Groundwater and ASR Program

The City has historically relied upon groundwater resources only as a backup supply in times of shortage. While this remains true, over the last ten years and in response to lessons learned during the 2015 drought, changing climate conditions, and the overall need for further diversity and reliability of water supply, the City has invested

in efforts to expand its ASR program. The City developed a Groundwater Strategic Plan in an effort to evaluate current infrastructure, potential new well sites, further understand the condition and accessibility of the aquifer within the City's service area boundary, and how groundwater planning would look moving forward. The result of these planning efforts had been the identification of 6 future well sites throughout the City's Pressure Zones 1 and 4, with a heavier emphasis on infrastructure in Pressure Zone 1. Conceptual design and siting have been completed for these future well sites, with exploratory drilling. Two of the 6 wells, Westbrook, No. 9 (rated extraction capacity of 2,500 GPM), and Solaire, No. 18 (rated extraction capacity of 1,800 GMP), were constructed over a two-year period and completed in 2023. Two more wells, Campus Oaks, No. 13, and Misty Wood, No. 19, are currently under construction and are expected to be completed in the Fall of 2026. The City is planning to install the last two wells in this current expansion phase of the ASR Program within the next 5 years. All 6 wells, with their top-side improvements and ASR capability, will enhance flexibility of operations and expand the City's conjunctive use capabilities. For planning purposes, each well in or planned for construction is assumed to extract a nominal 2,000 GPM, with a final production value to be determined upon ASR and production well drilling and development. These 4 future wells are expected to represent a total of 10,000 – 13,000 AF/yr of additional water supplies. The City will be initiating work on updating its Ground Water Strategic Plan to access and develop the next phase of its ASR Program expansion.

Six (6) of the City's seven (7) existing wells have ASR injection capability. The City plans for future wells to also be ASR capable. The expected future known water supply programs are listed in DWR Table 6-7.

DWR Table 6-7

Submittal Table 6-7 Retail: Expected Future Water Supply Projects or Programs Water Code Section 10631(f)							
6-17	Provide page location of narrative in the UWMP

Production/ASR Well Program Expansion	Yes		Development of new production wells with ASR capability for emergency supply resilience.	Potable	2030	Single-Dry and Multi-Dry Year	10,000-13,000 AF
PCWA-Roseville Cooperative Water Reliability Project	Yes	PCWA	Partnership with PCWA to optimize and improve existing interties to increase supply transfer volumes and reliability.	Potable	2030-2045		Not Yet Determined
NOTES: The City's groundwater wells are intended for emergency use only, as may be needed in drought conditions.							

6.13 Summary of Existing and Planned Sources of Water

The City's current planned sources of water can be summarized as such:

- The City is currently contracted with USBR and PCWA to purchase 66,000 total AF/yr of American River water diverted from Folsom Reservoir with certain restrictions (see Chapter 7).
- The City maintains groundwater wells for emergency supply. Six of the City's 7 existing active production wells possess ASR capability. The City has plans to expand its ASR Program.
- The City does not currently use storm water as a potable water offset. The City is investigating future opportunities to use stormwater in other beneficial ways.
- The City currently utilizes and has future plans to expand recycled water usage.
- The City neither currently uses nor plans to use desalinated water.
- The City maintains direct treated water interties with five surrounding jurisdictions for use in emergency or water transfer situations.

The actual 2025 water supplies for the City are summarized in DWR Table 6-8 and the future projected water supplies for the City are summarized in DWR Table 6-9.

DWR Table 6-8

Submittal Table 6-8 Retail: Water Supplies — Actual Water Code Section 10631(b)				
Water Supply	Additional Description	**2025**		
		Potable or Non-Potable (after treatment if treated)	Actual Volume (AF)	Total Entitlement (AF)
Purchased or Imported Water	US Bureau of Reclamation	Potable	29,739	32,000
Purchased or Imported Water	Placer County Water Agency	Potable	2,037	34,000
Supply from Storage		Potable	213	0
Groundwater (not desalinated)	City of Roseville owned ASR and production wells, emergency only	Potable	292	as needed, up to 18,700 AF of capacity
Recycled Water	Recycled water produced by City of Roseville WWTPs	Non-Potable	3,758	as needed
		Subtotal Potable	32,280	66,000
		Subtotal Non-Potable	3,758	0
		Total	36,038	66,000

		Subtotal Non-Potable	4,379	0	4,953	0	5,527	0	6,101	0
		Total	63,819	100,000	73,853	105,000	74,427	105,000	75,001	105,000

NOTES: Two supply limitations are shown in the table above to more accurately reflect available supply. Groundwater is used as emergency supply only and therefore are not shown as "reasonably available" but are depicted under available entitlements should they be required in emergency conditions.

[1]Similarly, this PCWA Emergency Treated Water Transfer is only available in the instance that supplies could not be drawn from Folsom Reservoir in a “dead pool” condition and that Roseville customers are implementing significant conservation measures, not in combination with the normal Middle Fork Project supplies. Therefore, in years where the PCWA Emergency Treated Water Transfer is shown, a resulting reduction in the PCWA – Middle Fork Project Supply is shown, as they are not additive. [2] The ARTESIAN Project contract is currently in an initial eight-year cycle that ends in 2032 and has the potential to move beyond that into a four-year contingency phase that would end in 2036.

6.14 Climate Change Impacts to Supply

6.14.1 Local Climate Change Outlook

The City has acknowledged and incorporated lessons learned from the last 15 years of climate related impacts to the reliability of its water supply. Beginning with the extended drought early in the previous decade, culminating with the extreme shortages experienced in 2015, Roseville has seen unprecedented curtailments of water supply and learned how important diversity of sources, diversion locations, and other options become when regular supply is interrupted.

It is expected that regional reductions in Sierra Nevada snowpack may continue and worsen in the coming years, creating uncertainty of surface water supplies – specifically the contract Roseville holds with USBR for 32,000 AF annually which can be curtailed down to 0% depending on each year's hydrologic outcome. Further, in drought years a lack of inflow to Folsom Reservoir can reduce water surface elevations significantly and quickly, with the possibility of exposing the intake facility at the dam, thereby making both the USBR and PCWA surface water contract supplies unavailable to the City.

The City's surface water supplies will be more vulnerable to declining snowpack in coming years, with potential for severe limitations in single dry years as well as periods of persistent drought. Integrating cross-seasonal groundwater management (injecting in times of excess for extraction in times of scarcity) will provide much needed resilience in the face of shifting climate conditions.

With these things in mind, the City has taken steps to strengthen its groundwater infrastructure and work toward a full operational suite of capability including beneficial use (injection) of excess wet season supplies in preparation for seasonal shortages in surface supply should it become necessary. It is important to note that Roseville is not simply planning to draw from the aquifer to offset its surface water contracts during emergencies, but rather that they are making concurrent plans to recharge this aquifer and bank supply before the need arises. It is this type of forward planning that Roseville brings to the regional stage in helping the group of agencies relying on these same supply sources to move toward a more sustainable outlook. Diversity of operations and supply sources allow a more flexible approach to each year's specific hydrologic conditions and water demand.

6.14.2 Regional Climate Studies

In 2020, the American River Basin (Basin) region conducted a climate change study in partnership with local water purveyors and the USBR. The purpose of the American River Basin Study (ARBS or Study), released in August of 2022, was to develop data, tools, analyses, identify supply-demand imbalances, and climate change adaptation strategies specific to the Basin. Under the "new normal" of a changing climate, the ARBS aims to improve the resolution of regional climate change data and to develop regionally specific mitigation and adaptation strategies. As a participant of the study, and service area contained within the Study Area, the following summarizes climate change findings pertinent for the region. More details, along with the approved study, can be found at www.pcwa.net/planning/arbs.

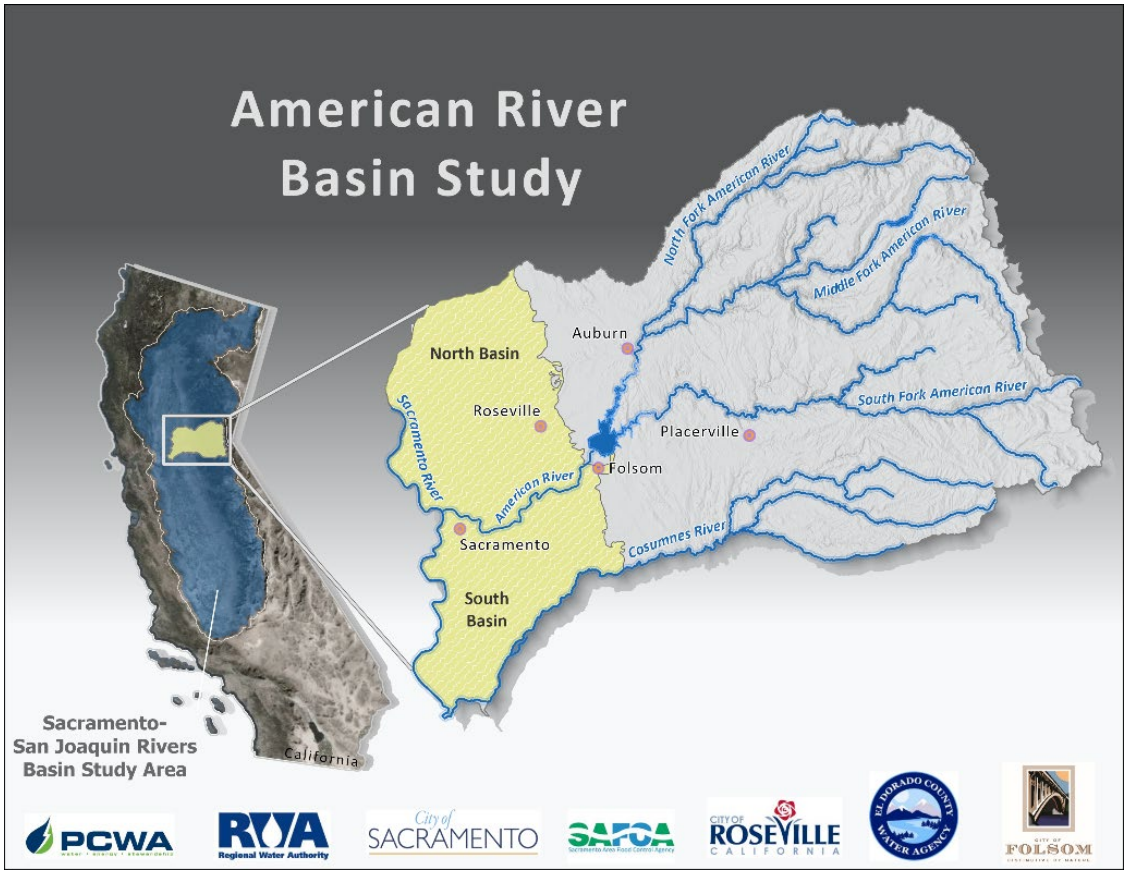

Figure 6-2 American River Basin Study Area

The Study Area is bounded by the Sierra Nevada Mountain range to the east, the Feather and Sacramento rivers to the west, the Bear River to the north, and the Cosumnes River to the south (see Figure 6-2). In addition to the American River Watershed, the Study Area encompasses the North and South American Groundwater Subbasins, and Non-Federal Partners' service areas outside of the American River Watershed.

6.14.3 Projected Future Conditions

Analysis of projected future climate conditions in the American River Basin and development of climate scenarios for the ARBS were based on an ensemble of bias-corrected and spatially downscaled climate projections[2]. This ensemble has been used by the California Water Commission and DWR as the primary source of climate projection information in several recent studies, including the Water Storage Investment Program (WSIP) and California's Fourth Climate Change Assessment (Pierce et.al., 2018). Projected future climate conditions were evaluated and characterized based on the ensemble of downscaled climate projections.

[2] Climate projections were developed using Global Climate Models from the Coupled Model Intercomparison Project Phase 5 (CMIP5) and downscaled using Localized Constructed Analogs (LOCA) method projected and coupled with two future emission scenarios (RCP 4.5 and RCP 8.5) available from Dr. David Pierce at the Scripps Institution of Oceanography.

Hydrology scenarios were used to develop streamflow inputs to CalSim 3.0, a comprehensive water resource model used by the State of California, which was then used to evaluate changes in water supplies, demands, and management throughout the CVP and State Water Project (SWP), including the Study Area. Demands for each water purveyor largely relied upon water purveyor's information provided in Regional Drought Contingency Plan/Regional Water Reliability Plan (RWRP) (Regional Water Authority, 2017) and 2015 UWMPs.

6.14.3.1 Temperature

Surface air temperatures are projected to increase steadily, with average summer temperatures increasing by approximately 7.2 degrees Fahrenheit (°F) by the end of the 21st century (see Figure 6-3), and winter temperatures increasing by 4.9°F. Projections of daily maximum and minimum temperatures suggest similar warming trends during all seasons, with maximum temperatures projected to increase as much as 7.3°F during the summer months.

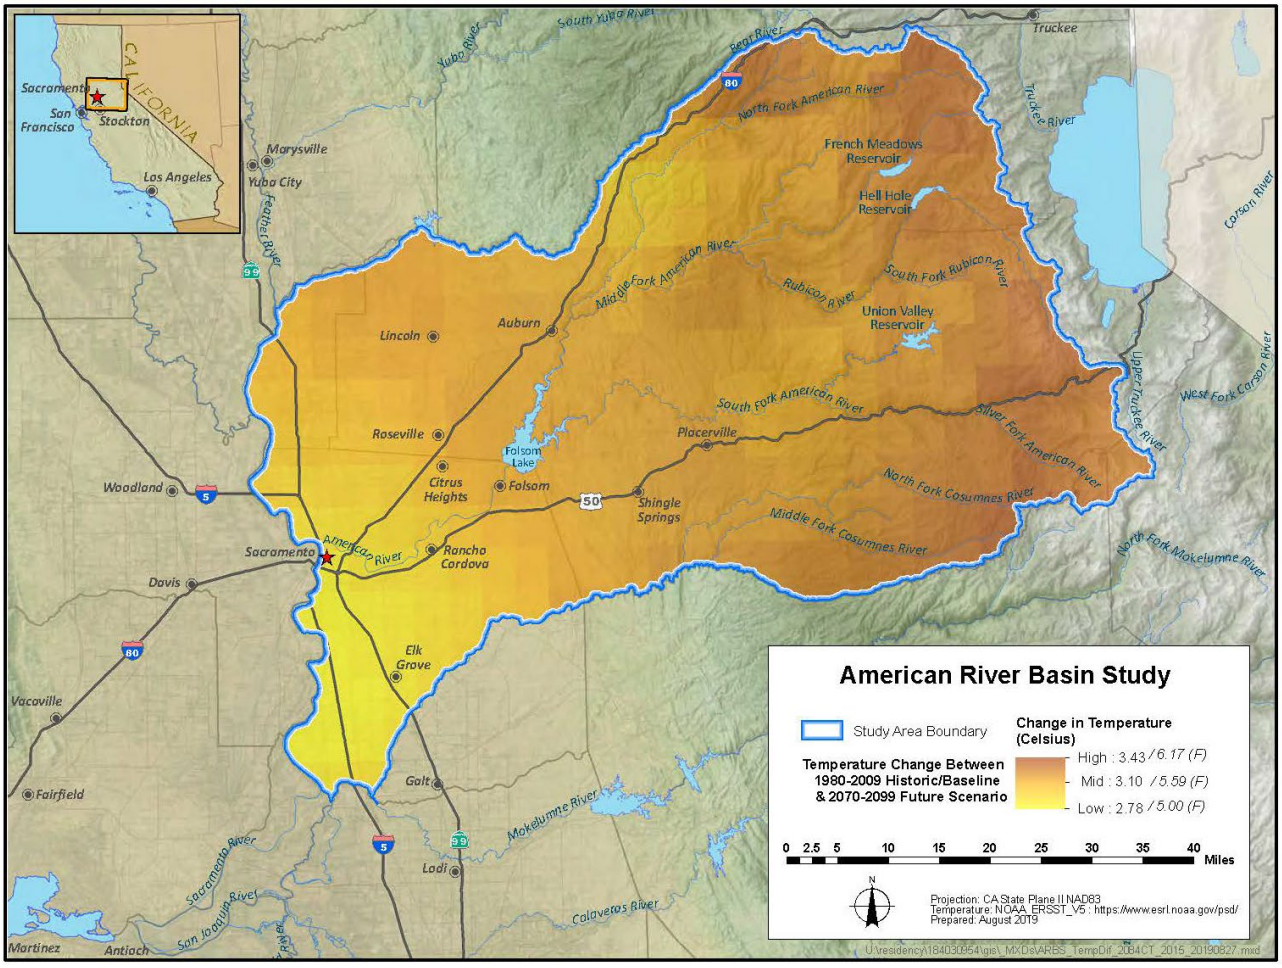

Figure 6-3 Projected Changes in July Temperature between Historical (1980-2009) and End of Century Under Central Tendency Climate Change

6.14.3.2 Precipitation

Annual precipitation projections in the ARBS show no significant trend in the median of change over the 21st century. Many of the available GCM projections show change in precipitation, but there is no consistency in the

magnitude and direction of projected change between models. Approximately half of the projections indicate a minor increase in annual precipitation and half indicate a minor decrease, highlighting the large uncertainty in future precipitation over this region. Although lacking clear trend in projected annual precipitation, by the end of the 21st century the average fall and spring precipitation is expected to decrease, with winter and summer precipitation increasing. Increasing variability is also projected in winter and fall precipitation. A summary of these projections is provided in COR Table 6-C.

COR Table 6-C Projected Change in Precipitation and Temperature Over the American River Basin Study Area Between 1980-2009 and 2070-2099

Season	Percent Change in Basin-Averaged Annual Mean Precipitation (%)	Change in Basin-Averaged Annual Mean Daily Air Temperature (°F)	Change in Annual Mean of Daily Maximum Air Temperature (°F)	Change in Annual Mean of Daily Minimum Air Temperature (°F)
Fall	-6.0	5.8	6.1	5.5
Winter	4.7	4.9	5.0	4.8
Spring	-11.9	5.8	6.3	5.1
Summer	10.4	7.2	7.3	7.0

6.14.3.3 Snowpack

Snow water equivalent (SWE) is a key indicator of water supplies in this region, where runoff is largely influenced by snowmelt. The increasing variability in precipitation combined with increases in surface air temperatures are key drivers in projections of a reduction in annual average SWE. Average SWE is forecasted to decrease by 50-85% across all climate scenarios and future time periods. In addition, areas that accumulate snow above Folsom Reservoir are also projected to have up to a 12-inch decrease in maximum snowpack by end of the century.

6.14.3.4 Evapotranspiration

Potential evapotranspiration (PET) serves as a key indicator of landscape water demands, including consumptive use by evaporation and transpiration from bare soil, water surfaces, native vegetation, and crops. Average annual PET is expected to increase 1.2 to 6.2 inches across all climate scenarios and future time periods. PET is strongly correlated with air temperature and thus expected to increase more under the hot scenarios (HD, HW) than under the warm scenarios (WD, WW).

6.14.3.5 Runoff

Watershed runoff is a direct indicator of local water supply available, as well as to statewide Central Valley Project and State Water Project systems. Climate change projections indicate a pronounced shift in the distribution of runoff from May and June to earlier in the season (December to March), implying a transition in precipitation from snow to rainfall and/or earlier snowmelt and increasing the amount of runoff during the winter months. Peak runoff is expected to shift by more than a month earlier by mid to late century (Figure 6-4). Spring runoff will decrease due to reduced winter snowpack. Similar to the precipitation scenarios, there is large uncertainty in projected runoff where the 'wet' scenarios suggest an increase in annual runoff and the 'dry' scenarios suggest a decrease in annual runoff. The projected changes in basin wide runoff range from an increase of 486 thousand acre-feet (TAF) under the warm-wet scenario to a decrease of 203 TAF under the hot-dry scenario by the end of the century.

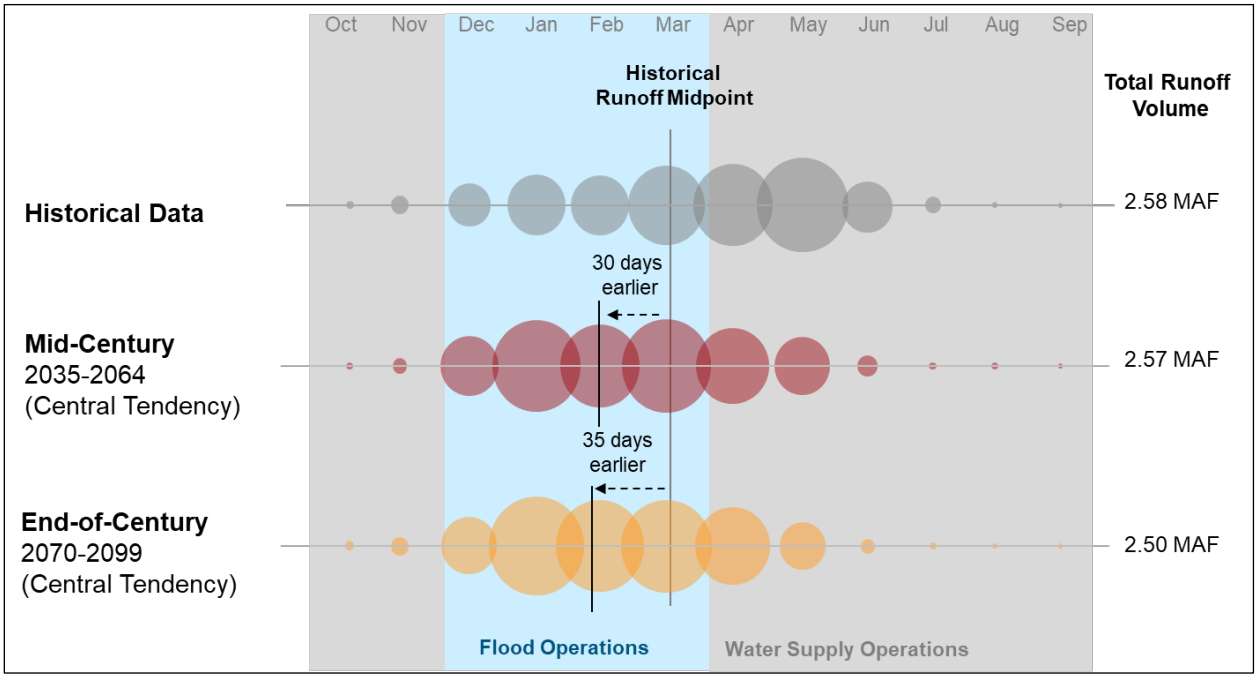

Figure 6-4 Distribution of Average Monthly Runoff for Historical Record (1922-2015) and Future Projections Under Central Tendency Climate Scenario

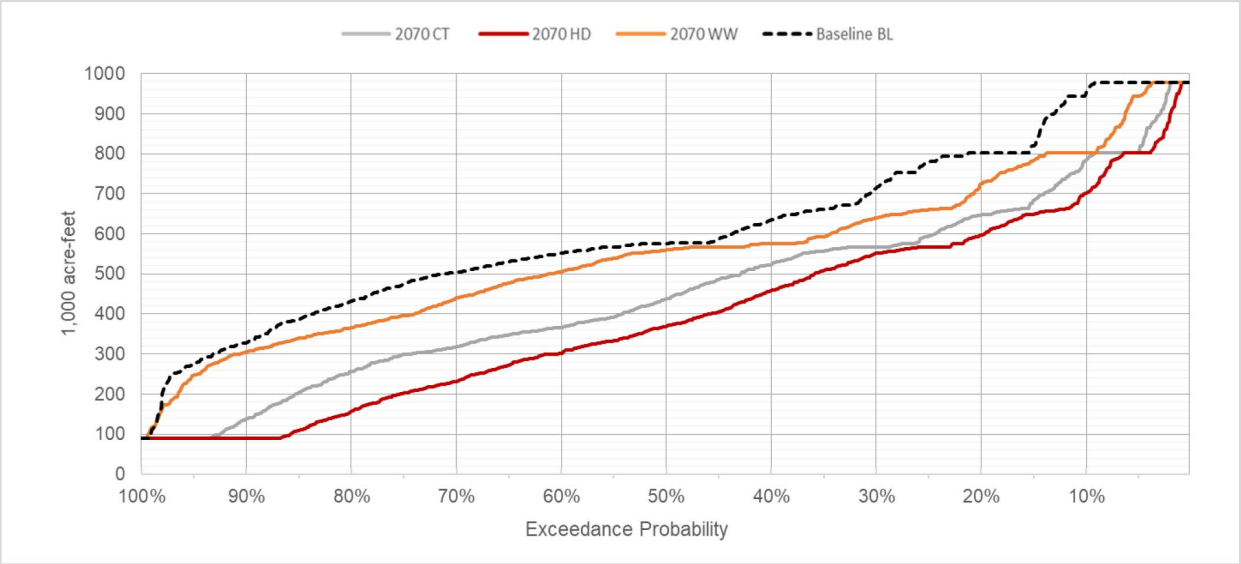
The change in annual climatic and hydrologic indicators between historical baseline observations (1915 to 2015) and projected future conditions for the ARBS area are listed in COR Table 6-D.



COR Table 6-D Change in Hydrologic Indicators Between Historical Observations and Projected Future Hydrology

Time Period	Climate Scenario	Precip (in)	T_{avg} (°F)	T_{max} (°F)	T_{min} (°F)	PET (in)	SWE_{avg} (in)	SWE_{max} (in)	Runoff (TAF)
1915-2015	Historical Observations	38.2	54.8	67.8	35.6	42.8	1.5	5.7	1,458
2040-2069	Warm-Wet	1.9	4	6.2	1.6	1.6	-0.7	-2.3	701
	Central Tendency	0.1	5	8.1	2.1	2.7	-0.9	-2.8	-2
	Hot-Dry	-2.8	6.2	10.4	2.7	3.7	-1.1	-3.4	-206
2055-2084	Warm-Wet	3.8	4.7	7.4	2	2	-0.8	-2.5	199
	Central Tendency	-1.1	6.3	11.1	2.6	4.1	-1.08	-3.5	-93
	Hot-Dry	-3.4	7.9	13.3	3.7	5	-1.2	-3.8	-185
2070-2099	Warm-Wet	7	5.4	8.3	2.5	1.8	-0.9	-2.9	486
	Central Tendency	-0.6	6.5	11	2.8	3.9	-1	-3.3	-54
	Hot-Dry	-4.6	8.9	15.7	4.1	6.2	-1.3	-4.3	-203

6.14.4 Water Supply Reliability

Changing climate conditions in the Sierra Nevada Mountains threaten the volume of water stored in the snowpack and the timing of runoff entering Folsom Reservoir. Consequently, they can also affect the critical role of Folsom Reservoir in the CVP Operations. Reliance on Folsom Reservoir is expected to increase commensurate with the impact of sea level rise on salinity in the Delta. Modeling of these factors has illustrated that, without operational

adjustments, Folsom Reservoir is projected to have lower end of conservation season (end of September) storage levels and approach "dead pool" more often under most future climate scenarios (see Figure 6-5). Similarly, increased early season runoff would increase flood risks along the Lower American River, leaving less water in the upper watershed available during water supply operations.

Key:
Baseline BL = Historic Conditions, 2070 CT = Central Tendency 2070 Climate Scenario, HD = Hot-Dry 2070 Climate Scenario, WW = Warm-Wet 2070 Climate Scenario

Figure 6-5 Exceedance Plot of Folsom Reservoir Storage (end of September) Under Future Climate Change

Under the 2070 level of development, the ARBS projects a supply-demand imbalance of 63 to 78 TAF/year in the Upper Basin (or Foothills Area) without further conservation or management actions. In the Lower Basin, groundwater extraction is expected to increase by 62 to 155 TAF/year to offset the projected imbalance, which would affect groundwater sustainability.

Based on the water supply and demand imbalance results, the region's water supply reliability has vulnerabilities. The ARBS assessed several adaptation portfolios for addressing the range of vulnerabilities and future supply-demand imbalances for the Study Area for regional benefits. Portfolios analyzed were:

1. Foundational Institutions
2. No Assurances for Long-term CVP Water Contract
3. Alder Creek Storage and Conservation Project
4. Sacramento River Diversion Project
5. Federally Recognized Groundwater Bank (North and South Basin)
6. Folsom Dam Raise with Groundwater Banking (South Basin)
7. Modified Flow Management Standard

The seven formulated adaptation portfolios were quantitatively evaluated using CalSim 3 to alleviate supply-demand imbalances and benefits to the region. The Study's intent was not focused on individual water-supplier's portfolio, but rather how the region could plan to increase regional reliability. The precise composition, scale,

operations, partnerships, funding, and governance to advance these project concepts will require further evaluations and coordination among Basin interests, including USBR, DWR, and SWRCB.

While climate change does have an impact on the basin, impacts are largely seen closer to the end of the century, and not within the timeline of the UWMP. Through proactive adaptation management actions, the Study highlights ways for the region to alleviate climate change impacts by the end of century. Therefore, in consideration of the timeline of the UWMP, the City of Roseville does not reflect any climate change impacts in supply and demand scenarios within this Plan.

6.15 Energy Intensity

A requirement of the CWC, pursuant to 10631.2. (a), is that suppliers must include information that can be used to calculate energy intensity of their water service. Typically, a large portion of energy consumed in municipalities is dedicated to the conveyance, treatment, distribution, and storage of water. Maintaining water systems involves numerous pumps, motors, and other equipment which run for most or all hours of the day year-round. Because the water operations consume a significant amount of energy, these facilities can be a substantial contributor to greenhouse gas emissions in communities. Understanding how much energy is consumed at the City's various facilities is critical to ensure that the City is mindfully and efficiently utilizing energy resources.

An analysis of the energy intensity, which is the amount of energy consumed per volume of potable water supplied, is provided in COR Table 6-E.

COR Table 6-E Energy Intensity Reporting

Start Date for Reporting Period	1/1/2025	Sum of Water Management Processes
End Date	12/31/2025	
Volume of Water Entering Process (AF)		31,893
Energy Consumed (kWh)		2,837,698
Energy Intensity (kWh/AF)		88.98
NOTES: Values include only water management processes that are under the City's operational control.		

The City treats and distributes the majority of its potable supply with the significant aid of gravity flow, from Folsom through the WTP and out into the distribution network throughout the City's service area. Data collected to support the analysis included in COR Table 6-E were primarily sourced from energy consumption billing data for the City's conveyance, treatment, distribution, and storage facilities for potable water. Where data was not available, estimates were made based upon similar facilities as well as calculations proportionate to the volume of water involved in the facility process. Some of the City's conveyance or distribution facilities do not have power sources or are owned by the adjacent utility and therefore do not represent consumption included in the calculation above.

Chapter 7 Water Service Reliability and Drought Risk Assessment

This chapter describes the long-term reliability of the City's water supply portfolio in all hydrologic year types through the year 2045. The City's existing and planned water management strategies and options for increasing the reliability of water supplies are also addressed. Shorter term reliability planning that may require immediate action, such as drought or a catastrophic supply interruption, is addressed in the Water Shortage Contingency Plan.

7.1 Constraints on Water Sources

This section addresses potential legal, environmental, water quality, and climatic effects on the reliability of water supply sources through the year 2045.

7.1.1 Legal Constraints

The City does not anticipate legal factors to affect the reliability of recycled water or purchased water supply within the planning horizon of this UWMP.

As of late 2025, the legal constraints governing groundwater in Roseville are primarily defined by the Sustainable Groundwater Management Act (SGMA). While the North American Subbasin is not currently adjudicated—meaning no court-mandated pumping limits exist—it is strictly regulated under the Groundwater Sustainability Plan (GSP) approved by the California Department of Water Resources (DWR) in 2023. The West Placer Groundwater Sustainability Agency (WPGSA) holds the legal authority to monitor well levels, impose fees, and limit extractions to prevent "undesirable results," such as land subsidence or chronic depletion. Currently, the City is fulfilling its legal mandate by participating in the subbasin's first five-year periodic evaluation, with a finalized update due to the state in January 2027. This evaluation focuses on refining Sustainable Management Criteria (SMC) – the specific legal thresholds for water levels and quality – and addressing DWR's recommended corrective actions. To remain compliant with these sustainability goals, Roseville utilizes its Aquifer Storage and Recovery (ASR) program as a regulated "water bank" to stabilize the aquifer, ensuring the subbasin stays on the legally required path to full sustainability by 2042.

7.1.2 Water Quality Constraints

The City's water supply portfolio consists of high-quality surface water, recycled water, and groundwater resources. In some areas of the City, iron and manganese can be found in native groundwater at concentrations both above and below the secondary taste and odor maximum contaminant level (MCL) established for these constituents. The City monitors groundwater quality closely, to ensure water provided for potable use does not exceed these standards.

7.1.3 Physical Constraints

The physical constraints of recycled water, surface water, and groundwater are discussed in the following sections.

7.1.3.1 Recycled Water

Recycled water is physically constrained by flows into the City's wastewater treatment plants and the resulting outflow of treated water. It is therefore seasonally available in higher quantities when demands are lowest during the wet season. The distribution network of "purple pipe" is also a physical constraint for this supply source, as it

only exists in the western portion of the City. Access to recycled water and its availability to offset potable needs are therefore limited by physical access to this pipe network.

7.1.3.2 Surface Water

The City has identified its Folsom Reservoir intake as a likely physical constraint on current surface water supplies. Both of the City's primary surface water contract supplies are received through this point of diversion, making it a critical facility for the reliability of Roseville's surface water supply. If the water level of Folsom Reservoir were to drop close to or below the intake elevation as it nearly did in 2015 (referred to as the "dead pool" condition) the City would not be able to divert water without additional infrastructure. The City is also able to receive supply through interties in emergency conditions; however, the WTP represents the primary diversion point. As a result of this vulnerability and lessons learned in the 2015 drought year when the "dead pool" condition became a real possibility, the City has continued to explore cooperative efforts with Folsom diversion and operation partners to duplicate or lower the intake facility to alleviate this concern. The City recently added the Woodcreek intertie with PCWA to their system and is continuing to examine options for alternate diversion points to increase reliability of physical water supply access.

The capacities of the Folsom Dam diversion, Roseville Water Treatment Plant, and distribution systems are sufficient to divert, treat, and convey the projected surface water demands. A 150 cubic feet per second (cfs) capacity limitation at the USBR pumping plant, which was agreed to based on recent pumping plant improvements, is sufficient to provide water to meet the City's needs.

7.1.3.3 Groundwater

The physical constraints on the current groundwater supply are the pumping capacities of existing wells. The total pumping capacities from all the seven wells are about 14,450 GPM, approximately 20.8 MGD. In this current phase of the ASR Program expansion, the City plans to install 4 additional wells by 2030 to provide additional groundwater supplies. Currently, the City plans to design and construct all new wells with ASR capability to allow for greater groundwater banking and extraction capability throughout seasonal variations in surface water supply availability. Many of these planned well sites have been reassessed and relocated to areas of the City with more advantageous groundwater conditions as well as hydraulics with respect to the distribution network. Installation of wells higher in the hydraulic grade of the system will allow for a greater downstream sphere of influence for this infrastructure and more flexible system operation in times of reliance on groundwater. The City will also embark on an update to its Ground Water Strategic Plan that will lay out the road map for the potential future expansion of its ASR Program.

7.1.4 Other Constraints

Aside from legal and physical constraints, several other considerations affect the availability and reliability of Roseville's water supply portfolio. The City's purchased surface water supply is subject to reductions during dry years (seasonal and climatic shortages) pursuant to the Water Forum Agreement (WFA), the USBR Operations Criteria and Plan (OCAP), and the Central Valley Project Municipal and Industrial Water Shortage Policy (CVP M&I WSP), as well as the new ARTESIAN Project Agreement. These agreements and programs are discussed in greater detail in the following subsections.

7.1.4.1 Sacramento Water Forum Agreement

The Sacramento Water Forum is a diverse group of business and agricultural leaders, citizen groups, and environmentalists, water managers, and local governments working together to balance two co-equal objectives:

1. Provide a reliable and safe water supply for the Sacramento region's long-term growth and economic health.
2. Preserve the fishery, wildlife, recreational and aesthetic values of the Lower American River.

The City, along with several other Sacramento-area water suppliers are signatory to the January 2000 Water Forum Agreement (WFA) which includes Purveyor Specific Agreements, with the most recent revisions to these agreements in 2015. The WFA provides the framework for how water resources, including surface water and groundwater supplies, would be used in the region through the year 2030. The City's Purveyor Specific Agreement includes limitations on City surface water diversions from the American River under various hydrologic conditions. The Water Forum categorized water years into three types, all of which are defined in terms of the projected March through November unimpaired flow into Folsom Reservoir. These hydrologic year types are as follows in COR Table 7-A.

COR Table 7-A Water Forum Agreement Hydrologic Year Types

Year Type	Unimpaired Flow into Folsom Reservoir
Normal/Average or Wet Year	Greater than or equal to 950,000 AF
Drier Year	Between 400,000 and 950,000 AF
Driest/Critically Dry Year	Less than 400,000 AF

Although Roseville's water contract entitlements total 66,000 AF/yr, the City's diversions from the American River are limited by the WFA in normal/wet years, drier, and driest years. In normal/wet years, the City has historically agreed to limit surface water diversions from the American River to 58,900 AF/yr. In driest or critically dry years, the maximum diversion from the American River has been limited to 39,800 AF/yr. In drier years, the City has diverted an amount between 39,800 and 58,900 AF/yr from the American River, calculated linearly depending on the unimpaired flow into Folsom Reservoir. As outlined in previous chapters, the City's supply contract with PCWA received through Folsom Reservoir has recently increased to 34,000 AF with planned subsequent increases to39,000 and 44,000 AF in 2030 and 2035, respectively. This has the effect of a proportional increase in the above limitations on diversions from the American River. Figure 7-1 depicts this change in the applicability of the WFA limitations over time.

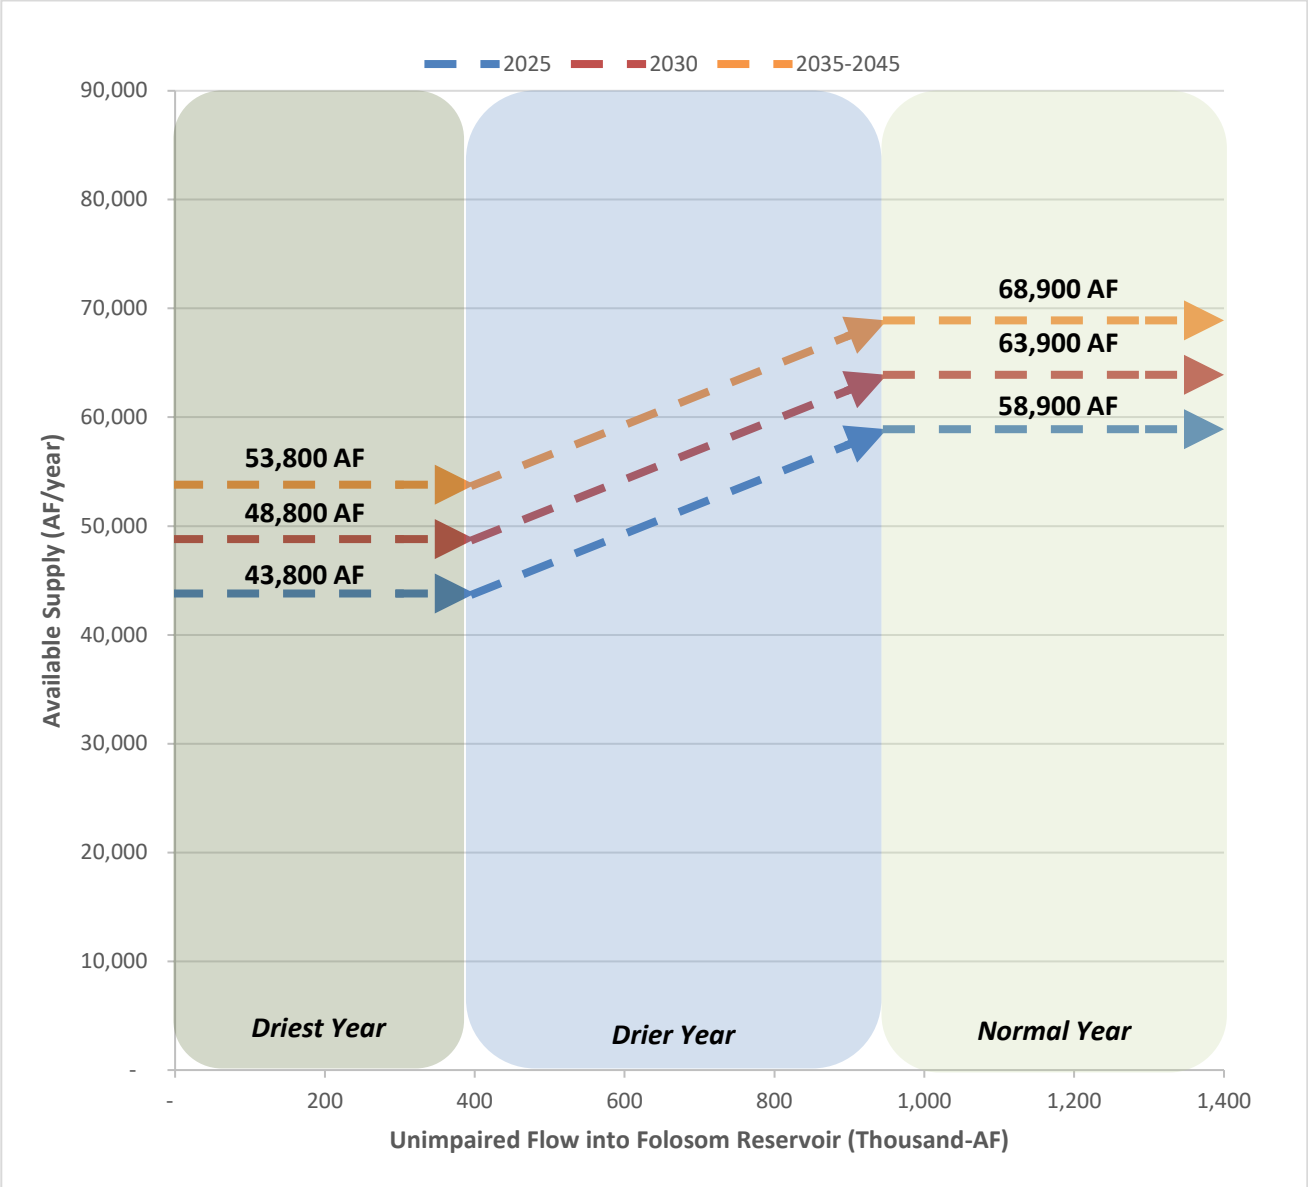


Figure 7-1 Water Forum Agreement Supply Limitations

During drier and driest years, the City also has an agreement with PCWA to release an additional 20,000 AF/yr of water down the American River on the City's behalf through re-operation of PCWA's American River Middle Fork Project (MFP). This 20,000 AF/yr of water is not part of the City's contracted supply of 66,000 AF/yr. The intent of the MFP re-operational releases during drier and driest years is to mitigate environmental impacts resulting from increased diversions above 1995 baseline levels.

7.1.4.2 USBR Operations Criteria and Plan

In addition to the WFA, the City's USBR water is also subject to restrictions as detailed in the 2004 Long Term Central Valley Project Operations and Criteria Plan (location on USBR's website). Chapter 5 of the OCAP entitled "Operations Forecasting" states that CVP allocations can be affected by:

- Forecasted reservoir inflows and Central Valley hydrologic water supply;
- Current amounts of storage in upstream reservoirs and in San Luis Reservoir;
- Projected water demands in the Sacramento Valley;
- Instream and Delta regulatory requirements;
- Annual management of 3406(b)(2) resources (related to fish and wildlife); and/or
- Efficient use of CVP-SWP export capacity through Joint Point of Diversion flexibility.

The OCAP includes a requirement that contractors be informed by USBR no later than February 15 of any possible deficiency in supplies that year. Since 1992, increasing constraints placed on operations by legislative and ESA requirements have made water delivery to CVP contractors more difficult, with recent drought conditions further impacting deliveries. Additionally, it is important to note that the City's USBR water deliveries may be curtailed purely based on downstream Delta conditions, irrespective of available upstream supply.

7.1.4.3 Central Valley Project Municipal and Industrial Water Shortage Policy

Upon a Condition of Shortage as determined by the OCAP, the CVP M&I WSP details the "incremental steps" by which available M&I water supply is allocated to the CVP water service contractors. From the November 2015 USBR news release, elements of the CVP M&I WSP include:

- Define water shortage terms and conditions for applicable CVP water service contractors, as appropriate.
- Determine the quantity of water made available to CVP water service contractors that, together with the M&I water service contractors' drought water conservation measures and other non-CVP water supplies, would assist the M&I water service contractors in their efforts to protect public health and safety during severe or continuing drought.
- Provide information to CVP water service contractors for their use in water supply planning and development of drought contingency plans.

The Final Environmental Impact Statement (EIS) describes the existing setting, alternatives for future operations under the CVP M&I WSP, and potential environmental impacts of each alternative. USBR selected Alternative 4, the Preferred Alternative, which comprises the Updated CVP M&I Water Shortage Policy developed by USBR with stakeholder input received during preparation of the Final EIS.

This decision will give USBR the greatest degree of flexibility to address CVP water service contractors' needs during a Condition of Shortage while recognizing that CVP deliveries are subject to the amount of CVP water available. The Updated CVP M&I WSP also provides clarity to the terms, conditions, and procedures of the CVP M&I WSP. A copy of the November 2015 Final Record of Decision is included in Appendix L.

7.2 Water Supply Reliability Assessment

This section addresses the reliability of the City's water supply in average, single dry, and multiple dry water years. The City uses the following water year definitions from the DWR 2025 Guidebook:

COR Table 7-B Reliability Assessment Year Type Characterization

Year Type	Description
Average or Normal Year	A single year or averaged range of years that most closely represents the average water supply available to the Supplier. The City estimates this as a year with a USBR allocation of 100%.
Single Dry Year	The year that represents the lowest water supply available to the Supplier. The City estimates this as a year with a USBR allocation of 25%.
Five Consecutive Year Drought	The driest five-year historical sequence for the supplier. [1]The City has represented this condition with a series of years in which the City receives USBR allocations of 75%, 50%, 25%, 25%, and 0%.
NOTES: [1]In this case, the City has elected to model a more severe five consecutive year drought than has historically occurred to facilitate the most robust forward planning.	

The reliability of the potable and recycled water supplies is discussed in the following sections and are compared to the projected potable and recycled water demand.

7.2.1 Potable Water Supply and Demand Assessment

This section provides an assessment of the City's expected water supply and demand for Normal Year, Single Dry Year, and Five Consecutive Year Drought scenarios, based on data available at the time of publication of this UWMP, and discusses the City plans to mitigate potential supply deficits.

The City has modeled the following year types according to historical USBR allocations which have the greatest degree of variability and impact to Roseville's supply portfolio each year. Although it is straightforward to select representative years for Normal and Single Dry, in the case of extended drought, the City has elected to analyze a more extreme sequence of USBR allocations than have actually occurred, ending with a "dead pool" scenario which has never occurred. Climate change trends make conditions such as the "dead pool" scenario more likely, which is why the City is analyzing it. This approach to the analysis is intended to be conservative and proactive given the real risk of restricted Bureau supply. The City established the following to guide this assessment:

- **Average or Normal Year:** 100% of accessible supplies are available.
- **Single Dry Year:** Lowest available supply with access to Folsom Reservoir; accessible supplies with all extreme dry year curtailments applied.
- **Five Consecutive Year Drought:** A sequence of increasingly reduced USBR allocations, culminating in a "dead pool" condition with no availability of USBR supplies or PCWA surface water supplies.

Quantification of available supplies will be thoroughly modeled in COR Table 7-D.

The City intends to use their groundwater supply only in emergency supply conditions, augmenting available supply where needed and only to the extent necessary. Under Normal Year conditions, the City does not intend to extract groundwater supplies, except for well maintenance activities, during which any volume pumped is returned to the aquifer. The City may also inject excess surface water supplies when available, resulting in a net benefit to groundwater storage. However, in a Single Dry Year or multi-year drought condition, the City will utilize their groundwater when necessary to meet demand. These assumptions and the resulting groundwater availability by year type are outlined in COR Table 7-C.

COR Table 7-C Groundwater Supply Availability by Year Type

Ground Water Supplies and Management by Year Type						
Well Data[1]	Operational Production and ASR Wells	7	11	11	11	11
	Total Annual Extraction Capacity	23,300	36,200	36,200	36,200	36,200
	Total Annual Injection Capacity	10,500	17,000	17,000	17,000	17,000
Year Type	**Assumptions**	**2025**	**2030**	**2035**	**2040**	**Buildout**
Normal	In a Normal Year, the City would typically inject and avoid extraction. The injection window is estimated to be between **3 months and 9 months** at **80% capacity** to allow for maintenance. Injection would typically be possible during the wet season when additional volume might be available.	(193)	(3,360-10,080)	(3,360-10,080)	(3,360-10,080)	(3,360-10,080)
Single Dry	In a Single Dry Year, the City would expect to pump **as needed** at **80% capacity** to allow for 20% down time for maintenance. Additional demand is included in the Single Dry Year as it is assumed to be a "call-year" for the ARTESIAN grant commitment.	0	19,629	21,664	23,511	24,979
Years 3 and 4 of a Multi-Year Drought	In the 3rd and 4th year of a 5 -Year Drought, the City would expect to pump **as needed** at **80% capacity** to allow for 20% down time for maintenance.	0	15,169	17,204	19,051	20,519
Year 5 of a Multi-Year Drought	In the 5th year of a 5 -Year Drought, the City would expect to pump at **full 80% capacity** to allow for 20% down time for maintenance.	18,700	29,000	29,000	29,000	29,000

NOTES: All values are in AF. Numbers shown in (parentheses) above are understood to be negative in value as they represent injection values not extraction.
[1]Well Data represents the total rated extraction and injection capacities of all operational wells in that year.

The number of operational production and ASR wells is projected to increase from 7 in 2025 to 11 by 2030, increasing total annual extraction capacity from 23,300 AF to 36,200 AF and total annual injection capacity from 10,500 AF to 17,000 AF. Extraction (pumping) rates are assumed at approximately 80 percent of total rated capacity to allow for maintenance. Injection rates are assumed to be 50 percent of extraction rates. Under Normal Year conditions, the City does not rely on groundwater extraction and instead prioritizes aquifer recharge, with injection occurring primarily during the wet season over a 3-to-9-month window; with net injection volumes ranging from approximately 3,360 to 10,080 AF annually. In a Single Dry Year, groundwater extraction is utilized as necessary, shown as projected supply augmentation in DWR Table 7-3. Similarly, in the third and fourth years of a multi-year drought, extraction provides additional supply shown as the projected supply augmentation in DWR Table 7-4 and DWR Table 7-5. By the fifth year of a prolonged drought, the City maximizes groundwater production, operating continuously at the assumed 80 percent capacity, producing 18,700 AF in 2025 and 29,000 AF from 2030 through buildout. Production and ASR well development is further characterized in Appendix S.

The availability of total water supply from each source by hydrologic year type is outlined in COR Table 7-D.

COR Table 7-D Potable Supply Availability by Year Type

Potable Water Supply Availability by Source and Hydrologic Year Type					
Supply Source	**2025 (current)**	**2030**	**2035**	**2040**	**2045**

PCWA Emergency	11,200	11,200	11,200	11,200	11,200
Water Forum Limitation	0	0	0	0	0
Groundwater	18,700	29,000	29,000	29,000	29,000
Total Available Supply	29,900	40,200	40,200	40,200	40,200

NOTES: Groundwater is more significantly relied on in single dry years and years 3, 4, and 5 of a five consecutive year drought condition. Recycled water is included in this analysis with equal values on the demand and supply sides as it can be produced to meet the full amount of demand. All values are in AF.

Potable Water Supply Availability by Source and Hydrologic Year Type
[1] Normal Year defined by a 100% USBR allocation and full allotment from PCWA. [2] Single Dry Year defined by a 25% USBR allocation, 30,000 AF from PCWA, and a "call year" for the ARTESIAN Project requiring a 4,460 AF groundwater offset from surface supplies. [3] Five Year Drought – Year 1 defined by a 75% USBR allocation and full allotment from PCWA. [4] Five Year Drought – Year 2 defined by a 50% USBR allocation and full allotment from PCWA. [5] Five Year Drought – Year 3 defined by a 25% USBR allocation and 30,000AF from PCWA. [6] Five Year Drought – Year 4 defined by a 25% USBR allocation and 30,000AF from PCWA. [7] Five Year Drought – Year 5 defined by a 0% USBR allocation, and 0 AF of raw water supply from PCWA. This is otherwise known as the "dead pool condition" and represents a severe drought that renders the diversion point at Folsom Reservoir unusable. In this instance, PCWA Emergency supply of 11,200 AF of treated water via intertie would become available contingent upon both PCWA and Roseville customers attaining 20% conservation, and the City would utilize groundwater to the greatest extent possible.

7.2.2 Comparison of Supply and Demand

A comparison of projected water supply and demand during Normal, Single Dry, and Five Consecutive Year Drought conditions are included in DWR Table 7-2, DWR Table 7-3, DWR Table 7-4, and DWR Table 7-5. It is important to note that in all scenarios shown in these tables, Normal Year demands are shown without reflecting any of the passive conservation the City typically observes. No specific conservation effort to reduce demands in a drought year have been shown in these tables in order to depict the most conservative comparison of supply and demand in these year types. As shown, there is an adequate water supply in all normal years. In single dry years and in certain multiple dry years, water supply deficits may occur, and so groundwater is used to augment supply and make up the difference. In Year Five of the consecutive drought, modeling the "dead pool" condition, all available supplies are not sufficient to meet unconstrained demand, and so conservation measures will be required to balance the shortage.

7.2.3 Recycled Water Supply and Demand Comparison

The City's recycled water supply is an important resource as it is considered to be 100% reliable in all water year types. Recycled water supply has been set equal to the projected recycled water demand in these analyses because showing a surplus recycled water supply would mask potential potable water shortages. Hence, recycled water quantities are not included in supply and demand totals since the ultimate difference for those quantities is 0.

7.2.4 Total Water Supply and Demand Comparison

A comparison of projected total (potable and recycled) water supply and demand during a normal water year is included in DWR Table 7-2. As shown, there is an adequate water supply in normal years to meet demands through 2045.

DWR Table 7-2 NORMAL YEAR

Submittal Table 7-2 Retail: Normal Year Supply and Use Comparison Water Code Section 10635 (a)				
	2030 (AF)	2035 (AF)	2040 (AF)	2045 (AF)
Supply totals[1]	63,819	73,853	74,427	75,001
Use totals[2]	60,908	63,517	65,937	67,980
Surplus/(shortfall)	2,911	10,336	8,489	7,021

NOTES: All values are in AF. Recycled water is included on both the supply and demand sides of this calculation, in equal values that have no ultimate effect on the shortage analysis. Recycled water is produced in quantities that match current demand, as shown in DWR Table 6-4 and DWR Table 6-9.
[1]Supply Totals shown above are found in the Reasonably Available Volume column in DWR Table 6-9. Groundwater is not included here as the City will only use groundwater in drought conditions.
[2]Use Totals shown above represent "Demand" Totals and are found in DWR Table 4-2, including groundwater recharge in this year type.

A comparison of projected water supply and demand during a Single Dry Year is included in DWR Table 7-3.

DWR Table 7-3 SINGLE DRY YEAR

Submittal Table 7-3 Retail: Single Dry Year Supply and Use Comparison Water Code Section 10635(a)				
	2030 (AF)	2035 (AF)	2040 (AF)	2045 (AF)
Supply totals[1]	37,919	38,493	39,067	39,641
Use totals[2]	57,548	60,157	62,577	64,620
Surplus/(shortfall)	(19,629)	(21,664)	(23,511)	(24,979)
Planned WSCP Actions				
WSCP - supply augmentation benefit[3]	19,629	21,664	23,511	24,979
WSCP - use reduction savings benefit	0	0	0	0
Revised Surplus/(shortfall)	0	0	0	0

NOTES: All values are in AF. Recycled water is included on both the supply and demand sides of this calculation, in equal values that have no ultimate effect on the shortage analysis. Recycled water is produced in quantities that match current demand, as shown in DWR Table 6-4 and DWR Table 6-9.
[1]Supply Totals represent the Single Dry Year Total Available Supplies from COR Table 7-D, without groundwater as groundwater is shown separately as a Supply Augmentation, plus recycled water totals from DWR Table 6-4.
[2]Use Totals shown above represent DWR Table 4-2 "Demand" Totals. It is assumed that no groundwater recharge demand would apply in drought years.
[3]Supply Augmentation equates to the use of groundwater applied in the required amount to satisfy demand.

A comparison of projected water supply and demand during a Five Consecutive Year Drought in the long term is included in DWR Table 7-4.

DWR Table 7-4 LONG TERM FIVE CONSECUTIVE YEAR DROUGHT

Submittal Table 7-4 Retail: Multiple Dry Years Supply and Use Comparison Water Code Section 10635(a)					
		2030 (AF)	**2035 (AF)**	**2040 (AF)**	**2045 (AF)**
First year	Supply totals[1]	67,379	72,953	73,527	74,101
	Use totals[2]	57,548	60,157	62,577	64,620
	Surplus/(shortfall)	9,831	12,796	10,949	9,481

	WSCP - use reduction savings benefit	0	0	0	0
	Revised Surplus/(shortfall)	0	0	0	0
Fourth year	Supply totals[1]	42,379	42,953	43,527	44,101
	Use totals[2]	57,548	60,157	62,577	64,620
	Surplus/(shortfall)	(15,169)	(17,204)	(19,051)	(20,519)
	Planned WSCP Actions				
	WSCP - supply augmentation benefit[4]	15,169	17,204	19,051	20,519
	WSCP - use reduction savings benefit	0	0	0	0
	Revised Surplus/(shortfall)	0	0	0	0
Fifth year	Supply totals[1]	15,579	16,153	16,727	17,301
	Use totals[3]	57,198	59,807	62,227	64,270
	Surplus/(shortfall)	(41,619)	(43,654)	(45,501)	(46,969)
	Planned WSCP Actions				
	WSCP - supply augmentation benefit[4]	29,000	29,000	29,000	29,000
	WSCP - use reduction savings benefit[5]	12,619	14,654	16,501	17,969
	Revised Surplus/(shortfall)	0	0	0	0

NOTES: All values are in AF. Recycled water is included on both the supply and demand sides of this calculation, in equal values that have no ultimate effect on the shortage analysis. Recycled water is produced in quantities that match current demand as shown in DWR Table 6-4 and DWR Table 6-9.

[1]Supply Totals represent the Five Consecutive Year Drought Total Available Supplies from COR Table 7-D, without groundwater as groundwater is shown separately as a Supply Augmentation, plus recycled water totals from DWR Table 6-4.

[2]Use Totals shown above (First Year - Fourth Year) represent DWR Table 4-2 “Demand” Totals. It is assumed that no groundwater recharge demand would apply in drought years.

Submittal Table 7-4 Retail: Multiple Dry Years Supply and Use Comparison Water Code Section 10635(a)
[3]Use Totals shown above (Fifth Year) represent DWR Table 4-2 "Demand" Totals. It is assumed that no groundwater recharge demand or discharge to Linda Creek would apply in the "dead pool" condition represented. [4]Supply Augmentation equates to the use of groundwater applied in the required amount to satisfy demand. [5]Year 5 of the Consecutive Year Drought in the long term would require 22% use reduction in 2030, 25% in 2035, 27% in 2040, and 28% in 2045.

A comparison of projected water supply and demand during a Five Consecutive Year Drought in the short term is included in DWR Table 7-5.

Planned WSCP Actions	
WSCP - supply augmentation benefit (AF) [4]	29,000
WSCP - use reduction savings benefit (AF)[5]	12,619
Revised Surplus/(shortfall)	0

NOTES: All values are in AF. Recycled water is included on both the supply and demand sides of this calculation, in equal values that have no ultimate effect on the shortage analysis. Recycled water is produced in quantities that match current demand, as shown in DWR Table 6-4 and DWR Table 6-9.
[1]Total Water Use shown above (2026 - 2029) represent DWR Table 4- 1 and DWR Table 4-2 "Demand" Totals, excluding Groundwater Recharge, linearly interpolated between years 2025 and 2030 as shown in Appendix T.
[2]Total Supplies shown above represent the Five Consecutive Year Drought Total Available Supplies from COR Table 7-D, without groundwater as groundwater is shown separately as a Supply Augmentation, plus recycled water totals from DWR Table 6-4, linearly interpolated between years 2025 and 2030 as shown in Appendix T.
[3]Total Water Use shown above represents the DWR Table 4-2 "Demand" Total for 2030. It is assumed that no groundwater recharge demand or discharge to Linda Creek would apply in the "dead pool" condition represented.
[4]Supply Augmentation equates to the use of groundwater applied in the required amount to satisfy demand.
[5]Year 5 of the Consecutive Year Drought in the short term would require 22% use reduction.

As stated in DWR Table 7-2, there is sufficient supply to meet demands in Normal Years through 2045. In Single Dry Years and some extended drought years, shortages do occur. The remaining deficits shown will be mitigated by use of groundwater as supply augmentation and potable water conservation measures implemented as part of the Water Shortage Contingency Plan (WSCP).

7.2.5 Deficit Mitigation

Depending on the surface water supply available from USBR, and in accordance with the WFA, deficits in potable water supply may occur in a single dry year or the latter stages of an extended drought condition. As shown in DWR Table 7-4 and DWR Table 7-5, the greatest potential deficit between available supply and demand would occur in Year 5 of a Five Consecutive Year Drought condition.

Strategy to alleviate deficiencies shown above is indicated in the Planned WSCP Actions portion of DWR Table 7-3, DWR Table 7-4, and DWR Table 7-5. The volume of water savings resulting from potable water demand reductions are shown in these tables.

The City will determine the needed balance between water conservation and groundwater pumping on a case-by-case basis consistent with the City's Municipal Code. The City also continues to plan for and analyze opportunities for water supply projects or exchanges that would increase the reliability of the surface water supplies diverted from the American River.

7.3 Regional Supply and Reliability

All water consumed by the City comes from local supply sources. No water is imported from other regions, nor does the City anticipate importing water from other regions throughout the UWMP planning period. However,

the City is actively engaged in multiple planning projects and coordination intended to strengthen water supply reliability throughout the Sacramento area, in addition to long-term water storage projects like the future Sites Reservoir. Projects like Sites will not provide direct benefit in terms of water supply to Roseville; however, as a regional project it promises to strengthen the Northern California water portfolio as a whole, providing benefit to all who operate within this sphere. The City is a committed regional partner in working to solve supply shortage issues before they become a critical reality, with climate change and increasingly limited supply sources at the crux of the issue. The City will continue these efforts into the future and work with its partner agencies to find the best path forward.

Chapter 8 Water Shortage Contingency Plan

Following the severe drought of 2012-2016, the State of California Legislature sought to expand the water shortage contingency analysis under former law and mandated that a Water Shortage Contingency Plan (WSCP) be adopted by suppliers. A copy of the WSCP is provided in Appendix M.

WSCP Table 4, WSCP Table 7, and WSCP Table 6 in the Water Shortage Contingency Plan correspond with DWR Table 8-1, DWR Table 8-2, and DWR Table 8-3 respectively and are provided below.

DWR Table 8-1

Submittal Table 8-1: Cross-reference for Standard vs Supplier Shortage Levels
Water Code Section 10632(a)(3)(B)

Standard Shortage Levels	Percent Shortage Range	Suppliers Shortage Levels	Percent Shortage Range
1	Up to 10%	Basic Stage/Stage One Drought	City's water supply is adequate to meet all projected demands/City's water supply is adequate to meet 90% of projected demands
2	Up to 20%	Stage Two Drought	City's water supply is adequate to meet 80% of projected demands
3	Up to 30%	Stage Three Drought	City's water supply is adequate to meet 70% of projected demands
4	Up to 40%	Stage Four Drought	City's water supply is adequate to meet 60% of projected demands
5	Up to 50%	Stage Five Drought	City's water supply is adequate to meet 50% or less of projected demands
6	>50%	Stage Five Drought	City's water supply is adequate to meet 50% or less of projected demands

NOTES: Water shortage stages are defined in Chapter 14.09 of the City's Municipal Code.

DWR Table 8-2

Submittal Table 8-2 Retail: Supply Augmentation and Other Actions Water Code Section 10632(a)(4)(A), (C), and (E)				
Yes	Is the Supplier completing this table using the standard six levels? (yes/no)

Submittal Table 8-3 Retail: Demand Reduction Actions Water Code Section 10632(a)(4)(B), (D), and (E)					
Yes	Is the Supplier completing this table using the standard six levels? (yes/no)				
Shortage Level	Demand Reduction Actions	How much is this going to reduce the shortage gap?		Additional Explanation or Reference	Penalty, Charge, or Other Enforcement?
		Volume or Percentage	Shortage Gap Reduction Value (AF)		
1	Landscape - Restrict or prohibit runoff from landscape irrigation	Percentage	0%	14.09.030(A)	Yes
1	Landscape - Limit landscape irrigation to specific times	Percentage	0%	14.09.020(A)(1); No person shall use, or cause to be used, any city water for landscape irrigation between the hours of 10:00 a.m. and 8:00 p.m., unless the city manager, or designee provides prior written consent to a different time limitation. A waiver may be granted for turf areas if the landscape contains too many irrigation valves to complete an irrigation event within the watering window.	Yes
1	Landscape - Limit landscape irrigation to specific days	Percentage	0%	14.09.060(E)(2); Irrigation of new landscaping shall be allowed on any day of the week for a period of 30 days after the new landscaping is planted, unless the city manager, or designee, provides prior written consent to extend this time period based on plant type and the season when the new landscaping is planted. After the 30 days, irrigation days and run times should be decreased to settings appropriate for an established landscape.	Yes
1	Landscape - Prohibit certain types of landscape irrigation	Percentage	0%	14.09.030(E); Prohibit operation of an irrigation system that applies water to an impervious surface or that is in disrepair.	Yes
1	Landscape - Other landscape restriction or prohibition	Percentage	0%	14.09.030(G); Prohibit irrigation of landscaping during rainfall or 48 hours after a measurable rain event.	Yes
1	Landscape - Other landscape restriction or prohibition	Percentage	0%	14.090.060(E)(1); All landscaping installed in the City of Roseville shall comply with the water efficient landscape requirements adopted by resolution of the city council.	Yes

Submittal Table 8-3 Retail: Demand Reduction Actions Water Code Section 10632(a)(4)(B), (D), and (E)					
Yes	Is the Supplier completing this table using the standard six levels? (yes/no)				
Shortage Level	Demand Reduction Actions	How much is this going to reduce the shortage gap?		Additional Explanation or Reference	Penalty, Charge, or Other Enforcement?
		Volume or Percentage	Shortage Gap Reduction Value (AF)		
1	Other water feature or swimming pool restriction	Percentage	0%	14.09.030(C); Prohibit maintaining ponds, waterways, decorative basins, or swimming pools without water recirculation devices.	Yes
1	Other water feature or swimming pool restriction	Percentage	0%	14.09.030(D); Prohibit backwashing so as to discharge to waste swimming pools, decorative basins or ponds in excess of the frequency necessary to ensure the healthful condition of the water or in excess of that required by standards for professionally administered maintenance or to address structural considerations, as determined by the city manager, or designee.	Yes
1	Other water feature or swimming pool restriction	Percentage	0%	14.09.030(H); Prohibit overfilling of any pond, pool or fountain which results in water discharging to waste.	Yes
1	Other - Customers must repair leaks, breaks, and malfunctions in a timely manner	Percentage	0%	14.09.060(C)	Yes
1	Other - Require automatic shut of hoses	Percentage	0%	14.09.060(B); Free-flowing hoses for all uses are prohibited. Automatic shut-off devices shall be attached on any hose or filling apparatus in use.	Yes
1	Other	Percentage	0%	14.09.030(B); Prohibit water fixtures (including, but not limited to, toilets, faucets, shower heads) or heating or cooling devices to leak or run to waste.	Yes
1	Other	Percentage	0%	14.09.030(A); Prohibit water use for washing in excess of that necessary to wash, wet or clean the dirty or dusty object, such as an automobile, sidewalk, or parking area, flows to waste.	Yes

Submittal Table 8-3 Retail: Demand Reduction Actions Water Code Section 10632(a)(4)(B), (D), and (E)					
Yes	Is the Supplier completing this table using the standard six levels? (yes/no)				
Shortage Level	Demand Reduction Actions	How much is this going to reduce the shortage gap?		Additional Explanation or Reference	Penalty, Charge, or Other Enforcement?
		Volume or Percentage	Shortage Gap Reduction Value (AF)		
1	Other	Percentage	0%	14.09.060(A); Water shall be confined to the user's property and shall not be allowed to run off to adjoining properties, or to the roadside or to the gutter. Care shall be taken not to water past the point of saturation.	Yes
1	Other	Percentage	0%	14.09.060(F); All site reviews shall include an evaluation of using recycled water. Recycled water shall be required if economically feasible.	Yes
1	Landscape - Limit landscape irrigation to specific days	Percentage	1%	14.09.070(C) and 14.09.070(D); Residential and non-residential water users shall be permitted to irrigate with city water according to the schedule provided in 14.09.070(C) and 14.09.070(D), respectively.	Yes
1	Landscape - Other landscape restriction or prohibition	Percentage	1%	14.09.070(G); City park sites shall, as an aggregate, reduce usage up to 10 percent.	Yes
1	CII - Restaurants may only serve water upon request	Percentage	1%	14.09.070(I)	Yes
1	Other - Prohibit use of potable water for washing hard surfaces	Percentage	1%	14.09.070(H); Washing streets, parking lots, driveways, sidewalks or buildings, except as necessary for health or sanitary purposes or pursuant to a term or condition in a permit issued by a state or federal agency, is prohibited.	Yes
1	Other	Percentage	10%	14.09.070(B); Residential users and non-residential users shall reduce water usage up to 10 percent.	Yes
2	Landscape - Other landscape restriction or prohibition	Percentage	1%	14.09.070(C); City park sites shall, as an aggregate, reduce usage up to 20 percent.	Yes

Submittal Table 8-3 Retail: Demand Reduction Actions Water Code Section 10632(a)(4)(B), (D), and (E)					
Yes	Is the Supplier completing this table using the standard six levels? (yes/no)				
Shortage Level	Demand Reduction Actions	How much is this going to reduce the shortage gap?		Additional Explanation or Reference	Penalty, Charge, or Other Enforcement?
		Volume or Percentage	Shortage Gap Reduction Value (AF)		
2	Other - Prohibit vehicle washing except at facilities using recycled or recirculating water	Percentage	1%	14.09.080(H)	Yes
2	Other	Percentage	10-18%	14.09.080(B); Residential users and non-residential landscapes shall reduce water usage up to 20 percent.	Yes
3	Landscape - Limit landscape irrigation to specific days	Percentage	1%	14.09.090(D) and 14.09.090(E); Residential and non-residential water users shall be permitted to irrigate with city water according to the schedule provided in 14.09.090(D) and 14.09.090(E), respectively.	Yes
3	Landscape - Other landscape restriction or prohibition	Percentage	1%	14.09.090(C); City park sites shall, as an aggregate, reduce usage up to 30 percent.	Yes
3	Landscape - Other landscape restriction or prohibition	Percentage	1%	14.09.090(H); New or expanded landscaping is limited to drought-tolerant trees, shrubs, and groundcover and be irrigated using a low volume irrigation system. No new turf shall be planted, hydroseeded, or laid, unless prior written consent is received from the city manager. Low volume irrigation means the application of irrigation water at low pressure through a system of tubing or lateral lines and low-volume emitters such as drip or drip lines irrigating at less than two gallons per hour. These systems are specifically designed to apply small volumes of water slowly at or near the root zone of plants.	Yes

Submittal Table 8-3 Retail: Demand Reduction Actions Water Code Section 10632(a)(4)(B), (D), and (E)					
Yes	Is the Supplier completing this table using the standard six levels? (yes/no)				
Shortage Level	Demand Reduction Actions	How much is this going to reduce the shortage gap?		Additional Explanation or Reference	Penalty, Charge, or Other Enforcement?
		Volume or Percentage	Shortage Gap Reduction Value (AF)		
3	Water Features - Restrict water use for decorative water features, such as fountains	Percentage	1%	14.09.090(I)	Yes
3	Pools - Allow filling of swimming pools only when an appropriate cover is in place.	Percentage	1%	14.09.090(L)	Yes
3	Other - Prohibit use of potable water for construction and dust control	Percentage	1%	14.09.090(K)	Yes
3	Other	Percentage	1%	14.09.090(I); Except where recycled water is used, golf courses shall reduce irrigation up to 30 percent.	Yes
3	Other	Percentage	18-27%	14.09.090(B). Residential users and non-residential landscapes are to reduce water usage up to 30 percent.	Yes
4	Landscape - Limit landscape irrigation to specific days	Percentage	2%	14.09.100(D) and 14.09.100(E); Residential and non-residential water users shall be permitted to irrigate with city water according to the schedule provided in 14.09.100(D) and 14.09.100(E), respectively.	Yes
4	Landscape - Other landscape restriction or prohibition	Percentage	1%	14.09.100(C); City park sites shall, as an aggregate, reduce usage up to 40 percent.	Yes

Submittal Table 8-3 Retail: Demand Reduction Actions Water Code Section 10632(a)(4)(B), (D), and (E)					
Yes	Is the Supplier completing this table using the standard six levels? (yes/no)				
Shortage Level	Demand Reduction Actions	How much is this going to reduce the shortage gap?		Additional Explanation or Reference	Penalty, Charge, or Other Enforcement?
		Volume or Percentage	Shortage Gap Reduction Value (AF)		
4	Landscape - Other landscape restriction or prohibition	Percentage	1%	14.09.100(H); Installation of any new landscaping is prohibited unless irrigation is provided through connection to an active recycled water system. In the case of new construction, the city's building official will issue a temporary final upon completion of the structural development of the property. When the city has returned to a stage two drought restriction, landscaping installation can be completed, and a building final will become available upon inspection by the city.	Yes
4	Other water feature or swimming pool restriction	Percentage	1%	14.09.100(K); Existing pools shall not be emptied and refilled using city water unless required for health or safety reasons until the city has returned to a stage two drought restriction. Pools may be re-filled only to the extent necessary to replace evaporative losses.	Yes
4	Other - Prohibit vehicle washing except at facilities using recycled or recirculating water	Percentage	1%	14.09.100(J); Automobiles or equipment shall be washed only at commercial establishments that recycle their water or by equipment and means that separates debris and recycles wash water for continual use.	Yes
4	Other	Percentage	1%	14.09.100(I); Except where recycled water is used, golf courses shall reduce irrigation up to 40 percent.	Yes
4	Other	Percentage	0%	14.09.100(L); No commitments shall be made to provide water service as part of any new land use entitlement (general plan, specific plan or amendments requesting new water allocations) until the city has returned to a stage two drought restriction. Currently approved specific plans with accompanying development agreements and projects or properties that have received water allocations in advance of full entitlements may be issued building permits so long as they comply with the remainder of this chapter.	Yes
4	Other	Percentage	27-35%	14.09.100(B); Residential users and non-residential landscapes are to reduce water usage up to 40 percent.	Yes

Submittal Table 8-3 Retail: Demand Reduction Actions Water Code Section 10632(a)(4)(B), (D), and (E)					
Yes	Is the Supplier completing this table using the standard six levels? (yes/no)				
Shortage Level	Demand Reduction Actions	How much is this going to reduce the shortage gap?		Additional Explanation or Reference	Penalty, Charge, or Other Enforcement?
		Volume or Percentage	Shortage Gap Reduction Value (AF)		
5 & 6	Landscape - Other landscape restriction or prohibition	Percentage	5%	14.09.110(C); Except where recycled water is used, water users shall reduce landscape irrigation as follows: 1. Turf shall not be irrigated. 2. Trees and shrubs may be irrigated with a properly functioning low volume landscape irrigation system or by use of a handheld hose equipped with a nozzle capable of completely shutting off the flow of water except when positive action or pressure to maintain the flow of water is applied. Low volume irrigation means the application of irrigation water at low pressure through a system of tubing or lateral lines and low-volume emitters such as drip or drip lines irrigating at less than two gallons per hour. These systems are specifically designed to apply small volumes of water slowly at or near the root zone of plants.	Yes
5 & 6	Other water feature or swimming pool restriction	Percentage	1%	14.09.110(D); Filling new or existing swimming pools and spas with city water is prohibited.	Yes
5 & 6	Other	Percentage	33%	14.09.110(B); Residential users are to reduce water usage up to 50 percent.	Yes
NOTES: References in the 'Additional Explanation or Reference' column are from sections of the City's Water Conservation and Drought Mitigation Ordinance corresponding to demand reduction action. Explanations are provided as needed. For each successive drought level all preceding restrictions shall continue in place, except to the extent they are replaced by more restrictive conditions.					

Chapter 9 Demand Management Measures

This chapter describes the City's historical and existing water conservation program, status of implementation of Demand Management Measures (DMMs), and projected future conservation implementation. The CWC requires that the UWMP include a comprehensive description of historical, current, and projected water conservation programs.

> *CWC 10631 (e) Provide a description of the supplier's water demand management measures. This description shall include all of the following:*
>
> *(1) (A) For an urban retail water supplier, as defined in Section 10608.12, a narrative description that addresses the nature and extent of each water demand management measure implemented over the past five years. The narrative shall describe the water demand management measures that the supplier plans to implement to achieve its water use targets pursuant to Section 10608.20.*
>
> *(B) The narrative pursuant to this paragraph shall include descriptions of the following water demand management measures:*
>
> *(i) Water waste prevention ordinances.*
>
> *(ii) Metering.*
>
> *(iii) Conservation pricing.*
>
> *(iv) Public education and outreach.*
>
> *(v) Programs to assess and manage distribution system real loss.*
>
> *(vi) Water conservation program coordination and staffing support.*
>
> *(vii) Other demand management measures that have a significant impact on water use as measured in gallons per capita per day, including innovative measures, if implemented.*

In previous UWMPs, a substantial amount of data was required to document a water supplier's progress in implementing fourteen specific DMMs. In 2014, Assembly Bill 2067 simplified, clarified, and updated reporting requirements for DMMs. Starting with the 2015 UWMP, focus had turned away from detailed descriptions of each of the fourteen DMMs and turned to water conservation measures that were being implemented to achieve compliance with SB X7-7. Since the City met the SBX7-7 water use target in 2020 as discussed in Chapter 5, the focus is back on detailed descriptions of the now six (plus an "other" category) DMMs. A narrative description of the status of the DMMs is required while detailed data is not. Members of the CUWCC may include their reporting in the UWMP, but a narrative is also required.

9.1 Making Conservation a California Way of Life

The "Making Conservation a California Way of Life" regulatory framework establishes long-term urban water use efficiency standards for retail water suppliers, including the City of Roseville. The framework implements Senate Bill 606 (2018) and Assembly Bill 1668 (2018) and is intended to improve water supply reliability and drought resilience under conditions of increasing hydrologic variability.

The implementing regulations, adopted in 2022 and codified in California Code of Regulations, Title 23, Section 965 et seq., require urban retail water suppliers to calculate and annually report an Urban Water Use Objective

(UWUO). The UWUO represents a supplier-specific water use efficiency target based on state-defined standards and local service area characteristics.

The UWUO is calculated as the sum of efficient water use standards for four end-use sectors: indoor residential use, outdoor residential use, commercial, industrial, and institutional (CII) landscapes with dedicated irrigation meters, and distribution system water loss.

Beginning in 2023, the City of Roseville began annual calculation and reporting of its UWUO in accordance with State requirements. Compliance is evaluated by comparing actual potable water use to the calculated UWUO on an annual basis. Urban retail water suppliers are required to meet their UWUO targets by 2027, with enforcement provisions phased in thereafter.

The UWUO framework operates in coordination with other State planning requirements, including the Urban Water Management Plan (UWMP), Water Shortage Contingency Plan (WSCP), and Annual Water Supply and Demand Assessment (AWSDA). UWMP updates also incorporate implementation of water loss standards established by the California State Water Resources Control Board.

The City implements a range of demand management measures to support progress toward UWUO compliance, including water use efficiency programs, public education and outreach, and rebate programs promoting installation of water-efficient indoor and outdoor technologies. The City also continues to invest in system maintenance, leak detection, and water loss control.

The City will continue to monitor annual performance relative to its UWUO and adjust demand management strategies as needed to ensure compliance with State requirements and support long-term water supply reliability.

9.2 Demand Management Measures

The six DMMs required to be discussed in the 2025 UWMP include the following:

- Water waste prevention ordinances;
- Metering;
- Conservation pricing;
- Public Education and outreach;
- Programs to assess and manage distribution system real loss; and
  Water conservation program coordination and staffing support.

For each DMM, the current program is described, followed by a description of how the DMM was implemented over the previous five years.

9.2.1 Water Waste Prevention Ordinances

The City currently restricts water waste within its service area. Roseville Municipal Code Chapter 14.09, Water Conservation Ordinance (Appendix N), defines water waste and associated penalties of continued infractions. Per the ordinance, customers in violation are provided a series of notifications at one-week intervals: first a courtesy notice, second an administrative warning, and finally a formal citation. If the situation is not remedied by the time

specified in the formal citation, additional measures can be taken to enforce compliance. These measures include fines, water restrictions, low flow devices, or discontinued service. In addition, the City may waive the courtesy notice and administrative warning in times of drought.

To enforce the Water Waste Ordinance, the City dedicates seven full-time field technicians to patrol for water waste as part of their normal job duties. The City has also implemented new AMI (see Section 9.1.2) to support the field technicians in identifying leaks or misuse of water during normal work and non-work hours. In addition to patrols by City staff and the AMI, the City has an online reporting mechanism that allows customers to report observed water waste anonymously. Customers can visit www.roseville.ca.gov/waterwaste and submit an electronic form, which is then further investigated by City staff.

Implementation of this DMM is ongoing and expected to help minimize nonessential uses of water so that the water is available for human consumption, sanitation, and fire protection.

9.2.2 Metering

A meter retrofit program was developed and implemented from 2001 to 2011 as a foundational step toward improving water use accountability and long-term resource management. Implementation of metered rates began immediately on all residential metered connections established after January 1, 2002, with the remaining retrofitted homes transitioned in large blocks as retrofits were completed. To support a smooth transition and promote customer understanding, residents were provided with detailed water use information for a full year prior to the initiation of volumetric billing, allowing them to adjust consumption habits and better anticipate billing changes.

Building on these earlier efforts, the City completed a multi-year water meter upgrade project in 2023, marking a major advancement in water system modernization. This initiative involved replacing aging meters with industry-standard smart meters and deploying a comprehensive Advanced Metering Infrastructure (AMI) system. The AMI system uses a secure, encrypted, two-way wireless communication network that enables automatic meter reading and real-time transmission of usage data and system alerts. Full deployment began in July 2023 and was completed ahead of schedule, reflecting the City's commitment to efficiency and innovation.

This upgraded infrastructure significantly enhances the City's ability to manage its water system. By eliminating the need for manual meters to be manually read, it reduces operational costs, improves worker safety, and allows staff to focus on higher-value system management activities. The system also provides near real-time data on water consumption, enabling faster identification of leaks, unusual usage patterns, and potential service issues. In turn, this supports more proactive maintenance, quicker response times, and reduced water loss across the system.

From a customer perspective, the AMI system represents a substantial improvement in transparency and service. Customers benefit from more accurate and timely billing, as well as access to detailed consumption data that can help them better understand and manage their water use. The availability of high-resolution usage information supports informed decision-making and encourages conservation, particularly during periods of drought or water supply constraints.

The metering DMM, with the support of AMI, further strengthens these capabilities by providing precise and actionable water use data to both the customer and the City. Higher-than-normal comparative usage automatically triggers outreach to customers who may be experiencing leaks or inefficiencies, promoting early intervention and minimizing potential damage or waste. Additionally, the system enhances public awareness of efficient water use practices through data-driven insights and targeted communication.

Overall, the City's investment in metering and AMI technology represents a comprehensive approach to water management – improving operational efficiency, enhancing customer engagement, supporting conservation goals, and ensuring the long-term sustainability of the community's water resources.

9.2.3 Conservation Pricing

As a component of its meter retrofit program, the City adopted conservation pricing for water on all metered accounts from 2011 through 2015. Later, and to comply with Proposition 218 requirements, the City transitioned to a per-use, uniform billing rate structure in February 2016. Now, with the implementation of the AMI (see Section 9.1.2), the City and customers are able to see smarter water use billing information. A complete list of service charges, excess water use charges, and water rates are included in Roseville Municipal Code Sections 14.08.090 Service Charges for Metered Service through 14.08.100 Flat Water Rates. This information is included in Appendix O.

Implementation of this DMM ensures water customers pay the true cost of water. The City regularly analyzes this cost of water production, capital improvement project needs, level of service requirements and other costs of operating the water system during regular rate studies. Where adjustments need be made, extensive public education efforts are undertaken to maintain transparency of utility operations and funding to support any required rate changes. Sufficient revenue will continue to be available to fund water system operations, maintenance, and water conservation programs.

9.2.4 Public Education and Outreach

As part of outreach and engagement efforts, the City of Roseville has a dedicated team focused on informing, educating, and engaging customers to promote water-efficient behaviors and real action. This includes working with regional partners and teaming up with the Utility Exploration Center (UEC) to offer hands-on workshops and classes throughout the year. The City hosts practical sessions that show residents how to save water at home, while the UEC provides interactive learning opportunities for families and students.

The City shares information in ways that are easy to see and access. This includes paid and earned media, story placements, the City website, e-newsletters, and other City communication channels, along with social and digital media. Informational tips and updates can be seen in bill inserts, movie theater ads, brochures, vehicle decals, community events, and special events held throughout the year.

9.2.4.1 Utility Exploration Center

In 2008, the City's utilities jointly funded and created the Roseville Utility Exploration Center (UEC). In addition to serving as a "storefront" for the utilities, the Center is used by the City for community outreach and environmental education. Designed for an interactive experience, the UEC hosts multiple hands-on exhibits with a "learning lab"

for demonstrations, presentations, and workshops. Topics include water conservation and watershed protection, energy efficiency, waste reduction, and wastewater management.

Since opening, the Utility Exploration Center has hosted over 850,000 total program participants. This includes approximately 7,000+ students (preschool through twelfth grade) served annually with programing, targeted to their specific grade level standards, exploring utilities in their daily life; partnerships with cultural, recreational, and utility-related organizations to create a lively series of changing events, workshops, and activities; and connecting with residents in a variety of off-site outreach activities.

The Center is housed within the Gold LEED (Leadership in Energy and Environmental Design) certified Martha Riley Library building, which was the first building in Placer County to be so honored. Recent developments include the "Inspiration Garden," an outdoor learning space created in partnership with Roseville's Water Efficiency division with a goal of encouraging more residents to adopt water-wise gardening practices, which was completed in 2022. Furthermore, the visitor center exhibits recently underwent a full overhaul, finished in April of 2024, to update educational messages for the utilities as the City looks forward to the next ten years. A larger outdoor project, originally called the IDEAscape, would further expand exhibits to include topics such as river-friendly landscaping and irrigation, utility systems, solar energy, and watershed protection. The project is currently on hold but is anticipated for completion by 2035.

9.2.4.2 Student Outreach

In addition to Regional Water Authority (RWA) student outreach programs, the City independently provides presentations, conservation materials, and facility tours to local schools.

9.2.5 Regional Water Authority – Outreach and Education

In addition to local public education and outreach programs, the City also participates in a regional public education and outreach program through the Regional Water Authority. The Regional Water Authority (RWA) was formed in 2001 as a joint powers authority to serve and represent the interests of over 22 water suppliers and associated agencies in the greater Sacramento, Placer, El Dorado, Sutter, Nevada and Yolo County Region. RWA's mission is to serve, represent and align the interests of regional water suppliers and stakeholders for the purposes of improving water supply reliability, availability, quality, and affordability. In collaboration with 17 water supplier members and other wastewater, stormwater and energy partners, RWA formed the Water Efficiency Program (WEP) in 2001 to bring cost effectiveness through economies of scale to public education and outreach activities.

The WEP operates on an average annual budget of $610,000 funded by participating local water suppliers and is supplemented by grant funding. Grants are an important funding resource for the Program. Since 2003, the Program has been awarded $19.9 million in grant funding for public outreach and education as well as a variety of rebate programs, fixture direct installation programs, system water loss, individualized customer usage reports, large landscape budgets and more. Of those funds, $6.7 million was awarded between 2021 and 2025.

The main function of the WEP is to develop and distribute public outreach messages to customers in the region by collaborating with its water supplier members. The Program distributes these messages on a regional scale through regional media and advertising buys and was honored with the United States Environmental Protection Agency WaterSense Partner of the Year award in 2021 along with three Public Relations Society of America (PRSA),

California Capital Chapter awards in 2023/2024 for WEP's public outreach and school education programs. From 2021-2025, the WEP created a series of public outreach campaigns. Below is a summary of each campaign and highlighted achievements.

2021 was a year for nimble messaging and maximum flexibility to adapt outreach to the rapidly changing conditions. RWA's RWEP began 2021 with a focus on household leaks and then transitioned to the fourth year of an award-winning outreach campaign focused on tackling the landscape overwatering problem by encouraging residents to check soil moisture before turning on sprinklers (Check & Save). With the sudden emergence of drought in May 2021, the program introduced new creative and tools for RWEP participants. The goal: Help provide consistent and actionable tips region-wide while providing flexibility for RWA members to customize materials to reflect their unique water supply situation and call to action.

As the drought grew more serious through late 2021 and into 2022, the WEP updated messaging again and ramped up outreach, asking residents to reduce lawn watering while continuing to water trees (Stress Your Lawn, Save Your Trees), understanding that lawns can handle less water but that drought-stressed trees can be lost forever. This messaging supported the Governor's request of water suppliers to voluntarily reduce water use by 15 percent. Additionally, the WEP continued to partner with the Sacramento Tree Foundation to help educate residents and business on how to maintain and expand the region's healthy tree canopy and included a series of co-branded educational videos and materials.

After the drought subsided in 2023, the WEP launched a new multi-year outreach program aimed at encouraging water efficiency during a non-drought year. Research indicates that public engagement in water conservation tends to surge during drought periods, such as 2022, but declines during non-drought years, like 2023. Consequently, garnering attention and motivating action becomes more challenging during non-drought periods. To tackle this challenge, the 2023 outreach program focused on two main messages:

- SUMMER STRONG—focused on promoting water-wise best practices outdoors. A Summer Strong yard is tough enough to muscle through the Sacramento region's hottest days and still look its best. The campaign featured eye-catching graphics to promote efficient tree watering, adding low-water and native plants, checking soil moisture, using weather-based sprinkler timers, and watering early to minimize evaporation.

- SUDS WOULD BE DUDS WITHOUT H2O—With clean, reliable water essential to great beer (and to the success of local breweries), the WEP launched a pilot project to partner with local craft brewers, aiming to educate patrons about the importance of water to beer and how to preserve this natural resource. Initial partners included Jack Rabbit Brewing Company and Red Bus Brewing Company, which committed to distributing Be Water Smart materials to their customers. This campaign featured the development of a rebate program to upgrade brewing equipment to be more water efficient and the distribution of coasters, koozies and stickers with water savings messages.

In 2024, the WEP enhanced its existing Summer Strong campaign with the Summer Strong Yard Champs promotion, spotlighting Sacramento-area residents who transformed their landscapes into water-efficient yards. Homeowners nominated yards featuring low-water plants and efficient irrigation systems for a chance to be

featured on regional billboards. Nearly 50 nominations were reviewed, with winners receiving professional photoshoots. Featured yards included a mix of DIY and professionally designed landscapes, all showcasing water-saving practices like low-water and native plants, drip irrigation, and rainwater capture, inspiring others to adopt similar approaches. In 2025, the Summer Strong campaign added a new mascot, Jack LaPlant, an animated plant figure that carried on all the same water savings tips but with refreshed visuals to draw in a new audience. In 2024, the WEP expanded its successful pilot project, Suds Would be Duds without H2O, with local craft breweries to raise awareness about water's role in craft beer production and to promote water efficiency. The campaign visited 52 breweries across the Sacramento region. Around 20 breweries are considered active partners, including six of the top craft breweries in the area. Promotional materials, including 10,500 coasters and 7,200 stickers, were distributed by these partners and included water-saving tips and a link to our BeWaterSmart.Info website to access rebates. Additionally, two breweries, Urban Roots Brewery & Smokehouse and Solid Ground Brewing participated in WEP's commercial indoor rebate program. Each brewery received $15,000 to upgrade or add equipment that reduced water used for chilling and sanitizing processes.

Both campaigns, Summer Strong and Suds Would be Duds without H2O, were continued through the end of 2025 and were implemented through both paid advertising buys and earned media from public service announcements (PSAs) and aired in English and Spanish. Every year the campaigns' messaging can be heard on local radio stations such as Capital Public Radio and online through Google, Facebook and YouTube advertisements. For clarification below, impressions represent how many times an ad was seen.

From 2021-2025, the WEP public outreach campaigns produced:

Television Advertising 3,926 television advertisements 23,212,700 impressions	**Radio Advertising** 5,273 radio advertisements 19,994,200 impressions
Digital Advertising (Facebook, Google Display Network & Spotify) 29,472,602 million impressions 297,870 clicks	**Billboard advertising** 2,037,102 digital advertisements 62,807,653 impressions
Streaming Video Advertising (Comcast, EyeQ, Hearst, Paramount Plus, & Premion) 3,532,621 impressions 3,532,621 advertisements	**Facebook** 60 posts per year
Public Service Announcements (Television and Radio) 24,248,000 impressions $683,400 in value had they been purchased as advertising	

The Program continues to utilize our public outreach website, http://bewatersmart.info/, and the "Be Water Smart" brand to reach customers throughout the region. The website, which completed a major redesign and upgrade in 2025, contains customer-specific (enter your address) local water supplier information on rebates and services, general top ways to save for residents and businesses, an interactive watering guidelines and water waste reporting tool, a water-wise plant and gardening database, recent press releases, the Sacramento Smart Irrigation Scheduler tool, and more. Between 2021 and 2025, the website averaged 37,000 unique visitors per year.

For more targeted outreach, the Program distributed quarterly e-newsletters to enrolled residents. The e-newsletters are filled with water savings tips, upcoming events and region-specific articles. They are usually timed around changes in the weather to help signal the need for residents to adjust their irrigation systems, such as daylight savings coupled with a message to dial back/reduce sprinkler systems run times. The e-newsletter reaches 9,361 households.

The WEP selects 2 public events each year to attend as an opportunity for the public to interact with local water efficiency staff. This provides an opportunity for the region to communicate its messages in person. From 2023-2024, WEP attended ECOS Earth Day (April) and the Farm-to-Fork Festival (September).[3] In 2025, the WEP opted to attend the Sacramento Republic Brew Festival (June) instead of the Farm-to-Fork Festival to elevate our existing partnership with Sacramento Republic FC. At these events, the Be Water Smart team provided water-wise tips, encouraged visitors to sign the pledge banner, collected e-mails for those who wish to sign up for the e-newsletter list, as well as identified a customer's water supplier and connected them with rebates and services. Additionally, WEP, in coordination with participating local water suppliers, hosts an annual Mulch Mayhem event (May) in which customers can pick up a truck load of free mulch from selected locations throughout the region.[4] Combined, these in person events are attended by thousands of people each year throughout the region.

The Program provides a variety of "give-a-way" items to customers at in person public events and through direct mail requests from the http://bewatersmart.info/ website. From 2021-2025, WEP has distributed thousands of leak detection tablets, moisture meters, garden gloves and drink koozies to customers to encourage the water savings practices described in our public outreach campaigns and brewery partnerships.

The Program is also very active in communicating to local media outlets. Between 2021 and 2025, RWA issued 23 press releases on WEP activities and regionally significant news and participated in 17 radio public affairs interviews airing on 18 stations across the Sacramento region's major commercial radio networks. The RWA and the WEP were mentioned in dozens of news articles published by local and regional media outlets both within and outside of the Sacramento region during the same time frame.

Finally, the WEP partners with professional sports teams in the region to expand the Be Water Smart advertising to new and captive audiences. WEP partnered with the Sacramento River Cats (local Triple – A affiliate of the San Francisco Giants) in 2021, which included our long standing water savings advertisements on all bathroom stall doors as well as 30-second Check & Save spots broadcast on KMAX Channel 31 during each Saturday game and multiple 30-second radio spots broadcast during every game via their streaming radio coverage. The total attendance for regular season games was 342,861. In addition, 24 special events at Sutter Health Park drew 66,300 people in 2021. In 2023, RWEP launched a new partnership with Sacramento Republic FC (local USL professional soccer team), displaying water-wise messages at games to promote "Summer Strong" yards. The partnership continued through 2025 and included the following activities: a 30-second LED ad, messaging on water refill stations, and giveaways booths at events/games.

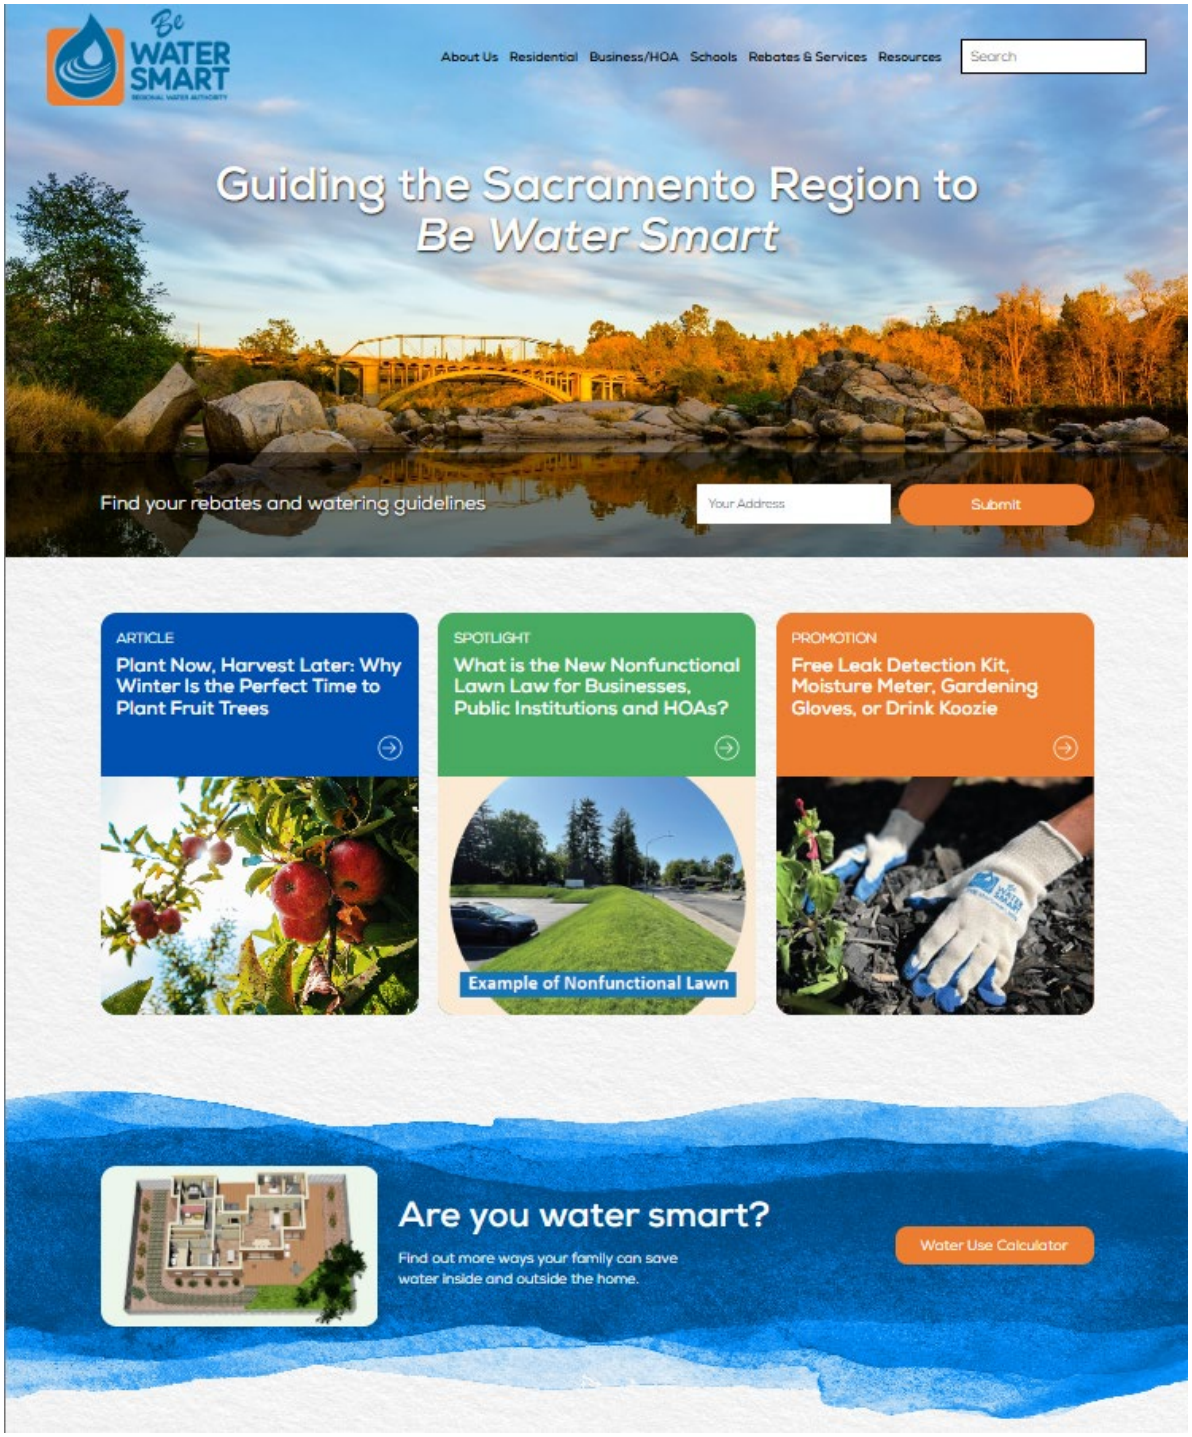
To support public outreach messaging and promote water savings tips, the Program also coordinated several regional rebate programs, which were partially or fully funded by state, federal and private foundation grants. A

[3] No public events were attended in 2021 and 2022 due to the COVID pandemic.
[4] The 2021 Mulch Mayhem event was held in September due to the COVID pandemic.

variety of high efficiency rebate options were provided including toilets, clothes washers and irrigation efficiencies (full summary in COR Table 9-A). Additionally, from August 2023 - November 2025, RWA managed a regional direct installation program, in which a contractor was hired to replace old high use fixtures in multifamily and commercial/institutional properties in disadvantaged communities in the region. Collectively these rebates and direct installations will produce an estimated lifetime (10 years) savings of 7.4 billion gallons of water and 7.9 million kilowatt hours of energy.

COR Table 9-A Regional Rebates and Installations from 2021 through 2025.

Rebate/Installation Type	2021	2022	2023	2024	2025	Lifetime Water Savings 2021-2025 (MG)	Lifetime Energy Savings 2021-2025 (kWh)**
High Efficiency Clothes Washer Rebates	359	265	307	321	298	74.7	79,309
High Efficiency Toilet Rebates	767	1,275	602	423	326	137.5	145,990
Smart Irrigation Controller Rebates	686	1,049	3,051	556	464	1,190.2	1,264,024
Irrigation Efficiences Rebates*	5,941	7,153	13,327	11,160	10,321	5,269.2	5,595,912
Turf Replacement Rebates (square feet)	153,880	239,645	135,607	300,152	266,840	405.6	430,711
Toilet Direct Installation	NA	NA	584	2,183	1,688	141.9	150,671
Showerhead Direct Installation	NA	NA	562	1,766	1,532	197.2	209,475
Faucet Aerators Direct Installation	NA	NA	884	3,215	2,343	20.6	21,850
Urinal Direct Installation	NA	NA	-	19	40	1.3	1,348
Total Water Savings (MG)						**7,438.1**	
Total Energy Savings (kWh)**							**7,899,291**
*Includes: pressure regulator equipment, pipe and pipe fittings, drip or low volume equipment, and sprinkler heads or nozzles.							
**Regional average of 1,062 kilowatt-hours per MG							
kWh = kilowatt-hour							
MG = million gallons							
NA = no funding available							
Lifetime = 10 years							



In addition to public outreach, the Program also coordinates regional school education activities. The RWA-sponsored water efficiency exhibits ($500,000 sponsorship) opened for viewing in 2021 at the new SMUD Museum of Science and Curiosity (MOSAC) in downtown Sacramento, reflecting years of input by RWA Water Efficiency Program Manager, Amy Talbot, who helped shape the exhibits. The exhibits teach visitors to become a "Home Water Detective," create their own mix tape from water conserving sounds in "Drop a Beat" and learn about local "Water Champions. MOSAC currently welcomes around 150,000 visitors a year from all over the region.

Since 2012[5], the Program has hosted the Water Spots Video Contest for high school and middle school students. The WEP provides a new contest theme each year and provides the region's teacher and students with relevant facts and images to help them develop 30 second video PSAs. The contest themes for 2022 and 2023 were "When in Drought…take action to reduce water use" and Do Your Part to Be Water Smart" respectively. Students submit their videos to WEP who hosts a panel of local celebrities including Monica Woods from ABC 10 to decide on a first, second and third place winner. The top 10 scoring videos are then posted online for public voting to select a "people's choice" winner as well. Both teachers and student receive cash prizes, and the winning videos are

[5] The program did not host a Water Spots Video Contest in 2021 due to the COVID pandemic.

played at Raley Field during River Cats games and in select movie theaters throughout the region (Example: Century Blue Oaks theatre in Rocklin and Century Laguna 16 in Elk Grove). The winning PSAs are incorporated into the WEP's media activities as well. The 2022 Grand Prize winner video "Doing Your Part" appeared 2,619 times in theatres and delivered 49,000 impressions. The 2023 Grand Prize winner video "Saving Water" appeared 2,149 times in theatres and delivered 47,000 impressions. Students from about a dozen area schools submitted a total of 54 videos total for the 2022 and 2023 contests.

In late 2023, WEP sunset the Water Spots Video Contest and launched a new school education program, Drip Drop, Hip Hop, in collaboration with NorCal School of the Arts (NorCal Arts), which brings together the worlds of art and sustainability to empower children, families, and communities in the Sacramento region. Funded by a $300,000 grant from the Capital Region Creative Corps and California Arts Council, Drip Drop, Hip Hop educates students and families about water efficiency through a two-person play and arts-integrated lesson plan. The program is free of charge for primarily Title I schools and community venues in Sacramento, Placer, and El Dorado counties plus the City of West Sacramento. The children receive a shower timer with water-efficiency tips with each classroom visit. Additionally, in 2024 the program developed a 30-second television and radio Public Service Announcement (PSA), found at https://bewatersmart.info/drip-drop-hip-hop-a-journey-through-the-american-river-watershed/, showcasing local children spreading the water efficiency message to a broader audience in both English and Spanish. In 2024, the PSA was broadcast 1,205 times in 7 television outlets for a total of 5.6 million impressions for an added value of $124,250 and 567 times in 17 radio outlets for a total of 1.2 million impressions and an added value of $45,290. As of the end of 2025, the Drip Drop Hip Hop reached 13,232 students through 509 classroom performances and additional community events in Sacramento, Placer, and El Dorado counties. Of the 509 performances, 25 reached Roseville City School District classrooms. Teachers reported increased water conservation knowledge and that students shared the information with their families.

9.2.6 Programs to Assess and Manage Distribution System Real Loss

The City maintains a comprehensive water audit and leak-detection program to assess, identify, and repair potable distribution system losses.

In 2009, the City began using AWWA Water Loss software to develop an annual water loss audit. The City continues to employ this method in compliance with Senate Bill 555, validating the annual audit for accuracy prior to submission to DWR each year by the regulatory deadline of December 31. Results from the audit have helped the City identify where in the distribution process leaks are occurring. This information is coupled with detailed pipeline information stored in the City's asset management and GIS system. Audit information helps identify potentially leak prone areas of the City's distribution system for focused rehabilitation or repair projects.

The City is actively implementing a comprehensive auditory leak detection program, utilizing AMI, Water Distribution staff, and audit-based analysis to identify non-surfacing leaks. By reviewing work order data and evaluating areas with a history of leaks or infrastructure failures, the city can target zones that may be contributing to unquantified water loss. Currently, the City is developing a corrosion protection program designed to reduce future failures and extend the life of the water system. These identified areas are mapped and used to prioritize rehabilitation and replacement efforts. As part of this long-term strategy, the City recently completed Phase 1 of the Downtown Water Main Replacement Project and is preparing to begin Phase 2. This next phase will replace approximately three miles of aging water infrastructure, further strengthening system reliability and reducing water loss.

In combination, these measures and projects employed to identify and reduce system leakage offer the City a comprehensive and proactive approach to the reduction of lost water supply.

9.2.7 Water Conservation Program Coordination Staffing Support

In addition to the employees mentioned in Section 9.2.1, the City employs other individuals as members of the City's internal water conservation program team. Member qualifications include Certified Landscape Irrigation

Auditor (CLIA) certification, Water Distribution Operator D-2 certification, and extensive irrigation system management experience.

In compliance with DWR's UWMP guidelines, the cull contact information for the City's Water Conservation Administrator is listed below:

Bobby Alvarez
Water Conservation Administrator
City of Roseville, Environmental Utilities Department
916-746-1710 (office)
BAlvarez@roseville.ca.us

9.3 Other Demand Management Measures

In addition to the six DMMs described above, the City also implements the following programs:

- Residential Water Wise House Calls
- Residential HET Replacement Program
- Residential Cash for Grass Rebates
- Commercial Irrigation Water "Budgets"
- Commercial Irrigation Audit
- Commercial Cash for Grass Rebates
- Commercial Custom Rebate
- Commercial Irrigation Improvements Rebates
- Commercial Food Service Water Efficiency Rebates
- Commercial Landscape Water Use Reviews
- Commercial Interior Water Use Audits
- Commercial HET Replacement Program

These programs are described in Section 9.3.

9.3.1 Residential Conservation Programs

The City implements several programs to reduce the consumption of water to its residents. The activities of these various programs are described in the following subsections. Implementation of these programs is expected to help the City achieve its water use targets by reducing the amount of water consumed by its residential customers.

9.3.1.1 Water Wise House Calls

The City provides a free home water use inspection service known as the Water Wise House Call Program. Inspections are conducted by trained water conservation technicians and help identify potential water savings for the customer.

Single-family inspections are approximately one hour in length and consist of an indoor and outdoor evaluation. During the interior portion of the inspection, the technician measures flow rates of existing plumbing fixtures

(offering high-efficiency alternatives if necessary), checks all fixtures and appliances for leaks, and provides information on the City's currently available rebate programs (further described in Sections 9.2.2, 9.2.3, and 9.2.4).

Following the indoor evaluation, the technician then conducts an outdoor inspection. A typical outdoor inspection tests sprinkler system efficiency, distribution uniformity, pool equipment, as well as an evaluation for leaks via pressure test. Following the sprinkler test, soil moisture probes are utilized to optimize irrigation scheduling through adjustment of the residence's irrigation controller.

Finally, water use information is reviewed, and the customer is provided with suggested corrective actions, information regarding the City's rebate programs, and educational material on how to further water conservation.

In addition to local advertising, Water Wise House Calls are actively marketed to customers with higher than average water use by the City's Water Efficiency Division. In 2020, modifications were made to this program to adhere to recommended safety procedures in consideration for the global health crisis caused by COVID-19. Adjusted Water Wise House Calls continue to be conducted in a safe manner for both residents and City employees.

9.3.1.2 Residential High Efficiency Toilet (HET) Replacement Program

The City first established a HET rebate program in 2008. Residents can receive up to $100 for replacing an older (pre-1992), non-conserving toilet with a new 1.28 or less gallon per flush model. Rebates are offered on a first come/first service basis to customers on an annual basis, and the program is advertised regularly on bill inserts, conservation articles, newsletters, and the City's website. Customers can also obtain an application by request through the mail or at special events and City office public counters.

9.3.1.3 Residential Cash for Grass

In 2008, Roseville created a turf replacement program titled "Cash for Grass" that provides incentive for customers to replace their turf with water efficient landscaping. Turf is purchased at $1.50 per square foot up to $2,000 per residential site. To comply, participants must not only remove their turf but also install a low-volume irrigation system to irrigate their new water efficient landscape.

9.3.2 Commercial, Industrial, Institutional Conservation Programs

The City implements several programs to reduce the consumption of water to its commercial, industrial, and institutional customers. The activities of these various programs are described in the following subsections. Implementation of these programs is expected to help the City reduce the amount of water consumed by its non-residential customers.

9.3.2.1 Irrigation Water "Budgets"

The City has developed water "budgets" for every dedicated irrigation account (including those owned by the City). These budgets were created using the City's geographical information system (GIS) to determine irrigated landscape area and then field verified for accuracy. Landscape Water Budget Site Reports, produced for customers and included in their normal water bill for a period of 12 months, allow customers to see how their water usage and costs change from month to month allowing them enough time to modify irrigation practices before actual billing on a tiered metered rate structure begins. The proposed 3-tiered rate structure provides an incentive for

customers to stay within their established water budget and a dis-incentive if they use more than their established water budget.

9.3.2.2 Irrigation Audit

Similar to Water Wise House Calls, the City provides a free landscape audit service for irrigation customers upon request. Staff evaluates the irrigation system and makes recommendations for improvement. Rebates are available to further incentivize the customer to make improvements to their irrigation systems.

The City will continue to implement this program and will consider expansion based on the past years' participation.

9.3.2.3 Commercial Cash for Grass

Similar to the Residential Cash for Grass Program, the City offers rebates to commercial customers for replacing turf with water efficient landscaping. Commercial customers can receive $2.00 per square foot.

9.3.2.4 Commercial Irrigation Improvement Rebates

The City offers a suite of rebate opportunities for commercial irrigation customers including for conversion to drip irrigation, high efficiency nozzles, self-adjusting controllers, pressure regulators, as well as installation of irrigation submeters for a total potential rebate value of $15,000 during any fiscal year for those who meet the established criteria for their projects. Applications for these rebates are easily accessed through the City's website with clear outlines of qualifying equipment and labor for ease of submission.

9.3.2.5 Commercial Food Service Water Efficiency Rebates

The City also offers a series of rebates available to commercial customers in the food service industry through which they can apply for applicable benefits on the purchase and replacement of cooking appliances (steamers and combination ovens), sanitation equipment (dishwashers), as well as refrigeration equipment (ice machines) with improved efficiency.

9.3.2.6 Customized Rebate Program

In addition to the above rebates, the Customized Rebate Program helps commercial, industrial, and institutional customers save money with financial incentives on capital expenditures for retrofit of existing equipment with more water-efficient technologies. This program applies to hardware upgrades including equipment and technology for space cooling, refrigeration, laundry, cleaning, and flushing. The customized rebate amount is derived by measuring current usage of the process compared to the water usage of the new retrofitted process. Water savings are estimated using the number of days operated per year and the expected life of the equipment (capped at 10 years). The total amount of water saved is rebated at $0.50 per 100 cubic feet. Rebates will be paid on a first-come, first served basis until program funds are depleted.

9.3.2.7 Commercial Interior Water Use Audit

The Commercial Interior Water Use Audit assists commercial properties in lowering water, wastewater, and energy costs. A facility review identifies equipment inefficiencies and provides a detailed report of all inefficiencies and corresponding recommendations.

9.3.2.8 Commercial High Efficiency Toilet Replacement Program

Similar to the Residential High Efficiency Toilet Replacement Program, commercial customers can receive up to $200 for replacing an older (pre-1992), non-conserving toilet with a new 1.28 or less gallon per flush model.

9.4 Planned Implementation to Achieve Water Use Targets

In most instances, helping customers understand the savings that can be achieved and methods available to achieve these savings is enough to motivate change. Through the above DMMs, the City can help customers identify these savings, which in turn helps the City to achieve its water use targets. Additionally, the City will continue to work with the Parks Department, area school districts, landscape contractors, and property managers to improve water use efficiency.

9.5 Non-Functional Turf (AB 1572)

In 2023, California enacted Assembly Bill (AB) 1572 to reduce the wasteful use of potable (drinking) water and support state policies on water conservation and climate change. The law prohibits using potable water to irrigate nonfunctional turf (NFT) on commercial, industrial, and institutional (CII) properties and common landscape areas of Homeowners Associations (HOAs) starting in 2027. Turf is living ground cover surface of mowed grass (also called lawn, turfgrass or grass). Artificial turf, which is made of synthetic material and not irrigated, is excluded from this law. Artificial turf is used in sports arenas, residential lawns, and various commercial applications.

Functional turf is turf located in recreational areas or community spaces. Examples include:

- Sports fields (soccer, baseball, etc.)
- School recreation areas (playgrounds, running tracks, etc.)
- Areas regularly used for civic or community events (city parks, event centers, etc.)

Nonfunctional turf is turf used only for decoration with no regular recreational or civic use. As a general rule, turf that is accessed only for mowing is likely nonfunctional turf. Examples include:

- Decorative lawn not used for recreation, civic, and/or other community events
- Turf enclosed by fencing or other barriers to permanently block human access for recreation or assembly
- Turf in street rights-of-way and parking lots

The law does not ban turf—it prohibits using potable water on nonfunctional turf. Functional turf may still be irrigated with potable water, and nonfunctional turf may still be irrigated with recycled water. The law allows for the irrigation of trees located in nonfunctional turf with potable water as needed for the health of trees and other perennial non-turf plantings. The new law will be phased in over five years, starting in 2027, based on the type of property. The deadlines in COR Table 9-B are the compliance dates, which means the applicable property must stop irrigating nonfunctional turf with potable water by that date and may not irrigate with potable water in the future. AB 1572 does not apply to private residential properties. This is a permanent prohibition.

COR Table 9-B AB 1572 Compliance Dates

Property Type	Compliance Date
State/local government, local and regional public agencies, public water systems	January 1, 2027
All other institutional, commercial, and industrial properties (not described above)	January 1, 2028
HOA common areas, common interest developments and community service organizations, or similar entities	January 1, 2029
Government/public water system properties in disadvantaged communities	January 1, 2031, or when funding is available to convert NFT, whichever is later

The City is applying focused effort toward compliance with AB 1572 through a comprehensive set of initiatives focused on the removal of non-functional turf. The Parks Division is actively collaborating with other City departments to remove non-functional grass in public areas, administrative buildings, and library grounds, while planning the replacement of ornamental grass strips along City-maintained streets and parking lots. To encourage broader participation from residents and businesses, the City has boosted rebate programs with a tiered incentive structure offering $1.50 per square foot for standard turf removal and a higher $3.00 per square foot for small or narrow areas (under 10 feet wide), which frequently qualify as non-functional turf. Complementing these financial incentives, the Water Wise House Calls program provides approximately 1,000 free on-site consultations each year to help property owners identify non-functional turf and develop compliant retrofit plans. The City has expanded commercial engagement by hiring additional staff to support local businesses with reporting requirements and compliance strategies. These efforts are further supported by the WaterSmart Plant List, an official database on the City's website of low-water-use plants well-suited to the region's climate.

9.6 Members of the California Urban Water Conservation Council

In 1991 (amended September 16, 1999), a memorandum of understanding (MOU) regarding urban water conservation in California was made that formalizes an agreement between DWR, water utilities, environmental organizations, and other interested groups to implement Best Management Practices (BMPs) and make a cooperative effort to reduce the consumption of California’s water resources. This MOU is administered by the California Water Efficiency Partnership (CalWEP).

In 1991, Roseville became a voluntary signatory of CalWEP’s MOU (formerly the California Urban Water Conservation Council or CUWCC). Since becoming a signatory to the MOU, the City has implemented and promoted its water use efficiency programs to help customers reduce water demand. The City reports to CalWEP on its coverage of the recommended BMPs on a calendar year basis.

The Urban Water Management Planning Act (Water Code Section 10631 (j)) allows for an urban retail water agency that is a signatory member of CalWEP to meet the DMM requirements by documenting that CalWEP has determined the urban water agency is complying (coverage) with all of the provisions of the MOU. Documentation of the City’s compliance is provided in Appendix P.

Chapter 10 Plan Adoption and Submittal

This chapter provides information regarding the notification, public hearing, and adoption of the plan.

10.1 Inclusion of all 2025 Data

If a water supplier bases its accounting on a fiscal year (July through June) the data contained in the UWMP must be through the end of the 2025 fiscal year (June 2025). If the water supplier bases its accounting on a calendar year, the data must be through the end of the 2025 calendar year (December 2025).

As indicated in Chapter 1, the City uses a calendar year for the water supply and demand accounting, and therefore this 2025 UWMP includes data through December 2025.

10.2 Notice of Public Hearing

The City provided 60-day notice of the preparation of its 2025 UWMP, and the notice of the 2025 UWMP Public Hearing to the cities and counties listed in DWR Table 10-1.

DWR Table 10-1

Submittal Table 10-1 Retail: Notification to Cities and Counties Water Code Section 10621(b) and 10642		
City Name	60 Day Notice **Drop Down (yes/no)**	Notice of Public Hearing **Drop Down (yes/no)**
City of Roseville	Yes	Yes
City of Sacramento	Yes	Yes
County Name **Drop Down List**	60 Day Notice **Drop Down (yes/no)**	Notice of Public Hearing **Drop Down (yes/no)**
Placer County	Yes	Yes
Sacramento County	Yes	Yes

Other agencies notified included the following:

- California American Water
- Citrus Heights Water District
- Placer County Water Agency
- Regional Water Authority
- San Juan Water District
- Sacramento Municipal Utilities District
- Sacramento Suburban Water District
- US Bureau of Reclamation

Public hearing notifications for adopting the Plan will be published in the local newspaper (Roseville Press Tribune) and on the City's website. A copy of the published Notice of Public Hearing is included in Appendix B.

10.3 Public Hearing and Adoption

The City has encouraged community and public interest involvement in the Plan update through the use of public meetings and web-based communication. Copies of the City's outreach efforts are included in Appendix B.

On June 17, 2026, public hearings for the Urban Water Management Plan and Water Shortage Contingency Plan will be held. The public hearings provide an opportunity for all City water users and the public to become familiar with the Urban Water Management Plan and Water Shortage Contingency Plan and to ask questions about the plan's contents. In addition, the hearings present an opportunity for the public to learn about or comment on the City's continuing plans for providing a reliable, safe, high-quality water supply. Copies of the draft Urban Water Management Plan and Water Shortage Contingency Plan will be made available for public inspection on the City's website in advance of the public hearings.

Following the public hearings, adoption hearings for the Urban Water Management Plan and Water Shortage Contingency Plan will be held on June 17, 2026, for adoption by City Council in separate resolutions. A copy of the adoption resolution for the 2025 Urban Water Management Plan will be provided in Appendix Q.

The adopted Water Shortage Contingency Plan will be included as Appendix M of this Urban Water Management Plan and a copy of the adoption resolution will be provided in Exhibit C of the Water Shortage Contingency Plan.

10.4 Plan Submittal

A copy of the 2025 UWMP will be submitted to DWR within 30 days of adoption and by July 1, 2026. The adopted UWMP will be submitted electronically to DWR using the California Urban Water Use Efficiency (WUE) data submittal tool. A CD or hardcopy of the adopted 2025 UWMP will also be submitted to the California State Library.

No later than 30 days after adoption, a copy of the adopted 2025 UWMP, including the Water Shortage Contingency Plan, will be provided to the cities and counties to which the City provides water.

10.5 Public Availability

No later than 30 days after submittal to DWR, copies of this 2025 UWMP will be available for public review at the City's public offices. An electronic copy of this Plan will also be available for review and download on the City's website: www.roseville.ca.gov/UWMP.

10.6 Public Implementation

This Plan will be the source document for any Senate Bill 610 Water Supply Assessment or Senate Bill 221 Water Supply Verifications required for any proposed projects between 2026 and 2030 that are subject to the California Environmental Quality Act (CEQA) and would demand an amount of water equivalent or greater than the amount of water by a 500-dwelling unit project. This Plan will also be the source document for water demand projections and water supply availability. Lastly, this Plan will provide guidance and direction on development of new local supplies and implementation of water conservation programs and recycled water expansion to meet the requirements of the Water Conservation Act and the "Making Conservation a California Way of Life" regulatory framework.

10.7 Amending an Adopted UWMP

If the City amends its 2025 UWMP or the Water Shortage Contingency Plan contained therein, copies of amendments or changes to the plans will be submitted to DWR, the California State Library, and any city or county within which the supplier provides water supplies within 30 days after adoption.

10.8 California Water Code Requirements

Demonstration of compliance with all applicable requirements of the California Water Code pertaining to Urban Water Management Plan and Water Shortage Contingency Plan is provided in Appendix R. Appendix R was developed based on the UWMP Checklist provided in the Guidebook and is organized by subject.

RE: City of Roseville 2025 Urban Water Management Plan Demand Projections

Dear Mr. Lessard:

We sent a notice earlier this year to inform you that the City of Roseville (City) Water Utility had begun preparation of the 2025 Urban Water Management Plan. In accordance with California Warter Code Section 10631, as the City is a retail water supplier receiving water from your agency, we have provided you with projected water use through 2045 in the table below. The City plans to make full beneficial use of each year's allotments.

Supply Source	2030	2035	2040	2045
US Bureau of Reclamation	32,000 AF	32,000 AF	32,000 AF	32,000 AF

A complete draft of the 2025 Urban Water Management Plan, which is inclusive of the updated Water Shortage Contingency Plan, can be accessed at www.roseville.ca.gov/UWMP. A public hearing of the Water Shortage Contingency Plan and Urban Water Management Plan will be held on June 17th at 6:00 pm. We encourage you to attend the public hearing which will be held at the first floor of the Electric Building at 116 South Grant Street, Roseville, CA 95678. For information regarding the meeting and providing public comment please visit the City's website at https://www.roseville.ca.gov/administration/city_council/index.php.

Should you wish to contact the City regarding either of the plans, you may do so by writing or emailing to the undersigned below. Thank you.

Sincerely,

George Hanson

Based on the information provided, audit reliability can be most improved by addressing the following components:

1: Volume from Own Sources (VOS)

2: Customer Metering Inaccuracies (CMI)

3: Billed Metered (BMAC)

KEY PERFORMANCE INDICATOR TARGETS:

OPTIONAL: If targets exist for the operational performance indicators, they can be input below:

Unit Total Losses:		gal/conn/day
Unit Apparent Losses:		gal/conn/day
Unit Real Losses[^]:		gal/conn/day
Unit Real Losses[=]:		gal/mile/day

If entered above by user, targets will display on KPI gauges (see Dashboard)

AUTHORIZED CONSUMPTION: 27,885.320 Acre-ft/Yr

WATER LOSSES

1,662.780 Acre-ft/Yr

Apparent Losses

Default option selected for Systematic Data Handling Errors, with automatic data grading of 3

							choose entry option:		
SDHE	Systematic Data Handling Errors:	n	g	3	68.530	Acre-ft/Yr	0.25%	default	
CMI	Customer Metering Inaccuracies:	n	g	3	277.155	Acre-ft/Yr	1.00%	percent	under-registration
UC	Unauthorized Consumption:	n	g	3	68.530	Acre-ft/Yr	0.25%	default	

Default option selected for Unauthorized Consumption, with automatic data grading of 3

Apparent Losses: 414.215 Acre-ft/Yr

Real Losses

Real Losses: 1,248.565 Acre-ft/Yr

WATER LOSSES: 1,662.780 Acre-ft/Yr

NON-REVENUE WATER

NON-REVENUE WATER: 2,136.100 Acre-ft/Yr

SYSTEM DATA

Lm	Length of mains:	n	g	10	690.0	miles	(including fire hydrant lead lengths)
Nc	Number of service connections:	n	g	8	49,482		(active *and* inactive)
	Service connection density:				72	conn./mile main	

Are customer meters typically located at the curbstop/property line? Yes

Lp n g 10

Average length of customer service line has been set to zero and a data grading of 10 has been applied

AOP Average Operating Pressure: n g 9 83.5 psi

COST DATA

CRUC	Customer Retail Unit Charge:	n	g	10	$6.68	$/100 cubic feet (ccf)	Total Annual Operating Cost	
VPC	Variable Production Cost:	n	g	8	$118.21	$/acre-ft		$/yr (optional input)

WATER AUDIT DATA VALIDITY TIER:

***** The Water Audit Data Validity Score is in Tier IV (71-90). See Dashboard tab for additional outputs. *****

go to dashboard

A weighted scale for the components of supply, consumption and water loss is included in the calculation of the Water Audit Data Validity Score

PRIORITY AREAS FOR ATTENTION TO IMPROVE DATA VALIDITY:

Based on the information provided, audit reliability can be most improved by addressing the following components:

1: Volume from Own Sources (VOS)

2: Customer Metering Inaccuracies (CMI)

3: Billed Metered (BMAC)

KEY PERFORMANCE INDICATOR TARGETS:

OPTIONAL: If targets exist for the operational performance indicators, they can be input below:

Unit Total Losses:		gal/conn/day
Unit Apparent Losses:		gal/conn/day
Unit Real Losses[^]:		gal/conn/day
Unit Real Losses[^]:		gal/mile/day

If entered above by user, targets will display on KPI gauges (see Dashboard)

Water Audit Report for: City of Roseville (CA3110008)
Reporting Year: 2021 1/2021 - 12/2021

Please enter data in the white cells below. Where available, metered values should be used; if metered values are unavailable please estimate a value. Indicate your confidence in the accuracy of the input data by grading each component (n/a or 1-10) using the drop-down list to the left of the input cell. Hover the mouse over the cell to obtain a description of the grades

All volumes to be entered as: ACRE-FEET PER YEAR

To select the correct data grading for each input, determine the highest grade where the utility meets or exceeds all criteria for that grade and all grades below it.

Master Meter and Supply Error Adjustments

WATER SUPPLIED

Based on the information provided, audit accuracy can be improved by addressing the following components:

1: Volume from own sources
2: Variable production cost (applied to Real Losses)
3: Billed metered

Appendix E – SWRCB Calculated Water Loss Standards

The California State Water Resources Control Board's (SWRCB) calculated water loss standards can be accessed at the link below.

https://view.officeapps.live.com/op/view.aspx?src=https%3A%2F%2Fwww.waterboards.ca.gov%2Fconservation%2Fdocs%2Fwaterlosscontrol%2Fstandards-released.xlsx&wdOrigin=BROWSELINK

Appendix F – 2015 SBX7-7 Verification Form

SB X7-7 Table 0: Units of Measure Used in UWMP* *(select one from the drop down list)*
Acre Feet
**The unit of measure must be consistent with Table 2-3*
NOTES:

SB X7-7 Table-1: Baseline Period Ranges			
Baseline	**Parameter**	**Value**	**Units**
10- to 15-year baseline period	2008 total water deliveries	34,052	Acre Feet
	2008 total volume of delivered recycled water	2,985	Acre Feet
	2008 recycled water as a percent of total deliveries	8.77%	Percent
	Number of years in baseline period[1, 2]	10	Years
	Year beginning baseline period range	1995	
	Year ending baseline period range[3]	2004	
5-year baseline period	Number of years in baseline period	5	Years
	Year beginning baseline period range	2003	
	Year ending baseline period range[4]	2007	

[1] If the 2008 recycled water percent is less than 10 percent, then the first baseline period is a continuous 10-year period. If the amount of recycled water delivered in 2008 is 10 percent or greater, the first baseline period is a continuous 10- to 15-year period. *[2] The Water Code requires that the baseline period is between 10 and 15 years. However, DWR recognizes that some water suppliers may not have the minimum 10 years of baseline data.*

[3] The ending year must be between December 31, 2004 and December 31, 2010.

[4] The ending year must be between December 31, 2007 and December 31, 2010.

NOTES:

Appendix H – Intent to Retain Control of Conserved Water

RESOLUTION NO. 09-64

DECLARING AN INTENT TO RETAIN CONTROL OF CONSERVED WATER

WHEREAS, the City has contractual entitlements to divert water from Folsom Reservoir, under which the City diverts and treats water for distribution to its residents and water users; and

WHEREAS, the City plans to implement a series of water conservation projects and programs for the purpose of eliminating losses of water within its water transmission and distribution system and for reducing consumption of water by its customers through on-site efficiency improvements and curtailment of water waste; and

WHEREAS, Water Code section 1011 provides that water is deemed conserved when less water is used to accomplish the same purposes of use allowed under a water right and that such cessation or reduction in use is deemed a beneficial use of a water right to the extent of such cessation or reduction in use; and

WHEREAS, Water Code section 1011 and the City's CVP water service contract authorizes the City to make water conserved as a result of such water conservation projects and programs available for use, sale, lease, exchange or short- or long-term transfers inside and outside of the City; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville as follows:

1. The foregoing recitals are true and are incorporated into this Resolution by this reference.

2. The City Council finds and determines that: (a) making significant investments in infrastructure and administrative resources protects the City's water supplies for the benefit of all residents and water users in the City; (b) protecting all of the City's water supplies is of paramount importance to the health and welfare of the City's residents and water users; (c) conserving water through reductions in use is intended to promote statewide policies mandating and encouraging beneficial use of water; and (d) preserving conserved water supplies and making those supplies available for use, sale or transfer is in the best interests of the City and its residents and water users.

3. The City Council declares that, by instituting programs to conserve water, it abandons no right, title or interest in or to any City water rights, contractual entitlements or any appurtenant rights necessary to exercise such water rights or entitlements.

4. In accordance with Water Code section 1011 and any contractual rights, the City reserves the right to sell, lease, exchange, or otherwise transfer for use within or outside of the City's boundaries all water that has been conserved as a result of its water conservation projects and programs.

5. The Environmental Utilities Director and staff are directed to take all actions necessary to implement this Resolution, including the filing of annual reports of reductions in water use resulting from any water conservation projects and programs carried out under this Resolution with the State Water Resources Control Board.

PASSED AND ADOPTED by the City Council of the City of Roseville on the 18th day of February 2009, by the following vote:

AYES COUNCILMEMBERS: Allard, Gray, Garcia, Roccucci, Garbolino

NOES COUNCILMEMBERS: None

EXECUTIVE SUMMARY

This report presents the findings of the Recycled Water Systems Evaluation (Systems Evaluation) for the City of Roseville (City). The objectives of the Systems Evaluation include documenting an updated assessment of the system's supplies and demands to determine recycled water infrastructure needed to supply potential future customers and UGAs. Additionally, this report details an implementation plan. The document includes recommended improvements for the City's existing system to address anticipated future demands and identifies the location of connections for those future demands. Sizing and alignments of future piping to serve these new demands is not evaluated in this report and is left flexible to accommodate evolving development plans for future service areas

ES-1. Existing System

The City of Roseville operates a recycled water distribution system supplied by two wastewater treatment plants (WWTPs), as shown in **Figure ES- 1**. Future development is anticipated in several Urban Growth Areas (UGAs), which will significantly increase the demand for recycled water; these UGAs are also identified in **Figure ES- 1**.

ES-2. Recycled Water Supplies

The City's recycled water system is supplied by both the Dry Creek Wastewater Treatment Plant (DCWWTP) and the Pleasant Grove Wastewater Treatment Plant (PGWWTP). Existing supply SCADA data provided by the City and future supply projections provided by the City on behalf of SPWA partner agencies were reviewed and compared to existing demands and future demand projections.

ES-2.1 Existing Supplies

Effluent flow data for the Dry Creek WWTP from 2020 through 2022 was assessed as part of the DCWWTP Capacity Capital Analysis Draft TM[1] to estimate an Average Dry Weather Flow (ADWF) of 8.60 mgd. As part of a similar study currently in progress, 2023 effluent flow data for the Pleasant Grove WWTP was assessed to estimate an ADWF of 8.49 mgd. 24-hour diurnal patterns for influent and effluent flow were developed and compared based on the provided SCADA data. A four-hour lag was noted between influent and effluent peaking factors. The hourly influent data was lagged by four hours and used to represent the diurnal pattern for available supply from each treatment plant. Resulting peaking factors are provided in **Figure ES-2.**

FIGURE ES- 2 PGWWTP AND DCWWTP SUPPLY PATTERNS

ES-2.2 Projected Supplies

Future plant sewage flows were projected to the planning horizon of fiscal year 2059-2060 (FY 59/60)[1] and to ultimate buildout conditions, calculated by multiplying Equivalent Dwelling Unit (EDU) projections by the flow contribution per EDU. EDU projections were prepared by the South Placer Wastewater Authority (SPWA) partners and provided to W&C as part of this study in May 2025; the projections generally assume linear growth. Current flow factors are approximately 144 gpd/EDU for PGWWTP and 150 gpd/EDU for DCWWTP. Projected flow factors are 150 gpd/EDU. Potential future flows are presented in **Table ES- 1**. For this analysis, it has been assumed that all influent sewer flows would be available for use as recycled water.

TABLE ES- 1: EXISTING AND PROJECTED WWTP RECYCLED WATER SUPPLIES

	Existing Supply (mgd)	2060 Projected EDU Growth (EDUs)	2060 Projected Supply @ 150 gpd/EDU (mgd)
PGWWTP	8.49	80,566	19.6
DCWWTP	8.60	46,270	14.2
Total	**17.09**	**126,836**	**33.8**

[1]SPWA's fiscal year runs from July 1 to June 30.

ES-3. Recycled Water Demands

The existing recycled water system customers and associated demands were examined and potential future demands from expected customers within the City and from Urban Growth Areas (UGAs) were identified. Recycled water production data was used to verify peaking previously developed in the 2016 Recycled Water System Evaluation Report. Potential future recycled water demand was compared with projections of future wastewater flows to identify potential recycled water supply issues.

ES-3.1 Existing Demands

Existing recycled water customers were identified through review of prior studies, discussions with City staff, and the City's billing records. Billing data from 2017 to 2022 was collected and analyzed to determine average annual demands for each customer. This data was used to add new customers whose service began after August 2019 (customers added before August 2019 were already included in the model as part the 2020 Model Report model update). Including these additional customers, annual average demands were estimated to be approximately 3.8 mgd.

A summary of the ten largest demand customers is included in **Table ES- 2**. Locations of the existing customers are shown in **Figure ES- 3**. In addition to the customers shown in **Figure ES- 3**, DC WWTP is required to discharge a minimum of 4 mgd to Dry Creek to maintain a year round flow in the creek per California Department of Fish and Wildlife (CDFW) requirements. Note that there is no specific minimum instantaneous flow requirement for this flow into Dry Creek, just a minimum requirement of 4 million gallons over the course of the day.

TABLE ES- 2: SUMMARY OF EXISITNG CUSTOMERS

Customer Name	Customer Type	On-Site Storage (Yes/No)	Zone	Annual Average Demand[a] (AFY)	Average Day Demand (MGD)	Peak Day Demand[b] (gpm)

ES-3.2 Future Demands

Potential future customers include near-term potential recycled water customers identified by the City and Urban Growth Areas (UGAs). Potential future customer locations are shown in **Appendix A** and were identified based on the review of existing recycled water study reports, discussions with City staff, and review of development master plans. Peaking factors used for existing customers were also used to calculate peak day demand for potential future customers.

Near-term potential customers were identified through a review of prior studies. The largest near-term potential customers (not including UGAs,) include the Hewlett Packard Enterprise campus and the Campus Oaks Apartments. Once all customers are on-line, the annual demand for near-term potential customers is projected to be 2,360 AFY, with a peak day demand of 5.27 mgd.

The City of Roseville is anticipating the eventual connection of eight UGAs. Four of these UGAs (Sierra Vista/Westbrook, Creekview, Amoruso Ranch and the West Roseville Specific Plan) are within current City limits and are partially developed. Total existing and anticipated buildout demands for these areas are shown in **Table ES- 3**.

TABLE ES- 3: URBAN GROWTH AREA POTENTIAL DEMANDS

UGA	Potential Service Zone	Within City Limits	Existing Average Day Demand (mgd)	Buildout Average Day Demand (mgd)	Buildout Peak Day Demand (gpm)	Assumed Initial Connection Date[a]
Sierra Vista /Westbrook[b]	West	Yes	0.41	0.96	1,390	2020
Amoruso Ranch[c]	West	Yes	0	0.22	389	2025
Creekview[d]	West	Yes	0.05	0.10	174	2020
West Roseville Specific Plan[e]	West	Yes	1.34	2.02	3,507	2020
Regional University[f]	West	No	0	0.59	1,031	2030
Placer One / Sunset Industrial Area[g]	North	No	0	0.34	1,451	2025
Placer Vineyards[f]	Gravity	No	0	1.44	2,505	2030
Riolo Vineyards[f]	Gravity	No	0	0.37	639	2030

Footnotes:

a. For purposes of phasing, it was assumed that implementation of full demand would occur over 8 years from the initial connection date. Developments with existing demands were assumed to have been connected to the system by 2020. Note that the initial connection date may not represent the beginning of UGA development.

d. Creekview Specific Plan, March 2022
e. Recycled Water Study for West Roseville Specific Plan Area, May 2003
f. Based on estimates provided by City staff, 2025
g. Placer One Recycled Water Master Plan, November 2024

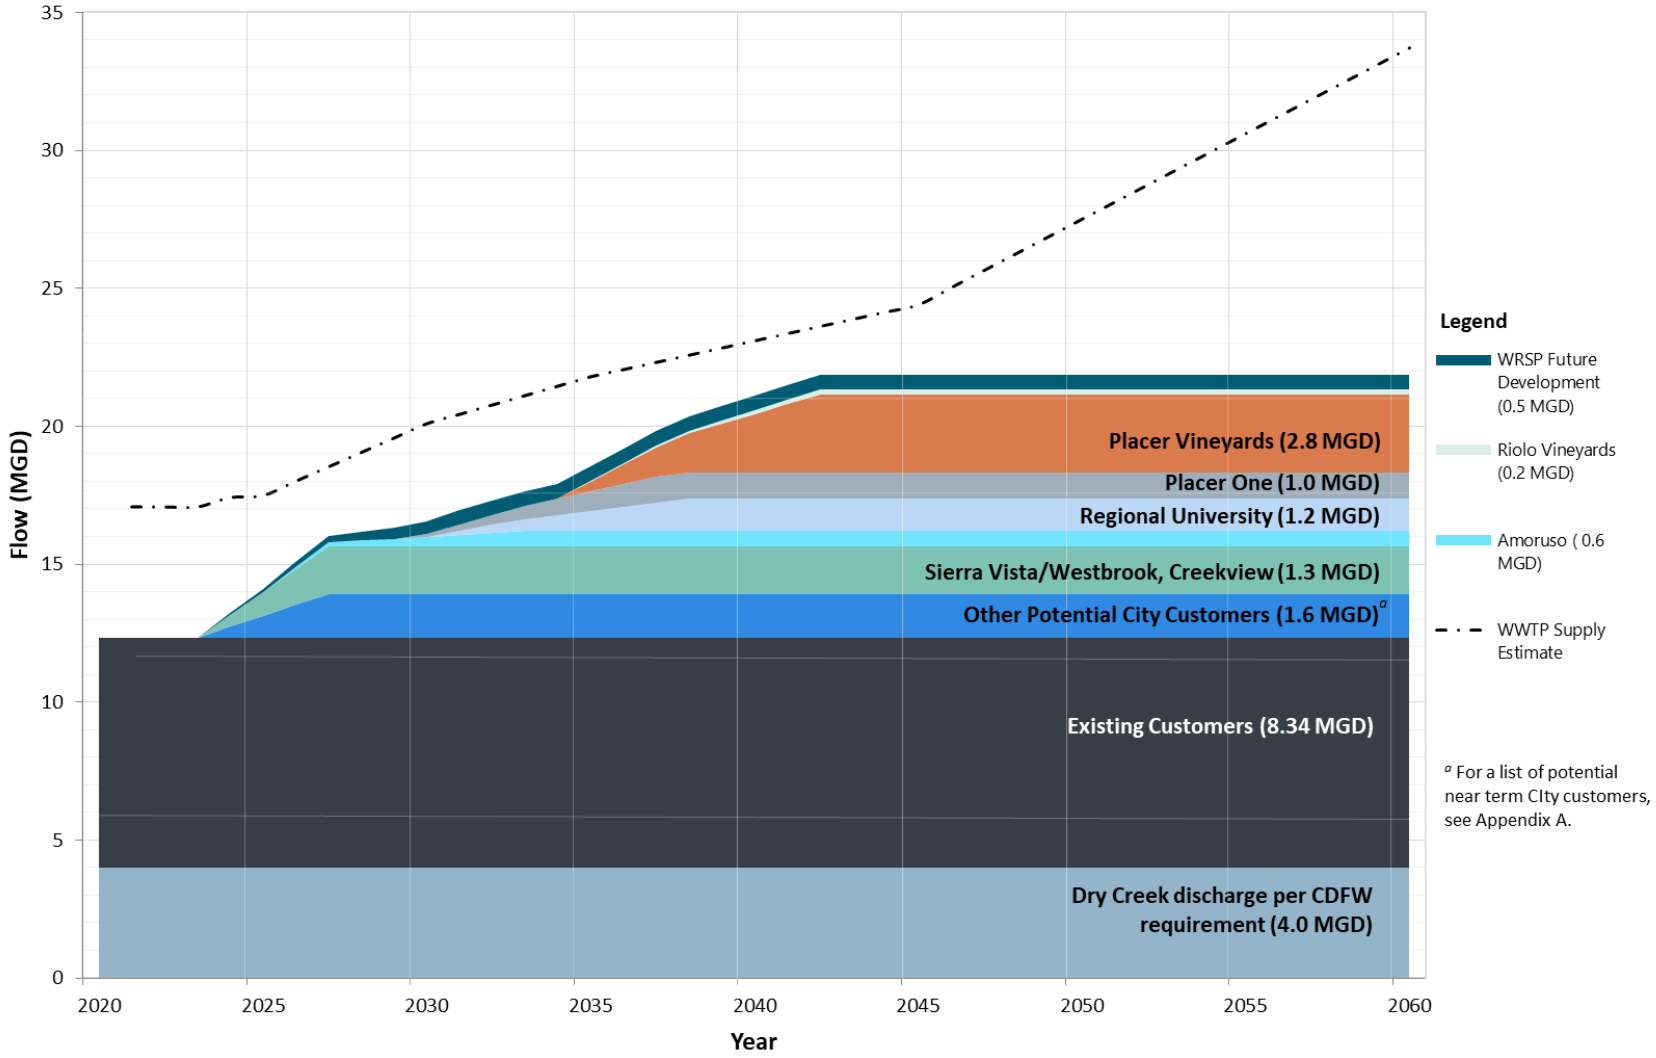
ES-3.3 Comparison of Supply and Demands

A supply and demand comparison was performed over the West Zone, rather than on the individual WWTPs as the system has multiple points of interconnection allowing either WWTP to service the West Zone. Estimated growth in average dry weather flow generated from the entire SPWA sewer service area through 2060 was referenced from updated data provided by the City on behalf of the SPWA partner agencies.

Figure ES- 4 shows the current projections of annual recycled water demand and supply available during maximum day conditions. As shown in the figure, there appears to be sufficient supply to meet anticipated demands. It should be noted, however, that there is significant uncertainty in the timing of growth of both future demands and future supplies. There is also significant uncertainty in the projected demands, as demands for several of the UGAs were based on estimates from several years ago (as indicated in **Table ES- 3**) and likely do not reflect current irrigation practices.

Figure ES- 5 shows anticipated max day buildout demand conditions compared to 2060 supply. While hourly projected supplies are greater than hourly buildout demands, there may still be a need for operational storage (aka daily storage) to shift the available supply of recycled water to the higher evening demand periods when supplies are limited. The City can undertake efforts to manage peak usage and reduce overnight demands, especially with customers that have storage facilities who may be more adept at distributing demands across a day to limit peak hourly usage as much as possible.

FIGURE ES- 4: PROJECTED BUILDOUT MAX DAY SUPPLY AND DEMAND COMPARISON



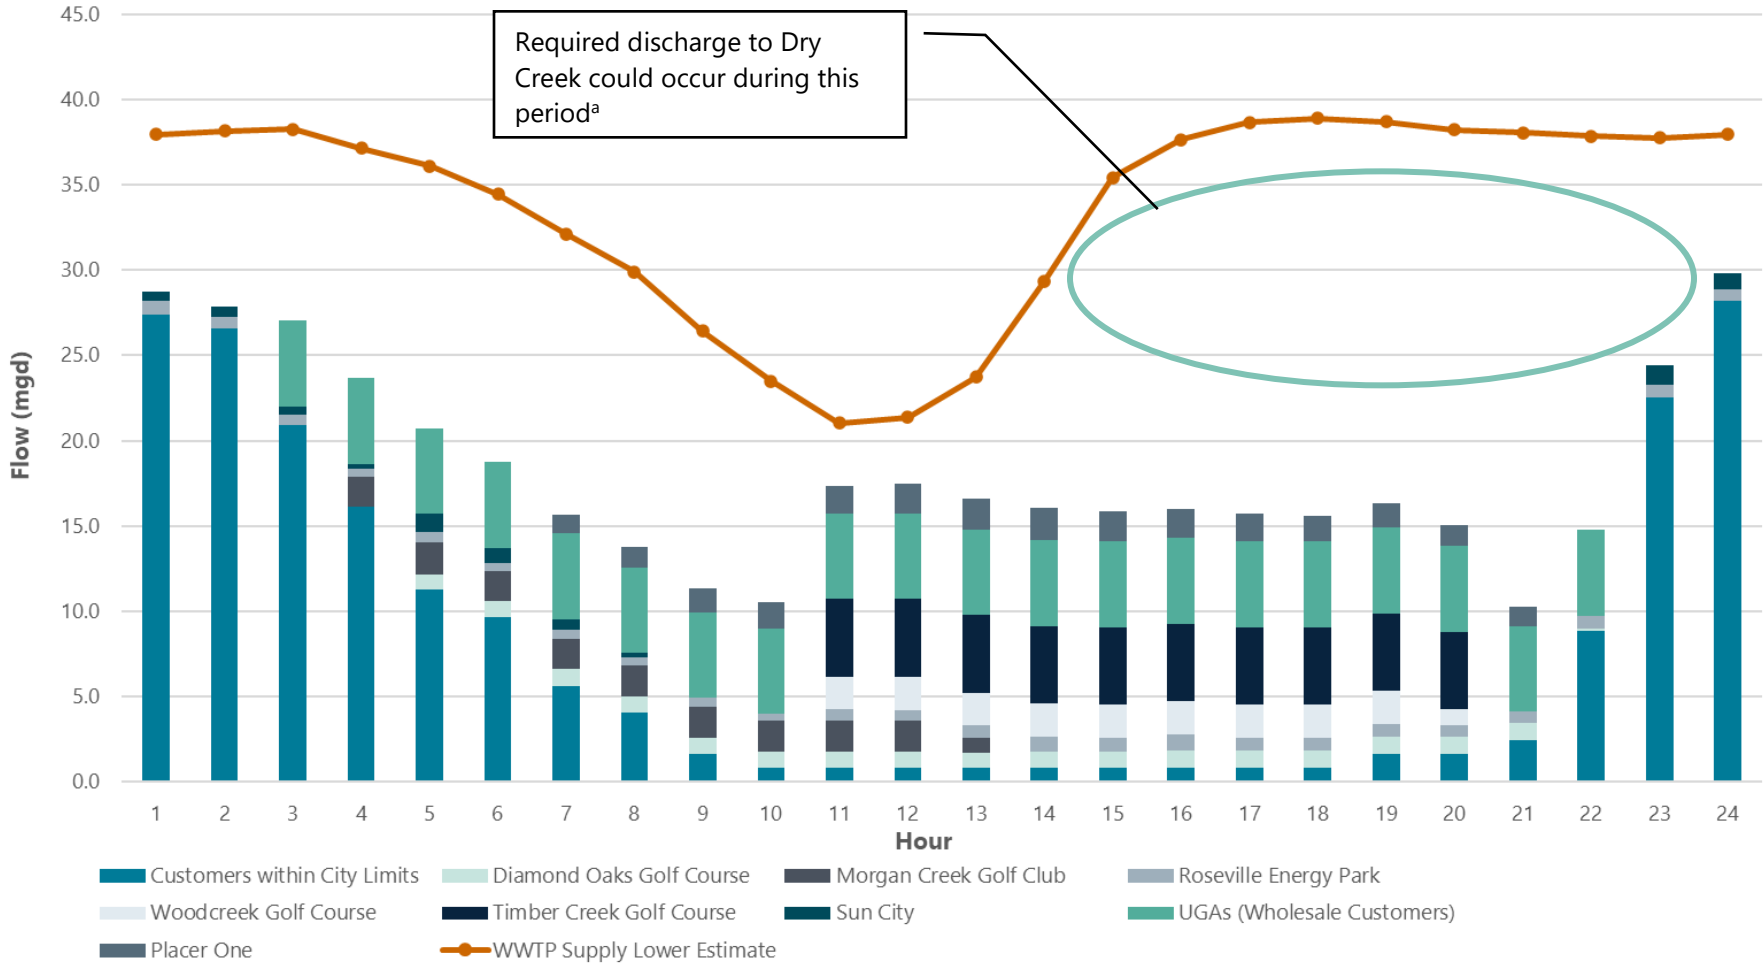


FIGURE ES- 5: HOURLY COMPARISON OF SUPPLY AND DEMANDS BUILDOUT MAX DAY CONDITIONS

Footnote:

a) Discharge to Dry Creek, as required by CDFW, is not included on this plot as City operations staff can elect to discharge the required 4 mgd when it best suits system performance. In the case of the proposed patterns being implemented, this could be between 11am and 11pm.

ES-4. Systems Evaluation

Model scenarios of the City's existing recycled water distribution system were developed. Sizing of new pipes, and evaluation of the capacity of the existing facilities, was performed using the design criteria described in **Section 4.1.1**. Buildout alternatives were evaluated for comparative life cycle costs using the capital and O&M cost criteria described in **Section ES-4.3**.

ES-4.1 Existing System Evaluation

The existing recycled water system was run under existing average day and maximum day demand conditions to assess the system's performance. Node pressures and pipeline velocities were compared to criteria established in **Table 4-1**. **Table ES- 4** summarizes the peak hour operating points of each pump station in the existing system. These peak hour flowrates represent an estimated pump station capacity accounting for pumping against system pressure under design conditions. Pump curves for each pump station are included in **Appendix B**. Based on a comparison of the peak hour flows and pressures against the pump curves shown in **Appendix B**, all existing pump stations have capacity for existing peak flows.

TABLE ES- 4: EXISTING RECYCLED WATER SYSTEM PUMP STATION FLOWRATES AND PRESSURES

Pump Station	Peak Hour Operating Point
Pleasant Grove WWTP	6,585 gpm, 26-ft (11 psi)[a]
West Roseville PS	8 ,725 gpm, 173-ft (75 psi)[a]
Dry Creek WWTP	5,200 gpm, 138-ft (60 psi)[a]

Footnotes:

a. Total Dynamic Head (TDH) modeled directly downstream of the pump station.

Based on these model results, no existing capacity deficiencies have been identified in the West Zone nor the Gravity Zone. However, very little additional demand can be added without resulting in overuse of the West Roseville tanks or inadequate supply from DCWWTP. However, some operational changes can be implemented at low or no cost to increase system capacity. These include: 1) adjusting demand patterns for customers with storage to shift their peak demands off of the system peak demands, 2) increasing the pressure supplied by WRPS, and 3) connecting North Zone tanks and pump station to the system, which are currently offline. Items 1 and 2 provide potential increases in peak day demand as shown in **Table ES- 5**. Item 3 is not presented in **Table ES- 5** as buildout model results discussed in **Section ES-4.2** indicate that the North Zone PS is not required for the buildout system and so is not recommended for rehabilitation at this time.

TABLE ES- 5: EFFECTIVENESS OF OPERATIONAL IMPROVEMENTS

Scenario	Potential Peak Day Demand[a] (MGD)
Existing, No Change	8.7[b]
+ Adjust Demand Patterns	10.4
+ Increase WRPS Supply Pressure	10.9

Footnotes:

a. Represents the maximum peak day demand that could be met while meeting criteria established in **Table 4-1**. Current maximum peak demands are estimated to be 8.34 MGD

b. The model predicts that some customers in the southern part of the system would not meet 40 psi during existing peak day demands at peak hour, due to limitations in available supply at Dry Creek. It is possible that some demand shifting has already occurred to mitigate this deficiency.

ES-4.2 Buildout System Evaluation

Buildout model demands were run with the updated demand patterns as discussed in **Section ES-4.1**. To conservatively determine storage requirement, supply estimates for 2045 were used for modeling purposes to complete the buildout max day model runs. This represents a period of time when anticipated max day demands are closest to projected supplies, projected supplies being approximately 3 MGD. The model was run with North Zone Pump Station offline to determine if the pump station would be required for buildout conditions.

Pipeline Improvements

Under buildout max day demands, existing infrastructure provides system pressures lower than the established criteria. These pressure deficiencies are resolved with improvements to West Roseville Pump Station pumping capacity and "pinch-point" improvements discussed below. Under modeled conditions, North Zone Pump Station could remain offline and system demands could be met at sufficient pressures. However, significant differences between the modeled demand patterns and the actual demand patterns may necessitate the recommissioning of North Zone Pump Station to meet peak demands.

Two projects were identified as "pinch-point" improvements:

1. The existing 24-inch pipeline directly downstream of the WRPS to Westpark Drive. A parallel 24-inch pipeline could be installed to increase the service pressures and capacity throughout the system.

2. The existing 8-inch pipeline on Blue Oaks Blvd between Woodcreek Oaks Blvd and Diamond Creek Blvd. A new 12-inch pipe connecting to the 30-inch main on Woodcreek Oaks Blvd and to the 8-inch main on Prairie Woods Way via Painted Desert Drive would address this deficiency.

Storage Improvements

Storage improvements will also be needed. Operational storage under buildout maximum day conditions is approximately 1.2 million gallons (MG) for the West Zone. **Table ES- 6** presents the storage requirements based on this analysis. **Section ES-5** provides a storage improvement project to enhance buffer storage to accommodate the additional 1.28 MG of required storage based on the analysis below.

TABLE ES- 6: BUILDOUT MAX DAY STORAGE ANALYSIS

Pressure Zone [a]	Customers w/out Storage Buildout MDD (mgd)	Operational Storage Required [b] (MG)	Buffer Storage Required [c] (MG)	Total Storage Required [d] (MG)	Existing Storage (MG)	Potential Required Storage (MG)
West Zone (West Roseville Tanks	8.34	1.19	2.09	3.28	2.0	1.28

Footnotes:

a. The Gravity pressure zone is not included as there are few, if any, customer demands without dedicated storage in this zone.
b. Operational storage requirement is derived from model runs. It is based on assumptions built into the model including pump station controls, PRV settings, and demand patterns presented in this report.
c. Buffer storage required was assumed to be 25% of MDD for customers without dedicated storage for a one-day period.
d. Total required storage = Operational Storage + Buffer Storage.

Pumping Improvements

Before total buildout demands are realized the West Roseville pump station would need to be improved to meet flow and pressure design criteria. Design points for each pump station under buildout max day demand conditions are summarized in **Table ES- 7**. These design points represent the maximum peak hour flowrate and associated total dynamic head under max day conditions with the diurnal patterns applied to the demands. Potential operating points relative to the existing pump curves are shown in **Appendix B**.

TABLE ES- 7: PROPOSED PUMP STATION DESIGN POINTS AT BUILDOUT

Pump Station	Existing MDD Design Point		Buildout MDD Design Point	
	Peak Flowrate (gpm)	Total Dynamic Head (ft)	Peak Flowrate (gpm)	Total Dynamic Head (ft)
PG WWTP PS	6,585	26	10,500	24
West Roseville PS	8,725	173	13,340	162
Dry Creek WWTP PS	5,200	138	6,150	140

ES-4.3 Implementation Plan

Construction cost estimates have been developed to provide planning level estimates of future facility costs. These cost estimates are planning or conceptual level estimates and are considered to have an estimated accuracy range of -30 to +50 percent. This level of accuracy corresponds to a "Class 4" cost estimate as defined by the American Association of Cost Estimators. These estimates are suitable for use for budget forecasting, CIP development, and project evaluations, with the understanding that refinements to the project details and costs would be necessary as projects proceed into the design and construction phases.

Unit capital costs are based on engineering experience and recent bid prices for similar projects. Unit costs are indexed to the March 2025 Engineering News Record Construction Cost Index (CCI). The CCI value used (14,511) was an average of the 20 Cities Average value (13,783) and the San Francisco value (15,239).

ES-5. Project Descriptions

Pipeline improvement projects include projects to alleviate the deficiencies identified in **Section ES-4.2**, as well as projects to improve the reliability of the system through improved interties between pressure zones. Detailed cost estimates can be found in **Appendix C**. The proposed improvements are shown in **Figure ES- 6**.

ES-5.1 Pipeline Improvements

Pipeline improvements are defined below and costs summarized in **Table ES- 8**.

Project B-1 would increase the size of the bypass pipeline from the Pleasant Grove WWTP pumps to the West Zone system from 10-inches to 24-inches. This would improve the City's ability to take the West Roseville Pump Station offline, either to perform maintenance or for efficiency purposes.

Project I-1 would add a 6-inch intertie pipeline between the West Zone and the North Zone at Angus Road and Casa Sedona Drive. This provides two benefits:

- Improves reliability by improving the system's ability to backfeed from the North Zone into the West Zone during low demand periods.
- Improves the City's ability to serve the North Zone directly from either the West Roseville Pump Station or the pumps at the PG WWTP during low demand periods.

Project I-2 would add a 6-inch intertie pipeline between the West Zone and the South Zone at Blue Oaks Boulevard. The intertie provides two benefits:

- Improves reliability by allowing the system to bypass either the West Zone or the North Zone during low demand periods.
- Potentially improves efficiency by improving the City's ability to bypass either the West Roseville Pump Station or DC WWTP pumps during low demand periods.

Project I-3 would add an 8-inch intertie pipeline between the West Zone and the South Zone at Baseline Road and Fiddyment Road. This project would also increase the reliability of the system by improving the system's ability to bypass either the West Roseville PS or the pumps at DC WWTP.

Project I-4 would add a 10-inch intertie pipeline from the end of Project I-3 further south to interconnect the Main Zone with the Gravity System at Walerga Rd and Dry Creek Community Park. This project would increase the reliability of the gravity system by allowing the system to be supplied from the Main Zone if the gravity system supply was limited or taken offline. This intertie will likely not be able to convey max day, peak hour demand conditions to all customers, but under average day conditions it would provide customers with a reasonable level of service pressure for their anticipated demands. However, system performance may vary depending on the season and time of day that the intertie is operated. Under normal operating conditions, this line would be valved out of service.

Project PP-1 would install a parallel 24-inch pipeline between the West Roseville Pump Station (WRPS) and West Park Drive via Phillip Road (approx. 485 LF pipeline). This pipeline would only be needed when velocities in the existing 24-inch pipe exceed design criteria once West Roseville Pump Station improvements are implemented.

Installing the parallel pipeline would improve redundancy for a critical component, as well as allowing greater flexibility for providing system supply during low demand periods directly from the PG WWTP pumps.

Project PP-2 proposes adding a looped pipe in the North Zone pressure zone to relieve a headloss deficiency identified under buildout max day demand conditions. Project PP-2 includes the installation of 1,600 linear feet of a new 12" main from the existing main on Woodcreek Oaks Boulevard, connecting to the existing 8" main on Prairie Woods Way via Painted Desert Drive. This project should be completed before connecting additional customers west of Woodcreek Oaks Boulevard.

Project PP-3 would upsize the existing pipeline from DC WWTP Pumps to the South Zone from a 20-inch to a 30-inch pipe. This project relieves a bottleneck from DC WWTP that contributes to pressure drop in the system. The additional capacity in the system provides necessary pressure improvements under buildout conditions and would allow for greater utilization of the DC CCB recycled water storage.

TABLE ES- 8: PIPELINE AND SUPPLY PROJECTS SUMMARY

Project Number	Project Description	Location	Size	Quantity	Estimated Raw Construction Cost	Estimated Capital Cost[a, b]
Reliability Projects						
B-1	Upsize bypass at West Roseville PS/Pleasant Grove WWTP from 10" to 24"	West Roseville PS	24-in	50-LF	$66,000	$115,000
I-1	Install an intertie between the West Zone and North Zone	Angus Rd and Casa Sedona Dr	6-in	1640-LF	$431,000	$672,000
I-2	Install an intertie between the West Zone and South Zone	Blue Oaks Blvd	6-in	1520-LF	$400,000	$622,000
I-3	Install an intertie between the West Zone and South Zone	Baseline Rd and Fiddyment Rd	8-in	6,700-LF	$1,985,000	$3,097,000
I-4	Install an intertie between West / South Zone and Gravity Zone	Baseline Rd and Walerga Rd	10-in	6,300-LF	$1,885,000	$2,941,000
Reliability Projects Subtotal					**$4,767,000**	**$7,447,000**
Pinch Point Projects						
PP-1	Install 485 LF of parallel 24” pipeline between West Roseville Pump Station and West Park Drive.	Between the WRPS and West Park Drive	24-in	485-LF	$289,000	$451,000
PP-2	Install 1,600 LF of 12” pipeline along Painted Desert Drive and Prairie Woods Way.	Painted Desert Drive and Prairie Woods Way	12-in	1,600-LF	$628,000	$980,000
PP-3	Install 2,530 ilnear feet of 30” pipe from DC WWTP recycled water pumps	DC WWTP Recycled Water Pumps	30-in	2,530-LF	$1,400,000	$2,184,000
Pinch Point Projects Subtotal					**$2,317,000**	**$3,615,000**
Total					**$7,084,000**	**$11,062,000**

Footnotes:

a. Includes implementation costs as described in Section 5.1.

b. Costs in March 2025 dollars

ES-5.2 Pumping Improvements

At buildout, peak flows at the West Roseville pump station will increase from about 8,725 gpm to 13,950 gpm. To achieve buildout flows, it was assumed pumps at West Roseville would be replaced with larger horsepower pumps. To avoid unnecessary operation and maintenance costs, installation of the replacement pumps should be phased to match the projected flow as service connections are added. To maintain operation of 5 duty pumps and 1 standby, three of the existing 150 hp West Roseville Pumps (2 duty and 1 standby) should be replaced with higher capacity pumps (300 hp motor). Note, it is possible that replacement of these pumps with larger pumps is not possible and instead the pump station would have to be modified, or new pump station constructed. This should be studied further to determine a more accurate cost estimate. Additional funds for a pump station alternatives analysis are included in the cost summary presented in **Table ES- 9.**

TABLE ES- 9: PUMP STATION IMPROVEMENTS SUMMARY

Project ID	Installed Pumps / Capacity	Estimated Raw Construction Cost[a]	Estimated Capital Cost[b]
PS-1[c]	Replace three pumps with 300 hp pumps (two duty, one standby) ~13,950 gpm firm pump station capacity	3 new 300 hp pumps: 3 x $564,000 = $1,692,000 Pump Upgrade Alternatives Analysis: $100,000	$3,145,000

Footnotes:

a. Costs basis is March 2025 average of ENR 20 Cities and San Francisco CCI (14,511)
b. CIP Costs include implementation costs as summarized in Section 5.1.
c. Project cost assumes that pump may be replaced within the pump station. The presented value includes funds to perform a pump station alternatives analysis to determine whether an expansion of WRPS would be required. See Section 5.4.1.

ES-5.3 Potential Additional Storage Improvements

The DC WWTP pump station is currently served directly from treated effluent from the plant. There is currently no effective storage located at DC WWTP. This project proposes modifying the existing Chlorine Contact Basins (CCB) at the DCWWTP for use as RW storage basins. Adding storage at DC WWTP would address the anticipated storage deficiency under buildout demands. This also provides a level of operational resilience in the event the DC WWTP needs to be taken offline, there would be some available supply for the recycled water system to utilize from DC WWTP.

A conceptual diagram of the project is shown in **Figure ES- 7** below. The proposed project cost shown in **Table ES- 10** include costs for piping, slide gate, valves, concrete, demolition, and other modifications to provide an additional 1.1 MG of RW storage capacity.

In addition to the recycled water storage provided by conversion of the Dry Creek CCBs an additional 0.18 MG of storage will be needed to provide the City with the operational and buffer storage for max day conditions. Three alternatives could be pursued to address this, however the City should monitor recycled water supplies and demands as new customers are connected to the system. Changes to supply or demand may change the need for or quantity of additional recycled water storage.

- Connect North Zone Tank and Pump Station
    - Connecting North Zone Pump Station and Tank to the system would provide additional storage, however, demands in North Zone are lower than demands in the West Zone and South Zone, so adding storage here does not provide much hydraulic benefit, and would increase O&M costs. Estimated costs to rehabilitate North Zone Tank and Pump Station are presented in **Table ES- 10** for informational purposes**.**
- Rehabilitate PG CCBs
    - Similar to the Dry Creek CCBs, Pleasant Grove WWTP has CCBs that could be rehabilitated and converted to recycled water storage. It is estimated that conversion of the PG CCBs would result in an additional 2 MG of storage. Hydraulically, storage at this location would be beneficial for system performance, however, costs to rehabilitate the PG CCBs will likely be more expensive than recommissioning North Zone Tank, the PG CCBs are currently uncovered. Costs for this alternative were not developed for this study but should be in subsequent studies if additional storage is required.
- Additional Tank at WRPS
    - The City has previously considered adding a recycled water storage tank at WRPS. Storage at this location would benefit system performance and operation as demands increase as WRPS provides a majority of the West Zone with recycled water. However, costs for an additional tank may be significant. The minimum size of this tank would be 0.2 MG to meet storage requirements, however, the City could consider upsizing this to 1.0 MG so potential future customers not considered as part of this report could be serviced. The cost for a 1.0 MG storage tank is presented in **Table ES- 10**.
- Operate system with less buffer storage
    - Another alternative is to operate the system with less buffer storage than 25% of max day demand for customers without storage. With the DC CCBs converted to recycled water storage, total buffer storage will be approximately 23% of the abovementioned max day demands. While it does not meet the criteria previously presented, the City may find this buffer storage is sufficient for their needs. No project is required for this alternative.

TABLE ES- 10: STORAGE IMPROVEMENTS SUMMARY

Project ID	Project	Estimated Raw Construction Cost[a]	Estimated Capital Cost[b]
S-1	Rehabilitate DC WWTP CCB to utilize as 1.1 MG of RW storage	$925,000	$1,443,000
Alternative S-2A	Rehabilitate NZ Tanks and Pump Station	$610,000	$950,000
Alternative S-2B	Additional 1.0 MG Storage Tank at WRPS	$3,335,00	$5,203,000

Footnotes:

a. Costs basis is March 2025 average of ENR 20 Cities and San Francisco CCI (14,511)

ES-5.4 Phasing Summary

Many of the projects identified in **Section ES-5** can be phased in as recycled water demand increases. **Table ES-11** below summarizes the potential phases.

TABLE ES- 11: PHASING SUMMARY

Development Phase	Incremental MDD (mgd)	Project Required	Estimated Capital Cost
Existing	8.34	--	--
2025-2030	5.4	PP-2	$980,000
		PS-1	$3,145,000
		S-1	$1,443,000
		PP-1	$451,000
2030-2035	4.18	PP-3	$2,184,000
Total	***17.92***		***$8,203,000***

ES-5.5 Additional Recommendations

The proposed phasing plan and cost estimate identified in this report for the West Roseville Pump Station was prepared at a feasibility study level and are not suitable for more detailed planning. As noted, it may be feasible to replace existing pumps with larger pumps without other significant improvements to the station. If more substantial improvements are required, additional facility planning is recommended to investigate the potential site in more detail, particularly as more information is available on potential future demands. The facility plan would provide a better estimate of the future costs of the pump station, and give more certainty about the future layout and facilities that will need to be constructed as the developers are connected.

This Systems Evaluation anticipates that as recycled water demands grow, operation of the facilities will become more challenging. The City should develop a System Operation Plan to provide an operational approach for challenging conditions.

Several of the UGAs (Regional University, Placer One, and Placer Vineyards), are anticipated to have storage tanks that the City's system will discharge into. The City should work with the UGA operators to maintain control of storage tank fill rates and times, and ensure that recycled water supply agreements with the UGAs provide for City to have the control needed to implement the System Operation Plan.

It is recommended this Systems Evaluation be updated every five to ten years or as significant changes in potential demands are identified to ensure that the Systems Evaluation remains current. This will also provide an opportunity to review observed peaking factors and diurnal patterns, and update the model to enable the model to continue answering operational questions.

1. INTRODUCTION

The City of Roseville has been irrigating landscaped areas throughout the City and planning recycled water implementation as part of new development surrounding the City. This Recycled Water Systems Evaluation has been prepared to position the City for implementing the next phases of recycled water projects as new users within the City come online, and as the various UGAs plan for and install recycled water infrastructure. The overall implementation plan contemplates reliability improvements, pump station improvements and more improvements including storage facilities.

This chapter includes background on the City of Roseville (City) and the Recycled Water Systems Evaluation (Systems Evaluation), documentation of goals, discussion of Systems Evaluation objectives and approach, and a summary of the report organization.

1.1 Background

The City of Roseville is located 20 miles northeast of Sacramento, in the southwestern portion of Placer County. The City is bordered by Rocklin to the northeast, Citrus Heights to the south and unincorporated Placer County to the west. The City operates a recycled water distribution system supplied by two wastewater treatment plants (WWTPs), as shown in **Figure 1-1**. Future development is anticipated in several Urban Growth Areas (UGAs), which will significantly increase the demand for recycled water; these UGAs are also identified in **Figure 1-1**.

An evaluation of the recycled water system was previously completed in 2016[1] (2016 Systems Evaluation). The 2016 Systems Evaluation generally identified that capacity improvements are not needed to serve the current customers, but significant storage and pumping capacity improvements to the West Roseville Pump Station (WRPS) would be needed to serve the future UGA connections. The 2016 Systems Evaluation also identified other (smaller) reliability and capacity improvement projects in other parts of the system.

Since the 2016 Systems Evaluation, new recycled water infrastructure has been installed in the vicinity of WRPS and the City has added new customers including Sierra Vista, Westbrook, and Creekview UGAs. The model was recently updated and re-calibrated to reflect those changes, as documented in the 2020 Model Development Report[2]; the recalibration also included development of demand patterns to allow for extended-period simulations, which can be used to evaluate the system's use of storage. Additionally, development plans for Placer One, a proposed UGA that was not considered in the 2016 Systems Evaluation, have progressed and incorporated a recycled water component. Further, several of the UGAs are nearing development. For all of these reasons, a more detailed review of potential storage requirements was needed to reasonably project future funding needs.

1.2 Project Goals and Approach

The objectives of this report include documenting an updated assessment of the system's supplies and demands to determine recycled water infrastructure needed to supply potential future customers and UGAs. Additionally, this report details an implementation plan. The document includes recommended improvements for the City's existing system to address anticipated future demands and identifies the location of connections for those future demands. Sizing and alignments of future piping to serve these new demands is not evaluated in this report and is left flexible to accommodate evolving development plans for future service areas.

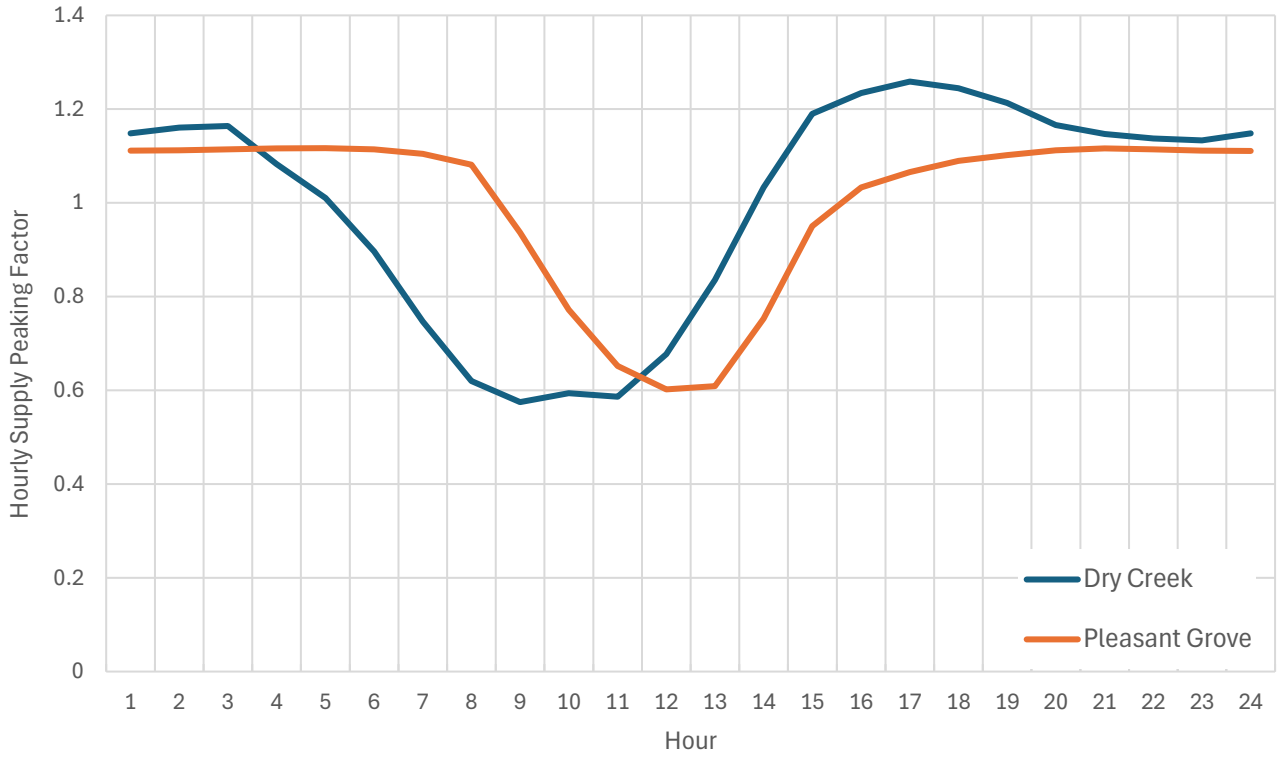
2. RECYCLED WATER SUPPLIES



The City's recycled water system is supplied by both the Dry Creek Wastewater Treatment Plant (DCWWTP) and the Pleasant Grove Wastewater Treatment Plant (PGWWTP). Previously, for modeling purposes, the treatment plants had been assumed to have an infinite supply of recycled water available to meet the recycled water demand. To better assess the impact of supply limitations on storage, existing and future supply has been estimated and applied to the model.

2.1 Existing Supply

Effluent flow data for the Dry Creek WWTP from 2020 through 2022 was assessed as part of the DCWWTP Capacity Capital Analysis Draft TM[1] to estimate an Average Dry Weather Flow (ADWF) of 8.60 mgd. As part of a similar study currently in progress, 2023 effluent flow data for the Pleasant Grove WWTP was assessed to estimate an ADWF of 8.49 mgd.

24-hour diurnal patterns for influent and effluent flow were developed and compared based on the provided SCADA data. A four-hour lag was noted between influent and effluent peaking factors. The hourly influent data was lagged by four hours and used to represent the diurnal pattern for available supply from each treatment plant. Resulting peaking factors are provided in **Figure 2-1.**

FIGURE 2-1: PGWWTP AND DCWWTP SUPPLY PATTERNS

[1] Woodard & Curran, Dry Creek Wastewater Treatment Plant Capacity Capital Analysis Draft Technical Memorandum, July 2023.

2.2 Projected Supplies

Future plant sewage flows were projected to the planning horizon of fiscal year 2059-2060 (FY 59/60)[1] and to ultimate buildout conditions, calculated by multiplying Equivalent Dwelling Unit (EDU) projections by the flow contribution per EDU. EDU projections were prepared by the South Placer Wastewater Authority (SPWA) partners and provided to W&C as part of this study in May 2025; the projections generally assume linear growth. Current flow factors are approximately 144 gpd/EDU for PGWWTP and 150 gpd/EDU for DCWWTP. Projected flow factors are at 150 gpd/EDU. Potential future flows are presented in **Table 2-1.** For this analysis, it has been assumed that all influent sewer flows would be available for use as recycled water.

It should be noted that in addition to uncertainties regarding the per EDU flow factor, there is also significant uncertainty regarding the number and timing of future EDUs. As discussed further in **Section 3**, careful monitoring of the City's available recycled water supplies is recommended as additional customers are considered.

TABLE 2-1: EXISTING AND PROJECTED WWTP RECYCLED WATER SUPPLY

	Existing Supply (mgd)	2060 Projected EDU Growth (EDUs)	2060 Projected Supply @ current gpd/EDU (mgd)	2060 Projected Supply @ 190 gpd/EDU (mgd)
PGWWTP	8.49	35,092	13.5	15.2
DCWWTP	8.60	27,942	12.8	13.9
Total	**17.09**	**63,035**	**26.3**	**29.1**

[1]SPWA's fiscal year runs from July 1 to June 30.

3. RECYCLED WATER DEMANDS

This section examines the existing recycled water system customers and associated demands and identifies potential future demands from expected customers within the City and from Urban Growth Areas (UGAs).

The approach to perform this market assessment was to use a combination of customer meter data and planning documents and staff estimates for existing and potential future customer demands respectively. Recycled water production data was used to verify peaking previously developed in the 2016 Recycled Water System Evaluation Report. Potential future recycled water demand was compared with projections of future wastewater flows to identify potential recycled water supply issues.

3.1 Peaking Factors

Previous iterations of the recycled water systems evaluation (including the 2016 Systems Evaluation, as well as the 2009 Systems Evaluation[1]), used a peak month/average day peaking factor of 2.5. To confirm that this peaking factor would be applicable for this assessment, recycled water production data from January 2017 to November 2022 was analyzed to determine typical peaking factors within the existing system.

Average daily recycled water production was compared across months to demonstrate seasonal trends in irrigation use. **Table 3-1** and **Figure 3-1** show the variation in average daily recycled water production with a peak in July corresponding to a peaking factor (average daily production in a given month / average daily production across the analysis period) of 2.23. **Table 3-2** summarizes the calculated peaking factors for each year from 2017 through 2022.

TABLE 3-1: MONTHLY PRODUCTION ANALYSIS

Month	Average Day Production (MGD)	Peaking Factor Average Daily for Month / Average Daily for Year
Jan	0.33	0.11
Feb	0.70	0.24

2022	3.63	7.10	8.67	1.96	2.38
Average	**2.89**	**6.45**	**7.83**	**2.25**	**2.75**

Footnotes:

1. Recycled Water Production Data is based on flows from West Roseville Pump Station and the Dry Creek Gravity and Pump Station pipelines.

As indicated in Table 3-2, the Maximum Day/Annual Average peaking factor is generally slightly above 2.5, while Maximum Month/Annual Average is slightly below 2.5. This suggests that within the peak month there was a

shorter duration period of higher demands, which may coincide with a heat wave, or atypical irrigation patterns. The current recycled water system has sufficient capacity to handle these short durations of higher demands. In the future, as recycled water demands approach system design limits, irrigation during peak demand periods may need to be more tightly managed to meet all demands. As the duration of the higher demands was generally short, it has been assumed that irrigation during these high demand periods can be managed to limit taxing the system significantly beyond typical peak month demands. Therefore, the peak day peaking factor of 2.5 used in previous system planning has been carried forward for the current analysis of buildout system needs.

For modeling purposes, existing maximum day demands were scaled to match the maximum day demand observed on June 24, 2022, of 8.7 mgd, as discussed further in Section 3.3 of this report. As future customers are added, peaking factors should continue to be monitored. Potential mitigations to address supply shortfalls are discussed in Section 3.5.1.

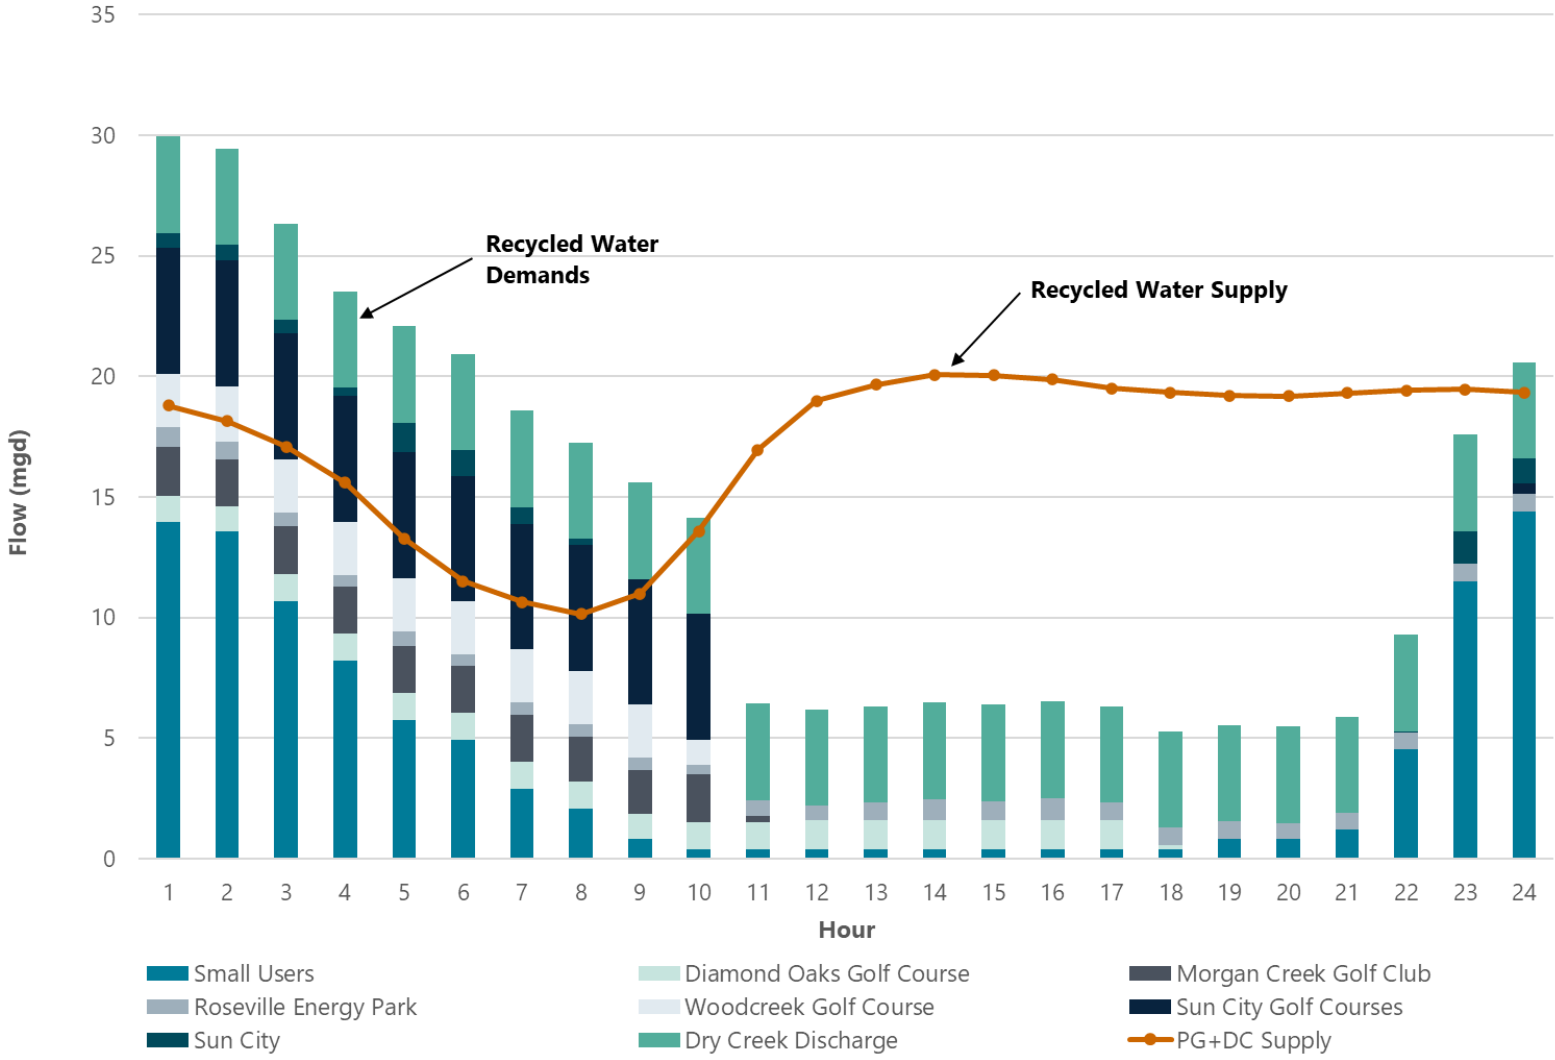
3.2 Diurnal Patterns

Peaking factors for hourly demand patterns were previously developed as part of the 2020 Model Development Report for use in extended period simulations (EPS). Total demands under each pattern were summed, the pattern was applied, and hourly demand values were plotted on **Figure 3-2**, along with the supply patterns discussed in Chapter 2. The demands follow a typical irrigation demand pattern with peak flows occurring overnight and in the morning.

As indicated in **Figure 3-2**, peak recycled water demands occur overnight while peak recycled water supply occurs in the afternoon and stays fairly constant throughout the evening. Low demands occur in the middle of the afternoon while low supply occurs in the middle of the morning. One way to increase the capacity of the recycled water system in the future would be to modify the hourly demand patterns for customers with storage ponds (i.e., golf courses). Aligning the system supply pattern for customers with storage with the system-wide demand pattern would optimize the operation of the system. This modification is included in this evaluation and discussed in Section 4.2.1.2. The proposed modified patterns are shown in **Table 3-3** and the resultant hourly demands compared to supply is shown in **Figure 3-3**. The additional capacity provided by this pattern modification was determined as part of the analysis discussed in Section 4 of this report. Modification of customer demand schedules to off-peak hours would help accommodate additional system demands on the recycled water system.

For future UGA customers with storage (Placer Vineyards, Riolo Vinyards, Placer One, and Regional University), it was assumed that the City could supply recycled water when convenient for the City system to reduce peak demands. For this study this was assumed to be a constant supply over the entire day (peak hour factor equal to 1.0), except for supply to Placer One which was assumed to have a fill time during the middle of the day.

FIGURE 3-2: EXISTING DEMAND AND SUPPLY PATTERNS



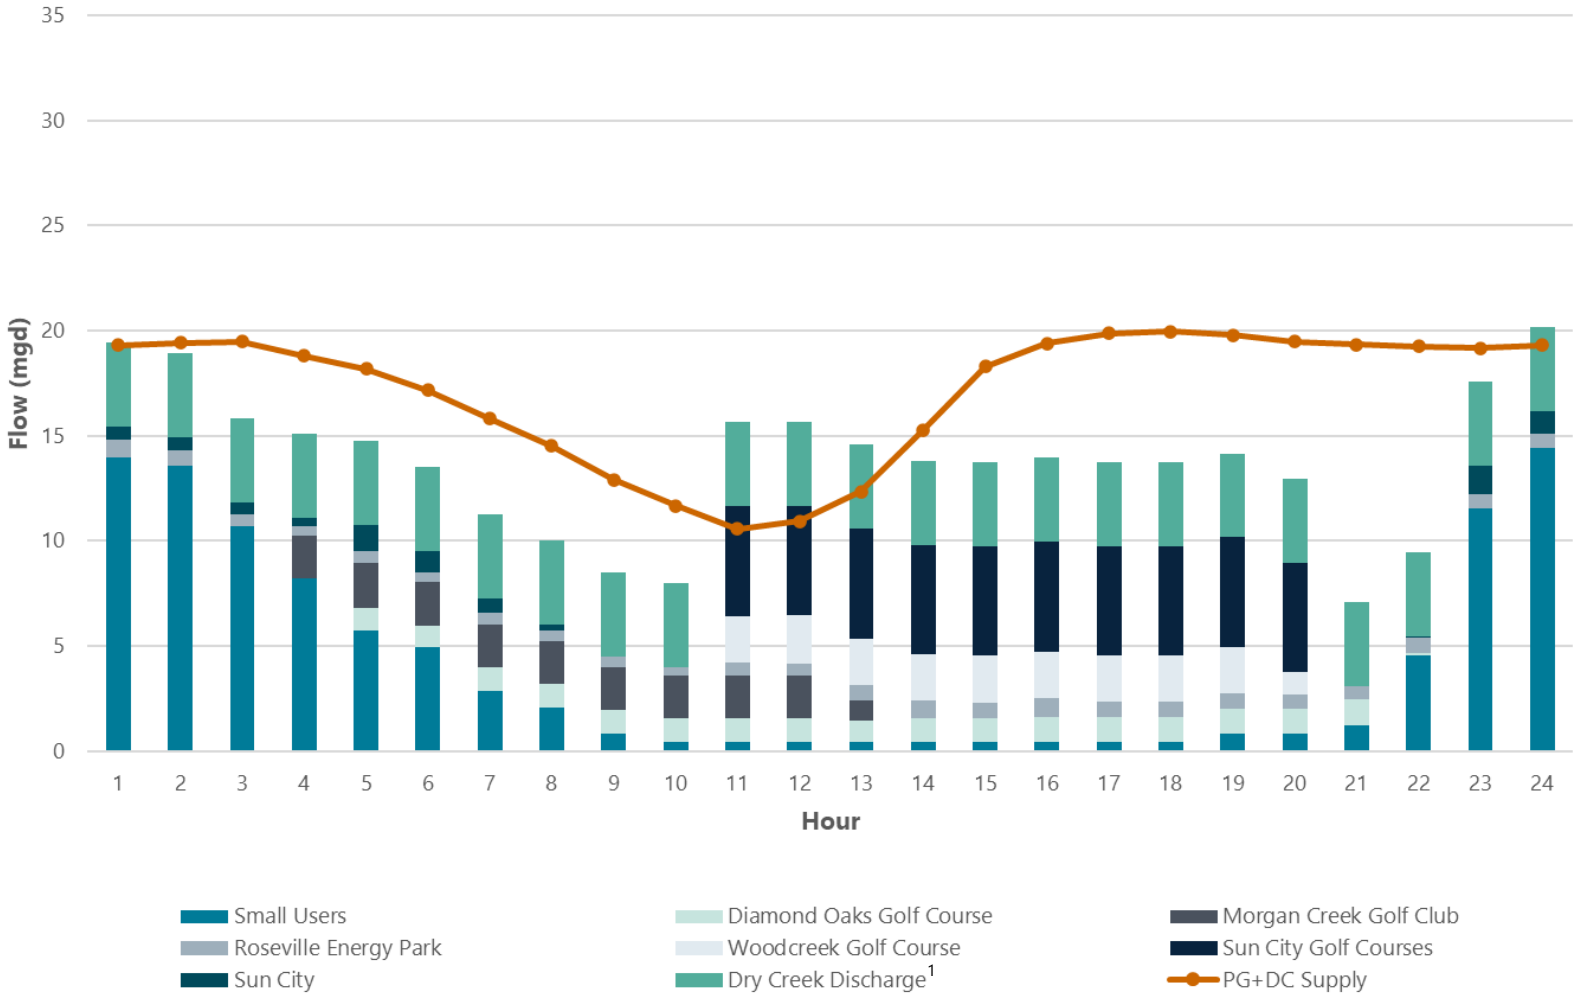


FIGURE 3-3: PROPOSED MODIFICAITONS TO EXISTING DEMAND AND SUPPLY PATTERNS

[1] The diurnal pattern for discharge to Dry Creek is assumed to be constant at 4 mgd over 24 hours, however the pattern can be modified to better match the supply and demand patterns as long as 4 MG is discharged per day.

TABLE 3-3: DIURNAL DEMAND PATTERNS FOR EXISTING CUSTOMERS

Footnotes:

a) "(E)" indicates current demand pattern derived in the 2020 Model Development Report. "(P)" indicates a proposed pattern with a shift in hourly demands to align system demand patterns with system supply patterns.

3.3 Existing Customer Demand

Existing recycled water customers were identified through review of prior studies, discussions with City staff, and the City's billing records. Billing data from 2017 to 2022 was collected and analyzed to determine average annual demands for each customer. This data was used to add new customers whose service began after August 2019 (customers added before August 2019 were already included in the model as part the 2020 Model Report model update). Including these additional customers, annual average demands were estimated to be approximately 3.5 mgd.

As indicated in **Table 3-2**, the highest peak day demand observed was 8.7 mgd, which occurred on June 24, 2022. Modeled demands were scaled such that the total max day modeled demands matched the observed peak day demand of 8.7 mgd.

A summary of the largest demand customers is included in **Table 3-4**. Locations of the existing customers are shown in **Figure 3-4**. In addition to the customers shown in **Figure 3-4**, DC WWTP is required to discharge a minimum of 4 mgd to Dry Creek to maintain a year round flow in the creek per California Department of Fish and Wildlife (CDFW) requirements. Note that there is no specific minimum instantaneous flow requirement for this flow into Dry Creek, just a minimum requirement of 4 million gallons over the course of the day.

TABLE 3-4: SUMMARY OF EXISTING CUSTOMERS

Customer Name	Customer Type	On-Site Storage (Yes/No)	Zone	Annual Average Demand[a] (AFY)	Average Day Demand (MGD)	Peak Day Demand[b] (MGD)

3.4 Potential Future Customer Demand

Potential future customers include near-term potential recycled water customers identified by the City and Urban Growth Areas (UGAs). Potential future customer locations are shown in **Appendix A** and were identified based on review of existing recycled water study reports, discussions with City staff, and review of development master plans. Peaking factors used for existing customers were also used to calculate peak day demand for potential future customers.

3.4.1 Near-Term Potential Customers

Near-term potential customers were identified through a review of prior studies and estimated demands for potential customers were updated where service had begun since the last update to the future customer dataset. The largest near-term potential customers (not including UGAs, discussed in Section 3.4.2) include the Hewlett Packard Enterprise campus and the Campus Oaks Apartments.

For the purposes of the supply and demand evaluation, it has been assumed that connection of new customers would begin in 2024 with growing participation occurring over the following four years. Once all customers are on-line, the annual demand for near-term potential customers is projected to be 2,360 AFY, with a peak day demand of 5.27 mgd. Potential near-term customers are identified in **Appendix A**.

3.4.2 UGA Demand

The City of Roseville is anticipating the eventual connection of eight UGAs. Four of these UGAs (Sierra Vista/Westbrook, Creekview, Amoruso Ranch and the West Roseville Specific Plan) are within current City limits and are partially developed. Regional University, Placer Vineyards, Riolo Vineyards, and Placer One/Sunset Industrial Area are outside of the City limits with currently no plans for annexation. Curry Creek is not included in this analysis because the City has not agreed to provide recycled water to the UGA, and due to supply limitations, as discussed in **Section 3.5**, supply may not be available.

Note that the Creekview and the West Roseville Specific Plan area UGAs (discussed further below) have already been partially developed; recycled water use is therefore listed as both an existing and potential future customer. Total existing and anticipated buildout demands for these areas are shown in **Table 3-5**.

Recycled water service to UGAs is limited by supply; customers within the City limits will have priority and potential customers outside the City will have agreements signed that allow service on a first-come, first-served basis. Regional University, Placer Vineyards, Riolo Vineyards, and Placer One / Sunset Industrial Area would be served as wholesale customers with recycled water delivered to an on-site storage tank and distributed within the UGA by another retailer. Other UGAs (Sierra Vista, Creekview and Amoruso) would have storage located at the West Roseville pump station site.

Estimated demands for the UGAs are shown in **Table 3-5**. Demands were derived from previous studies and a review of planning documents. The assumed connection date indicated in **Table 3-5** is the initial connection; it was assumed for this analysis that the entire demand will not be realized until eight years after the initial connection date. For UGAs with existing demands, it was assumed the initial connection date occurred in 2020 and that the entire demand would be realized in 2028. The peaking factor described in **Section 3.1** was used to estimate potential max day demands. The supply window for Regional University, Placer Vineyards, and Riolo Vineyards was assumed to be constant between the hours of 3am and 10pm;

the supply window for Placer One was assumed to be between 7am and 9pm. For other UGAs the "Small Users Pattern" from **Table 3-3** was used.

TABLE 3-5: URBAN GROWTH AREA POTENTIAL DEMANDS

UGA	Potential Service Zone	Within City Limits	Existing Average Day Demand (mgd)	Buildout Average Day Demand (mgd)	Buildout Peak Day Demand (gpm)	Assumed Initial Connection Date[a]
Sierra Vista / Westbrook[b]	West	Yes	0	0.62	1,078	2025
Amoruso Ranch[c]	West	Yes	0	0.22	389	2025
Creekview[d]	West	Yes	0.03	0.10	174	2020
West Roseville Specific Plan[e]	West	Yes	0.75	2.02	3,507	2020
Regional University[f]	West	No	0	0.47	812	2030
Placer One / Sunset Industrial Area[g]	North	No	0	0.38	660	2025
Placer Vineyards[f]	Gravity	No	0	1.13	1,966	2030
Riolo Vineyards[f]	Gravity	No	0	0.07	127	2030

Footnotes:

a. For purposes of phasing, it was assumed that implementation of full demand would occur over 8 years from the initial connection date. Developments with existing demands were assumed to have been connected to the system by 2020. Note that the initial connection date may not represent the beginning of UGA development.

3.5 Supply versus Demand Comparison

Recycled water supply is provided from two WWTPs owned and operated by the City of Roseville, on behalf of the SPWA: Dry Creek WWTP and Pleasant Grove WWTP. These two WWTPs collect and treat all wastewater generated within the SPWA service area. The recycled water distribution system has interconnection points that allow significant flexibility for deliveries. In particular, there are existing interconnections to allow either treatment plant to serve the North Zone system and the Sun City Golf Course. Because of this flexibility, a supply and demand comparison was performed over the entire system, rather than on the individual WWTPs. Estimated growth in average dry weather flow generated from the entire SPWA sewer service area through 2060 was referenced from the 2020 SPWA Systems Evaluation Report[1].

[1] South Placer Regional Wastewater 2020 Systems Evaluation Report.

3.5.1 Supply versus Maximum Day Demand Comparison

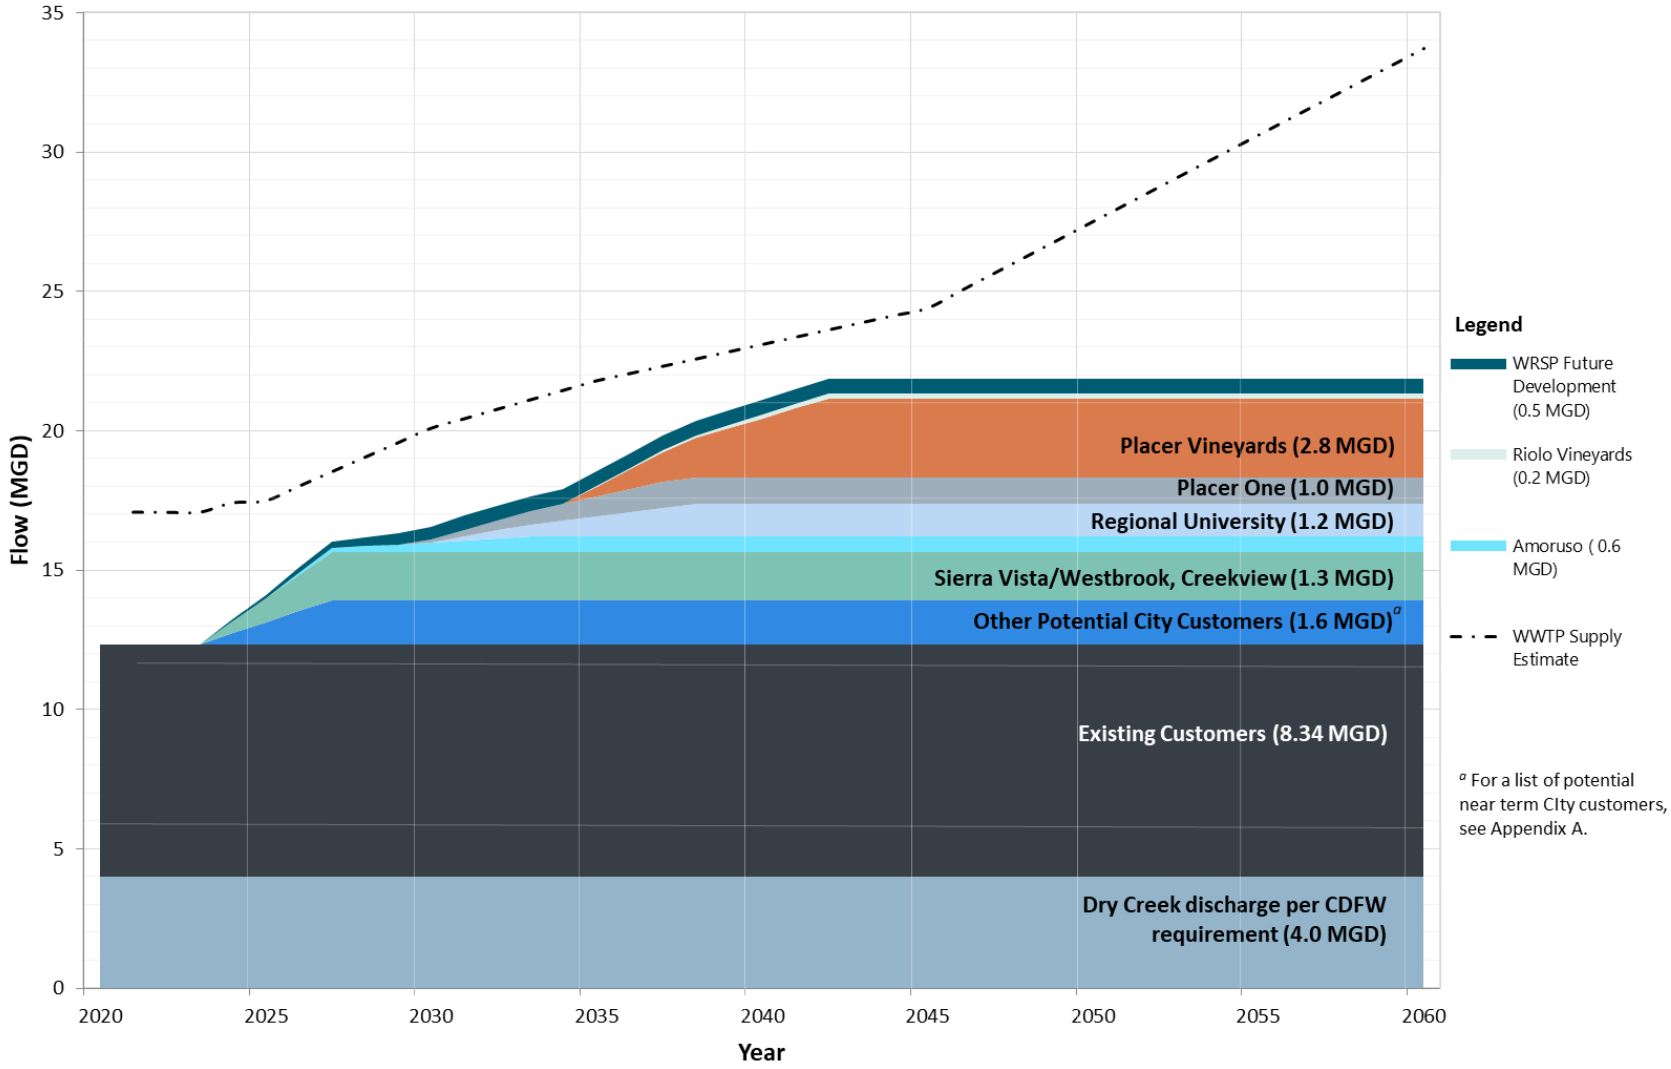
Figure 3-5 shows the current projections of annual recycled water demand and supply available during maximum day conditions. As shown in the figure, there appears to be sufficient supply to meet anticipated demands. It should be noted, however, that there is significant uncertainty in the timing of growth of both future demands and future supplies. There is also significant uncertainty in the projected demands, as demands for several of the UGAs was based on estimates from several years ago (as indicated in **Table 3-5**) and likely do not reflect current irrigation practices. If demand begins to increase faster than supply, the City can address a potential shortfall in supply with the following methods:

- Encourage water-efficient landscaping.
- Encourage reduction in peak usage for future recycled water customers.
- Consider limiting recycled water demands to customers on the hottest days of the year (i.e., capping demands).
- Work with customers with storage to determine if demands could be spread across days to reduce a single-day peak demand.
- Continue monitoring summer peak demands and creek discharges as demands are added to identify potential supply limitations.
- Prepare to have supplemental potable water supplies available in the event of a shortfall or source other local raw wastewater supplies to increase available recycled water supply during summer months.

3.5.2 Peak Hourly Demand Versus Supply Comparison

Although supplies are anticipated to continue increasing beyond 2060, the projected 2060 has been used for modeling purposes to estimate the potential storage requirements. **Figure 3-6** shows anticipated max day buildout demand conditions compared to 2060 supply. While hourly projected supplies are greater than hourly buildout demands, there may still be a need for operational storage (aka daily storage) to shift the available supply of recycled water to the higher evening demand periods when supplies are limited. The City can undertake efforts to manage peak usage and reduce overnight demands, especially with customers that have storage facilities who may be more adept to distribute demands across a day to limit peak hourly usage as much as possible. Note that **Figure 3-6** was developed using proposed peaking factors as presented in **Table 3-3**.

FIGURE 3-5: PROJECTED BUILDOUT MAX DAY SUPPLY AND DEMAND COMPARISON



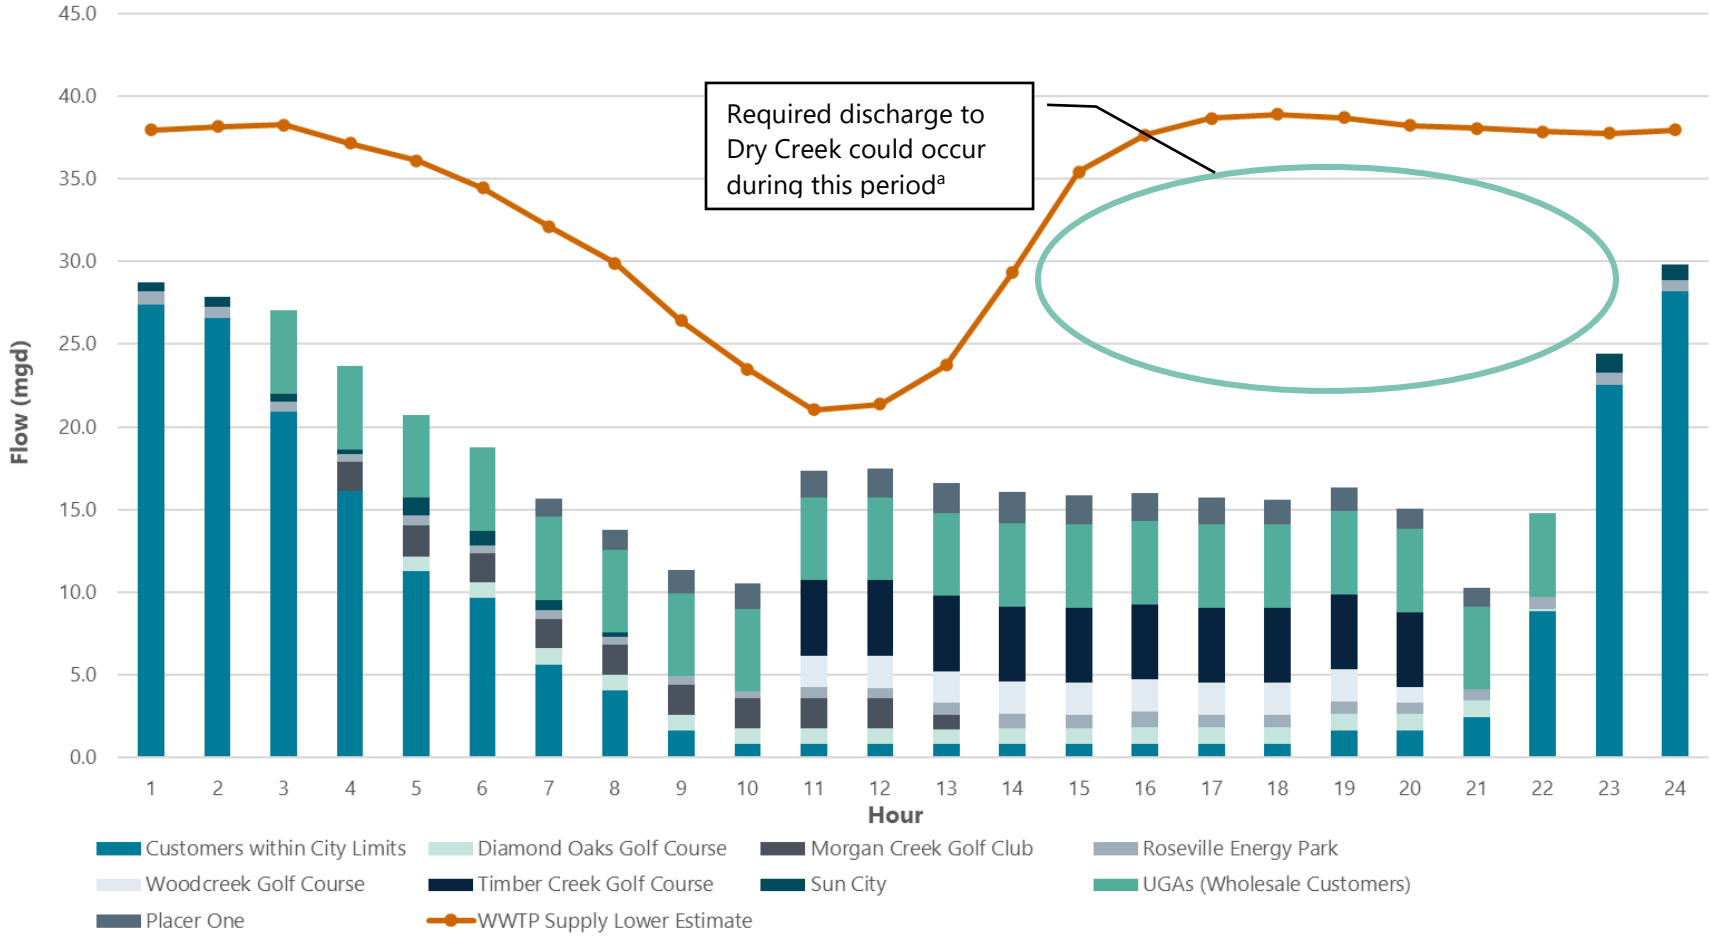


FIGURE 3-6: HOURLY COMPARISION OF SUPPLY AND DEMANDS BUILDOUT MAX DAY CONDITIONS

Footnote:

a) Discharge to Dry Creek, as required by CDFW, is not included on this plot as City operations staff can elect to discharge the required 4 mgd when it best suits system performance. In the case of the proposed patterns being implemented, this could be between 1pm and 11pm.

4. SYSTEM EVALUATION

4.1 Evaluation Methodology and Criteria

Model scenarios of the City's existing recycled water distribution system were developed. Sizing of new pipes, and evaluation of the capacity of the existing facilities, was performed using the design criteria described in **Section 4.1.1**. Buildout alternatives were evaluated for comparative life cycle costs using the capital and O&M cost criteria described in **Section 5**.

4.1.1 Design Criteria

Design criteria were compiled to reflect current City standards for recycled water distribution. These criteria, found in **Table 4-1**, were used to assess any deficiencies in the existing facilities and to appropriately size pipelines, pump stations, and storage tanks at buildout.

TABLE 4-1: HYDRAULIC DESIGN CRITERIA FOR MODEL DEVELOPMENT

System Component	Unit	Value
Demand Nodes		
Minimum Pressure at Peak Day for Customers without Storage	psi	40
Minimum Pressure at Peak Day for Customers with Storage	psi	5
Maximum Pressure in system	psi	100
Distribution Pipes		
Minimum Pipe Size (including laterals)	inches	6
Allowable Pipe Sizes [a]	inches	6, 8, 12, 16, 24, 30
Maximum Head Loss (existing pipe)	feet per 1,000 feet	10
Maximum Head Loss (new pipe)	feet per 1,000 feet	5
Maximum Velocity (existing pipe)	feet per second	8
Maximum Velocity (new pipe)	feet per second	5
Hazen-Williams Coefficient for Head Loss Calculation	n/a	130
Storage Tanks		
Minimum Tank Storage	MG	Operational Storage + Buffer Storage
Operational Storage	MG	As Modeled
Buffer Storage[b]	MG	0.25 * MDD

a. Per Roseville Standards for Recycled Water.
b. Buffer storage is intended to allow the system to operate in the event of unforeseen conditions (e.g. a brief supply limitation).

4.2 Existing System Evaluation

The recycled water system includes approximately 40 miles of recycled water pipelines, recycled water pumping facilities at the two WWTPs (Pleasant Grove and Dry Creek), and two booster pump stations and storage facilities. The recycled water system, including facility locations and pressure zones, is shown in **Figure 4-1**. Pleasant Grove WWTP recycled water pumps supply water to the West Roseville storage tanks located near the treatment plant. The West Roseville pump station draws from that storage and supplies pressure to customers in West Roseville and others. The Dry Creek WWTP recycled water pumps supply portions of the main pressure zone, primarily in eastern Roseville. The Dry Creek WWTP pumps also supply the North Zone storage tank with recycled water, when connected to the system. The North Zone Pump station is located adjacent to the North Zone storage tank and although the tank and pump station were constructed, the City has operated the system without the North Zone storage tanks and pump station for several years (i.e. these facilities are currently disconnected from the recycled water system).

The City's recycled water model, as documented in the 2020 Model Development Report and updated based on the current supply and demand data described in **Section 2** and **Section 3**, was used for this evaluation. Two demand scenarios were evaluated: average day demand (ADD) and maximum day demand (MDD). Each demand scenario has diurnal patterns applied so that peak hour conditions could be evaluated based on patterns discussed in **Section 3.2**. Results from both demand scenarios indicate that sufficient pressure could be provided throughout the network to meet the established design criteria, as shown in **Figure 4-2**. Under the MDD scenario, the West Roseville Pump Station storage tanks combined modeled operational storage is 0.8 MG (each tank cycles approximately 0.4 MG).

The City's existing recycled water system is best analyzed as two distinct systems under current operating conditions: the main pressure zone, termed West Zone, servicing a majority of the systems' demands, supplied by West Roseville Pump Station and Dry Creek WWTP, and the gravity system, termed Gravity Zone, servicing a portion of the City's customers south of Baseline Road, including Morgan Creek Golf Club, supplied by the Dry Creek WWTP.

Figure Exported: 7/31/2024 By: dmerlo Using: \\woodardcurran.net\shared\Projects\0012204.00 Roseville - 2022 Recycled Water System Eval\wip\G GIS\5. ArcGIS Pro\System Evaluation Figures\Figure 4-2 Pressure Zones.aprx Layout: Option 1

4.2.1 West Zone Evaluation

Node pressures and pipeline velocities were compared to criteria established in **Table 4-1**. **Table 4-2** summarizes the peak hour operating points of each pump station in the existing system. These peak hour flowrates represent an estimated pump station capacity accounting for pumping against system pressure under design conditions. Pump curves for each pump station are included in **Appendix B**. Based on a comparison of the peak hour flows and pressures against the pump curves shown in **Appendix B**, all existing pump stations have capacity for existing peak flows.

TABLE 4-2: EXISTING RECYCLED WATER SYSTEM PUMP STATION FLOWRATES AND PRESSURES

Pump Station	Peak Hour Operating Point
Pleasant Grove WWTP	6,585 gpm, 26-ft (11 psi)[a]
West Roseville PS	8 ,725 gpm, 173-ft (75 psi)[a]
Dry Creek WWTP	5,200 gpm, 138-ft (60 psi)[a]

Footnotes:

a. Total Dynamic Head (TDH) modeled directly downstream of the pump station.

Based on these model results, no existing capacity deficiencies have been identified. However, very little additional demand can be added without resulting in overuse of the West Roseville tanks or inadequate supply from DCWWTP. However, some operational changes can be implemented at low or no cost to increase system capacity. These changes are discussed further in **Section 4.2.1.2**.

4.2.1.1 Reliability and Efficiency Improvements

Several projects have been identified that would improve the City's ability to convey recycled water between zones. These projects would improve the ability of the City to serve multiple zones from a single pump station during low demand periods, potentially reducing electrical costs. The projects would also allow the City to better manage operations during maintenance shutdowns. These projects are described in **Section 5.2.3.**

4.2.1.2 Existing System Operational Capacity Improvements

While analyzing the existing system performance, it was recognized that there are several opportunities for system operational changes that provide the City with additional capacity to service near-term potential demands without constructing new infrastructure. The operational changes included adjusting demand patterns for customers with storage and adjusting the PRV settings at West Roseville PS and DC WWTP PS. These changes were modeled with increasing demands until a hydraulic deficiency was identified. The increases to system capacity correlating to the adjustments are summarized in **Table 4-3**. Specific adjustments are discussed in detail below.

TABLE 4-3: EFFECTIVENESS OF NEAR-TERM OPERATIONAL IMPROVEMENTS

Scenario	Potential Peak Day Demand[a] (MGD)
Existing, No Change	8.7[b]
+ Adjust Demand Patterns	10.4
+ Increase WRPS Supply Pressure	10.9

Footnotes:

a. Represents the maximum peak day demand that could be met while meeting criteria established in **Table 4-1**. Current maximum peak demands are estimated to be 8.34 MGD

b. The model predicts that some customers in the southern part of the system would not meet 40 psi during existing peak day demands at peak hour, due to limitations in available supply at Dry Creek. It is possible that some demand shifting has already occurred to mitigate this deficiency.

Demand Pattern Shift

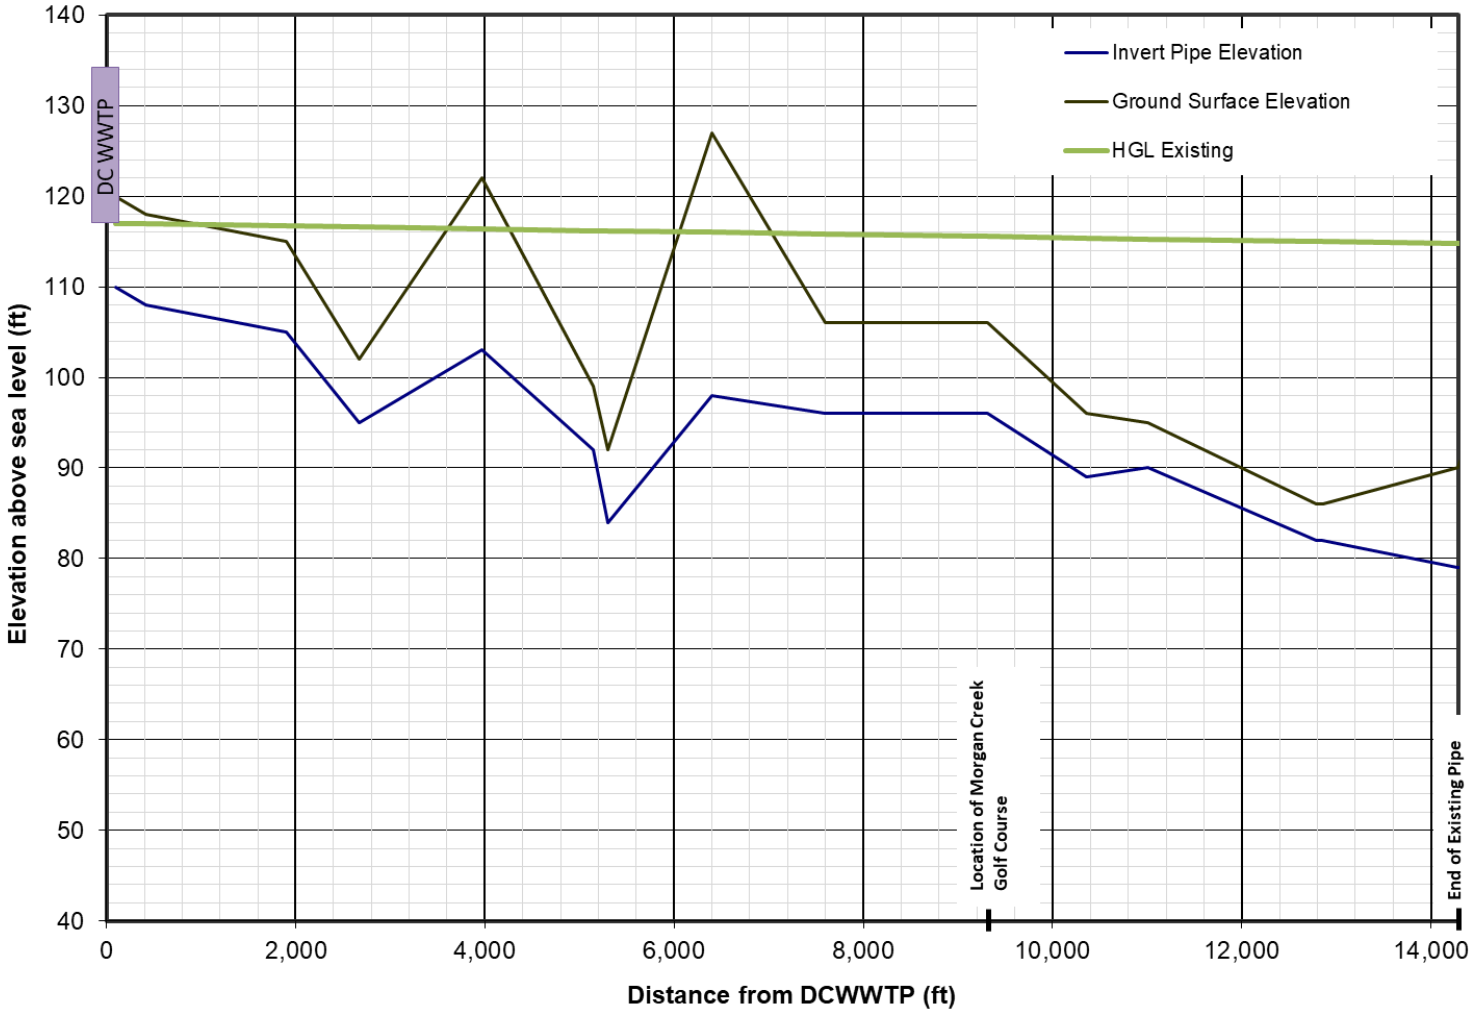
As discussed in Section 3.2, aligning the system demand pattern with the system supply pattern will maximize the available capacity of the system. One way this could be facilitated would be by shifting demand patterns for customers that have storage ponds. There are five customers with storage ponds to accommodate the demand pattern shifts proposed in Section 3.2. Shifting high demand customers with storage to an "off-peak" demand pattern would provide approximately an additional 0.7 mgd of average day demand (1.7 mgd of MDD with the "Small Users" pattern applied) before storage requirements as presented in **Table 4-1** would be exceeded.

Increase WRPS Supply Pressure

If Dry Creek WWTP appears to be running low on supply, an increase in pressure from the Pleasant Grove WWTP can be used to supplement the customers served by Dry Creek and increase capacity to the system. However, this may increase operational storage requirements at West Roseville. Balancing the two supplies can help mitigate storage requirements at West Roseville while meeting max day demands. An estimated additional 0.5 mgd of capacity could be realized through optimization of the supplies, however this could

vary depending on how the system is operated such as where the City sets the VFDs at the pumps at West Roseville and Dry Creek. However, based on modeled results, the system has capacity to adjust supply pressures leaving West Roseville and Dry Creek to increase available peak demands while maintaining minimum service pressures presented in **Table 4-1**.

Connection of North Zone Tank and Pump Station



The North Zone Tank and Pump Station are currently not being operated in the system. Connecting the North Zone Tank and Pump Station back into the system would provide additional capacity to the North Zone, as well as relieve West Roseville Pump Station of servicing demands in this part of the system. However, significant rehabilitation would be needed to operate the North Zone PS. As discussed in later sections of this report, the buildout system does not require the North Zone PS, so rehabilitation is not recommended at this time

4.2.2 Gravity Zone Evaluation

The City serves customers south of Baseline Road directly from Dry Creek WWTP with 14,000 linear feet of 24-inch diameter pipe that is pressurized by gravity. The Gravity Zone is shown in **Figure 4-1**. Existing average day and max day demands for the gravity system are 0.8 mgd and 2.0 mgd, respectively. Due to this portion of the system being supplied directly from DCWWTP effluent storage, the pressures in the system are lower than recommended in **Table 4-1**, however the largest customer connected to the gravity system, Morgan Creek Golf Club, utilizes storage and their own irrigation system, reducing the required service pressure. City staff report that the system currently operates well. **Figure 4-3** shows the hydraulic profile of the existing system based on peak hour demand.

Currently, the gravity system is independent from the West Zone, and there are no interconnections between the two. This means that if DCWWTP were to be taken offline for maintenance, customers on the gravity system would be without recycled water. A reliability project is proposed in **Section 5.2.3** to connect the gravity system to the West Zone, to ensure a consistent supply of recycled water in the event that DCWWTP is temporarily taken offline or if future supplies or pressures are inadequate under buildout conditions.

FIGURE 4-3: HYDRAULIC ANALYSIS OF EXISTING GRAVITY SYSTEM FROM DCWWTP

4.3 Buildout System Evaluation

The existing recycled water model was evaluated under buildout demand conditions, as described in Section 3.4. Demands for potential future customers were assigned to model nodes as indicated in Table 3-5. This section discusses build out demand scenario model results and improvements identified to ensure system operability under buildout conditions.

4.3.1 Buildout Model Results

Modeling results for buildout max day demands are shown in **Figure 4-4**. Buildout model demands were run with the updated demand patterns presented in **Section 3.2**. To conservatively determine storage requirement, supply estimates for 2045 were used for modeling purposes to complete the buildout max day model runs. This represents a period of time when anticipated max day demands are closest to projected supplies. The model was run with North Zone Pump Station offline to determine if the pump station would be required for buildout conditions.

Under buildout max day demands, existing infrastructure provides system pressures lower than criteria established in **Table 4-1**. These pressure deficiencies are resolved with improvements to West Roseville Pump Station pumping capacity and "pinch-point" improvements discussed below. Under modeled conditions, North Zone Pump Station could remain offline and system demands could be met at sufficient pressures. Note that this analysis assumes that water usage patterns can be adjusted as described in **Section 4.2.1.2**, and Placer One demands can be met off-peak; significant differences from this assumption may necessitate the recommissioning of North Zone Pump Station to meet peak demands.

As future demands are connected and the West Roseville Pump Station pumping capacity is increased (described in **Section 4.3.1.2**), the existing 24-inch pipeline directly downstream of the pump station to Westpark Drive is deficient under the velocity and headloss design criteria. A parallel 24-inch pipe could be installed to relieve this deficiency and increase service pressures and capacity throughout the system. It is recommended that this improvement be implemented in parallel to pumping capacity improvements at West Roseville Pump Station (See **Figure 5-2**).

The existing 8-inch pipe on Blue Oaks Boulevard between Woodcreek Oaks Boulevard and Diamond Creek Boulevard is deficient in the headloss design criteria. This deficiency could be improved by installing a new 12-inch pipe connecting to the 30-inch main on Woodcreek Oaks Boulevard and the 8-inch main on Prairie Woods Way via Painted Desert Drive. Alternatively, the existing main on Blue Oaks Boulevard could be upsized to a 16-inch main, however construction on Blue Oaks Drive may be expensive and difficult.

The above deficiencies are proposed "pinch-point" improvements, or improvements that increase the service capacity of the system. Both projects are discussed in further detail in **Section 5.2**.

As noted above, this evaluation is based on supply projections provided by the City and SPWA partner agencies. Depending on the trajectory of supply and demand growth, supply may be more constrained in earlier years. This would increase the use of storage, and may trigger the need to implement some of the mitigation measures identified in **Section 3.5.1**.

4.3.1.1 Potential Storage Requirements

Storage improvements will also be needed. **Table 4-1** presents criteria for determining storage requirements. Operational storage under buildout maximum day conditions is approximately 1.0 million gallons (MG) for the West Zone. **Table 4-4** presents the storage requirements based on this analysis. Section 5.2.2 provides a storage improvement project to enhance buffer storage to accommodate the additional 1.0 MG of required storage based on the analysis below.

TABLE 4-4: BUILDOUT MAX DAY STORAGE ANALYSIS

Pressure Zone [a]	Customers w/out Storage Buildout MDD (mgd)	Operational Storage Required [b] (MG)	Buffer Storage Required [c] (MG)	Total Storage Required [d] (MG)	Existing Storage (MG)	Potential Required Storage (MG)
West Zone (West Roseville Tanks	8.34	1.19	2.09	3.28	2.0	1.28

Footnotes:

e. The Gravity pressure zone is not included as there are few, if any, customer demands without dedicated storage in this zone.
f. Operational storage requirement is derived from model runs. It is based on assumptions built into the model including pump station controls, PRV settings, and demand patterns presented in this report.
g. Buffer storage required was assumed to be 25% of MDD for customers without dedicated storage for a one-day period.
h. Total required storage = Operational Storage + Buffer Storage.

4.3.1.2 Pump Station Flow Requirements at Buildout

Before total buildout demands are realized the West Roseville pump station would need to be improved to meet flow and pressure design criteria. Design points for each pump station under buildout max day demand conditions are summarized in **Table 4-5**. These design points represent the maximum peak hour flowrate and associated total dynamic head under max day conditions with the diurnal patterns applied to the demands. Potential operating points relative to the existing pump curves are shown in **Appendix B**. The table assumes that under peak demand conditions the PG WWTP pumps would deliver flow to the tanks at the West Roseville Pump Station, which would then deliver flow to a tank in Regional University during the off-peak period. Alternatively, the PG WWTP could deliver flow directly to a tank in Regional University, but this would require a parallel pump station and piping to provide acceptable head at peak flowrates.

Upgrade recommendations to achieve buildout flows at each pump station are described in more detail in **Section 5**.

TABLE 4-5: PROPOSED PUMP STATION DESIGN POINTS AT BUILDOUT

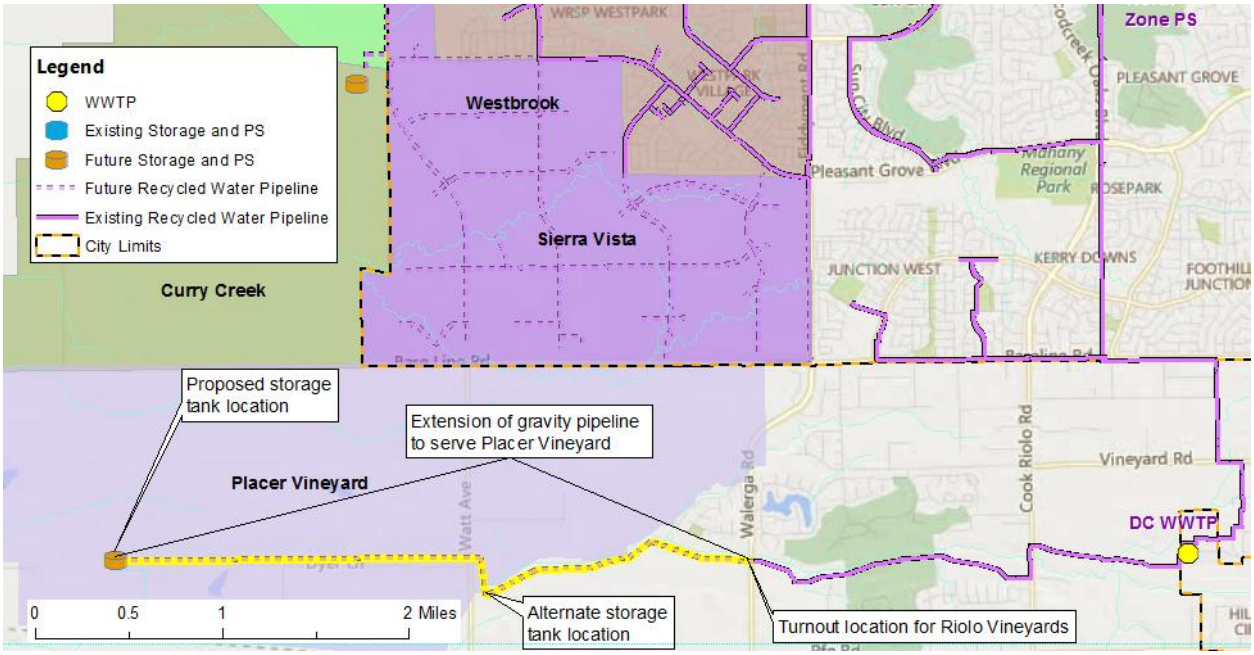
Pump Station	Existing MDD Design Point		Buildout MDD Design Point	
	Peak Flowrate (gpm)	Total Dynamic Head (ft)	Peak Flowrate (gpm)	Total Dynamic Head (ft)
PG WWTP PS	6,585	26	10,500	24
West Roseville PS	8,725	173	13,340	162
Dry Creek WWTP PS	5,200	138	6,150	140

4.3.2 Hydraulic Analysis of Placer Vineyards UGA Pipeline

The proposed Placer Vineyards development is located southeast of City boundaries and is proposed to be served through an extension of the existing gravity pipeline serving customers east of Dry Creek WWTP (see **Figure 4-5**). A previous study (**Appendix D**) evaluated the existing gravity pipeline that will be extended to serve Placer Vineyards. The study proposed locating the Placer Vineyards recycled water storage tank on the southwest corner of West Dyer Lane and 16th Street, which is in the center of the UGA. The alignment used in this study through Placer Vineyards was along West Dyer Lane. Since this study was performed, project demands for Placer Vineyards have changed and so a similar analysis was performed to determine if the existing 24" gravity pipe could remain a gravity pipe at the updated buildout demands.

The analysis was conducted for peak day demands, without consideration for peak hour demands. During peak days, the 24" pipe can remain gravity while re-filling the Placer Vineyards storage tank within 15 hours. The results of the analysis conclude that during a peak day, the 24" pipe can remain gravity flow if Placer Vineyards storage tank is placed at the proposed storage tank location (southwest corner of West Dyer Lane and 16th Street). The hydraulic grade line of this pipeline under gravity flow is shown in **Figure 4-6.** To fill the tank in under 15 hours under peak conditions, a new pump station would need to be constructed. Sizing the pump station would depend on the desired time to fill the Placer Vineyards recycled water storage tank. **Figure 4-6** shows an option to decrease the fill time of the tank to 12 hours by installing a 30 HP pump station. An alternative to a new pump station is to augment the recycled water supply with one or more irrigation wells pumping into the storage tank or to locate and partially bury the storage tank at a lower elevation near Dry Creek. These alternatives could increase the fill time of the tank while maintaining the existing 24" pipe as a gravity pipe.

FIGURE 4-5: PROPOSED PLACER VINEYARDS PIPELINE



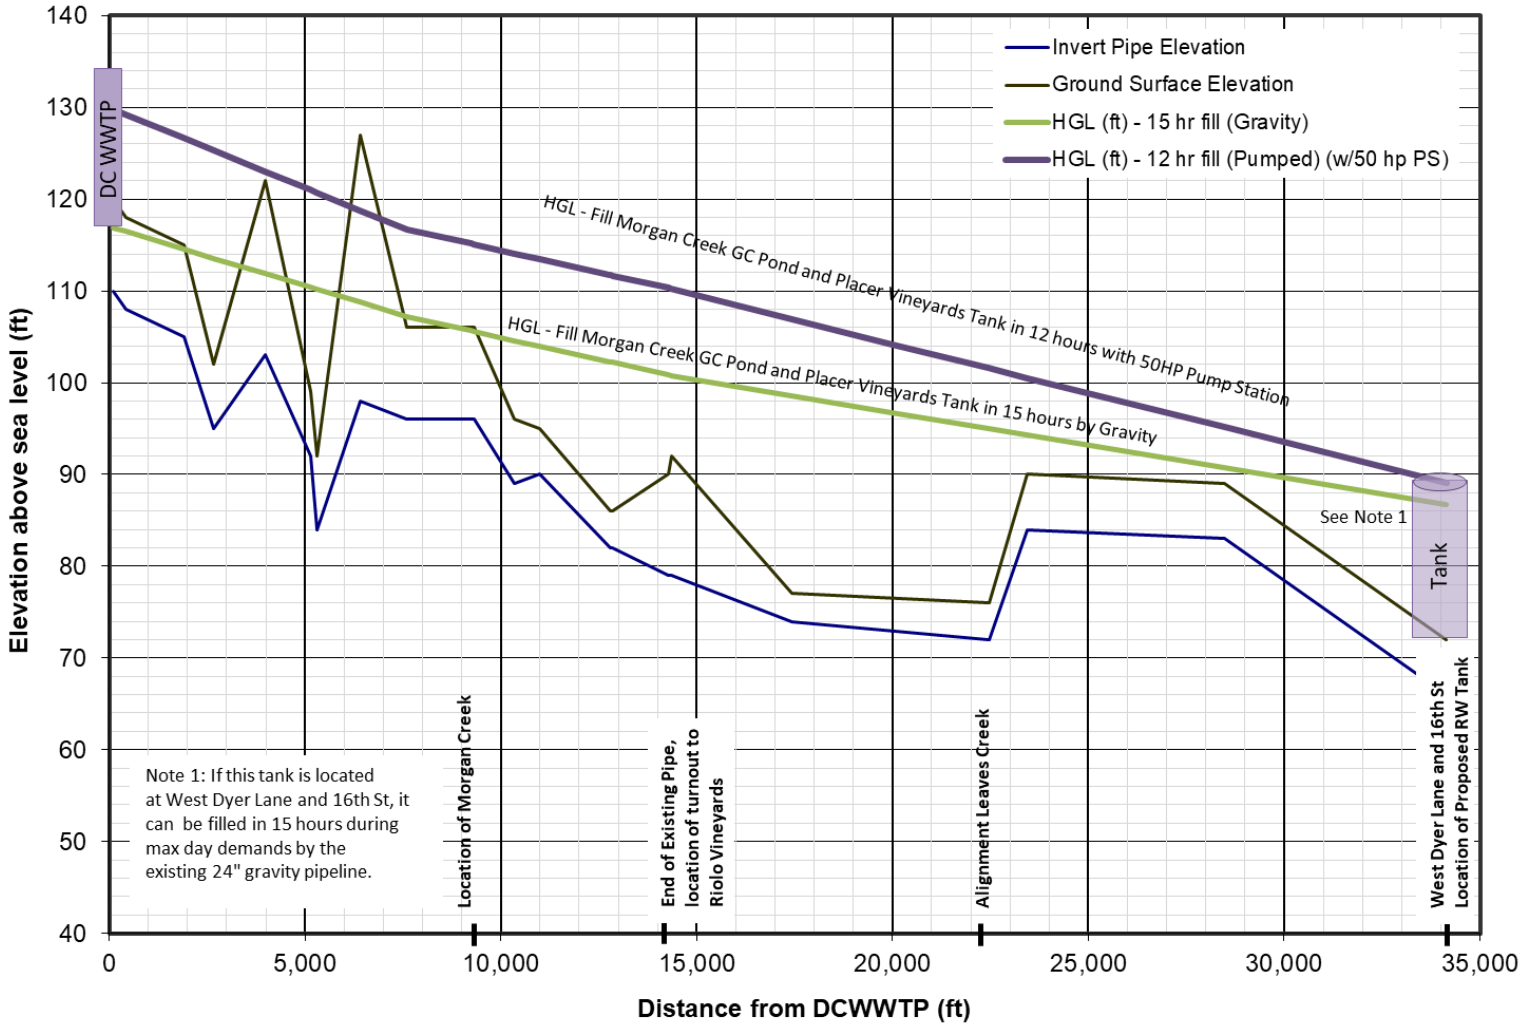


FIGURE 4-6: HYDRAULIC ANALYSIS OF 24" GRAVITY PIPELINE TO PLACER VINEYARDS

5. IMPLEMENTATION PLAN

5.1 Cost Estimating Assumptions

Construction cost estimates have been developed to provide planning level estimates of future facility costs. These cost estimates are planning or conceptual level estimates and are considered to have an estimated accuracy range of -30 to +50 percent. This level of accuracy corresponds to a "Class 4" cost estimate as defined by the American Association of Cost Estimators. These estimates are suitable for use for budget forecasting, CIP development, and project evaluations, with the understanding that refinements to the project details and costs would be necessary as projects proceed into the design and construction phases.

5.1.1.1 Capital Cost Criteria

A planning-level construction cost estimate for each distribution system component has been developed. Unit capital costs are based on engineering experience and recent bid prices for similar projects. Unit costs are indexed to the March 2025 Engineering News Record Construction Cost Index (CCI). The CCI value used (14,511) was an average of the 20 Cities Average value (13,783) and the San Francisco value (15,239).

Pipeline construction cost estimates utilize a raw construction cost based on the size of the pipe and the location of construction. Construction costs for proposed pipelines were based on recent bids received by Woodard & Curran for PVC pressure pipe projects in northern California. Average bid unit costs were plotted and a trendline developed to estimate unit cost of pipe per inch diameter. These align with Woodard & Curran's typical planning estimates for pipes. Contractor markups, taxes, overhead, profit, other miscellaneous costs and a contingency were added to the raw construction cost to generate a total cost of construction

Costs for increasing the capacity of pump stations were developed based on additional required horsepower and a calculated cost per unit horsepower developed from recent bid data. Required brake horsepower for pump stations was calculated based on the total dynamic head and peak flowrate modeled in the Buildout MDD scenario, with an assumed conservative pumping wire-to-water efficiency of 70 percent. Standard NEMA motor sizes were selected based on this configuration and at least 110% of the calculated brake horsepower. Total pump station horsepower was calculated from the number of duty plus standby pumps times the selected motor size. Each pump station was assumed to have one standby pump.

Existing maximum pump station capacity was calculated based on pump curves minus the standby pump capacity. Pump curves are provided as **Appendix B** of this report. Additional capacity required by each pump station was calculated as the difference between the required capacity at buildout and the existing capacity minus the standby pump. The additional pumping capacity required was divided among an appropriate number of pump upgrades using engineering judgement. Due to assumed site constraints, pumps were selected for replacement rather than additional pumps added to the pump stations.

Costs for backup power systems (sized to keep the entire pump station operational) and surge tanks were developed based on recently bid projects.

Raw construction costs for new storage tanks is estimated at $2.3 million per 1 MG of storage capacity. This cost includes all site work for the storage tank, but does not include land acquisition as it is assumed the

tanks will be located on land just north of the existing West Roseville Tanks and Roseville Energy Park on land already owned by the City.

5.1.1.2 Implementation Costs and Allowances

Implementation costs are defined as those non-construction costs associated with a project. These costs can include the following:

- Environmental, Legal, and Administrative (ELA) Allowance
  - Owner's administration costs
  - Owner's legal costs associated with contracting and related issues
  - Environmental documentation (CEQA and NEPA compliance)
- Engineering/Construction Management (CM) Allowance
  - Permitting
  - Engineering
  - Construction management and inspection
- Project Contingency
  - For unknown cost items, based on the level of engineering development of the project facilities.

Implementation allowances were applied as summarized in **Table 5-1**. Note that large new storage tanks can have significant engineering costs; engineering/CM allowance has been increased to 20% for these facilities to account for potential unknowns.

TABLE 5-1: IMPLEMENTATION ALLOWANCES

Element	Values for New Storage Tanks	Values for Other Facilities
1. Raw Construction Cost	Raw Cost	Raw Cost
Environmental, Legal, and Administrative (ELA) Allowance	10%	10%
Engineering/Construction Management (CM) Allowance	20%	10%
2. Raw Cost + Engineering + Implementation Allowances	1.3 x Raw Cost	1.2 x Raw Cost
Project Contingency (Uncertainty in project facilities)	30%	30%
3. Final (Fully Loaded) Cost	1.69 x Raw Cost	1.56 x Raw Cost

5.2 Project Descriptions

This section presents the project component descriptions, a summary of the deficiency each project will address, potential phasing options, and any implementation issues that have been identified.

5.2.1 Pump Station Improvements

5.2.1.1 West Roseville Pump Station

At buildout, peak flows at the West Roseville pump station will increase from about 8,725 gpm to 13,950 gpm. To achieve buildout flows, it was assumed pumps at West Roseville would be replaced with larger horsepower pumps. To avoid unnecessary operation and maintenance costs, installation of the replacement pumps should be phased to match the projected flow as service connections are added. Construction can be broken into two phases as described in **Table 5-2**. To maintain operation of 5 duty pumps and 1 standby, three of the existing 150 hp West Roseville Pumps (2 duty and 1 standby) should be replaced with higher capacity pumps (300 hp motor). Note, it is possible that replacement of these pumps with larger pumps is not possible and instead the pump station would have to be modified or new pump station constructed. This should be studied further to determine a more accurate cost estimate as recommended in **Section 5.4.1**. Additional funds for a pump station alternatives analysis are included in the cost summary presented in **Table 5-2.**

TABLE 5-2: WEST ROSEVILLE PUMP STATION PHASING

Development Phase	Incremental Flowrate for Phase[a] (gpm)	Project ID	Installed Pumps / Capacity	Estimated Raw Construction Cost[b]	Estimated Capital Cost[c]
Existing	8,500	--	--	--	--
2025-2030	4,473	PS-1[d]	Replace three pumps with 300 hp pumps (two duty, one standby)[d] ~13,950 gpm firm pump station capacity	3 new 300 hp pumps: 3 x $564,000 = $1,692,000 Pump Upgrade Alternatives Analysis: [d] $100,000	$3,145,000 [d]
2030-2035[e]	974	--	--	--	--
Total	***13,947***				***$3,145,000***

Footnotes:

a. Peak flowrate defined as the MDD multiplied by the diurnal pattern factor at the time of the modeled peak flowrate from WRPS.
b. Costs basis is March 2025 average of ENR 20 Cities and San Francisco CCI (14,511)
c. CIP Costs include implementation costs as summarized in Section 5.1.
d. Project assumes that pump may be replaced within the pump station. The presented value includes funds to perform a pump station alternatives analysis to determine whether an expansion of WRPS would be required. See Section 5.4.1.
e. When demands increase on the gravity system in this phase, supply from Dry Creek WWTP to the Main Zone will diminish. This drop in supply will need to be compensated through additional pumping capacity at West Roseville Pump Station.

5.2.1.2 PG WWTP Recycled Water Pumps

Peak day flows from PG WWTP PS to the West Roseville PS would increase from about 6,600 gpm under existing demands to about 11,700 gpm at buildout. Currently, there are three pumps at the station with room for one more. However, the pumps are sized for higher head than necessary to deliver supply to West Roseville PS tanks and have sufficient capacity needed for buildout flows. Another potential project, not thoroughly discussed in this report, would be to install additional pumps to increase the frequency that the West Zone is served directly from the PG WWTP pump station, allowing operators to take West Roseville pump station offline and thereby conserving energy.

5.2.2 Storage Improvements

5.2.2.1 DC WWTP Recycled Water Storage Project

The DC WWTP pump station is currently served directly from treated effluent from the plant. There is currently no effective storage located at DC WWTP. This project proposes modifying the existing Chlorine Contact Basins (CCB) at the DCWWTP for use as RW storage basins. Adding storage at DC WWTP would address the anticipated storage deficiency under buildout demands as presented in **Table 4-4**. This also provides a level of operational resilience in the event the DC WWTP needs to be taken offline, there would be some available supply for the recycled water system to utilize from DC WWTP.

A conceptual diagram of the project is shown in **Figure 5-1** below. The proposed project costs shown in **Table 5-3** include costs for piping, slide gate, valves, concrete, demolition, and other modifications to provide an additional 1.1 MG of RW storage capacity. Basins 1 and 2 would operate as a single plug-flow RW storage basin. Basin 3, Pass 1 is maintained empty as an airgap between the UV Effluent Channel (CCB, Pass 2) and proposed RW storage basins. A concrete repair allowance for the CCBs has been included; however, it is recommended that the City further evaluate basin conditions during the design stage to refine this cost.

Note that the currently unused CCB at the PGWWTP could also provide greater than 2 MG of additional RW storage. However, this basin is currently uncovered and is expected to require significant additional improvements for RW storage usage so has not been recommended as a potential capital improvement project at this time.

TABLE 5-3: DC WWTP RECYCLED WATER STORAGE PHASING

Phase	Project ID	Project	Estimated Raw Construction Cost[a]	Estimated Capital Cost[b]
Existing		--	--	--
2025-2030	S-1	Rehabilitate DC WWTP CCB to utilize as 1.1 MG of RW storage	$925,000	$1,443,000
	Total		**$925,000**	**$1,443,000**

Footnotes:

a. Costs basis is March 2025 average of ENR 20 Cities and San Francisco CCI (14,511)
b. CIP Costs include implementation costs as summarized in Section 5.1

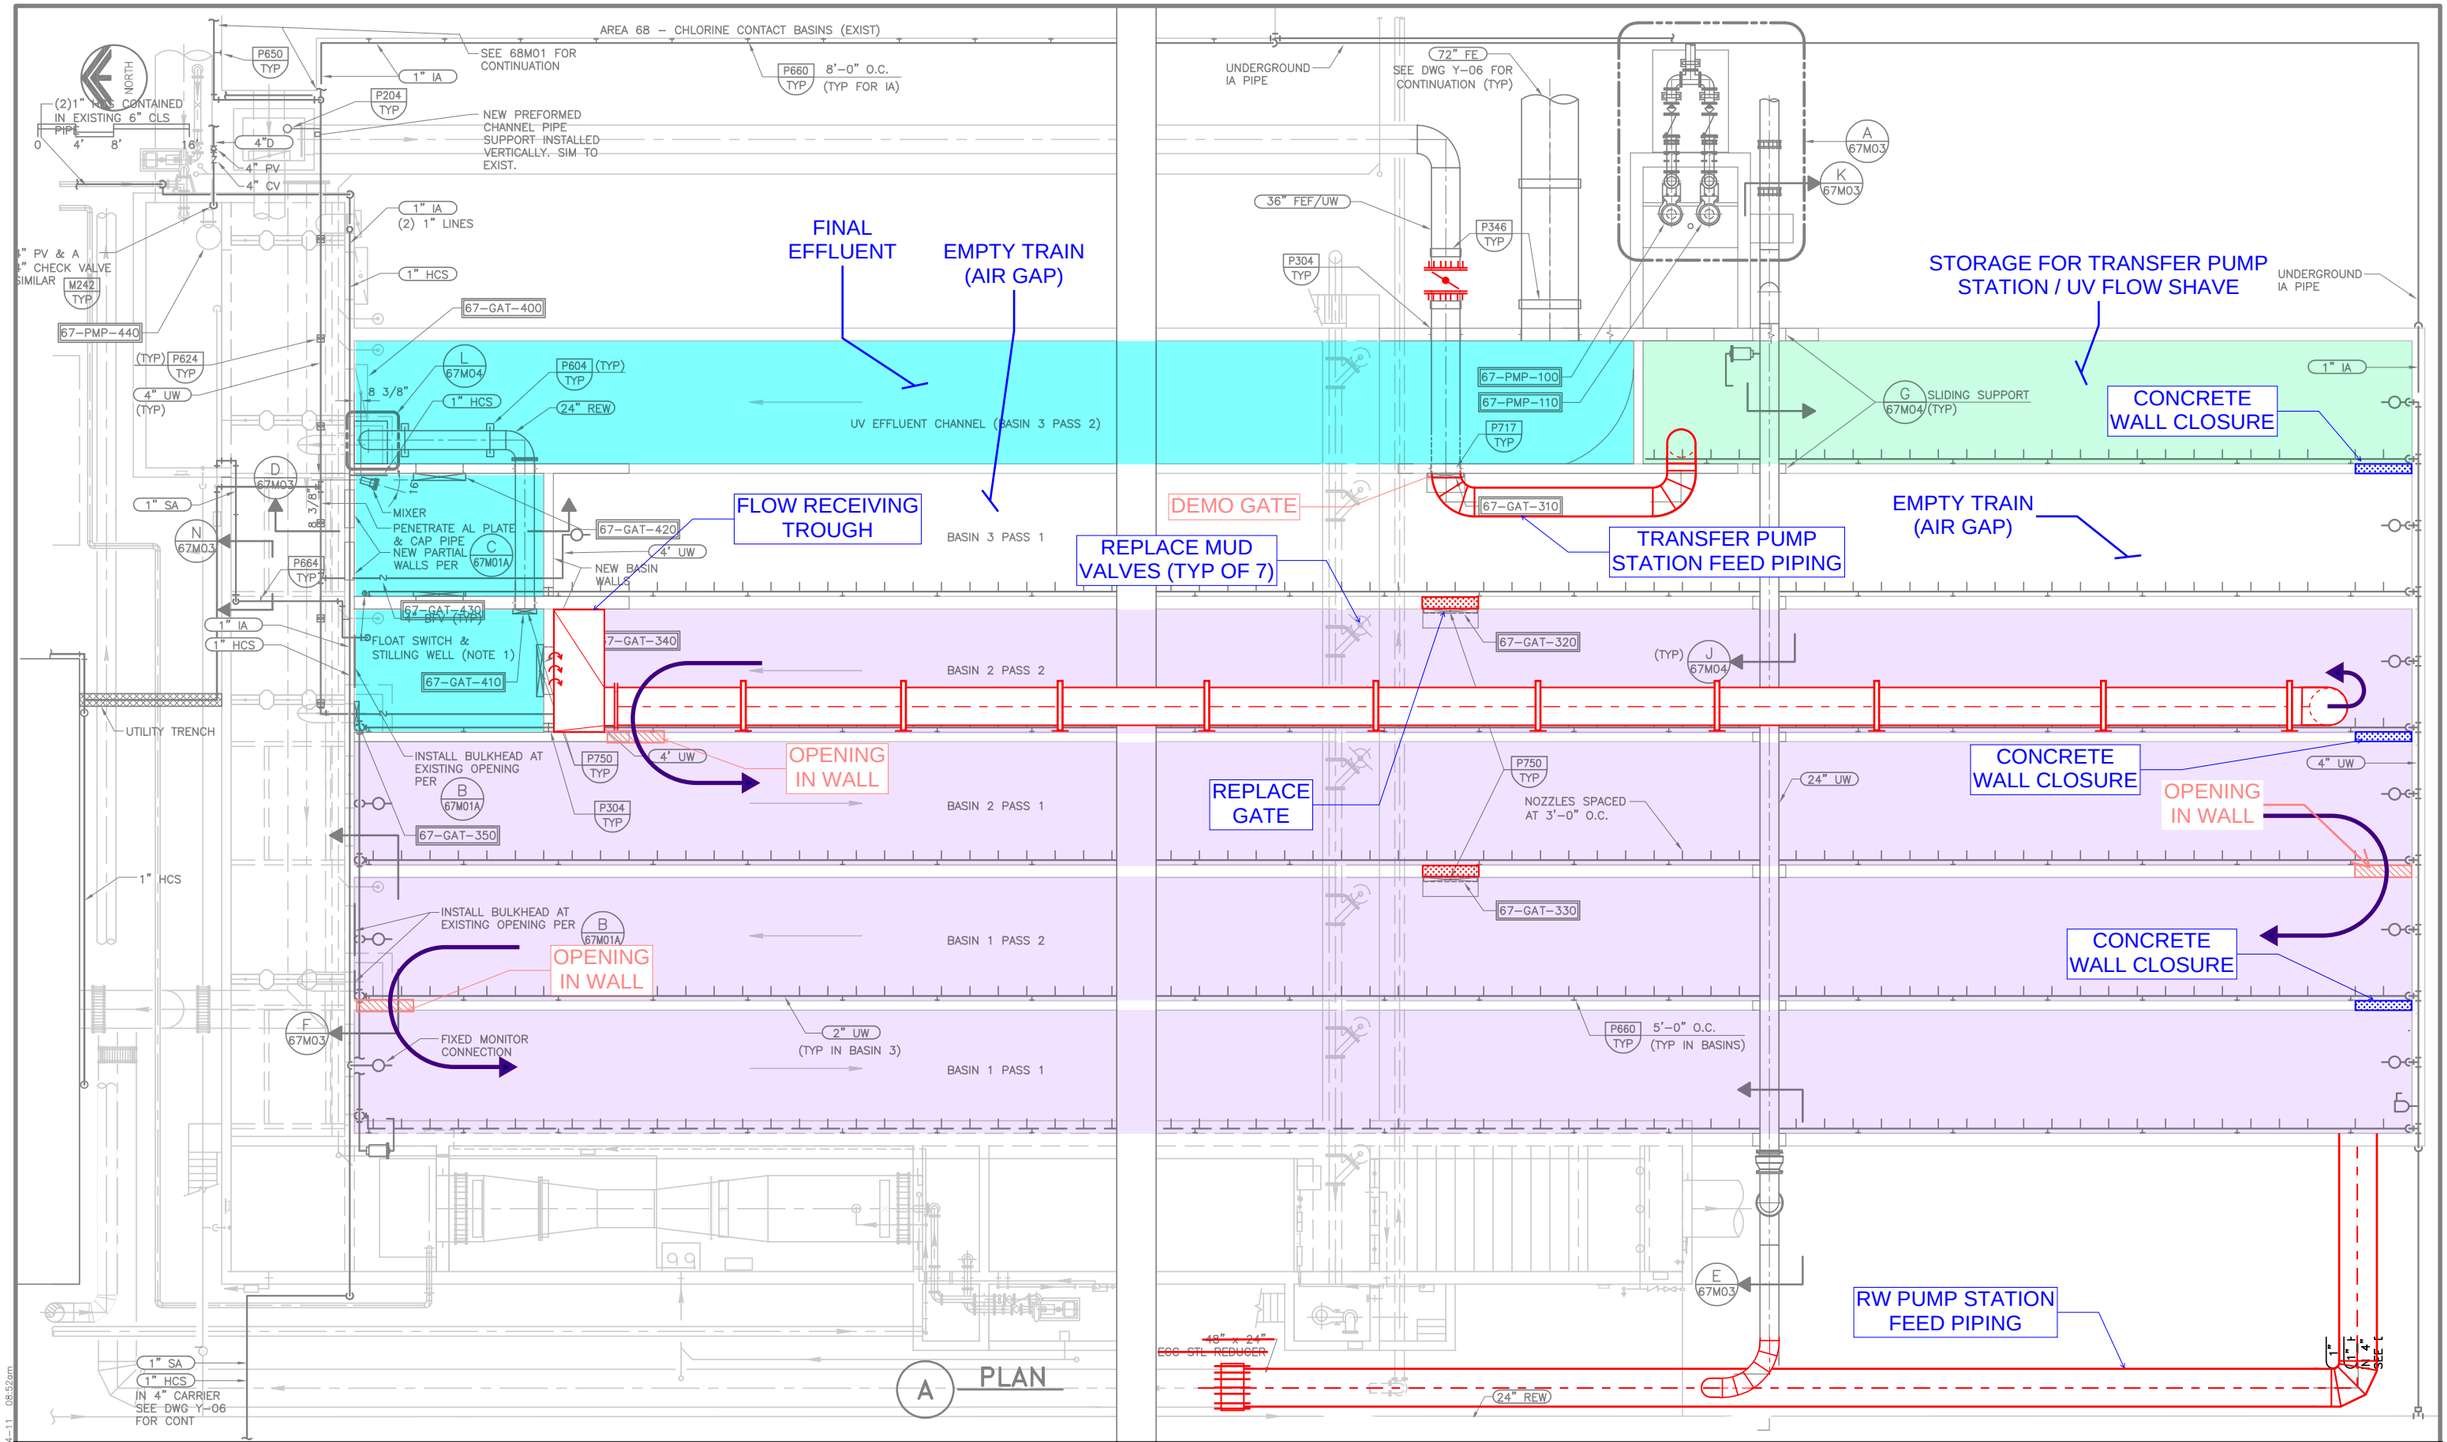

FIGURE 5-1
DCWWTP RECLAIMED WATER STORAGE IMPROVEMENTS CONCEPT FIGURE
RECLAIMED WATER SYSTEM EVALUATION
SCALE: 1/16" = 1'-0"

15'-0" 15'-0"

5.2.2.2 Potential Additional Storage Improvements

Based on the criteria and analysis presented in **Table 4-4**, an additional 0.18 MG of storage will be needed, in addition to the recycled water storage provided by conversion of the Dry Creek CCBs, to provide the City with the operational and buffer storage for max day conditions. Three alternatives could be pursued to address this, however the City should monitor recycled water supplies and demands as new customers are connected to the system. Changes to supply or demand may change the need for or quantity of additional recycled water storage.

- Connect North Zone Tank and Pump Station
    - Connecting North Zone Pump Station and Tank to the system would provide additional storage, however, demands in North Zone are lower than demands in the West Zone and South Zone, so adding storage here does not provide much hydraulic benefit and would increase O&M costs. Estimated costs to rehabilitate North Zone Tank and Pump Station are presented in **Table 5-4** for informational purposes**.**
- Rehabilitate PG CCBs
    - Similar to the Dry Creek CCBs, Pleasant Grove WWTP has CCBs that could be rehabilitated and converted to recycled water storage. It is estimated that conversion of the PG CCBs would result in an additional 2 MG of storage. Hydraulically, storage at this location would be beneficial for system performance, however, costs to rehabilitate the PG CCBs will likely be more expensive than recommissioning North Zone Tank, the PG CCBs are currently uncovered. Costs for this alternative were not developed for this study but should be in subsequent studies if additional storage is required.
- Additional Tank at WRPS
    - The City has previously considered adding a recycled water storage tank at WRPS. Storage at this location would benefit system performance and operation as demands increase as WRPS provides a majority of the West Zone with recycled water. However, costs for an additional tank may be significant. The minimum size of this tank would be 0.2 MG to meet storage requirements, however, the City could consider upsizing this to 1.0 MG so potential future customers not considered as part of this report could be serviced. The cost for a 1.0 MG storage tank is presented in **Table 5-4**.
- Operate system with less buffer storage
    - Another alternative is to operate the system with less buffer storage than 25% of max day demand for customers without storage. With the DC CCBs converted to recycled water storage, total buffer storage will be approximately 23% of the abovementioned max day demands. While it does not meet the criteria previously presented, the City may find this buffer storage is sufficient for their needs. No project is required for this alternative.

TABLE 5-4: ESTIMATED COSTS FOR ADDITIONAL STORAGE IMPROVEMENTS OPTIONS

Alternative	Estimated Raw Construction Cost[a]	Estimated Capital Cost[b]
Rehabilitate NZ Tanks and Pump Station	$610,000	$950,000
Additional 1.0 MG Storage Tank at WRPS	$3,335,00	$5,203,000

Footnotes:

a. Costs basis is March 2025 average of ENR 20 Cities and San Francisco CCI (14,511)
b. CIP Costs include implementation costs as summarized in Section 5.1.

5.2.3 Pipeline Improvements

Pipeline improvement projects include projects to alleviate the deficiencies identified in **Section 4.2** and **Section 4.3**, as well as projects to improve the reliability of the system through improved interties between pressure zones. Detailed cost estimates can be found in **Appendix C**. The proposed improvements are shown in **Figure 5-2** and their estimated costs are summarized in **Table 5-5**.

5.2.3.1 B-1

Project B-1 would increase the size of the bypass pipeline from the Pleasant Grove WWTP pumps to the West Zone system from 10-inches to 24-inches. This would improve the City's ability to take the West Roseville Pump Station offline, either to perform maintenance or for efficiency purposes.

5.2.3.2 I-1

Project I-1 would add a 6-inch intertie pipeline between the West Zone and the North Zone at Angus Road and Casa Sedona Drive. This provides two benefits:

- Improves reliability by improving the system's ability to backfeed from the North Zone into the West Zone during low demand periods.
- Potentially improves efficiency by improving the City's ability to serve the North Zone directly from either the West Roseville Pump Station or the pumps at the PG WWTP during low demand periods.

5.2.3.3 I-2

Project I-2 would add a 6-inch intertie pipeline between the West Zone and the South Zone at Blue Oaks Boulevard. The intertie provides two benefits:

- Improves reliability by allowing the system to bypass either the West Zone or the North Zone during low demand periods.
- Potentially improves efficiency by improving the City's ability to bypass either the West Roseville Pump Station or DC WWTP pumps during low demand periods.

5.2.3.4 I-3

Project I-3 would add an 8-inch intertie pipeline between the West Zone and the South Zone at Baseline Road and Fiddyment Road. This project would also increase the reliability of the system by improving the system's ability to bypass either the West Roseville PS or the pumps at the DC WWTP. This project provides hydraulic improvements to the system under buildout conditions and would reduce operational storage by an estimated 0.1 MG.

5.2.3.5 I-4

Project I-4 would add a 10-inch intertie pipeline from the end of Project I-3 further south to interconnect the Main Zone with the Gravity System at Walerga Rd and Dry Creek Community Park. This project would increase the reliability of the gravity system by allowing the system to be supplied from the Main Zone if the gravity system supply was limited or taken offline. This intertie will likely not be able to convey max day, peak hour demand conditions to all customers, but under average day conditions it would provide customers with a reasonable level of service pressure for their anticipated demands. However, system performance may vary depending on the season and time of day that the intertie is operated. Under normal operating conditions, this line would be valved out of service.

5.2.3.6 PP-1

Project PP-1 would install a parallel 24-inch pipeline between the West Roseville Pump Station (WRPS) and West Park Drive via Phillip Road (approx. 485 LF pipeline). This pipeline would only be needed when velocities in the existing 24-inch pipe exceed design criteria once West Roseville Pump Station improvements are implemented. Installing the parallel pipeline would improve redundancy for a critical component, as well as allowing greater flexibility for providing system supply during low demand periods directly from the PG WWTP pumps.

5.2.3.7 PP-2

Project PP-2 proposes adding a looped pipe in the North Zone pressure zone to relieve a headloss deficiency identified under buildout max day demand conditions. Project PP-2 includes the installation of 1,600 linear feet of a new 12" main from the existing main on Woodcreek Oaks Boulevard, connecting to the existing 8" main on Prairie Woods Way via Painted Desert Drive. This project should be completed before connecting additional customers west of Woodcreek Oaks Boulevard.

5.2.3.8 PP-3

Project PP-3 would upsize the existing pipeline from DC WWTP Pumps to the South Zone from a 20-inch to a 30-inch pipe. This project relieves a bottleneck from DC WWTP that contributes to pressure drop in the system. The additional capacity in the system provides necessary pressure improvements under buildout conditions and would allow for greater utilization of the DC CCB recycled water storage.

5.3 Phasing Summary

Many of the projects identified in Section 4.2 can be phased in as recycled water demand increases. **Table 5-6** below summarizes the potential phases.

5.4 Additional Recommendations

5.4.1 West Roseville Pump Station Facility Planning

The proposed phasing plan and cost estimate identified in this report for the West Roseville Pump Station was prepared at a feasibility study level and are not suitable for more detailed planning. As noted, it may be feasible to replace existing pumps with larger pumps without other significant improvements to the station. If more substantial improvements are required, additional facility planning is recommended to investigate the potential site in more detail, particularly as more information is available on potential future demands. The facility plan would provide a better estimate of the future costs of the pump station, and give more certainty about the future layout and facilities that will need to be constructed as the developers are connected.

The facility plan should investigate the following items that may significantly impact the pump station design:

- Need for new electrical service and other electrical upgrades, which could be a significant cost item
- A plan for integration of the new pump station with the City's SCADA and control system.
- Consideration of potential surge control measures and needs.
- More detailed examination of potential phasing approaches and integration with system operations.

5.4.2 System Operation Plan

This System's Evaluation anticipates that as recycled water demands grow, operation of the facilities will become more challenging. The City should develop a System Operation Plan to provide an operational approach for challenging conditions. This System Operation Plan can address issues such as:

- Inadequate supply at either Pleasant Grove or Dry Creek WWTPs.
- Storage levels drop below acceptable levels.
- Allowable usage patterns for specific customers, including times for filling tanks.

These conditions may require coordination with customers, and the System Operation Plan can provide a pathway to communicate any customer requirements.

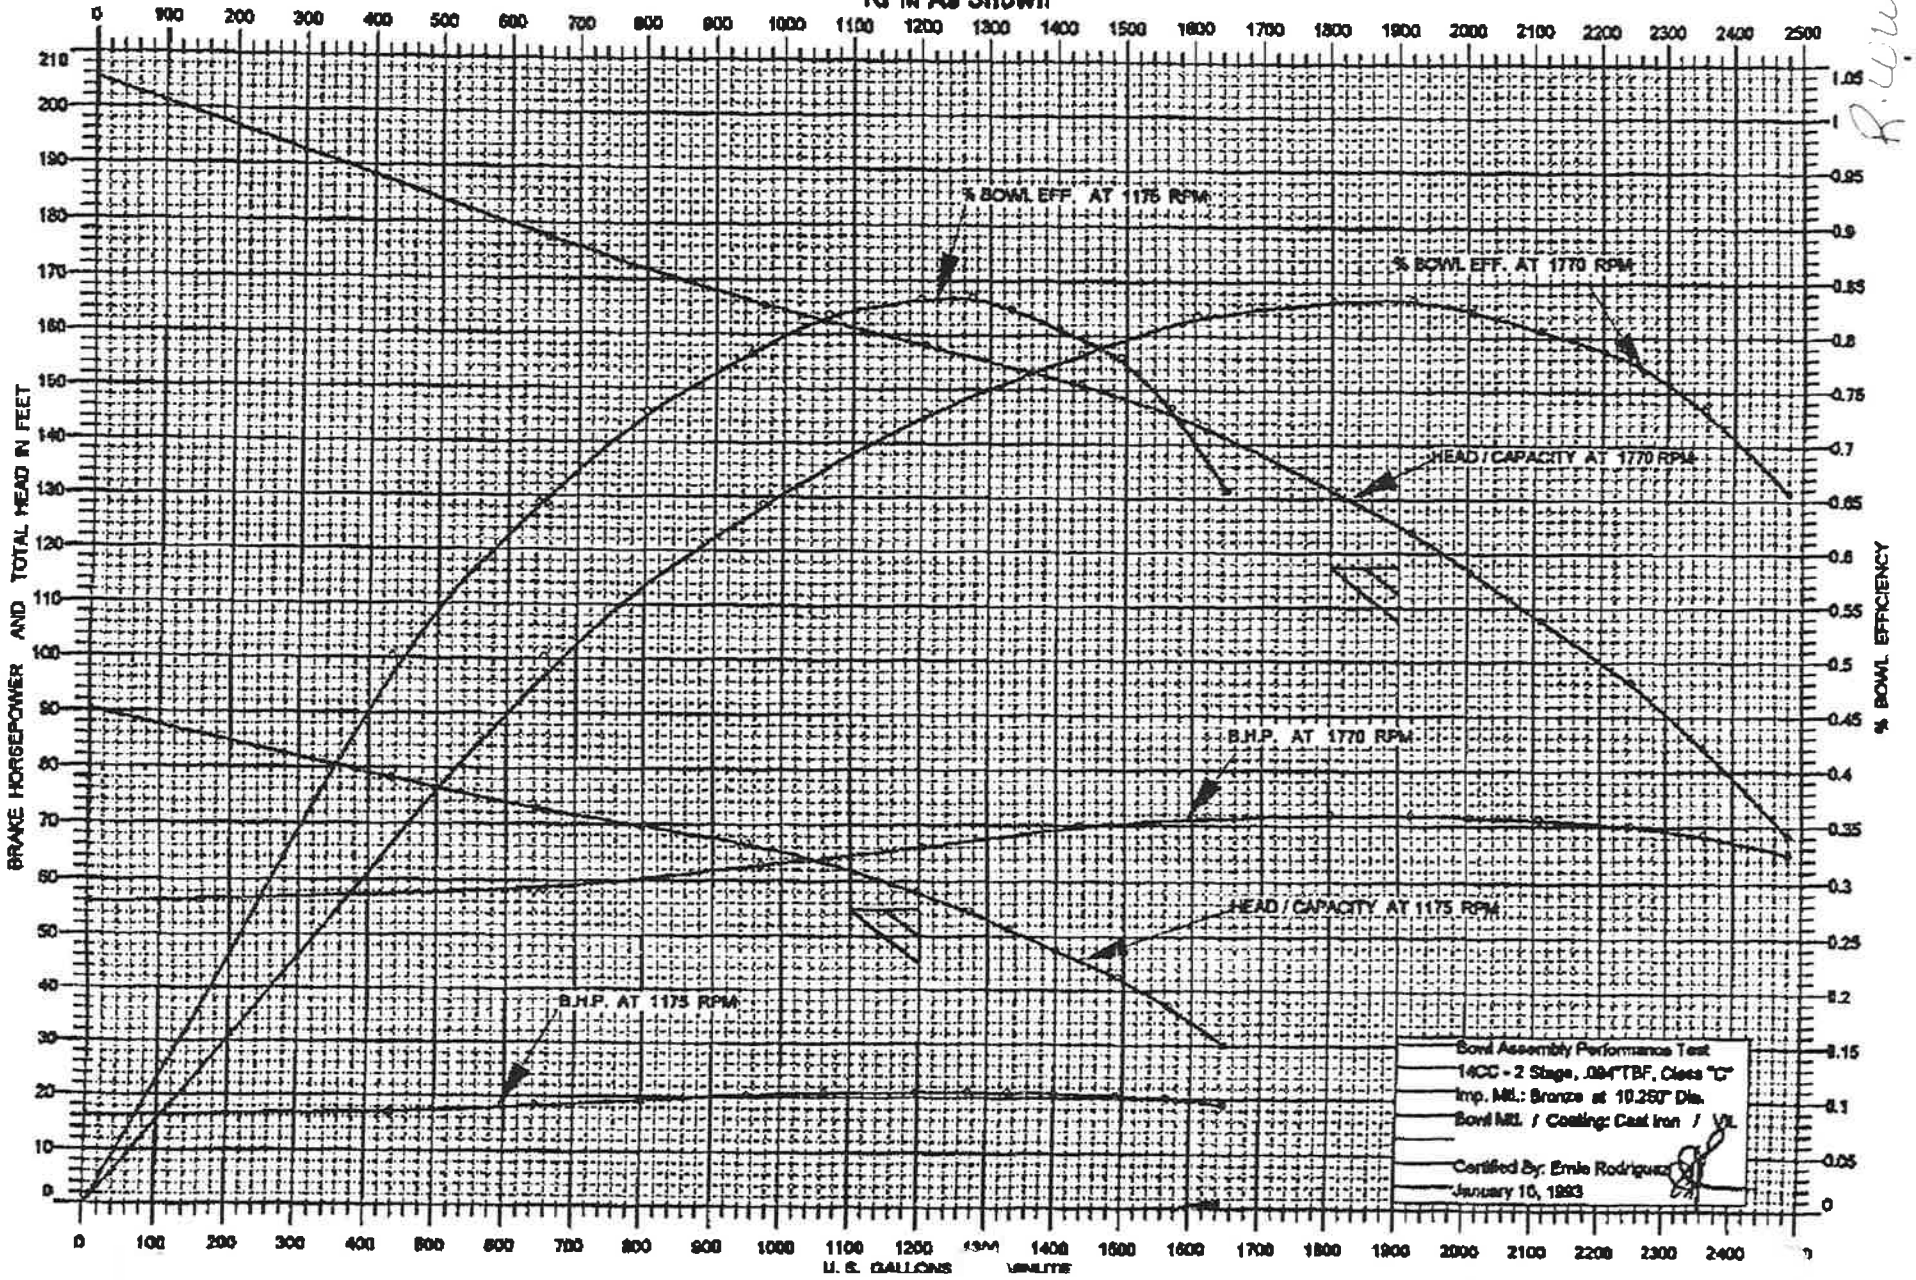
5.4.3 Coordination with UGA System Operations

Several of the UGAs (Regional University, Placer One, and Placer Vineyards), are anticipated to have storage tanks that the City's system will discharge into. The City should work with the UGA operators to maintain control of storage tank fill rates and times, and ensure that recycled water supply agreements with the UGAs provide for City to have the control needed to implement the System Operation Plan.

5.4.4 Future Updates

As previously noted, the operation of the system depends heavily on the balance of projected supplies and demands, and the daily patterns associated with each. A number of assumptions have been made about future uses, including adjustments to demand patterns associated with customers who have on-site storage, as well as demands associated with urban growth areas. As development plans are updated, or as new developments in West Roseville or other UGAs are constructed, these demand estimates may become outdated. New customers may also be identified with potentially significant demands, and the consumption patterns may differ from the assumptions described in this report.

It is therefore recommended this Systems Evaluation be updated every five to ten years or as significant changes in potential demands are identified to ensure that the Systems Evaluation remains current. This will also provide an opportunity to review observed peaking factors and diurnal patterns, and update the model to enable the model to continue answering operational questions.



APPENDIX A: NEAR-TERM POTENTIAL DEMAND CUSTOMERS

ID	Customer Name	Customer Type	On-Site Storage (Yes/No)	Annual Average Demand (AFY)	Average Day Demand (MGD)	Peak Day Demand (gpm)	Modeled Demand Node(s)

APPENDIX C: DETAILED COST ESTIMATES

Cost Estimating Worksheet

ROSEVILLE RECYCLED WATER SYSTEM PROJECT DESCRIPTION

PROJECT ID: B-1

LOCATION: West Roseville PS

BRIEF PROJECT DESCRIPTION: Upsize bypass at West Roseville PS/Pleasant Grove WWTP from 10" to 24"

PROPOSED PROJECT PHASING: 0

REASON FOR PROJECT: Improve system reliability and flexibility

SPECIAL CONSIDERATIONS: Small project (additional 15% contingency)

ALTERNATIVES: Parallel pipe could be installed.

MAJOR ITEMS	Size	Quantity	Unit	UNIT COST	COST
Baseline Pipe Construction Cost					
Pipe (PVC)	24 in.	50	LF	365 $/ft	$18,245
Connection to Existing System		2	EA	19,607 $/EA	$39,215
Surface Restoration					
Pavement Restoration	50' long	6' wide	300' SF	9.62 $/sf	$2,887
Subtotal					$60,346
Mobilization and Demobilization				**10%**	$6,035
Raw Construction Cost Subtotal					**$66,000**
Engineering/Construction Management and Administration, and Legal Costs				**20%**	$13,200
Subtotal					**$79,200**
Project Contigency				**30%**	$23,760
Small Project Contingency				**15%**	$11,880

Capital Improvement Cost Total **$115,000**

ENR = 14,511 (Average of 20 Cities and San Francisco, March 2025)

Cost Estimating Worksheet

ROSEVILLE RECYCLED WATER SYSTEM PROJECT DESCRIPTION

PROJECT ID: I-1

LOCATION: Angus Rd and Casa Sedona Dr

BRIEF PROJECT DESCRIPTION: Add an intertie between the the West and North Pressure Zones

PROPOSED PROJECT PHASING: 0

REASON FOR PROJECT: Improve system reliability and flexibility

SPECIAL CONSIDERATIONS:

ALTERNATIVES: A different alignment could be used. A larger diameter pipe could be considered to provide additional future flexibility.

MAJOR ITEMS	Size	Quantity	Unit	UNIT COST	COST
Baseline Pipe Construction Cost					
Pipe (PVC)	6 in.	1640	LF	180 $/ft	$295,669
Connection to Existing System		2	EA	1,429 $/EA	$2,858
Misc. Pipe Appurtenances (valves)				5%	$14,926
Traffic and Construction Productivity Factors					
Traffic Control		5% of baseline pipe cost		5%	$14,783
Surface Restoration					
Pavement Restoration	1,640' long	4' wide	6,560' SF	9.62 $/sf	$63,128
Subtotal					$391,365
Mobilization and Demobilization				**10%**	$39,136
Raw Construction Cost Subtotal					**$431,000**
Engineering/Construction Management and Administration, and Legal Costs				**20%**	$86,200
Subtotal					**$517,200**
Project Contigency				**30%**	$155,160

Capital Improvement Cost Total **$672,000**

0 Previous TM Publication and Updates

Since the latest publication of technical memorandum (TM) 5b on February 8, 2007, changes in information available for the South Placer Wastewater and Recycled Water Systems Evaluation (Systems Evaluation), as well as changes in the data, have resulted in the need to identify and update out-of-date information. This newest publication of TM 5b reflects the changes in available data and/or assumptions.

1 Introduction

The objectives of this TM are to define and evaluate recycled water facilities alternatives to serve the existing City of Roseville (City) service area and Urban Growth Areas (UGAs).

This TM is organized as follows:

- Introduction
- Alternatives Development
- Alternatives Evaluation
- Implementation Plan
- Bibliography

1.1 Project Alternative Definition

Each recycled water project alternative is defined as the combination of the treatment, storage/pumping, and distribution options (supply side) necessary to serve targeted users located in a given service area (demand side). Alternatives for delivering recycled water were evaluated using H_2ONet hydraulic modeling software.

The development of the recycled water project alternatives involved defining the following components for each alternative:

- **Service Area:** Where would recycled water be used?

  Recycled water will be used in the existing Roseville service area (generally in the vicinities of the regional WWTPs; north and west of I-80/UPRR) in addition to Urban Growth Areas.

Recycled water will be used as irrigation for business parks, commercial, multi-family developments, golf courses, parks, and streetscape. Industrial customers will use recycled water for non-contact cooling processes.

- **Treatment:** Where would recycled water be produced?

  Recycled water would be produced at the Pleasant Grove Wastewater Treatment Plant (PGWWTP) and at the Dry Creek Wastewater Treatment Plant (DCWWTP) to supply customers in the existing service area and UGAs.

  An option of satellite treatment will be evaluated for Placer Vineyards (PV) and Placer Ranch (PR) UGAs. Satellite treatment would consist of seasonally operated treatment facilities to treat wastewater from the UGA before it reaches the WWTP. Treated recycled water would be directly pumped back to the corresponding UGA.

- **Storage:** How much recycled water would need to be stored and where?

  Each UGA will be required to have a storage facility to hold recycled water. The minimum operational storage volume of each UGA storage tank is equal to the maximum day demand of recycled water.

  The existing 1.5 MG storage tank at the North Zone Pump Station (NZPS) will be utilized to hold recycled water supplied by DCWWTP and a supplemental supply will be provided from PGWWTP.

  The need for operational storage at PGWWTP and DCWWTP will be evaluated.

- **Distribution:** How would recycled water be distributed to the different users?

  In general, pipelines will be located in major corridors (roadways or along property boundaries), but have flexibility in the specific alignment.

1.2 Project Alternatives Development and Evaluation Update

The recycled water setting has changed since the development of the April 2000 Recycled Water Distribution Feasibility Study (RWFS), presenting new opportunities and new challenges. Because of these changes, the recommended recycled water project and associated implementation plan included in the 2000 RWFS were revisited. The treatment, storage/pumping, and distribution options identified in the 2000 RWFS formed the basis for project alternative development and evaluation. Existing facilities are listed in **Table 1**. Additional facility improvements will be evaluated in the following sections.

Table 1: Storage and Pumping Facilities

Existing Storage and Pumping Facilities Used in the Hydraulic Model		
North Zone Storage Tank	(Feet)	**North Zone Pump Station**
Base Elevation (floor)	123.0	Pumps
Minimum Water Level	5.0	2 duty pumps, 1 standby
Maximum Water Level	16.5	Pump Curve (all three pumps)
Initial Water Level (for modeling)	5.0	Design Point: 950 gpm at 140 feet
Diameter	124.0	Shutoff Head: 0 gpm at 234 feet
Datum for all elevations: Sea Level (0 feet)		High Flow: 1,338 gpm at 0 feet
		Pumps water from Storage Tank
Dry Creek Pump Station		**Pleasant Grove Pump Station**
Pumps		Pumps
3 duty pumps, 1 standby		2 duty pumps
Pump Curve (all four pumps)		Pump Curve (both pumps)
Design Point: 1,900 gpm at 124.6 feet		Design Point: 5,120 gpm at 124 feet
Shutoff Head: 0 gpm at 206 feet		Shutoff Head: 0 gpm at 192 feet
High Flow: 2,480 gpm at 0 feet		High Flow: 7,680 gpm at 0 gpm
Pumps from a wet well with a water surface elevation of 114 ft.		Pumps from a wet well with a surface elevation of 90 ft.

1.3 Approach

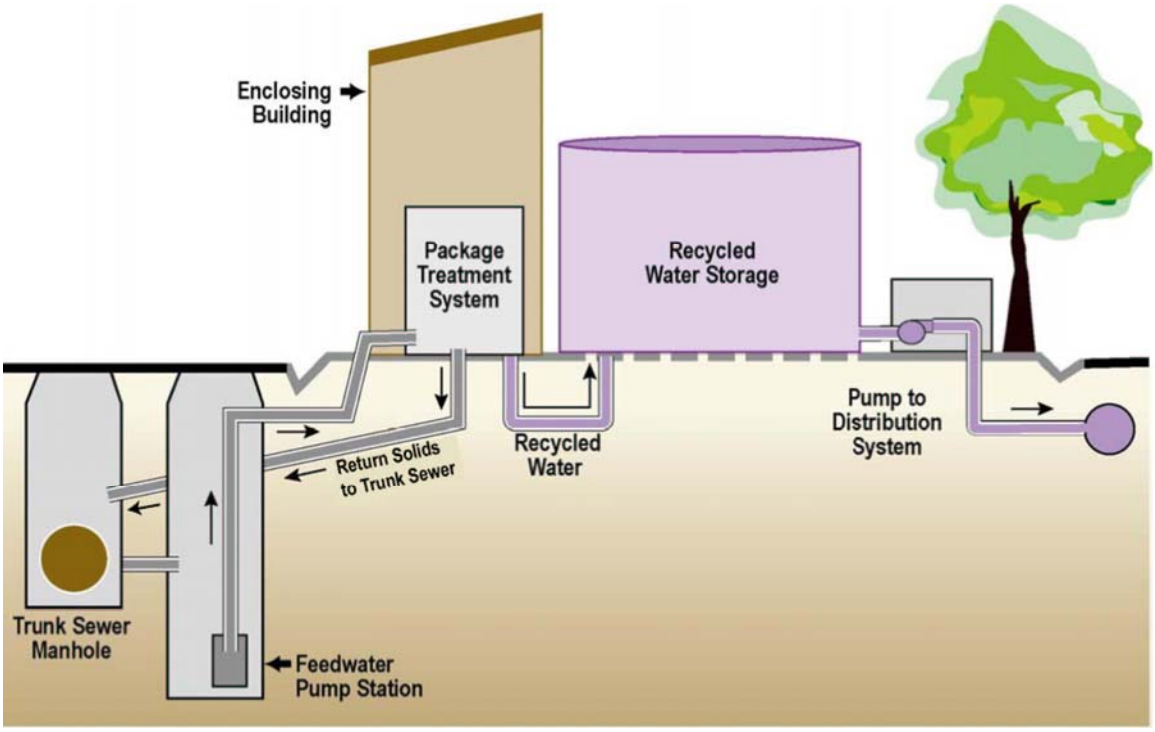
The following approach was adopted to meet the TM objectives described above:

- Develop a list of conceptual alternatives (including preliminary sizing and alignments, pumping requirements and location and storage requirements) building on the technical work of the 2000 Recycled Water Distribution Feasibility Study
- Evaluate the pros and cons of each conceptual alternative to find the preferred alternative

2 Alternatives Development

This section presents the recycled water facilities alternatives that were developed by:

- Considering the different options available for each project component
- Combining these options to form logical project alternatives
- Developing the necessary technical information necessary to define and evaluate each alternative



2.1 Alternatives Identification

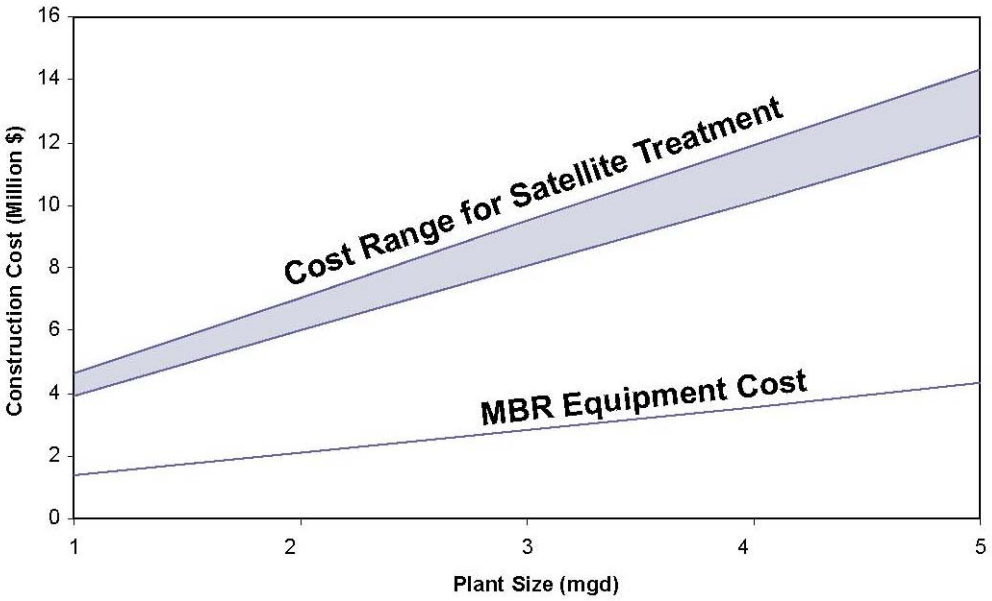
Two basic categories of options are available for the production of recycled water: centralized treatment with distribution from Pleasant Grove and Dry Creek WWTPs, and satellite treatment and distribution. This section will discuss satellite treatment, detail the treatment process, costs, and advantages and disadvantages (relative to centralized treatment). Distribution options and pipeline alignments along with storage requirements will also be discussed in this section.

2.1.1 Satellite Treatment

Satellite facilities would treat the wastewater from local trunk sewers to tertiary standards and likely return solids back to the trunk sewer. Recycled water would be available for use in the vicinity of the satellite plant. A conceptual illustration of a facility is shown in **Figure 1**. Seasonally operated satellite treatment could be used to supply the furthest UGA from PGWWTP, which is Placer Ranch and DCWWTP which is Placer Vineyards.

Figure 1: Conceptual Illustration of Satellite Recycled Water Facility

The treatment technology most widely used currently for new satellite treatment facilities is a membrane bioreactor (MBR). This technology combines the secondary biological process with the filtration process in a single reactor, an aeration tank with submerged membranes. RMC gathered data from ten satellite plants ranging in size from 0.3 mgd to 10 mgd (RMC, 2004). Information gathered included capital cost, MBR equipment costs, and operation and maintenance (O&M) costs for the surveyed satellite treatment facilities (all costs are expressed in 2004 dollars). Using this information, RMC has investigated the degree to which satellite treatment facilities could be more cost effective than serving recycled water from the central treatment plant through a pipeline.



Footprint Size

Footprint sizes can vary widely; from the available data it was extrapolated that a plant size ranging from 1 to 5 mgd would require approximately 4 acres of land. This would be an appropriate land assumption for PR and PV because their demands are 3.34 and 5.4 mgd, respectively. This footprint requirement includes space for the treatment process, as well as for a distribution pump station. It does not include land requirements for recycled water storage, which might add an additional acre of land depending upon tank configuration and surrounding land use.

Construction Costs

Capital costs varied widely due to the variety in construction and operation of each plant. A cost curve was developed based on MBR quotes from Zenon and US Filter and construction cost information from interviewed satellite treatment facilities, shown in **Figure 2**.

Figure 2: Planning Level Cost Guidelines – Construction Cost ($ 2004)

A reasonable construction cost estimate for PR is $12.5 million (including MBR equipment costs). Similarly, PV construction cost estimate would be $18.75 million. Placer Vineyards costs were extrapolated from the graph. This does not include the cost of land. Also this does not include the cost of recycled water storage and distribution facilities, since these costs are paid for by the developer in both the satellite and central treatment options. For reference, from this estimate, MBR equipment costs would be approximately $3.25 million for PR and $4.75 million for PV.

Operation and Maintenance Costs

Annual O&M Costs are shown on **Figure 3** below. Again, the annual cost for each plant varies. This variability is due to different unit processes and different approaches to operation and maintenance that each plant employs. From the information obtained in Figure 3, annual operation and maintenance costs will be approximately $300,000 for PR and $500,000 for PV per year.

Figure 3: Comparison of Annual O&M Cost to Plant Size ($ 2004)

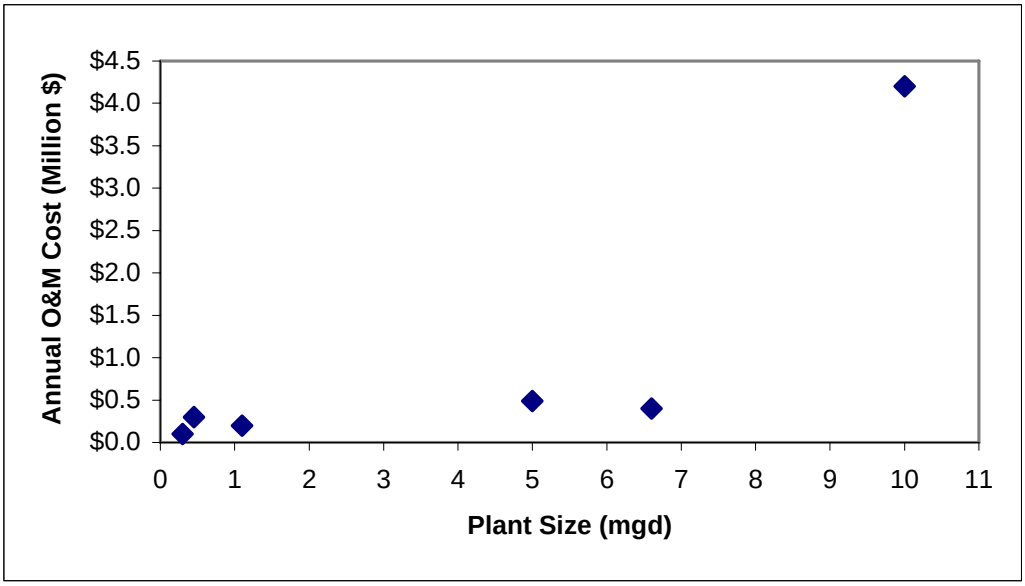


Table 2 provides a cost summary to build and operate a satellite treatment facility at PR and PV. Total present value cost for PR would be $17.4 million and PV would be $27 million.

Table 2: Satellite Treatment Cost Summary

Cost [a]	Placer Ranch	Placer Vineyards
Construction Costs	$12,500,000	$18,750,000
Present Value O&M Cost [b]	$9,905,000	$8,176,000
Total Present Value Cost for Satellite Treatment Alternative	**$17,405,000**	**$26,926,000**
Pipeline Cost for Centralized Transmission Treatment Alternative [c]	**$1,207,000**	**$2,840,000**
Low Cost Alternative	**Centralized**	**Centralized**

Footnotes:

a. 2004 dollars, no inflation assumed
b. Present value is calculated over a 20 year period. Assumed inflation rate = 3%, interest rate = 5%, therefore the discount rate = 2%.
c. Cost to install recycled water pipeline including contingency factors. See Section 4.2 and Attachment C.

Conclusions

Feasibility of satellite recycled water treatment can be determined by comparing its cost effectiveness to the development or expansion of centralized water recycling and transmission of recycled water to the use site.

Note: From a cost standpoint, satellite recycled water treatment has become a competitive alternative for recycled water production and delivery to remote areas; generally 5 to 10 miles beyond the central WWTP and other recycled water customers. PR and PV are the furthest UGAs from Pleasant Grove WWTP, but their distances are not remote enough to offset the capital and O&M costs associated with satellite treatment. PR and PV are both adjacent to other recycled water

customers (UGAs) and, depending on the location where recycled water is delivered, are only 1 to 3 miles from the nearest customer.

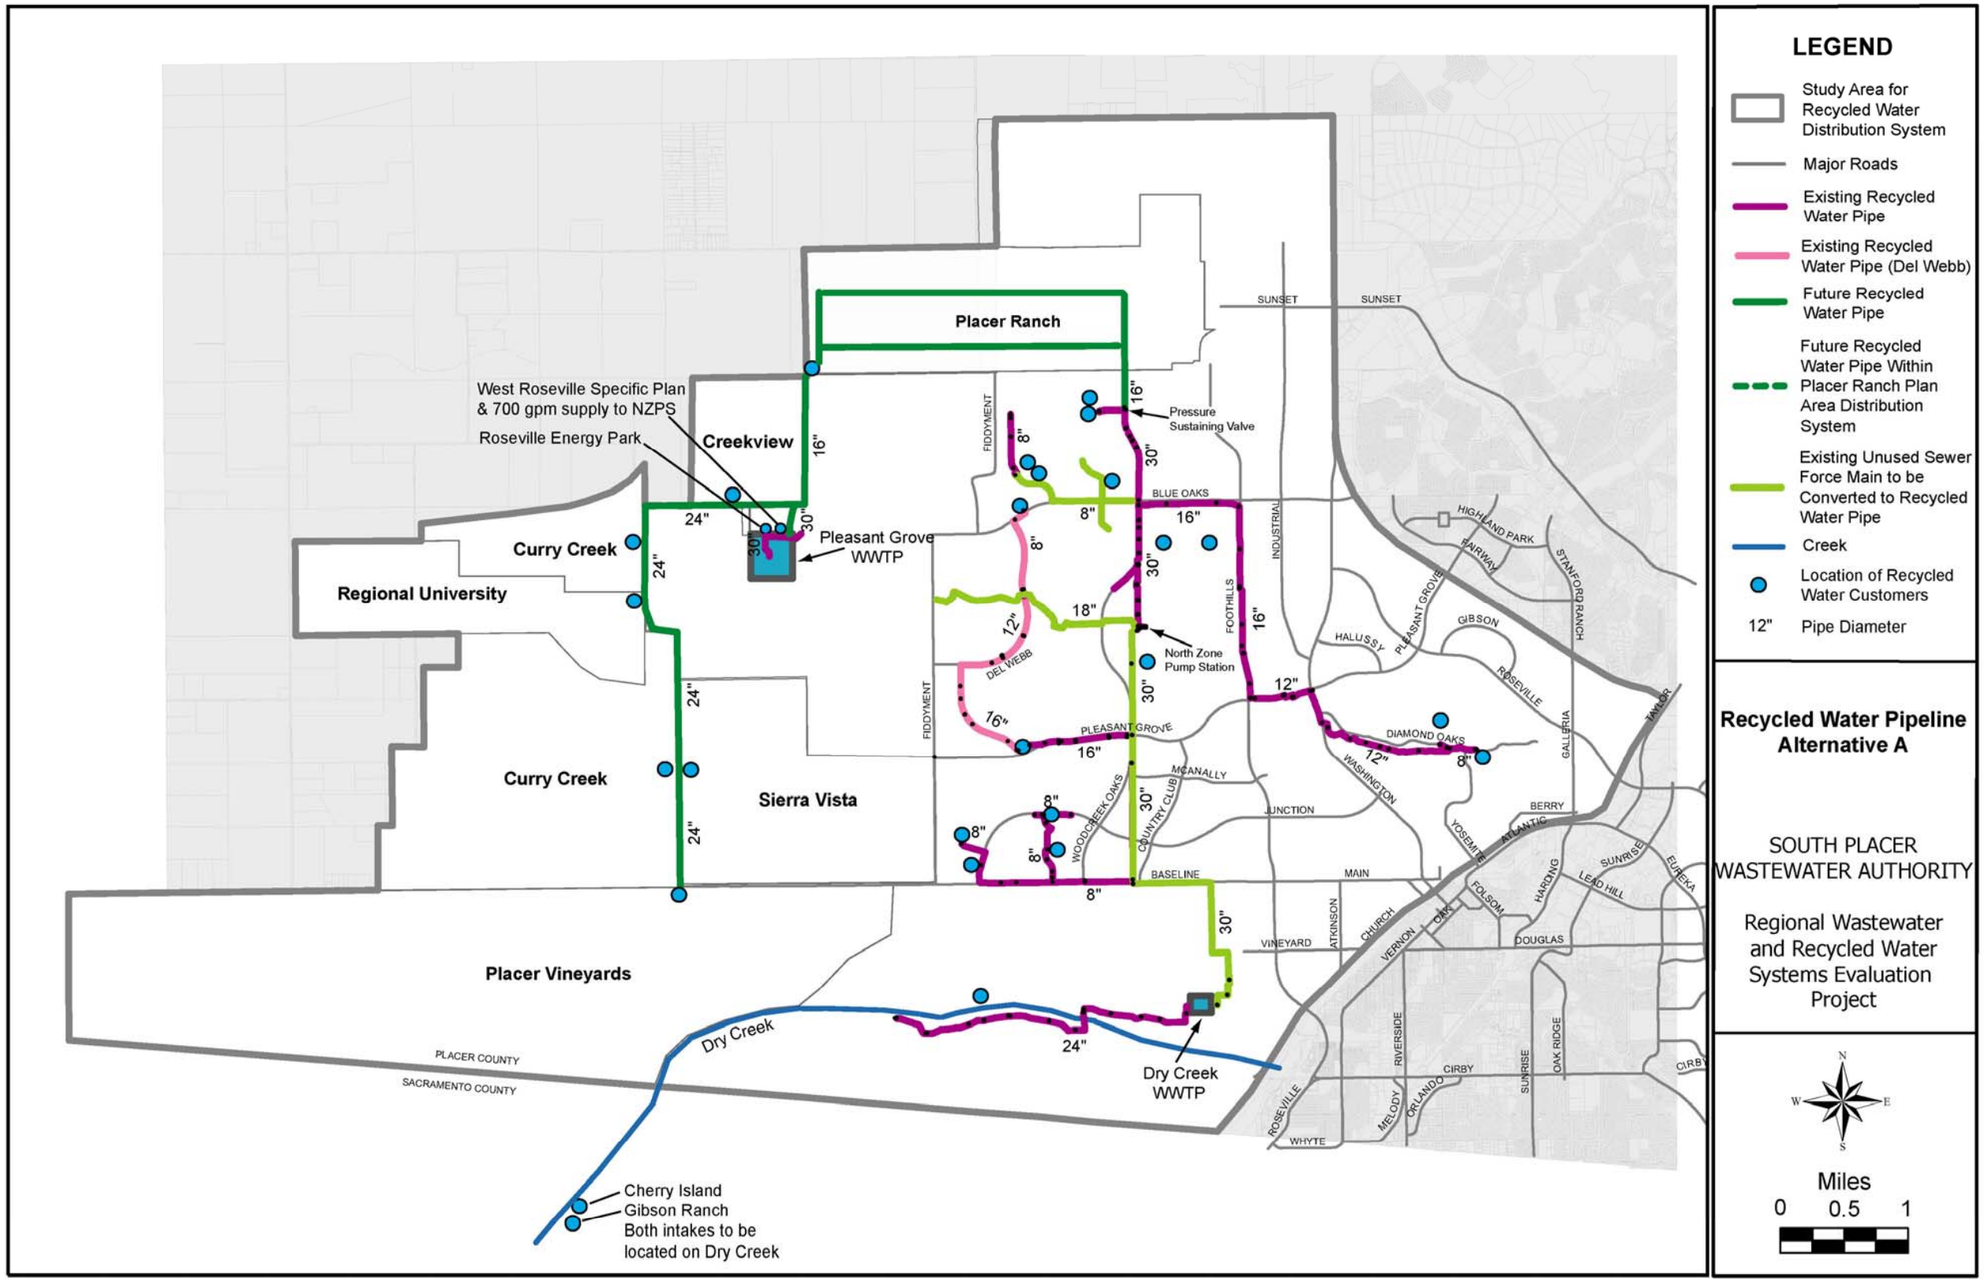
Proposed recycled water pipelines will distribute water to UGAs along a path towards PR and PV. It would be unreasonable to pursue the option of satellite recycled water treatment because of the following reasons: the PGWWTP and DCWWTP can provide the required recycled water, a recycled water distribution system is currently being developed, and PR and PV are less then 5 miles from the nearest recycled water customer. The option best suited for the given situation would be a centralized treatment and distribution from the Pleasant Grove and Dry Creek WWTPs. Incidentally, if recycled water were needed to be distributed to regions within South Placer Wastewater Authority (SPWA) service area further from the WWTPs, (e.g. Granite Bay, Rocklin, or Loomis) at some point in the future satellite treatment may be the best choice.

2.1.2 Description of Pipeline Alternatives

A hydraulic analysis using H_2O Net was performed to compute the pipeline diameter needed to serve the identified customers while conforming to a set of hydraulic criteria. The set of hydraulic criteria that was used is shown in **Table 3**.

Table 3: Hydraulic Design Criteria for Model Development

System Component	Unit	Value
Minimum Pressure at Customer Connections During Irrigation Period [a]	psi	60 [b]
Minimum Pressure at Customer Connections During Non-irrigation Period	psi	40
Maximum Pressure	psi	120
Minimum Pipe Size (including laterals)	inches	6
Available Pipe Sizes [c]	inches	6, 8, 12, 16, 24, 30
Maximum Head Loss	feet per 1000 feet	5
Velocity Range	feet per second	2 – 8
Hazen-Williams Coefficient for Headloss Calculation	n/a	130



Footnotes:

a. South zone of Recycled Water System (south of North Zone Pump Station) will have an operating pressure of 30 psi
b. This pressure is for customers without a recycled water storage facility.
c. Per Roseville Standards for Recycled Water.

Since satellite treatment is not recommended for currently anticipated demands, there are three distribution alternatives that will be evaluated in this TM. The following alternatives are described below.

- **Alternative A: Non-Looped System.** New pipe from Pleasant Grove WWTP will connect to existing recycled water pipe along Phillip Road, and follow UGA boundaries around the western border of West Roseville Specific Plan and Sierra Vista. The pipe will end at the northern boundary of Placer Vineyards as shown in **Figure 4**. The pipeline will also run north on the eastern side of Creekview and end at the southwest corner of Placer Ranch. An internal Placer Ranch pipe will connect to the 30" recycled water pipeline stub on Woodcreek Oaks Blvd. with a pressure sustaining valve. This configuration will allow recycled water to flow either to or from the North Zone tank. In this alternative, it is assumed that PGWWTP will supply Placer Vineyards.

Figure 4: Map of Alternative A – Non-Looped System

- **Alternative B: Looped System.** Recycled water pipelines would follow similar alignments as Alternative A, however pipe will continue east along the northern border of Placer Vineyards and connect the 24" gravity recycled water line near Dry Creek as shown in **Figure 5**. Placer Vineyards could be supplied by either DCWWTP or PGWWTP. The 24" gravity line may need to be pressurized; therefore changes may be required at the DCWWTP recycled water pump station. Currently recycled water flows by gravity from the chlorine contact basins to Morgan Creek Golf Course. Additional pumping will most likely be required to have the necessary hydraulic head to reach Morgan Creek Golf Course and Placer Vineyards. This will be described in more detail later in the TM.
- **Alternative C: Additional Flow through West Roseville Specific Plan.** New pipe from PGWWTP will connect existing recycled water pipe along Phillip Road, and follow UGA boundaries around the western border of West Roseville Specific Plan and Sierra Vista. The pipe will end at the northern boundary of Curry Creek South and Sierra Vista as shown in **Figure 6**. The pipeline will also run north on the eastern side of Creekview and end at the southwestern corner of Placer Ranch. Placer Vineyards will be supplied recycled water from DCWWTP via the 24" pipeline running parallel to Dry Creek. Placer Vineyards will install a pipe to distribute recycled water from the terminus of the existing 24-inch recycled water pipeline along Dry Creek to a storage tank on West Dyer Lane and 16th Street.

  To balance the recycled water demands on each wastewater treatment plant, recycled water will be distributed from PGWWTP to Woodcreek Oaks Golf Course (WOGC) and Sun City Golf Course (SCGC). Their pipe connections can be retrofitted to receive recycled water from DCWWTP or PGWWTP as the system grows to best use available recycled water. This will be described more in detail in the following section.

  Water will be transferred to WOGC and SCGC via the 24" recycled water pipeline through West Roseville Specific Plan and through the 18" converted force main. To minimize the amount of pumping, the WRSP pump station 24" inlet is connected to the to the 24" outlet, which allows bypassing the WRSP pump station. Recycled water can then be sent to the WOGC and SCGC storage facilities directly from the PGWWTP pump station. This configuration provides flexibility for supplying RW to the WOGC and SCGC during the 15-hour non-irrigation period. This option is available during the non-irrigation period because the WRSP pump station will not be used. During the irrigation period the bypass will be closed and the pump station will operate normally.

  The Sun City Golf Course storage pond can be connected by tying the 18" converted force main in Del Webb Boulevard into an existing 8-inch recycled water main in Del Webb Boulevard. This will serve the purpose of filling the SCGC pond from PGWWTP. The Woodcreek Oaks Golf Course would utilize a portion of the existing 18" recycled water line which will be decommissioned. Recycled water will flow south through the 18" recycled water line from the 18" converted force main/30" converted force main connection to the lake. When completed there will be two connections to the Woodcreek Oaks Golf Course lake, the 18" recycled water line and the 30" converted force main.

Figure 5: Map of Alternative B – Looped System

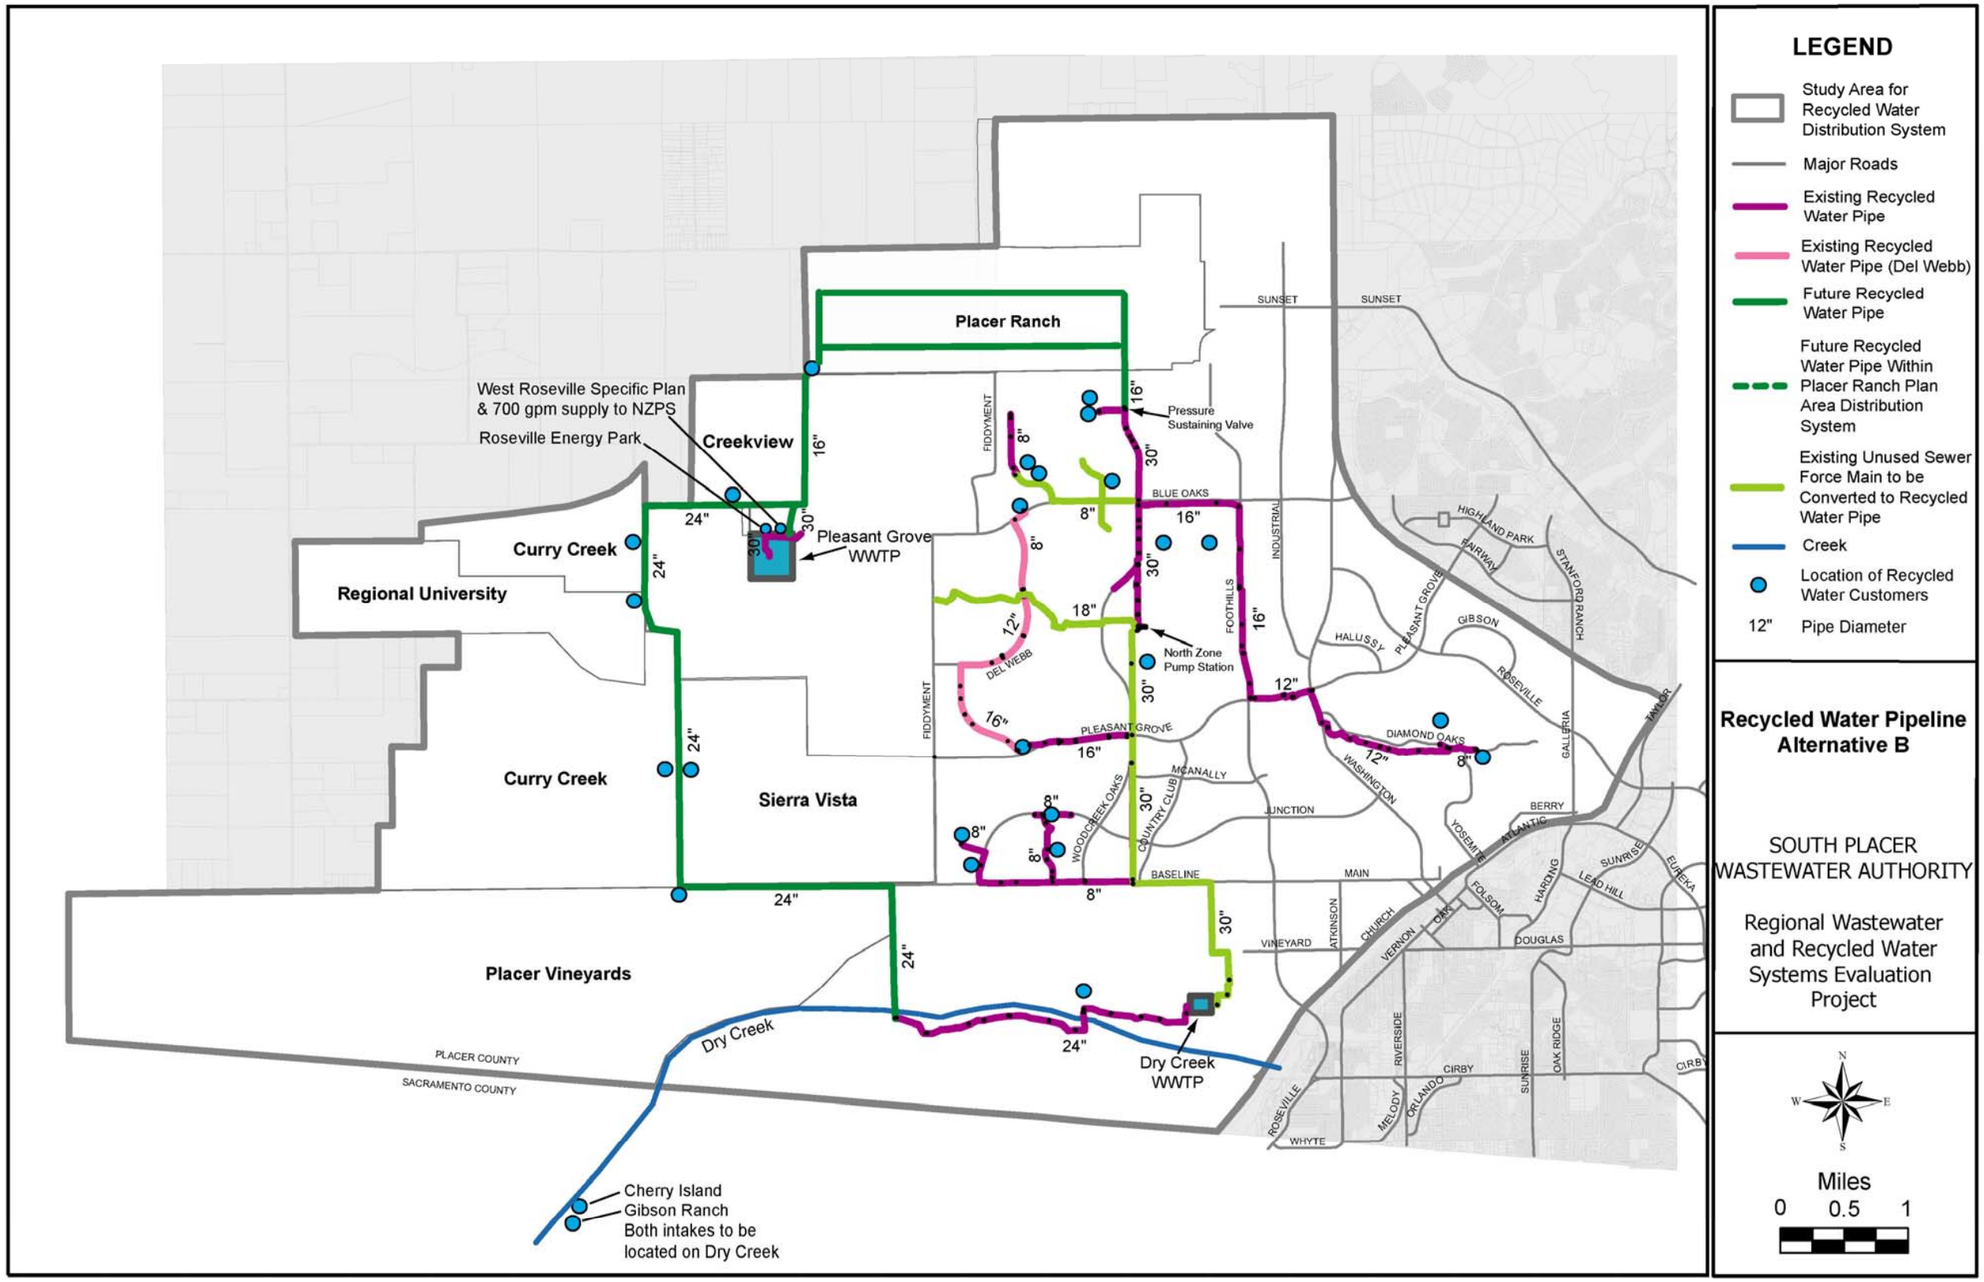


Figure 6: Map of Alternative C – Additional Flow through West Roseville Specific Plan

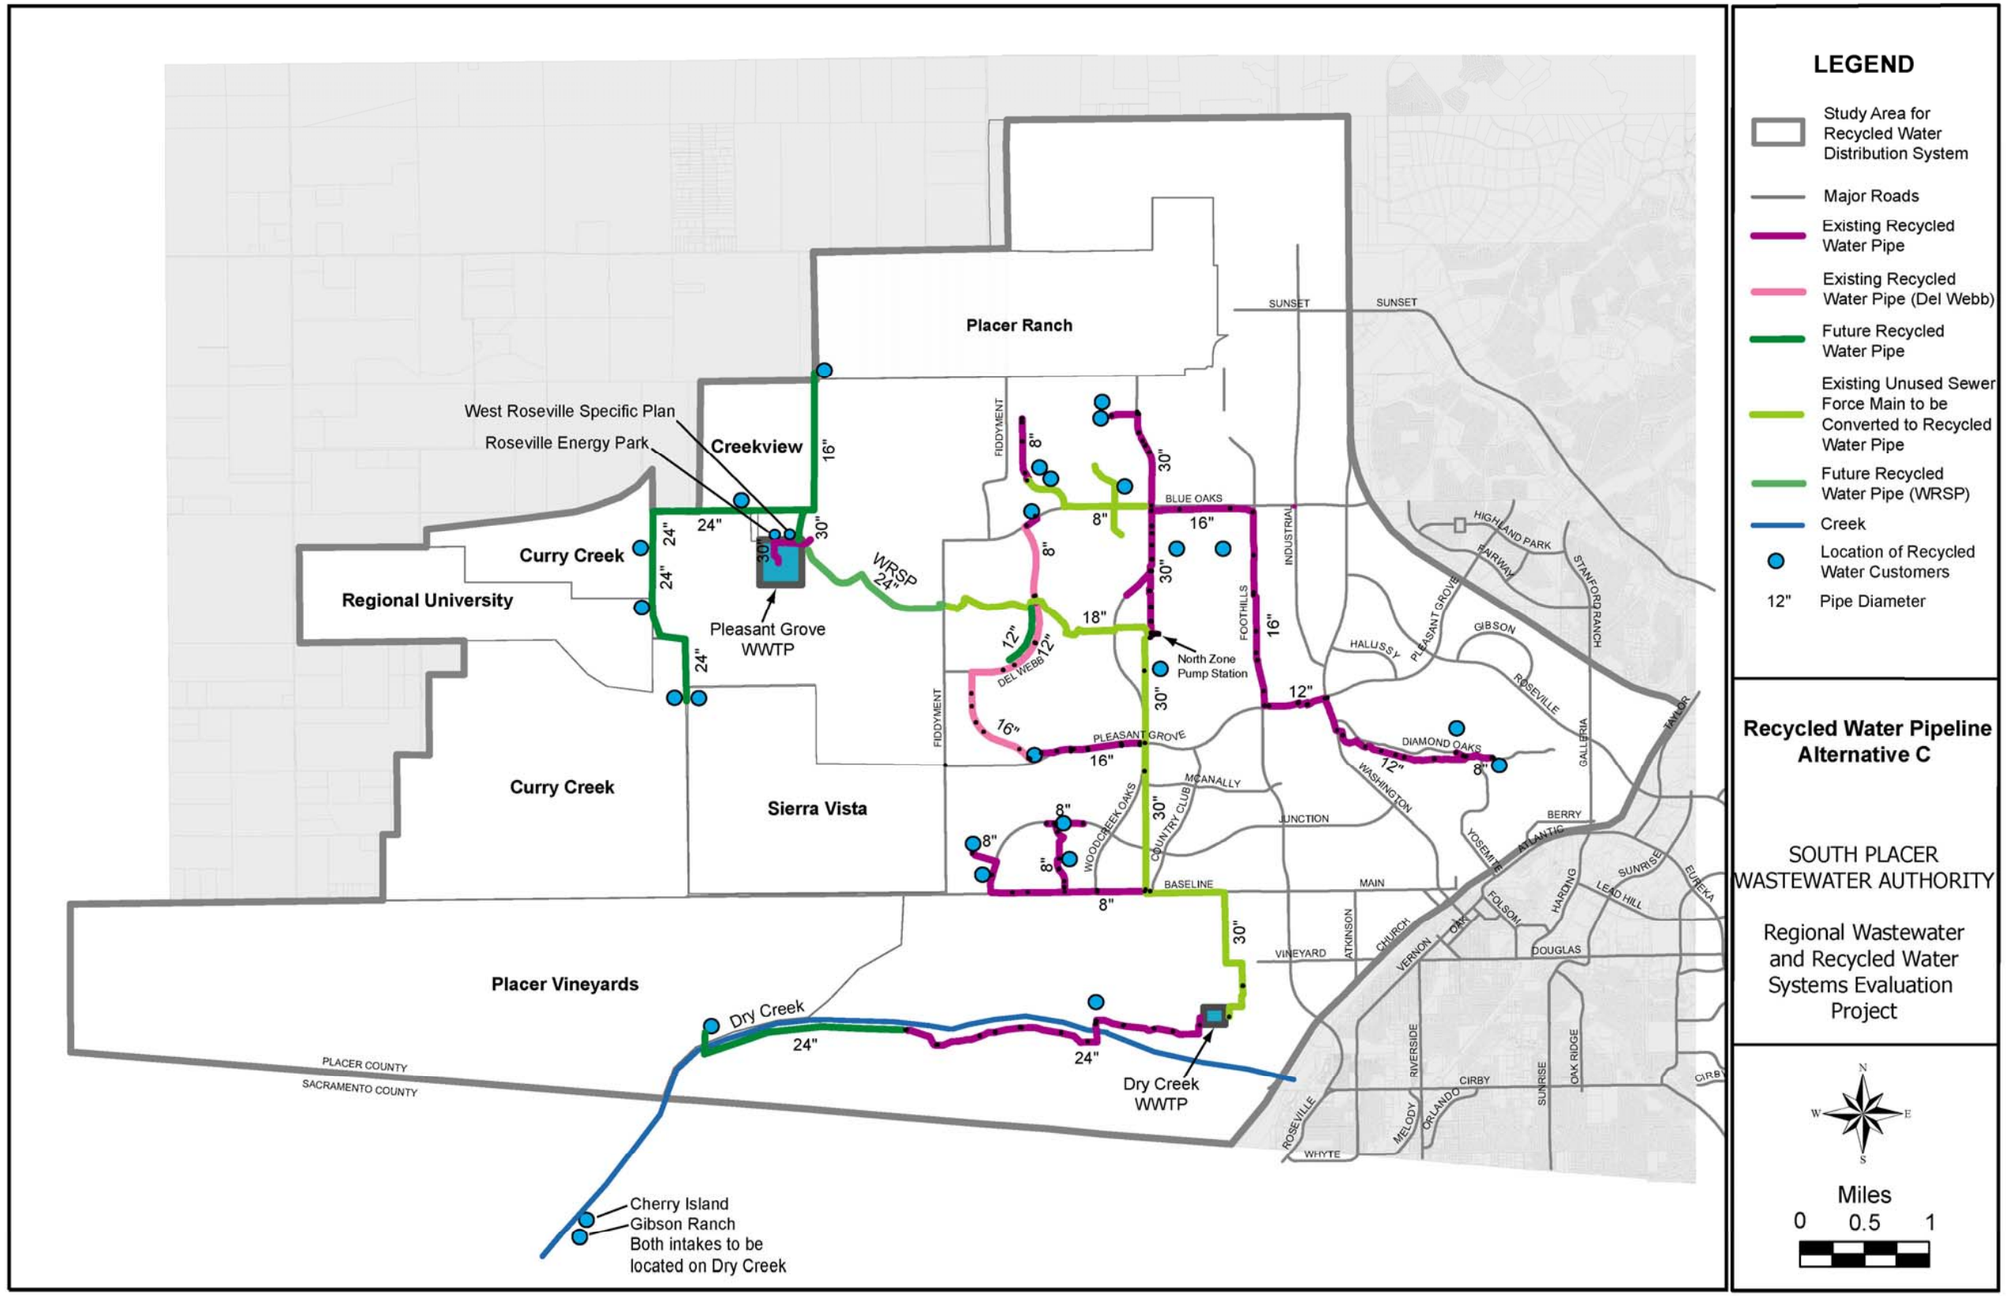

Table 4 lists the lengths and diameters of new recycled water pipelines that would be installed for each alternative and the existing force mains that will be converted to recycled water pipes. Alternative B has the largest amount of pipe installed because the northern and southern sections of the City are connected.

Table 4: Description of Alternatives

	New Pipe Diameter (inches)	Existing Force Main to be Converted to Recycled Water Pipe (feet)	Length of New RW Pipe (feet)
All Three Alternatives	30”	19,600	-
	18”	9,700	-
	8”	8,900	-
	Total	**38,200**	**-**
Alternative A	30”	-	3,100
	24”	-	23,000
	16”	-	7,300
	Total	**38,200**	**33,400**
Alternative B	30”	-	3,100
	24”	-	37,300
	16”	-	7,300
	Total	**38,200**	**47,700**
Alternative C	30”	-	3,100
	24”	-	21,400
	16”	-	5,800
	12”	-	2,700
	Total	**38,200**	**33,000**

2.1.3 Recycled Water Storage Analysis

Due to the high demand for recycled water, hourly irrigation patterns, and diurnal fluctuations of wastewater effluent, an hour-by-hour analysis has been conducted to determine the storage requirement and the operational scenarios at the Pleasant Grove and Dry Creek WWTPs to optimize recycled water distribution. Scenarios are developed assuming there will be a storage facility (tank or pond) at each UGA with a volume to store one peak day (July day) of recycled water demand. Diurnal fluctuations in recycled water generation produce a challenge in supplying customers during the irrigation period from 9:00 PM to 6:00 AM for the following reasons: the highest demand for recycled water comes during the period of lowest generation and recycled water must be supplied during the non-irrigation period in addition to the irrigation period to fulfill the total demand of the UGAs.

Alternative C Storage Analysis

Multiple scenarios were evaluated to distribute recycled water to customers to show the amount of storage needed at either DCWWTP or PGWWTP in Alternative C. From the supply availability analysis, the recycled water demand in Alternatives A and B exceeded available supply, therefore a storage analysis was not deemed necessary. From the storage analysis, it was determined that recycled water storage will not be required at PGWWTP if recycled water is distributed to the UGAs as it is generated. Storage is

also not required at DCWWTP. The detailed storage calculations can be found in **Attachment A** and are summarized in **Table 5**. The following scenarios present variations in recycled water distribution to customers with storage facilities.

Pleasant Grove WWTP Distribution Scenarios:

- 24-hour Distribution – Recycled water would be distributed equally to all customers over a 24 hour period. For UGAs, the storage tank is filled evenly through the day. Recycled water generated in excess of the water supplied to the UGAs will be discharged to the creek.
- 15-hour Distribution – Recycled water would be distributed to customers over the non-irrigation 15-hour period (from 6:00 AM to 9:00 PM). In this scenario, while water could be distributed during the irrigation period, it is assumed that all water produced during this time period will be discharged to the creek
- Equal Tank Fill – Recycled water would be distributed as it is generated and all UGA storage facilities are filled at the same rate. Once a tank is full, remaining water will be supplied to other storage facilities until all are filled. Excess water will be discharged to the creek after all the tanks are full. Four recycled water pumps will be required to pump the maximum effluent flow rate.
- Two Tank Fill – Recycled water would be distributed as it is generated and two UGA storage tanks will be filled at a time. Excess recycled water generated after all tanks are filled will be discharged to the creek. Four recycled water pumps will be required to pump the maximum effluent flow rate.
- Capped Flow Distribution – Recycled water would be distributed as generated but will not exceed a maximum flow rate of 16,000 gpm and water generated in excess of 16,000 gpm will be discharged to the creek. In this scenario, a minimum pressure of 10 psi will be at the furthest UGAs, with only three pumps operating at the PGWWTP recycled water pump station.

Dry Creek WWTP Distribution Scenarios:

- 24-hour Distribution – Recycled water would be distributed equally to creek customers over a 24 hour period.
- 15-hour Distribution – Recycled water would be only distributed to creek customers during the non-irrigation 15-hour period (from 6:00 AM to 9:00 PM).
- Creek Distribution – Recycled water would be distributed as it is generated to fill the North Zone Pump Station tank and to customers with storage facilities. Excess water from the filling the tank and pipeline distribution will be discharged to the creek. Creek customers will be supplied with recycled water until demand is fulfilled.
- Proportional Flow to Creek Customers – Recycled water would be distributed as it is generated to fill the North Zone Pump Station tank and to customers with storage facilities. Excess water from the filling the tank and pipeline distribution will be discharged to the creek. Creek customers will be supplied proportionally to volume demanded. This distribution is more theoretical because the creek customer's demands will be fulfilled at the same time. In proportional flow more recycled water is distributed to Gibson Ranch than Cherry Island per hour because the recycled water demand at Gibson Ranch is higher than Cherry Island.

Table 5: Storage Analysis for Alternative C

Scenario	Available RW to Supply to Customers During Low Generation Period	Required Storage at DCWWTP	Peak Flow Distributed through RW Pipeline (gpm)	Rank [a]
PGWWTP				
24-hour Distribution	No	Yes, 2.14 MG	15,825	3 (tie)
15-hour Distribution	No	Yes, 1.97 MG	23,193	3 (tie)
Equal Tank Fill	Yes	None	26,156 [b, e]	1 (tie)
Two Tank Fill	Yes	None	26,156 [b, e]	1 (tie)
Capped Flow Distribution	No [c]	None	16,000	4
DCWWTP				
24-hour Distribution	No	Yes, 1.70 MG	6,782	4
15-hour Distribution	No	Yes, 0.55 MG	6,782	3
Creek Distribution	Yes [d]	None	6,782	1
Proportional Flow to Creek Customers	Yes [d]	None	6,782	2

Footnotes:

a. Qualitative ranking based on analysis of required storage, supply and peak flow distribution.
b. These two scenarios would require a velocity greater than 10 ft/sec in the existing 30" recycled water pipe at the PGWWTP.
c. There is not enough time to fill all UGA tanks within 24 hour period if recycled water distribution is limited to 16,000 gal/min.
d. There is supply deficiency between 5:00 AM and 6:00 AM. From 5:00 AM – 6:00 AM an additional supply of 11,073 gallons is needed. This supply deficit of ~11,000 gallons can be eliminated if customers with storage facilities (like golf courses) are supplied more water during periods of higher recycled water generation
e. This scenario would require control and valve modifications to the West Roseville and North Zone Pump Stations, as well as design modifications to future pump stations.

Criteria used in ranking the distribution scenarios are based on the necessity of required storage at the treatment plant, availability of supply during all hours of the day, and the peak flow being pumped from the treatment plant pump station. Scenarios that do not require storage at the treatment plant rank higher than those that do; additionally, scenarios that do not have available supply for the demand are infeasible. Peak flow from the treatment plant is evaluated to determine pumping requirements. Maximum flow rates may occur for only a few hours a day, however exceeding the proposed design criteria is not recommended.

According to the hydraulic model and the storage analysis, in both the Equal Tank Fill and Two Tank Fill scenarios the maximum flowrate pumped between approximately 12:00 PM and 1:00 AM will exceed the velocity design criteria of 8 ft/sec in the 30" pipe from the PGWWTP pump station to the West Roseville Specific Plan Pump Station. This is assuming all UGAs are receiving the peak day demand at buildout. The velocity in that section of pipe (maximum 12 ft/sec) will be above 8 ft/sec for 13 hours per day and the 10 ft/sec for 4 hours per day. This daily maximum flow will peak during July and a total of four pumps would be needed to maintain pressure at the furthest UGAs from the PGWWTP. To accommodate either of these scenarios, two separate fill valves will be required to each tank at all future pump stations. This design will allow for the flexibility needed to distribute the recycled water supply as necessary.

It was concluded that this maximum flowrate and velocity would not be acceptable. To reduce the amount of flow in the 30" pipe, a new 30" pipe should be installed parallel to the existing pipe from the recycled

water pump station to the junction of the West Roseville Specific Plan pump station. It is recommended to monitor the pipe velocity over time to identify when and the length of time it is over 8 ft/sec. In the future, a parallel pipe can be installed. The 30" parallel pipe is being included as a recommended project. It is recognized that this additional 30" parallel pipe will only be needed at buildout and if the UGAs develop as indicated herein. It is recommended to revisit this analysis approximately every 5 years to confirm the need for this parallel pipe.

Another option to reduce the maximum flow in the 30" pipe is to "shave off" the peak flow rate and pump a maximum of 16,000 gpm from the pump station. Any flow in excess of the 16,000 gpm would be discharged to Pleasant Grove Creek. This would keep the velocity in the pipe around 7.5 ft/sec. This alternative is infeasible because there is not enough recycled water to supply UGA customers with their Peak (July) Day Demand.. Too much recycled water is "shaved off" and sent to the creek. The Two Tank or Equal Tank Fill is the recommended fill scenario.

For DCWWTP, distributing recycled water to the creek customers when available is the best operational scenario. There is enough supply at DCWWTP to serve customers south of the North Zone pump station and the customers from the 24" gravity line. The creek customers have storage ponds; therefore there is flexibility to fill throughout the day. As mentioned in Footnote D from **Table 5**, the demand exceeds supply from 5:00 to 6:00 AM. The supply deficit of 11,073 gallons can be eliminated if customers with storage facilities are supplied extra recycled water during period with excess supply.

2.1.4 Hydraulic Analysis for 24-inch Gravity Line

A hydraulic analysis was completed to determine if the 24" recycled water line from DCWWTP to Morgan Creek Golf Course and Placer Vineyards (PV) could remain a gravity line, as shown in **Attachment B**.. The proposed location of the (PV) recycled water storage tank is on the southwest corner of West Dyer Lane and 16th Street, in the center of UGA. The pipeline alignment used in this analysis through (PV) is along West Dyer Lane. The results of the analysis show the 24" pipe can remain gravity flow with certain limitations. The storage facilities must be filled in 24 hours,. A fill time of 15 hours representing the non-irrigation period is also not possible. A gravity line will limit the City's operational flexibility to supply recycled water. The pipeline also cannot be shut down in the summer months for maintenance or repair.

It is recommended to install a booster pump station at the recycled water pipe stub at Wallerga Road. This will provide the additional head needed to fill the Placer Vineyards tank in a shorter period than 24 hours. It is also recommended to connect the 24" line to the Dry Creek WWTP recycled water pump station or a low head pump to provide pressure for the storage facilities and to two future direct tap customers. The pressurized pipe will allow the City to supply customers with recycled water when it is available. If the 24" line is pressurized from DCWWTP, then the booster pump may not be needed.

3 Alternatives Evaluation

This Section will:

- Present criteria that will be used to evaluate project alternatives identified in Section 2
- Show results of the alternatives evaluation
- Present the alternative that is recommended

3.1 Evaluation Criteria

A set of economic and non-economic criteria addressing specific issues within the planning area will be developed to evaluate the recycled water facilities alternatives. These criteria are found in **Table 6** as follows:

Table 6: Alternative Evaluation Criteria

Criteria	Description
Meets Recycled Water Demand	Ability to meet total recycled water demand
Estimated Cost	Total Capital Costs
Flexibility	Ease with which (1) recycled water can be delivered from either treatment facility to meet demand, (2) SPWA can adapt to changes in planning assumptions regarding future demand patterns, projected resources or other uncertainties, and (3) system can be phased
Ease of Implementation	Ease with which alternative can be permitted and constructed. This also includes easement acquisition and congestion concerns
Adaptability	Degree of synergy with existing recycled water system and ability to adapt to existing recycled water system
Environmental/Social Impacts	Various impacts including risk of impact to biological systems and construction related impacts (i.e. traffic disruptions)

Capital cost for the project alternatives are shown in **Table 7**. A flat cost of $8/LF-in diameter is used for 16" diameter to 30" diameter pipes installed in developing areas, like the UGAs. A cost of $12/LF-in diameter is used for urban areas where there are existing roads and/or pavement. **Table 6** also includes a line item for the connection of the 24" gravity line to the DCWWTP recycled water pump station. The cost only includes the connection; pumping capacity at DCWWTP is addressed in **Table 9**.

Table 7: Economic Assumptions and Unit Costs

Item	Cost [a]
Open Trench Installation	
30" Pipe Installation Cost	$240 /linear foot
24" Pipe Installation Cost	$192 /linear foot
16" Pipe Installation Cost	$128 /linear foot
12" Pipe Installation Cost	$144 /linear foot
Conversion of DCWWTP to pump into 24" gravity line [b]	$60,000
Other Cost Estimate Criteria [c]	
Construction Cost Contingency	30% of pipeline costs
Engineering and Administration	25% of pipeline costs

Footnotes:

a. Unit costs are in October 2005 dollars.
b. Short pipe connection between 24" gravity line and existing recycled water pump station discharge will be required.
c. An overhead markup of 62.5% was applied based on a 30% construction cost contingency a plus a 25% engineering and administration factor to calculate the capital cost. Hence, for budgeting purposes, it is assumed that the contingency and project implementation multiplier is 1.625 (1.00 x 1.30 x 1.25 = 1.625)

3.2 Evaluation Results

3.2.1 Alternatives Evaluation

Preliminary cost estimates based upon economic assumptions in **Table 7** are listed in **Table 8**. Detailed cost estimates for the alternatives can be found in **Attachment C**. Criteria from **Table 6** are used to evaluate the two alternatives and are listed in **Table 8**.

Table 8: Alternatives Evaluation

Evaluation Criteria (from Table 6)	Alternative A – Non-Looped System	Alternative B – Looped System	Alternative C – Flow Through WRSP
Meets Recycled Water Demand	High	High	High
Estimated Cost [a]	$11,002,000	$15,321,000 [b]	$10,883,000 [b]
Flexibility			
Flexibility to supply RW from more than one plant	Medium	High	High
Adapt to changes in planning assumptions	Medium	High	High
Ability for project phasing	Medium	Medium	High
Ease of Implementation			
Ease to be designed, permitted, and constructed	High	Medium	High
Easement Acquisition	High	High	High
Adaptability			
Degree of synergy with existing recycled water system	High	Medium	High
Environmental/Social Impact			
Biological Impacts and Construction Related Impacts	Low	Low	Low
Utility Congestion	Low	Low	Low
Rank [c]	2	3	1

Footnotes:

a. Total capital costs are in October 2005 dollars and include all construction costs, contingencies, and fees.
b. Price includes $60,000 for the retrofit of DCWWTP recycled water pump station to connect the 24" gravity line. Refer to Table 7.
c. Qualitative ranking based on analysis of benefits, risks and degrees of impact.

3.3 Conclusions

Based upon the evaluation presented in **Table 8**, Alternative C is the recommended choice because it is an interconnected system that provides the optimum balance of recycled water supply and demand. Alternative A is a moderately connected system, with Placer Ranch internal recycled water piping connecting to the 30" pipe on Woodcreek Oaks Blvd. Alternative B joins both the north and south sections of the distribution system, but there is a considerable distance between Placer Vineyards demand location and the stub of the 24" gravity line. To connect the two pipes, 14,400 linear feet of pipe would need to be installed and a piping/pumping modification at DCWWTP would need to be constructed with an additional cost of $2.8 million. Both Alternatives A and B have a recycled water demand that exceeds supply.

It is recommended that under typical operating scenarios, customers be supplied recycled water by a particular treatment facility; Alternatives B and C allow operational changes to be made in the pipeline system to move recycled water across the distribution system in response to an atypical operating scenario. Looping the southern portion of the distribution system is less beneficial than connecting PGWWTP through the West Roseville Specific Plan and converted force main because of the pipeline capital costs and the distance of the customers from the pipe. The majority of the customers are in the central potion of Roseville, in close proximity to the North Zone Tank. It would be better to have the operational flexibility in that area rather than on the outskirts of the distribution system.

4 Implementation Plan

The goal of the Recycled Water System Evaluation is to develop a long-term strategy for the ultimate implementation recycled water projects in the region. Numerous tasks would need to take place between the completion of the Systems Evaluation and construction of the ultimate buildout, including conceptual engineering, environmental documentation and permitting, public outreach, funding, financing, design, and construction. This draft implementation plan describes the tasks required to implement the recycled water projects and provides an approximate schedule for their completion. The City's pipeline infrastructure will include the trunk line from the wastewater treatment plant as well as the storage, pumping and distribution of recycled water within the property. Trunk recycled water pipeline sections from the PGWWTP to the Urban Growth Area will be installed by the City and reimbursed by individual land owners. The recycled pipeline will be built according to phasing described in the following sections. Any interim measures/solutions developed by the UGA developers for receiving recycled water will be approved by the City.

4.1 Preferred Alternative

The preferred alternative is Alternative C with recycled water sent from PGWWTP to supply Woodcreek Oaks and Sun City Golf Courses. This system will be described in detail and individual projects will be identified in the following sections. The recycled water system has been divided into projects and is shown in **Figure 7**. Projects are numbered in no particular order, but are organized according to implementation schedule. Projects shown in Figure 7 are listed in **Table 9** with length and diameter of pipe that will be installed. Pipeline costs include contingencies and pump costs include installation. Detailed cost information is found in **Attachment C**.

4.2 Project Phasing

An implementation strategy for each preferred alternative project phase is presented in this section. The phasing of the preferred alternative is summarized as follows:

Phase I – This phase includes the existing recycled water distribution system and existing users. Recycled water is supplied from Dry Creek WWTP. This phase also includes the conversion of 8", 18", and 30" force mains to recycled water pipelines, which is currently in progress. Woodcreek Oaks Golf Course and Sun City Golf Course will be supplied recycled water from the PGWWTP.

Phase II – This phase expands on the current distribution system with the addition of "Existing Near Future Recycled Water Customers" from the RW Market Assessment (RMC, 2005). The new customers will be supplied by Dry Creek WWTP. DCWWTP and the North Zone pump station will install new recycled water pumps.

Phase III – This phase builds from Phase II to include all Urban Growth Areas. Pleasant Grove WWTP will supply recycled water to these customers except for Placer Vineyards. Two additional duty pumps and one standby pump will be added to the PGWWTP recycled water pump station. At the point when the velocity in 30" pipe from the PGWWTP pump station to the West Roseville Pump Station become higher than 8 ft/sec for a hours at a time a new 30" parallel pipe should be constructed. The 24" line supplying Placer Vineyards will be connected to the DCWWTP pump station.

Figure 7: Recommended Projects for Recycled Water Distribution System

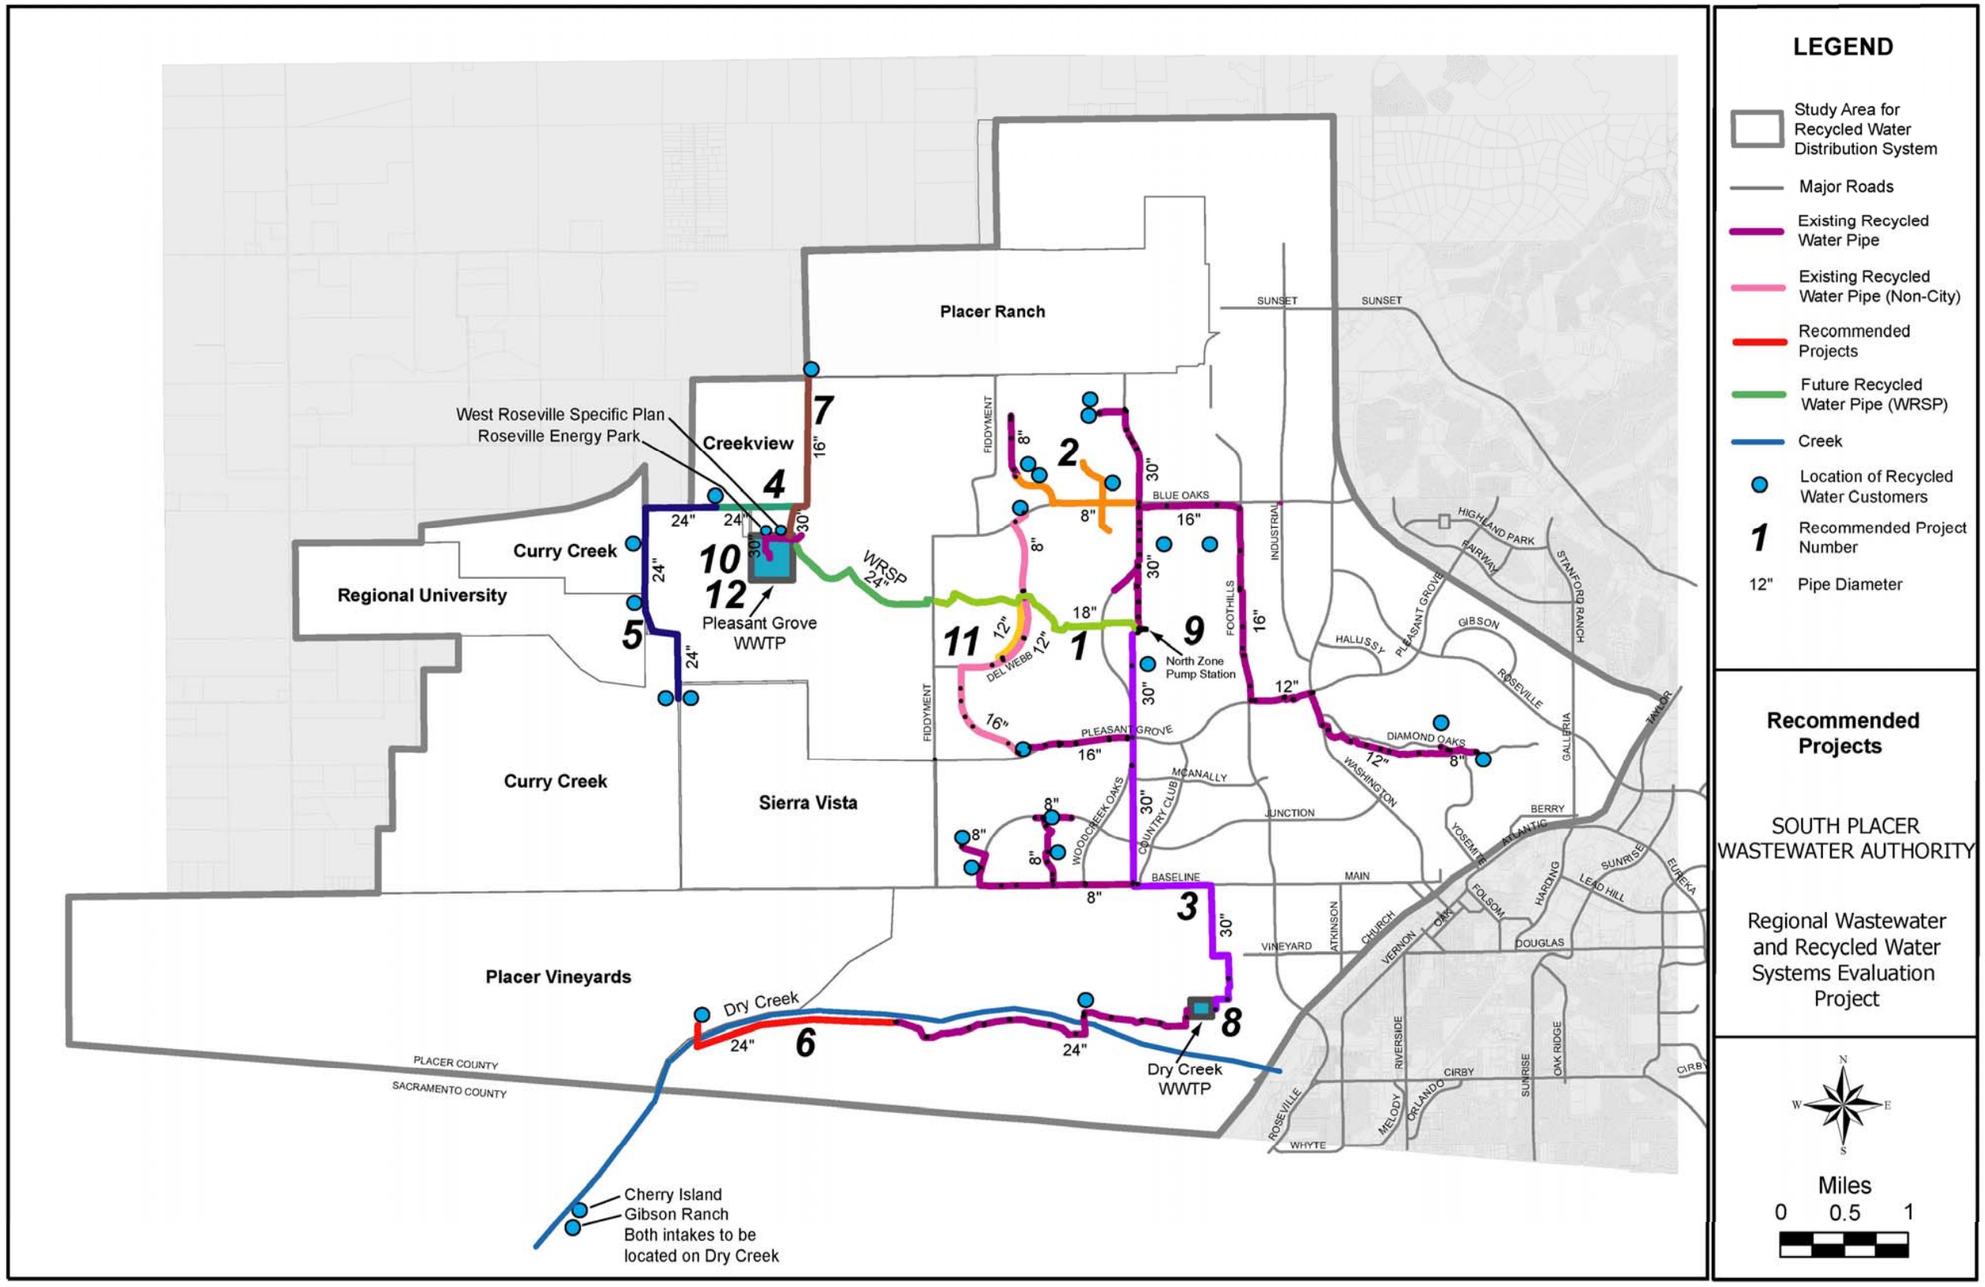

Table 9: Recommended Projects by Phase

Project No.	Description	Size (in.) or flow (gpm)	Length (ft.)	Cost
	Phase I (in Progress) [a]			
1	18" FM Conversion for RW Use from PGWWTP	18"	9,700	n/a
11	Sun City Pipeline from 18" Converted Force Main (with option to supply WOGC and SCGC)	12"	2,700	632,000
2	8" FM Conversion for RW Use	8"	8,900	n/a
3	30" FM Conversion for RW Use South of North Zone Pump Station	30"	19,600	n/a
		Subtotal	**40,900**	**$632,000**
	Phase II (Year 2005 to 2010) [a]			
8	DCWWTP one-50 HP pump	1,900 gpm	-	98,000
9	North Zone PS one-50 HP pump	950 gpm	-	57,000
		Subtotal	**-**	**$155,000**
	Phase III (Year 2010 to 2025) [a]			
4	Creekview Pipeline	24"	3,300	1,030,000
5	Creekview to Curry Creek North	24"	4,600	1,436,000
	Curry Creek North to Regional University	24"	2,100	655,000
	Regional University to Curry Creek South and Sierra Vista	24"	2,300	718,000
6	Placer Vineyards Pipeline	24"	9,100	2,840,000
7	North from PGWWTP to "Tee"	30"	1,400	546,000
	Pipeline from "Tee" to Placer Ranch PS	16"	5,800	1,207,000
10	PGWWTP three-250 HP pumps	15,360 gpm	-	609,000
12	Addition of 30" Pipe at PGWWTP for Maximum Flow Conveyance	30"	1,700	995,000
		Subtotal	**30,300**	**$10,036,000**
Total			**71,200**	**$10,823,000**

Footnotes:

a. Recycled water project phasing depends on development timing.

4.2.1 Phase I

This phase includes the conversion of 8", 18", and 30" sewer force main (FM) to recycled water pipe, which is in progress. The existing 24" recycled water pipe connecting the Dry Creek WWTP with the North Zone Pump Station (NZPS) will be decommissioned and the 30" FM will be used instead. An 18" FM will also be converted connecting the NZPS to Pleasant Grove WWTP via the West Roseville Specific Plan recycled water pipeline. In the northern portion of Roseville, an 8" FM will be converted and connected to an existing 30" recycled water pipe. These are Projects #1 through #3 from Figure 7. It is recommended the FM conversions be completed before the addition of the "Existing Near Future Recycled Water Customers" (referenced from the SPWA Recycled Water Market Assessment) to the network. The pipeline from the converted 18" force main to the Sun City Golf Course pond inlet, Project

#11, will be constructed during this phase. Additionally, once the 30" force main is converted Woodcreek Oaks Golf Course can be connected to the 18" converted force main. Connecting these customers to both PGWWTP and DCWWTP supply will allow the City greater flexibility as both distribution systems are growing.

4.2.2 Phase II

Phase II includes the existing customers and distribution system of Phase I, plus additional recycled water customers as sufficient supply from Dry Creek WWTP is available. Projected wastewater flows from the SPWA Projected WWTP Projected Loadings and Buildout TM 4a, estimates there will be adequate supply in 2012 to provide "Existing Near Future Recycled Water Customers" (identified in the Market Assessment TM) with recycled water. "Existing Near Future Recycled Water Customers" include Cherry Island Golf Course, Diamond Creek Park, Diamond Oaks Park, Eskaton Retirement Community, Fiddyment Park, Free Run Park, Gibson Ranch County Park, Homestead Park, Homestead Elementary School, HP Campus Current Landscaping, HP Rezone, West Roseville Specific Plan, and Woodcreek West Park.

In this phase, the Dry Creek WWTP and North Zone pump stations will need to be upgraded. Projects #8 and #9 specify the addition of one 50 hp pump at DCWWTP and one 50 hp pump at NZPS, respectively. Based on the hydraulic model, these additional pumps will be necessary to maintain a minimum pressure of 10 psi for the furthest customers on the recycled water distribution pipeline. The additional pumps will be required during high flow periods. A volume increase to the North Zone storage tank will not be required.

4.2.3 Phase III

Phase III includes all of the customers in Phase II plus the Urban Growth Areas. New recycled water pipeline installations to Creekview, Curry Creek, Regional University, Sierra Vista, and Placer Ranch are Projects #4, #5, and #7. The Urban Growth Areas will begin construction in 2008 through 2010, with buildout of the recycled water service area estimated to be completed in 2025. Based on the hydraulic model two additional duty pumps and one standby pump will be required at the Pleasant Grove WWTP recycled water pump station. The additional pumps will be required to keep a minimum pressure of 10 psi in the pipeline at the furthest customers and to supply recycled water to the Woodcreek Oaks (WOGC) and Sun City Golf Courses (SCGC). Upgrades to the Pleasant Grove WWTP pump station is Project #10. The installation of a 30" parallel pipe from PGWWTP to the West Roseville Specific Plan pump station (Project #12) should occur when the velocity in the existing 30" line increases over 8 ft/sec. This project should occur before UGA buildout. Recycled water from PGWWTP will be transferred to the WOGC and SCGC through the West Roseville Specific Plan pipeline and the 18" converted force main. A continuation of the 24" pipe will be installed to serve Placer Vineyards, Project #6. The booster pump station at the recycled water pipe stub at Wallerga Road could be installed to produce the hydraulic head to fill the tank in a shorter period than 24 hours.

4.2.4 Urban Growth Area Storage Requirement

UGAs will be required to have a recycled water storage facility with the capacity to store one peak day (July day) demand volume. July demands have been documented in the SPWA Market Assessment TM (RMC, January 2008). The minimum storage tank volume required for each UGA is listed in **Table 10**.

Table 10: Minimum Required Storage Volumes

UGA	Minimum Tank Volume (MG)
Brookfield	0.94
Creekview & Panhandle	1.25
Curry Creek North	0.78
Curry Creek South	3.33
Placer Ranch	3.34
Placer Vineyards	3.50
Regional University	1.72
Sierra Vista	2.46

4.3 Permitting

The State Water Resources Control Board (SWRCB) and the State Department of Health Services (DHS) have regulatory and permitting authority over recycled water projects in the State of California. The City of Roseville must have a Master Water Reclamation Permit from the Central Valley Regional Water Quality Control Board (RWQCB). The City has Master Reclamation Permit No. 97-147, and it is understood that a new permit has been adopted by the Regional Board recently.

4.4 Funding

The following are the possible funding sources for the projects in this report:

- Connection Fees – Currently, the City does not collect a connection fee for recycled water connections. A connection fee analysis could be performed and connection fees collected would fund regional facilities necessary to serve new developments.
- Developer/Community Facilities District – In this financing scenario, developer funded community facilities would be shared through reimbursement agreements.

4.4.1 Pipelines to Urban Growth Areas

Recycled water pipeline to the UGAs will be paid for by the Urban Growth Area developers. Individual UGA developers will be responsible for the construction of the recycled water transmission pipeline from the upstream UGA to their connection point with a pipe diameter appropriate to the peak day July recycled water demand. UGAs will also be responsible for upsizing recycled water pipe upstream of their location. As an example, Curry Creek North will need an 8” pipe to deliver recycled water. The 8” section of pipe connecting Creekview downstream to Curry Creek North will be paid for by Curry Creek North. Since 3 UGAs are downstream, the 8” pipe will need to be upsized to a 24” pipe. The upsizing cost will be split amongst the other 3 UGAs proportional to their recycled water demand. This process is continued down the recycled water pipe to Curry the Creek South/Sierra Vista connection point. Since Placer Vineyards is the only user on the pipe after the Morgan Creek Golf Course connection point, Placer Vineyards will pay the full installation cost of the 24” pipe. Further details of pipeline costs are found in **Attachment D**. Developers will be required to reimburse the City (or other funding party) if the transmission pipeline is built before the UGA undergoes construction.

4.5 CEQA/NEPA Compliance

CEQA review will be conducted by the City of Roseville for Regional Facilities. Mainly construction-related impacts will be addressed in the CEQA review. Urban Growth Area CEQA/NEPA review will be the responsibility of the UGA developers. The letter from the City of Roseville to Jim Durfee dated April 26, 2005 provides guidance for the preparation of environmental impact documents, consistent with the requirements of the California Environmental Quality Act (CEQA).

RECLAMATION

Managing Water in the West

Record of Decision

Central Valley Project Municipal and Industrial Water Shortage Policy

Prepared by
United States Department of the Interior
Bureau of Reclamation
Mid Pacific Region

U.S. Department of the Interior
Bureau of Reclamation
Sacramento, California

November 2015

Mission Statements

The mission of the Department of the Interior is to protect and provide access to our Nation's natural and cultural heritage and honor our trust responsibilities to Indian Tribes and our commitments to island communities.

The mission of the Bureau of Reclamation is to manage, develop, and protect water and related resources in an environmentally and economically sound manner in the interest of the American public.

Regional Environmental Officer
Mid-Pacific Region

Date 11/9/2015

Approved:

David Murillo
Regional Director
Mid-Pacific Region

Date 11/13/15

Summary of Action

The Bureau of Reclamation (Reclamation) prepared the Central Valley Project (CVP) Municipal and Industrial (M&I) Water Shortage Policy (WSP) Environmental Impact Statement (EIS) to evaluate the potential impacts of CVP M&I WSP alternatives. The M&I WSP would be used by Reclamation to: 1) define water shortage terms and conditions for applicable CVP water service contractors, as appropriate; 2) determine the quantity of water made available to CVP water service contractors from the CVP that, together with the M&I water service contractors' drought water conservation measures and other non-CVP water supplies, would assist the M&I water service contractors in their efforts to protect public health and safety (PHS) during severe or continuing droughts; and 3) provide information to CVP water service contractors for their use in water supply planning and development of drought contingency plans. The alternatives evaluated in this EIS utilize different methodologies for allocating available CVP water supplies to CVP water service contractors during a Condition of Shortage[1]. This EIS evaluates potential impacts of the M&I WSP over a 20-year period, 2010 through 2030. Reclamation's decision is the adoption of an updated M&I WSP.

Background

In January 1993, following the adoption of the Central Valley Project Improvement Act (CVPIA), many CVP M&I water service contractors expressed concerns regarding future allocations of water supplies provided by the CVP. Reclamation subsequently initiated an effort to develop an M&I WSP that would be incorporated into long-term water service contracts during the contract renewal process implemented under the CVPIA. Involved stakeholders submitted language for the M&I WSP as part of several proposed policies. In September 2001, Reclamation released a Draft M&I WSP. Reclamation initiated the preparation of an Environmental Assessment (EA) which included stakeholder input and consideration and evaluation of alternative policies developed in 1993, 1996-1997, and 2000-2001. The M&I WSP EA was released in October 2005 and a Finding of No Significant Impact was signed in December 2005. The M&I WSP currently being implemented by Reclamation is the 2001 Draft M&I WSP, as amended by Alternative 1B from the 2005 EA. Because the assumptions supporting the 2005 EA became outdated and due to significant changes in the Sacramento-San Joaquin River Delta (Delta) and CVP/State Water Project (SWP) operations, Reclamation decided in 2009 to

[1] "Condition of Shortage" is defined in Reclamation water service contracts as "...a condition respecting the Project during any Year *(March 1 through February of the following year)* such that the Contracting Officer is unable to deliver sufficient water to meet the Contract Total".

undertake the M&I WSP EIS to provide an updated M&I WSP that best recognizes the needs of various segments of the water user community and how those needs could be addressed under Conditions of Shortage.

Decision

Reclamation's decision is to implement Alternative 4, Updated M&I WSP (Preferred Alternative). This alternative comprises the updated M&I WSP developed by Reclamation with stakeholder input received during the M&I WSP stakeholder workshops held between May 2010 and January 2011, with clarifying revisions made to address comments from stakeholders received after Stakeholder Workshop 4 (November 2010) and to address public comments received on the Draft EIS (March 2015). The Updated M&I WSP will apply to the CVP water service contractors noted in Table 1. These water service contractors generally comprise those whose contracts currently reference the M&I WSP and those with a water service contract that is expected to reference the updated policy. These water users are located throughout the Sacramento River Valley, San Joaquin River Valley, Tulare Lake Region, and San Francisco Bay/Central Coast area.

Alternatives Considered

No Action Alternative

The No Action Alternative represents continued implementation of the current Draft M&I WSP. This existing draft policy is currently guiding Reclamation's allocation of CVP water to agricultural and M&I water service contractors during Conditions of Shortage and would continue if none of the action alternatives were selected.

During Conditions of Shortage when the CVP is unable to deliver sufficient water to meet the CVP water service contractors' Contract Total, M&I water service contractors allocations are maintained at 100 percent of their Contract Total as the agricultural water service contractor allocations are reduced to 75 percent of their Contract Total in incremental steps. Then, M&I water service contractor allocations are reduced to 75 percent of their historical use in incremental steps as agricultural water service contractor allocations are reduced to 50 percent of their Contract Total. The M&I water service contractor allocations are maintained at 75 percent of historical use until agricultural water service contractor allocations are reduced in incremental steps to 25 percent of Contract Total. M&I water service contractor allocations are then reduced in incremental steps to 50 percent of historical use until agricultural water service contract allocations are reduced in incremental steps from 25 percent to zero.

In years when the M&I water service contractor allocations are less than 75 percent of historical use, Reclamation would attempt to provide the amount of PHS need unmet by contractors' CVP allocation and other available non-CVP

supplies, up to 75 percent of the historical use, subject to the availability of CVP water supplies. There are some years in which allocations to agricultural water service contractors are at or near zero. In those years, CVP water deliveries for unmet PHS need to M&I water service contractors may not be fully realized. Water made available to M&I water service contractors may be reduced below 75 percent of historical use and below the unmet PHS needs when CVP water is not available.

Action Alternatives

The alternatives that moved forward for more detailed analysis in the EIS were those that responded to the National Environmental Policy Act (NEPA) purpose and need, minimized negative effects, were potentially feasible, and represented a range of reasonable alternatives. As a result of initial alternatives screening, four action alternatives were selected to move forward for analysis in the EIS (in addition to the No Action Alternative). Table 2 presents the alternatives analyzed in the EIS. Analysis of these alternatives will provide the information needed for Reclamation to make a decision.

Table 2. Alternatives Analyzed in the EIS

Alternative Number	Alternative Name	Description
Alternative 1	No Action Alternative	Represents a projection of current conditions to the most reasonable future conditions that could occur during the life of the proposed action without any action alternative being implemented. The No Action Alternative represents continued allocation of water in the same way that Reclamation currently allocates CVP water to agricultural and M&I water service contractors during Conditions of Shortage, consistent with the 2001 Draft M&I WSP, as modified by Alternative 1B of the 2005 EA.
Alternative 2	Equal Agricultural and M&I Allocation	Provides no preference for either agricultural or M&I contractors. M&I and agricultural water service contractors receive equal allocation percentages during a Condition of Shortage.
Alternative 3	Full M&I Allocation Preference	M&I water service contractors receive 100% of their Contract Total until CVP supplies are not available to meet those demands. Agricultural allocations are reduced as needed to maintain 100% allocations to M&I contractors.
Alternative 4	Updated M&I WSP (Preferred Alternative)	Similar to Alternative 1 but modified to update the definition of unconstrained years used in calculating historical use. Attempts to provide unmet PHS need, but without a guarantee. Provides implementation guidelines and procedures.
Alternative 5	M&I Contractor Suggested WSP	Similar to Alternative 4 except attempts to provide a greater quantity of unmet PHS need.

Under Alternative 2, Equal Agricultural and M&I Allocation, M&I water service contractors would receive the same allocation, as a percentage of Contract Total, as the agricultural water service contractors. This means that in years when the CVP water supplies are not adequate to provide water to all water service contractors, agricultural and M&I water service contractor allocations would be reduced by the same percentage. This allocation methodology would provide a larger volume of CVP water to agricultural water service contractors than the No Action Alternative, as there would be no reductions to agricultural contractors to provide a larger volume of CVP water to M&I water service contractors. Deliveries to both north of the Delta and south of Delta M&I contractors would be lower than under the No Action Alternative in order to provide an equal allocation to agricultural water service contractors.

Under Alternative 3, Full M&I Allocation Preference, M&I water service contractors would receive a higher allocation as compared to the No Action Alternative and other action alternatives. Under this alternative, Reclamation would attempt to provide a 100 percent allocation to M&I water service contractors during a Condition of Shortage, to the extent that adequate CVP water supplies are available. This would be achieved by reducing allocations to agricultural water service contractors as needed to maximize the frequency of 100 percent allocations to the M&I water service contractors. This allocation methodology would provide the lowest volume of CVP water to agricultural water service contractors compared to the No Action and other action alternatives. Alternative 3 would have no provisions for unmet PHS needs that would be made available by Reclamation from CVP water supplies.

Alternative 4, Updated M&I WSP, is similar to the No Action Alternative. This alternative comprises the M&I WSP developed by Reclamation with stakeholder input received during the M&I WSP stakeholder workshops held between May 2010 and January 2011, with clarifying revisions made to address comments from stakeholders received after Stakeholder Workshop 4 and to address public comments received on the Draft EIS. Reclamation used this feedback to identify elements of the 2001 Draft M&I WSP (represented in the No Action Alternative) that could be improved. The major modifications made to the 2001 Draft M&I WSP that are reflected in the Updated M&I WSP include the following:

- Reclamation deleted the reference to 1996 M&I Water Rate book.
- At the M&I water service contractors' request, Reclamation modified the method that would be used to adjust an M&I water service contractor's historical use.
- Reclamation expanded the definitions of the key terms and also defined terms not previously defined, to provide greater clarity on the intent and requirements of the M&I WSP's key terms and conditions.

- Term and Condition 1 was revised to remove the sentence stating that Reclamation intended contractors to use their non-CVP supplies first and rely on CVP water as a supplemental supply. Instead, Reclamation expects water service contractors, at their discretion, to use CVP water in conjunction with their other non-CVP supplies to meet demand during all years, including years where a Condition of Shortage exists.

- Clarified M&I allocation for contracts with both irrigation and M&I use which do not set forth individual Contract Totals for each use.

Alternative 5, M&I Contractor Suggested WSP, is similar to Alternative 4, Updated M&I WSP. This alternative was developed and recommended by several M&I water service contractors who participated in the M&I WSP workshops held between May 2010 and January 2011. Alternative 5 attempts to provide an increased quantity of CVP water allocated to M&I water service contractors to supply the unmet portion of the PHS needs during a Condition of Shortage. This would be achieved by increasing the upper limit for consideration of additional allocations to assist in meeting unmet PHS need from an initial allocation of 75 percent of historical use (under Alternative 4) to an initial allocation of 95 percent of historical use (under Alternative 5).

Environmentally Preferable Alternative

Section 1505.2(b) of NEPA requires that, in cases where an EIS has been prepared, the Record of Decision must identify all alternatives that were considered, specifying the alternative or alternatives which were considered to be environmentally preferable. The environmentally preferable alternative is the alternative that will promote the national environmental policy as expressed in NEPA's Section 101. Ordinarily, this means the alternative that causes the least damage to the biological and physical environment; it also means the alternative which best protects, preserves, and enhances historic, cultural, and natural resources (Council on Environmental Quality 40 Most Asked Questions number 6(a)). It is implicit in NEPA that the environmentally preferable alternative must be reasonable and feasible to implement.

In choosing the environmentally preferable alternative, Reclamation considered impacts to all resources. On balance, Alternative 1, No Action Alternative, and Alternative 4, Updated M&I WSP, would have the least environmental effects associated with implementing a CVP M&I WSP during a Condition of Shortage. Alternative 4 would have no environmental impacts compared to the No Action Alternative. Alternatives 2 and 3 have greater environmental effects to water quality, groundwater resources, air quality, geology and soils, and agricultural resources than Alternative 4. Alternative 5 would have small but greater effects to groundwater resources and air quality compared to Alternative 4.

Basis of Decision

Reclamation's decision to move forward is based on how the alternatives meet the project's purpose and need and the magnitude of environmental effects. While the alternatives would affect different resources in different ways, Alternative 4 provides Reclamation with the greatest degree of flexibility to address CVP water service contractors' needs during Conditions of Shortage while recognizing that CVP deliveries are subject to the amount of CVP water available and cannot be guaranteed, and provides clarity to the terms, conditions, and procedures of the CVP M&I WSP. Additionally, Alternative 4 has no environmental effects compared to the No Action Alternative; therefore, no mitigation measures are necessary.

Purpose and Need

The purpose of updating the 2001 Draft M&I WSP, as amended, is to provide detailed, clear, and objective guidelines for the allocation of available CVP water supplies to CVP water service contractors during a Condition of Shortage. The update to the M&I WSP is needed by water managers and CVP water service contractors to help them better plan for and manage available CVP water supplies, and to better integrate the use of CVP water with the use of other available non-CVP water supplies. The update to the M&I WSP is also needed to clarify certain terms and conditions with regard to the applicability and implementation process of the M&I WSP.

The updated M&I WSP would be used by Reclamation to:

- Define water shortage terms and conditions for applicable CVP water service contracts, as appropriate;
- Determine the quantity of water made available to CVP water service contractors from the CVP, that together with the M&I water service contractors' drought water conservation measures and other non-CVP water supplies, would assist the M&I water service contractors in their efforts to protect PHS during severe or continuing droughts; and
- Provide information to CVP water service contractors for their use in water supply planning and development of drought contingency plans.

All action alternatives meet the purpose and need, but the No Action Alternative does not meet the purpose and need.

Environmental Issues Evaluated

During March 2011, public scoping sessions on the development of the CVP M&I WSP EIS were held in Sacramento, Willows, Fresno, and Oakland, California. Key issues raised during the public scoping process that are applicable for inclusion in the EIS are listed below.

- The final M&I WSP should be a single document that clearly states how Reclamation interprets and implements the M&I WSP.
- Any additional water provided to M&I water service contractors is viewed as water "taken" from agricultural contractors.
- M&I water service contractors would like a guaranteed quantity of CVP water to meet PHS needs and do not want their use of non-CVP supplies to count against their deliveries of CVP water in Conditions of Shortage.
- The analysis should use an appropriate baseline given ongoing regulatory issues regarding CVP/SWP operations.
- The effects analysis should include a cumulative impact discussion in the context of other reasonably foreseeable past, present, and future actions potentially affecting the allocation of CVP water, including the Bay Delta Conservation Plan.
- The EIS should analyze the impacts to water service contractors who have limited access to alternative water supplies and to "mixed use" contractors.
- The M&I WSP EIS should specifically state the agencies that are and are not affected by the policy, and state that the M&I WSP will apply equally to all M&I contractors, including the American River Division contractors.
- Certain American River Division contractors (City of Roseville, Placer County Water Agency, Sacramento Municipal Utility District, and San Juan Water District) disagree with Reclamation's interpretation of Term 14 of State Water Resources Control Board Decision 893 and believe it should provide them with additional supply reliability beyond what the M&I WSP provides in their water service contracts.

The alternatives were evaluated to address issues raised and potential impacts to the range of environmental and socioeconomic resources relevant to NEPA. The action alternatives have the potential to result in impacts to several resources, including surface water, water quality, groundwater, geology and soils, air quality, greenhouse gases (GHGs) and climate change, agricultural

resources, socioeconomics, and power[2]. The differences between the action alternatives for these impacts include:

- *Surface Water*: Alternative 2 would increase CVP deliveries to agricultural water service contractors and decrease CVP deliveries to M&I water service contractors, compared to the No Action Alternative. Alternative 3 would decrease CVP deliveries to agricultural water service contractors and increase CVP deliveries to M&I water service contractors, compared to the No Action Alternative. Alternatives 4 and 5 would have no change in CVP deliveries compared to the No Action Alternative. PHS needs would be met for the Sacramento River Division under all alternatives. The American River, Delta, and San Felipe Divisions would have unmet PHS needs under Alternative 2. There would be unmet PHS needs for the Shasta/Trinity River and West San Joaquin Divisions under Alternatives 2, 3, and 4. The Cross Valley Canal Unit would have unmet PHS needs under all alternatives.

  There are only relatively small to no changes to Shasta and Trinity lakes storages, upper Sacramento River flows, and Lake Oroville storage as a result of action alternatives, which do not result in substantial impacts. The effects of changes to other reservoirs' storage and rivers' flows are addressed under other appropriate resource areas (e.g., water quality, recreation, flood hydrology, water quality, etc.).

- *Water Quality:* Changes in CVP deliveries could affect the salinity and bromide concentrations in the Delta Division. Alternative 5 would have only very minimal changes in reservoir or river flows compared to the No Action Alternative that would not affect salinity and bromide concentrations. Alternatives 2 and 3 would cause an increase in electrical conductivity which could affect water quality in the Delta Division.

- *Groundwater*: A reduction in CVP deliveries to agricultural water service contractors could cause these contractors to supplement their surface water supplies through increased groundwater pumping. Alternative 2 would reduce agricultural groundwater pumping in all regions due to increases in CVP deliveries to agricultural water service contractors, while Alternative 3 would increase agricultural groundwater pumping in all regions due to decreases in CVP deliveries to agricultural contractors. M&I water service contractors may need to make use of all their available groundwater supplies under Alternative 2 in order to meet PHS needs in certain years. Alternatives 4 and 5 would have little to no change in groundwater pumping by CVP water service contractors compared to the No Action Alternative.

[2] It was determined that no impacts or only minor impacts would occur to aquatic resources, terrestrial resources, environmental justice, cultural resources, Indian sacred sites, recreation, flood hydrology, and visual resources.

Increased pumping caused by change in deliveries to supplement supply shortages may cause groundwater level declines that could lead to land subsidence. Alternative 2 would cause a net increase in pumping that could potentially increase land subsidence in the San Francisco Bay/Central Coast region. Alternative 3 would cause a net increase in pumping that could potentially increase land subsidence in the Sacramento Valley, San Joaquin Valley, and Tulare Lake regions.

- *Geology and Soils:* Under Alternative 3, reduced CVP deliveries to agricultural water service contractors could indirectly lead to wind erosion if agricultural water service contractors implement crop idling to manage their water supplies.

- *Air Quality*: Increases in CVP deliveries to agricultural water service contractors under Alternative 2 would result in decreased pollutant emissions from reduced groundwater pumping. Decreases in CVP deliveries to agricultural water service contractors under Alternative 3 would result in increased pollutant emissions due to increased groundwater pumping. Under Alternative 3, the general conformity *de minimis* threshold would be exceeded in the San Joaquin Valley Air Basin. Alternatives 4 and 5 would have little to no changes compared to the No Action Alternative.

- *GHGs and Climate Change:* Changes in CVP deliveries to agricultural water service contractors would decrease GHG emissions under Alternative 2 and increase GHG emissions under Alternatives 3 and 5. Alternative 4 would have no change compared to the No Action Alternative.

- *Agricultural Resources*: Alternative 3 would reduce agricultural acreage primarily in the Tulare Lake Region, but minimally to other regions in the study area.

- *Socioeconomics*: Changes in CVP deliveries for CVP water service contractors would have differing effects for agricultural and M&I water service contractors in Alternatives 2 and 3. Generally, effects would be positive for agricultural water service contractors under Alternative 2 and negative under Alternative 3, while the opposite would be true for M&I water service contractors. Alternatives 4 and 5 would have no change compared to the No Action Alternative.

- Power: Changes in CVP deliveries may cause changes in power generation from hydroelectric power generation facilities by changing reservoir releases or by changing reservoir storage, as represented by changes in reservoir elevations. Alternative 2 and 3 would experience minimal reductions to the amount of power generated at the Folsom and Nimbus power plants and slight fluctuations in the amount of

power generated at San Luis Reservoir. Alternatives 4 and 5 would have no change compared to the No Action Alternative.

- *Indian Trust Assets*: Under Alternatives 2 and 3, the magnitudes of groundwater level fluctuations are very small compared to overall groundwater supplies and would not be substantial enough to create a noticeable change to water supply at existing wells near Indian Trust Asset sites. Therefore, Alternatives 2 and 3 would not interfere with the exercise of federally-reserved water rights and/or reduce the health of tribal members by decreasing water supplies. Alternatives 4 and 5 would have no change compared to the No Action Alternative, and would not result in impacts to Indian Trust Assets.

Section 7 of the Federal Endangered Species Act (ESA)

Reclamation coordinated with the U.S. Fish & Wildlife Service during development of the Draft EIS regarding the impact analysis on special status species and environmental commitments. Reclamation further coordinated with National Oceanic and Atmospheric Administration National Marine Fisheries Service in preparing the Final EIS. A full consultation under Section 7 of the ESA with U.S. Fish & Wildlife Service or National Oceanic and Atmospheric Administration National Marine Fisheries Service was determined not to be needed for this action because the potential impacts are within the range of impacts already observed under current operations of the CVP and are covered by the Biological Opinions on the Coordinated Long-Term Operations of the CVP and SWP.

Section 106 Compliance

Reclamation is responsible for complying with Section 106 of the National Historic Preservation Act. Alternative 4 would not result in the disturbance of land or require any construction activities; therefore, there are no impacts to cultural resources. Under Section 106 of the National Historic Preservation Act, Alternative 4 is the type of activity that does not have the potential to affect historic properties and there are no further obligations under Section 106 [36 Code of Federal Regulations Sec. 800.3(a)(1)].

Comments Received on the Final EIS

Reclamation's Notice of Availability of the Final EIS was published in the Federal Register on September 10, 2015, and the Environmental Protection Agency's Notice of Availability was published on September 18, 2015. The EIS was posted on Reclamation's website, and copies were distributed to those who requested a copy. A press release was released on September 10, 2015, and was sent to participants in public meetings and commenters on the Draft EIS.

Reclamation received comments from three entities after release of Final EIS. The commenters were: Somach Simmons & Dunn for Glenn-Colusa Irrigation District (Kelley Taber); East Bay Municipal Utility District (Michael Tognolini); and Santa Clara Valley Water District (Cindy Kao). These comments either reiterated comments previously provided during the public comment period, or supported Reclamation's choice of the Preferred Alternative. Reclamation had adequately addressed the previous comments in the Final EIS. The comments consisted of the following:

- Glenn-Colusa Irrigation District (GCID) did not agree that their comments on the Draft EIS were adequately addressed in Appendix I of the Final EIS. GCID was concerned that the M&I WSP's definition of PHS is too broad and would allow a greater amount of water than necessary for domestic use and essential public services to be included in the calculation, thereby overestimating system demands during Conditions of Shortage and influencing the allocation of water within the CVP system. Additionally, GCID was concerned that implementation of the M&I WSP could affect water supply reliability under their Settlement Contract. As described in the Final EIS, the determination of any additional CVP water supplied to M&I water service contractors during a Condition of Shortage to assist in meeting PHS needs would take into account a contractor's estimated PHS demand, as well as their non-CVP supplies available in that year, and, most importantly, the availability of CVP water in that year. Reclamation would closely review the data provided by an M&I water service contractor so that CVP water provided for PHS needs is estimated in accordance with California criteria and used appropriately during a Condition of Shortage. The Final EIS also states in Appendix B that Reclamation does not have discretion to determine water supply allocations to Sacramento River Settlement Contractors, San Joaquin River Exchange Contractors, certain named State Wildlife Areas and National Wildlife Refuges, and the privately owned/managed wetlands comprising the Grassland Resources Conservation District as identified under the CVPIA Section 3406(d). Water supply allocations for these water service contractors are determined annually based on the forecasted full natural inflow to Shasta Lake. CalSim II simulates

water supply allocations to these water service contractors based on inflow to Shasta Lake.

- East Bay Municipal Utility District (EBMUD) supports Reclamation's selection of Alternative 4 as the Preferred Alternative for the M&I WSP. However, EBMUD requested that their contractual historic use of 133,000 acre-feet (AF), per their Long Term Renewal Contract, be noted in the M&I WSP as an exception to the methodology used for calculating historical use. Reclamation, when applying the M&I WSP to EBMUD, would use EBMUD's contractual historic use of 133,000 AF as the basis for making adjustments for population growth, extraordinary water conservation measures, and use of non-CVP water supplies. But, Reclamation believes it inappropriate to specifically state or call out such an exception in the M&I WSP.

- Santa Clara Valley Water District (SCVWD) supports Reclamation's selection of Alternative 4 as the Preferred Alternative for the M&I WSP. SCVWD believes an adopted M&I WSP is critically important for water supply reliability in support of the communities and businesses in its service area.

Appendix M – Water Shortage Contingency Plan

Appendix N – Roseville Municipal Code 14.09

Roseville Municipal Code

Title 14 PUBLIC UTILITIES

Chapter 14.09 WATER CONSERVATION

§ 14.09.010. Short title.

This chapter may be cited as the Water Conservation and Drought Mitigation Ordinance. (Ord. 2413 § 2, 1991; Ord. 5311 § 2, 2014)

§ 14.09.020. General provisions.

A. Purpose. The purpose of this chapter is to ensure compliance with all federal, state and local requirements relating to water conservation and drought mitigation for the protection of public health, safety and welfare by:

1. Reducing the per capita water consumption throughout the City of Roseville (the "city") during years of normal precipitation and during years of drought;

2. Protecting and conserving the city's supply of water during specified times of emergency and/or crisis;

3. Minimizing and/or eliminating the waste of water through voluntary compliance or punitive action, if necessary;

4. Promoting the use of drip irrigation and other low volume irrigation methods that reduce outdoor water use by applying water more efficiently than traditional irrigation methods;

5. No person shall use, or cause to be used, any city water for landscape irrigation between the hours of 10:00 a.m. and 8:00 p.m., unless the city manager, or designee provides prior written consent to a different time limitation. A waiver may be granted for turf areas if the landscape contains too many irrigation valves to complete an irrigation event within the watering window.

6. Upon city declaration of a water shortage, the city manager, or designee, may impose revised and/or additional limitations on outdoor water use, as specified in Section 14.09.040, and no person shall use, or cause to be used, city water in violation of such limitations while the water shortage remains in effect.

B. Scope. The provisions of this chapter shall apply to all customers, users and/or recipients (hereinafter "users") of the city's potable and recycled water service within the city's territorial limits.

C. Administration and Enforcement. The city manager, or designee, including, but not limited to, an enforcement officer as defined herein, shall administer, implement, and enforce the provisions of this chapter. For purposes of this chapter an "enforcement officer" means any city employee or agent of the city with the authority to enforce any provision of this chapter and the authority to make any decision on behalf of the city manager required or called for by this chapter.

D. Compliance. All provisions of this chapter are subject to the compliance procedures set forth in this chapter unless otherwise expressly stated herein.

E. Notification. The city manager, or designee, shall determine the means by which the city shall notify its water users of drought stage determinations and any

Downloaded from https://ecode360.com/RO4998 on 2026-03-30

applicable upgrade or downgrade of such determinations or restrictions. Notification may be achieved through mass media, newspaper, public notice, mailings, utility billings or by any combination of such notice, or by other means as determined by the city manager, or designee.

(Ord. 2413 § 2, 1991; Ord. 4629 § 1, 2008; Ord. 5311 § 2, 2014; Ord. 5491 § 1, 2015)

§ 14.09.030. Definition of water waste.

Any of the following acts or omissions, whether willful or negligent, shall constitute the waste of water:

A. Causing or permitting water to leak, discharge, flow or run to waste into any gutter, sanitary sewer, watercourse or public or private storm drain, or to any adjacent property, from any tap, hose, faucet, pipe, sprinkler, pond, pool, waterway, fountain or nozzle. In the case of irrigation, "discharge," "flow" or "run to waste" means that the earth intended to be irrigated has been saturated with water to the point that excess water flows over or through the earth to waste. In the case of washing, "discharge," "flow" or "run to waste" means that water in excess of that necessary to wash, wet or clean the dirty or dusty object, such as an automobile, sidewalk, or parking area, flows to waste.

B. Allowing water fixtures (including, but not limited to, toilets, faucets, shower heads) or heating or cooling devices to leak or run to waste.

C. Maintaining ponds, waterways, decorative basins or swimming pools without water recirculation devices.

D. Backwashing so as to discharge to waste swimming pools, decorative basins or ponds in excess of the frequency necessary to ensure the healthful condition of the water or in excess of that required by standards for professionally administered maintenance or to address structural considerations, as determined by the city manager, or designee.

E. Operation of an irrigation system that applies water to an impervious surface or that is in disrepair.

F. Use of a water hose not equipped with a control nozzle capable of completely shutting off the flow of water except when positive pressure is applied.

G. Irrigation of landscaping during rainfall or 48 hours after a measurable rain event. A measurable rain event is the equivalent of ¼ inch of rain in an hour.

H. Overfilling of any pond, pool or fountain which results in water discharging to waste.

(Ord. 2413 § 2, 1991; Ord. 3834 § 3, 2002; Ord. 4629 § 1, 2008; Ord. 5311 § 2, 2014; Ord. 5491 § 2, 2015; Ord. 6500 § 3, 2022)

§ 14.09.040. Water conservation and drought stages.

The following water conservation and drought stages are hereby established:

Downloaded from https://ecode360.com/RO4998 on 2026-03-30

A. Basic Water Conservation Stage ("Basic Stage"). The basic stage shall exist when the city's water supply is adequate to meet all projected demands as determined by the city manager, or designee.

B. Stage One Drought. A stage one drought shall exist when the city's water supply is adequate to meet 90 percent of projected demands as determined by the city manager, or designee. An objective of a stage one drought condition is to reduce water usage up to 10 percent. Water shortage surcharges shall be implemented as set forth in Section 14.08.095.

C. Stage Two Drought. A stage two drought shall exist when the city's water supply is adequate to meet 80 percent of projected demands as determined by the city manager, or designee. An objective of a stage two drought condition is to reduce water usage up to 20 percent. Water shortage surcharges and excess water use charges shall be implemented as set forth in Section 14.08.095.

D. Stage Three Drought. A stage three drought shall exist when the city's water supply is adequate to meet 70 percent of projected demands as determined by the city manager or designee. An objective of a stage three drought condition is to reduce water usage up to 30 percent. Water shortage surcharges and excess water use charges shall be implemented as set forth in Section 14.08.095.

E. Stage Four Drought. A stage four drought shall exist when the city's water supply is adequate to meet 60 percent of projected demands as determined by the city manager or designee. An objective of a stage four drought condition is to reduce water usage up to 40 percent. Water shortage surcharges and excess water use charges shall be implemented as set forth in Section 14.08.095.

F. Stage Five Drought. A stage five drought shall exist when the city's water supply is adequate to meet 50 percent or less of projected demands as determined by the city manager, or designee. An objective of a stage five drought condition is to reduce water usage up to 50 percent. Water shortage surcharges and excess water use charges shall be implemented as set forth in Section 14.08.095.

(Ord. 2413 § 2, 1991; Ord. 4629 § 1, 2008; Ord. 4724 § 3, 2009; Ord. 5311 § 2, 2014; Ord. 5491 § 3, 2015)

§ 14.09.050. Groundwater use as an alternate supply.

While the city routinely pumps relatively small volumes of groundwater during all water year types for maintenance purposes, the city may use groundwater as an alternate source of water supply to aid in meeting demands associated with dry periods, peak demands, or due to surface water supply curtailments. The city may also use groundwater as an alternate source of water supply to achieve obligations associated with the Sacramento Water Forum, American River flow standards, or when participating in groundwater banking to achieve California Water Code obligations under the Sustainable Groundwater Management Act or to be consistent with other regional or statewide objectives.

(Ord. 2413 § 2, 1991; Ord. 4629 § 1, 2008; Ord. 5311 § 2, 2014; Ord. 6500 § 4, 2022)

Downloaded from https://ecode360.com/RO4998 on 2026-03-30

§ 14.09.060. Basic stage restrictions.

During the basic water conservation stage, the following restrictions shall be in force:

Water shall be used for beneficial purposes only; all unnecessary and wasteful uses (as defined in Section 14.09.030) of water are prohibited.

A. Water shall be confined to the user's property and shall not be allowed to run off to adjoining properties, or to the roadside or to the gutter. Care shall be taken not to water past the point of saturation.

B. Free-flowing hoses for all uses are prohibited. Automatic shut-off devices shall be attached on any hose or filling apparatus in use.

C. All leaks (including irrigation systems, pipes, fixtures, pools, ponds, fountains and waterways) shall be repaired within five calendar days or less if warranted by the severity of the problem as determined in the discretion of the city manager, or designee.

D. All pools, spas, and ornamental fountains/ponds shall be equipped with a recirculation pump and shall be constructed to be leak-proof. Pool draining and refilling shall be allowed only to the extent required for health, maintenance, or structural considerations, and must otherwise comply with all applicable federal, state and local stormwater management program requirements, including, but not limited to, the urban stormwater quality management and discharge control ordinance set forth in Chapter 14.20 of Title 14 of the City of Roseville Municipal Code.

E. Landscaping.

1. All landscaping installed in the City of Roseville shall comply with the water efficient landscape requirements adopted by resolution of the city council.

2. Irrigation of new landscaping shall be allowed on any day of the week for a period of 30 days after the new landscaping is planted, unless the city manager, or designee, provides prior written consent to extend this time period based on plant type and the season when the new landscaping is planted. After the 30 days, irrigation days and run times should be decreased to settings appropriate for an established landscape.

3. Upon city declaration of a water shortage, the city manager or designee may impose revised and/or additional limitations on the irrigation of new landscaping, as specified in Sections 14.09.060 through 14.09.100, and no person shall use, or cause to be used, city water in violation of such limitations while the water shortage remains in effect. A waiver may be granted to irrigate during an establishment period for actively used turf areas and/or sports fields or as approved by the city manager or designee. Allowance shall also be made for irrigation testing and repairs.

F. All site reviews shall include an evaluation of using recycled water. Recycled water

Downloaded from https://ecode360.com/RO4998 on 2026-03-30

shall be required if economically feasible.
(Ord. 2413 § 2, 1991; Ord. 2762 § 1, 1993; Ord. 4629 § 1, 2008; Ord. 5311 § 2, 2014; Ord. 5491 § 4, 2015; Ord. 6500 § 5, 2022)

§ 14.09.070. Stage one drought restrictions.

During a stage one drought, the following restrictions may be required, as determined by the city manager and upon notification pursuant to Section 14.09.020(E):

A. All basic stage restrictions required by Sections 14.09.030 and 14.09.060 shall continue in place, except to the extent they are replaced by more restrictive conditions imposed by this section.

B. Residential users and nonresidential users shall reduce water usage up to 10 percent.

C. Residential water users shall be permitted to irrigate with city water on the following schedule, unless the city manager, or designee, provides prior written consent to a different irrigation pattern:

1. 1st day of November – last day of February: up to one day per week irrigation on Monday of each week, if needed.

2. 1st day of March – last day of April and 1st day of September – last day of October: up to two days per week irrigation on Monday and Friday of each week, if needed.

3. 1st day of May – last day of August: up to three days per week irrigation on Monday, Wednesday and Friday of each week, if needed.

D. Nonresidential water users (including, without limitation, commercial, industrial, church, cemeteries, and publicly owned users) shall be permitted to irrigate with city water on the following schedule, unless the city manager, or designee, provides prior written consent to a different irrigation pattern:

1. 1st day of November – last day of February: up to one day per week irrigation on Tuesday of each week, if needed.

2. 1st day of March – last day of April and 1st day of September – last day of October: up to two days per week irrigation on Tuesday and Thursday of each week, if needed.

3. 1st day of May – last day of August: up to three days per week irrigation on Tuesday, Thursday and Saturday of each week, if needed.

E. The limitations specified in subsections C and D shall not apply to a properly functioning low volume landscape irrigation system, the irrigation on container plants, or to the irrigation of new landscaping that is subject to the provisions of Section 14.09.060(E). Low volume irrigation means the application of irrigation water at low pressure through a system of tubing or lateral lines and low-volume emitters such as point source drip and in-line drip lines or soaker hose. These systems are specifically designed to apply small volumes of water slowly at or near

Downloaded from https://ecode360.com/RO4998 on 2026-03-30

the root zone of plants.

F. References in this section to any day of the week shall mean the period beginning at 12:00 a.m. on that day and ending 24 hours later.

G. City park sites shall, as an aggregate, reduce usage up to 10 percent.

H. Washing streets, parking lots, driveways, sidewalks or buildings, except as necessary for health or sanitary purposes or pursuant to a term or condition in a permit issued by a state or federal agency, is prohibited.

I. Water shall not be served at restaurants except by request.

J. Water shortage surcharges shall be implemented as set forth in Section 14.08.095.
(Ord. 2413 § 2, 1991; Ord. 2636 § 1, 1992; Ord. 2817 § 1, 1994; Ord. 4629 § 1, 2008; Ord. 4724 § 3, 2009; Ord. 5311 § 2, 2014; Ord. 5491 § 5, 2015; Ord. 6500 § 6, 2022)

§ 14.09.080. Stage two drought restrictions.

During a stage two drought, the following restrictions may be required, as determined by the city manager and upon notification pursuant to Section 14.09.020(E):

A. All basic stage and stage one restrictions required by Sections 14.09.060 and 14.09.070 shall continue in place, except to the extent they are replaced by more restrictive conditions imposed by this section.

B. Residential users and nonresidential landscapes shall reduce water usage up to 20 percent.

C. City park sites shall, as an aggregate, reduce usage up to 20 percent.

D. Residential water users shall be permitted to irrigate with city water on the following schedule, unless the city manager, or designee, provides prior written consent to a different irrigation pattern:

1. 1st day of November – last day of February: up to one day per week irrigation on Monday of each week, if needed.

2. 1st day of March – last day of April and 1st day of September – last day of October: up to two days per week irrigation on Monday and Friday of each week, if needed.

3. 1st day of May – last day of August: up to three days per week irrigation on Monday, Wednesday and Friday of each week, if needed.

E. Nonresidential water users (including, without limitation, commercial, industrial, church, cemeteries, and publicly owned users) shall be permitted to irrigate with city water on the following schedule, unless the city manager, or designee, provides prior written consent to the Environmental Utilities-Water Efficiency Section for a different irrigation pattern:

1. 1st day of November – last day of February: up to one day per week irrigation

Downloaded from https://ecode360.com/RO4998 on 2026-03-30

on Tuesday of each week, if needed.

2. 1st day of March – last day of April and 1st day of September – last day of October: up to two days per week irrigation on Tuesday and Thursday of each week, if needed.

3. 1st day of May – last day of August: up to three days per week irrigation on Tuesday, Thursday and Saturday of each week, if needed.

F. The limitations specified in subsections D and E shall not apply to a properly functioning low volume landscape irrigation system, the irrigation on container plants, or to the irrigation of new landscaping that is subject to the provisions of Section 14.09.060(E). Low volume irrigation means the application of irrigation water at low pressure through a system of tubing or lateral lines and low-volume emitters such as point source drip and in-line drip lines or soaker hose. These systems are specifically designed to apply small volumes of water slowly at or near the root zone of plants.

G. References in this section to any day of the week shall mean the period beginning at 12:00 a.m. on that day and ending 24 hours later.

H. Washing of vehicles or boats is prohibited except:

1. When using a hose that is equipped with a control nozzle capable of completely shutting off the flow of water except when positive action or pressure to maintain the flow of water is applied; or

2. When washed in either an automatic or manual commercial car wash that recirculates its water and uses high pressure/low volume wash systems.

3. Temporary car washes, held for fundraising purposes, are encouraged to partner with an automatic commercial car wash that recirculates its water and uses high pressure/low volume wash systems. If run independently, the participants must use a hose nozzle that completely shuts off the flow of water when not in use and must comply with all applicable federal, state and local stormwater management program requirements, including, but not limited to, the urban stormwater quality management and discharge control ordinance set forth in Chapter 14.20 of Title 14 of the City of Roseville Municipal Code.

I. Water shortage surcharges and excess water use charges shall be implemented as set forth in Section 14.08.095.

(Ord. 2611 § 1, 1992; Ord. 4629 § 1, 2008; Ord. 4724 § 3, 2009; Ord. 5311 § 2, 2014; Ord. 5491 § 6, 2015; Ord. 6500 § 7, 2022)

§ 14.09.090. Stage three drought restrictions.

During a stage three drought, the following restrictions may be required, as determined by the city manager and upon notification pursuant to Section 14.09.020(E):

A. All basic stage, stage one, and stage two restrictions required by Sections

Downloaded from https://ecode360.com/RO4998 on 2026-03-30

14.09.060, 14.09.070 and 14.09.080 shall continue in place, except to the extent they are replaced by more restrictive conditions imposed by this section.

B. Residential users and nonresidential landscapes are to reduce water usage up to 30 percent.

C. City park sites shall, as an aggregate, reduce usage up to 30 percent.

D. Residential water users shall be permitted to irrigate with city water on the following schedule, unless the city manager, or designee, provides prior written consent to a different irrigation pattern:

1. 1st day of September – last day of April: up to one day per week irrigation on Monday of each week, if needed.

2. 1st day of May – last day of August: up to two days per week irrigation on Monday and Friday of each week, if needed.

E. Nonresidential water users (including, without limitation, commercial, industrial, church, cemeteries, and publicly owned users) shall be permitted to irrigate with city water on the following schedule, unless the city manager, or designee, provides prior written consent to a different irrigation pattern:

1. 1st day of September – last day of April: up to one day per week irrigation on Tuesday of each week, if needed.

2. 1st day of May – last day of August: up to two days per week irrigation on Tuesday and Thursday of each week, if needed.

F. The limitations specified in subsections D and E shall not apply to a properly functioning low volume landscape irrigation system, the irrigation on container plants, or to the irrigation of new landscaping that is subject to the provisions of Section 14.09.060(E). Low volume irrigation means the application of irrigation water at low pressure through a system of tubing or lateral lines and low-volume emitters such as point source drip and in-line drip lines or soaker hose. These systems are specifically designed to apply small volumes of water slowly at or near the root zone of plants.

G. References in this section to any day of the week shall mean the period beginning at 12:00 a.m. on that day and ending 24 hours later.

H. New or expanded landscaping is limited to drought-tolerant trees, shrubs, and ground-cover and be irrigated using a low volume irrigation system. No new turf shall be planted, hydroseeded, or laid, unless prior written consent is received from the city manager or designee. Low volume irrigation means the application of irrigation water at low pressure through a system of tubing or lateral lines and low-volume emitters such as point source drip and in-line drip lines or soaker hose. These systems are specifically designed to apply small volumes of water slowly at or near the root zone of plants.

I. Except where recycled water is used, golf courses shall reduce irrigation up to 30

Downloaded from https://ecode360.com/RO4998 on 2026-03-30

percent.

J. All decorative fountains, decorative (i.e., nonswimming) pools, and decorative waterways shall be shut off. Such fountains, pools, and waterways shall not be refilled until the city has returned to the basic water conservation stage unless for preventative maintenance. Fountains, ponds or pools that are filled with recycled water are not subject to this provision. Decorative ponds that contain fish as a feature shall be exempt from this restriction as long as the system is maintained in good working order with measures taken to reduce the volume of makeup water required for evaporative losses.

K. Except where recycled or other non-potable water is used or as otherwise provided in this subsection, use of water for dust control is prohibited. Dust control shall be augmented by hardened, temporary travel routes with materials that are accepted by the city manager, city engineer, or designee. Potable water is allowed for construction water only where and to the extent required for public health and safety reasons.

L. New swimming pools and spas may be filled after construction using customer's metered water at then existing water rates. All new pools must include a means for minimizing evaporative loss, such as a pool cover, at time of final inspection by the city. After being filled with water for the first time, all pools and spas shall be subject to the requirements of Section 14.09.060(D).

M. Water shortage surcharges and excess water use charges shall be implemented as set forth in Section 14.08.095.

N. Automobiles or equipment shall be washed only at commercial establishments that recycle their water or by equipment and means that separates debris and revives wash water for continual use.

(Ord. 2413 § 2, 1991; Ord. 4629 § 1, 2008; Ord. 4724 § 3, 2009; Ord. 5311 § 2, 2014; Ord. 5491 § 7, 2015; Ord. 6500 § 8, 2022)

§ 14.09.100. Stage four drought restrictions.

During a stage four drought, the following restrictions may be required, as determined by the city manager and upon notification pursuant to Section 14.09.020(E):

A. All basic stage, stage one, stage two, and stage three restrictions required by Sections 14.09.060, 14.09.070, 14.09.080 and 14.09.090 shall continue in place, except to the extent they are replaced by more restrictive conditions imposed by this section.

B. Residential customers and nonresidential landscapes are to reduce water usage up to 40 percent.

C. City park sites shall, as an aggregate, reduce usage up to 40 percent.

D. Residential water users shall be permitted to irrigate with city water on the following schedule, unless the city manager, or designee, provides prior written

Downloaded from https://ecode360.com/RO4998 on 2026-03-30

consent to a different irrigation pattern:

1. 1st day of September – last day of April: No irrigation allowed.

2. 1st day of May – last day of August: up to one day per week irrigation on Monday, if needed.

E. Nonresidential water users (including, without limitation, commercial, industrial, church, cemeteries, and publicly owned users) shall be permitted to irrigate with city water on the following schedule, unless the city manager, or designee, provides prior written consent to a different irrigation pattern:

1. 1st day of September – last day of April: No irrigation allowed.

2. 1st day of May – last day of August: up to one day per week irrigation on Tuesday of each week, if needed.

F. The limitations specified in subsections D and E shall not apply to a properly functioning low volume landscape irrigation system, the irrigation on container plants, trees or to the irrigation of new landscaping that is subject to the provisions of Section 14.09.060(E). Low volume irrigation means the application of irrigation water at low pressure through a system of tubing or lateral lines and low-volume emitters such as point source drip and in-line drip lines or soaker hose. These systems are specifically designed to apply small volumes of water slowly at or near the root zone of plants.

G. References in this section to any day of the week shall mean the period beginning at 12:00 a.m. on that day and ending 24 hours later.

H. Installation of any new landscaping is prohibited unless irrigation is provided through connection to an active recycled water system. In the case of new construction, the city's building official will issue a temporary final upon completion of the structural development of the property. When the city has returned to a stage two drought restriction, landscaping installation can be completed and a building final will become available upon inspection by the city.

I. Except where recycled water is used, golf courses shall reduce irrigation up to 40 percent.

J. Automobiles or equipment shall be washed only at commercial establishments that recycle their water or by equipment and means that separates debris and recycles wash water for continual use.

K. Existing pools shall not be emptied and refilled using city water unless required for health or safety reasons until the city has returned to a stage two drought restriction. Pools may be refilled only to the extent necessary to replace evaporative losses.

L. No commitments shall be made to provide water service as part of any new land use entitlement (general plan, specific plan or amendments requesting new water allocations) until the city has returned to a stage two drought restriction. Currently approved specific plans with accompanying development agreements and projects

Downloaded from https://ecode360.com/RO4998 on 2026-03-30

or properties that have received water allocations in advance of full entitlements may be issued building permits so long as they comply with the remainder of this chapter.

M. Water shortage surcharges and excess water use charges shall be implemented as set forth in Section 14.08.095.

(Ord. 2413 § 2, 1991; Ord. 4629 § 1, 2008; Ord. 4724 § 3, 2009; Ord. 5311 § 2, 2014; Ord. 5491 § 8, 2015; Ord. 6500 § 9, 2022)

§ 14.09.110. Stage five drought restrictions.

During a stage five drought, the following restrictions may be required, as determined by the city manager and upon notification pursuant to Section 14.09.020(E):

A. All basic stage, or stage one, stage two, stage three and stage four restrictions required by Sections 14.09.060, 14.09.070, 14.09.080, 14.09.090 and 14.09.100 shall continue in place, except to the extent they are replaced by more restrictive conditions imposed by this section.

B. Residential customers and nonresidential landscapes are to reduce water usage up to 50 percent.

C. Except where recycled water is used, water users shall reduce landscape irrigation as follows:

1. Turf shall not be irrigated.

2. Trees and shrubs may be irrigated with a properly functioning low volume landscape irrigation system or by use of a handheld hose equipped with a nozzle capable of completely shutting off the flow of water except when positive action or pressure to maintain the flow of water is applied. Low volume irrigation means the application of irrigation water at low pressure through a system of tubing or lateral lines and low-volume emitters such as point source drip and in-line drip lines or soaker hose. These systems are specifically designed to apply small volumes of water slowly at or near the root zone of plants.

D. Filling new or existing swimming pools and spas with city water is prohibited.

E. Water shortage surcharges and excess water use charges shall be implemented as set forth in Section 14.08.095.

(Ord. 2413 § 2, 1991; Ord. 4629 § 1, 2008; Ord. 4724 § 3, 2009; Ord. 5311 § 2, 2014; Ord. 5491 § 9, 2015; Ord. 6500 § 10, 2022)

§ 14.09.120. Determination of drought tolerance.

Where this chapter permits or prohibits acts based upon whether or not a planting, tree, shrub, or groundcover is "drought tolerant" the determination shall be made based upon Sunset's *Western Garden Book* (most recent edition), or UC Davis Arboretum's "All Stars" plant database (www.arboretum.ucdavis.edu). Where this chapter permits or

Downloaded from https://ecode360.com/RO4998 on 2026-03-30

prohibits acts based upon whether a form of irrigation is "low volume drip irrigation" the determination shall be made by the director, or designee, whose determination shall be final.
(Ord. 2413 § 2, 1991; Ord. 4629 § 1, 2008; Ord. 5311 § 2, 2014; Ord. 6500 § 11, 2022)

§ 14.09.130. Determination of landscape water consumption reductions.

Whenever this chapter requires a reduction in consumption of water for irrigation purposes, the base year for measurement shall be the last year that the basic water conservation stage was in effect or a date specified by the Governor or state agency. If that data is not available for a property, allocations will be based on water use for similar properties. The city manager or designee may elect to base a reduction on the base year or on a landscape water consumption calculation if use was, in the city manager's or designee's, sole opinion, either excessive or extraordinarily low. For landscaping installed subsequent to the base year, the calculations shall be based on landscape water consumption calculations submitted with the landscape plan, or water consumption the previous year, whichever is less.
(Ord. 2413 § 2, 1991; Ord. 2817 § 1, 1994; Ord. 4629 § 1, 2008; Ord. 5311 § 2, 2014; Ord. 5491 § 10, 2015)

§ 14.09.140. Violations.

It is unlawful for any user and/or person to violate any provision or fail to comply with any of the requirements of this chapter. Causing, permitting, aiding, abetting or concealing a violation of any provision of this chapter shall constitute a violation of this chapter. A violation of the provisions of this chapter shall occur irrespective of the negligence or intent of the violator and a violation of or failure to comply with any of the requirements of this chapter may be charged as either an infraction or a misdemeanor in the discretion of the city attorney.
(Ord. 2413 § 2, 1991; Ord. 3834 § 3, 2002; Ord. 4629 § 1, 2008; Ord. 5311 § 2, 2014)

§ 14.09.150. Enforcement authority.

A. Whenever the city manager, or designee (including, but not limited to, an enforcement officer), determines that a user and/or person has violated any provision of, or failed to meet a requirement of, this chapter, an administrative citation pursuant to Chapter 2.50 or a written compliance order pursuant to Chapter 2.52 may be issued to any user and/or person responsible for the violation.

B. Any compliance order issued may require without limitation any or all of the following:

   1. The allocation of a particular amount of water to a given user and/or person responsible for the violation;

   2. The issuance of a fine;

   3. The installation of a flow restriction device;

Downloaded from https://ecode360.com/RO4998 on 2026-03-30

4. The performance of monitoring, analyses, and reporting;

5. That violations shall cease and desist; and/or

6. The discontinuation of water service.

The compliance order shall set forth a deadline within which the requirements of the compliance order must be completed. Said compliance order shall further advise that, should the violator fail to comply with the compliance order within the established deadline, a hearing on the compliance order shall be set.

(Ord. 2413 § 2, 1991; Ord. 2817 § 1, 1994; Ord. 3034 § 3, 2002; Ord. 4629 § 1, 2008; Ord. 5311 § 2, 2014; Ord. 5491 § 11, 2015)

§ 14.09.160. Hearing.

If full compliance is not achieved within the time specified in the compliance order, a hearing on the compliance order shall be set pursuant to Chapter 2.52. All penalties and remedies authorized by Chapter 2.52 shall apply to violations of this chapter.
(Ord. 2413 § 2, 1991; Ord. 4629 § 1, 2008; Ord. 5311 § 2, 2014)

§ 14.09.170. Appeal.

Any user and/or person receiving a compliance order under Section 14.09.150 may appeal the determination of the director, or designee, to a hearing panel drawn from the membership of the board of appeals. The notice of appeal must be received by the city's environmental utilities department within 10 days from the date of the compliance order. Notice of hearing and hearing on the appeal will be conducted pursuant to the requirements of Chapter 2.52.
(Ord. 2413 § 2, 1991; Ord. 4629 § 1, 2008; Ord. 5311 § 2, 2014)

§ 14.09.180. Separate offense for each day.

Any user and/or person that violates any provision of this chapter shall be guilty of a separate offense for each and every day during any portion of which any such user and/or person commits, continues, permits, or causes a violation thereof, and shall be punished accordingly.
(Ord. 2413 § 2, 1991; Ord. 4629 § 1, 2008; Ord. 5311 § 2, 2014)

§ 14.09.190. Public nuisance.

In addition to the enforcement processes and penalties hereinbefore provided, any condition caused or permitted to exist in violation of any of the provisions of this chapter is a threat to public health, safety, and welfare, and is declared and deemed a nuisance, and may be summarily abated or restored by the city at the violator's expense, and/or a civil action to abate, enjoin, or otherwise compel the cessation of such nuisance may be initiated and/or taken by the city.
(Ord. 2413 § 2, 1991; Ord. 4629 § 1, 2008; Ord. 5311 § 2, 2014)

Downloaded from https://ecode360.com/RO4998 on 2026-03-30

§ 14.09.200. Remedies not exclusive.

Remedies under this chapter are in addition to and do not supersede or limit any and all other remedies, civil or criminal. The remedies provided for herein shall be cumulative and not exclusive.
(Ord. 4629 § 2, 2008; Ord. 5311 § 2, 2014)

§ 14.09.210. Judicial review.

Any decision of the hearing panel shall be final. Any user and/or person aggrieved by an order of the hearing panel may obtain review of the order in the Superior Court by filing with the Court a petition for writ of mandate within 90 days pursuant to California Code of Civil Procedure Section 1094.6.
(Ord. 4629 § 2, 2008; Ord. 5311 § 2, 2014)

§ 14.09.220. Chapter severable.

The provisions of this chapter are severable. The city council declares that it would have adopted the remainder of this chapter even if any of its provisions are declared unlawful or unenforceable.
(Ord. 4629 § 2, 2008.; Ord. 5311 § 2, 2014)

Downloaded from https://ecode360.com/RO4998 on 2026-03-30

Appendix O – Roseville Municipal Code 14.08.090, 14.08.095, 14.08.100

Roseville Municipal Code

Title 14 PUBLIC UTILITIES

Chapter 14.08 WATER

§ 14.08.090. Service charges for metered service.

There shall be due and payable the following monthly charges, upon submission of the bill by the city to the owner of the property supplied with service, for all treated water measured by meters for residential, commercial, industrial and manufacturing or other purposes:

A. Monthly Quantity Rates. Effective July 4, 2025 and July 1, 2026, the monthly quantity rates on billings shall be as follows:

	Effective 7/4/2025	Effective 7/1/2026
Potable water usage (per cubic foot)	$0.0174	$0.0181
Recycled water usage (per cubic foot)	$0.0112	$0.0117

B. Monthly Service Charges. Effective July 4, 2025 and July 1, 2026, the monthly service charges on billings shall be as follows:

Meter Size (inches)	Peak Flow Rate (gallons per minute)	Effective 7/4/2025	Effective 7/1/2026
Up to 3/4	30	$31.63	$32.90
1	50	$49.47	$51.45
1-1/2	100	$94.07	$97.83
2	160	$147.59	$153.49
3	350	$317.07	329.75
4	630	$566.83	$589.50
6	1300	$1,164.47	$1,211.05
8	2800	$2,502.47	$2,602.57
10	4200	$3,751.27	$3,901.32

C. The total amount due and payable shall be the sum of the monthly service charge plus the quantity rate. The monthly service charge is due and payable regardless of whether water has been consumed. The service charge shall be the greater of the charge based on the meter size or flow rate, with the following exceptions:

1. No service charge shall be made for fire service that has backflow prevention with detector check devices approved by the environmental utilities director.

D. No service charge shall be made for recycled water utility back-up systems that are required for reliability only and have backflow prevention and metering approved by the environmental utilities director. This exclusion does not extend to systems that are regularly required as part of normal operation. The recycled water operation shall be responsible for water volumetric charges for these services and any costs

Downloaded from https://ecode360.com/RO4998 on 2026-03-30

associated with meter maintenance. For purposes of charging for treated water measured by meters:

1. A residential account is defined as a single metered water service which serves three or less dwelling units.

2. A nonresidential account is defined as a single metered water service which serves more than three dwelling units, or serves commercial, industrial, manufacturing, irrigation or other nonresidential land uses.

E. For single-family residential services that require automatic fire protection systems pursuant to Section 16.16.110, the increased meter size will not be assessed an additional charge associated with the fire protection system requirement. Service charges shall be based on the required service size as determined by the Uniform Plumbing Code without consideration for any fire protection system required by Section 16.16.110.

§ 14.08.095. Water rate surcharge and excess water use charge.

Effective on billings as of May 1, 2009, all quantity rates identified in Section 14.08.090, but not recycled water, will be subject to the water shortage surcharges and excess water use charges identified as follows when the drought stages identified and set forth in Sections 14.09.070 through 14.09.110 are declared, provided that the city manager determines that imposition of such charges is required under the identified drought stage.

Summary of Water Shortage Rate Charges			
Stage	Water Use Restriction	Water Shortage Surcharge (*1)	Excess Water Use Charge (*2)
First Year of a Water Shortage			
Stage 1	10%	None	None
Stage 2	20%	15%	None
Stage 3	30%	33%	25%
Stage 4	40%	45%	50%
Stage 5	50%	60%	100%
Subsequent Year(s) of a Water Shortage			
Stage 1	10%	15%	None
Stage 2	20%	20%	25%
Stage 3	30%	40%	50%
Stage 4	40%	50%	100%
Stage 5	50%	75%	200%

Notes:

(*1) The water shortage surcharge (identified hereafter) shall be added to all quantity rates identified in Section 14.08.090 as applicable, according to drought stage.

(*2) In addition to the applicable water shortage surcharge, an excess water use charge shall be added to water rates identified in Section 14.08.090, according to drought stage.

(Ord. 2414 § 1, 1991; Ord. 3101 § 1, 1997; Ord. 4724 § 2, 2009; Ord. 5311 § 1, 2014; Ord. 5837 § 3, 2017)

§ 14.08.100. Flat water rates.

The following service charges shall apply to flat rate consumers that the environmental utilities director determines are not cost effective to assign metered rates. The environmental utilities director shall conduct a water use study for consumers whom he or she determines may not be reasonably metered, and the director shall assign such consumers to an appropriate service rate level as set forth in this section. Water service rates for flat rate residential consumers shall be due and payable on a monthly basis according to the appropriate grouping set out in this section.

Effective July 4, 2025, and July 1, 2026, the flat rates on billings shall be as follows:

Nonmetered or Flat Service Charges	Effective 7/4/2025	Effective 7/1/2026
Single-family lots under 4,900 square feet; each mobile home unit not within a park maintaining its own distribution system and service; each dwelling unit of duplexes, triplexes, fourplexes, unmetered apartments and other multiple living units; other detached living units; and offices and stores with less than peak use of 250 gallons per day	$52.95	$55.07
Single-family lots 4,901 to 8,900 square feet	$56.79	$59.06
Single-family lots 8,901 to 12,000 square feet	$66.39	$69.05
Single-family lots 12,001 to 15,000 square feet	$73.59	$76.53

(Prior code § 27.15; Ord. 1239 § 2, 1974; Ord. 1418 § 9, 1978; Ord. 1918 § 1, 1985; Ord. 2708 § 1, 1993; Ord. 3101 § 1, 1997; Ord. 3687 § 1, 2001; Ord. 3756, § 2, 2001; Ord. 3964 § 1, 2003; Ord. 4263 § 2, 2005; Ord. 4508 § 1, 2007; Ord. 4724 § 2, 2009; Ord. 4957 § 1, 2011; Ord. 5174 § 2, 2013; Ord. 5610 § 3, 2016; Ord. 5837 § 4, 2017; Ord. 6100 § 5, 2019; Ord. 6367 § 3, 2021; Ord. 6660 § 2, 2023; Ord. 6953, 6/4/2025)

Gallons Per Capita Water Reduction

Reporting Year	2026
Data Year	2025

What was your GPCD the last 5 years?

Year	GPCD
2025	161.31
2024	176.38
2023	173.29
2022	183.64
2021	195.97

If not using programmatic method of water efficiency, what is your district implementing to reduce water use? Provide a brief narrative.

City of Roseville does use a programmatic method of water efficiency.

If your district's GPCD is not declining, please provide a narrative of why and what your district will be doing to accomplish water usage savings.

The City of Roseville's GPCD is generally declining.

Metering With Commodity Rates

Are all connections metered? ○ Yes ◉ No ○ NA

If not 100% metered, please provide a narrative of why and when your district will be fully metered.

The City of Roseville implemented a Meter Retrofit Program beginning in 2001 and concluding in 2011, whereby 99%+ of the City's service connections were retrofitted with meters, either individually or with master meters. In general, accounts were left unmetered where site plumbing issues make it challenging, if not practically impossible, to provide an individual meter to the account location at that time.

Currently, the remaining <1% of unmetered services are retrofitted as part of an ongoing

Are all metered connections billed by water usage? ◉ Yes ○ No ○ NA

If no, please provide a brief narrative of why and when your district will be billing by water usage?

Retail Conservation Pricing

Is your district billing utilizing conserving rate structure? ○ Yes ◉ No ○ NA

Website to billing rate structure	https://ecode360.com/RO4998

If no, please provide a brief narrative of why or when your district will be implementing a conserving rate structure.

As a component of its meter retrofit program, the City adopted conservation pricing for water on all metered accounts from 2011 through 2015. To comply with Proposition 218 requirements, a law passed in California, the City transitioned to a per-use, uniform rate billing structure in February 2016 which remains in place.

Water Waste Prohibition

Brief Comments/Narrative

The City currently restricts water waste within its service area. Roseville Municipal Code Chapter 14.09, Water Conservation Ordinance, defines water waste and associated penalties of continued infractions. Per the ordinance, customers in violation are provided a series of notifications at one week intervals: first a courtesy notice, second an administrative warning, and finally a formal citation. If the situation is not remedied by the time specified in the formal citation, additional measures can be taken to force compliance. These measures include fines, water restrictions, low flow devices, or discontinued service.

Water Loss Control

Water Loss Program? (●) Yes ( ) No ( ) NA

If not using AWWA Water Audit Software, brief description of program and/or link to website.

City of Roseville uses the latest version of AWWA Water Audit Software (V6).

AWWA Water Audit Software? (●) Yes ( ) No ( ) NA

Water Audit Data Validity Score	74/100
Data Validity Level	IV (71-90)
Date of Last Analysis	2024

Brief Comments/Narrative

In 2009 the City began using AWWA Water Loss software to develop an annual water loss audit. Results from the audit have helped the City identify where in the distribution process leaks are occurring. When coupled with detailed pipeline information stored in the City's asset management system, audit information helps identify leak-prone areas of the City's distribution system.

These areas are then targeted for annual visual and auditory leak detection surveys to isolate individual areas of leakage. Once isolated, the City's responses include corrosion monitoring programs, service cathodic protection and/or replacement. The City's asset management software is then updated with identified leaks, which in turn provides more information useful for prioritization of future rehabilitation programs.

If not using programmatic method of water efficiency, what is your district implementing to reduce water use? Provide a brief narrative.

City of Roseville does use a programmatic method of water efficiency.

If your district's GPCD is not declining, please provide a narrative of why and what your district will be doing to accomplish water usage savings.

The City of Roseville's GPCD is generally declining or staying steady; however, in 2020 due to quarantine measures resulting from the COVID-19 pandemic, there was a noted increase in indoor usage. This period of greater presence within residential homes caused an overall increase in GPCD for the year. This increase resulting from a change in customer behavior has not been observed to persist beyond the point that quarantine requirements were fully removed.

Gallons Per Capita Water Reduction

Reporting Year	2024
Data Year	2023

What was your GPCD the last 5 years?

Year	GPCD
2023	173.29
2022	183.64
2021	195.97
2020	206.77
2019	190.50

If not using programmatic method of water efficiency, what is your district implementing to reduce water use? Provide a brief narrative.

City of Roseville does use a programmatic method of water efficiency.

If your district's GPCD is not declining, please provide a narrative of why and what your district will be doing to accomplish water usage savings.

The City of Roseville's GPCD is generally declining; however, in 2020 due to quarantine measures resulting from the COVID-19 pandemic, there was a noted increase in indoor usage. This period of greater presence within residential homes caused an overall increase in GPCD for the year. It is not expected that this increase will remain beyond the point that quarantine requirements are fully removed.

Metering With Commodity Rates

Are all connections metered? ○ Yes ◉ No ○ NA

If not 100% metered, please provide a narrative of why and when your district will be fully metered.

The City of Roseville implemented a Meter Retrofit Program beginning in 2001 and concluding in 2011, whereby 99%+ of the City's service connections were retrofitted with meters, either individually or with master meters. In general, accounts were left unmetered where site plumbing issues make it challenging, if not practically impossible, to provide an individual meter to the account location at that time.

Currently, the remaining <1% of unmetered services are retrofitted as part of an ongoing

Are all metered connections billed by water usage? ◉ Yes ○ No ○ NA

If no, please provide a brief narrative of why and when your district will be billing by water usage?

Retail Conservation Pricing

Is your district billing utilizing conserving rate structure? ○ Yes ◉ No ○ NA

Website to billing rate structure	https://ecode360.com/RO4998

If no, please provide a brief narrative of why or when your district will be implementing a conserving rate structure.

As a component of its meter retrofit program, the City adopted conservation pricing for water on all metered accounts from 2011 through 2015. To comply with Proposition 218 requirements, a law passed in California, the City transitioned to a per-use, uniform rate billing structure in February 2016.

Water Waste Prohibition

4		
5		

Brief Comments/Narrative

The City currently restricts water waste within its service area. Roseville Municipal Code Chapter 14.09, Water Conservation Ordinance, defines water waste and associated penalties of continued infractions. Per the ordinance, customers in violation are provided a series of notifications at one week intervals: first a courtesy notice, second an administrative warning, and finally a formal citation. If the situation is not remedied by the time specified in the formal citation, additional measures can be taken to force compliance. These measures include fines, water restrictions, low flow devices, or discontinued service.

Water Loss Control

Water Loss Program? (●) Yes ( ) No ( ) NA

If not using AWWA Water Audit Software, brief description of program and/or link to website.

City of Roseville uses the latest version of AWWA Water Audit Software (V6).

AWWA Water Audit Software? (●) Yes ( ) No ( ) NA

Water Audit Data Validity Score	74/100
Data Validity Level	IV (71-90)
Date of Last Analysis	2022

Brief Comments/Narrative

In 2009 the City began using AWWA Water Loss software to develop an annual water loss audit. Results from the audit have helped the City identify where in the distribution process leaks are occurring. When coupled with detailed pipeline information stored in the City's asset management system, audit information helps identify leak-prone areas of the City's distribution system.

These areas are then targeted for annual visual and auditory leak detection surveys to isolate individual areas of leakage. Once isolated, the City's responses include corrosion monitoring programs, service cathodic protection and/or replacement. The City's asset management software is then updated with identified leaks, which in turn provides more information useful for prioritization of future rehabilitation programs.

City of Roseville does use a programmatic method of water efficiency.

If your district's GPCD is not declining, please provide a narrative of why and what your district will be doing to accomplish water usage savings.

The City of Roseville's GPCD is generally declining; however, in 2020 due to quarantine measures resulting from the COVID-19 pandemic, there was a noted increase in indoor usage. This period of greater presence within residential homes caused an overall increase in GPCD for the year. It is not expected that this increase will remain beyond the point that quarantine requirements are fully removed.

Metering With Commodity Rates

Are all connections metered? ○ Yes ◉ No ○ NA

If not 100% metered, please provide a narrative of why and when your district will be fully metered.

The City of Roseville implemented a Meter Retrofit Program beginning in 2001 and concluding in 2011, whereby 99%+ of the City's service connections were retrofitted with meters, either individually or with master meters. In general, accounts were left unmetered where site plumbing issues make it challenging, if not practically impossible, to provide an individual meter to the account location at that time.

Currently, the remaining <1% of unmetered services are retrofitted as part of an ongoing

Are all metered connections billed by water usage? ◉ Yes ○ No ○ NA

If no, please provide a brief narrative of why and when your district will be billing by water usage?

Retail Conservation Pricing

Is your district billing utilizing conserving rate structure? ○ Yes ◉ No ○ NA

Website to billing rate structure	http://qcode.us/codes/roseville/

If no, please provide a brief narrative of why or when your district will be implementing a conserving rate structure.

As a component of its meter retrofit program, the City adopted conservation pricing for water on all metered accounts from 2011 through 2015. To comply with Proposition 218 requirements, a law passed in California, the City transitioned to a per-use, uniform rate billing structure in February 2016.

Water Waste Prohibition

Water Waste Ordinance (●) Yes ( ) No ( ) NA

5		

Brief Comments/Narrative

The City currently restricts water waste within its service area. Roseville Municipal Code Chapter 14.09, Water Conservation Ordinance, defines water waste and associated penalties of continued infractions. Per the ordinance, customers in violation are provided a series of notifications at one week intervals: first a courtesy notice, second an administrative warning, and finally a formal citation. If the situation is not remedied by the time specified in the formal citation, additional measures can be taken to force compliance. These measures include fines, water restrictions, low flow devices, or discontinued service.

Water Loss Control

Water Loss Program? (●) Yes ( ) No ( ) NA

If not using AWWA Water Audit Software, brief description of program and/or link to website.

City of Roseville uses the latest version of AWWA Water Audit Software.

AWWA Water Audit Software? (●) Yes ( ) No ( ) NA

Water Audit Data Validity Score	70/100
Data Validity Level	III (51-70)
Date of Last Analysis	2019

Brief Comments/Narrative

In 2009 the City began using AWWA Water Loss software to develop an annual water loss audit. Results from the audit have helped the City identify where in the distribution process leaks are occurring. When coupled with detailed pipeline information stored in the City's asset management system, audit information helps identify leak-prone areas of the City's distribution system.

These areas are then targeted for annual visual and auditory leak detection surveys to isolate individual areas of leakage. Once isolated, the City's responses include corrosion monitoring programs, service cathodic protection and/or replacement. The City's asset management software is then updated with identified leaks, which in turn provides more information useful for prioritization of future rehabilitation programs.

Brief Comments/Narrative

The City's Water Efficiency programs reach approximately 1000 residences and approximately 1000 commercial sites for landscape-related visits per year, with continued efforts to engage the community and residents in rebate programs, water efficiency education, as well as best practices of water resource management. The City continues its effort to reach residents and commercial customers via water efficiency rebate programs, free water wise house call services, commercial site evaluations, water waste patrol and outreach.

Appendix Q – Adoption Resolutions and Submission

Resolutions and submission documentation will be added following final Council adoption.

Appendix R – DWR UWMP Checklist

2025 Guidebook Location	Water Code Section	Summary as Applies to UWMP	Subject	Relevant Submittal Table	2025 UWMP Location
Chapter 1	10615	A plan shall describe and evaluate sources of supply, reasonable and practical efficient uses, reclamation and demand management activities.	Introduction and overview	n/a	Executive Summary
Chapter 1	10630.5	Each plan shall include a simple description of the Supplier's plan including water availability, future requirements, a strategy for meeting needs, and other pertinent information. Additionally, a Supplier may also choose to include a simple description at the beginning of each chapter.	Plan preparation	n/a	Executive Summary
Section 2.1	10620(b)	Every person that becomes a Supplier shall adopt UWMP within one year after it has become a Supplier.	Plan preparation	n/a	Section 2.1
Section 2.5	10644	Supplier shall report the Public Water Systems number, volume of delivered water, and number of connections that are included in this UWMP.	Plan preparation	2-1	Section 2.1
Section 2.5	10644	Supplier shall report if this UWMP is an individual UWMP and whether the Supplier belongs to a regional UWMP or regional alliance.	Plan preparation	2-2	Section 2.2
Section 2.5	10644	Supplier shall report whether the data is in fiscal or calendar years and the units of measure used for reporting water volumes.	Plan preparation	2-3	Section 2.3
Section 2.4	10642	Provide supporting documentation that the Supplier has encouraged active involvement of diverse social, cultural, and economic elements of the population within the service area prior to and during the preparation of the plan and contingency plan.	Plan preparation	n/a	Appendix B
Section 2.4.2	10620(d)(3)	Coordinate the preparation of its plan with other appropriate agencies in the area, including other Suppliers that share a common source, water management agencies, and relevant public agencies, to the extent practicable.	Plan preparation	n/a	Section 2.4
Section 2.4.1	10631(h)	Retail Suppliers will include documentation that they have provided their Wholesale Supplier(s)—if any—with water use projections from that source.	Plan preparation	2-4 R	Appendix A
Section 2.4.1	10631(h)	Wholesale Suppliers will provide their Suppliers with identification and quantification of the existing and planned sources of water available from the Wholesale Supplier to the Supplier during various water year types.	Plan preparation	2-4 W	N/A
Chapter 3	10631(a)	Describe the Supplier service area.	System description	n/a	Section 3.2
Section 3.3	10631(a)	Describe the climate of the Supplier's service area.	System description	n/a	Section 3.3
Section 3.4.1	10631(a)	Provide the current and projected service area populations for 2030, 2035, 2040, 2045 and optionally 2050.	System description	3-1	DWR Table 3-1
Section 3.4.2	10631(a)	Describe other social, economic, and demographic factors affecting the Supplier's water management planning.	System description	n/a	Section 3.4.2
Section 3.5	10631(a)	Describe the land uses within the service area… include the current and projected land uses within the existing or anticipated service area affecting the Supplier's water management planning. Describe the land uses within the service area.	System description and baselines	n/a	Section 3.5

Sections 4.2.3 and 4.2.4	10631(d)(1)	Quantify past, current, and projected water use, identifying the uses among water use sectors.	System water use	4-1 and 4-2	COR Table 4-A DWR Table 4-1 DWR Table 4-2
Section 4.3.1	10631(d)(3)(A)	Report the distribution system water loss for each of the five years preceding the plan update.	System water use	4-5	COR Table 4-D DWR Table 4-5
Section 4.3.2	10631(d)(3)(C)	Retail Suppliers shall provide data to show the distribution loss standards were met.	System water use	4-6	Section 4.2.6
Section 4.2.5.4	10631.1(a)	Include projected water use needed for lower income housing projected in the service area of the Supplier.	System water use	4-3	COR Table 4-G COR Table 4-H
Section 4.2.5.3	10631(d)(4)(A)	In projected water use, include estimates of water savings from adopted codes, plans, and other policies or laws.	System water use	4-3	Section 4.2.7
Section 4.2.5.3	10631(d)(4)(B)	Provide citations of codes, standards, ordinances, or plans used to make water use projections.	System water use	4-3	Section 4.2.7
Section 4.2.5.3	10631(d)(4)(B)(ii)	To the extent that a Supplier reports the information described in subparagraph (A), an urban water Supplier shall… Indicate the extent that the water use projections consider savings from codes, standards, ordinances, or transportation and land use plans. Water use projections that do not account for these water savings shall be noted of that fact.	System water use	4-3	Section 4.2.7
Section 4.2.5.6	10635(b)	Demands under climate change considerations must be included as part of the drought risk assessment.	System water use	n/a	Section 4.4 Section 6.14.2
Section 5.1	10608.36	Wholesale Suppliers shall include an assessment of present and proposed future measures, programs, and policies to help their Retail Suppliers achieve targeted water use reductions.	Baselines and targets	n/a	N/A
Section 5.2	10608.4	Retail Suppliers shall report on their compliance in meeting their water use targets. Reporting requirements will vary depending on whether the Supplier: - Was considered an urban retail water supplier in 2020, - Met its 2020 target in 2020, or - Was part of a merger or consolidation since 2020. Chapter 5 Subsections 5.2.1, 5.2.2, and 5.2.3 address each of these situations.	Baselines and targets	5-1	2025 DWR Table 5-1
Section 6.1	10631(b)(2)	When multiple sources of water supply are identified, describe the management of each supply in relationship to other identified supplies.	System supplies	n/a	Section 6.11
Sections 6.1 and 6.2	10631(b)(1)	Provide a discussion of anticipated supply availability under a normal, single dry year, and a drought lasting five years, as well as more frequent and severe periods of drought, including changes in supply due to climate change.	System supplies	n/a	Section 7.2
Section 6.2.2	10631(b)(4)(C)	Indicate whether groundwater is an existing or planned source of water available to the Supplier. If groundwater is identified as an existing or planned source of water… (include) a detailed description and analysis of the location, amount and sufficiency of groundwater pumped by the Supplier for the past five years.	Water supplies and recycled water	6-1	Section 6.3

Section 6.2.2	10631(b)(4)(A)	Indicate whether a groundwater sustainability plan or groundwater management plan has been adopted by the Supplier or if there is any other specific authorization for groundwater management. Include a copy of the plan or authorization.	System supplies	n/a	Section 6.3.2
Section 6.2.2	10631(b)(4)(B)	Describe the groundwater basin.	System supplies	n/a	Section 6.3.1
Section 6.2.2	10631(b)(4)(B)	Indicate if the basin has been adjudicated and include a copy of the court order or decree and a description of the amount of water the Supplier has the legal right to pump.	System supplies	n/a	Section 6.3.1
Section 6.2.2	10631(b)(4)(B)	For unadjudicated basins… (include) information as to whether DWR has identified the basin as a high- or medium-priority basin in the most current official departmental bulletin…	Water supplies and recycled water	n/a	Section 6.3.1
Section 6.2.2	10631(b)(4)(B)	For unadjudicated basins… describe efforts by the Supplier to coordinate with sustainability or groundwater agencies to achieve sustainable groundwater conditions.	Water supplies and recycled water	n/a	Section 6.3.2
Section 6.2.2	10631(b)(4)(C)	If groundwater is identified as an existing or planned source of water… (include) a detailed description and analysis of the location, amount and sufficiency of groundwater pumped by the Supplier for the past five years.	System supplies	n/a	Section 6.3.3
Section 6.2.2	10631(b)(4)(D)	Provide a detailed description and analysis of the amount and location of groundwater that is projected to be pumped.	System supplies	6-9	Section 6.12.2
Section 6.1	10631(b)	Identify and quantify the existing and planned sources of water available for 2025, 2030, 2035, 2040, 2045 and optionally 2050.	System supplies	6-8 and 6-9	DWR Table 6-8 DWR Table 6-9
Section 6.2.7	10631(c)	Describe the opportunities for exchanges or transfers of water on a short-term or long-term basis.	System supplies	n/a	Section 6.10
Section 6.2.5	10633(a)	Describe the wastewater collection and treatment systems in the Supplier's service area with quantified amount of collection and treatment and the disposal methods.	System supplies (recycled water)	6-2	Section 6.5.1
Section 6.2.5	10633(b)	Describe the quantity of treated wastewater that meets recycled water standards, is being discharged, and is otherwise available for use in a recycled water project.	System supplies (recycled water)	6-3	Section 6.5.1
Section 6.2.5	10633(c)	Describe the recycled water currently being used in the Supplier's service area.	System supplies (recycled water)	6-4	Section 6.7
Section 6.2.5	10633(d)	Describe and quantify the potential uses of recycled water and provide a determination of the technical and economic feasibility of those uses.	System supplies (recycled water)	6-4	Section 6.8
Section 6.2.5	10633(e)	Describe the projected use of recycled water within the Supplier's service area at the end of 5, 10, 15, and 20 years, and describe the actual use of recycled water in comparison to uses previously projected.	System supplies (recycled water)	6-4 and 6-5	Section 6.7
Section 6.2.5	10633(f)	Describe the actions that may be taken to encourage the use of recycled water and the projected results of these actions in terms of acre-feet of recycled water used per year.	System supplies (recycled water)	6-6	Section 6.8
Section 6.2.5	10633(g)	Provide a plan for optimizing the use of recycled water in the Supplier's service area.	System supplies (recycled water)	n/a	Section 6.8
Section 6.2.6	10631(g)	Describe desalinated water project opportunities for long-term supply.	System supplies	6-7	Section 6.9

Section 6.2.10	10631(f)	Describe the expected future water supply projects and programs that may be undertaken by the water Supplier to address water supply reliability in average, single-dry, and for a period of drought lasting five consecutive water years.	System supplies	6-7	Section 6.12
Section 6.3 and Appendix O	10631.2(a)	The UWMP must include energy information, as stated in the code, that a Supplier can readily obtain.	System suppliers, energy intensity	O-1A, O-1B, O-1C, and O-2	Section 6.15
Section 7.1	10634	Provide information on the quality of existing sources of water available to the Supplier and the manner in which water quality affects water management strategies and supply reliability.	Water supply reliability assessment	n/a	Section 7.1.2
Section 7.2	10635(a)	Service Reliability Assessment: Assess the water supply reliability during normal, dry, and a drought lasting five consecutive water years by comparing the total water supply sources available to the Supplier with the total projected water use over the next 20 years.	Water supply reliability assessment	7-2, 7-3, and 7-4	DWR Table 7-2 DWR Table 7-3 DWR Table 7-4
Section 7.2.3	10620(f)	Describe water management tools and options to maximize resources and minimize the need to import water from other regions.	Water supply reliability assessment	n/a	Section 7.2.5
Section 7.3	10635(b)	Provide a drought risk assessment as part of information considered in developing the demand management measures and water supply projects.	Water supply reliability assessment	n/a	DWR Table 7-2 DWR Table 7-3 DWR Table 7-4 DWR Table 7-5
Section 7.3	10635(b)(1)	Include a description of the data, methodology, and basis for one or more supply shortage conditions that are necessary to conduct a drought risk assessment for a drought period that lasts five consecutive years.	Water supply reliability assessment	n/a	Section 7.2.5
Section 7.3	10635(b)(2)	Include a determination of the reliability of each source of supply under a variety of water shortage conditions.	Water supply reliability assessment	n/a	COR Table 7-D
Section 7.3	10635(b)(3)	Include a comparison of the total water supply sources available to the Supplier with the total projected water use for the drought period.	Water supply reliability assessment	7-5	DWR Table 7-4 DWR Table 7-5
Section 7.3	10635(b)(4)	Include considerations of the historical drought hydrology, plausible changes on projected supplies and demands under climate change conditions, anticipated regulatory changes, and other locally applicable criteria.	Water supply reliability assessment	n/a	Section 7.2.1
Chapter 8	10632(a)	Provide a water shortage contingency plan (WSCP) with specified elements below.	Water shortage contingency planning	n/a	Appendix M
Chapter 8	10632(a)(1)	Provide an analysis of water supply reliability (from Guidebook Chapter 7) in the WSCP.	Water shortage contingency planning	n/a	WSCP Section 1.1
Section 8.2	10632(a)(2)(A)	Provide the written decision-making process and other methods that the Supplier will use each year to determine its water reliability.	Water shortage contingency planning	n/a	WSCP Table 5
Section 8.2	10632(a)(2)(B)	Provide data and methodology to evaluate the Supplier's water reliability for the current year and one dry year pursuant to factors in the code.	Water shortage contingency planning	n/a	WSCP Table 5 Steps 1-8
Section 8.3	10632(a)(3)(A)	Define six standard water shortage levels of 10%, 20%, 30%, 40%, 50% shortage, and greater than 50% shortage. These levels shall be based on supply conditions, including percent reductions in supply, changes in groundwater levels, changes in surface elevation, or other conditions. The shortage levels shall also apply to a catastrophic interruption of supply.	Water shortage contingency planning	n/a	WSCP Table 4
Section 8.3	10632(a)(3)(B)	Suppliers with an existing WSCP that uses different water shortage levels must cross reference their categories with the six standard categories.	Water shortage contingency planning	8-1	WSCP Table 4

Section 8.4	10632(a)(4)(A)	Suppliers with WSCPs that align with the defined shortage levels must specify locally appropriate supply augmentation actions.	Water shortage contingency planning	8-2	WSCP Section 1.5
Section 8.4	10632(a)(4)(B)	Specify locally appropriate demand reduction actions to adequately respond to shortages.	Water shortage contingency planning	8-3	WSCP Table 6
Section 8.4	10632(a)(4)(C)	Specify locally appropriate operational changes.	Water shortage contingency planning	8-2	WSCP Section 1.5
Section 8.4	10632(a)(4)(D)	Specify additional mandatory prohibitions against specific water use practices that are in addition to State-mandated prohibitions are appropriate to local conditions.	Water shortage contingency planning	Table 8-3	WSCP Table 6
Section 8.4	10632(a)(4)(E)	Estimate the extent to which the gap between supplies and demand will be reduced by implementation of the action.	Water shortage contingency planning	8-2 and 8-3	WSCP Table 6
Section 8.4.6	10632.5	The UWMP shall include a seismic risk assessment and mitigation plan.	Water shortage contingency planning	n/a	WSCP Section 1.1.3
Section 8.5	10632(a)(5)(A)	Suppliers must describe that they will inform customers, the public and others regarding any current or predicted water shortages.	Water shortage contingency planning	n/a	WSCP Table 5
Section 8.5	10632(a)(5)(B), 10632(a)(5)(C)	Suppliers must describe that they will inform customers, the public and others regarding any shortage response actions triggered or anticipated to be triggered and other relevant communications.	Water shortage contingency planning	n/a	WSCP Table 5
Section 8.6	10632(a)(6)	Retail Supplier must describe how it will ensure compliance with and enforce provisions of the WSCP.	Water shortage contingency planning	n/a	WSCP Section 1.6
Section 8.7	10632(a)(7)(A)	Describe the legal authority that empowers the Supplier to enforce shortage response actions.	Water shortage contingency planning	n/a	WSCP Section 1.2

RESOLUTION NO. 26-239

ADOPTING THE WATER SHORTAGE CONTINGENCY PLAN AND AUTHORIZING STAFF TO SUBMIT TO THE CALIFORNIA DEPARTMENT OF WATER RESOURCES

WHEREAS, the Urban Water Management Plan (UWMP) Act requires every urban water supplier providing water for municipal purposes to more than 3,000 customers to develop and submit a Water Shortage Contingency Plan (WSCP) as part of an UWMP every five years to the California Department of Water Resources (DWR); and

WHEREAS, with ongoing and recent updates to the DWR Guidebook for Urban Water Suppliers, staff collaborated with a consultant on the development of the 2025 WSCP update; and

WHEREAS, the City has prepared and circulated for public review the WSCP, and a properly noticed public hearing regarding said Plan was held by the City Council on June 17, 2026.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Roseville that the WSCP is hereby adopted and ordered filed with the City Clerk; and

BE IT FURTHER RESOLVED that the Mayor is hereby authorized and directed to file the WSCP with the California Department of Water Resources within 30 days after this date.

PASSED AND ADOPTED by the Council of the City of Roseville this ___ day of _____, 20__, by the following vote on roll call:

Water Shortage Contingency Plan

Following the severe drought of 2012-2016, the State of California Legislature sought to expand the water shortage contingency analysis under former law and mandated that a water shortage contingency plan (WSCP) be adopted by suppliers. The California Water Code (CWC) recognizes WSCPs as a critical tool during a drought emergency and grants that the State defer to locally adopted WSCPs, to the extent practicable.

> *California Water Code Section 10632.3*
>
> *It is the intent of the Legislature that, upon proclamation by the Governor of a state of emergency under the California Emergency Services Act (Chapter 7 (commencing with Section 8550) of Division 1 of Title 2 of the Government Code) based on drought conditions, the board defer to implementation of locally adopted water shortage contingency plans to the extent practicable.*

The WSCP is the City of Roseville Water Utility's (City's) operational plan in the event of a water shortage. Water shortage would occur when available water supplies are insufficient to meet normal customer water demands. Various causes can bring about a water shortage including population growth, climate change, drought, natural disasters, and catastrophic events.

The WSCP shall address the ten following elements:

1. Water supply reliability assessment analysis
2. Annual assessment procedures
3. Six standard shortage stages
4. Shortage response actions
5. Communication protocols
6. Compliance and enforcement
7. Legal authorities
8. Financial consequences of WSCP
9. Monitoring and reporting
10. WSCP refinement procedures

1.1 Water Supply Reliability Analysis

Pursuant to 10632(a)(1) of the CWC, a near-term (5years) and long-term (20 years) water supply reliability analysis is provided herein. The water supply reliability analysis consists of a water service reliability assessment and drought risk assessment (DRA).

1.1.1 Constraints on Water Supply

Most of the City's water is surface water received from Folsom Lake. The City's existing surface water contracts with the U.S. Bureau of Reclamation (USBR) and Placer County Water Agency (PCWA) are received through the Folsom Dam Diversion, making this a critical facility for the reliability of Roseville's surface water supply. Under normal conditions, the capacities of the Folsom Dam Diversion, Roseville Water Treatment Plant, and distribution network are sufficient to meet the City's water demands. However, the water that the City receives is subject to reductions during dry years pursuant to the Water Forum Agreement (WFA), the USBR Operations Criteria and Plan (OCAP), and the Central Valley Project Municipal and Industrial Water Shortage Policy (CVP M&I WSP).

Although Roseville's annual water contract entitlements total 66,000-acre feet (AF), the City along with other Sacramento-area water suppliers are signatory to the January 2000 Water Forum Agreement which includes Purveyor Specific Agreements. The WFA provides the framework for how water resources, including surface water and groundwater supplies, would be used in the region through the year 2030. These agreements were most recently updated in 2015, and the City is currently engaged in further updates to the WFA where the assumption in this WSCP is that the final WFA supply limitations will be applied to the City's increased available contract supplies in the same way with no additional supply limitation imposed. The City's Purveyor Specific Agreement includes limitations on City surface water diversions from the American River under different hydrologic conditions. The hydrologic conditions are characterized by three categories of year type and the corresponding limitations for the City are given in WSCP Table 1.

WSCP Table 1 Available Surface Water Supply Under Differing Hydrologic Conditions

Year Type	Unimpaired Flow into Folsom Reservoir	Roseville Available Supply
Normal/ Average or Wet Year	Greater or equal to 950,000 AF	Maximum of 58,900 AF
Drier Year	Between 400,000 and 950,000 AF	Between 43,800 and 58,900 AF
Driest/ Critically Dry Year	Less than 400,000 AF	Maximum of 43,800 AF
NOTES: The City is currently in the process of updating their Purveyor Specific Agreement. While the City's supply contract with PCWA will increase over the coming 10 years by an additional 10,000 AF, the amount of water foregone by the WFA is not expected to increase, resulting in an overall increase to the above outlined maximums.		

In addition to the impacts of the contractual agreements, the reliability of surface water is also subject to physical constraints. In the event that the water level at Folsom Lake drops close to or below the intake elevation, without additional infrastructure, the City would be unable to divert water. The severe drought of 2015, which was preceded by multiple consecutive dry years, demonstrated the vulnerability of the City's surface water as the water elevation did come close to the intake elevation.

Though the City has made significant progress in expanding its groundwater infrastructure, under current operations the groundwater is not a considered a source of water supply for the City outside of emergency conditions. The City has 7 existing wells, 6 of which have aquifer storage recovery (ASR) injection capability. The City's strategy in normal years is to not pump groundwater from the wells, except for well maintenance activities, during which any volume pumped is returned to the aquifer, and only inject what is in excess, thus creating a bank of water for future use. If a significant drought stage is reached the City can pump groundwater to augment its water supply and make up for deficits of the surface water supply. The City continues to invest in development of groundwater infrastructure to increase supply reliability in times of drought, however in any given year type, the City must make determinations of drought stage without consideration of groundwater supplies, per the terms of the municipal code. This is further discussed in Section 1.5. For the purpose of this WSCP, only the resources available to the City in determination of a drought stage are included in calculations of the surplus or shortfall for the DRA shown in WSCP Table 2 and WSCP Table 3.

1.1.2 Drought Risk Assessment

The near-term and long-term drought risk assessment was performed by comparing the unconstrained potable water demands to the water supply availability for a single dry year and 5 consecutive dry years. The near-term DRA for a five-year drought is provided in WSCP Table 2. The long-term single and five-year DRA is provided in WSCP Table 3. Note that while typical groundwater supplies are not considered in the calculations of Total Supplies shown in WSCP Table 2 and WSCP Table 3, the volume of groundwater that the City intends to use for each year type is listed separately.

WSCP Table 2 Near-Term Five-Year Drought Risk Assessment

Category	2026	2027	2028	2029	2030
Total Supplies	61,882	54,006	42,131	42,255	15,579
Total Gross Water Use	40,186	44,526	48,867	53,207	57,198
Surplus/ Shortfall absent of WSCP Action	21,696	9,480	-6,736	-10,952	-41,619
Total Right/ Safe Yield Groundwater Supplies	0	0	6,736	10,952	29,000
NOTES: All values are in AF. Groundwater supplies are not included in calculation of surplus/ shortfall.					

WSCP Table 3 Long-Term Single and Five-Year Drought Risk Assessment

Drought Type/ Year	Category	2030	2035	2040	2045
Single Year	Total Supplies	37,919	38,493	39,067	39,641
	Total Gross Water Use	57,548	60,157	62,577	64,620

	Surplus/ Shortfall absent of WSCP Action	-41,619	-43,654	-45,501	-46,969
	Total Right/ Safe Yield Groundwater Supplies	29,000	29,000	29,000	29,000
NOTES: All values are in AF. Groundwater supplies are not included in calculation of surplus/ shortfall.					

1.1.3 Seismic Risk Analysis

Seismic risk in California can pose a significant threat to facilities and infrastructure. The City of Roseville 2023 Multi-Hazard Mitigation Plan addresses the seismic risk at critical facilities including those dedicated to water supply and is provided in Exhibit A.

1.2 Legal Authorities

Chapter 14.09 Water Conservation of the Roseville Municipal Code (Municipal Code) also cited as Water Conservation and Drought Mitigation Ordinance (Ordinance 5311 § 2, 2014; Ordinance 2413 § 2, 1991), grants the City the authority to declare a water shortage in the City. Chapter 14.09 of the Municipal Code is provided in Exhibit B.

The purpose and scope of the Water Conservation and Drought Mitigation Ordinance as stated in the Municipal Code is provided below:

14.09.020 General provisions

A. Purpose. The purpose of this chapter is to ensure compliance with all federal, state and local requirements relating to water conservation and drought mitigation for the protection of public health, safety and welfare by:

1. Reducing the per capita water consumption throughout the City of Roseville (the "city") during years of normal precipitation and during years of drought;

2. Protecting and conserving the city's supply of water during specified times of emergency and/or crisis;

3. Minimizing and/or eliminating the waste of water through voluntary compliance or punitive action, if necessary;

4. Promoting the use of drip irrigation and other low volume irrigation methods that reduce outdoor water use by applying water more efficiently than traditional irrigation methods;

5. No person shall use, or cause to be used any city water for landscape irrigation between the hours of 10:00 a.m. and 8:00 p.m., unless the city manager, or designee provides prior written consent to a different time limitation. A waiver may be granted for turf areas if the landscape contains too many irrigation valves to complete an irrigation event within the watering window.

6. Upon city declaration of a water shortage, the city manager, or designee, may impose revised and/or additional limitations on outdoor water use, as specified in Section 14.09.040, and no person shall use, or cause to be used, city water in violation of such limitations while the water shortage remains in effect.

B. Scope. The provisions of this chapter shall apply to all customers, users and/or recipients (hereinafter "users") of the city's potable and recycled water service within the city's territorial limits.

The City's development and adoption of the WSCP upholds 14.09.020 General Provisions of the Municipal Code by ensuring compliance with state requirements.

All components of the WSCP comply with Chapter 14.09 of the Municipal Code. Any actions to be taken under the WSCP not explicitly stated in Chapter 14.09 of the Municipal Code are a further refinement of the existing ordinance.

1.3 Standard Water Shortage Levels

The California Water Code Section 10632(a)(3) defines six standard water shortage levels. Standardization of water shortage levels provides a consistent regional and statewide approach to characterizing and conveying the severity of a water shortage. However, Chapter 14.09 of the City's Municipal Code defines water shortage stages that are different from those listed in CWC. Pursuant to 10632(a)(3)(B), the six standard water shortage levels are correlated to the existing shortage stages in the Municipal Code in WSCP Table 4.

WSCP Table 4 Relation Between Standard Water Shortage Levels and Existing Stages

CWC Shortage Level Description	CWC Shortage Level	Municipal Code Shortage Stage	Municipal Code Water Conservation and Drought Stage Description
Up to 10%	1	Basic Stage	City's water supply is adequate to meet all projected demands
		Stage One Drought	City's water supply is adequate to meet 90% of projected demands
Up to 20%	2	Stage Two Drought	City's water supply is adequate to meet 80% of projected demands
Up to 30%	3	Stage Three Drought	City's water supply is adequate to meet 70% of projected demands
Up to 40%	4	Stage Four Drought	City's water supply is adequate to meet 60% of projected demands
Up to 50%	5	Stage Five Drought	City's water supply is adequate to meet 50% or less of projected demands
Greater than 50%	6		

1.4 Annual Water Supply and Demand Assessment Procedures

Pursuant to CWC 10632.1, all water suppliers are required to conduct an annual water supply and demand assessment on or before July 1 of each year beginning in 2022. If the supplier receives imported water from the State Water Project or the U.S. Bureau of Reclamation (USBR) they shall submit the report within 14 days of receiving final allocations or by July 1 of each year, whichever is later. The steps for conducting the Annual Water Supply and Demands Assessment are outlined in WSCP Table 5.

WSCP Table 5 Water Supply and Demand Assessment Procedure

Step	Description	Timeframe	Participants
Step 1	Request water utility data from all departments.	Jan 1 - Jan 31	Water Conservation Administrator

Step	Description	Timeframe	Participants
Step 2	Coordinate with Planning Division for any significant planned developments and project those water demands.	Jan 15 - Jan 31	Water Conservation Administrator Planning Division
Step 3	Compile water utility data into Water Utility Reporting Master spreadsheet.	Feb 1 - Feb 14	Water Conservation Administrator
Step 4	Calculate total projected unconstrained water demands for current year.	Feb 15-Feb 28	Senior Engineer – Water Utility
Step 5	Identify any constraints on facilities or infrastructure that could impact the supply of water such as planned maintenance that would take facilities offline or known damage to facilities/ infrastructure.	Feb 15-Feb 28	Hydrogeologist Senior Engineer – Water Utility Water Distribution Superintendent Water Treatment Plant Chief Operator
Step 6	Commence preparation of Annual Water Shortage Assessment Report.	March-April	Water Conservation Administrator Senior Engineer – Water Utility
Step 7	Receive final allotments from USBR for current year.	April	EU Assistant Director-Water Utility
Step 8	Subtract current year projected water demand from final allotment volume to determine shortage percentage and volume.	2 Days after notification from USBR	Senior Engineer – Water Utility
Step 9	If a shortage is identified Environmental Utilities (EU) Department is to hold an internal meeting to inform participants that a water shortage for the current year is anticipated and the extent of that shortage. Review the WSCP and Chapter 14.09 of the Roseville Municipal Code. Identify any concerns from the group regarding the ability to carry out the actions described in the WSCP and Chapter 14.09 of the Municipal Code. Assign an individual or group, among the participants, the responsibility of resolving the concern.	Within 7 days of notification from USBR	EU Director EU Assistant Director – Water Utility Hydrogeologist Water Distribution Super Intendent Water Treatment Plant Chief Operator Senior Engineer – Water Utility Water Conservation Administrator Additional participants as needed
Step 10	Inform City Manager of water shortage emergency condition.	Within 14 days of notification from USBR	City Manager EU Director EU Assistant Director – Water Utility Additional participants as needed
Step 11	Finalize and submit Annual Water Shortage Assessment Report to DWR.	By July 1 or 14 days after receiving final allocations	EU Assistant Director – Water Utility Water Conservation Administrator Senior Engineer – Water Utility

Step	Description	Timeframe	Participants
Step 11	The City Manager shall inform City Council of the water shortage emergency condition and the "Drought stage," under which the emergency falls. City Council shall declare a water shortage emergency condition to prevail within the area served by the City of Roseville Water Utility.	Within 28 days of notification from USBR	City Manager City Council Public Information Officer
Step 12	The City of Roseville shall coordinate with any city or county within which it provides water supply services for the possible proclamation of a local emergency.	Within 28 days of notification from USBR	City Manager City Council Public Information Officer
Step 13	The public, interested parties, and local, regional, and state governments shall be noticed of the water shortage emergency condition and of all water shortage response actions triggered by the emergency declaration. Pursuant to Municipal Code Section 14.09.020(E), the City Manager, or assigned designee, shall be responsible for determining the means by which water users shall be notified. Possible means for notification include mass media, newspaper, public notice, mailings, utility billings, or by any combination of such notice.	Beginning 2 business days after declaration of emergency condition and continuing for as long as the emergency condition persists.	Water Conservation Administrator Senior Engineer – Water Utility Public Information Officer
Step 14	The appropriate Water Shortage Response Actions for the drought stage, outlined in WSCP Table 6 and 7, will be carried out by the public and water utility. The City will enforce compliance in accordance with Roseville Municipal Code 14.09.	Duration of emergency condition	EU – Water Utility Water Users City Manager or designee
Step 15	Track customer water use at a minimum on a monthly basis. Ensure that total gross water use for that month, or more frequent tracking period, is reduced by the necessary percentage when compared to that same tracking period of the last normal supply year.	Duration of emergency condition	Water Conservation Administrator Senior Engineer – Water Utility
Step 16	If the needed water use reduction percentage is not met for any month determine which additional strategies or actions would result in the needed reduction.	Upon determination of insufficient water use reduction	EU Director EU Assistant Director – Water Utility Hydrogeologist Senior Engineer – Water Utility Water Conservation Administrator Additional participants as needed

Step	Description	Timeframe	Participants
Step 17	The EU Department management shall propose to the City Manager additional shortage response actions and whether or not those actions would require the WSCP and Chapter 14.09 of the Roseville Municipal Code to be changed.	Upon determination of insufficient water use reduction	City Manager EU Director EU Assistant Director – Water Utility Additional participants as needed
Step 18	If deemed necessary, the City Manager and City Council will revise the WSCP and Chapter 14.09 of the Roseville Municipal Code, observing all required procedures with such adoption.	Upon determination of insufficient water use reduction	City Manager City Council Additional participants as needed
NOTES: It is the intent of the WSCP that the Water Conservation Administrator and Water Utility Senior Engineer shall jointly be responsible for ensuring that the steps of this plan are carried out by noticing the necessary parties for data requests and facilitating meetings.			

WSCP Table 6 Demand Reduction Actions to be Implemented at Each Shortage Level

Standard Shortage Level	Roseville Municipal Code Stage	Demand Reduction Actions	Estimated Percent Reduction	Section of Water Conservation and Drought Mitigation Ordinance corresponding to Demand Reduction Action *Explanations provided as needed*	Penalty, Charge, or Other Enforcement?
1	Basic	Landscape - Restrict or prohibit runoff from landscape irrigation	0%	14.09.030(A)	Yes
1	Basic	Landscape - Limit landscape irrigation to specific times	0%	14.09.020(A)(1); No person shall use, or cause to be used, any city water for landscape irrigation between the hours of 10:00 a.m. and 8:00 p.m., unless the city manager, or designee provides prior written consent to a different time limitation. A waiver may be granted for turf areas if the landscape contains too many irrigation valves to complete an irrigation event within the watering window.	Yes
1	Basic	Landscape - Limit landscape irrigation to specific days	0%	14.09.060(E)(2); Irrigation of new landscaping shall be allowed on any day of the week for a period of 30 days after the new landscaping is planted, unless the city manager, or designee, provides prior written consent to extend this time period based on plant type and the season when the new landscaping is planted. After the 30 days, irrigation days and run times should be decreased to settings appropriate for an established landscape.	Yes
1	Basic	Landscape - Prohibit certain types of landscape irrigation	0%	14.09.030(E); Prohibit operation of an irrigation system that applies water to an impervious surface or that is in disrepair.	Yes
1	Basic	Landscape - Other landscape restriction or prohibition	0%	14.09.030(G); Prohibit irrigation of landscaping during rainfall or 48 hours after a measurable rain event.	Yes
1	Basic	Landscape - Other landscape restriction or prohibition	0%	14.090.060(E)(1); All landscaping installed in the City of Roseville shall comply with the water efficient landscape requirements adopted by resolution of the city council.	Yes
1	Basic	Other water feature or swimming pool restriction	0%	14.09.030(C); Prohibit maintaining ponds, waterways, decorative basins, or swimming pools without water recirculation devices.	Yes
1	Basic	Other water feature or swimming pool restriction	0%	14.09.030(D); Prohibit backwashing so as to discharge to waste swimming pools, decorative basins or ponds in excess of the frequency necessary to ensure the healthful condition of the water or in excess of that required by standards for professionally administered maintenance or to address structural considerations, as determined by the city manager, or designee.	Yes
1	Basic	Other water feature or swimming pool restriction	0%	14.09.030(H); Prohibit overfilling of any pond, pool or fountain which results in water discharging to waste.	Yes

Standard Shortage Level	Roseville Municipal Code Stage	Demand Reduction Actions	Estimated Percent Reduction	Section of Water Conservation and Drought Mitigation Ordinance corresponding to Demand Reduction Action *Explanations provided as needed*	Penalty, Charge, or Other Enforcement?
1	Basic	Other - Customers must repair leaks, breaks, and malfunctions in a timely manner	0%	14.09.060(C)	Yes
1	Basic	Other - Require automatic shut off hoses	0%	14.09.060(B); Free-flowing hoses for all uses are prohibited. Automatic shut-off devices shall be attached on any hose or filling apparatus in use.	Yes
1	Basic	Other	0%	14.09.030(B); Prohibit water fixtures (including, but not limited to, toilets, faucets, shower heads) or heating or cooling devices to leak or run to waste.	Yes
1	Basic	Other	0%	14.09.030(A); Prohibit water use for washing in excess of that necessary to wash, wet or clean the dirty or dusty object, such as an automobile, sidewalk, or parking area, flows to waste.	Yes
1	Basic	Other	0%	14.09.060(A); Water shall be confined to the user's property and shall not be allowed to run off to adjoining properties, or to the roadside or to the gutter. Care shall be taken not to water past the point of saturation.	Yes
1	Basic	Other	0%	14.09.060(F); All site reviews shall include an evaluation of using recycled water. Recycled water shall be required if economically feasible.	Yes
1	Stage 1	Landscape - Limit landscape irrigation to specific days	1%	14.09.070(C) and 14.09.070(D); Residential and non-residential water users shall be permitted to irrigate with city water according to the schedule provided in 14.09.070(C) and 14.09.070(D), respectively.	Yes
1	Stage 1	Landscape - Other landscape restriction or prohibition	1%	14.09.070(G); City park sites shall, as an aggregate, reduce usage up to 10 percent.	Yes
1	Stage 1	CII - Restaurants may only serve water upon request	1%	14.09.070(I)	Yes
1	Stage 1	Other - Prohibit use of potable water for washing hard surfaces	1%	14.09.070(H); Washing streets, parking lots, driveways, sidewalks or buildings, except as necessary for health or sanitary purposes or pursuant to a term or condition in a permit issued by a state or federal agency, is prohibited.	Yes
1	Stage 1	Other	10%	14.09.070(B); Residential users and non-residential users shall reduce water usage up to 10 percent.	Yes
2	Stage 2	Landscape - Other landscape restriction or prohibition	1%	14.09.070(C); City park sites shall, as an aggregate, reduce usage up to 20 percent.	Yes
2	Stage 2	Other - Prohibit vehicle washing except at facilities using recycled or recirculating water	1%	14.09.080(H)	Yes

Standard Shortage Level	Roseville Municipal Code Stage	Demand Reduction Actions	Estimated Percent Reduction	Section of Water Conservation and Drought Mitigation Ordinance corresponding to Demand Reduction Action *Explanations provided as needed*	Penalty, Charge, or Other Enforcement?
2	Stage 2	Other	10-18%	14.09.080(B); Residential users and non-residential landscapes shall reduce water usage up to 20 percent.	Yes
3	Stage 3	Landscape - Limit landscape irrigation to specific days	1%	14.09.090(D) and 14.09.090(E); Residential and non-residential water users shall be permitted to irrigate with city water according to the schedule provided in 14.09.090(D) and 14.09.090(E), respectively.	Yes
3	Stage 3	Landscape - Other landscape restriction or prohibition	1%	14.09.090(C); City park sites shall, as an aggregate, reduce usage up to 30 percent.	Yes
3	Stage 3	Landscape - Other landscape restriction or prohibition	1%	14.09.090(H); New or expanded landscaping is limited to drought-tolerant trees, shrubs, and groundcover and be irrigated using a low volume irrigation system. No new turf shall be planted, hydroseeded, or laid, unless prior written consent is received from the city manager. Low volume irrigation means the application of irrigation water at low pressure through a system of tubing or lateral lines and low-volume emitters such as drip or drip lines irrigating at less than two gallons per hour. These systems are specifically designed to apply small volumes of water slowly at or near the root zone of plants.	Yes
3	Stage 3	Water Features - Restrict water use for decorative water features, such as fountains	1%	14.09.090(I)	Yes
3	Stage 3	Pools - Allow filling of swimming pools only when an appropriate cover is in place.	1%	14.09.090(L)	Yes
3	Stage 3	Other - Prohibit use of potable water for construction and dust control	1%	14.09.090(K)	Yes
3	Stage 3	Other	1%	14.09.090(I); Except where recycled water is used, golf courses shall reduce irrigation up to 30 percent.	Yes
3	Stage 3	Other	18-27%	14.09.090(B). Residential users and non-residential landscapes are to reduce water usage up to 30 percent.	Yes
4	Stage 4	Landscape - Limit landscape irrigation to specific days	2%	14.09.100(D) and 14.09.100(E); Residential and non-residential water users shall be permitted to irrigate with city water according to the schedule provided in 14.09.100(D) and 14.09.100(E), respectively.	Yes
4	Stage 4	Landscape - Other landscape restriction or prohibition	1%	14.09.100(C); City park sites shall, as an aggregate, reduce usage up to 40 percent.	Yes

Standard Shortage Level	Roseville Municipal Code Stage	Demand Reduction Actions	Estimated Percent Reduction	Section of Water Conservation and Drought Mitigation Ordinance corresponding to Demand Reduction Action *Explanations provided as needed*	Penalty, Charge, or Other Enforcement?
4	Stage 4	Landscape - Other landscape restriction or prohibition	1%	14.09.100(H); Installation of any new landscaping is prohibited unless irrigation is provided through connection to an active recycled water system. In the case of new construction, the city's building official will issue a temporary final upon completion of the structural development of the property. When the city has returned to a stage two drought restriction, landscaping installation can be completed, and a building final will become available upon inspection by the city.	Yes
4	Stage 4	Other water feature or swimming pool restriction	1%	14.09.100(K); Existing pools shall not be emptied and refilled using city water unless required for health or safety reasons until the city has returned to a stage two drought restriction. Pools may be re-filled only to the extent necessary to replace evaporative losses.	Yes
4	Stage 4	Other - Prohibit vehicle washing except at facilities using recycled or recirculating water	1%	14.09.100(J); Automobiles or equipment shall be washed only at commercial establishments that recycle their water or by equipment and means that separates debris and recycles wash water for continual use.	Yes
4	Stage 4	Other	1%	14.09.100(I); Except where recycled water is used, golf courses shall reduce irrigation up to 40 percent.	Yes
4	Stage 4	Other	0%	14.09.100(L); No commitments shall be made to provide water service as part of any new land use entitlement (general plan, specific plan or amendments requesting new water allocations) until the city has returned to a stage two drought restriction. Currently approved specific plans with accompanying development agreements and projects or properties that have received water allocations in advance of full entitlements may be issued building permits so long as they comply with the remainder of this chapter.	Yes
4	Stage 4	Other	27-35%	14.09.100(B); Residential users and non-residential landscapes are to reduce water usage up to 40 percent.	Yes
5 & 6	Stage 5	Landscape - Other landscape restriction or prohibition	5%	14.09.110(C); Except where recycled water is used, water users shall reduce landscape irrigation as follows: 1. Turf shall not be irrigated. 2. Trees and shrubs may be irrigated with a properly functioning low volume landscape irrigation system or by use of a handheld hose equipped with a nozzle capable of completely shutting off the flow of water except when positive action or pressure to maintain the flow of water is applied. Low volume irrigation means the application of irrigation water at low pressure through a system of tubing or lateral	Yes

Standard Shortage Level	Roseville Municipal Code Stage	Demand Reduction Actions	Estimated Percent Reduction	Section of Water Conservation and Drought Mitigation Ordinance corresponding to Demand Reduction Action *Explanations provided as needed*	Penalty, Charge, or Other Enforcement?
				lines and low-volume emitters such as drip or drip lines irrigating at less than two gallons per hour. These systems are specifically designed to apply small volumes of water slowly at or near the root zone of plants.	
5 & 6	Stage 5	Other water feature or swimming pool restriction	1%	14.09.110(D); Filling new or existing swimming pools and spas with city water is prohibited.	Yes
5 & 6	Stage 5	Other	33%	14.09.110(B); Residential users are to reduce water usage up to 50 percent.	Yes
NOTES: For each successive drought level all preceding restrictions shall continue in place, except to the extent they are replaced by more restrictive conditions.					

1.5 Supply Augmentation and Operational Changes

Under normal operational conditions the City's groundwater strategy is to not pump well water and only use it as an emergency supply. At this time, the City's injection volume of groundwater is planned to exceed extraction volume over time, as the groundwater program is still in development. The positive difference between the injection and extraction volume is the net volume of water that the City places into long-term storage or makes available for other users. Per Section 14.09.050 of the Municipal Code, when determining drought staging, the City cannot consider the effect of well water reducing the need for conservation until a stage three drought level is reached. Specifically, the code mentions that well water cannot be considered as an alternative to declaration of a stage one or stage two drought level. The City may choose to operationalize groundwater infrastructure in any year type based on water supply conditions and/or operations and maintenance strategies for infrastructure, however this shall not be determined to reduce or alleviate the appropriate drought stage given hydrologic conditions and surface water allocations for that year. The percent reduction that could result from this supply augmentation action for the different stages is provided in WSCP Table 7. Note that there are no supply augmentation actions for drought stages 1 and 2 in accordance with the provisions of the Municipal code.

WSCP Table 7 Supply Augmentation During Stage 3 Droughts and Higher

Standard Shortage Level	Roseville Municipal Code Stage	Supply Augmentation Methods and Other Actions by Water Supplier	Percent Reduction	Additional Explanation
3	3	Stored Emergency Supply	0-10%	Groundwater Pumped
4	4	Stored Emergency Supply	0-20%	Groundwater Pumped
5 & 6	5	Stored Emergency Supply	0-30%	Groundwater Pumped

The water utility would need to adjust its operations to support a drought stage that would prompt increased reliance on well water. Tasks for operations may include more frequent maintenance of well pumps and chemical injection pumps, monitoring of ground water level, and filter backwashing. Hence, for the sake of planning, the wells will be considered capable of only 80% of their rated extraction capacity.

1.6 Compliance and Enforcement

The Water Conservation and Drought Mitigation ordinance grants the City the authority to enforce compliance with the water use limitations outlined in WSCP Table 6. The sections of the Water Conservation and Drought Mitigation Ordinance, detailing compliance and enforcement authority and measures are provided below.

14.09.020 General provisions

C. Administration and Enforcement. The city manager, or designee, including, but not limited to, an enforcement officer as defined herein, shall administer, implement, and enforce the provisions of this chapter. For purposes of this chapter an "enforcement officer" means any city employee or agent of the city with the authority to enforce any provision of this chapter and the authority to make any decision on behalf of the city manager required or called for by this chapter.

D. Compliance. All provisions of this chapter are subject to the compliance procedures set forth in this chapter unless otherwise expressly stated herein.

14.09.140 Violations

It is Unlawful for any user and/or person to violate any provision or fail to comply with any of the requirements of this chapter. Causing, permitting, aiding, abetting or concealing a violation of any provision of this chapter shall constitute a violation of this chapter. A violation of the provisions of this chapter shall occur irrespective of the negligence or intent of the violator and a violation of or failure to comply with any of the requirements of this chapter may be charged as either an infraction or a misdemeanor in the discretion of the city attorney. (Ord. 5311 § 2, 2014; Ord. 4629 § 1, 2008; Ord. 3834 § 3, 2002; Ord. 2413 § 2, 1991.)

14.09.150 Enforcement authority

A. Whenever the city manager, or designee (including, but not limited to, an enforcement officer), determines that a user and/or person has violated any provision of, or failed to meet a requirement of, this chapter, an administrative citation pursuant to Chapter 2.50 or a written compliance order pursuant to Chapter 2.52 may be issued to any user and/or person responsible for the violation.
B. Any compliance order issued may require without limitation any or all of the following:
1. The allocation of a particular amount of water to a given user and/or person responsible for the violation;
2. The issuance of a fine;
3. The installation of a flow restriction device;
4. The performance of monitoring, analyses, and reporting;
5. That violations shall cease and desist; and/or
6. The discontinuance of water service

The compliance order shall set forth a deadline within which the requirements of the compliance order must be completed. Said compliance order shall further advise that, should the violator fail to comply with the compliance order within the established deadline, a hearing on the compliance order shall be set. (Ord. 5491 § 11, 2015; Ord. 5311 § 2, 2014; Ord. 4629 § 1, 2008; Ord. 3034 § 3, 2002; Ord. 2817 § 1, 1994; Ord. 2413 § 2, 1991.)

14.090.180 Separate offense for each day.

Any user and/or person that violates any provision of this chapter shall be guilty of a separate offense for each and every day during any portion of which any user and/or person commits, continues, permits, or causes a violation thereof, and shall be punished accordingly. (Ord. 5311 § 2, 2014; Ord. 4629 § 1, 2008; Ord. 2413 § 2, 1991.)

1.7 Financial Consequences

During times of an emergency condition, the City is expected to see significant revenue reduction as a result of demand reduction actions lowering total gross water use. Additionally, enforcement of demand reduction actions, which could include investigating water waste complaints, follow ups to check for compliance, administering warnings or fines, and installation of flow restriction devices, would incur additional expenses that would not be present during non-emergency conditions.

Revenue loss percentage for each drought stage is anticipated to be approximately equal to the demand reduction percentage for each respective shortage level. Enforcement expenses will vary based on customer compliance and drought stage. For instance, at the onset of demand reduction action implementation, resources needed for enforcement may be high as customers adjust to altering their use or compliance from customers could vary seasonally with customers finding it more difficult to comply during warmer months.

The City plans to mitigate the financial consequences associated with water shortage response actions primarily through their recently adopted water rate structure, which allows for adequate reserves to accommodate reductions in revenue and increases in cost due to drought. If the water shortage rate charges are insufficient to make up for the loss in revenue, the City will use financial reserves to mitigate remaining financial consequences.

1.8 Plan Adoption, Submittal, and Availability

The Water Shortage Contingency Plan, which is included as an appendix in the 2025 Urban Water Management Plan (UWMP), was introduced and discussed with the public and City Council in the same meetings but as separate agenda items. The WSCP is intended to be a stand-alone document and as such has been adopted by the City independently of the UWMP. The WSCP may be updated as needed between the regular 5-year updates of the UWMP and no required WSCP update shall necessitate an update of the UWMP.

The City has encouraged community and public interest involvement in the WSCP using public meetings and web-based communication. A public meeting held on June 17, 2026, allowed the general public to ask questions and raise concerns regarding the WSCP. Prior to the public hearing the draft WSCP was made available for public inspection on the City's website.

The WSCP was adopted by the City Council on June 17, 2026. Copies of the adoption resolutions are provided in Exhibit C. A copy of this WSCP will be submitted to DWR within 30 days of adoption and by July 1, 2026. The adopted WSCP will be submitted electronically to DWR. An electronic or hardcopy of the adopted WSCP will also be submitted to the California State Library. No later than 30 days after submittal to DWR, copies of the WSCP will be available for public review at the City's public offices. An electronic copy of this plan will also be available for review and download on the City's website: www.roseville.ca.gov/WSCP/.

Exhibit B – City of Roseville Municipal Code 14.09

Roseville Municipal Code

Title 14 PUBLIC UTILITIES

Chapter 14.09 WATER CONSERVATION

§ 14.09.010. Short title.

This chapter may be cited as the Water Conservation and Drought Mitigation Ordinance. (Ord. 2413 § 2, 1991; Ord. 5311 § 2, 2014)

§ 14.09.020. General provisions.

A. Purpose. The purpose of this chapter is to ensure compliance with all federal, state and local requirements relating to water conservation and drought mitigation for the protection of public health, safety and welfare by:

1. Reducing the per capita water consumption throughout the City of Roseville (the "city") during years of normal precipitation and during years of drought;

2. Protecting and conserving the city's supply of water during specified times of emergency and/or crisis;

3. Minimizing and/or eliminating the waste of water through voluntary compliance or punitive action, if necessary;

4. Promoting the use of drip irrigation and other low volume irrigation methods that reduce outdoor water use by applying water more efficiently than traditional irrigation methods;

5. No person shall use, or cause to be used, any city water for landscape irrigation between the hours of 10:00 a.m. and 8:00 p.m., unless the city manager, or designee provides prior written consent to a different time limitation. A waiver may be granted for turf areas if the landscape contains too many irrigation valves to complete an irrigation event within the watering window.

6. Upon city declaration of a water shortage, the city manager, or designee, may impose revised and/or additional limitations on outdoor water use, as specified in Section 14.09.040, and no person shall use, or cause to be used, city water in violation of such limitations while the water shortage remains in effect.

B. Scope. The provisions of this chapter shall apply to all customers, users and/or recipients (hereinafter "users") of the city's potable and recycled water service within the city's territorial limits.

C. Administration and Enforcement. The city manager, or designee, including, but not limited to, an enforcement officer as defined herein, shall administer, implement, and enforce the provisions of this chapter. For purposes of this chapter an "enforcement officer" means any city employee or agent of the city with the authority to enforce any provision of this chapter and the authority to make any decision on behalf of the city manager required or called for by this chapter.

D. Compliance. All provisions of this chapter are subject to the compliance procedures set forth in this chapter unless otherwise expressly stated herein.

E. Notification. The city manager, or designee, shall determine the means by which the city shall notify its water users of drought stage determinations and any

Downloaded from https://ecode360.com/RO4998 on 2026-03-30

applicable upgrade or downgrade of such determinations or restrictions. Notification may be achieved through mass media, newspaper, public notice, mailings, utility billings or by any combination of such notice, or by other means as determined by the city manager, or designee.

(Ord. 2413 § 2, 1991; Ord. 4629 § 1, 2008; Ord. 5311 § 2, 2014; Ord. 5491 § 1, 2015)

§ 14.09.030. Definition of water waste.

Any of the following acts or omissions, whether willful or negligent, shall constitute the waste of water:

A. Causing or permitting water to leak, discharge, flow or run to waste into any gutter, sanitary sewer, watercourse or public or private storm drain, or to any adjacent property, from any tap, hose, faucet, pipe, sprinkler, pond, pool, waterway, fountain or nozzle. In the case of irrigation, "discharge," "flow" or "run to waste" means that the earth intended to be irrigated has been saturated with water to the point that excess water flows over or through the earth to waste. In the case of washing, "discharge," "flow" or "run to waste" means that water in excess of that necessary to wash, wet or clean the dirty or dusty object, such as an automobile, sidewalk, or parking area, flows to waste.

B. Allowing water fixtures (including, but not limited to, toilets, faucets, shower heads) or heating or cooling devices to leak or run to waste.

C. Maintaining ponds, waterways, decorative basins or swimming pools without water recirculation devices.

D. Backwashing so as to discharge to waste swimming pools, decorative basins or ponds in excess of the frequency necessary to ensure the healthful condition of the water or in excess of that required by standards for professionally administered maintenance or to address structural considerations, as determined by the city manager, or designee.

E. Operation of an irrigation system that applies water to an impervious surface or that is in disrepair.

F. Use of a water hose not equipped with a control nozzle capable of completely shutting off the flow of water except when positive pressure is applied.

G. Irrigation of landscaping during rainfall or 48 hours after a measurable rain event. A measurable rain event is the equivalent of ¼ inch of rain in an hour.

H. Overfilling of any pond, pool or fountain which results in water discharging to waste.

(Ord. 2413 § 2, 1991; Ord. 3834 § 3, 2002; Ord. 4629 § 1, 2008; Ord. 5311 § 2, 2014; Ord. 5491 § 2, 2015; Ord. 6500 § 3, 2022)

§ 14.09.040. Water conservation and drought stages.

The following water conservation and drought stages are hereby established:

Downloaded from https://ecode360.com/RO4998 on 2026-03-30

A. Basic Water Conservation Stage ("Basic Stage"). The basic stage shall exist when the city's water supply is adequate to meet all projected demands as determined by the city manager, or designee.

B. Stage One Drought. A stage one drought shall exist when the city's water supply is adequate to meet 90 percent of projected demands as determined by the city manager, or designee. An objective of a stage one drought condition is to reduce water usage up to 10 percent. Water shortage surcharges shall be implemented as set forth in Section 14.08.095.

C. Stage Two Drought. A stage two drought shall exist when the city's water supply is adequate to meet 80 percent of projected demands as determined by the city manager, or designee. An objective of a stage two drought condition is to reduce water usage up to 20 percent. Water shortage surcharges and excess water use charges shall be implemented as set forth in Section 14.08.095.

D. Stage Three Drought. A stage three drought shall exist when the city's water supply is adequate to meet 70 percent of projected demands as determined by the city manager or designee. An objective of a stage three drought condition is to reduce water usage up to 30 percent. Water shortage surcharges and excess water use charges shall be implemented as set forth in Section 14.08.095.

E. Stage Four Drought. A stage four drought shall exist when the city's water supply is adequate to meet 60 percent of projected demands as determined by the city manager or designee. An objective of a stage four drought condition is to reduce water usage up to 40 percent. Water shortage surcharges and excess water use charges shall be implemented as set forth in Section 14.08.095.

F. Stage Five Drought. A stage five drought shall exist when the city's water supply is adequate to meet 50 percent or less of projected demands as determined by the city manager, or designee. An objective of a stage five drought condition is to reduce water usage up to 50 percent. Water shortage surcharges and excess water use charges shall be implemented as set forth in Section 14.08.095.

(Ord. 2413 § 2, 1991; Ord. 4629 § 1, 2008; Ord. 4724 § 3, 2009; Ord. 5311 § 2, 2014; Ord. 5491 § 3, 2015)

§ 14.09.050. Groundwater use as an alternate supply.

While the city routinely pumps relatively small volumes of groundwater during all water year types for maintenance purposes, the city may use groundwater as an alternate source of water supply to aid in meeting demands associated with dry periods, peak demands, or due to surface water supply curtailments. The city may also use groundwater as an alternate source of water supply to achieve obligations associated with the Sacramento Water Forum, American River flow standards, or when participating in groundwater banking to achieve California Water Code obligations under the Sustainable Groundwater Management Act or to be consistent with other regional or statewide objectives.

(Ord. 2413 § 2, 1991; Ord. 4629 § 1, 2008; Ord. 5311 § 2, 2014; Ord. 6500 § 4, 2022)

Downloaded from https://ecode360.com/RO4998 on 2026-03-30

§ 14.09.060. Basic stage restrictions.

During the basic water conservation stage, the following restrictions shall be in force:

Water shall be used for beneficial purposes only; all unnecessary and wasteful uses (as defined in Section 14.09.030) of water are prohibited.

A. Water shall be confined to the user's property and shall not be allowed to run off to adjoining properties, or to the roadside or to the gutter. Care shall be taken not to water past the point of saturation.

B. Free-flowing hoses for all uses are prohibited. Automatic shut-off devices shall be attached on any hose or filling apparatus in use.

C. All leaks (including irrigation systems, pipes, fixtures, pools, ponds, fountains and waterways) shall be repaired within five calendar days or less if warranted by the severity of the problem as determined in the discretion of the city manager, or designee.

D. All pools, spas, and ornamental fountains/ponds shall be equipped with a recirculation pump and shall be constructed to be leak-proof. Pool draining and refilling shall be allowed only to the extent required for health, maintenance, or structural considerations, and must otherwise comply with all applicable federal, state and local stormwater management program requirements, including, but not limited to, the urban stormwater quality management and discharge control ordinance set forth in Chapter 14.20 of Title 14 of the City of Roseville Municipal Code.

E. Landscaping.

1. All landscaping installed in the City of Roseville shall comply with the water efficient landscape requirements adopted by resolution of the city council.

2. Irrigation of new landscaping shall be allowed on any day of the week for a period of 30 days after the new landscaping is planted, unless the city manager, or designee, provides prior written consent to extend this time period based on plant type and the season when the new landscaping is planted. After the 30 days, irrigation days and run times should be decreased to settings appropriate for an established landscape.

3. Upon city declaration of a water shortage, the city manager or designee may impose revised and/or additional limitations on the irrigation of new landscaping, as specified in Sections 14.09.060 through 14.09.100, and no person shall use, or cause to be used, city water in violation of such limitations while the water shortage remains in effect. A waiver may be granted to irrigate during an establishment period for actively used turf areas and/or sports fields or as approved by the city manager or designee. Allowance shall also be made for irrigation testing and repairs.

F. All site reviews shall include an evaluation of using recycled water. Recycled water

Downloaded from https://ecode360.com/RO4998 on 2026-03-30

shall be required if economically feasible.
(Ord. 2413 § 2, 1991; Ord. 2762 § 1, 1993; Ord. 4629 § 1, 2008; Ord. 5311 § 2, 2014; Ord. 5491 § 4, 2015; Ord. 6500 § 5, 2022)

§ 14.09.070. Stage one drought restrictions.

During a stage one drought, the following restrictions may be required, as determined by the city manager and upon notification pursuant to Section 14.09.020(E):

A. All basic stage restrictions required by Sections 14.09.030 and 14.09.060 shall continue in place, except to the extent they are replaced by more restrictive conditions imposed by this section.

B. Residential users and nonresidential users shall reduce water usage up to 10 percent.

C. Residential water users shall be permitted to irrigate with city water on the following schedule, unless the city manager, or designee, provides prior written consent to a different irrigation pattern:

1. 1st day of November – last day of February: up to one day per week irrigation on Monday of each week, if needed.

2. 1st day of March – last day of April and 1st day of September – last day of October: up to two days per week irrigation on Monday and Friday of each week, if needed.

3. 1st day of May – last day of August: up to three days per week irrigation on Monday, Wednesday and Friday of each week, if needed.

D. Nonresidential water users (including, without limitation, commercial, industrial, church, cemeteries, and publicly owned users) shall be permitted to irrigate with city water on the following schedule, unless the city manager, or designee, provides prior written consent to a different irrigation pattern:

1. 1st day of November – last day of February: up to one day per week irrigation on Tuesday of each week, if needed.

2. 1st day of March – last day of April and 1st day of September – last day of October: up to two days per week irrigation on Tuesday and Thursday of each week, if needed.

3. 1st day of May – last day of August: up to three days per week irrigation on Tuesday, Thursday and Saturday of each week, if needed.

E. The limitations specified in subsections C and D shall not apply to a properly functioning low volume landscape irrigation system, the irrigation on container plants, or to the irrigation of new landscaping that is subject to the provisions of Section 14.09.060(E). Low volume irrigation means the application of irrigation water at low pressure through a system of tubing or lateral lines and low-volume emitters such as point source drip and in-line drip lines or soaker hose. These systems are specifically designed to apply small volumes of water slowly at or near

Downloaded from https://ecode360.com/RO4998 on 2026-03-30

the root zone of plants.

F. References in this section to any day of the week shall mean the period beginning at 12:00 a.m. on that day and ending 24 hours later.

G. City park sites shall, as an aggregate, reduce usage up to 10 percent.

H. Washing streets, parking lots, driveways, sidewalks or buildings, except as necessary for health or sanitary purposes or pursuant to a term or condition in a permit issued by a state or federal agency, is prohibited.

I. Water shall not be served at restaurants except by request.

J. Water shortage surcharges shall be implemented as set forth in Section 14.08.095.
(Ord. 2413 § 2, 1991; Ord. 2636 § 1, 1992; Ord. 2817 § 1, 1994; Ord. 4629 § 1, 2008; Ord. 4724 § 3, 2009; Ord. 5311 § 2, 2014; Ord. 5491 § 5, 2015; Ord. 6500 § 6, 2022)

§ 14.09.080. Stage two drought restrictions.

During a stage two drought, the following restrictions may be required, as determined by the city manager and upon notification pursuant to Section 14.09.020(E):

A. All basic stage and stage one restrictions required by Sections 14.09.060 and 14.09.070 shall continue in place, except to the extent they are replaced by more restrictive conditions imposed by this section.

B. Residential users and nonresidential landscapes shall reduce water usage up to 20 percent.

C. City park sites shall, as an aggregate, reduce usage up to 20 percent.

D. Residential water users shall be permitted to irrigate with city water on the following schedule, unless the city manager, or designee, provides prior written consent to a different irrigation pattern:

1. 1st day of November – last day of February: up to one day per week irrigation on Monday of each week, if needed.

2. 1st day of March – last day of April and 1st day of September – last day of October: up to two days per week irrigation on Monday and Friday of each week, if needed.

3. 1st day of May – last day of August: up to three days per week irrigation on Monday, Wednesday and Friday of each week, if needed.

E. Nonresidential water users (including, without limitation, commercial, industrial, church, cemeteries, and publicly owned users) shall be permitted to irrigate with city water on the following schedule, unless the city manager, or designee, provides prior written consent to the Environmental Utilities-Water Efficiency Section for a different irrigation pattern:

1. 1st day of November – last day of February: up to one day per week irrigation

Downloaded from https://ecode360.com/RO4998 on 2026-03-30

on Tuesday of each week, if needed.

2. 1st day of March – last day of April and 1st day of September – last day of October: up to two days per week irrigation on Tuesday and Thursday of each week, if needed.

3. 1st day of May – last day of August: up to three days per week irrigation on Tuesday, Thursday and Saturday of each week, if needed.

F. The limitations specified in subsections D and E shall not apply to a properly functioning low volume landscape irrigation system, the irrigation on container plants, or to the irrigation of new landscaping that is subject to the provisions of Section 14.09.060(E). Low volume irrigation means the application of irrigation water at low pressure through a system of tubing or lateral lines and low-volume emitters such as point source drip and in-line drip lines or soaker hose. These systems are specifically designed to apply small volumes of water slowly at or near the root zone of plants.

G. References in this section to any day of the week shall mean the period beginning at 12:00 a.m. on that day and ending 24 hours later.

H. Washing of vehicles or boats is prohibited except:

1. When using a hose that is equipped with a control nozzle capable of completely shutting off the flow of water except when positive action or pressure to maintain the flow of water is applied; or

2. When washed in either an automatic or manual commercial car wash that recirculates its water and uses high pressure/low volume wash systems.

3. Temporary car washes, held for fundraising purposes, are encouraged to partner with an automatic commercial car wash that recirculates its water and uses high pressure/low volume wash systems. If run independently, the participants must use a hose nozzle that completely shuts off the flow of water when not in use and must comply with all applicable federal, state and local stormwater management program requirements, including, but not limited to, the urban stormwater quality management and discharge control ordinance set forth in Chapter 14.20 of Title 14 of the City of Roseville Municipal Code.

I. Water shortage surcharges and excess water use charges shall be implemented as set forth in Section 14.08.095.

(Ord. 2611 § 1, 1992; Ord. 4629 § 1, 2008; Ord. 4724 § 3, 2009; Ord. 5311 § 2, 2014; Ord. 5491 § 6, 2015; Ord. 6500 § 7, 2022)

§ 14.09.090. Stage three drought restrictions.

During a stage three drought, the following restrictions may be required, as determined by the city manager and upon notification pursuant to Section 14.09.020(E):

A. All basic stage, stage one, and stage two restrictions required by Sections

Downloaded from https://ecode360.com/RO4998 on 2026-03-30

14.09.060, 14.09.070 and 14.09.080 shall continue in place, except to the extent they are replaced by more restrictive conditions imposed by this section.

B. Residential users and nonresidential landscapes are to reduce water usage up to 30 percent.

C. City park sites shall, as an aggregate, reduce usage up to 30 percent.

D. Residential water users shall be permitted to irrigate with city water on the following schedule, unless the city manager, or designee, provides prior written consent to a different irrigation pattern:

1. 1st day of September – last day of April: up to one day per week irrigation on Monday of each week, if needed.

2. 1st day of May – last day of August: up to two days per week irrigation on Monday and Friday of each week, if needed.

E. Nonresidential water users (including, without limitation, commercial, industrial, church, cemeteries, and publicly owned users) shall be permitted to irrigate with city water on the following schedule, unless the city manager, or designee, provides prior written consent to a different irrigation pattern:

1. 1st day of September – last day of April: up to one day per week irrigation on Tuesday of each week, if needed.

2. 1st day of May – last day of August: up to two days per week irrigation on Tuesday and Thursday of each week, if needed.

F. The limitations specified in subsections D and E shall not apply to a properly functioning low volume landscape irrigation system, the irrigation on container plants, or to the irrigation of new landscaping that is subject to the provisions of Section 14.09.060(E). Low volume irrigation means the application of irrigation water at low pressure through a system of tubing or lateral lines and low-volume emitters such as point source drip and in-line drip lines or soaker hose. These systems are specifically designed to apply small volumes of water slowly at or near the root zone of plants.

G. References in this section to any day of the week shall mean the period beginning at 12:00 a.m. on that day and ending 24 hours later.

H. New or expanded landscaping is limited to drought-tolerant trees, shrubs, and ground-cover and be irrigated using a low volume irrigation system. No new turf shall be planted, hydroseeded, or laid, unless prior written consent is received from the city manager or designee. Low volume irrigation means the application of irrigation water at low pressure through a system of tubing or lateral lines and low-volume emitters such as point source drip and in-line drip lines or soaker hose. These systems are specifically designed to apply small volumes of water slowly at or near the root zone of plants.

I. Except where recycled water is used, golf courses shall reduce irrigation up to 30

Downloaded from https://ecode360.com/RO4998 on 2026-03-30

percent.

J. All decorative fountains, decorative (i.e., nonswimming) pools, and decorative waterways shall be shut off. Such fountains, pools, and waterways shall not be refilled until the city has returned to the basic water conservation stage unless for preventative maintenance. Fountains, ponds or pools that are filled with recycled water are not subject to this provision. Decorative ponds that contain fish as a feature shall be exempt from this restriction as long as the system is maintained in good working order with measures taken to reduce the volume of makeup water required for evaporative losses.

K. Except where recycled or other non-potable water is used or as otherwise provided in this subsection, use of water for dust control is prohibited. Dust control shall be augmented by hardened, temporary travel routes with materials that are accepted by the city manager, city engineer, or designee. Potable water is allowed for construction water only where and to the extent required for public health and safety reasons.

L. New swimming pools and spas may be filled after construction using customer's metered water at then existing water rates. All new pools must include a means for minimizing evaporative loss, such as a pool cover, at time of final inspection by the city. After being filled with water for the first time, all pools and spas shall be subject to the requirements of Section 14.09.060(D).

M. Water shortage surcharges and excess water use charges shall be implemented as set forth in Section 14.08.095.

N. Automobiles or equipment shall be washed only at commercial establishments that recycle their water or by equipment and means that separates debris and revives wash water for continual use.

(Ord. 2413 § 2, 1991; Ord. 4629 § 1, 2008; Ord. 4724 § 3, 2009; Ord. 5311 § 2, 2014; Ord. 5491 § 7, 2015; Ord. 6500 § 8, 2022)

§ 14.09.100. Stage four drought restrictions.

During a stage four drought, the following restrictions may be required, as determined by the city manager and upon notification pursuant to Section 14.09.020(E):

A. All basic stage, stage one, stage two, and stage three restrictions required by Sections 14.09.060, 14.09.070, 14.09.080 and 14.09.090 shall continue in place, except to the extent they are replaced by more restrictive conditions imposed by this section.

B. Residential customers and nonresidential landscapes are to reduce water usage up to 40 percent.

C. City park sites shall, as an aggregate, reduce usage up to 40 percent.

D. Residential water users shall be permitted to irrigate with city water on the following schedule, unless the city manager, or designee, provides prior written

Downloaded from https://ecode360.com/RO4998 on 2026-03-30

consent to a different irrigation pattern:

1. 1st day of September – last day of April: No irrigation allowed.

2. 1st day of May – last day of August: up to one day per week irrigation on Monday, if needed.

E. Nonresidential water users (including, without limitation, commercial, industrial, church, cemeteries, and publicly owned users) shall be permitted to irrigate with city water on the following schedule, unless the city manager, or designee, provides prior written consent to a different irrigation pattern:

1. 1st day of September – last day of April: No irrigation allowed.

2. 1st day of May – last day of August: up to one day per week irrigation on Tuesday of each week, if needed.

F. The limitations specified in subsections D and E shall not apply to a properly functioning low volume landscape irrigation system, the irrigation on container plants, trees or to the irrigation of new landscaping that is subject to the provisions of Section 14.09.060(E). Low volume irrigation means the application of irrigation water at low pressure through a system of tubing or lateral lines and low-volume emitters such as point source drip and in-line drip lines or soaker hose. These systems are specifically designed to apply small volumes of water slowly at or near the root zone of plants.

G. References in this section to any day of the week shall mean the period beginning at 12:00 a.m. on that day and ending 24 hours later.

H. Installation of any new landscaping is prohibited unless irrigation is provided through connection to an active recycled water system. In the case of new construction, the city's building official will issue a temporary final upon completion of the structural development of the property. When the city has returned to a stage two drought restriction, landscaping installation can be completed and a building final will become available upon inspection by the city.

I. Except where recycled water is used, golf courses shall reduce irrigation up to 40 percent.

J. Automobiles or equipment shall be washed only at commercial establishments that recycle their water or by equipment and means that separates debris and recycles wash water for continual use.

K. Existing pools shall not be emptied and refilled using city water unless required for health or safety reasons until the city has returned to a stage two drought restriction. Pools may be refilled only to the extent necessary to replace evaporative losses.

L. No commitments shall be made to provide water service as part of any new land use entitlement (general plan, specific plan or amendments requesting new water allocations) until the city has returned to a stage two drought restriction. Currently approved specific plans with accompanying development agreements and projects

Downloaded from https://ecode360.com/RO4998 on 2026-03-30

or properties that have received water allocations in advance of full entitlements may be issued building permits so long as they comply with the remainder of this chapter.

M. Water shortage surcharges and excess water use charges shall be implemented as set forth in Section 14.08.095.

(Ord. 2413 § 2, 1991; Ord. 4629 § 1, 2008; Ord. 4724 § 3, 2009; Ord. 5311 § 2, 2014; Ord. 5491 § 8, 2015; Ord. 6500 § 9, 2022)

§ 14.09.110. Stage five drought restrictions.

During a stage five drought, the following restrictions may be required, as determined by the city manager and upon notification pursuant to Section 14.09.020(E):

A. All basic stage, or stage one, stage two, stage three and stage four restrictions required by Sections 14.09.060, 14.09.070, 14.09.080, 14.09.090 and 14.09.100 shall continue in place, except to the extent they are replaced by more restrictive conditions imposed by this section.

B. Residential customers and nonresidential landscapes are to reduce water usage up to 50 percent.

C. Except where recycled water is used, water users shall reduce landscape irrigation as follows:

1. Turf shall not be irrigated.

2. Trees and shrubs may be irrigated with a properly functioning low volume landscape irrigation system or by use of a handheld hose equipped with a nozzle capable of completely shutting off the flow of water except when positive action or pressure to maintain the flow of water is applied. Low volume irrigation means the application of irrigation water at low pressure through a system of tubing or lateral lines and low-volume emitters such as point source drip and in-line drip lines or soaker hose. These systems are specifically designed to apply small volumes of water slowly at or near the root zone of plants.

D. Filling new or existing swimming pools and spas with city water is prohibited.

E. Water shortage surcharges and excess water use charges shall be implemented as set forth in Section 14.08.095.

(Ord. 2413 § 2, 1991; Ord. 4629 § 1, 2008; Ord. 4724 § 3, 2009; Ord. 5311 § 2, 2014; Ord. 5491 § 9, 2015; Ord. 6500 § 10, 2022)

§ 14.09.120. Determination of drought tolerance.

Where this chapter permits or prohibits acts based upon whether or not a planting, tree, shrub, or groundcover is "drought tolerant" the determination shall be made based upon Sunset's *Western Garden Book* (most recent edition), or UC Davis Arboretum's "All Stars" plant database (www.arboretum.ucdavis.edu). Where this chapter permits or

Downloaded from https://ecode360.com/RO4998 on 2026-03-30

prohibits acts based upon whether a form of irrigation is "low volume drip irrigation" the determination shall be made by the director, or designee, whose determination shall be final.
(Ord. 2413 § 2, 1991; Ord. 4629 § 1, 2008; Ord. 5311 § 2, 2014; Ord. 6500 § 11, 2022)

§ 14.09.130. Determination of landscape water consumption reductions.

Whenever this chapter requires a reduction in consumption of water for irrigation purposes, the base year for measurement shall be the last year that the basic water conservation stage was in effect or a date specified by the Governor or state agency. If that data is not available for a property, allocations will be based on water use for similar properties. The city manager or designee may elect to base a reduction on the base year or on a landscape water consumption calculation if use was, in the city manager's or designee's, sole opinion, either excessive or extraordinarily low. For landscaping installed subsequent to the base year, the calculations shall be based on landscape water consumption calculations submitted with the landscape plan, or water consumption the previous year, whichever is less.
(Ord. 2413 § 2, 1991; Ord. 2817 § 1, 1994; Ord. 4629 § 1, 2008; Ord. 5311 § 2, 2014; Ord. 5491 § 10, 2015)

§ 14.09.140. Violations.

It is unlawful for any user and/or person to violate any provision or fail to comply with any of the requirements of this chapter. Causing, permitting, aiding, abetting or concealing a violation of any provision of this chapter shall constitute a violation of this chapter. A violation of the provisions of this chapter shall occur irrespective of the negligence or intent of the violator and a violation of or failure to comply with any of the requirements of this chapter may be charged as either an infraction or a misdemeanor in the discretion of the city attorney.
(Ord. 2413 § 2, 1991; Ord. 3834 § 3, 2002; Ord. 4629 § 1, 2008; Ord. 5311 § 2, 2014)

§ 14.09.150. Enforcement authority.

A. Whenever the city manager, or designee (including, but not limited to, an enforcement officer), determines that a user and/or person has violated any provision of, or failed to meet a requirement of, this chapter, an administrative citation pursuant to Chapter 2.50 or a written compliance order pursuant to Chapter 2.52 may be issued to any user and/or person responsible for the violation.

B. Any compliance order issued may require without limitation any or all of the following:

   1. The allocation of a particular amount of water to a given user and/or person responsible for the violation;

   2. The issuance of a fine;

   3. The installation of a flow restriction device;

Downloaded from https://ecode360.com/RO4998 on 2026-03-30

4. The performance of monitoring, analyses, and reporting;

5. That violations shall cease and desist; and/or

6. The discontinuation of water service.

The compliance order shall set forth a deadline within which the requirements of the compliance order must be completed. Said compliance order shall further advise that, should the violator fail to comply with the compliance order within the established deadline, a hearing on the compliance order shall be set.

(Ord. 2413 § 2, 1991; Ord. 2817 § 1, 1994; Ord. 3034 § 3, 2002; Ord. 4629 § 1, 2008; Ord. 5311 § 2, 2014; Ord. 5491 § 11, 2015)

§ 14.09.160. Hearing.

If full compliance is not achieved within the time specified in the compliance order, a hearing on the compliance order shall be set pursuant to Chapter 2.52. All penalties and remedies authorized by Chapter 2.52 shall apply to violations of this chapter.
(Ord. 2413 § 2, 1991; Ord. 4629 § 1, 2008; Ord. 5311 § 2, 2014)

§ 14.09.170. Appeal.

Any user and/or person receiving a compliance order under Section 14.09.150 may appeal the determination of the director, or designee, to a hearing panel drawn from the membership of the board of appeals. The notice of appeal must be received by the city's environmental utilities department within 10 days from the date of the compliance order. Notice of hearing and hearing on the appeal will be conducted pursuant to the requirements of Chapter 2.52.
(Ord. 2413 § 2, 1991; Ord. 4629 § 1, 2008; Ord. 5311 § 2, 2014)

§ 14.09.180. Separate offense for each day.

Any user and/or person that violates any provision of this chapter shall be guilty of a separate offense for each and every day during any portion of which any such user and/or person commits, continues, permits, or causes a violation thereof, and shall be punished accordingly.
(Ord. 2413 § 2, 1991; Ord. 4629 § 1, 2008; Ord. 5311 § 2, 2014)

§ 14.09.190. Public nuisance.

In addition to the enforcement processes and penalties hereinbefore provided, any condition caused or permitted to exist in violation of any of the provisions of this chapter is a threat to public health, safety, and welfare, and is declared and deemed a nuisance, and may be summarily abated or restored by the city at the violator's expense, and/or a civil action to abate, enjoin, or otherwise compel the cessation of such nuisance may be initiated and/or taken by the city.
(Ord. 2413 § 2, 1991; Ord. 4629 § 1, 2008; Ord. 5311 § 2, 2014)

Downloaded from https://ecode360.com/RO4998 on 2026-03-30

§ 14.09.200. Remedies not exclusive.

Remedies under this chapter are in addition to and do not supersede or limit any and all other remedies, civil or criminal. The remedies provided for herein shall be cumulative and not exclusive.
(Ord. 4629 § 2, 2008; Ord. 5311 § 2, 2014)

§ 14.09.210. Judicial review.

Any decision of the hearing panel shall be final. Any user and/or person aggrieved by an order of the hearing panel may obtain review of the order in the Superior Court by filing with the Court a petition for writ of mandate within 90 days pursuant to California Code of Civil Procedure Section 1094.6.
(Ord. 4629 § 2, 2008; Ord. 5311 § 2, 2014)

§ 14.09.220. Chapter severable.

The provisions of this chapter are severable. The city council declares that it would have adopted the remainder of this chapter even if any of its provisions are declared unlawful or unenforceable.
(Ord. 4629 § 2, 2008.; Ord. 5311 § 2, 2014)

Item ID: 2026-494

Title:	Zoning and Subdivision Ordinance - Roseville Municipal Code Updates
Contact:	Eric Singer 916-774-5536 ejsinger@roseville.ca.us

SUMMARY

Staff recommends the City Council introduce for first reading an ordinance amending Chapters 19.10, 19.12, and 19.28 of the Roseville Municipal Code regarding Residential Zone Permitted Use Types, Commercial Zone Permitted Use Types, and Density Bonus Regulations; and introduce for first reading an Ordinance amending Chapter 18.05 of the Roseville Municipal Code regarding Ministerial Multifamily Maps. The proposed ordinance amendments will have no impact on the City's General Fund.

RECOMMENDATION

At the April 23, 2026, Planning Commission hearing, the Planning Commission reviewed the Ordinance Amendments to Title 18 of the Roseville Municipal Code. Staff recommends the City Council take the following action:

1. Introduce for first reading an Ordinance amending Chapter 18.05 of the Roseville Municipal Code regarding Ministerial Multifamily Maps.

At the April 23, 2026, Planning Commission hearing, the Planning Commission recommended that the City Council take the following action on the Zoning Ordinance:

1. Introduce for first reading an Ordinance amending Section 19.10.020 of Chapter 19.10, Section 19.12.020 or Chapter 19.12, and Chapter 19.28 of Title 19 of the Roseville Municipal Code regarding Residential Zone Permitted Use Types, Commercial Zone Permitted Use Types, and Density Bonus Regulations.

BACKGROUND

Each year, staff reviews the Zoning Ordinance to identify updates needed in response to newly passed state legislation.

The following amendments to the Subdivision Ordinance are listed below (also available in the Planning Commission staff report).

Chapter 18.05 (Tentative Map Applications – Ministerial): Pursuant to AB 130, this update includes several changes to the ministerial multifamily map section. First, it allows developers to designate a "remainder parcel" that does not count towards the 10-parcel limit for small-scale subdivisions, provided it does not contain new residential development and is dedicated to servicing the housing project. Secondly, the law specifies that parcels in these subdivisions cannot be sold, leased, or financed unless they contain a new compliant residential unit, an existing legal structure, are designated for common area/open space, or are the last remaining parcel in the subdivision.

Finally, the section is being renamed from “Ministerial Multifamily Map” to “Ministerial 10-Lot Map” to reflect the fact that the amendments apply to projects in both single-family and multifamily zone districts.

The proposed amendments identified for this annual Zoning Ordinance update consist of the changes below (also available within the Planning Commission staff report).

Section 19.10.020 and Section 19.12.020 (Residential Zone and Commercial Zone Permitted Use Types): Pursuant to AB 752, this update adds a footnote specifying that a daycare center is a principally permitted use of property when co-located with multifamily housing. Additionally, this update adds a footnote clarifying that any residential units can be permitted in a commercial zone with a Conditional Use Permit if the units have been allocated within the specific plan or master plan (e.g. Campus Oaks Master Plan). It also adds a footnote clearly stating the minimum density of 25 units per acre for any multifamily units that are permitted by right in the Regional Commercial (RC) zone.

Chapter 19.28 (Residential Density Bonus): Pursuant to AB 87, SB 92, and SB 838, updates to the Density Bonus section include the following: redefining “mixed-use developments,” and stating they may not include lodging; and that deed restrictions on mixed-use developments must prohibit short rentals. Additionally, the City is removing its language requiring a Pro Forma to qualify for a density bonus. A Pro Forma is a financial document that explains the sources of income and expenses and is used to determine whether a housing project is fiscally viable. A Pro Forma used to be required in order to demonstrate that a density bonus was financially necessary but consistent with existing case law, the City has not enforced the Pro Forma requirement of the ordinance for a decade or more. As part of renewing Prohousing Designation, the California Department of Housing and Community Development requested the City delete this obsolete section of the Ordinance.

FISCAL IMPACT

The proposed ordinance amendments will have no impact on the City’s General Fund.

ENVIRONMENTAL REVIEW

The proposed Zoning Ordinance and Subdivision Ordinance amendments are policy and procedure-making activities, and the California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)).

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

4. Invest in well-planned infrastructure and growth

Respectfully Submitted,
Eric Singer, Associate Planner

Mike Isom, Development Services Director

ORDINANCE NO. ____

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING CHAPTER 18.05 OF TITLE 18 OF THE ROSEVILLE MUNICIPAL CODE REGARDING TENTATIVE MAP APPLICATIONS-MINISTERIAL

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Chapter 18.05 of Title 18 of the Roseville Municipal Code is hereby amended to read as shown in Attachment "A"

SECTION 2. This ordinance shall be effective at the expiration of thirty (30) days from the date of adoption.

SECTION 3. The City Clerk is hereby directed to cause this ordinance to be published in full at least once within fourteen (14) days after it is adopted in a newspaper of general circulation in the City, or shall within fourteen (14) days after its adoption cause this ordinance to be posted in full in at least three (3) public places in the City and enter in the Ordinance Book a certificate stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville this ___ day of _____, 20__, by the following vote on roll call:

CHAPTER 18.05
TENTATIVE MAP APPLICATIONS—MINISTERIAL

§ 18.05.010. Tentative map required.

A tentative map shall be required wherever a final map or parcel map is required by the Subdivision Map Act, unless specifically waived by the provisions of this title or the Subdivision Map Act.

§ 18.05.020. Application required.

Whenever a tentative map is required, the subdivider shall submit to the director a complete tentative map application to be processed in accordance with the provisions of this chapter and title. An application shall be processed pursuant to Chapter 18.06 unless consistent with one of the following:

A. Ministerial Affordable Housing Map. It is a parcel map associated with a residential multi-unit (three or more units) or mixed-use housing project that provides a minimum of 20% of the units as affordable units for low, very low or extremely low income households and where the applicant agrees to enter into an affordable housing agreement prior to recordation of the parcel map (hereinafter affordable housing project),

B. Ministerial Two-Lot Single-Family Map. The application meets the following qualifying criteria for a ministerial two-lot parcel map:

    1. The parcel is located within a single-family residential zone, which are the city's single-family residential (R1) and small lot residential (RS) zones.

    2. The parcel map subdivides an existing parcel to create no more than two new parcels of approximately equal lot area provided that one parcel shall not be smaller than 40% of the lot area of the original parcel proposed for subdivision.

    3. Both newly-created parcels are a minimum of 1,200 square feet.

    4. The parcel being subdivided has not been established through prior exercise of a parcel map pursuant to this section, nor has the owner or any person acting in concert with the owner previously subdivided an adjacent parcel pursuant to this section.

    5. The proposed parcel map would not require demolition or alteration of any of the following types of housing:

        a. Housing subject to a recorded covenant, ordinance, or law that restricts rents to levels affordable to persons and families of moderate, low, or very low income.

b. Housing which has been occupied by a tenant anytime within the last three years.

c. Housing subject to any form of rent or price control through a public entity's valid exercise of its police power.

d. A parcel or parcels on which an owner of residential real property has exercised the owner's rights under Government Code Chapter 12.75 (commencing with Section 7060) of Division 7 of Title 1, as may be amended from time to time, to withdraw accommodations from rent or lease within 15 years before the date that the development proponent submits an application.

6. The parcel is not located within a historic district or property included on the State Historic Resources Inventory, as defined in Section 5020.1 of the Public Resources Code, as may be amended from time to time, or within a site that is designated or listed as a city or county landmark or historic property or district pursuant to a city or county ordinance.

7. The parcel is not located on a site that is or contains any of the following, pursuant to Government Code Section 65913.4, subparagraphs (B) to (K), as may be amended from time to time, inclusive, of paragraph (6) of subdivision (a), as may be amended from time to time:

   a. Either prime farmland or farmland of statewide importance, as defined pursuant to United States Department of Agriculture land inventory and monitoring criteria, as modified for California, and designated on the maps prepared by the Farmland Mapping and Monitoring Program of the Department of Conservation, or land zoned or designated for agricultural protection or preservation by a local ballot measure that was approved by the voters of that jurisdiction.

   b. Wetlands, as defined in the United States Fish and Wildlife Service Manual, Part 660 FW 2 (June 21, 1993).

   c. Within a very high fire hazard severity zone, as determined by the Department of Forestry and Fire Protection pursuant to Government Code Section 51178, as may be amended from time to time, or within a high or very high fire hazard severity zone as indicated on maps adopted by the Department of Forestry and Fire Protection pursuant to Section 4202 of the Public Resources Code, as may be amended from time to time. This subparagraph does not apply to sites excluded from the specified hazard zones by a local agency, pursuant to subdivision (b) of Section 51179 of the Government Code, as may be amended from time to time, or sites that have adopted fire hazard mitigation measures pursuant to existing building standards or state fire mitigation measures applicable to the development.

   d. A hazardous waste site that is listed pursuant to Government Code

Section 65962.5, as may be amended from time to time, or a hazardous waste site designated by the Department of Toxic Substances Control pursuant to Section 25356 of the Health and Safety Code, as may be amended from time to time, unless the State Department of Public Health, State Water Resources Control Board, or Department of Toxic Substances Control has cleared the site for residential use or residential mixed uses.

e. Within a delineated earthquake fault zone as determined by the State Geologist in any official maps published by the State Geologist, unless the development complies with applicable seismic protection building code standards adopted by the California Building Standards Commission under the California Building Standards Law (Part 2.5 (commencing with Section 18901) of Division 13 of the Health and Safety Code, as may be amended from time to time), and by any local building department under Government Code Chapter 12.2 (commencing with Section 8875) of Division 1 of Title 2, as may be amended from time to time.

f. Within a special flood hazard area subject to inundation by the one percent annual chance flood (100-year flood) as determined by the Federal Emergency Management Agency in any official maps published by the Federal Emergency Management Agency. If a development proponent is able to satisfy all applicable federal qualifying criteria in order to provide that the site satisfies this subparagraph and is otherwise eligible for streamlined approval under this section, a local government shall not deny the application on the basis that the development proponent did not comply with any additional permit requirement, standard, or action adopted by that local government that is applicable to that site. A development may be located on a site described in this subparagraph if either of the following are met:

    i. The site has been subject to a Letter of Map Revision prepared by the Federal Emergency Management Agency and issued to the local jurisdiction.

    ii. The site meets Federal Emergency Management Agency requirements necessary to meet minimum flood plain management criteria of the National Flood Insurance Program pursuant to Part 59 (commencing with Section 59.1) and Part 60 (commencing with Section 60.1) of Subchapter B of Chapter I of Title 44 of the Code of Federal Regulations, as may be amended from time to time.

g. Within a regulatory floodway as determined by the Federal Emergency Management Agency in any official maps published by the Federal Emergency Management Agency, unless the development has received a no-rise certification in accordance with Section 60.3(d)(3) of Title 44 of the Code of Federal Regulations, as may be amended from time to time.

If a development proponent is able to satisfy all applicable federal qualifying criteria in order to provide that the site satisfies this subparagraph and is otherwise eligible for streamlined approval under this section, a local government shall not deny the application on the basis that the development proponent did not comply with any additional permit requirement, standard, or action adopted by that local government that is applicable to that site.

h. Lands identified for conservation in an adopted natural community conservation plan pursuant to the Natural Community Conservation Planning Act (Chapter 10 (commencing with Section 2800) of Division 3 of the Fish and Game Code, as may be amended from time to time), habitat conservation plan pursuant to the federal Endangered Species Act of 1973 (16 U.S.C. Section 1531 et seq., as may be amended from time to time), or other adopted natural resource protection plan.

i. Habitat for protected species identified as candidate, sensitive, or species of special status by state or federal agencies, fully protected species, or species protected by the Federal Endangered Species Act of 1973 (16 U.S.C. Section 1531 et seq., as may be amended from time to time), the California Endangered Species Act (Chapter 1.5 (commencing with Section 2050) of Division 3 of the Fish and Game Code, as may be amended from time to time), or the Native Plant Protection Act (Chapter 10 (commencing with Section 1900) of Division 2 of the Fish and Game Code, as may be amended from time to time.

j. Lands under conservation easement.

C. Ministerial ~~Multifamily~~ 10-Lot Map. The application is for a ministerial map of 10 or fewer parcels resulting in 10 or fewer residential units and meets all of the following qualifying criteria:

1. The parcel is one of the following:

a. The parcel is a legal lot located within the city's multi-family residential (R3) zone and meets the following criteria:

i. The parcel is no greater than five acres.

ii. The proposed parcels are no smaller than 600 square feet.

b. The parcel is a vacant legal lot, as defined by Government Code Section 66499.41(a)(2)(A)(ii), as may be amended from time to time, located within the City's single-family residential (R1/RS) zone and meets the following criteria:

i. The parcel is no greater than 1.5 acres.

ii. The proposed parcels are no smaller than 1,200 square feet.

2. The parcel being subdivided has not been established through prior exercise of

a map pursuant to Chapter 18.05.

3. The parcel is substantially surrounded by urban uses. As defined in paragraph (2) of subdivision (a) of Section 21159.25 of the Public Resources Code, as may be amended from time to time, substantially surrounded means at least 75% of the perimeter of the project site adjoins or is separated only by an improved public right-of-way from any residential, commercial, public institutional, transit or transportation passenger facility, or retail use, or any combination of those uses. The remaining 25% of the perimeter of the project must adjoin or be separated only by an improved public right-of-way from parcels that have been designated for any residential, commercial, public institutional, transit or transportation passenger facility, or retail use, or any combination of those uses, by the Zoning Ordinance, a specific plan/ community plan, or the General Plan.

4. The project shall result in at least 66% of the maximum allowable units as projected for that parcel in the General Plan Housing Element and shall also provide at least as many low or very low income units identified in the General Plan Housing Element for the parcel (subject to a recorded affordability restriction of at least 45 years). If the parcel is not identified in the General Plan Housing Element, the project shall result in at least 66% of the maximum allowable residential density.

5. The average total area of floorspace for the proposed housing units on the lot proposed to be subdivided does not exceed 1,750 net habitable square feet. Habitable space is defined by the California Building Code, as may be amended from time to time, as a space in a building for living, sleeping, eating, or cooking (bathrooms, toilet rooms, closets, halls, storage, or utility spaces and similar areas are not included in net habitable space).

6. Any parcels proposed to be created pursuant to this section will be served by a public water system and a municipal sewer system.

7. The proposed project would not require demolition or alteration of any of the following types of housing:

    a. Housing subject to a recorded covenant, ordinance, or law that restricts rents to levels affordable to persons and families of moderate, low, or very low income.

    b. Housing which has been occupied by a tenant anytime within the last five years.

    c. Housing subject to any form of rent or price control through a public entity's valid exercise of its police power.

    d. A parcel or parcels on which an owner of residential real property has exercised the owner's rights under Government Code Chapter 12.75 (commencing with Section 7060) of Division 7 of Title 1, as may be amended from time to time, to withdraw accommodations from rent or

lease within 15 years before the date that the development proponent submits an application.

8. The parcel is not located on a site that is or contains any of the following, pursuant to Government Code Section 65913.4, subparagraphs (B) to (K), inclusive, of paragraph (6) of subdivision (a), as may be amended from time to time:

    a. Either prime farmland or farmland of statewide importance, as defined pursuant to United States Department of Agriculture land inventory and monitoring criteria, as modified for California, and designated on the maps prepared by the Farmland Mapping and Monitoring Program of the Department of Conservation, or land zoned or designated for agricultural protection or preservation by a local ballot measure that was approved by the voters of that jurisdiction.

    b. Wetlands, as defined in the United States Fish and Wildlife Service Manual, Part 660 FW 2 (June 21, 1993).

    c. Within a very high fire hazard severity zone, as determined by the Department of Forestry and Fire Protection pursuant to Government Code Section 51178, as may be amended from time to time, or within a high or very high fire hazard severity zone as indicated on maps adopted by the Department of Forestry and Fire Protection pursuant to Section 4202 of the Public Resources Code, as may be amended from time to time. This subparagraph does not apply to sites excluded from the specified hazard zones by a local agency, pursuant to subdivision (b) of Section 51179 of the Government Code, as may be amended from time to time, or sites that have adopted fire hazard mitigation measures pursuant to existing building standards or state fire mitigation measures applicable to the development.

    d. A hazardous waste site that is listed pursuant to Government Code Section 65962.5 or a hazardous waste site designated by the Department of Toxic Substances Control pursuant to Section 25356 of the Health and Safety Code, as may be amended from time to time, unless:

        i. The site is an underground storage tank site that received a uniform closure letter issued pursuant to subdivision (g) of Section25296.10 of the Health and Safety Code, as may be amended from time to time, based on closure criteria established by the State Water Resources Control Board for residential use or residential mixed uses.

        ii. The State Department of Public Health, State Water Resources Control Board, Department of Toxic Substances Control, or a local agency making a determination pursuant to subdivision (c) of Section25296.10 of the Health and Safety Code, as may be amended from time to time, has otherwise determined that the site is suitable

for residential use or residential mixed uses.

e. Within a delineated earthquake fault zone as determined by the State Geologist in any official maps published by the State Geologist, unless the development complies with applicable seismic protection building code standards adopted by the California Building Standards Commission under the California Building Standards Law (Part 2.5 (commencing with Section 18901) of Division 13 of the Health and Safety Code, as may be amended from time to time), and by any local building department under Government Code Chapter 12.2 (commencing with Section 8875) of Division 1 of Title 2, as may be amended from time to time.

f. Within a special flood hazard area subject to inundation by the one percent annual chance flood (100-year flood) as determined by the Federal Emergency Management Agency in any official maps published by the Federal Emergency Management Agency. If a development proponent is able to satisfy all applicable federal qualifying criteria in order to provide that the site satisfies this subparagraph and is otherwise eligible for streamlined approval under this section, a local government shall not deny the application on the basis that the development proponent did not comply with any additional permit requirement, standard, or action adopted by that local government that is applicable to that site. A development may be located on a site described in this subparagraph if either of the following are met:

   i. The site has been subject to a Letter of Map Revision prepared by the Federal Emergency Management Agency and issued to the local jurisdiction.

   ii. The site meets Federal Emergency Management Agency requirements necessary to meet minimum flood plain management criteria of the National Flood Insurance Program pursuant to Part 59 (commencing with Section 59.1) and Part 60 (commencing with Section 60.1) of Subchapter B of Chapter I of Title 44 of the Code of Federal Regulations, as may be amended from time to time.

g. Within a regulatory floodway as determined by the Federal Emergency Management Agency in any official maps published by the Federal Emergency Management Agency, unless the development has received a no-rise certification in accordance with Section 60.3(d)(3) of Title 44 of the Code of Federal Regulations, as may be amended from time to time. If a development proponent is able to satisfy all applicable federal qualifying criteria in order to provide that the site satisfies this subparagraph and is otherwise eligible for streamlined approval under this section, a local government shall not deny the application on the basis that the development proponent did not comply with any additional permit requirement, standard, or action adopted by that local government

that is applicable to that site.

h. Lands identified for conservation in an adopted natural community conservation plan pursuant to the Natural Community Conservation Planning Act (Chapter 10 (commencing with Section 2800) of Division 3 of the Fish and Game Code, as may be amended from time to time), habitat conservation plan pursuant to the federal Endangered Species Act of 1973 (16 U.S.C. Section 1531 et seq., as may be amended from time to time), or other adopted natural resource protection plan.

i. Habitat for protected species identified as candidate, sensitive, or species of special status by state or federal agencies, fully protected species, or species protected by the Federal Endangered Species Act of 1973 (16 U.S.C. Section 1531 et seq., as may be amended from time to time), the California Endangered Species Act (Chapter 1.5 (commencing with Section 2050) of Division 3 of the Fish and Game Code, as may be amended from time to time), or the Native Plant Protection Act (Chapter 10 (commencing with Section 1900) of Division 2 of the Fish and Game Code, as may be amended from time to time).

j. Lands under conservation easement.

9. The housing units on the lot proposed to be subdivided are to be constructed on fee simple ownership lots, as part of a common interest development, as part of a housing cooperative, or are to be owned by a community land trust, consistent with Government Code Section66499.41(a)(4), as may be amended from time to time.

10. The proposed subdivision conforms to all applicable objective requirements of the Subdivision Map Act (Division 2 (commencing with Section 66410, as may be amended from time to time)), except as otherwise expressly provided in this section, and the project conforms to Government Code Section 65852.28, as may be amended from time to time.

11. The proposed subdivision will not result in any existing dwelling unit being alienable separate from the title to any other existing dwelling unit on the lot.

12. The proposed subdivision may designate a remainder parcel, as defined under Government Code Section 66424.6, as may be amended from time to time, that retains existing land uses or structures, does not contain any new residential units, and is not exclusively dedicated to serving the housing development project. The remainder parcel shall not be counted against the 10-parcel maximum permitted.

13. No person shall sell, lease, or finance any parcel or parcels of real property resulting from a subdivision under this section separately from any other such parcel or parcels, unless each parcel that is sold, leased, or financed meets one of the following criteria:

    a. The parcel contains a residential structure completed in compliance with all applicable provisions of the California Building Standards Code that includes at least one dwelling unit.

    b. The parcel already contains an existing legally permitted

residential structure.

c. The parcel is reserved for internal circulation, open space, or common area.

~~a.~~d. The parcel is the only remaining parcel within the subdivision that is not developed with a residential structure that was completed in compliance with all applicable provisions of the California Building Standards Code.

§ 18.05.030. Application materials required.

Whenever a tentative map is required, the subdivider shall submit to the director a complete tentative map application to be processed in accordance with the provisions of this chapter and title.

A complete application shall include the following:

A. Application Form.

1. The application shall be in a form specified by the director and shall be accompanied with the correct filing fee;

2. A description of the applicant's interest in the property shall be stated on the application form;

3. A dated signature by the property owner, or owners, authorizing the processing of the application, and, if so desired by the property owner, authorizing a representative to bind the property owner on matters addressed in the application.

B. Tentative Map: Preparation, Form and Number of Copies.

1. The tentative map shall be clearly and legibly drawn and prepared by or under the direction of a registered civil engineer or licensed land surveyor.

2. The scale of the map shall be at least one inch equals 40 feet unless otherwise specified by the director. If necessary to provide the proper scale, more than one sheet may be used, but the relation of the several sheets shall be clearly shown on each.

3. No single sheet shall exceed 60 inches in length and 42 inches in width.

4. Full size copies, and one copy reduced to eight and one-half inches by 11 inches (suitable for reproduction) of the tentative map. The number of the tentative map copies shall be specified by the director.

C. The following information shall appear on the face of the tentative map:

1. The proposed subdivision name;

2. Names, addresses and telephone numbers of the record owner and subdivider of the land;

3. Name, address and telephone number of the person, firm or organization that prepared the tentative map, and the applicable registration or license number;

4. Date of preparation, north arrow and scale of the map;

5. If the tentative map is based on a survey, the date of the survey;

6. A vicinity map of appropriate scale sufficiently covering adjoining territory to clearly indicate the nearby street patterns, major access streets, property lines, and other adjacent properties in the subdivider's ownership (north arrow pointing in the same direction as the north direction of the subdivision);

7. A statement of existing and proposed zoning and general plan categories, and existing and proposed uses of the property, with the approximate areas of the proposed uses by type;

8. Boundaries and dimensions of the property(ies) involved in the subdivision, with sufficient information to locate the property(ies), and the total area of the subdivision;

9. A list of all service providers and districts, including water, sewer, electric,

natural gas, phone, cable and schools;

10. The name of all adjacent subdivisions, if any, and property lines sufficient to show their relationship to the proposed subdivision;

11. Contour lines at intervals of not more than two feet where the general slope of the property is less than 10 percent, and/or at five-foot intervals where the general slope of the property exceeds 10 percent. Contour lines shall extend beyond the tract boundaries where necessary to show drainage conditions on surrounding property which may affect the subdivision;

12. Topographic information shall be sufficient to fully show the configuration of the land and any and all depressions that present drainage problems;

13. The location and general description of any trees with notations as to their specimen type, and other significant natural features with notations as to their retention or destruction;

14. The location of all structures within the subdivision boundaries, notations if they are to remain or be removed, and their distances from other structures and existing or proposed streets and lot lines;

15. The locations, widths and purposes of all existing and proposed easements for utilities, drainage and other public or private purposes, shown by dashed lines, within and adjacent to the subdivision;

16. The location of any 100-year future floodplain. The city engineer may require additional hydrologic analysis to update or determine the boundaries of the 100-year floodplain;

17. Any area of fill or excavation and their respective quantities within the 100-year future floodplain;

18. The locations, widths and names or designations of all existing or proposed streets, alleys, pedestrian ways and other rights-of-way, whether public or private, within and adjacent to the subdivision (including the radius of each centerline curve);

19. The lines and approximate dimensions of all lots, with sequential numbers assigned to each;

20. The total number of lots (listed by phase, if applicable);

21. The total area in square footage or acreage to the nearest one-tenth acre of each lot proposed to be utilized for other than single-family or two-family housing; and

22. A statement on the face of the tentative map declaring that all easements of record are shown on the tentative map and will appear on the final maps.

D. Additional Information and Plans Required With Ministerial Tentative Map

Application. In addition, the following plans and information shall be submitted with a tentative map application:

1. A statement of proposed improvements, including all utilities and landscaping; and

2. A preliminary title report issued not more than six months prior to its submission to the city; and

3. For a ministerial two-lot map, an affidavit signed by the applicant stating that the applicant intends to occupy one of the housing units as their principal residence for a minimum of three years from the date of the approval of the parcel map. This requirement shall not apply to an applicant that is a "community land trust," as defined in clause (ii) of subparagraph (C) of paragraph (11) of subdivision (a) of Section 402.1 of the Revenue and Taxation Code, as may be amended from time to time, or is a "qualified nonprofit corporation" as described in Section 214.15 of the Revenue and Taxation Code, as may be amended from time to time. The affidavit shall further state that the applicant understands that uses allowed on the newly-created lots shall be limited to residential uses.

§ 18.05.040. Prefiling.

Within 30 days of receiving a tentative map application the planning department shall, in writing, determine if the application meets the requirements of Section 18.05.020 and Section 18.05.030. When an application is either ineligible for the ministerial parcel map process or is missing any required information it will not be processed. Prefiling occurs on the date that the application is received with all required information.

§ 18.05.050. Application referral.

Within five days of prefiling the director will refer copies of the tentative map application to any city department, local, state or federal agency, or other individual or group the director believes may be interested in the project. If no response is received within 21 days of the referral date, the director will assume that the outside agency, individual or group has no comments.

§ 18.05.060. Acceptance of application.

Pursuant to Government Code Section 65943, as may be amended from time to time, a tentative map application shall be accepted as complete by the director if it meets the requirements of Section 18.05.030 of this title.

Within 30 days of prefiling, the director shall send a letter to the applicant indicating:

A. If all of the required information for a tentative map application has been correctly

submitted pursuant to Section 18.05.030; and

B. All information necessary to accept a complete application and to clarify, amplify, correct or supplement the application; and

C. Suggested design changes or conditions of approval which may need to be met in order to receive approval. If the director determines additional information is required, and the additional information has not been received within six months of the letter requesting the information, then the application shall be deemed withdrawn, unless extended pursuant to Section 18.06.150.

§ 18.05.070. Application deemed "filed."

An application shall be deemed filed in accordance with Section 66452.1 of the Subdivision Map Act, as may be amended from time to time, on the date the tentative map application is accepted as complete as specified in Section 18.05.060.

§ 18.05.080. Approval by city engineer.

After an application is filed, the city engineer shall approve the tentative map based upon the minimum findings below, and in accordance with the requirements of this title.

A. The tentative map conforms to all applicable objective requirements of the Subdivision Map Act (Division 2 (commencing with Section 66410, as may be amended from time to time)), except as otherwise expressly provided in this section.

B. The tentative map conforms to objective zoning standards, objective subdivision standards, and objective design review standards, except that conformance is not required where imposition of the standards would have the effect of physically precluding the construction of two units on either of the resulting parcels or that would result in a unit size of less than 800 square feet, nor shall it be required to correct existing nonconforming zoning conditions.

C. The tentative map provides necessary easements for the provision of public services and facilities.

D. The parcels have access to, provide access to, or adjoin the public right-of-way.

E. The project will not have a specific, adverse impact, as defined and determined in Government Code paragraph (2) of subdivision (d) of Section 65589.5, as may be amended from time to time, upon public health and safety or the physical environment and for which there is no feasible method to satisfactorily mitigate or avoid the specific, adverse impact.

ORDINANCE NO. ____

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING SECTION 19.10.020 OF CHAPTER 19.10 OF TITLE 19 OF THE ROSEVILLE MUNICIPAL CODE REGARDING RESIDENTIAL ZONES, AND SECTION 19.12.020 OF CHAPTER 19.12 OF TITLE 19 OF THE ROSEVILLE MUNICIPAL CODE REGARDING COMMERICAL ZONES, AND CHAPTER 19.28 OF TITLE 19 OF THE ROSEVILLE MUNICIPAL CODE REGARDING RESIDENTIAL DENISTY BONUS

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Section 19.10.020 of Chapter 19.10 of Title 19 of the Roseville Municipal Code is hereby amended to read as shown on Attachment “A”.

SECTION 2. Section 19.12.020 of Chapter 19.12 of Title 19 of the Roseville Municipal Code is hereby amended to read as shown on Attachment “B”.

SECTION 3. Chapter 19.28 of Title 19 of the Roseville Municipal Code s hereby amended to read as shown on Attachment “C”.

SECTION 5. This ordinance shall be effective at the expiration of thirty (30) days from the date of adoption.

SECTION 6. The City Clerk is hereby directed to cause this ordinance to be published in full at least once within fourteen (14) days after it is adopted in a newspaper of general circulation in the City, or shall within fourteen (14) days after its adoption cause this ordinance to be posted in full in at least three (3) public places in the City and enter in the Ordinance Book a certificate stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville this ___ day of _____, 20__, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

Notes:

(1)	Accessory dwelling/junior accessory dwelling units are only permitted within areas zoned to allow single-family, two-family or multi-family residential use and must be located on a lot that contains an existing or proposed single-family, two-family or multi-family dwelling unit as defined in Sections 19.08.080(F)(1) and (F)(2) (Residential Use Types). See Chapter 19.60 for additional accessory dwelling/junior accessory dwelling unit regulations.
(2)	See Chapter 19.46 for large family day care home regulations.
(3)	See Chapter 19.55 for power generating facilities requirements.
(4)	See Chapter 19.34 for antennas and communications facilities requirements.
(5)	Transitional housing and supportive housing are considered residential use types and are permitted (P) where residential uses are permitted (P) or conditionally permitted (CUP). For supportive housing the total floor area dedicated to administrative office space shall not exceed 25% of the total floor area and must provide the minimum supportive services/ service area defined in Government Code Section 65651, as may be amended from time to time.
(6)	Short-term rentals are only permitted in a single-family dwelling unit. See Chapter 4.25 for additional short-term rental requirements.
(7)	A long-term care facility which serves six or fewer persons shall be considered a residential use of the property.
(8)	Low-barrier navigation centers are exempt from a Design Review Permit.
(9)	A Daycare Center is a principally permitted use (P) when collocated with multifamily housing.

§ 19.12.020. Permitted use types.

Primary uses are permitted in commercial zones subject to the requirements of this title as designated below:

A. Principally permitted use, designated as "P";

B. Conditionally permitted use, designated as "CUP"; and

C. Administratively permitted use, designated as "A."

Refer to the Downtown Code for permitted uses within the CBD and HD zones.

Notes:	
(1)	Reserved.
(2)	Additional requirements are contained in Chapter 19.32.
(3)	Additional requirements are contained in Chapter 19.40.
(4)	Additional requirements are contained in Chapter 19.39.
(5)	Additional requirements are contained in Chapter 19.38.
(6)	Additional requirements are contained in Chapter 19.49.
(7)	Additional requirements are contained in Chapter 19.34.
(8)	Additional requirements are contained in Chapter 19.36.
(9)	Additional requirements are contained in Chapter 19.55.

Notes:	
(10)	Transitional housing and supportive housing are considered residential use types and are permitted (P) where residential uses are permitted (P) or conditionally permitted (CUP). For supportive housing the total floor area dedicated to administrative office space shall not exceed 25% of the total floor area and must provide the minimum supportive services/service area defined in Government Code Section 65651, as may be amended from time to time.
(11)	Accessory dwelling/junior accessory dwelling units are only permitted within areas zoned to allow single-family, two-family or multi-family residential use and must be located on a lot that contains an existing or proposed single-family, two-family or multi family dwelling unit which has an approved CUP as defined in Section 19.08.080(F)(1) and (F)(2) (Residential Use Types). See Chapter 19.60 for additional accessory dwelling/junior accessory dwelling unit regulations.
(12)	A Conditional Use Permit is required for fast food with drive-through establishments, fuel sales establishments, or electric vehicle charging centers contiguous to: (a) proper ties with a residential zoning designation; (b) parcels designated as a public utilities easement or landscape easement which are contiguous to a property having a residential zoning designation; and (c) any other parcel of land upon which a building cannot be developed and which separates the subject parcel by less than 100 feet which is contiguous to a property having a residential zoning designation. A Conditional Use Permit is not required for these uses if the subject parcel is separated from properties with a residential zoning designation by a public roadway.
(13)	Multi-family uses are permitted with an Administrative Permit in the NC and CC zone districts when the housing development is constructed on or adjacent to a site occupied by a nonprofit organization, and a nonprofit organization will offer supportive services to the proposed residents. Examples of supportive services include transportation, child care, education assistance, and the provision of clothing and other supplies.
(14)	For sites within a specific plan or master plan, residential units are only permitted with a CUP if the specific plan or master plan has allocated units to the site. If no units are allocated or if fewer units are allocated than are proposed, a unit transfer or ~~Specific Plan Amendment~~an amendment to the specific plan or master plan is required in addition to the CUP.
(15)	Multi-family units are permitted by right in the RC zone district at minimum densities of 25 units per acre if the specific plan has al located units to the site. If no units are allocated or if fewer units are allocated than are proposed, a unit transfer or Specific Plan Amendment will be required.

CHAPTER 19.28
RESIDENTIAL DENSITY BONUS

§ 19.28.010. Purpose.

This chapter is adopted pursuant to the provisions of California Government Code Sections 65915 through 65918, as they now exist or may hereafter be amended. The purpose of adopting this chapter is to encourage affordable housing by providing the incentive of increased density and such other incentives provided by this chapter. The provisions of this chapter are intended to comply with California Government Code Sections 65915 through 65918. In the event that any provision of this chapter conflicts with California Government Code Sections 65915 through 65918, state law shall control over the conflicting provision.

§ 19.28.020. Definitions.

For the purpose of this chapter, the following words and phrases shall have the following meanings:

"Approving authority" is as defined in the Roseville Municipal Code Title 19, Zoning, Section 19.78.020.

"Child care facility" is defined as a child day care facility other than a family day care home, including, but not limited to, infant centers, preschools, extended day care facilities, and school-age child care centers.

"Density bonus" is defined as an increase in density over the otherwise maximum allowable residential density under the applicable general plan designation as of the date of filing of an application for density bonus with City or, if elected by the applicant, a lesser percentage of density increase. A density bonus request shall be considered as a component of a qualified housing development.

"Development standard" is defined as the site, development, or construction standards and/or conditions of approval that apply to a residential development, and includes (but is not limited to) a height limitation, a setback requirement, a floor area ratio, an on-site open space requirement, a minimum lot area per unit requirement, or a parking ratio.

"Housing development" is defined as a development project for five or more residential units, including mixed-use developments, constructed within a large lot parcel. For the purposes of this chapter, "housing development" also includes a subdivision or common interest development as defined in Section 4100 of the Civil Code and consists of residential units or unimproved residential lots. A density bonus shall be permitted in geographic areas of the housing development other than the areas where the affordable units are located, so long as the density bonus units are located on the same large lot parcel.

"Incentive" is defined as a reduction in site development standards or a modification of zoning code requirements or architectural design requirements that exceed the minimum building standards approved by the California Building Standards Commission. An incentive can be requested by the applicant for purposes of reducing the cost of

development to make the project financially feasible. The term "incentive" includes the term "concession" as that term is used in California Government Code Sections 65915 through 65918.

"Large lot parcel" is defined as that term is used in any applicable specific plan (large lot parcel is hereby generally deemed as a geographic area).

"Located within one-half mile of a major transit stop" means that any point on a proposed development, for which an applicant seeks a density bonus, other incentives or concessions, waivers or reductions of development standards, or a vehicular parking ratio pursuant to this chapter, is within one-half mile of any point on the property on which a major transit stop is located, including any parking lot owned by the transit authority or other local agency operating the major transit stop.

"Lower income" or "lower income household" is defined as 80 percent of the area median income or less, as defined by Section 50079.5 of the California Health and Safety Code, as may be amended from time to time.

"Lower income unit" is defined as a unit with an affordable rent or payment that does not exceed 30 percent of 60 percent of area median income adjusted for family size appropriate for the unit.

"Major transit stop" is defined as a site containing any of the following: (1) an existing rail or bus rapid transit station; (2) a ferry terminal served by either a bus or rail transit service; or (3) the intersection of two or more major bus routes with a frequency of service interval of 15 minutes or less during the morning and afternoon peak commute periods.

"Maximum allowable residential density" or "base density" means the greatest number of units allowed under the zoning ordinance, specific plan, or land use element of the General Plan, or if a range of density is permitted, means the greatest number of units allowed by the specific zoning range, specific plan, or land use element of the General Plan applicable to the project. Density shall be determined using dwelling units per acre. However, if the applicable zoning ordinance, specific plan, or land use element of the General Plan does not provide a dwelling-units-per-acre standard for density, then the number of units shall be calculated by:

1. Estimating the realistic development capacity of the site based on the objective development standards applicable to the project, including, but not limited to, floor area ratio, site coverage, maximum building height and number of stories, building setbacks and stepbacks, public and private open space requirements, minimum percentage or square footage of any nonresidential component, and parking requirements, unless not required for the base project. Parking requirements shall include considerations regarding number of spaces, location, design, type, and circulation. A developer may provide a base density study and the City shall accept it, provided that it includes all applicable objective development standards.

2. Maintaining the same average unit size and other project details relevant to the base density study, excepting those that may be modified by waiver or concession to accommodate the bonus units, in the proposed project as in the study.

"Moderate income unit" is defined as a unit with an affordable rent or payment that does not exceed 35 percent of 120 percent of area median income adjusted for family size appropriate for the unit.

"Moderate income" or "moderate income household" is defined as 120 percent of the area median income or less, as defined in Section 50093 of the California Health and Safety Code, as may be amended from time to time.

"Senior citizen housing development" is defined as a housing project where residency is restricted to persons 62 years of age or older, or 55 years of age or older in a senior citizen housing development per Section 51.3 of the California Civil Code, as may be amended from time to time.

"Shared housing building" means a residential or mixed-use structure, with five or more shared housing units and one or more common kitchens and dining areas designed for permanent residence of more than 30 days by its tenants. The kitchens and dining areas within the shared housing building shall be able to adequately accommodate all residents. If any section of this Code further restricts the attributes of a shared housing building beyond the requirements established in this section, the Code definition shall apply to the extent that it does not conflict with the requirements of this section.

1. A "shared housing building" may include other dwelling units that are not shared housing units, provided that those dwelling units do not occupy more than 25 percent of the floor area of the shared housing building. A shared housing building may include 100 percent shared housing units.

2. A "shared housing building" may include incidental commercial uses, provided that those commercial uses are otherwise allowable and are located only on the ground floor or the level of the shared housing building closest to the street or sidewalk of the shared housing building.

"Shared housing unit" means one or more habitable rooms, not within another dwelling unit, that includes a bathroom, sink, refrigerator, and microwave, is used for permanent residence, that meets the "minimum room area" specified in Section R304 of the California Residential Code (Part 2.5 of Title 24 of the California Code of Regulations), as may be amended from time to time, and complies with the definition of "guestroom" in Section R202 of the California Residential Code, as may be amended from time to time. If a local ordinance further restricts the attributes of a shared housing building beyond the requirements established in this section, the local definition shall apply to the extent that it does not conflict with the requirements of this section.

"Total units" or "total dwelling units" means a calculation of the number of units that:

1. Excludes a unit added by a density bonus awarded pursuant to this section or any local law granting a greater density bonus.

2. Includes a unit designated to satisfy an inclusionary zoning requirement.

For purposes of calculating a density bonus granted pursuant to this section for a shared housing building, "unit" means one shared housing unit and its pro rata share of associated common area facilities.

"Unobstructed access to a major transit stop" means a resident is able to access the major transit stop without encountering natural or constructed impediments. "Natural or constructed impediments" includes, but is not limited to, freeways, rivers, mountains, and bodies of water, but does not include residential structures, shopping centers, parking lots, or rails used for transit.

"Very low income unit" is defined as a unit with an affordable rent or payment that does not exceed 30 percent of 50 percent of the area median income, adjusted for family size appropriate for the unit.

"Very low income" or "very low income household" is defined as 50 percent of the area median income or less, as defined in Section 50105 of the California Health and Safety Code, as may be amended from time to time.

§ 19.28.030. Application requirements.

A density bonus may be approved pursuant to a request for approval of a density bonus, provided the request complies with the provisions of this chapter. Each application for a density bonus request shall be accompanied by the following:

A. A site plan that identifies all units in the project including the location of the affordable units and the bonus units.

B. A narrative briefly describing the housing development and shall include information on:

   1. The number of units permitted under the General Plan;

   2. The total number of units proposed in the project;

   3. The number of affordable and/or senior units;

   4. The number of bonus units requested based on the tables provided in Section 19.28.050 of this chapter;

   5. A breakdown of units proposed for very low, lower, and moderate income; senior citizen or other bonus-eligible housing type listed in this chapter, and/or market rate units; and

   6. Any requested incentive(s), including an explanation as to why the incentive(s) is required for the housing development.

C. Information indicating that appropriate and sufficient infrastructure capacity (water, sewer, roadway) and water supply is available to serve the bonus units.

~~D. A pro forma illustrating the financial need for the density bonus and/or any requested incentives. The information that shall be included is as follows:~~

~~1. The project pro forma shall include, but is not limited to: capital costs, operating expenses, return on investment, revenues, loan-to-value ratio and debt coverage ratio, any contribution provided by subsidy programs, and the economic effect created by the use and income restrictions of the affordable units;~~

~~2. An appraisal report indicating the value of the density bonus and any incentive(s) requested; and~~

~~3. A source and use of funds statement identifying any projected financing gap of the project. The developer shall establish how much of the gap is covered by the density bonus units, and how much will be covered by the requested incentive(s) and/or waiver(s).~~

~~E.~~D. Any such additional information in support of a request for a density bonus as may be requested by the Planning Division.

§ 19.28.040. Eligibility for bonus.

A developer of a housing development containing five or more units may qualify for a density bonus and at least one other incentive as provided by this chapter if the developer does one of the following:

A. Agrees to construct and maintain at least five percent of the units for rental or sale dedicated to very low income households (includes a shared housing building development, in which case minimum unit size or bedroom requirements shall not conflict with the definition of "shared housing building");

B. Agrees to construct and maintain at least 10% of the units for rental or sale dedicated to lower income households (includes a shared housing building development, in which case minimum unit size or bedroom requirements shall not conflict with the definition of "shared housing building");

C. Agrees to construct and maintain at least 10% of the units of a housing development to be sold to moderate income households, provided that all units in the development are offered to the public for purchase, consistent with **Government Code** Section 65915, as may be amended from time to time;

D. Agrees to construct and maintain a senior citizen housing development, as defined in Sections 51.3 and 51.12 of the California Civil Code, or a mobilehome park that limits residency based on age requirements for housing for older persons pursuant to Section 798.76 or 799.5 of the California **Civil Code**, as may be amended from time to time. For the purposes of this subparagraph, "development" includes a shared housing building development and a residential care facility for the elderly, as defined in Section 1569.2 of the Health and Safety Code;

E. Donates land to the City dedicated for the construction of very low income units pursuant to Section **19.28.080** of this chapter;

F. Includes a qualifying child care facility as described in Section **19.28.070** of this chapter in addition to providing housing as described in subsections **A** through **C** of this section;

G. Agrees to construct and maintain at least 10% of the units of a housing development for transitional foster youth, as defined in Section 66025.9 of the **California Education Code**, as may be amended from time to time, disabled veterans, as defined in Section 18541 of the California **Government Code**, as may be amended from time to time, or homeless persons, as defined in the Federal McKinney-Vento Homeless Assistance Act (42 U.S.C. Section 11301 et seq.), as may be amended from time to time, dedicated to very low income households;

H. Agrees to construct and maintain at least 20% of the units for lower income students in a student housing development pursuant to Section **19.28.085** of this chapter; or

I. Agrees to construct and maintain 100% of the units, including total units and density bonus units, but exclusive of a manager's unit or units, dedicated to lower income households, except that up to 20% of the units, including total units and density bonus units, may be dedicated to moderate income households (includes a shared housing building development).

§ 19.28.050. Density bonus calculation and allowance.

A. **State Law Preemption.** Pursuant to state law, the granting of a density bonus or the granting of a density bonus together with an incentive(s) shall not be interpreted, in and of itself, to require a General Plan amendment, specific plan amendment, rezone, or other discretionary approvals.

B. **Density Bonus Calculation.** An applicant must choose a density bonus from only one applicable affordability category in subsection C and may not combine categories with the exception of child care facilities or land donation, which may be combined with an affordable housing development.

C. **Density Bonus Allowance.** In calculating the number of units required for very low, lower and moderate income households, the density bonus units shall not be included. In no event shall a density bonus exceed 80 percent. A housing development that satisfies all applicable provisions of this chapter shall be allowed the following applicable density bonuses:

1. **Very Low Income.** The density bonus for very low income units shall be calculated as follows:

Percentage of Very Low-Income Units	Percentage Density Bonus
5	20
6	22.5

Percentage of Very Low-Income Units	Percentage Density Bonus
7	25
8	27.5
9	30
10	32.5
11	35
12	38.75
13	42.5
14	46.25
15	50

2. **Lower Income.** The density bonus for lower income units shall be calculated as follows:

Percentage of Lower Income Units	Percentage Density Bonus
10	20
11	21.5
12	23
13	24.5
14	26
15	27.5
16	29
17	30.5
18	32
19	33.5
20	35
21	38.75
22	42.5
23	46.25
24	50

3. **Moderate Income.** The density bonus for moderate income ownership units shall be calculated as follows:

Percentage of Moderate-Income Units	Percentage Density Bonus
10	5
11	6
12	7
13	8
14	9
15	10
16	11
17	12
18	13

22	17
23	18
24	19
25	20
26	21
27	22
28	23
29	24
30	25
31	26
32	27
33	28
34	29
35	30
36	31
37	32
38	33
39	34
40	35

Percentage of Moderate-Income Units	Percentage Density Bonus
41	38.75
42	42.5
43	46.25
44	50

4. **Senior Citizen Housing Development.** The density bonus for a senior citizen housing development that provides housing for seniors consistent with Section 19.28.040 of this chapter shall be 20 percent.

5. **Child Care Facility.** A project (whether a housing, commercial, or industrial project) is eligible for a density bonus for a child care facility when in compliance with Section 19.28.070 of this chapter and California Government Code Section 65917.5.

6. **Donation of Land.** A project is eligible for the following density bonus for the donation of land when in compliance with Section 19.28.080 of this chapter:

Percentage of Very Low-Income Units	Percentage Density Bonus
10	15
11	16
12	17
13	18
14	19
15	20
16	21
17	22
18	23
19	24
20	25
21	26
22	27
23	28
24	29
25	30
26	31

Percentage of Very Low-Income Units	Percentage Density Bonus
27	32
28	33
29	34
30	35

7. **Conversion of Apartments to Condominiums.** A project is eligible for a 25 percent density bonus for the conversion of apartments to condominiums when in compliance with California Government Code Section 65915.5

8. **Foster Youth, Disabled Veterans, and Homeless Persons.** The density bonus for a housing development for transitional foster youth, disabled veterans, or homeless persons shall be 20 percent.

9. **Students.** The density bonus for a student housing development that provides housing for students consistent with Section 19.28.085 of this chapter shall be 35 percent.

10. **One Hundred Percent Affordable.** The density bonus for a 100 percent affordable housing development consistent with Section 19.28.040(I) of this chapter shall be 80 percent of the number of units for lower income households. Except that, if the affordable housing development is located within one-half mile of a major transit stop, maximum density requirements shall not apply.

11. **Additional Density Bonus.** Projects qualifying for a density bonus pursuant to this chapter may also qualify for an additional bonus, if it meets all of the following eligibility criteria:

    a. No more than 50 percent of the housing development units shall be restricted to very low, lower, or moderate income households;

    b. The additional bonus shall include rental or for-sale units affordable to very low income households or moderate income households;

    c. The housing development conforms to any of the following:

        i. The housing development is consistent with Section 19.28.040(A) and provides 15 percent of the total units to very low income households,

        ii. The housing development is consistent with Section 19.28.040(B) and provides 24 percent of the total units to lower income households,

        iii. The housing development is consistent with Section 19.28.040(C) and provides 44 percent of the total units to moderate income households.

The additional density bonus calculation shall exclude any additional bonus units, and shall be calculated as follows:

Percentage of Very Low-Income Units	Percentage Density Bonus
5	20
6	23.75
7	27.5
8	31.25
9	35
10	38.75

11	35
12	38.75
13	42.5
14	46.25
15	50

§ 19.28.060. Eligibility and application requirements for incentives.

A. **Available Incentives.** A housing development qualifying for a density bonus may be entitled to at least one incentive. An incentive shall not result in a proposed project with a commercial floor area ratio that is greater than two and a half times the premises' current allowed base zone commercial floor area ratio. Incentives may include, but are not limited to:

1. A reduction in site development standards such as:

   a. Reduced minimum lot sizes and/or dimensions.

   b. Reduced minimum lot setbacks.

   c. Reduced minimum outdoor and/or private outdoor living area.

   d. Increased maximum lot coverage.

e. Increased maximum building height and/or stories.

f. Reduced on-site parking requirements.

g. Reduced street standards.

2. A reduction in architectural design requirements.

3. A density bonus greater than the amount required by this chapter.

4. Other regulatory incentives proposed by the developer or the City, which result in identifiable, financially sufficient, and actual cost reductions.

B. **Parking Requirements.** If an applicant qualifies for a density bonus pursuant to this chapter, the applicant may request, in addition to any requested incentive(s), that reduced parking requirements be applied to the project in place of the City's current parking requirements. The parking requirement is inclusive of accessible and guest parking for the entire housing development, but shall not include on-street parking spaces in the count towards the parking requirement. The housing development may provide on-site parking through tandem or uncovered parking, but not through on-street parking. In calculating the number of parking spaces required for a development, if the total number of parking spaces is other than a whole number, the number shall be rounded up to the next whole number.

1. Except as otherwise provided in this subsection, the following parking requirements shall apply:

a. One bedspace in a student housing development, as defined by Section 65915 of the Government Code, as may be amended from time to time: zero parking spaces.

b. Zero to one bedroom: one on-site parking space.

c. Two to three bedrooms: one and one-half on-site parking spaces.

d. Four or more bedrooms: two and one-half on-site parking spaces.

2. If the housing development includes at least 20% lower income units or at least 11% very low income units, is located within one-half mile of a major transit stop, and there is unobstructed access to the major transit stop from the development, then the parking requirement shall be one-half on-site parking space per unit.

3. If a housing development consists solely of rental units, exclusive of a manager's unit or units, with an affordable housing cost to lower income families, as provided in Section 50052.5 of the California **Health and Safety Code** as may be amended from time to time, then no parking spaces shall be required as long as the development meets either of the following criteria:

a. The development is located within one-half mile of a major transit stop and there is unobstructed access to the major transit stop from the

development; or

b. The development is a for-rent housing development for individuals who are 62 years of age or older that complies with Sections 51.2 and 51.3 of the California **Civil Code** as may be amended from time to time, and the development has either paratransit service or unobstructed access, within one-half mile, to fixed bus route service that operates at least eight times per day.

4. If a housing development consists solely of rental units, exclusive of a manager's unit or units, with an affordable housing cost to lower income families, as provided in Section 50052.5 of the California **Health and Safety Code,** as may be amended from time to time, and the development is either a special needs housing development, as defined in Section 51312 of the California **Health and Safety Code,** as may be amended from time to time, or a supportive housing development, as defined in Section 50675.14 of the California Health and Safety Code, as may be amended from time to time, then no parking spaces shall be required. A development that is a special needs housing development shall have either paratransit service or unobstructed access, within one-half mile, to fixed bus route service that operates at least eight times per day.

5. Upon the request of the developer, the parking requirement (inclusive of parking for persons with a disability and guests) shall be 0.5 spaces per bedroom if all of the following are met:

   a. The housing development includes at least 40% moderate income units and at least 10% of the units of the housing development are sold to moderate income households, provided that all units in the development are offered to the public for purchase; and

   b. The housing development is located within one-half mile of a major transit stop, as defined in **Public Resources Code** Section 21155(b), as may be amended from time to time; and

   c. The residents of the development have unobstructed access to the major transit stop from the development.

C. **Eligibility for Incentives.** Incentives are available to a housing developer as follows:

1. One incentive for housing developments that: (a) restrict at least 10% of the total units to lower income households, at least five percent for very low income households, or at least 10% for persons and families of moderate income in a development in which the units are for sale; or (b) are for senior housing.

2. Once incentive or concession for projects that include at least 20% of the total units for lower income students in a student housing development. If a project includes at least 23% of the total units for lower income students in a student

housing project, the applicant shall instead receive two incentives or concessions.

3. Two incentives for housing developments that restrict at least 17% of the total units to lower income households, at least 10% for very low income households, or at least 20% for persons and families of moderate income in a development in which the units are for sale.

4. Three incentives for housing developments that restrict at least 24% of the total units for lower income households, at least 15% for very low income households, or at least 30% for persons and families of moderate income in a development in which the units are for sale.

5. Five incentives for housing developments that restrict 100% of the units, including total units and density bonus units, but exclusive of a manager's unit or units, dedicated to lower income households, except that up to 20% of the units, including total units and density bonus units, may be dedicated to moderate income households. If the project is located within one-half mile of a major transit stop, the applicant shall also receive a height increase of up to three additional stories, or 33 feet.

6. One incentive for projects that include at least 20% of the total units for lower income students in a student housing development.

7. Four incentives for projects that include at least 16% of the units for very low income households or at least 45% for persons and families of moderate income in a development in which the units are for sale.

~~7.~~8. The City is not required to grant a concession or incentive requiring approval of, or to waive or reduce development standards otherwise applicable to, a hotel, motel, bed and breakfast inn, or other transient lodging, other than a residential hotel, as defined in Section 50519 of the Health and Safety Code, as may be amended from time to time, as part of a housing development subject to this section. For purposes of this paragraph, "other transient lodging" does not include a resident's use or marketing of their unit as short-term lodging, as defined in Section 17568.8 of the Business and Professions Code, as may be amended from time to time, subsequent to the issuance of a certificate of occupancy in a manner otherwise consistent with local law.

§ 19.28.070. Child care facilities.

A. **Child Care Facility Density Bonus.** When an applicant proposes to construct a housing development that is eligible for a density bonus under Section 19.28.040 of this chapter and California Government Code Section 65917.5, and includes a child care facility that will be located on the premises or adjacent to the housing development, the City shall grant either:

1. An additional density bonus that is an amount of square feet of residential space that is equal to or greater than the square footage of the child care facility; or

2. An additional incentive that contributes significantly to the economic feasibility of the construction of the child care facility.

B. **Child Care Facility Requirements.** The City shall require, as a condition of

approving the housing development, that the following occur:

1. The child care facility shall remain in operation for a period of time that is as long as or longer than the period of time during which the affordable units are

required to remain affordable per this chapter; and

2. Of the children who attend the child care facility, the children of very low income households, lower income households or families of moderate income households shall equal a percentage that is equal to or greater than the percentage of affordable units in the housing development that are required for very low, lower or families of moderate income households.

C. **Child Care Facility Criteria.** The City shall not be required to provide a density bonus or incentive for a child care facility if it finds, based upon substantial evidence, that the community has adequate child care facilities.

§ 19.28.080. Donation of land.

A. **Donation of Land Density Bonus.** When a developer of a tentative subdivision map, parcel map, or other residential development donates land to the City, the developer shall be entitled to a density bonus above the otherwise maximum allowable residential density, up to a maximum of 35 percent depending on the amount of land donated (see Section 19.28.050 of this chapter). This increase shall be in addition to any increase in density permitted by Section 19.28.040 of this chapter up to a maximum combined density increase of 35 percent if an applicant seeks both the increase required by Section 19.28.040 and this section of this chapter.

B. The developer shall be eligible for the density bonus for the donation of land, if all of the following conditions are met:

1. The developer shall donate and transfer land no later than the date of approval of the final subdivision map, parcel map, or residential development application.

2. The developable acreage and zoning classification of the land being transferred are sufficient to permit construction of units affordable to very low income households in the amount not less than 10 percent of the residential units in the proposed development.

3. The transferred land is at least one acre in size or of sufficient size to permit development of at least 40 units, has the appropriate general plan designation, is appropriately zoned for development as affordable housing, and is or will be served by adequate public facilities and infrastructure. The transferred land shall have appropriate zoning and development standards to make the development of the affordable units feasible. No later than the date of approval of the final subdivision map, parcel map, or of the residential development, the transferred land shall have all of the permits and approvals, other than building permits, necessary for the development of the very low income units on the transferred land, except that the City may subject the proposed development to subsequent design review if the design is not reviewed by the local government prior to the time of transfer.

4. The transferred land and the affordable units shall be subject to a deed restriction ensuring continued affordability of the units consistent with Section 19.28.110 of this chapter if required by financing programs or subsidy programs. The deed restriction shall also prohibit short-term rentals.

5. The land is transferred to the City or to a housing developer approved by the City. The City may require the developer to identify and transfer the land to the affordable housing developer.

6. The transferred land shall be within the boundary of the proposed development or, if the City determines appropriate, within one-quarter mile of the boundary of the proposed development.

7. A proposed source of funding for the very low income units shall be identified no later than the date of approval of the final subdivision map, parcel map, or residential development application.

§ 19.28.085. Student housing.

A. **Student Housing Density Bonus Requirements.** In order for a student housing development to be eligible for a density bonus under Section 19.28.040 of this chapter, the student housing development must meet the following requirements:

1. All units in the student housing development shall be used exclusively for undergraduate, graduate, or professional students enrolled full time at an institution of higher education accredited by the Western Association of Schools and Colleges or the Accrediting Commission for Community and Junior Colleges. The developer shall, as a condition of receiving a certificate of occupancy, provide evidence to the City that the developer has entered into an operating agreement or master lease with one or more institutions of higher education for the institution or institutions to occupy all units of the student housing development with students from that institution or institutions.

2. The applicable 20% units shall be used for lower income students. For purposes of this clause, "lower income students" means students who have a household income and asset level that does not exceed the level for Cal Grant A or Cal Grant B award recipients as set forth in paragraph (1) of subdivision (k) of Section 69432.7 of the California **Education Code.**

3. The rent provided in the applicable units of the development for lower income students shall be calculated at 30% of 65% of the area median income for a single-room occupancy unit type.

4. The development shall provide priority for the applicable affordable units for lower income students experiencing homelessness.

5. For student housing developments that meet the aforementioned criteria, the density bonus shall be 35% of the student housing units.

B. **Definition of Units.** For purposes of calculating a density bonus granted for a student housing development, the term "unit" means one rental bed and its pro rata share of associated common area facilities.

§ 19.28.090. General guidelines.

A. **Location of Bonus Units.** As required by California Government Code Section 65915(i), the location of density bonus units within the qualifying housing development may be at the discretion of the developer, and need not be in the same area of the project where the units for the lower income households are located as long as the density bonus units are located within the same housing development.

B. **Preliminary Review.** A developer may submit to the Planning Division a preliminary proposal for the development of housing pursuant to this chapter prior to the submittal of any formal application for a density bonus. The City shall, within 90 days of receipt of a written proposal, notify the housing developer in writing of either: (1) any specific requirements or procedures under this chapter, which the proposal has not met; or (2) the proposal is sufficient for preparation of an application for density bonus.

C. **Infrastructure and Supply Capacity.** Criteria to be considered in analyzing the requested bonus will include the availability and capacity of infrastructure (water, sewer, road capacity, etc.) and water supply to accommodate the additional density.

§ 19.28.100. Findings for approval for density bonus and/or incentive(s).

A. **Density Bonus Approval.** The following finding shall be made by the Approving Authority in order to approve a density bonus request:

1. The density bonus request meets the requirements of this chapter.

B. **Density Bonus Approval with Incentive(s).** The following findings shall be made by the Approving Authority in order to approve a density bonus and incentive(s) request:

1. The density bonus request meets the requirements of this chapter;

2. The incentive is required in order to provide affordable housing; and

3. Approval of the incentive(s) will have no specific adverse impacts upon health, safety or on any real property that is listed in the California Register of Historical Resources and for which there is no feasible method to satisfactorily mitigate or avoid the specific adverse impact without rendering the development unaffordable to very low, low, and moderate income households.

C. **Denial of a Request for an Incentive(s).** The Approving Authority shall make the following findings prior to disallowing an incentive (in the case where an accompanying density bonus may be approved, or in the case of where an

incentive(s) is requested for senior housing or child care facility):

1. That the incentive is not necessary in order to provide for affordable housing costs as defined in Section 19.28.020 of this chapter, or for rents for the targeted units to be set as specified in Section 19.28.020 of this chapter.

2. That the incentive would result in specific adverse impacts upon health, safety or on any real property that is listed in the California Register of Historical Resources and for which there is no feasible method to satisfactorily mitigate or avoid the specific adverse impact without rendering the development unaffordable to very low, low, and moderate income households.

3. That the incentive would be contrary to State or Federal law.

§ 19.28.110. Affordable housing agreement required.

A. **Agreement Required.** In approving a density bonus, the associated permit or tentative map shall require that an affordable housing agreement, or other form of agreement as approved by the City Attorney, effectuating the terms of affordability of the development be executed prior to effectuation of the permit or recordation of the final map.

B. **Continued Availability.** The density bonus request shall include the procedures proposed by the developer to maintain the continued affordability of all affordable income density bonus units and shall be evidenced by an affordable housing agreement as follows:

1. An applicant shall agree to, and the City shall ensure, continued affordability of all very low and low income units that qualified the applicant for the award of the density bonus for 55 years or a longer period of time if required by the construction or mortgage financing assistance program, mortgage insurance program, or rental subsidy program. Rents for the lower income density bonus units shall be set at an affordable rent as defined in Section 19.28.020 of this chapter. Owner-occupied units shall be available at an affordable housing cost as defined in Section 19.28.020 of this chapter.

2. An applicant shall agree to, and the City shall ensure that, the initial occupants of the moderate income units are directly related to the receipt of the density bonus in the common interest development as defined in Section 4100 of the California Civil Code, are persons and families of moderate income, as defined in Section 19.28.020 of this chapter and that the units are offered at an affordable housing cost, as that cost is defined in Section 19.28.020 of this chapter. The City shall enforce an equity-sharing agreement unless it is in conflict with the requirements of another public funding source or law. The following apply to the equity-sharing agreement:

a. Upon resale, the seller of the unit shall retain the value of any improvements, the down payment, and the seller's proportionate share of

appreciation. The City shall recapture any initial subsidy and its proportionate share of appreciation, which shall then be used within five years for any of the purposes described in subdivision (e) of Section 33334.2 of the California Health and Safety Code, as may be amended from time to time, that promote homeownership.

b. For purposes of this subsection, the City's initial subsidy shall be equal to the fair market value of the home at the time of initial sale minus the initial sale price to the moderate-income household plus the amount of any down payment assistance or mortgage assistance. If upon resale the market value is lower than the initial market value, then the value at the time of the resale shall be used as the initial market value.

c. For purposes of this subsection, the City's proportionate share of appreciation shall be equal to the ratio of the initial subsidy to the fair market value of the home at the time of initial sale.

C. **Specialty Units.** In approving a density bonus for units for transitional foster youth, disabled veterans, homeless persons, and students, the associated permit or tentative map shall require that an affordable housing agreement, or other form of agreement as approved by the City Attorney, effectuating the terms of affordability of the development for 55 years be executed prior to effectuation of the permit or recordation of the final map. In addition, for units for transitional foster youth, disabled veterans and homeless persons, the units shall be provided at the same affordability level as very low income units.

ITEM 6.1: ORDINANCE AMENDMENT – CITYWIDE – ZONING AND SUBDIVISION ORDINANCE LEGISLATIVE UPDATE 2026 – PL26-0088

REQUEST

The project is an annual update to the Roseville Municipal Code Title 18 (Subdivision Ordinance) and Title 19 (Zoning Ordinance) in response to state legislation passed in 2025 and to make minor corrections and maintenance updates. The project includes amendments to the following Zoning Ordinance sections: Section 19.10.020 (Residential Zone Permitted Use Types) to add footnotes specifying that a Daycare is a principally permitted residential use of property when collocated with multifamily housing; Section 19.12.020 (Commercial Zone Permitted Use Types) to add footnotes clarifying language regarding allocation of residential units within specific and master plans; and Chapter 19.28 (Residential Density Bonus) to incorporate changes to residential density bonuses per changes to state law, as well as remove a requirement for a pro forma to obtain a density bonus. The project also includes amendments to the following Subdivision Ordinance sections: Chapter 18.05 (Tentative Map Applications – Ministerial) to rename the Ministerial Multifamily Maps section and to reflect changes in state law regarding remainder parcels and sales of parcels that have been subdivided using the process.

Applicant – City of Roseville

SUMMARY RECOMMENDATION

The Planning Division recommends the Planning Commission take the following actions:

1. Consider the two (2) findings of fact and recommend City Council approve the Ordinance Amendment to Title 19 of the Roseville Municipal Code.
2. Review and comment on the Ordinance Amendment to Title 18 of the Roseville Municipal Code.

SUMMARY OF OUTSTANDING ISSUES

There are no outstanding issues associated with this request.

BACKGROUND

Each year, staff reviews the Zoning Ordinance to identify needed maintenance updates, including updates needed in response to legislation. The proposed updates identified for this annual update are relatively minor, and consist of the following changes (see Exhibit A and Exhibit B):

- **Section 19.10.020 (Residential Zone Permitted Use Types)**: Pursuant to AB 752, this update adds a footnote specifying that a daycare center is a principally permitted use of property when co-located with multifamily housing.

- **Section 19.12.020 (Commercial Zone Permitted Use Types)**: This update adds a footnote clarifying that any residential units can be permitted in a commercial zone with a Conditional Use Permit if the units have been allocated within the specific plan *or master plan* (e.g. Campus Oaks Master Plan). It also adds a footnote clearly stating the minimum density of 25 units per acre for any multifamily units that are permitted by right in the Regional Commercial (RC) zone.

- **Chapter 19.28 (Residential Density Bonus)**: Pursuant to AB 87, SB 92, and SB 838, updates to the Density Bonus section include the following: redefining “mixed-use developments,” and stating they may not include lodging; and that deed restrictions on mixed-use developments must

prohibit short rentals. Additionally, the City is removing its language requiring a Pro Forma to qualify for a density bonus. A Pro Forma is a financial document that explains the sources of income and expenses and is used to determine whether a housing project is fiscally viable. A Pro Forma used to be required in order to demonstrate that a density bonus was financially necessary but consistent with existing case law, the City has not enforced the Pro Forma requirement of the ordinance for a decade or more. As part of renewing Prohousing Designation, the California Department of Housing and Community Development requested the City delete this obsolete section of the Ordinance.

- **Chapter 18.05 (Tentative Map Applications – Ministerial)**: Pursuant to AB 130, this update includes several changes to the ministerial multifamily map section. First, it allows developers to designate a "remainder parcel" that does not count towards the 10-parcel limit for small-scale subdivisions, provided it does not contain new residential development and is dedicated to servicing the housing project. Secondly, the law specifies that parcels in these subdivisions cannot be sold, leased, or financed unless they contain a new compliant residential unit, an existing legal structure, are designated for common area/open space, or are the last remaining parcel in the subdivision. Finally, the section is being renamed from “Ministerial Multifamily Map” to “Ministerial 10-Lot Map” to reflect the fact that the amendments apply to projects in both single-family and multifamily zone districts.

EVALUATION

Section 19.86.050 of the City of Roseville Zoning Ordinance requires two findings be made in order to approve a zoning ordinance amendment. The two findings are listed below in ***italicized, bold*** text and are followed by an evaluation of the project in relation to the findings. There is no advisory body for Title 18, so staff is requesting the Planning Commission review and comment on changes to Title 18 and will pass those comments on to City Council.

1. ***The project is consistent with the public interest, health, safety, or welfare of the City.***

2. ***The project is consistent with the General Plan and any applicable specific plan of the City of Roseville.***

The proposed changes to the Zoning and Subdivision Ordinance are to bring the City’s regulations into consistency with enacted state law and to make other needed maintenance updates. Annual maintenance updates ensure a clear set of regulations for both the public and for City staff. For these reasons, staff finds that the project is consistent with the public interest, health, safety, or welfare of the City and that the project is consistent with the General Plan and applicable Specific Plans.

PUBLIC OUTREACH

Staff discussed the proposed amendments at the Roseville Coalition of Neighborhood Associations (RCONA) General Board meeting of March 19, 2026. RCONA Board members did not have any questions on the subject amendments. To date, no additional comments or concerns have been received.

Consistent with noticing requirements for a citywide project a public hearing notice was published in the Press Tribune and was posted on the RCONA website.

ENVIRONMENTAL DETERMINATION

The proposed Zoning Ordinance and Subdivision Ordinance amendments are policy and procedure-making activities, and the California Environmental Quality Act (CEQA) only applies to projects which

have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)).

RECOMMENDATION

The Planning Division recommends the Planning Commission take the following actions:

A. Consider the findings of fact as stated in the staff report and recommend City Council approve the **Title 19 ORDINANCE AMENDMENT – CITYWIDE – ZONING AND SUBDIVISION ORDINANCE LEGISLATIVE UPDATE 2026 – PL26-0088**.

B. Review and comment on the **Title 18 ORDINANCE AMENDMENT – CITYWIDE – ZONING AND SUBDIVISION ORDINANCE LEGISLATIVE UPDATE 2026 – PL26-0088**.

Exhibits

A. Subdivision Ordinance (RMC 18.05)
B. Zoning Ordinance Redlines (RMC 19.10, 19.12 and 19.28)

Note to Applicant and/or Developer: Please contact the Planning Division staff at (916) 774-5276 prior to the Commission meeting if you have any questions on any of the recommended conditions for your project. If you challenge the decision of the Commission in court, you may be limited to raising only those issues which you or someone else raised at the public hearing held for this project, or in written correspondence delivered to the Planning Manager at, or prior to, the public hearing.

Title:	WB-30 Phase 1 Senior Affordable Rental Housing Project - Fee Deferrals and Government Financing Agreement
Contact:	Gina McColl 916-774-5452 gmccoll@roseville.ca.us

SUMMARY

Staff recommends approval of an extended fee deferral for an affordable housing project, adopting a fee deferral of parks fees, approving a government financing agreement and granting authority for the City Manager to execute it and all necessary documents. Staff requests an extended fee deferral in the amount of approximately $2,704,246, a fee deferral in the amount of approximately $1,188,225, and approval of a Government Financing Agreement and granting authority for City Manager to execute it and all necessary documents to effectuate its purpose for the Phase 1 of Sierra Vista Specific Plan (SVSP) WB-30 Sierra Vista Senior Affordable Rental Housing Project (a.k.a. The Riviera at Roseville West). Approval of the fee deferrals has no impact on the City's General Fund.

RECOMMENDATION

Staff recommends that the City Council adopt resolutions to:

1. Approve an extended fee deferral in the amount of approximately $2,704,246, plus interest;
2. Approve a fee deferral of parks impact fees in the amount of $1,188,225, plus interest; and
3. Approve a Government Financing Agreement and authorize the City Manager to execute it and all necessary documents on behalf of the City to effectuate its purpose for the Phase 1 of SVSP WB-30 Sierra Vista Senior Affordable Rental Housing project located at 3380 Pleasant Grove Boulevard.

BACKGROUND

This staff report shall serve as the economic development subsidy summary report pursuant to California Government Code Section 53083. The City of Roseville offers a fee deferral program through the Economic Development Department as an incentive to encourage development. Recently, with a goal of incentivizing affordable housing developments, City Council adopted an ordinance amending Section 4.04.040 of the Roseville Municipal Code to allow extended fee deferrals for affordable housing projects that meet the following requirements:

1. Projects shall consist of 100 percent affordable units (except manager units);
2. Projects shall comply with the City's Objective Design Standards;
3. Property owners shall agree to enter into an Affordable Housing Rental Agreement;
4. Property owners shall agree to enter into a promissory note for the deferred fee amount that is secured by a deed of trust and/or other acceptable security interest; and
5. Applicants shall follow all other requirements of Section 4.04.040, including paying a fee and

interest.

On August 13, 2025, Pine Island Apartments LLC, with a principal address at 445 Central Ave., Suite 200, Highland Park, IL 60036, through its project representative Ten South Construction, LLC, submitted a request for an extended fee deferral of City-controlled development impact fees for a 355-unit affordable apartment complex with a total fee deferral amount of approximately $4,232,551 (see attached application). The applicant now intends to phase out the project. Phase 1 consists of 225 low-income rental units within three 64-unit apartment buildings plus a clubhouse/apartment building. Phase 2 will consist of 128 units and will be submitted at a later date.

The City reviewed the current request and determined that one of the City-controlled fees (typically associated with the standard fee deferral process) did not qualify for the extended deferral program. As such, the applicant is now requesting two separate fee deferrals for Phase 1: (1) an extended fee deferral for other approved City fees totaling $2,704,246, plus interest, due no later than one year past issuance of a certificate of occupancy or three years past issuance of the first building permit, whichever is earlier, and (2) a standard fee deferral of park development fees totaling $1,188,225, plus interest, due at issuance of a Certificate of Occupancy. The application for the standard fee deferral is also attached.

In addition to the deferral noted above, a Government Financing Agreement has been prepared to memorialize the developer's commitment to meet the obligations under the Roseville Municipal Code and in the promissory note, consistent with the terms of the extended fee deferral program.

EVALUATION

The SVSP WB-30 Sierra Vista Senior Affordable Rental Housing development (aka. The Riviera at Roseville West) is proposed at 3380 Pleasant Grove Boulevard. As shown on the attached plans, the project includes construction of 355-unit affordable apartment complex (353 low-income senior units and two (2) manager units) within six buildings, with a community room, fitness center, and outdoor community area on 8.06 acres. The project meets the criteria for an affordable housing project, as it provides 100 percent of the units (except manager units) as affordable units for low income. The project has already been deemed to comply with the City's Objective Design Standards as outlined in the approved Planning entitlement issued on January 11, 2024 (PL22-0396). The Affordable Rental Housing Agreement will memorialize the commitment for the project to be 100% affordable and will appear as a separate Council action item presented by the City's Housing Division. Phase 1 of the project will consist of 225 units within four buildings on 6.035-acre Lot 1.

The City finds that the public purpose of this fee deferral is to promote the general welfare of the City and its residents by creating new jobs, expanding the range and diversity of its affordable housing, and assisting the City with its state-required Regional Housing Needs Allocation (RHNA). This fee deferral is consistent with and in furtherance of the City's Economic Development Strategy and will serve to generate increased sales tax revenue, special taxes to fund Community Facilities Districts, and job creation during construction and beyond, though exact numbers are unknown at this time.

Fee estimates have been prepared for the various buildings/building permits for Phase 1 of WB-30 Sierra Vista Senior Affordable Rental Housing project, based on the fees for Fiscal Year 2025-26. Only City-controlled impact fees are eligible for deferral. The eligible fee types and amounts are identified below:

Deferrable Fees	**Clubhouse**	**64-unit Bldgs***	
Fire Service Construction Fee	$ 24,453.76	$ 38,290.54	
Public Facilities Fee (apartments)	$ 78,540.00	$ 152,320.00	
Local Sewer Fee (apartments)	$ 15,180.00	$ 29,440.00	
Local Sewer Fee (clubhouse)	$ 3,482.20		
Water Connection Fee - Domestic	$ 167,442.00	$ 324,736.00	
Drainage Fees (Pleasant Grove Creek)	$ 17,523.33	$ 33,984.64	
Traffic Mitigation Fee	$ 48,866.40	$ 94,771.20	
Public Benefit Fee	$ 27,885.00	$ 54,080.00	
Solid Waste Fee (apartments)	$ 4,587.00	$ 8,896.00	
Solid Waste Fee (clubhouse)	$ 3,859.00		
Electric Backbone Fee (apartments)	$ 14,248.74	$ 27,633.92	
Electric Backbone Fee Three Phase (clubhouse)	$ 5,721.61		
Total Fees per Building	**$ 411,789.04**	**$ 764,152.30**	
TOTAL	**$ 411,789.04**	**$ 2,292,456.89**	**$2,704,245.93**

*three buildings with 64 units

As shown above, the total eligible fee deferral for the Phase 1 project (inclusive of the clubhouse and three

apartment buildings) totals approximately $2,704,246. The request is to allow these fees to be deferred for a maximum of one year past issuance of a certificate of occupancy or three years past issuance of the first building permit, whichever is earlier. The list of fees eligible for deferral has been vetted by the applicable City Departments and only those determined to have no impact to the budget have been included. In an effort to cover lost interest resulting from the fee deferral, there is an interest charge equal to the current market rate (at 5%, as noted in the attached agreements) that will be paid upon payment of the deferred fees. The Roseville Municipal Code (RMC) additionally identifies an administrative processing fee of $1,500 to be charged per building permit to cover staff's time of processing and tracking this request.

As noted, an additional deferral is requested for parks development impact fees. While parks fees are typically included on the list of fees eligible for deferral, it was determined during the review process of the requested extended fee deferral that these fees are needed more urgently and therefore would not qualify for the extended fee program. A separate action is therefore requested to allow the following parks fees to be deferred through the standard fee deferral process for multi-family projects. The parks development impact fees are as follows:

Deferrable Fees	**Clubhouse**	**64-unit Bldgs***	
Citywide Parks	$ 61,446.00	$ 119,168.00	
Neighborhood Parks	$ 65,538.00	$ 127,104.00	
Citywide In-Lieu	$ 42,735.00	$ 82,880.00	
Neighborhood In-Lieu	$ 4,554.00	$ 8,832.00	
Total Fees per Building	$ 174,273.00	$ 337,984.00	
TOTAL	$ 174,273.00	$ 1,013,952.00	**$ 1,188,225.00**

*three buildings with 64-units

This standard fee deferral would allow the $1,188,225 in parks development fees to be deferred to building permit final/certificate of occupancy. Interest equivalent to the City's pooled interest rate plus an administrative fee would be charged for the deferred fees. The City's Parks Recreation and Libraries Department has reviewed this request and is supportive.

Pursuant to RMC Section 4.04.040, all multi-family residential fee deferrals greater than $100,000 dollars are required to be approved by the City Council. Additionally, as mentioned above, extended fee deferrals for affordable housing projects are required to enter into a promissory note for the deferred fee amount

that is secured by a deed of trust and/or other acceptable security interest. The promissory note is signed by the developer to acknowledge their commitment to meeting the obligations for payment of fees and securing a deed of trust. To memorialize the developer's commitment to meet the obligations outlined in the promissory note, a Government Financing Agreement has been prepared (with the promissory note included as Exhibit C to the agreement).

The Government Financing Agreement is meant to ensure compliance with RMC Section 4.04.040. Council is requested to adopt a resolution approving the attached Government Financing Agreement and granting authority for City Manager to execute it and all necessary documents to effectuate its purpose for the Phase 1 of SVSP WB-30 Sierra Vista Senior Affordable Rental Housing Project at 3380 Pleasant Grove Boulevard.

FISCAL IMPACT

The requested deferrals will not result in a negative impact to the City's General Fund or the affected development impact fee programs. Administrative fees equivalent to staff's time necessary to process and track the deferrals will be charged to each associated building permit and interest will be charged on all monies deferred. Furthermore, the City's fee deferral program is an important economic development tool that facilitates new development that may not otherwise be financially feasible without this program. As a result, this program has the potential to catalyze investment that directly increases property values and results in temporary construction jobs and permanent full and part time jobs. This project is estimated to generate approximately $28,000 to $40,000 annually in local sales-tax revenue, with minimal additional property-tax revenue anticipated if the developer applies for the welfare exemption. The project is further expected to support approximately 350 construction-related jobs during the build period and 1–4 permanent on-site jobs thereafter. Additionally, this project will assist the City in meeting RHNA obligations.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15061(c)(3) and §15378. These fee deferrals and financing agreement meet the above criteria and are not subject to CEQA. No additional environmental review is required.

Commercial & Multi-Family Development Impact Fee Deferral Application

Impact Fee Deferral Program

The Impact Fee Deferral Program allows applicants to defer the payment of City controlled impact fees for new commercial & multi-family development and building expansions.

Please contact the Building Division at (916) 774-5332 prior to submitting this deferral application to obtain a fee estimate and verify the program requirements related to your project. Where deferred fees are estimated to be $99,999 or less, the Development Services Department may approve the deferral administratively. Where deferred fees are estimated to be $100,000 or more, please contact the Economic Development Department at (916) 774-5362 as City Council approval will be required. At time of submittal, please provide a copy of your fee estimate and, if applicable, a copy of the Resolution approved by Council with this completed application.

Payment of all deferred fees will be required prior to final inspection or issuance of a Certificate of Occupancy. To utilize the program, a processing charge of $975.00 will be collected at the time of permit issuance, along with an associated 3% technology fee, totaling $1,004.25. In addition, a supplemental fee totaling the City's pooled interest rate ten year average will be collected prior to final inspection to cover the financing costs of monies deferred.

By completing and signing this form you hereby agree to the program requirements, processing charge and supplemental fee, as outlined above and in Roseville Municipal Code Section 4.04.

Affordable Housing Project Development Impact Extended Fee Deferral Application

Development Impact Fee Deferral Program

The Development Impact Fee Deferral Program allows applicants to defer the payment of City controlled impact fees for new affordable housing projects consistent with RMC Section 4.04.040(E).

Please contact the Building Division at (916) 774-5332 prior to submitting this deferral application to obtain a fee estimate and verify the program requirements related to your project. Additionally, where deferred fees are estimated to be $100,000 or more, please contact the Economic Development Department at (916) 774-5362 as City Council approval will be required. At time of submittal, please provide a copy of your fee estimate.

Payment of all deferred fees will be required no later than the earlier of: 1) one (1) year after the issuance of the first certificate of occupancy, or first final approval of a building permit if no certificate of occupancy is required, or 2) three (3) years after the issuance of the first building permit. To utilize the program, an administrative fee as established by resolution and adopted by City Council will be collected at the time of permit issuance, along with an associated 3% technology fee. Additionally, an agreement, promissory note, and deed of trust must be provided to secure the payment of the deferred fees. In addition, the city's lost interest income on deferred fees will be collected prior to final inspection to cover the financing costs of monies deferred.

By completing and signing this form you hereby agree to the program requirements, processing charge and supplemental fee, as outlined above and in Roseville Municipal Code Section 4.04.

RESOLUTION NO. 26-252

APPROVING A FEE DEFERRAL FOR THE WB-30 PHASE 1 SENIOR AFFORDABLE HOUSING PROJECT

WHEREAS, the City of Roseville has offered a fee deferral program through the Economic Development Department since the mid 1990's to encourage development; and

WHEREAS, the Economic Development Department received a request from Pine Island Apartments, LLC, requesting a fee deferral of certain development impact fees; and

WHEREAS, the fee deferral program and California Government Code Section 53083 require City Council approval, and the program requires that the deferred fees be paid prior to the earlier of one year past issuance of a Certificate of Occupancy or three years past issuance of first building permit; and

WHEREAS, on June 17, 2026, the City Council for the City of Roseville held a public hearing, pursuant to California Government Code Section 53083, on a fee deferral for the WB-30 Phase 1 Senior Affordable Housing project with Pine Island Apartments, LLC; and

WHEREAS, staff recommends City Council approve the City fee deferral to development impact fees until final of building permit/building occupancy of approximately $2,704,246, plus interest, for the WB-30 Phase 1 Senior Affordable Housing project; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville after holding a public hearing that the City fee deferral to final of building permit/building occupancy in the approximate amount of $2,704,246, plus interest, for the WB-30 Phase 1 Senior Affordable Housing project is hereby approved.

CITY OF ROSEVILLE GOVERNMENT FINANCING AGREEMENT

(Project: SVSP WB-30 Phase 1 Development Impact Fee)

THIS GOVERNMENT FINANCING AGREEMENT ("Agreement") is made and entered into this ___ day of _____, 2026, by and between the City of Roseville, a municipal corporation ("City"), and Pine Island Apartments, LLC, an Indiana limited liability company, including its agents, officers, employees, volunteers, independent contractors, and subcontractors ("Developer"); and

RECITALS:

A. WHEREAS, Developer is the owner of that certain property in the City of Roseville located at 3380 Pleasant Grove Blvd., commonly known as SVSP WB-30 Phase 1, and more particularly described in Exhibit "A" hereto (the "Property"); and

B. WHEREAS, Developer agrees to develop, open, and operate an affordable housing project on the Property consisting of approximately 225 low-income rental units ("Affordable Project"); and

C. WHEREAS, the City of Roseville facilitates the payment of certain Development Impact Fee by delivery of a secured promissory note as described in Section 6 below ("Fee Obligation Program") as an incentive to encourage certain development, including specifically affordable housing projects, such as the Affordable Project. The Fee Obligation Program allows payment of certain City development impact fees as described herein; and

D. WHEREAS, Roseville Municipal Code § 4.04.040 allows the payment of certain development impact fees for an affordable housing project (as defined by Roseville Municipal Code § 4.04.040(E)) by secured promissory note payable on a date after the issuance of a certificate of occupancy, or final approval of a building permit if no certificate of occupancy is

required, but in no event later than the earlier of: 1) one (1) year after the issuance of the first certificate of occupancy for the Affordable Project or first final approval of a building permit if no certificate of occupancy is required for the Affordable Project; or 2) three (3) years after the issuance of the first building permit for the Affordable Project; and

E. WHEREAS, Developer is proposing the Affordable Project on the Property which meets the criteria of the Fee Obligation Program and has requested, and the City has agreed to allow, payment by secured promissory note, subject to the terms and conditions set forth herein and the provisions of Roseville Municipal Code § 4.04.040; and

G. WHEREAS, the City finds that the public purpose of this Agreement is to promote the general welfare of the City and its residents by creating new jobs, expanding the range and diversity of its affordable housing, and assisting the City with its State required Regional Housing Needs Allocation. This Agreement is consistent with and in furtherance of the City's Economic Development Strategy.

NOW, THEREFORE, in consideration of the foregoing Recitals and the following mutual covenants, agreements, conditions, and representations, and for valuable consideration, the receipt of which is acknowledged, the parties agree as follows:

1. Recitals. The foregoing Recitals are true and correct and incorporated herein by reference.

2. Fee Obligation Amount. Under the Fee Obligation Program, Developer is eligible to pay by secured promissory note certain development impact fees in the total amount of two million seven hundred and four thousand two hundred and forty-five dollars and ninety-three cents ($2,704,245.93), as specifically detailed in Exhibit "B" attached and incorporated by reference hereto ("Obligation Fees"). Additionally, Developer must pay interest on the Obligation Fees in

the amount of five percent (5%), representing the market interest rate. City agrees to allow such payment, pursuant to Roseville Municipal Code § 4.04.040 and the terms of this Agreement.

3. Time for Payment of Obligation Fees. Developer and City agree that the Obligation Fees shall be owed and due no later than the earlier of: 1) one (1) year after the issuance of the first certificate of occupancy for the Affordable Project, or first final approval of a building permit if no certificate of occupancy is required for the Affordable Project, or 2) three (3) years after the issuance of the first building permit for the Affordable Project.

4. Affordability. Developer agrees, in return for City's agreements herein, to enter into a separate Affordable Rental Housing Agreement ("ARHA") that is acceptable to the City's Housing Division and provide one hundred (100) percent of the units, except any manager or caretaker units, as affordable units for low, very-low or extremely low income (as provided in the ARHA).

5. Objective Design Standards. Developer agrees to comply with the City's Objective Design Standards.

6. Promissory Note and Deed of Trust. Developer agrees that as security for the Obligation Fees, plus interest, it will enter into a promissory note and deed of trust in substantially the same format as attached hereto as Exhibit "C". Additionally, Developer agrees to pay all fees and costs necessary to record and maintain the promissory note and/or deed of trust including title fees, escrow fees, recording fees, etc.

7. Other laws. Developer shall comply with all federal, state and local laws, ordinances and policies as may be applicable to the development and construction of the Affordable Project and Property and/or performance of this Agreement, including without

limitation any applicable development agreement, Roseville Municipal Code Section 4.04.040, and California Labor Code Sections 1720, et seq.

8. Indemnification. To the fullest extent allowed by law, Developer shall defend, indemnify, and save and hold harmless City, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, or resulting from or arising out of Developer's willful misconduct or negligent act or omission while engaged in the development of the Affordable Project, or performance of obligations or exercise of rights created by this Agreement, except those matters arising from City's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

Developer agrees to defend and indemnify City if, despite the parties' intent and practice, any venue, agency, or court with competent jurisdiction determines that Developer and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of City. Developer's responsibility for such defense and indemnity obligations under this Section 8 shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, any insurance limits.

9. Ability to Perform. Developer agrees and represents that it has the time, ability and professional expertise to perform the development of the Affordable Project and to pay the Obligation Fees, plus interest, under this Agreement.

10. Governing Agreement. In the event of any conflict between this Agreement and any Exhibits, the provisions of this Agreement shall govern. In the event of any conflict between any of the Exhibits, the provisions of the first in order of attachment shall govern.

11. Assignment. Developer is performing unique services in developing the Affordable Project. As such, Developer shall not assign this Agreement without the prior written consent of City.

12. Independent Contractor. Developer, inclusive of its agents, officers, employees, volunteers, independent contractors, and subcontractors, shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of City by reason of this Agreement.

13. Successors in Interest. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

14. Termination of Agreement. This Agreement shall terminate upon payment of all Obligation Fees, plus interest, per the terms of this Agreement.

15. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance hereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

16. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties. The City Manager for the City, or his or her designee, shall have authority to execute any documents necessary to effectuate the purpose of this Agreement.

17. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

18. Notices. Any notices to parties required by this Agreement shall be delivered personally or mailed, U.S. first class postage prepaid, addressed as follows:

CITY OF ROSEVILLE	DEVELOPER
Melissa Anguiano	Scott Canel
City of Roseville	Pine Island Apartments LLC
Economic Development Department	445 Central Ave., Suite 200,
311 Vernon Street	Highland Park, IL 60035
Roseville, CA 95678	

Either party may amend its address for notice by giving notice to the other party in writing.

19. Time is of the Essence. The parties acknowledge that time is of the essence.

20. Integrated Agreement. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

21. Advice of Legal Counsel. Each of the parties hereto has received the advice of independent legal counsel prior to signing this Agreement. Each of the parties hereto acknowledges that neither party, or agent or attorney of a party, has made a promise, representation, or warranty whatsoever, express or implied, not contained herein concerning the subject matter herein to induce the other party to execute this Agreement.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on

the ___ day of _____, 2026, and Developer has caused this Agreement to be duly executed.

Promissory Note and Deed of Trust

PROMISSORY NOTE
Extended Development Impact Fee Payment Program

$2,704,245.93 _____, 20____

FOR VALUE RECEIVED, PINE ISLAND APARTMENTS, LLC, an Indiana limited liability company, ("Developer"), hereby promises to pay to the order of the THE CITY OF ROSEVILLE, a municipal corporation, whose address is 311 Vernon Street, Roseville, California, 95678 ("City"), the sum, which represents required development impact fees, in the amount equal to two million seven hundred and four thousand two hundred and forty-five dollars and ninety-three cents ($2,704,245.93). Developer also promises to pay to the order of City accrued interest on the principal balance at the rate of five (5%) in accordance with the payment terms stipulated below.

1. **DEVELOPER'S OBLIGATION.** This Promissory Note ("Note") evidences the obligation of Developer to City for the payment of development impact fees pursuant to Roseville Municipal Code Section 4.04.040, on the project known as: _____ _____ located at _____("Project"). These development impact fees are normally due upon final approval of a building permit and are being paid per the term of this Note and the Government Financing Agreement between Developer and City, which is incorporated fully herein. Developer agrees to cause a Deed of Trust to be recorded on the property of the Project as security for this Note.

2. **TERM.** This Note shall be due and payable no later than the earlier of: 1) one (1) year after the issuance of the first certificate of occupancy for the Project, or first final approval of a building permit if no certificate of occupancy is required for the Project, or 2) three (3) years after the issuance of the first building permit for the Project.

3. **AMOUNT AND TIME OF PAYMENT.** Developer shall pay the full principal balance, plus interest at the rate of five (5%), no later than the earlier of: 1) one (1) year after the issuance of the first certificate of occupancy for the Project, or first final approval of a building permit if no certificate of occupancy is required for the Project, or 2) three (3) years after the issuance of the first building permit for the Project.

4. **LATE PAYMENTS.** If any payment under this Note is not received by City within ten (10) calendar days after the payment is due, Developer shall pay to City a late charge of five percent (5%) of such payment. Such late charge shall be immediately due and payable without demand by City.

5. **MATURITY DATE.** The full amount of the outstanding principal advanced under this Note, together with all accrued but unpaid interest thereon shall be due and payable in full, on the earliest of:

A. No later than the earlier of: 1) one (1) year after the issuance of the first certificate of occupancy for the Project, or first final approval of a building permit if no certificate of occupancy is required for the Project, or 2) three (3) years after the issuance of the first building permit for the Project; or

B. An Event of Default by Developer as defined in Paragraph 10 of this Note which has not been cured in the manner and time provided in Paragraph 11 this Note.

6. **PLACE AND MANNER OF PAYMENT.** All amounts due and payable under this Note are payable at the following address, City of Roseville Attn: Finance Department, 311 Vernon Street, Roseville, CA 95678, or at such other place as City may designate to Developer in writing from time to time, in any currency of the United States which on the date of payment is legal tender for the payment of public and private debts.

7. **PREPAYMENT OF LOAN.** No prepayment penalty will be charged to Developer for payment of any portion of this Note prior to the end of the loan term.

8. **WAIVERS BY DEVELOPER.** Presentment, notice of dishonor, and protest are waived by all makers, sureties, guarantors, and endorsers of this Note.

9. **DEFAULT AND ACCELERATION.** Developer agrees that the unpaid balance of the principal amount of this Note, together with all accrued interest thereon and charges owing, shall, at the option of City, become immediately due and payable upon any Event of Default as defined in Paragraph 10 of this Note which has not been cured pursuant to Paragraph 11 of this Note, including without limitation the failure of Developer to make any payment when due.

10. **EVENT OF DEFAULT DEFINED.** For purposes of this Note, an "Event of Default" is defined as follows:

A. Developer defaults in the payment of any principal or interest when due.

B. City discovers that Developer has failed to disclose or has misrepresented any fact deemed by City to be material or which would have prevented Developer from being eligible for this program or to pay the impact fees by the Note.

C. Developer defaults or breaches any of the terms or conditions of this Note or the Government Financing Agreement.

D. Developer becomes insolvent or bankrupt or is unable to pay its debts as they mature or makes a general assignment of or enters into any arrangement with creditors.

E. Proceedings for the appointment of a receiver, trustee or liquidator of the assets of Developer or a substantial part of such assets, being authorized or instituted by or against the Developer.

F. Proceedings under any bankruptcy, reorganization, readjustment of debt, insolvency, dissolution, liquidation or other similar law of any jurisdiction being authorized or instituted against Developer.

11. **CURE OF DEFAULT AND REMEDIES.** In the event of any breach or violation under this Note, City shall give written notice to Developer specifying: (a) the nature of the breach or violation; (b) the action required to cure the breach or violation, if an action to cure is possible; and (c) a date, which shall not be less than fifteen (15) calendar days from the mailing of the notice, but which such action to cure must be taken, if an action to cure is possible. If Developer fails to cure the breach or violation within the time frame specified in the notice, or if a cure is not possible, City has the right, at its election, to: (a) proceed directly against Developer to recover any and all loss, damage, liability, action, cause of action, cost or expense (including without limitation, reasonable attorneys' fees and expenses) incurred by City; or (b) pursue any other remedy allowed at law or in equity.

12. **CONSENTS AND APPROVALS.** Any consent or approval required under this Note shall not be unreasonably withheld.

13. **NOTICES.** Any notice, communications, or demands shall be in writing and may be communicated to City or Developer at the addresses set forth in the introductory paragraph of this Note.

14. **BINDING UPON SUCCESSORS.** All provisions of this Note shall be binding upon and inure to the benefit of the heirs, administrators, executors, successors in interest, transferees and assigns of Developer and City.

15. **NO RELATIONSHIP.** Nothing in this Note shall create any relationship between Developer and City, other than a debtor-creditor relationship. Developer and City shall not be partners, joint venturers, equity venturers, or any other form of partnership or venture.

16. **ASSIGNMENT AND ASSUMPTION.** Developer shall not assign any of its interests under this Note to any other party without the prior written consent of City. Any unauthorized assignment shall be void.

17. **GOVERNING LAW AND VENUE.** This Note shall be interpreted under and governed by the laws of the State of California, except for those provisions preempted by federal law. Any action arising out of this Note shall be brought in Placer County, California, regardless of where else venue may lie.

18. **SEVERABILITY.** Every provision of this Note is intended to be severable. If any provision of this Note is held invalid, illegal, or unenforceable by a court of competent jurisdiction, the validity, legality, and enforceability of the remaining provisions shall not be affected or impaired.

19. **TIME.** Time is of the essence in this Note.

20. **ATTORNEYS' FEES AND COSTS.** In the event of any Event of Default, or any legal action is commenced to interpret or to enforce the terms of this Note, the prevailing party in any such action shall be entitled to recover all reasonable attorneys' fees and costs incurred in such action. In addition, Developer agrees to pay City all reasonable costs incurred in collection of amounts due under this Note which are not paid by the due date as specified herein, whether or not a legal action has been filed.

21. **WAIVER.** Any waiver by City of any obligation in this Note must be in writing. No waiver shall be implied from any delay or failure by City to take action on any breach or default by Developer or to pursue any remedy allowed under this Note or applicable law. Any extension of time granted to Developer to perform any obligation under this Note must be in writing signed by City and shall not operate as a waiver or release from any of Developer's obligations under the Note. Developer hereby waives all defenses and pleas on the grounds of any extensions of the time for repayment of any amounts due under this Note, unless City has granted such extensions in writing. Consent by City to any act or omission by Developer shall not be construed to be a consent to any other act or omission or to waive the requirement for City's written consent to future waivers.

22. **SUBORDINATION**. Except as expressly set forth herein, this Note, at the request of Developer and as approved by City, shall be subordinated in priority to any third-party lender having a lien on the property of the Project.

23. **AMENDMENTS AND MODIFICATIONS.** Any amendments or modifications to this Note must be in writing, and shall be effective only if executed by both Developer and City.

IN WITNESS WHEREOF, Developer has executed this Note at _____, on _____, 20_____.

TO PROTECT THE SECURITY OF THIS DEED OF TRUST, TRUSTOR AGREES:

(1) To keep said property in good condition and repair; not to remove or demolish any building thereon; to complete or restore promptly and in good and workmanlike manner any building which may be constructed, damaged or destroyed thereon and to pay when due all claims for labor performed and materials furnished therefor; to comply with all laws affecting said property or requiring any alterations or improvements to be made thereon; not to commit or permit waste thereof; not to commit, suffer or permit any act upon said property in violation of law; to cultivate, irrigate, fertilize, fumigate, prune and do all other acts which from the character or use of said property may be reasonably necessary, the specific enumerations herein not excluding the general.

(2) To provide, maintain and deliver to Beneficiary fire insurance satisfactory to and with loss payable to Beneficiary. The amount collected under any fire or other insurance policy may be applied by Beneficiary upon indebtedness secured hereby and in such order as Beneficiary may determine, or at option of Beneficiary the entire amount so collected or any part thereof may be released to Trustor. Such application or release shall not cure or waive any default or notice of default hereunder or invalidate any act done pursuant to such notice.

(3) To appear in and defend any action or proceeding purporting to affect the security hereof or the rights or powers of Beneficiary or Trustee; and to pay all costs and expenses, including cost of evidence of title and attorney's fees in a reasonable sum, in any such action or proceeding in which Beneficiary or Trustee may appear, and in any suit brought by Beneficiary to foreclose this Deed.

(4) To pay: at least ten (10) days before delinquency all taxes and assessments affecting said property, including assessments on appurtenant water stock; when due, all encumbrances, charges and liens, any interest, on said property or any part thereof, which appear to be prior or superior hereto; all costs, fees and expenses of this Trust.

Should Trustor fail to make any payment or to do any act as herein provided, then Beneficiary or Trustee, but without obligation so to do and without notice to or demand upon Trustor and without releasing Trustor from any obligation hereof, may: make or do the same in such manner and to such extent as either may deem necessary to protect the security hereof, Beneficiary or Trustee being authorized to enter upon said property for such purposes; appear in and defend any action or proceeding purporting to affect the security hereof or the rights or powers of Beneficiary or Trustee; pay, purchase, contest or compromise any encumbrance, charge or lien which in the judgment of either appears to be prior or superior hereto; and, in exercising any such powers, pay necessary expenses, employ counsel and pay his reasonable fees.

(5) To pay immediately and without demand all sums so expended by Beneficiary or Trustee, with interest from date of expenditure at the amount allowed by law in effect at the date hereof, and to pay for any statement provided for by law in effect at the date hereof regarding the obligation secured hereby any amount demanded by the Beneficiary not to exceed the maximum allowed by law at the time when said statement is demanded.

(6) That any award of damages in connection with any condemnation for public use of or injury to said property or any part thereof is hereby assigned and shall be paid to Beneficiary who may apply or release such moneys received by him in the same manner and with the same effect as above provided for disposition of proceeds of fire or other insurance.

(7) That by accepting payment of any sum secured hereby after its due date, Beneficiary does not waive his right either to require prompt payment when due of all other sums so secured or to declare default for failure so to pay.

(8) That at any time or from time to time, without liability therefore and without notice, upon written request of Beneficiary and presentation of this Deed and said note for endorsement, and without affecting the personal liability of any person for payment of the indebtedness secured hereby, Trustee may: reconvey any part of said property; consent to the making of any map or plat thereof; join in granting any easement thereon; or join in any extension agreement or any agreement subordinating the lien or charge hereof.

(9) That upon written request of Beneficiary stating that all sums secured hereby have been paid, and upon surrender of this Deed and said note to Trustee for cancellation and retention and upon payment of its fees, Trustee shall reconvey, without warranty, the property then held hereunder. The recitals in such reconveyance of any matters or facts shall be conclusive proof of the truthfulness thereof. The grantee in such reconveyance may be described as "the person or persons legally entitled thereto." Five (5) years after issuance of such full reconveyance, Trustee may destroy said note and this Deed (unless directed in such request to retain them).

(10) That as additional security, Trustor hereby give to and confer upon Beneficiary the right, power and authority, during the continuance of these Trusts, to collect the rents, issues and profits of said property, reserving unto Trustor the right, prior to any default by Trustor in payment of any indebtedness secured hereby or in performance of any agreement hereunder, to collect and retain such rents, issues and profits as they become due and payable. Upon any such default, Beneficiary may at any time without notice, either in person, by agent, or by a receiver to be appointed by a court, and without regard to the adequacy of any security for the indebtedness hereby secured, enter upon and take possession of said property or any part thereof, in his own name sue or otherwise collect such rents, issues and profits, including those past due and unpaid, and apply the same, less costs and expenses of operation and collection, including reasonable attorney's fees, upon any indebtedness secured hereby, and in such order as Beneficiary may determine. The entering upon and taking possession of said property, the collection of such rents, issues and profits and the application thereof as aforesaid, shall not cure or waive any default or notice of default hereunder or invalidate any act done pursuant to such notice.

(11) That upon default by Trustor in payment of any indebtedness secured hereby or in performance of any agreement hereunder, Beneficiary may declare all sums secured hereby immediately due and payable by delivery to Trustee of written declaration of default and demand for sale and of written notice of default and of election to cause to be sold said property, which notice Trustee shall cause to be filed for record. Beneficiary also shall deposit with Trustee this Deed, said note and all documents evidencing expenditures secured hereby.

After the lapse of such time as may then be required by law following the recordation of said notice of default, and notice of sale having been given as then required by law, Trustee, without demand on Trustor, shall sell said property at the time and place fixed

by it in said notice of sale, either as a whole or in separate parcels and in such order as it may determine at public auction to the highest bidder for cash in lawful money of the United States, payable at time of sale. Trustee may postpone sale of all or any portion of said property by public announcement at such time and place of sale, and from time to time thereafter may postpone such sale by public announcement at the time fixed by the preceding postponement. Trustee shall deliver to such purchaser its deed conveying the property so sold, but without any covenant or warranty, express or implied. The recitals in such deed of any matters or facts shall be conclusive proof of the truthfulness thereof. Any person, including Trustor, Trustee, or Beneficiary as hereinafter defined, may purchase at such sale.

After deducting all costs, fees and expenses of Trustee and of this Trust, including cost of evidence of title in connection with sale, Trustee shall apply the proceeds of sale to payment of: all sums expended under the terms hereof, not then repaid, with accrued interest at the amount allowed by law in effect at the date hereof; all other sums then secured hereby; and the remainder, if any, to the person or persons legally entitled thereto.

In the event of foreclosure or deed in lieu of foreclosure of prior security deed or assignment of the first mortgage to the Secretary of Housing and Urban Development, any provisions herein or any provisions in any other collateral agreement restricting the use of the property or otherwise restricting Trustor's ability to sell the property shall have no further force or effect. Any person (including his successors or assigns) receiving title to the property through a foreclosure or deed in lieu of foreclosure of a prior security deed shall receive title to the property free and clear from such restrictions.

(12) Beneficiary, or any successor in ownership of any indebtedness secured hereby, may from time to time, by instrument in writing, substitute a successor or successors to any Trustee named herein or acting hereunder, which instrument, executed by the Beneficiary and duly acknowledged and recorded in the office of the recorder of the county or counties where said property is situated, shall be conclusive proof of proper substitution of such successor Trustee or Trustees, who shall, without conveyance from the Trustee predecessor, succeed to all its title, estate, rights, powers and duties. Said instrument must contain the name of the original Trustor, Trustee and Beneficiary hereunder, the book and page where this Deed is recorded and the name and address of the new Trustee.

(13) That this Deed applies to, inures to the benefit of, and binds all parties hereto, their heirs, legatees, devisees, administrators, executors, successors and assigns. The term Beneficiary shall mean the owner and holder, including pledgees, of the note secured hereby, whether or not named as Beneficiary herein. In this Deed, whenever the context so requires, the masculine gender includes the feminine and/or neuter, and the singular number includes the plural.

(14) The Trustee accepts this Trust when this Deed, duly executed and acknowledged, is made a public record as provided by law. Trustee is not obligated to notify any party hereto of pending sale under any other Deed of Trust or of any action or proceeding in which Trustor, Beneficiary or Trustee shall be a party unless brought by Trustee.

(15) Trustee shall act as Trustee under Deeds of Trust given solely for the purpose of securing obligations for the repayment of money other than corporate bonds. (California Financial Code §1590.)

REQUEST FOR RECONVEYANCE
