~~The annual lump sum performance bonus shall be paid with the first full pay check in January each year based upon the base salary paid during the first full pay period in the previous November of each year.~~

~~D~~5. Effective January 1, 2024, Management employees, not including those specified in provision A. 2., A.3., B.2., and B.3. above, who receive a satisfactory or above annual performance review shall be eligible for an annual service term lump sum ~~performance~~ bonus, as follows:

SERVICE TERM	BONUS AMOUNT
Beginning of 10th year to completion of 14th year	2.5% of base salary
Beginning of 15th year to And every year thereafter	5.0% of base salary

~~For up to a total of 5%, the annual lump sum performance bonus shall be paid with the first full pay check in January each year based upon the base salary paid during the first full pay period in~~

~~the previous November of each year.~~

~~E~~C. Employees who promoted or changed status into Management or Confidential from another employee group and received longevity pay and/or service term lump sum bonus in their previous position in the prior calendar year, shall receive a prorated annual lump sum bonus from the date of the promotion/status change through the end of the year. For example, an employee who promoted in October, with five pay periods remaining in the calendar year, will receive a prorated lump sum bonus for the 5 remaining pay periods (approximately 19% of the annual amount).

~~F~~D. Employee aggregate service is applied in accordance with Personnel Rule 3.11.090.

--end of clarifying language--

Except as provided in this Addendum, all wages, hours, and other terms and conditions of employment presently in the City's Terms, Conditions and Understandings of Compensation and Employment for Management/Confidential Employees remain in full force and effect.

THESE TERMS ARE SUBJECT TO APPROVAL OF THE CITY COUNCIL.

SIDE LETTER AGREEMENT
BETWEEN THE
ROSEVILLE POLICE ASSOCIATION

AND
THE CITY OF ROSEVILLE

CALPERS REQUIREMENTS FOR REPORTING SPECIAL COMPENSATION

The City of Roseville (hereinafter referred to as "City") and the Roseville Police Association (hereinafter referred to as "RPA") entered into a Memorandum of Understanding ("MOU") with a term beginning on January 1, 2024, and terminating on December 31, 2027. The City and RPA are collectively referred to herein as the "Parties."

Background and Overview

The Parties hereby agree to the terms of this Side Letter Agreement ("SLA") in response to an inquiry from CalPERS regarding special compensation. In January 2026, the Parties previously agreed to a side letter regarding the Special Pay section of the MOU related to training and certification pay. The application of this language is to be made retroactive to 2013. This side letter captures that the Parties will endeavor to review the approved trainings annually. Despite the fact some of this special compensation language has been included in the RPA MOU since 1997, CalPERS staff indicated concern that the current and prior MOUs are potentially not in compliance with their recent interpretations of the applicable special compensation regulation pursuant to the Public Employee Retirement Law, C.C.R § 571 and 571.1. The Parties agree that the special compensation reported for Classic and PEPRA employees was reported in good faith and was subject to retirement contributions for Classic and PEPRA employees. The designated trainings promote job knowledge and skills that enhance the employee's job performance.

Thus, the parties mutually agree to modify the RPA MOU, Chapter 2. Salaries and Other Compensation, Article III. Special Pays, as follows:

ARTICLE III. SPECIAL PAYS

~~A. Employees shall not be deemed eligible to receive such pay until they have successfully completed their one (1) year probationary period. B.~~
~~B. Employees in the job classes listed in Appendix W who acquire and maintain the corresponding certificates as listed will~~
A. Educational Incentive Pay

Employees who completed an applicable certifications/education/training that enhances their ability to do their job, as specified in the table below, shall be paid two and one-half percent (2.5%) on their base hourly rate~~salary~~. Employees must routinely

be using the referenced ~~certificate~~certification/training as part of their primary job assignment.

Educational incentive pay is paid biweekly and earnable special compensation within the meaning of Section 20636 of the California Government Code and Section 571(a)(2) and 571.1(b)(2) of the CalPERS regulations and/or as defined pensionable compensation in the California Government Code and the CalPERS regulations as amended.

RPA Job Classification	Certification	Issuing Organization
Animal Control Officer	Advanced CA State Humane Officer's Academy Certificate	State Humane Association of CA
Animal Control Supervisor	Supervisor Certificate	Approved Public Safety Training Program
	Civilian Management Leadership Program	PMW Associates
Communications Supervisor	Emergency Medical Dispatch (EMD) Certificate	National Academy of Emergency Medical Dispatch
	Supervisor Certificate	Approved Public Safety Training Program
Community Services Officer I/II	Collision Investigation Certification	Approved Public Safety Training Program
	Identity Theft Investigation	Approved Public Safety Training Program
Crime Analyst	Crime and Intelligence Analysis Certificate	CSUS
Crime Analysis Supervisor	Supervisor Certificate Civilian Management Leadership Program	Approved Public Safety Training Program PMW Associates
Crime Scene Investigators I/II	Crime Scene Investigations	Approved Public Safety Training Program
Dispatcher I/II	Basic Tactical Dispatcher	Approved Public Safety Training Program
	Intermediate Dispatch Certificate	Approved Public Safety Training Program
	Emergency Medical Dispatch (EMD) Certificate Employees hired after 12/31/2017 are not eligible.	National Academy of Emergency Medical Dispatch
Police Property & Evidence Technician I/II	Certified Evidence and Property Specialist	International Association of Property and Evidence
Police Property & Evidence Supervisor	Supervisor Certificate	Approved Public Safety Training Program
	Civilian Management Leadership Program	PMW Associates

Police Records Clerk I/II	Public Records Act Certification	Approved Public Safety Training Program
Police Systems Security and Compliance Technician	Leading the Professional Employee (16-hour course)	Approved Public Safety Training Program
Public Safety Program Coordinator	POST Supervisor Certificate	Approved Public Safety Training Program
	Crime Prevention Through Environmental Design Advanced Certification	
Real Time Crime Center Specialist	Real Time Crime Centers	CSU, Long Beach/Justice Research & Training
Records Supervisor	Supervisor Certificate	Approved Public Safety Training Program
	Civilian Management Leadership Program	PMW Associates
Senior Police Records Clerk	Public Records Act Certification	Approved Public Safety Training Program

B. Where more than one certificate is listed per job class, no stacking of payments will be made (no additional payment will be made for a second certificate by an employee).

Exception: Communications Supervisor and Dispatcher I and Dispatcher II hired on or before October 1, 2013, who currently are paid for Emergency Medical Dispatch (EMD) Certificates will also be eligible for one (1) additional certificate ~~as listed in Appendix W~~educational incentive pay applicable to the job. Dispatcher I and Dispatcher II employees hired between 10/1/13 to 12/1/17, who possess an EMD certificate, are eligible for one (1) additional certificate educational incentive pay applicable to the job ~~as listed in Appendix W~~. Employees hired after 12/31/2017 are not eligible for EMD certificate pay.

C. ~~C.~~ Employees promoting into supervisory positions are eligible to retain a lower-level certification pay for a maximum of two (2) years following promotion or employment into an eligible position or until eligible for the Supervisory POST certificate, whichever comes first. If the certificate does not directly relate to the employee's current job classification or responsibilities, then it is not reportable to CalPERS as special compensation.

D. ~~D.~~ Employees who possess certificates are responsible for submitting their certificate (or official POST training record demonstrating, to the satisfaction of the Police Chief, that the subject certificate has been obtained), in the Enterprise Resource Planning (ERP) system for approval in order to be paid the two and one-half percent (2.5%) on base hourly rate as stated above.

E. ~~E.~~ As new classifications are added, the City shall determine whether ~~a~~ Special Pay shall be provided based upon the provisions set forth in this Article. Annually the City shall endeavor to evaluate and ensure the courses remain acceptable to

enhancing applicable job knowledge and performance. The City shall meet and confer with RPA regarding its decision.

~~A.~~F. The intent of this provision is to ensure that the approved special compensation for educational incentive is reported to CalPERS, effective at least as early 2013, on the belief and understanding that the reviewed and approved educational programs and certifications enhanced the employee's ability to perform their job.

ARTICLE IV. LONGEVITY PAY ~~SERVICE TERM BONUS~~

Effective February 17, 2007, for employees hired before January 1, 2016, in recognition of the substantial contribution to the community made by employees as a result of the length of their aggregate City service, the City shall annually award each applicable employee longevity pay as indicated below.

Service Term	Longevity Pay~~Service Term Bonus~~
Beginning of 10th year and every year thereafter	2.5% of base salary
Beginning of the 15th year and every year thereafter	An additional 2.5% of base salary

Such ~~service term bonus~~ longevity pay shall be included on each eligible employee's bi-weekly payroll.

Effective February 17, 2007, for employees hired before January 1, 2016, the following certification pays will be calculated on ~~service term bonus~~ longevity pay, previously ~~also~~ referred to as "~~longevity~~ service term bonus" and reported to CalPERS as special compensation.

- Emergency Medical Dispatch Certificate

The longevity pay ~~service term bonus~~ is to be considered as part of an employee's total compensation. However, only actual costs of the longevity pay ~~service term bonus~~ shall be used when calculating total compensation for the purpose of comparing salaries and benefits of the City to other benchmark agencies.

Longevity pay is earnable special compensation within the meaning of Section 20636 of the California Government Code and Section 571(a)(1) of the CalPERS regulations and/or as defined pensionable compensation in the California Government Code and the CalPERS regulations as amended.

ARTICLE V. SERVICE TERM LUMP SUM BONUS

Employees hired on or after January 1, 2016, who receive a satisfactory or above annual performance review shall be eligible for an annual lump sum performance bonus as follows:

Service Term	Service Term Bonus

Beginning of 10th year to completion of 14th year	2.5% of base salary.
Beginning of the 15th year and every year thereafter	5.0% of base salary.

The annual lump sum performance bonus shall be paid with the first full paycheck in January each year. Since the Service Term Lump Sum Bonus is based on both length of service and satisfactory or above performance, it is not reportable to CalPERS as special compensation.

Existing ARTICLES V. – XIII. shall be re-numbered to VI. through IX.

Further, the Parties agree to delete Appendix W, which has been incorporated into the Special Pay section above.

The specific provisions contained in this SLA are intended to supersede any previous agreements, whether oral or written, regarding the matters contained in this SLA.

The Parties have satisfied their obligations to meet and confer in good faith in accordance with the Meyers-Milias-Brown Act ("MMBA").

Except as provided here, all wages, hours, and other terms and conditions of employment presently in the City's MOU and SLAs with the RPA remain in full force and effect.

THESE ARE TENTATIVE TERMS SUBJECT TO APPROVAL OF THE CITY COUNCIL.

Title:	Federal Advocacy Services - Professional Services Agreement Amendment
Contact:	Rob Baquera 916-746-1170 rbaquera@roseville.ca.us

SUMMARY

Staff recommends approval of an amendment to the professional services agreement with The Ferguson Group to provide federal advocacy services for City departments other than the utility departments. The amendment does not increase the total annual cost for professional services. The total annual contract amount will remain at $90,600, consistent with the prior fiscal year. With this fourth amendment to the contract, the total not-to-exceed amount is $453,000. Funding for this agreement is included in the proposed FY2026-27 budget in the General Fund.

RECOMMENDATION

Staff recommends that the City Council adopt a resolution to approve the Fourth Amendment to Professional Services Agreement with The Ferguson Group and authorize the City Manager to execute it on behalf of the City of Roseville.

BACKGROUND

Over the past 20 years, City Council and staff have become increasingly involved in working with federal elected officials and agencies on a number of issues that are significantly important to Roseville and the region. The undertakings have demonstrated that having a strong local presence at the federal level increases the possibilities of realizing positive outcomes on funding, policy and regulatory matters. To support these efforts, the City has contracted with The Ferguson Group (TFG) to provide professional representation on federal issues.

The services provided by TFG include a comprehensive, bipartisan government strategy that assists Roseville with the development and implementation of an effective federal legislative and regulatory program. Services include legislative and administrative representation with Members of Congress, Senators, House and Senate staff and pertinent federal agencies and departments. The services also include meeting with federal authorities and representing the City's interests as directed by the City.

Scope of Services

TFG works to secure federal grants, to provide the City's perspective to federal elected officials and agencies and to support various coalition efforts of City departments.

The scope of services provided by TFG builds upon the professional representation they have provided to the City over the years and focuses on the following areas:

- Law enforcement funding;

- Endangered Species Act and assistance with the Army Corp of Engineers and U.S. Fish and Wildlife permitting processes;
- Cybersecurity;
- Funding/grants for Fire Department equipment and training;
- Irrigation and flood control funding, regulations and policy;
- Land use issues as impacted by federal policy and permitting;
- Transportation policy and funding, including transit, highway funding and rail safety;
- Economic development;
- Municipal government finance and revenue protection; and
- Housing, homelessness, and social services including veteran's affairs.

TFG's more than 36 years of experience and presence in Washington D.C. gives them extensive and strong relationships with congressional leaders, the California congressional delegation, and key congressional committee staff.

In addition to their Capitol Hill relationships, TFG also has long-standing working relationships with key federal agencies relevant to Roseville including the Army Corps of Engineers, the Environmental Protection Agency, the Department of Transportation, the Department of Housing and Urban Development, the White House Office of Intergovernmental Affairs, and the Department of Veterans Affairs. Furthermore, this experience and understanding of Roseville's federal legislative history, concerns, and interests continue to be critical as funding levels for federal programs and services are discussed during budget discussions underway in Congress.

FISCAL IMPACT

There is no change to the total annual cost for the professional services under this amendment. The total annual cost remains at $90,600, which is the same amount from the previous year. With this fourth amendment to the contract, the total not-to-exceed amount is $453,000. Funding for this agreement is included in the proposed FY2026-27 budget in the General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)). The professional services agreement amendment meets the above criteria and is not subject to CEQA. No additional environmental review is required.

FOURTH AMENDMENT TO

PROFESSIONAL SERVICES AGREEMENT

Federal Advocacy Services

THIS FOURTH AMENDMENT TO AGREEMENT is made and entered into this ___ day of June 2, 2026, by and between the City of Roseville, a municipal corporation ("CITY"), and The Ferguson Group, LLC, a District of Columbia limited liability company ("CONSULTANT"); and

W I T N E S S E T H:

WHEREAS, CITY and CONSULTANT previously entered into a Professional Services Agreement dated July 7, 2021, and amended on June 22, 2023, June 27, 2024, and June 19, 2025 ("Agreement") regarding federal advocacy services ("Project"); and

WHEREAS, CITY desires to exercise its option to extend the term of the Agreement; and

WHEREAS, CONSULTANT is willing and able to provide such additional services.

NOW, THEREFORE, the parties agree as follows:

1. Paragraph 1 of the Agreement is amended by adding an additional paragraph to read as follows:

"City is exercising its option to extend the term of the Agreement for an additional one (1) year period commencing July 1, 2026 and ending on June 30, 2027."

2. Section 3 of the Agreement is amended by adding an additional paragraph to read as follows:

"CITY shall pay ninety thousand six hundred dollars ($90,600), in consideration of the Fourth Amendment to Agreement."

3. All other provisions of the Agreement shall remain unchanged and in full force and effect.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has executed this Fourth Amendment to Agreement in duplicate by its City Manager and CONSULTANT has caused this Agreement to be duly executed.

Title:	Roseville Parkway Widening Phase 1 Project - Agreements for Acquisition of Real Property
Contact:	Karen Vences 916-774-5412 kavences@roseville.ca.us

SUMMARY

Staff recommends approval of the agreements for Acquisition of Real Property with CL Creekside Plaza North CA LP, a Delaware limited partnership in the amount of $153,789 and with Source Investments, LLC in the amount of $74,000 for the purchase of property for the Roseville Parkway Widening - Phase 1 Project. The scope of the Project consists of widening portions of Roseville Parkway from West Drive to Creekside Ridge Drive and adding a third left-turn lane at southbound Pleasant Grove Boulevard onto eastbound Roseville Parkway. The construction of the project is estimated to cost $3.6 million and will be primarily funded by the special tax revenue generated in the North Central Roseville Community Facilities District No. 1. No General Fund resources will be used for the project.

RECOMMENDATION

Staff recommends that the City Council adopt resolutions to:
1. Approve the Agreement for Acquisition of Real Property for the purchase of real property from CL Creekside Plaza North CA LP, a Delaware limited partnership in the amount of $153,789 for 18,058 square feet of fee acquisition and 8,999 square feet of Temporary Construction Easement; and
2. Approve the Administrative Settlement Agreement for Acquisition of Real Property for the purchase of real property from Source Investments, LLC in the amount of $74,000 for 4,642 square feet of fee acquisition and 11,160 square feet of Temporary Construction Easement; and
3. Approve the Easement Variance and Modification Agreement by and between the City of Roseville and Source Investments, LLC; and
4. Authorize the City Manager to execute the agreements and any other related escrow documents on behalf of the City of Roseville.

BACKGROUND

Roseville Parkway is a multi-lane arterial roadway providing a connection from Northwest Roseville to East Roseville. The Roseville Parkway Widening - Phase 1 Project will incorporate improvements to widen portions of Roseville Parkway from West Drive to Creekside Ridge Drive and add a third left-turn lane at southbound Pleasant Grove Boulevard onto eastbound Roseville Parkway. Improvements include modifications to existing traffic signals, sidewalks, curb and gutter, updated signing and striping, and necessary utility adjustments.

During design, it was determined the project needed to acquire property rights from three property owners. The City obtained the services of Monument ROW to prepare the valuations that determined the fair market value for the acquisitions, and to negotiate the acquisition agreements on the City's behalf for property rights required to construct the project. One property acquisition agreement has previously been approved by the City.

The remaining property acquisitions included in this action are as follows:

- CL Creekside Plaza North CA LP, a Delaware limited partnership: 18,058 square feet of fee acquisition and 8,999 square feet of Temporary Construction Easement in the amount of $153,789.
- Source Investments, LLC: 4,642 square feet of fee acquisition and 11,160 square feet of Temporary Construction Easement in the amount of $74,000.

An Easement Variance and Modification Agreement with Source Investments, LLC is included in this action to record a permanent modification to the existing landscape setback requirement on the owner's property due to improvements by the project. The project will permanently reduce the required 50-ft setback to approximately 39-ft.

These are the final property acquisitions needed for the project. The project has been bid and staff will be seeking award of the construction contract at a future Council meeting date. Construction is anticipated to begin in summer 2026 and be completed in the spring of 2027.

Since 2022, the Roseville Parkway Widening Project has been driven by robust public participation, including, but not limited to: a community open house, stakeholder representative group meetings, online surveys, news media coverage, email newsletters, and social media updates. Details about the project can be found at roseville.ca.gov/ParkwayWidening. Staff will continue to engage with the community as the project moves forward.

FISCAL IMPACT

The recommended property acquisitions and TCE's will cost $153,789 and $74,000 and are fully funded from the special tax revenue generated in the North Central Roseville Community Facilities District No. 1. There are adequate funds in the Roseville Parkway Widening and Pleasant Grove Boulevard Triple Lefts project for the subject property acquisitions. No General Fund resources will be used for the project.

ENVIRONMENTAL REVIEW

Project level CEQA compliance for the Roseville Parkway Widening Project was accomplished with preparation of the Roseville Parkway Widening Project Initial Study and Mitigated Negative Declaration (Adopted February 18, 2026). Because the proposed agreements to purchase real property are a part of the Roseville Parkway Widening Project and are consistent with the analysis and conclusions in the Roseville Parkway Widening Project Final Initial Study and Mitigated Negative Declaration, no new effects would be expected to occur and all applicable mitigation measures will be implemented. As such, no additional CEQA action is required at this time.

PROJECT: Roseville Parkway Widening Project (Phase I)

AGREEMENT FOR ACQUISITION OF REAL PROPERTY
(ESCROW INSTRUCTIONS)

THIS AGREEMENT is entered into this _____day of _____, 202_ by and between the **City of Roseville**, a municipal corporation (hereinafter called "Buyer"), and **CL Creekside Plaza North CA LP, a Delaware limited partnership**, (hereinafter called "Seller") for acquisition by Buyer of one Partial Fee Acquisition and a TCE over real property hereinafter set forth.

IT IS HEREBY MUTUALLY AGREED BETWEEN THE PARTIES AS FOLLOWS:

1. AGREEMENT TO SELL AND PURCHASE. Seller agrees to sell to Buyer, and Buyer agrees to purchase from Seller, upon the terms and for the consideration set forth in this agreement, the following interest(s) in property, all situated in the City of Roseville, County of Placer, State of California:

A. Partial Fee Acquisition (Attached as Attachment 1)
B. Temporary Construction Easement (Attached as Attachment 2)

The legal description of each interest is identified in the referenced attachment(s), which are hereby defined collectively as the "Acquisition Area" and incorporated by reference. The Acquisition Area is located on APN 015-167-017-000, which is a part of the retail shopping center commonly known as Creekside Shops ("Property"). Buyer will cause certain construction, installation, and related work to be completed on the Acquisition Area as more particularly described on Attachment 3 attached hereto and incorporated herein by this reference ("City Work"). All City Work will be performed in accordance with Attachment 3 and all applicable laws and governmental regulations.

2. PURCHASE PRICE. The total purchase price, payable in cash through escrow, shall be the sum of:

ONE HUNDRED FIFTY-THREE THOUSAND SEVEN HUNDRED EIGHTY-NINE AND .00/100 DOLLARS ($153,789)

The total purchase price above includes: acquisition value of the property interests identified in Section 1 of $45,000, along with the cost to move the monument sign located within the acquisition area. The estimated cost to move the multi-tenant monument sign ("Monument Sign")is $103,789 with an added $5,000.00 to cover any unseen additional cost for the move, for a total move reimbursement of $108,789.

3. CONVEYANCE OF TITLE. Seller agrees to convey the fee interest by Grant Deed. Seller agrees to convey to Buyer marketable fee title free and clear of all recorded and unrecorded liens, encumbrances, assessments, easements, leases, and taxes EXCEPT:

A. All taxes for the current fiscal year prorated as per Section 5 hereinafter.
B. Quasi-public utility, public alley, public street easements, and rights of way of record.
C. Those exceptions contained in a Preliminary Title Report which are approved by Buyer in escrow.

4. POSSESSION. It is agreed and confirmed by the parties hereto that notwithstanding other provisions in this contract, the right of possession and use of the Acquisition Area by Buyer, including the right to remove and dispose of improvements, shall commence on the date the amount of funds as specified in Section 2 herein are deposited into the escrow controlling this transaction. The amount shown in Section 2 herein includes, but is not limited to, full payment for such possession and use, including damages, if any, from said date.

5. TITLE INSURANCE POLICY. Escrow Agent shall, following recording of deed to Buyer, provide Buyer with CLTA Standard Coverage Policy of Title Insurance in the amount of $45,000 issued by Fidelity National Title Company showing the title to the Partial Fee Acquisition property vested in Buyer, subject only to the exceptions set forth in Section 3 and the printed exceptions and stipulations in said policy. Buyer agrees to pay the premium charged therefore.

6. ESCROW. Buyer agrees to open an escrow in accordance with this Agreement at Fidelity National Title Company, 1200 Concord Ave. #400, Concord, CA 94520 (916) 646-6018. This Agreement constitutes the joint escrow instructions of Buyer and Seller, and Escrow Agent (Audra Meyer) to whom these instructions are delivered is hereby empowered to act under this Agreement. The parties hereto agree to do all acts necessary to close this escrow in the shortest possible time.

Seller agrees to deposit with Escrow Agent prior to the Close of Escrow original, fully executed and acknowledged deed prepared by Escrow Agent and any other customary agreements, consents, or documents reasonably necessary to effectuate the purchase of the subject Partial Fee Acquisition property and the Temporary Construction Easement interest. Buyer agrees to deposit the purchase price and **certificate of acceptance** upon demand of Escrow Agent.

Insurance policies for fire or casualty are not to be transferred, and Seller will cancel its own policies after close of escrow.

All funds received in this escrow shall be deposited with other escrow funds in a general escrow account(s) and may be transferred to any other such escrow trust account in any State or National Bank doing business in the State of California. All disbursements shall be made either by check or wire transfer from such account.

ESCROW AGENT IS AUTHORIZED AND IS INSTRUCTED TO COMPLY WITH THE FOLLOWING TAX ADJUSTMENT PROCEDURE:

A. Pay and charge Seller for any unpaid delinquent taxes and/or penalties and interest thereon, and for any delinquent or non-delinquent assessments or bonds against the Acquisition Area;

B. In the event this escrow closes between July 1 and November 1, and current tax information is not available from title insurer, Escrow Agent is instructed to withhold from Seller's proceeds an amount equal to 120% of the prorated amount due based upon the previous fiscal year's second half tax bill. At such time that the tax information is available, Escrow Agent shall make a check payable to the County Tax Collector for Seller's prorated portion of taxes and forward the same to the Buyer and shall refund any difference to the Seller. In the event the amount withheld is not sufficient to pay Seller's prorated portion of taxes due, the Seller herein agrees to immediately pay the difference.

In the event said tax information is available, Seller's taxes shall be prorated in accordance with Paragraph "C" below.

C. From the date that tax information is available, as per Paragraph "B" hereinabove, up to and including June 30th, Seller's current taxes, if unpaid, shall be prorated to date of close of escrow on the basis of a 365 day year in accordance with Tax Collector's proration requirements, together with penalties and interest, if said current taxes are unpaid after December 10 and/or April 10. At close of escrow, a check payable to the County Tax Collector for Seller's prorata portion of taxes shall be forwarded to Buyer with closing statement;

D. Any taxes which have been paid by Seller, prior to opening of this escrow, shall not be prorated between Buyer and Seller, but Seller shall have the sole right, after close of escrow, to apply to the County Tax Collector of said county for a refund. This refund would apply to the period after Buyer's acquisition, pursuant to Revenue and Taxation Code Section 5096.7.

ESCROW AGENT IS AUTHORIZED TO, AND SHALL:

E. Pay and charge Seller, upon Seller's written approval, for any amount necessary to place title in the condition necessary to satisfy Section 3 of this Agreement, excluding any penalty for prepayment to any lienholder in compliance with Section 1265.240 of the Code of Civil Procedure ("Eminent Domain Law").

F. Pay and charge Buyer for any escrow fees, charges, and costs payable under Section 6 of this Agreement.

G. Disburse funds and deliver deed when conditions of this escrow have been fulfilled by Buyer and Seller.

The term "close of escrow", if and where written in these instructions, shall mean the date that all necessary instruments of conveyance are recorded in the office of the County Recorder. Recordation of instruments delivered through this escrow is authorized if necessary or proper in the issuance of said policy of title insurance.

All time limits within which any matter herein specified is to be performed may be extended by mutual agreement of the parties hereto. Any amendment of, or supplement to, any instructions must be in writing.

TIME IS OF THE ESSENCE IN THESE INSTRUCTIONS AND ESCROW IS TO CLOSE AS SOON AS POSSIBLE. The parties hereto agree to perform all acts reasonably necessary to close this escrow within one hundred twenty (120) days following the opening of escrow.

Responsibility for Escrow Agent under this Agreement is expressly limited to Sections 1, 2, 3, 4, 5, 6, 7, 9, 10, 11, and 17 and to its liability under any policy of title insurance issued in regard to this transaction.

7. ESCROW FEES, CHARGES AND COSTS. Buyer agrees to pay all Buyer's and Seller's usual fees, charges, and costs which arise in this escrow.

8. RENTAL AND OCCUPANCY BY SELLER. Seller warrants that there are no oral or written leases on all or any portion of Acquisition Area.

9. PERMISSION TO ENTER ON PREMISES. Seller hereby grants to Buyer, or its authorized agents, permission to enter upon the Property at all reasonable times prior to close of escrow for the purpose of making necessary or appropriate inspections. It is understood that Buyer and its contractors will indemnify Seller and hold them harmless from any and all liability for bodily injury, death and property damage arising out of or in any way connected with such inspections, and reimburse Seller for all costs, expenses and loss, including attorney's fees, incurred by them in consequence of any claims, demands and causes of action which may be made or brought against them arising out of such inspections. Buyer shall provide the Seller a forty-eight (48) hour written notice before entering the Property. However, Buyer shall have no obligation to indemnify Seller for any loss, liability, or damage caused by the negligence of the Seller, or any of Seller's employees, agents, or authorized users, including, but not limited to, tenants, invitees or permittees.

10. COUNTERPARTS. This Agreement may be executed in counterparts, each of which so executed shall, irrespective of the date of its execution and delivery, be deemed an original, and all such counterparts together shall constitute one and the same instrument.

11. CLOSING STATEMENT. Seller instructs Escrow Agent to release a copy of Seller's statement to Buyer, whose address is 311 Vernon St, Roseville, CA 95678; purpose being to ascertain if any reimbursements are due Seller.

12. LOSS OR DAMAGE TO IMPROVEMENTS. Loss or damage to the Acquisition Area or any improvements thereon, by fire or other casualty, occurring prior to the recordation of the deed shall be at the risk of Seller. In the event that loss or damage to the Acquisition Area or any improvements thereon, by fire or other casualty, occurs prior to the recordation of the deed, Buyer may elect to require that the Seller pay to Buyer the proceeds of any insurance which may become payable to Seller by reason thereof, or to permit such proceeds to be used for the restoration of the damage done, or to reduce the total price by an amount equal to the diminution in value of Acquisition Area by reason of such loss or damage or the amount of insurance payable to Seller, whichever is greater.

13. EMINENT DOMAIN DISMISSAL. Seller and Buyer acknowledge that this transaction is a negotiated settlement in lieu of condemnation, and Seller hereby agrees and consents to the dismissal or abandonment of any eminent domain action in the Superior Court of the State of California in and for the County of Placer, wherein the herein described Acquisition Area is included and also waives any and all claims to any money on deposit in said action and further waives all attorney's fees, costs, disbursements, and expenses incurred in connection therewith. If, prior to the close of the execution of this transaction, Seller is served with a Summons and Complaint in Eminent Domain in which Seller is a named defendant, upon the closing of this transaction, Seller agrees and consents to Buyer taking a Default in said action.

14. WARRANTIES, REPRESENTATIONS, AND COVENANTS OF SELLER. Seller hereby warrants, represents, and/or covenants to Buyer that:

A. To the best of Seller's knowledge, there are no actions, suits, material claims, legal proceedings, or any other proceedings affecting the Acquisition Area or any portion thereof, at law, or in equity before any court or governmental agency, domestic or foreign.

B. To the best of Seller's knowledge, there are no encroachments onto the property by improvements on any adjoining Acquisition Area , nor do any buildings or improvements encroach on other properties.

C. Until the closing, Seller shall maintain the Acquisition Area in good condition and state of repair and maintenance and shall perform all of its obligations under any service contracts or other contracts affecting the Acquisition Area .

D. Until the closing, Seller shall not do anything which would impair Seller's title to any of the Acquisition Area .

E. To the best of Seller's knowledge, neither the execution of this Agreement nor the performance of the obligations herein will conflict with, or breach any of the provisions of any bond, note, evidence of indebtedness, contract, lease, or other agreement or instrument to which the Acquisition Area may be bound.

F. Until the closing, Seller shall, upon learning of any fact or condition which would cause any of the warranties and representations in this Section 14 (Warranties, Representations, and Covenants of Seller) not to be true as of closing, immediately give written notice of such fact or condition to Buyer.

15. HAZARDOUS WASTE. Neither Seller nor, to the best of Seller's knowledge, any previous owner, tenant, occupant, or user of the Acquisition Area used, generated, released, discharged, stored, or disposed of any hazardous waste, toxic substances, or related materials ("Hazardous Materials") on, under, in, or about the Acquisition Area , or transported any Hazardous Materials to or from the Acquisition Area . Seller shall not cause or permit the presence, use, generation, release, discharge, storage, or disposal of any Hazardous Materials on, under, in, or about, or the transportation of any Hazardous Materials to or from, the Acquisition Area. The term "Hazardous Material" shall mean any substance, material, or waste which is or becomes regulated by any local governmental authority, the State of California, or the United States Government, including, but not limited to, any material or substance which is (i) defined as a "hazardous waste", "extremely hazardous waste", or "restricted hazardous waste" under Section 25115, 25117 or 25122.7, or listed pursuant to Section 25140 of the California Health and Safety Code, Division 20, Chapter 6.5 (Hazardous Waste Control Law), (ii) defined as "hazardous substance" under Section 25316 of the California Health and Safety Code, Division 20, Chapter 6.8 (Carpenter-Presley-Tanner Hazardous Substance Account Act), (iii) defined as a "hazardous material", "hazardous substance", or "hazardous waste" under Section 25501 of the California Health and Safety Code, Division 20, Chapter 6.95 (Hazardous Materials Release Response Plans and Inventory), (iv) defined as a "hazardous substance" under Section 25281 of the California Health and Safety Code, Division 20, Chapter 6.7 (Underground Storage of Hazardous Substances), (v) petroleum, (vi) asbestos, (vii) polychlorinated byphenyls, (viii) listed under Article 9 or defined as "hazardous" or "extremely hazardous" pursuant to Article 11 of Title 22 of the California Administrative Code, Division 4, Chapter 20, (ix) designated as a "hazardous substances" pursuant to Section 311 of

the Clean Water Act, (33 U.S.C. S1317), (x) defined as a "hazardous waste" pursuant to Section 1004 of the Resource Conservation and Recovery Act, 42 U.S.C. S6901 et seq. (42 U.S.C. S6903) or (xi) defined as a "hazardous substances" pursuant to Section 101 of the Comprehensive Environmental Response, Compensation, as amended by Liability Act, 42. U.S.C. S9601 et seq. (42 U.S.C. S9601).

16. COMPLIANCE WITH ENVIRONMENTAL LAWS. To the best of Seller's knowledge the Property complies with all applicable laws and governmental regulations including, without limitation, all applicable federal, state, and local laws pertaining to air and water quality, hazardous waste, waste disposal, and other environmental matters, including, but not limited to, the Clean Water, Clean Air, Federal Water Pollution Control, Solid Waste Disposal, Resource Conservation Recovery and Comprehensive Environmental Response Compensation and Liability Acts, and the California Environment Quality Act, and the rules, regulations, and ordinances of the city within which the subject Acquisition Area is located, the California Department of Health Services, the Regional Water Quality Control Board, the State Water Resources Control Board, the Environmental Protection Agency, and all applicable federal, state, and local agencies and bureaus.

17. INDEMNITY. Seller agrees to indemnify, defend and hold Buyer harmless from and against any claim, action, suit, proceeding, loss, cost, damage, liability, deficiency, fine, penalty, punitive damage, or expense (including, without limitation, attorneys' fees), resulting from, arising out of, or based upon (i) the presence, release, use, generation, discharge, storage, or disposal of any Hazardous Material on, under, in or about, or the transportation of any such materials to or from, the Property, or (ii) the violation, or alleged violation, of any statute, ordinance, order, rule, regulation, permit, judgment, or license relating to the use, generation, release, discharge, storage, disposal, or transportation of Hazardous Materials on, under, in, or about, to or from, the Property. This indemnity shall include, without limitation, any damage, liability, fine, penalty, punitive damage, cost, or expense arising from or out of any claim, action, suit or proceeding for personal injury (including sickness, disease, or death, tangible or intangible property damage, compensation for lost wages, business income, profits or other economic loss, damage to the natural resource or the environment, nuisance, pollution, contamination, leak, spill, release, or other adverse effect on the environment). This indemnity extends only to liability created prior to or up to the date this escrow shall close. Seller shall not be responsible for acts or omissions to act post close of this escrow.

18. CONTINGENCY. It is understood and agreed between the parties hereto that the completion of this transaction, and the escrow created hereby, is contingent upon the specific acceptance and approval from the Buyer herein.

19. WAIVER OF CLAIMS. Seller acknowledges that the acquisition of the Acquisition Area by Buyer is for a public purpose, and therefore, the Acquisition Area is otherwise subject to taking by the power of eminent domain. Seller acknowledges that this transaction is a negotiated settlement in lieu of condemnation and agrees that the purchase price to be paid herein shall constitute full and fair compensation and consideration for any and all claims that Seller may have against Buyer by reason of the acquisition, improvement, possession, use and/or occupancy of the Acquisition Area , and Seller hereby waives any and all claims, including, but not limited to, claims for attorney's fees, pre-condemnation damages, severance damages, business goodwill, relocation assistance, or any other claim.

20. DAMAGE AND REPAIR OBLIGATIONS. In connection with (i) the performance of City

Work, or (i) any maintenance, inspection, maintenance, repair, replacement, operation, or use of the Property or any improvements thereon ("Future Property Activities") performed by or on behalf of Buyer on the Property including the Acquisition Area, Buyer will exercise reasonable care to avoid damage to the Acquisition Area or any portion of the Property, including and all buildings, structures, paving, utilities, landscaping (excepting the removal and replacement of landscaping as a part of the City Work), signage (excepting the relocation of the Monument Sign by Seller in connection with the City Work), and other improvements located thereon (collectively, the "Improvements").

If, as a result of the City Work or Future Property Activities, any damage occurs to (a) the Property, including the Acquisition Area, or (b) any Improvements located thereon, Buyer will, at its sole cost and expense, promptly cause the repair, restoration, or replacement of the damaged property to a condition that is substantially similar in quality and functionality to the condition existing immediately prior to such damage (reasonable wear and tear excepted), or as otherwise reasonably approved by Seller, in compliance with all applicable laws. Seller will provide Buyer with written notice of any such damage, together with reasonable documentation (including photographs, inspection reports, and, if available, repair estimates) evidencing the damage and the need for repair. Following receipt of such notice and documentation, Buyer will commence the repair or restoration, within a commercially reasonable period of time, based on the nature of the repair or restoration, and diligently prosecute the same to completion, at no cost to Seller. If Buyer fails to commence or diligently pursue such repair or restoration within a reasonable time after notice, Seller may, upon further written notice to Buyer, perform such repair or restoration and Buyer will reimburse Seller for Seller's reasonable, documented out-of-pocket costs incurred in connection therewith, along with the sum of ten percent (10%) of said costs for Seller's repair management fee, as compensation for Seller's time and administrative effort in coordinating and overseeing such work.

The obligations set forth in Section 20 survive the closing of the Partial Fee Acquisition, the completion of the City Work and the expiration of the Temporary Construction Easement granted herein, with respect to damage arising from the City Work or any Future Property Activities.

21. GENERAL PROVISIONS. The terms and conditions, covenants, and agreements set forth herein shall apply to and bind the heirs, executors, administrators, assigns and successors of the parties hereto.

This Agreement and each provision contained herein may be waived, amended, supplemented, or eliminated only by mutual written agreement of the parties.

If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

This Agreement contains the entire agreement between both parties, neither party relies upon any warranty or representation not contained in this Agreement.

APN: 015-167-017

CITY OF ROSEVILLE
TEMPORARY CONSTRUCTION EASEMENT

CL Creekside Plaza North CA LP, a Delaware limited partnership ("Grantors") grant to the City of Roseville, a municipal corporation ("Grantee") and the City's contractors, subcontractors, agents and employees a TEMPORARY CONSTRUCTION EASEMENT for purposes of constructing the Roseville Parkway Widening Project – Phase 1 ("Project").

This TEMPORARY CONSTRUCTION EASEMENT shall include, but is not limited to, Grantee's use of Grantors' property for ingress and egress, excavation, construction purposes, staging areas, and all other activities whatsoever in nature incidental to the Project over, upon and across all that real property located at 1112 Galleria Boulevard, Roseville, CA 95678 in the City of Roseville, County of Placer, State of California, depicted in Exhibit "A," attached hereto and made a part hereof.

This Temporary Construction Easement shall become effective on June 1, 2026 ("Effective Date") and shall terminate on December 1, 2027 ("Termination Date"), unless otherwise extended in writing by Grantors.

Grantee shall indemnify, defend, protect and hold Grantors harmless from and against all liability, claims, demands, damages or costs of any kind whatsoever arising from or connected with Grantee's construction activities on Grantors' property during the term of the TEMPORARY CONSTRUCTION EASEMENT granted herein. Grantee shall return Grantors' property to the like condition as at the commencement of the term of the TEMPORARY CONSTRUCTION EASEMENT as modified by the construction.

It is understood and agreed that upon said termination date and the physical restoration of the TEMPORARY CONSTRUCTION EASEMENT area, Grantee shall have no further obligation or liability in connection with said parcel.

TITLE REPORT NO.: 01005799-010-AM-PJ
PROJECT: Roseville Parkway Widening Project (Phase I)

ADMINISTRATIVE SETTLEMENT AGREEMENT
FOR ACQUISITION OF REAL PROPERTY
(ESCROW INSTRUCTIONS)

THIS AGREEMENT is entered into this _____day of _____, 202_ by and between the City of Roseville, a municipal corporation (hereinafter called "Buyer"), and Source Investments, LLC, a California limited liability company, (hereinafter called "Seller") as the result of settlement negotiations for acquisition by Buyer of one Partial Fee Acquisition and two (2) TCE's over real property hereinafter set forth.

IT IS HEREBY MUTUALLY AGREED BETWEEN THE PARTIES AS FOLLOWS:

1. AGREEMENT TO SELL AND PURCHASE. Based on settlement negotiations, in lieu of condemnation, Seller agrees to sell to Buyer, and Buyer agrees to purchase from Seller, upon the terms and for the consideration set forth in this agreement, the following interest(s) in property, all situated in the City of Roseville, County of Placer, State of California:

A. Partial Fee Acquisition (Attached as Attachment 1)
B. Temporary Construction Easement (Attached as Attachment 2)
C. Temporary Construction Easement (Attached as Attachment 3)

The legal description of each interest is identified in the referenced attachment(s), which are hereby incorporated by reference.

2. PURCHASE PRICE. The total purchase price, payable in cash through escrow, shall be the sum of:

SEVENTY-FOUR THOUSAND DOLLARS AND .00/100
($74,000.00)

The total purchase price includes: acquisition value of the property interests identified in Section 1.

3. CONVEYANCE OF TITLE. Seller agrees to convey the fee interest by Grant Deed. Seller agrees to convey to Buyer marketable fee title free and clear of all recorded and unrecorded liens, encumbrances, assessments, easements, leases, and taxes EXCEPT:

A. All taxes for the current fiscal year prorated as per Section 5 hereinafter.
B. Quasi-public utility, public alley, public street easements, and rights of way of record.
C. Those exceptions contained in a Preliminary Title Report which are approved by Buyer in escrow.

4. POSSESSION. It is agreed and confirmed by the parties hereto that notwithstanding other provisions in this contract, the right of possession and use of the subject property by Buyer, including the right to remove and dispose of improvements, shall commence on the date the amount of funds as specified in Section 2 herein are deposited into the escrow controlling this transaction. The amount

shown in Section 2 herein includes, but is not limited to, full payment for such possession and use, including damages, if any, from said date.

5. TITLE INSURANCE POLICY. Escrow Agent shall, following recording of deed to Buyer, provide Buyer with CLTA Standard Coverage Policy of Title Insurance in the amount of $53,200.00 issued by Placer Title Company showing the title to the property vested in Buyer, subject only to the exceptions set forth in Section 3 and the printed exceptions and stipulations in said policy. Buyer agrees to pay the premium charged therefore.

6. ESCROW. Buyer agrees to open an escrow in accordance with this Agreement at Fidelity National Title Company, 8525 Madison Avenue, Suite 110, Fair Oaks, CA 95628 (916) 782-3711. This Agreement constitutes the joint escrow instructions of Buyer and Seller, and Escrow Agent (Paul Avila) to whom these instructions are delivered is hereby empowered to act under this Agreement. The parties hereto agree to do all acts necessary to close this escrow in the shortest possible time.

Seller agrees to deposit with Escrow Agent prior to the Close of Escrow original, fully executed and acknowledged deed prepared by Escrow Agent and any other customary agreements, consents, or documents reasonably necessary to effectuate the purchase of the subject property. Buyer agrees to deposit the purchase price and **certificate of acceptance** upon demand of Escrow Agent.

Insurance policies for fire or casualty are not to be transferred, and Seller will cancel its own policies after close of escrow.

All funds received in this escrow shall be deposited with other escrow funds in a general escrow account(s) and may be transferred to any other such escrow trust account in any State or National Bank doing business in the State of California. All disbursements shall be made either by check or wire transfer from such account.

ESCROW AGENT IS AUTHORIZED AND IS INSTRUCTED TO COMPLY WITH THE FOLLOWING TAX ADJUSTMENT PROCEDURE:

A. Pay and charge Seller for any unpaid delinquent taxes and/or penalties and interest thereon, and for any delinquent or non-delinquent assessments or bonds against the property;

B. In the event this escrow closes between July 1 and November 1, and current tax information is not available from title insurer, Escrow Agent is instructed to withhold from Seller's proceeds an amount equal to 120% of the prorated amount due based upon the previous fiscal year's second half tax bill. At such time that the tax information is available, Escrow Agent shall make a check payable to the County Tax Collector for Seller's prorated portion of taxes and forward the same to the Buyer and shall refund any difference to the Seller. In the event the amount withheld is not sufficient to pay Seller's prorated portion of taxes due, the Seller herein agrees to immediately pay the difference;

In the event said tax information is available, Seller's taxes shall be prorated in accordance with Paragraph "C" below.

C. From the date that tax information is available, as per Paragraph "B" hereinabove, up to

and including June 30th, Seller's current taxes, if unpaid, shall be prorated to date of close of escrow on the basis of a 365 day year in accordance with Tax Collector's proration requirements, together with penalties and interest, if said current taxes are unpaid after December 10 and/or April 10. At close of escrow, a check payable to the County Tax Collector for Seller's prorata portion of taxes shall be forwarded to Buyer with closing statement;

D. Any taxes which have been paid by Seller, prior to opening of this escrow, shall not be prorated between Buyer and Seller, but Seller shall have the sole right, after close of escrow, to apply to the County Tax Collector of said county for a refund. This refund would apply to the period after Buyer's acquisition, pursuant to Revenue and Taxation Code Section 5096.7.

ESCROW AGENT IS AUTHORIZED TO, AND SHALL:

E. Pay and charge Seller, upon Seller's written approval, for any amount necessary to place title in the condition necessary to satisfy Section 3 of this Agreement, excluding any penalty for prepayment to any lienholder in compliance with Section 1265.240 of the Code of Civil Procedure ("Eminent Domain Law");

F. Pay and charge Buyer for any escrow fees, charges, and costs payable under Section 6 of this Agreement;

G. Disburse funds and deliver deed when conditions of this escrow have been fulfilled by Buyer and Seller.

The term "close of escrow", if and where written in these instructions, shall mean the date that all necessary instruments of conveyance are recorded in the office of the County Recorder. Recordation of instruments delivered through this escrow is authorized if necessary or proper in the issuance of said policy of title insurance.

All time limits within which any matter herein specified is to be performed may be extended by mutual agreement of the parties hereto. Any amendment of, or supplement to, any instructions must be in writing.

TIME IS OF THE ESSENCE IN THESE INSTRUCTIONS AND ESCROW IS TO CLOSE AS SOON AS POSSIBLE. The parties hereto agree to perform all acts reasonably necessary to close this escrow within one hundred twenty (120) days following the opening of escrow.

Responsibility for Escrow Agent under this Agreement is expressly limited to Sections 1, 2, 3, 4, 5, 6, 7, 9, 10, 11, and 17 and to its liability under any policy of title insurance issued in regard to this transaction.

7. ESCROW FEES, CHARGES AND COSTS. Buyer agrees to pay all Buyer's and Seller's usual fees, charges, and costs which arise in this escrow.

8. RENTAL AND OCCUPANCY BY SELLER. Seller warrants that there are no oral or written leases on all or any portion of property.

9. PERMISSION TO ENTER ON PREMISES. Seller hereby grants to Buyer, or its authorized agents, permission to enter upon the Property at all reasonable times prior to close of escrow for the purpose of making necessary or appropriate inspections. It is understood that Buyer and its contractors will indemnify Seller and hold them harmless from any and all liability for bodily injury, death and property damage arising out of or in any way connected with such inspections, and reimburse Seller for all costs, expenses and loss, including attorney's fees, incurred by them in consequence of any claims, demands and causes of action which may be made or brought against them arising out of such inspections. Buyer shall provide the Seller a forty-eight (48) hour written notice before entering the property. However, Buyer shall have no obligation to indemnify Seller for any loss, liability, or damage caused by the negligence of the Seller, or any of Seller's employees, agents, or authorized users, including, but not limited to, tenants, invitees or permittees.

10. COUNTERPARTS. This Agreement may be executed in counterparts, each of which so executed shall, irrespective of the date of its execution and delivery, be deemed an original, and all such counterparts together shall constitute one and the same instrument.

11. CLOSING STATEMENT. Seller instructs Escrow Agent to release a copy of Seller's statement to Buyer, whose address is 311 Vernon St, Roseville, CA 95678; purpose being to ascertain if any reimbursements are due Seller.

12. LOSS OR DAMAGE TO IMPROVEMENTS. Loss or damage to the real property or any improvements thereon, by fire or other casualty, occurring prior to the recordation of the deed shall be at the risk of Seller. In the event that loss or damage to the real property or any improvements thereon, by fire or other casualty, occurs prior to the recordation of the deed, Buyer may elect to require that the Seller pay to Buyer the proceeds of any insurance which may become payable to Seller by reason thereof, or to permit such proceeds to be used for the restoration of the damage done, or to reduce the total price by an amount equal to the diminution in value of said property by reason of such loss or damage or the amount of insurance payable to Seller, whichever is greater.

13. EMINENT DOMAIN DISMISSAL. Seller and Buyer acknowledge that this transaction is a negotiated settlement in lieu of condemnation, and Seller hereby agrees and consents to the dismissal or abandonment of any eminent domain action in the Superior Court of the State of California in and for the County of Placer, wherein the herein described property is included and also waives any and all claims to any money on deposit in said action and further waives all attorney's fees, costs, disbursements, and expenses incurred in connection therewith. If, prior to the close of the execution of this transaction, Seller is served with a Summons and Complaint in Eminent Domain in which Seller is a named defendant, upon the closing of this transaction, Seller agrees and consents to Buyer taking a Default in said action.

14. WARRANTIES, REPRESENTATIONS, AND COVENANTS OF SELLER. Seller hereby warrants, represents, and/or covenants to Buyer that:

A. To the best of Seller's knowledge, there are no actions, suits, material claims, legal proceedings, or any other proceedings affecting the property or any portion thereof, at law, or in equity before any court or governmental agency, domestic or foreign.

B. To the best of Seller's knowledge, there are no encroachments onto the property by improvements on any adjoining property, nor do any buildings or improvements encroach on other properties.

C. Until the closing, Seller shall maintain the property in good condition and state of repair and maintenance, and shall perform all of its obligations under any service contracts or other contracts affecting the property.

D. Until the closing, Seller shall not do anything which would impair Seller's title to any of the property.

E. To the best of Seller's knowledge, neither the execution of this Agreement nor the performance of the obligations herein will conflict with, or breach any of the provisions of any bond, note, evidence of indebtedness, contract, lease, or other agreement or instrument to which Seller's property may be bound.

F. Until the closing, Seller shall, upon learning of any fact or condition which would cause any of the warranties and representations in this Section 14 (Warranties, Representations, and Covenants of Seller) not to be true as of closing, immediately give written notice of such fact or condition to Buyer.

15. HAZARDOUS WASTE. Neither Seller nor, to the best of Seller's knowledge, any previous owner, tenant, occupant, or user of the Property used, generated, released, discharged, stored, or disposed of any hazardous waste, toxic substances, or related materials ("Hazardous Materials") on, under, in, or about the Property, or transported any Hazardous Materials to or from the Property. Seller shall not cause or permit the presence, use, generation, release, discharge, storage, or disposal of any Hazardous Materials on, under, in, or about, or the transportation of any Hazardous Materials to or from, the Property. The term "Hazardous Material" shall mean any substance, material, or waste which is or becomes regulated by any local governmental authority, the State of California, or the United States Government, including, but not limited to, any material or substance which is (i) defined as a "hazardous waste", "extremely hazardous waste", or "restricted hazardous waste" under Section 25115, 25117 or 25122.7, or listed pursuant to Section 25140 of the California Health and Safety Code, Division 20, Chapter 6.5 (Hazardous Waste Control Law), (ii) defined as "hazardous substance" under Section 25316 of the California Health and Safety Code, Division 20, Chapter 6.8 (Carpenter-Presley-Tanner Hazardous Substance Account Act), (iii) defined as a "hazardous material", "hazardous substance", or "hazardous waste" under Section 25501 of the California Health and Safety Code, Division 20, Chapter 6.95 (Hazardous Materials Release Response Plans and Inventory), (iv) defined as a "hazardous substance" under Section 25281 of the California Health and Safety Code, Division 20, Chapter 6.7 (Underground Storage of Hazardous Substances), (v) petroleum, (vi) asbestos, (vii) polychlorinated byphenyls, (viii) listed under Article 9 or defined as "hazardous" or "extremely hazardous" pursuant to Article 11 of Title 22 of the California Administrative Code, Division 4, Chapter 20, (ix) designated as a "hazardous substances" pursuant to Section 311 of the Clean Water Act, (33 U.S.C. S1317), (x) defined as a "hazardous waste" pursuant to Section 1004 of the Resource Conservation and Recovery Act, 42 U.S.C. S6901 et seq. (42 U.S.C. S6903) or (xi) defined as a "hazardous substances" pursuant to Section 101 of the Comprehensive Environmental Response, Compensation, as amended by Liability Act, 42. U.S.C. S9601 et seq. (42 U.S.C. S9601).

16. COMPLIANCE WITH ENVIRONMENTAL LAWS. To the best of Seller's knowledge the Property complies with all applicable laws and governmental regulations including, without limitation, all applicable federal, state, and local laws pertaining to air and water quality, hazardous waste, waste disposal, and other environmental matters, including, but not limited to, the Clean Water, Clean Air, Federal Water Pollution Control, Solid Waste Disposal, Resource Conservation Recovery and Comprehensive Environmental Response Compensation and Liability Acts, and the California Environment Quality Act, and the rules, regulations, and ordinances of the city within which the subject property is located, the California Department of Health Services, the Regional Water Quality Control Board, the State Water Resources Control Board, the Environmental Protection Agency, and all applicable federal, state, and local agencies and bureaus.

17. INDEMNITY. Seller agrees to indemnify, defend and hold Buyer harmless from and against any claim, action, suit, proceeding, loss, cost, damage, liability, deficiency, fine, penalty, punitive damage, or expense (including, without limitation, attorneys' fees), resulting from, arising out of, or based upon (i) the presence, release, use, generation, discharge, storage, or disposal of any Hazardous Material on, under, in or about, or the transportation of any such materials to or from, the Property, or (ii) the violation, or alleged violation, of any statute, ordinance, order, rule, regulation, permit, judgment, or license relating to the use, generation, release, discharge, storage, disposal, or transportation of Hazardous Materials on, under, in, or about, to or from, the Property. This indemnity shall include, without limitation, any damage, liability, fine, penalty, punitive damage, cost, or expense arising from or out of any claim, action, suit or proceeding for personal injury (including sickness, disease, or death, tangible or intangible property damage, compensation for lost wages, business income, profits or other economic loss, damage to the natural resource or the environment, nuisance, pollution, contamination, leak, spill, release, or other adverse effect on the environment). This indemnity extends only to liability created prior to or up to the date this escrow shall close. Seller shall not be responsible for acts or omissions to act post close of this escrow.

18. CONTINGENCY. It is understood and agreed between the parties hereto that the completion of this transaction, and the escrow created hereby, is contingent upon the specific acceptance and approval from the Buyer herein.

19. WAIVER OF CLAIMS. Seller acknowledges that the acquisition of the property by Buyer is for a public purpose, and therefore, the property is otherwise subject to taking by the power of eminent domain. Seller acknowledges that this transaction is a negotiated settlement in lieu of condemnation and agrees that the purchase price to be paid herein shall constitute full and fair compensation and consideration for any and all claims that Seller may have against Buyer by reason of the acquisition, improvement, possession, use and/or occupancy of the property, and Seller hereby waives any and all claims, including, but not limited to, claims for attorney’s fees, pre-condemnation damages, severance damages, business goodwill, relocation assistance, or any other claim.

20. GENERAL PROVISIONS. The terms and conditions, covenants, and agreements set forth herein shall apply to and bind the heirs, executors, administrators, assigns and successors of the parties hereto.

This Agreement and each provision contained herein may be waived, amended, supplemented, or eliminated only by mutual written agreement of the parties.

If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

This Agreement contains the entire agreement between both parties, neither party relies upon any warranty or representation not contained in this Agreement.

IN WITNESS WHEREOF, the City of Roseville, a Municipal Corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ___ day of _____, 20__, and Seller has caused this Agreement to be executed.

CITY OF ROSEVILLE
TEMPORARY CONSTRUCTION EASEMENT

SOURCE INVESTMENTS, LLC, A CALIFORNIA LIMITED LIABILITY COMPANY ("Grantors") grant to the City of Roseville, a municipal corporation ("Grantee") and the City's contractors, subcontractors, agents and employees a TEMPORARY CONSTRUCTION EASEMENT for purposes of constructing the Roseville Parkway Widening Project – Phase 1 ("Project").

This TEMPORARY CONSTRUCTION EASEMENT shall include, but is not limited to, Grantee's use of Grantors' property for ingress and egress, excavation, construction purposes, staging areas, and all other activities whatsoever in nature incidental to the Project over, upon and across all that real property located at 990 and 996 Pleasant Grove Blvd, Roseville, CA 95678 in the City of Roseville, County of Placer, State of California, depicted in Exhibit "A," attached hereto and made a part hereof.

This Temporary Construction Easement shall become effective on June 1, 2026 ("Effective Date") and shall terminate on December, 2027 ("Termination Date"), unless otherwise extended in writing by Grantors.

Grantee shall indemnify, defend, protect and hold Grantors harmless from and against all liability, claims, demands, damages or costs of any kind whatsoever arising from or connected with Grantee's construction activities on Grantors' property during the term of the TEMPORARY CONSTRUCTION EASEMENT granted herein. Grantee shall return Grantors' property to the like condition as at the commencement of the term of the TEMPORARY CONSTRUCTION EASEMENT as modified by the construction.

Grantee, including its contractors and agents, shall coordinate with Grantors in advance of any construction activity under this Temporary Construction Easement regarding the scope, timing, access, staging, storage, site maintenance, restoration, and cleanup. All work shall be conducted in a commercially reasonable manner to avoid disruption to ongoing business operations. The parties will work in good faith to resolve any construction-related issues that arise.

It is understood and agreed that upon said termination date and the physical restoration of the TEMPORARY CONSTRUCTION EASEMENT area, Grantee shall have no further obligation or liability in connection with said parcel.

RESOLUTION NO. 26-248

APPROVING AN EASEMENT VARIANCE AND MODIFICATION AGREEMENT, BETWEEN THE CITY OF ROSEVILLE AND SOURCE INVESTMENTS, LLC, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, Source Investments, LLC "Owner" is the fee title owner of that certain real property located at 990 and 996 Pleasant Grove Boulevard, Roseville, California (the "Property"), designated as Placer County APNs 363-030-089 and 363-030-090; and

WHEREAS, the Property is subject to a recorded 35-foot landscaping easement fronting Pleasant Grove Boulevard, as set forth in Book 34, Page 132, of Parcel Maps, recorded on March 24, 2009, as Document No. 09-0023446, Official Records of Placer County" (the "Easement") in addition to the 50-foot landscape setback required by the Specific Plan; and

WHEREAS, as part of the City's Roseville Parkway Widening Project – Phase I (the "Project"), the City has acquired a portion of the Property within the easement area; and

WHEREAS, the Project will permanently reduce the depth of the required landscaping area from 50 feet to approximately 39 feet, and full restoration of the 50-foot width would eliminate 21 parking spaces and result in zoning noncompliance for the Property; and

WHEREAS, the parties desire to enter into this Agreement to formally acknowledge and record the permanent modification of the landscape setback requirement and establish that the reduced landscaping area is acceptable under City planning and zoning standards; and

WHEREAS, the Easement Variance and Modification Agreement, by and between the City of Roseville and Source Investments, LLC, has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said is hereby approved and that the City Manager is authorized to execute it on behalf of the City of Roseville; and

PASSED AND ADOPTED by the Council of the City of Roseville this ___ day of _____, 2026, by the following vote on roll call:

EASEMENT VARIANCE AND MODIFICATION AGREEMENT

This Easement Variance and Modification Agreement ("Agreement") is made and entered into this ___day of _____, 2026, by and between the City of Roseville, a municipal corporation ("City") and Source Investments, LLC, a California limited liability company ("Owner").

RECITALS

A. Owner is the fee title owner of that certain real property located at 990 and 996 Pleasant Grove Boulevard, Roseville, California (the "Property"), designated as Placer County APNs 363-030-089 and 363-030-090.

B. The Property is subject to a recorded 35-foot landscaping easement fronting Pleasant Grove Boulevard, as set forth in Book 34, Page 132, of Parcel Maps, recorded on March 24, 2009, as Document No. 09-0023446, Official Records of Placer County" (the "Easement"). In addition, the Specific Plan requires a 50-foot landscape setback.

C. As part of the City's Roseville Parkway Widening Project – Phase I (the "Project"), the City has acquired, through voluntary acquisition or eminent domain, a portion of the Property within the easement area.

D. The Project will permanently reduce the depth of the required landscaping area from 50 feet to approximately 39 feet, and full restoration of the 50-foot width would eliminate 21 parking spaces and result in zoning noncompliance for the Property.

E. The parties desire to enter into this Agreement to formally acknowledge and record the permanent modification of the landscape setback requirement and establish that the reduced landscaping area is acceptable under City planning and zoning standards.
NOW, THEREFORE, the parties agree as follows:

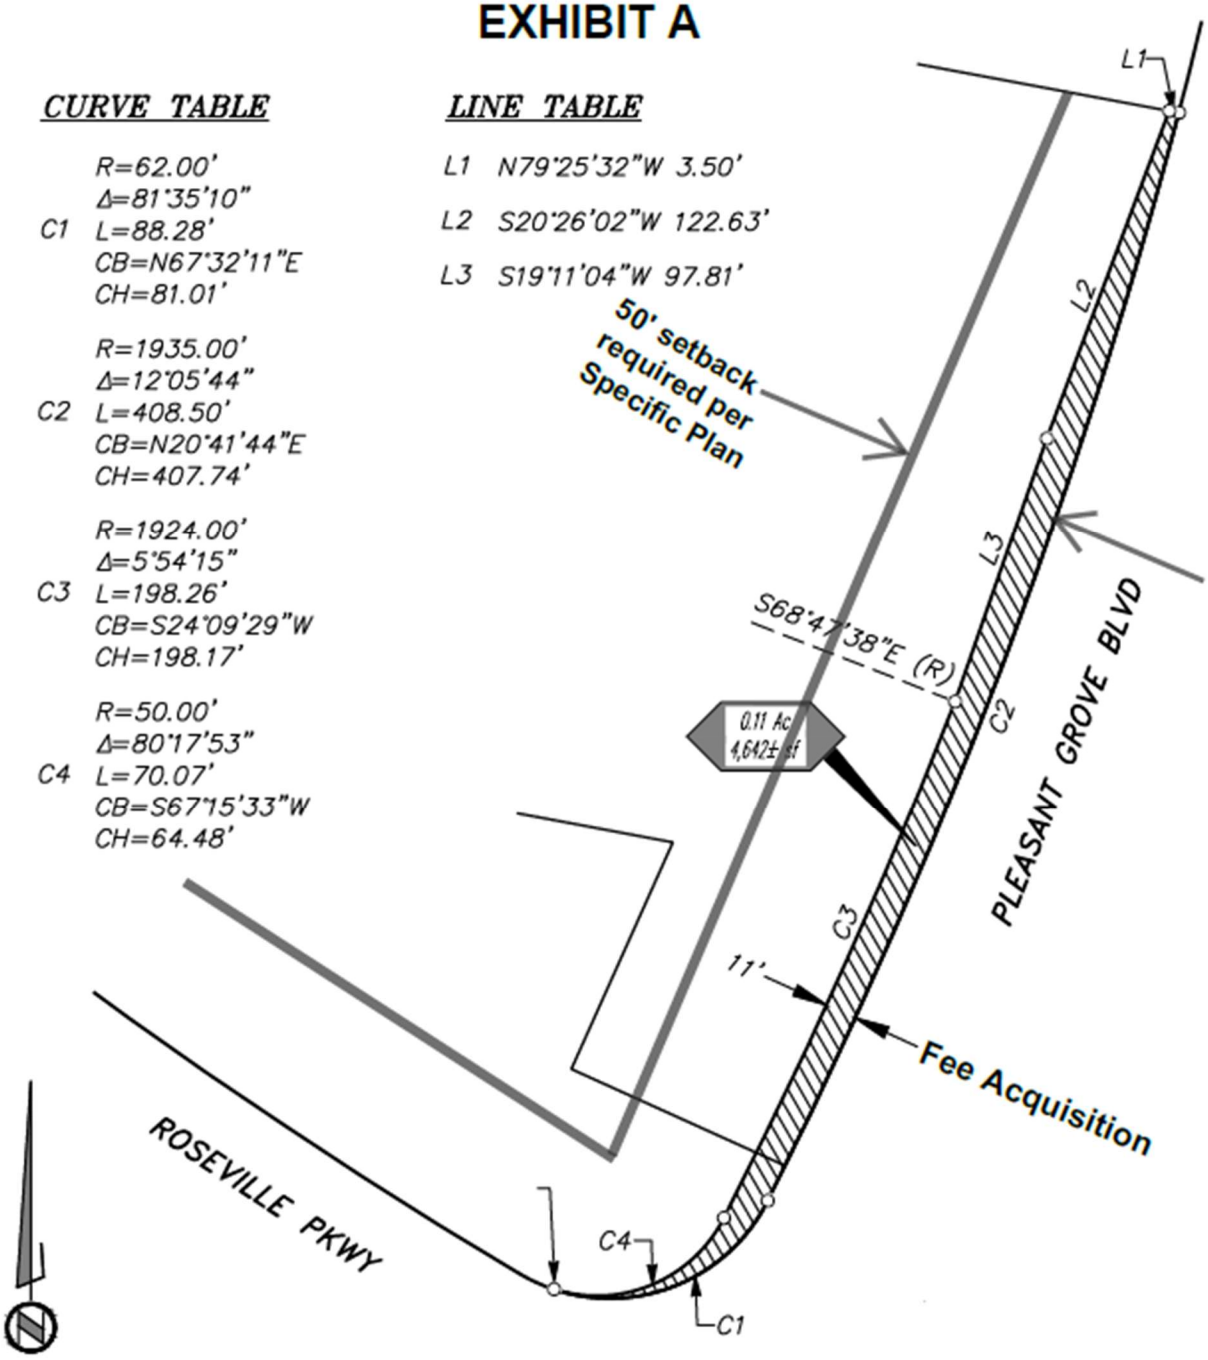
1. Modification of Easement. The landscaping easement described above is hereby modified to reduce its required depth from 50 feet to approximately 39 feet for that portion impacted by the Project, as shown on Exhibit A attached hereto.

2. Acknowledgment of Compliance. The City agrees that the reduction in landscaping buffer as a result of the Project shall not cause the Property to be in violation of any applicable zoning, setback, or landscaping requirements.

3. Covenant Not to Enforce. The City covenants and agrees not to enforce or require compliance with the original 50-foot landscape setback requirement as to the portion reduced by the Project.

4. Binding Effect. This Agreement shall run with the land and bind the successors and assigns of the parties.

5. Recordation. This Agreement shall be recorded in the Official Records of Placer County concurrently with the recordation of the Grant Deed and Temporary Construction Easement.



IN WITNESS WHEREOF, the parties have executed this Agreement as of the date first above written.

Title:	Zero Emission Charge Depot Project Phase 2 - Contract Purchase Agreement
Contact:	Brandy LeBeau 916-774-5531 blebeau@roseville.ca.us

SUMMARY

Staff recommends awarding a contract purchase agreement with Vasko Electric Inc. in the amount of $292,013, plus 15% change order authority, for the installation of Electric Vehicle Charging Stations for the Zero Emissions Charge Depot, Phase 2. This phase includes the remaining level 2 chargers required to fully support the City's light-duty fleet at the Roseville Corporation yard. Funding for this work was allocated in Fiscal Year (FY) 2025-26 in the Corporation Yard Charge Depot - Light Duty - Phase 2 project budget, funded by the Fleet Operations Fund. No General Fund resources are being used for this project. This investment represents a continued, strategic advancement of the City's long-term fleet electrification goals and ensures the necessary infrastructure is in place to reliably support zero-emission operations.

RECOMMENDATION

Staff recommends that the City Council adopt a resolution approving the award of a Contract Purchase Agreement (3005440) to Vasko Electric Inc. for the Zero Emission Charge Depot Project Phase 2, and authorize the City Manager to execute it on behalf of the City of Roseville.
Staff further requests that the City Council authorize the City Manager, or designee, to approve change orders consistent with the contract terms, provided that the cumulative total of all change orders does not exceed fifteen percent (15%) of the original contract amount. This authority ensures efficient project delivery while maintaining appropriate fiscal oversight and accountability.

BACKGROUND

The California Air Resources Board (CARB) adopted the Innovative Clean Transit (ICT) regulation in December 2018 and the Advanced Clean Fleets (ACF) regulation in April 2023. These landmark regulations require public agencies to progressively transition to a 100 percent zero-emission vehicle (ZEV) fleet. Together, these policies establish a clear statewide framework supporting the long-term decarbonization of public transit and municipal fleet operations.

In alignment with these requirements and anticipating future fleet needs, the City Council accepted the Roseville Transit Zero-Emission Business Plan on May 20, 2020. The Zero Emission Bus and Fleet Depot (ZEBD) project was identified as a critical infrastructure investment necessary to support the deployment of electric buses and the broader electrification of the City's fleet.

The completed Phase 1 of the ZEBD project was successfully delivered through a diverse funding strategy, including Local Transportation Funds, Electric Funds, Air Quality Mitigation Funds, the Low Carbon Transit Operations Program, Placer County Air Pollution Control District grants, and American Rescue Plan Act funding. This collaborative funding approach demonstrates the City's strong commitment to leveraging external and restricted funding sources to advance sustainability initiatives while minimizing General Fund impact.

Phase 1 of the ZEBD project converted existing land use by replacing 45 light-duty vehicle parking spaces and adjacent turf areas with a modernized facility that includes 30 bus stalls and 72 light-duty parking spaces. Within this scope, nine bus stalls and ten light-duty parking stalls were equipped as part of the initial electrification infrastructure. This phase established the foundation for a scalable, future-ready electrification depot that supports both transit and municipal fleet operations.

In April 2026, Request for Proposals (RFP) No. 15-128 was issued via Public Purchase to solicit qualified contractors for the next critical step in the City's phased electrification strategy. The RFP included one primary component:

1. Base Bid (Phase 2): Installation of 37 Level 2 charging stations to expand operational readiness for the City's fleet vehicles.

The proposed contract purchase agreement represents the scope of work requested in RFP No. 15-128 for phase 2, focusing on completing the remaining level 2 charging infrastructure. This final phase will provide comprehensive charging capacity to support current operations and future fleet growth. This investment, funded through the Fleet Operations Fund, ensures the City remains well-positioned to meet ACF compliance requirements while maintaining operational reliability, service continuity, and long-term sustainability goals.

FISCAL IMPACT

Funding for this work was allocated in FY2025-26 in the Corporation Yard Charge Depot - Light Duty - Phase 2 project budget, funded by the Fleet Operations Fund. No General Fund resources are being used for this project.

ENVIRONMENTAL REVIEW

The proposed project involves the minor alteration of an existing facility and condition of the land. It also involves the construction of a limited number of small facilities. This project qualifies as a Class 1, Class 3 and Class 4 Exemptions as described in Section 15301, 15303 and 15304 of the California Environmental Quality Act (CEQA). The Exemption has been prepared and no further CEQA action is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

2. Remain fiscally responsible in a changing world
6. Deliver exceptional City services
4. Invest in well-planned infrastructure and growth

Contract Terms and Conditions

1. To the fullest extent allowed by law, Contractor shall defend, indemnify, and save and hold harmless the City, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of Contractor's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from City's sole or active negligence or willful misconduct. The parties intend that this provision shall be broadly construed. Contractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.
2. Contractor is an independent contractor, and shall not be considered an officer, agent, or employee of the City.
3. Without the written consent of the City, this Agreement is not assignable by Contractor either in whole or in part.
4. Time is of the essence of this Agreement.
5. At any time during the term of this Agreement, the City has the right to terminate this Agreement, provided Contractor is given thirty (30) days written notice. City's termination shall be without further liability to City; however, Contractor shall be entitled to all costs reasonably incurred prior to the date of termination. Contractor acknowledges that City may terminate this Agreement should funds not be appropriated by its governing body to continue services under this Agreement.
6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.
7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.
8. Unless notified to the contrary, in writing, the City assumes that the Contractor has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement.
9. All prevailing wages and fair employment practices must be adhered to. For prevailing wage contracts over $25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm. In compliance with Labor Code Section 1773.2, as may be amended from time to time, Contractor shall cause a copy of this website to be posted at each jobsite, as applicable.
10. Contractor agrees to the below insurance requirements:
    a. Unless otherwise specified, the Contractor shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance coverage.
    b. Form. Contractor shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management

Docusign Envelope ID: A45FA41A-4E6C-82C4-82DA-F0A893ED8CF1

and the City Attorney.

c. Additional Insureds. Contractor shall also provide a separate endorsement or section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage (except Workers' Compensation) and for ongoing and completed operations. Such insurance shall specifically cover the contractual liability of Contractor. The additional insured coverage under the Contractor's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office (ISO) CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be:

(1) the minimum coverage and limits specified in this Agreement; or
(2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

d. Cancellation/Modification. Contractor shall provide thirty (30) days written notice to City prior to cancellation or modification of any insurance required by this Agreement.

e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.

f. Subcontractors. Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, Contractor shall require its subcontractors to agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under this Agreement. Additionally, Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

g. Self-Insured Retentions. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

h. Waiver of Subrogation. Contractor hereby agrees to waive subrogation which any insurer of Contractor may acquire from Contractor by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Contractor, its employees, agents and subcontractors.

i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Contractor of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.

Docusign Envelope ID: A45FA41A-4E6C-82C4-82DA-F0A893ED8CF1

11. Contractor shall comply with all federal, state and local laws and ordinances, including but not limited to the City's storm water regulations, as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances may result in monetary fines and cancellation of this Agreement. Refer to www.roseville.ca.us/stormwater for links to more information on the City's storm water regulations.
12. In the event that the terms of any attachment or exhibit conflict with any terms of this Agreement, the terms of this Agreement shall control.
13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original thereof.
14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.
16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
17. For purposes of this Agreement, the terms "Contractor," "Consultant," and "Supplier" are used interchangeably.
18. No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
19. Contractor/consultant's duties and services under this agreement shall not include preparing or assisting the public entity with any portion of the public entity's preparation of a request for proposals, request for qualifications, or any other solicitation regarding a subsequent or additional contract with the public entity. The public entity entering this agreement shall at all times retain responsibility for public contracting, including with respect to any subsequent phase of this project. Contractor/consultant's participation in the planning, discussions, or drawing of project plans or specifications, if any, shall be limited to conceptual, preliminary, or initial plans or specifications. Contractor/consultant shall cooperate with the public entity to ensure that all bidders for a subsequent contract on any subsequent phase of this project have access to the same information, including all conceptual, preliminary, or initial plans or specifications prepared by contractor pursuant to this agreement.
20. Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.
21. Contractor certifies that Contractor, its employees, directors, officers, agents, subcontractors, vendors, and volunteers are not presently debarred, excluded, suspended,

Docusign Envelope ID: A45FA41A-4E6C-82C4-82DA-F0A893ED8CF1

declared ineligible, voluntarily excluded, or proposed for debarment, exclusion, suspension, or ineligibility by any federal, state, or local department or agency.

22. The Levine Act (Govt. Code, Section 84308) requires a Party (and its agent(s), if any) to a Proceeding before the City of Roseville that involves any action or consideration related to their contract, license, permit, or other entitlement for use, to disclose any campaign contributions made to City elected or appointed officers totaling more than $500 within the twelve (12) months prior to the City decision and while a proceeding is pending, and includes certain prohibitions on contribution activity thereafter. If applicable campaign contributions have been made by Contractor and/or its agent(s), Contractor is responsible for compliance, including for its disclosure obligations, if any, as further described at: https://www.roseville.ca.us/government/departments/city_clerk/transparency/levine_act.
23. This Agreement may be amended via change order, but only if such change order is made in writing, approved by the City, and signed by both parties.
24. CONTRACTOR agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONTRACTOR and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

    CONTRACTOR and CITY agree that: (a) CONTRACTOR is free from the control and direction of CITY in connection with the performance of the work; (b) CONTRACTOR is providing services directly to CITY; (c) CONTRACTOR has and will maintain at all relevant times a business license; (d) CONTRACTOR maintains a business location that is separate from CITY; (e) CONTRACTOR is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) CONTRACTOR actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) CONTRACTOR advertises and holds itself out to the public as available to provide the same or similar services; (h) CONTRACTOR provides its own tools, vehicles, and equipment to perform the services; (i) CONTRACTOR has negotiated its own rates; (j) CONTRACTOR set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONTRACTOR has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

The supplier named hereon by the acceptance of this order agrees to the provisions of this document titled "Contract Purchase Agreement" and all accompanying terms, conditions, and attachments.

Insurance Submission Process

The City of Roseville Human Resources/Risk Management Department uses a service called EBIX to manage our insurance certificate tracking.

How It Works

- The vendor's contact information is entered into EBIX. EBIX will contact the vendor to request proof of insurance.
- The Vendor can forward the request to their Insurance Agent(s) if necessary.
- Vendor/Insurance Agent submits insurance to EBIX by email to roseville@ebix.com or by fax to (770) 325-5727. After faxing or emailing the certificate, please DO NOT send the certificate by mail to EBIX. Please do not mail, email or fax any certificates to the City of Roseville.
- Once submitted, EBIX reviews the insurance documentation. If there are deficiencies, EBIX will send a follow up letter or email requesting additional information.

Questions Regarding Insurance Submission: Contact EBIX at (951) 652-4239
Questions Regarding Insurance Requirements Contact Risk Management at (916) 774-5202

Asbestos-Containing Materials in City-Owned Buildings

California Health and Safety Code Section 25915 requires that all City of Roseville employees, contractors and lessees be notified annually of the presence of asbestos in City-owned buildings constructed prior to 1979. Please post this notice in an area(s) accessible to all employees, contractors and lessees. Contact Facility Maintenance & Operations at (916) 774-5740 for more information about Asbestos Containing Materials (ACMs) in specific City-owned buildings. For more information about asbestos refer to the OSHA website.

The City of Roseville is committed to maintaining a safe and healthy work environment. The City's Facility Maintenance & Operations staff conducts ongoing inspections to identify and safely manage previously installed asbestos-containing products. Renovation of City-owned buildings **MUST** be reviewed in advance by Facility Maintenance & Operations to ensure the City is in compliance with building codes, Americans with Disabilities Act and that no ACMs are disturbed without proper safeguards. Work that requires removal or repair of ACMs is restricted to trained and qualified persons only. **Facility Maintenance & Operations will need to approve the qualified contractors**.

Use the following measures to protect you and others from exposure to airborne asbestos:

- Presume all building materials contain asbestos until determined otherwise by Facility Maintenance & Operations.
- Do not install walls, closets, cabinets, ceilings.
- Do not remove, cut, drill, sand, grind or otherwise disturb any material in the buildings, including carpet and tile.
- Do not paint (this includes any walls, ceilings, floors and electrostatic painting of office furniture).
- Do not remove any items nailed or screwed to the walls (this includes pictures, cabinets, electrical, etc.).
- Do not go above ceilings, behind walls or into building spaces such as attics and crawlspaces unless these areas have been inspected and cleared by Facility Maintenance & Operations.
- Do not pull cable or wiring through above-ceiling spaces with asbestos.
- Do not install screws, pins, nails or hangers into asbestos ceiling or wall plaster.
- Be careful not to damage walls, ceilings or floors when moving furniture or equipment. It is recommended that Facility Maintenance & Operations be contacted prior to moving furniture or equipment.
- Do not brush, sweep or vacuum textured asbestos ceiling plaster or plaster debris.
- Immediately report any damage or deterioration of suspect building materials to Facility Maintenance & Operations or Risk Management.

It is important to note that the presence of asbestos does not mean you have been exposed. Exposure results when friable asbestos particles are inhaled or ingested. Asbestos becomes friable when material containing asbestos is drilled, sanded or disturbed by remodeling or demolition work or when the ACM has deteriorated. Intact, bonded, sealed or undisturbed asbestos does not pose a hazard.

Employees may review the asbestos survey reports, results of bulk sampling or air monitoring conducted in City-owned buildings. All asbestos data will be available by appointment with Facility Maintenance & Operations.

NOTICE OF INTENT TO AWARD

Date: May 18, 2026

To: All bidders, concerning the **Request for Proposal # 15-128 - Zero Emissions Charge Depot - Phase 2)**

From: Public Works - Fleet Services

Subject: Notice of Intent to Award

Regarding the **Zero Emissions Charge Depot - Phase 2 Project**, for which the Request for Proposal was released on April 9, 2026 and for which bids were received, by the City Clerk's office on May 13, 2026; a most qualified firm has been determined.

The City has determined **Vasko Electric** to be the more qualified bidder and intends to recommend City Council approval of a Contract Purchase Agreement at the first available City Council meeting.

CITY OF ROSEVILLE CALIFORNIA

Notice of Exemption

To: Placer County Clerk
Recorder's Office
2954 Richardson Drive
Auburn, CA 95603

From: City of Roseville
Development Services Dept.
311 Vernon Street
Roseville, CA 95678

Project Title: City of Roseville Zero Emissions Bus Depot

Project Location: City of Roseville Corporation Yard, 2005 Hilltop Circle, Roseville CA, 95747 (APN 473-110-009-000)

Project Description: The City of Roseville proposes to construct the project on 1.77 acres at the existing Corporation Yard, at 2005 Hilltop Circle, in Roseville. The project will replace an existing landscaped area (primarily comprised of irrigated turf) and 45 asphalt paved parking stalls, with 30 electrified bus parking spaces and 72 new electrified parking stalls. New utility trenching will be required to connect to existing electric and drainage infrastructure. New electrical infrastructure includes 2 new transformers, and 2 new switchgear. Landscape removed will include grass, shrubbery, and non-protected trees.

Public Agency Approving Project: Roseville City Council

Agency Carrying Out Project: Roseville Public Works Department

Reason why this Project is Exempt: This project qualifies for Class 1, Class 3, and Class 4 Exemptions as described in Section 15301, 15303 and 15304 of the California Environmental Quality Act (CEQA) Guidelines which states:

"Class 1 consists of...minor alteration of existing public...facilities...involving negligible or no expansion of use beyond that previously existing...examples include but are not limited to: (b) Existing facilities of...publicly-owned utilities used to provide electric power... or other public utility services...involving negligible or no expansion of existing or former use."

"Class 3 consists of construction and location of limited numbers of new, small facilities or structures... examples of this exemption include but are not limited to: (e) Accessory (appurtenant) structures...."

"Class 4 consists of...minor alteration in the condition of the land...including minor trenching and backfilling where the surface is restored,...and which will not remove healthy, mature scenic trees.

The project involves modification to an existing facility located within the City's Corporation Yard. The Project will not result in expansion of use, or include removal of protected trees, therefore the Class 1, Class 3 and Class 4 Exemptions are applicable to the proposed project.

Item ID: 2026-437

Title:	School Crossing Guards for Roseville City School District - Memorandum of Understanding
Contact:	Suzanne Engelke 916-746-1289 sengelke@roseville.ca.us

SUMMARY

Staff recommends approval of a Memorandum of Understanding with Roseville City School District for reimbursement of three school crossing guards for $27,900 in 2026-27, $28,800 in 2027-28, and $29,700 in 2028-29 school years. Funding is included in the Public Works/Alternative Transportation budget. No General Fund resources are used for this service.

RECOMMENDATION

Staff recommends that the City Council adopt a resolution to approve a Memorandum of Understanding (MOU) between the City of Roseville and the Roseville City School District regarding School Crossing Guard Services and authorize the City Manager to execute it on behalf of the City of Roseville.

BACKGROUND

Roseville's Alternative Transportation Division of Public Works assigns school crossing guards (SGC) to elementary and middle schools where traffic studies indicate a SCG is needed. SCGs escort children across designated intersections, observe and report traffic violations, promote and enforce safety procedures for pedestrians and bicyclists, and survey designated areas for potential hazards to students' health and welfare. The Alternative Transportation Division pays the salary and benefits of SCGs.

In some instances, traffic studies may show a SCG is not fully warranted for a location. However, City staff and the school district may agree it is beneficial to place an SGC at a location. This MOU would facilitate 50% salary and benefit annual reimbursement from the school district for each SCG placed at a location that did not fully warrant one.

FISCAL IMPACT

Local Transportation Funds pay for SCG salary and benefits, training, and equipment. To partially offset the City's operational costs, the district has agreed to pay 50% of salary and benefits costs for SCGs at locations that do not fully warrant a SCG.

The district has agreed to pay:

2026-2027 school year: 3 SGC = $27,900

2027-2028 school year: 3 SCG = $28,800

2028-2029 school year: 3 SCG = $29,700

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of an MOU for School Crossing Guards meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

1. Ensure a safe and healthy community
2. Remain fiscally responsible in a changing world

Respectfully Submitted,
Suzanne Engelke, Associate Transportation Planner

Jason Shykowski, Public Works Director

RESOLUTION NO. 26-234

APPROVING A MEMORANDUM OF UNDERSTANDING, BY AND BETWEEN THE CITY OF ROSEVILLE AND THE ROSEVILLE CITY SCHOOL DISTRICT, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, a Memorandum of Understanding regarding school crossing guard services, by and between the City of Roseville and the Roseville City School District, has been reviewed by the City Council;

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said Memorandum of Understanding is approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

PASSED AND ADOPTED by the City Council of the City of Roseville this _____ day of _____, 20___, by the following vote on roll call:

AYES COUNCIL MEMBER:

NOES COUNCIL MEMBER:

ABSENT COUNCIL MEMBER:

_____
Mayor

ATTEST:

_____
City Clerk

MEMORANDUM OF UNDERSTANDING
BETWEEN THE CITY OF ROSEVILLE AND THE
ROSEVILLE CITY SCHOOL DISTRICT
REGARDING SCHOOL CROSSING GUARDS

THIS MEMORANDUM OF UNDERSTANDING ("MOU") is made and entered into this ___ day of _____, 20__, by and between the City of Roseville, a municipal corporation ("CITY"), and the Roseville City School District, a public school district ("DISTRICT"); and

W I T N E S S E T H:

WHEREAS, DISTRICT desires the City of Roseville ("COR") to assign School Crossing Guards ("SCGs") to school campuses to assist DISTRICT in providing its pupils with a safe and secure route to and from school; and

WHEREAS, DISTRICT is willing to partially compensate CITY for CITY's operational costs in providing the SCGs;

WHEREAS, CITY is willing to provide the SCGs to perform crossing guard duties in support of its safety goals; and

WHEREAS, any and all prior MOUs or agreements between CITY and DISTRICT are hereby repealed and replaced by this MOU.

NOW, THEREFORE, the parties agree as follows:

1. Crossing Guard Services.

a. CITY will provide as warranted one SCG to perform regular crossing guard duties near Thomas Jefferson Elementary School, one SCG near Vencil Brown Elementary School and Buljan Middle School, one SCG near Riego Creek Elementary School and Chilton Middle School, and other schools as needed during the schools' 2026-2027, 2027-2028, and 2028-2029 school calendars on student days of attendance. SCG hours are 30-40 minutes before school start time and 30-40 minutes after school dismissal for normal hours of operation, typically defined as 7:10 a.m. to 8:05 a.m. and 1:55 p.m. to 2:30 p.m. on student days of operation; subject, however, to the availability of the SCGs as determined by CITY as set forth in subsection (c).

b. The scope of work of the SCGs shall be limited to those duties as described in the Scope of Work document attached hereto as Exhibit "A" and incorporated by this reference. Services to be performed by the SGCs will be at the specified crossing sites near the school as determined by traffic counts performed by the CITY.

c. For purposes of this MOU, "availability" shall be in the sole determination of the CITY Safe Route to Schools Coordinator, or his/her designated representative, taking into consideration any factors including, without limitation, the health of the SCG, vacations, and staff shortage. However, in specific instances of a SGC taking a leave of absence for more than one week, another available school crossing guard will be assigned temporarily to the applicable school during such leave. CITY will communicate with and notify school site administration as soon as possible when a SCG will not be available on a student day of attendance. CITY shall advise the SCGs to take into consideration the school vacation calendar when scheduling time off.

d. The parties agree that CITY retains control over assignments, wages and other terms and conditions of employment by CITY of the SCGs. DISTRICT acknowledges that the SCGs are held to the requirements of the law and CITY policy. DISTRICT agrees that it shall not have authority to direct the SCG's activities. DISTRICT will immediately notify the CITY of any concerns regarding the SGCs.

2. DISTRICT Payment.

a. It is understood and agreed by DISTRICT and CITY that DISTRICT will pay CITY less than full time cost of providing the SGCs. Actual payment could fluctuate if additional SCGs are requested or required than what is listed below. To partially offset CITY's operational budget costs in providing SGCs for the 2026-2027 through 2028-2029 school years, DISTRICT shall pay CITY the following:

1. 2026-2027: three (3) SGCs at nine thousand, three hundred dollars ($9,300) each for a total of twenty-seven thousand, nine hundred dollars ($27,900).

2. 2027-2028: three (3) SGCs at nine thousand, six hundred dollars ($9,600) each for a total of twenty-eight thousand, eight hundred dollars ($28,800).

3. 2028-2029: three (3) SGCs at nine thousand, nine hundred dollars ($9,900) each for a total of twenty-nine thousand, seven hundred dollars ($29,700).

b. If CITY receives additional funding from a Federal or State agency to be used to address school safety, the DISTRICT's payment may be negotiated at the DISTRICT's request.

3. Term of Agreement. This MOU shall commence upon execution and expire on June 30, 2029, unless terminated earlier in accordance with this MOU. The parties may elect to

extend the MOU and may negotiate the term of any optional renewal. Such extensions shall be memorialized by a written amendment to this Agreement.

4. Indemnification. Each party shall defend, indemnify, and hold harmless from liability the other party, its officers, agents, and employees of and from all claims, damages, costs, liabilities, or expenses which any of them shall become obligated to pay by reason of liability imposed by law because of injury to or death of persons or damage to property caused or resulting from or arising out of the party's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this MOU, except those matters arising from the other party's sole or active negligence. The parties intend that this provision shall be broadly construed.

5. Insurance. Each party hereto shall procure and maintain insurance policies or self-insurance programs to fund their respective liabilities under this MOU. CITY and DISTRICT agree to maintain the following coverages during the term of this MOU:

COVERAGE	LIMITS OF LIABILITY
Workers Compensation	Statutory
Commercial General Liability	$1,000,000 each occurrence $2,000,000 aggregate Personal Injury: $1,000,000 each occurrence $2,000,000 aggregate

Each party shall submit a certificate evidencing such coverage in a form satisfactory to the other party. Each party shall also provide a separate endorsement form or section of the policy showing the other party, its officers, agents and employees as additional named insureds for each type of coverage, except for Workers' Compensation.

6. Governing Agreement. In the event of any conflict between this Agreement and its Exhibits, the provisions of this Agreement shall govern.

7. Assignment. This MOU and the rights and duties hereunder shall not be assigned in whole or in part without the express written consent of the parties.

8. Independent Capacity. For purposes of this MOU, CITY and DISTRICT shall each act in an independent capacity and not as officers, employees or agents of the other. Nothing in this MOU establishes, constitutes or will be construed as establishing or constituting a partnership, agency or employment relationship between CITY and DISTRICT. SCGs providing services under this MOU shall remain the employees of CITY, and shall not be employees of DISTRICT. CITY shall retain full authority to direct and control the activities of the SCGs and supervise and discipline the SCGs in accordance with CITY policies and procedures.

9. No Liability for Other Party's Employees. Each party shall assume responsibility and liability for the acts of its own employees in connection with the performance of their official duties under this MOU. For tort liability purposes, neither party shall be considered the agent of the other party. Each party shall be liable, if at all, only for the torts of its own personnel that occur within the scope of their official duties and for which liability may be imposed under the law.

10. No Third Party Beneficiary. The parties to this MOU do not intend for any third party to obtain a right by virtue of this MOU.

11. Termination of Agreement. Either party may terminate this Agreement by giving the other party one (1) years advance written notice. In the event of termination, CITY shall be paid for all work performed to the date of termination, on a prorated basis.

12. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this MOU or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out of this MOU shall be brought in Placer County, California, regardless of where else venue may lie. This MOU shall be governed by and construed in accordance with the laws of the State of California.

13. Modification. This MOU and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

14. Severability. If any of the provisions contained in this MOU are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the MOU as a whole.

15. Notices. Any notices to parties required by this MOU shall be delivered personally or mailed, U.S. first class postage prepaid, addressed as follows:

CITY OF ROSEVILLE	DISTRICT
Jason Shykowski Public Works Director City of Roseville 311 Vernon Street. Roseville, CA 95678	Derk Garcia Superintendent Roseville City School District 1050 Main Street Roseville, CA 95678

Either party may amend its address for notice by giving notice to the other party in writing.

16. Integrated Agreement. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this MOU in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ___ day of _____, 20__, and DISTRICT has caused this MOU to be executed.

Title:	School Crossing Guards for Dry Creek Joint Elementary School District - Memorandum of Understanding
Contact:	Suzanne Engelke 916-746-1289 sengelke@roseville.ca.us

SUMMARY

Staff recommends approval of a Memorandum of Understanding with Dry Creek Elementary School District for reimbursement of one school crossing guard in the amount of $9,300 for 2026-27, $9,600 for 2027–28, and $9,900 for 2028–29 school years. Funding is included in the Public Works/Alternative Transportation budget. No General Fund resources are used for this service.

RECOMMENDATION

Staff recommends that the City Council adopt a resolution to approve a Memorandum of Understanding with the Dry Creek Joint Elementary School District for School Crossing Guard Services and authorize the City Manager to execute it on behalf of the City of Roseville.

BACKGROUND

Roseville's Alternative Transportation Division of Public Works assigns school crossing guards (SGC) to elementary and middle schools where traffic studies indicate a SCG is needed. SCGs escort children across designated intersections, observe and report traffic violations, promote and enforce safety procedures for pedestrians and bicyclists, and survey designated areas for potential hazards to students' health and welfare. The Alternative Transportation Division pays the salary and benefits of SCGs.

In some instances, traffic studies may show a SCG is not fully warranted for a location. However, City staff and the school district may agree it is beneficial to place an SGC at a location. This MOU would facilitate 50% salary and benefit annual reimbursement from the school district for each SCG placed at a location that did not fully warrant one.

FISCAL IMPACT

Local Transportation Funds pay for SCG salary and benefits, training, and equipment. To partially offset the City's operational costs, the district has agreed to pay 50% of salary and benefits costs for SCGs at locations that do not fully warrant a SCG.

The district has agreed to pay:

2026-2027 school year: 1 SGC = $9,300

2027-2028 school year: 1 SCG = $9,600

2028-2029 school year: 1 SCG = $9,900

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of an MOU for School Crossing Guards meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

1. Ensure a safe and healthy community
2. Remain fiscally responsible in a changing world

MEMORANDUM OF UNDERSTANDING
BETWEEN THE CITY OF ROSEVILLE AND THE
DRY CREEK JOINT ELEMENTARY SCHOOL DISTRICT
REGARDING SCHOOL CROSSING GUARDS

THIS MEMORANDUM OF UNDERSTANDING ("MOU") is made and entered into this ___ day of _____, 20__, by and between the City of Roseville, a municipal corporation ("CITY"), and the Dry Creek Joint Elementary School District, a public school district ("DISTRICT"); and

W I T N E S S E T H:

WHEREAS, DISTRICT desires the City of Roseville ("COR") to assign School Crossing Guards ("SCGs") to school campuses to assist DISTRICT in providing its pupils with a safe and secure route to and from school; and

WHEREAS, DISTRICT is willing to partially compensate CITY for CITY's operational costs in providing the SCGs;

WHEREAS, CITY is willing to provide the SCGs to perform crossing guard duties in support of its safety goals; and

WHEREAS, any and all prior MOUs or agreements between CITY and DISTRICT are hereby repealed and replaced by this MOU.

NOW, THEREFORE, the parties agree as follows:

1. Crossing Guard Services.

a. CITY will provide as warranted one SCG to perform regular crossing guard duties near Coyote Ridge Elementary School and other schools as needed during the schools' 2026-2027, 2027-2028, and 2028-2029 school calendars on student days of attendance. SCG hours are 30-40 minutes before school start time and 30-40 minutes after school dismissal for normal hours of operation, typically defined as 8:15 a.m. to 8:45 a.m. and 2:50 p.m. to 3:25 p.m. on student days of operation; subject, however, to the availability of the SCGs as determined by CITY as set forth in subsection (c).

b. The scope of work of the SCGs shall be limited to those duties as described in the Scope of Work document attached hereto as Exhibit "A" and incorporated by this reference. Services to be performed by the SGCs will be at the specified crossing sites near the school as determined by traffic counts performed by the CITY.

c. For purposes of this MOU, "availability" shall be in the sole determination of the CITY Safe Route to Schools Coordinator, or his/her designated representative, taking into consideration any factors including, without limitation, the health of the SCG, vacations, and staff shortage. However, in specific instances of a SGC taking a leave of absence for more than one week, another available school crossing guard will be assigned temporarily to the applicable school during such leave. CITY will communicate with and notify school site administration as soon as possible when a SCG will not be available on a student day of attendance. CITY shall advise the SCGs to take into consideration the school vacation calendar when scheduling time off.

d. The parties agree that CITY retains control over assignments, wages and other terms and conditions of employment by CITY of the SCGs. DISTRICT acknowledges that the SCGs are held to the requirements of the law and CITY policy. DISTRICT agrees that it

shall not have authority to direct the SCG's activities. DISTRICT will immediately notify the CITY of any concerns regarding the SGCs.

2. DISTRICT Payment.

a. It is understood and agreed by DISTRICT and CITY that DISTRICT will pay CITY less than full time cost of providing the SGCs. Actual payment could fluctuate if additional SCGs are requested or required than what is listed below. To partially offset CITY's operational budget costs in providing SGCs for the 2026-2027 through 2028-2029 school years, DISTRICT shall pay CITY the following:

1. 2026-2027: one (1) SGC at nine thousand, three hundred dollars ($9,300) each for a total of nine thousand, three hundred dollars ($9,300).

2. 2027-2028: one (1) SGC at nine thousand, six hundred dollars ($9,600) each for a total of nine thousand, six hundred dollars ($9,600).

3. 2028-2029: one (1) SGC at nine thousand, nine hundred dollars ($9,900) each for a total of nine thousand, nine hundred dollars ($9,900).

b. If CITY receives additional funding from a Federal or State agency to be used to address school safety, the DISTRICT's payment may be negotiated at the DISTRICT's request.

3. Term of Agreement. This MOU shall commence upon execution and expire on June 30, 2029, unless terminated earlier in accordance with this MOU. The parties may elect to extend the MOU and may negotiate the term of any optional renewal. Such extensions shall be memorialized by a written amendment to this Agreement.

4. Indemnification. Each party shall defend, indemnify, and hold harmless from

liability the other party, its officers, agents, and employees of and from all claims, damages, costs, liabilities, or expenses which any of them shall become obligated to pay by reason of liability imposed by law because of injury to or death of persons or damage to property caused or resulting from or arising out of the party's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this MOU, except those matters arising from the other party's sole or active negligence. The parties intend that this provision shall be broadly construed.

5. Insurance. Each party hereto shall procure and maintain insurance policies or self-insurance programs to fund their respective liabilities under this MOU. CITY and DISTRICT agree to maintain the following coverages during the term of this MOU:

COVERAGE	LIMITS OF LIABILITY
Workers Compensation	Statutory
Commercial General Liability	$1,000,000 each occurrence $2,000,000 aggregate Personal Injury: $1,000,000 each occurrence $2,000,000 aggregate

Each party shall submit a certificate evidencing such coverage in a form satisfactory to the other party. Each party shall also provide a separate endorsement form or section of the policy showing the other party, its officers, agents and employees as additional named insureds for each type of coverage, except for Workers' Compensation.

6. Governing Agreement. In the event of any conflict between this Agreement and its Exhibits, the provisions of this Agreement shall govern.

7. Assignment. This MOU and the rights and duties hereunder shall not be assigned in whole or in part without the express written consent of the parties.

8. Independent Capacity. For purposes of this MOU, CITY and DISTRICT shall each act in an independent capacity and not as officers, employees or agents of the other. Nothing in this MOU establishes, constitutes or will be construed as establishing or constituting a partnership, agency or employment relationship between CITY and DISTRICT. SCGs providing services under this MOU shall remain the employees of CITY, and shall not be employees of DISTRICT. CITY shall retain full authority to direct and control the activities of the SCGs and supervise and discipline the SCGs in accordance with CITY policies and procedures.

9. No Liability for Other Party's Employees. Each party shall assume responsibility and liability for the acts of its own employees in connection with the performance of their official duties under this MOU. For tort liability purposes, neither party shall be considered the agent of the other party. Each party shall be liable, if at all, only for the torts of its own personnel that occur within the scope of their official duties and for which liability may be imposed under the law.

10. No Third Party Beneficiary. The parties to this MOU do not intend for any third party to obtain a right by virtue of this MOU.

11. Termination of Agreement. Either party may terminate this Agreement by giving the other party one (1) years advance written notice. In the event of termination, CITY shall be paid for all work performed to the date of termination, on a prorated basis.

12. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this MOU or the performance thereof, the prevailing

party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out of this MOU shall be brought in Placer County, California, regardless of where else venue may lie. This MOU shall be governed by and construed in accordance with the laws of the State of California.

13. Modification. This MOU and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

14. Severability. If any of the provisions contained in this MOU are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the MOU as a whole.

15. Notices. Any notices to parties required by this MOU shall be delivered personally or mailed, U.S. first class postage prepaid, addressed as follows:

CITY OF ROSEVILLE	DISTRICT
Jason Shykowski Public Works Director City of Roseville 311 Vernon Street. Roseville, CA 95678	James Ferguson Assistant Superintendent Dry Creek Joint Elementary School District 8849 Cook Riolo Road Roseville, CA 95747

Either party may amend its address for notice by giving notice to the other party in writing.

16. Integrated Agreement. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this MOU in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ___ day of _____, 20__, and DISTRICT has caused this MOU to be executed.

Title:	Bus Shelter Improvement Project - Budget Adjustment
Contact:	Zachary Presley 916-774-5365 zpresley@roseville.ca.us

SUMMARY

Staff recommends approval of a budget adjustment in the amount of $232,505 in the Transit Fund to add State of Good Repair funding, provided by the state, to the Bus Shelter Improvement project. The project will replace existing shelters that have exceeded their useful life, while also installing new shelters at locations served by the City's expanded bus route network. There will be no impact on the General Fund as a result of this project.

RECOMMENDATION

Staff recommends that the City Council adopt an ordinance approving a budget adjustment in the amount of $232,505 to add State of Good Repair funding to the Bus Shelter Improvement project.

BACKGROUND

The Bus Shelter Improvement Project was initially approved during the FY2025-26 budget cycle to update, replace, and modernize bus shelters throughout Roseville. The project will primarily focus on replacing existing shelters that have exceeded their useful life, while also installing new shelters at locations served by the City's expanded bus route network.

The Placer County Transportation Planning Agency (PCTPA) is nearing completion of a regional bus shelter assessment that identifies the standard level of amenities to be included in these replacements. The revised project budget will support the improvement, replacement, or installation of at least 40 bus shelters throughout the City, including key transfer stations.

FISCAL IMPACT

The project was initially funded with $1,116,250 of SB125 funding through the California State Transit Agency (CalSTA). This budget adjustment will add $232,505 of State of Good Repair (SGR) funding which is being provided by the state. The total budget for this project will increase from $1,116,250 to $1,348,755. There will be no impact on the General Fund as a result of this project.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The budget adjustment meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

4. Invest in well-planned infrastructure and growth
6. Deliver exceptional City services

Respectfully Submitted,
Zachary Presley, Assistant Transportation Planner

Justification for Budget Adjustment:

The Public Works Department is requesting this budget adjustment to increase the budget for the Bus Shelter Replacement project (500466) in the Transit Fund (6511). This adjustment reflects the updated State of Good Repair (SGR) award.

Alternative Transportation received additional state funding of $232,505 from SGR for the Bus Stop Improvement and Replacement Program.

The current project budget is $1,116,250. With this adjustment, the revised project budget will total $1,348,755

Title:	Western Placer Consolidated Transportation Services Agency – Transit Program Agreements
Contact:	Ed Scofield 916-774-5449 ecscofield@roseville.ca.us

SUMMARY

Staff recommends approval of two separate Memorandums of Understanding "Agreements" between the Western Placer Consolidated Transportation Services Agency and the City for the South Placer Transit Information (SPTI) Call Center and the Mobility Training program. Pursuant to the Agreements, funding for the SPTI Call Center and Mobility Training Program is provided through the Wester Placer Consolidated Transportation Services Agency's Local Transportation Fund (LTF) resources. No City resources, including the City's own LTF allocations, are used to support these programs.

RECOMMENDATION

Staff recommends the City Council adopt resolutions approving and authorizing the City Manager to execute two (2) Agreements between the Western Placer Consolidated Transportation Services Agency and the City of Roseville for: 1) South Placer Transit Information Call Center; and 2) Mobility Training Program.

BACKGROUND

Since June 2021, the City of Roseville has administered two core programs on behalf of the Western Placer Consolidated Transportation Services Agency (WPCTSA) through two separate Agreements: the South Placer Transit Information (SPTI) Call Center and the Mobility Training program. Each of the current agreements has an initial three-year term and two additional one-year extensions that were subsequently executed and ultimately expire on June 30, 2026.

WPCTSA staff has prepared two new Agreements for Roseville's continued administration of the SPTI Call Center and the Mobility Training program. Both Agreements contain similar terms and provisions as the current Agreements for each respective program. However, some modifications have been made to each Agreement's respective program work scope to reflect current best practices, updated functions, and revised performance standards, which have evolved based on operational knowledge and efficiencies gained since 2021. Each agreement has a new three-year base term, with two, one-year optional extensions, starting July 1, 2026, and ultimately ending on June 30, 2031 (if both one-year extensions are executed).

WPCTSA staff is seeking approval of both Agreements at their June 24, 2026 Board meeting.

FISCAL IMPACT

There is no fiscal impact to the City. Pursuant to the Agreements, funding for the SPTI Call Center and Mobility Training Program is provided through the WPCTSA's Local Transportation Fund (LTF) resources. No City resources, including the City's own LTF allocations, are used to support these programs.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)).

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

2. Remain fiscally responsible in a changing world
6. Deliver exceptional City services

AGREEMENT BETWEEN THE CITY OF ROSEVILLE AND THE WESTERN PLACER CONSOLIDATED TRANSPORTATION SERVICES AGENCY REGARDING THE SOUTH PLACER TRANSIT INFORMATION CALL CENTER

THIS AGREEMENT is made and entered into this _____ day of _____, 2026, by and between the City of Roseville, a municipal corporation ("CITY"), and the Western Placer Consolidated Transportation Services Agency, a joint powers agency ("WPCTSA").

WITNESSETH:

WHEREAS, pursuant to California Government Code Section 67910, the Placer County Transportation Planning Agency ("PCTPA") was created as a local area planning agency to provide regional transportation planning for the area of Placer County, exclusive of the Lake Tahoe Basin; and

WHEREAS, one of the key responsibilities for a local area planning agency is to designate a Consolidated Transportation Services Agency ("CTSA"); and

WHEREAS, the Western Placer Consolidated Transportation Service Agency ("WPCTSA") is a joint powers agency created on October 13, 2008, by Placer County, the cities of Auburn, Colfax, Lincoln, Rocklin, and Roseville, and the Town of Loomis, and is administered by PCTPA's staff; and

WHEREAS, on February 25, 2009, PCTPA adopted Resolution No. 09-06, which found that a centralized transportation information call center in South Placer County was an unmet transit need for Fiscal Year 2008/09 and was reasonable to meet; and

WHEREAS, PCTPA has designated WPCTSA as the call center administrator; and WPCTSA, in turn, has designated CITY as the agency best suited to act as the administrative operator of a regional call center known as the South Placer Transit Information Call Center ("Call Center") pursuant to the terms and conditions of this Agreement; and

WHEREAS, CITY has administratively operated the Call Center on WPCTSA's behalf since 2016, and CITY is willing to continue serving as the operator for the Call Center beyond the existing agreement between WPCTSA and CITY, which is set to terminate on June 30, 2026.

NOW, THEREFORE, the parties agree as follows:

1. Term: This Agreement shall commence on July 1, 2026, and terminate on June 30, 2029. The parties may extend this Agreement in writing for up to two (2) additional, one-year options that if executed extend the Agreement to end on June 30, 2031.
2. Services: CITY shall operate the Program as described in the scope of services that is attached hereto as Exhibit "A" and incorporated herein by this reference. Exhibit A represents the basic scope of services to be provided by CITY on an annual basis on behalf of WPCTSA and its member agencies for the Call Center. In operating the Call Center, CITY shall adhere to the standards of performance which are incorporated into Exhibit A. CITY reserves the right to contract either part or all of the Call Center's operations to a qualified transit operations contractor, as determined by CITY.

3. Funding: WPCTSA agrees to annually allocate to CITY the actual costs necessary to operate the Call Center, which shall be included in WPCTSA's adopted fiscal year budget, and/or any budget amendments thereto. Funding for the Call Center shall be provided through available Transportation Development Act ("TDA") Local Transportation Funds ('"LTF") and/or State Transit Assistance ("STA") discretionary funds allocated to WPCTSA by PCTPA annually pursuant to its established TDA funding allocation methodology. In addition to TDA funds, other sources of federal, state, and/or local funding may also be provided by PCTPA, WPCTSA, or its member jurisdictions to support the Program.
4. Annual Budget Process: No later than March 30th of each year, CITY shall submit a preliminary budget to WPCTSA. Such budget shall include the estimated operational costs and capital expenditures necessary to support CITY's administration of the Call Center during the next fiscal year. CITY may include in the preliminary budget any requests for funding for additional services which are outside of the basic scope of services identified in Exhibit A, or may show reduced budget and related service reductions necessary to respond to any projected funding shortfalls. In accordance with its annual budget approval process, WPCTSA shall accept, reject or modify CITY's Call Center budget and, if necessary, identify the source of funding for any approved additional services and/or cost increases.
5. Monthly Reporting and Claim Process: During the term of this Agreement, CITY shall submit to WPCTSA, attention Executive Director, a requisition for payment for a period of services not exceeding two months. Each requisition for payment shall conform to the following: (1) be prepared on CITY's letterhead; (2) be signed by the Project Manager; (3) contain a unique invoice number; (4) attach appropriate monthly and quarterly progress reports. The requisitions for payment shall include documentation of reimbursable expenses and other invoiced items sufficient for WPCTSA, in its opinion, to substantiate billings. WPCTSA reserves the right to withhold payment of disputed amounts.
6. Grants: WPCTSA and CITY, on WPCTSA's behalf, may pursue federal, state and/or other grants to offset the operating and capital funding provided by WPCTSA for the Call Center. If either party successfully obtains any such grants, the party administering the grant will be entitled to receive an appropriate portion of the grant to cover its administrative costs. CITY agrees to make a good faith effort to expend any grants or other sources of funding expeditiously and, if possible, prior to expending any funds granted to CITY by WPCTSA under Section 4 of this Agreement.
7. Termination for Convenience: Either party may terminate this Agreement for convenience at any time upon giving one hundred and eighty (180) days advanced written notice to the other party, WPCTSA, and WPCTSA member agencies.
8. Breach: Should a party fail to perform its contractual obligations within thirty (30) days following written notice from the other party, or is otherwise unable to cure a material breach of this Agreement within such time, that party shall be considered in default and the non-defaulting party may terminate this Agreement.
9. Mediation: If any controversy or differences arise between the parties regarding the interpretation or enforcement of this Agreement, or because of an alleged dispute, breach or default in connection with any provision of this Agreement, either party may deliver a written notice to the other party raising such dispute or claiming such breach or default. If the parties are unable to resolve such differences in good faith on their own, or if a party fails to cure or commence the cure of any alleged breach or default within thirty (30) days of receipt of written notice from the other party raising such dispute or claiming such breach or default, the parties will attempt to resolve such differences through nonbinding mediation. The cost of mediation shall be divided equally between the parties. If the parties are unable to resolve their

differences through mediation within thirty (30) days after submission of the dispute to mediation, each party may then pursue its judicial remedies to the full extent of the law.

10. Indemnification: Each party shall indemnify the other as follows: Indemnitor shall defend, indemnify, and save and hold harmless the indemnitee, its officers, agents and employees from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of indemnitor's negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except with regard to those matters arising from indemnitee's sole active negligence or willful misconduct.
11. **Insurance:** CITY agrees to maintain in full force and effect, at a minimum, the following insurance and self-insurance programs during the term of this Agreement.
    a. Comprehensive General Liability. CITY will maintain Comprehensive General Liability coverage through a risk-sharing authority or comparable program, with coverage limits and self-insured retention amounts that are reasonable and appropriate for a California municipal agency of CITY's size, operations, and risk exposure, which coverage limits shall in no event be less than $2,000,000 per occurrence.
    b. Workers' Compensation. CITY will maintain workers' compensation coverage as required by California law, through a combination of insurance, participation in a risk-sharing authority, or self-insured retention, in amounts that are reasonable and appropriate for a California municipal agency.
12. Compliance with Laws. The parties shall comply with all federal, state and local laws and ordinances as may be applicable to the performance of services under this Agreement.
13. Governing Agreement: In the event of any conflict between this Agreement and its Exhibits, the provisions of this Agreement shall govern. In the event of any conflict between any of the Exhibits, the provisions of the first in order of attachment shall govern.
14. Assignment: Neither party shall assign or transfer any interest in this Agreement nor the performance of obligations hereunder without prior written consent of the other and any attempt to so assign this Agreement or any rights, duties, or obligations arising hereunder shall, at the option of the non-assigning party, be void and of no effect.
15. Independent Contractor. CITY and WPCTSA shall, in the performance of their respective obligations under this Agreement, act as independent contractors and shall not be officers, agents, or employees of the other. This Agreement does not confer on CITY any authority over WPCTSA or the individual transit operators and jurisdictions who are members of WPCTSA.
16. Successors in Interest: This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.
17. Attorney Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
18. Notices. Any notices to parties required by this Agreement shall be delivered personally or mailed, U.S. first class postage prepaid, addressed as follows:

CITY OF ROSEVILLE Alternative Transportation Manager 316 Vernon Street, Suite 150 Roseville, CA 95678	WPCTSA Executive Director 2260 Douglas Boulevard, Suite 130 Roseville, CA 95661

Either party may amend its address for notice by notifying the other party in writing.

19. Modification: This Agreement and each provision contained herein may be waived, amended, supplemented, or eliminated only by mutual written agreement of the parties.
20. Severability. In case any one or more of the provisions contained in this Agreement is for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
21. Entire Agreement. This Agreement contains the entire agreement between the parties. All prior negotiations between the parties are merged into this Agreement and there are no understandings or agreements other than those incorporated herein.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the _____ day of _____, 2026, and the Western Placer Consolidated Transportation Service Agency has caused this Agreement to be executed.

EXHIBIT A – SCOPE OF SERVICES
SOUTH PLACER TRANSIT INFORMATION CALL CENTER

1. Overview – South Placer Transit Information Education and Transit Training Program

The South Placer Transit Information (SPTI) Call Center (Call Center) is a dynamic environment that responds to customers' needs as prescribed by PCTPA, WPCTSA, the Transit Operators Working Group (TOWG), and other WPCTSA stakeholders to help customers gain, re-gain, and/or maintain mobility. In conjunction with the SPTI Program website, the Call Center provides customers with a centralized, one-stop resource for transportation service information in the southwestern Placer region and for scheduling on-demand/dial-a-ride and paratransit services for Auburn Transit, Placer County Transit, and Roseville Transit outside of the GO South Placer microtransit mobile application. Transit agencies retain their own dispatch functions and staff to make any modifications necessary to the manifest for next-day services for their drivers and customers.

As the lead agency, CITY intends to employ a subcontractor (CONTRACTOR) to operate the Call Center on CITY's and WPCTSA's behalf. CONTRACTOR will be responsible for all staffing to properly maintain the Call Center's operations and functions, including hiring, training, managing, and supervising customer service agents that administer call intake and trip scheduling/manifest creation for on-demand and paratransit services, and provide general assistance to callers who may be seeking information about available transportation options. CONTRACTOR shall provide on-going training for Call Center agents to ensure consistent administrative practices, high-quality customer service interactions, and usage of up-to-date technology resources and practices that enhance mobility opportunities for Call Center customers.

2. CITY Duties and Responsibilities

CITY shall perform the duties described in Sections 2.1 – 2.6, below, and to the extent reasonable and feasible, CONTRACTOR and/or WPCTSA member agencies shall assist CITY in this regard.

2.1 Coordination with WPCTSA, TOWG, and Member Agencies

CITY shall be responsible for coordinating activities with WPCTSA, its member agencies, local and regional governmental jurisdictions, social service organizations, and/or other relevant transportation citizen groups and stakeholders. CITY shall also be responsible for developing and monitoring Call Center customer service and performance standards and budget reporting activities in coordination with WPCTSA and the TOWG.

2.2 Bi-Monthly Reporting and Invoicing

No later than the 15th day of each odd-numbered month (January, March, May, July, September, November), CITY shall submit to WPCTSA a detailed bi-monthly report and invoice for the Call Center. Reports shall document all activities performed during the invoice period, identify performance metrics achieved, and provide detailed expenditures and necessary supporting documentation for the two-month reporting period. The format and content of these reports shall be determined by WPCTSA in collaboration with CITY and the TOWG and may be modified by WPCTSA at any time.

2.3 Selection and Oversight of CONTRACTOR

CITY shall procure a CONTRACTOR for the administration of Call Center operations and shall provide administrative oversight of CONTRACTOR's performance.

2.4 Advertising and Promotion

CITY shall coordinate with WPCTSA to design, prepare, schedule, distribute and pay for all advertising and promotional materials designed to inform the public about the Call Center. Advertising may include but is not limited to print media, internet, social media, television and/or radio. WPCTSA shall reimburse CITY for these expenses.

2.5 Operations Headquarters and Office Space

CITY shall provide and maintain operational space for CONTRACTOR to perform all Call Center operations at CITY's Corporation Yard facility located at 2075 Hilltop Circle Drive, Roseville, CA. The facility includes an adequate parking area for CONTRACTOR and CITY employees and restroom facilities. Aside from general repair, maintenance includes, but is not limited to sweeping, dusting, trash emptying, and cleaning of all restroom and common space areas used by CONTRACTOR. CITY shall perform any needed capital or tenant improvements necessary to accommodate the Call Center in the CITY's facility per CITY's discretion.

2.6 Supplies, Equipment, and Furniture

CONTRACTOR shall provide all supplies and equipment that is required for operating and administering transit service operations for CITY and Call Center operations, except for any CITY provided items. This includes, but is not limited to, office supplies, personal computers, personal computer software, separate network, separate telephone system, database firewalls, security software, printers, copy/fax machines, e-mail and other electronic services. CONTRACTOR shall remain current on all software licensing and keep all office equipment and technology in good working order. The City is responsible for providing all office furniture and chairs.

3. CITY CONTRACTOR's Duties and Responsibilities

CONTRACTOR shall be obligated to perform the duties and accept the responsibilities set forth below:

- Perform contracted activities in coordination and cooperation with CITY and WPCTSA on matters related to operations, monitoring, reporting and meeting service performance measurements;
- Develop, implement and maintain daily and monthly schedules that shall identify staff members and their assigned shifts and work assignments to handle customer calls for on-demand/dial-a-ride and paratransit trip reservations, calls for general regional transportation information, and referrals for processing Americans with Disabilities Act (ADA) eligibility and SPTI Transit Training applications;
- Meet the objectives of providing quality transportation Call Center customer service functions, which include efficiently booking on-demand/dial-a-ride and paratransit trip reservations across Placer County and improving the efficient use of existing on-demand/dial-a-ride services currently provided, and conducting trip planning functions for customers that want to utilize one or more fixed-routes operated by one or more transit agency;
- Provide CITY with weekly, monthly and quarterly reports for review by PCTPA, WPCTSA and/or the TOWG;

- Work with CITY staff to continue, expand, and update current Call Center operations (including CITY approved software) to include all participating transit agencies as directed; and
- Work with CITY and WPCTSA to continue to expand current operations as prescribed by WPCTSA.

3.1 Call Center Employee Selection and Supervision

CONTRACTOR shall be responsible for the employment and supervision of all employees necessary to perform all Call Center administrative operations. CONTRACTOR responsibilities shall include employee recruitment, screening, selection, training, supervision, employee relations, evaluations, retraining and employee discipline, including but not limited to termination.

CONTRACTOR shall use all appropriate screening and selection criteria in order to employ operations personnel. CONTRACTOR shall perform employment, open market value (OMV) and criminal background checks, preemployment drug screens and physicals of all employees associated with the agreement entered into between CITY and CONTRACTOR and shall undertake the steps necessary to ensure that all such employees perform their duties in a safe, legal, courteous, and professional manner at all times.

CONTRACTOR shall continually comply, and shall require any/all subcontractors to comply, with applicable state and federal employment laws, including Section 1735 of the California Labor Code and Title VI of the Civil Rights Act of 1964, as amended.

3.2 Bi-Lingual Personnel and Training

CONTRACTOR shall make every effort to recruit bi-lingual personnel for reservationist, dispatcher, and supervisor positions. CONTRACTOR shall implement within 120 days after the start of the contract term, a keyword/key-phrase training and proficiency testing program to assist all operating personnel to learn simple phrases to assist them in communicating to limited English proficient (LEP) speaking transit system users as identified in applicable Title VI Program Language Assistance Plan(s), as may be updated periodically. CONTRACTOR will comply with WPCTSA and CITY specified Title VI goals.

3.3 Call Center Staffing

CONTRACTOR shall employ executive, dedicated on-site management, administrative, supervisory, operational, and maintenance personnel to provide the necessary staffing resources for the effective management of and technical support for all Call Center functions. CONTRACTOR shall be responsible for maintaining a consistent level of excellent customer service and making appropriate changes in staff levels to ensure this quality.

CONTRACTOR shall develop, implement, and maintain a daily schedule of labor resources to handle transit information telephone calls, trip reservations and scheduling, and complaints received from customers. This schedule shall identify work assignments and shift time.

3.3.1 Call Center On-Site Project Manager

At a minimum, CONTRACTOR shall designate an on-site Project Manager who meets the following requirements:

- Has a proven, successful work history in situations similar to those described in scope of services and has at least three (3) years of public transportation management experience;
- Holds the equivalent of a bachelor's degree from a four (4) year college in a related field (however, each year of management experience in a related transportation industry beyond the required minimum years of experience listed above may substitute for each year of college.);
- Has managerial and supervisory experience in public or private agencies; and,
- Has had direct supervisory responsibility for all facets of a public transit operation.

3.3.2 Call Center Reservationists

CONTRACTOR shall provide lead reservationist(s) and reservationists who have the capacity to process call volumes which average about 5,000 calls per month and to handle increases in service hours and call volume at approximately 5% per year. Call Center operating hours are from 8:00am - 5:00pm, seven days per week, 52 weeks per year, with closures on major holidays which coincide with on-demand/dial-a-ride service holidays. Call Center operating hours may be adjusted at the CITY'S discretion per CONTRACTOR recommendation and/or in cooperation with WPCTSA and the TOWG to accommodate call volume and/or new programs.

Lead reservationists, reservationists, and any other personnel who may from time-to-time be assigned to telephone information and/or reservation lines shall be trained in customer service, customer relations skills, telephone manners, and phone operations procedures, which include data gathering, accident/incident reporting, fares, bus and demand response schedules and service information dissemination, information and SPTI transit training referrals, ADA regulations regarding trip reservations (CALL CENTER will be operated in compliance with applicable sections of 49CFR37), reservation procedures, operating policies, and all other programs as prescribed by WPCTSA member agencies.

3.3.3 Call Center Reservationist Training Requirements

Training for reservation staff must include, but is not limited to, the following:

- Telephone etiquette and customer service skills;
- Administrative and operating policies for participating agencies pertinent to providing excellent customer service;
- Reservation procedures to respond to passenger requests to book trips with participating transit agencies using CITY approved software, deemed appropriate by the CITY;
- Scheduling trips in accordance with the ADA required operating standards for complementary paratransit service, including passenger screening for ADA eligibility;
- Bus travel time on participating agencies on-demand/dial-a-ride, local fixed route and commuter service buses;
- Fare structures and discount information for all participating agencies and the ability to access fare information quickly;

- Regional fixed route, commuter and demand response schedules and services and the ability to access schedule and service information quickly;
- Dispatching assistance as necessary to maximize route efficiency; Information and services referrals to other agencies when appropriate;
- Alternative transportation information in general;
- Complaint procedures/referrals to participating transit agencies when appropriate;
- Accident/incident procedures;
- Bus trip planning;
- Route and schedule information;
- Fare distribution as prescribed by WPCTSA and/or the TOWG to eligible social service agencies; and,
- Database maintenance regarding ADA eligible passengers and all information necessary for monthly, quarterly and annual performance and National Transit Database ("NTD") reporting.

3.4 Training and Retraining

CONTRACTOR shall provide ongoing customer service and CITY approved software, training and retraining for all Call Center reservationist positions and for satellite office dispatchers as deemed necessary by participating agencies. Ongoing training and retraining shall be based on a variable hourly cost which should be included in the CONTRACTOR's cost proposal.

3.5 Telephone Information and Reservation System

CONTRACTOR shall utilize transportation Call Center telephone lines solely to respond to incoming calls from the general public and/or social service agencies for the purposes of requesting on-demand/dial-a-ride service, reservation scheduling information, and requests for public transportation information and transit options in south Placer County. These phone lines shall be exclusively dedicated to the Call Center's reservation and information system. CONTRACTOR shall advise CITY if call volume appears to exceed phone line capacity to respond to incoming calls with a minimum of calls in queue. CONTRACTOR shall coordinate with CITY monthly, or more frequently if necessary, to evaluate call volume. CONTRACTOR shall respond to reservation and/or information requests from hearing impaired callers with TDD equipment or use the California Relay Service for communication with hearing impaired customers. CONTRACTOR shall follow applicable Language Assistance Plans (LAPs) produced for WPCTSA's and CITY's Title VI Programs to help limited English proficient (LEP) speaking customers served by this plan make reservations and/or obtain transit information.

3.6 Scheduling System

CONTRACTOR shall provide and use, in the daily operations, the Scheduling System approved by CITY. This Scheduling System must be provided in an Application Server Provider (ASP) method and shall enable the necessary number of concurrent users for processing at least 5,000 trips per month and increasing Call Center capacity as demand warrants. This software will interface with the Roseville Transit dispatch office and satellite offices at participating agencies as deemed necessary by those agencies. CONTRACTOR shall provide redundant access to their servers, provide, install, and maintain all network and server infrastructure, firewall technology, backup systems and application software and provide support services on all such hardware and software to CITY. CONTRACTOR shall purchase and update any GIS mapping components by the Scheduling System manually.

During the period of time of operation under Scheduling System approve by CITY, as provided herein, CONTRACTOR will provide access to the appropriate network and server infrastructure, training, support, and backup files to utilize the Scheduling System at any time. Should CITY elect to purchase or migrate the Scheduling System in-house, CITY will be responsible for supplying the server infrastructure for the in-house utilization of the Scheduling System. All data and information in the servers and on CITY and CONTRACTOR computers related to all participating transit agencies shall be the property of CITY and shall be transferred to CITY upon request at no extra cost within a reasonable time period.

3.7 Call Center Service Standards – General

CONTRACTOR shall respond to telephone, TDD, email and/or faxed requests for on-demand/dial-a-ride service and general transit information on a "real-time" demand-response basis in accordance with the Section 3.8, below. CONTRACTOR shall also accept telephone, TDD, email, online, and/or faxed requests for advanced reservations on participating agencies' on-demand/dial-a-ride service as determined by each operator. Advance reservation trips will be scheduled on a first come first serve basis as capacity allows. However, to comply with required ADA paratransit criteria, priority shall be given to individuals who have proof of ADA paratransit service eligibility.

CONTRACTOR shall forward calls for same day trips and cancellations to the appropriate transit operator. CONTRACTOR shall also accept "subscription service" reservations (provision of repetitive trips over an extended time period without requiring that individuals call to request reservations for each trip) as determined by each transit operator.

CONTRACTOR shall always strive to provide service in a manner that will maximize productivity and at the same time emphasize quality customer service. Recognizing that the goals of productivity and service quality may conflict at times, performance standards as prescribed in the following section must be established in a manner to be reasonably attainable by CONTRACTOR, fair to the customer and consistent with all participating transit agencies' expectations. Other performance standards may be added as mutually agreed upon by WPCTSA and the TOWG. A customer survey mechanism may be used on occasion to measure customer satisfaction levels.

3.8 Telephone Information and Reservation Key Performance Indicators

CONTRACTOR shall respond to telephone requests for transit services on a "real-time" demand response basis. CONTRACTOR will strive to meet the following key performance indicators (KPIs) established by CITY, WPCTPSA and the TOWG as follows:

- Less than one and a half (1.5) telephone call abandoned by the caller per (twenty) 20 completed calls. A call is usually considered abandoned if the call is terminated while it is in the ''Next Call Waiting Queue'' or while it is ''On Hold".
- Ninety percent (90%) of all phone calls shall be answered within ninety (90) seconds.
- Ninety-five percent (95%) of all phone calls shall be answered within three (3) minutes.
- One hundred percent (100%) of all phone calls shall be answered within six (6) minutes.

CONTRACTOR shall accept telephone requests for advance reservations as determined by each

Transit operator. Advance reservation trips will be scheduled on a first come first serve basis as capacity allows. However, reservation priority shall, if necessary to comply with required ADA paratransit criteria, be given to individuals who have proof of ADA paratransit service eligibility. CONTRACTOR shall forward calls for same day trips and cancellations to the appropriate transit operator. An updated ADA eligibility pending list shall be provided to CONTRACTOR biweekly, monthly, or as needed to ensure compliance with ADA requirements.

CONTRACTOR shall also accept "subscription service" reservations (provision of repetitive trips over an extended period time without requiring that individuals call to request reservations for each trip) as determined by each transit operator.

CONTRACTOR, CITY, and WPCTSA shall meet periodically to evaluate performance of the Call Center's operations and Scheduling System based upon these KPIs. If the KPIs are not fulfilling the intended purpose of providing excellent customer service while maximizing efficiency of the Call Center and on-demand/dial-a-ride service, they shall be adjusted based upon recommendations made by CONTRACTOR with concurrence and final decision by CITY and WPCTSA, in consultation with the TOWG. CITY shall take all reasonable actions requested by WPCTSA and the TOWG to work with CONTRACTOR to correct deficiencies in meeting the KPIs.

3.9 Performance Requirement

CONTRACTOR will be required, at all times during the term of the agreement with CITY, to perform all services diligently, carefully, and in a professional manner and to furnish all labor, supervision, machinery, equipment, material, and supplies necessary to do so (other than equipment supplied by CITY) as required in this agreement.

3.10 Implementation Plan

CONTRACTOR is expected to provide an updated Implementation Plan following award of a contract by CITY. This plan shall at the very least address the sequence of activities and procedures that will be followed to ensure the smooth start-up of the service including, if necessary, transition from another operator. The plan should also document recruitment and training schedules, start-up plan, and acquisition of necessary equipment, permits, licenses and any other activities necessary to continue a successful Call Center operation. The Implementation Plan must provide for continuous Call Center operations with no disruption to existing CITY, WPCTSA, and other transit providers' services.

RESOLUTION NO. 26-244

APPROVING AN AGREEMENT BY AND BETWEEN THE CITY OF ROSEVILLE AND THE WESTERN PLACER CONSOLIDATED TRANSPORTATION SERVICES AGENCY, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, an Agreement regarding the South Placer Transit Information Education and Transit Training Program, by and between the City of Roseville and the Western Placer Consolidated Transportation Services Agency, has been reviewed by the City Council;

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said Agreement is approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

AGREEMENT BETWEEN THE CITY OF ROSEVILLE AND THE WESTERN PLACER CONSOLIDATED TRANSPORTATION SERVICES AGENCY REGARDING THE SOUTH PLACER TRANSIT INFORMATION EDUCATION AND TRANSIT TRAINING PROGRAM

THIS AGREEMENT is made and entered into this _____ day of _____, 2026, by and between the City of Roseville, a municipal corporation ("CITY"), and the Western Placer Consolidated Transportation Services Agency, a joint powers agency ("WPCTSA").

WITNESSETH:

WHEREAS, pursuant to California Government Code Section 67910, the Placer County Transportation Planning Agency ("PCTPA") was created as a local area planning agency to provide regional transportation planning for the area of Placer County, exclusive of the Lake Tahoe Basin; and

WHEREAS, one of the key responsibilities for a local area planning agency is to designate a Consolidated Transportation Services Agency ("CTSA"); and

WHEREAS, the Western Placer Consolidated Transportation Service Agency ("WPCTSA") is a joint powers agency created on October 13, 2008, by Placer County, the cities of Auburn, Colfax, Lincoln, Rocklin, and Roseville, and the Town of Loomis, and is administered by PCTPA's staff; and

WHEREAS, WPCTSA has the responsibility and authority to provide social service transportation coordination within WPCTSA's jurisdiction to serve transit-dependent populations, including seniors, individuals with disabilities, and low-income populations, and to perform any and all other duties of a CTSA created pursuant to Government Code Section 15975(a) and the Mills-Alquist-Deddeh Act; and

WHEREAS, WPCTSA designated CITY as the lead agency to establish and operate the South Placer Transit Information Education and Transit Training Program ("Program") to educate existing riders, stakeholders, and the general public about, and train new riders on, the region's fixed-route bus and on-demand/dial-a-ride and paratransit services available; and

WHEREAS, CITY has partnered with WPCTSA to administer transit training and education services and functions throughout the region since 2016, and CITY is willing to continue serving as the operator for the SPTI Program beyond the existing agreement between WPCTSA and CITY, which is set to terminate on June 30, 2026.

NOW, THEREFORE, the parties agree as follows:

1. Term: This Agreement shall commence on July 1, 2026, and terminate on June 30, 2029. The parties may extend this Agreement in writing for up to two (2) additional, one-year options that if executed extend the Agreement to end on June 30, 2031.
2. Services: CITY shall operate the Program as described in the scope of services that is attached hereto as Exhibit "A" and incorporated herein by this reference. Exhibit "A" represents the basic scope of services to be provided by CITY on an annual basis on behalf of WPCTSA and its member agencies. In operating the Program, CITY shall adhere to the standards of performance which are incorporated into Exhibit A.

3. Funding: WPCTSA agrees to annually allocate to CITY the actual costs necessary to operate the Transit Training and Education Program, which shall be included in WPCTSA's adopted fiscal year budget, and/or any budget amendments thereto. Funding for the Program shall be provided through available Transportation Development Act ("TDA") Local Transportation Funds ('"LTF") and/or State Transit Assistance Discretionary Funds ("STA") allocated to WPCTSA by PCTPA annually pursuant to its established TDA funding allocation methodology. In addition to TDA funds, other sources of federal, state, and/or local funding may also be provided by PCTPA, WPCTSA, or its member jurisdictions to support the Program.
4. Annual Budget Process: No later than March 30th of each year, CITY shall submit a preliminary budget to WPCTSA. Such budget shall include the Program's estimated operational costs and capital expenditures necessary to support CITY's administration of the Program for the next fiscal year. CITY may include in the preliminary budget any requests for funding for additional services which are outside of the basic scope of services identified in Exhibit A, or may show reduced budget and related service reductions necessary to respond to any projected funding shortfalls. In accordance with its annual budget approval process, WPCTSA shall accept, reject or modify CITY's Transit Training and Education Program budget and, if necessary, identify the source of funding for any approved additional services and/or cost increases.
5. Monthly Reporting and Claim Process: During the term of this Agreement, CITY shall submit to WPCTSA, attention Executive Director, a requisition for payment for a period of services not exceeding two months. Each requisition for payment shall conform to the following: (1) be prepared on CITY's letterhead; (2) be signed by the Project Manager; (3) contain a unique invoice number; (4) attach appropriate monthly and quarterly progress reports similar to what is currently incorporated into Exhibit "B". The requisitions for payment shall include documentation of reimbursable expenses and other invoiced items sufficient for WPCTSA, in its opinion, to substantiate billings. WPCTSA reserves the right to withhold payment of disputed amounts.
6. Grants: WPCTSA and CITY, on WPCTSA's behalf, may pursue federal, state and/or other grants to offset the operating and capital funding provided by WPCTSA for the Program. If either party successfully obtains any such grants, the party administering the grant will be entitled to receive an appropriate portion of the grant to cover its administrative costs. CITY agrees to make a good faith effort to expend any grants or other sources of funding expeditiously and, if possible, prior to expending any funds granted to CITY by WPCTSA under Section 4 of this Agreement.
7. Termination for Convenience: Either party may terminate this Agreement for convenience at any time upon giving one hundred and eighty (180) days advanced written notice to the other party, WPCTSA, and WPCTSA member agencies.
8. Breach: Should a party fail to perform its contractual obligations within thirty (30) days following written notice from the other party, or is otherwise unable to cure a material breach of this Agreement within such time, that party shall be considered in default and the non-defaulting party may terminate this Agreement.
9. Mediation: If any controversy or differences arise between the parties regarding the interpretation or enforcement of this Agreement, or because of an alleged dispute, breach or default in connection with any provision of this Agreement, either party may deliver a written notice to the other party raising such dispute or claiming such breach or default. If the parties are unable to resolve such differences in good faith on their own, or if a party fails to cure or commence the cure of any alleged breach or default within thirty (30) days of receipt of written notice from the other party raising such dispute or claiming such breach or default, the parties will attempt to resolve such differences through nonbinding mediation. The cost of mediation shall be divided equally between the parties. If the parties are unable to resolve their

differences through mediation within thirty (30) days after submission of the dispute to mediation, each party may then pursue its judicial remedies to the full extent of the law.

10. Indemnification: Each party shall indemnify the other as follows: Indemnitor shall defend, indemnify, and save and hold harmless the indemnitee, its officers, agents and employees from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of indemnitor's negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except with regard to those matters arising from indemnitee's sole active negligence or willful misconduct.
11. **Insurance:** CITY agrees to maintain in full force and effect, at a minimum, the following insurance and self-insurance programs during the term of this Agreement.
    a. Comprehensive General Liability. CITY will maintain Comprehensive General Liability coverage through a risk-sharing authority or comparable program, with coverage limits and self-insured retention amounts that are reasonable and appropriate for a California municipal agency of CITY's size, operations, and risk exposure, which coverage limits shall in no event be less than $2,000,000 per occurrence.
    b. Workers' Compensation. CITY will maintain workers' compensation coverage as required by California law, through a combination of insurance, participation in a risk-sharing authority, or self-insured retention, in amounts that are reasonable and appropriate for a California municipal agency.
12. Compliance with Laws. The parties shall comply with all federal, state and local laws and ordinances as may be applicable to the performance of services under this Agreement.
13. Governing Agreement: In the event of any conflict between this Agreement and its Exhibits, the provisions of this Agreement shall govern. In the event of any conflict between any of the Exhibits, the provisions of the first in order of attachment shall govern.
14. Assignment: Neither party shall assign or transfer any interest in this Agreement nor the performance of obligations hereunder without prior written consent of the other and any attempt to so assign this Agreement or any rights, duties, or obligations arising hereunder shall, at the option of the non-assigning party, be void and of no effect.
15. Independent Contractor. CITY and WPCTSA shall, in the performance of their respective obligations under this Agreement, act as independent contractors and shall not be officers, agents, or employees of the other. This Agreement does not confer on CITY any authority over WPCTSA or the individual transit operators and jurisdictions who are members of WPCTSA.
16. Successors in Interest: This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.
17. Attorney Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
18. Notices. Any notices to parties required by this Agreement shall be delivered personally or mailed, U.S. first class postage prepaid, addressed as follows:

CITY OF ROSEVILLE Alternative Transportation Manager 316 Vernon Street, Suite 150 Roseville, CA 95678	WPCTSA Executive Director 2260 Douglas Boulevard, Suite 130 Roseville, CA 95661

Either party may amend its address for notice by notifying the other party in writing.

19. Modification: This Agreement and each provision contained herein may be waived, amended, supplemented, or eliminated only by mutual written agreement of the parties.
20. Severability. In case any one or more of the provisions contained in this Agreement is for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
21. Entire Agreement. This Agreement contains the entire agreement between the parties. All prior negotiations between the parties are merged into this Agreement and there are no understandings or agreements other than those incorporated herein.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the _____ day of _____, 2026, and the Western Placer Consolidated Transportation Service Agency has caused this Agreement to be executed.

EXHIBIT A – SCOPE OF SERVICES
SOUTH PLACER TRANSIT INFORMATION EDUCATION AND TRANSIT TRAINING PROGRAM

1. Overview – South Placer Transit Information Education and Transit Training Program

The South Placer Transit Information (SPTI) Education and Transit Training Program (Program) is designed to implement the WPCTSA's Marketing Plan, which was completed in January 2023. The Program's overall goals are to increase awareness of available transit services, educate the public on how to use transit services effectively, and promote new transit ridership among both transit-dependent (i.e., seniors, persons with disabilities, low-income, and student/youth) populations and the broader public living within the south Placer region. The Program consists of two integrated components: (1) Education Services and (2) Transit Training Services, which collectively bring awareness about existing mobility options available and enhance access to existing services and programs for current and new transit riders in the region.

WPCTSA maintains the SPTI Program website, which provides a comprehensive online resource containing broad information about the region's collective transit services, including respective bus schedules and fare information for each transit agency, trip planning tools, and other educational materials about the region's overall transit network. This website serves as the primary digital hub for the Program and is complemented by printed SPTI materials that include brochures, information cards, and other collateral for distribution at educational events, trainings, and presentations.

2. General Provisions Applicable to Both Program Components

2.1 Duties and Responsibilities

CITY shall perform the duties described below, and to the extent reasonable and feasible, any contractors and/or regional transit service operators shall assist.

2.1.1 Coordination with WPCTSA and Member Agencies

CITY shall be responsible for coordinating program activities with WPCTSA, its member agencies, local and regional governmental jurisdictions, social service organizations, and/or other relevant transportation citizen groups and stakeholders.

2.1.2 Performance Standards and Reporting

CITY shall be responsible for developing and monitoring customer service and performance standards, and reporting activities for the Program in coordination with WPCTSA. Performance standards and deliverable targets shall be established for the Program, and updated as needed, through coordination and agreement between CITY and WPCTSA. Examples of the current performance targets and reporting structure established for the Program's Education and Transit Training components are identified in Exhibit B (Education and Transit Training Administration Reports). These reports may be amended from time to time by mutual written agreement between CITY and WPCTSA to reflect changes in program requirements, performance expectations, and/or reporting needs.

2.1.3 Advertising and Promotion

CITY shall coordinate with WPCTSA to design, prepare, schedule, distribute and pay for all advertising and promotional materials designed to inform the public about the Program. Advertising may include but is not limited to print media, internet, social media, television and/or radio. WPCTSA shall reimburse CITY for these expenses.

2.1.4 Workspace

CITY shall provide and maintain its own workspace to accommodate CITY employees and/or any contracted employees used to support administrative duties and coordination functions associated with the Program.

2.1.5 Bi-Monthly Reporting and Invoicing

No later than the 15th day of each odd-numbered month (January, March, May, July, September, November), CITY shall submit to WPCTSA a detailed bi-monthly report and invoice for both of the Program's Education and Training components. Reports shall document all activities performed during the invoice period, identify performance metrics achieved, and provide detailed expenditures and necessary supporting documentation for the two-month reporting period. The format and content of these reports shall follow the templates established in Exhibit B (Education and Transit Training Administration Reports), or as otherwise requested and/or modified by WPCTSA.

3. Education Services

3.1 Education Services Overview

The Program's Education component provides public outreach, information dissemination, and community presentations to increase awareness and understanding of available transit services throughout the Placer region. Education services focus on informing community members about what transit services exist, basic information on how to use them, and where to access additional detailed resources including the SPTI Program website and SPTI Call Center.

3.2 CITY Duties and Responsibilities for Education Services

3.2.1 Staffing and Program Management

CITY shall employ or designate staff to manage, coordinate, and deliver Education services. CITY may subcontract with qualified vendors to provide specific Education services, such as conducting presentations, subject to approval by WPCTSA. Any such subcontractor shall be procured and managed by CITY, which shall maintain administrative oversight responsibility for all contracted Education services. CITY shall aim to provide at least 20 hours of staffing resources per week towards administering the Program's Education component.

3.2.2 Community Presentations

CITY shall organize, schedule, and deliver educational presentations to community groups, senior centers, social service agencies, healthcare facilities, disability organizations, and other interested groups throughout the Placer region. Presentations shall include, but not be limited to, information about:

- Available transit services, including fixed-route bus, dial-a-ride, paratransit, and specialized transportation service options;
- Basic instruction on how to use transit services, including how to plan trips, read schedules, pay fares, and access services;
- Resources for additional assistance, including the SPTI Program website, the SPTI Call Center, and the Transit Training Program (also known as Mobility Training in the industry);

- Americans with Disabilities Act (ADA) paratransit eligibility and application processes; and,
- Fare discount programs and eligibility requirements.

CITY shall aim to provide at least five educational presentations per month, which may be conducted all, or in part by, CITY staff and/or any subcontractor selected by CITY to deliver the Education services.

3.2.3 Community Outreach and Tabling Events

CITY shall organize and physically staff tables at local community events, health fairs, senior expositions, and other public gatherings to distribute informational transit materials and provide one-on-one assistance to community members. CITY staff shall be prepared to answer questions, provide route planning assistance, and make referrals to the Transit Training Program and/or other appropriate resources. CITY must aim to conduct at least one community tabling event per month for the Program's Education component.

3.2.4 Information Materials Development and Distribution

CITY shall develop, produce, maintain, and distribute educational and informational materials including, but not limited to, the following:

- Transit service brochures and guides;
- Quick-reference information cards;
- System maps and schedules;
- How-to guides for using specific services;
- Digital resources and online content; and,
- Other promotional and educational collateral as needed.

All materials shall be accurate, up-to-date, accessible, and appropriate for the respective target audiences, including limited English proficient, senior, and disabled populations.

3.2.5 Website Management

CITY shall coordinate with WPCTSA to regularly update the SPTI Program website to serve as a comprehensive online resource for current transit information, trip planning, educational materials, and program resources.

3.2.6 Coordination with Social Service Agencies and Community Partners

CITY shall establish and maintain relationships with social service agencies, healthcare providers, senior centers, disability organizations, and other community partners to identify opportunities for education and outreach, coordinate presentation schedules, and facilitate referrals to the Transit Training Program for individuals requiring more intensive instruction.

3.2.7 Performance Monitoring and Reporting

CITY shall track and document all Education activities and outcomes, including but not limited to:

- Number of presentations delivered and attendees reached;
- Number of tabling/outreach events conducted and participants engaged;

- Quantity and types of materials distributed;
- Referrals made to the Transit Training Program and SPTI Program website; and,
- Other relevant metrics as established by mutual agreement with WPCTSA.

CITY will work with WPCTSA to continually document public engagement and outreach activities through WPCTSA's Customer Relationship Management (CRM) software program.

4. Transit Training Services

4.1 Transit Training Program Overview

The Program's Transit Training component provides individualized and small group transit training to teach new riders how to use the region's fixed-route bus, dial-a-ride, and paratransit services independently. Transit Training services include the following activities:

- Establishing methods for identifying potential transit riders in need of Transit Training in coordination with WPCTSA, its partnering agencies, and the region's transit providers,
- Conducting a comprehensive assessment of a potential transit rider's, or a group of riders, specific transit needs, functional skills/capabilities, and identifying the appropriate services available to address them,
- Creating customized training plans and/or a curriculum that provide potential transit rider(s) with hands-on instruction and follow-up support to enable trained, confident, and consistent transit users.

4.2 CITY Duties and Responsibilities for Training Services

CITY shall perform the duties described below, and to the extent reasonable and feasible, any contractors and/or regional transit service operators shall assist.

4.2.1 Subcontractor Oversight

CITY will either directly perform or may procure a subcontractor for the implementation of all or part of the Transit Training Program. If a subcontractor is procured, CITY shall provide direct administrative oversight of the subcontractor's performance.

4.2.2 Liaison with Local Jurisdictions, Agencies and Citizens Groups

CITY shall be responsible for coordinating program activities with WPCTSA, its member agencies, local and regional governmental jurisdictions, social service organizations, and/or other relevant transportation citizen groups and stakeholders.

4.3 Duties and Responsibilities

CITY, or their subcontractor, shall perform the duties described below.

4.3.1 Staffing

A Project Manager shall be established as a point of contact for CITY or their respective subcontractor team. The Project Manager must be competent to oversee professional transit training staff and meet or exceed the following minimum qualifications:

- Has at least three (3) years of supervisory experience in a transit training environment that includes outreach, training, and stakeholder engagement for transportation-related services and/or programs, and
- Has three (3) years of experience working with seniors, low-income populations, and/or individuals with disabilities.

Up to 120 hours of collective transit training shall be provided by the Project Manager and their respective team per month.

4.3.2 General Program Design & Related Components – Requirements

CITY, or their subcontractor, shall provide all instructional design materials for supporting the transit training services, including a written assessment process and all necessary equipment, customized written Transit Training Plans, a detailed description of the prescribed professional Transit Training Plan, and all documentation and reporting necessary to provide a comprehensive program and to meet grant reporting requirements, including but not limited to the elements described below:

- Describe the methodology for identifying customers in need of transit training;
- Provide a description of individual and/or small group assessments used to determine the appropriate level of transit training as either
    - Basic Training – generally less than 10 hours in duration (excluding documentation time); or
    - Intensive Training – generally less than 30 hours in duration (excluding documentation time).
- A description of the components of a Basic or Intensive, Group or Individual training, and how the appropriate training level was determined;
- A written description of a customized training program;
- A cost estimate for each customer or groups of customers based on assessment(s), prior to the start of a training process, which shall include the cost for fares;
- A description of specific training goals and a timeline to achieve the desired outcomes;
- A summary of the training provided and goals achieved; and,
- A written schedule for follow-up with clients, quarterly, for the first year following the training.

4.3.3 Individualized and/or Small Group Transit Training Plans Components

At a minimum, individualized and/or small group Transit Training Plans shall include a written plan detailing instruction for the following components:

- How to read and use transit system maps and schedules,
- How to access and use all resources related to the transit service providers,
- How to transfer between regional service providers and use of 'transfers' – if applicable,
- How to obtain a reduced fare identification card,
- How to decide the appropriate fare to purchase and use,
- How to pay a transit fare,
- How to purchase transit passes by phone,
- How to plan round trips using the appropriate transit service provider,
- How to cross streets safely and other safety related issues around bus stops,

- How to be aware and stay observant of other passengers and disruptive behaviors,
- How to identify key landmarks for trip planning purposes,
- How to use ramps and/or bus kneeling features when boarding a bus,
- How to file a formal complaint/compliment regarding a transit service or operation,
- How to know when to get off the bus,
- How to let the bus driver know you want off the bus or need assistance,
- What general emergency procedures to understand when on a bus,
- A review of local transit service providers' Codes of Conduct,
- How to locate and identify bus stops,
- Expected length of training and timeline with milestones, and
- A final report documenting each individual's training experience and outcome

4.3.4 Contract Deliverables

The contract deliverables shall include, but are not limited to, the following:

- A written Transit Training Plan for each customer or group of customers per the criteria described in Sections 4.3.2 and 4.3.3;
- Trained, confident transit customers resulting from the prescribed training;
- A final report and follow-up plan for each customer or group of customers within two weeks of the training period's completion;
- A detailed invoice for services for each customer or group of customers and a report of the prior two months' activities submitted to the City of Roseville Project Manager as part of the bi-monthly reporting process specified in Section 2.1.5 and Exhibit B; and,
- Annual summary reports for customers trained, recommendations on training improvements, and cost saving approaches to enhance the program's effectiveness and sustainability, if applicable.

EXHIBIT B – EDUCATION AND TRANSIT TRAINING ADMINISTRATION REPORTS

The following reports are examples of the performance outcomes and metrics WPCTSA expects CITY to provide as supporting documentation for each invoice submitted for reimbursement. These reports are subject to change based on mutual agreement between WPCTSA and CITY.

Title:	Dry Creek Greenway East Phase 2 Trail Project - Settlement Agreement for Acquisition of Real Property and Professional Services Agreement Amendment
Contact:	Cathy Gosalvez 916-774-5396 cgosalvez@roseville.ca.us

SUMMARY

Staff recommends approval of the Settlement Agreement for Acquisition of Real Property (Escrow Instructions) with George Khnouf in the amount of $10,000 and approval of the first amendment to professional services agreement with Monument ROW for right-of-way acquisition and appraisal services in the amount of $22,800 for the Dry Creek Greenway East Phase 2 Project. The acquisition and amendment are being funded with Local Transportation Funds. No General Fund resources will be used for this project. Sufficient funds exist in the approved budget for the agreement and amendment.

RECOMMENDATION

Staff recommends that the City Council:

1. Adopt a resolution to approve the Settlement Agreement for Acquisition of Real Property (Escrow Instructions) with George Khnouf for the purchase of real property in the amount of $10,000 for 2,178 square feet of fee acquisition and authorize the City Manager to execute the agreement and any other related escrow documents on behalf of the City of Roseville; and

2. Adopt a resolution to approve the First Amendment to Professional Services Agreement with Monument ROW for the Dry Creek Greenway East Phase 2 project and authorize the City Manager to execute it on behalf of the City of Roseville.

BACKGROUND

The Dry Creek Greenway East trail project is a paved multi-use trail along Dry, Cirby, and Linda Creeks from Darling Way/Riverside Avenue to the City limits at S. Cirby Way/Old Auburn Road. Phase 1 of the project (from the Saugstad Park Trail at Darling Way to Rocky Ridge Drive) is complete. Phase 2 of the project will continue the trail from Rocky Ridge Drive to Old Auburn Road and is currently in design.

In January 2025 the City Manager executed a Professional Service Agreement in the amount of $71,000 with Monument ROW for right of way coordination services for the Dry Creek Greenway East Phase 2 project. The amount of the Professional Service Agreement was below the Council approval limit of $75,000 and did not require City Council approval.

Monument ROW negotiated a settlement agreement on the City's behalf with Mr. Khnouf to purchase a portion of his property for the trail construction. Pattison and Associates prepared the appraisal reports that determined the "Fair Market Value" for the acquisition. The required acquisition from Mr. Khnouf consists

of 2,178 square feet in fee for an amount of $10,000. Staff worked with the design consultant, acquisition team, and the property owner to minimize the trail impact on the remaining parcel.

Monument ROW is currently in active negotiations with 3 other property owners for right of way needed for the project on 8 additional parcels, and has requested additional budget due to the ongoing negotiations extending past the timeline within their original scope of work. Contract Amendment #1 is for $22,800 bringing the total contract amount to $93,800. Because the new total contract amount exceeds $75,000, City Council approval is requested.

The project is currently in the design phase with construction anticipated to begin in late 2027.

FISCAL IMPACT

The Dry Creek Greenway East Phase 2 Trail Project is funded by federal and local sources: Active Transportation Program (ATP), Congestion Mitigation and Air Quality (CMAQ), and Local Transportation (LTF) Funds. No General Fund resources will be used for the project. Sufficient funds exist in the approved budget for the agreement and amendment.

ENVIRONMENTAL REVIEW

Adoption of the attached resolutions to approve the agreements for the Dry Creek Greenway East Project is an action that is subject to CEQA. Project level CEQA compliance for the Dry Creek Greenway East Trail Project was accomplished with preparation of the Dry Creek Greenway East Trail Project Environmental Impact Report (Adopted: March 20, 2019) (SCH No.2014032087). Because the project is consistent with the project evaluated in the Dry Creek Greenway East Trail Project Environmental Impact Report, no new effects would be expected to occur and all applicable mitigation measures from the Dry Creek Greenway East Trail Project Environmental Impact Report will be implemented. As such, no additional CEQA action is required at this time.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

1. Ensure a safe and healthy community
4. Invest in well-planned infrastructure and growth
6. Deliver exceptional City services

TITLE REPORT NO.: FSSE-0102400806 -AM
PROJECT: DRY CREEK GREENWAY EAST TRAIL PH. 2

SETTLEMENT AGREEMENT FOR ACQUISITION OF REAL PROPERTY (ESCROW INSTRUCTIONS)

THIS SETTLEMENT AGREEMENT is entered into this _____day of _____, 2026 by and between the City of Roseville, a municipal corporation (hereinafter called "Buyer"), and George Khnouf, a married man as his sole and separate property, (hereinafter called "Seller") for acquisition by Buyer of one Partial Fee Acquisition over real property hereinafter set forth.

IT IS HEREBY MUTUALLY AGREED BETWEEN THE PARTIES AS FOLLOWS:

1. AGREEMENT TO SELL AND PURCHASE. Seller agrees to sell to Buyer, and Buyer agrees to purchase from Seller, upon the terms and for the consideration set forth in this agreement, the following interest in property, all situated in the City of Roseville, County of Placer, State of California:

A. Partial Fee Acquisition (Attachment 1)

The legal description of the interest is identified in the referenced attachment, which is hereby incorporated by reference.

2. PURCHASE PRICE. The total settlement purchase price, payable in cash through escrow, shall be the sum of:

TEN THOUSAND DOLLARS AND 00/100
($10,000.00)

The total purchase price includes: acquisition value of the property interests identified in Section 1 which is specifically agreed by the parties to be the full amount of compensation due and owing to Grantor for the conveyance of the Partial Fee Acquisition upon the close of escrow.

3. CONVEYANCE OF TITLE. Seller agrees to convey the fee interest by Grant Deed. Seller agrees to convey to Buyer marketable fee title free and clear of all recorded and unrecorded liens, encumbrances, assessments, easements, leases, judgements, and taxes EXCEPT:

A. All taxes for the current fiscal year prorated as per Section 6 hereinafter.
B. Quasi-public utility, public alley, public street easements, and rights of way of record.
C. Those exceptions contained in a Preliminary Title Report which are approved by Buyer in escrow.

4. POSSESSION. It is agreed and confirmed by the parties hereto that notwithstanding other provisions in this contract, the right of possession and use of the subject property by Buyer, including the right to remove and dispose of improvements, shall commence on the date the amount of funds as specified in Section 2 herein are deposited into the escrow controlling this transaction. The amount shown in Section 2 herein includes, but is not limited to, full payment for such possession and use, including damages, if any, from said date.

5. TITLE INSURANCE POLICY. Escrow Agent shall, following recording of deed to Buyer, provide Buyer with CLTA Standard Coverage Policy of Title Insurance in the amount of $10,000.00 issued by Fidelity National Title Company showing the title to the property vested in Buyer, subject only to the exceptions set forth in Section 3 and the printed exceptions and stipulations in said policy. Buyer agrees to pay the premium charged therefore.

6. ESCROW. Buyer agrees to open an escrow in accordance with this Agreement at Fidelity National Title Company, 8525 Madison Avenue, Suite 110, Fair Oaks, CA 95628 (916) 782-3711. This Agreement constitutes the joint escrow instructions of Buyer and Seller, and Escrow Agent (Audra Meyer) to whom these instructions are delivered is hereby empowered to act under this Agreement. The parties hereto agree to do all acts necessary to close this escrow in the shortest possible time.

Seller agrees to deposit with Escrow Agent prior to the Close of Escrow original, fully executed and acknowledged deed prepared by Escrow Agent and any other customary agreements, consents, or documents reasonably necessary to effectuate the purchase of the subject property. Buyer agrees to deposit the purchase price and certificate of acceptance upon demand of Escrow Agent.

Insurance policies for fire or casualty are not to be transferred, and Seller will cancel its own policies after close of escrow.

All funds received in this escrow shall be deposited with other escrow funds in a general escrow account(s) and may be transferred to any other such escrow trust account in any State or National Bank doing business in the State of California. All disbursements shall be made either by check or wire transfer from such account.

ESCROW AGENT IS AUTHORIZED AND IS INSTRUCTED TO COMPLY WITH THE FOLLOWING TAX ADJUSTMENT PROCEDURE:

A. Pay and charge Seller for any judgments, unpaid delinquent taxes and/or penalties and interest thereon, and for any delinquent or non-delinquent assessments or bonds against the property;

B. In the event this escrow closes between July 1 and November 1, and current tax information is not available from title insurer, Escrow Agent is instructed to withhold from Seller's proceeds an amount equal to 120% of the prorated amount due based upon the previous fiscal year's second half tax bill. At such time that the tax information is available, Escrow Agent shall make a check payable to the County Tax Collector for Seller's prorated portion of taxes and forward the same to the Buyer and shall refund any difference to the Seller. In the event the amount withheld is not sufficient to pay Seller's prorated portion of taxes due, the Seller herein agrees to immediately pay the difference;

In the event said tax information is available, Seller's taxes shall be prorated in accordance with Paragraph "C" below.

C. From the date that tax information is available, as per Paragraph "B" hereinabove, up to and including June 30th, Seller's current taxes, if unpaid, shall be prorated to date of close of escrow on the basis of a 365 day year in accordance with Tax Collector's proration requirements, together with penalties and interest, if said current taxes are

unpaid after December 10 and/or April 10. At close of escrow, a check payable to the County Tax Collector for Seller's prorata portion of taxes shall be forwarded to Buyer with closing statement;

D. Any taxes which have been paid by Seller, prior to opening of this escrow, shall not be prorated between Buyer and Seller, but Seller shall have the sole right, after close of escrow, to apply to the County Tax Collector of said county for a refund. This refund would apply to the period after Buyer's acquisition, pursuant to Revenue and Taxation Code Section 5096.7.

ESCROW AGENT IS AUTHORIZED TO, AND SHALL:

E. Pay and charge Seller, upon Seller's written approval, for any amount necessary to place title in the condition necessary to satisfy Section 3 of this Agreement, excluding any penalty for prepayment to any lienholder in compliance with Section 1265.240 of the Code of Civil Procedure ("Eminent Domain Law");

F. Pay and charge Buyer for any escrow fees, charges, and costs payable under Section 7 of this Agreement;

G. Disburse funds and deliver deed when conditions of this escrow have been fulfilled by Buyer and Seller.

The term "close of escrow", if and where written in these instructions, shall mean the date that all necessary instruments of conveyance are recorded in the office of the County Recorder. Recordation of instruments delivered through this escrow is authorized if necessary or proper in the issuance of said policy of title insurance.

All time limits within which any matter herein specified is to be performed may be extended by mutual agreement of the parties hereto. Any amendment of, or supplement to, any instructions must be in writing.

TIME IS OF THE ESSENCE IN THESE INSTRUCTIONS AND ESCROW IS TO CLOSE AS SOON AS POSSIBLE. The parties hereto agree to perform all acts reasonably necessary to close this escrow within one hundred twenty (120) days following the opening of escrow.

7. ESCROW FEES, CHARGES AND COSTS. Buyer agrees to pay all Buyer's and Seller's usual fees, charges, and costs which arise in this escrow.

8. RENTAL AND OCCUPANCY BY SELLER. Seller warrants that there are no oral or written leases on all or any portion of property.

9. PERMISSION TO ENTER ON PREMISES. Seller hereby grants to Buyer, or its authorized agents, permission to enter upon the Property at all reasonable times prior to close of escrow for the purpose of making necessary or appropriate inspections. It is understood that Buyer and its contractors will indemnify Seller and hold them harmless from any and all liability for bodily injury, death and property damage arising out of or in any way connected with such inspections, and reimburse Seller for all costs, expenses and loss, including attorney's fees, incurred by them in consequence of any claims,

demands and causes of action which may be made or brought against them arising out of such inspections. Buyer shall provide the Seller a forty-eight (48) hour written notice before entering the property. However, Buyer shall have no obligation to indemnify Seller for any loss, liability, or damage caused by the negligence of the Seller, or any of Seller's employees, agents, or authorized users, including, but not limited to, tenants, invitees or permittees.

10. COUNTERPARTS. This Agreement may be executed in counterparts, each of which so executed shall, irrespective of the date of its execution and delivery, be deemed an original, and all such counterparts together shall constitute one and the same instrument.

11. CLOSING STATEMENT. Seller instructs Escrow Agent to release a copy of Seller's statement to Buyer, whose address is 311 Vernon St, Roseville, CA 95678; purpose being to ascertain if any reimbursements are due Seller.

12. LOSS OR DAMAGE TO IMPROVEMENTS. Loss or damage to the real property or any improvements thereon, by fire or other casualty, occurring prior to the recordation of the deed shall be at the risk of Seller. In the event that loss or damage to the real property or any improvements thereon, by fire or other casualty, occurs prior to the recordation of the deed, Buyer may elect to require that the Seller pay to Buyer the proceeds of any insurance which may become payable to Seller by reason thereof, or to permit such proceeds to be used for the restoration of the damage done, or to reduce the total price by an amount equal to the diminution in value of said property by reason of such loss or damage or the amount of insurance payable to Seller, whichever is greater.

13. EMINENT DOMAIN DISMISSAL. Seller and Buyer acknowledge that this transaction is a negotiated settlement in lieu of condemnation, and Seller hereby agrees and consents to the dismissal or abandonment of any eminent domain action in the Superior Court of the State of California in and for the County of Placer, wherein the herein described property is included and also waives any and all claims to any money on deposit in said action and further waives all attorney's fees, costs, disbursements, and expenses incurred in connection therewith. If, prior to the close of the execution of this transaction, Seller is served with a Summons and Complaint in Eminent Domain in which Seller is a named defendant, upon the closing of this transaction, Seller agrees and consents to Buyer taking a Default in said action.

14. WARRANTIES, REPRESENTATIONS, AND COVENANTS OF SELLER. Seller hereby warrants, represents, and/or covenants to Buyer that:

A. To the best of Seller's knowledge, there are no actions, suits, material claims, legal proceedings, or any other proceedings affecting the property or any portion thereof, at law, or in equity before any court or governmental agency, domestic or foreign.

B. To the best of Seller's knowledge, there are no encroachments onto the property by improvements on any adjoining property, nor do any buildings or improvements encroach on other properties.

C. Until the closing, Seller shall maintain the property in good condition and state of repair and maintenance and shall perform all of its obligations under any service contracts or other contracts affecting the property.

D. Until the closing, Seller shall not do anything which would impair Seller's title to any of the property.

E. To the best of Seller's knowledge, neither the execution of this Agreement nor the performance of the obligations herein will conflict with, or breach any of the provisions of any bond, note, evidence of indebtedness, contract, lease, or other agreement or instrument to which Seller's property may be bound.

F. Until the closing, Seller shall, upon learning of any fact or condition which would cause any of the warranties and representations in this Section 14 (Warranties, Representations, and Covenants of Seller) not to be true as of closing, immediately give written notice of such fact or condition to Buyer.

15. HAZARDOUS WASTE. Neither Seller nor, to the best of Seller's knowledge, any previous owner, tenant, occupant, or user of the Property used, generated, released, discharged, stored, or disposed of any hazardous waste, toxic substances, or related materials ("Hazardous Materials") on, under, in, or about the Property, or transported any Hazardous Materials to or from the Property. Seller shall not cause or permit the presence, use, generation, release, discharge, storage, or disposal of any Hazardous Materials on, under, in, or about, or the transportation of any Hazardous Materials to or from, the Property. The term "Hazardous Material" shall mean any substance, material, or waste which is or becomes regulated by any local governmental authority, the State of California, or the United States Government, including, but not limited to, any material or substance which is (i) defined as a "hazardous waste", "extremely hazardous waste", or "restricted hazardous waste" under Section 25115, 25117 or 25122.7, or listed pursuant to Section 25140 of the California Health and Safety Code, Division 20, Chapter 6.5 (Hazardous Waste Control Law), (ii) defined as "hazardous substance" under Section 25316 of the California Health and Safety Code, Division 20, Chapter 6.8 (Carpenter-Presley-Tanner Hazardous Substance Account Act), (iii) defined as a "hazardous material", "hazardous substance", or "hazardous waste" under Section 25501 of the California Health and Safety Code, Division 20, Chapter 6.95 (Hazardous Materials Release Response Plans and Inventory), (iv) defined as a "hazardous substance" under Section 25281 of the California Health and Safety Code, Division 20, Chapter 6.7 (Underground Storage of Hazardous Substances), (v) petroleum, (vi) asbestos, (vii) polychlorinated byphenyls, (viii) listed under Article 9 or defined as "hazardous" or "extremely hazardous" pursuant to Article 11 of Title 22 of the California Administrative Code, Division 4, Chapter 20, (ix) designated as a "hazardous substances" pursuant to Section 311 of the Clean Water Act, (33 U.S.C. S1317), (x) defined as a "hazardous waste" pursuant to Section 1004 of the Resource Conservation and Recovery Act, 42 U.S.C. S6901 et seq. (42 U.S.C. S6903) or (xi) defined as a "hazardous substances" pursuant to Section 101 of the Comprehensive Environmental Response, Compensation, as amended by Liability Act, 42. U.S.C. S9601 et seq. (42 U.S.C. S9601).

16. COMPLIANCE WITH ENVIRONMENTAL LAWS. To the best of Seller's knowledge the Property complies with all applicable laws and governmental regulations including, without limitation, all applicable federal, state, and local laws pertaining to air and water quality, hazardous waste, waste disposal, and other environmental matters, including, but not limited to, the Clean Water, Clean Air, Federal Water Pollution Control, Solid Waste Disposal, Resource Conservation Recovery and Comprehensive Environmental Response Compensation and Liability Acts, and the California Environment Quality Act, and the rules, regulations, and ordinances of the city within which the subject property is located, the California Department of Health Services, the Regional Water Quality Control Board, the State Water Resources Control Board, the Environmental Protection Agency, and all

applicable federal, state, and local agencies and bureaus.

17. INDEMNITY. Seller agrees to indemnify, defend and hold Buyer harmless from and against any claim, action, suit, proceeding, loss, cost, damage, liability, deficiency, fine, penalty, punitive damage, or expense (including, without limitation, attorneys' fees), resulting from, arising out of, or based upon (i) the presence, release, use, generation, discharge, storage, or disposal of any Hazardous Material on, under, in or about, or the transportation of any such materials to or from, the Property, or (ii) the violation, or alleged violation, of any statute, ordinance, order, rule, regulation, permit, judgment, or license relating to the use, generation, release, discharge, storage, disposal, or transportation of Hazardous Materials on, under, in, or about, to or from, the Property. This indemnity shall include, without limitation, any damage, liability, fine, penalty, punitive damage, cost, or expense arising from or out of any claim, action, suit or proceeding for personal injury (including sickness, disease, or death, tangible or intangible property damage, compensation for lost wages, business income, profits or other economic loss, damage to the natural resource or the environment, nuisance, pollution, contamination, leak, spill, release, or other adverse effect on the environment). This indemnity extends only to liability created prior to or up to the date this escrow shall close. Seller shall not be responsible for acts or omissions to act post close of this escrow.

18. CONTINGENCY. It is understood and agreed between the parties hereto that the completion of this transaction, and the escrow created hereby, is contingent upon the specific acceptance and approval from the Buyer herein.

19. WAIVER OF CLAIMS. Seller acknowledges that the acquisition of the property by Buyer is for a public purpose, and therefore, the property is otherwise subject to taking by the power of eminent domain. Seller acknowledges that this transaction is a negotiated settlement in lieu of condemnation and agrees that the purchase price to be paid herein shall constitute full and fair compensation and consideration for any and all claims that Seller may have against Buyer by reason of the acquisition, improvement, possession, use and/or occupancy of the property, and Seller hereby waives any and all claims, including, but not limited to, claims for attorney's fees, pre-condemnation damages, severance damages, business goodwill, relocation assistance, or any other claim.

20. GENERAL PROVISIONS. The terms and conditions, covenants, and agreements set forth herein shall apply to and bind the heirs, executors, administrators, assigns and successors of the parties hereto.

This Agreement and each provision contained herein may be waived, amended, supplemented, or eliminated only by mutual written agreement of the parties.

If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

This Agreement contains the entire agreement between both parties, neither party relies upon any warranty or representation not contained in this Agreement.

IN WITNESS WHEREOF, the City of Roseville, a Municipal Corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ___ day of _____, 20__, and Seller has caused this Agreement to be executed.

RESOLUTION NO. 26-241

APPROVING A FIRST AMENDMENT TO PROFESSIONAL SERVICES AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND MONUMENT ROW, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, a First Amendment to Professional Services Agreement for Right-of-Way Services for the Dry Creek Greenway East Trail Phase 2 Project, by and between the City of Roseville and Monument Row, has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said first amendment is hereby approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this ___ day of _____, 2026, by the following vote on roll call:

FIRST AMENDMENT TO

PROFESSIONAL SERVICES AGREEMENT

Right-of-Way Services for the Dry Creek Greenway East Trail Phase 2 Project

THIS FIRST AMENDMENT TO AGREEMENT is made and entered into this ___ day of _____, 20__, by and between the City of Roseville, a municipal corporation ("CITY"), and Monument Row, a California corporation ("CONSULTANT"); and

W I T N E S S E T H:

WHEREAS, CITY and CONSULTANT previously entered into a Professional Services Agreement dated January 15, 2025 ("Agreement") regarding Right-of-Way Services for the Dry Creek Greenway East Trail Phase 2 Project ("Project"); and

WHEREAS, CITY desires to amend the Agreement to include additional services as described in CONSULTANT's letter/proposal dated March 24, 2026, which is attached hereto as Exhibit "A" and incorporated herein by reference; and

WHEREAS, CONSULTANT is willing and able to provide such additional services.

NOW, THEREFORE, the parties agree as follows:

1. CONSULTANT shall provide additional services as described in Exhibit "A" of this First Amendment to Agreement.

2. Section 2 of the Agreement is amended by adding an additional paragraph to read as follows:

"CITY shall pay twenty-two thousand, eight hundred dollars ($22,800), in consideration of the additional services as set forth in Exhibit "A" to the First Amendment to Agreement. This brings the total not to exceed contract amount to ninety-three thousand, eight hundred dollars ($93,800)."

3. All other provisions of the Agreement shall remain unchanged and in full force and effect.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this First Amendment to Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ___ day of _____, 20__, and CONSULTANT has caused this First Amendment to Agreement to be executed.

"EXHIBIT "A"

March 24, 2026

Catherine Gosalvez
Associate Engineer
City of Roseville Public Works – Engineering
311 Vernon Street
Roseville, CA 95678

RE: **Roseville Dry Creek Greenway E. Trail Project Phase 2 - Additional Budget Request**

Ms. Gosalvez:

The purpose of this letter is to request a budget amendment due to the ongoing negotiations with the property owners that went well past the August 2025 previous timeline defined in the March 26, 2025 budget amendment, and the City has not proceeded to eminent domain. In addition, the proposal from the two properties owned by DeMello to purchase the properties in their entirety require alternate appraisals and appraisal reviews. Please see the requested additional budget in the second table below.

Below is shown the current scope and fee followed by the additional scope and fee.

Budget - Current 3/26/2025			
Task	$/Ea.	Number	Total
Project Management	$190/hr.	35 hours	$6,650
Appraisals	$2,500	6	$15,000
Appraisal Review	$1,500	6	$9,000
Waiver Valuations	n/a	0	$0
Acquisitions	$5,000	5	$25,000
Acquisition	$7,500	1	$7,500
Escrow Coordination	$850	6	$5,100
Certification	$2,000	1	$2,000
Mileage/Postage			$750
TOTAL			**$71,000**

Budget - Revised 3/10/2026			
Task	$/Ea.	Number	Total
Project Management	$190/hr.	35 hours	$6,650
Continued Project Management	$190/hr.	35 hours	$6,650
Appraisals	$2,500	6	$15,000
Alternate Appraisals for DeMello parcels	$2,000	2	$4,000
Appraisal Review	$1,500	6	$9,000
Alternate Appraisal Reviews	$1,500	2	$3,000
Acquisitions	$32,500		$32,500
Continued Acquisition Negotiations	$2,500	4	$10,000
Escrow Coordination	$850	5	$4,250 (1 less)
Certification	$2,000	1	$2,000
Mileage/Postage			$750
TOTAL			**$93,800**

As of our February 2026 billing, Monument has almost reached contractual ceiling of $71,000. Due to the extended negotiations and management support the project requires, we are requesting an additional **$22,800**, raising our contract amount to **$93,800**. We estimate this amendment will cover us through **September 2026**.

If you have any questions, please contact Jane Wiggans at 949.386.2580 or jwiggans@monumentrow.com.

Sincerely,

Bob Morrison
Vice President

Title:	Historic Old Town Parking Lot Improvement Project - Approval of Plans and Specifications and Authorization to Call for Bids
Contact:	Brian Gulewich 916-746-1376 bcgulewich@roseville.ca.us

SUMMARY

Staff recommends approval of the plans and specifications for the Historic Old Town Parking Lot Improvement Project and authorize staff to call for bids. The scope of this project includes construction of surface parking lot with spaces for 128 vehicles (123 spaces and 5 accessible spaces) on the former Union Pacific Railroad property that was acquired by the City in January 2025. The project also includes the installation of 6 EV charging units (12 total EV chargers), parking lot lighting & landscaping, and architectural improvements to the Roundhouse Row Alleyway and the water tower. Construction is estimated to cost approximately $3,900,000 and is planned for summer 2026 to spring 2027. This project is funded through the Strategic Improvement Fund. No General Fund resources will be used for this project.

RECOMMENDATION

Staff recommends that the City Council approve the plans and specifications for the Historic Old Town Parking Improvement Project and authorize staff to call for bids.

BACKGROUND

In January 2025, the City purchased a 1.64-acre parcel from Union Pacific Railroad (UPRR) for the purpose of adding additional parking capacity in Historic Old Town Roseville. The project location is located between the 400 block of Lincoln Street (existing surface lot) and the UPRR rail yard. The need for additional parking was identified in a parking study completed in 2017 in response to the Capitol Corridor Third Track Project. Construction of the surface lot will help address the parking shortfall in Historic Old Town. This project was also identified as a potential project by the Downtown Specific Plan adopted in 2009.

The scope of this project includes construction of a 128-space (123 spaces and 5 accessible spaces) surface parking lot constructed with hot mix asphalt. The project includes 6 EV charging units (12 total EV chargers), parking lot lighting & landscaping, and architectural improvements to the Roundhouse Row Alleyway and the existing water tower. These improvements will revitalize the alleyway while connecting the new parking lot to the heart of Historic Old Town. Construction is planned for summer of 2026 to spring 2027.

PUBLIC OUTREACH

Public Works staff will work closely with the Public Affairs and Communications team to keep the community and stakeholders informed of the project and its impacts.

FISCAL IMPACT

The project construction is estimated to cost $3,900,000 and will be funded through the Strategic Improvement Fund. Once bids are received, a budget adjustment will be recommended at the contract award to cover anticipated actual costs. No General Fund resources will be used on this project.

ENVIRONMENTAL REVIEW

Development of the Historic Old Town Parking Lot Improvement Project was previously evaluated in the Downtown Specific Plan EIR (April 3, 2009, SCH No. 2007102090), and identified in the associated Downtown Specific Plan. The Historic Old Town Parking Lot Improvement Project is within the scope of the project covered by the Downtown Specific Plan EIR. As discussed in the Specific Plan EIR, the EIR provides environmental analyses of community infrastructure and facilities, including parks, pedestrian bridges, and bike trails, to the extent applicable. Because the project is consistent with the Downtown Specific Plan EIR and Specific Plan, no new effects would be expected to occur and all applicable mitigation measures from the Downtown Specific Plan EIR will be implemented during the design and construction of the Historic Old Town Parking Lot Improvement Project. Because the proposed project meets the requirements identified in Section 15183 of the State CEQA Guidelines, no additional CEQA review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

4. Invest in well-planned infrastructure and growth

Respectfully Submitted,
Brian Gulewich, Assistant Engineer

Jason Shykowski, Public Works Director

ROSEVILLE SURFACE PARKING LOT PROJECT
TITLE

GENERAL NOTES:

1. ALL CONSTRUCTION AND MATERIALS SHALL CONFORM TO THESE PLANS AND THE LATEST EDITION AND AMENDMENTS OF THE CITY OF ROSEVILLE DESIGN AND CONSTRUCTION STANDARDS.

2. THE CITY OF ROSEVILLE IS A MEMBER OF THE UNDERGROUND SERVICE ALERT (U.S.A.) ONE–CALL SYSTEM. THE CONTRACTORS SHALL NOTIFY THE U.S.A. CENTER 48 HOURS IN ADVANCE OF PERFORMING ANY EXCAVATION WORK BY CALLING 1–800–227–2600.

3. THE CONTRACTOR SHALL MARK IN WHITE PAINT ALL AREAS TO BE EXCAVATED PRIOR TO CONTACTING U.S.A. ANY AREAS NOT MARKED WILL NOT BE SUBJECT TO U.S.A., AND THE CONTRACTOR SHALL BE RESPONSIBLE FOR ANY DAMAGE RESULTING FROM EXCAVATION.

4. THE CONTRACTOR SHALL EXPOSE AND VERIFY LOCATIONS AND ELEVATIONS OF EXISTING UNDERGROUND UTILITIES PRIOR TO CONSTRUCTION OF THE NEW IMPROVEMENTS CONNECTING TO OR IN THE VICINITY OF THE SAME.

5. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE PROTECTION OF ALL EXISTING MONUMENTS AND OTHER SURVEY MARKERS ON THE JOB SITE.

6. A.C. SURFACE SHALL BE CUT TO A NEAT, STRAIGHT LINE PARALLEL WITH THE STREET CENTERLINE AND THE EXPOSED EDGE SHALL BE TACKED WITH EMULSION PRIOR TO PAVING. THE EXPOSED BASE MATERIAL SHALL BE GRADED, RE–COMPACTED, AND RESEALED PRIOR TO PAVING.

7. ANY EXISTING CONCRETE SURFACE TO BE REMOVED SHALL BE SAW CUT TO A NEAT, STRAIGHT LINE.

8. THE CONTRACTOR SHALL SUBMIT A TRAFFIC CONTROL PLAN THAT SHALL BE ACCEPTED BY THE ENGINEERING DIVISION OF PUBLIC WORKS BEFORE START OF WORK IN RIGHT–OF–WAY AND SHALL BE IN ACCORDANCE WITH CALIFORNIA MUTCD LATEST EDITION. AT LEAST ONE LANE IN EACH DIRECTION SHALL REMAIN OPEN TO TRAFFIC UNLESS OTHERWISE SHOWN ON THE PLANS. TRAFFIC CONTROL HOURS ARE SUBJECT TO LIMITATION BY THE CITY. TRAFFIC CONTROL WITH LANE CLOSURES THAT AFFECT TRAFFIC FLOW MAY REQUIRE NIGHT WORK. IF, AS A PART OF TRAFFIC CONTROL MEASURES, A ROADWAY CLOSURE HAS BEEN APPROVED, THE CONTRACTOR SHALL NOTIFY DEVELOPMENT SERVICES CONSTRUCTION INSPECTOR 72 HOURS IN ADVANCE OF SETTING UP THIS CLOSURE.

9. CURB RAMPS CONFORMING TO ALL ADA AND TITLE 24 REQUIREMENTS SHALL BE PLACED AT ALL NEW STANDARD CURB RETURNS (STANDARD DRAWING ST–27) AND STANDARD TYPE A–7 DRIVEWAYS. WHERE EXISTING RAMPS DO NOT MEET CURRENT ADA AND TITLE 24 REQUIREMENTS, THE RAMPS SHALL BE UPGRADED IN CONFORMANCE WITH MINIMUM TITLE 24 REQUIREMENTS. WHERE EXISTING RAMPS DO NOT INCLUDE DETECTABLE WARNING PANELS (TRUNCATED DOMES), PANELS SHALL BE RETROFITTED PER THE CONSTRUCTION STANDARDS.

10. DRAIN INLETS NOT WITHIN A PAVED AREA SHALL HAVE A 12" WIDE COLLAR OF 6" THICK P.C.C. OR 2" THICK A.C..

11. THE CONTRACTOR SHALL CONDUCT A PRE–CONSTRUCTION MEETING ONE–WEEK PRIOR TO STARTING WORK. MEMBERS OF THE CITY OF ROSEVILLE PUBLIC WORKS ENGINEERING DIVISIONS, ENVIRONMENTAL UTILITIES DEPARTMENT AND ALL OTHER UTILITY REPRESENTATIVES SHALL BE NOTIFIED BY THE CONTRACTOR AS TO THE DATE AND LOCATION OF THE MEETING.

12. ALL UNDERGROUND UTILITIES WITHIN EXISTING OR PROPOSED CITY OF ROSEVILLE EASEMENTS SHALL REQUIRE A MINIMUM OF 90% COMPACTION ON THE TRENCH BACKFILL. COMPACTION OF BACKFILL BY JETTING IS NOT PERMITTED IN CITY OF ROSEVILLE RIGHT OF WAY AND EASEMENT AREAS OR WITHIN DEDICATED RECLAIMED WATER, STORM, SEWER OR WATER EASEMENTS AND MAINS.

13. PRIOR TO EXCAVATION OF TRENCHES 5 FEET OR DEEPER, THE CONTRACTOR SHALL SUBMIT TO THE ENGINEER A COPY OF THE COMPANY'S ANNUAL CALOSHA TRENCHING PERMIT AND A COPY OF THE COMPANY'S LETTER INFORMING CALOSHA OF THE TIME THE TRENCHING IS COMMENCING AND THE LOCATION OF THE WORK.

14. ALL PAINTED TRAFFIC STRIPES, ARROWS, AND PAVEMENT MARKINGS SHALL BE CONSTRUCTED WITH THERMOPLASTIC MATERIAL TO THE SPECIFICATIONS SET FORTH IN CHAPTER 3 OF THE CALIFORNIA MUTCD LATEST EDITION. NON–REFLECTIVE PAVEMENT MARKERS SHALL CONSIST OF CERAMIC MARKERS ONLY CONFORMING TO CHAPTER 3 OF THE CALIFORNIA MUTCD LATEST EDITION.

15. THE CONTRACTOR SHALL TAKE EXTREME CARE TO PROTECT EXISTING SITE AND ADJACENT IMPROVEMENTS FROM DAMAGE. THE CONTRACTOR SHALL BE RESPONSIBLE TO REPAIR OR MAKE REPLACEMENT OF ALL CRACKED AND DAMAGED PUBLIC IMPROVEMENTS ALONG THE FRONTAGE OF THE PROJECT SITE AND ANY DAMAGE RESULTING FROM CONSTRUCTION TO CURRENT CITY STANDARDS AND AT THEIR OWN EXPENSE. THE EXTENT OF THE REPAIRS SHALL BE DETERMINED BY THE ENGINEER AND SHALL BE COMPLETED PRIOR TO THE CITY ACCEPTANCE OF THE IMPROVEMENTS.

15. WHERE COMBINATIONS OF SIDEWALK OR CURB AND GUTTER ARE PLACED CONTIGUOUS TO EXISTING, ALL ADJOINING EXISTING CONCRETE VERTICAL FACES SHALL BE DOWELED. ALL ABUTTING SIDEWALK ENDS SHALL BE DOWELED MID–SECTION VERTICALLY WITH TWO DOWELS FOR FOUR THROUGH SIX–FOOT WIDE SIDEWALK AND THREE DOWELS FOR WIDER SIDEWALK. ABUTTING CURB AND GUTTER ENDS SHALL BE DOWELED TWICE, 18 INCHES APART AT GUTTER PAN MID–SECTION. DOWEL CONNECTIONS OF LONGITUDINAL RUNS OF SIDEWALK TO BACK OF CURB SHALL BE THREE FEET ON CENTER. ALL DOWELS SHALL BE 16 INCHES LONG, GRADE 60; #4 REBAR PENETRATING FOUR INCHES. THE DOWEL HOLE SHALL BE 5/8–INCH DIAMETER AT A SLIGHT HORIZONTAL ANGLE FROM PERPENDICULAR. THE PENETRATING PORTION OF THE DOWEL AND THE ENTIRE (CLEANED) VERTICAL SURFACE OF THE ADJOINING, EXISTING CONCRETE SHALL BE THOROUGHLY COATED WITH STATE STANDARD TWO–PART EPOXY.

16. WHEN SAWCUTTING WITHIN THE STREET FOR TRENCHING OR OTHER PURPOSES, CONTRACTOR SHALL GRIND 1½" OF PAVEMENT BETWEEN THE LANE LINES (FROM LANE STRIPE TO LANE STRIPE) UPON COMPLETION OF THE SAWCUTTING AND OR TRENCHING WORK. WHERE THE SAWCUTTING OCCURS BETWEEN THE CURB AND GUTTER AND NEAREST LANE STRIPE (INCLUDING BIKE LANES), THE SAME 1 ½" GRIND SHALL BE REQUIRED. CONTRACTOR TO PLACE A PETROMAT FABRIC OR APPROVED EQUAL BY THE CITY OF ROSEVILLE AND OVERLAY FROM LANE STRIPE TO LANE STRIPE, OR CURB TO LANE STRIPE AND RESTRIPE OR REPLACE ANY DELINEATORS REMOVED DURING THE GRIND.

GRADING NOTES:

1. GRADING SHALL CONFORM TO APPENDIX CHAPTER 33 UBC, LATEST EDITION, AND TO THE RECOMMENDATIONS OF THE GEOTECHNICAL ENGINEERING REPORT BY CRAWFORD & ASSOCIATES, INC, DATED JUNE 2021.

2. ALL EROSION AND SEDIMENT CONTROL MEASURES SHALL BE IMPLEMENTED AS SPECIFIED IN THE STORMWATER POLLUTION PREVENTION PLAN (SWPPP) FOR THIS PROJECT OR AS DETERMINED BY THE ENGINEER. THE SWPPP IS CONSIDERED A DYNAMIC DOCUMENT AND WILL CHANGE AS CONDITIONS WARRANT. PERMANENT EROSION AND SEDIMENT CONTROL MEASURES WILL BE CONSTRUCTED AS SHOWN ON THE SWPPP PLAN.

3. NON–POTABLE WATER SHALL BE SPRAYED ON ALL EXPOSED EARTH SURFACES DURING CLEARING GRADING, EARTH MOVING, AND OTHER SITE PREPARATION ACTIVITIES. THE EXPOSED EARTH SHALL BE WATERED THROUGHOUT THE DAY TO MINIMIZE DUST.

4. TARPAULINS OR OTHER EFFECTIVE COVERS SHALL BE USED ON ALL STOCKPILED EARTH MATERIAL AND ON HAUL TRUCKS TO MINIMIZE DUST.

5. THE CITY SHALL HAVE THE AUTHORITY TO STOP ALL GRADING OPERATIONS, IF, IN OPINION OF THE ENGINEER, INADEQUATE DUST CONTROL MEASURES ARE BEING PRACTICED OR EXCESSIVE WIND CONDITIONS CONTRIBUTE TO FUGITIVE DUST EMISSIONS.

6. ADJACENT STREET FRONTAGES SHALL BE SWEPT AT LEAST TWICE A DAY TO REMOVE SILT AND OTHER DIRT WHICH IS EVIDENT FROM CONSTRUCTION ACTIVITIES. REFER TO SCHEDULES WITHIN SWPPP.

7. THE CONTRACTOR SHALL BE RESPONSIBLE FOR CLEANING CONSTRUCTION VEHICLES LEAVING THE SITE ON A DAILY BASIS TO PREVENT DUST, SILT AND DIRT FROM BEING RELEASED OR TRACKED OFFSITE. REFER TO SWPPP FOR SPECIFIC REQUIREMENTS.

8. CONSTRUCTION SHALL STOP IF CULTURAL RESOURCES ARE SUSPECTED. IT IS POSSIBLE THAT PREVIOUS ACTIVITIES HAVE OBSCURED SURFACE EVIDENCE OF CULTURAL RESOURCES. IF SIGNS OF AN ARCHEOLOGICAL SITE, SUCH AS ANY UNUSUAL AMOUNTS OF STONE, BONE, OR SHELL, ARE UNCOVERED DURING GRADING OR OTHER CONSTRUCTION ACTIVITIES, WORK SHALL BE HALTED WITHIN 100 FEET OF THE FIND AND THE ROSEVILLE COMMUNITY DEVELOPMENT DEPARTMENT SHALL BE NOTIFIED. A QUALIFIED ARCHEOLOGIST SHALL BE CONSULTED FOR AN ON–SITE EVALUATION. THE ARCHEOLOGIST MAY REQUIRE ADDITIONAL MITIGATION.

9. IF SUBSTANTIAL FOSSIL REMAINS (PARTICULARLY VERTEBRATE REMAINS) ARE DISCOVERED DURING EARTH–DISRUPTING ACTIVITIES ON THE PROJECT SITE, ACTIVITIES WILL STOP IMMEDIATELY UNTIL A STATE–REGISTERED PROFESSIONAL GEOLOGIST OR QUALIFIED PROFESSIONAL PALEONTOLOGIST CAN ASSESS THE NATURE AND IMPORTANCE OF THE FIND AND A QUALIFIED PROFESSIONAL PALEONTOLOGIST CAN RECOMMEND APPROPRIATE TREATMENT. TREATMENT MAY INCLUDE PREPARATION AND RECOVERY OF FOSSIL MATERIALS SO THAT THEY CAN BE HOUSED IN AN APPROPRIATE MUSEUM OR UNIVERSITY COLLECTION, AND MAY ALSO INCLUDE PREPARATION OF A REPORT FOR PUBLICATION DESCRIBING THE FINDS. THE APPLICANT WILL BE RESPONSIBLE FOR ENSURING THAT RECOMMENDATIONS REGARDING TREATMENT AND REPORTING ARE IMPLEMENTED.

10. IF HUMAN REMAINS ARE DISCOVERED DURING ANY PHASE OF CONSTRUCTION, INCLUDING DISARTICULATED OR CREMATED REMAINS, THE CONSTRUCTION CONTRACTOR WILL IMMEDIATELY CEASE ALL GROUND–DISRUPTING ACTIVITIES WITHIN 100 FEET OF THE REMAINS AND NOTIFY THE CITY OF ROSEVILLE PUBLIC WORKS DEPARTMENT.

11. SHOULD GRADING OPERATIONS UNCOVER HAZARDOUS MATERIALS, OR WHAT APPEARS TO BE HAZARDOUS MATERIALS, THE FIRE DEPARTMENT SHALL BE CONTACTED IMMEDIATELY AT (916) 774–5820. THE AREA, WHICH CONTAINS THE HAZARDOUS MATERIALS, SHALL BE MARKED OFF UNTIL AN INVESTIGATION BY A MEMBER OF THE FIRE DEPARTMENT IS CONDUCTED.

12. CONTAMINATED SOIL–DEVELOP AGREES TO PROPERLY ADHERE TO ALL THEN CURRENT STATE AND FEDERAL REQUIREMENTS WHEN ANY EVIDENCE OF TOXIC, HAZARDOUS OR CONTAMINATED SOILS ARE ENCOUNTERED DURING ANY AND ALL EXCAVATION OR GRADING OPERATIONS, AND TO INDEMNIFY, DEFEND AND HOLD HARMLESS THE CITY OR ROSEVILLE, ITS OFFICERS, AGENTS AND EMPLOYEES, FROM ANY ALL LIABILITY, COSTS, CLAIMS, FEES, FINES, PENALTIES AND CLAIMS OF OR DAMAGE OF ANY TYPE WHATSOEVER, EXTRA COSTS FOR REMEDIATION AND/OR REMOVAL OF SOIL SHALL BE BOURN SOLELY BY THE DEVELOPER. THE PARTIES INTEND THAT THIS PROVISION BE BROADLY CONSTRUED.

FIRE DEPARTMENT HAZARDOUS MATERIALS DISCLOSURE NOTE:

1. IF SITE SURVEY OR EARTH MOVING WORK RESULTS IN THE DISCOVERY OF HAZARDOUS MATERIALS IN CONTAINERS, OR WHAT APPEARS TO BE HAZARDOUS WASTES RELEASED INTO THE GROUND, THE CONTRACTOR OR APPLICANT SHALL IMMEDIATELY REPORT THE FINDING TO THE ROSEVILLE FIRE DEPARTMENT VIA PHONE (916) 774–5820. ALL SUSPECTED AREAS SHALL BE MARKED OFF WITH APPROVED SIGNAGE OR CAUTION TAPE UNTIL SUCH TIME THAT A REPRESENTATIVE FROM THE FIRE DEPARTMENT DETERMINES WHETHER THE RELEASE IS REPORTABLE OR NOT AND IF THE SITE REMEDIATION IS REQUIRED.

DRAINAGE AND UTILITY NOTES:

1. THE TYPES, LOCATIONS, SIZES AND DEPTHS OF EXISTING UNDERGROUND UTILITIES SHOWN ON THESE PLANS WERE OBTAINED FROM SOURCES OF VARYING RELIABILITY. THE CONTRACTOR IS CAUTIONED THAT ONLY ACTUAL EXCAVATION WILL REVEAL THE TYPES, EXTENT, SIZES, LOCATIONS AND DEPTHS OF SUCH UNDERGROUND UTILITIES. MARK THOMAS & COMPANY, INC. AND THE CITY CAN NOT ASSUME RESPONSIBILITY FOR THE COMPLETENESS OR ACCURACY OF THE DELINEATION OF SUCH UTILITIES NOR THE EXISTENCE OF OTHER BURIED OBJECTS OR SUCH UNDERGROUND UTILITIES WHICH MAY BE ENCOUNTERED BUT WHICH ARE NOT SHOWN ON THESE PLANS.

2. CONTRACTOR SHALL CONTACT UNDERGROUND SERVICE ALERT (1–800–642–2444) 48 HOURS BEFORE WORK IS TO BEGIN. THE CONTRACTOR SHALL POTHOLE AND VERIFY THE LOCATION OF ALL EXISTING UTILITIES IN THE FIELD. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE PROTECTION OF AND REPAIR OF DAMAGE TO ALL EXISTING UTILITIES.

3. THE CONTRACTOR SHALL BE RESPONSIBLE FOR CONTACTING THE RESPECTIVE UTILITY COMPANIES FOR VERIFICATION AT THE SITE OF ANY POSSIBLE CONFLICTS WITH THEIR UNDERGROUND UTILITIES AND THE PROPOSED IMPROVEMENTS SHOWN ON THESE PLANS.

4. THE CONTRACTOR SHALL POTHOLE AND VERIFY LOCATION OF ALL EXISTING UTILITIES IN THE FIELD. IF THE CONTRACTOR FINDS ANY DISCREPANCIES BETWEEN ACTUAL AND WHAT IS SHOWN ON THE PLANS, THE CONTRACTOR SHALL IMMEDIATELY NOTIFY THE ENGINEER. LOCATIONS SHOWN ON THE PLANS ARE APPROXIMATE AND FOR GENERAL INFORMATION PURPOSES ONLY.

5. ALL SANITARY SEWER AND STORM DRAIN PIPES SHALL HAVE A MINIMUM OF 5 FEET CLEARANCE (HORIZONTALLY). A MINIMUM OF 3 FEET OF COVER SHALL BE HELD FROM FINISH GRADE TO THE TOP OF ALL WATER, SEWER, AND STORM DRAIN PIPES.

6. ALL UTILITY TRENCHING SHALL BE COMPLETED PER CITY OF ROSEVILLE CONSTRUCTION STANDARD SECTION 31; TRENCH BACKFILL PER STANDARD DETAIL TB–1, W–1 & SS–1.

ROSEVILLE SURFACE PARKING LOT PROJECT

GENERAL NOTES

2 OF 29

EROSION & SEDIMENT CONTROL NOTES:

1. THE STATE'S GENERAL PERMIT FOR STORMWATER DISCHARGES ASSOCIATED WITH CONSTRUCTION ACTIVITY (WQD 99-080-DWQ) REQUIRES THE PREPARATION OF A STORMWATER POLLUTION PREVENTION PLAN (SWPPP) FOR SITES WITH SOIL DISTURBANCES GREATER THAN OR EQUAL TO ONE ACRE, OR FROM SITES SMALLER THAN ONE ACRE IF THE CONSTRUCTION ACTIVITY IS PART IF A LARGER PLAN OF DEVELOPMENT OR SALE THAT DISTURBS ONE ACRE OR MORE. CONSTRUCTION ACTIVITY SHALL NOT COMMENCE, NOR A PRE-CONSTRUCTION MEETING PERMITTED TO BE SCHEDULED, PRIOR TO THE SWPPP BEING ACCEPTED BY THE CITY. FOR MORE INFORMATION SEE: WWW.ROSEVILLE.CA.US/EU/STORMWATER_MANAGEMENT

2. THE PROJECT STORMWATER POLLUTION PREVENTION PLAN (SWPPP) IS INCORPORATED BY REFERENCE INTO THIS SET OF PLANS. THE SWPPP IS CONSIDERED A DYNAMIC DOCUMENT AND WILL CHANGE AS CONDITIONS WARRANT. PERMANENT EROSION AND SEDIMENT CONTROL MEASURES WILL BE CONSTRUCTED AS SHOWN ON THESE PLANS.

3. A COPY OF THE SWPPP SHALL BE KEPT AT THE PROJECT SITE AT ALL TIMES.

4. ALL EROSION AND SEDIMENT CONTROL MEASURES SHALL BE IMPLEMENTED AS SPECIFIED IN THE SWPPP AND/OR AS DIRECTED BY THE ENGINEER.

5. NO GRADING OR TRENCHING, EXCEPT AS REQUIRED FOR EROSION OR SEDIMENT CONTROL, SHALL OCCUR WITHIN 35 FEET FROM THE CENTERLINE OF PERENNIAL AND INTERMITTENT DRAINAGE SWALES BETWEEN OCTOBER 15 AND APRIL 15 EXCEPT AS APPROVED BY THE DEPARTMENT OF FISH AND WILDLIFE.

6. ALL EROSION AND SEDIMENT CONTROL MEASURES SHALL BE MAINTAINED IN ACCORDANCE WITH THE SWPPP.

7. THE CONTRACTOR SHALL ESTABLISH A SPECIFIC SITE WITHIN THE DEVELOPMENT FOR MAINTENANCE AND STORAGE OF EQUIPMENT OR ANY OTHER ACTIVITY THAT MAY ADVERSELY CONTRIBUTE TO THE WATER QUALITY OF THE RUNOFF IN ACCORDANCE WITH THE SWPPP.

8. CONTRACTOR SHALL HYDROSEED ALL DISTURBED AREAS, AS SPECIFIED IN THE APPROVED SWPPP.

9. THE CONTRACTOR IS EXPECTED TO COMPLY WITH THE FUGITIVE DUST CONTROL REQUIREMENTS FROM THE PLACER COUNTY AIR POLLUTION CONTROL DISTRICT: WWW.PLACER.CA.GOV/APCD

STRIPING NOTES:

1. FOR ALL STRIPES AND MARKINGS WITHIN THE ROADWAY, ALL TRAFFIC STRIPES, ARROWS AND PAVEMENT MARKINGS SHALL BE CONSTRUCTED WITH THERMOPLASTIC MATERIAL TO THE SPECIFICATIONS SET FORTH IN SECTION 84 OF THE STATE OF CALIFORNIA DEPARTMENT OF TRANSPORTATION (CALTRANS) STANDARD SPECIFICATIONS (2015). THERMOPLASTIC MATERIAL SHALL BE APPLIED ONLY WHEN THE PAVEMENT SURFACE TEMPERATURE IS ABOVE 60 DEGREES FAHRENHEIT. ALL STRIPE AND MARKINGS ON THE BIKE TRAIL SHALL BE PAINT PER SECTION 84 OF CALTRANS STANDARD SPECIFICATIONS.

2. THE CONTRACTOR SHALL BE RESPONSIBLE FOR PROVIDING AND MAINTAINING ALL CONSTRUCTION SIGNING AS REQUIRED BY CALIFORNIA MUTCD (LATEST EDITION) TO DELINEATE CONSTRUCTION HAZARDS AT CONTRACTORS EXPENSE.

FIRE DEPARTMENT NOTES:

1. CONSTRUCTION MATERIAL AND VEHICLES SHALL NOT OBSTRUCT FIRE APPARATUS ACCESS TO FIRE APPARATUS ROADS, FIRE HYDRANTS OR BUILDINGS.

2. TEMPORARY ABOVE-GROUND FUEL STORAGE TANK MAY BE USED ON CONSTRUCTION SITES FOR DIESEL FUEL ONLY AND SHALL NOT EXCEED 1,000 GALLON LIQUID CAPACITY. SUCH INSTALLATIONS SHALL COMPLY WITH ALL APPLICABLE PROVISIONS OF THE CITY FIRE CODE. A FIRE DEPARTMENT PERMIT SHALL BE OBTAINED PRIOR TO THE PLACEMENT OF SUCH TANKS ON THE SITE. THE STREET ADDRESS OF THE CONSTRUCTION SITE SHALL BE CLEARLY IDENTIFIED AT ALL ENTRANCES INTO EACH EXISTING SITE.

3. THE BURNING OF COMBUSTIBLE CONSTRUCTION MATERIALS AND TRASH IS PROHIBITED.

4. ASPHALT AND TAR KETTLES SHALL NOT BE LOCATED WITHIN 20 FEET OF ANY COMBUSTIBLE MATERIAL, COMBUSTIBLE BUILDING SURFACE OR BUILDING OPENING. AN ATTENDANT SHALL BE WITHIN 100 FEET OF A KETTLE WHEN THE HEAT SOURCE IS OPERATING. A MINIMUM OF ONE 208:C PORTABLE FIRE EXTINGUISHER SHALL BE LOCATED WITHIN 30 FEET OF THE KETTLE.

5. DRY WALL AND OTHER TEMPORARY HEATING DEVICES SHALL BE OF AN APPROVED TYPE, LOCATED AWAY FROM COMBUSTIBLE MATERIALS AND ATTENDED AND MAINTAINED AT ALL TIMES. HEATING DEVICES SHALL NOT BE OPERATED AFTER NORMAL WORKING HOURS WITHOUT BEING ATTENDED ON AN HOURLY BASIS.

6. CUTTING AND WELDING OPERATIONS SHALL CONFORM TO THE HOT WORK PROVISIONS OF ARTICLE 49 OF THE CITY FIRE CODE. A FIRE WATCH SHALL BE PROVIDED DURING HOT WORK ACTIVITIES AND SHALL CONTINUE FOR A MINIMUM OF 30 MINUTES AFTER THE CONCLUSION OF THE WORK.

IRRIGATION NOTES

THE IRRIGATION SYSTEM IS BASED ON THE MINIMUM OPERATING PRESSURE AND THE MAXIMUM FLOW DEMAND SHOWN ON THE DRAWINGS. THE CONTRACTOR SHALL VERIFY WATER PRESSURE PRIOR TO CONSTRUCTION. AVAILABLE STATIC PRESSURE IS EXPECTED TO BE SUFFICIENT FOR NEW IRRIGATION VALVES. AS DIRECTED BY THE CITY, IRRIGATION

1. SCHEDULE SHALL BE ADJUSTED TO SERVICE NEW VALVES. CONTRACTOR SHALL VERIFY WATER PRESSURE PRIOR TO CONSTRUCTION. IF PRESSURE IS NOT SUFFICIENT, NOTIFY THE CITY REPRESENTATIVE A MINIMUM OF THREE (3) WORKING DAYS BEFORE BEGINNING CONSTRUCTION ACTIVITIES. IN THE EVENT PRESSURE DIFFERENCES ARE NOT REPORTED IN WRITING PRIOR TO THE START OF CONSTRUCTION, THE CONTRACTOR SHALL ASSUME FULL RESPONSIBILITY FOR ANY NECESSARY REVISIONS.
2. THIS DESIGN IS DIAGRAMMATIC. ALL PIPING, VALVES, ETC., SHOWN WITHIN PAVED AREAS ARE FOR DESIGN CLARIFICATION ONLY. INSTALL PIPING AND VALVES IN PLANTING AREAS WHERE POSSIBLE.
3. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO FAMILIARIZE THEMSELF WITH ALL GRADE DIFFERENCES, LOCATION OF WALLS, STRUCTURES, AND UTILITIES. THE CONTRACTOR SHALL EXERCISE EXTREME CARE AND BE RESPONSIBLE FOR ANY DAMAGE IN EXCAVATING AND WORKING NEAR EXISTING UTILITIES. THEY SHALL COORDINATE THEIR WORK FOR THE LOCATION OF UTILITIES AND THE INSTALLATION OF PIPE SLEEVES THROUGH WALLS, UNDER ROADWAYS, AND NEAR STRUCTURES. PRIOR TO CONSTRUCTION, CONTACT ALL APPLICABLE AGENCIES AND U.S.A. TO FIELD LOCATE ALL EXISTING UTILITIES.
4. THE CONTRACTOR SHALL FLUSH AND ADJUST ALL LINES AND VALVES FOR OPTIMUM PERFORMANCE.
5. FIELD ADJUSTMENTS MAY BE REQUIRED TO PROVIDE OPTIMUM OPERATING EFFICIENCY. THE CONTRACTOR SHALL BE RESPONSIBLE FOR CONTACTING THE LANDSCAPE ARCHITECT TO REVIEW PROPOSED FIELD ADJUSTMENTS PRIOR TO INSTALLATION. IN THE EVENT THAT NO WRITTEN REQUEST IS RECEIVED BY THE LANDSCAPE ARCHITECT, THE CONTRACTOR SHALL BE RESPONSIBLE FOR ANY REVISIONS.
6. SLEEVE ALL PRESSURE MAINLINE PIPE, LATERAL PIPE, AND CONTROL WIRES UNDER STREETS AND CONCRETE WALKWAYS WITH THE PROPER SIZE SCH 40 PVC AND DEPTH AS SPECIFIED.
7. DO NOT WILLFULLY INSTALL THE IRRIGATION SYSTEM AS DIAGRAMMATICALLY SHOWN ON THE DRAWINGS WHEN IT IS OBVIOUS IN THE FIELD THAT OBSTRUCTIONS, GRADE DIFFERENCES OR DIFFERENCES IN SITE DIMENSIONS EXIST THAT MIGHT NOT HAVE BEEN FORESEEN AND CONSIDERED IN THE ENGINEERING. THE CITY ENGINEER SHOULD BE INFORMED IN WRITING OF SUCH OBSTRUCTIONS AND DIFFERENCES, BUT IN THE EVENT THAT THIS NOTIFICATION IS NOT PERFORMED, THE CONTRACTOR SHALL ASSUME FULL RESPONSIBILITY FOR ANY REVISIONS AND REPAIR WORK NECESSARY.
8. INSTALL ALL PIPE MATERIALS AND EQUIPMENT AS SHOWN IN THE CONSTRUCTION DETAILS. USE "TEFLON" TAPE ON ALL PVC MALE THREADS OF ALL SPRINKLER SWING JOINTS AND VALVE ASSEMBLIES EXCEPT MARLEX STYLED FITTINGS.
9. NO DISRUPTION OF THE EXISTING IRRIGATION SYSTEM'S WATERING WILL BE ALLOWED DURING CONSTRUCTION. ALL ADJACENT SYSTEM SHALL MAINTAIN AUTOMATIC PROGRAMMED WATERING SCHEDULES THROUGHOUT CONSTRUCTION. IF DISTRIBUTION OF AUTOMATIC IRRIGATION IS INEVITABLE, CONTRACTOR SHALL PROVIDE AND MAINTAIN SUPPLEMENTAL IRRIGATION FOR EXISTING TREES TO REMAIN THROUGHOUT CONSTRUCTION.
10. CONTRACTOR SHALL BE RESPONSIBLE FOR REPAIRING OR REPLACING & ADJUSTING ANY PORTIONS OF THE EXISTING ADJACENT IRRIGATION SYSTEMS DAMAGED DURING CONSTRUCTION OF THE IMPROVEMENTS IN THIS CONTRACT.
11. SPRAY NOZZLES RADIUS SHALL BE ADJUSTED FOR EVEN WATER DISPERSAL AND TO AVOID OVERSPRAY ONTO CONCRETE OR ASPHALT.
12. FOR ADDITIONAL INFORMATION, SEE PROJECT DETAILS AND SPECIFICATIONS.
13. CONTRACTOR SHALL REPAIR, REPLACE, AND/OR RELOCATE EXISTING IRRIGATION TO SERVICE EXISTING AND PROPOSED PLANTING. IF REPLACING, MATCH EXISTING IRRIGATION EQUIPMENT, CONTRACTOR SHALL ENSURE IRRIGATION MEETS HEAD-TO-HEAD COVERAGE AND ADJUST AS NECESSARY. TOTAL REPAIR, REPLACE, AND/OR RELOCATE AREA: 695 SF
14. CONTRACTOR SHALL MODIFY EXISTING IRRIGATION TO SERVICE REPLACEMENT AND PROPOSED PLANTING AREAS
15. CONTRACTOR SHALL RUN A FUNCTIONALITY TEST OF THE EXISTING CONTROLLER PRIOR TO IRRIGATION INSTALLATION. IF INOPERABLE, NOTIFY THE CITY REPRESENTATIVE A MINIMUM OF THREE (3) WORKING DAYS BEFORE BEGINNING CONSTRUCTION ACTIVITIES.
16. DUE TO UPDATED AS-BUILT DRAWINGS BEING UNAVAILABLE FOR THIS PROJECT, THE IRRIGATION DESIGN HAS BEEN DEVELOPED BASED ON THE BEST AVAILABLE ASSUMPTIONS REGARDING SYSTEM OPERATION. THE CONTRACTOR SHALL VERIFY ACTUAL SITE CONDITIONS PRIOR TO INSTALLATION. IF THE EXISTING CONDITIONS DIFFER FROM THESE ASSUMPTIONS, NOTIFY THE CITY REPRESENTATIVE A MINIMUM OF THREE (3) WORKING DAYS BEFORE BEGINNING CONSTRUCTION ACTIVITIES.
17. CONTRACTOR TO ASSUME 2" DIAMETER SCHEDULE 40 PVC PIPE FOR THE EXISTING MAINLINE TAP-IN. CONTRACTOR SHALL FIELD VERIFY THE EXISTING PIPE SIZE AND MATERIAL PRIOR TO COMMENCING IRRIGATION CONSTRUCTION. IF THE EXISTING CONDITIONS DIFFER FROM THESE ASSUMPTIONS, NOTIFY THE CITY REPRESENTATIVE A MINIMUM OF THREE (3) WORKING DAYS BEFORE BEGINNING CONSTRUCTION ACTIVITIES.

WATER EFFICIENT LANDSCAPE WORKSHEET

Project: Roseville 25-B1198 Surface Parking Lot 5/20/2026

ETo of location (inches/ year): 57

SECTION A - HYDROZONE INFORMATION TABLE

HYDROZONE	VALVES	IRRIGATION METHOD	AREA (SQ. FT.)	% OF LANDSCAPE AREA
I	1, 3	TREE BUBBLERS	435	4.2%
II	2,4	DRIP	6,604	63.8%
III	5	SPRAY	3,313	32.0%
SLA			0	0.0%
		TOTAL	10,352	100%

SECTION B.1 - MAXIMUM APPLIED WATER ALLOWANCE (MAWA)

MAWA Equition: MAWA = (ETo) x (0.62) x [(0.45 x LA)+(0.55 x SLA)]

MAWA = (57.0) (0.62) (0.45 x 8267) + 0

MAXIMUM APPLIED WATER ALLOWANCE = 164,627.86 GALLONS PER YEAR

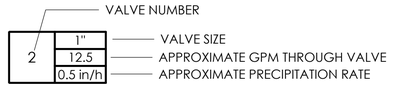
SECTION B.2 - ESTIMATED TOTAL WATER USE (ETWU)

Estimated Total Water Use Equation: ETWU = (ETo) x (0.62) x [(PF x HA/0.81) + SLA]

HYDRZONE	PLANT USE WATER TYPE	PLANT FACTOR (PF)	AREA (SQ. FT.)	PF X HA (SQ. FT.)
I	LOW	0.3	435	131
II	LOW	0.3	6,604	1,981
III	LOW	0.3	3,313	994
		(PF X HA) =		3,106 SF

ETWU = (57.0) (0.62) $\frac{\text{PF x HA}}{0.81}$

ESTIMATED TOTAL WATER USE = 135,496.18 GALLONS PER YEAR



The ETWU is less than MAWA. The water budget complies with the MAWA

MARK THOMAS

IRRIGATION LEGEND

- GATE VALVE, NIBCO T-113, 1.5" SIZE. INSTALL PER DETAIL. (2 ID-1)
- REMOTE CONTROL VALVE ASSEMBLY, RAIN BIRD PEB, 1" SIZE, OPERATING RANGE OF 0.25-300 GPM. GATE VALVE, NIBCO T-580-S6-R-66-LL, 1" SIZE. INSTALL PER DETAIL. (3 ID-1)
- DRIP REMOTE CONTROL VALVE ASSEMBLY, TORO 2500DK-1-LF, 1" SIZE WITH OPERATING RANGE OF 0.25-25 GPM. INSTALL PER DETAIL. (4 ID-1)
- QUICK COUPLING VALVE ASSEMBLY, RAIN BIRD 44LRC, BRASS WITH CORROSION-RESISTANT STAINLESS STEEL SPRING, THERMOPLASTIC LOCKING COVER, 1" SIZE. INSTALL GATE VALVE, NIBCO T-113, BETWEEN MAINLINE CONNECTION AND QUICK COUPLER AS SHUTOFF. INSTALL PER DETAIL. (1 ID-1)
- DEEP WATER BUBBLER ASSEMBLY, RAIN BIRD RWS-B-C-1402, 36" TUBE, 0.50 GPM. ONE PER TREE. INSTALL WITH FILTER FABRIC SLEEVE, RWS-SOCK, INSTALL PER DETAIL. (5 ID-1)
- EXISTING MAINLINE
- MAINLINE, SCH 40 PVC, SIZE SPECIFIED ON PLAN. INSTALL PER DETAIL.
- LATERAL LINE, SCH 40 PVC, SIZE SPECIFIED ON PLAN, INSTALL PER DETAIL. (4 ID-2) (5 ID-2) (6 ID-2)
- SLEEVE, SCH 40 PVC, SIZE PER DETAIL. COVER TO BE AS INDICATED IN SPECS. FOR PIPE DEPTH OF COVER, INSTALL PER DETAIL. CONTRACTOR TO PROVIDE EXTRA SLEEVE ADJACENT TO PROPOSED SLEEVE WHEN NECESSARY. SIZE SLEEVES PER DETAIL.
- SUBSURFACE DRIP, RAIN BIRD XFS-06-18 SUBSURFACE DRIPLINE WITH COPPER SHIELD TECHNOLOGY, INSTALL PER DETAIL. AIR RELIEF VALVE NETAFIM TLAVRV, 1/2" MPT CONNECTION AND AUTOMATIC FLUSH VALVE NETAFIM TL050MFV-1 1/2" SIZE MPT. INSTALL PER DETAILS. (6 ID-1) (6 ID-2) (2 ID-2)

  INSTALL DRIP SYSTEM OPERATION INDICATOR, RAINBIRD XFS-06-18 DRIPLINE, WITHIN 3 FEET OF IRRIGATION VALVES FOR MAINTENANCE. REFER TO MANUFACTURER'S SPECIFICATIONS FOR INSTALLATION. ALL DRIP IRRIGATION INSTALLED BELOW SURFACE WITH EMITTERS AT 18" O.C.
- EXISTING IRRIGATION TO RELOCATE, REPAIR, REPLACE AND/OR REMOVE

TEMPORARY IRRIGATION LEGEND (ABOVE GRADE)

- SHRUB ROTOR ASSEMBLY, RAINBIRD 3500 SERIES WITH PART CIRCLE ADJUSTABLE ARC AND SEAL-A-MATIC CHECK VALVE, 1-1/2" SIZE. INSTALL PER DETAIL. (3 ID-3)
- LATERAL LINE, SCH 40 PVC, SIZE SPECIFIED ON PLAN, INSTALL PER DETAIL. (4 ID-2) (5 ID-2) (6 ID-2)

VALVE QUICK COUPLING

SCALE: NONE
REVISED: JULY 2025
REVIEWED BY: T. GEE
APPROVED BY: J. GELLER

PK-IR-13

1 ID-1 QUICK COUPLING VALVE
CITY OF ROSVEILLE STANDARD — N.T.S.

NOTES:

TRACING WIRE THROUGH VALVE BOXES SHALL BE PLACED OUTSIDE OF RISER BUT INSIDE OF BOX.

TRACING WIRE SHALL BE SPLICED INSIDE THE VALVE BOX PER (W-17) AND SHALL LOOP WITHIN THE VALVE BOX WITH 18" OF SLACK WIRE

ALL GATE VALVES SHALL BE CENTERED IN A ONE PIECE RISER STOCK WITH THE USE OF A RISER ALIGNER

OPERATOR NUTS DEEPER THAN 40 INCHES FROM FINISH GRADE SHALL REQUIRE A VALVE NUT EXTENSION 2 FEET MINIMUM IN LENGTH.

VALVE BOXES LOCATED IN A PAVED AREA SHALL BE PLACED IN A 6" X 6" CONCRETE COLLAR A MINIMUM OF 3" BELOW PAVEMENT

VALVE BOXES LOCATED IN A LANDSCAPED AREA SHALL BE PLACED IN A 6" X 6" CONCRETE COLLAR AT FINISHED GRADE.

VALVE BOXES LOCATED IN AN UNDEVELOPED AREA SHALL BE PLACED IN A 12" DEEP BY 6" WIDE CONCRETE COLLAR 6 INCHES ABOVE GRADE.

INSTALL (3" X 5" CONCRETE BRICK) UNDER ENTIRE PERIMETER OF BOX.

VALVES AND FITTINGS SHALL BE WRAPPED AND SEALED IN 8 MIL POLYETHYLEN.E

VALVE RISOR STOCK SHALL BE A MINIMUM OF 4" INSIDE VALVE BOX AND MINIMUM 2" BELOW METAL RING.

MATERIALS

1) CONCRETE VALVE BOX
2) #12 INSULATED TRACING WIRE OUTSIDE RISER
3) 8" RISER STOCK
4) RISER ALIGNER
5) PLASTIC BACKFILL TAPE
6) GATE VALVE
7) DUCTILE IRON TEE
8) CONCRETE COLLAR (SEE NOTES) *
9) CONCRETE BRICK (SEE NOTES)
10) #4 REBAR AROUND CIRCUM. (TYP.)
11) VALVE EXTENSION PER SECTION 81-12.B

* CONCRETE COLLAR SHALL BE PLACED FLUSH TO FINISH GRADE IN ALL COLLECTORS AND ARTERIALS, OPTIONAL IN ALL OTHER ROADWAYS. FINISH SURFACE SHALL BE MEDIUM BROOM FINISH WITH PATTERN PERPENDICULAR TO VEHICLE TRAVEL DIRECTION. SET COLLAR 1/8" BELOW ADJACENT FINISHED PAVEMENTS.

PLANTING NOTES

MULCH: CONTRACTOR SHALL INSTALL A UNIFORM THREE INCH LAYER OF GROUND WOOD PRODUCT MULCH IN ALL PLANTING AREAS, AND A UNIFORM THREE INCH LAYER OF 'NON-FLOATING' MULCH IN ALL BIORETENTION AREAS, SEE SPECS. MULCH SHALL NOT TOUCH TREE TRUNKS. MULCH SHALL NOT TOUCH TREE TRUNKS. MULCH SAMPLE SHALL BE SUBMITTED AND APPROVED BY CITY ENGINEER PRIOR TO INSTALLATION.

2. IMPORTED AMENDED TOPSOIL: CONTRACTOR SHALL EXCAVATE ALL PLANTING AREAS, PER PLANTING PLANS, A MINIMUM OF 27" DEPTH BELOW FINISH GRADE OF SURROUNDING HARDSCAPE. ALL EXISTING GRAVEL, ROADWAY PAVEMENT AND AGGREGATE BASE WITHIN THE PLANTING AREAS SHALL BE REMOVED BEFORE INSTALLING IMPORTED AMENDED TOPSOIL. CONTRACTOR TO PROVIDE SUBMITTAL TO CITY PRIOR TO ORDERING. REFER TO CIVIL PLANS FOR PLANTING AREA GRADING AND SLOPES.
3. BIORETENTION SOIL MEDIA: CONTRACTOR SHALL INSTALL BIORETENTION SOIL MEDIA IN ALL BIORETENTION AREAS AS SHOWN ON PLANTING PLANS. A MINIMUM OF 24" IN DEPTH. CONTRACTOR SHALL SUBMIT SAMPLES FOR BIORETENTION SOIL MEDIA FOR REVIEW AND APPROVAL PRIOR TO INSTALLATION. INSTALL PER PLANS, DETAILS, AND SPECIFICATIONS. (6/PD-1)
4. FINISHED GRADE: CONTRACTOR SHALL INSTALL TOPSOIL AND BIORETENTION SOIL MEDIA 3" BELOW FINISH GRADE OF SURROUNDING HARDSCAPE TO ALLOW FOR A 3" LAYER OF MULCH. REFER TO CIVIL PLANS FOR PLANTING AREA GRADING AND SLOPES.
5. TREES: ALL NEW TREES SHALL BE INSTALLED PER PLAN AND DETAILS. (1/PD-1)
6. SHRUBS: ALL SHRUBS SHALL NOT BE PLANTED WITHIN 3' MINIMUM OF ANY TREES, INSTALL PER DETAILS. (2/PD-1) (3/PD-1)
7. ROOT BARRIERS: CONTRACTOR SHALL INSTALL LINEAR ROOT BARRIER ANYWHERE TREES ARE LOCATED WITHIN 6-FEET OF PAVEMENT AS SHOWN ON PLANS, PER SPECIFICATIONS. (4/PD-1)
8. CONTRACTOR SHALL NOT EXCAVATE SOIL WITHIN THE DRIP LINE OF EXISTING TREES TO REMAIN.

PLANTING PLAN

23 OF 29

JILL GELLER, CPRE
PARKS, RECREATION & LIBRARIES DIRECTOR

NOTES

1. SCORE ROOT BALL AND CUT GIRDLING ROOTS ON ALL FOUR SIDES OF ROOT BALL.
2. FOR LAWN AREAS: PROVIDE A 5' DIA. AREA FREE OF TURF.
3. TREES FURNISHED IN #15 NURSERY CONTAINERS REQUIRE 2" DIA. STAKES. TREES LESS THAN 8' IN HEIGHT REQUIRE AN 8' STAKE. TREES 8' OR GREATER IN HEIGHT REQUIRE A 10' STAKE. TREES FURNISHED IN 24" BOXES REQUIRE 3" DIA. BY 10' LONG STAKES.
4. INSTALL 2 TREE TIES AT 2/3 OF TREE HEIGHT AND 2 TREE TIES AT 1/2 OF TREE HEIGHT PER PARKS SPECIFICATIONS
5. TREE STAKES SHOULD BE INSERTED INTO THE GROUND TO A MINIMUM DEPTH OF 18".
6. TREES TO BE STRUCTURALLY PRUNED BEFORE PLANTING. ESTABLISH A CENTRAL LEADER AND REDUCE OR REMOVE CODOMINANT LEADERS.

GENERAL NOTES:

1. ALL WORK SHALL CONFORM TO THE LATEST EDITIONS OF THE CITY OF ROSEVILLE CONSTRUCTION AND IMPROVEMENTS STANDARDS (INCLUDING THE LATEST AMENDMENTS), STANDARD CONSTRUCTIONS SPECIFICATIONS, THE LATEST CALTRANS STANDARD PLANS, THE LATEST CALTRANS STANDARD SPECIFICATIONS, AND THE LATEST EDITION OF THE CA MUTCD.
2. THE CONTRACTOR AGREES THAT, IN ACCORDANCE WITH GENERALLY ACCEPTED CONSTRUCTION PRACTICES, THE CONTRACTOR WILL BE REQUIRED TO ASSUME SOLE AND COMPLETE RESPONSIBILITY FOR JOB SITE CONDITIONS DURING THE COURSE OF CONSTRUCTION OF THE PROJECT, INCLUDING SAFETY OF ALL PERSONS AND PROPERTY. THIS REQUIREMENT SHALL BE MADE TO APPLY CONTINUOUSLY AND NOT BE LIMITED TO NORMAL WORKING HOURS. THE CONTRACTOR FURTHER AGREES TO DEFEND, INDEMNIFY AND HOLD OWNER AND ENGINEER HARMLESS FROM ANY AND ALL LIABILITY, REAL OR ALLEGED, IN CONNECTION WITH THE PERFORMANCE OF WORK ON THIS PROJECT, EXEMPTING LIABILITY ARISING FROM THE NEGLIGENCE OF ENGINEER.
3. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO OBTAIN PERMITS NECESSARY TO PERFORM THE WORK SHOWN ON THESE PLANS FROM THE APPROPRIATE AGENCIES. REFER TO THE SPECIAL PROVISIONS FOR PERMITS NEEDED.
4. THESE PLANS ARE HEREBY MADE PART OF THE CONTRACT SPECIFICATIONS FOR THIS PROJECT.

VERIFICATION-LOCATION:

5. THE CONTRACTOR SHALL BE RESPONSIBLE FOR VERIFICATION OF ALL EXISTING UNDERGROUND UTILITIES, WHETHER OR NOT THEY ARE SHOWN ON THESE PLANS. THE CONTRACTOR SHALL CONTACT U.S.A. AND HAVE UTILITIES MARKED AT LEAST 72 HOURS BEFORE BEGINNING WORK. WHERE MARKINGS ARE NEAR PROPOSED FOUNDATIONS, THE CONTRACTOR SHALL LOCATE UNDERGROUND UTILITIES BY POT HOLING PRIOR TO EXCAVATING.
6. THE CONTRACTOR IS SOLELY RESPONSIBLE TO PROVIDE ALL LABOR AND EQUIPMENT NECESSARY TO LOCATE EXISTING UNDERGROUND FACILITIES BEYOND THE INFORMATION PROVIDED BY U.S.A. MARKING INCLUDE, BUT NOT LIMITED TO, METAL DETECTORS, WIRE LOCATIONS (OR WIRE LOCATING EQUIPMENT), AND POTHOLING.
7. LOCATIONS OF LIGHT STANDARDS, PULL BOXES, AND SERVICE PEDESTALS AS SHOWN ON THESE PLANS ARE APPROXIMATE. THE CONTRACTOR SHALL LOCATE THESE ITEMS AND THE ENGINEER SHALL APPROVE SAID LOCATIONS PRIOR TO EXCAVATION.
8. IN CASE OF BORING, CONTRACTOR SHALL VERIFY LOCATIONS AND ELEVATIONS OF EXISTING UNDERGROUND UTILITIES PRIOR TO CONSTRUCTION.

SUBGRADE:

9. THE CONTRACTOR SHALL MARK IN WHITE PAINT ALL AREAS TO BE EXCAVATED PRIOR TO CONTACTING U.S.A. ANY AREAS NOT MARKED WILL NOT BE SUBJECT TO U.S.A. AND THE CONTRACTOR SHALL BE RESPONSIBLE FOR ANY DAMAGE RESULTING FROM EXCAVATION.
10. ALL UNDERGROUND UTILITIES WITHIN EXISTING OR PROPOSED CITY OF ROSEVILLE EASEMENTS SHALL REQUIRE A MINIMUM OF 90% COMPACTION ON THE TRENCH BACKFILL. COMPACTION OF BACKFILL BY JETTING IS NOT PERMITTED IN CITY OF ROSEVILLE RIGHT OF WAY AREAS OR WITHIN DEDICATED RECLAIMED WATER, STORM, SEWER OR WATER EASEMENTS AND MAINS.
11. THE UPPER SIX (6) INCHES OF THE SUB GRADE SHALL BE COMPACTED TO 95% MINIMUM RELATIVE COMPACTION.
12. PRIOR TO EXCAVATION OF TRENCHES FIVE (5) FEET OR DEEPER, THE CONTRACTOR SHALL SUBMIT TO THE PUBLIC WORKS DEPARTMENT OR ENVIRONMENTAL UTILITIES DEPARTMENT INSPECTOR A COPY OF THE COMPANY'S ANNUAL CAL OSHA TRENCHING PERMIT AND A COPY OF THE COMPANY'S LETTER INFORMING CAL OSHA OF THE TIME THE TRENCHING IS COMMENCING AND THE LOCATION OF THE WORK.
13. NO TRENCHING SHALL OCCUR BENEATH THE DRIP LINE OF ANY OAK TREE TO BE SAVED UNLESS STATED ON THESE PLANS "TRENCHING UNDER THIS TREE IS APPROVED".

EROSION CONTROL:

14. EXCAVATIONS SHALL BE ADEQUATELY SHORED, BRACED AND SHEETED SO THAT THE EARTH WILL NOT SLIDE OR SETTLE AND SO THAT ALL EXISTING IMPROVEMENTS OF ANY KIND WILL BE FULLY PROTECTED FROM DAMAGE. ANY DAMAGE RESULTING FROM A LACK OF ADEQUATE SHORING, BRACING AND SHEETING, SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR AND HE SHALL EFFECT NECESSARY REPAIRS OR RECONSTRUCTION AT HIS OWN EXPENSE. THE CONTRACTOR SHALL PROVIDE ADEQUATE SHEETING, SHORING, AND BRACING OR EQUIVALENT METHOD, FOR THE PROTECTION OF LIFE, OR LIMB, WHICH SHALL CONFORM TO THE APPLICABLE CONSTRUCTION SAFETY ORDERS OF THE DIVISION OF INDUSTRIAL SAFETY OF THE STATE OF CALIFORNIA. THE CONTRACTOR SHALL ALWAYS COMPLY WITH OSHA REQUIREMENTS AND SHALL PROVIDE CITY OF ROSEVILLE WITH A COPY OF OSHA PERMIT.
15. CONSTRUCTION ACTIVITIES OCCURRING BETWEEN OCTOBER 15 AND APRIL 1 SHALL HAVE EROSION AND SEDIMENT CONTROL MEASURES IN PLACE OR CAPABLE OF BEING PLACED WITHIN 24 HOURS. THE CONTRACTOR SHALL ENSURE THAT THE CONSTRUCTION SITE IS PREPARED PRIOR TO THE ONSET OF ANY STORM.
16. ADJACENT STREET FRONTAGES SHALL BE SWEPT AT LEAST ONCE A DAY TO REMOVE SILT AND OTHER DIRT WHICH IS EVIDENT FROM CONSTRUCTION ACTIVITIES.
17. THE CONTRACTOR SHALL MEET AND FOLLOW ALL NPDES REQUIREMENTS IN EFFECT AT THE TIME OF CONSTRUCTION.

RESTORATION:

18. ALL EXISTING UTILITIES AND IMPROVEMENTS, INCLUDING SUBSTRUCTURES, THAT ARE DAMAGED BY THE CONTRACTOR, WHICH ARE NOT DESIGNATED BY THE PLANS OR SPECIFICATIONS TO BE DISTURBED, SHALL BE RESTORED OR REPAIRED TO THE SATISFACTION OF THE ENGINEER AT THE CONTRACTOR'S EXPENSE.
19. CONTRACTOR SHALL RESTORE ALL DISTURBED LANDSCAPING AND IRRIGATION SYSTEMS TO ORIGINAL CONDITION AND/OR REDESIGN AND INSTALL IRRIGATION TO ACCOMMODATE NEW STRUCTURES WITHIN THIS PROJECT.
20. THE DEVELOPERS CONTRACTOR SHALL TAKE EXTREME CARE TO PROTECT EXISTING SITE AND ADJACENT IMPROVEMENTS FROM DAMAGE. THE CONTRACTOR SHALL BE RESPONSIBLE TO REPAIR OR MAKE REPLACEMENT OF ALL CRACKED AND OTHERWISE PRE-EXISTING DAMAGED PUBLIC IMPROVEMENTS ALONG THE FRONTAGE OF THE PROJECT SITE AND ANY DAMAGE RESULTING FROM CONSTRUCTION TO CURRENT CITY STANDARDS AND AT THEIR OWN EXPENSE. THE EXTENT OF THE REPAIRS SHALL BE DETERMINED BY THE PUBLIC WORKS INSPECTOR AND SHALL BE COMPLETED PRIOR TO THE CITY ACCEPTANCE OF THE IMPROVEMENTS.

MISC.:

21. THE CONTRACTOR SHALL CONDUCT A PRE-CONSTRUCTION MEETING ONE-WEEK PRIOR TO STARTING WORK. MEMBERS OF THE CITY OF ROSEVILLE ENGINEERING DIVISION, ENVIRONMENTAL UTILITIES DEPARTMENT, AND ALL OTHER UTILITY REPRESENTATIVES SHALL BE NOTIFIED BY THE CONTRACTOR AS TO THE DATE AND LOCATION OF THE MEETING.
22. SHOULD IT APPEAR THAT THE WORK TO BE DONE OR ANY MATTER RELATIVE THERETO IS NOT SUFFICIENTLY DETAILED OR EXPLAINED ON THESE PLANS, THE CONTRACTOR SHALL REQUEST IN WRITING FROM THE ENGINEER SUCH FURTHER EXPLANATION AS MAY BE NECESSARY.
23. PARKING OF VEHICLES AND EQUIPMENT OR STORAGE OF MATERIALS UNDER THE DRIPLINE OF TREES SHALL NOT OCCUR AT ANY TIME.

HISTORIC OLD ROSEVILLE PARKING LOT LIGHTING PROJECT

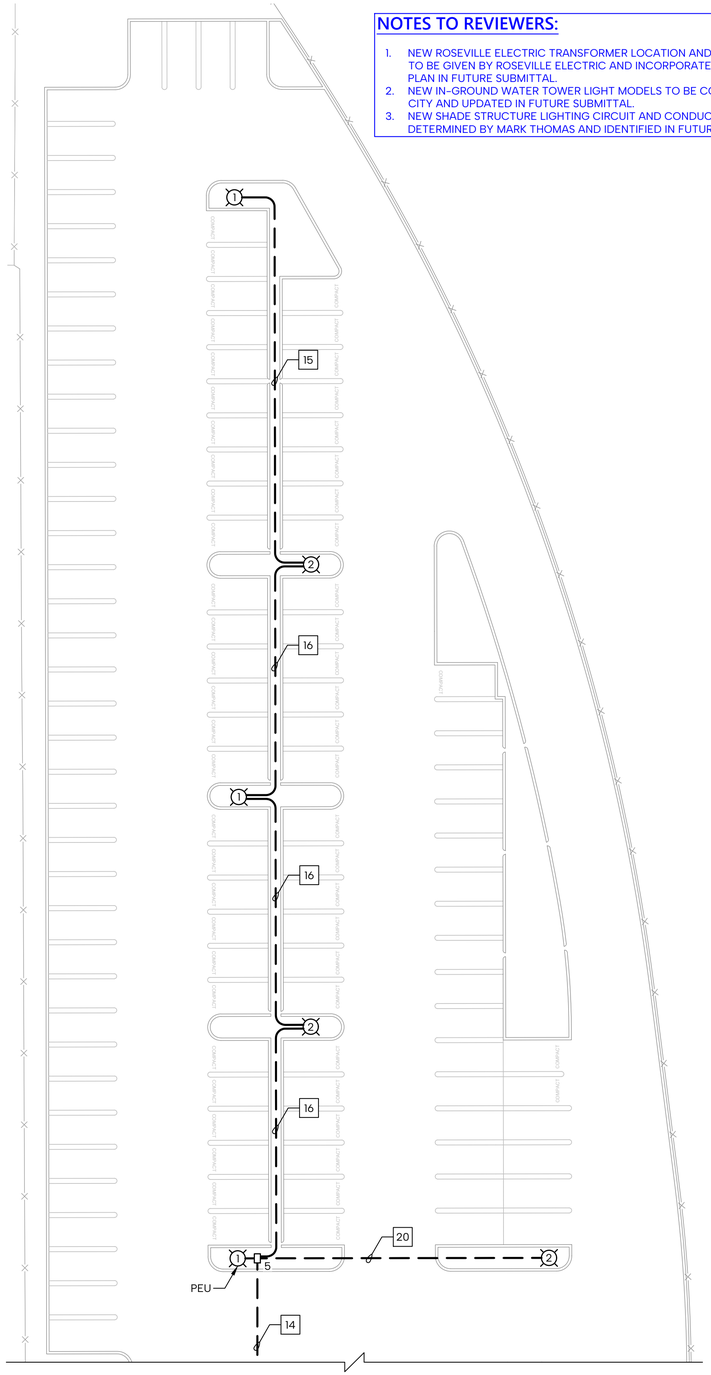
LIGHTING PLAN GENERAL NOTES AND DETAILS

26 OF 29

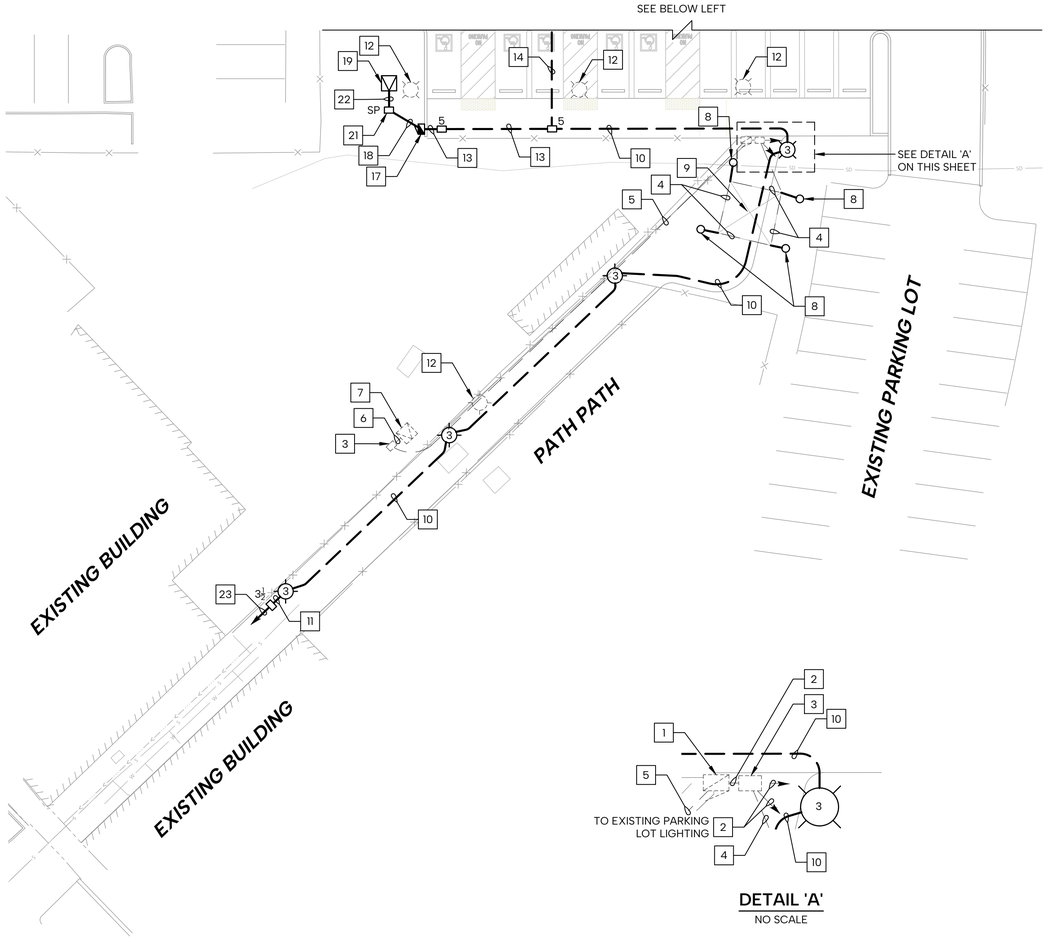
PROJECT NOTES (THIS SHEET ONLY):

1. EXISTING 200A SERVICE EQUIPMENT ENCLOSURE (120/240 V) TO REMAIN WITH THE FOLLOWING CIRCUITS:
   (ALL CIRCUITS ARE UNMETERED)
   CIRCUIT 1 (240 V, STREET LIGHTING)
   CIRCUIT 2 (240 V, STREET LIGHTING)
   CIRCUIT 3 (120 V, VIEWING PLATFORM LIGHTING)
   CIRCUIT 4 (120 V, WATER TOWER LANDMARK LIGHTING)
   CIRCUIT 5 (120 V, IRRIGATION CONTROLLER #1)
   CIRCUIT 6 (120 V, IRRIGATION CONTROLLER #2)

   PROTECT ENCLOSURE AND ASSOCIATED EQUIPMENT IN PLACE.
2. EXISTING CONDUIT AND CONDUCTORS TO REMAIN. PROTECT IN PLACE.
3. EXISTING PULL BOX TO REMAIN. PROTECT IN PLACE.
4. EXISTING 2"C, 2#6 (WATER TOWER LANDMARK LIGHTING) TO REMAIN. PROTECT IN PLACE.
5. EXISTING 2"C, 3#1 (SERIVCE) TO REMAIN. PROTECT IN PLACE.
6. EXISTING 4"C, SERVICE WIRES TO REMAIN. PROTECT IN PLACE.
7. EXISTING 100 KVA PAD MOUNT TRANSFORMER TO REMAIN. PROTECT IN PLACE.
8. REMOVE EXISTING GARDCO GROUND LIGHTS AROUND WATER TOWER. INSTALL NEW IN-GROUND COLOR KINETICS 3000K WHITE LIGHT BURSTSCAPE IN-GRADE SPOTLIGHT LIGHTING FIXTURES OR CITY APPROVED EQUAL PER DETAIL 'B' ON THIS SHEET. CONNECT NEW IN-GROUND LIGHTS TO EXISTING WATER TOWER LANDMARK LIGHTING CIRCUIT.
9. EXISTING WATER TOWER LANDMARK TO REMAIN. EXISTING LIGHTS ON TOP OF STRUCTURE TO REMAIN. PROTECT IN PLACE.
10. 2"C, 2#6 (PATH LIGHTING Ckt 3), TBD (SHADE STRUCTURE LIGHTING), 1#6 (GROUND).
11. 2"C, TBD (SHADE STRUCTURE LIGHTING), 1#6 (GROUND).
12. REMOVE AND SALVAGE EXISTING STREET ELECTROLIER. ABANDON FOUNDATION.
13. 3"C, 3#14 (PEU), 2#6 (PATH LIGHTING Ckt 3), 2#6 (PARKING LOT LIGHTING Ckt 1), 2#6 (PARKING LOT LIGHTING Ckt 2), TBD (SHADE STRUCTURE LIGHTING), 1#6 (GROUND).
14. 3"C, 3#14 (PEU), 2#6 (PARKING LOT LIGHTING Ckt 1), 2#6 (PARKING LOT LIGHTING Ckt 2), 1#6 (GROUND).
15. 2"C, 2#6 (PARKING LOT LIGHTING Ckt 1), 1#6 (GROUND).
16. 2"C, 2#6 (PARKING LOT LIGHTING Ckt 1), 2#6 (PARKING LOT LIGHTING Ckt 2), 1#6 (GROUND).
17. INSTALL 200A 120/240 V SINGLE PHASE METERED SERVICE EQUIPMENT ENCLOSURE AND FOUNDATION PER CITY OF ROSEVILLE PARKS DESIGN & CONSTRUCTION STANDARDS. INCLUDE TWO (2) 240 V PARKING LOT LIGHTING CIRCUIT BREAKERS, ONE (1) 240 V PATH LIGHTING CIRCUIT BREAKER, AND TBD SHADE STRUCTURE LIGHTING CIRCUIT BREAKER.
18. 4"C, 3#4 (SERVICE).
19. NEW TRANSFORMER TO BE INSTALLED BY ROSEVILLE ELECTRIC. SERVICE CONNECTION SHALL BE COORDINATED WITH ROSEVILLE ELECTRIC.
20. 2"C, 2#6 (PARKING LOT LIGHTING Ckt 2), 1#6 (GROUND).
21. INSTALL SECONDARY BOX PER ROSEVILLE ELECTRIC STANDARDS. SERVICE CONNECTION SHALL BE COORDINATED WITH ROSEVILLE ELECTRIC.
22. INSTALL CONDUIT AND SERVICE WIRES (SIZE AND TYPE TBD) PER ROSEVILLE ELECTRIC STANDARDS. SERVICE CONNECTION SHALL BE COORDINATED WITH ROSEVILLE ELECTRIC.
23. 2"C. SEE SHEET PP-1 FOR SHADE STRUCTURE LIGHTING.



LEGEND (THIS SHEET ONLY):



- (#) NEW 58W C2430L-A3SR7N74064A5SNNNA (TYPE 5 DISTRIBUTION) LUMINAIRE OR CITY APPROVED LIGHT FIXTURE ON 12' VISCO STEEL/CAST IRON, FLUTED, TAPERED POLE WITH DECORATIVE BASE (VISCO B17), OR CITY-APPROVED EQUAL. (# INDICATES CIRCUIT NUMBER)
- NEW COLOR KINETICS BURSTSCAPE IN-GRADE SPOTLIGHT WITH 3000K WHITE LIGHT OR CITY APPROVED EQUAL.
- EXISTING 100 KVA PAD MOUNT TRANSFORMER.
- NEW ROSEVILLE ELECTRIC TRANSFORMER (BY OTHERS).

NOTICE TO CONTRACTORS

CITY OF ROSEVILLE

DEPARTMENT OF PUBLIC WORKS

Name of Project: HISTORIC OLD TOWN PARKING LOT IMPROVEMENT PROJECT

NOTICE TO CONTRACTORS

NOTICE IS HEREBY GIVEN THAT sealed Proposal will be received at the Office of the City Clerk, 311 Vernon Street, Roseville, California, until **Tuesday, August 18th, 2026 at 3:00 p.m.** Late proposals will be rejected. No exceptions.

The Proposals will be publicly opened and read by the City Clerk or designee of the City of Roseville at 3:05 p.m. on **Tuesday, August 18th, 2026** at the Office of the City Clerk located at 311 Vernon Street, Roseville California for the following project: **HISTORIC OLD TOWN PARKING LOT IMPROVEMENT PROJECT.**

A pre-bid meeting will be held at **NOT APPLICABLE.**

A Project Manual, including all Contract Documents and the Proposal forms for bidding this project, may be obtained on-line from the City of Roseville's website at https://www.roseville.ca.us/business/procurement_services/bids_rfps. All communications relative to this project shall be conducted through Public Purchase.

Bids shall be submitted on the City's Proposal Forms included in the Project Manual, plainly endorsed with the Bidder's name together with signed acknowledgement of any and all addenda. Proposal Forms shall be securely sealed in a suitable envelope marked with the name

and address of the Bidder, and marked in capital letters on the front and back of the envelope as follows:

HISTORIC OLD TOWN PARKING LOT IMPROVEMENT PROJECT

(Name of Bidder)

(Address of Bidder)

Whether mailed or personally delivered, all bids shall be addressed to the City of Roseville, Office of the City Clerk, 311 Vernon Street, Roseville, California, 95678.

Each bid must be accompanied by a Bid Guaranty in the form of a Certificate of Deposit, Certified or Cashier's Check, Bidder's Bond or Irrevocable Standby Letter of Credit in an amount equal to at least ten percent (10%) of the Bidder's Grand Total Price. The Bid Guaranty will be retained by the City and applied to any and all damages sustained by the City in the event that the successful Bidder fails or refuses to enter into the Contract awarded to it and to furnish all required bonds and Certificates of Insurance. The City intends to award the Contract to the lowest responsible Bidder based on the Grand Total Bid Price for all components of the Project. To the extent allowed by law, the City reserves the right to reject any and all bids and/or to waive any irregularities or informalities in any bid or in the bidding procedure. The City specifically reserves the right to not award the Contract after the opening of bids.

Any bid may be withdrawn at any time prior to the time fixed in the public notice for the deadline submission of bids only by written request for the withdrawal of the bid filed with the City Clerk. The request shall be executed by the Bidder or his or her duly authorized representative. The withdrawal of a bid does not prejudice the right of the Bidder to file a new bid by the submission deadline. Whether or not bids are opened exactly at the time fixed in the

public notice for opening bids, a bid will not be received after the deadline submission of bids nor may any bid be withdrawn after the time fixed in the public notice for deadline for submission of bids. Immediately following the deadline for submission of bids all bids shall become the property of the City of Roseville and the City is under no obligation to return bids.

Bids will be examined and reported to the City Council within sixty (60) business days after the bid opening. Except as permitted by applicable law, no Bidder may withdraw its bid for a period of sixty (60) business days after the date of bid opening. Each Bidder will be notified of any award of the Contract by the City.

The City will affirmatively ensure non-discrimination on the basis of one or more of the following: race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, or military and veteran status in the award and administration of contracts that it awards.

Pursuant to Public Contract Code Section 22300, the successful Bidder may submit certain securities in lieu of the City withholding retention of payments during the Project.

The City has determined that the Contractor shall possess a valid **CLASS A, GENERAL ENGINEERING CONTRACTOR'S LICENSE** at the time that the bid is submitted, as well as any other license classification as may be required by the laws of the California for the performance of the work specified in the Contract Documents. Said license shall be maintained during the Contract period. Failure to possess the specified license shall render the bid nonresponsive and will act as a bar to the award of the Contract to any Bidder not possessing such a license at the time of bid submittal. The Contractor shall provide certification of the license, its number and the expiration date on the proposal form.

The work is to be done in Placer County. Pursuant to California Labor Code Section 1773, the City has ascertained the General Prevailing Rate of Wages in the County in which the work is to be done to be as determined by the Director of Industrial Relations of the State of California. The Contractor is hereby made aware that information regarding prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm. The Contractor is required to post a copy of the applicable wage rates at the job site. Attention is directed to Section 7 "Legal Relations and Responsibility" of the Standard Construction Specifications.

Pursuant to Labor Code Section 1771.1(b), notice is hereby given that a contractor or subcontractor shall not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any contract for public work, as defined in Labor Code Sections 1720, et seq., unless currently registered and qualified to perform public work pursuant to Labor Code Section 1725.5 or exempt from registration requirements pursuant to Labor Code Section 1725.5(f). It is not a violation of Labor Code Section 1771.1 for an unregistered contractor to submit a bid that is authorized by Section 7029.1 of the Business and Professions Code or by Section 10164 or 20103.5 of the Public Contract Code, provided the contractor is registered to perform work pursuant to Labor Code Section 1725.5 at the time the contract is awarded or is exempt from registration requirements pursuant to Labor Code Section 1725.5(f). The Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

Vehicles with a GVWR greater than 8,500 lbs. and light – duty package delivery vehicles operated in California may be subject to the California Air Resources Board Advanced Clean

Fleets regulations. Such vehicles may therefore be subject to requirements to reduce emissions and air pollutants. For more information, please visit the CARB Advanced Clean Fleets webpage at https://ww2.arb.ca.gov/our-work/programs/advanced-clean-fleets. In addition, certain off-road diesel vehicles may be subject to the CARB In-Use Off-Road Diesel-Fueled Fleets Regulation. For more information, please visit the CARB In-Use Off-Road Diesel-Fueled Fleets Regulation webpage at https://ww2.arb.ca.gov/our-work/programs/use-road-diesel-fueled-fleets-regulation.

All questions prior to the deadline for bid submissions shall be directed to the attention of **BRIAN GULEWICH** via **PUBLIC PURCHASE** at **5:00 p.m.** The deadline for submissions of questions and clarifications regarding the Contract Documents is **SEVEN (7)** calendar days before the deadline for bid submissions. Only Addenda issued by the City are binding.

INSTRUCTIONS TO BIDDERS

INSTRUCTIONS TO BIDDERS

SECTION 1. GENERAL

1-1.01 **GENERAL.** These Instructions to Bidders form a part of the Contract Documents. Capitalized terms are defined in Standard Construction Specifications Section 1.

1-1.02 **EXAMINATION OF PLANS, CONTRACT DOCUMENTS AND SITE OF THE WORK.** The Bidder shall examine carefully the site of the Work and all the Contract Documents, including these Instructions to Bidders, and shall inform itself of the conditions relating to the execution of the Work. Failure to do so will not relieve the successful Bidder of its obligation to enter into an Agreement and complete the Work in strict accordance with the Contract Documents. Conditions relating to the execution of the Work include the requirements of federal, state, and local laws, statutes and ordinances relative to the execution of Work, including, but not limited to, applicable regulations concerning prevailing wage rates, non-discrimination in the employment of labor, protection of the public, employee health and safety, and environmental protection.

The submission of a bid shall be conclusive evidence that the Bidder has investigated and is satisfied as to the conditions to be encountered, as to the character, quality, and scope of Work to be performed, the quantities of materials to be furnished, and as to the requirements of all the Contract Documents.

1-1.03 **EXISTING INFORMATION.** Where the Department has made investigations of site conditions, including subsurface conditions in areas where Work is to be performed under the Contract, such investigations are made only for the purpose of study and design. City does not represent that such conditions as found in these investigations or inferences or conclusions drawn as a result of these investigations will represent actual site

conditions and hereby disclaims any liability as a result of Contractor's or Bidder's reliance on such investigations. City will presume that all Bidders have conducted their own site investigations, including investigations of subsurface conditions. Where such investigations have been made, Bidders or Contractors may, upon written request, inspect the records of the Department as to such investigations subject to the conditions set forth in these Instructions to Bidders. Such inspection of records may be made only at the location noted above. The records of such investigations are not a part of the Contract Documents and are shown solely for the convenience of the Bidder or Contractor. The City assumes no responsibility whatsoever with respect to the sufficiency or accuracy of the investigations made, the records thereof, or of the interpretations set forth therein or made by the City in its use thereof. The City makes no warranty or guarantee, either express or implied, that the conditions indicated by such investigations or records are representative of those existing throughout such areas, or any part thereof, or that unforeseen developments may not occur, or that materials other than, or in proportions different from those indicated, may not be encountered.

No information derived from such inspection of records of investigations or compilation thereof made by the City, the Department or from the Engineer, or his or her assistants, will in any way relieve the Bidder or Contractor from properly examining the site and making such additional investigations as it may elect, or from properly fulfilling the terms of the Contract.

SECTION 2: BID REQUIREMENTS

2-1.01 **PROPOSAL FORMS.** The Department will furnish to each Bidder standard Proposal Forms, which, when filled out and executed may be submitted as the bid. Proposals shall include all pages in the Project Manual with page numbers marked "PROP" plus the Addendum acknowledgment form (front sheet) from all Addenda received by the Bidder. Proposals shall be removed from the Project Manual. The full Project Manual shall not be submitted with the proposal. Bids not presented on forms so furnished will be disregarded.

The Proposal and one (1) copy thereof shall be submitted as directed in the "Notice to Contractors" under sealed cover plainly marked as a Proposal, and identifying the project to which the Proposal relates and the date of the bid opening therefor. Proposals which are not properly marked may be disregarded.

All blank spaces in the Proposal must be completed, as required, in ink. All price information shall be shown, clearly legible, in figures where required.

The Bidder shall sign the Proposal in the blank space provided therefor. If the Bidder is the sole owner, the Proposal shall be signed by the owner. If the Bidder is a corporation, the legal name of the corporation and its State of incorporation shall be set forth and the Proposal shall be signed by at least two officers authorized to sign contracts on behalf of the corporation. If the Bidder is a partnership, the true name of the firm shall be set forth, the names and addresses of all partners shall be given and the Proposal shall be signed by a partner in the firm authorized to sign contracts on behalf of the partnership. If the Bidder is a joint venture, the Proposal shall be signed on behalf of each participating company by officers or other individuals who have the full and proper authorization to do so. If the Proposal is signed by an agent of the Bidder other than an officer of a corporation or a member of a partnership, a notarized Power of

Attorney must be on file with the City prior to opening of bids or must be submitted with the Proposal. If requested by the City, the Bidder shall promptly submit evidence satisfactory to the City of the authority of the person signing the Proposal.

2-1.02 **SUBMISSION OF BIDS.** Bids must be submitted at the prescribed time and location specified in the Notice to Contractors. Any submission received after the prescribed time shall be rejected, regardless of whether or not bids are opened exactly at the prescribed time.

Any unauthorized conditions or qualifications entered on, or changes made to, the Proposal may render it invalid and may cause its rejection.

No telegraphic, telephonic, or facsimile or other electronically transmitted bids will be considered.

2-1.03 **REQUIRED LISTING OF PROPOSED SUBCONTRACTORS.** Each Proposal shall list the name, address and Contractor license number of each Subcontractor to whom the Bidder proposes to subcontract portions of the Work in an amount in excess of one-half of one percent (0.5%) of its total bid, in accordance with Section 4100 to 4114, inclusive, of the Public Contract Code for the State of California. The Bidder shall list the Subcontractor's license number and the portion of the Work that will be done by each Subcontractor. If the Bidder fails to specify a Subcontractor for any portion of the Work, the Bidder agrees to perform that portion of the Work itself, and represents that it is qualified to perform that portion of the Work itself. The Bidder's attention is invited to other provisions of the Public Contract Code related to the imposition of penalties for a failure to observe its provisions by using unauthorized Subcontractors or by making unauthorized substitutions.

2-1.04 **CONTRACTOR'S LICENSING LAWS.** Attention is directed to the provisions of Business and Professions Code Chapter 9 of Division 3 concerning the licensing of Contractors.

All Bidders at the time of bid submittal shall be licensed as Contractors in accordance with the laws of this State. Any Bidder or Contractor not so licensed is subject to the penalties imposed by such laws. The form of Contractor's license required is stated in the Notice to Contractors, provided that the City makes no representation as to whether the State may require other or additional licenses. It is the Bidder's and Contractor's responsibility to obtain the correct Contractor's licenses. Bidders shall be skilled and regularly engaged in the general class or type of Work called for under this Contract.

All Bidders and Contractors, including Subcontractors, shall have a current City business license before undertaking any Work.

2-1.05 **CALIFORNIA AIR RESOURCES BOARD REGULATIONS.** Contractor shall comply with any applicable regulations of the California Air Resources Board ("CARB") set forth below.

A. In-Use Off-Road Diesel-Fueled Fleets. If Contractor will use vehicles subject to Cal. Code Regs., tit. 13, §§ 2449 et seq. for the project, it shall submit a valid Certificate of Reported Compliance to the City as provided in § 2449(n).

B. Advanced Clean Fleets. Pursuant to Cal. Code Regs., tit. 13, § 2013(i)(1), the Contractor shall submit to the City either a signed statement stating that it is not subject to the High Priority and Federal Fleets regulation of title 13, CCR section 2015 through 2015.6, or a document evidencing that it is listed on the CARB Advanced Clean Fleets webpage as a compliant fleet.

2-1.06 **NONCOLLUSION DECLARATION.** By submitting a bid, the Bidder represents and warrants that such bid is genuine and not a sham or collusive or made in the interest or on the behalf of any person therein named, and that the Bidder has not, directly or indirectly, included or solicited any other Bidder to put in a sham bid, or any other person, firm, or corporation to refrain from bidding, and that the Bidder has not in any manner sought collusion to secure the Bidder an advantage over any other Bidder.

Bidders shall submit a properly completed and executed "Noncollusion Declaration" in the form required by Public Contract Code Section 7106 and provided with the Proposal (PROP-11).

2-1.07 **DISQUALIFICATION, REMOVAL OR OTHER PREVENTION OF BIDDING.** A bid may be rejected on the basis of a Bidder, any officer of such Bidder, or any employee of such Bidder who has a proprietary interest in such Bidder, having been disqualified, removed, or otherwise prevented from bidding on, or completing a federal, state, or local project because of a violation of law or a safety regulation.

2-1.08 **PROPOSAL GUARANTY.** All bids shall be accompanied by one of the following forms of Bidder's security: Cash, a cashier's check, a certified check, or a Bidder's bond executed by an admitted California surety insurer, made payable to the City of Roseville, or any other form of security deemed acceptable by the City Attorney. The security shall be in an amount equal to at least ten percent (10%) of the amount bid. A bid will not be considered unless one of the form of Bidder's security is enclosed with it.

A Bidder's bond shall conform to the City's bond form in the Proposal and shall be properly filled out and executed.

2-1.09 **SCHEDULE OF BID PRICES.** Bidders are directed to submit firm unit and lump sum prices for all Work set forth in the Contract Documents on the Proposal Form entitled "Schedule of Bid Prices."

Unit prices and lump sum prices, as indicated, must be entered in the appropriate spaces provided in the Schedule of Bid Prices. If applicable, unit prices shall be multiplied by the quantities shown, and the total shall be inserted in the Amount column. In the event of any error or discrepancy between the unit price and the calculated amount, the unit prices shall govern. The City may correct any mathematical errors apparent on the face of the bid.

The amounts shown in the Amount column must be added together in arriving at the Grand Total Bid Price.

Amounts for Allowance bid items must be entered in the exact amount in the Amount column.

The prices included within the Schedule of Bid Prices shall include all costs for labor, materials, tools, equipment, services, Subcontractors, suppliers, taxes, insurance, shipment, delivery, overhead, profit, and all other costs necessary to perform the Work in accordance with the Contract Documents.

The Grand Total Bid Price shall be indicated in the Summary table form included with the Schedule of Bid Prices. The Grand Total Bid Price shall be the sum of the amounts bid for each of the designated portions of the Work, as more specifically described on the Schedule of Bid Prices form itself.

Full compensation for complying with the Contract Documents, including requirements of the Standard Specifications, the Standard Construction Specifications, Supplemental

Conditions, and all warranties, shall be considered included in the bid items and no additional compensation shall be allowed therefor.

Full compensation for completion of all work as shown on the plans, as specified in the Specifications, and as directed by the City, shall be considered included in the bid items and no additional compensation shall be allowed.

Bidders are strongly discouraged from submitting unbalanced bids. As used herein, the term "unbalanced bid" is defined as any bid that does not include a reasonable proportionate allocation of indirect costs and profit of each bid item indicated in the Schedule of Bid Prices. The City reserves the right to reject any unbalanced bid if the City determines that there is a reasonable doubt that an acceptance of the bid will not result in the lowest ultimate cost to the City with regard to the work or a disproportionate distribution of contract funds.

The City reserves the right to delete any bid item in its entirety and/or significantly reduce the quantity of Work under a bid item. The City makes no representation that any Work under a bid item will be performed during the course of the Project or that the Work will be performed at the quantities included in the Schedule of Bid Prices. As provided in the Standard Construction Specifications, for any deleted Work, Contractor shall not be entitled to payment of the indirect costs and profit included for said bid item. All bid items shall be considered distinct and severable from the remaining bid items, and each Bidder acts at its peril if its bid is unbalanced.

The City shall compare bids on the basis of the Grand Total Bid Price, which includes the base bid and any alternates designated on the Schedule of Bid Prices. Alternates may or may not be awarded, or may be awarded in any combination, at the City's discretion.

2-1.10 **WITHDRAWAL OF PROPOSALS.** Any bid may be withdrawn at any time prior to the time fixed in the Notice to Contractors for the opening of bids, provided that a request in writing, executed by the Bidder or its duly authorized representative, for the withdrawal of such bid is filed with the City Clerk. Facsimile and electronic mail requests are not acceptable. The withdrawal of a bid shall not prejudice the right of a Bidder to file a new bid. The withdrawal of any bid after the time fixed in the Notice to Contractors for the opening of bids will not be permitted.

2-1.11 **ADDENDUM.** Proposals shall include all costs and account for all Addenda issued prior to opening of bids. The Bidder is responsible for verifying that all issued Addenda have been received. An Addendum acknowledgment form for each Addendum shall be included as part of the Proposal submittal.

2-1.12 **PUBLIC OPENING OF PROPOSALS.** Proposals will be publicly opened and read at the time and place indicated in the Notice to Contractors. Bidders or their authorized agents are invited to be present.

2-1.13 **TRENCHING AND EXCAVATION WORK.** In accordance with the provisions of California Labor Code Section 6707, if the Work involves construction of a pipeline, sewer, sewage disposal system, boring or jacking pits, or similar trenches or open excavations, which are five feet (5') or deeper, each bid submitted shall contain, as a bid item, adequate sheeting, shoring, and bracing, or equivalent method, for the protection of life or limb, which shall conform to all applicable safety orders.

SECTION 3: EVALUATION OF BIDS

3-1.01 **BID EVALUATION PROCESS.** Bids will be evaluated to determine the apparent low Bidder. The apparent low Bidder will be determined on the basis of the Grand Total Bid Price, as shown in the Schedule of Bid Prices. If additive or deductive alternates are used in the Schedule of Bid Prices, the apparent low Bidder will be the Bidder with the lowest total of the bid prices for base contract items plus the alternates designated by the City as those that will be used for determining the lowest bid price. However, the City reserves the right to (1) not award any alternates or (2) award any combination of alternates.

In case of discrepancy between the total of the base contract items and any specified alternates and the stated Grand Total Bid Price, the total of the base contract items plus specified alternates shall prevail. Any mathematical errors that appear on the face of the bid will be corrected by the City and the City will use the mathematically corrected addition. For example, if the mathematical total of Bidder's base contract items plus specified alternates equals $1,000,000, but the Bidder has written $1,250,000 as the Grand Total Bid Price, the City will consider $1,000,000 to be the Bidder's Grand Total Bid Price for purposes of comparison to other Bidders and actual bid award. The City reserves its rights to reject or accept bids based on discrepancies between the stated Grand Total Bid Price and the actual mathematical total of the base contract bid items, plus specified alternates.

3-1.02 **REJECTION OF IRREGULAR PROPOSALS.** Proposals may be rejected in the City's sole discretion if they show any alterations of form, additions not called for, conditional bids, incomplete bids, erasures, or irregularities of any kind. However, the City reserves the right to waive any minor irregularities and informalities in any bid or in the bid procedure for any reason.

3-1.03 **COMPETITIVE BIDDING.** If more than one proposal is offered by any individual, firm, partnership, corporation, association, or any combination thereof, under the same or different names, all such proposals may be rejected. A party who has quoted prices on materials or Work to a Bidder is not thereby disqualified from quoting prices to other Bidders, or from submitting a bid directly for the materials or Work.

All Bidders are put on notice that any collusive agreement to control or affect the awarding of this Contract is in violation of the competitive bidding requirements of the City Charter, State Contract Act and the Business and Professions Code and may render void any Contract let under such circumstances.

3-1.04 **RELIEF OF BIDDERS.** If the Bidder claims a mistake was made in its bid, the Bidder shall give the Department written notice within five (5) Days after the opening of the bids of the alleged mistake, specifying in the notice in detail how the mistake occurred. No relief from a claimed mistaken bid shall be granted unless such mistake clearly appears on the face of the bid submitted to the City. Claimed mistakes on backup worksheets, spreadsheets, computerized bidding programs, or any other similar calculative bidding mistake which is not apparent on the face of the bid shall not under any circumstance be considered as a basis for relief. The burden of proving the occurrence of a mistake entitling a Bidder to relief from its bid rests entirely on the Bidder. Relief from bids shall be in the City's sole discretion.

SECTION 4: AWARD AND EXECUTION OF CONTRACT

4-1.01 **AWARD OF CONTRACT.** The City reserves the right to reject any and all proposals and to award (or not award) any combination of bid items at its option. Any such award will be to the lowest responsible Bidder whose proposal complies with the requirements prescribed for the bid items awarded. Such award, if made, will be made within sixty (60) business days after the opening of the proposals. If the lowest responsible Bidder refuses or fails to execute the Contract, or provide an acceptable Performance Bond, Payment Bond, and insurance certificate(s), the City may award the Contract to the second lowest responsible Bidder. Such award, if made, will be made within eighty-two (82) business days after the opening of proposals. If the second lowest responsible Bidder refuses or fails to execute the Contract, or provide an acceptable Performance Bond, Payment Bond, and insurance certificate(s), the City may award the Contract to the third lowest responsible Bidder. Such award, if made, will be made within one hundred four (104) business days after the opening of the proposals. The above time periods within which the award of Contract may be made are subject to extension for such further period as may be agreed upon in writing between the City and the Bidder concerned.

4-1.02 **RETURN OF BIDDER'S SECURITIES.** Within ten (10) Days after the award of the Contract, the City Clerk will return all Bidders' securities, other than Bidders' bonds, accompanying the proposals that are not to be further considered in making the award. Retained Bidders' securities will be held until the Contract has been fully executed, after which all Bidders' securities, except Bidders' bonds and any Bidders' securities that have been forfeited, will be returned.

4-1.03 **CONTRACT BONDS.** The successful Bidder shall furnish two (2) bonds in the form contained in the section entitled Insurance Broker Information Packet and Bonds. One (1) bond shall secure the payment of the claims of laborers, mechanics or materialmen employed on the Work under the Contract, and the other bond shall guarantee the faithful performance of the Contract.

Each of the two (2) bonds shall be in a sum equal to one hundred percent (100%) of the Contract Price. If the Contract Price increases by the issuance of Change Orders, the penal amounts of the bonds required shall increase accordingly. Sureties on each of said bonds shall be satisfactory to the City.

All alterations, extensions of time, extra and additional Work, and other changes authorized by the Standard Specifications, the Standard Construction Specifications, the Supplemental Conditions or any part of the Contract may be made without securing the consent of the surety or sureties on the Contract bonds.

Furthermore, the successful Bidder shall furnish a certificate from the County Clerk as required by California Civil Code of Procedure Section 995.660(a)(3).

4-1.04 **INSURANCE.** At the time of the execution of the Contract, the Contractor shall, at its own expense, procure, and at all times during the prosecution of the Work maintain in full force and effect Worker's Compensation Insurance, and Liability Insurance as specified in the Standard Construction Specifications. The Contractor shall provide a Certificate of Insurance in the form contained in the section entitled Insurance Broker Information Packet.

4-1.05 **EXECUTION OF CONTRACT.** The Contract shall be signed by the successful Bidder and returned, together with all the required Contract bonds and insurance

certificates, within fifteen (15) Days after the Contract has been awarded, or as otherwise directed, in writing, by the City.

If the Bidder is an individual, the Contract shall be executed personally by the Bidder. If the Bidder is a partnership, it is desirable that the Contract be executed by all of the partners, but it may be executed by one of them. If the Bidder is a corporation, it must be executed by two officers of the corporation consisting of (1) the chairman of the board, president or vice president; and (2) the secretary, assistant secretary, chief financial officer, treasurer or assistant treasurer, or by a person authorized by the corporation to execute written contracts on its behalf, and the corporate seal affixed thereto. In the alternative, a person other than an officer may sign the Contract, provided evidence satisfactory to the City is provided indicating the individual's authority to bind the corporation. If the corporate seal is not affixed to the Contract, or if it is executed by a person other than officers, or only by one officer, there must be attached to the Contract a certified copy of a resolution of the corporation authorizing such officer or person to execute written contracts for and on behalf of the corporation. If the Bidder is a joint venture, the Contract must be executed on behalf of each participating firm by officers or other individuals who have the full and proper authorization to do so.

4-1.06 **FAILURE TO EXECUTE CONTRACT.** Failure of the lowest responsible Bidder, the second lowest responsible Bidder, or the third lowest responsible Bidder to execute the Contract and file acceptable bonds and insurance as provided within fifteen (15) Days after the Contract has been awarded, or as otherwise directed, in writing, by the City, shall be just cause for annulment of the award and forfeiture of the Bidder's security. The successful Bidder may file with the City Clerk a written notice, signed by the Bidder or Bidder's authorized representative, specifying that the Bidder will refuse to execute the Contract if presented to

Bidder. The filing of such notice shall have the same force and effect as the failure of the Bidder to execute the Contract and furnish acceptable bonds within the time prescribed.

SECTION 5: BID PROTEST PROCEDURES

5-1.01 **POLICY/PROCEDURES.** It is the policy of the City to consider fully and adjudicate promptly protests filed by prospective Bidders relating to the City's bidding procedure or award of the Contract. Protests shall be filed and processed in accordance with Section 4.12.150 of the Roseville Municipal Code. A Bidder's failure to follow the bid protest procedures may result in rejection of the protest by the City.

PROPOSAL

PROPOSAL TO THE DEPARTMENT OF _____

Project:_____

Name of Bidder _____ Business Phone _____

Business Address _____

Place of Business _____

Contractor's License No. _____

License Expiration Date_____

License Classification Type _____

DIR Registration No. _____

Type of business organization: _____

*If a Corporation, incorporated under the laws of the State of: _____

The undersigned Bidder herewith submits this Proposal and binds itself on award by the City of Roseville under this bid to execute a Contract in accordance with its bid and the Contract Documents.

The Notice to Contractors, Instructions to Bidders, Form of Agreement, Standard Specifications, Standard Construction Specifications, Supplemental Conditions, Contract Drawings, and Addenda, if any, are made part of this bid and all provisions thereof are hereby accepted, and all representations and warranties are required thereby are hereby affirmed.

The work to be done is described in the Bidding Documents entitled _____ _____, City of Roseville, California. This offer shall be irrevocable for a period of sixty (60) Days after the date on which bids are opened.

The undersigned Bidder understands that any clarification made to the above or any new and different conditions or information submitted on or with its Proposal, other than that requested, may render the bid non-responsive.

The undersigned, as Bidder, declares that the only persons or parties interested in this Proposal as principals are those named herein; that this Proposal is made without collusion with any other person, firm, or corporation; that the Bidder has carefully examined the location of the proposed Work, the attached Form of Agreement, and the plans, Specifications, and other Contract Documents; and agrees if this Proposal is accepted, that it will contract with the City of Roseville, in the form of a copy of the Agreement contained in the Project Manual, to provide all necessary machinery, tools, apparatus and other means of construction, and to do all the work and furnish all the materials specified in the Contract Documents, in the manner and time therein prescribed, and according to the requirements of the Director, as therein set forth, and that the Bidder will take in full payment therefore prices indicated in the Schedule of Bid Items, including all work modified by addendum numbers _____. (IF NONE, STATE NONE).

Bids are required for all Bid Items. The amount of the Bid for comparison purposes will be the total of all items awarded.

The Bidder shall set forth for each item of work, in clearly legible figures, an item ("unit") price and a total for the item in the respective spaces provided for this purpose in the Schedule of Bid Items.

The prices included within the Schedule of Bid Items include all costs for labor, materials, tools, equipment, services, Subcontractors, suppliers, taxes, insurance, shipment,

delivery, overhead, profit, and for all other costs necessary to perform the Work in accordance with the Contract Documents.

Accompanying this Proposal is _____.

(Notice: Insert the words "Cash $_____," "Cashier's Check," "Certified Check," or "Bidder's Bond," as the case may be, in an amount equal to at least ten percent (10%) of the total of the Bid.)

SCHEDULE OF BID ITEMS

NONCOLLUSION DECLARATION TO BE EXECUTED BY
BIDDER AND SUBMITTED WITH BID

The undersigned declares:

I am the _____ of _____, the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The Bidder has not directly or indirectly induced or solicited any other Bidder to put in a false or sham bid. The Bidder has not directly or indirectly colluded, conspired, connived, or agreed with any Bidder or anyone else to put in a sham bid, or to refrain from bidding. The Bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the Bidder or any other Bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other Bidder. All statements contained in the bid are true. The Bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, bid depository, or to any member or agent thereof, to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a Bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the Bidder.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on _____ [date], at _____ [city], _____ [state].

END OF PROPOSAL

AGREEMENT

A G R E E M E N T

THIS AGREEMENT, is made and entered into this _____day of _____, 20_____, by and between the City of Roseville, a municipal corporation, ("CITY"), and _____, a _____, ("CONTRACTOR"); and

W I T N E S S E T H:

WHEREAS, the City Council of the CITY, at a meeting held on the _____day of _____, 20_____, approved plans and specifications for the _____ _____

and directed the City Clerk to advertise for sealed proposals for doing said work and providing that bids be submitted on the _____ day of _____, 20_____; and

WHEREAS, the City Clerk, thereafter duly and regularly caused a notice to be published in the manner and for the time prescribed by law; and

WHEREAS, CONTRACTOR, pursuant to the provisions of said notice duly filed a bid with the City Clerk, a true copy of which bid is now on file in the office of the City Clerk, and is hereby referred to and by this reference made a part hereof as fully as if set forth at length herein; and

WHEREAS, all bids received pursuant to said notice were opened and examined and publicly declared at the time specified in said advertisement for bids and at a meeting of the City Council held on the _____ day of _____, 20_____, the Council found and

declared the bid of CONTRACTOR to be the lowest responsible bid and thereupon awarded a contract to CONTRACTOR to do the work referred to in the aforementioned specifications.

NOW, THEREFORE, the parties agree as follows:

1. THE WORK. CONTRACTOR agrees:

a. To do the work and furnish all the labor, materials, tools, supplies, equipment, superintendence, insurance, and bonds required for the _____

_____

in accordance with the Contract Documents (the Work).

b. To do and perform the Work contemplated hereby in a good and workmanlike manner under the direction of and to the satisfaction of the Director of Public Works of the City of Roseville.

2. PAYMENT. CITY shall pay CONTRACTOR _____

_____ dollars ($_____) for the Work to be done under this Agreement in accordance with the Contract Documents.

3. CONTRACT DOCUMENTS. The complete Agreement between the parties hereto consists of the following documents:

a. The advertisement for bids (including the notice to bidders, instructions to bidders and proposals);

b. The accepted bid;

c. Plans and specifications (including standard construction specifications, special provisions and construction details);

d. Bonds and insurance required by the specifications; and

e. This contract.

All documents specified above are intended to operate so that any work called for in any one and not mentioned in the other, or vice versa, is to be executed the same as if mentioned in all said documents.

4. LIQUIDATED DAMAGES. In the event CONTRACTOR does not complete the Work within the time specified, CONTRACTOR agrees that CITY will suffer damages. Inasmuch as the actual damages which would result from such breach by CONTRACTOR under this Agreement are uncertain, and would be impractical or extremely difficult to fix, CONTRACTOR agrees that it shall pay, or CITY shall deduct from CONTRACTOR's fee, the amount of **$3,000** per day as liquidated damages, in the event of such delay.

5. TIME OF COMPLETION. Time is of the essence of this Agreement. CONTRACTOR shall complete all Work under the Contract Documents within _____ Days of the date of this Contract. CONTRACTOR shall begin work by the date specified in the "Notice to Proceed" letter and shall diligently prosecute all of the Work under this Contract in all parts and requirements as defined in the Contract Documents.

6. SERVICE OF NOTICE. Any notice required or permitted to be given under this Agreement shall be deemed given when (a) personally delivered to the recipient identified below; (b) mailed by registered or certified mail, return receipt requested, postage pre-paid, to the address specified below; or (c) sent by facsimile, with confirmation of receipt, to the facsimile number identified below.

CITY OF ROSEVILLE	CONTRACTOR
_____	_____
_____	_____
_____	_____
_____	_____

CITY may also act through either its architect or construction manager if CITY expressly gives notice to CONTRACTOR, in writing, that CITY's designee has authority to act for CITY in a specific capacity.

7. DISPUTES. Disputes arising from this Agreement will be determined in accordance with the Contract Documents and Public Contract Code Sections 10240-10240.13.

8. GOVERNING LAW. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

9. INDEPENDENT CONTRACTOR. CONTRACTOR shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

10. SUCCESSORS IN INTEREST. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

11. MODIFICATION. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

12. SEVERABILITY. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

13. INTEGRATED AGREEMENT. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

14. CONTRACTORS LICENSE LAW. CONTRACTORS ARE REQUIRED BY LAW TO BE LICENSED AND REGULATED BY THE CONTRACTORS' STATE LICENSE

BOARD WHICH HAS JURISDICTION TO INVESTIGATE COMPLAINTS AGAINST CONTRACTORS IF A COMPLAINT REGARDING A PATENT ACT OR OMISSION IS FILED WITHIN FOUR (4) YEARS OF THE DATE OF THE ALLEGED VIOLATION. A COMPLAINT REGARDING A LATENT ACT OR OMISISON PERTAINING TO STRUCUTRAL DEFECTS MUST BE FILED WITHIN TEN (10) YEARS OF THE DATE OF THE ALLEGED VIOLATION. ANY QUESTIONS CONCERNING A CONTRACTOR MAY BE REFERRED TO THE REGISTRAR, CONTRACTORS' STATE LICENSE BOARD, P.O. BOX 26000, SACRAMENTO, CALIFORNIA 95826.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. _____, adopted by the Council of the City of Roseville on the _____day of _____, 20_____, and CONTRACTOR has caused this Agreement to be duly executed.

NOTICE TO INSURANCE BROKER

Your client has been awarded a bid by the City Council of the City of Roseville to perform a public works project known as _____. The Contract Conditions for that project require your client ("the Contractor") to return certain evidence of insurance and bonds to the City Attorney of the City within fifteen (15) days after the Bid award, unless otherwise directed by the City in writing, or else the Bid award may be terminated and awarded to another company.

This package contains the information you will need as an insurance broker to provide the appropriate insurance and bonds to the City. The insurance coverages the Contractor needs are specified in the section entitled "Insurance Requirements." Please note that, in addition to the insurance certificate itself, copies of several endorsements must be actually furnished.

Please refer to Special Provisions for modifications of the Standard Construction Specifications, if any, and the requirements of this insurance packet.

Please use the standard City of Roseville Bond Forms provided in this package.

The Bonds required must each be in the penal amount of: $_____.

Bonds must be sent to the following staff person:

_____

_____

_____

Insurance documents must be provided by email to roseville@ebix.com. When sending the documents via email, please refer to the project name so that the documents can be matched with the Contract for which they are submitted. Thank you.

INSURANCE REQUIREMENTS

The following sections are quoted from the Standard Construction Specifications:

7-1.06 **INSURANCE COVERAGE.**

A. Evidence of Maintenance Required. The Contractor shall, at its expense, procure and at all times maintain in full force and effect at a minimum the insurance required by this section on all of its operations; and the Contractor shall not allow any Subcontractor to commence work until similar insurance required of the Subcontractor has been obtained and filed. An original Certificate of Insurance, and copies of all required endorsements, all in a form approved by the Risk Manager, evidencing all required coverage or policies shall be filed after the award of the bid and prior to approval of the Contract by the City Council. Contractor shall provide ten (10) days prior written notice to the City of any reduction of coverage limits or cancellation of the coverage or policies shall be given to the City of Roseville as Certificate holder.

B. Qualifying Insurers. With the exception of the State Compensation Insurance Fund, all required insurance policies shall be issued by companies acceptable to the City and licensed to do business in the State of California and who hold a current policy holders alphabetic and financial size category rating of not less than AVII according to the most recent issue of Best's Insurance Reports.

C. Insurance Required.

1. **Commercial General Liability (CGL):** Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations with limits of no less than Two Million Dollars ($2,000,000) per occurrence for bodily injury, personal injury and property damage for projects under One Million Dollars ($1,000,000) and

limits of no less than Five Million Dollars ($5,000,000) per occurrence for bodily injury, personal injury and property damage for projects over One Million Dollars ($1,000,000). If a general aggregate limit applies, either the aggregate limit shall apply separately to this project or the general aggregate limit shall be twice the required occurrence limit.

The Commercial General Liability insurance shall include the following, copies of which shall be provided:

a. Inclusion of the City of Roseville, and its officers, agents, employees, and volunteers, as additional insureds (except for workers' compensation) as respects services or operations under the Contract. The additional insured endorsement for the general liability policy shall be at least as broad as the ISO CG 2010 10 01 combined with ISO CGL Endorsement CG 2037 10 01. Any other endorsement must be approved in writing by the City. Endorsements must include coverage for on-going and completed operations, which coverage shall be maintained for four (4) years following completion of the Project. Endorsements shall cover the City of Roseville, its officers, agents, employees, and volunteers.

b. The insurance shall provide coverage for claims by one insured against another insured and the policies shall not contain any cross-suits exclusions, cross-liability exclusions, or insured versus insured exclusions. The policies shall not contain any classification exclusions purporting to deny coverage for any work to be performed by Contractor or any of its Subcontractors.

c. Stipulation that the insurance is primary and noncontributory, as evidenced by a separate endorsement (CG 20 01 04 13 or an equivalent) or section of the policy, and that neither the City nor its insurers will be called upon to contribute to a loss.

d. Such insurance shall specifically cover the contractual liability of the Contractor.

e. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

f. Waiver of subrogation endorsement.

g. The Contractor shall furnish a certificate for the period covered.

2. **Automobile Liability:** Insurance Services Office Form Number CA 0001 covering Code 1 (any auto), or if Contractor has no owned autos, Code 8 (hired) and Code 9 (non-owned), with limits of no less than One Million Dollars ($1,000,000) per accident for bodily injury and property damage.

3. **Workers' Compensation:** In accordance with the provisions of the California Labor Code, Contractor is required to be insured against liability for Workers' Compensation or to undertake self-insurance. Statutory Workers' Compensation and Employers' Liability of at least One Million Dollars ($1,000,000) shall cover all Contractors staff while performing any work incidental to the performance or this Agreement.

4. **Professional Liability:** Professional Liability (Errors and Omission) Insurance appropriate to Contractor's profession, with a limit of liability not less than One Million Dollars ($1,000,000) per occurrence or claim and Two Million Dollars ($2,000,000) aggregate to cover all design and engineering services rendered by Contractor pursuant to the

Agreement. Coverage must commence from the first day that Contractor or any of its Subcontractors provided any design or engineering services in connection with the Project.

5. **Builder's Risk/Course of Construction Insurance Is ____ OR Is Not ____ Required by Risk Management:** The Contractor shall be responsible for all loss, damage or destruction whatsoever to the work called for by this Contract until the approval of a Notice of Completion or acceptance of the Work if no Notice of Completion is to be recorded.

The Contractor shall secure "All Risk" type of builder's Risk Insurance of the type covering one hundred percent (100%) of the value of the work performed under this Contract (the value is presumed to be the Contract amount unless otherwise stated in Supplemental Conditions) and all materials, equipment, or other items to be incorporated therein while the same are located at the construction site, a bonded warehouse, or its place of manufacture. At any time, the policy shall cover the value of the work completed. The policy shall cover hazards including the losses due to fire, explosion, hail, rain, lightning, flood (separate insurance as needed), vandalism, malicious mischief, wind, collapse, aircraft, and smoke.

The policies providing such insurance shall name the City as a loss payee as its respective interests may appear, and certified copies of such policies shall be filed with the City. The maximum deductible allowable under the Builder's All Risk policy shall be five percent (5%) of the Contract amount.

Builder's Risk Insurance is not required for coverage of losses in excess of five percent (5%) of the Contract amount for damages resulting from earthquake in excess of a magnitude of 3.5 on the Richter scale, or tidal waves. Coverage in the amount of five percent (5%) of the Contract amount for such losses is required.

6. **Pollution Coverage:** Contractor shall procure pollution liability coverage or other insurance covering claims for bodily injury or property damage arising out of the abatement, removal, storage, transportation, or other exposure to hazardous materials or pollutants, in limits not less than Two Million Dollars ($2,000,000). Contractor shall add the City and all parties required to be indemnified by Contractor as additional insured on all pollution liability policies.

7. **Higher Coverage Limits:** If Contractor maintains higher coverage limits than the amounts shown above, then the City requires and shall be entitled to coverage for the higher coverage limits maintained by Contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City.

8. **Claims Made Coverage:** Liability insurance coverage may not be written on a "claims made" or modified occurrence basis. The Certificate of Insurance must clearly provide that the coverage is on an "occurrence" basis.

7-1.06A **OTHER INSURANCE PROVISIONS.**

A. The requirements of the Standard Specifications as to types and limits of insurance coverage to be maintained by the Contractor, and any approval of insurance by the City, are not intended to, and shall not in any manner limit or qualify the liabilities and obligations otherwise assumed by the Contractor pursuant to the Contract, including, but not limited to, the provisions concerning indemnification, nor preclude the City from taking any other action available to it under any other provision of the Contract or law.

B. The City acknowledges that some insurance requirements contained in these Standard Specifications may be fulfilled by self-insurance on the part of the Contractor. However, this shall not in any way limit liabilities assumed by Contractor under the Contract.

Any self-insurance must be approved in writing by the City, in its sole discretion and shall not reduce the limits of liability. Any deductibles or self-insured retentions ("SIR") must be declared on the certificate of insurance and approved by City in writing. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

C. The Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Contract, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, the Contractor shall require its subcontractors to agree to be bound to the Contractor and the City in the same manner and to the same extent as the Contractor is bound to the City under this Contract. Additionally, the Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of the City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request. Alternatively, the Contractor may insure subcontractor(s) under its own policy.

D. The City, its officers, agents, employees, and volunteers are to be covered as insureds with respect to liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor; and with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts or equipment furnished in connection with such work or operations. Coverage shall not extend to any indemnity coverage

for the active negligence of the additional insured in any case where an agreement to indemnify the additional insured would be invalid under California Insurance Code Section 11580.04.

E. The limits of insurance required in this Contract may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the City (if agreed to in a written contract) before the City's own insurance shall be called upon to protect it as a named insured.

F. The insurance procured by Contractor shall be subject to the approval of the City, but any acceptance of insurance certificates by the City shall in no way limit or relieve Contractor of its duties and responsibilities under the Agreement.

G. Contractor shall be responsible for all premiums, deductibles, and self-insured retention applicable to the insurance it is required to procure under the Contract. All deductibles or self-insured retentions over five hundred thousand dollars ($500,000) must be approved by the City, in writing. Contractor shall be responsible for all deductibles, self-insured retention payments, and/or increased premiums incurred if the City's policies of insurance are forced to cover damages or respond to claims for which Contractor or its Subcontractors were obligated to provide insurance under the Contract.

H. Failure of the City to enforce in a timely manner any of the requirements of these insurance provisions shall not act as a waiver to enforcement of any of these provisions at a later date.

I. Contractor's indemnity obligations shall not be limited by these insurance provisions and shall survive the expiration of the Contract and the insurance provisions of the Contract shall likewise not be limited by the indemnity provisions of the Contract.

J. THE CITY RESERVES THE RIGHT TO WITHHOLD ANY PROGRESS PAYMENTS TO THE CONTRACTOR IN THE EVENT OF NONCOMPLIANCE WITH ANY INSURANCE REQUIREMENTS.

Bond No. _____
Premium $_____

PUBLIC WORKS
FAITHFUL PERFORMANCE BOND

(Project: _____)

WHEREAS, the City of Roseville ("CITY") has awarded a bid and contract to _____ as contractor ("PRINCIPAL") for the public work described as _____ _____ (the "WORK"). The contract ("AGREEMENT"), for the public work described above, and all of its terms and conditions are incorporated by reference and made a part hereof; and

WHEREAS, the PRINCIPAL is required to furnish a bond in connection with the AGREEMENT guaranteeing its faithful performance; and

NOW, THEREFORE, we the undersigned PRINCIPAL and _____ _____, a _____, admitted and duly authorized to transact business under the laws of the State of California, as SURETY ("SURETY"), are held and firmly bound unto the CITY or its successors and assigns in the sum of _____ dollars ($_____) (which amount is not less than 100% of the AGREEMENT price) to be paid to the CITY or its successors and assigns; and for which payment, well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors or assigns jointly and severally, firmly by these presents.

The condition of this obligation is such that if the PRINCIPAL, or its heirs, executors, administrators, successors or assigns, shall abide by, and in all respects promptly and faithfully perform the covenants, conditions and provisions in said AGREEMENT and any alteration thereof made as therein provided, notice of which alterations to Surety being hereby waived, on its part to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless CITY, its officers, agents, employees, volunteers as therein stipulated, then this obligation shall be null and void; otherwise, this obligation shall be and remain in full force and effect.

As condition precedent to the satisfactory completion of the contract, the obligation of the PRINCIPAL and SURETY under this Bond shall remain in effect for a period of one (1) year after the completion and acceptance of the WORK. During that time, if the PRINCIPAL, its heirs, executors, administrators, successors or assigns fails to make full, complete and satisfactory repair and replacement or totally protect the CITY from any loss or damage made evident during that year which results from or is caused by either defective materials or faulty workmanship in the prosecution of the WORK, then the obligation shall remain in full force and effect. However, anything in

this paragraph to the contrary notwithstanding, the obligation of the SURETY shall continue so long as any obligation of the PRINCIPAL remains.

No prepayment or delay in payments, and no change, extension, addition or alteration of any provision of the AGREEMENT or in the specifications agreed to between the PRINCIPAL and the CITY, or any forbearance on the part of the CITY shall operate to relieve the SURETY. The SURETY hereby waives the provisions of Section 2819 of the California Civil Code. The SURETY waives all rights of subrogation against the CITY or any person employed by the CITY. If the contract price increases by the issuance of change orders, the amount specified in this bond shall increase by the same amount.

Whenever PRINCIPAL shall be and declared by CITY to be in default under the AGREEMENT, SURETY shall promptly remedy the default, or shall promptly do one of the follow at CITY's election:

1. Undertake through its agents or independent contractors, reasonably acceptable to CITY, to complete the AGREEMENT in accordance with its terms and conditions and to pay and perform all obligations of PRINCIPAL under the AGREEMENT, including without limitation, all obligations with respect to warranties, guarantees, and the payment of liquidated damages.

2. Reimburse CITY for all costs CITY incurs in completing the AGREEMENT, and in correcting, repairing or replacing defects in materials or workmanship and/or materials and workmanship which do not conform to the specifications in the AGREEMENT.

SURETY's obligations hereunder are independent of the obligations of any other surety for the performance of the AGREEMENT, and suit may be brought against SURETY and such other sureties, jointly and severally, or against any one or more of them, or against less than all of them without impairing CITY's rights against the others.

No right of action shall accrue on this bond to or for the use of any person or corporation other than CITY or its successors or assigns.

As part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by CITY in successfully enforcing such obligation, all to be taxed as costs and included in any judgment rendered.

PUBLIC WORKS
LABOR AND MATERIALS PAYMENT BOND
(Project: _____)

WHEREAS, the City of Roseville ("CITY"), has awarded a bid and contract to _____ as contractor ("PRINCIPAL"), for the public work described as _____ _____ (the "WORK"). The contract ("AGREEMENT"), for the public work described above, and all of its terms and conditions are incorporated by reference and made a part hereof; and

WHEREAS, the PRINCIPAL is required to furnish a bond in connection with the AGREEMENT guaranteeing payment of persons who provide labor and material; and

NOW, THEREFORE, we the undersigned PRINCIPAL and _____ _____, a _____, admitted and duly authorized to transact business under the laws of the State of California, as SURETY ("SURETY"), are held and firmly bound unto the CITY or its successors and assigns in the sum of _____ dollars ($_____) (which amount is not less than 100% of the AGREEMENT price) to be paid to the CITY or its successors and assigns; and for which payment, well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors or assigns jointly and severally, firmly by these presents.

The condition of the obligation is such that if the PRINCIPAL, its subcontractors, heirs, executors, administrators, successors or assigns fails to pay any of the persons named in Section 8004 or 9100 of the Civil Code of the State of California, or the amounts due under the Unemployment Insurance Code of the State of California, or any amounts required to be deducted, withheld and paid over to the Employment Development Department from the wages of employees of the PRINCIPAL and its subcontractors pursuant to Section 13020 of the Unemployment Insurance Code, with respect to work or labor performed by any such claimant, that the SURETY will pay for the same, in an amount not exceeding the sum specified in this bond, and also, in case suit is brought upon the bond, shall pay reasonable attorneys' fees, to be fixed by the Court.

This bond shall inure to the benefit of any and all persons, companies, and corporations entitled to file a Stop Payment Notice pursuant to the provisions of Section 9350 et seq. of the Civil Code of the State of California, so as to give a right of action to them or their assigns in any suit brought upon this bond.

No prepayment or delay in payments, and no change, extension, addition or alteration of any provision of the AGREEMENT or in the specifications agreed to between the PRINCIPAL and the CITY, or any forbearance on the part of the CITY shall operate to relieve the SURETY. The SURETY hereby waives the provisions of Section 2819 of the California Civil Code. The SURETY waives all rights of subrogation against the CITY or any person employed by the CITY. If the contract price increases by the issuance of change orders, the amount specified in this bond shall increase by the same amount.

As part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by CITY in successfully enforcing such obligation, all to be taxed as costs and included in any judgment rendered.

IN WITNESS WHEREOF, this instrument has been duly executed by the PRINCIPAL and SURETY above-named, on the _____ day of _____, 20__.

ADOPTION OF STATE SPECIFICATIONS

1. The State of California Department of Transportation ("Caltrans") Standard Specifications dated 2015, are hereby adopted as the Standard Specifications of the City of Roseville except insofar as they may be modified by these Standard Construction Specifications.

2. Except for Division 1, Section 2, numbering in these Standard Construction Specifications conforms to that in the Caltrans Standard Specifications. The existence of a section in these Standard Construction Specifications means that the corresponding section of the Standard Specifications is modified in some respect. Unless otherwise specified, the modified Standard Specification provisions are deleted entirely, and the provisions of these Standard Construction Specifications are substituted.

DIVISION 1. GENERAL PROVISIONS

SECTION 1. GENERAL

ACCEPTANCE. Shall mean the formal Acceptance by resolution of the Roseville City Council of an entire Contract which has been completed in all respects in accordance with the Plans and specifications and any modifications thereof previously approved, causing a notice of completion to be filed with the County Recorder.

ATTORNEY GENERAL. The City Attorney of the City of Roseville.

CITY ATTORNEY. The City Attorney of the City of Roseville.

CITY CLERK. Shall mean the City Clerk of the City of Roseville.

DEPARTMENT. Shall mean the Department of Public Works of the City of Roseville, also referred to as the Department of Contract Administration. References made to the Department of Transportation otherwise shall mean the State of California Department of Transportation.

DIRECTOR. Shall mean the Public Works Director of the City of Roseville or his or her duly authorized representative.

ENGINEER. Shall mean the Public Works Director of the City of Roseville or his or her duly authorized representative.

ESTIMATED COST. The estimate prepared by the Public Works Director of quantities of work to be performed.

LIQUIDATED DAMAGE. The amount to be deducted from payments due or to become due to the Contractor for delay, as set forth in the Special Provisions.

PLANS. The official Project Plans, Standard Plans, Improvement Plans, Construction Standards, profiles, typical cross sections, general cross sections, working drawings, and supplemental drawings, or reproductions thereof, approved by the Director which show the location, character, dimensions and details of the work to be performed. All such documents are to be considered as a part of the Plans whether or not reproduced in the Special Provisions.

In the above definition, the following terms are defined as follows:

a. Standard Plans - The Standard Plans of the Department of Transportation of the State of California.

b. Project Plans - The Project Plans are specific details and dimension peculiar to the Work and supplemented by the Standard Plans, insofar as the same may apply.

c. Construction Standards - The City of Roseville Design and Construction Standards.

STATE. Reference to the State or State of California shall mean City or City of Roseville unless the reference is to a law or regulation of the State, and reference to Sacramento shall mean Roseville unless otherwise noted.

SECTION 2. BIDDING

SECTION 2 SHALL BE DELETED IN ITS ENTIRETY AND REPLACED WITH THE FOLLOWING:

2-1.01 **PROPOSAL FORMS.** The Department will furnish to each Bidder a standard proposal form, which, when filled out and executed shall be submitted as its bid. Bids not presented on forms so furnished will be disregarded.

The proposal form is bound in a book together with the Notice to Contractors, special provisions, and Contract. The proposal shall set forth for each item of work, in clearly legible figures and words, an item price and a total for the item in the respective spaces provided, and shall be signed by the Bidder, who shall fill out all blanks in the proposal form as required therein.

All items shown on the schedule of bid items shall be properly filled in and shall include all costs of labor, materials, equipment, and State, Federal, or other taxes applicable to the transaction. The completed forms shall be without inter-lineations, erasures or alterations of any nature. If the proposal is made by an individual, his or her name and post office address must be shown; if made by a firm or partnership, the name and post office address of each member of the

firm or partnership must be shown; or if made by a corporation, the proposal shall show the name of the State under the laws of which the corporation was chartered and the names, titles, and business addresses of the president, secretary, and treasurer of said corporation. If the proposal is signed by an agent, a "Power of Attorney" must be filed with the proposal.

The proposal shall be submitted as directed in the "Notice to Contractors" under sealed cover plainly marked as a proposal, and identifying the project to which the proposal relates and the time and date of the bid opening therefor. Proposals which are not properly marked may be disregarded. Proposal forms shall be obtained from the Director of Public Works, City of Roseville, California. Proposal forms are not transferable.

2-1.02 **REJECTION OF PROPOSALS AND DISQUALIFICATION OF BIDDERS.** Proposals may be rejected if they show any alterations of the forms, additions not called for, conditional bids, incomplete bids, erasures or irregularities of any kind. More than one proposal from an individual, firm, partnership, corporation or association under the same or different names, will not be considered. Reasonable grounds for believing that any Bidder is interested in more than one (1) proposal for the work contemplated, will cause the rejection of all proposals in which the Bidder is interested. The City reserves the right to reject any and all proposals.

2-1.03 **PROPOSAL GUARANTY.** All bids shall be presented under sealed cover and accompanied by one (1) of the following forms of Bidder's security.

a. Cash, a cashier's check, a certified check, or a Bidder's bond executed by an admitted California surety insurer, made payable to the City.

b. The security shall be in an amount equal to at least ten percent (10%) of the bid amount. A bid will not be considered unless one (1) of the forms of Bidder's security is enclosed with it.

c. A Bidder's bond will not be accepted unless it conforms to a bond form approved by the City Attorney. Upon request "Bidder's Bond" forms may be obtained from the Department.

2-1.04 **WITHDRAWAL OF PROPOSALS.** Any bid may be withdrawn at any time prior to the time fixed in the public notice for the deadline submission of bids only by written request for the withdrawal of the bid filed with the Director. The request shall be executed by the Bidder or his or her duly authorized representative. The withdrawal of a bid does not prejudice the right of the Bidder to file a new bid. Whether or not bids are opened exactly at the time fixed in the public notice for opening bids, a bid will not be received after the deadline for submission of bids nor may any bid be withdrawn after the time fixed in the public notice for deadline for submission of bids. Immediately following the deadline for submission of bids all bids shall become the property of the City of Roseville and City is under no obligation to return the bids.

2-1.05 **RELIEF OF BIDDERS.** If the Bidder claims a mistake was made in his or her bid, the Bidder shall give the Department written notice within five (5) calendar days after the opening of the bids of the alleged mistake, specifying in the notice in detail how the mistake occurred. No relief from a claimed mistaken bid shall be granted unless such mistake clearly appears on the face of the bid submitted to the City. Claimed mistakes on backup worksheets, spreadsheets, computerized bidding programs, or any other similar calculative bidding mistake which is not apparent on the face of the bid shall not under any circumstance be considered as a

basis for relief. The burden of proving the occurrence of a mistake entitling a Bidder to relief from its bid rests entirely on the Bidder. Relief from bids shall be in the City's sole discretion.

2-1.06 **PREVIOUS DISQUALIFICATION, REMOVAL OR OTHER PREVENTION OF BIDDING.** A bid may be rejected on the basis of a Bidder, any officer of such Bidder, or any employee of such Bidder who has a proprietary interest in such Bidder, having been disqualified, removed, or otherwise prevented from bidding on, or completing a Federal, State, or local project because of a violation of law or a safety regulation.

2-1.07 **COMPETENCY OF BIDDERS.** If two (2) or more prospective Bidders desire to bid jointly as a joint venture on a single project, they must file an affidavit of joint venture with the Bid on a form approved by the City Attorney, and such affidavit of joint venture will be valid only for the specific project for which it is filed. If such affidavit of joint venture is not filed as aforesaid and approved by the City Attorney prior to the time for awarding bids on the specific project for which it is submitted, a joint bid submitted by said Bidders will be disregarded. No bid will be accepted from or a Contract awarded to any Bidder to whom a proposal form has not been issued pursuant to Section 2-1.06.

2-1.08 **GUARANTY AND WARRANTY.** The Contractor shall guarantee and warrant all materials supplied as being fit for the purpose intended. The Contractor shall guarantee and warrant all work performed as having been accomplished in a proper and workman-like manner. The guarantee and warranty required by this section shall continue for a period of one (1) year after Acceptance of the Work.

Should any failure of the work occur within a period of one (1) year, after Acceptance of the project by the City Council due to faulty materials, poor workmanship, or defective equipment, the Contractor shall promptly make the needed repairs at his or her expense.

The City is hereby authorized to make such repairs if the Contractor fails to make or undertake with due diligence the aforesaid repairs within ten (10) calendar days after being given written notice of such failure; provided, however, that in case of emergency where in the opinion of the Engineer, providing a reasonable attempt has been made to notify the Contractor, delay would cause serious loss or damages, or a serious hazard to the public, the repairs may be made or lights, signs, and barricades erected without prior notice to the Contractor, and the Contractor shall pay the entire cost thereof. At the completion of the work the faithful performance bond may be reduced at the discretion of the City Council to not less than ten percent (10%) of the Contract price to cover said guarantee.

Additional guarantees or warranties may be required by the Special Provisions.

SECTION 3. CONTRACT AWARD AND EXECUTION

3-1.04 **CONTRACT AWARD.** The right is reserved to reject any and all proposals. The award of the Contract, if it be awarded, will be to the lowest responsible Bidder whose proposal complies with all the requirements prescribed. Such award, if made, will be made within sixty (60) calendar days after the public opening of the proposals. If the lowest responsible Bidder refuses or fails to execute the Contract, the Roseville City Council may award the Contract to the second lowest responsible Bidder. Such award, if made, will be made within eighty-two (82) calendar days after the public opening of proposals. If the second lowest responsible Bidder refuses or fails to execute the Contract, the City may award the Contract to the third lowest responsible Bidder. Such award, if made, will be made within one hundred and four (104) calendar days after public opening of the proposals. The above time periods within

which the award of Contract may be made are subject to extension for such further period as may be agreed upon in writing between the City and the Bidder concerned.

All bids will be compared on the basis of the Director's estimate of the quantities of work to be done.

3-1.05 **CONTRACT BONDS.** The successful Bidder, simultaneously with the execution of the Contract, will be required to furnish a payment bond in an amount equal to one hundred percent (100%) of the Contract price, and a faithful performance bond in an amount equal to one hundred percent (100%) of the Contract price; said bonds shall be in a form approved by the City Attorney and shall be secured by a surety company satisfactory to the City Attorney. If the Contract price increases by the issuance of Change Orders, the penal amounts of the bonds required shall increase accordingly.

Furthermore, the successful Bidder shall furnish a certificate from the County Clerk as required by California Civil Code of Procedure Section 995.660(a)(3).

3-1.18 **CONTRACT EXECUTION.** The Contract, in form and contents satisfactory to the City, shall be executed by the successful Bidder and returned, together with the Contract bonds and certificates of insurance within fifteen (15) calendar days after written notice that the Contract has been awarded, or as otherwise directed, in writing, by the City. No proposal shall be considered binding upon the City until the execution of the Contract by the City.

3-1.20 **FAILURE TO EXECUTE CONTRACT.** Section 3-1.20, "Failure to Execute Contract" is added as follows:

"Failure of the lowest responsible Bidder, the second lowest responsible Bidder, or the third lowest responsible Bidder to execute the Contract and file acceptable bonds

and insurance as provided herein within fifteen (15) calendar days, or within a different timeframe specified by City in writing, after such Bidder has received notice that the Contract has been awarded to him or her, shall be just cause for the annulment of the award and the forfeiture of the Bidder's security to the City as Liquidated Damages. The successful Bidder may file with the Roseville City Council a written notice, signed by the Bidder or his or her authorized representative, specifying that the Bidder will refuse to execute the Contract if presented to him or her. The filing of such notice shall have the same force and effect as the failure of the Bidder to execute the Contract and furnish acceptable bonds and insurance within the time prescribed by Section 3-1.18."

SECTION 4. SCOPE OF WORK

There are no amendments to the Standard Specifications.

SECTION 5. CONTROL OF WORK

5-1.02 **CONTRACT COMPONENTS.** These Standard Construction Specifications, the Standard Specifications, the Standard Plans, the Improvement Plans, Construction Standards, Project Plans, project Special Provisions (and any addenda), the Agreement, Contract Change Orders, and all supplementary documents are all essential parts of the Contract between Contractor and the City. A requirement occurring in one (1) is as binding

as though occurring in all. They are intended to be complementary, and to describe and provide for a complete work.

In resolving inconsistencies among two (2) or more sections of the Contract Documents, precedence shall be given in the following order:

A. Special Provisions

B. City of Roseville Standard Construction Specifications

C. City of Roseville Design and Construction Standards

D. State Standard Specifications and Amendments to the State Standard Specifications, Standard Special Provisions, and Plans

E. Drawings

Should it appear that the work to be done or any of the matters relative thereto are not sufficiently detailed or explained in these specifications, the special provisions, or the Plans, the Contractor shall apply in writing to the Director for such further explanations as may be necessary and shall conform to them as part of the Contract. In the event of any doubt or question arising respecting the true meaning of these specifications, the special provisions or the Plans, reference shall be made to the Director, whose decision thereon shall be final.

In the event of any discrepancy, between any drawing and the figures written thereon, the figures shall be taken as correct. Detail drawings shall prevail over general drawings.

5-1.20B(5) **CITY OF ROSEVILLE ENCROACHMENT PERMITS.** Section 5-1.20B(5), "City of Roseville Encroachment Permits" is added as follows:

"The Contractor need not obtain a separate encroachment permit from the City prior to construction within street rights-of-way or other City rights-of-way. Execution of the Contract by the City shall be deemed an encroachment permit for work required by

the Contract within rights-of-way. All work shall conform to the rules and regulations of encroachment permits and shall be subject to the inspection and approval of the Director."

5-1.20B(6) **CITY OF ROSEVILLE BUSINESS LICENSE.** Section 5-1.20B(6), "City of Roseville Business License" is added as follows:

"The Contractor shall obtain a business license from the City prior to commencing work."

5-1.20B(7) **OTHER PERMITS.** Section 5-1.20B(7), "Other Permits" is added as follows:

"The Contractor in coordination with the Director shall procure any necessary permits which the City has not specifically mentioned as obtaining."

5-1.31 **JOB SITE APPEARANCE.** The Contractor shall maintain a neat appearance to the work. In any area visible to the public, the following shall apply:

When practicable, broken concrete and debris developed during clearing and grubbing shall be disposed of concurrently with its removal. If stockpiling is necessary, the material shall be removed or disposed of weekly.

The Contractor shall furnish trash bins for all debris from structure construction. All debris shall be placed in trash bins daily. Forms or falsework that are to be reused shall be stacked neatly concurrently with their removal. Forms and falsework that are not to be reused shall be disposed of concurrently with their removal.

Full compensation for conforming to the provisions in this section, not otherwise provided for, shall be considered as included in price paid for the various Contract items of work involved, and no additional compensation will be allowed therefore.

5-1.38 **MAINTENANCE AND PROTECTION RELIEF.** Section 5-1.38 is deleted.

5-1.43 **POTENTIAL CLAIMS AND DISPUTE RESOLUTION.** Section 5-1.43 is deleted in its entirety and replaced with the following:

5-1.43A **NOTICE OF POTENTIAL CLAIM.** The Contractor shall not be entitled to payment for any additional compensation for any act or failure to act by the City, including failure or refusal to issue a Change Order, or for the happening of any event, thing, occurrence or other cause unless he or she shall have given the City due written Notice of Potential Claim as hereinafter specified.

The written Notice of Potential Claim shall set forth the reasons for which the Contractor believes additional compensation will or may be due, the nature of the costs involved, and, insofar as possible, the amount of the potential claim. The said Notice as above required must have been given to the Director prior to the time that the Contractor shall have performed the Work giving rise to the potential claim for additional compensation, if based on an act or failure to act by the Director, or in all other cases within three (3) Days after the happening of the event, thing, occurrence or other cause giving rise to the potential claim.

If the Notice of Potential Claim does not include complete information about the claim or the parties do not execute a Contract Change Order in connection with the Notice of Potential Claim, Contractor shall submit a complete information about its claim for additional compensation and/or extension of time for performance within fifteen (15) calendar days after such work is performed. Failure to provide written notice of claim prior to undertaking such work or failure to timely submit a complete and specific information about the claim for

additional compensation and/or extension of the time for performance shall be deemed a waiver and abandonment of such claim.

If there is a dispute over any claim, the Contractor shall continue to work during the dispute resolution process in a diligent and timely manner as directed by the City, and shall be governed by all applicable provision of the Agreement.

The Contractor shall maintain cost records of all work that is the basis of any dispute. On a daily basis, Contractor shall submit to City completed daily forms, the format of which will be acceptable to the City, with respect to the Contractor's costs of performing the disputed work. These daily forms shall itemize all of Contractor's costs in performing the disputed work, including, but not limited to, all costs relating to materials, labor and equipment with respect to the disputed work. These daily forms shall provide names or identification and classification of affected workers, the hourly rate of pay and hours worked, and also the size, type, and identification number of equipment and hours operated. Said daily work forms shall be duly signed and verified by the Contractor or its authorized representative. The City's receipt of the Contractors' daily forms shall not constitute an approval of the Contractor's claim. Contractor's failure to submit the daily forms on a daily basis shall constitute a waiver of the Contractor's right to claim any additional compensation for the disputed work.

Each Contractor claim shall include full and complete information concerning the Claim. Contractor shall provide a clear, concise recital of the basis, upon which the claim is asserted, including a designation of the provisions of the Contract Documents upon which the claim is based. Contractor shall also include a statement as to the amount of time and/or compensation sought pursuant to the claim; if Contractor's claim arises from an ongoing occurrence, Contractor shall so state in its claim, including a description of the specific Work activities

affected by the claim. All costs, expenses or damages and extensions of time claimed shall be described in reasonable detail under the circumstances together with complete supporting documentation.

The City will review any timely Notice of Potential Claim and supporting information submitted by Contractor. In conducting this review, the City shall have the right to require the Contractor to submit such additional or supporting documents, data and other information as the City may require.

If an agreement can be reached which resolves the Contractor's claim, the parties will execute a Contract Change Order to document the resolution of the claim. If the parties cannot reach agreement with respect to the Contractor's claim, the Contractor shall still be obligated to comply with the claim identification provisions identified in these Standard Construction Specifications, including but not limited to Section 5-1.43B.

It is the intention of this Section 5-1.43A that differences between the parties arising under and by virtue of the Contract be brought to the attention of the Director at the earliest possible time in order that such matters may be settled, if possible, or other appropriate action promptly taken. The Contractor hereby agrees that he or she shall have no right to additional compensation for any Claim that may be based on any such act, failure to act, event, thing or occurrence for which no timely written Notice of Potential Claim as herein required was filed.

5-1.43B **CLAIMS.** Contractor must submit all Claims, for which it has previously submitted a Notice of Potential Claim, prior to Acceptance of the Work. Each such Claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the Claim.

Upon receipt of a Claim, the City shall conduct a reasonable review of the Claim and, within a period not to exceed forty-five (45) calendar days, or such further time as mutually agreed upon or necessary pursuant to Public Contract Code Section 9204, the City shall provide the Contractor a written statement identifying what portion of the Claim is disputed and what portion is undisputed. If the City does not respond to a Claim from the Contractor within the time specified herein, such Claim shall be deemed rejected in its entirety.

Any payment due on an undisputed portion of the Claim shall be processed and made within sixty (60) calendar days after the City issues its written statement.

If the Contractor disputes the City's written response, or if the City does not respond within the time specified herein, the Contractor may demand in writing an informal conference to meet and confer for settlement of the issues in dispute. Upon receipt of a demand in writing sent by registered mail or certified mail, return receipt requested, the City shall schedule a meet and confer conference within thirty (30) calendar days for settlement of the dispute.

Within ten (10) business days following the conclusion of the meet and confer conference, if the claim or any portion of the claim remains in dispute, the City shall provide the Contractor a written statement identifying the portion of the Claims that remains in dispute and the portion that is undisputed. Any payment due on an undisputed portion of the Claims shall be processed and made within sixty (60) calendar days after the public entity issues its written statement. Any disputed portion of the Claim, as identified by the Contractor in writing, shall be submitted to nonbinding mediation, with the City and the Contractor sharing the associated costs equally. The City and the Contractor shall mutually agree to a mediator within ten (10) business days after the disputed portion of the Claim has been identified in writing. If the parties cannot agree upon a mediator, each party shall select a mediator and those mediators shall select a

qualified neutral third party to mediate with regard to the disputed portion of the Claim. Each party shall be responsible for the fees and costs charged by its respective mediator in connection with the selection of the neutral mediator. If mediation is unsuccessful, the parts of the Claim remaining in dispute shall be resolved in accordance with Section 9-1.22.

5-1.46 **FINAL INSPECTION AND CONTRACT ACCEPTANCE.** When the Director has made the final inspection and determines that the Contract work has been completed in all respects in accordance with the Plans and specifications, the Director will recommend that the Roseville City Council formally accept the work, and immediately upon and after such Acceptance by the City, the Contractor will be responsible for the work done for a period of one (1) year.

SECTION 6. CONTROL OF MATERIALS

6-1.03 **LOCAL MATERIALS.** Local material sites used by the Contractor shall be graded so that, at the time of final inspection of the Contract, they will drain and will blend in with the surrounding terrain.

SECTION 7. LEGAL RELATIONS AND RESPONSIBILITY TO THE PUBLIC

7-1.02K(2) **WAGES.** The provisions of paragraphs 1and 2 of Section 7-1.02K(2) of the Standard Specifications are amended to read as follows:

"Pursuant to the provisions of California Labor Code Section 1773, the City has identified the source, stated below, of the general prevailing rate of wages applicable to the

work to be done, for straight time, overtime, Saturday, Sunday and holiday work. The holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of the particular craft, classification or type of workmen concerned. The wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm, and are incorporated herein as part of the Contract.

Pursuant to California Labor Code Section 1773.2, general prevailing wage rates shall be posted by the Contractor at a prominent place at the site of the work."

7-1.02K(6)(b) **EXCAVATION SAFETY.** For trenches or excavation five feet (5') or deeper, the Contractor shall obtain from the Division of Industrial Safety, a permit authorizing such construction.

7-1.02O **VEHICLE CODE.** Pursuant to the authority contained in Vehicle Code Section 591, the Department has determined that, within such areas as are within the limits of the project and are open to public traffic, the Contractor shall comply with all the requirements set forth in Vehicle Code Divisions 11, 12, 13, 14, and 15. Attention is directed to the statement in Section 591 that this section shall not relieve the Contractor nor any person from the duty of exercising due care. The Contractor shall take all necessary precautions for safe operation of equipment and the protection of the public from injury and damage from such equipment.

7-1.03 **PUBLIC CONVENIENCE.** Section 7-1.03 of the Standard Specifications is amended in part as follows:

1. Delete paragraph 10 ("Install signs, lights, flares . . .") and substitute the following:

"In order to expedite the passage of public traffic through or around the work, the Contractor shall install signs, lights, flares, temporary railing (type K), barricades, and other facilities for the sole convenience and direction of public traffic as may be required. Also, as may be required, the Contractor shall furnish competent flaggers whose sole duties shall consist of directing the movement of public traffic through or around the work. The cost of furnishing and installing such signs, lights, flares, temporary railing (type K), barricades, flaggers, and other facilities shall be included in the lump sum paid for traffic control and no additional compensation will be allowed therefor.

In addition to the requirements previously specified for furnishing facilities and flaggers to expedite the safe passage of the public through or around the work, the Contractor shall at his or her expense furnish and erect within or adjacent to the work such warning, regulatory, or guide signs, markers, or devices as are necessary."

2. Add a paragraph at the end of the section to read as follows:

"In addition to the requirements hereinbefore specified for furnishing facilities and flaggers for expediting the passage of public traffic through or around the work, the Contractor shall furnish and erect, within or adjacent to the limits of the Contract, such warning, regulatory, and guide signs as may be required. The Contractor shall furnish, install and remove all such signs. Payment for furnishing, installing and removing all such signs shall be included in the lump sum price paid for traffic control and no additional compensation will be allowed therefor."

7-1.04 **PUBLIC SAFETY.** It is the intent of the parties that the City is not an exposing, creating, controlling, or correcting employer under California Labor Code Section 6400. In accordance with generally accepted construction practices and State law, the Contractor

shall have the authority and be solely and completely responsible for conditions on the job site, including safety of all persons and property during performance of the Work. Moreover, the Contractor shall be the controlling employer and has the authority and responsibility to enforce worksite safety. The Contractor shall be responsible for conducting daily safety inspections and assuring all hazards and violations are abated. The Contractor is responsible for assuring that all subcontractors adhere to the minimum CAL/OSHA safety requirements and that each subcontractor has an effective CAL/OSHA IIP (Illness and Injury Protection Program) in place that specifically addresses all potential exposures, such as, but not limited to, fall protection, confined space, and trenching/shoring. These requirements shall apply continuously and not be limited to normal working hours. The Contractor shall be responsible for any delay costs or damages in the event the progress of Work is slowed or stopped due to a safety violation.

The services of the Director in conducting construction review of the Contractor's performance is not intended to include review of the adequacy of the Contractor's Work methods, equipment, bracing or scaffolding, or safety measures, in, on, or near the construction site. If a City employee observes a safety violation, the City employee will report the violation to the Contractor who is then responsible for assuring the violation is abated.

The Contractor is hereby informed that Work on this project could be hazardous. The Contractor shall carefully instruct all personnel working in potentially hazardous Work areas as to potential dangers and shall provide such necessary safety equipment and instructions as are necessary to prevent injury to personnel and damage to property. Special care shall be exercised relative to Work underground.

All Work and materials shall be in strict accordance with all applicable State, City, County, and Federal Rules, Regulations, and Codes, and attention is drawn to the requirements

of CAL/OSHA. The Contractor shall be solely responsible for compliance with all City, County and State blasting requirements and for any damages caused by his or her operations.

In accordance with California Labor Code Section 6705, the Contractor shall submit to the City specific plans to show details of provisions for worker protection from caving ground. This in no way relieves the Contractor from the requirement of maintaining safety in all operations performed by the Contractor or the Contractor's subcontractors. The detailed plan showing design of shoring, bracing, sloping or other provisions shall be prepared by a registered civil or structural engineer in the State of California as required. Acceptance by the City or its designated agent only constitutes acknowledgment of the submission and does not constitute review or approval of the designs, design assumptions or criteria, completeness of submissions, applicability to areas of intended use, nor implementation of the plans, which are solely the responsibility of the Contractor and his or her registered engineer.

Notwithstanding any classifications relative to the Tunnel Safety Orders, Work within confined spaces on this project is subject to the definitions and applicable provisions of California Code of Regulations Section 8400 et seq., Title 8.

The Contractor shall so perform its Work as not to expose personnel to, or to discharge into the atmosphere from any source whatever, smoke, dust, asbestos, toxic chemicals or other air contaminants in violation of the laws, rules, and regulations of the governmental entities having jurisdiction. Contractors or subcontractors removing one hundred or more square feet (100') of asbestos must be “Certified” in accordance with State law. All Work involving exposure to asbestos and all other hazardous materials shall be performed with protection of personnel in compliance with all applicable regulations and safety requirements.

Nothing in these Standard Construction Specifications is to be construed to permit Work not conforming to governing codes. When Contract Documents differ from governing codes, the Contractor shall furnish and install the higher standards called for without extra charge. All equipment furnished shall be grounded and provided with guards and protection as required by safety codes. Where vapor tight or explosion proof electrical installation is required by code, this shall be provided. In accordance with the provisions of Labor Code Section 6707, the Contractor shall provide adequate sheeting, shoring and bracing for employee protection, as provided in the proposal as separate Bid Items.

7-1.05 **INDEMNIFICATION.** The City of Roseville and its officers, agents, employees, and volunteers, including but not limited to the Director, shall not be answerable or accountable in any manner: for any loss or damage that may happen to the work or any part thereof; for any loss or damage to any of the materials or any things used or employed in performing the work; for injury to or death of any person, either workers or the public; or for damage to property from any cause which might have been prevented by the Contractor, his or her workers, or anyone employed by the Contractor or his or her subcontractors.

The Contractor shall be responsible for any liability imposed by law and for injuries to, or death of, any person including, but not limited to, workers and the public, or damage to property resulting from defects or obstructions, or from any cause whatsoever during the progress of the work or at any time before its completion and final Acceptance.

To the fullest extent allowed by law, the Contractor shall defend (through counsel acceptable to the City), indemnify, and save harmless the City of Roseville and its officers, agents, employees, and volunteers from all claims, suits, or actions of every name, kind, and description, brought forth, or on account of, injuries to or death of any person including, but not

limited to, workers and the public, or damage to property resulting from the performance of the Contract, except as otherwise provided by statute.

The duty of the Contractor to defend, indemnify, and save harmless includes, but is not limited to, the duties to defend as set forth in Civil Code Section 2778. The Contractor waives any and all rights to any type of express or implied indemnity against the City, its officers, agents, employees, or volunteers.

It is the intent of the parties that the Contractor will defend, indemnify, and hold harmless the City of Roseville, its officers, agents, employees, and volunteers from any and all claims, suits, or actions as set forth above regardless of existence or degree of fault or negligence, on the part of the City, the Contractor, the subcontractor or employee of any of these; except the duty does not apply where the injury or damage is due to the sole or active negligence or willful misconduct of the City.

The Contractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Contract for the full period of time allowed by law. The defense and indemnity obligations of this Contract are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Contract. The parties intend that the defense and indemnity obligations in this Contract shall be broadly construed.

In addition to any remedy authorized by law, so much of the money due the Contractor under and by virtue of the Contract as shall be considered necessary by the City may be retained by the City until disposition has been made of such suits or claims for damages.

The retention of money due the Contractor shall be subject to the following:

A. The City will give the Contractor thirty (30) calendar days' notice of its intention to retain funds from any partial payment which may become due to the Contractor prior

to Acceptance of the Contract. Retention of funds from any payment made after Acceptance of the Contract may be made without such prior notice to the Contractor.

B. No retention of additional amounts out of partial payments will be made if the amount to be retained does not exceed the amount being withheld from partial payments pursuant to Section 9-1.16F, "Retentions," of the Standard Construction Specifications.

C. If the City had retained funds and it is subsequently determined that the City is not entitled to be indemnified and saved harmless by the Contractor in connection with the matter for which such retention was made, the City shall be liable for interest on the amount retained at the legal rate of interest for the period of such retention.

7-1.06 **INSURANCE COVERAGE.** Section 7-1.06 Insurance in the Standard Specifications shall be deleted in its entirety and replaced with the following:

A. Evidence of Maintenance Required. The Contractor shall, at its expense, procure and at all times maintain in full force and effect at a minimum the insurance required by this section on all of its operations; and the Contractor shall not allow any Subcontractor to commence work until similar insurance required of the Subcontractor has been obtained and filed. An original Certificate of Insurance, and copies of all required endorsements, all in a form approved by the Risk Manager, evidencing all required coverage or policies shall be filed after the award of the bid and prior to approval of the Contract by the City Council. Contractor shall provide ten (10) days prior written notice to the City of any reduction of coverage limits or cancellation of the coverage or policies shall be given to the City of Roseville as Certificate holder.

B. Qualifying Insurers. With the exception of the State Compensation Insurance Fund, all required insurance policies shall be issued by companies acceptable to the

City and licensed to do business in the State of California and who hold a current policy holders alphabetic and financial size category rating of not less than AVII according to the most recent issue of Best's Insurance Reports.

C. Insurance Required.

1. **Commercial General Liability (CGL):** Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations with limits of no less than Two Million Dollars ($2,000,000) per occurrence for bodily injury, personal injury and property damage for projects under One Million Dollars ($1,000,000) and limits of no less than Five Million Dollars ($5,000,000) per occurrence for bodily injury, personal injury and property damage for projects over One Million Dollars ($1,000,000). If a general aggregate limit applies, either the aggregate limit shall apply separately to this project or the general aggregate limit shall be twice the required occurrence limit.

The Commercial General Liability insurance shall include the following, copies of which shall be provided:

a. Inclusion of the City of Roseville, and its officers, agents, employees, and volunteers, as additional insureds (except for workers' compensation) as respects services or operations under the Contract. The additional insured endorsement for the general liability policy shall be at least as broad as the ISO CG 2010 10 01 combined with ISO CGL Endorsement CG 2037 10 01. Any other endorsement must be approved in writing by the City. Endorsements must include coverage for on-going and completed operations, which coverage shall be maintained for four (4) years following completion of the Project. Endorsements shall cover the City of Roseville, its officers, agents, employees, and volunteers.

b. The insurance shall provide coverage for claims by one insured against another insured and the policies shall not contain any cross-suits exclusions, cross-liability exclusions, or insured versus insured exclusions. The policies shall not contain any classification exclusions purporting to deny coverage for any work to be performed by Contractor or any of its Subcontractors.

c. Stipulation that the insurance is primary and noncontributory, as evidenced by a separate endorsement (CG 20 01 04 13 or an equivalent) or section of the policy, and that neither the City nor its insurers will be called upon to contribute to a loss.

d. Such insurance shall specifically cover the contractual liability of the Contractor.

e. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

f. Waiver of subrogation endorsement.

g. The Contractor shall furnish a certificate for the period covered.

2. **Automobile Liability:** Insurance Services Office Form Number CA 0001 covering Code 1 (any auto), or if contractor has no owned autos, Code 8 (hired) and Code 9 (non-owned), with limits of no less than One Million Dollars ($1,000,000) per accident for bodily injury and property damage.

3. **Workers' Compensation:** In accordance with the provisions of the California Labor Code, Contractor is required to be insured against liability for Workers'

Compensation or to undertake self-insurance. Statutory Workers' Compensation and Employers' Liability of at least One Million Dollars ($1,000,000) shall cover all Contractors staff while performing any work incidental to the performance or this Agreement.

4. **Professional Liability:** Professional Liability (Errors and Omission) Insurance appropriate to Contractor's profession, with a limit of liability not less than One Million Dollars ($1,000,000) per occurrence or claim and Two Million Dollars ($2,000,000) aggregate to cover all design and engineering services rendered by Contractor pursuant to the Agreement. Coverage must commence from the first day that Contractor or any of its Subcontractors provided any design or engineering services in connection with the Project.

5. **Builder's Risk/Course of Construction Insurance (If Required by Risk Management):** The Contractor shall be responsible for all loss, damage or destruction whatsoever to the work called for by this Contract until the approval of a Notice of Completion or acceptance of the Work if no Notice of Completion is to be recorded.

The Contractor shall secure "All Risk" type of builder's Risk Insurance of the type covering one hundred percent (100%) of the value of the work performed under this Contract (the value is presumed to be the Contract amount unless otherwise stated in Supplemental Conditions) and all materials, equipment, or other items to be incorporated therein while the same are located at the construction site, a bonded warehouse, or its place of manufacture. At any time, the policy shall cover the value of the work completed. The policy shall cover hazards including the losses due to fire, explosion, hail, rain, lightning, flood (separate insurance as needed), vandalism, malicious mischief, wind, collapse, aircraft, and smoke.

The policies providing such insurance shall name the City as a loss payee as its respective interests may appear, and certified copies of such policies shall be filed with the City. The

maximum deductible allowable under the Builder's All Risk policy shall be five percent (5%) of the Contract amount.

Builder's Risk Insurance is not required for coverage of losses in excess of five percent (5%) of the Contract amount for damages resulting from earthquake in excess of a magnitude of 3.5 on the Richter scale, or tidal waves. Coverage in the amount of five percent (5%) of the Contract amount for such losses is required.

6. **Pollution Coverage:** Contractor shall procure pollution liability coverage or other insurance covering claims for bodily injury or property damage arising out of the abatement, removal, storage, transportation, or other exposure to hazardous materials or pollutants, in limits not less than Two Million Dollars ($2,000,000). Contractor shall add the City and all parties required to be indemnified by Contractor as additional insured on all pollution liability policies.

7. **Higher Coverage Limits:** If Contractor maintains higher coverage limits than the amounts shown above, then the City requires and shall be entitled to coverage for the higher coverage limits maintained by Contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City.

8. **Claims Made Coverage:** Liability insurance coverage may not be written on a "claims made" or modified occurrence basis. The Certificate of Insurance must clearly provide that the coverage is on an "occurrence" basis.

7-1.06A **OTHER INSURANCE PROVISIONS.**

A. The requirements of the Standard Specifications as to types and limits of insurance coverage to be maintained by the Contractor, and any approval of insurance by the City, are not intended to, and shall not in any manner limit or qualify the liabilities and

obligations otherwise assumed by the Contractor pursuant to the Contract, including, but not limited to, the provisions concerning indemnification, nor preclude the City from taking any other action available to it under any other provision of the Contract or law.

B. The City acknowledges that some insurance requirements contained in these Standard Specifications may be fulfilled by self-insurance on the part of the Contractor. However, this shall not in any way limit liabilities assumed by Contractor under the Contract. Any self-insurance must be approved in writing by the City, in its sole discretion and shall not reduce the limits of liability. Any deductibles or self-insured retentions ("SIR") must be declared on the certificate of insurance and approved by City in writing. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

C. The Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Contract, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, the Contractor shall require its subcontractors to agree to be bound to the Contractor and the City in the same manner and to the same extent as the Contractor is bound to the City under this Contract. Additionally, the Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of the City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request. Alternatively, the Contractor may insure subcontractor(s) under its own policy.

D. The City, its officers, agents, employees, and volunteers are to be covered as insureds with respect to liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor; and with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts or equipment furnished in connection with such work or operations. Coverage shall not extend to any indemnity coverage for the active negligence of the additional insured in any case where an agreement to indemnify the additional insured would be invalid under California Insurance Code Section 11580.04.

E. The limits of insurance required in this Contract may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the City (if agreed to in a written contract) before the City's own insurance shall be called upon to protect it as a named insured.

F. The insurance procured by Contractor shall be subject to the approval of the City, but any acceptance of insurance certificates by the City shall in no way limit or relieve Contractor of its duties and responsibilities under the Agreement.

G. Contractor shall be responsible for all premiums, deductibles, and self-insured retention applicable to the insurance it is required to procure under the Contract. All deductibles or self-insured retentions over five hundred thousand dollars ($500,000) must be approved by the City, in writing. Contractor shall be responsible for all deductibles, self-insured retention payments, and/or increased premiums incurred if the City's policies of insurance are forced to cover damages or respond to claims for which Contractor or its Subcontractors were obligated to provide insurance under the Contract.

H. Failure of the City to enforce in a timely manner any of the requirements of these insurance provisions shall not act as a waiver to enforcement of any of these provisions at a later date.

I. Contractor's indemnity obligations shall not be limited by these insurance provisions and shall survive the expiration of the Contract and the insurance provisions of the Contract shall likewise not be limited by the indemnity provisions of the Contract.

J. THE CITY RESERVES THE RIGHT TO WITHHOLD ANY PROGRESS PAYMENTS TO THE CONTRACTOR IN THE EVENT OF NONCOMPLIANCE WITH ANY INSURANCE REQUIREMENTS.

SECTION 8. PROSECUTION AND PROGRESS

8-1.04 **START OF JOB SITE ACTIVITIES.** The Contractor shall begin work by the date specified in the "Notice to Proceed" letter, and the Contractor shall thereafter diligently prosecute the work to completion.

The Contractor shall notify the Director, in writing, of his or her intent to commence work at least seventy-two (72) hours before work is begun. The notice shall specify the date on which the Contractor intends to begin work. If a project has more than one (1) location of work, a separate notice shall be given for each location.

Should the Contractor begin work in advance of issuance of a "Notice to Proceed," any work performed in advance of such issuance shall be considered to have been done at Contractor's own risk and as a volunteer.

SECTION 9. PAYMENT

9-1.11C **PAYMENT INCLUSIONS.** The following is added to Section 9-1.11C Payment Inclusions:

"No additional compensation will be made to the Contractor for claims of increased overhead costs occurring within the originally specified construction Contract period plus any time extensions granted by Change Order. No compensation for extended performance will be granted unless the delay exceeds more than half of the float time available at the time of the delay."

9-1.16E(4) **STOP NOTICE WITHHOLDS.** The City may, at its option and at any time, retain out of amounts due the Contractor, sums sufficient to cover claims (including costs and attorneys' fees), filed pursuant to California Civil Code Section 9350 et seq.

9-1.16F **RETENTIONS.** The Department shall retain five percent (5%) of the Contract price as part security for the fulfillment of the Contract by the Contractor.

9-1.16G **PAYMENT OF WITHHELD FUNDS.** Section 9-1.16G, "Payment of Withheld Funds" is added as follows:

"Except as otherwise prohibited by law, the Contractor may elect to receive all payments due under the Contract pursuant to without any retention. If the Contractor so elects, a deposit with the City of securities with a value equivalent to the retention that would otherwise be withheld by the City shall be made. Said security shall be as provided in California Public Contract Code Section 22300, and shall be approved by the City both as to sufficiency and form. In the alternative, the Contractor may elect to deposit such securities in an escrow account and enter into a standard form Escrow

Agreement for Security Deposits in Lieu of Retention. Blank Agreements are available from the Public Works Director and the City Attorney's Office."

9-1.17 **PAYMENT AFTER CONTRACT ACCEPTANCE.** "Final Payment" shall be made in accordance with this section. The Contractor shall, after the completion of the Contract, submit a final estimate of the amount of work done thereunder and the value of such work. Upon approval of the estimate by the Director, the City of Roseville shall pay the entire sum so found to be due after deducting therefrom all previous payments and all amounts to be kept and all amounts to be retained under the provisions of the Contract. All prior partial estimates and payments shall be subject to correction in the final estimate and payment. The final payment shall not be due and payable until the expiration of thirty five (35) calendar days from the date of Acceptance of the work by the City Council, and thirty-five (35) calendar days after filing of the Notice of Completion with the County of Placer.

No certificate given or payments made under the Contract, except the final certificate or final payment, shall be conclusive evidence of the performance of the Contract, either wholly or in part, and no payment (including the final payment) or certificate shall be construed to be an Acceptance of any defective work or improper materials. Final payment shall not release the Contractor from one (1) year guarantee of the work as provided in Section 7-1.17, "Acceptance of Contract" and Section 2-1.12 "Guarantee and Warranty" of these Specifications.

SECTION 14. ENVIRONMENTAL STEWARDSHITP

14-8.02 **NOISE CONTROL.** The provisions of Section 14-8.02 of the Standard Specifications are amended by adding the following:

"The Contractor shall additionally conform to the provisions of Roseville Municipal Code Chapter 9.24 where such provisions are more restrictive than these specifications."

14-9.01 **AIR QUALITY GENERAL.** The provisions of Section 14-9.01, "Air Quality General" of the Standard Specifications are amended by adding the following:

"Material to be disposed of shall not be burned unless the Contractor has obtained a permit to burn combustible material resulting from clearing and grubbing operations from the Placer County Air Pollution Control District and City of Roseville Fire Marshall. A copy of the permits shall be filed with the Director

before beginning any burning. All such burning shall be conducted in strict conformance with the provision stipulated in said permits and at such times and in such manner as to prevent fire from spreading to areas adjoining the right-of-way."

14-11.02A **ASBESTOS REMOVAL AND DISPOSAL.** Section 14-11.02A, "Asbestos Removal and Disposal" is added as follows:

"The Contractor shall comply with all rules, regulations, statutes and ordinances regarding asbestos removal and disposal, including but not limited to, 42 U.S.C. Sections 7401, 7412 and 7601 and 40 C.F.R. Part 61, Subpart M.

If the Contractor discovers that a building to be demolished or renovated contains asbestos containing material, the Contractor shall immediately cease work and notify the City."

END OF STANDARD SPECIFICATIONS

ASSEMBLY BILL NO. 626

TEXT OF AB 626

Assembly Bill No. 626

CHAPTER 810

An act to add and repeal Section 9204 of the Public Contract Code, relating to public contracts.

[Approved by Governor September 29, 2016. Filed with Secretary of State September 29, 2016.]

LEGISLATIVE COUNSEL'S DIGEST

AB 626, Chiu. Public contracts: claim resolution.

Existing law prescribes various requirements regarding the formation, content, and enforcement of state and local public contracts. Existing law applicable to state public contracts generally requires that the resolution of claims related to those contracts be subject to arbitration. Existing law applicable to local agency contracts prescribes a process for the resolution of claims related to those contracts of $375,000 or less.

This bill would establish, for contracts entered into on or after January 1, 2017, a claim resolution process applicable to any claim by a contractor in connection with a public works project. The bill would define a claim as a separate demand by the contractor for one or more of the following: a time extension for relief from damages or penalties for delay, payment of money or damages arising from work done pursuant to the contract for a public work, or payment of an amount disputed by the public entity, as specified.

This bill would require a public entity, defined to exclude certain state entities, upon receipt of a claim sent by registered or certified mail, to review it and, within 45 days, provide a written statement identifying the disputed and undisputed portions of the claim. The bill would authorize the 45-day period to be extended by mutual agreement. The bill would require any payment due on an undisputed portion of the claim to be processed within 60 days, as specified. The bill would require that the claim be deemed rejected in its entirety if the public entity fails to issue the written statement.

This bill would authorize, if the claimant disputes the public entity's written response or if the public entity fails to respond to a claim within the time prescribed, the claimant to demand to meet and confer for settlement of the issues in dispute. The bill would require any disputed portion of the claim that remains in dispute after the meet and confer conference to be subject to nonbinding mediation, as specified. The bill would provide that unpaid claim amounts accrue interest at 7% per annum. The bill would prescribe a procedure by which a subcontractor or lower tier contractor may make a claim through the contractor.

This bill would require the text of these provisions, or a summary, to be set forth in the plans or specifications for any public work which may give rise to a claim. The bill would specify that a waiver of these rights is void and contrary to public policy, except as specified. The bill would also specify that it does not impose liability on a public entity that makes loans or grants available through a competitive application process, for the failure of an awardee to meet its contractual obligations.

By increasing the duties of local agencies and officials, this bill would impose a state-mandated local program.

This bill would, on January 1, 2020, repeal the provision establishing the claim resolution process.

This bill would specify that these provisions constitute a matter of statewide concern.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

The people of the State of California do enact as follows:

SECTION 1. Section 9204 is added to the Public Contract Code, to read:

9204. (a) The Legislature finds and declares that it is in the best interests of the state and its citizens to ensure that all construction business performed on a public works project in the state that is complete and not in dispute is paid in full and in a timely manner.

(b) Notwithstanding any other law, including, but not limited to, Article 7.1 (commencing with Section 10240) of Chapter 1 of Part 2, Chapter 10 (commencing with Section 19100) of Part 2, and Article 1.5 (commencing with Section 20104) of Chapter 1 of Part 3, this section shall apply to any claim by a contractor in connection with a public works project.

(c) For purposes of this section:

(1) "Claim" means a separate demand by a contractor sent by registered mail or certified mail with return receipt requested, for one or more of the following:

(A) A time extension, including, without limitation, for relief from damages or penalties for delay assessed by a public entity under a contract for a public works project.

(B) Payment by the public entity of money or damages arising from work done by, or on behalf of, the contractor pursuant to the contract for a public works project and payment for which is not otherwise expressly provided or to which the claimant is not otherwise entitled.

(C) Payment of an amount that is disputed by the public entity.

(2) "Contractor" means any type of contractor within the meaning of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code who has entered into a direct contract with a public entity for a public works project.

(3) (A) "Public entity" means, without limitation, except as provided in subparagraph (B), a state agency, department, office, division, bureau, board, or commission, the California State University, the University of California, a city, including a charter city, county, including a charter county, city and county, including a charter city and county, district, special district, public authority, political subdivision, public corporation, or nonprofit transit corporation wholly owned by a public agency and formed to carry out the purposes of the public agency.

(B) "Public entity" shall not include the following:

(i) The Department of Water Resources as to any project under the jurisdiction of that department.

(ii) The Department of Transportation as to any project under the jurisdiction of that department.

(iii) The Department of Parks and Recreation as to any project under the jurisdiction of that department.

(iv) The Department of Corrections and Rehabilitation with respect to any project under its jurisdiction pursuant to Chapter 11 (commencing with Section 7000) of Title 7 of Part 3 of the Penal Code.

(v) The Military Department as to any project under the jurisdiction of that department.

(vi) The Department of General Services as to all other projects.

(vii) The High-Speed Rail Authority.

(4) ”Public works project” means the erection, construction, alteration, repair, or improvement of any public structure, building, road, or other public improvement of any kind.

(5) ”Subcontractor” means any type of contractor within the meaning of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code who either is in direct contract with a contractor or is a lower tier subcontractor.

(d) (1) (A) Upon receipt of a claim pursuant to this section, the public entity to which the claim applies shall conduct a reasonable review of the claim and, within a period not to exceed 45 days, shall provide the claimant a written statement identifying what portion of the claim is disputed and what portion is undisputed. Upon receipt of a claim, a public entity and a contractor may, by mutual agreement, extend the time period provided in this subdivision.

(B) The claimant shall furnish reasonable documentation to support the claim.

(C) If the public entity needs approval from its governing body to provide the claimant a written statement identifying the disputed portion and the undisputed portion of the claim, and the governing body does not meet within the 45 days or within the mutually agreed to extension of time following receipt of a claim sent by registered mail or certified mail, return receipt requested, the public entity shall have up to three days following the next duly publicly noticed meeting of the governing body after the 45-day period, or extension, expires to provide the claimant a written statement identifying the disputed portion and the undisputed portion.

(D) Any payment due on an undisputed portion of the claim shall be processed and made within 60 days after the public entity issues its written statement. If the public entity fails to issue a written statement, paragraph (3) shall apply.

(2) (A) If the claimant disputes the public entity’s written response, or if the public entity fails to respond to a claim issued pursuant to this section within the time prescribed, the claimant may demand in writing an informal conference to meet and confer for settlement of the issues in dispute. Upon receipt of a demand in writing sent by registered mail or certified mail, return receipt requested, the public entity shall schedule a meet and confer conference within 30 days for settlement of the dispute.

(B) Within 10 business days following the conclusion of the meet and confer conference, if the claim or any portion of the claim remains in dispute, the public entity shall provide the claimant a written statement identifying the portion of the claim that remains in dispute and the portion that is undisputed. Any payment due on an undisputed portion of the claim shall be processed and made within 60 days after the public entity issues its written statement. Any disputed portion of the claim, as identified by the contractor in writing, shall be submitted to nonbinding mediation, with the public entity and the claimant sharing the associated costs equally. The public entity and claimant shall mutually agree to a mediator within 10 business days after the disputed portion of the claim has been identified in writing. If the parties cannot agree upon a mediator, each party shall select a mediator and those mediators shall select a qualified neutral third party to mediate with regard to the disputed portion of the claim. Each

party shall bear the fees and costs charged by its respective mediator in connection with the selection of the neutral mediator. If mediation is unsuccessful, the parts of the claim remaining in dispute shall be subject to applicable procedures outside this section.

(C) For purposes of this section, mediation includes any nonbinding process, including, but not limited to, neutral evaluation or a dispute review board, in which an independent third party or board assists the parties in dispute resolution through negotiation or by issuance of an evaluation. Any mediation utilized shall conform to the timeframes in this section.

(D) Unless otherwise agreed to by the public entity and the contractor in writing, the mediation conducted pursuant to this section shall excuse any further obligation under Section 20104.4 to mediate after litigation has been commenced.

(E) This section does not preclude a public entity from requiring arbitration of disputes under private arbitration or the Public Works Contract Arbitration Program, if mediation under this section does not resolve the parties' dispute.

(3) Failure by the public entity to respond to a claim from a contractor within the time periods described in this subdivision or to otherwise meet the time requirements of this section shall result in the claim being deemed rejected in its entirety. A claim that is denied by reason of the public entity's failure to have responded to a claim, or its failure to otherwise meet the time requirements of this section, shall not constitute an adverse finding with regard to the merits of the claim or the responsibility or qualifications of the claimant.

(4) Amounts not paid in a timely manner as required by this section shall bear interest at 7 percent per annum.

(5) If a subcontractor or a lower tier subcontractor lacks legal standing to assert a claim against a public entity because privity of contract does not exist, the contractor may present to the public entity a claim on behalf of a subcontractor or lower tier subcontractor. A subcontractor may request in writing, either on his or her own behalf or on behalf of a lower tier subcontractor, that the contractor present a claim for work which was performed by the subcontractor or by a lower tier subcontractor on behalf of the subcontractor. The subcontractor requesting that the claim be presented to the public entity shall furnish reasonable documentation to support the claim. Within 45 days of receipt of this written request, the contractor shall notify the subcontractor in writing as to whether the contractor presented the claim to the public entity and, if the original contractor did not present the claim, provide the subcontractor with a statement of the reasons for not having done so.

(e) The text of this section or a summary of it shall be set forth in the plans or specifications for any public works project that may give rise to a claim under this section.

(f) A waiver of the rights granted by this section is void and contrary to public policy, provided, however, that (1) upon receipt of a claim, the parties may mutually agree to waive, in writing, mediation and proceed directly to the commencement of a civil action or binding arbitration, as applicable; and (2) a public entity may prescribe reasonable change order, claim, and dispute resolution procedures and requirements in addition to the provisions of this section, so long as the contractual provisions do not conflict with or otherwise impair the timeframes and procedures set forth in this section.

(g) This section applies to contracts entered into on or after January 1, 2017.

(h) Nothing in this section shall impose liability upon a public entity that makes loans or grants available through a competitive application process, for the failure of an awardee to meet its contractual obligations.

(i) This section shall remain in effect only until January 1, 2020, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2020, deletes or extends that date.

SECTION 2.
The Legislature finds and declares that it is of statewide concern to require a charter city, charter county, or charter city and county to follow a prescribed claims resolution process to ensure there are uniform and equitable procurement practices.

SECTION 3.
If the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code.

SPECIAL PROVISIONS
FOR
ROSEVILLE SURFACE PARKING LOT PROJECT

SCOPE

The work described in these Special Provisions must be done in conformance with the latest editions of the City of Roseville Design and Construction Standards, and 2015 State Standard Specifications and Plans, unless otherwise noted in these Special Provisions or Plans, except insofar as they may be modified by these Special Provisions.

ORGANIZATION

Special provisions are under headings that correspond with the main-section headings of the *Standard Specifications*. A main-section heading is a heading shown in the table of contents of the *Standard Specifications*.

Each special provision begins with a revision clause that describes or introduces a revision to the *Standard Specifications* as revised by any revised standard specification.

Any paragraph added or deleted by a revision clause does not change the paragraph numbering of the *Standard Specifications* for any other reference to a paragraph of the *Standard Specifications*.

^^

DIVISION I GENERAL PROVISIONS

1 GENERAL

Add to section 1-1.01:

Bid Items and Applicable Sections

Item code	Item description	Applicable section
510096A	DRAIN INLET (TYPE F)	51
	DECORATIVE STEEL FENCE	80
	DECORATIVE STEEL GATE	80

Add to section 1-1.07B:

Administrator: The Public Works Director, as created by law, also the City

Agency: Department of Public Works, City of Roseville

Bidder: Prime Contractor

Bid book: Bid Proposal

City: City of Roseville

City Council: City Council of the City of Roseville, a Charter City in the State of California

Contract Documents: Plans, Notice to Bidder and Special Provisions, and Bid Book and Contract

Department: Department of Public Works, City of Roseville

Department of Transportation: State of California Agency

Department of Industrial Relations: State of California Agency

District: The Public Works Department, City of Roseville

Division of Labor Standards Enforcement: State of California Agency

Laboratory: The laboratories authorized by the Engineer to test materials and work involved in the contract

Office Engineer: City of Roseville, Department of Public Works

Transportation Building: Department of Public Works, City of Roseville

Replace the following definitions in section 1-1.07B:

Director: Director of Public Works, City of Roseville

Engineer: The Director of Public Works/City Engineer, and agents or assistants duly authorized by the Director of the Public Works/City Engineer to act on their behalf

^^

2 BIDDING

Add between the 1st and 2nd paragraphs of section 2-1.06B:

The Department makes the following supplemental project information available:

Supplemental Project Information

Means	Description
	Geotechnical Report Dated: January, 2026

^^

4 SCOPE OF WORK

Replace section 4-1.03 with:

The project consists of the construction of the Roseville Surface Parking Lot Project consisting of the following improvements:

1. Constructing a parking lot
2. Alleyway aesthetic improvements

The work includes improvements including: clearing and grubbing, excavation, curb, gutter and sidewalk, grading, roadway and sidewalk construction, utilities including water, sewer, storm drain, electrical, striping, and other minor improvements.

^^

5 CONTROL OF WORK

Add to section 5-1.01:

For the award of the "Project", the City will provide inspection and Resident Engineer (RE) on an eight-hour (8) day and a forty-hour (40) week (Monday through Friday) basis only. You must reimburse the City at a rate of $175/hr for all inspection and $200/hr for RE time in excess of those hours listed above, including designated holidays and weekends. Requests for authorization to perform work outside the hours of 7:00 a.m. to 4:00 p.m., Monday through Friday, must be made in writing at least 48 hours in advance.

Attention is directed to Section 7-1.03 of these Special Provisions concerning project working hour restrictions.

Designated holidays are observed: New Year's Day, Martin Luther King Day, Presidents Day, Memorial Day, 4th of July, Labor Day, Veterans Day, Thanksgiving Day, the day after Thanksgiving and Christmas Day. When a designated holiday falls on a Saturday or Sunday, the preceding Friday or following Monday (respectively) must be a designated holiday. Refer to the latest editions of the City of Roseville Design and Construction Standards for the holidays and weekends.

Provide a competent person during normal working hours to assist the Engineer, when required, in checking lines and grades of the Contractor's layout and measuring quantities for payment purposes. Cooperate with the Engineer so that checking, and measuring may be accomplished with the least interference to your operations. No additional compensation will be made to you for fulfilling this requirement.

Replace section 5-1.05 with:

5-1.05 ORDER OF WORK

Contractor’s attention is directed to right-of-way and temporary construction easements shown on the project plans and attached hereto, that will need to be considered and requirements adhered to at or adjacent to each private property, when determining the means and methods for construction. Full compensation for all work associated with the requirements outlined are considered as included in the prices paid for the various contract items of work and no additional compensation will be allowed therefor.

Prior to beginning work, the Contractor must install appropriate chain link fencing (with clean new scrim and without any signage) and enclosures around the Area of Work. It is the contractor’s sole responsibility to review and adhere to the requirements set forth in each temporary construction easement, included in Appendix D, for each private property listed below:

- UPRR

The Contractor must not occupy other City property, parking lots adjacent to the construction area, easements, or right-of-way, or allow others to occupy these, for construction of the project.

The Contractor must remove equipment, materials, and rubbish from the work areas and must leave the areas in a presentable condition at all times. The Contractor is to perform continuous work at each location and shall not leave any location unattended or incomplete for an extended period of time.

Attention is directed to "Water Pollution Control" of the State Standard Specifications regarding the submittal and approval of the Contractor prepared Stormwater Pollution Prevention Plan, prior to performing work having potential to cause water pollution.

The Contractor must also prepare a traffic control plan that conforms to Section 12, “Construction Area Traffic Control Devices” of the City of Roseville Construction Standards, the California MUTCD and as described within these Special Provisions prior to construction. The traffic control plan must be approved by the City of Roseville Public Works Traffic Section and follow the sequence reflected on the traffic handling plans.

The first order of work shall be to place the order for long lead time materials and equipment including electrical materials that will be furnished by the Contractor for this project. Submittals for long lead items shall be submitted within 10 working days of contract award by City Council, and orders placed within 1 working day of submittal(s) approval(s). Should the City have to supply the Contractor with material and/or equipment to do the work, the Contractor will be charged accordingly per agreed upon cost. Contractor is responsible for providing all materials and shall not rely on the City for any materials other than what is explicitly described and stated in the contract documents. The Contractor must furnish the Engineer with a statement from the equipment vendor(s) that the order for said equipment has been received and accepted by said vendor(s). Said statement must include an anticipated date of delivery of said equipment to the Contractor. Said statement must be furnished to the Engineer within 1 working day after order has been placed. Signal and lighting equipment must be completed by the end of the Contract. The Contractor must pay liquidated damages per the Special Provisions if the installation of signal and lighting cannot be completed within the above time frame.

Where improvements are immediately adjacent to property owners with landscaped or irrigated areas, Contractor must coordinate with the property owner to confirm the irrigation system is not in conflict with, or has been relocated outside, the project improvements, and is in good working condition. Any damage to the existing irrigation by the Contractor must be repaired by the Contractor at the Contractor's cost.

Contractor must protect all existing irrigation component/systems not identified on the plans. Existing irrigation components/systems shall be relocated to maintain irrigation of existing plantings adjacent to the work areas. Contractor shall schedule a test of the irrigation system prior to any modification with the presence of the Engineer, Parks representatives, and private property owner representatives, and shall get written buyoff from the associated representatives after relocation work has been completed. Failure to perform testing shall deem the contractor liable for all landscaping repair.

The Contractor must coordinate with the Parks Construction Inspector prior to disturbing the existing landscape and irrigation owned by the City. The Contractor must field verify the locations of existing irrigation systems prior to construction activities. All new components and landscaping must be per the latest version of the Parks Standards. No disruption of the existing irrigation watering system will be allowed during construction. All adjacent systems must maintain automatic programmed watering schedules throughout the construction. The Contractor is responsible for repairing or replacing and adjusting any portions of the existing irrigation systems impacted during construction of the improvements of this Contract. Existing sod and shrubs areas impacted by construction activities must be restored per the latest version of the Parks Standards. Time is of the essence on this contract, and the order of all other work must be such as to assure the completion of the project within the allotted working days as described herein while complying with the requirements set forth in the plans, specifications and contract document. Full compensation for conforming to these requirements will be considered as included in the prices paid for the various contract items of work and no additional compensation will be allowed therefor.

The Contractor shall provide a sequence of work for the tie-in to the transmission water main and submit to the Engineer for review and approval.

Replace the paragraphs in section 5-1.26 with:

5-1.26A Summary

Section 5-1.26 includes specifications for furnishing and setting construction stakes and marks.

Conform to Chapter 12, Construction Surveys, of the Caltrans publication entitled, "Surveys Manuel," except as amended below.

5-1.26B Action Submittals

Before starting any survey work, submit for Engineer's approval the proposed procedures, methods, equipment, and typical stake markings to be used.

Upon completion of the construction staking and prior to acceptance of the contract, submit all computations, survey notes, and other data used to accomplish the work.

5-1.26C Materials

Stakes must be wooden hubs with sufficient length to assure solid embedment in the grounds. Use nails only when setting points on existing pavement.

5-1.26D Construction

You are responsible to provide all surveys at your cost to control the lines, elevations, and dimensions of the work in conformance with the plans. Any deviations from the lines, elevation, and dimensions shown on the plans must receive prior approval from the Engineer.

You are responsible for the accuracy of your own layout work and you are liable for the preservation of all established lines, grades, and layout points.

Furnish and set construction stakes and marks required for the completion of the work. Set stakes with the accuracy adequate to assure that the completed work conforms to the lines, grades, and sections shown on the plans. Remove construction stakes when no longer needed.

Set hubs using total stationing. Horizontal tolerances must be within the tolerances specified in the Caltrans Survey Manual.

Set grades stakes at even 50-foot stations and at vertical and horizontal transition points.

Only use a level to establish the elevation of all hubs and points used for setting grades. Submit the required cut-sheets to the Engineer prior to starting any work for approval.

Coordinate with the City for Vertical Control Benchmark. If you destroy any of the survey control points, replace the control points at your cost. Notify the Engineer before replacing the control points. The Engineer will verify you work.

Make all computations necessary to establish the exact position of the work from control points. Maintain neat, legible, and accurate records of all computations, survey notes, and other records necessary to accomplish the work. Submit such records prior to beginning the work that requires their use.

All delay and costs due to the correcting of survey points found to be out of tolerance will be your responsibility.

Stakes damaged or destroyed by the public or your operations will be replaced at your expense. Submit all survey records to the Engineer for the project records.

5-1.26E Payment

Full compensation for conforming to these requirements will be considered as included in the prices paid for the various contract items of work and no additional compensation will be allowed therefor.

Add between the 2nd and 3rd paragraphs of section 5-1.36D:

Installation of the utilities shown in the following table requires coordination with your activities. Make the necessary arrangements with the utility company through the Engineer and submit a schedule:

1. Verified by a representative of the utility company
2. Allowing at least the time shown for the utility owner to complete its work

Utility Relocation and Contractor-Arranged Time for the Relocation

Utility	Utility address	Location	Days
COMCAST		Comcast Box in the alley	30

Add section 5-1.36F:

The City of Roseville is a member of the Underground Service Alert (USA). The Contractor must notify USA at 1-800-642-2444 at least 72 hours in advance of beginning work on the project. The Contractor is cautioned that there may be underground and overhead facilities within the work area including telephone, electrical, cable television, gas, water and sanitary sewer, and storm drain facilities. The Contractor must coordinate with the City of Roseville Environmental Utilities Department regarding work within 5-feet on either side of water transmission mains, including but not limited to, potholing, excavation, and utility adjustments.

Where possible conflicts may exist, the Contractor must verify the grade and location of existing underground utility prior to any work by careful hand digging.

It shall be the responsibility of the Contractor to protect existing roadway facilities (including but not limited to culverts, manholes, monuments, railings, signs, traffic signal detectors, and other roadway appurtenances). Facilities damaged due to the Contractor's operations shall be repaired or replaced, as directed by the Engineer, at the Contractor's expense.

In the event that a sign is knocked down or street maintenance type work is required in the City of Roseville, the Contractor shall immediately call Street Maintenance at (916) 774-5790 during business hours or (916) 847-1611 during non-business hours so a repair crew can be dispatched. If traffic signal detector facilities, signal or lighting facilities are cut or damaged during construction, Traffic Signal Maintenance shall be immediately contacted at (916) 774-5339 during business hours or at (800) 745-8894 during non-business hours. Traffic signal detector loops shall be replaced within 24 hours; Traffic signal wiring shall be repaired immediately. If loops are not replaced within 24 hours, temporary video detection shall be required to provide temporary detection, at the contractor's cost.

The surfaces of all roadway facilities within the limits of work (i.e. manhole covers, water valve covers, monument lids, etc.) shall be protected from micro-surfacing application. All material used to protect the facilities shall be removed and disposed of properly after the resurfacing work. After the resurfacing work, the surfaces of all roadway facilities shall have a clean surface.

^^

7 LEGAL RELATIONS AND RESPONSIBILITY TO THE PUBLIC

Add to section 7-1.03:

The use of flaggers, barricades and construction signing shall comply with the current edition of the MUTCD and/or State of California Manual of Traffic Controls for "Construction and Maintenance Work Zones" or as required by the Engineer. All construction traffic control devices shall be in place and operational prior to beginning work or different phases throughout the contract.

Construction activities which are under City contract shall not be permitted at any time other than between the hours of 7:00 a.m. to 4:00 p.m. Monday through Friday, and 9:00 a.m. to 6:00 p.m. on Saturday, Sunday and holidays with approval with the City. Only work that does not require motorized vehicles or power equipment shall be allowed on state, federal and designated holidays and outside of the noted working hours. If work outside the times specified above becomes necessary, request authorization from the Engineer to perform work outside of these hours at least 48 hours in advance.

You shall be responsible for informing the public of the traffic conditions existing within the construction area at all times by placement of appropriate warning and advisory signs. You shall provide and maintain all traffic control and safety items. You will provide flaggers as required and you will be responsible for the entire cost of flaggers. You will assumes the sole and complete responsibility for job and site conditions during the course of construction, including safety of all persons and property. This requirement shall apply continuously 24 hours/day and shall not be limited to normal working hours.

Unless otherwise approved by the Engineer, a minimum of three travel lanes in each direction, not less than 11’ wide, shall be maintained at all times on all roads within the construction limits. You shall submit a traffic control plan to the Engineer for acceptance, allow a minimum 7 days to review time for approval. The traffic control plan shall include the anticipated limits and time required for the closure. You cannot

begin any work until the Traffic Control Plan has been accepted by the City and the Contractor has notified adjacent businesses of the work and anticipated road closure and impacts. Contractor to provide a minimum of six (6) portable changeable message signs. Portable changeable message signs shall be used for prior notifications of road/parking area closures. PCMS's are to be placed a minimum 14 days in advance of start of construction, and are to be in place for entire duration of project.

The minimum traveled way described above shall be open for use by public traffic on Saturdays, Sundays, designated holidays, after 4:00 p.m. on Fridays and the day preceding designated holidays, and when construction operations are not actively in progress. Designated holidays are listed in Section 5-1.01 of these Special Provisions.

Whenever vehicles or equipment are parked within a traffic lane, the shoulder area shall be closed with fluorescent traffic cones or portable delineators; placed on a taper in advance of the parked vehicles or equipment and along the edge of the pavement at 25-foot intervals to a point not less than 25 feet past the last vehicle or piece of equipment. A minimum of 9 cones or portable delineators shall be used for the taper. A C23 (Road Work Ahead) or a C24 (Shoulder Work Ahead) sign shall be mounted on a telescoping flag tree with flags. The flag tree shall be placed in a location approved by the Engineer.

Minor deviations from the requirements of this section concerning hours of work which do not significantly change the cost of the work may be permitted upon your written request, if in the opinion of the Engineer public traffic will be better served and the work expedited. Such deviations shall not be adopted until the Engineer has indicated his written approval. All other modifications will be made by contract change order.

You shall notify local residents and businesses 72 hours prior to cutting off their access for periods in excess of 2 hours. Notice must be given in writing two days prior to cutting off access and verbally the evening prior to cutting of access. For businesses that only have one primary driveway for access, you will coordinate the work to always maintain access to their driveway or develop an alternative access point for them. You will need to get in writing an approval from the business to modify their driveway location and provide that to the Engineer 72 hours prior to modifying the driveway. If two driveways access a single business, one of those driveways shall always remain accessible. For locations where driveway reconstruction work is required, the driveway may be closed for a maximum of twenty-one (21) calendar days, no exceptions, and must be coordinated directly with each property owner or business.

Personal vehicles of your employees shall not be parked on the traveled way or shoulders, including any section closed to public traffic. No equipment will be allowed to be parked within any traffic lane or median after work hours.

You shall notify the Engineer of your intent to begin work at least 3 days before work begins. You shall cooperate with local authorities relative to handling traffic through the work area and shall make your own arrangements to keep the working area clear of parked vehicles.

Three days prior to implementing any City approved road or lane closures, you shall notify the Engineer. You shall notify the Engineer at a minimum of seventy-two (72) hours in advance of any revisions to the road or lane closure schedules.

Temporary lane closures will only be allowed during approved working hours. During the closures, the contractor shall maintain access to adjacent properties. No lane closures may begin without an approved traffic control plan. A copy of the accepted traffic control plan must be kept at the job site at all times.

- Working hours are subject to change during holiday traffic from the months of November and December. 8 PM, 9 PM, and 10 PM start times will shift one (1) hour, shortening the working hours.

The Contractor shall cooperate, keep current and notify the City of Roseville’s Public Information Officer, local police and fire department, ambulance services, and trash collectors of the proposed construction operations at least five (5) days before work is to begin. The Contractor shall cooperate with local authorities relative to handling traffic through the area and shall make their own arrangements in keeping the working area clear of parked vehicles.

Full compensation for conforming to the requirements of this section shall be considered as included in the contract lump sum price paid for Traffic Control System and no additional compensation will be allowed therefor.

^^

8 PROSECUTION AND PROGRESS

Replace paragraphs of section 8-1.04B with:

Time is of the essence on this contract. The “Notice to Proceed” will be issued within two weeks after the contract has been awarded to the Contractor. Contractor shall begin work no later than 15 calendar days after receiving the "Notice to Proceed" letter executed by the Director of Public Works or authorized staff representing the City of Roseville.

This work shall be diligently prosecuted to completion before the expiration of **90 Working Days** beginning on the fifteenth calendar day after receiving the "Notice to Proceed" letter.

All work, including all punch list items, shall be completed within 90 working days of the first working day.

A preconstruction meeting shall be held between you and the Engineer for the purpose of discussing the scope of work, contract drawings, specifications, existing conditions, materials to be tested, equipment to be used, and all essential matters pertaining to the prosecution and the satisfactory completion of the project as required. Your representative at this conference shall include all major superintendents for the work and may include major subcontractors and material suppliers.

The Contractor shall plan to phase construction of the project accordingly to comply with appropriately scheduling the utility and sign relocations and adjustments as outlined in plans and these Special Provisions.

You shall be responsible to coordinate utilities relocations within the project area. Coordination of utilities within the project limits, including relocations and maintenance of existing facilities shall be confirmed in writing by utility representatives and you prior to the preconstruction meeting or within five (5) working days after the preconstruction meeting.

Add to section 8-1.10A:

The City specifies liquidated damages (Pub Cont Code § 10226). Liquidated damages, if any, accrue starting on the 1st day after the expiration of the working days through the day of Contract acceptance except as specified in sections 8-1.10B and 8-1.10C.

The Contractor shall pay to the City of Roseville the sum of $5,200.00 per day, each and every calendar day’s delay in finishing the work (regardless of weather conditions) in excess of the number of working days to complete the entire project. Any payment made after the completion date shall not be construed as a waiver of liquidated damages.

The Engineer will provide written notice of non-conformance to the Contractor within 24 hours of the violation. All Contractor's equipment, machinery, traffic control, and personnel shall be off of the pavement and all lanes shall be open to traffic to be considered as full compliance.

Any progress payment made after the completion date shall not be construed as a waiver of liquidated damages.

^^

9 PAYMENT

Add to section 9-1.02A:

Payment for all work bid at a price per unit of measurement will be based upon actual quantities of work as measured upon completion. The City does not expressly or by implication agree that the actual amount of work or materials of any class will correspond to the estimated quantities given in the proposal.

The Contractor shall make no claim for anticipated profits, or loss of profit, for damages, or for any extra payment whatever because of any difference between the amount of work actually done or materials furnished and the estimated amount.

Replace *Reserved* in section 9-1.12 with:

9-1.12 Cost Break Down

The Contractor shall furnish to the Engineer a cost break-down and schedule of values as specified in Section 9-1.16B for each contract lump sum item of work described in all applicable Sections as part of this Project. For lump sum items not specifically identified below, the contractor shall provide a schedule of values as directed by the engineer. No lump sum item work shall begin without an approved schedule of values.

Bid Item No. 1: Traffic Control System

The contract lump sum price paid for Traffic Control System shall include full compensation for performing the scope of work specified in the Section 12 “Temporary Traffic Control” of the Special Provisions section and the City’s TTC Guidelines, including all necessary designation of an individual dedicated traffic control coordinator, traffic control plan submittals, project signs, construction signs, implementation and maintenance of the approved traffic control plans for all work in construction zones throughout the duration of the project. This item shall include any flagging costs and arrow boards that the contractor utilizes under the traffic control plan. This item also includes performing pedestrian safety plan submittals, and implementation and maintenance of the approved pedestrian safety plans for all work in construction zones throughout the duration of the project. This item shall include any signage, barricades, cones, k-rail, surface-mounted channelizers, temporary ramps, and all other appurtenances required to implement pedestrian safety.

Payment for complying with the provisions for Temporary Traffic Control shall be paid by lump sum. Payments for the lump sum item shall be determined based on the percentage of the bid item work completed as determined by the Engineer at the time the progress payment is prepared.

Bid Item No. 2: Job Site Management

The contract lump sum price paid for “Job Site Management” includes full compensation for furnishing all labor, materials, tools, equipment, and incidentals and for doing all the work involved in spill prevention and control, material management, waste management, non-stormwater management, and dewatering activities, including identifying, sampling, testing, handling, and disposing of hazardous waste resulting from your activities, as shown on the plans, as specified in the Standard Specifications and these special provisions, and as ordered by the Engineer.

Bid Item No. 3: Prepare Storm Water Pollution Prevention Plan

The contract lump sum price paid for Prepare Storm Water Pollution Prevention Plan shall include full compensation for providing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in performing the work specified in Section 13, "Water Pollution Control" of these Special Provisions, including developing and implementing the water pollution prevention plan, installing and maintaining BMPs, providing a water pollution control manager, conducting water pollution control training, and monitoring, inspecting, and correcting water pollution control practices and complying with the project storm water pollution prevention plan.

Bid Item No. 7: Water Pollution Control

The contract lump sum price paid for Water Pollution Control shall include full compensation for providing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in performing the work specified in Section 13, "Water Pollution Control" of these Special Provisions, including maintaining, removing and disposing construction site best management practices.

Bid Item No. 8: Clearing and Grubbing

The contract lump sum price paid for Clearing and Grubbing shall include full compensation for providing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in performing the work specified in Section 17, "Clearing and Grubbing" of the Standard Specifications, including consulting with Arborist, pruning prior to construction, and complying with City and County requirements relating to construction activities near oak trees.

Bid Item No. 86: Mobilization

Mobilization shall consist of preparatory work and operations, including, but not limited to, those necessary for the movement of personnel, equipment, supplies, and incidentals to the project site; for the establishment of all offices, buildings and other facilities necessary for work on the project; and for all other work and operations which must be performed or costs incurred prior to beginning work on the various contract items on the project site and as referenced in the State Standard Specifications.

Replace the 1st paragraph of section 9-1.16A with:

Submit all requests for progress payments using the forms included in Appendix A:

1. Form CC 1: Progress Payment Request - This form is to be completed and signed by you and attached as a cover sheet to each request for payment. This form will be mandatory on all contract payment requests.
2. Form CC2: Progress Payment Request (Detail) - This form may be used by you to provide the detail required to verify the payment quantities. (City will accept your form if it provides the required information.)
3. Form CC3: Quantity Changes Verification Form - This form is required before any payment can be made based on actual quantities exceeding estimated quantities. At the conclusion of the project, the City will issue a "Balancing Change Order" incorporating all quantity increases and decreases in the contract item of work.

Add to the end of section 9-1.16C:

The following items are eligible for partial progress payment even if they have not yet been incorporated into the work:

1. Bar Reinforcing
2. Water pipes and Appurtenances
3. Storm Drain Pipes and Appurtenances
4. Miscellaneous Metal

Add to section 9-1.17D(1):

Submit Form CC4: Final Release Form from Appendix A. This form must accompany all requests for final payment.

^^

DIVISION II GENERAL CONSTRUCTION

10 GENERAL

Add to the end of section 10-1.02C(2):

You must protect all existing irrigation component/systems not identified on the plans. Existing irrigation components/systems shall be relocated to maintain irrigation of existing plantings adjacent to the work areas. Contractor shall schedule a test of the irrigation system prior to any modification with the presence of the Engineer, Parks representatives, and private property owner representatives, and shall get written buyoff from the associated representatives after relocation work has been completed. Failure to perform testing shall deem the contractor liable for all irrigation and landscaping repairs.

If you damage any City irrigation component or system you will replace in accordance with the latest City Standards at your cost.

If you damage any private irrigation component or system you will replace it to an equal or better condition at your cost.

Contractor is required to water existing landscaping by alternative means, when irrigation systems are turned off for work.

10-1.02C(Landscaping)

You must protect all existing landscaping, including trees, not identified on the plans to be removed.

If you damage any landscaping not identified to be removed, you will replace at your cost.

10-1.02F Potholing for Utilities

It is recognized by you and the City that the locations of existing utilities as shown on the plans are approximate, their actual location is unknown. Recognition is given to the fact there may be additional existing utilities unknown to either party to the contract. Location of utilities, as shown on the drawings, represents the best information obtainable from utility maps and information furnished by the various agencies and companies involved. The City warrants neither the accuracy nor the extent of the actual utilities involved.

All existing utilities are to remain in service and operational during construction. All required relocation of existing facilities which interfere with the work shall be made by the owning agencies or as identified in these Special Provisions and plans.

Perform all operations necessary to excavate, expose, and verify the location of existing utility mains and laterals that may cross or be in conflict with the proposed facilities and at tie-in locations.

Notify Underground Service Alert (USA) at 1-800-642-2444 and all utility companies which have underground facilities within the limits of work 72 hours before beginning any excavation work.

Where a possible at-grade conflict with existing underground utilities appears on the plans, determine its location a minimum of 100 feet ahead of the work prior to trenching unless prior pothole information is shown. Grade and alignment changes must be made only if approved by the Engineer.

The horizontal and vertical locations shown for the existing underground utilities are approximate. It is your responsibility to locate all utility lines in the construction area prior to excavation. Any damage to existing utility, structure, or service, whether or not indicated on the plans must be repaired at your expense in a manner approved by the Engineer.

Submit a report for each pothole. The report must be typed and clearly drawn to show all necessary details, including:

1. Sketch showing the location, date, depth, conditions encountered, person in charge of potholing, and any other information requested by the Engineer
2. Utility and City Public Work person(s) notified

Do not proceed with excavation operations where underground utilities lie as shown on the plans or marked by USA until related potholing work has been completed to the satisfaction of the Engineer. Notify the Engineer of any potential conflicts with underground utilities.

Hand dig as necessary to protect existing utilities.

Notify the Engineer of conflicts in which there is less than two foot of separation between the existing and proposed utility.

Payment for potholing utilities is included in the payment for the various items of work involved.

Replace the paragraph in section 10-1.04 with:

10-1.04A General

Not Used

10-1.04B Preconstruction Conference

As requested by the Engineer the Contractor and representatives of sub-contractors may be requested to attend a preconstruction meeting. Agenda and preparation and distribution of the meeting minutes must be per the requirements set forth by the Engineer.

10-1.04C Progress Meetings

Schedule appropriately throughout progress of work at weekly intervals, or at intervals determined by the Engineer.

Make arrangements for attendance of appropriate participants, including Subcontractors.

Progress Meeting Agenda must be determined by the Engineer and may include:

1. Review minutes of previous meetings
2. Review of Work in progress
3. Field observations, problems, and decisions
4. Identification of problems which impede progress
5. Review: Submittal schedule; status of submittals; off-site fabrication; delivery schedules; and progress schedule
6. Corrective measures to regain projected schedules, if any
7. Planned progress during succeeding work period; Contractor to provide a three-week “look-ahead” schedule at each meeting; coordination of projected progress; effect of proposed changes on progress schedule and coordination
8. Maintenance of quality and work standards
9. Other business relating to Work

10-1.04D Safety Meetings

Run weekly meetings and require attendance of construction crew and Subcontractors. Record minutes and distribute copies within two calendar days after meeting to participants, the Engineer, and those affected by decisions made.

Replace the last paragraph in section 10-6 with:

Contractor is responsible to develop water supply. Full compensation for conforming to these requirements will be considered as included in the prices paid for the various contract items of work and no additional compensation will be allowed therefor. If the contractor chooses to use City water, a hydrant permit from the Environmental Utilities Department must be obtained prior to use.

**^^^

12 TEMPORARY TRAFFIC CONTROL

Add to section 12-1.01:

For details on working hours, lane closures, and red flash restrictions listed in, see Section 7 above.

Replace *Reserved* in section 12-4.02C(3)(d):

The Contractor will be responsible for notifying residents and businesses of the proposed construction. Notifications shall be distributed to affected residents and businesses within a minimum 200 feet radius of the job limits, including residents and businesses located on streets adjacent to the construction.

Notifications to affected residents and businesses within the work areas shall consist of “door hanger” type formatted notifications. The notification shall state the street name, the working hours, and the anticipated begin and completion dates for each street. The City will provide a digital copy of “door hanger” for use by the Contractor.

The Contractor shall distribute the door hanger notifications a minimum of 5 working days in advance of any work. This shall be repeated for each duration of night work. Notifications shall be tucked neatly in doorjambs, handles, or partially under mats. Notifications shall not be glued, stapled, tacked, or otherwise attached to property. The Contractor shall take care to stay on designated walkways during delivery of notifications and be polite to citizens encountered.

When work requires the traffic signal be placed in red flash, the Contractor shall submit a Red Flash Request form at minimum 72 hours in advance of the date of work to the Resident Engineer and the City Traffic Engineering Team. Requests placed after 4:30pm shall be considered as placed 8:00am the following day. The Red Flash Request Form is included in the City of Roseville Construction Details. If no work is being performed within an intersection, the Contractor shall inform a City representative so the signal will be restored to normal operations. The intent is that the traffic signal is placed in Red Flash when lanes will be taken approaching and at the intersection and when work will occur within the limit lines.

At all intersections, the Contractor shall provide a minimum of 2 flaggers per intersection while the intersections are in red flash, or as determined by the Engineer.

The Contractor shall diligently progress with operations within signalized intersections and communicate with the Engineer for restoring signalized intersections to normal operations once the Contractor’s operations are complete within the limits of signalized intersections.

Replace Not Used in section 12-3.01D with:

Payment for furnishing and installing Temporary Barricades and Temporary Type K railing is included in the payment for Traffic Control System. Temporary Type K railing will be required as necessary for temporary traffic control setup.

Replace section 12-3.11D with:

Payment for furnishing and installing construction area signs is included in the payment for Traffic Control System.

Replace Not Used in section 12-3.23D with:

Temporary Type K railing will be required as necessary for temporary traffic control setup. Payment for furnishing and installing Temporary Type K railing is included in the payment for Traffic Control System.

Add to the end of section 12-3.32B:

The PCMS’ must be controlled either locally or remotely by a dedicated controller or computer.

Authorized users must be able to both locally and remotely override motorist information messages.

The general system functions of the PCMSs must be capable of:

1. Preventing any unauthorized users or systems from gaining access to the PCMSs through an industry authentication and encryption standard level of security.
2. Providing current operational status locally and remotely. Operational status must include current messages, communications system, and power status.
3. Delivering notifications either by telephone, voice, or text messages to alert support staff of trouble conditions.
4. Generating trouble alerts for conditions such as (1) low roadside equipment power or voltage, (2) system communications failure.
5. Measuring periodically and automatically the power levels of all equipment. Alert support staff, locally and remotely via a telephone message, in time to provide supplemental power before the system ceases to operate.
6. Displaying preprogrammed messages based on the time of day and day of week.

Add to the beginning of the RSS for section 12-3.32C:

Place PCMSs at the locations specified in these Special Provisions and as authorized by the Engineer.

Replace Not Used in section 12-3.32D with:

Payment for portable changeable message signs (PCMS) is included in the payment for Traffic Control System.

Replace Not Used in section 12-4.04D with:

Cost Break-Down

The Contractor shall furnish to the Engineer a cost break-down for Traffic Control System.

The Contractor shall determine the quantities required to complete the work shown on the plans. The quantities and values shall be included in the cost break-down submitted to the Engineer. The Contractor shall be responsible for the accuracy of the quantities and values used in the cost break-down submitted.

No adjustment in compensation will be made in the contract lump sum prices paid for the traffic control items due to any differences between the quantities shown in the cost break-down furnished by the Contractor and the quantities required to complete the work as shown on the plans and as specified in these special provisions.

The sum of the amounts for the units of work listed in the cost break-down for traffic control shall be equal to the contract lump sum price bid for the work. Overhead, profit, and labor shall be included in each individual unit listed in the cost break-down.

The cost break-down shall be submitted to the Engineer within 15 days of the Notice to Proceed. The cost breakdown shall be approved, in writing, by the Engineer before any partial payment for the items of striping work will be made.

At the Engineer’s discretion the approved cost break-down may be used to determine partial payments during the progress of the work and as the basis of calculating the adjustment in compensation for the item or items of traffic control work due to changes ordered by the Engineer. When an ordered change increases or decreases the quantities of an approved cost break-down, the adjustment in compensation may be determined at the Engineer’s discretion in the same manner specified for increases and decreases in the quantity of a contract item of work in accordance with Section 4-1.03B, “Increased or Decreased Quantities,” of the Standard Specifications.

The cost break-down shall, as a minimum, include the following items:

ITEM	UNIT	MEASURE
Construction Area Signs	Type	Each
Channelizers	Type	Each

Full compensation for compliance with this section shall be considered included in the amount bid for Traffic Control System and no additional compensation shall be allowed.

^^

13 WATER POLLUTION CONTROL

Add to section 13-1.04:

Submit a Water Pollution Control Lump Sum Cost Break-Down which itemizes the contract lump sum for water pollution control work. Use the Water Pollution Control Lump Sum Cost Break-Down provided in this section as the basis for the cost break-down. Use the Water Pollution Control Lump Sum Cost Break-Down to identify items, quantities and values for water pollution control work, including Temporary Water Pollution Control Practices. You are responsible for the accuracy of the quantities and values used in the cost break-down submitted. Partial payment for the item of water pollution control will not be made until the Water Pollution Control Cost Break-Down is approved by the Engineer.

Line items indicated in the Water Pollution Control Lump Sum Cost Break-Down in this section with a specified Estimated Quantity must be considered "Project-Specific Minimum Requirements." Incorporate Project-Specific Minimum Requirements with Contractor-designated quantities and values into the Water Pollution Control Lump Sum Cost Break-Down.

Line items indicated in the Water Pollution Control Lump Sum Cost Break-Down in this section without a specified Estimated Quantity must be considered by the Contractor for selection to meet the applicable "Minimum Requirements" as defined in the Manuals, or for other water pollution control work as identified in the "Construction Site BMPs Consideration Checklist" presented in the Preparation Manual. In the Water Pollution Control Cost Break-Down, list only those water pollution control practices selected for the project, including quantities and values required to complete the work for those items.

The sum of the amounts for the items of work listed in the Water Pollution Control Cost Break-Down must be equal to the contract lump sum price bid for water pollution control. Overhead and profit must be included in the individual items listed in the cost break-down.

WATER POLLUTION CONTROL LUMP SUM COST BREAK-DOWN

ITEM	ITEM DESCRIPTION	UNIT	ESTIMATED QUANTITY	VALUE	AMOUNT
Soil Stabilization					
SS-1	Scheduling				
SS-2	Preservation of Property/Preservation of Existing Vegetation				
SS-3	Temporary Hydraulic Mulch (Bonded Stabilized Fiber Matrix)				
SS-6	Temporary Erosion Control (Straw Mulch with Stabilizing Emulsion)				
SS-7	Temporary Erosion Control Blanket (On Slope)				
SS-7	Temporary Erosion Control Blanket (In Swale or Ditch)				
SS-7	Temporary Cover (Geotextiles and Mats)

TC-1	Temporary Construction Entrance				
Wind Erosion Control					
WE-1	Wind Erosion Control				
TOTAL					

Adjustments in the items of work and quantities listed in the approved cost break-down must be made when required to address amendments to the SWPPP, except when the adjusted items are paid for as extra work.

No adjustment in compensation will be made to the contract lump sum price paid for water pollution control due to differences between the quantities shown in the approved cost break-down and the

quantities required to complete the work as shown on the approved SWPPP. No adjustment in compensation will be made for ordered changes to correct SWPPP work resulting from your own operations or from your negligence.

At the Engineer's discretion, the approved cost break-down may be used to determine partial payments during the progress of the work and as the basis of calculating the adjustment in compensation for the item or items of work due to changes ordered by the Engineer. When an ordered change increases or decreases the quantities of an approved cost break-down, the adjustment in compensation may be determined, at the Engineer's discretion, in the same manner specified for increases and decreases in the quantity of a contract item of work in section 9-1.06.

At your request and approved by the Engineer, changes to the water pollution control practices listed in the approved cost break-down, including addition of new water pollution control practices, will be allowed. Changes must be included in the approved amendment of the SWPPP. If the requested changes result in a net cost increase to the lump sum price for water pollution control, an adjustment in compensation will be made without change to the water pollution control item. The net cost increase to the water pollution control item will be paid for as extra work as provided in section 4-1.05.

Payment for maintaining, removing and disposing construction site best management practices is included in the payment for water pollution control.

Add to section 13-3.01A:

This project's risk level is 2.

The contractor shall prepare the project Stormwater Pollution Prevention Plan (SWPPP).

Replace the 1st paragraph of section 13-3.01C(2)(a) with:

Within 15 days of contract approval, your Qualified SWPPP Developer (QSD) must complete and upload the Permit Registration Documents (PRD's) into the state-wide database of construction projects (referred to as the Storm Water Multi-Application Report Tracking System or SMARTS database). The PRD's include, but is not limited to, the Notice of Intent (NOI), a risk assessment, post-construction calculations, a site map, a SWPPP, a signed certificate and the first annual permit fee. Coordinate payment of the annual permit fee with the City.

A current QSD, for the State of California, must develop the SWPPP and submit the SWPPP and PRD's into SMARTS.

Before any construction operations can begin, the project must have a Waste Discharge Identification Number (WDID) issued by the State.

You are responsible for the implementation of the SWPPP during construction. You must have a current Qualified SWPPP Practitioner (QSP) implement the conditions of the SWPPP for the project

Add between the 4th and 5th paragraphs of section 13-3.01C(2)(a):

The following RWQCBs will review the authorized SWPPP:

1. Central Valley RWQCB Region 5

Replace the 6th paragraph of section 13-3.01C(2)(a) with:

If the Regional Water Quality Control Board requires time for review, allow 30 days for review.

Do not start job site activities until:

1. the SWPPP is approved by the Engineer
2. a waste discharge ID number (WDID) is issued
3. SWPPP review requirements have been fulfilled
4. Three (3) bound signed copies of the SWPPP has been delivered to the Engineer

Replace the paragraphs of section 13-5.04 with:

Not Used

Replace the paragraphs of section 13-6.04 with:

Not Used

Replace the paragraphs of section 13-7.03D with:

Not Used

**^^^

Add to section 14-11.01:

Prepare a site-specific Health and Safety Plan for the construction process, consistent with general industry standards and Occupational Safety and Health Administration (OSHA) requirements, which would address risks to construction personnel and public safety, such that the health and safety risks would be mitigated to an acceptable level.

Notify the Roseville Fire Department if evidence of soil or groundwater contamination is encountered.

^^

15 EXISTING FACILITIES

Add to section 15-1.03B:

Section 15-1.03B includes specifications for removing concrete curb, curb and gutter, sidewalk, curb ramp, and pedestrian ramps. Additionally, follow Section 73-10 for the removal of curbs and sidewalks.

Delete the 7th paragraph of section 15-1.03B

Add to the end of section 15-1.03C:

At least 2 business days before hauling the decorative fence to the salvaged material stockpile location, notify the Engineer and inform the Roseville Public Works at telephone no. (916) 746-1330.

The stockpile location is:

2080 Hilltop Circle
Roseville, CA 95747

Add to section 15-1.04 Payment:

Full compensation per square yard for Remove Concrete, shall include full compensation for furnishing all the labor, materials, tools, equipment and incidentals and for doing all the work involved in removing concrete curb ramps, sidewalk, curb and gutter, curb, traffic islands, island paving as shown on the Plans, as specified in the State Standard Specifications, these Technical Specifications and as directed by the Engineer, and no additional compensation will be allowed therefor.

Adjust Roseville Electric Box to Grade

This item includes the finish grade adjustment and encasement in Portland Cement Concrete of existing pull boxes. Such pull box adjustments shall be constructed in accordance with the plans, the Standard Specifications and these special provisions, and as directed by the Engineer.

Any necessary location ties required to accurately locate items after paving are also included. All mis-cut pavement openings shall be completely reconstructed to match the new pavement in all respects. Concrete is not an acceptable pavement replacement.

Measurement of Adjust Roseville Electric Box to Grade will be the number of such items acceptably adjusted to grade.

The contract unit price paid per each for Adjust Roseville Electric Box to Grade shall include full compensation for all labor, materials, tools, incidentals and equipment required to complete this item of the work, as shown on the plans, as specified in the Standard Specifications and these special provisions and as directed by the Engineer.

Adjust Water Valve Cover to Grade

This item includes the finish grade adjustment and encasement in Portland Cement Concrete of existing water valves. Such valve or monument adjustments shall be constructed in accordance with the plans, the Standard Specifications and these special provisions, and as directed by the Engineer. Any necessary location ties required to accurately locate items after paving are also included. All mis-cut pavement openings shall be completely reconstructed to match the new pavement in all respects. Concrete is not an acceptable pavement replacement.

Measurement of Adjust Water Valve Cover to Grade will be the number of such items acceptably adjusted to grade.

The contract unit price paid per each for Adjust Water Valve Cover to Grade shall include full compensation for all labor, materials, tools, incidentals, and equipment required to complete this item of the work, as shown on the plans, as specified in the Standard Specifications and these special provisions and as directed by the Engineer.

Adjust (Sanitary Sewer) Manhole to Grade

This item includes the finish grade adjustment and encasement in Portland Cement Concrete of existing manholes. Such manhole adjustments shall be constructed in accordance with the plans, the Standard Specifications and these special provisions, and as directed by the Engineer.

Any necessary location ties required to accurately locate items after paving are also included. All mis-cut pavement openings shall be completely reconstructed to match the new pavement in all respects. Concrete is not an acceptable pavement replacement.

Contractor will be required to furnish and install false manhole bottoms in advance of grinding, paving, or other street resurfacing work and removal of false manhole bottom is required after adjustment and inspection. City will require Contractor to ball and flush the entire system to the outfall point for failure to utilize false bottoms while adjusting manholes for grinding, paving, and other street resurfacing work.

Measurement of Adjust Manhole to Grade will be the number of such items acceptably adjusted to grade. The contract unit price paid per each for Adjust Manhole to Grade shall include full compensation for all labor, materials, tools, incidentals and equipment required to complete this item of the work, as shown on the plans, as specified in the Standard Specifications and these special provisions and as directed by the Engineer.

^^

DIVISION III EARTHWORK AND LANDSCAPE

17 GENERAL

Replace the section 17-2.04 with:

Full compensation for all work associated with Clearing and Grubbing, including all tree trimming and vegetation removal within excavation and embankment slope lines and any vegetation that conflicts with the proposed improvements, is considered as included in the lump sum price paid for Clearing and Grubbing and no additional compensation will be allowed therefor.

Tree removal is considered as general clearing and grubbing and will not be paid for separately. Logs, stumps and downed trees are considered as general clearing and grubbing. Prior to removal, all trees must be marked, measured and confirmed with the Engineer.

^^

19 EARTHWORK

Add to the end of section 19-2.02:

In addition to the requirements of Section 19-2 of the State Standard Specifications, the following shall also apply:

The Contractor shall use extra care in excavating unsuitable materials so as not to aggravate the conditions. If, in the opinion of the Engineer, the Contractor's methods and equipment are increasing the amount of unsuitable materials to be excavated, the Engineer will require the Contractor to take necessary steps to correct the situation. Should the problem continue, the Contractor shall pay all costs beginning from the time correction steps were last implemented.

When unsuitable material is removed and disposed of, the resulting space shall be filled with material suitable for the planned use. Unsuitable materials shall be removed from the job site and not incorporated into embankments.

The Contractor shall make provisions to replace all material identified as unsuitable prior to placement of hot mix asphalt. Typical treatment for unsuitable base will include excavation of 12" of material and placement of Class II AB.

The estimated quantity for "Unsuitable Material" is for bidding purposes only and an estimated 50 cubic yards has been included. The quantity can be extended, reduced, or deleted at the discretion of the Engineer, with no change in the unit bid price. If unsuitable material is discovered, the Contractor will notify the Engineer for approval of excavation and backfill. If the Engineer does not approve that the material is unsuitable prior to excavation and backfill, the Contractor will be responsible for the cost of excavation and backfill.

The contract unit price paid per cubic yard for Unsuitable Material shall include full compensation for furnishing all labor, materials, tools, equipment, excavation, rock removal, backfill, aggregate base, compaction, removal and incidentals, and for doing all work involved in constructing Unsuitable Material, complete in place, as shown on the plans, as specified in the State Standard Specifications and these Special Provisions, and as directed by the Engineer and no additional compensation will be allowed therefor.

Add to the end of section 19-2.04:

The contract unit price paid per cubic yard Roadway Excavation shall include full compensation for providing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in performing the work specified in Section 19, "Roadway Excavation" of the Standard Specifications, including but not limited to the roadway excavation in the landscape areas and the removal of dike.

^^

20 LANDSCAPE

Add to section 20-1.01A:

Landscape work must comply with provisions in the latest version of City of Roseville's Parks Construction Standards and Supplement.

Notify the Engineer not less than 72 hours prior to requiring initial access to the existing irrigation controllers. When the Engineer determines that access to the controllers is required at other times, arrangements will be made to provide this access.

Add to section 20-1.01C:

Submit a cost break-down for the contract square foot items of planting and irrigation system. Cost break-down tables must be submitted to the Engineer for approval within 10 working days after the contract has been approved. Cost break-down tables will be approved, in writing, by the Engineer before any partial payment will be made for the applicable items of planting and irrigation system involved.

Cost break-downs must be completed and furnished in the format shown in the samples of the cost break-downs included in this section. Line item descriptions of work shown in the samples are the minimum to be submitted. You may designate additional line item descriptions of work. If you designate additional line item descriptions of work, the quantity, value and amount for those line items must be completed in the same manner as for the unit descriptions shown in the samples. The line items and quantities given in the samples are to show the manner of preparing the cost break-downs.

Determine the quantities required to complete the work shown on the plans. The quantities and their values must be included in the cost break-downs submitted to the Engineer for approval. You are responsible for the accuracy of the quantities and values used in the cost break-downs submitted for approval.

The sum of the amounts for the line items of work listed in each cost break-down table for planting and for irrigation system work must be equal to the contract square foot price bid for Planting and Irrigation System, respectively. Overhead and profit must be included in each individual line item of work listed in a cost break-down table.

No adjustment in compensation will be made in the contract lump sum prices paid for planting and irrigation system due to differences between the quantities shown in the cost break-downs you submit and the quantities required to complete the work as shown on the plans and as specified in these special provisions.

Individual line item values in the approved cost break-down tables will be used to determine partial payments during the progress of the work and as the basis for calculating an adjustment in compensation for the contract lump sum items of planting and irrigation system due to changes in line items of work ordered by the Engineer. When the total of ordered changes to line items of work increases or decreases the lump sum price bid for Planting and Irrigation System by more than 25 percent, the adjustment in compensation for the applicable lump sum item will be determined in the same manner specified for increases and decreases in the total pay quantity of an item of work in Section 4-1.05.

PLANTING COST BREAK-DOWN (SAMPLE)

UNIT DESCRIPTION	UNIT	APPROXIMATE QUANTITY	VALUE	AMOUNT
Turf from Sod	LS			
Shrubs, 1 Gallon	EA			
Soil Amendment, Fertilizer, and Fine Grading	SF			
Mulch	SF			
Plant Establishment	MO			

TOTAL_____

IRRIGATION SYSTEM COST BREAK-DOWN (SAMPLE)

UNIT DESCRIPTION	UNIT	APPROXIMATE QUANTITY	VALUE	AMOUNT
Controller and Pedestal	LS			
Remote Control Valve (Drip Zone Control Kit)	EA			
Subsurface Drip Irrigation	SF			
Valve and Valve Box Relocation	LS			
Miscellaneous Adjustments to Dripline, Spray Heads, Lateral Lines, and Bubblers	LS			

TOTAL_____

Add to section 20-1.01D(1):

Do not apply pesticides before approval from the Engineer.

Delete edits to section 20-1.01D(2) in the RSS and replace the 1st paragraph of section 20-1.01D(2) with:

The Engineer performs a progress inspection at:

1. During pressure testing of the pipelines on the supply side of control valves.
2. Before planting begins and after completion of the work specified for planting in Section 20-3.02C(2).
3. Before plant establishment work begins and after completion of the work specified for planting in Section 20-3.
4. At intervals of one month during the plant establishment period.

Add to section 20-1.02C:

Pesticide used must be limited to the following materials:

1. Aminopyralid
2. Diquat
3. Dithiopyr
4. Clopyralid MEA
5. Fluazifop-P-Butyl
6. Flumioxazin
7. Glyphosate
8. Imazapyr
9. Isoxaben (Preemergent)
10. Oryzalin (Preemergent)
11. Oxyfluorfen (Non-odor type)
12. Pendimethalin (Preemergent)
13. Prodiamine (Preemergent)
14. Sethoxydim
15. Melfluidide (Growth regulator)

Add to section 20-1.03B:

Granular preemergent shall be limited to the following material:

1. Oxadiazon

A minimum of 100 days must elapse between applications of preemergents.

Granular preemergent must be applied prior to the application of mulch. Mulch applications must be completed in these areas on the same working day.

Glyphosate must be used to kill stolon type weeds.

Replace item 1 in the list in the 1st paragraph of section 20-1.03C(1) with:

Removing existing plants including trees as shown to be removed

Add to section 20-2.01A(4)(d):

Tests must demonstrate to the Engineer, through one complete cycle of the irrigation controllers in the automatic mode, that the associated automatic components of the irrigation systems operate properly. If automatic components of the irrigation systems fail a functional test, these components must be repaired at your expense and the testing repeated until satisfactory operation is obtained.

Associated automatic components must include, but not be limited to, remote control valve actuator systems and remote control valves.

Upon completion of work on an irrigation system, including correction of deficiencies and satisfactory functional tests for the systems involved, the plants to be planted in the area watered by the irrigation system may be planted provided the planting areas have been prepared as specified in these special provisions.

Replace section 20-2.01A(4)(e) with:

A final check of existing and new irrigation facilities must be performed not more than 40 working days and not less than 30 working days prior to acceptance of the contract.

Remote control valves connected to existing irrigation controllers must be checked for automatic performance when the controllers are in automatic mode.

Unsatisfactory performance of irrigation facilities installed or modified must be repaired and rechecked at your expense until satisfactory performance is obtained, as determined by the Engineer.

Repair or replacement of existing irrigation facilities due to unsatisfactory performance must conform to section 20-10.02.

Nothing in this section will relieve you the responsibility for making good or repairing defective work or materials found before the formal written acceptance of the entire contract by the Director.

Payment for final irrigation system check is included in the payment for plant establishment work.

Replace the section 20-2.01B(7) with:

Valve boxes must be precast concrete within paved areas and reinforced plastic in all other areas.

Covers for concrete valve boxes shall be concrete.

Covers for plastic valve boxes must be glass fiber reinforced plastic.

Concrete Valve boxes must be identified on the top surface of the covers by stenciling with paint the appropriate abbreviations for the irrigation facilities contained in the valve boxes as shown. Valve boxes that contain remote control valves must be identified by the appropriate letters and numbers (controller and station numbers). The letters and numbers must be 2 inches in height. The stenciling paint must be a commercial quality, epoxy resin base paint of a color which contrasts with the valve box covers.

Valve boxes must be identified on the top surface of the covers by branding the appropriate abbreviations for the irrigation facilities contained in the valve boxes as shown. Valve boxes that contain remote control

valves must be identified by the appropriate letters and numbers (controller and station numbers). The letters and numbers must be 2 inches in height.

Add to section 20-2.04A(1):

Low voltage, as used in this section mean 36 V or less.

Allowance for new irrigation control wires and trenching must comply with the plans shown.

Add to section 20-2.04B:

You may use conductors that are not armor-clad if installed in a conduit.

Low voltage control and neutral conductors in pull boxes and valve boxes, at irrigation controller terminals, and at splices must be marked with adhesive cloth wrap-around markers.

Low voltage control and neutral conductors in pull boxes and valve boxes, at irrigation controller terminals, and at splices must be marked as follows:

1. Conductor terminations and splices must be marked with adhesive backed paper markers or adhesive cloth wrap-around markers, with clear, heat-shrinkable sleeves sealed over the markers.

2. Non-spliced conductors in pull boxes and valve boxes shall be marked with clip-on, "C" shaped, white extruded polyvinyl chloride sleeves. Marker sleeves shall have black, indented legends of uniform depth with transparent overlays over the legends and "chevron" cuts for alignment of 2 or more sleeves

Markers for the control conductors must be identified with the appropriate number or letter designations of irrigation controllers and station numbers. Markers for neutral conductors must be identified with the appropriate number or letter designations of the irrigation controllers.

New control and neutral conductors that are to replace existing control and neutral conductors must be the same size and color as the existing control and neutral conductors being connected to.

The color of low voltage neutral and control conductor insulation, except for the striped portions, must be homogeneous throughout the entire thickness of the insulation.

Insulation for conductors may be UL listed polyethylene conforming to UL44 test standards with a minimum insulation thickness of 41 mils for wire sizes

Replace the 8th paragraph of section 20-2.08B(5) with:

Fittings for irrigation sleeve must be schedule 40.

Add to section 20-2.06B(1)

Irrigation controller, enclosure pedestal, concrete pad, and associated components and incidentals shall be per plans.

Add to section 20-2.08C(1)

Sleeves must extend 6 inches beyond paving. The ends of the sleeve must be capped until use.

Replace the section 20-2.10B(2) with:

Ball valves must be per City Standards.

Ball valves must be of the same size as the pipeline which the valves serve, unless otherwise noted on the plans.

Add to section 20-3.01A(3)(c):

Submit certificate stating quantity, type, and composition, weight and origin for all amendments and chemicals must be delivered to the City's Representative before the material is used on the site.

Add to section 20-3.01A(4):

Request at least two working days in advance the following reviews prior to progressing with the work:

1. Completion of rough grading
2. Verification of amendment incorporation depths
3. Finish grade

Provide one-quart sample of proposed amendment to Sunland Analytical Lab Inc. (916)852-8557, for their testing for conformance to this specification. Do not deliver materials to the site until the City's Representative approves the samples. You are responsible for the testing costs.

Add to section 20-3.01B(3):

Organic Amendment must be determined from soils analysis results. For purposes of bidding only, assume the use of nitrogen-treated fir bark conforming to:

1. Physical Properties: 95% - 100% passing, sieve size 6.35 mm (1/4 inch), 80%-100% passing, sieve size 2.38mm (No. 8, 8 mesh), and 0%-30% passing, sieve size 500 micron (no. 35, 32 mesh).
2. Chemical Properties: Nitrogen Content (dry weight basis), 0.4%-0.6% iron content, minimum 0.08% dilute acid soluble Fe on dry weight basis, soluble salts, maximum 3.5 millimhos/centime @ 25 degree C. as determined by saturation extract method; ash – 6.0%.

Add to section 20-3.01B(4)(a):

Fertilizer must be determined from soils analysis results. For purposes of bidding only, assume the use of 6-20-20 commercial fertilizer and iron sulfate.

Add to section 20-3.01C(1):

Organic amendment and fertilizer incorporation: Materials determined from the soils test must be uniformly distributed throughout all irrigated planting areas and incorporated to a homogeneously blended soil depth of six inches. For purposes of bidding only, assume per 1000 square feet:

6 cubic yards nitrogen stabilized organic amendment
30 pounds commercial fertilizer (6-20-20)
10 pounds iron sulfate

Apply iron sulfate cautiously, and avoid contact with concrete, since permanent staining may result. Any such stained concrete must be replaced at Contractor's expense.

Plant pits must have their sides and bottoms loosened or otherwise broken to prevent glazed or compacted surfaces, and must be as shown on the planting detail.

Only un-amended soil must be used beneath the root ball; cultivate bottom of plant pit to improve porosity. Backfill around sides of root ball must be the amended soil taken from adjacent prepared areas.

Spread material excavated from plant pits onto adjacent areas as replacement. If additional back fill be necessary, a mixture of one-third organic amendment/fertilizer mix and two-thirds topsoil may be used.

All container plants shall receive plant tablets as follows:

One-gallon and Two-gallon plants	Two 21-gram tablets
Five-gallon plants	Five 21-gram tablets
Fifteen-gallon plants	Twelve 21-gram tablets

Space the tablets evenly around the root ball halfway up backfill touching side of root ball. City's Representative may require excavation of up to 5 percent of all plants selected at random for conformance review.

Finish grade all irrigated planting areas unless otherwise noted, and remove all rocks and clods over one cubic inch to a depth of one inch below finish grade. All areas must be smooth and uniformly graded. Repair all erosion damage during the construction period.

Unless otherwise noted, all soil finish grades must be one inch below finish grade of walks, pavements, and curbs.

Add to section 20-3.02A:

Request the following reviews prior to progressing with the work:

1. Finish grade
2. Substantial completion
3. Final completion

Replace Not Used in section 20-3.02B with:

Plant botanical names must conform to "Standardized Plant Names", second edition, and secondly, "A Checklist of Woody Ornamental Plants of California", Manual 32, University of California. All plants of each clone, species, and cultivar must be delivered to the site labeled with their full botanical names. Every plant species must be labeled with no less than one label for every ten plants of a species.

Minimum quality of all plant material must conform to prevailing published specifications of the California Association of Nurserymen and the American Association of Nurserymen's American Standard for Nursery Stock unless otherwise indicated. Additional specifications must be indicated on the drawings.

The quantities shown on the plant list and in labels are for the City's Representative's use and are not to be construed as the complete and accurate limits of the contract. Furnish and install all plants shown schematically on the drawings.

All container-grown stock shall be grown in its container for at least six months prior to its planting. Contractor shall allow one percent of the quantity of plants for removal and inspection. Any plant material, within one year following the final acceptance of the project, determined by the City's Representative to be defective, restricted, declining or otherwise deficient due to abnormal root growth, shall be replaced by Contractor to the equal condition of adjacent plants at the time of replacement.

Turf from sod shall be minimum 95% purity and 85% germination. Inert matter shall not exceed 2.0% nor weed content 0.00%, with no noxious weeds. Sod type shall be as indicated on the drawings. Sod shall have a well-developed root structure sufficiently mature so that it will hold together when held by one end of the roll. Yellowing, brown, diseased, dried, or pest infested sod shall be rejected. Soil thickness of the sod shall be 1/4 inch to 5/8 inch thick excluding top-growth and thatch; top-growth shall be uniformly mowed to 1-1/2 inch to 2 inches for bluegrasses and ryegrasses with excess clippings and surface debris removed; size of rolls or slabs shall be consistent to the suppliers standard length and width and is not to vary by more than 2% in either dimension.

Foliage roots and stems of all plants shall be of vigorous health and normal habit of growth for its species. All plants shall be free of all diseases, insect stages, burns, or disfiguring characteristics.

Before planting operations commence all or a representative sampling of plant material will be reviewed at the site by the City's Representative. Remove defective plants installed without such review from the site upon request by the City's Representative and substitute acceptable plant in its place.

Add to section 20-3.02C(1):

Before planting operations commence, all or a representative sampling of plant material shall be reviewed at the site by the City's Representative. Defective plants installed without such review shall be removed from the site upon request by the City's Representative and an acceptable plant substituted in its place.

Locations of all plants must be reviewed prior to planting

Maintain all plant material in a healthy growing condition prior to and during planting operations. You are responsible for vandalism, theft and damage to plant material until the commencement of the maintenance period.

Contractor shall be responsible for inspection of all root systems on plant materials. Inspection shall include, but not be limited to, checking for rootbound stock, encircling roots at the perimeter of the container, girdling roots at the top surface of the rootball, and other defective root conditions. Such inspections shall include the complete removal of soil from one percent of plant material containers, or at least one plant from each nursery and each plant type. Contractor shall cut defective or potentially defective girdling, rootbound, and encircling roots and spread the root system into the surrounding backfill. Plants with excessively defective root systems shall be rejected by the Contractor.

Sod installation: Finish grade to smooth even surface allowing for sod thickness at pavement and other structures to leave the sod one-half inch below the finish grade of adjacent structures. The soil surface shall be sufficiently firm to resist impressions over one-quarter inch deep, and shall be lightly rolled until meeting this firmness. The top six to eight inches of soil shall be watered until this zone has an optimum moisture content for root growth.

Sod shall be laid in rows with staggered ends neatly and tightly butted on all edges. Sod shall be protected from wind and sun exposure during storage with a maximum storage period of twenty-four hours. No overlap, gaps, ripples, or other uneven pavement will be accepted. Contractor shall lightly roll all sod after installation to insure optimum contact with the soil. Trimming and cutting around structures shall be completed with sharp tools and carefully fitted so the final appearance is a solid continuous turf.

Remove all trash, excess soil and other debris after completion of all operations. All walks and pavement must be swept and washed clean, leaving the entire area in a neat, orderly condition.

Add to the end of 4th paragraph of section 20-3.02C(3)(d)(ii):

Provide the Engineer with a copy of the instructions before applying the stimulant.

Replace 1st and 2nd paragraphs of section 20-3.02D with:

All work associated with soil amendment, fertilizer, and fine grading shall be included in the lump sum price bid for landscape soil preparation and shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in soil amendment, fertilizer, and fine grading, and related incidental work.

Add to Section 20-4.01A:

Section 20-4 includes specifications for performing plant establishment work. The plant establishment period must not be less than 90 calendar days commencing from date of completion of contract work.

Add to Section 20-4.01C(1):

Submit watering schedule for use during the plant establishment period within 10 days after the start of the plant establishment period.

Contractor shall collect two one-quart samples in the container planting areas of the in-place topsoil 20 days after completion of planting and submit to Sunland Analytical, (916) 853-8557, for maintenance period fertilizer recommendation. Test results shall be made available to the City's Representative. Sample shall be a representative composite taken from several planting areas. Cost of soil test shall be paid for by the Contractor. For purposes of bidding only, assume the use of ammonium sulfate (21-0-0) at 5lbs per 1,000 SF, minimum two applications.

Add to Section 20-4.01D:

Request a final review of the project at least five (5) days in advance of the proposed date. Failure to request this notice will automatically extend the date of completion. The maintenance period will continue until project is deemed complete.

Add to Section 20-4.03B:

Keep all planting areas weed-free at all times during the maintenance period. All pest and disease control will be your responsibility. Keep all planting areas at optimum moisture for plant growth. Settlement of soil and plants and soil erosion will be repaired, and areas replanted as required. Replace dying or deficient plants as soon as they become apparent.

Control weeds within plant basins, including basin walls and ground cover, by hand pulling. Weeds within mulched and ground cover areas and outside of plant basins must be controlled by killing.

When ordered by the Engineer, one application of a preemergent pesticide conforming to section 20-1.02C, must be applied between 40 working days and 50 working days prior to completion of the plant establishment period. This work will be paid for as extra work as provided in Section 4-1.05

Add to Section 20-4.03C:

Water the plants utilizing the City's central irrigation control system, where applicable.

Add to section 20-10.02A(1):

Maintain existing irrigation facilities throughout the life of the contract. Before the start of maintaining existing irrigation facilities work, the facilities must be checked for proper operation, and repaired in conformance. Document the condition of existing irrigation facilities. Repair work ordered by the Engineer will be paid for as extra work per these specifications.

Add to the end of 5th paragraph of section 20-10.02C(3):

During winter season, irrigation systems must be operated automatically a minimum of 2 minutes every 2 weeks.

Add to section 20-10.02C(4):

Existing irrigation valves, and controller (and associated pedestal), where shown on the plans to be removed, must be salvaged.

Notify the Engineer in writing if you intend to salvage existing irrigation facilities a minimum of 72 hours prior to salvaging these facilities. Salvaged irrigation facilities must remain the property of the City and must be delivered to City's Representative.

Add to section 20-10.03A(1):

Maintain existing planted areas throughout the life of the contract.

Water existing plants per section 20-4.03G.

Delete the first paragraph of section 20-10.03C(4)

Add to the end of the 2nd paragraph of section 20-10.03C(4):

The work must include:

1. Weeds must be killed before the weeds reach the seed stage of growth or exceed 6 inches in length
2. Weeds must be removed from existing planted areas. Weeds must be killed prior to removal. Weed removal in ground cover areas shall extend beyond the outer limits of ground cover areas to the adjacent edges of paving, fences and proposed plants and planting areas, and a 6-foot diameter area centered at each existing tree and shrub outside of existing ground cover areas.
3. When a portion of a new automatic irrigation system is completed, the existing plants to be watered by that portion of the irrigation system shall be watered automatically.
4. Pesticides for maintaining existing planted areas must conform to section 20-1.02C.

^^

21 EROSION CONTROL

Add to section 21-2.02C:

Import topsoil shall be a homogeneous mineral soil classified as sandy loam, or fine sand. Particle size data shall be based upon standard USDA methodology. Of the material falling in the sand category, a minimum of 80% shall fall in the fine sand range .05 - 5mm. Gravel content greater than 2.0mm shall be less than 15%. Import topsoil shall not contain more silt and clay than the on-site native soil. The sum of silt plus clay shall be less than 25%; the soil shall be nonsaline as determined on the saturation extract. Salinity shall not exceed 3.0 mmhos/cm, boron shall not exceed 1.0 ppm and the sodium absorption ratio (SAR) shall not exceed 6.0. Soil reaction as determined on a saturated paste shall fall between 5.5 and 7.5. The soil shall be free of organic herbicides, or other growth-restricting chemicals. Contamination may be tested by greenhouse trials using rye grass and radish as test crops using the proposed import soil as substrate. These trials require four to five weeks for completion.

Add to section 21-2.02:

21-2.02S Native Topsoil

Provide a one-quart sample of native topsoil to Sunland Analytical (916)852-8557, for testing for conformance to this specification. No material will be modified until the City's Representative approves the material. You are responsible for all testing costs. Allow for sufficient time for such testing prior to construction. You are responsible for testing costs for the initial samples and costs for any additional sample due to non-compliance,

Placement of native topsoil must comply with section 20-1.03D.

After planting areas have been excavated, they must be ripped to a depth of seven inches. Next, a three-inch layer of topsoil must be uniformly distributed over these areas and thoroughly incorporated into the top six inches of subsoil by ripping, scraping, or tilling to mix the subsoil with the topsoil into a homogeneous mixture. The remaining layer of topsoil will then be uniformly distributed in the planting areas and compacted in place to 85 percent compaction. The total depth of topsoil to be placed must be as required to achieve the finish grades shown on the plans.

Spread topsoil to a uniform thickness.

^^

DIVISION V SURFACINGS AND PAVEMENTS

39 ASPHALT CONCRETE

Add to section 39-2.01A:

Asphalt concrete pavement shall be Hot Mix Asphalt (Type A) and conform to the applicable provisions in Section 71, “Streets” of the City of Roseville’s Construction Standards and Section 39 of the State Standard Specifications.

In addition to the requirements specified in this section of the State Standard Specifications, the following shall apply: The cost for grading and compaction of existing aggregate base material, where shown on the plans, profiles, and cross sections, shall be included within the price paid for placement of Hot Mix Asphalt (Type A).

Replace *Reserved* in section 39-2.02B(3):

The grade of asphalt binder for Type A HMA must be Type PG-64-10 or Type PG 64-16.

^^

^^

DIVISION VI STRUCTURES

51 CONCRETE STRUCTURES

Add to the list in the 2nd paragraph of section 51-1.01A:

8. Drainage inlets

Add to section 51-1.01A:

The concrete for stamped concrete must be integrally pigmented colored concrete. The color must match color no. Davis Style Tile Red #1117, or Scofield Systems Chromix Quarry Red, or as approved equal.

Add to the list in the 6th paragraph of section 51-1.01A:

7. Drainage inlets

Add to section 51-1.01A:

Drop inlet (Type F) must comply with City of Roseville Design Standards DR-1, DR-9, and DR-20, and section 101 of City of Roseville Construction Standards.

Iron and steel items used for inlet metal plate cover, frame and grate must comply with section 75-2.

Replace section 51-7.01A with:

51-7.01A GENERAL

Section 51-7 includes specifications for constructing minor structures.

Minor structures include:

1. Pipe culvert headwalls and endwalls for a pipe with a diameter less than 5 feet
2. Drainage inlet per City of Roseville Standards
3. Other structures described as minor structure

Replace section 51-7.01D with:

The price per each shall include all work and materials necessary to furnish and install inlets and manholes as detailed in the Specifications, Plans, and as directed by the Engineer. The price shall be full compensation for installing inlets and manholes, complete in place, including all excavation, backfill, metal frames, covers, frames, grates, and any other miscellaneous metal.

The PER EACH price for “Drain Inlet (Type F)”, “Drain Inlet (Type G1)” shall be full compensation for all labor, equipment, tools, and incidentals to complete each item.

^^^

52 REINFORCEMENT

Add to section 52-1.04:

Payment for steel reinforcement used for various types of drainage inlets is included in the payment for various types of drainage inlets involved.

Payment for steel reinforcement used for drainage manhole is included in the payment for drainage manhole.

^^^^^^^^^^^^^^^^^^^

Add to section 70-5.05A:

Drainage inlet markers for City of Roseville drop inlet (Type F) must comply with City of Roseville Standard Detail DR-20 and section 101 of City of Roseville Construction Standards.

Replace Not Used in section 70-5.05D with:

Payment for drainage inlet marker is included in the payment for type of drainage/drop inlet involved.

^^

DIVISION VIII MISCELLANEOUS CONSTRUCTION

72 SLOPE PROTECTION

Add to the end of section 72-2.04:

Excavation, backfill, Rock Slope Protection (RSP) and RSP Fabric (Class 8) are included in the bid item of "Rock Slope Protection (20 lb, Class 1, Method B)."

73 CONCRETE CURBS AND SIDEWALKS

Add to section 73-1.02A:

Concrete must be minor concrete complying with section 90-2 and may contain returned plastic concrete complying with section 90-9.

Replace *Not Used* in section 73-2.04 with:

Payment for the Concrete Slurry Wall is included in the bid item of “Minor Concrete (Type 4 Barrier Curb)”.

Add to section 73-3.03A:

The sidewalk shall be built in compliance with City Standard 6” of PCC over native soil.

Add to section 73-3.01C:

Within 2 business days of completing the surveys, submit preconstruction and post-construction surveys sealed and signed by one of the following:

1. Land surveyor licensed in the State
2. Engineer who is registered as a civil engineer in the State

Replace *Reserved* in section 73-3.01D(3) with:

For locations shown, perform a preconstruction survey to ensure forms and job site constraints will allow for compliance with required design dimensions and slopes shown. Upon completing the work, perform a post-construction survey to verify design dimensions and slopes requirements are met. The post-construction survey must include a minimum of 3 measurements for each dimension and slope requirement shown. Individual measurements must be equally distributed across the specified slope or dimensional surface. Document and submit these measurements on the Americans with Disabilities Act Compliance Inspection Report form for the facility type shown. Include the equipment and control used to conduct the survey.

Add to the beginning of section 73-3.03:

Before placing concrete, verify that forms and job site constraints allow the required dimensioning and slopes shown. Immediately notify the Engineer if you encounter job site conditions that will not accommodate the design details. Ordered modifications are change order work.

Replace *Not Used* in section 73-3.04 with:

All associated elements such as landings, transitions to adjacent surfaces, detectable warning surfaces and retaining curbs are included in the payment for Minor Concrete (Curb Ramp). Curb and gutter is paid for as Minor Concrete (Type 2 Curb and Gutter).

Measurement shall include all associated elements such as detectable warning surfaces, grading, saw cutting, and transitions to adjacent surfaces.

^^

75 MISCELLANEOUS METAL

Add to section 75-2.01:

Miscellaneous iron and steel includes drainage inlet metal plate cover, frame and grate, and manhole frame and cover.

Drainage frame and grate for Drop Inlet (Type F) must comply with City of Roseville Standard Detail DR-9 and section 101 of City of Roseville Construction Standards.

Drainage manhole frame and cover for Drainage Manhole must comply with City of Roseville Detail DR-6 and section 101 of City of Roseville Construction Standards.

Replace section 75-2.04 with:

Payments for metal plate cover, frame and grate, and manhole frame and cover are included in the payments for various types of drainage inlets, manholes, and miscellaneous drainage facilities including area drains.

^^

79 WATER DISTRIBUTION SYSTEM

79-1 POTABLE WATER PIPE

79-1.01 GENERAL

Section 79-1 includes general specifications for the water distribution system.

79-1.01A Summary

This work shall consist of furnishing and installing 8-inch potable water pipe. This work shall be in conformance with the current City of Roseville Design Standards, Section 8 and City of Roseville Construction Standards, Section 81. Installing potable water pipe includes excavation, backfill, fittings, earthwork, and connection of new pipe to new or existing facilities.

Smaller piping for water services shall comply with requirements elsewhere in these Specifications.

Pressure testing and chlorine disinfection shall comply with requirements elsewhere in these Specifications.

79-1.01B Definitions

Not Used

79-1.01C Submittals

The Contractor shall provide a materials list and catalog data sheets naming each product to be used identified by manufacturer and type number.

The Contractor shall submit a pipe lay diagram for all piping larger than 4 inches installed as part of this project.

79-1.01D Quality Assurance

Contractor shall submit quality assurance plan for water distribution system work to the City.

79-1.02 MATERIALS

79-1.02A Ductile Iron Pipe

Ductile iron pipe shall conform to the City of Roseville Design Standards, Section 8 and the City of Roseville Construction Standards, Section 81.

Pipe shall conform to American Water Works Association (AWWA) C150 and AWWA C151 as appropriate. Flanged pipe shall conform to AWWA C115.

Buried ductile iron pipe shall be wrapped in 8 mil minimum thickness polyethylene encasement with ends taped off with vinyl pipe wrap tape in accordance with AWWA C105.

79-1.02C Fittings

Unless otherwise specified or shown on the project plans, all fittings to be used with ductile iron pressure pipe shall conform to the standard for “Ductile-Iron Compact Fittings for Water and Other Liquids” (ANSI/AWWA C-153/A21.53). Approved fitting manufacturers include Tyler and US Pipe. All fittings shall be made in USA.

a) Ductile iron fittings shall be cement mortar lined in accordance with the standard for “Cement Mortar Lining for Ductile-Iron Pipe and Fittings for Water” (ANSI/AWWA C-104/A21.4 and AWWA C-110) and manufacturer’s recommendations.

b) Fittings shall be wrapped and sealed in clear polyethylene encasement in accordance with the City of Roseville Construction Standards.

79-1.02B Pipe Restraints

Thrust blocks shall be used where specified on the Plans. Ductile iron pipe installed as part of this project shall be fully restrained. Joint restraint shall be achieved by means of a mechanical joint restraint device per Section 8 of the City of Roseville Design Standards.

79-1.02C Tracing Wire

A continuous number 12 insulated tracing wire shall be attached to mains, service lines, and appurtenances per the City of Roseville Construction Standard Details and the following:

1. Tracing wire through valve boxes shall be placed outside of riser, but inside the box.

2. Wire splices shall be located above ground and inside of valve boxes, per City Standard Details W-16, W-17, and as follows:

    a. Install a copper split bolt connector on the splice.

    b. Twist the wire together with a minimum of 5 twists.

    c. Solder all connections.

d. Cover the splice with mastic tape and wrap with vinyl tape.

3. A 12-inch wide, blue plastic non-detectable water pipe marking tape, marked “Buried Water Main Below,” shall be placed in all main line trenches, 12 to 24 inches from the surface.

79-1.03 CONSTRUCTION

1. Contractor shall coordinate tie ins and planned service interruptions for impacted businesses to outside the businesses normal operating hours where they require water service. This will require work outside normal working hours.
2. Ductile pipe installation shall be in accordance with Section 81 of the City of Roseville Construction Standards and the Specifications herein.
3. Bell and Spigot Ductile Iron Pipe. Where bell and spigot joints are used for joining ductile iron pipe, the joints shall be made using rubber rings, US "Tyton", Clow "Super Bell Tite" joint, or approved equal. Gasket seat, gasket, and spigot shall be thoroughly cleaned before assembly of joint. The entire procedure shall be in strict accordance with manufacturer's recommendations.
4. Mechanical Joint Ductile Iron Pipe. Mechanical joints in ductile iron pipe shall be made as follows: Gland shall be placed on spigot end of pipe with lip extension toward the joint. The rubber gasket shall then be slipped on the pipe with its thick edge toward the gland. The gasket and joint surfaces shall then be thoroughly wetted using a soapy solution made with vegetable soap or similar soap as recommended by the manufacturer. The spigot end of the pipe shall then be inserted to full depth of the mechanical joint socket and the gasket pressed firmly into place in the bell in order to obtain an even "set" all around the joint. The gland shall then be moved into place, the bolts inserted, and the nuts taken up tightly with fingers. The nuts shall then be tightened gradually by wrench a half turn at a time, moving wrench from one nut to another repeating until all nuts are uniformly tight. Final tightness shall be with a torque wrench as follows: three quarter inch bolts 60 to 90 pounds torque, half inch bolts 10 to 30 pounds torque.
5. Flanged Pipe. Flanged joints shall be made up square, with even pressure on the gaskets, and shall be watertight.
6. Grooved Coupling. Grooved couplings shall be prepared or painted as necessary to obtain a leak free seal.

79-1.04 PAYMENT

The price per linear foot shall include all work and materials necessary to furnish and install 8-inch, ductile iron pipe as detailed in the Specifications, Plans, and as directed by the Engineer. The price shall be full compensation for furnishing and installation of pipe, trenching, excavation, backfill, compaction, surface restoration, fittings, restraints, temporary plating, and tie-ins.

The PER LINEAR FOOT price for “Install 8-inch Ductile Iron Pipe” shall be full compensation for all labor, equipment, tools, and incidentals to complete each item.

79-2 VALVES AND APPURTENANCES

79-2.01 GENERAL

This work shall consist of furnishing and installing gate valves and related appurtenances.

79-2.02 SUBMITTALS

Submit materials list and catalog data sheets naming each product to be used identified by manufacturer and type number.

Submit Operations and Maintenance Manuals for approval for all valves.

79-2.03 MATERIALS

Valves shall be in conformance with American Water Works Association (AWWA) C500 and C509, as appropriate. Materials and installation shall comply with Section 81 of the City of Roseville Construction Standards.

Gate valves to be used on pipe diameters ranged from 3-inch to 12-inch shall be resilient seated or wedge type and meet AWWA C509 Class C Specifications. The gate valve body, bonnet, and O-ring plate shall be fusion-bonded epoxy coated, both interior and exterior on body and bonnet. Epoxy shall be applied in accordance with AWWA C550 and be NSF 61 Certified. A list of approved gate valves includes: M&H 4067 RW Gate Valve, Mueller A-2360 RS Gate Valve, US Pipe-Metro Seal 250, or approved equal. All gate valves shall be made in USA.

Materials such as valve boxes, valve covers, concrete blocking, riser stock, valve lock-out, nuts and bolts, and any other materials necessary for the installation of valves and appurtenances shall conform to Section 8 “Domestic Water Supply System” of the City of Roseville Design Standards.

Pipe tapping sleeve shall be Romac FTS425 or approved equal.

Minor Concrete (Concrete Pad) shall comply with City of Roseville detail W-2.

79-2.04 PAYMENT

The price per each shall include all work and materials necessary to furnish and install valves and appurtenances as detailed in the Specifications, Plans, and as directed by the Engineer. The price shall be full compensation for installing valves, complete in place, including all excavation, backfill, valve boxes, valve covers, concrete blocking, concrete collar, riser stock, operating nut extension, valve lock-out, fittings, nuts and bolts, and any necessary pavement or landscape restoration.

The PER EACH price for “Install 8-inch Gate Valve” and “Install 12-inch Gate Valve” shall be full compensation for all labor, equipment, tools, and incidentals to complete each item.

79-3 FIRE PROTECTION

Not used

79-4 WATER SERVICES AND METERS

79-4.01 GENERAL

This work shall consist of installing new domestic and irrigation water services, meters, and related appurtenances.

Pressure testing and chlorine disinfection shall comply with Section 79-5 of these Specifications.

79-4.02 SUBMITTALS

The Contractor shall provide a materials list and catalog data sheets naming each product to be used identified by manufacturer and type number.

79-4.03 MATERIALS

Domestic and irrigation water services shall be 2" diameter brass piping, in conformance with American Society for Testing and Materials (ASTM) B43 Standard Specification for Seamless Red Brass Pipe, Standard Sizes.

Materials such as brass materials, corporation stops, curb stops, dielectric tape, meters, meter setters, meter couplings, nuts and bolts, polyvinyl chloride (PVC) pressure pipe service saddles, service boxes,

services and meters shall conform to Section 8 of the City of Roseville Design Standards, Section 81 of the City of Roseville Construction Standards, and AWWA Standard C800 Underground Service Line Valves and Fittings.

Water meters shall be installed per American Water Works Association (AWWA) Manual M6 and the City of Roseville Construction Standards, Section 81. Water service lines and appurtenances shall be installed per City of Roseville Construction Standards, Section 81.

Buried metal pipe shall be wrapped in 8 mil minimum thickness polyethylene encasement with ends taped off with vinyl pipe wrap tape.

79-4.04 PAYMENT

The price per each shall include all work and materials necessary to furnish and install 2-inch water service pipe, water service meters, and appurtenances as detailed in the Specifications, Plans, and as directed by the Engineer. The price shall be full compensation for furnishing and installation of pipe, meter boxes, meter setters, freeze protection bag, corporation stops, trenching, excavation, backfill, compaction, surface restoration, fittings, restraints, temporary plating, tie-ins, and other appurtenances related to water service pipe and meter box installation.

The PER EACH price for “Install 2-inch Water Service” shall be full compensation for all labor, equipment, tools, and incidentals to complete this item.

79-5 PRESSURE TESTING AND PIPE DISINFECTION

79-5.01 GENERAL

This work shall consist of pressure testing new water pipes and disinfecting new potable water pipes.

Inspection and hydrostatic pressure testing of installed ductile iron pipe shall comply with American Water Works Association (AWWA) Standard C600 for Installation of Ductile-Iron Mains and Their Appurtenances.

Chlorine disinfection shall comply with the AWWA Standard C651 for Disinfecting Water Mains and Section 81 of the City of Roseville Domestic Water Supply System Design Standards.

79-5.02 SUBMITTALS

An accuracy certification by approved independent testing laboratories for flow meters and test gauges shall be submitted to the Engineer. Certifications shall be dated no more than 90 days prior to actual system testing.

Prior to testing, Contractor shall provide the following information:

1. Describe precautions that will be taken to protect system equipment that might be damaged under test pressures, and the proposed method for rerouting reclaimed water or sewer flows where the systems must remain in service.

2. Describe the proposed method for disposal of water used in line testing.

3. Submit test bulkhead locations and design calculations, pipe attachment details, and methods to prevent excessive pipe wall stresses.

Prior to disinfection, Contractor shall provide the following information:

1. Testing Schedule and Notification of Disinfection: Submit advance written notice a minimum of 72 hours prior to conducting pipe disinfection.

Testing Plan: Submit a written plan that identifies the methods for water disinfection in compliance with AWWA C651

79-5.03 MATERIALS

79-5.03A MANUAL AIR RELEASE VALVES FOR BURIED PIPING

Provide temporary manual air release valves for pipeline test. Construct the pipe outlet in the same manner as for a permanent air valve and after use, seal with a blind flange, pipe cap, or plug and coat the same as adjacent pipe.

79-5.04 TEST BULKHEADS

Design and fabricate test bulkheads per Section VIII of the American Society of Mechanical Engineers (ASME) Boiler and Pressure Vessel Code. Materials shall comply with Part UCS of said code. Design pressure shall be at least 2.0 times the specified test pressure for the section of pipe containing the bulkhead. Limit stresses to 70% of yield strength of the bulkhead material at the bulkhead design pressure. Include air release and water drainage connections.

79-5.05 PROJECT CONDITIONS

Pressure testing shall not be performed until each system has been flushed or thoroughly cleaned in accordance with procedures in the section that describes pipeline installation.

Water for flushing and testing shall be provided by the City. The Contractor shall obtain a hydrant permit from the City and pay all costs associated with the meter use. The Contractor shall provide all necessary labor and equipment to extra the water and shall be responsible for the repair of any damage to the existing facilities which can be attributed to this operation.

79-5.06 DISINFECTION REQUIREMENTS

Contractor shall furnish personnel, materials, bulkheads, test plugs, restraints, anchors, temporary connections, pumps, pressure gauges, and other equipment needed to perform disinfection.

Regarding water for disinfection, the Contractor shall:

1. Use potable water for disinfection of pipelines.

2. Coordinate with Construction Manager for specific points from which to draw water.

3. Supply and install all pipe, fittings, valves, coupling, and other materials needed to fill the test lines with water. Care shall be taken not to contaminate the existing system.

4. Supply pipe connection and all necessary apparatus and equipment needed for the test.

Contractor shall disinfect all portions of the pipe that have been installed as part of this Contract and installed by others to be included within the finished pipeline. Disinfection shall occur in all new pipe sections prior to making final connection to existing active operating piping.

79-5.07 PRESSURE TESTING

79-5.07A GENERAL

Perform testing in the presence of the Engineer/Inspector after backfill and proper compaction of trenches. Where lines are installed under roadways and parking areas, perform tests before and after completion of final subgrade preparation and prior to application of surface courses. Notify Engineer in writing at least 48 hours prior to testing. Notification shall be by the Contractor submitting a test form which shall indicate test date, pipeline to be tested, test requirements, and requirements of the Owner.

Prepare each section for testing, using adequate bracing; protect system equipment susceptible to damage by test pressures; make provision for installation of Owner’s pressure gauge in parallel with

Contractor’s gauge, if so requested; and maintain services where required.

Testing requirements are stipulated in the AWWA M41 Manual, assorted AWWA Standards based on the various types of piping, and specified herein. Requirements in the AWWA M41 Manual and Standards supersede other requirements of Contract Documents, except where requirements of Contract Documents are more stringent, including higher test pressures, longer test times, and lower leakage allowances.

79-5.07B TESTING PROCEDURE

1. After completion of the installations, Contractor shall test all piping and pipework as herein specified. The Contractor shall furnish all material, equipment, and labor for testing the piping systems. Each system may be tested as a unit or in sections as directed by the Engineer, but each complete system shall successfully meet the requirements specified herein before acceptance by the Engineer.

2. Clean piping before pressure or leak tests.

3. For water testing, the test shall be made by closing valves or providing bulkheads or plugs and filling the pipelines with water, with provisions made for the release of all air in the lines. Lines shall be filled with water 24 hours prior to testing for leakage to allow for absorption of water by pipe or joint material.

4. Specified pressures or heads of water shall be maintained for the periods of time tabulated herein, except where indicated to be air or vacuum, and the leakage determined. Leakage shall not exceed the tabulated values.

5. Test pressures shall be as indicated herein and by the City. The pressure shall be maintained at all times during the test by restoring it whenever it falls an amount of 5 psi for test pressures above 20 psi and 2 psi for test pressures below 20 psi.

6. No leakage is allowed. If leakage is detected, the Contractor shall repair or replace the pipeline and retest it. Do not use paints, asphalts, tars, or other type of pipe compounds to eliminate leaks.

7. The Contractor shall take all necessary precautions to prevent any joints from drawing while the pipelines and their appurtenances are being tested and he shall, at his own expense, repair any damage to the pipes and their appurtenances, or to any other structures, resulting from or caused by these tests.

8. Where any section of the piping contains concrete thrust blocks or encasement, wait at least 10 days after the pour to begin testing.

9. After a satisfactory test, remove the testing fluid, remove test bulkheads and other test facilities, and restore the pipe coatings.

79-5.07C RECORDS

Provide records of each piping installation during the testing. These records shall include:

1. Date of test.

2. Identification of pipeline, or pipeline section, tested or retested.

3. Identification of pipe material.

4. Identification of pipe specification.

5. Test fluid.

6. Test pressure.

7. Remarks: Leaks identified (type and location), types of repairs, or corrections made.

8. Certification by Contractor that the leakage rate measured conformed to the specifications.

79-5.08 PIPELINE DISINFECTION

79-5.08A GENERAL

Pipe disinfection shall be in accordance with the most recent edition of AWWA C651.

Following chlorination, thoroughly flush all treated water from the mains until the replacement water, upon both chemical and biological tests, is proved equal to the water quality at the point of supply. All bacteriological tests shall be in accordance with AWWA “Standard Methods for the Examination of Water and Wastewater”.

Disposal of chlorinated water is not allowed. Dechlorinate all water prior to disposal as reviewed by the Engineer.

79-5.08B DISINFECTION PROCEDURE

1. Disinfect the newly installed potable water pipelines by the use of calcium hypochlorite tablets or the slug method in accordance with AWWA C651. Disinfection inspections shall begin only after passing the pressure test.

2. The Tablet Method consists of placing calcium hypochlorite granules and tablets in a device that prohibits their entry into the pipe, then inserting the device with the tablets into the pipe as it is being installed and filling the water main with potable water when the installation is completed. This method may be used only if the pipes and appurtenances are kept clean and dry during construction. This method cannot be used on solvent-welded plastic or on screwed-joint steel pipe because of the danger of fire or explosion from the reaction of the joint compounds with the calcium hypochlorite.

3. Position valves so that the strong chlorine solution in the treated main will not flow into water mains in active service. Open and close valves and hydrants while the system is being disinfected. The City shall verify that a minimum chlorine residual of 50 parts per million (ppm) has been achieved. Retain treated water at least 24 hours after which time it shall be tested for residual chlorine. If less than 25 parts per million is indicated, additional chlorine in solution shall be added until disinfection satisfactory to the Engineer is obtained.

4. Flush and fill the system with clear water when disinfection has been completed and approved by the Engineer. Chlorinated water shall be neutralized to 1 ppm chlorine residual or less prior to discharge. Discharge location and neutralization methods shall be coordinated with and approved by the City. 72-hour notification to the City is required prior to any discharge of chlorinated water.

5. Chlorinated water resulting from flushing newly installed water lines may be discharged to the City’s sewer system. Permission to discharge chlorinated water into the sewer system shall be granted by the City on a case-by-case basis. Prior to discharging into the sewer system, the Contractor shall sign a form authorizing the City’s Environmental Utilities Department to bill for the amount of water discharged into the system. Contractor shall adhere to terms of hydrant permit acquired by the City.

6. A bacteriological test will be performed after refilling the line and, if not found to be of safe bacteriological quality, Contractor will re-chlorinate the line until the quality of the water is proven to be satisfactory at no additional expense to the City.

7. Where connections are to be made to an existing potable water system, the interior surfaces of all

pipe and fittings used in making the connections shall be swabbed or sprayed with a one percent hypochlorite solution before they are installed. Start thorough flushing as soon as the connection is completed continue until all discolored water is eliminated.

79-5.09 PAYMENT

The lump sum amount shall include all work and materials necessary to perform pressure testing and pipeline disinfection as detailed in the Specifications, Plans, and as directed by the Engineer.

The LUMP SUM price for “Pressure Testing and Pipeline Disinfection” shall be full compensation for all labor, equipment, tools, and incidentals to complete this item.

80 FENCES

Replace section 80-4 with:

80-4 DECORATIVE STEEL FENCE

80-4.01 GENERAL

80-4.01A Summary

Section 80-4 includes specifications for constructing decorative steel fences.

Decorative steel fence must match existing fence at the roundabout on-site or an approved equal.

80-4.01B Definitions

Not Used

80-4.01C Submittals

Shop drawings must include:

1. Materials
2. Finishes
3. Dimensions
4. Gauges and thickness
5. Connections between components
6. Relationship and anchorage to adjacent work

Submit two paint samples on 12 inches lengths of posts and pickets.

80-4.01D Quality Assurance

Prevent damages due to stains, discoloration, scratches, dirt, and any other causes while shipping and storing fence materials.

Store unassembled components indoors in a clean, dry location.

Store and handle materials to prevent abrasion or other damage.

Protect dissimilar metals subject to galvanic corrosion from contact with each other and from other surfaces that cause corrosion of metal.

80-4.02 MATERIALS

80-4.02A General

The materials for decorative steel fence must comply with the specifications shown in the following table:

Material	Specification
Tube Steel Posts	Seamless structural steel pipe, ASTM A53, Grade A standard weight (Schedule 40)
Steel Plate, shapes, and bars	ASTM A36

Steel Plate to be bent or cold formed	ASTM A283
Steel tube pickets and rails	ASTM A513, hot-rolled structural steel, 60-ksi tensile strength, and 45-ksi yield strength
Bolts and Nuts	ASTM A307, Grade A, hot-dip galvanized
Clips and attachments	Per drawings and manufacturer's recommendations to be stainless steel or hot-dip galvanized
Post caps	As shown

Fencing must be galvanized complying with ASTM A526 with a minimum zinc coating weight of 0.90 ounces per square foot. Fencing must be painted with an electrostatic spray, two-coat, powder application. The base coat msut be thermosetting epoxy powder with a minimum 2-4 mil thickness. The top coat will be a black, no-mar, polyester powder coat finish with a minimum 2-4 mil thickness. Coated galvanized framework must have a salt spray resistance of 3,500 hours using ASTM B117 without loss of adhesion. Finish must have a 15-year warranty.

80-4.03 CONSTRUCTION

Erect all fencing plumb, level, square in true alignment, and firmly anchored. Connections (picket to rails and rails to posts) may be welded or drive rivet fasteners.

Remove all burrs and slag from all fencing components before painting.

Clean and prepare the surface to assure complete adhesion of the finish material after galvanizing all components.

Complete touch-up of galvanizing and paint to match factory painting if there is any damage to coating during transport to job site or installation.

80-4.04 PAYMENT

Measurement for decorative steel fence will be made parallel to the ground slope along the line of the completed fence.

Payment for the concrete foundations and post pockets is included in the payment for decorative steel fence.

Payment for the footing in the top of retaining wall is included in the payment for the decorative steel fecnce.

Replace section 80-15.04 with:

80-15.04 REMOVE / RELOCATE FENCE

80-15.04A General

Section 80-15.04 includes specifications for removing or relocating fences.

80-15.04B Materials

Not Used

80-15.04C Construction

Remove fence at location shown.

80-15.04D Payment

Not Used

DIVISION IX TRAFFIC CONTROL DEVICES

81 MISCELLANEOUS TRAFFIC CONTROL DEVICES

Replace section 81-3.04 with:

Payment for pavement markers is included in the payment for Thermoplastic Traffic Stripe.

^^

82 SIGNS AND MARKERS

Add to section 82-1.01A:

Signs must be constructed in accordance with the section 56 of City of Roseville Construction Standards.

Replace *Reserved* in section 82-3.01C with:

Submit shop drawings for the non-standard roadside signs. The shop drawing must include:

1. Sign panel, with letters and symbols, for each sign type.
2. Color
3. Material

Add to section 82-3.02A:

Roadside sign must comply with section 56-2.02 of City of Roseville Construction Standards.

Replace paragraphs of section 82-3.02B with:

Metal posts must comply with City of Roseville Standard Drawing TS-17A and must conform to section 56-2.02A of City of Roseville Construction Standards.

Replace paragraphs of section 82-3.02C with:

Not Used

Replace paragraphs of section 82-3.02D with:

Not Used

Replace paragraphs of section 82-3.02E with:

Sign panel fastening hardware must comply with section 56-2.02D of City of Roseville Construction Standards.

Replace paragraphs of section 82-3.03A with:

Sign panel installation must comply with section 56-2.04 of City of Roseville Construction Standards.

Replace paragraphs of section 82-3.03B with:

Not Used

Replace paragraphs of section 82-3.04 with:

Payment for furnishing sign panels is included in the payment for roadside sign.

^^

84 MARKINGS

Add to section 84-2.03C(3):

All striping or pavement markings damaged during construction must be repaired at the contractors expense. Repairs must consist of complete replacement of striping or markings as directed by the Engineer.

Add to section 84-2.04:

Payment per square foot for Thermoplastic Pavement Markings, shall include full compensation for furnishing all the labor, materials, tools, equipment, incidentals and for doing all the work involved in placing thermoplastic pavement markings, as shown on the plans as specified in the State Standard Specifications and these Technical Specifications, and as directed by the Engineer and no additional compensation will be allowed.

Payment per linear foot for Thermoplastic Traffic Stripe, no matter the type, color or width, shall include full compensation for furnishing all the labor, materials, tools, equipment, incidentals and for doing all the work involved in installing thermoplastic traffic stripe, as shown on the plans as specified in the State Standard Specifications and these Technical Specifications, and as directed by the Engineer and no additional compensation will be allowed.

Replace *Reserved* in section 84-9.03C with:

Residue from the removal of painted or thermoplastic traffic stripes and pavement markings contains lead from the paint or thermoplastic. The average lead concentrations are less than 1,000 mg/kg total lead and 5 mg/L soluble lead. This residue:

1. Is a nonhazardous waste
2. Does not contain heavy metals in concentrations exceeding the thresholds established by the Health and Safety Code and 22 CA Code of Regs
3. Is not regulated under the Federal Resource Conservation and Recovery Act (RCRA), 42 USC § 6901 et seq.

Management of this material exposes workers to health hazards that must be addressed in your lead compliance plan.

^^

DIVISION X ELECTRICAL WORK

86–88 RESERVED

Replace Sections 86 and 87 of RSS with:

86-1.01 General

All lighting and electrical systems work must conform to the latest editions of the City of Roseville Design and Construction Standards (including the latest amendments), Roseville Electric's Specifications For Commercial Construction, and Standard Construction Specifications.

86-1.02 Cost Breakdown

Submit a cost break-down for the contract lump sum items of Path and Plaza Lighting and Parking Lot Lighting, and EV Charging Stations and Electrical Equipment. Cost break-down tables must be submitted to the Engineer for approval within 10 working days after the contract has been approved. Cost break-down tables will be approved, in writing, by the Engineer before any partial payment will be made for the applicable items of planting and irrigation system involved.

Cost break-downs must be completed and furnished in the format shown in the samples of the cost break-downs included in this section. Line item descriptions of work shown in the samples are the minimum to be submitted. You may designate additional line item descriptions of work. If you designate additional line item descriptions of work, the quantity, value and amount for those line items must be completed in the same manner as for the unit descriptions shown in the samples. The line items and quantities given in the samples are to show the manner of preparing the cost break-downs.

Determine the quantities required to complete the work shown on the plans. The quantities and their values must be included in the cost break-downs submitted to the Engineer for approval. You are responsible for the accuracy of the quantities and values used in the cost break-downs submitted for approval.

The sum of the amounts for the line items of work listed in each cost break-down table for Path and Plaza Lighting and Parking Lot Lighting, and EV Charging Stations and Electrical Equipment work must be equal to the contract lump sum price bid for Traffic Signal Modifications and Fiber Optic Signal Interconnect, respectively. Overhead and profit must be included in each individual line item of work listed in a cost break-down table.

MITIGATION MONITORING PROGRAM FOR DOWNTOWN ROSEVILLE SPECIFIC PLAN PROJECT

INTRODUCTION

Sections 15091(d) and 15097 of the State Guidelines for the California Environmental Quality Act (CEQA) require public agencies "to adopt a reporting and monitoring program for changes to the project which it has adopted or made a condition of project approval in order to mitigate or avoid significant effects on the environment." A Mitigation Monitoring Program (MMP) is required by the City of Roseville (City) for the Downtown Roseville Specific Plan project because the Final Environmental Impact Report (EIR) for the project identified potentially significant adverse impacts related to construction and implementation activities, and mitigation measures have been identified to mitigate those impacts.

The MMP contained herein is intended to satisfy the requirements of CEQA as it relates to the Downtown Roseville Specific Plan Project EIR. This MMP is intended to be used by City staff and mitigation monitoring personnel to ensure compliance with mitigation measures during implementation of the project. Mitigation measures presented in this MMP were developed during the preparation of the Draft EIR (December 23, 2008) and Final EIR (March 2009) for the project.

The intent of this MMP is to ensure the effective implementation and enforcement of all adopted mitigation measures. The MMP will provide for monitoring of construction activities and in-the-field identification and resolution of environmental concerns that may arise during project implementation. The MMP may be modified by the City during project implementation, as necessary, in response to changing conditions or other refinements.

MITIGATION MONITORING PROGRAM DESCRIPTION

COMPLIANCE

The City will coordinate all monitoring activities and document the implementation of mitigation measures. Unless otherwise specified herein, the City is responsible for taking all actions necessary to implement the mitigation measures according to the specifications provided for each measure, and for demonstrating that the action has been successfully completed. The City, at its discretion, may delegate implementation responsibility or portions thereof to the developer, a licensed contractor, or other designated agent.

The City will coordinate the overall administration of the MMP and will verify that City staff members and/or the construction contractor and other responsible parties have completed the necessary actions for each measure. The table below identifies the mitigation measures adopted in the Final EIR, additional information on the monitoring actions and specific implementing entities, including the responsible parties for monitoring actions, and timing of each mitigation action. In cases where the implementing responsibility is shared between the City and construction contractors, the City will be responsible for ensuring that mitigation requirements are implemented.

FIELD MONITORING OF MITIGATION MEASURES

Prior to the issuance of City-approved construction contracts and applicant-sponsored grading and building permits, and during such time as development plans are being prepared for approval by City staff, the City will be responsible for ensuring compliance with mitigation monitoring applicable to the project design phase.

During construction, the City's Public Works Department will assign inspectors to be responsible for monitoring the implementation of mitigation measures. These inspectors will report to the City's Public Works Department and will be thoroughly familiar with mitigation measures in the MMP. In addition, the inspectors will be familiar

with construction contract requirements, schedules, standard construction practices, and mitigation techniques. The City will be responsible for onsite, day-to-day monitoring of construction activities, reviewing construction plans, and reviewing equipment staging/access plans to ensure conformance with adopted mitigation measures. The City will also have the authority to enforce mitigation measures by suspending specific construction activities.

Once construction has been completed, the City will monitor the project, as necessary.

If any mitigation measures are not being implemented, the City may pursue corrective action. Penalties may include, but are not limited to, the following:

1. Written notification and request for compliance,
2. Withholding of permits,
3. Administrative fines,
4. Stop-work orders,
5. Criminal prosecution and/or administrative fines,
6. Forfeiture of security bonds or other guarantees, and/or
7. Revocation of permits or other entitlements.

Mitigation measures applicable to construction contracts issued by the City (e.g., for parking garages) will be conveyed in contract documents. Failure to comply with these requirements by the construction contractor may also necessitate contract-based penalties.

CHANGES TO MITIGATION MEASURES

Any substantive change to the MMP made by City staff shall be reported in writing to the Planning Department. Modification to any mitigation measures may be made by City staff subject to one of the following findings, documented by evidence included in the record:

a) The mitigation measure included in the Final EIR and the adopted MMP is no longer required because the significant environmental impact identified in the Final EIR has been found to not exist, or to occur at a level which makes the impact less than significant as a result of changes in the project, changes in conditions of the environment, or other factors.

OR

b) The modified or substitute mitigation measure to be included in the MMP provides a level of environmental protection equal to or greater than that afforded by the mitigation measure included in the Final EIR and the adopted MMP; and the modified or substitute mitigation measures do not have significant adverse effects on the environment in addition to or greater than those which were considered by the responsible hearing bodies in their decisions on the Final EIR and the proposed project; and the modified or substitute mitigation measures are feasible, and the City, through measures included in the MMP or other City procedures, can ensure their implementation.

Findings and related documentation supporting the findings involving modifications to mitigation measures shall be maintained in the project file with the MMP and shall be made available to the public upon request.

MITIGATION MONITORING PROGRAM

The table presented on the following pages provides the MMP for the Downtown Roseville Specific Plan project. The MMP identifies the following.

Mitigation Measure – This provides the text of the mitigation measure identified in the Final EIR and identifies the mitigation measure according to the number in the Final EIR. The mitigation measures are presented by topic (e.g., air quality) in the same sequence as that presented in the Final EIR.

Implementation – This identifies the entity responsible for complying with the requirements of the mitigation measure and identifies the method and/or process by which the mitigation measure will be implemented.

Timing – This identifies the time frame in which the mitigation will take place.

Reviewing Party – This identifies the party responsible for reviewing and ensuring implementation of each mitigation measure.

Table 1
Downtown Roseville Specific Plan Project Mitigation Monitoring Program

Mitigation Measure	Implementation	Timing	Reviewing Party
Public Services			
4.3-4: Increased Demand for Public School Facilities and Services. The proposed project would generate approximately 23 high school students. To ensure adequate funding is available for high school facilities necessary to accommodate the increase in student population caused by the proposed project, landowners and developers shall pay school mitigation fees in accordance with the City of Roseville Ordinance 2434 before issuance of building permits for construction in the Plan area. Development projects in the Plan area that include only residential land uses shall enter into a Mutual Benefit Agreement (MBA) with school districts serving that area. Implementation of Mitigation Measure 4.3-4 would ensure adequate funding is made available to school districts to pay for construction and operation of new school facilities as needed to serve development. School impact fees are typically an insufficient amount to fund 100% of new school facility construction. However, the California Legislature has declared that the school impact fee is deemed to be full and adequate mitigation under CEQA (Government Code Section 65996). With payment of the state-mandate fees, impacts on school services and facilities would be reduced to a less-than-significant level.	The applicant shall pay school mitigation fees in accordance with the City of Roseville Ordinance 2434	Prior to issuance of building permits	PRD
Geology and Soils			
4.4-3: Seismically-Induced Risks to People and Structures Caused by Landsides. To minimize potential damage from unstable soil (landslides) along Dry Creek, the project applicant shall hire a qualified, licensed geotechnical engineer to map the Dry Creek corridor for clay-rich, weak soils, and high groundwater conditions prior to any construction or grading activities occurring in Dry Creek. Any unstable or hazardous slopes identified during the geotechnical investigation shall be identified by the geotechnical engineer and the geotechnical engineer shall provide recommendations for preventing landslides during project design and/or construction. These measures shall be included in grading permits prior to approval by the City.	The applicant shall hire a qualified, licensed geotechnical engineer to map the Dry Creek corridor for clay-rich, weak soils, and high groundwater conditions The project contractor shall Implement standard engineering requirements The project contractor shall implement all recommendations of the geotechnical investigation	Prior to issuance of grading permit; prior to ground-disturbing construction activities associated with bridges During ground-disturbing construction activities During ground-disturbing construction activities	PWD PWD PWD

PRD = Planning and Redevelopment Department PWD = Public Works Department

Table 1
Downtown Roseville Specific Plan Project Mitigation Monitoring Program

Mitigation Measure	Implementation	Timing	Reviewing Party
Aesthetics			
4.5-3: Impacts from Lighting and Reflective Surfaces. Operation of the golf course at nighttime would require the use of high-powered floodlights mounted on poles approximately 25 to 30 feet high that would be placed near or adjacent to existing residences. Prior to installation of nighttime lighting at the golf course, the City shall coordinate with a company specializing in or expertise with exterior lighting systems for golf courses (e.g., Abacus). Floodlighting used shall consist of a double asymmetric beam distribution that ensures minimum upward light and tight control of light overspill into adjacent areas. The golf course shall be designed to incorporate a line of trees located along the outermost boundary between the golf course and all adjacent residences.	The applicant shall coordinate with a company specializing in or expertise with exterior lighting systems for golf courses The applicant shall design the golf course with double asymmetric beam distribution floodlights The applicant shall design the golf course with a line of trees located along the outermost boundary between the golf course and all adjacent residences	Prior to installation of nighttime lighting at the golf course Prior to operation of the golf course Prior to operation of the golf course	PRD PRD PRD
Traffic and Circulation			
4.6-1: Unacceptable Peak Hour LOS at Signalized Intersections under Existing Plus Project Conditions. The Specific Plan would establish a Pedestrian Overlay District within the Plan area. The Pedestrian Overlay District is would construct physical improvements at intersections in the Plan area to encourage pedestrian activity and increase pedestrian safety. Although three signalized intersections in the study area would operate below LOS C, they would be located in the Pedestrian Overlay District which would make the intersections exempt from the City's LOS C policy. Therefore, the project would result in a less-than-significant impact.	No actions necessary		
4.6-2: Unacceptable p.m. Peak Hour LOS at Signalized Intersections under Cumulative (2020) Plus Project Conditions. The Specific Plan would establish a Pedestrian Overlay District within the Plan area. The Pedestrian Overlay District is would construct physical improvements at intersections in the Plan area to encourage pedestrian activity and increase pedestrian safety. Establishment of a Pedestrian Overlay District would reduce impacts to the Judah Street/Vernon Street and Washington Boulevard/Main Street intersections because it would these intersections exempt from the City's LOS C policy such that the intersections would operate at an acceptable LOS. The following mitigation measures are identified for the significant impacts under the Cumulative (2020) Plus Project scenario at signalized study intersections:			

PRD = Planning and Redevelopment Department PWD = Public Works Department

Table 1
Downtown Roseville Specific Plan Project Mitigation Monitoring Program

Mitigation Measure	Implementation	Timing	Reviewing Party
► LOS D at Yosemite Street/Atlantic Street. The addition of project traffic at this intersection under cumulative 2020 conditions would deteriorate operations from LOS C to LOS D. To mitigate project impacts, the southbound right-turn lane could be restriped as a shared left/right-turn lane. With this restriping, the intersection would operate at an acceptable LOS C. The project would be responsible to pay their fair share toward this improvement. This intersection improvement shall be incorporated into the City of Roseville Capital Improvement Program. Incorporating this intersection improvement into the City's Capital Improvement Program would establish a funding mechanism to collect the remaining funds for this improvement (beyond the project's fair share). Therefore, implementation of the ultimate improvement would be guaranteed and the impact is considered less than significant.	The City of Roseville shall incorporate into the City of Roseville Capital Improvement Program the restriping of the southbound right-turn lane at the Yosemite Street/Atlantic Street intersection as a shared left/right-turn lane	As part of approval of the Specific Plan	PRD
► LOS D at Orlando Avenue/Marlin Drive/Cirby Way. The addition of project traffic at this intersection under cumulative 2020 conditions would deteriorate operations from LOS C to LOS D. To mitigate project impacts, the northbound and southbound approaches should be widened to provide one dedicated left-turn lane, one through lane, and one right-turn lane. With these improvements, the intersection phasing could be modified to provide protected left-turn movements, and would operate at an acceptable LOS C. Please note that, given the curvature of Marlin Drive and Orlando Avenue, the creek just north of the intersection, and right-of-way constraints, the identified mitigation may not be feasible. Therefore, this impact is considered significant and unavoidable.	No actions necessary		
► LOS D at Harding Drive/Estates Drive. The addition of project traffic at this intersection under cumulative 2020 conditions would deteriorate operations from LOS C to LOS D. To mitigate project impacts, a dedicated southbound right-turn lane would be needed. With this improvement, the intersection would operate at an acceptable LOS C. The project would be responsible to pay a fair share toward this improvement. Please note that existing development is present on all four quadrants of the intersection, limiting the available right-of-way to implement the improvement which may make the identified mitigation infeasible. Therefore, this impact is considered significant and unavoidable.	No actions necessary		
► LOS E at Sunrise Avenue/Eureka Road. The addition of project traffic at this intersection under cumulative 2020 conditions would deteriorate operations from LOS D to LOS E. To mitigate project impacts, a third eastbound left-turn lane could be added to the intersection. With the	No actions necessary		

PRD = Planning and Redevelopment Department PWD = Public Works Department

Table 1
Downtown Roseville Specific Plan Project Mitigation Monitoring Program

Mitigation Measure	Implementation	Timing	Reviewing Party
improvement, the intersection would operate at LOS D, consistent with the No Project Condition. However, there are potential right-of-way constraints and inherent design complexities of implementing triple left-turn lanes. Therefore, this impact is considered significant and unavoidable.			
4.6-5: Parking. To mitigate parking impacts for the Plan area, the project shall provide an additional 580 parking spaces. This shall be accommodated by providing extra spaces within the three planned parking structures, providing additional public parking spaces (as part of developing and implementing the Parking Management Plan), or require development to provide additional parking (e.g., in-lieu fees).	The City of Roseville shall provide an additional 580 parking spaces in the Plan area	As part of approval of the Specific Plan	PRD
Cultural Resources			
4.7-1: Disturbance of Architectural Resources. Two of the historic-era resources located within the Plan area to appear to be eligible for CRHR listing. These resources include: 316 Vernon Street and 419-425 Vernon Street. The Old Town Roseville area is designated as a historic district at the local level by the City of Roseville. Consequently, it is recommended that any alterations made to these eligible resources be conducted in a manner consistent with the Secretary of the Interior's Standards for the Treatment of Historic Properties, and the Design Guidelines for Central Roseville. Generally, under CEQA, a project that complies with the Secretary of the Interior's Standards for the Treatment of Historic Properties with Guidelines for Preserving, Rehabilitating, Restoring, and Reconstructing Historic Buildings or the Secretary of Interior's Standards for Rehabilitation is considered to have mitigated impacts to a historical resource to a less-than-significant level (State CEQA Guidelines Section 15064.5).	The applicant shall ensure alterations made to buildings at 316 Vernon Street and 419-425 Vernon Street be conducted in a manner consistent with the Secretary of the Interior's Standards for the Treatment of Historic Properties, and the Design Guidelines for Central Roseville	Prior to issuance of demolition or building permit	PRD
Development within the Plan area could result in new land uses, infill development, and streetscape improvements. Over the 20-year build-out period for the Specific Plan, future developments within the Plan area could result in impacts to 25 buildings built between 1963 and 1983. These buildings and their locations are listed in Table 4.7-2. Prior to the approval of demolition or building permits that would result in substantial alteration of any of the 15 buildings that will reach 45 years in age by the build-out date, the City shall ensure that an evaluation of significance according to CRHR criteria shall be performed. If the evaluation indicates the property is not eligible for listing in the CRHR, no further action is necessary. If any of these buildings are found to be eligible for listing in the CRHR in conjunction with future evaluations, the	The applicant shall ensure alterations made to 25 buildings built between 1963 and 1983 are evaluated for significance according to CRHR criteria.	Prior to issuance of demolition or building permit	PRD

PRD = Planning and Redevelopment Department PWD = Public Works Department

Table 1
Downtown Roseville Specific Plan Project Mitigation Monitoring Program

Mitigation Measure	Implementation	Timing	Reviewing Party
City shall ensure that the proposed development is consistent with the Secretary of the Interior's Standards for the Treatment of Historic Properties or develop other methods to avoid significant impacts to these properties in consultation with the State Office of Historic Preservation (OHP). This measure would reduce potentially significant impacts to Architectural Resources to a less-than-significant level.			
If it is not feasible to retain an eligible historic resource, prior to demolition, documentation similar to the standards of the Historic American Building Survey (HABS) shall be conducted. A HABS -like recordation would document the site history, construction history, and current appearance of the eligible resource in the context of Roseville's history. The HABS-like recordation shall be completed by an architectural historian who meets the Secretary of the Interior's professional qualifications standards, and an experienced HABS photographer. The final document shall be filed in a local library / repository. Although this type of documentation eliminates one adverse impact of demolition (i.e., loss of historical information) it does not prevent the physical loss of a historically significant resource.	If an evaluation determines any of the 25 buildings built between 1963 and 1983 are found to be eligible for listing in the CRHR, the applicant shall ensure development consistent with the Secretary of the Interior's Standards for the Treatment of Historic Properties or develop other methods to avoid significant impacts to these properties in consultation with the State Office of Historic Preservation (OHP)	Prior to issuance of demolition or building permit	PRD
Implementation of the above mitigation measure would reduce impacts related to disturbance of architectural resources. However, the potential loss of a historically significant resource could occur. While implementation of mitigation measure 4.7-1 would lessen project impacts, demolition of a historical resource would be a significant adverse change and, therefore, considered a significant and unavoidable impact.	If retention of an eligible historic resource is considered infeasible, the applicant shall conduct documentation similar to the standards of the Historic American Building Survey (HABS)	Prior to issuance of demolition or building permit	PRD
4.7-2: Disturbance of Potential Subsurface Cultural Deposits. In the event that unrecorded cultural materials are identified during construction-related ground disturbing activities, potentially destructive work in the vicinity of the find shall cease until a qualified archaeologist can determine the significance of the find and, if appropriate, provide recommendations for treatment to the City. Treatment approved by the City shall be implemented prior to resuming ground disturbing activities.	The project contractor shall Suspend construction work if unrecorded cultural materials are identified	During construction-related ground disturbing activities	PRD
4.7-3: Undiscovered / Unrecorded Human Remains. If human remains are discovered at any project construction site during any phase of construction, work within 50 feet of the remains shall be suspended immediately, and the	The project contractor suspend construction work, if human remains are discovered, and	During construction-related ground disturbing activities	PRD

PRD = Planning and Redevelopment Department PWD = Public Works Department

Table 1
Downtown Roseville Specific Plan Project Mitigation Monitoring Program

Mitigation Measure	Implementation	Timing	Reviewing Party
City of Roseville, the project applicant, and the county coroner shall be notified immediately. If the remains are determined by the county coroner to be Native American, the Native American Heritage Commission (NAHC) shall be notified within 24 hours, and the guidelines of the NAHC shall be adhered to in the treatment and disposition of the remains. The City or the project applicant shall also retain a professional archaeologist with Native American burial experience who shall conduct a field investigation of the specific site and consult with the Most Likely Descendant (MLD) identified by the NAHC. As necessary, the archaeologist may provide professional assistance to the MLD including the excavation and removal of the human remains. The City or the project applicant shall implement any mitigation before the resumption of activities at the site where the remains were discovered.	notify City of Roseville The City of Roseville shall notify County Coroner if human remains are discovered The City of Roseville shall notify Native American Heritage Commission if human remains are discovered	 During construction-related ground disturbing activities During construction-related ground disturbing activities	 PRD PRD
Hazards and Hazardous Materials			
4.8-1: Exposure of Construction Workers, Residents, and Others to Hazardous Materials. A Health and Safety Plan (HASP) prepared for the construction process, consistent with general industry standards and Occupational Safety and Health Administration (OSHA) requirements, would address the risks to construction personnel and public safety, such that these health and safety risks would be mitigated to an acceptable level. A qualified professional, such as a Certified Industrial Hygienist (CIH), would prepare the HASP to provide guidance for personnel involved in trenching and other excavation work where there is evidence of hydrocarbons or other hazardous materials. The HASP utilized for each construction phase would describe in detail the health and safety guidelines, procedures, and work practices that must be adhered to and the work to be performed, and would also include special details governing certain work, such as working in confined spaces. Should contaminants be found, appropriate measures would be taken to mitigate potential effects related to construction/implementation of the proposed project. This may include excavation of contaminated soils and disposal at an appropriate facility. The potential contaminants of concern are petroleum hydrocarbons and associated chemicals, such as oxygenates and fuel scavengers, and volatile organic carbons (e.g., PCE, TCE).	The project contractor shall prepare site-specific Health and Safety Plan	Prior to grading or construction	PWD

PRD = Planning and Redevelopment Department PWD = Public Works Department

Table 1
Downtown Roseville Specific Plan Project Mitigation Monitoring Program

Mitigation Measure	Implementation	Timing	Reviewing Party
The HASP would address appropriate personal protective equipment (PPE), monitoring to protect on-site workers; and the appropriate level of worker training (e.g., Hazardous Waste Operations and Emergency Response training). Monitoring may include visual and olfactory observation (e.g., soil staining or unusual odors), or air monitoring with hand-held devices (e.g., photo-ionization detector) to detect volatile hydrocarbons. Health-risk based action levels should be identified for various contaminants that would trigger modifications to work practices. Work practice modifications may include the cessation of construction activities until soil or groundwater sampling is performed, or an increase in the level of PPE or worker training. A Sampling and Analysis Plan (SAP) would accompany the HASP to determine if contaminants of concern are present and at what concentrations. The HASP would also address procedures to follow if unknown objects (e.g., USTs, underground piping) are encountered during construction activities. Specialized contractors would be hired to decommission and remove such USTs and perform confirmation sampling as necessary. The implementation of an adequate site-specific HASP would reduce the health risk to construction personnel by these recognized environmental conditions to a less-than-significant level. In addition, the following measures shall apply to construction activities, as appropriate.			
1) The construction contractor shall notify the Roseville Fire Department if evidence of soil or groundwater contamination (e.g., stained soil, unusual odor in groundwater) is encountered during construction activities. Any contaminated areas shall be remediated in accordance with recommendations made by the Fire Department, RWQCB, DTSC, or other appropriate federal, state, or local regulatory agencies.	The project contractor shall notify the Roseville Fire Department if evidence of soil or groundwater contamination is encountered	During construction-related ground disturbing	PRD
	The applicant shall remediate contaminated areas in accordance with recommendations made by the Fire Department, RWQCB, DTSC, or other appropriate federal, state, or local regulatory agencies	Prior to construction-related ground disturbing activities	PRD

PRD = Planning and Redevelopment Department PWD = Public Works Department

Table 1
Downtown Roseville Specific Plan Project Mitigation Monitoring Program

Mitigation Measure	Implementation	Timing	Reviewing Party
2) Prior to demolition of any buildings constructed before 1977, the project applicant shall hire a qualified consultant to investigate whether any of these buildings contain lead and/or asbestos-containing materials and lead that could become friable or mobile during demolition activities. If found, the lead and/or asbestos-containing materials shall be removed by an accredited contractor in accordance with EPA and California OSHA standards. In addition, all activities (construction or demolition) in the vicinity of these materials shall comply with California OSHA lead and asbestos worker construction standards. The lead and asbestos-containing materials shall be disposed of properly at an appropriate off-site disposal facility.	The applicant or project contractor shall investigate whether any building constructed before 1977 contain lead and/or asbestos-containing materials and lead that could become friable or mobile during demolition activities	Prior to approval of building or demolition permit	PRD
The City would require contractors to prepare a site-specific HASP for individual projects within the Plan area to address current or historic RECs identified in the Phase I to verify that contractors are aware of site-specific RECs. As an alternative, the City could prepare a Plan-wide programmatic HASP to address all RECs identified in the Plan area, although preparation of the HASP is the ultimate responsibility of the contractor.	The applicant or project contractor shall remove lead and/or asbestos-containing materials by an accredited contractor in accordance with EPA and California OSHA standards	Prior to approval of building or demolition permit	PRD
Biological Resources			
Effects on Special-status Fish Species. The following measures shall be implemented to mitigate adverse effects to special-status fish species potentially resulting from the proposed project. To the extent feasible, the project shall be designed and constructed to avoid and minimize adverse effects to special-status fish species and aquatic habitats within the Specific Plan area. ► Project construction activities within the aquatic habitat of the active creek channel shall be conducted between June 15 and October 15, during the season that migrating chinook salmon and steelhead are not likely to be present. Construction within the riparian habitat along the upper banks of the creek need not be restricted to this timeframe, provided that the following measures (and those described in Section 4.12, Hydrology and Water Quality") are implemented to avoid or minimize sediment runoff into the creek.	The project contractor shall restrict construction activities within the aquatic habitat of the active creek channel to between June 15 and October 15	During construction-related activities	PRD

PRD = Planning and Redevelopment Department PWD = Public Works Department

Table 1
Downtown Roseville Specific Plan Project Mitigation Monitoring Program

Mitigation Measure	Implementation	Timing	Reviewing Party
► Silt fencing shall be placed around the construction areas within the aquatic habitat of the active creek channel. Silt fencing shall protect upstream and downstream areas from any construction related impacts. All construction activities within the aquatic habitat of the active creek channel shall be conducted within the silt fence area. Cofferdams shall be used if construction in a live channel is necessary. To the extent feasible, they shall be designed to maintain an open channel to allow continued movement of aquatic species. If dewatering of a construction area is needed, it shall occur according to a Fish Translocation and Salvage Plan prepared by a qualified biologist.	The project contractor shall place silt fencing around the construction areas within the aquatic habitat of the active creek channel	During construction-related activities	PRD
	The project contractor shall conduct construction activities inside the silt fence area	During construction-related activities	PRD
	The project contractor shall design silt fence to maintain an open channel to allow continued movement of aquatic species	During construction-related activities	PRD
► All outflow from any project-related dewatering that may be necessary when excavating the outfall installation areas shall be filtered and pumped downstream of the construction area.	The project contractor shall filter and pump all outflows downstream of the construction area	During construction-related activities	PRD
► After completion of construction within the aquatic habitat of the active creek channel, all remaining side cast shall be removed from the work area and silt fencing shall be removed.	The project contractor shall remove all remaining side cast and silt fencing	After completion of construction-related activities	PRD
► Revegetation of disturbed areas within the riparian habitat of the active creek channel with native riparian plants shall be accomplished prior to the onset of the winter rains in the year of construction.	The project contractor shall revegetate disturbed areas within the riparian habitat of the active creek channel with native riparian plants	After completion of construction-related activities; Prior to onset of winter rains in the year of construction	PRD
4.9-2: Effects on Valley Elderberry Longhorn Beetles. The following measures shall be implemented to mitigate adverse effects to valley elderberry longhorn beetles potentially resulting from the proposed project. If valley elderberry longhorn beetles are delisted in the future, as has recently been proposed by USFWS (USFWS 2006a), these measures may be amended to conform to any revised USFWS guidelines regarding this species.	The applicant shall design and construct project components to avoid and minimize adverse effects to elderberry shrubs	Prior to construction-related ground disturbing activities within the riparian habitat of the active creek channel	PRD
► To the extent feasible, implementation of the project shall be designed and constructed to avoid and minimize adverse effects to elderberry shrubs.			
► Before project construction within the riparian habitat of the active creek channel would begin, focused surveys for elderberry shrubs shall be conducted within the Dry Creek riparian corridor and adjacent municipal parks in and within 100 feet of proposed construction-sites. Such surveys will not be required within areas lacking suitable habitat for elderberry	The applicant shall conduct focused surveys for elderberry shrubs shall be conducted within the Dry Creek riparian corridor and adjacent municipal parks in	Prior to construction-related ground disturbing activities within the riparian habitat of the active creek channel	PRD

PRD = Planning and Redevelopment Department PWD = Public Works Department

Table 1
Downtown Roseville Specific Plan Project Mitigation Monitoring Program

Mitigation Measure	Implementation	Timing	Reviewing Party
shrubs (i.e., areas already in residential development).	and within 100 feet of proposed construction-sites		
► Where elderberry shrubs with 1.0 inch or greater stem diameter are found, USFWS conservation guidelines for valley elderberry longhorn beetles shall be followed by establishing a 100-foot buffer around the dripline of such shrubs wherever feasible to completely avoid potential impacts to valley elderberry longhorn beetles (USFWS 1999). All buffers shall be marked with brightly colored flags or fencing and shall be maintained until project construction is complete. Earthmoving activities, herbicide use, and other construction and maintenance activities with potential to impact valley elderberry longhorn beetles and/or their host shrubs would be avoided within these buffer zones. A qualified biologist will provide project contractors and construction crews working in the vicinity of an elderberry shrub buffer zone with a worker-awareness program before such work begins. This program will be used to describe the species, its habits and habitats, its legal status and required protection, and all applicable mitigation measures.	The project contractor shall establish a 100-foot buffer around the dripline of elderberry shrubs wherever feasible with brightly colored flags or fencing The project contractor shall restrict earthmoving activities, herbicide use, and other construction and maintenance activities within the 100-foot buffer zone The project contractor shall hire qualified biologist to provide a worker-awareness program	Prior to construction-related ground disturbing activities within the riparian habitat of the active creek channel During construction-related ground disturbing activities within the riparian habitat of the active creek channel Prior to construction-related ground disturbing activities within the riparian habitat of the active creek channel	PRD PRD PRD
► If complete avoidance of shrub buffer zones is not feasible, USFWS shall be consulted. It is anticipated that either a new buffer width would be agreed upon along with additional protections for the safety of the beetles and shrubs, or that shrubs that could not be adequately protected would be transplanted to a protected location before construction would begin, in accordance with established USFWS guidelines (USFWS 1999) and a USFWS-approved mitigation and monitoring plan. Shrubs shall be transplanted to an area protected in perpetuity as habitat for valley elderberry longhorn beetles through a conservation easement or similar mechanism. Replacement mitigation plantings shall also be provided based on USFWS guidelines, which require replacement ratios ranging from 1:1 to 8:1 for lost stems at least 1 inch in diameter, depending on the size of the affected stems. Associated native species will be planted at ratios ranging from 1:1 to 2:1 for each elderberry planting. Transplants and mitigation plantings shall be monitored to ensure that USFWS success criteria are met (i.e., 60 percent survival of elderberry plants and associated riparian plantings). The proponent may elect either 10 years of monitoring, with surveys and reports to USFWS every year; or 15 years of monitoring, with surveys and reports on years 1, 2, 3, 5, 7, 10, and 15. The mitigation and monitoring plan shall describe both short- and long-term maintenance and management of the mitigation site; and specify remedial measures to be	The applicant shall consult with USFWS If complete avoidance of elderberry shrub buffer zones is not feasible The applicant shall implement measures as determined through consultation with USFWS	Prior to construction-related ground disturbing activities within the riparian habitat of the active creek channel Prior to construction-related ground disturbing activities within the riparian habitat of the active creek channel	PRD PRD

PRD = Planning and Redevelopment Department PWD = Public Works Department

Table 1
Downtown Roseville Specific Plan Project Mitigation Monitoring Program

Mitigation Measure	Implementation	Timing	Reviewing Party
undertaken if mitigation success criteria are not met. Long-term management of mitigation lands shall be ensured by establishing a management endowment or other suitable funding source. The mitigation shall be implemented in a preserved portion of the project site in Dry Creek's riparian corridor, elsewhere within the Dry Creek watershed, or in suitable habitat elsewhere in Placer County or an adjacent county. If mitigation occurs off-site, it shall be at a location that would provide at least equal-quality habitat for valley elderberry beetles as the project site after implementation of the mitigation.			
4.9-3: Effects on Raptors and Special-status Birds. The following measures shall be implemented to mitigate adverse effects to raptors and special-status birds potentially resulting from the proposed project.	The project contractor shall restrict vegetation removal and grading activities to between September 1 to February 28	Prior to construction-related ground disturbing activities within the riparian habitat of the active creek channel	PRD
► Potential disturbance of nesting special-status birds and raptors shall be reduced by limiting vegetation removal and grading to the non-breeding season (generally September 1 to February 28) to the extent feasible.			
► To avoid nest disturbance and a potential reduction in fledging success resulting from construction activities within the riparian habitat of the active creek channel and during the breeding season (March 1 to August 31), focused surveys for raptors and special-status birds would be conducted by a qualified biologist no more than 15 days prior to the beginning of construction. Surveys for raptors and special-status birds would include suitable nesting habitat within 500 feet of construction areas. If no active nests are found, no further measures would be needed.	The project contractor shall conduct focused surveys for raptors and special-status birds would be conducted by a qualified biologist during the breeding season	Prior to construction-related ground disturbing activities within the riparian habitat of the active creek channel	PRD
► If active raptor or special-status bird nests are found, impacts would be avoided by the establishment of appropriate buffers and/or nest monitoring by a qualified biologist. The size of the buffer would be determined by a qualified biologist and may vary, depending on the species biology, location, nest stage, and specific construction activities to be performed while the nest is active. A qualified biologist shall monitor active nests to determine when the young have fledged and are feeding on their own, or the nest has failed. No construction activities would occur within a buffer zone until a qualified biologist confirms that the nest is no longer active.	If focused surveys find active raptor or special-status bird nests, the project contractor shall establish appropriate buffers as determined by a qualified biologist and/or conduct nest monitoring by a qualified biologist	During construction-related ground disturbing activities within the riparian habitat of the active creek channel	PRD
	The project contractor shall restrict construction activities inside buffer zone until a qualified biologist confirms that the nest is no longer active	During construction-related ground disturbing activities within the riparian habitat of the active creek channel	PRD

PRD = Planning and Redevelopment Department PWD = Public Works Department

Table 1
Downtown Roseville Specific Plan Project Mitigation Monitoring Program

Mitigation Measure	Implementation	Timing	Reviewing Party
4.9-6: Jurisdictional Waters and Sensitive Natural Communities. The following measures shall be implemented to mitigate adverse effects to jurisdictional waters and sensitive habitats potentially resulting from the proposed project. ► To the extent feasible, the project shall be designed and constructed to avoid and minimize adverse effects to jurisdictional waters of the United States and riparian habitat within the Specific Plan area. Bioengineering bank stabilization techniques shall be used to the extent feasible and the installation of hardscape within jurisdictional waters of the United States shall be minimized to the greatest extent feasible to achieve the overall project objectives.	The applicant shall design and construct project components to avoid and minimize adverse effects to jurisdictional waters of the United States and riparian habitat	Prior to construction-related ground disturbing activities within the riparian habitat of the active creek channel	PRD
► Wherever possible, riparian woodland habitat shall be avoided and preserved; the connectivity of the Dry Creek riparian corridor shall be maintained and enhanced. Areas of riparian woodland to remain undisturbed shall be clearly marked for avoidance during construction by methods such as fencing of flagging and construction personnel shall be educated about the need to avoid adverse effects on this resource.	The applicant shall avoid and preserve riparian woodland habitat The applicant shall maintain and enhance the connectivity of the Dry Creek riparian corridor The project contractor shall mark areas of riparian woodland with fencing or flagging The project contractor shall avoid construction activities inside areas of riparian woodland	During construction-related ground disturbing activities within the riparian habitat of the active creek channel During construction-related ground disturbing activities within the riparian habitat of the active creek channel During construction-related ground disturbing activities within the riparian habitat of the active creek channel During construction-related ground disturbing activities within the riparian habitat of the active creek channel	PRD PRD PRD PRD
► The project shall incorporate restoration and enhancement of the riparian corridor into the final design plans and construction specifications. Loose rock and concrete debris along the creek banks shall be removed as appropriate. The riparian corridor along the creek channel shall be enhanced by the planting of native shrub, tree, and understory species to	The applicant shall design and construct project components to incorporate restoration and enhancement of the riparian corridor	Prior to construction-related ground disturbing activities within the riparian habitat of the active creek channel	PRD

PRD = Planning and Redevelopment Department PWD = Public Works Department

Table 1
Downtown Roseville Specific Plan Project Mitigation Monitoring Program

Mitigation Measure	Implementation	Timing	Reviewing Party
	The project contractor shall remove Loose rock and concrete debris along the creek banks	Prior to construction-related ground disturbing activities within the riparian habitat of the active creek channel	PRD
	The project contractor shall enhance the riparian corridor along the creek channel by planting of native shrub, tree, and understory species	Prior to construction-related ground disturbing activities within the riparian habitat of the active creek channel	PRD
► Before any ground disturbing activities begin within the aquatic or riparian habitat of the active creek channel, a qualified biologist shall map potential waters of the United States as part of a formal delineation of waters of the United States and shall identify all riparian habitat that could be affected by the project. The findings shall be documented in a detailed report and submitted to the USACE for verification as part of the formal Section 404 wetland delineation process. If there would be unavoidable effects under USACE jurisdiction, the Section 404 process shall be completed and the acreage of affected jurisdictional habitat shall be replaced and/or rehabilitated. The acreage of jurisdictional wetland affected shall be replaced on a "no-net-loss" basis is accordance with USACE regulations. Habitat restoration, rehabilitation, and/or replacement shall be at a location and by feasible methods agreeable to USACE. All minimization and compensation measures adopted through the permitting process shall be implemented.	The applicant shall prepare formal delineation map of potential waters of the United States and identify all riparian habitat that could be affected by a qualified biologist	Prior to construction-related ground disturbing activities within the riparian habitat of the active creek channel	PRD
	The applicant shall submit findings to USACE for verification as part of the formal Section 404 wetland delineation process	Prior to construction-related ground disturbing activities within the riparian habitat of the active creek channel	PRD
► Approval by the RWQCB, as determined during the Section 401 and Section 404 permitting processes, shall be required. All mitigation requirements determined through this process shall be implemented before any ground disturbing activities begin.	The applicant shall acquire approval from the RWQCB and implement all requirements of approval	Prior to construction-related ground disturbing activities within the riparian habitat of the active creek channel	PRD
► If there would be unavoidable effects to habitats under DFG jurisdiction, a streambed alteration agreement shall be obtained and affected habitat shall be replaced and/or rehabilitated. Because project implementation could result change to the natural flow and/or bed and bank of Dry Creek, the project could require a Section 1602 streambed alteration agreement from DFG. If complete avoidance of indentified riparian habitat is not feasible, the acreage of riparian habitat that would be removed shall be replaced or rehabilitated on a "no-net-loss" basis in accordance with DFG regulations	The applicant shall obtain streambed alteration agreement, if there would be unavoidable effects to habitats under DFG jurisdiction.	Prior to construction-related ground disturbing activities within the riparian habitat of the active creek channel	PRD

PRD = Planning and Redevelopment Department PWD = Public Works Department

Table 1
Downtown Roseville Specific Plan Project Mitigation Monitoring Program

Mitigation Measure	Implementation	Timing	Reviewing Party
and as specified in the streambed alteration agreement, if needed. Habitat restoration, rehabilitation, and/or replacement shall be at a location and by feasible methods agreeable to DFG. All minimization and compensation measures adopted through the permitting process shall be implemented.	The applicant shall replace or rehabilitate affected habitat on a "no-net-loss" basis in accordance with DFG regulations and as specified in the streambed alteration agreement	Prior to construction-related ground disturbing activities within the riparian habitat of the active creek channel	PRD
4.9-8: Protected Trees. The following measures shall be implemented to mitigate adverse effects to protected trees potentially resulting from the proposed project. Tree removal shall be avoided unless 1) necessary for project construction, 2) identified as safety hazards in a Certified Arborist Tree Survey and located in existing or planned public access areas (e.g., streets, trails), or 3) if exotic invasive species (e.g., tree of heaven). In the Dry Creek riparian corridor, snags, dead wood and branches on live trees, and fallen branches shall be retained to the maximum extent possible due to the important habitat functions that they provide for wildlife.	The applicant shall avoid tree removal to the maximum extent possible	Prior to construction-related ground disturbing activities within the riparian habitat of the active creek channel	PRD
► Based on final approved project plans, the project applicant shall determine where protected trees are present within areas proposed for construction and shall identify trees for avoidance or removal.	The applicant shall determine where protected trees are present within areas proposed for construction and shall identify trees for avoidance or removal	Prior to construction-related ground disturbing activities within the riparian habitat of the active creek channel	PRD
► A Tree Preservation Plan shall be prepared for the protected trees within the Plan area that shall be avoided by the project to ensure that they are adequately protected during construction activities. A Certified Arborist shall prepare a Tree Preservation Plan in accordance with the Title 19 Article IV of the Roseville Municipal Code, which shall contain detailed recommendations for tree preservation and removal based on construction and grading plans. The Tree Preservation Plan shall address each tree potentially affected by construction and recommend preservation or removal based on its suitability for preservation, proximity to construction activities, and ability to tolerate impacts. The Tree Preservation Plan shall also include general preservation and construction guidelines to assist in the protection of trees within or near the grading limits or near construction zones. The Tree Preservation Plan shall include recommendations for specific protective measures for trees before, during, and after construction to reduce impacts to trees from development and maintain their health throughout the construction process. The Tree Preservation Plan shall be prepared using information in a Tree Survey and Assessment or similar report including information on each tree's species, size, location,	The applicant shall prepare a Tree Preservation Plan, by a Certified Arborist and in accordance with the Title 19 Article IV of the Roseville Municipal Code	Prior to construction-related ground disturbing activities within the riparian habitat of the active creek channel	PRD
	The applicant shall submit the Tree Preservation Plan to the City of Roseville for review and approval	Prior to construction-related ground disturbing activities within the riparian habitat of the active creek channel	PRD

PRD = Planning and Redevelopment Department PWD = Public Works Department

Table 1
Downtown Roseville Specific Plan Project Mitigation Monitoring Program

Mitigation Measure	Implementation	Timing	Reviewing Party
condition, and suitability for preservation.			
► Where the removal of protected oaks is deemed necessary, the loss shall be mitigated according to Section 19.66.070 of the Roseville Municipal Code which requires that the replacement be calculated based upon an inch-for-inch replacement of the diameter at breast height of the tree removed. Mitigation trees shall be planted at appropriate sites and with appropriate maintenance to ensure their long-term self-sustaining survival. Where possible, mitigation oaks will be planted in canopy gaps along Dry Creek's riparian corridor within the Plan area, or elsewhere within the City of Roseville. A performance standard of 80 percent of the established mitigation trees shall be met after 5 years. The mitigation trees shall not be dependent upon significant maintenance measures within the last 2 years of monitoring, including supplemental irrigation and staking. Alternatively, an in-lieu fee payment can be made to the City of Roseville Native Oak Tree Propagation Fund, which is calculated per inch based on the diameter at breast height of the tree removed.	The applicant shall mitigate loss of protected trees according to Section 19.66.070 of the Roseville Municipal Code	Prior to construction-related ground disturbing activities within the riparian habitat of the active creek channel	PRD
Air Quality			
4.10-1: Generation of Short-term Construction-Related Emissions of Criteria Air Pollutants and Precursors. In accordance with the PCAPCD, the applicant shall comply with all applicable rules and regulations as listed above (e.g., Rule 202, 218 and 228). In addition, the following mitigation measures shall be implemented to reduce short-term construction-related air quality impacts. In addition, dust control measures are required to be implemented by all projects in accordance with the City of Roseville Grading Ordinance, and the PCAPCD Fugitive Dust Rule 228. 1. The applicant shall submit to PCAPCD a Construction Emission / Dust Control Plan within 30 days prior to groundbreaking. If the PCAPCD does not respond within 20 days, the plan shall be considered approved. The plan must address the minimum requirements found in section 300 and 400 of District Rule 228, Fugitive Dust (www.placer.ca.gov/airpollution/airpolut.htm). The applicant shall keep a hard or electronic copy of Rule 228, Fugitive Dust on-site for reference.	The project contractor shall submit a Construction Emission / Dust Control Plan to PCAPCD for review and approval	30 days prior to construction-related ground disturbing activities	PRD

PRD = Planning and Redevelopment Department PWD = Public Works Department

Table 1
Downtown Roseville Specific Plan Project Mitigation Monitoring Program

Mitigation Measure	Implementation	Timing	Reviewing Party
2. The Construction Emission/Dust Control Plan shall include a comprehensive inventory (i.e. make, model, year, emission rating) of all heavy-duty off-road equipment (50 horsepower (HP) of greater) that will be used an aggregate of 40 or more hours for the construction project. The project representative shall provide PCAPCD with the anticipated construction timeline including start date, and name and phone number of the project manager and on-site foreman. The plan shall demonstrate that the heavy-duty (> 50 HP) off-road vehicles to be used in the construction project, including owned, leased and subcontractor vehicles, will achieve a project wide fleet-average 20% NOX reduction and 45% particulate reduction compared to the most recent ARB fleet average. PCAPCD shall be contacted for average fleet emission data. Acceptable options for reducing emissions may include use of late model engines, low-emission diesel products, alternative fuels, engine retrofit technology, after-treatment products, and/or other options as they become available. Contractors can access the Sacramento Metropolitan Air Quality Management District's web site to determine if their off-road fleet meets the requirements listed in this measure (http://www.airquality.org/ceqa/Construction_Mitigation_Calculator.xls).	The project contractor shall prepare a Construction Emission/ Dust Control Plan that includes a comprehensive inventory list of f all heavy-duty off-road equipment that will be used an aggregate of 40 or more hours for the construction project The project contractor shall prepare a Construction Emission/ Dust Control Plan that includes anticipated construction timeline including start date, and name and phone number of the project manager and on-site foreman The project contractor shall prepare a Construction Emission / Dust Control Plan that demonstrates that the heavy-duty (> 50 HP) off-road vehicles to be used in the construction project, including owned, leased and subcontractor vehicles, will achieve a project wide fleet-average 20% NOX reduction and 45% particulate reduction compared to the most recent ARB fleet average	30 days prior to construction-related ground disturbing activities 30 days prior to construction-related ground disturbing activities 30 days prior to construction-related ground disturbing activities	PRD PRD PRD
3. Clean earth moving construction equipment with water or sweep clean, once per day, or as necessary (e.g., when moving onsite), consistent with National Pollutant Discharge Elimination System Best Management Practices, local ordinances, and municipal codes. Water shall be applied to control dust as needed to prevent dust impacts offsite. Operational water truck(s), shall be on-site, as required, to control fugitive dust. Construction vehicles leaving the site shall be cleaned, as needed, to prevent dust, silt, mud, and dirt from being released or tracked off-site.	The project contractor shall clean earth moving construction equipment with water or sweep clean, once per day, or as necessary (e.g., when moving onsite), consistent with National Pollutant Discharge Elimination System Best Management Practices, local ordinances, and municipal codes	During construction-related ground disturbing activities	PRD

PRD = Planning and Redevelopment Department PWD = Public Works Department

Table 1
Downtown Roseville Specific Plan Project Mitigation Monitoring Program

Mitigation Measure	Implementation	Timing	Reviewing Party
	The project contractor shall apply water to control dust as needed to prevent dust impacts offsite	During construction-related ground disturbing activities	PRD
4. Spread soil binders on unpaved roads and employee/equipment parking areas. Soil binders shall be non-toxic in accordance with state and local regulations. Apply approved chemical soil stabilizers, or vegetated mats, etc. according to manufacturers' specifications, to all-inactive construction areas (previously graded areas which remain inactive for 96 hours).	The project contractor shall spread soil binders on unpaved roads and employee/equipment parking areas	During construction-related ground disturbing activities	PRD
5. Minimize diesel idling time to a maximum of 10 minutes.	The project contractor shall minimize diesel idling time to a maximum of 10 minutes	During construction-related ground disturbing activities	PRD
6. Utilize existing power sources (e.g., power poles) or clean fuel generators rather than temporary diesel power generators, if feasible.	The project contractor shall utilize existing power sources (e.g., power poles) or clean fuel generators rather than temporary diesel power generators, if feasible	During construction-related ground disturbing activities	PRD
7. Measures specific to 20+ acre project sites:	The project contractor shall hold a pre-construction meeting to review the construction emission/dust control plan	Prior to construction-related ground disturbing activities	PRD
► A pre-construction meeting shall be held to review the construction emission/dust control plan for projects requiring grading of 20+ acres. PCAPCD shall be notified and may attend.			
► The applicant shall comply with PCAPCD Fugitive Dust Rule 228; including suspending grading operations when conditions exceed designated wind speeds, and executing proper control of lime or other drying agents.	The project contractor shall comply with PCAPCD Fugitive Dust Rule 228	During construction-related ground disturbing activities	PRD
	The project contractor shall perform a Visible Emissions Evaluations, by an ARB-certified representative, routinely (i.e., once per week) to evaluate project related off-road and heavy-duty on-road equipment emissions for compliance with this requirement	During construction-related ground disturbing activities	PRD
► An applicant representative, ARB-certified to perform Visible Emissions Evaluations (VEE), shall routinely (i.e., once per week) evaluate project related off-road and heavy-duty on-road equipment emissions for compliance with this requirement for projects grading	The project contractor shall comply with PCAPCD Visible Emissions Rule 202	During construction-related ground disturbing activities	PRD

PRD = Planning and Redevelopment Department PWD = Public Works Department

Table 1
Downtown Roseville Specific Plan Project Mitigation Monitoring Program

Mitigation Measure	Implementation	Timing	Reviewing Party
more than 20 acres in size, regardless of how many acres are to be disturbed daily.			
► Construction equipment exhaust emissions shall not exceed the PCAPCD Visible Emissions Rule 202. Fugitive dust is not to exceed 40% opacity and not go beyond property boundary at any time. Operators of vehicles and equipment found to exceed opacity limits are to be immediately notified and the equipment must be repaired within 72 hours.	The project contractor shall notify PCAPCD if Operators of vehicles and equipment found to exceed opacity limits	During construction-related ground disturbing activities	PRD
4.10-2: Generation of Long-Term Operation-Related (Regional) Emissions of Criteria Air Pollutants and Ozone Precursors. The following is a list of mitigation measures developed by PCAPCD to reduce long-term operational impacts to local and regional air quality. Due to the severe nonattainment designation in western Placer County for federal standards, all projects should implement those measures that are logical and feasible.	The applicant shall design projects to exceed California Title 24 energy requirements	Prior to issuance of building permit	PRD
1. Exceed California Title 24 2008 energy efficiency standards by a minimum of 10%. Areas of Title 24 to be exceeded (e.g., insulation, appliances, and fixtures) shall be determined by the applicant and the City.			
2. All truck loading and unloading docks shall be equipped with one 110/208-volt power outlet for every two-dock door. Diesel trucks shall be prohibited from idling more than five minutes and must be required to connect to the 110/208-volt power to run any auxiliary equipment. Signage shall be provided.	The applicant shall equip all truck loading and unloading docks with one 110/208-volt power outlet for every two-dock door	During project operation	PRD
	The applicant shall prohibit diesel trucks from idling more than five minutes and require diesel trucks to connect to the 110/208-volt power to run any auxiliary equipment	Prior to issuance of building permit	PRD
3. Install a gas outlet in all outdoor recreational fire pits, and permanently installed cooking appliances.	The applicant shall install a gas outlet in all outdoor recreational fire pits, and permanently installed cooking appliances	Prior to issuance of building permit	PRD

PRD = Planning and Redevelopment Department PWD = Public Works Department

Table 1
Downtown Roseville Specific Plan Project Mitigation Monitoring Program

Mitigation Measure	Implementation	Timing	Reviewing Party
4. Only natural gas fireplace appliances are permitted. Where propane or natural gas service is not available, only EPA Phase II certified wood-burning devices shall be allowed in single-family residences. The emission potential from each residence shall not exceed 7.5 grams per hour. Wood-burning or Pellet appliances shall not be permitted in multi-family developments.	The applicant shall allow only natural gas fireplace appliances	Prior to issuance of building permit	PRD
	Where propane or natural gas service is not available, the applicant shall allow only EPA Phase II certified wood-burning devices	Prior to issuance of building permit	PRD
	The applicant shall prohibit wood-burning or pellet appliances in multi-family developments.	Prior to issuance of building permit	PRD
5. Where feasible, install solar electric generation systems. Recommend participation in Roseville Electric incentive programs for energy-efficient development.	The applicant shall install solar electric generation systems, where feasible	Prior to issuance of building permit	PRD
4.10-3: Exposure of Sensitive Receptors to Toxic Air Contaminant Emissions. The following mitigation measures shall be implemented to reduce the exposure of sensitive receptors to TACs: ► All proposed homes in the Plan area shall be equipped with filter systems with high Minimum Efficiency Reporting Value (MERV) for removal of small particles (such as 0.3 micron) at all air intake points to the home. All proposed dwelling units shall be constructed with mechanical ventilation systems which would allow occupants to keep windows and doors closed and allow for the introduction of fresh outside air, without the requirement of open windows.	The applicant shall equip homes with filter systems with high Minimum Efficiency Reporting Value (MERV) for removal of small particles (such as 0.3 micron) at all air intake points to the home	Prior to issuance of building permit	PRD
► Proposed commercial uses that have the potential to emit TACs (e.g., diesel-fueled engines) shall be located as far away as possible from existing and proposed receptors.	The applicant shall locate commercial uses that have the potential to emit TACs (e.g., diesel-fueled engines) as far away as possible from existing and proposed receptors	Prior to approval of use permit	PRD
► Proponents of projects with a residential component shall provide disclosure to future residents advising them of the proximity to the JR Davis Rail Yard and associated health risk impacts.	The applicant shall disclose future residents advising them of the proximity to the JR Davis Rail Yard and associated health risk impacts	Prior to issuance of building permit	PRD

PRD = Planning and Redevelopment Department PWD = Public Works Department

Table 1
Downtown Roseville Specific Plan Project Mitigation Monitoring Program

Mitigation Measure	Implementation	Timing	Reviewing Party
► When determining the exact type of facility that would occupy the proposed commercial space, the project shall take into consideration its toxic-producing potential.	The applicant shall take into consideration its toxic-producing potential of proposed commercial space	Prior to approval of use permit	PRD
► Proposed facilities that would require the long-term use of diesel equipment and heavy-duty trucks shall develop a plan to reduce emissions, which may include such measures as scheduling such activities when the residential uses are the least occupied, and requiring such equipment to be shut off when not in use and prohibiting heavy-trucks from idling.	The applicant shall prepare and submit plan to reduce emissions to the City of Roseville for review and approval	Prior to issuance of building permit	PRD
► To the extent feasible, sensitive receptors shall be located as far away from the UPRR maintenance facility as possible.	The applicant shall locate sensitive receptors as far away from the UPRR maintenance facility as possible	Prior to approval of use permit	PRD
► Implement Mitigation Measure 4.10-2-2, described above, with respect to electrification of commercial loading dock areas to reduce emissions associated with truck idling.	The applicant shall equip all truck loading and unloading docks with one 110/208-volt power outlet for every two-dock door	Prior to issuance of building permit	PRD
4.10-5: Exposure of Sensitive Receptors to Odors. Implementation of Mitigation Measure 4.10-3 to reduce indoor exposure to TACs would also result in a reduction in the intensity of offensive odors from the surrounding odor sources. In addition, the applicant shall require all businesses that occupy the property to install odor-controls as necessary to prevent a substantial dispersion of odors to adjacent residential areas.	The applicant shall install odor-controls as necessary to prevent a substantial dispersion of odors to adjacent residential areas	During project operation	PRD
Noise			
4.11-1: Short-Term Construction-Generated Noise Levels. Although impacts related to short-term construction-generated noise were considered to be less than significant with implementation of the project, the following mitigation is provided to ensure impacts remain at a less-than-significant level. Construction contractors shall implement the following measures during construction activities.	The project contractor shall maintain construction equipment per manufacturers' specifications and fitted with the best available noise suppression devices (i.e., mufflers, silencers, wraps, etc)	During construction activities	PRD
► Construction equipment shall be properly maintained per manufacturers' specifications and fitted with the best available noise suppression devices (i.e., mufflers, silencers, wraps, etc). Shroud or shield all impact tools, and muffle or shield all intake and exhaust ports on power equipment.	The project contractor shall Shroud or shield all impact tools, and muffle or shield all intake and exhaust ports on power equipment	During construction activities	PRD

PRD = Planning and Redevelopment Department PWD = Public Works Department

Table 1
Downtown Roseville Specific Plan Project Mitigation Monitoring Program

Mitigation Measure	Implementation	Timing	Reviewing Party
► Construction operations and related activities associated with the proposed project shall comply with the operational hours outlined in the City of Roseville Municipal Code Noise Ordinance; construction operations shall be limited to between the hours of 7 a.m. and 7 p.m. Monday through Friday and between 8 a.m. and 8 p.m. Saturday and Sunday.	The project contractor shall comply with the operational hours outlined in the City of Roseville Municipal Code Noise Ordinance	During construction activities	PRD
	The project contractor shall restrict construction activities to between the hours of 7 a.m. and 7 p.m. Monday through Friday and between 8 a.m. and 8 p.m. Saturday and Sunday	During construction activities	PRD
► Construction equipment should not be idled for extended periods of time in the vicinity of noise-sensitive receptors.	The project contractor shall restrict construction equipment from idling for extended periods of time in the vicinity of noise-sensitive receptors	During construction activities	PRD
► Locate fixed and/or stationary equipment as far as possible from noise sensitive receptors (e.g., generators, compressors, rock crushers, cement mixers). Shroud or shield all impact tools, and muffle or shield all intake and exhaust ports on powered construction equipment.	The project contractor shall locate fixed and/or stationary equipment as far as possible from noise sensitive receptors (e.g., generators, compressors, rock crushers, cement mixers).	During construction activities	PRD
	The project contractor shall shroud or shield all impact tools, and muffle or shield all intake and exhaust ports on powered construction equipment.	During construction activities	PRD

PRD = Planning and Redevelopment Department PWD = Public Works Department

Table 1
Downtown Roseville Specific Plan Project Mitigation Monitoring Program

Mitigation Measure	Implementation	Timing	Reviewing Party
► Where feasible, temporary barriers shall be placed as close to the noise source or as close to the receptor as possible and break the line of sight between the source and receptor where modeled levels exceed applicable standards. Acoustical barriers shall be constructed material having a minimum surface weight of 2 pounds per square foot or greater, and a demonstrated Sound Transmission Class (STC) rating of 25 or greater as defined by American Society for Testing and Materials (ASTM) Test Method E90. Placement, orientation, size, and density of acoustical barriers shall be specified by a qualified acoustical consultant.	The project contractor shall place temporary barriers as close to the noise source or as close to the receptor as possible and break the line of sight between the source and receptor where modeled levels exceed applicable standards	During construction activities	PRD
	The project contractor shall construct acoustical barriers, as needed, with material having a minimum surface weight of 2 pounds per square foot or greater, and a demonstrated Sound Transmission Class (STC) rating of 25 or greater as defined by American Society for Testing and Materials (ASTM) Test Method E90	During construction activities	PRD
	The project contractor shall acquire expertise of qualified acoustical consultant for placement, orientation, size, and density of acoustical barriers, as needed	During construction activities	PRD
4.11-3: Long-Term Operational Stationary Source Noise Levels. Project applicant(s) for industrial and commercial/office land uses shall implement the following measures to reduce exposure of sensitive receptors to excessive noise levels from future stationary sources.	The applicant shall determine if the proposed use would likely generate noise levels adversely affecting the adjacent noise-sensitive uses	Prior to issuance of use permit	PRD
1. Industrial and Commercial/Office Land Uses. Where these land uses adjoin common property lines with noise-sensitive uses, the following mitigation measures shall be incorporated into the project design to reduce noise exposure from future stationary sources. a. During project review the City's Planning Department shall determine if the proposed use would likely generate noise levels adversely affecting the adjacent noise-sensitive uses. If a proposed project has the potential to generate or expose noise-sensitive uses to noise levels	The applicant shall prepare a site-specific acoustical analysis, If a proposed project has the potential to generate or expose noise-sensitive uses to noise levels exceeding the City of Roseville noise standards or result in a substantial (3 dB or greater)	Prior to issuance of use permit	PRD

PRD = Planning and Redevelopment Department PWD = Public Works Department

Table 1
Downtown Roseville Specific Plan Project Mitigation Monitoring Program

Mitigation Measure	Implementation	Timing	Reviewing Party
exceeding the City of Roseville noise standards (Tables 4.11-4 through 4.11-6) or result in a substantial (3 dB or greater) permanent increase in ambient noise levels, the project applicant shall prepare a site-specific acoustical analysis. The acoustical analysis shall be conducted in accordance with the City of Roseville General Plan requirements shown in Table 4.11-5.	permanent increase in ambient noise levels		
b. Loading and unloading areas shall be located so that commercial buildings shield nearby residential land uses from noise generated by loading dock and delivery activities. If necessary, additional sound barriers shall be constructed on the commercial sites to protect nearby noise-sensitive uses.	The applicant shall locate loading and unloading areas so that commercial buildings shield nearby residential land uses from noise generated by loading dock and delivery activities	Prior to issuance of use permit	PRD
c. Loading dock activity and delivery truck activity at the commercial uses developed on the project site shall only occur during the daytime hours of 7 a.m. to 10 p.m., in order to prevent evening and nighttime sleep disturbance at nearby residential land uses.	The applicant shall restrict loading dock activity and delivery truck activity at the commercial uses to only occur during the daytime hours of 7 a.m. to 10 p.m.	During project operation	PRD
d. All commercial HVAC machinery shall be located within mechanical equipment rooms wherever possible. Equipment manufacturer's specifications for venting and access to outside air shall be maintained.	The applicant shall locate all commercial HVAC machinery within mechanical equipment rooms wherever possible	Prior to issuance of use permit	PRD
	The applicant shall maintain equipment manufacturer's specifications for venting and access to outside air	During project operation	PRD
e. Localized noise barriers or rooftop parapets shall be constructed around the HVAC, cooling towers, and mechanical equipment so that line-of-site to the noise source from the property line of the noise-sensitive receptors is blocked. Equipment manufacturer's specifications for venting and access to outside air shall be maintained.	The applicant shall construct localized noise barriers or rooftop parapets around the HVAC, cooling towers, and mechanical equipment	Prior to issuance of use permit	PRD

PRD = Planning and Redevelopment Department PWD = Public Works Department

Table 1
Downtown Roseville Specific Plan Project Mitigation Monitoring Program

Mitigation Measure	Implementation	Timing	Reviewing Party
f. Property maintenance activities at commercial and office uses shall be restricted to daytime hours between 8 a.m. and 9 p.m.	The applicant shall restrict maintenance activities at commercial and office uses to daytime hours between 8 a.m. and 9 p.m.	During project operation	PRD
g. The owner or developer of any mixed-use building containing residential units shall provide written notice to all future residents, occupants, and users that the surrounding area may be subject to levels of noise associated with commercial uses at higher levels than would be expected in residential areas.	The applicant shall provide notice to all future residents, occupants, and users that the surrounding area	Prior to issuance of occupancy permit	PRD
Project applicant(s) for parking structures shall implement the following measures to reduce exposure of sensitive receptors to excessive noise levels from future stationary sources.	The applicant shall orientate parking structures so that nearby noise-sensitive receptors would be shielded from all on-site circulation routes	Prior to issuance of use permit	PRD
2. Parking Structures. Parking structures located in the immediate vicinity of noise-sensitive land uses shall include the following mitigation measures.			
a. Orientate parking structures so that nearby noise-sensitive receptors would be shielded from all on-site circulation routes (entrances, exits, and internal routes). If maintaining visibility is required transparent acoustical screens shall be installed on openings with direct line-of-sight to noise-sensitive receptors.			
b. Parking structures driveways and entrances shall be located so that the structure serves as a barrier to nearby noise-sensitive receptors.	The applicant shall locate parking structures driveways and entrances to act as a barrier to nearby noise-sensitive receptors	Prior to issuance of use permit	PRD
c. Interior reflective surfaces (i.e., ceilings), exposing nearby noise-sensitive receptors to elevated noise levels shall have an acoustically absorptive treatment, such as spray-in cellulose applied.	The applicant shall apply acoustically absorptive treatment to interior reflective surfaces	Prior to issuance of building permit	PRD
d. Parking structure capacity shall be limited during more sensitive evening and nighttime hours (7 p.m. to 7 a.m.). (i.e., 50% capacity from 7 p.m. to 10 p.m., 30% capacity from 10 p.m. to 7 a.m.).	The City of Roseville shall limit parking structure capacity during more sensitive evening and nighttime hours	During project operation	PRD

PRD = Planning and Redevelopment Department PWD = Public Works Department

Table 1
Downtown Roseville Specific Plan Project Mitigation Monitoring Program

Mitigation Measure	Implementation	Timing	Reviewing Party
e. To ensure compliance, further analysis of on-site noise generation from the proposed parking structures shall be conducted when tentative maps become available.	The City of Roseville shall conduct noise analysis of on-site noise generation from the proposed parking structures	During project operation	PRD
4.11-4: Land Use Compatibility of On-site Sensitive Receptors with Future Traffic Noise Levels. Project applicant(s) shall implement the following measures to substantially reduce the exposure of sensitive receptors to excessive roadway traffic noise levels.	The applicant shall determine if the proposed land use would potentially be exposed to noise levels exceeding the City's noise level standards	Prior to issuance of use permit	PRD
► During project review, the City's planning staff shall determine if the proposed land use would potentially be exposed to noise levels exceeding the City's noise level standards. If a proposed project has the potential to generate or be exposed to noise levels exceeding the City of Roseville noise standards (refer to Tables 4.11-4 through 4.11-6) or result in a substantial permanent increase in ambient noise levels (3 dB or greater), the project applicant shall prepare a site-specific acoustical analysis. The acoustical analysis shall be conducted in accordance with the City of Roseville General Plan requirements shown in Table 4.11-5.	The applicant shall prepare a site-specific acoustical analysis, if a proposed project has the potential to generate or expose noise-sensitive uses to noise levels exceeding the City of Roseville noise standards or result in a substantial (3 dB or greater) permanent increase in ambient noise levels	Prior to issuance of use permit	PRD
► Disclose all transportation noise (i.e., roadway, railway, race track), vibration levels, and their meanings to purchasers and/or renters prior to contract or title transfer for residential property within the Plan area.	The applicant shall disclose all transportation noise (i.e., roadway, railway, race track), vibration levels, and their meanings to purchasers and/or renters prior to contract or title transfer for residential property	Prior to issuance of use permit	PRD
► Incorporate site specific design considerations to reduce exterior noise exposure levels. Site design shall include the following measures as applicable to the project-specific site and when feasible: • Common outdoor activity areas, such as play structures, swimming pools, or other outdoor congregation areas included in multi-family residential and/or mixed-use developments shall be located such that the building(s) serve as a sound barrier to the nearest predominant noise source. • Distances between noise sources and noise-sensitive uses shall be maximized through the use of noise buffers/setbacks. Setback areas can	The applicant shall incorporate site specific design considerations to reduce exterior noise exposure levels	Prior to issuance of use permit	PRD

PRD = Planning and Redevelopment Department PWD = Public Works Department

Table 1
Downtown Roseville Specific Plan Project Mitigation Monitoring Program

Mitigation Measure	Implementation	Timing	Reviewing Party
take the form of open space, frontage roads, recreational areas, storage yards, or other City approved setback. • Noise barriers shall be constructed to provide shielding of noise-sensitive uses and outdoor activity areas. Barriers may include manmade walls, earthen berms, a combination of walls and berms, and other structures breaking line of sight from noise source to receptor. Barriers shall be located in close proximity to either the noise source or the sensitive receptor. • A site specific acoustical analysis shall be performed consistent with Table 4.11-5, and determine effectiveness of various site design measures based on specific construction plans.	The applicant shall conduct site-specific acoustical analysis to determine effectiveness of various site design measures based on specific construction plans	Prior to issuance of use permit	PRD
4.11-5: Land Use Compatibility of On-site Sensitive Receptors with Future Railroad Noise Levels. Implement mitigation measure 4.11-4 to reduce the exposure of sensitive receptors (i.e., residential, mixed-use development) to significant noise associated with future railroad and rail yard operations.	The applicant shall conduct actions listed above for 4.11-4: Land Use Compatibility of On-site Sensitive Receptors with Future Traffic Noise Levels	Prior to issuance of use permit	PRD
4.11-6: Future Interior Noise Levels at On-site Sensitive Receptors. Project applicant(s) shall implement the following measures for all noise-sensitive land uses with direct exposure to roadways, parking areas, and railways and exterior noise levels greater than 70 dB Ldn: ► All residential uses shall be constructed with air conditioning and mechanical ventilation systems that allow for windows and doors to remain closed and achieve acoustical isolation from traffic and railroad noise. The systems shall allow for the introduction of fresh outside air, without the requirement of open windows. Access to outside air shall be automatically controlled to prevent unintentionally flowing seasonally hot or cold into conditioned space.	The applicant shall construct residential uses with air conditioning and mechanical ventilation systems that allow for windows and doors to remain closed and achieve acoustical isolation from traffic and railroad noise	Prior to issuance of building permit	PRD
► Attic vents direct exposure to elevated noise levels shall be acoustically baffled, containing at least one 90 degree obstruction to the flow of air. The baffle shall be fitted with an acoustically absorbent liner.	The applicant shall acoustically baffle attic vents	Prior to issuance of building permit	PRD
► Exterior walls shall be constructed of a three-coat stucco or wood siding with an exterior underlayment or sound board.	The applicant shall construct exterior walls shall be constructed of a three-coat stucco	Prior to issuance of building permit	PRD

PRD = Planning and Redevelopment Department PWD = Public Works Department

Table 1
Downtown Roseville Specific Plan Project Mitigation Monitoring Program

Mitigation Measure	Implementation	Timing	Reviewing Party
	or wood siding with an exterior underlayment or sound board		
► All residential windows and doors with direct exposure to elevated noise levels shall be required to meet a minimum STC rating of 34.	The applicant shall design residential windows and doors with direct exposure to elevated noise levels to meet a minimum STC rating of 34	Prior to issuance of building permit	PRD
► Windows and sliding glass doors shall be mounted in low infiltration rate frames (0.5 cubic feet per minute or less, per ANSI specifications).	The applicant shall mount windows and sliding glass doors in low infiltration rate frames (0.5 cubic feet per minute or less, per ANSI specifications)	Prior to issuance of building permit	PRD
► Exterior doors shall be solid core with perimeter weather-stripping and threshold seals.	The applicant shall design exterior doors to be solid core with perimeter weather-stripping and threshold seals	Prior to issuance of building permit	PRD
► The City shall require project applicants to submit an acoustical analysis which verifies compliance with the City of Roseville interior noise level standard of 45 dB L_{dn}. The analysis shall be based on detailed construction plans and site configuration details, and be conducted by a qualified acoustical consultant.	The applicant shall prepare and submit an acoustical analysis which verifies compliance with the City of Roseville interior noise level standard of 45 dB L_{dn}.	Prior to issuance of building permit	PRD
Ground-Borne Noise and Vibration Levels at Sensitive Receptors. Project applicant(s) shall implement the following measures to reduce the potential for human annoyance and architectural/structural damage resulting from elevated ground-borne noise and vibration levels.	The applicant shall utilize alternative installation methods were possible for pile driving required within a 50-foot radius of historic structures	During construction activities	PRD
► Construction-Induced Vibration: • Pile driving required within a 50-foot radius of historic structures should utilize alternative installation methods were possible (e.g., pile cushioning, jetting, pre-drilling, cast-in-place systems, resonance-free vibratory pile drivers). Specifically, geo pier style cast in place systems shall be used where feasible as an alternative to pile driving to reduce the number and amplitude of impacts required for seating the pile.	The project contractor shall record the pre-existing condition of all buildings within a 50-foot radius, and historical buildings within the immediate vicinity of proposed construction activities	Prior to construction activities	PRD
• The pre-existing condition of all buildings within a 50-foot radius, and historical buildings within the immediate vicinity of proposed construction activities shall be recorded in the form of a preconstruction	The project contractor shall document fixtures and finishes within a 50-foot radius of construction activities susceptible to damage	Prior to construction activities	PRD

PRD = Planning and Redevelopment Department PWD = Public Works Department

Table 1
Downtown Roseville Specific Plan Project Mitigation Monitoring Program

Mitigation Measure	Implementation	Timing	Reviewing Party
survey. The preconstruction survey shall determine conditions that exist			
before construction begins for use in evaluating damage caused by construction activities. Fixtures and finishes within a 50-foot radius of construction activities susceptible to damage shall be documented (photographically and in writing) prior to construction. All damage will be repaired back to its pre-existing condition.	The project contractor shall repair all damage back to its pre-existing condition	Within 30 days after completion of construction activities	PRD
• Vibration monitoring shall be conducted prior to and during pile driving operations occurring within 100 feet of the historic structures. Every attempt shall be made to limit construction generated vibration levels in accordance with Caltrans recommendations during pile driving and impact activities in the vicinity of the historic structures.	The project contractor shall conduct vibration monitoring prior to and during pile driving operations occurring within 100 feet of the historic structures	Prior to and during construction activities	PRD
• Provide protective coverings or temporary shoring of on-site or adjacent historic features as necessary, in consultation with the Preservation Director.	The project contractor shall provide protective coverings or temporary shoring of on-site or adjacent historic features	During construction activities	PRD
► Railroad Induced Vibration:	The applicant shall locate vibration sensitive uses a minimum of 100 feet from the UPRR centerline	Prior to issuance of use permit	PRD
• Vibration sensitive uses shall be located a minimum of 100 feet from the UPRR centerline. To ensure compliance with FTA and Caltrans recommended guidelines, and site specific ground-borne noise and vibration assessment should be conducted.			
• A ground-borne vibration assessment shall be conducted at proposed building pad locations within 200 feet of UPRR right of ways, prior to project approval. Vibration monitoring and assessment shall be conducted by a qualified noise and vibration control engineer.	The applicant shall conduct ground-borne vibration assessment, by a qualified noise and vibration control engineer, at proposed building pad locations within 200 feet of UPRR right of ways	Prior to issuance of use permit	PRD
Hydrology and Water Quality			
4.12-5: Expose People or Structures to a Significant Risk of Flooding. All habitable structures constructed in the Plan area shall be located outside the adjusted 100-year flood plain as identified in the *Downtown Specific Plan Hydraulic Study* (RBF 2008) prepared for the Downtown Roseville Specific Plan. Additional encroachment into areas within the adjusted 100-year flood plain shall require site specific hydraulic modeling. Specific structures identified in the Downtown Roseville Specific Plan shall be prohibited from being constructed inside the adjusted 100-year flood plain unless evaluated and	The applicant shall locate all habitable structures constructed in the Plan area outside the adjusted 100-year flood plain as identified in the *Downtown Specific Plan Hydraulic Study* (RBF 2008) prepared for the Downtown Roseville Specific	Prior to issuance of use permit	PRD

PRD = Planning and Redevelopment Department PWD = Public Works Department

Mitigation Measure	Implementation	Timing	Reviewing Party
	Plan		
approved through project specific hydraulic modeling including structures associated with mixed-use development and high-density residential.	The applicant shall conduct site specific hydraulic modeling when additional encroachment into areas within the adjusted 100-year flood plain is required	Prior to issuance of use permit	PRD
4.12-6: Proposed Project Structures within the 100-year Flood Zone Could Impede or Redirect Flood Flows. To prevent impeding or redirecting storm water flows in Dry Creek, the following actions shall be implemented for design and construction of improvements identified in the Downtown Roseville Specific Plan adjacent to Dry Creek.	The applicant shall construct Creek Walk at the existing top of bank elevation for Dry Creek and make the area south of the new library bridge inaccessible during major storm events	Prior to construction activities	PWD
1. The Creek Walk identified in the Downtown Roseville Specific Plan shall be constructed at the existing top of bank elevation for Dry Creek and the area south of the new library bridge shall be made inaccessible during major storm events.	The applicant shall align all pedestrian bridges and the grand staircase to prevent increased 100-year flood water surface elevations in Dry Creek	Prior to construction activities	PWD
2. All pedestrian bridges in the Specific Plan area and the grand staircase shall be aligned to prevent increased 100-year flood water surface elevations in Dry Creek. Additional hydraulic analyses shall be conducted for the new pedestrian bridge alignments that are inconsistent with the RBF hydraulic analysis.	The applicant shall conduct hydraulic analyses for new pedestrian bridge alignments if inconsistent with the RBF hydraulic analysis	Prior to construction activities	PWD
3. Prior to any golf course related development activities in Saugstad Park, a site-specific hydraulic analysis or other acceptable analysis shall be conducted for a more specific golf course development plan to ensure that there is no risk of impeding or redirecting flood flows. This future analysis shall be reviewed and approved by the City's Public Works Department.	The applicant shall conduct hydraulic analyses for a more specific golf course development plan to ensure that there is no risk of impeding or redirecting flood flows	Prior to construction activities	PWD
	The applicant shall submit the hydraulic analyses for a more specific golf course development plan to PWD for review and approval	Prior to construction activities	PWD
4.12-7: Inundation by Seiche, Tsunami, or Mudflow. Implement Mitigation Measure 4.4-3.	The applicant shall hire a qualified, licensed geotechnical engineer to map the Dry Creek corridor for clay-rich, weak soils,	Prior to any construction or grading activities occurring in Dry Creek	PWD

Item ID: 2026-409

Title:	Storm Drain Repair Project - Approval of Plans and Authorization to Call for Bids
Contact:	Joseph Arino 916-774-5460 jarino@roseville.ca.us

SUMMARY

Staff recommends approval of the plans and specifications for the Storm Drain Repair Project, and authorize staff to call for bids. The project scope includes the rehabilitation of existing drainage systems and construction of new drainage systems. The project is estimated to cost $1,660,000. The project will be funded by General Fund Capital Improvement Program Rehabilitation Funding and Highway User Tax Funds. If approved, construction is anticipated to begin in late summer of 2026.

RECOMMENDATION

Staff recommends City Council approve the plans and specifications for the Storm Drain Repair Project, and authorize staff to call for bids.

BACKGROUND

The Storm Drain Repair Project (SDRP) consists of a combination of rehabilitation of existing storm drain systems and construction of new storm drain systems to reduce flooding. The existing drainage systems will be cleaned and receive a cure-in-place pipe liner to seal the length of the system to increase the life span of the pipe segment. New drainage systems will consist of a combination of curb & gutter, drain inlets, manholes, and mainline storm drain pipe.

Existing storm drain segments to be rehabilitated are generally located in the following areas:

- Royer Park: From the intersection of Park Dr & Claiborne Ave to just before Dry Creek.
- Crestmont Ave: In the backyards of residential homes, from Edgemont Way to Sheffield Way.

New storm drain segments to be constructed are generally located in the following areas:

- Piedmont Way: Connecting to the existing sytem at Piedmont Way & Sheridan Ave to an existing outfall at South Cirby Way.
- East St: Extending into the alley within an easement between 404 and 406 East St and connecting into an existing system in East St.
- PFE Rd: From 1961 PFE Rd and extending to the intersection of PFE Rd and Hilltop Circle.

Construction is anticipated to begin in late summer of 2026.

Public Works staff will work closely with our Public Affairs and Communications team to keep the community and stakeholders informed of the project and its impacts.

For more project information, visit roseville.ca.gov/drainage.

FISCAL IMPACT

The engineer's estimate for this project is $1,660,000. Once bids have been received, staff may submit a budget adjustment when the project is brought to City Council for award. Funding for the project is from the General Fund Capital Improvement Program Rehabilitation Funding and the Highway User Tax Fund.

ENVIRONMENTAL REVIEW

The project qualifies for Class 1, Class 3, and Class 4 Categorical Exemptions as described in Sections 15301, 15303, and 15304 of the California Environmental Quality Act (CEQA) guidelines which states:

The proposed project involves the repair, maintenance, or minor alteration of an existing facility (Class 1 Exemption State CEQA Guidelines Section 15301), construction of a limited number of small facilities (Class 3 Exemption State CEQA Guidelines Section 15303), and minor alteration in the condition of the land, water, and or vegetation which will not remove healthy, mature scenic trees (Class 4 Exemption State CEQA Guidelines Section 15304). The Exemption has been prepared and no further CEQA action is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

1. Ensure a safe and healthy community
4. Invest in well-planned infrastructure and growth

Respectfully Submitted,
Joseph Arino, Assistant Engineer

Jason Shykowski, Public Works Director

CITY OF ROSEVILLE
PUBLIC IMPROVEMENTS REQUIREMENTS

GENERAL NOTES:

ALL CONSTRUCTION SHALL CONFORM TO THESE PLANS, THE MOST CURRENT EDITION OF THE CITY OF ROSEVILLE STANDARD CONSTRUCTION SPECIFICATIONS, MOST CURRENT EDITION OF THE CITY OF ROSEVILLE DESIGN AND CONSTRUCTION STANDARDS, AND THE 2015 STATE OF CALIFORNIA STANDARD PLANS, SPECIFICATIONS AND SPECIAL PROVISIONS, AND AMENDMENTS TO THE 2015 STATE OF CALIFORNIA STANDARD PLANS, SPECIFICATIONS AND SPECIAL PROVISIONS. THE CONTRACTOR SHALL HAVE SIGNED PLANS IN POSSESSION PRIOR TO BEGINNING WORK.

THE CITY OF ROSEVILLE IS A MEMBER OF THE UNDERGROUND SERVICE ALERT (U.S.A.) ONE-CALL PROGRAM. THE CONTRACTOR OR ANY SUBCONTRACTOR FOR THIS CONTRACT SHALL NOTIFY MEMBERS OF U.S.A. 48 HOURS IN ADVANCE OF PERFORMING EXCAVATION WORK BY CALLING TOLL-FREE NUMBER: (800) 642-2444.

THE CONTRACTOR SHALL MARK ALL AREAS TO BE EXCAVATED PRIOR TO CONTACTING U.S.A. ANY AREAS NOT MARKED WILL NOT BE SUBJECT TO U.S.A. AND THE CONTRACTOR SHALL BE RESPONSIBLE FOR ANY DAMAGE RESULTING FROM EXCAVATION.

THE TYPES, LOCATIONS AND/OR DEPTHS OF EXISTING UNDERGROUND UTILITIES AS SHOWN ON THESE IMPROVEMENT PLANS WERE OBTAINED FROM SOURCES OF VARYING RELIABILITY. THE CONTRACTOR IS CAUTIONED THAT ONLY ACTUAL EXCAVATION WILL REVEAL THE TYPES, EXTENT, SIZES, LOCATIONS, AND DEPTHS OF SUCH UNDERGROUND UTILITIES. A REASONABLE EFFORT HAS BEEN MADE TO LOCATE AND DELINEATE ALL KNOWN UTILITIES. HOWEVER, THE ENGINEER CAN ASSUME NO RESPONSIBILITY FOR THE COMPLETENESS OR ACCURACY OF THE DELINEATION OF SUCH UNDERGROUND UTILITIES WHICH MAY BE ENCOUNTERED BUT WHICH ARE NOT SHOWN ON THESE DRAWINGS.

THE CONTRACTOR SHALL EXPOSE AND VERIFY LOCATIONS AND ELEVATIONS OF EXISTING UNDERGROUND UTILITIES PRIOR TO CONSTRUCTION OF THE NEW IMPROVEMENTS, CONNECTING TO EXISTING IMPROVEMENTS AND UTILITIES.

THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE PROTECTION OF ALL EXISTING MONUMENTS, OTHER SURVEY MARKERS, STREET SIGNS AND OTHER IMPORTANT OBJECTS ON THE JOB SITE.

A.C. SURFACE SHALL BE CUT TO A NEAT, STRAIGHT LINE PARALLEL WITH OR PERPENDICULAR TO THE STREET CENTERLINE AND THE EXPOSED EDGE SHALL BE TACKED WITH EMULSION PRIOR TO PAVING. THE EXPOSED BASE MATERIAL SHALL BE GRADED, RECOMPACTED, AND RESEALED PRIOR TO PAVING.

THE CONTRACTOR SHALL SUBMIT A TRAFFIC MANAGEMENT PLAN WHICH SHALL BE ACCEPTED BY THE CITY OF ROSEVILLE PUBLIC WORKS ENGINEERING DIVISION BEFORE START OF WORK IN THE RIGHT-OF-WAY AND SHALL BE IN ACCORDANCE WITH THE LATEST EDITION, WITH REVISIONS, OF THE CALIFORNIA MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES. IF, AS PART OF TRAFFIC CONTROL MEASURES, A ROADWAY CLOSURE HAS BEEN APPROVED, THE CONTRACTOR SHALL NOTIFY THE ENGINEERING DIVISION INSPECTOR 72 HOURS IN ADVANCE OF SETTING UP THE CLOSURE.

ALL EXISTING CONCRETE SURFACE TO BE REMOVED SHALL BE SAW CUT TO A NEAT, STRAIGHT LINE AND SHALL BE REMOVED TO THE ADJACENT JOINTS.

THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE PROTECTION OF ALL PEDESTRIANS, VEHICULAR TRAFFIC, EXISTING LANDSCAPE, AND SURVEY MARKERS WITHIN THE CONSTRUCTION LIMITS.

UTILITIES LOCATIONS ARE TAKEN FROM CITY AS-BUILT DRAWINGS AND FIELD REVIEWS. LOCATIONS OF THE GROUND FEATURES (MH, VALVES, ETC.) ARE APPROXIMATE AND SHOULD BE FIELD VERIFIED BY THE CONTRACTOR.

CONTRACTOR SHALL LOCATE AND PROTECT IN PLACE ALL DETECTOR HANDHOLES WITHIN THE PROJECT LIMITS. DETECTOR HANDHOLES DAMAGED BY THE CONTRACTOR SHALL BE REPLACED AT THE CONTRACTORS EXPENSE.

STANDARD GENERAL NOTES:

THE CONTRACTOR AGREES THAT, IN ACCORDANCE WITH GENERALLY ACCEPTED CONSTRUCTION PRACTICES, THE CONTRACTOR WILL BE REQUIRED TO ASSUME SOLE AND COMPLETE RESPONSIBILITY FOR JOB SITE CONDITIONS DURING THE COURSE OF CONSTRUCTION OF THE PROJECT, INCLUDING SAFETY OF ALL PERSONS AND PROPERTY. THIS REQUIREMENT SHALL BE MADE TO APPLY CONTINUOUSLY AND NOT BE LIMITED TO NORMAL WORKING HOURS. THE CONTRACTOR FURTHER AGREES TO DEFEND, INDEMNIFY AND HOLD OWNER AND ENGINEER HARMLESS FROM ANY AND ALL LIABILITY REAL OR ALLEGED, IN CONNECTION WITH THE PERFORMANCE OF WORK ON THIS PROJECT, EXEMPTING LIABILITY ARISING FORM THE SOLE NEGLIGENCE OF ENGINEER.

EXCAVATIONS SHALL BE ADEQUATELY SHORED, BRACED AND SHEETED SO THAT THE EARTH WILL NOT SLIDE OR SETTLE AND SO THAT ALL EXISTING IMPROVEMENTS OF ANY KIND WILL BE FULLY PROTECTED FROM DAMAGE. ANY DAMAGE RESULTING FROM A LACK OF ADEQUATE SHORING, BRACING AND SHEETING, SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR AND HE SHALL EFFECT NECESSARY REPAIRS OR RECONSTRUCTION AT HIS OWN EXPENSE. THE CONTRACTOR SHALL PROVIDE ADEQUATE SHEETING, SHORING, AND BRACING OR EQUIVALENT METHOD, FOR THE PROTECTION OF LIFE OR LIMB, WHICH SHALL CONFORM TO THE APPLICABLE CONSTRUCTION SAFETY ORDERS OF THE DIVISION OF INDUSTRIAL SAFETY OF THE STATE OF CALIFORNIA. THE CONTRACTOR SHALL ALWAYS COMPLY WITH OSHA REQUIREMENTS AND SHALL PROVIDE THE CITY OF ROSEVILLE WITH A COPY OF THE OSHA PERMIT.

IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO OBTAIN ALL PERMITS NECESSARY TO PERFORM THE WORK SHOWN ON THESE PLANS FROM THE APPROPRIATE AGENCIES. REFER TO THE SPECIAL PROVISIONS FOR PERMITS NEEDED.

THE CONTRACTOR SHALL PROVIDE ALL LIGHTS, SIGNS, BARRICADES, FLAGGERS OR OTHER DEVICES NECESSARY TO PROVIDE FOR SAFETY.

THE CONTRACTOR SHALL POST EMERGENCY TELEPHONE NUMBERS FOR POLICE, FIRE, AMBULANCE, AND THOSE AGENCIES RESPONSIBLE FOR MAINTENANCE OF UTILITIES IN THE VICINITY OF THE JOB SITE.

STATIONING HEREON IS ALONG STREET CENTERLINE UNLESS OTHERWISE SHOWN OR INDICATED. ALL STATIONING IS APPROXIMATE.

ALL EXISTING UTILITIES AND IMPROVEMENTS THAT BECOME DAMAGED DURING CONSTRUCTION SHALL BE COMPLETELY RESTORED TO THE CITY OF ROSEVILLE CURRENT STANDARDS AND TO THE SATISFACTION OF THE ENGINEER, AT THE CONTRACTOR'S SOLE EXPENSE.

IF ARCHEOLOGICAL MATERIALS ARE UNCOVERED DURING GRADING, TRENCHING OR OTHER EXCAVATION, EARTHWORK WITHIN 100 FEET OF THESE MATERIALS SHALL BE STOPPED UNTIL A PROFESSIONAL ARCHEOLOGIST WHO IS CERTIFIED BY THE SOCIETY OF CALIFORNIA ARCHEOLOGY (SCA) AND/OR THE SOCIETY OF PROFESSIONAL ARCHEOLOGY (SOPA) HAS HAD AN OPPORTUNITY TO EVALUATE THE SIGNIFICANCE OF THE FIND AND SUGGEST APPROPRIATE MITIGATION MEASURES, IF THEY ARE DEEMED NECESSARY. IN ACCORDANCE WITH SECTION 21-2E OF THE CITY OF ROSEVILLE CONSTRUCTION STANDARDS, THE ROSEVILLE COMMUNITY DEVELOPMENT DEPARTMENT SHALL BE CONTACTED IMMEDIATELY.

THE CONTRACTOR SHALL MEET AND FOLLOW THE ENVIRONMENTAL PROTECTION AGENCY'S (EPA) NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) REQUIREMENTS IN EFFECT AT THE TIME OF CONSTRUCTION.

SHOULD IT APPEAR THAT THE WORK TO BE DONE OR ANY MATTER RELATIVE THERETO IS NOT SUFFICIENTLY DETAILED OR EXPLAINED ON THESE PLANS, THE CONTRACTOR SHALL REQUEST IN WRITING FROM THE ENGINEER SUCH FURTHER EXPLANATIONS AS MAY BE NECESSARY.

STRIPING NOTES:

UNLESS OTHERWISE NOTED ON THE PLANS, THE CONTRACTOR SHALL REPLACE ALL PAVEMENT DELINEATION ON THE SAME ALIGNMENT. BEFORE OBLITERATING ANY PAVEMENT DELINEATION, THE LOCATION OF THE PAVEMENT DELINEATION SHALL BE REFERENCED BY THE CONTRACTOR WITH A SUFFICIENT NUMBER OF CONTROL POINTS TO REESTABLISH THE ALIGNMENT. THE REFERENCES SHALL ALSO INCLUDE THE LIMITS OR CHANGES IN STRIPING PATTERN, INCLUDING ONE- AND TWO-WAY BARRIER LINES, LIMIT LINES, CROSSWALKS, AND OTHER PAVEMENT MARKINGS.

CONTRACTOR SHALL REMOVE ALL EXISTING NON-CONFORMING STRIPING (BY GRINDING) AND PAVEMENT MARKERS AND ALL EXISTING STRIPING THAT CONFLICTS WITH THE PROPOSED STRIPING.

ALL RAISED PAVEMENT MARKERS SHALL BE FURNISHED AND INSTALLED AT THE CONTRACTOR'S EXPENSE AND SHALL BE AS SPECIFIED BY THE CITY OF ROSEVILLE CONSTRUCTION STANDARDS AND THE TRAFFIC MANUAL OF THE DEPARTMENT OF TRANSPORTATION OF THE STATE OF CALIFORNIA.

ALL TRAFFIC STRIPES, ARROWS, AND PAVEMENT MARKINGS SHALL BE CONSTRUCTED WITH THERMOPLASTIC MATERIAL TO THE SPECIFICATIONS SET FORTH IN SECTION 84 OF THE STATE OF CALIFORNIA DEPARTMENT OF TRANSPORTATION (CALTRANS) STANDARD SPECIFICATIONS. THERMOPLASTIC MATERIAL SHALL BE APPLIED ONLY WHEN THE PAVEMENT SURFACE IS ABOVE 60 DEGREES FAHRENHEIT.

THE CONTRACTOR SHALL BE RESPONSIBLE FOR PROVIDING AND MAINTAINING ALL CONSTRUCTION SIGNING AS REQUIRED BY THE CALTRANS TRAFFIC MANUAL TO DELINEATE CONSTRUCTION HAZARDS AT HIS EXPENSE.

ADDITIONAL NOTES:

PRIOR TO COMMENCEMENT OF GRADING ACTIVITIES, THE CONTRACTOR SHALL HAVE THE EXISTING DRY UTILITIES POT HOLED FOR VERIFICATION OF LOCATION AND DEPTH. AT SUCH TIME, POT HOLE DATA SHALL BE PROVIDED TO THE ENGINEER FOR DETERMINATION OF ADEQUATE CLEARANCE AND SEPARATION

CITY OF ROSEVILLE

DEPARTMENT OF PUBLIC WORKS

Name of Project: STORM DRAIN REPAIR PROJECT

NOTICE TO CONTRACTORS

NOTICE IS HEREBY GIVEN THAT sealed Proposal will be received at the Office of the City Clerk, 311 Vernon Street, Roseville, California, until _____ at 3:00 p.m. Late proposals will be rejected. No exceptions.

The Proposals will be publicly opened and read by the City Clerk or designee of the City of Roseville at 3:05 p.m. on _____, 20__ at the Office of the City Clerk located at 311 Vernon Street, Roseville California for the following project: STORM DRAIN REPAIR PROJECT.

A pre-bid meeting will be held at N/A.

A Project Manual, including all Contract Documents and the Proposal forms for bidding this project, may be obtained on-line from the City of Roseville's website at https://www.roseville.ca.us/business/procurement_services/bids_rfps. All communications relative to this project shall be conducted through Public Purchase.

Bids shall be submitted on the City's Proposal Forms included in the Project Manual, plainly endorsed with the Bidder's name together with signed acknowledgement of any and all addenda. Proposal Forms shall be securely sealed in a suitable envelope marked with the name and address of the Bidder, and marked in capital letters on the front and back of the envelope as follows:

(Name of Bidder)

(Address of Bidder)

Whether mailed or personally delivered, all bids shall be addressed to the City of Roseville, Office of the City Clerk, 311 Vernon Street, Roseville, California, 95678.

Each bid must be accompanied by a Bid Guaranty in the form of a Certificate of Deposit, Certified or Cashier's Check, Bidder's Bond or Irrevocable Standby Letter of Credit in an amount equal to at least ten percent (10%) of the Bidder's Grand Total Price. The Bid Guaranty will be retained by the City and applied to any and all damages sustained by the City in the event that the successful Bidder fails or refuses to enter into the Contract awarded to it and to furnish all required bonds and Certificates of Insurance. The City intends to award the Contract to the lowest responsible Bidder based on the Grand Total Bid Price for all components of the Project. To the extent allowed by law, the City reserves the right to reject any and all bids and/or to waive any irregularities or informalities in any bid or in the bidding procedure. The City specifically reserves the right to not award the Contract after the opening of bids.

Any bid may be withdrawn at any time prior to the time fixed in the public notice for the deadline submission of bids only by written request for the withdrawal of the bid filed with the City Clerk. The request shall be executed by the Bidder or his or her duly authorized representative. The withdrawal of a bid does not prejudice the right of the Bidder to file a new bid by the submission deadline. Whether or not bids are opened exactly at the time fixed in the public notice for opening bids, a bid will not be received after the deadline submission of bids nor may any bid be withdrawn after the time fixed in the public notice for deadline for

submission of bids. Immediately following the deadline for submission of bids all bids shall become the property of the City of Roseville and the City is under no obligation to return bids.

Bids will be examined and reported to the City Council within sixty (60) business days after the bid opening. Except as permitted by applicable law, no Bidder may withdraw its bid for a period of sixty (60) business days after the date of bid opening. Each Bidder will be notified of any award of the Contract by the City.

The City will affirmatively ensure non-discrimination on the basis of one or more of the following: race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, age, sexual orientation, or military and veteran status in the award and administration of contracts that it awards.

Pursuant to Public Contract Code Section 22300, the successful Bidder may submit certain securities in lieu of the City withholding retention of payments during the Project.

The City has determined that the Contractor shall possess a valid Class A GENERAL ENGINEERING Contractor's license at the time that the bid is submitted, as well as any other license classification as may be required by the laws of the California for the performance of the work specified in the Contract Documents. Said license shall be maintained during the Contract period. Failure to possess the specified license shall render the bid nonresponsive and will act as a bar to the award of the Contract to any Bidder not possessing such a license at the time of bid submittal. The Contractor shall provide certification of the license, its number and the expiration date on the proposal form.

The work is to be done in Placer County. Pursuant to California Labor Code Section 1773, the City has ascertained the General Prevailing Rate of Wages in the County in which the work is to be done to be as determined by the Director of Industrial Relations of the State of

California. The Contractor is hereby made aware that information regarding prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm. The Contractor is required to post a copy of the applicable wage rates at the job site. Attention is directed to Section 7 "Legal Relations and Responsibility" of the Standard Construction Specifications.

Pursuant to Labor Code Section 1771.1(b), notice is hereby given that a contractor or subcontractor shall not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any contract for public work, as defined in Labor Code Sections 1720, et seq., unless currently registered and qualified to perform public work pursuant to Labor Code Section 1725.5 or exempt from registration requirements pursuant to Labor Code Section 1725.5(f). It is not a violation of Labor Code Section 1771.1 for an unregistered contractor to submit a bid that is authorized by Section 7029.1 of the Business and Professions Code or by Section 10164 or 20103.5 of the Public Contract Code, provided the contractor is registered to perform work pursuant to Labor Code Section 1725.5 at the time the contract is awarded or is exempt from registration requirements pursuant to Labor Code Section 1725.5(f). The Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

All questions prior to the deadline for bid submissions shall be directed to the attention of Joe Arino via Public Purchase. The deadline for submissions of questions and clarifications regarding the Contract Documents is _____. Only Addenda issued by the City are binding.

INSTRUCTIONS TO BIDDERS

SECTION 1. GENERAL

1-1.01 **GENERAL.** These Instructions to Bidders form a part of the Contract Documents. Capitalized terms are defined in Standard Construction Specifications Section 1.

1-1.02 **EXAMINATION OF PLANS, CONTRACT DOCUMENTS AND SITE OF THE WORK.** The Bidder shall examine carefully the site of the Work and all the Contract Documents, including these Instructions to Bidders, and shall inform itself of the conditions relating to the execution of the Work. Failure to do so will not relieve the successful Bidder of its obligation to enter into an Agreement and complete the Work in strict accordance with the Contract Documents. Conditions relating to the execution of the Work include the requirements of federal, state, and local laws, statutes and ordinances relative to the execution of Work, including, but not limited to, applicable regulations concerning prevailing wage rates, non-discrimination in the employment of labor, protection of the public, employee health and safety, and environmental protection.

The submission of a bid shall be conclusive evidence that the Bidder has investigated and is satisfied as to the conditions to be encountered, as to the character, quality, and scope of Work to be performed, the quantities of materials to be furnished, and as to the requirements of all the Contract Documents.

1-1.03 **EXISTING INFORMATION.** Where the Department has made investigations of site conditions, including subsurface conditions in areas where Work is to be performed under the Contract, such investigations are made only for the purpose of study and design. City does not represent that such conditions as found in these investigations or inferences or conclusions drawn as a result of these investigations will represent actual site

conditions and hereby disclaims any liability as a result of Contractor's or Bidder's reliance on such investigations. City will presume that all Bidders have conducted their own site investigations, including investigations of subsurface conditions. Where such investigations have been made, Bidders or Contractors may, upon written request, inspect the records of the Department as to such investigations subject to the conditions set forth in these Instructions to Bidders. Such inspection of records may be made only at the location noted above. The records of such investigations are not a part of the Contract Documents and are shown solely for the convenience of the Bidder or Contractor. The City assumes no responsibility whatsoever with respect to the sufficiency or accuracy of the investigations made, the records thereof, or of the interpretations set forth therein or made by the City in its use thereof. The City makes no warranty or guarantee, either express or implied, that the conditions indicated by such investigations or records are representative of those existing throughout such areas, or any part thereof, or that unforeseen developments may not occur, or that materials other than, or in proportions different from those indicated, may not be encountered.

No information derived from such inspection of records of investigations or compilation thereof made by the City, the Department or from the Engineer, or his or her assistants, will in any way relieve the Bidder or Contractor from properly examining the site and making such additional investigations as it may elect, or from properly fulfilling the terms of the Contract.

SECTION 2: BID REQUIREMENTS

2-1.01 **PROPOSAL FORMS.** The Department will furnish to each Bidder standard Proposal Forms, which, when filled out and executed may be submitted as the bid. Proposals shall include all pages in the Project Manual with page numbers marked "PROP" plus the Addendum acknowledgment form (front sheet) from all Addenda received by the Bidder. Proposals shall be removed from the Project Manual. The full Project Manual shall not be submitted with the proposal. Bids not presented on forms so furnished will be disregarded.

The Proposal and one (1) copy thereof shall be submitted as directed in the "Notice to Contractors" under sealed cover plainly marked as a Proposal, and identifying the project to which the Proposal relates and the date of the bid opening therefor. Proposals which are not properly marked may be disregarded.

All blank spaces in the Proposal must be completed, as required, in ink. All price information shall be shown, clearly legible, in figures where required.

The Bidder shall sign the Proposal in the blank space provided therefor. If the Bidder is the sole owner, the Proposal shall be signed by the owner. If the Bidder is a corporation, the legal name of the corporation and its State of incorporation shall be set forth and the Proposal shall be signed by at least two officers authorized to sign contracts on behalf of the corporation. If the Bidder is a partnership, the true name of the firm shall be set forth, the names and addresses of all partners shall be given and the Proposal shall be signed by a partner in the firm authorized to sign contracts on behalf of the partnership. If the Bidder is a joint venture, the Proposal shall be signed on behalf of each participating company by officers or other individuals who have the full and proper authorization to do so. If the Proposal is signed by an agent of the Bidder other than an officer of a corporation or a member of a partnership, a notarized Power of

Attorney must be on file with the City prior to opening of bids or must be submitted with the Proposal. If requested by the City, the Bidder shall promptly submit evidence satisfactory to the City of the authority of the person signing the Proposal.

2-1.02 **SUBMISSION OF BIDS.** Bids must be submitted at the prescribed time and location specified in the Notice to Contractors. Any submission received after the prescribed time shall be rejected, regardless of whether or not bids are opened exactly at the prescribed time.

Any unauthorized conditions or qualifications entered on, or changes made to, the Proposal may render it invalid and may cause its rejection.

No telegraphic, telephonic, or facsimile or other electronically transmitted bids will be considered.

2-1.03 **REQUIRED LISTING OF PROPOSED SUBCONTRACTORS.** Each Proposal shall list the name, address and Contractor license number of each Subcontractor to whom the Bidder proposes to subcontract portions of the Work in an amount in excess of one-half of one percent (0.5%) of its total bid, in accordance with Section 4100 to 4114, inclusive, of the Public Contract Code for the State of California. The Bidder shall list the Subcontractor's license number and the portion of the Work that will be done by each Subcontractor. If the Bidder fails to specify a Subcontractor for any portion of the Work, the Bidder agrees to perform that portion of the Work itself, and represents that it is qualified to perform that portion of the Work itself. The Bidder's attention is invited to other provisions of the Public Contract Code related to the imposition of penalties for a failure to observe its provisions by using unauthorized Subcontractors or by making unauthorized substitutions.

2-1.04 **CONTRACTOR'S LICENSING LAWS.** Attention is directed to the provisions of Business and Professions Code Chapter 9 of Division 3 concerning the licensing of Contractors.

All Bidders at the time of bid submittal shall be licensed as Contractors in accordance with the laws of this State. Any Bidder or Contractor not so licensed is subject to the penalties imposed by such laws. The form of Contractor's license required is stated in the Notice to Contractors, provided that the City makes no representation as to whether the State may require other or additional licenses. It is the Bidder's and Contractor's responsibility to obtain the correct Contractor's licenses. Bidders shall be skilled and regularly engaged in the general class or type of Work called for under this Contract.

All Bidders and Contractors, including Subcontractors, shall have a current City business license before undertaking any Work.

2-1.05 **NONCOLLUSION DECLARATION.** By submitting a bid, the Bidder represents and warrants that such bid is genuine and not a sham or collusive or made in the interest or on the behalf of any person therein named, and that the Bidder has not, directly or indirectly, included or solicited any other Bidder to put in a sham bid, or any other person, firm, or corporation to refrain from bidding, and that the Bidder has not in any manner sought collusion to secure the Bidder an advantage over any other Bidder.

Bidders shall submit a properly completed and executed "Noncollusion Declaration" in the form required by Public Contract Code Section 7106 and provided with the Proposal (PROP-11).

2-1.06 **DISQUALIFICATION, REMOVAL OR OTHER PREVENTION OF BIDDING.** A bid may be rejected on the basis of a Bidder, any officer of such Bidder, or any

employee of such Bidder who has a proprietary interest in such Bidder, having been disqualified, removed, or otherwise prevented from bidding on, or completing a federal, state, or local project because of a violation of law or a safety regulation.

2-1.07 **PROPOSAL GUARANTY.** All bids shall be accompanied by one of the following forms of Bidder's security: Cash, a cashier's check, a certified check, or a Bidder's bond executed by an admitted California surety insurer, made payable to the City of Roseville, or any other form of security deemed acceptable by the City Attorney. The security shall be in an amount equal to at least ten percent (10%) of the amount bid. A bid will not be considered unless one of the form of Bidder's security is enclosed with it.

A Bidder's bond shall conform to the City's bond form in the Proposal and shall be properly filled out and executed.

2-1.08 **SCHEDULE OF BID PRICES.** Bidders are directed to submit firm unit and lump sum prices for all Work set forth in the Contract Documents on the Proposal Form entitled "Schedule of Bid Prices."

Unit prices and lump sum prices, as indicated, must be entered in the appropriate spaces provided in the Schedule of Bid Prices. If applicable, unit prices shall be multiplied by the quantities shown, and the total shall be inserted in the Amount column. In the event of any error or discrepancy between the unit price and the calculated amount, the unit prices shall govern. The City may correct any mathematical errors apparent on the face of the bid.

The amounts shown in the Amount column must be added together in arriving at the Grand Total Bid Price.

Amounts for Allowance bid items must be entered in the exact amount in the Amount column.

The prices included within the Schedule of Bid Prices shall include all costs for labor, materials, tools, equipment, services, Subcontractors, suppliers, taxes, insurance, shipment, delivery, overhead, profit, and all other costs necessary to perform the Work in accordance with the Contract Documents.

The Grand Total Bid Price shall be indicated in the Summary table form included with the Schedule of Bid Prices. The Grand Total Bid Price shall be the sum of the amounts bid for each of the designated portions of the Work, as more specifically described on the Schedule of Bid Prices form itself.

Full compensation for complying with the Contract Documents, including requirements of the Standard Specifications, the Standard Construction Specifications, Supplemental Conditions, and all warranties, shall be considered included in the bid items and no additional compensation shall be allowed therefor.

Full compensation for completion of all work as shown on the plans, as specified in the Specifications, and as directed by the City, shall be considered included in the bid items and no additional compensation shall be allowed.

Bidders are strongly discouraged from submitting unbalanced bids. As used herein, the term "unbalanced bid" is defined as any bid that does not include a reasonable proportionate allocation of indirect costs and profit of each bid item indicated in the Schedule of Bid Prices. The City reserves the right to reject any unbalanced bid if the City determines that there is a reasonable doubt that an acceptance of the bid will not result in the lowest ultimate cost to the City with regard to the work or a disproportionate distribution of contract funds.

The City reserves the right to delete any bid item in its entirety and/or significantly reduce the quantity of Work under a bid item. The City makes no representation that any Work

under a bid item will be performed during the course of the Project or that the Work will be performed at the quantities included in the Schedule of Bid Prices. As provided in the Standard Construction Specifications, for any deleted Work, Contractor shall not be entitled to payment of the indirect costs and profit included for said bid item. All bid items shall be considered distinct and severable from the remaining bid items, and each Bidder acts at its peril if its bid is unbalanced.

The City shall compare bids on the basis of the Grand Total Bid Price, which includes the base bid and any alternates designated on the Schedule of Bid Prices. Alternates may or may not be awarded, or may be awarded in any combination, at the City's discretion.

2-1.09 **WITHDRAWAL OF PROPOSALS.** Any bid may be withdrawn at any time prior to the time fixed in the Notice to Contractors for the opening of bids, provided that a request in writing, executed by the Bidder or its duly authorized representative, for the withdrawal of such bid is filed with the City Clerk. Facsimile and electronic mail requests are not acceptable. The withdrawal of a bid shall not prejudice the right of a Bidder to file a new bid. The withdrawal of any bid after the time fixed in the Notice to Contractors for the opening of bids will not be permitted.

2-1.10 **ADDENDUM.** Proposals shall include all costs and account for all Addenda issued prior to opening of bids. The Bidder is responsible for verifying that all issued Addenda have been received. An Addendum acknowledgment form for each Addendum shall be included as part of the Proposal submittal.

2-1.11 **PUBLIC OPENING OF PROPOSALS.** Proposals will be publicly opened and read at the time and place indicated in the Notice to Contractors. Bidders or their authorized agents are invited to be present.

2-1.12 **TRENCHING AND EXCAVATION WORK.** In accordance with the provisions of California Labor Code Section 6707, if the Work involves construction of a pipeline, sewer, sewage disposal system, boring or jacking pits, or similar trenches or open excavations, which are five feet (5') or deeper, each bid submitted shall contain, as a bid item, adequate sheeting, shoring, and bracing, or equivalent method, for the protection of life or limb, which shall conform to all applicable safety orders.

SECTION 3: EVALUATION OF BIDS

3-1.01 **BID EVALUATION PROCESS.** Bids will be evaluated to determine the apparent low Bidder. The apparent low Bidder will be determined on the basis of the Grand Total Bid Price, as shown in the Schedule of Bid Prices. If additive or deductive alternates are used in the Schedule of Bid Prices, the apparent low Bidder will be the Bidder with the lowest total of the bid prices for base contract items plus the alternates designated by the City as those that will be used for determining the lowest bid price. However, the City reserves the right to (1) not award any alternates or (2) award any combination of alternates.

In case of discrepancy between the total of the base contract items and any specified alternates and the stated Grand Total Bid Price, the total of the base contract items plus specified alternates shall prevail. Any mathematical errors that appear on the face of the bid will be corrected by the City and the City will use the mathematically corrected addition. For example, if the mathematical total of Bidder's base contract items plus specified alternates equals $1,000,000, but the Bidder has written $1,250,000 as the Grand Total Bid Price, the City will consider $1,000,000 to be the Bidder's Grand Total Bid Price for purposes of comparison to other Bidders and actual bid award. The City reserves its rights to reject or accept bids based on discrepancies between the stated Grand Total Bid Price and the actual mathematical total of the base contract bid items, plus specified alternates.

3-1.02 **REJECTION OF IRREGULAR PROPOSALS.** Proposals may be rejected in the City's sole discretion if they show any alterations of form, additions not called for, conditional bids, incomplete bids, erasures, or irregularities of any kind. However, the City reserves the right to waive any minor irregularities and informalities in any bid or in the bid procedure for any reason.

3-1.03 **COMPETITIVE BIDDING.** If more than one proposal is offered by any individual, firm, partnership, corporation, association, or any combination thereof, under the same or different names, all such proposals may be rejected. A party who has quoted prices on materials or Work to a Bidder is not thereby disqualified from quoting prices to other Bidders, or from submitting a bid directly for the materials or Work.

All Bidders are put on notice that any collusive agreement to control or affect the awarding of this Contract is in violation of the competitive bidding requirements of the City Charter, State Contract Act and the Business and Professions Code and may render void any Contract let under such circumstances.

3-1.04 **RELIEF OF BIDDERS.** If the Bidder claims a mistake was made in its bid, the Bidder shall give the Department written notice within five (5) Days after the opening of the bids of the alleged mistake, specifying in the notice in detail how the mistake occurred. No relief from a claimed mistaken bid shall be granted unless such mistake clearly appears on the face of the bid submitted to the City. Claimed mistakes on backup worksheets, spreadsheets, computerized bidding programs, or any other similar calculative bidding mistake which is not apparent on the face of the bid shall not under any circumstance be considered as a basis for relief. The burden of proving the occurrence of a mistake entitling a Bidder to relief from its bid rests entirely on the Bidder. Relief from bids shall be in the City's sole discretion.

SECTION 4: AWARD AND EXECUTION OF CONTRACT

4-1.01 **AWARD OF CONTRACT.** The City reserves the right to reject any and all proposals and to award (or not award) any combination of bid items at its option. Any such award will be to the lowest responsible Bidder whose proposal complies with the requirements prescribed for the bid items awarded. Such award, if made, will be made within sixty (60) business days after the opening of the proposals. If the lowest responsible Bidder refuses or fails to execute the Contract, or provide an acceptable Performance Bond, Payment Bond, and insurance certificate(s), the City may award the Contract to the second lowest responsible Bidder. Such award, if made, will be made within eighty-two (82) business days after the opening of proposals. If the second lowest responsible Bidder refuses or fails to execute the Contract, or provide an acceptable Performance Bond, Payment Bond, and insurance certificate(s), the City may award the Contract to the third lowest responsible Bidder. Such award, if made, will be made within one hundred four (104) business days after the opening of the proposals. The above time periods within which the award of Contract may be made are subject to extension for such further period as may be agreed upon in writing between the City and the Bidder concerned.

4-1.02 **RETURN OF BIDDER'S SECURITIES.** Within ten (10) Days after the award of the Contract, the City Clerk will return all Bidders' securities, other than Bidders' bonds, accompanying the proposals that are not to be further considered in making the award. Retained Bidders' securities will be held until the Contract has been fully executed, after which all Bidders' securities, except Bidders' bonds and any Bidders' securities that have been forfeited, will be returned.

4-1.03 **CONTRACT BONDS.** The successful Bidder shall furnish two (2) bonds in the form contained in the section entitled Insurance Broker Information Packet and Bonds. One (1) bond shall secure the payment of the claims of laborers, mechanics or materialmen employed on the Work under the Contract, and the other bond shall guarantee the faithful performance of the Contract.

Each of the two (2) bonds shall be in a sum equal to one hundred percent (100%) of the Contract Price. If the Contract Price increases by the issuance of Change Orders, the penal amounts of the bonds required shall increase accordingly. Sureties on each of said bonds shall be satisfactory to the City.

All alterations, extensions of time, extra and additional Work, and other changes authorized by the Standard Specifications, the Standard Construction Specifications, the Supplemental Conditions or any part of the Contract may be made without securing the consent of the surety or sureties on the Contract bonds.

Furthermore, the successful Bidder shall furnish a certificate from the County Clerk as required by California Civil Code of Procedure Section 995.660(a)(3).

4-1.04 **INSURANCE.** At the time of the execution of the Contract, the Contractor shall, at its own expense, procure, and at all times during the prosecution of the Work maintain in full force and effect Worker's Compensation Insurance, and Liability Insurance as specified in the Standard Construction Specifications. The Contractor shall provide a Certificate of Insurance in the form contained in the section entitled Insurance Broker Information Packet.

4-1.05 **EXECUTION OF CONTRACT.** The Contract shall be signed by the successful Bidder and returned, together with all the required Contract bonds and insurance

certificates, within fifteen (15) Days after the Contract has been awarded, or as otherwise directed, in writing, by the City.

If the Bidder is an individual, the Contract shall be executed personally by the Bidder. If the Bidder is a partnership, it is desirable that the Contract be executed by all of the partners, but it may be executed by one of them. If the Bidder is a corporation, it must be executed by two officers of the corporation consisting of (1) the chairman of the board, president or vice president; and (2) the secretary, assistant secretary, chief financial officer, treasurer or assistant treasurer, or by a person authorized by the corporation to execute written contracts on its behalf, and the corporate seal affixed thereto. In the alternative, a person other than an officer may sign the Contract, provided evidence satisfactory to the City is provided indicating the individual's authority to bind the corporation. If the corporate seal is not affixed to the Contract, or if it is executed by a person other than officers, or only by one officer, there must be attached to the Contract a certified copy of a resolution of the corporation authorizing such officer or person to execute written contracts for and on behalf of the corporation. If the Bidder is a joint venture, the Contract must be executed on behalf of each participating firm by officers or other individuals who have the full and proper authorization to do so.

4-1.06 **FAILURE TO EXECUTE CONTRACT.** Failure of the lowest responsible Bidder, the second lowest responsible Bidder, or the third lowest responsible Bidder to execute the Contract and file acceptable bonds and insurance as provided within fifteen (15) Days after the Contract has been awarded, or as otherwise directed, in writing, by the City, shall be just cause for annulment of the award and forfeiture of the Bidder's security. The successful Bidder may file with the City Clerk a written notice, signed by the Bidder or Bidder's authorized representative, specifying that the Bidder will refuse to execute the Contract if presented to

Bidder. The filing of such notice shall have the same force and effect as the failure of the Bidder to execute the Contract and furnish acceptable bonds within the time prescribed.

SECTION 5: BID PROTEST PROCEDURES

5-1.01 **POLICY/PROCEDURES.** It is the policy of the City to consider fully and adjudicate promptly protests filed by prospective Bidders relating to the City's bidding procedure or award of the Contract. Protests shall be filed and processed in accordance with Section 4.12.150 of the Roseville Municipal Code. A Bidder's failure to follow the bid protest procedures may result in rejection of the protest by the City.

PROPOSAL TO THE DEPARTMENT OF _____

Project:_____

Name of Bidder _____ Business Phone _____

Business Address _____

Place of Business _____

Contractor's License No. _____

License Expiration Date_____

License Classification Type _____

DIR Registration No. _____

Type of business organization: _____

*If a Corporation, incorporated under the laws of the State of: _____

The undersigned Bidder herewith submits this Proposal and binds itself on award by the City of Roseville under this bid to execute a Contract in accordance with its bid and the Contract Documents.

The Notice to Contractors, Instructions to Bidders, Form of Agreement, Standard Specifications, Standard Construction Specifications, Supplemental Conditions, Contract Drawings, and Addenda, if any, are made part of this bid and all provisions thereof are hereby accepted, and all representations and warranties are required thereby are hereby affirmed.

The work to be done is described in the Bidding Documents entitled _____ _____, City of Roseville, California. This offer shall be irrevocable for a period of sixty (60) Days after the date on which bids are opened.

The undersigned Bidder understands that any clarification made to the above or any new and different conditions or information submitted on or with its Proposal, other than that requested, may render the bid non-responsive.

The undersigned, as Bidder, declares that the only persons or parties interested in this Proposal as principals are those named herein; that this Proposal is made without collusion with any other person, firm, or corporation; that the Bidder has carefully examined the location of the proposed Work, the attached Form of Agreement, and the plans, Specifications, and other Contract Documents; and agrees if this Proposal is accepted, that it will contract with the City of Roseville, in the form of a copy of the Agreement contained in the Project Manual, to provide all necessary machinery, tools, apparatus and other means of construction, and to do all the work and furnish all the materials specified in the Contract Documents, in the manner and time therein prescribed, and according to the requirements of the Director, as therein set forth, and that the Bidder will take in full payment therefore prices indicated in the Schedule of Bid Items, including all work modified by addendum numbers _____. (IF NONE, STATE NONE).

Bids are required for all Bid Items. The amount of the Bid for comparison purposes will be the total of all items awarded.

The Bidder shall set forth for each item of work, in clearly legible figures, an item ("unit") price and a total for the item in the respective spaces provided for this purpose in the Schedule of Bid Items.

The prices included within the Schedule of Bid Items include all costs for labor, materials, tools, equipment, services, Subcontractors, suppliers, taxes, insurance, shipment,

delivery, overhead, profit, and for all other costs necessary to perform the Work in accordance with the Contract Documents.

Accompanying this Proposal is _____.

(Notice: Insert the words "Cash $_____," "Cashier's Check," "Certified Check," or "Bidder's Bond," as the case may be, in an amount equal to at least ten percent (10%) of the total of the Bid.)

SCHEDULE OF BID ITEMS

NONCOLLUSION DECLARATION TO BE EXECUTED BY
BIDDER AND SUBMITTED WITH BID

The undersigned declares:

I am the _____ of _____, the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The Bidder has not directly or indirectly induced or solicited any other Bidder to put in a false or sham bid. The Bidder has not directly or indirectly colluded, conspired, connived, or agreed with any Bidder or anyone else to put in a sham bid, or to refrain from bidding. The Bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the Bidder or any other Bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other Bidder. All statements contained in the bid are true. The Bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, bid depository, or to any member or agent thereof, to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a Bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the Bidder.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on _____ [date], at _____ [city], _____ [state].

_____
(Signature of Declarant)

DISQUALIFICATION QUESTIONNAIRE

The Bidder shall complete, under the penalty of perjury, the following questionnaire:

Has the Bidder, any officer of the Bidder, or any employee of the Bidder who has proprietary interest in the Bidder, ever been disqualified, removed, or otherwise prevented from bidding on, or completing a federal, state, or local government project because of a violation of law or a safety regulation?

Yes_____ No_____

If the answer is yes, explain the circumstances in the following space.

END OF PROPOSAL

A G R E E M E N T

THIS AGREEMENT, is made and entered into this _____day of _____, 20_____, by and between the City of Roseville, a municipal corporation, ("CITY"), and _____, a _____, ("CONTRACTOR"); and

W I T N E S S E T H:

WHEREAS, the City Council of the CITY, at a meeting held on the _____day of _____, 20_____, approved plans and specifications for the _____ _____

and directed the City Clerk to advertise for sealed proposals for doing said work and providing that bids be submitted on the _____ day of _____, 20_____; and

WHEREAS, the City Clerk, thereafter duly and regularly caused a notice to be published in the manner and for the time prescribed by law; and

WHEREAS, CONTRACTOR, pursuant to the provisions of said notice duly filed a bid with the City Clerk, a true copy of which bid is now on file in the office of the City Clerk, and is hereby referred to and by this reference made a part hereof as fully as if set forth at length herein; and

WHEREAS, all bids received pursuant to said notice were opened and examined and publicly declared at the time specified in said advertisement for bids and at a meeting of the City Council held on the _____ day of _____, 20_____, the Council found and

declared the bid of CONTRACTOR to be the lowest responsible bid and thereupon awarded a contract to CONTRACTOR to do the work referred to in the aforementioned specifications.

NOW, THEREFORE, the parties agree as follows:

1. THE WORK. CONTRACTOR agrees:

a. To do the work and furnish all the labor, materials, tools, supplies, equipment, superintendence, insurance, and bonds required for the _____

_____

in accordance with the Contract Documents (the Work).

b. To do and perform the Work contemplated hereby in a good and workmanlike manner under the direction of and to the satisfaction of the Director of Public Works of the City of Roseville.

2. PAYMENT. CITY shall pay CONTRACTOR _____

_____ dollars ($_____) for the Work to be done under this Agreement in accordance with the Contract Documents.

3. CONTRACT DOCUMENTS. The complete Agreement between the parties hereto consists of the following documents:

a. The advertisement for bids (including the notice to bidders, instructions to bidders and proposals);

b. The accepted bid;

c. Plans and specifications (including standard construction specifications, special provisions and construction details);

d. Bonds and insurance required by the specifications; and

e. This contract.

All documents specified above are intended to operate so that any work called for in any one and not mentioned in the other, or vice versa, is to be executed the same as if mentioned in all said documents.

4. LIQUIDATED DAMAGES. In the event CONTRACTOR does not complete the Work within the time specified, CONTRACTOR agrees that CITY will suffer damages. Inasmuch as the actual damages which would result from such breach by CONTRACTOR under this Agreement are uncertain, and would be impractical or extremely difficult to fix, CONTRACTOR agrees that it shall pay, or CITY shall deduct from CONTRACTOR's fee, the amount of $_____ per day as liquidated damages, in the event of such delay.

5. TIME OF COMPLETION. Time is of the essence of this Agreement. CONTRACTOR shall complete all Work under the Contract Documents within _____ Days of the date of this Contract. CONTRACTOR shall begin work by the date specified in the "Notice to Proceed" letter and shall diligently prosecute all of the Work under this Contract in all parts and requirements as defined in the Contract Documents.

6. SERVICE OF NOTICE. Any notice required or permitted to be given under this Agreement shall be deemed given when (a) personally delivered to the recipient identified below; (b) mailed by registered or certified mail, return receipt requested, postage pre-paid, to the address specified below; or (c) sent by facsimile, with confirmation of receipt, to the facsimile number identified below.

CITY OF ROSEVILLE	CONTRACTOR
_____	_____
_____	_____
_____	_____
_____	_____

CITY may also act through either its architect or construction manager if CITY expressly gives notice to CONTRACTOR, in writing, that CITY's designee has authority to act for CITY in a specific capacity.

7. DISPUTES. Disputes arising from this Agreement will be determined in accordance with the Contract Documents and Public Contract Code Sections 10240-10240.13.

8. GOVERNING LAW. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

9. INDEPENDENT CONTRACTOR. CONTRACTOR shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

10. SUCCESSORS IN INTEREST. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

11. MODIFICATION. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

12. SEVERABILITY. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

13. INTEGRATED AGREEMENT. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

14. CONTRACTORS LICENSE LAW. CONTRACTORS ARE REQUIRED BY LAW TO BE LICENSED AND REGULATED BY THE CONTRACTORS' STATE LICENSE

BOARD WHICH HAS JURISDICTION TO INVESTIGATE COMPLAINTS AGAINST CONTRACTORS IF A COMPLAINT REGARDING A PATENT ACT OR OMISSION IS FILED WITHIN FOUR (4) YEARS OF THE DATE OF THE ALLEGED VIOLATION. A COMPLAINT REGARDING A LATENT ACT OR OMISISON PERTAINING TO STRUCUTRAL DEFECTS MUST BE FILED WITHIN TEN (10) YEARS OF THE DATE OF THE ALLEGED VIOLATION. ANY QUESTIONS CONCERNING A CONTRACTOR MAY BE REFERRED TO THE REGISTRAR, CONTRACTORS' STATE LICENSE BOARD, P.O. BOX 26000, SACRAMENTO, CALIFORNIA 95826.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. _____, adopted by the Council of the City of Roseville on the _____day of _____, 20_____, and CONTRACTOR has caused this Agreement to be duly executed.

INSURANCE BROKER INFORMATION PACKET

Project:_____

NOTICE TO CONTRACTOR:

For your convenience, this package contains the Requirements for Insurance and Bonds for this project, including the necessary City forms. You are required to return these forms in addition to the executed Contract within fifteen (15) calendar days after the award of the Bid, unless otherwise directed by City in writing. (See the Instructions to Bidders.)

Please insert the dollar amount of your accepted Bid into the blank on page INS-1 and present this entire package to your insurance broker if you are awarded the Bid.

NOTICE TO INSURANCE BROKER

Your client has been awarded a bid by the City Council of the City of Roseville to perform a public works project known as _____. The Contract Conditions for that project require your client ("the Contractor") to return certain evidence of insurance and bonds to the City Attorney of the City within fifteen (15) days after the Bid award, unless otherwise directed by the City in writing, or else the Bid award may be terminated and awarded to another company.

This package contains the information you will need as an insurance broker to provide the appropriate insurance and bonds to the City. The insurance coverages the Contractor needs are specified in the section entitled "Insurance Requirements." Please note that, in addition to the insurance certificate itself, copies of several endorsements must be actually furnished.

Please refer to Special Provisions for modifications of the Standard Construction Specifications, if any, and the requirements of this insurance packet.

Please use the standard City of Roseville Bond Forms provided in this package.

The Bonds required must each be in the penal amount of: $_____.

Bonds must be sent to the following staff person:

_____

_____

_____

Insurance documents must be provided using one of the following methods:

a. By email to roseville@ebix.com and riskmanagement@roseville.ca.us

b. By fax to (770) 335-5727 and (916) 774-5461

After using one of these methods, please **DO NOT** send the insurance certificate(s) by mail.

When forwarding the documents, please refer to the project name so that the documents can be matched with the Contract for which they are submitted.

Thank you.

INSURANCE REQUIREMENTS

The following sections are quoted from the Standard Construction Specifications:

7-1.06 **INSURANCE COVERAGE.**

A. Evidence of Maintenance Required. The Contractor shall, at its expense, procure and at all times maintain in full force and effect at a minimum the insurance required by this section on all of its operations; and the Contractor shall not allow any Subcontractor to commence work until similar insurance required of the Subcontractor has been obtained and filed. An original Certificate of Insurance, and copies of all required endorsements, all in a form approved by the Risk Manager, evidencing all required coverage or policies shall be filed after the award of the bid and prior to approval of the Contract by the City Council. Contractor shall provide ten (10) days prior written notice to the City of any reduction of coverage limits or cancellation of the coverage or policies shall be given to the City of Roseville as Certificate holder.

B. Qualifying Insurers. With the exception of the State Compensation Insurance Fund, all required insurance policies shall be issued by companies acceptable to the City and licensed to do business in the State of California and who hold a current policy holders alphabetic and financial size category rating of not less than AVII according to the most recent issue of Best's Insurance Reports.

C. Insurance Required.

1. **Commercial General Liability (CGL):** Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations with limits of no less than Two Million Dollars ($2,000,000) per occurrence for bodily injury, personal injury and property damage for projects under One Million Dollars ($1,000,000) and

limits of no less than Five Million Dollars ($5,000,000) per occurrence for bodily injury, personal injury and property damage for projects over One Million Dollars ($1,000,000). If a general aggregate limit applies, either the aggregate limit shall apply separately to this project or the general aggregate limit shall be twice the required occurrence limit.

The Commercial General Liability insurance shall include the following, copies of which shall be provided:

a. Inclusion of the City of Roseville, and its officers, agents, employees, and volunteers, as additional insureds (except for workers' compensation) as respects services or operations under the Contract. The additional insured endorsement for the general liability policy shall be at least as broad as the ISO CG 2010 10 01 combined with ISO CGL Endorsement CG 2037 10 01. Any other endorsement must be approved in writing by the City. Endorsements must include coverage for on-going and completed operations, which coverage shall be maintained for four (4) years following completion of the Project. Endorsements shall cover the City of Roseville, its officers, agents, employees, and volunteers.

b. The insurance shall provide coverage for claims by one insured against another insured and the policies shall not contain any cross-suits exclusions, cross-liability exclusions, or insured versus insured exclusions. The policies shall not contain any classification exclusions purporting to deny coverage for any work to be performed by Contractor or any of its Subcontractors.

c. Stipulation that the insurance is primary and noncontributory, as evidenced by a separate endorsement (CG 20 01 04 13 or an equivalent) or section of the policy, and that neither the City nor its insurers will be called upon to contribute to a loss.

d. Such insurance shall specifically cover the contractual liability of the Contractor.

e. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

f. Waiver of subrogation endorsement.

g. The Contractor shall furnish a certificate for the period covered.

2. **Automobile Liability:** Insurance Services Office Form Number CA 0001 covering Code 1 (any auto), or if Contractor has no owned autos, Code 8 (hired) and Code 9 (non-owned), with limits of no less than One Million Dollars ($1,000,000) per accident for bodily injury and property damage.

3. **Workers' Compensation:** In accordance with the provisions of the California Labor Code, Contractor is required to be insured against liability for Workers' Compensation or to undertake self-insurance. Statutory Workers' Compensation and Employers' Liability of at least One Million Dollars ($1,000,000) shall cover all Contractors staff while performing any work incidental to the performance or this Agreement.

4. **Professional Liability:** Professional Liability (Errors and Omission) Insurance appropriate to Contractor's profession, with a limit of liability not less than One Million Dollars ($1,000,000) per occurrence or claim and Two Million Dollars ($2,000,000) aggregate to cover all design and engineering services rendered by Contractor pursuant to the

Agreement. Coverage must commence from the first day that Contractor or any of its Subcontractors provided any design or engineering services in connection with the Project.

5. **Builder's Risk/Course of Construction Insurance Is ____ OR Is Not ____ Required by Risk Management:** The Contractor shall be responsible for all loss, damage or destruction whatsoever to the work called for by this Contract until the approval of a Notice of Completion or acceptance of the Work if no Notice of Completion is to be recorded.

The Contractor shall secure "All Risk" type of builder's Risk Insurance of the type covering one hundred percent (100%) of the value of the work performed under this Contract (the value is presumed to be the Contract amount unless otherwise stated in Supplemental Conditions) and all materials, equipment, or other items to be incorporated therein while the same are located at the construction site, a bonded warehouse, or its place of manufacture. At any time, the policy shall cover the value of the work completed. The policy shall cover hazards including the losses due to fire, explosion, hail, rain, lightning, flood (separate insurance as needed), vandalism, malicious mischief, wind, collapse, aircraft, and smoke.

The policies providing such insurance shall name the City as a loss payee as its respective interests may appear, and certified copies of such policies shall be filed with the City. The maximum deductible allowable under the Builder's All Risk policy shall be five percent (5%) of the Contract amount.

Builder's Risk Insurance is not required for coverage of losses in excess of five percent (5%) of the Contract amount for damages resulting from earthquake in excess of a magnitude of 3.5 on the Richter scale, or tidal waves. Coverage in the amount of five percent (5%) of the Contract amount for such losses is required.

6. **Pollution Coverage:** Contractor shall procure pollution liability coverage or other insurance covering claims for bodily injury or property damage arising out of the abatement, removal, storage, transportation, or other exposure to hazardous materials or pollutants, in limits not less than Two Million Dollars ($2,000,000). Contractor shall add the City and all parties required to be indemnified by Contractor as additional insured on all pollution liability policies.

7. **Higher Coverage Limits:** If Contractor maintains higher coverage limits than the amounts shown above, then the City requires and shall be entitled to coverage for the higher coverage limits maintained by Contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City.

8. **Claims Made Coverage:** Liability insurance coverage may not be written on a "claims made" or modified occurrence basis. The Certificate of Insurance must clearly provide that the coverage is on an "occurrence" basis.

7-1.06A **OTHER INSURANCE PROVISIONS.**

A. The requirements of the Standard Specifications as to types and limits of insurance coverage to be maintained by the Contractor, and any approval of insurance by the City, are not intended to, and shall not in any manner limit or qualify the liabilities and obligations otherwise assumed by the Contractor pursuant to the Contract, including, but not limited to, the provisions concerning indemnification, nor preclude the City from taking any other action available to it under any other provision of the Contract or law.

B. The City acknowledges that some insurance requirements contained in these Standard Specifications may be fulfilled by self-insurance on the part of the Contractor. However, this shall not in any way limit liabilities assumed by Contractor under the Contract.

Any self-insurance must be approved in writing by the City, in its sole discretion and shall not reduce the limits of liability. Any deductibles or self-insured retentions ("SIR") must be declared on the certificate of insurance and approved by City in writing. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

C. The Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Contract, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, the Contractor shall require its subcontractors to agree to be bound to the Contractor and the City in the same manner and to the same extent as the Contractor is bound to the City under this Contract. Additionally, the Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of the City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request. Alternatively, the Contractor may insure subcontractor(s) under its own policy.

D. The City, its officers, agents, employees, and volunteers are to be covered as insureds with respect to liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor; and with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts or equipment furnished in connection with such work or operations. Coverage shall not extend to any indemnity coverage

for the active negligence of the additional insured in any case where an agreement to indemnify the additional insured would be invalid under California Insurance Code Section 11580.04.

E. The limits of insurance required in this Contract may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the City (if agreed to in a written contract) before the City's own insurance shall be called upon to protect it as a named insured.

F. The insurance procured by Contractor shall be subject to the approval of the City, but any acceptance of insurance certificates by the City shall in no way limit or relieve Contractor of its duties and responsibilities under the Agreement.

G. Contractor shall be responsible for all premiums, deductibles, and self-insured retention applicable to the insurance it is required to procure under the Contract. All deductibles or self-insured retentions over five hundred thousand dollars ($500,000) must be approved by the City, in writing. Contractor shall be responsible for all deductibles, self-insured retention payments, and/or increased premiums incurred if the City's policies of insurance are forced to cover damages or respond to claims for which Contractor or its Subcontractors were obligated to provide insurance under the Contract.

H. Failure of the City to enforce in a timely manner any of the requirements of these insurance provisions shall not act as a waiver to enforcement of any of these provisions at a later date.

I. Contractor's indemnity obligations shall not be limited by these insurance provisions and shall survive the expiration of the Contract and the insurance provisions of the Contract shall likewise not be limited by the indemnity provisions of the Contract.

J. THE CITY RESERVES THE RIGHT TO WITHHOLD ANY PROGRESS PAYMENTS TO THE CONTRACTOR IN THE EVENT OF NONCOMPLIANCE WITH ANY INSURANCE REQUIREMENTS.

Bond No. _____
Premium $_____

PUBLIC WORKS
FAITHFUL PERFORMANCE BOND

(Project: _____)

WHEREAS, the City of Roseville ("CITY") has awarded a bid and contract to _____ as contractor ("PRINCIPAL") for the public work described as _____ _____ (the "WORK"). The contract ("AGREEMENT"), for the public work described above, and all of its terms and conditions are incorporated by reference and made a part hereof; and

WHEREAS, the PRINCIPAL is required to furnish a bond in connection with the AGREEMENT guaranteeing its faithful performance; and

NOW, THEREFORE, we the undersigned PRINCIPAL and _____ _____, a _____, admitted and duly authorized to transact business under the laws of the State of California, as SURETY ("SURETY"), are held and firmly bound unto the CITY or its successors and assigns in the sum of _____ dollars ($_____) (which amount is not less than 100% of the AGREEMENT price) to be paid to the CITY or its successors and assigns; and for which payment, well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors or assigns jointly and severally, firmly by these presents.

The condition of this obligation is such that if the PRINCIPAL, or its heirs, executors, administrators, successors or assigns, shall abide by, and in all respects promptly and faithfully perform the covenants, conditions and provisions in said AGREEMENT and any alteration thereof made as therein provided, notice of which alterations to Surety being hereby waived, on its part to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless CITY, its officers, agents, employees, volunteers as therein stipulated, then this obligation shall be null and void; otherwise, this obligation shall be and remain in full force and effect.

As condition precedent to the satisfactory completion of the contract, the obligation of the PRINCIPAL and SURETY under this Bond shall remain in effect for a period of one (1) year after the completion and acceptance of the WORK. During that time, if the PRINCIPAL, its heirs, executors, administrators, successors or assigns fails to make full, complete and satisfactory repair and replacement or totally protect the CITY from any loss or damage made evident during that year which results from or is caused by either defective materials or faulty workmanship in the prosecution of the WORK, then the obligation shall remain in full force and effect. However, anything in

this paragraph to the contrary notwithstanding, the obligation of the SURETY shall continue so long as any obligation of the PRINCIPAL remains.

No prepayment or delay in payments, and no change, extension, addition or alteration of any provision of the AGREEMENT or in the specifications agreed to between the PRINCIPAL and the CITY, or any forbearance on the part of the CITY shall operate to relieve the SURETY. The SURETY hereby waives the provisions of Section 2819 of the California Civil Code. The SURETY waives all rights of subrogation against the CITY or any person employed by the CITY. If the contract price increases by the issuance of change orders, the amount specified in this bond shall increase by the same amount.

Whenever PRINCIPAL shall be and declared by CITY to be in default under the AGREEMENT, SURETY shall promptly remedy the default, or shall promptly do one of the follow at CITY's election:

1. Undertake through its agents or independent contractors, reasonably acceptable to CITY, to complete the AGREEMENT in accordance with its terms and conditions and to pay and perform all obligations of PRINCIPAL under the AGREEMENT, including without limitation, all obligations with respect to warranties, guarantees, and the payment of liquidated damages.

2. Reimburse CITY for all costs CITY incurs in completing the AGREEMENT, and in correcting, repairing or replacing defects in materials or workmanship and/or materials and workmanship which do not conform to the specifications in the AGREEMENT.

SURETY's obligations hereunder are independent of the obligations of any other surety for the performance of the AGREEMENT, and suit may be brought against SURETY and such other sureties, jointly and severally, or against any one or more of them, or against less than all of them without impairing CITY's rights against the others.

No right of action shall accrue on this bond to or for the use of any person or corporation other than CITY or its successors or assigns.

As part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by CITY in successfully enforcing such obligation, all to be taxed as costs and included in any judgment rendered.

[SIGNATURES NEXT PAGE]

PUBLIC WORKS
LABOR AND MATERIALS PAYMENT BOND
(Project: _____)

WHEREAS, the City of Roseville ("CITY"), has awarded a bid and contract to _____ as contractor ("PRINCIPAL"), for the public work described as _____ _____ (the "WORK"). The contract ("AGREEMENT"), for the public work described above, and all of its terms and conditions are incorporated by reference and made a part hereof; and

WHEREAS, the PRINCIPAL is required to furnish a bond in connection with the AGREEMENT guaranteeing payment of persons who provide labor and material; and

NOW, THEREFORE, we the undersigned PRINCIPAL and _____ _____, a _____, admitted and duly authorized to transact business under the laws of the State of California, as SURETY ("SURETY"), are held and firmly bound unto the CITY or its successors and assigns in the sum of _____ dollars ($_____) (which amount is not less than 100% of the AGREEMENT price) to be paid to the CITY or its successors and assigns; and for which payment, well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors or assigns jointly and severally, firmly by these presents.

The condition of the obligation is such that if the PRINCIPAL, its subcontractors, heirs, executors, administrators, successors or assigns fails to pay any of the persons named in Section 8004 or 9100 of the Civil Code of the State of California, or the amounts due under the Unemployment Insurance Code of the State of California, or any amounts required to be deducted, withheld and paid over to the Employment Development Department from the wages of employees of the PRINCIPAL and its subcontractors pursuant to Section 13020 of the Unemployment Insurance Code, with respect to work or labor performed by any such claimant, that the SURETY will pay for the same, in an amount not exceeding the sum specified in this bond, and also, in case suit is brought upon the bond, shall pay reasonable attorneys' fees, to be fixed by the Court.

This bond shall inure to the benefit of any and all persons, companies, and corporations entitled to file a Stop Payment Notice pursuant to the provisions of Section 9350 et seq. of the Civil Code of the State of California, so as to give a right of action to them or their assigns in any suit brought upon this bond.

No prepayment or delay in payments, and no change, extension, addition or alteration of any provision of the AGREEMENT or in the specifications agreed to between the PRINCIPAL and the CITY, or any forbearance on the part of the CITY shall operate to relieve the SURETY. The SURETY hereby waives the provisions of Section 2819 of the California Civil Code. The SURETY waives all rights of subrogation against the CITY or any person employed by the CITY. If the contract price increases by the issuance of change orders, the amount specified in this bond shall increase by the same amount.

As part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by CITY in successfully enforcing such obligation, all to be taxed as costs and included in any judgment rendered.

IN WITNESS WHEREOF, this instrument has been duly executed by the PRINCIPAL and SURETY above-named, on the _____ day of _____, 20__.

ADOPTION OF STATE SPECIFICATIONS

1. The State of California Department of Transportation ("Caltrans") Standard Specifications dated 2015, are hereby adopted as the Standard Specifications of the City of Roseville except insofar as they may be modified by these Standard Construction Specifications.

2. Except for Division 1, Section 2, numbering in these Standard Construction Specifications conforms to that in the Caltrans Standard Specifications. The existence of a section in these Standard Construction Specifications means that the corresponding section of the Standard Specifications is modified in some respect. Unless otherwise specified, the modified Standard Specification provisions are deleted entirely, and the provisions of these Standard Construction Specifications are substituted.

DIVISION 1. GENERAL PROVISIONS

SECTION 1. GENERAL

ACCEPTANCE. Shall mean the formal Acceptance by resolution of the Roseville City Council of an entire Contract which has been completed in all respects in accordance with the Plans and specifications and any modifications thereof previously approved, causing a notice of completion to be filed with the County Recorder.

ATTORNEY GENERAL. The City Attorney of the City of Roseville.

CITY ATTORNEY. The City Attorney of the City of Roseville.

CITY CLERK. Shall mean the City Clerk of the City of Roseville.

DEPARTMENT. Shall mean the Department of Public Works of the City of Roseville, also referred to as the Department of Contract Administration. References made to the Department of Transportation otherwise shall mean the State of California Department of Transportation.

DIRECTOR. Shall mean the Public Works Director of the City of Roseville or his or her duly authorized representative.

ENGINEER. Shall mean the Public Works Director of the City of Roseville or his or her duly authorized representative.

ESTIMATED COST. The estimate prepared by the Public Works Director of quantities of work to be performed.

LIQUIDATED DAMAGE. The amount to be deducted from payments due or to become due to the Contractor for delay, as set forth in the Special Provisions.

PLANS. The official Project Plans, Standard Plans, Improvement Plans, Construction Standards, profiles, typical cross sections, general cross sections, working drawings, and supplemental drawings, or reproductions thereof, approved by the Director which show the location, character, dimensions and details of the work to be performed. All such documents are to be considered as a part of the Plans whether or not reproduced in the Special Provisions.

In the above definition, the following terms are defined as follows:

a. Standard Plans - The Standard Plans of the Department of Transportation of the State of California.

b. Project Plans - The Project Plans are specific details and dimension peculiar to the Work and supplemented by the Standard Plans, insofar as the same may apply.

c. Construction Standards - The City of Roseville Design and Construction Standards.

STATE. Reference to the State or State of California shall mean City or City of Roseville unless the reference is to a law or regulation of the State, and reference to Sacramento shall mean Roseville unless otherwise noted.

SECTION 2. BIDDING

SECTION 2 SHALL BE DELETED IN ITS ENTIRETY AND REPLACED WITH THE FOLLOWING:

2-1.01 **PROPOSAL FORMS.** The Department will furnish to each Bidder a standard proposal form, which, when filled out and executed shall be submitted as its bid. Bids not presented on forms so furnished will be disregarded.

The proposal form is bound in a book together with the Notice to Contractors, special provisions, and Contract. The proposal shall set forth for each item of work, in clearly legible figures and words, an item price and a total for the item in the respective spaces provided, and shall be signed by the Bidder, who shall fill out all blanks in the proposal form as required therein.

All items shown on the schedule of bid items shall be properly filled in and shall include all costs of labor, materials, equipment, and State, Federal, or other taxes applicable to the transaction. The completed forms shall be without inter-lineations, erasures or alterations of any nature. If the proposal is made by an individual, his or her name and post office address must be shown; if made by a firm or partnership, the name and post office address of each member of the

firm or partnership must be shown; or if made by a corporation, the proposal shall show the name of the State under the laws of which the corporation was chartered and the names, titles, and business addresses of the president, secretary, and treasurer of said corporation. If the proposal is signed by an agent, a "Power of Attorney" must be filed with the proposal.

The proposal shall be submitted as directed in the "Notice to Contractors" under sealed cover plainly marked as a proposal, and identifying the project to which the proposal relates and the time and date of the bid opening therefor. Proposals which are not properly marked may be disregarded. Proposal forms shall be obtained from the Director of Public Works, City of Roseville, California. Proposal forms are not transferable.

2-1.02 **REJECTION OF PROPOSALS AND DISQUALIFICATION OF BIDDERS.** Proposals may be rejected if they show any alterations of the forms, additions not called for, conditional bids, incomplete bids, erasures or irregularities of any kind. More than one proposal from an individual, firm, partnership, corporation or association under the same or different names, will not be considered. Reasonable grounds for believing that any Bidder is interested in more than one (1) proposal for the work contemplated, will cause the rejection of all proposals in which the Bidder is interested. The City reserves the right to reject any and all proposals.

2-1.03 **PROPOSAL GUARANTY.** All bids shall be presented under sealed cover and accompanied by one (1) of the following forms of Bidder's security.

a. Cash, a cashier's check, a certified check, or a Bidder's bond executed by an admitted California surety insurer, made payable to the City.

b. The security shall be in an amount equal to at least ten percent (10%) of the bid amount. A bid will not be considered unless one (1) of the forms of Bidder's security is enclosed with it.

c. A Bidder's bond will not be accepted unless it conforms to a bond form approved by the City Attorney. Upon request "Bidder's Bond" forms may be obtained from the Department.

2-1.04 **WITHDRAWAL OF PROPOSALS.** Any bid may be withdrawn at any time prior to the time fixed in the public notice for the deadline submission of bids only by written request for the withdrawal of the bid filed with the Director. The request shall be executed by the Bidder or his or her duly authorized representative. The withdrawal of a bid does not prejudice the right of the Bidder to file a new bid. Whether or not bids are opened exactly at the time fixed in the public notice for opening bids, a bid will not be received after the deadline for submission of bids nor may any bid be withdrawn after the time fixed in the public notice for deadline for submission of bids. Immediately following the deadline for submission of bids all bids shall become the property of the City of Roseville and City is under no obligation to return the bids.

2-1.05 **RELIEF OF BIDDERS.** If the Bidder claims a mistake was made in his or her bid, the Bidder shall give the Department written notice within five (5) calendar days after the opening of the bids of the alleged mistake, specifying in the notice in detail how the mistake occurred. No relief from a claimed mistaken bid shall be granted unless such mistake clearly appears on the face of the bid submitted to the City. Claimed mistakes on backup worksheets, spreadsheets, computerized bidding programs, or any other similar calculative bidding mistake which is not apparent on the face of the bid shall not under any circumstance be considered as a

basis for relief. The burden of proving the occurrence of a mistake entitling a Bidder to relief from its bid rests entirely on the Bidder. Relief from bids shall be in the City's sole discretion.

2-1.06 **PREVIOUS DISQUALIFICATION, REMOVAL OR OTHER PREVENTION OF BIDDING.** A bid may be rejected on the basis of a Bidder, any officer of such Bidder, or any employee of such Bidder who has a proprietary interest in such Bidder, having been disqualified, removed, or otherwise prevented from bidding on, or completing a Federal, State, or local project because of a violation of law or a safety regulation.

2-1.07 **COMPETENCY OF BIDDERS.** If two (2) or more prospective Bidders desire to bid jointly as a joint venture on a single project, they must file an affidavit of joint venture with the Bid on a form approved by the City Attorney, and such affidavit of joint venture will be valid only for the specific project for which it is filed. If such affidavit of joint venture is not filed as aforesaid and approved by the City Attorney prior to the time for awarding bids on the specific project for which it is submitted, a joint bid submitted by said Bidders will be disregarded. No bid will be accepted from or a Contract awarded to any Bidder to whom a proposal form has not been issued pursuant to Section 2-1.06.

2-1.08 **GUARANTY AND WARRANTY.** The Contractor shall guarantee and warrant all materials supplied as being fit for the purpose intended. The Contractor shall guarantee and warrant all work performed as having been accomplished in a proper and workman-like manner. The guarantee and warranty required by this section shall continue for a period of one (1) year after Acceptance of the Work.

Should any failure of the work occur within a period of one (1) year, after Acceptance of the project by the City Council due to faulty materials, poor workmanship, or defective equipment, the Contractor shall promptly make the needed repairs at his or her expense.

The City is hereby authorized to make such repairs if the Contractor fails to make or undertake with due diligence the aforesaid repairs within ten (10) calendar days after being given written notice of such failure; provided, however, that in case of emergency where in the opinion of the Engineer, providing a reasonable attempt has been made to notify the Contractor, delay would cause serious loss or damages, or a serious hazard to the public, the repairs may be made or lights, signs, and barricades erected without prior notice to the Contractor, and the Contractor shall pay the entire cost thereof. At the completion of the work the faithful performance bond may be reduced at the discretion of the City Council to not less than ten percent (10%) of the Contract price to cover said guarantee.

Additional guarantees or warranties may be required by the Special Provisions.

SECTION 3. CONTRACT AWARD AND EXECUTION

3-1.04 **CONTRACT AWARD.** The right is reserved to reject any and all proposals. The award of the Contract, if it be awarded, will be to the lowest responsible Bidder whose proposal complies with all the requirements prescribed. Such award, if made, will be made within sixty (60) business days after the public opening of the proposals. If the lowest responsible Bidder refuses or fails to execute the Contract, the Roseville City Council may award the Contract to the second lowest responsible Bidder. Such award, if made, will be made within eighty-two (82) business days after the public opening of proposals. If the second lowest responsible Bidder refuses or fails to execute the Contract, the City may award the Contract to the third lowest responsible Bidder. Such award, if made, will be made within one hundred and four (104) business days after public opening of the proposals. The above time periods within

which the award of Contract may be made are subject to extension for such further period as may be agreed upon in writing between the City and the Bidder concerned.

All bids will be compared on the basis of the Director's estimate of the quantities of work to be done.

3-1.05 **CONTRACT BONDS.** The successful Bidder, simultaneously with the execution of the Contract, will be required to furnish a payment bond in an amount equal to one hundred percent (100%) of the Contract price, and a faithful performance bond in an amount equal to one hundred percent (100%) of the Contract price; said bonds shall be in a form approved by the City Attorney and shall be secured by a surety company satisfactory to the City Attorney. If the Contract price increases by the issuance of Change Orders, the penal amounts of the bonds required shall increase accordingly.

Furthermore, the successful Bidder shall furnish a certificate from the County Clerk as required by California Civil Code of Procedure Section 995.660(a)(3).

3-1.18 **CONTRACT EXECUTION.** The Contract, in form and contents satisfactory to the City, shall be executed by the successful Bidder and returned, together with the Contract bonds and certificates of insurance within fifteen (15) calendar days after written notice that the Contract has been awarded, or as otherwise directed, in writing, by the City. No proposal shall be considered binding upon the City until the execution of the Contract by the City.

3-1.20 **FAILURE TO EXECUTE CONTRACT.** Section 3-1.20, "Failure to Execute Contract" is added as follows:

"Failure of the lowest responsible Bidder, the second lowest responsible Bidder, or the third lowest responsible Bidder to execute the Contract and file acceptable bonds

and insurance as provided herein within fifteen (15) calendar days, or within a different timeframe specified by City in writing, after such Bidder has received notice that the Contract has been awarded to him or her, shall be just cause for the annulment of the award and the forfeiture of the Bidder's security to the City as Liquidated Damages. The successful Bidder may file with the Roseville City Council a written notice, signed by the Bidder or his or her authorized representative, specifying that the Bidder will refuse to execute the Contract if presented to him or her. The filing of such notice shall have the same force and effect as the failure of the Bidder to execute the Contract and furnish acceptable bonds and insurance within the time prescribed by Section 3-1.18."

SECTION 4. SCOPE OF WORK

There are no amendments to the Standard Specifications.

SECTION 5. CONTROL OF WORK

5-1.02 **CONTRACT COMPONENTS.** These Standard Construction Specifications, the Standard Specifications, the Standard Plans, the Improvement Plans, Construction Standards, Project Plans, project Special Provisions (and any addenda), the Agreement, Contract Change Orders, and all supplementary documents are all essential parts of the Contract between Contractor and the City. A requirement occurring in one (1) is as binding

as though occurring in all. They are intended to be complementary, and to describe and provide for a complete work.

In resolving inconsistencies among two (2) or more sections of the Contract Documents, precedence shall be given in the following order:

A. Special Provisions

B. City of Roseville Standard Construction Specifications

C. City of Roseville Design and Construction Standards

D. State Standard Specifications and Amendments to the State Standard Specifications, Standard Special Provisions, and Plans

E. Drawings

Should it appear that the work to be done or any of the matters relative thereto are not sufficiently detailed or explained in these specifications, the special provisions, or the Plans, the Contractor shall apply in writing to the Director for such further explanations as may be necessary and shall conform to them as part of the Contract. In the event of any doubt or question arising respecting the true meaning of these specifications, the special provisions or the Plans, reference shall be made to the Director, whose decision thereon shall be final.

In the event of any discrepancy, between any drawing and the figures written thereon, the figures shall be taken as correct. Detail drawings shall prevail over general drawings.

5-1.20B(5) **CITY OF ROSEVILLE ENCROACHMENT PERMITS.** Section 5-1.20B(5), "City of Roseville Encroachment Permits" is added as follows:

"The Contractor need not obtain a separate encroachment permit from the City prior to construction within street rights-of-way or other City rights-of-way. Execution of the Contract by the City shall be deemed an encroachment permit for work required by

the Contract within rights-of-way. All work shall conform to the rules and regulations of encroachment permits and shall be subject to the inspection and approval of the Director."

5-1.20B(6) **CITY OF ROSEVILLE BUSINESS LICENSE.** Section 5-1.20B(6), "City of Roseville Business License" is added as follows:

"The Contractor shall obtain a business license from the City prior to commencing work."

5-1.20B(7) **OTHER PERMITS.** Section 5-1.20B(7), "Other Permits" is added as follows:

"The Contractor in coordination with the Director shall procure any necessary permits which the City has not specifically mentioned as obtaining."

5-1.31 **JOB SITE APPEARANCE.** The Contractor shall maintain a neat appearance to the work. In any area visible to the public, the following shall apply:

When practicable, broken concrete and debris developed during clearing and grubbing shall be disposed of concurrently with its removal. If stockpiling is necessary, the material shall be removed or disposed of weekly.

The Contractor shall furnish trash bins for all debris from structure construction. All debris shall be placed in trash bins daily. Forms or falsework that are to be reused shall be stacked neatly concurrently with their removal. Forms and falsework that are not to be reused shall be disposed of concurrently with their removal.

Full compensation for conforming to the provisions in this section, not otherwise provided for, shall be considered as included in price paid for the various Contract items of work involved, and no additional compensation will be allowed therefore.

5-1.38 **MAINTENANCE AND PROTECTION RELIEF.** Section 5-1.38 is deleted.

5-1.43 **POTENTIAL CLAIMS AND DISPUTE RESOLUTION.** Section 5-1.43 is deleted in its entirety and replaced with the following:

5-1.43A **NOTICE OF POTENTIAL CLAIM.** The Contractor shall not be entitled to payment for any additional compensation for any act or failure to act by the City, including failure or refusal to issue a Change Order, or for the happening of any event, thing, occurrence or other cause unless he or she shall have given the City due written Notice of Potential Claim as hereinafter specified.

The written Notice of Potential Claim shall set forth the reasons for which the Contractor believes additional compensation will or may be due, the nature of the costs involved, and, insofar as possible, the amount of the potential claim. The said Notice as above required must have been given to the Director prior to the time that the Contractor shall have performed the Work giving rise to the potential claim for additional compensation, if based on an act or failure to act by the Director, or in all other cases within three (3) Days after the happening of the event, thing, occurrence or other cause giving rise to the potential claim.

If the Notice of Potential Claim does not include complete information about the claim or the parties do not execute a Contract Change Order in connection with the Notice of Potential Claim, Contractor shall submit a complete information about its claim for additional compensation and/or extension of time for performance within fifteen (15) calendar days after such work is performed. Failure to provide written notice of claim prior to undertaking such work or failure to timely submit a complete and specific information about the claim for

additional compensation and/or extension of the time for performance shall be deemed a waiver and abandonment of such claim.

If there is a dispute over any claim, the Contractor shall continue to work during the dispute resolution process in a diligent and timely manner as directed by the City, and shall be governed by all applicable provision of the Agreement.

The Contractor shall maintain cost records of all work that is the basis of any dispute. On a daily basis, Contractor shall submit to City completed daily forms, the format of which will be acceptable to the City, with respect to the Contractor's costs of performing the disputed work. These daily forms shall itemize all of Contractor's costs in performing the disputed work, including, but not limited to, all costs relating to materials, labor and equipment with respect to the disputed work. These daily forms shall provide names or identification and classification of affected workers, the hourly rate of pay and hours worked, and also the size, type, and identification number of equipment and hours operated. Said daily work forms shall be duly signed and verified by the Contractor or its authorized representative. The City's receipt of the Contractors' daily forms shall not constitute an approval of the Contractor's claim. Contractor's failure to submit the daily forms on a daily basis shall constitute a waiver of the Contractor's right to claim any additional compensation for the disputed work.

Each Contractor claim shall include full and complete information concerning the Claim. Contractor shall provide a clear, concise recital of the basis, upon which the claim is asserted, including a designation of the provisions of the Contract Documents upon which the claim is based. Contractor shall also include a statement as to the amount of time and/or compensation sought pursuant to the claim; if Contractor's claim arises from an ongoing occurrence, Contractor shall so state in its claim, including a description of the specific Work activities

affected by the claim. All costs, expenses or damages and extensions of time claimed shall be described in reasonable detail under the circumstances together with complete supporting documentation.

The City will review any timely Notice of Potential Claim and supporting information submitted by Contractor. In conducting this review, the City shall have the right to require the Contractor to submit such additional or supporting documents, data and other information as the City may require.

If an agreement can be reached which resolves the Contractor's claim, the parties will execute a Contract Change Order to document the resolution of the claim. If the parties cannot reach agreement with respect to the Contractor's claim, the Contractor shall still be obligated to comply with the claim identification provisions identified in these Standard Construction Specifications, including but not limited to Section 5-1.43B.

It is the intention of this Section 5-1.43A that differences between the parties arising under and by virtue of the Contract be brought to the attention of the Director at the earliest possible time in order that such matters may be settled, if possible, or other appropriate action promptly taken. The Contractor hereby agrees that he or she shall have no right to additional compensation for any Claim that may be based on any such act, failure to act, event, thing or occurrence for which no timely written Notice of Potential Claim as herein required was filed.

5-1.43B **CLAIMS.** Contractor must submit all Claims, for which it has previously submitted a Notice of Potential Claim, prior to Acceptance of the Work. Each such Claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the Claim.

Upon receipt of a Claim, the City shall conduct a reasonable review of the Claim and, within a period not to exceed forty-five (45) calendar days, or such further time as mutually agreed upon or necessary pursuant to Public Contract Code Section 9204, the City shall provide the Contractor a written statement identifying what portion of the Claim is disputed and what portion is undisputed. If the City does not respond to a Claim from the Contractor within the time specified herein, such Claim shall be deemed rejected in its entirety.

Any payment due on an undisputed portion of the Claim shall be processed and made within sixty (60) calendar days after the City issues its written statement.

If the Contractor disputes the City's written response, or if the City does not respond within the time specified herein, the Contractor may demand in writing an informal conference to meet and confer for settlement of the issues in dispute. Upon receipt of a demand in writing sent by registered mail or certified mail, return receipt requested, the City shall schedule a meet and confer conference within thirty (30) calendar days for settlement of the dispute.

Within ten (10) business days following the conclusion of the meet and confer conference, if the claim or any portion of the claim remains in dispute, the City shall provide the Contractor a written statement identifying the portion of the Claims that remains in dispute and the portion that is undisputed. Any payment due on an undisputed portion of the Claims shall be processed and made within sixty (60) calendar days after the public entity issues its written statement. Any disputed portion of the Claim, as identified by the Contractor in writing, shall be submitted to nonbinding mediation, with the City and the Contractor sharing the associated costs equally. The City and the Contractor shall mutually agree to a mediator within ten (10) business days after the disputed portion of the Claim has been identified in writing. If the parties cannot agree upon a mediator, each party shall select a mediator and those mediators shall select a

qualified neutral third party to mediate with regard to the disputed portion of the Claim. Each party shall be responsible for the fees and costs charged by its respective mediator in connection with the selection of the neutral mediator. If mediation is unsuccessful, the parts of the Claim remaining in dispute shall be resolved in accordance with Section 9-1.22.

5-1.46 **FINAL INSPECTION AND CONTRACT ACCEPTANCE.** When the Director has made the final inspection and determines that the Contract work has been completed in all respects in accordance with the Plans and specifications, the Director will recommend that the Roseville City Council formally accept the work, and immediately upon and after such Acceptance by the City, the Contractor will be responsible for the work done for a period of one (1) year.

SECTION 6. CONTROL OF MATERIALS

6-1.03 **LOCAL MATERIALS.** Local material sites used by the Contractor shall be graded so that, at the time of final inspection of the Contract, they will drain and will blend in with the surrounding terrain.

SECTION 7. LEGAL RELATIONS AND RESPONSIBILITY TO THE PUBLIC

7-1.02K(2) **WAGES.** The provisions of paragraphs 1and 2 of Section 7-1.02K(2) of the Standard Specifications are amended to read as follows:

"Pursuant to the provisions of California Labor Code Section 1773, the City has identified the source, stated below, of the general prevailing rate of wages applicable to the

work to be done, for straight time, overtime, Saturday, Sunday and holiday work. The holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of the particular craft, classification or type of workmen concerned. The wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm, and are incorporated herein as part of the Contract.

Pursuant to California Labor Code Section 1773.2, general prevailing wage rates shall be posted by the Contractor at a prominent place at the site of the work."

7-1.02K(6)(b) **EXCAVATION SAFETY.** For trenches or excavation five feet (5') or deeper, the Contractor shall obtain from the Division of Industrial Safety, a permit authorizing such construction.

7-1.02O **VEHICLE CODE.** Pursuant to the authority contained in Vehicle Code Section 591, the Department has determined that, within such areas as are within the limits of the project and are open to public traffic, the Contractor shall comply with all the requirements set forth in Vehicle Code Divisions 11, 12, 13, 14, and 15. Attention is directed to the statement in Section 591 that this section shall not relieve the Contractor nor any person from the duty of exercising due care. The Contractor shall take all necessary precautions for safe operation of equipment and the protection of the public from injury and damage from such equipment.

7-1.03 **PUBLIC CONVENIENCE.** Section 7-1.03 of the Standard Specifications is amended in part as follows:

1. Delete paragraph 10 ("Install signs, lights, flares . . .") and substitute the following:

"In order to expedite the passage of public traffic through or around the work, the Contractor shall install signs, lights, flares, temporary railing (type K), barricades, and other facilities for the sole convenience and direction of public traffic as may be required. Also, as may be required, the Contractor shall furnish competent flaggers whose sole duties shall consist of directing the movement of public traffic through or around the work. The cost of furnishing and installing such signs, lights, flares, temporary railing (type K), barricades, flaggers, and other facilities shall be included in the lump sum paid for traffic control and no additional compensation will be allowed therefor.

In addition to the requirements previously specified for furnishing facilities and flaggers to expedite the safe passage of the public through or around the work, the Contractor shall at his or her expense furnish and erect within or adjacent to the work such warning, regulatory, or guide signs, markers, or devices as are necessary."

2. Add a paragraph at the end of the section to read as follows:

"In addition to the requirements hereinbefore specified for furnishing facilities and flaggers for expediting the passage of public traffic through or around the work, the Contractor shall furnish and erect, within or adjacent to the limits of the Contract, such warning, regulatory, and guide signs as may be required. The Contractor shall furnish, install and remove all such signs. Payment for furnishing, installing and removing all such signs shall be included in the lump sum price paid for traffic control and no additional compensation will be allowed therefor."

7-1.04 **PUBLIC SAFETY.** It is the intent of the parties that the City is not an exposing, creating, controlling, or correcting employer under California Labor Code Section 6400. In accordance with generally accepted construction practices and State law, the Contractor

shall have the authority and be solely and completely responsible for conditions on the job site, including safety of all persons and property during performance of the Work. Moreover, the Contractor shall be the controlling employer and has the authority and responsibility to enforce worksite safety. The Contractor shall be responsible for conducting daily safety inspections and assuring all hazards and violations are abated. The Contractor is responsible for assuring that all subcontractors adhere to the minimum CAL/OSHA safety requirements and that each subcontractor has an effective CAL/OSHA IIP (Illness and Injury Protection Program) in place that specifically addresses all potential exposures, such as, but not limited to, fall protection, confined space, and trenching/shoring. These requirements shall apply continuously and not be limited to normal working hours. The Contractor shall be responsible for any delay costs or damages in the event the progress of Work is slowed or stopped due to a safety violation.

The services of the Director in conducting construction review of the Contractor's performance is not intended to include review of the adequacy of the Contractor's Work methods, equipment, bracing or scaffolding, or safety measures, in, on, or near the construction site. If a City employee observes a safety violation, the City employee will report the violation to the Contractor who is then responsible for assuring the violation is abated.

The Contractor is hereby informed that Work on this project could be hazardous. The Contractor shall carefully instruct all personnel working in potentially hazardous Work areas as to potential dangers and shall provide such necessary safety equipment and instructions as are necessary to prevent injury to personnel and damage to property. Special care shall be exercised relative to Work underground.

All Work and materials shall be in strict accordance with all applicable State, City, County, and Federal Rules, Regulations, and Codes, and attention is drawn to the requirements

of CAL/OSHA. The Contractor shall be solely responsible for compliance with all City, County and State blasting requirements and for any damages caused by his or her operations.

In accordance with California Labor Code Section 6705, the Contractor shall submit to the City specific plans to show details of provisions for worker protection from caving ground. This in no way relieves the Contractor from the requirement of maintaining safety in all operations performed by the Contractor or the Contractor's subcontractors. The detailed plan showing design of shoring, bracing, sloping or other provisions shall be prepared by a registered civil or structural engineer in the State of California as required. Acceptance by the City or its designated agent only constitutes acknowledgment of the submission and does not constitute review or approval of the designs, design assumptions or criteria, completeness of submissions, applicability to areas of intended use, nor implementation of the plans, which are solely the responsibility of the Contractor and his or her registered engineer.

Notwithstanding any classifications relative to the Tunnel Safety Orders, Work within confined spaces on this project is subject to the definitions and applicable provisions of California Code of Regulations Section 8400 et seq., Title 8.

The Contractor shall so perform its Work as not to expose personnel to, or to discharge into the atmosphere from any source whatever, smoke, dust, asbestos, toxic chemicals or other air contaminants in violation of the laws, rules, and regulations of the governmental entities having jurisdiction. Contractors or subcontractors removing one hundred or more square feet (100') of asbestos must be “Certified” in accordance with State law. All Work involving exposure to asbestos and all other hazardous materials shall be performed with protection of personnel in compliance with all applicable regulations and safety requirements.

Nothing in these Standard Construction Specifications is to be construed to permit Work not conforming to governing codes. When Contract Documents differ from governing codes, the Contractor shall furnish and install the higher standards called for without extra charge. All equipment furnished shall be grounded and provided with guards and protection as required by safety codes. Where vapor tight or explosion proof electrical installation is required by code, this shall be provided. In accordance with the provisions of Labor Code Section 6707, the Contractor shall provide adequate sheeting, shoring and bracing for employee protection, as provided in the proposal as separate Bid Items.

7-1.05 **INDEMNIFICATION.** The City of Roseville and its officers, agents, employees, and volunteers, including but not limited to the Director, shall not be answerable or accountable in any manner: for any loss or damage that may happen to the work or any part thereof; for any loss or damage to any of the materials or any things used or employed in performing the work; for injury to or death of any person, either workers or the public; or for damage to property from any cause which might have been prevented by the Contractor, his or her workers, or anyone employed by the Contractor or his or her subcontractors.

The Contractor shall be responsible for any liability imposed by law and for injuries to, or death of, any person including, but not limited to, workers and the public, or damage to property resulting from defects or obstructions, or from any cause whatsoever during the progress of the work or at any time before its completion and final Acceptance.

To the fullest extent allowed by law, the Contractor shall defend (through counsel acceptable to the City), indemnify, and save harmless the City of Roseville and its officers, agents, employees, and volunteers from all claims, suits, or actions of every name, kind, and description, brought forth, or on account of, injuries to or death of any person including, but not

limited to, workers and the public, or damage to property resulting from the performance of the Contract, except as otherwise provided by statute.

The duty of the Contractor to defend, indemnify, and save harmless includes, but is not limited to, the duties to defend as set forth in Civil Code Section 2778. The Contractor waives any and all rights to any type of express or implied indemnity against the City, its officers, agents, employees, or volunteers.

It is the intent of the parties that the Contractor will defend, indemnify, and hold harmless the City of Roseville, its officers, agents, employees, and volunteers from any and all claims, suits, or actions as set forth above regardless of existence or degree of fault or negligence, on the part of the City, the Contractor, the subcontractor or employee of any of these; except the duty does not apply where the injury or damage is due to the sole or active negligence or willful misconduct of the City.

The Contractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Contract for the full period of time allowed by law. The defense and indemnity obligations of this Contract are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Contract. The parties intend that the defense and indemnity obligations in this Contract shall be broadly construed.

In addition to any remedy authorized by law, so much of the money due the Contractor under and by virtue of the Contract as shall be considered necessary by the City may be retained by the City until disposition has been made of such suits or claims for damages.

The retention of money due the Contractor shall be subject to the following:

A. The City will give the Contractor thirty (30) calendar days' notice of its intention to retain funds from any partial payment which may become due to the Contractor prior

to Acceptance of the Contract. Retention of funds from any payment made after Acceptance of the Contract may be made without such prior notice to the Contractor.

B. No retention of additional amounts out of partial payments will be made if the amount to be retained does not exceed the amount being withheld from partial payments pursuant to Section 9-1.16F, "Retentions," of the Standard Construction Specifications.

C. If the City had retained funds and it is subsequently determined that the City is not entitled to be indemnified and saved harmless by the Contractor in connection with the matter for which such retention was made, the City shall be liable for interest on the amount retained at the legal rate of interest for the period of such retention.

7-1.06 **INSURANCE COVERAGE.** Section 7-1.06 Insurance in the Standard Specifications shall be deleted in its entirety and replaced with the following:

A. Evidence of Maintenance Required. The Contractor shall, at its expense, procure and at all times maintain in full force and effect at a minimum the insurance required by this section on all of its operations; and the Contractor shall not allow any Subcontractor to commence work until similar insurance required of the Subcontractor has been obtained and filed. An original Certificate of Insurance, and copies of all required endorsements, all in a form approved by the Risk Manager, evidencing all required coverage or policies shall be filed after the award of the bid and prior to approval of the Contract by the City Council. Contractor shall provide ten (10) days prior written notice to the City of any reduction of coverage limits or cancellation of the coverage or policies shall be given to the City of Roseville as Certificate holder.

B. Qualifying Insurers. With the exception of the State Compensation Insurance Fund, all required insurance policies shall be issued by companies acceptable to the

City and licensed to do business in the State of California and who hold a current policy holders alphabetic and financial size category rating of not less than AVII according to the most recent issue of Best's Insurance Reports.

C. Insurance Required.

1. **Commercial General Liability (CGL):** Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations with limits of no less than Two Million Dollars ($2,000,000) per occurrence for bodily injury, personal injury and property damage for projects under One Million Dollars ($1,000,000) and limits of no less than Five Million Dollars ($5,000,000) per occurrence for bodily injury, personal injury and property damage for projects over One Million Dollars ($1,000,000). If a general aggregate limit applies, either the aggregate limit shall apply separately to this project or the general aggregate limit shall be twice the required occurrence limit.

The Commercial General Liability insurance shall include the following, copies of which shall be provided:

a. Inclusion of the City of Roseville, and its officers, agents, employees, and volunteers, as additional insureds (except for workers' compensation) as respects services or operations under the Contract. The additional insured endorsement for the general liability policy shall be at least as broad as the ISO CG 2010 10 01 combined with ISO CGL Endorsement CG 2037 10 01. Any other endorsement must be approved in writing by the City. Endorsements must include coverage for on-going and completed operations, which coverage shall be maintained for four (4) years following completion of the Project. Endorsements shall cover the City of Roseville, its officers, agents, employees, and volunteers.

b. The insurance shall provide coverage for claims by one insured against another insured and the policies shall not contain any cross-suits exclusions, cross-liability exclusions, or insured versus insured exclusions. The policies shall not contain any classification exclusions purporting to deny coverage for any work to be performed by Contractor or any of its Subcontractors.

c. Stipulation that the insurance is primary and noncontributory, as evidenced by a separate endorsement (CG 20 01 04 13 or an equivalent) or section of the policy, and that neither the City nor its insurers will be called upon to contribute to a loss.

d. Such insurance shall specifically cover the contractual liability of the Contractor.

e. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

f. Waiver of subrogation endorsement.

g. The Contractor shall furnish a certificate for the period covered.

2. **Automobile Liability:** Insurance Services Office Form Number CA 0001 covering Code 1 (any auto), or if contractor has no owned autos, Code 8 (hired) and Code 9 (non-owned), with limits of no less than One Million Dollars ($1,000,000) per accident for bodily injury and property damage.

3. **Workers' Compensation:** In accordance with the provisions of the California Labor Code, Contractor is required to be insured against liability for Workers'

Compensation or to undertake self-insurance. Statutory Workers' Compensation and Employers' Liability of at least One Million Dollars ($1,000,000) shall cover all Contractors staff while performing any work incidental to the performance or this Agreement.

4. **Professional Liability:** Professional Liability (Errors and Omission) Insurance appropriate to Contractor's profession, with a limit of liability not less than One Million Dollars ($1,000,000) per occurrence or claim and Two Million Dollars ($2,000,000) aggregate to cover all design and engineering services rendered by Contractor pursuant to the Agreement. Coverage must commence from the first day that Contractor or any of its Subcontractors provided any design or engineering services in connection with the Project.

5. **Builder's Risk/Course of Construction Insurance (If Required by Risk Management):** The Contractor shall be responsible for all loss, damage or destruction whatsoever to the work called for by this Contract until the approval of a Notice of Completion or acceptance of the Work if no Notice of Completion is to be recorded.

The Contractor shall secure "All Risk" type of builder's Risk Insurance of the type covering one hundred percent (100%) of the value of the work performed under this Contract (the value is presumed to be the Contract amount unless otherwise stated in Supplemental Conditions) and all materials, equipment, or other items to be incorporated therein while the same are located at the construction site, a bonded warehouse, or its place of manufacture. At any time, the policy shall cover the value of the work completed. The policy shall cover hazards including the losses due to fire, explosion, hail, rain, lightning, flood (separate insurance as needed), vandalism, malicious mischief, wind, collapse, aircraft, and smoke.

The policies providing such insurance shall name the City as a loss payee as its respective interests may appear, and certified copies of such policies shall be filed with the City. The

maximum deductible allowable under the Builder's All Risk policy shall be five percent (5%) of the Contract amount.

Builder's Risk Insurance is not required for coverage of losses in excess of five percent (5%) of the Contract amount for damages resulting from earthquake in excess of a magnitude of 3.5 on the Richter scale, or tidal waves. Coverage in the amount of five percent (5%) of the Contract amount for such losses is required.

6. **Pollution Coverage:** Contractor shall procure pollution liability coverage or other insurance covering claims for bodily injury or property damage arising out of the abatement, removal, storage, transportation, or other exposure to hazardous materials or pollutants, in limits not less than Two Million Dollars ($2,000,000). Contractor shall add the City and all parties required to be indemnified by Contractor as additional insured on all pollution liability policies.

7. **Higher Coverage Limits:** If Contractor maintains higher coverage limits than the amounts shown above, then the City requires and shall be entitled to coverage for the higher coverage limits maintained by Contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City.

8. **Claims Made Coverage:** Liability insurance coverage may not be written on a "claims made" or modified occurrence basis. The Certificate of Insurance must clearly provide that the coverage is on an "occurrence" basis.

7-1.06A **OTHER INSURANCE PROVISIONS.**

A. The requirements of the Standard Specifications as to types and limits of insurance coverage to be maintained by the Contractor, and any approval of insurance by the City, are not intended to, and shall not in any manner limit or qualify the liabilities and

obligations otherwise assumed by the Contractor pursuant to the Contract, including, but not limited to, the provisions concerning indemnification, nor preclude the City from taking any other action available to it under any other provision of the Contract or law.

B. The City acknowledges that some insurance requirements contained in these Standard Specifications may be fulfilled by self-insurance on the part of the Contractor. However, this shall not in any way limit liabilities assumed by Contractor under the Contract. Any self-insurance must be approved in writing by the City, in its sole discretion and shall not reduce the limits of liability. Any deductibles or self-insured retentions ("SIR") must be declared on the certificate of insurance and approved by City in writing. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

C. The Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Contract, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, the Contractor shall require its subcontractors to agree to be bound to the Contractor and the City in the same manner and to the same extent as the Contractor is bound to the City under this Contract. Additionally, the Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of the City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request. Alternatively, the Contractor may insure subcontractor(s) under its own policy.

D. The City, its officers, agents, employees, and volunteers are to be covered as insureds with respect to liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor; and with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts or equipment furnished in connection with such work or operations. Coverage shall not extend to any indemnity coverage for the active negligence of the additional insured in any case where an agreement to indemnify the additional insured would be invalid under California Insurance Code Section 11580.04.

E. The limits of insurance required in this Contract may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the City (if agreed to in a written contract) before the City's own insurance shall be called upon to protect it as a named insured.

F. The insurance procured by Contractor shall be subject to the approval of the City, but any acceptance of insurance certificates by the City shall in no way limit or relieve Contractor of its duties and responsibilities under the Agreement.

G. Contractor shall be responsible for all premiums, deductibles, and self-insured retention applicable to the insurance it is required to procure under the Contract. All deductibles or self-insured retentions over five hundred thousand dollars ($500,000) must be approved by the City, in writing. Contractor shall be responsible for all deductibles, self-insured retention payments, and/or increased premiums incurred if the City's policies of insurance are forced to cover damages or respond to claims for which Contractor or its Subcontractors were obligated to provide insurance under the Contract.

H. Failure of the City to enforce in a timely manner any of the requirements of these insurance provisions shall not act as a waiver to enforcement of any of these provisions at a later date.

I. Contractor's indemnity obligations shall not be limited by these insurance provisions and shall survive the expiration of the Contract and the insurance provisions of the Contract shall likewise not be limited by the indemnity provisions of the Contract.

J. THE CITY RESERVES THE RIGHT TO WITHHOLD ANY PROGRESS PAYMENTS TO THE CONTRACTOR IN THE EVENT OF NONCOMPLIANCE WITH ANY INSURANCE REQUIREMENTS.

SECTION 8. PROSECUTION AND PROGRESS

8-1.04 **START OF JOB SITE ACTIVITIES.** The Contractor shall begin work by the date specified in the "Notice to Proceed" letter, and the Contractor shall thereafter diligently prosecute the work to completion.

The Contractor shall notify the Director, in writing, of his or her intent to commence work at least seventy-two (72) hours before work is begun. The notice shall specify the date on which the Contractor intends to begin work. If a project has more than one (1) location of work, a separate notice shall be given for each location.

Should the Contractor begin work in advance of issuance of a "Notice to Proceed," any work performed in advance of such issuance shall be considered to have been done at Contractor's own risk and as a volunteer.

SECTION 9. PAYMENT

9-1.11C **PAYMENT INCLUSIONS.** The following is added to Section 9-1.11C Payment Inclusions:

"No additional compensation will be made to the Contractor for claims of increased overhead costs occurring within the originally specified construction Contract period plus any time extensions granted by Change Order. No compensation for extended performance will be granted unless the delay exceeds more than half of the float time available at the time of the delay."

9-1.16E(4) **STOP NOTICE WITHHOLDS.** The City may, at its option and at any time, retain out of amounts due the Contractor, sums sufficient to cover claims (including costs and attorneys' fees), filed pursuant to California Civil Code Section 9350 et seq.

9-1.16F **RETENTIONS.** The Department shall retain five percent (5%) of the Contract price as part security for the fulfillment of the Contract by the Contractor.

9-1.16G **PAYMENT OF WITHHELD FUNDS.** Section 9-1.16G, "Payment of Withheld Funds" is added as follows:

"Except as otherwise prohibited by law, the Contractor may elect to receive all payments due under the Contract pursuant to without any retention. If the Contractor so elects, a deposit with the City of securities with a value equivalent to the retention that would otherwise be withheld by the City shall be made. Said security shall be as provided in California Public Contract Code Section 22300, and shall be approved by the City both as to sufficiency and form. In the alternative, the Contractor may elect to deposit such securities in an escrow account and enter into a standard form Escrow

Agreement for Security Deposits in Lieu of Retention. Blank Agreements are available from the Public Works Director and the City Attorney's Office."

9-1.17 **PAYMENT AFTER CONTRACT ACCEPTANCE.** "Final Payment" shall be made in accordance with this section. The Contractor shall, after the completion of the Contract, submit a final estimate of the amount of work done thereunder and the value of such work. Upon approval of the estimate by the Director, the City of Roseville shall pay the entire sum so found to be due after deducting therefrom all previous payments and all amounts to be kept and all amounts to be retained under the provisions of the Contract. All prior partial estimates and payments shall be subject to correction in the final estimate and payment. The final payment shall not be due and payable until the expiration of thirty five (35) calendar days from the date of Acceptance of the work by the City Council, and thirty-five (35) calendar days after filing of the Notice of Completion with the County of Placer.

No certificate given or payments made under the Contract, except the final certificate or final payment, shall be conclusive evidence of the performance of the Contract, either wholly or in part, and no payment (including the final payment) or certificate shall be construed to be an Acceptance of any defective work or improper materials. Final payment shall not release the Contractor from one (1) year guarantee of the work as provided in Section 7-1.17, "Acceptance of Contract" and Section 2-1.12 "Guarantee and Warranty" of these Specifications.

SECTION 14. ENVIRONMENTAL STEWARDSHITP

14-8.02 **NOISE CONTROL.** The provisions of Section 14-8.02 of the Standard Specifications are amended by adding the following:

"The Contractor shall additionally conform to the provisions of Roseville Municipal Code Chapter 9.24 where such provisions are more restrictive than these specifications."

14-9.01 **AIR QUALITY GENERAL.** The provisions of Section 14-9.01, "Air Quality General" of the Standard Specifications are amended by adding the following:

"Material to be disposed of shall not be burned unless the Contractor has obtained a permit to burn combustible material resulting from clearing and grubbing operations from the Placer County Air Pollution Control District and City of Roseville Fire Marshall. A copy of the permits shall be filed with the Director

before beginning any burning. All such burning shall be conducted in strict conformance with the provision stipulated in said permits and at such times and in such manner as to prevent fire from spreading to areas adjoining the right-of-way."

14-11.02A **ASBESTOS REMOVAL AND DISPOSAL.** Section 14-11.02A, "Asbestos Removal and Disposal" is added as follows:

"The Contractor shall comply with all rules, regulations, statutes and ordinances regarding asbestos removal and disposal, including but not limited to, 42 U.S.C. Sections 7401, 7412 and 7601 and 40 C.F.R. Part 61, Subpart M.

If the Contractor discovers that a building to be demolished or renovated contains asbestos containing material, the Contractor shall immediately cease work and notify the City."

END OF STANDARD SPECIFICATIONS

TEXT OF AB 626

Assembly Bill No. 626

CHAPTER 810

An act to add and repeal Section 9204 of the Public Contract Code, relating to public contracts.

[Approved by Governor September 29, 2016. Filed with Secretary of State September 29, 2016.]

LEGISLATIVE COUNSEL'S DIGEST

AB 626, Chiu. Public contracts: claim resolution.

Existing law prescribes various requirements regarding the formation, content, and enforcement of state and local public contracts. Existing law applicable to state public contracts generally requires that the resolution of claims related to those contracts be subject to arbitration. Existing law applicable to local agency contracts prescribes a process for the resolution of claims related to those contracts of $375,000 or less.

This bill would establish, for contracts entered into on or after January 1, 2017, a claim resolution process applicable to any claim by a contractor in connection with a public works project. The bill would define a claim as a separate demand by the contractor for one or more of the following: a time extension for relief from damages or penalties for delay, payment of money or damages arising from work done pursuant to the contract for a public work, or payment of an amount disputed by the public entity, as specified.

This bill would require a public entity, defined to exclude certain state entities, upon receipt of a claim sent by registered or certified mail, to review it and, within 45 days, provide a written statement identifying the disputed and undisputed portions of the claim. The bill would authorize the 45-day period to be extended by mutual agreement. The bill would require any payment due on an undisputed portion of the claim to be processed within 60 days, as specified. The bill would require that the claim be deemed rejected in its entirety if the public entity fails to issue the written statement.

This bill would authorize, if the claimant disputes the public entity's written response or if the public entity fails to respond to a claim within the time prescribed, the claimant to demand to meet and confer for settlement of the issues in dispute. The bill would require any disputed portion of the claim that remains in dispute after the meet and confer conference to be subject to nonbinding mediation, as specified. The bill would provide that unpaid claim amounts accrue interest at 7% per annum. The bill would prescribe a procedure by which a subcontractor or lower tier contractor may make a claim through the contractor.

This bill would require the text of these provisions, or a summary, to be set forth in the plans or specifications for any public work which may give rise to a claim. The bill would specify that a waiver of these rights is void and contrary to public policy, except as specified. The bill would also specify that it does not impose liability on a public entity that makes loans or grants available through a competitive application process, for the failure of an awardee to meet its contractual obligations.

By increasing the duties of local agencies and officials, this bill would impose a state-mandated local program.

This bill would, on January 1, 2020, repeal the provision establishing the claim resolution process.

This bill would specify that these provisions constitute a matter of statewide concern.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

The people of the State of California do enact as follows:

SECTION 1. Section 9204 is added to the Public Contract Code, to read:

9204. (a) The Legislature finds and declares that it is in the best interests of the state and its citizens to ensure that all construction business performed on a public works project in the state that is complete and not in dispute is paid in full and in a timely manner.

(b) Notwithstanding any other law, including, but not limited to, Article 7.1 (commencing with Section 10240) of Chapter 1 of Part 2, Chapter 10 (commencing with Section 19100) of Part 2, and Article 1.5 (commencing with Section 20104) of Chapter 1 of Part 3, this section shall apply to any claim by a contractor in connection with a public works project.

(c) For purposes of this section:

(1) "Claim" means a separate demand by a contractor sent by registered mail or certified mail with return receipt requested, for one or more of the following:

(A) A time extension, including, without limitation, for relief from damages or penalties for delay assessed by a public entity under a contract for a public works project.

(B) Payment by the public entity of money or damages arising from work done by, or on behalf of, the contractor pursuant to the contract for a public works project and payment for which is not otherwise expressly provided or to which the claimant is not otherwise entitled.

(C) Payment of an amount that is disputed by the public entity.

(2) "Contractor" means any type of contractor within the meaning of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code who has entered into a direct contract with a public entity for a public works project.

(3) (A) "Public entity" means, without limitation, except as provided in subparagraph (B), a state agency, department, office, division, bureau, board, or commission, the California State University, the University of California, a city, including a charter city, county, including a charter county, city and county, including a charter city and county, district, special district, public authority, political subdivision, public corporation, or nonprofit transit corporation wholly owned by a public agency and formed to carry out the purposes of the public agency.

(B) "Public entity" shall not include the following:

(i) The Department of Water Resources as to any project under the jurisdiction of that department.

(ii) The Department of Transportation as to any project under the jurisdiction of that department.

(iii) The Department of Parks and Recreation as to any project under the jurisdiction of that department.

(iv) The Department of Corrections and Rehabilitation with respect to any project under its jurisdiction pursuant to Chapter 11 (commencing with Section 7000) of Title 7 of Part 3 of the Penal Code.

(v) The Military Department as to any project under the jurisdiction of that department.

(vi) The Department of General Services as to all other projects.

(vii) The High-Speed Rail Authority.

(4) ”Public works project” means the erection, construction, alteration, repair, or improvement of any public structure, building, road, or other public improvement of any kind.

(5) ”Subcontractor” means any type of contractor within the meaning of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code who either is in direct contract with a contractor or is a lower tier subcontractor.

(d) (1) (A) Upon receipt of a claim pursuant to this section, the public entity to which the claim applies shall conduct a reasonable review of the claim and, within a period not to exceed 45 days, shall provide the claimant a written statement identifying what portion of the claim is disputed and what portion is undisputed. Upon receipt of a claim, a public entity and a contractor may, by mutual agreement, extend the time period provided in this subdivision.

(B) The claimant shall furnish reasonable documentation to support the claim.

(C) If the public entity needs approval from its governing body to provide the claimant a written statement identifying the disputed portion and the undisputed portion of the claim, and the governing body does not meet within the 45 days or within the mutually agreed to extension of time following receipt of a claim sent by registered mail or certified mail, return receipt requested, the public entity shall have up to three days following the next duly publicly noticed meeting of the governing body after the 45-day period, or extension, expires to provide the claimant a written statement identifying the disputed portion and the undisputed portion.

(D) Any payment due on an undisputed portion of the claim shall be processed and made within 60 days after the public entity issues its written statement. If the public entity fails to issue a written statement, paragraph (3) shall apply.

(2) (A) If the claimant disputes the public entity’s written response, or if the public entity fails to respond to a claim issued pursuant to this section within the time prescribed, the claimant may demand in writing an informal conference to meet and confer for settlement of the issues in dispute. Upon receipt of a demand in writing sent by registered mail or certified mail, return receipt requested, the public entity shall schedule a meet and confer conference within 30 days for settlement of the dispute.

(B) Within 10 business days following the conclusion of the meet and confer conference, if the claim or any portion of the claim remains in dispute, the public entity shall provide the claimant a written statement identifying the portion of the claim that remains in dispute and the portion that is undisputed. Any payment due on an undisputed portion of the claim shall be processed and made within 60 days after the public entity issues its written statement. Any disputed portion of the claim, as identified by the contractor in writing, shall be submitted to nonbinding mediation, with the public entity and the claimant sharing the associated costs equally. The public entity and claimant shall mutually agree to a mediator within 10 business days after the disputed portion of the claim has been identified in writing. If the parties cannot agree upon a mediator, each party shall select a mediator and those mediators shall select a qualified neutral third party to mediate with regard to the disputed portion of the claim. Each

party shall bear the fees and costs charged by its respective mediator in connection with the selection of the neutral mediator. If mediation is unsuccessful, the parts of the claim remaining in dispute shall be subject to applicable procedures outside this section.

(C) For purposes of this section, mediation includes any nonbinding process, including, but not limited to, neutral evaluation or a dispute review board, in which an independent third party or board assists the parties in dispute resolution through negotiation or by issuance of an evaluation. Any mediation utilized shall conform to the timeframes in this section.

(D) Unless otherwise agreed to by the public entity and the contractor in writing, the mediation conducted pursuant to this section shall excuse any further obligation under Section 20104.4 to mediate after litigation has been commenced.

(E) This section does not preclude a public entity from requiring arbitration of disputes under private arbitration or the Public Works Contract Arbitration Program, if mediation under this section does not resolve the parties' dispute.

(3) Failure by the public entity to respond to a claim from a contractor within the time periods described in this subdivision or to otherwise meet the time requirements of this section shall result in the claim being deemed rejected in its entirety. A claim that is denied by reason of the public entity's failure to have responded to a claim, or its failure to otherwise meet the time requirements of this section, shall not constitute an adverse finding with regard to the merits of the claim or the responsibility or qualifications of the claimant.

(4) Amounts not paid in a timely manner as required by this section shall bear interest at 7 percent per annum.

(5) If a subcontractor or a lower tier subcontractor lacks legal standing to assert a claim against a public entity because privity of contract does not exist, the contractor may present to the public entity a claim on behalf of a subcontractor or lower tier subcontractor. A subcontractor may request in writing, either on his or her own behalf or on behalf of a lower tier subcontractor, that the contractor present a claim for work which was performed by the subcontractor or by a lower tier subcontractor on behalf of the subcontractor. The subcontractor requesting that the claim be presented to the public entity shall furnish reasonable documentation to support the claim. Within 45 days of receipt of this written request, the contractor shall notify the subcontractor in writing as to whether the contractor presented the claim to the public entity and, if the original contractor did not present the claim, provide the subcontractor with a statement of the reasons for not having done so.

(e) The text of this section or a summary of it shall be set forth in the plans or specifications for any public works project that may give rise to a claim under this section.

(f) A waiver of the rights granted by this section is void and contrary to public policy, provided, however, that (1) upon receipt of a claim, the parties may mutually agree to waive, in writing, mediation and proceed directly to the commencement of a civil action or binding arbitration, as applicable; and (2) a public entity may prescribe reasonable change order, claim, and dispute resolution procedures and requirements in addition to the provisions of this section, so long as the contractual provisions do not conflict with or otherwise impair the timeframes and procedures set forth in this section.

(g) This section applies to contracts entered into on or after January 1, 2017.

(h) Nothing in this section shall impose liability upon a public entity that makes loans or grants available through a competitive application process, for the failure of an awardee to meet its contractual obligations.

(i) This section shall remain in effect only until January 1, 2020, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2020, deletes or extends that date.

SECTION 2.
The Legislature finds and declares that it is of statewide concern to require a charter city, charter county, or charter city and county to follow a prescribed claims resolution process to ensure there are uniform and equitable procurement practices.

SECTION 3.
If the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code.

SPECIAL PROVISIONS
FOR THE CITY OF ROSEVILLE
STORM DRAIN REPAIR PROJECT

SCOPE OF SPECIAL PROVISIONS

The work described in these Special Provisions shall be performed in conformance with the latest editions of the City of Roseville Standard Construction Specifications, City of Roseville Design and Construction Standards, 2015 State of California Standard Specifications, Amendments to the 2015 Standard Specifications, 2015 Standard Special Provisions, and 2015 Standard Plans, except insofar as these Special Provisions may modify them.

With the exception of section 2, “Bidding,” numbering in these Special Provisions conforms to that in the State Standard Specifications. The existence of a section in these Special Provisions means that the corresponding section in the Standard Construction Specifications, State Standard Specifications, and/or State Revised Standard Specifications is modified in some respect.

The construction materials, payments, etc., for items of work shown in the proposal and on the plans, but not specifically mentioned in these Special Provisions are referred to the Standard Construction Specifications, State Standard Specifications, and/or State Revised Standard Specifications for conformance.

DISCREPANCIES AND OMISSIONS

Replace section 5-1.02 with:

A component in one Contract part applies as if appearing in each. The parts are complementary and describe and provide for a complete work.

Any discrepancies or omissions found in the Contract Documents shall be reported to the Engineer immediately. The Engineer will clarify

discrepancies or omissions, in writing, within reasonable time.

In resolving inconsistencies among two or more sections of the Contract Documents, precedence shall be given in the following order:

1. Special Provisions
2. City of Roseville Standard Construction Specifications
3. City of Roseville Design and Construction Standards
4. Amendments to the 2015 State Standard Specifications
5. 2015 State Standard Specifications
6. 2015 State Standard Plans
7. Drawings

Addenda shall take precedence over all sections referenced therein. Figure dimensions on Drawings shall take precedence over general Drawings. Detailed Drawings shall take precedence over General Drawings. Specific specifications take precedence over a general specification. Specification in a section takes precedence over a specification referenced by that section.

If a discrepancy is found or confusion arises, submit an RFI.

DIVISION I GENERAL PROVISIONS

1 GENERAL

Add to section 1-1.06:

BMP	Best Management Practice
CAMUTCD	California Manual on Uniform Traffic Control Devices
PMAR	Polymer Modified Asphalt Rubber

Add to section 1-1.07B:

Replace the definition for holiday in section 1-1.07B with:

Holiday: Holiday shown in the following table:

Holidays

Holiday	Date observed
New Year's Day	January 1st
Martin Luther King Day	Third Monday in January
President's Day	Third Monday in February
Memorial Day	Last Monday in May
Independence Day	July 4th
Labor Day	First Monday in September
Veteran's Day	November 11th
Thanksgiving Day	Fourth Thursday in November
Day after Thanksgiving	The first Friday after Thanksgiving Day.
Christmas Day	December 25th

When a designated holiday falls on a Saturday or Sunday, the preceding Friday or following Monday (respectfully) shall be a designated holiday.

2 BIDDING

Add section 2-1.00, "SCOPE" as follows:

The bidder's attention is directed to the provisions in section 2, "Proposal Requirements and Conditions", of the Standard Construction Specifications for the requirements and conditions which he/she must observe in the preparation of the proposal form and the submission of the bid.

Add section 2-1.09, "OBTAINING PLANS AND SPECIFICATIONS" as follows:

A Project Manual, including all Contract Documents and the Proposal forms for bidding this project, may be purchased or downloaded on-line from Public Purchase service at http://www.publicpurchase.com/. The service requires that the Contractor establish a username and password in order to download and/or order plans and specifications.

Add section 2-1.10, "SUBMITTAL OF PROPOSALS" as follows:

In addition to the requirements of the Notice to Contractor's and the Standard Construction Specifications, proposals must be submitted to the City Clerk, under sealed cover and plainly marked on the outside, STORM DRAIN REPAIR PROJECT no later than the date and time of public submittal of proposals as specified in the Notice to Contractor's. Any addenda to these Special Provisions or other contract documents shall be acknowledged where indicated.

Add section 2-1.11, "QUESTIONS" as follows:

Question shall be submitted in writing to http://www.publicpurchase.com/ no later than 7 working days prior to the bid opening. Questions submitted after the above listed deadline will not be addressed. The City will respond in writing to the questions no later than 3 working days prior to the bid opening.

3 CONTRACT AWARD AND EXECUTION

Add to section 3-1.02A:

For a Base Bid/Alternate Bid project, the City of Roseville shall determine the apparent lowest responsive/responsible bidder, at the time of bid opening, based on the lowest total of the Base Bid plus the Alternative Bid items. The City of Roseville, if it chooses to award, shall award the lowest responsible/responsive bidder based on the lowest total of the Base Bid plus any Alternative Bid item(s) at the City's discretion. Depending on budget constraints, the actual project may, at the City's discretion, include items from only the Base Bid or from the Base Bid plus one or more Alternate Bid items. The Contractor must submit for all Base Bid and all Alternate Bid items. No response or response of zero on any bid item shall be deemed a non-responsive bid.

4 SCOPE OF WORK

Add to section 4-1.01:

The project consists of installation of drain pipes, drain inlets, drain manholes, drain pipe lining, and construction of concrete curb and gutter, and curb ramps.

Add to the list in the 1st paragraph in section 4-1.06B:

3. During the progress of the work, if material is discovered that the Contractor believes may be material that is hazardous waste, as defined in Section 25117 of the Health and Safety Code, that is required to be removed and disposed at a Class I, Class II, or Class III disposal site in accordance with provisions of existing law, the party discovering such conditions shall promptly notify the other party in writing before conditions are disturbed and before the affected work is performed.

Add to section 4-1.13:

The Contractor shall remove all temporary pavement delineation.

Prior to submitting the final payment request, the Contractor shall remove all reference markings (i.e. USA markings, striping reference points, utility reference points) placed during the course of work by pressure washing. Where the final roadway surface is micro-surfacing or high friction surface treatment, remove markings by hand painting all reference markings with paint that matches the treatment color. Paint shall be in rectangular blocks.

5 CONTROL OF WORK

Add to section 5-1.01:

All work is subject to inspection and approval by the Engineer. The Contractor shall notify the Engineer, along with all affected utility companies, 2 working days in advance of the start of work to coordinate and schedule inspection staff.

The City will provide 1 inspector and 1 resident engineer for an 8 hour day and 40 hour per week basis only, excluding designated City, State, or Federal holidays. The Contractor shall reimburse the City in the amount of $175.00 per hour for inspection and $200.00 per hour for Resident Engineer costs for time in excess of 8 hours per day, 40 hours per week, or inspection performed during designated City holidays. Designated City holidays are listed in section 1-1.07B, "Glossary."

The Contractor shall provide a competent person during normal working hours to assist the Engineer, when required, in checking the Contractor's layout and for measuring quantities for payment purposes.

The Contractor shall cooperate with the Engineer so that checking and measuring may be accomplished with the least interference to the Contractor's operations.

Replace section 5-1.04 with:

5-1.04 Order of Work

The Contractor shall prepare a written schedule denoting locations and times of planned activities, and other impacts. The schedule for planned activities shall be submitted to the Engineer before or at the time of the pre-construction meeting. Contractor shall note that Work shall not start unless a schedule has been submitted and accepted by the Engineer. The schedule shall be prepared and submitted using either Microsoft Project or Primavera P6, or similar software acceptable to the City.

The Contractor must field verify (USA) all existing utilities and shall submit the report to the Engineer prior to beginning any Work at each site. After the construction, the Contractor shall remove all USA markings within the curb and sidewalk area from the residential streets. Removal shall be to a standard of what was existing prior to markings or better.

The Work shall be performed in conformance with the phases of construction shown on the Contractor's Traffic Control Plan and Stage Construction Plan as approved by the Engineer. At the discretion of the Engineer non conflicting Work in subsequent phases may proceed concurrently with Work in preceding phases.

The Contractor shall place and maintain Best Management Practices (BMP) in compliance with the Water Pollution Control Plan, the BMP's shall remain in place until Work is completed.

General order of Work shall be as follows:

1. Materials submittal and ordering of all long lead time procurement items.
2. Prepare and submit WPCP, Stage Construction Plan, and Traffic Control Plan
3. Place and maintain erosion control Best Management Practices (BMP), the BMP's shall remain in place until paving is completed.
4. Notify Underground Service Alert (USA) at (800) 642-2444 at least seventy-two (72) hours in advance of beginning Work on the Project
5. Locate all underground utilities and protect-in-place
6. Place Traffic Control plan and Changeable Message Sign (CMS)
7. Place temporary striping for all stages of Work
8. Complete Work per Contractor's stage construction plans

After paving the roadway and before the roadway is opened for use by the public, the Contractor shall place temporary pavement delineation.

Permanent pavement delineation shall be installed no later than fourteen (14) Calendar Days after paving.

Add to the end of section 5-1.09A:

The Department encourages the project team to exhaust the use of partnering in dispute resolution before submitting any potential claims.

Replace section 5-1.13E with:

5-1.13E Prompt Payment

Section 5-1.13E applies to all contracts.

Pay your subcontractors within 7 days of receipt of each progress payment under Pub Cont Code §§ 10262 and 10262.5. Pay other entities, such as material suppliers, within 30 days of receipt of each progress payment.

Each month, after the 15th and prior to 20th, submit the following payment information through the Department's prompt payment monitoring system at https://caltrans.dbesystem.com:

1. Subcontractor's or entity's business name
2. Description of work performed
   2.1. Bid item numbers or change order numbers
   2.2. Written narrative of work performed

3. Value of work performed
4. Amount paid to subcontractor or entity
5. Withhold amount, if applicable
6. Explanation of withhold reasoning, if applicable

Your subcontractors and other entities may validate payments received using the prompt payment monitoring system.

If a subcontractor's or other entity's work is in dispute, provide a written withhold notification to the subcontractor or entity and the Engineer no later than 7 days after receipt of the corresponding progress payment that includes the following:

1. Value of the disputed work
2. Amount of the withhold being taken
3. Bid item numbers or change order numbers associated with the disputed work
4. Explanation of the deficiencies of the disputed work and how the corresponding value was calculated
5. Corrective actions to be taken for release of withheld amount

The Department may request additional documentation from you to evaluate whether you applied the withhold in good faith.

If the Department determines your withhold was not applied in good faith or that you failed to submit the required withhold notification, the Department may withhold the same amount from your future progress pay estimate. The Department may also apply a 2 percent penalty on the withhold amount for every month payment is not made.

Add to Section 5-1.20A:

The Contractor shall cooperate with other forces constructing, relocating, and/or modifying facilities within the project limits. The Contractor shall coordinate his work with that of others, including utility companies, and other local agencies to prevent delays.

It is understood and agreed that the Contractor has considered in his bid all of the permanent and temporary utility appurtenances in their present and/or relocated positions as shown on the plans or as described in the specifications, and that no additional compensation will be allowed for any delays, inconvenience, or damages sustained due to any interference from said appurtenances or the operation of moving them. In addition, the Contractor shall not be allowed any additional compensation for delays of inconvenience sustained by the Contractor due to the City not having City-supplied equipment ready for pick-up. In such a case, the City may increase the number of working days for the contract.

Five days prior to beginning work, the Contractor shall provide to the Engineer, in writing, the name and telephone number of a representative who is directly involved with this project, and under the supervision of the Contractor. The Contractor's representative may be contacted by City staff during non-working hours including nights, weekends and holidays in the case of any public inconvenience and/or emergency relating to the Contractor's operations. The Contractor representative shall not be replaced by another company employee for the duration of the project without a written explanation from the Contractor which has been approved by the Engineer. Should a new representative be used, he/she shall be knowledgeable of the project, the events, and/or revisions that may be occurring.

Add to section 5-1.20B(1):

The Contractor may use water from City of Roseville fire hydrants provided that the required permits are obtained and the Contractor has paid the associated fees. The contractor shall supply the Engineer with a copy of the required permits.

More information regarding hydrant permits can be found by following the link below:

https://www.roseville.ca.us/government/departments/environmental_utilities/at_your_service/water_supply/hydrant_permits

The contractor shall obtain and comply with all necessary permits, licenses, agreements, and certifications.

Add to section 5-1.20B(4)

The Contractor is responsible for making arrangements to stock-pile and store equipment outside the public right of way as work is performed. Personal vehicles of the Contractor's employees shall not be parked on the traveled way, shoulders, or private property, including any section closed to public traffic.

The Contractor shall secure easements at their own expense for any areas required for plant sites, storage of equipment or materials, or for any other purposes. Before occupying any easement area, the Contractor shall provide the Engineer a written statement from each property owner verifying easement acquisition.

Staging areas located on private property shall be restricted to properties where the property owner has given written authorization to the Contractor for use of said property. The Contractor shall submit, at the preconstruction conference, documentation of the written authorization from the property owner(s). Prior to final acceptance of the project, the Contractor shall provide the Engineer a written statement of release from each property owner that granted an easement for the Contractor's operations.

Replace section 5-1.26 with:

5-1.26 CONSTRUCTION SURVEYS

The Contractor shall be responsible to provide all surveys to control the lines, elevations and dimensions of the work in conformance with the plans. Any deviation from the lines, elevations and dimensions shown on the plans must receive prior approval from the Engineer. Where new construction connects to existing facilities, the Contractor shall check and establish the exact location prior to construction of the facility.

The Contractor shall be responsible for the accuracy of his/her own layout work and shall be responsible and liable for the preservation of all established lines, grades and layout points. Stakes damaged or destroyed by the public, or operations of the Contractor, will be replaced at the Contractor's expense.

Add to section 5-1.32 of the Revised Standard Specifications:

The contractor shall submit a haul route for use for each roadway segment on the project.

The haul route must be utilized by all construction traffic. Any observed deviation from this route shall result in damages in the amount of $1000 per occurrence.

Add to section 5-1.36 of the Revised Standard Specifications:

The Contractor shall notify Underground Service Alert (USA) at (800) 642-2444 at least 72 hours in advance of beginning work on the project. The Contractor is cautioned that there are underground and overhead utility facilities within the work area including telephone, electrical, cable television, gas, water and sanitary sewer transmission facilities, fiberoptic, traffic, and storm drainage collection facilities.

The scope of this project is not anticipated to interfere with existing underground or overhead utilities. However, the Contractor shall take notice of existing utility covers and trench lines. The Contractor shall use extreme caution when excavating and paving in the vicinity of such facilities.

The Contractor shall visit the site of the proposed work and determine the quantity and location of the manholes, valve covers and utility appurtenances to be encountered in the proposed work area and adjust his/her bid accordingly. Damage to such utilities resulting from the Contractor's operations to complete the project shall be repaired at the Contractor's expense.

Where possible conflicts exist, the Contractor shall verify the grade and location of existing underground utilities by careful hand digging prior to beginning work. In the event the Contractor discovers existing utilities within the limits of the excavation, the Contractor shall immediately notify the Engineer and the affected utility owner by the most reasonable expeditious method and later confirm in writing. All required relocation of existing facilities that interfere with the work shall be made by the owning agencies.

All existing utilities are to remain in service during construction. The Contractor shall be required to work around existing utility poles that will remain in the curb or sidewalk. The Contractor shall also be required to work around existing utility poles that are not within the actual pavement sections. Minor changes in alignment of slopes shall be made to avoid direct conflict that will interfere with the intended purpose of the facility.

The Contractor shall be responsible for properly removing and disposing of any temporary pavement markers.

Add to Section 5-1.36E of the Revised Standard Specifications:

Within the project limits, there are various types of survey monuments including monuments within wells/boxes and unprotected monuments within the existing asphalt.

Prior to the start of work, the contractor shall coordinate with a City contracted surveyor while they mark all monuments within the project with paint. The contractor shall protect all monuments in place. The City may conduct a post construction survey to determine if a monument has been disturbed, obliterated, or otherwise obscured during construction. The Contractor shall be responsible for all costs to re-establish the survey monuments that disturbed, obliterated, or otherwise obscured during construction to the latest City Standards or as directed by the Engineer.

Add section 5-1.36F:

It shall be the responsibility of the Contractor to protect existing roadway facilities (including but not limited to culverts, manholes, monuments, railings, signs, traffic signal detectors, and other roadway appurtenances). Facilities damaged due to the Contractor's operations shall be repaired or replaced, as directed by the Engineer, at the Contractor's expense.

In the event that a sign is knocked down or street maintenance type work is required in the City of Roseville, the Contractor shall immediately call Street Maintenance at (916) 774-5790 during business hours or (916) 847-1611 during non-business hours so a repair crew can be dispatched. If traffic signal detector facilities, signal or lighting facilities are cut or damaged during construction, Traffic Signal Maintenance shall be immediately contacted at (916) 774-5339 during business hours or at (800) 745-8894 during non-business hours. Traffic signal detector loops shall be replaced within 24 hours; Traffic signal wiring shall be repaired immediately.

6 CONTROL OF MATERIALS

Add to section 6-2.02A:

Material testing for this project will be provided by the Contractor as set forth in section 6 of the State Standard Specifications and the most current City of Roseville's Quality Assurance Program. The Contractor shall perform all testing to verify compliance with the Specifications of any and all materials furnished by the Contractor. The Contractor shall submit and receive the Engineer's approval of all compliance test results prior to incorporating materials into the project. The Contractor may elect to place material without the approved certificates of compliance and mix designs at Contractor's own risk. The Contractor shall notify the Engineer in writing to get the approval of placement of material without approved certificates of compliance and mix design, and $10,000 will be withheld from the Contractor's progress payment for each certificate of compliance and mix design until the certificate of compliances and mix designs are submitted and approved.

Samples, certificates of compliance, lists of materials and material sources, access to facilities, requests for testing and all other data relating to material testing shall conform to section 6 of the State Standard Specifications, "Control of Materials." Contractor shall provide the Engineer with 5 working days' notice of the need for material testing.

7 LEGAL RELATIONS AND RESPONSIBILITY TO THE PUBLIC

Add to section 7-1.03:

The Contractor shall immediately remove all asphalt material on gutters, sidewalks, and driveways that was tracked or sprayed by equipment or personnel under the Contractor's control.

Add to section 7-1.04:

The Contractor shall cooperate with and notify the local police and fire departments, refuse, ambulance services, transit, hospitals, and Public Works Street Division of proposed construction operations 5 days before work is to begin.

The Contractor shall be responsible to notify and coordinate their schedule with schools that may be in or adjacent to the projects area.

8 PROSECUTION AND PROGRESS

Add to section 8-1.01:

The Contractor shall prepare a Traffic Control Plan that conforms to section 12, "Temporary Traffic Control."

Replace section 8-1.02 with:

8-1.02 SCHEDULE

The Contractor shall submit a progress schedule to the Engineer at the preconstruction conference. The progress schedule shall state the street name, the anticipated start and completion dates and the type of construction operation anticipated for each street, and an alternate date in the event the Contractor does not meet their schedule. Work that exceeds the stated completion date shall be understood as being out of conformance with the progress schedule and these Special Provisions. Strict conformance to the progress schedule shall be maintained and should the Contractor not meet their schedule liquidated damages shall apply as outlined in these Special Provisions, the only acceptable delay is due to weather. The Contractor shall submit a revised progress schedule within 5 working days of the Engineers written request.

Scheduling of change orders or extra work orders is the responsibility of the Contractor. The Contractor shall revise the schedule to incorporate all activities involved in completing the change orders or extra work order and submit it to the Engineer for review and approval. With the concurrence of the Engineer, change or extra work orders of a magnitude less than $500 do not need to be scheduled, unless the order affects the project schedule or other outside parties.

If the Engineer finds the Contractor is entitled to an extension of any completion date under the provisions of the contract the Engineer's determination of the total number of days extension will be based upon the current analysis of the schedule and upon data relevant to the extension.

Replace section 8-1.03 with:

8-1.03 PRECONSTRUCTION CONFERENCE

Prior to the start of construction, a preconstruction conference will be called by the Engineer for the purpose of discussing with the Contractor the scope of work, contract drawings, specifications, existing conditions, materials to be tested, equipment to be used, and all essential matters pertaining to the prosecution and the satisfactory completion of the project as required. The Contractor's representation at this conference shall include all major superintendents for the work and may include major Subcontractors and material suppliers.

The Contractor shall be responsible to coordinate utility relocations within the project area. Coordination of utilities within the project limits, including relocations and maintenance of existing facilities and

additions thereto, shall be confirmed in writing by utility representatives and the Contractor at this conference or within 5 working days thereafter.

Add to section 8-1.04:The Contractor shall begin work within 15 calendar days after the issuance of the Notice to Proceed.

This work shall be diligently prosecuted to completion before the expiration of 75 **Working Days** beginning no later than the fifteenth calendar day after the date shown on the Notice to Proceed.

Notify the Engineer in writing that all work has been completed. The Engineer will create a punch list of items to be addressed prior to acceptance. Complete all punch list items within the contract working days.

Add to section 8-1.10A:

The City specifies liquidated damages (Pub Cont Code § 10226). Liquidated damages, if any, accrue starting on the 1st day after the expiration of the working days through the day of Contract acceptance except as specified in sections 8-1.10B and 8-1.10C.

The Engineer will provide written notice of non-conformance to the Contractor within 24 hours of the violation. All Contractor's equipment, machinery, traffic control, and personnel shall be off of the pavement and all lanes shall be open to traffic to be considered as full compliance.

Any progress payment made after the completion date shall not be construed as a waiver of liquidated damages.

Add to section 8-1.10B:

The roadway shall be fully opened to traffic by the end of the roadway's last working hour. The Contractor shall pay to the City liquidated damages of $1,000 per hour for each hour, or portion of an hour, after the last working hour is exceeded and that a traveled lane remains closed due to the Contractor's operations.

After the working hours of the roadways are exceeded by 1 hour of the last working hour, the Contractor shall pay to the City liquidated damages of $2,000 per hour for each hour, or, portion of an hour, that a traveled lane remains closed due to the Contractor's operations.

For other failures to complete work within a specified time, unless otherwise specified herein, the Contractor shall pay to the City liquated damages of $2,000 per hour for each hour, or, portion of an hour, that the work remains incomplete.

The Engineer will provide written notice of non-conformance to the Contractor within 24 hours of the violation. All Contractor's equipment, machinery, traffic control, and personnel shall be off of the pavement and all lanes shall be open to traffic to be considered as full compliance.

Any progress payment made after the completion date shall not be construed as a waiver of liquidated damages.

Add to section 8-1.10C with:

The Contractor shall pay to the City liquidated damages of $600 per day for each day, or portion of a day, that a street is not swept as outlined in these Special Provisions.

For other failures to complete work by a specified time, unless otherwise specified herein, the Contractor shall pay to the City liquated damages of $2,000 per hour for each hour, or, portion of an hour, that the work remains incomplete.

The Engineer will provide written notice of non-conformance to the Contractor within 24 hours of the violation. All Contractor's equipment, machinery, traffic control, and personnel shall be off of the pavement and all lanes shall be open to traffic to be considered as full compliance.

Any progress payment made after the completion date shall not be construed as a waiver of liquidated damages.

Add to section 8-1.13:

The Contractor is responsible for all material and/or equipment necessary to perform the project as specified. Should the City have to supply the Contractor with time, material, or equipment to complete work beyond that which is specified herein, the Contractor shall be billed accordingly.

9 PAYMENT

Add to section 9-1.02A:

Payment for all work bid at a price per unit of measurement will be based upon actual quantities of work as measured upon completion. The City does not expressly or by implication agree that the actual amount of work or materials of any class will correspond to the estimated quantities given in the proposal. The Contractor shall make no claim for anticipated profits, or loss of profit, for damages, or for any extra payment whatever because of any difference between the amount of work actually done or materials furnished and the estimated amount.

The percentage paid for “Traffic Control System” and “Placement and Maintenance of BMPs” bid items on each progress payment shall be based on percentage of actual work completed excluding those items not to exceed 100%.

Add to section 9-1.16A:

The Contractor shall submit all requests for progress payments using the forms included in Appendix A:

Form CC1: Progress Payment Request - This form is to be completed and signed by the Contractor and attached as a cover sheet to its request for payment. This will be mandatory on all contract requests.

Form CC2: Progress Payment Request – Detail - This form may be used by the Contractor to provide the detail required to verify payment quantities. (City will accept the Contractor’s standard form if it provides the required information).

Form CC3: Quantity Change Verification Form - This form is required before any payment can be made based on actual quantities exceeding estimated quantities. At the conclusion of the contract, the City will issue a “Balancing Change Order” incorporating all quantity increases and decreases in the contract items of work.

Replace Reserved in section 9-1.17A with:

The Contractor shall submit:

Form CC4: Final Release Form - This form must accompany all requests for final payment (see Appendix A).

DIVISION II GENERAL CONSTRUCTION

12 TEMPORARY TRAFFIC CONTROL

12-1 GENERAL

Add to section 12-1.01:

Attention is directed to sections 7-1.03, “Public Convenience,” 7-1.04, “Public Safety,” and 12, “Temporary Traffic Control,” of the Revised State Standard Specifications, State Standard Specifications, Standard Construction Specifications, and these Special Provisions. Nothing in these Special Provisions shall be construed as relieving the Contractor from the requirements of section 7-1.04, “Public Safety.”

Section 12-1.04:

This section of the State Standard Specification has been deleted.

12-3 TEMPORARY TRAFFIC CONTROL DEVICES

Add to section 12-3.32

In addition to Section 12-3.32 of the State Standard Specifications, portable changeable message sign shall be furnished, placed, operated and maintained for the duration of the project in conformance with the provisions in Section 12, “Construction Area Traffic Control Devices,” of the State Standard Specifications and these Special Provisions. Contractor shall provide portable changeable message signs at the beginning and end of the improvements shown on PFE Road (both directions).

Portable Changeable Message Signs (PCMSs) shall be placed at least 5 working days prior to the start of initial work and shall remain in place for the duration of the work on the segment is fully complete. Changeable message signs shall state the street the work is taking place, the dates, the time of work and type of work. Changeable message signs shall be turned off after initial work on a roadway segment is complete and no work is anticipated on a segment for five (5) working days. Prior to resuming work on a roadway segment, changeable message signs shall be turned on five (5) working days in advance.

PCMSs shall be locked with combination locks and password protected. The combination and password shall be provided to the City.

The contract price paid for each PCMS shall include full compensation for furnishing all labor, materials, tools, equipment, maintenance, relocating, removal, and incidentals, and for doing all work involved in placing, maintaining, and removing PCMSs, complete in place, as shown on the plans, as specified in the State Standard Specifications and these Special Provisions, and as directed by the Engineer and no additional compensation will be allowed therefor.

12-4 MAINTAINING TRAFFIC

Add to section 12-4.01A:

At the preconstruction conference, the Contractor shall submit a Traffic Control Plan showing traffic control measures and/or, if approved, detours for vehicles and pedestrians affected by the construction work. A minimum of 7 working days will be required to review and provide the Contractor with comments on the plan. The Contractor shall revise the plan per the City's comments until the plan is accepted by the Engineer. The Contractor will not be allowed to begin work until the Engineer has accepted the traffic control plan.

The Contractor shall be responsible for informing the public of the traffic conditions existing within the construction area at all times by placement of appropriate warning, and advisory signs. The Contractor shall provide and maintain all traffic control and safety items. The Contractor assumes sole and complete responsibility for job and site conditions during the course of construction, including safety of all persons and property. This requirement shall apply continuously 24 hours per day and shall not be limited to normal working hours.

The Traffic Control Plan shall cover all stages of work, per site, and include (but not limited to) the following information and detail: (1) Street closures and detours if allowed; (2) construction, warning,

detour and restriction signs, including "No Parking", “Loose Gravel”, “Construction Area Speed limit Signs, “and “Bump Ahead” signs; (3) temporary striping and pavement markers; (4) barricades; (5) flashing arrow signs; (6) lighted message boards; (7) portable delineators; (8) traffic cones; (9) lights, flares, flaggers, and spacing’s.

A copy of the accepted Traffic Control Plan must be kept at the job site at all times.

Temporary lane closures will be allowed only during approved working hours. During the closures, the contractor shall maintain access to adjacent properties. No lane closures may begin without an approved traffic control plan. Contractor shall provide at least 1 lane in each direction on all existing streets throughout the construction project unless otherwise approved in writing by the Engineer.

When work is performed within 200’ of an intersection, the Contractor shall request that the traffic signal be placed in red flash. The Contractor shall submit a Red Flash Request form at minimum 72 hours in advance of the date of work to the Resident Engineer and the City Traffic Engineering Team. Requests placed after 4:30pm shall be considered as placed 8:00am the following day. The Red Flash Request Form is included in Appendix B. If no work is being performed with an intersection, the Contractor shall inform a City representative so the signal will be restored to normal operations. The intent is that the traffic signal is placed in Red Flash when lanes will be taken approaching and at the intersection and when work will occur within the limit lines.

At all intersections, the Contractor shall provide a minimum of 2 flaggers per intersection while the intersections are in red flash, or as determined by the Engineer.

The Contractor shall diligently progress with operations within signalized intersections and communicate with the Engineer for restoring signalized intersections to normal operations once the Contractor’s operations are complete within the limits of signalized intersections.

The Contractor shall cooperate with and notify the local police and fire department, ambulance services, hospitals, post office, refuse collectors, schools and school districts, transit, residents and any other party as directed by engineer of proposed construction operations and traffic control operations a minimum of 5 working days before work is to begin in each work area. If changes are made to the traffic control operations, Contractor shall re-notify at least 2 working days before work is to begin. In addition, the Contractor shall make available a 24 hour telephone number in case of emergencies and/or problems.

A minimum of 5 working days before work is to begin in each work area. If changes are made to the traffic control operations, Contractor shall re-notify at least 2 working days before work is to begin. In addition, the Contractor shall make available a 24 hour telephone number in case of emergencies and/or problems.

All contractor employees shall be instructed to stop work and remove any equipment or materials that maybe impeding emergency response.

The Contractor will be responsible for notifying residents and businesses of the proposed construction. Notifications shall be distributed to residents and businesses within a 100 feet radius of the job limits.

Notifications to affected residents and businesses within the work areas and shall consist of 2 phases which shall be performed for all roadway treatments applications. The first phase notifies the affected residents and businesses of the upcoming construction through the use of “door hanger” type formatted notifications. The notification shall state the street name, the working hours, and the anticipated begin and completion dates for each street. The City will provide a digital copy of “door hanger” for each treatment for use by the Contractor. The Contractor shall distribute the door hanger notifications a minimum of 5 working days in advance of any work. This shall be repeated for each roadway treatment. If work is adjacent to gated communities, the contractor shall mail notifications 2 weeks in advance of proposed work. The contractor shall review the work area prior to submitting a bid and determine if gated communities are within the notification zone and inform their bid accordingly.

Notifications shall be tucked neatly in doorjambs, handles, or partially under mats. Notifications shall not be glued, stapled, tacked, or otherwise attached to property. The Contractor shall take care to stay on designated walkways during delivery of notifications, and be polite to citizens encountered.

The second phase consists of the Contractor posting “No Parking” signs on barricades 48 hours prior to the work on streets that allow parking where required. The “No Parking” signs shall also include the exact working day the construction work will take place. A warning indicating that vehicles will be towed away at the owner’s expense shall also be included on the “No Parking” signs. In addition, the Contractor shall make available a 24 hour telephone number in case of emergencies and/or problems and shall post the telephone number on the “No Parking” signs. The Contractor shall be responsible for placing temporary “No Parking” signs in advance of any construction activity. Barricades shall be placed a maximum of 500 feet apart, on both sides of the affected street. This shall be repeated for any subsequent construction operation portion of work. At the preconstruction conference, the Contractor shall provide the Engineer a copy of the proposed notification “No Parking” for acceptance.

Emergency access to driveways, intersections, and residential streets shall be maintained at all times. If vehicles are parked in the working area, the Contractor shall not attempt to move the vehicle. The Contractor shall notify the Engineer immediately, and the Engineer shall make proper arrangements to remove the vehicle.

Lane and street closure shall not be allowed without proper advance warning devices, signing and flag persons in conformance with the State Standard Specifications and these Special Provisions. At the completion of each working day, all lanes of traffic shall be open to the public. Street closure shall not be allowed on schedule refuse collections days.

The provisions in this section shall not relieve the Contractor from his/her responsibility to provide such additional devices or take such measures as may be necessary to comply with the provisions in Section 7-1.09, "Public Safety.”

Traffic Control shall include all labor, tools, equipment and materials required to provide, maintain, and remove all signage, flagmen, temporary barricades, and appurtenances to provide traffic control within the project limits as set forth in the State Standard Specifications, California Manual on Uniform Traffic Control Devices (CAMUTCD), these Special Provisions, and as directed by the Engineer.

The Contractor shall have on their payroll a competent person responsible for all traffic control required for this project. The person shall be on site at all times whenever traffic control is in effect. Contractor shall identify this person at the preconstruction conference.

Should the Contractor decide to subcontract the traffic control portion of this project, the Subcontractor shall be available as previously described. In addition, the Contractor shall also appoint a person to oversee the traffic control operations. The Contractor's appointee shall be available and responsible to implement the necessary traffic control plan according to the accepted traffic control plan and the latest edition of the California Manual on Uniform Traffic Control Devices (CAMUTCD).

Any vehicle used to place, maintain, or remove components of a traffic control system on multilane highways at night shall be equipped with a Type II flashing arrow sign which shall be in operation at all times while the vehicle is being used for placing, maintaining, or removing said components. The sign shall be controllable by the operator of the vehicle while the vehicle is in motion.

During the working hours, the Contractor may, with the Engineer's approval, close 1 or 2 of the traffic lanes in each direction of existing 4 lane and 6 lane roads respectively, to perform the required work. One travel lane shall remain open in each direction. Lane closure shall not be allowed without proper advance warning devices and signing, and flag person control in conformance with the State Standard Specifications and these Special Provisions. The Engineer shall be the sole judge of the spacing, length, and sequence of the lane closure areas. At the completion of each working day, all existing lanes of traffic shall be maintained open to traffic and temporary traffic markers shall be placed (if necessary). Provisions must be made for the uninterrupted passage of emergency vehicles through the project limits at all times, regardless of controlled traffic conditions existing at the time.

During the working hours, the Contractor may, with the Engineer’s approval, close 1 of the traffic lanes of and existing 2 lane road, to perform the required work. The contractor shall maintain two-way traffic. Lane closure shall not be allowed without proper advance warning devices and signing, and flag person control in conformance with the State Standard Specifications and these Special Provisions. The Engineer shall

be the sole judge of the spacing, length, and sequence of the lane closure areas. At the completion of each working day, all existing lanes of traffic shall be maintained open to traffic and temporary traffic markers shall be placed (if necessary). Provisions must be made for the uninterrupted passage of emergency vehicles through the project limits at all times, regardless of controlled traffic conditions existing at the time.If any component in the traffic control system is displaced, or ceases to operate or function as specified, from any cause, during the progress of the work, the Contractor shall immediately repair said component to its original condition or replace said component and shall restore the component to its original location.

If there is a discrepancy and/or the Traffic Control Plan submitted and approved by the City is not followed Contractor shall correct the discrepancy within 1 hour. If this is not mitigated the Contractor will stop work as directed by the Engineer.

For the Piedmont Way work (Sheet 7-9), road closure is permitted with proper detour and signage. Half of roadway can be “no-parked” and must allow access to residence driveways at all times.

For the Royer Park work (Sheet 4), no chemicals, construction material, or other pollutants are permitted to discharge into Dry Creek and no work will be permitted between October 15th and April 15th. Park Drive must remain accessible to traffic at all times.

Working hours for each segment is as follows:

Sheet 3 (Denios)	7:00am - 7:00pm
Sheet 4 (Royer Park)	7:00am - 7:00pm
Sheet 5 (Edgemont)	7:00am - 7:00pm
Sheet 6 (PFE Rd.)	9:00am - 7:00pm
Sheet 7-9 (Piedmont)	8:00am – 4:30pm
Sheet 10 (East St.)	8:00am - 4:30pm

Replace section 12-4.02A(2) with:

8-4.04A(2) Definitions

See section 1-1.07B of these Special Provisions for designated holidays.

Add to section 12-4.02C(3)(a):

Non-compliance with the traffic lane closure hours as specified in these Special Provisions shall result in a deduction from the Contractor’s progress payment(s) as specified in section 8-1.10B.

Replace Reserved in section 12-4.10 with:

Full compensation for conforming to all requirements specified in section 12, “Temporary Traffic Control,” excluding sections 12-3.32, “Portable Changeable Message Signs” and 12-6, “Temporary Pavement Delineation,” shall be considered as included in the contract lump sum price paid for “Traffic Control System.”

12-6 TEMPORARY PAVEMENT DELINEATION

Replace the first sentence in section 12-6.01 with:

Section 12-6 includes specifications for placing temporary pavement delineation.

Add to section 12-6.01:

Nothing in these Special Provisions shall be construed as reducing the minimum standards specified in the California MUTCD or as relieving the Contractor from the responsibilities specified in Section 7-1.04, "Public Safety.”

Whenever existing thermoplastic traffic stripes, pavement markings and pavement markers are obliterated the minimum temporary pavement delineation to be provided shall be a single coat of waterborne traffic line paint applied in conformance with section 84, “Markings” of the State Standard Specifications and these Special Provisions.

Temporary pavement delineation shall be placed after any existing thermoplastic pavement striping, markings, and pavement markers or temporary paint has been obliterated by construction operations, other than operations that place the final pavement surface, temporary raised pavement markers or traffic tape shall be installed prior to opening the traveled way to public traffic or as determined by the Engineer. No difference in alignment between temporary markers and the existing thermoplastic stripes and markings shall be allowed. At no time shall lane widths be narrower than what is specified in the City of Roseville Standard Construction Plans and Specifications. If, in the opinion of the Engineer, a misalignment exists it shall be repaired immediately to the satisfaction of the Engineer at the Contractors expense.

Temporary pavement delineation on the final pavement surface shall be temporary raised pavement markers and shall only be used for lane line delineation, limit lines and yield lines shall be traffic tape. The temporary raised pavement markers shall be the peel and stick variety. All raised pavement markers shall be removed prior to the placement of permeant pavement delineation. Temporary raised pavement markers shall be continuously maintained such that all lanes are clearly identified at all times. Failure to place permanent pavement delineation within 14 days of the final surface shall require the contractor to remove and replace all temporary delineation and be assessed damages.

Add section 12-6.03C with:

Whenever edge lines (including bike lane lines) are obliterated, the edge line delineation to be provided for that area adjacent to lanes open to public traffic shall consist of traffic delineators placed longitudinally at 100-foot maximum intervals.

Add to section 12-6.04:

Full compensation for conforming to all the requirements specified in section 12-6, “Temporary Pavement Delineation” shall be considered as included in the lump sum contract price paid for “Temporary Pavement Delineation.”

13 WATER POLLUTION CONTROL

13-1 GENERAL

Add to section 13-1.01A:

BMP devices shall conform to those shown within the City of Roseville’s Storm Quality BMP Guidance Manual for Construction. The acceptable DI protection is shown in Appendix D of these Special Provisions and shall be installed and maintained by the Contractor. BMP’s shall remain in place during the full construction processes, plastic and or roofing paper is not acceptable to be used for drainage covers.

Add to section 13-1.04:

Full compensation for conforming to all requirements specified in section 13, “Water Pollution Control” shall be considered as included in the contract lump sum price paid for “Placement and Maintenance of BMPS.”

14 ENVIRONMENTAL STEWARDSHIP

14-8 NOISE AND VIBRATION

Add to section 14-8.02:

Noise level requirements shall apply to all equipment used on the project including, but not limited to, trucks, transit mixers or transient equipment that may not be owned by the Contractor. The use of loud signals shall be avoided in favor of light warnings except those required by safety laws for the protection of personnel.

19 EARTHWORK

19-1.01A Summary

In addition to the requirements of Section 19-1.01 of the State Standard Specifications, the following shall apply:

The Contractor shall perform all excavation required for the complete project, to the lines and grades as shown on the Project Plans, as described in these Special Provisions, and as directed by the Engineer.

19-2.00 Roadway Excavation

In addition to the requirements of Section 19-2 of the State Standard Specifications, the following shall also apply:

Excavated material not reused shall be disposed of in accordance with the provisions of Section 7-1.13, "Disposal of Material Outside the Highway Right of Way" and 16-1.04 "Removal and disposal of Materials", of the State Standard Specifications.

The Contractor shall do all excavation of whatever substance is encountered to the lines and grades shown on the plans. All material suitable for use as backfill shall be piled in an orderly manner a sufficient distance from the side of the excavation to avoid overloading and to prevent sliding into the excavation. The Contractor shall do such grading as is necessary to prevent surface water from entering the excavation.

Excavations adjacent to the existing roadway shall be closed at the end of each day's work. At the option of the Contractor, steel cover plates may be used at the end of each workday to cover excavations not backfilled adjacent to the roadway.

Excess excavated material suitable for use elsewhere in the construction may be reused therein. All surplus or unsuitable material with the exception of asphalt grindings shall become the property of the Contractor and shall be removed from the job site to a predetermined disposal site at the Contractor's expense.

The Contractor shall remove and dispose of all water entering excavations. Disposal of water shall be done in a manner to prevent damage or nuisance to adjacent properties.

Existing asphalt concrete pavement that is to remain intact shall be saw cut in a neat, straight, parallel line. All pavement damaged during the work shall be cut out in a rectangular pattern and removed and paved.

The maximum lift of backfill material shall depend upon the type of backfill material, relative compaction required, and proposed compaction method to be used, but in no case shall the loose lift thickness of any material exceed 8 inches.

HAZARDOUS MATERIAL DISPOSITION:

During the course of trenching, grading, grinding, or other excavation, should potentially hazardous materials or other questionable materials be encountered, the City's Resident Engineer shall be contacted immediately. The Contractor shall mark the site. The City will respond within 24 hours to investigate the site and render an opinion on the questionable materials regarding future action at the site. The intent is to minimize schedule delays to the construction.

The City will be responsible for delineating any required exclusions zones, removing and containerizing questionable material, as well as monitoring the work site for compliance with applicable health and safety compliance.

Removed material will be contained in drums, or drop boxes, depending on the volume, and temporarily staged within the fenced area behind the existing building located at the west side of the parking lot. The staging duration will only be long enough to obtain analytical laboratory results and confirm disposition

instructions on the material. For each discovery, it is anticipated the material will be staged for less than 30 days.

PAYMENT

The intent of the Roadway Excavation item is to provide a method of payment for areas that are excavated and stabilized by a shallow excavation and deep lift of hot mix asphalt. The roadway excavation quantity shall only be quantity of soil excavated. Hot mix asphalt shall be paid under the Hot mix asphalt unit price.

The contract unit price paid per cubic yard for Roadway Excavation shall include in the cubic yard price paid for in roadway excavation and the full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all work involved in performing roadway excavation complete in place, including excavating, sloping, rounding, loading, hauling, depositing, spreading, compacting and preparing subgrade and dewatering, as shown on the plans, as specified in the State Standard Specifications and these Special Provisions, and as directed by the Engineer.

The estimated quantity for "Roadway Excavation" bid item is included in order to establish a unit price per each. The Contractor shall obtain written authorization from the Engineer prior to placement of material. This contract bid item shall be paid only on the basis of written authorization from the Engineer. The City reserves the right to increase, decrease, or delete this item entirely at the discretion of the Engineer. Changes in quantity shall be paid at the unit price specified in the Contractors bid, no additional compensation shall be allowed for changes in quantity. No additional compensation shall be due the Contractor in the event this bid item is deleted entirely.

19-2.02 UNSUITABLE MATERIAL

In addition to the requirements of Section 19-2 of the State Standard Specifications, the following shall also apply:

Should unsuitable material be encountered which, in the opinion of the Engineer, cannot be stabilized, the Contractor shall remove the unsuitable material to the dimensions and limits directed by the Engineer. The Contractor shall use extra care in excavating unsuitable materials so as not to aggravate the conditions. If, in the opinion of the Engineer, the Contractor's methods and equipment are increasing the amount of unsuitable materials to be excavated, the Engineer will require the Contractor to take necessary steps to correct the situation. Should the problem continue, the Contractor shall pay all costs beginning from the time correction steps were last implemented.

When unsuitable material is removed and disposed of, the resulting space shall be filled with material suitable for the planned use. Unsuitable materials shall be removed from the job site.

The Contractor shall make provisions to replace all material identified as unsuitable. Typical treatment for unsuitable base will include excavation of 12" of material, placement of Tensar BX1200 Geogrid or equal, and placement of Class II AB.

The estimated quantity for "Unsuitable Material" is for bidding purposes only and an estimated 100 cubic yards has been included. The quantity can be extended, reduced, or deleted at the discretion of the Engineer, with no change in the unit bid price. If unsuitable material is discovered, the Contractor will notify the Engineer for approval of excavation and backfill. If the Engineer does not approve that the material is unsuitable prior to excavation and backfill, the Contractor will be responsible for the cost of excavation and backfill.

The contract unit price paid per cubic yard for Unsuitable Material shall include full compensation for furnishing all labor, materials, tools, equipment, excavation, backfill, geogrid, aggregate base, compaction, removal and incidentals, and for doing all work involved in constructing Unsuitable Material, complete in place, as shown on the plans, as specified in the State Standard Specifications and these Special Provisions, and as directed by the Engineer and no additional compensation will be allowed therefor

DIVISION V SURFACINGS AND PAVEMENTS

39 HOT MIX ASPHALT

SECTION 39 HOT MIX ASPHALT (ASPHALT CONCRETE)

Add to Section 39-2.01:

Contractor may choose either to slurry to the top of the trench and come back after trenching operations are completed to grind and place HMA or HMA shall be placed back within the same week after trench was opened. No additional compensation will be given.

Replace Section 39-2.02B(3) with:

Asphalt binder for Type A Hot Mix Asphalt shall be performance grade 64-10 paving asphalt conforming to Section 92, “Asphalt Binders,” of the Caltrans Standard Specifications.

Add to Section 39-2.02B(4):

Type A Hot Mix Asphalt shall be, ½” Maximum Medium Gradation. A mix with ¾” Maximum Medium Gradation may be used for the bottom lift(s).

Replace Section 39-2.02D with:

39-2.02D Payment

The contract unit price paid per ton for Hot Mix Asphalt (1/2”, Type A) shall be paid for in the “Hot Mix Asphalt (1/2”, Type A)” and shall include full compensation for furnishing all labor, materials, tools, cores, testing, 1 Job Mix Formula, equipment, and incidentals and for doing all the work involved in placing HMA (1/2”, Type A), including, cores, placing, leveling, and compacting material as shown on the plans, as specified in the Standard Specifications, and as directed by the Engineer.

This item is specific to the asphalt overlay of the intersection at Piedmont Way and Sheffield Avenue (Sheet 9 of the plans) and the asphalt paving work of the alley and driveway on East Street (Sheet 10 of the plans).

Replace Section 39-3.04D with:

39-3.04D Payment
Full compensation for conforming to all requirements specified in section 39-5 and Cold Planing to a depth of 2-inches or as indicated on the plans and the contract documents, shall be considered as included in the contract unit price paid per square yard for “Cold Plane Asphalt Concrete”.

This item is specific to the overlay of the intersection at Piedmont Way and Sheffield Avenue (Sheet 9 of the plans) and the asphalt paving work of the alley and driveway on East Street (Sheet 10 of the plans).

DIVISION VI STRUCTURES
51 CONCRETE STRUCTURES

51 1.01 CONCRETE STRUCTURES
Portland cement concrete structures shall conform to the provisions in Section 51, "Concrete Structures," of the Standard Specifications and Section 71 of the City of Roseville Construction Standards and these special provisions.

51 1.02 MINOR STRUCTURES
Drop inlets, drainage manholes, concrete inlet structures, and other miscellaneous concrete structures not specified elsewhere shall conform to the Section 101—Drainage of the City of Roseville Construction Standards and Section 51—Concrete Structures of the Caltrans Standard Specifications.

The contract unit price paid for Drop Inlets Type “C” and Modified Drainage Inlets Type “C” shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals and for doing all the work involved in Drainage Inlets Type “C” and Modified Drainage Inlets Type “C” complete in place, including connection of storm drain, metal grates, reinforcing steel, excavation, backfill, and compaction as shown on the plans, as specified in the Standard Specifications and these special provisions, and as directed by the Engineer.

Concrete aprons adjacent to drop inlets shall conform to Section 73-1.01 “Miscellaneous Concrete Construction” of these special provisions. Full compensation for concrete aprons shall be considered as included in the contract unit price paid for the adjacent inlet type and no additional compensation is allowed.

The finished grade for pavements, aprons or other roadway structures shall be uniform without abrupt changes in grade or alignment and match the existing surfaces at the perimeter of the section.

51-1.23 PAYMENT
The contract price paid per each for Drop Inlet Type “C”, Modified Drop Inlet, Precast Storm Drain Manhole, and other miscellaneous concrete structures shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in furnishing and constructing drop inlets, drainage manholes, inlet structures, and other miscellaneous concrete structures, complete in place, including removal of existing drainage facilities, saw cutting, structure excavation and structure backfill, frames, grates, racks, covers, miscellaneous hardware, and adjustment of frame and grate to grade, as specified on the Plans, and as specified in the City of Roseville Construction Standards, the Caltrans Standard Specifications, and as directed by the Engineer.

SECTION 65: REINFORCED CONCRETE PIPE
In addition to Section 65 of the Caltrans Standard Specifications, the following shall apply:

The Contractor shall furnish and install Storm Drain Pipe in conformance with Section 101 of the City of Roseville Construction Standards, the Plans, and as specified herein. The materials for the Storm Drain Pipe shall consist of reinforced concrete pipe (RCP), or ductile iron pipe (DIP) pipe or high density polyethylene (HDPE) pipe in conformance with Section 101 of the City of Roseville Construction Standards and Design and Construction Details TB-3 and DR-19.

The contract price paid per linear foot for Storm Drain Pipe shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in installing Storm Drain Pipe complete in place including removal and disposal of asphalt pavement, existing drainage facilities, structure excavation, placement and backfilling of pipe, connecting new pipe to new and existing facilities, including collars, manhole connections, and caps, placement of aggregate base and asphalt pavement as specified on the Plans, and as specified in the City of Roseville Construction Standards, the Caltrans Standard Specifications, and as directed by the Engineer.

DIVISION VII DRAINAGE FACILITIES

71 EXISTING DRAINAGE FACILITIES

71-3 REHABILITATE DRAINAGE STRUCTURES

Add to section 71-3.01.A(4)(c)v:

The Contractor shall TV existing pipes and clear all debris, roots, and/or objects obstructing flow prior to pipe lining. TV footage shall be provided to the city on a CD or USB. Contractor shall install “Dynaliner” PVC Pipe Liner or approved equal per manufacturer’s specifications.

Replace 71-3.01D Payment with:

Payment for the following work is included in the payment for PVC Pipe Liner:

1. Initial Video Inspection
2. Cleaning and Preparation
3. Quality Control and assurance
4. Keeping the pipeline free of water and debris
5. Inspection and evaluation
6. Performing post-rehabilitation video inspection

Payment for diverting the flow of the water away from the pipeline is included in the payment for PVC Pipe Liner.

Record the quantity of slurry cement that is installed and submit this quantity. The City does not pay for slurry cement backfill material that is wasted, disposed of, or remaining on hand after the completion of the work.

The contract price paid per linear foot for all sizes of PVC Pipe Liner shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for all the work involved in rehabilitating the storm drain, including, but not limited to, pipe inspection, pipe cleaning, water diversions, pumping, debris removal and disposal, OSHA requirements, concrete, grout, mortar, slurry backfill, as shown on the plans, as specified in the City of Roseville Design and Construction Standards, the State Standard Specifications and these special provisions and as directed by the Engineer. The bid item for PVC Pipe Liner shall be used to establish the contract price paid per linear foot and the items shall not be subject to unit price adjustments based on changes in quantities.

71-3.10A(2) Preparation

Safety
The Local & Federal Safety regulation and Contractor shall carry out his operations in strict accordance with all applicable OSHA standards. Particular attention is drawn to those safety requirements involving entering confined spaces, local and Federal Safety regulation.

Flow Control
Before pipe liner installation, all water flow through the discharge pipe to be rehabilitated shall be stopped by installing a temporary disk plug or bladder plug. Additional methods such as temporary plugs or sandbags shall be utilized to stop the flow of any leaks around the disk plug, as necessary.

TV Inspection
Inspection of pipelines shall be performed by experienced personnel trained in closed-circuit television (CCTV). The interior of the pipeline shall be carefully inspected to determine the location of any conditions which may prevent proper installation, and it shall be noted so that these conditions can be corrected. A USB drive (or file transfer) and log sheet shall be kept for later reference by the City. A copy of the video footage and log sheet shall also be sent to the City. Pre and post lining CCTV video files shall be provided and clearly labeled as such with inspection dates.

Obstruction Removal
The line shall be cleared of obstructions such as debris, dropped joints or collapsed pipe that will prevent

installation. If inspection reveals any obstructions that cannot be removed by conventional sewer cleaning equipment, then the City shall be notified.

Cleaning
All debris shall be removed from the pipe. All waste shall be collected in bags or polymer waste containers and removed from the site for disposal.

Infiltration Control
Areas of water seepage shall be sealed off by an approved method of rapid setting plugs and/or chemical injection grout. The proposed water control methods of rapid setting plugs and /or chemical injection grout need to be chemically compatible with the new liner materials. Pools of water shall be removed; however, a completely dry surface is not required.

Patching
Holes and voids around the existing pipe shall be patched or filled by hand packing or hand spray application and troweled flat. Permacast Plug and Permacast Patch or equivalent shall be used for hand patching needs. Entry shall be made per OSHA confined space requirements.

71-3.10C(3) Site Clean Up

The job site shall be clean and free of construction waste before demobilization.

71-3.10D Payment

The contract linear foot price paid for all sizes of PVC Pipe Liner shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for all the work involved in installing pipe liner, complete in-place, including, but not limited to, pipe inspection, pipe cleaning, water diversions, pumping, debris removal and disposal, OSHA requirements, concrete, grout, mortar, as shown on the plans, as specified in the City of Roseville Design and Construction Standards, the State Standard Specifications and these special provisions and as directed by the Engineer.

The bid items for PVC Pipe Liner shall be used to establish the contract price paid per linear foot and the items shall not be subject to unit price adjustments based on changes in quantities.

DIVISION VIII MISCELLANEOUS CONSTRUCTION

73 CONCRETE CURBS AND SIDEWALKS

73 1.01 MISCELLANEOUS CONCRETE CONSTRUCTION

Portland Cement Concrete curbs, gutters, sidewalks, curb ramps, concrete medians, concrete islands, bus pads, bus turnouts, valley gutters and driveways shall conform to the provisions in Section 73, "Concrete Curbs and Sidewalks," of the State Standard Specifications and these special provisions.

All concrete shall be Class A, six sack mix unless otherwise specified. For all driveway locations, where early opening to traffic is required, concrete shall be rapid setting concrete.

All newly placed concrete shall be cured with a clear concrete curing compound (State Specification 8030-71D-06).

The contract price paid per unit for “PCC Ramp (Remove and Replace)” shown on the plans and indicated in the bid items list, shall include full compensation for all labor, materials, tools, aggregate base and placement, complying with ADA requirements, placing concrete, compaction, installation of truncated domes, raising existing facilities to grade, incidentals and equipment required to complete these items of the work, to the limits as shown on the plans, as specified in the State Standard Specifications and these special provisions and as directed by the Engineer.

The contract unit price paid per linear foot for “PCC Curb & Gutter (Remove and Replace)”, of the types shown on the plans and indicated in the bid items list, shall include full compensation for all labor, materials, tools, aggregate base and placement, complying with ADA requirements, placing concrete,

compaction, raising existing facilities to grade, placement of hot mix asphalt, as shown on the plans incidentals and equipment required to complete these items of the work, as shown on the plans, as specified in the State Standard Specifications and these special provisions and as directed by the Engineer.

DIVISION IX TRAFFIC CONTROL DEVICES

81 MISCELLANEOUS TRAFFIC CONTROL DEVICES

Add the following to section 81 with the following:

84 MARKINGS

84-1 GENERAL

Add to section 84-1.01:

Traffic stripes and pavement markings shall be installed per provisions in section 84 of the City of Roseville Construction Standards and these Special Provisions.

Contractor shall remove all existing striping and pavement markers within the project limits prior to trenching.

Before obliterating any pavement delineation, the alignment and location of the pavement delineation shall be referenced by the Contractor with a sufficient number of control points to reestablish the alignment and location. The references shall also include the limits or changes in striping pattern, including limit lines, crosswalks and other pavement markings.

Traffic stripes and pavement markings shall be replaced at all locations where existing traffic stripes and pavement markings are obliterated or covered as a result of trenching operations.

Unless otherwise noted on the plans, the Contractor shall replace all pavement delineation on the same alignment and location.

84-2 TRAFFIC STRIPES AND PAVEMENT MARKINGS

Add to section 8-2.03A:

The Contractor shall be responsible for removal and establishing alignment of all Pavement Traffic Stripes and Pavement Markings outlined on the plans.

Permanent pavement delineation shall be installed no earlier than 7 calendar days and no later than 14 calendar days after HMA application.

Add to section 84-2.04:

Full compensation for conforming to all requirements specified in section 84, “Markings” shall be paid for at the contract square footage price paid for “Thermoplastic Pavement Markings, Striping, and Markers,” and “Remove Pavement Markings, Striping, and Markers.”

END OF SPECIAL PROVISIONS

CONSTRUCTION DETAILS

Refer to City standard details found on the City’s public website and modified details on approved plans as noted for construction details.

Public Works
Engineering
311 Vernon Street
Roseville, California 95678-2649

INTERSECTION RED FLASH APPROVAL

With stamped approval of this letter by the Traffic Section, Red Flash/Dark Signal is approved for the following intersection as specified below:

LOCATION: _____

PROJECT ACCOUNT NUMBER: _____

DATE: _____

TIME/DURATION: _____

☐ RED FLASH APPROVED:

1. Contractor shall contact the City Inspector 48 hours prior to needing the intersection in red flash. Signal shutdown shall be performed only by City personnel, unless otherwise directed by the Engineer.
2. During normal working hours (M-F, 7am-5pm) the contractor shall contact the Traffic Signal Technician either by telephone at **(916) 746-1760** or by email or text message at pagesignaltechnicians@roseville.ca.us one hour prior to needing the traffic signal placed into or removed from red flash. Outside of normal working hours - no phone call required.
3. The traffic signal will not be permitted to be placed in red flash during rain, lightning, or inclement weather conditions (including wet pavement conditions).
4. The Contractor shall reimburse the City for the actual cost of all inspection, including City Traffic Signal Technician time as required.
5. "Road Work Ahead" Signs required at all approaches to intersection when in red flash.
6. The Contractor shall furnish and place 36" "Stop" signs on arterial roadway approaches. Signs shall be mounted at a height of 84".

☐ DARK SIGNAL APPROVED – ADDITIONAL REQUIREMENTS

1. The Contractor shall place "Stop Ahead" C-W17 and "Stop" R-1 signs to direct vehicle and pedestrian traffic through the intersection during traffic signal system shutdown. Temporary "Stop Ahead" and "Stop" signs shall be removed when the system is turned on.
2. "Stop Ahead" and "Stop" signs shall be furnished by the Contractor. Minimum size of "Stop" signs shall be 36" for single sign placements and 24" for dual sign placements. Signs shall be mounted at a **height of 84"**.
3. One "Stop Ahead" sign and one "Stop" sign shall be placed for each direction of traffic. For approaches with two or more through or left turn lanes, two "Stop" signs shall be placed. Typical sign placement should be between the left turn and through lanes. Additional "Stop" signs should be placed on the shoulder. No "Stop" signs shall be placed in a manner that blocks bike lanes.
4. "Stop Ahead" and "Stop" signs shall be in place in each direction immediately prior to the intersection going dark and removed immediately after the intersection is placed back into red flash.
5. **Red flashing beacons or flares shall** be placed and maintained at each "Stop" sign during nighttime (dark) hours.
6. Traffic control must be verified by the Public Works Construction Inspector prior to the signal being deactivated.

☐ **I have read the above Intersection Red Flash Approval requirements.**

Stormwater Drainage Repair Project

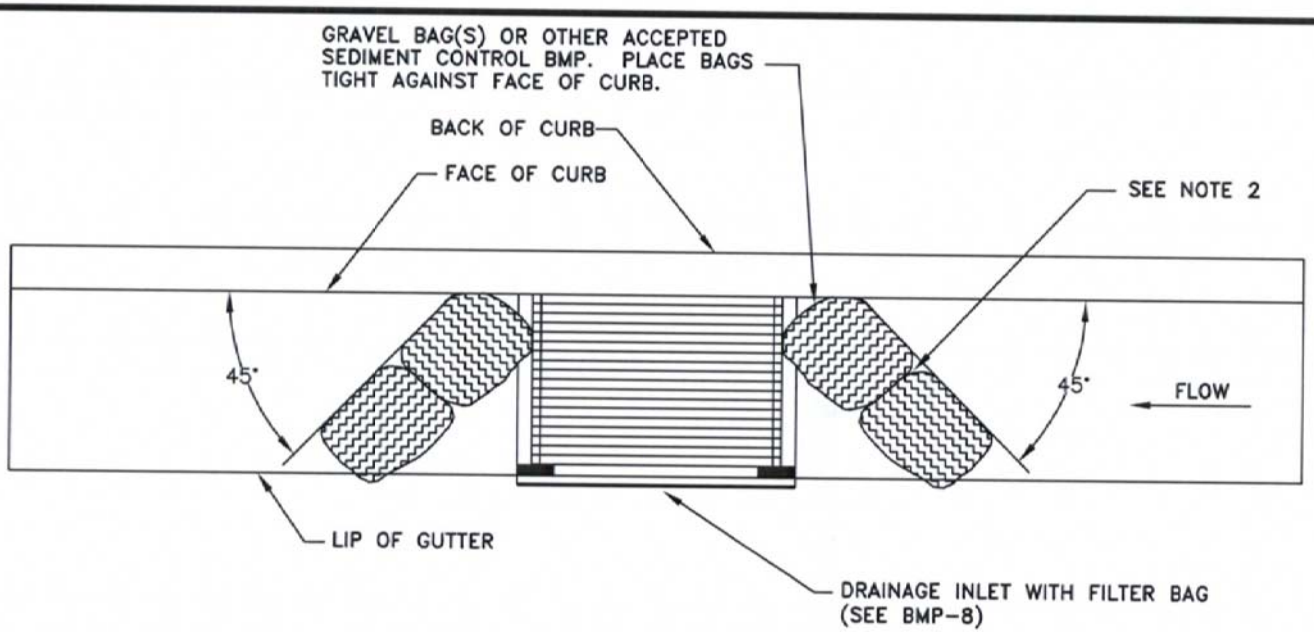
The City of Roseville will be performing stormwater drainage repairs in your area starting _____ from _____ to _____ on weekdays. Work will occur undergound and includes excavation, drainpipe replacement or maintenance, and paving.

Be prepared for increased noise levels in the project area.

Expect possible lane closures with flaggers present. If crews need to close on-street parking spaces they will place "No Parking signs on the street 72 hours before work begins.

Allow extra travel time and travel with care through the work area. Consider alternate routes, if possible.

Work schedules are subject to change due to weather and other unforeseen conditions.



If you have project questions, please contact the Public Works Department by calling (916) 746-1300 or emailing engineering@roseville.ca.us.

Thank you for your patience and understanding while we maintain your neighborhood's storm drainage system.

To learn more about Roseville's storm drainage and to view of map of project areas, scan the QR code below.

BMP-8

Paving and Grinding Operations

NS-3

Standard Symbol

BMP Objectives

- ○ Soil Stabilization
- ○ Sediment Control
- ○ Tracking Control
- ○ Wind Erosion Control
- ● Non-Storm Water Management
- ○ Materials and Waste Management

Definition and Purpose

Procedures and practices for conducting paving, saw cutting, and grinding operations to minimize the transport of pollutants to the storm drain system or receiving water body.

Appropriate Applications

These procedures are implemented where paving, surfacing, resurfacing, grinding or sawcutting, may pollute storm water runoff or discharge to the storm drain system or watercourses.

Limitations

- Finer solids are not effectively removed by filtration systems.
- Paving opportunities may be limited during wet weather.

Standards and Specifications

- Substances used to coat asphalt transport trucks, asphalt trucks, and asphalt spreading equipment shall not contain soap and shall be non-foaming and non-toxic.
- Place plastic materials under asphaltic concrete (AC) paving equipment while not in use, to catch and/or contain drips and leaks. See also BMP WM-4, "Spill Prevention and Control."
- When paving involves AC, the following steps shall be implemented to prevent the discharge of uncompacted or loose AC, tack coats, equipment cleaners, or other paving materials:
  - Minimize sand and gravel from new asphalt from getting into storm drains, streets, and creeks by sweeping.
  - Old or spilled asphalt must be recycled or disposed as approved by the Resident Engineer (RE).

- AC grindings, pieces, or chunks used in embankments or shoulder backing must not be allowed to enter any storm drain or watercourses. Install silt fence until structure is stabilized or permanent controls are in place.
- Collect and remove all broken asphalt and recycle when practical; otherwise, dispose in accordance with Standard Specification 7-1.13.
- Any AC chunks and pieces used in embankments must be placed above the water table and covered by at least 0.3 m (1 ft) of material.
- During chip seal application and sweeping operations, petroleum or petroleum covered aggregate must not be allowed to enter any storm drain or water courses. Use silt fence until installation is complete.
- Use only non-toxic substances to coat asphalt transport trucks and asphalt spreading equipment.

■ Drainage inlet structures and manholes shall be covered with filter fabric during application of seal coat, tack coat, slurry seal, and/or fog seal.

■ Seal coat, tack coat, slurry seal, or fog seal shall not be applied if rainfall is predicted to occur during the application or curing period.

■ Paving equipment parked onsite shall be parked over plastic to prevent soil contamination.

■ Clean asphalt-coated equipment off-site whenever possible. When cleaning dry, hardened asphalt from equipment, manage hardened asphalt debris as described in BMP WM-5, "Solid Waste Management." Any cleaning onsite shall follow BMP NS-8, "Vehicle and Equipment Cleaning."

■ Do not wash sweepings from exposed aggregate concrete into a storm drain system. Collect and return to aggregate base stockpile, or dispose of properly.

■ Allow aggregate rinse to settle. Then, either allow rinse water to dry in a temporary pit as described in BMP WM-8, "Concrete Waste Management," or dispose in accordance with Standard Specifications Section 7-1.13.

■ Do not allow saw-cut Portland Concrete Cement (PCC) slurry to enter storm drains or watercourses.

Pavement Grinding or Removal

■ Residue from PCC grinding operations shall be picked up by means of a vacuum attachment to the grinding machine, shall not be allowed to flow across the pavement, and shall not be left on the surface of the pavement. See also BMP WM-8, "Concrete Waste Management;" and BMP WM-10, "Liquid Waste Management," and Standard Specifications Section 42-2

"Grindings."

- Collect pavement digout material by mechanical or manual methods. This material may be recycled if approved by the RE for use as shoulder backing or base material at locations approved by the RE.
- If digout material cannot be recycled, transport the material back to a maintenance facility or approved storage site.
- Digout activities shall not be conducted in the rain.
- When approved by the RE, stockpile material removed from roadways away from drain inlets, drainage ditches, and watercourses and stored consistent with BMP WM-3, "Stockpile Management."
- Disposal or use of AC grindings shall be approved by the RE. See also BMP WM-8, "Concrete Waste Management."

Thermoplastic Striping

- All thermoplastic striper and pre-heater equipment shutoff valves shall be inspected to ensure that they are working properly to prevent leaking thermoplastic from entering drain inlets, the storm water drainage system, or watercourses.
- The pre-heater shall be filled carefully to prevent splashing or spilling of hot thermoplastic. Leave six inches of space at the top of the pre-heater container when filling thermoplastic to allow room for material to move when the vehicle is deadheaded.
- Contractor shall not pre-heat, transfer, or load thermoplastic near drain inlets or watercourses.
- Clean truck beds daily of loose debris and melted thermoplastic. When possible recycle thermoplastic material. Thermoplastic waste shall be disposed of in accordance with Standard Specification 7-1.13.

Raised/Recessed Pavement Marker Application and Removal

- Do not transfer or load bituminous material near drain inlets, the storm water drainage system or watercourses.
- Melting tanks shall be loaded with care and not filled to beyond six inches from the top to leave room for splashing when vehicle is deadheaded.
- When servicing or filling melting tanks, ensure all pressure is released before removing lids to avoid spills.
- On large scale projects, use mechanical or manual methods to collect excess

bituminous material from the roadway after removal of markers.

- Waste shall be disposed of in accordance with Standard Specification 7-1.13.

Maintenance and Inspection

- Inspect and maintain machinery regularly to minimize leaks and drips.
- Ensure that employees and subcontractors are implementing appropriate measures during paving operations.

April, 2022

RE: Contractor and Grantee Compliance with Economic Sanctions Imposed in Response to Russia's Actions in Ukraine

Dear Vendor:

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (EO) regarding sanctions in response to Russian aggression in Ukraine. The EO is located at https://www.gov.ca.gov/wp-content/uploads/2022/03/3.4.22-Russia-Ukraine-Executive-Order.pdf.

The EO directs all agencies and departments that are subject to the Governor's authority to take certain immediate steps, including notifying all contractors and grantees of their obligations to comply with existing economic sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law.

This correspondence serves as a notice under the EO that as a contractor or grantee, compliance with the economic sanctions imposed in response to Russia's actions in Ukraine is required, including with respect to, but not limited to, the federal executive orders identified in the EO and the sanctions identified on the U.S. Department of the Treasury website (https://home.treasury.gov/policy-issues/financial-sanctions/sanctions-programs-and-country-information/ukraine-russia-related-sanctions). Failure to comply may result in the termination of contracts or grants, as applicable.

Please note that for any agreements or grants valued at $5 million or more you must report to the City of Roseville your compliance with economic sanctions including steps you have taken in response to Russia's actions in Ukraine, including, but not limited to, desisting from making new investments in, or engaging in financial transactions with, Russian entities, not transferring technology to Russia or Russian entities, and directly providing support to the government and people of Ukraine.

Sincerely,

Title:	Dry Creek Wastewater Treatment Plant Operations and Laboratory Building Project – Construction Change Order Authority Increase
Contact:	Inderpreet Chaggar 916-774-5553 ikchaggar@roseville.ca.us

SUMMARY

Staff recommends approval of contract change orders for the construction agreement with BCM Construction Company, Inc. for the Dry Creek Wastewater Treatment Plant Operations and Laboratory Building project that could increase the original construction agreement by no more than 22% or $2,231,099. Funding for this Project is provided by the Wastewater Regional Rehabilitation Fund for the rehabilitation portion of the project (31%) and by the South Placer Wastewater Authority (SPWA) for the building expansion (69%).

RECOMMENDATION

Staff recommends that the City Council approve a resolution to increase the change order authority for the Dry Creek Wastewater Treatment Plant Operations and Laboratory Building Project from ten percent (10%) to twenty two percent (22%) of the total contract amount.

BACKGROUND

The existing operations building at the Dry Creek Wastewater Treatment Plant (DCWWTP) is aging and a larger building is required to accommodate staff growth and increase lab space needs based on required regulatory compliance.

The new Operations and Laboratory Building at DCWWTP is a 10,000-square foot building that will house the operations and laboratory staff at DCWWTP. The new building will replace the existing administration and laboratory building at DCWWTP and will include office space, training and conference rooms, laboratory area, sleeping quarters and mechanical and electrical rooms.

On April 16, 2025, City Council authorized to advertise the construction plans and specifications for the Project. On May 20, 2025, the City received four (4) bids for the subject project, and the construction agreement was awarded to BCM Construction Company, Inc. At that time, City Council authorized up to a 10 percent construction change order allowance.

Construction of the new building is currently underway and is being completed in phases, including partial construction of the new building, demolition of the existing building, and completion of the remaining portions of the new building and site improvements.

The cause of the Project construction changes is based on many factors, including unforeseen underground utilities and related field modifications, unstable soil conditions encountered during construction, electrical and plumbing modifications needed to support project needs and added furniture procurement. These items were identified through ongoing construction coordination and field

investigations, and are necessary to support successful project delivery.

FISCAL IMPACT

The construction contract for this project was awarded on August 6, 2025, in the amount of $10,141,361, with 31% ($3,143,822) of the project funded through the Wastewater Regional Rehabilitation Fund, and 69% ($6,997,539) funded by SPWA, with contract change order authority of 10 percent in the amount of $1,014,136.

This is a request for an additional 12% ($1,216,963) construction change order authority, with 31% ($377,258) funded through the Wastewater Regional Rehabilitation Fund, and 69% ($839,705) funded by SPWA. Following the requested increase, the total construction change order authority shall not exceed 22% ($2,231,099), for a total not-to-exceed total contract amount of $12,372,460. Existing approved funding within the Wastewater Regional Rehabilitation Fund and the SPWA project budget is sufficient to support the requested increase.

ENVIRONMENTAL REVIEW

The proposed project involves the minor alteration and replacement of existing structures and facilities. This activity is categorically exempt from California Environmental Quality Act (CEQA) as a Class 1 and Class 2 Exemption (State CEQA Guidelines Sections 15301 and 15302). The Exemption has been prepared and no further CEQA action is required.

RESOLUTION NO. 26-233

APPROVING AN INCREASE IN CHANGE ORDER AUTHORITY

WHEREAS, a construction agreement with BCM Construction Company, Inc., for the Dry Creek Wastewater Treatment Plant Operations and Laboratory Building Project, was approved by City Council on August 6, 2025; and

WHEREAS, due to unforeseen underground utilities and related field modifications, unstable soil conditions, electrical and plumbing modifications needed to support project needs and added furniture procurement, the change order authority will soon exceed the approved 10% allowance; and

WHEREAS, staff is therefore recommending an eight percent (8%) increase in change order authority amount from ten percent (10%) to eighteen percent (18%) of the total contract price; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that the City Manager, or his designee, is authorized to approve change orders for the project, consistent with the contract terms, provided that the net cost of all change orders shall not exceed eighteen percent (18%) of the original contract price.

PASSED AND ADOPTED by the Council of the City of Roseville this ___ day of _____, 20__, by the following vote on roll call:

Roseville, CA 95678

Project Title: Dry Creek Wastewater Treatment Plant Operations and Laboratory Building Project – Construction Management Services (RFP # 08-153) – Award of Professional Services Agreement

Project Location(s): 1800 Booth Road, Roseville, CA 95747. Assessor's Parcel Numbers 474-080-009-000, 474-110-001-000, 474-110-002-000, 473-080-000-000, and 473-080-002-000.

Project Description: The Environmental Utilities Department (EU) is requesting the approval of professional services agreement for construction management for the replacement of the existing outdated and undersized administration and laboratory building at the Dry Creek Wastewater Treatment Plant (DCWWTP). The existing building at DCWWTP is aging and a larger building is required to accommodate existing staff and increased lab space needs based on required regulatory compliance. Design is complete.

The new Operations and Laboratory Building at DCWWTP is a 10,000 square-foot (sf) building that will house the existing operations and laboratory staff at DCWWTP. The new building will replace the existing administration and laboratory building at DCWWTP and will include office space, training and conference rooms, laboratory area, and mechanical and electrical room. The project would not result in an expansion of use or capacity.

Public Agency Approving Project: Roseville City Council

Agency/Individual Carrying Out Project: City of Roseville Environmental Utilities Department

Reason why this Project is Exempt: The project qualifies for Class 1 and Class 2 Categorical Exemptions as described in Sections 15301 and 15302 of the California Environmental Quality Act (CEQA) guidelines which state:

> "Class 1 (Existing Facilities) consists of … minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use… Examples include but are not limited to:…(b) Existing facilities of both investor and publicly owned utilities to provides electric power, natural gas, sewerage, or other public utilities…" and;
>
> (e) Additions to existing structures provided that the addition will not result in an increase of more than: (1) 50 percent of the floor area of the structures before the addition, or 2,500 square feet, whichever is less; or (2) 10,000 square feet if: (A) The project is in an area where all public services and facilities are available to allow for maximum development permissible in the General Plan and (B) The area in which the project is located is not environmentally sensitive."

> "Class 2 consists of replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site as the structure replaced and will have substantially the same purpose and capacity as the structure replaced, including but not limited to… (c) Replacement or reconstruction of existing utility systems and/or facilities involving negligible or no expansion of capacity."

The project consists of the construction of a 10,000 sf Operations and Laboratory Building to replace the existing undersized and outdated laboratory at the DCWWTP. The project would not result in expansion of use and would be located in substantially the same location and serves the same purpose as the existing building. Consequently, the Class 1 and Class 2 Categorical Exemptions apply.

Lead Agency Contact Person: Inderpreet K Chaggar, Roseville Department of Environmental Utilities (916-774-5553).

Signature: _____ Date: 6/5/2025

Jessica Lynch, Environmental Coordinator
City of Roseville

AGREEMENT

THIS AGREEMENT, is made and entered into this 6th day of August, 2025, by and between the City of Roseville, a municipal corporation, ("CITY"), and BCM Construction Company Inc., a California corporation, ("CONTRACTOR"); and

WITNESSETH:

WHEREAS, the City Council of the CITY, at a meeting held on the 16th day of April, 2025, approved plans and specifications for the Dry Creek Wastewater Plant Operations and Lab Building Project and directed the City Clerk to advertise for sealed proposals for doing said work and providing that bids be submitted on the 20th day of May, 2025; and

WHEREAS, the City Clerk, thereafter duly and regularly caused a notice to be published in the manner and for the time prescribed by law; and

WHEREAS, CONTRACTOR, pursuant to the provisions of said notice duly filed a bid with the City Clerk, a true copy of which bid is now on file in the office of the City Clerk, and is hereby referred to and by this reference made a part hereof as fully as if set forth at length herein; and

WHEREAS, all bids received pursuant to said notice were opened and examined and publicly declared at the time specified in said advertisement for bids and at a meeting of the City Council held on the 6th day of August, 2025, the Council found and declared the bid of CONTRACTOR to be the lowest responsible bid and thereupon awarded a contract to CONTRACTOR to do the work referred to in the aforementioned specifications.

NOW, THEREFORE, the parties agree as follows:

1. THE WORK. CONTRACTOR agrees:

a. To do the work and furnish all the labor, materials, tools, supplies, equipment, superintendence, insurance, and bonds required for the Dry Creek Wastewater Treatment Operations & Laboratory Building Project in accordance with the Contract Documents (the Work).

b. To do and perform the Work contemplated hereby in a good and workmanlike manner under the direction of and to the satisfaction of the Director of Public Works of the City of Roseville.

2. PAYMENT. CITY shall pay CONTRACTOR ten million one hundred forty-one thousand three hundred sixty-one dollars ($10,141,361) for the Work to be done under this Agreement in accordance with the Contract Documents.

3. CONTRACT DOCUMENTS. The complete Agreement between the parties hereto consists of the following documents:

a. The advertisement for bids (including the notice to bidders, instructions to bidders and proposals);

b. The accepted bid;

c. Plans and specifications (including standard construction specifications, special provisions and construction details);

d. Bonds and insurance required by the specifications; and

e. This contract.

All documents specified above are intended to operate so that any work called for in any one and not mentioned in the other, or vice versa, is to be executed the same as if mentioned in all said documents.

4. LIQUIDATED DAMAGES. In the event CONTRACTOR does not complete the Work within the time specified, CONTRACTOR agrees that CITY will suffer damages. Inasmuch as the actual damages which would result from such breach by CONTRACTOR under this Agreement are uncertain, and would be impractical or extremely difficult to fix, CONTRACTOR agrees that it shall pay, or CITY shall deduct from CONTRACTOR's fee, the amount of $ 1500.00 per day as liquidated damages, in the event of such delay.

5. TIME OF COMPLETION. Time is of the essence of this Agreement. CONTRACTOR shall complete all Work under the Contract Documents within 365 Days of the date of this Contract. CONTRACTOR shall begin work by the date specified in the "Notice to Proceed" letter and shall diligently prosecute all of the Work under this Contract in all parts and requirements as defined in the Contract Documents.

6. SERVICE OF NOTICE. Any notice required or permitted to be given under this Agreement shall be deemed given when (a) personally delivered to the recipient identified below; (b) mailed by registered or certified mail, return receipt requested, postage pre-paid, to the address specified below; or (c) sent by facsimile, with confirmation of receipt, to the facsimile number identified below.

CITY OF ROSEVILLE	CONTRACTOR
Environmental Utilities Attn: Inderpreet Chaggar 2005 Hilltop Circle Roseville, CA 95747	BCM Construction Company Inc. Attn: James Nason 2990 State Highway 32, Suite 100 Chico, CA 95673

CITY may also act through either its architect or construction manager if CITY expressly gives notice to CONTRACTOR, in writing, that CITY's designee has authority to act for CITY in a specific capacity.

7. DISPUTES. Disputes arising from this Agreement will be determined in accordance with the Contract Documents and Public Contract Code Sections 10240-10240.13.

8. GOVERNING LAW. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

9. INDEPENDENT CONTRACTOR. CONTRACTOR shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

10. SUCCESSORS IN INTEREST. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

11. MODIFICATION. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

12. SEVERABILITY. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

13. INTEGRATED AGREEMENT. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

14. CONTRACTORS LICENSE LAW. CONTRACTORS ARE REQUIRED BY LAW TO BE LICENSED AND REGULATED BY THE CONTRACTORS' STATE LICENSE

BOARD WHICH HAS JURISDICTION TO INVESTIGATE COMPLAINTS AGAINST CONTRACTORS IF A COMPLAINT REGARDING A PATENT ACT OR OMISSION IS FILED WITHIN FOUR (4) YEARS OF THE DATE OF THE ALLEGED VIOLATION. A COMPLAINT REGARDING A LATENT ACT OR OMISISON PERTAINING TO STRUCUTRAL DEFECTS MUST BE FILED WITHIN TEN (10) YEARS OF THE DATE OF THE ALLEGED VIOLATION. ANY QUESTIONS CONCERNING A CONTRACTOR MAY BE REFERRED TO THE REGISTRAR, CONTRACTORS' STATE LICENSE BOARD, P.O. BOX 26000, SACRAMENTO, CALIFORNIA 95826.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. 25-271 adopted by the Council of the City of Roseville on the 6th day of August, 2025, and CONTRACTOR has caused this Agreement to be duly executed.

PUBLIC WORKS

LABOR AND MATERIALS PAYMENT BOND

(Project: Bid RFP #08-156 - Dry Creek Wastewater Treatment Plant Operations and Laboratory Building Project)

WHEREAS, the City of Roseville ("CITY"), has awarded a bid and contract to

BCM Construction Company Inc.

as contractor ("PRINCIPAL"), for the public work described as Bid RFP #08-156 Dry Creek Wastewater Treatment Plant Operations and Laboratory Building (the "WORK"). The contract ("AGREEMENT"), for the public work described above, and all of its terms and conditions are incorporated by reference and made a part hereof; and

WHEREAS, the PRINCIPAL is required to furnish a bond in connection with the AGREEMENT guaranteeing payment of persons who provide labor and material; and

NOW, THEREFORE, we the undersigned PRINCIPAL and Fidelity and Deposit Company of Maryland, a Illinois corporation, admitted and duly authorized to transact business under the laws of the State of California, as SURETY ("SURETY"), are held and firmly bound unto the CITY or its successors and assigns in the sum of Ten Million One Hundred Forty-One Thousand Three Hundred Sixty-One and No/100 dollars ($ 10,141,361.00----------) (which amount is not less than 100% of the AGREEMENT price) to be paid to the CITY or its successors and assigns; and for which

payment, well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors or assigns jointly and severally, firmly by these presents.

The condition of the obligation is such that if the PRINCIPAL, its subcontractors, heirs, executors, administrators, successors or assigns fails to pay any of the persons named in Section 8004 or 9100 of the Civil Code of the State of California, or the amounts due under the Unemployment Insurance Code of the State of California, or any amounts required to be deducted, withheld and paid over to the Employment Development Department from the wages of employees of the PRINCIPAL and its subcontractors pursuant to Section 13020 of the Unemployment Insurance Code, with respect to work or labor performed by any such claimant, that the SURETY will pay for the same, in an amount not exceeding the sum specified in this bond, and also, in case suit is brought upon the bond, shall pay reasonable attorneys' fees, to be fixed by the Court.

This bond shall inure to the benefit of any and all persons, companies, and corporations entitled to file a Stop Payment Notice pursuant to the provisions of Section 9350 et seq. of the Civil Code of the State of California, so as to give a right of action to them or their assigns in any suit brought upon this bond.

No prepayment or delay in payments, and no change, extension, addition or alteration of any provision of the AGREEMENT or in the specifications agreed to between the PRINCIPAL and the CITY, or any forbearance on the part of the CITY shall

operate to relieve the SURETY. The SURETY hereby waives the provisions of Section 2819 of the California Civil Code. The SURETY waives all rights of subrogation against the CITY or any person employed by the CITY. If the contract price increases by the issuance of change orders, the amount specified in this bond shall increase by the same amount.

As part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by CITY in successfully enforcing such obligation, all to be taxed as costs and included in any judgment rendered.

IN WITNESS WHEREOF, this instrument has been duly executed by the PRINCIPAL and SURETY above-named, on the 13th day of June, 2025.

Bond No. 9479121

Premium $ 63,377.00 subject to adjustment

PUBLIC WORKS

FAITHFUL PERFORMANCE BOND

(Project: Bid RFP #08-156- Dry Creek Wastewater Treatment Plant Operations and Laboratory Building Project)

WHEREAS, the City of Roseville ("CITY") has awarded a bid and contract to BCM Construction Company Inc. as contractor ("PRINCIPAL") for the public work described as Bid RFP #08-156 Dry Creek Wastewater Treatment Plant Operations and Laboratory Building (the "WORK"). The contract ("AGREEMENT"), for the public work described above, and all of its terms and conditions are incorporated by reference and made a part hereof; and

WHEREAS, the PRINCIPAL is required to furnish a bond in connection with the AGREEMENT guaranteeing its faithful performance; and

NOW, THEREFORE, we the undersigned PRINCIPAL and Fidelity and Deposit Company of Maryland, a Illinois corporation, admitted and duly authorized to transact business under the laws of the State of California, as SURETY ("SURETY"), are held and firmly bound unto the CITY or its successors and assigns in the sum of Ten Million One Hundred Forty-One Thousand Three Hundred Sixty-One and No/100 dollars ($ 10,141,361.00----------) (which amount is not less than 100% of the

AGREEMENT price) to be paid to the CITY or its successors and assigns; and for which payment, well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors or assigns jointly and severally, firmly by these presents.

The condition of this obligation is such that if the PRINCIPAL, or its heirs, executors, administrators, successors or assigns, shall abide by, and in all respects promptly and faithfully perform the covenants, conditions and provisions in said AGREEMENT and any alteration thereof made as therein provided, notice of which alterations to Surety being hereby waived, on its part to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless CITY, its officers, agents, employees, volunteers as therein stipulated, then this obligation shall be null and void; otherwise, this obligation shall be and remain in full force and effect.

As condition precedent to the satisfactory completion of the contract, the obligation of the PRINCIPAL and SURETY under this Bond shall remain in effect for a period of one (1) year after the completion and acceptance of the WORK. During that time, if the PRINCIPAL, its heirs, executors, administrators, successors or assigns fails to make full, complete and satisfactory repair and replacement or totally protect the CITY from any loss or damage made evident during that year which results from or is caused by either defective materials or faulty workmanship in the prosecution of the WORK, then the obligation shall remain in full force and effect. However, anything in this paragraph to the contrary notwithstanding, the obligation of the SURETY shall

continue so long as any obligation of the PRINCIPAL remains.

No prepayment or delay in payments, and no change, extension, addition or alteration of any provision of the AGREEMENT or in the specifications agreed to between the PRINCIPAL and the CITY, or any forbearance on the part of the CITY shall operate to relieve the SURETY. The SURETY hereby waives the provisions of Section 2819 of the California Civil Code. The SURETY waives all rights of subrogation against the CITY or any person employed by the CITY. If the contract price increases by the issuance of change orders, the amount specified in this bond shall increase by the same amount.

Whenever PRINCIPAL shall be and declared by CITY to be in default under the AGREEMENT, SURETY shall promptly remedy the default, or shall promptly do one of the follow at CITY's election:

1. Undertake through its agents or independent contractors, reasonably acceptable to CITY, to complete the AGREEMENT in accordance with its terms and conditions and to pay and perform all obligations of PRINCIPAL under the AGREEMENT, including without limitation, all obligations with respect to warranties, guarantees, and the payment of liquidated damages.

2. Reimburse CITY for all costs CITY incurs in completing the AGREEMENT, and in correcting, repairing or replacing defects in materials or workmanship

and/or materials and workmanship which do not conform to the specifications in the AGREEMENT.

SURETY's obligations hereunder are independent of the obligations of any other surety for the performance of the AGREEMENT, and suit may be brought against SURETY and such other sureties, jointly and severally, or against any one or more of them, or against less than all of them without impairing CITY's rights against the others.

No right of action shall accrue on this bond to or for the use of any person or corporation other than CITY or its successors or assigns.

As part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by CITY in successfully enforcing such obligation, all to be taxed as costs and included in any judgment rendered.

Title:	Dry Creek Greenway East Phase 1 Fence and Landscaping Project - Approval of Plans and Specifications and Authorization to Call for Bids
Contact:	Cathy Gosalvez 916-774-5396 cgosalvez@roseville.ca.us

SUMMARY

Staff recommends approval of the plans and specifications for the Dry Creek Greenway East Phase 1 Fence and Landscaping Project and authorize staff to call for bids. The scope of this project includes construction of an 8-foot-tall steel and redwood fence, landscaping and irrigation along the Dry Creek Greenway Phase 1 Trail west of Sunrise Avenue. Construction is estimated to cost approximately $682,000 and is planned for summer to fall 2026. The project is funded with Local Transportation Funds. No General Fund resources will be used on this project.

RECOMMENDATION

Staff recommends that the City Council approve the plans and specifications for the Dry Creek Greenway East Phase 1 Fence and Landscaping Project and authorize staff to call for bids.

BACKGROUND

During construction of the Dry Creek Greenway Phase 1 Trail, it was determined that a fence was needed alongside the trail to prevent trail users from unintentionally viewing cultural ceremonies on property owned by the California Rural Indian Health Board (CRIHB). The Public Works Department worked collaboratively with CRIHB staff to address their concerns as well as meet FEMA's regulations for construction of a fence within the floodway.

The project proposes to construct a flood responsive fence along the south side of the Dry Creek Greenway East - Phase 1 Trail. Improvements include installation of an 8-foot tall redwood and steel fence, new landscaping and irrigation.

Public Works Department staff initially proposed including construction of the fence with construction of the Dry Creek Greenway East Phase 1 Trail Project. However, the cost proposal prepared by the Trail Project contractor exceeded both the engineer’s estimate and an independent cost analysis prepared for the fence construction. Therefore, City staff determined that it is more cost effective to receive competitive bid pricing by soliciting bids for the fence construction as a separate contract.

Construction is currently planned for the summer of 2026 with completion in the late fall of 2026.

FISCAL IMPACT

The project is estimated to cost $682,000 and will be funded by the Local Transportation Fund. Once the actual construction costs are known, a budget adjustment will be recommended at the contract award to cover actual costs. No General Fund resources will be used on this project.

ENVIRONMENTAL REVIEW

The proposed project involves the construction of a fence. This activity is categorically exempt from CEQA as a Class 3 Exemption (State CEQA Guidelines Section 15303). The Exemption has been prepared and no further CEQA action is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

1. Ensure a safe and healthy community
5. Support community engagement and advocacy

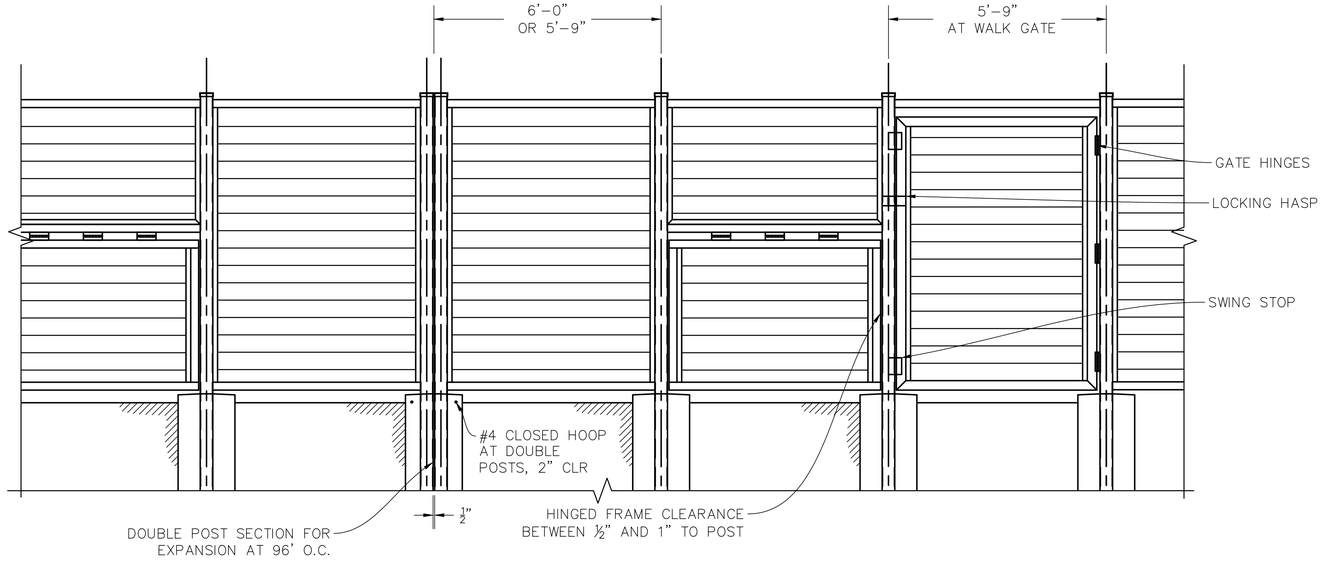
STRUCTURAL NOTES:

TUBE STEEL: ASTM A500 GRADE B.

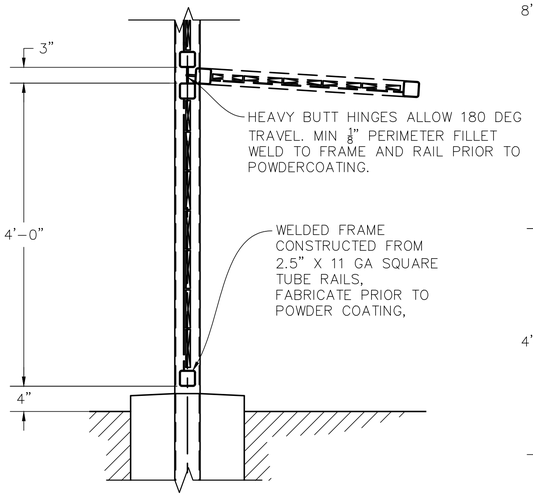
BLACK POWDERCOAT ALL METALLIC ELEMENTS INCLUDING POSTS, RAILS, FRAMES, BARS, HINGES, AND HASPS WITH AN EXTERIOR GRADE, UV–STABLE, ELECTROSTATICALLY APPLIED POLYMER POWDER.
MINIMUM REQUIREMENTS:
- DRY FILM THICKNESS WILL BE GREATER THAN 3 MILS.
- CROSS HATCH ADHESION ASTM D6677: 5B.
- IMPACT RESISTANCE ASTM D2794: 160 IN–LB.
- UV RESISTANCE MEETING ASTM G154.
- PENCIL TEST HARDNESS 2H – 6H.
- SMOOTH TEXTURE, LOW GLOSS.

REPAIR DAMAGED POWDER COATING BY:
1. REMOVE ANY DEBRIS, DIRT, GREASE, OR MOISTURE.
2. ABRASIVE BLAST OR HAND–SAND THE AREA TO BE RECOATED INCLUDING THE POWDER COAT TO BE COVERED.
3. APPLY SOLVENT CLEANER.
4. APPLY ENAMEL OR EPOXY–BASED PRIMER.
5. APPLY ENAMEL OR EPOXY–BASED TOP COAT TO MATCH POWDER COATED COLOR AND GLOSS.



CONCRETE FENCE POST F'C = 2500 PSI.

PLACE CONCRETE AGAINST UNDISTURBED SOIL.



ALL RAILS TO BE FLAT AND ALL POSTS TO BE PLUMB. STEP DOWN RAILS TO MEET GRADING.

REDWOOD SLATS TO BE CONSTRUCTION HEART GRADE, ROUGH.
APPLY SEMI–TRANSPARENT STAIN FORMULATED FOR EXTERIOR REDWOOD USE.
USE CABOT PRODUCT #080351810572 OR #080351103162; VALSPAR #035777885086 OR #035777885079; BEHR PREMIUM SEMI–TRANSPARENT WATERPROFFING STAIN & SEALER #5330 OR #5533; OR EQUAL.

I
NOTICE TO CONTRACTORS

CITY OF ROSEVILLE

DEPARTMENT OF Public Works

Name of Project: Dry Creek Greenway East Phase 1 Fence and Landscaping Project

NOTICE TO CONTRACTORS

NOTICE IS HEREBY GIVEN THAT sealed Proposal will be received at the Office of the City Clerk, 311 Vernon Street, Roseville, California, until July 7, 2026 at 3:00 p.m. Late proposals will be rejected. No exceptions.

The Proposals will be publicly opened and read by the City Clerk or designee of the City of Roseville at 3:05 p.m. on July 7, 2026 at the Office of the City Clerk located at 311 Vernon Street, Roseville California for the following project:

Dry Creek Greenway East Phase 1 Fence and Landscaping Project.

A pre-bid meeting will be held at _____

_____.

A Project Manual, including all Contract Documents and the Proposal forms for bidding this project, may be obtained on-line from the City of Roseville's website at https://www.roseville.ca.us/business/procurement_services/bids_rfps. All communications relative to this project shall be conducted through Public Purchase.

Bids shall be submitted on the City's Proposal Forms included in the Project Manual, plainly endorsed with the Bidder's name together with signed acknowledgement of any and all addenda. Proposal Forms shall be securely sealed in a suitable envelope marked with the name

and address of the Bidder, and marked in capital letters on the front and back of the envelope as follows:

[NAME OF PROJECT]

(Name of Bidder)

(Address of Bidder)

Whether mailed or personally delivered, all bids shall be addressed to the City of Roseville, Office of the City Clerk, 311 Vernon Street, Roseville, California, 95678.

Each bid must be accompanied by a Bid Guaranty in the form of a Certificate of Deposit, Certified or Cashier's Check, Bidder's Bond or Irrevocable Standby Letter of Credit in an amount equal to at least ten percent (10%) of the Bidder's Grand Total Price. The Bid Guaranty will be retained by the City and applied to any and all damages sustained by the City in the event that the successful Bidder fails or refuses to enter into the Contract awarded to it and to furnish all required bonds and Certificates of Insurance. The City intends to award the Contract to the lowest responsible Bidder based on the Grand Total Bid Price for all components of the Project. To the extent allowed by law, the City reserves the right to reject any and all bids and/or to waive any irregularities or informalities in any bid or in the bidding procedure. The City specifically reserves the right to not award the Contract after the opening of bids.

Any bid may be withdrawn at any time prior to the time fixed in the public notice for the deadline submission of bids only by written request for the withdrawal of the bid filed with the City Clerk. The request shall be executed by the Bidder or his or her duly authorized representative. The withdrawal of a bid does not prejudice the right of the Bidder to file a new bid by the submission deadline. Whether or not bids are opened exactly at the time fixed in the

public notice for opening bids, a bid will not be received after the deadline submission of bids nor may any bid be withdrawn after the time fixed in the public notice for deadline for submission of bids. Immediately following the deadline for submission of bids all bids shall become the property of the City of Roseville and the City is under no obligation to return bids.

Bids will be examined and reported to the City Council within sixty (60) business days after the bid opening. Except as permitted by applicable law, no Bidder may withdraw its bid for a period of sixty (60) business days after the date of bid opening. Each Bidder will be notified of any award of the Contract by the City.

The City will affirmatively ensure non-discrimination on the basis of one or more of the following: race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, or military and veteran status in the award and administration of contracts that it awards.

Pursuant to Public Contract Code Section 22300, the successful Bidder may submit certain securities in lieu of the City withholding retention of payments during the Project.

The City has determined that the Contractor shall possess a valid Class A, General Engineering or C-13, Fencing Contractor's license at the time that the bid is submitted, as well as any other license classification as may be required by the laws of the California for the performance of the work specified in the Contract Documents. Said license shall be maintained during the Contract period. Failure to possess the specified license shall render the bid nonresponsive and will act as a bar to the award of the Contract to any Bidder not possessing such a license at the time of bid submittal. The Contractor shall provide certification of the license, its number and the expiration date on the proposal form.

The work is to be done in Placer County. Pursuant to California Labor Code Section 1773, the City has ascertained the General Prevailing Rate of Wages in the County in which the work is to be done to be as determined by the Director of Industrial Relations of the State of California. The Contractor is hereby made aware that information regarding prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm. The Contractor is required to post a copy of the applicable wage rates at the job site. Attention is directed to Section 7 "Legal Relations and Responsibility" of the Standard Construction Specifications.

Pursuant to Labor Code Section 1771.1(b), notice is hereby given that a contractor or subcontractor shall not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any contract for public work, as defined in Labor Code Sections 1720, et seq., unless currently registered and qualified to perform public work pursuant to Labor Code Section 1725.5 or exempt from registration requirements pursuant to Labor Code Section 1725.5(f). It is not a violation of Labor Code Section 1771.1 for an unregistered contractor to submit a bid that is authorized by Section 7029.1 of the Business and Professions Code or by Section 10164 or 20103.5 of the Public Contract Code, provided the contractor is registered to perform work pursuant to Labor Code Section 1725.5 at the time the contract is awarded or is exempt from registration requirements pursuant to Labor Code Section 1725.5(f). The Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

All questions prior to the deadline for bid submissions shall be directed to the attention of Dry Creek Greenway East Phase 1 Fence and Landscaping Project via online submission at the Public Purchase website.

The deadline for submissions of questions and clarifications regarding the Contract Documents is __11__ calendar days before the deadline for bid submissions. Only Addenda issued by the City are binding.

II
INSTRUCTIONS TO BIDDERS

INSTRUCTIONS TO BIDDERS

SECTION 1. GENERAL

1-1.01 **GENERAL.** These Instructions to Bidders form a part of the Contract Documents. Capitalized terms are defined in Standard Construction Specifications Section 1.

1-1.02 **EXAMINATION OF PLANS, CONTRACT DOCUMENTS AND SITE OF THE WORK.** The Bidder shall examine carefully the site of the Work and all the Contract Documents, including these Instructions to Bidders, and shall inform itself of the conditions relating to the execution of the Work. Failure to do so will not relieve the successful Bidder of its obligation to enter into an Agreement and complete the Work in strict accordance with the Contract Documents. Conditions relating to the execution of the Work include the requirements of federal, state, and local laws, statutes and ordinances relative to the execution of Work, including, but not limited to, applicable regulations concerning prevailing wage rates, non-discrimination in the employment of labor, protection of the public, employee health and safety, and environmental protection.

The submission of a bid shall be conclusive evidence that the Bidder has investigated and is satisfied as to the conditions to be encountered, as to the character, quality, and scope of Work to be performed, the quantities of materials to be furnished, and as to the requirements of all the Contract Documents.

1-1.03 **EXISTING INFORMATION.** Where the Department has made investigations of site conditions, including subsurface conditions in areas where Work is to be performed under the Contract, such investigations are made only for the purpose of study and design. City does not represent that such conditions as found in these investigations or inferences or conclusions drawn as a result of these investigations will represent actual site

conditions and hereby disclaims any liability as a result of Contractor's or Bidder's reliance on such investigations. City will presume that all Bidders have conducted their own site investigations, including investigations of subsurface conditions. Where such investigations have been made, Bidders or Contractors may, upon written request, inspect the records of the Department as to such investigations subject to the conditions set forth in these Instructions to Bidders. Such inspection of records may be made only at the location noted above. The records of such investigations are not a part of the Contract Documents and are shown solely for the convenience of the Bidder or Contractor. The City assumes no responsibility whatsoever with respect to the sufficiency or accuracy of the investigations made, the records thereof, or of the interpretations set forth therein or made by the City in its use thereof. The City makes no warranty or guarantee, either express or implied, that the conditions indicated by such investigations or records are representative of those existing throughout such areas, or any part thereof, or that unforeseen developments may not occur, or that materials other than, or in proportions different from those indicated, may not be encountered.

No information derived from such inspection of records of investigations or compilation thereof made by the City, the Department or from the Engineer, or his or her assistants, will in any way relieve the Bidder or Contractor from properly examining the site and making such additional investigations as it may elect, or from properly fulfilling the terms of the Contract.

SECTION 2: BID REQUIREMENTS

2-1.01 **PROPOSAL FORMS.** The Department will furnish to each Bidder standard Proposal Forms, which, when filled out and executed may be submitted as the bid. Proposals shall include all pages in the Project Manual with page numbers marked "PROP" plus the Addendum acknowledgment form (front sheet) from all Addenda received by the Bidder. Proposals shall be removed from the Project Manual. The full Project Manual shall not be submitted with the proposal. Bids not presented on forms so furnished will be disregarded.

The Proposal and one (1) copy thereof shall be submitted as directed in the "Notice to Contractors" under sealed cover plainly marked as a Proposal, and identifying the project to which the Proposal relates and the date of the bid opening therefor. Proposals which are not properly marked may be disregarded.

All blank spaces in the Proposal must be completed, as required, in ink. All price information shall be shown, clearly legible, in figures where required.

The Bidder shall sign the Proposal in the blank space provided therefor. If the Bidder is the sole owner, the Proposal shall be signed by the owner. If the Bidder is a corporation, the legal name of the corporation and its State of incorporation shall be set forth and the Proposal shall be signed by at least two officers authorized to sign contracts on behalf of the corporation. If the Bidder is a partnership, the true name of the firm shall be set forth, the names and addresses of all partners shall be given and the Proposal shall be signed by a partner in the firm authorized to sign contracts on behalf of the partnership. If the Bidder is a joint venture, the Proposal shall be signed on behalf of each participating company by officers or other individuals who have the full and proper authorization to do so. If the Proposal is signed by an agent of the Bidder other than an officer of a corporation or a member of a partnership, a notarized Power of

Attorney must be on file with the City prior to opening of bids or must be submitted with the Proposal. If requested by the City, the Bidder shall promptly submit evidence satisfactory to the City of the authority of the person signing the Proposal.

2-1.02 **SUBMISSION OF BIDS.** Bids must be submitted at the prescribed time and location specified in the Notice to Contractors. Any submission received after the prescribed time shall be rejected, regardless of whether or not bids are opened exactly at the prescribed time.

Any unauthorized conditions or qualifications entered on, or changes made to, the Proposal may render it invalid and may cause its rejection.

No telegraphic, telephonic, or facsimile or other electronically transmitted bids will be considered.

2-1.03 **REQUIRED LISTING OF PROPOSED SUBCONTRACTORS.** Each Proposal shall list the name, address and Contractor license number of each Subcontractor to whom the Bidder proposes to subcontract portions of the Work in an amount in excess of one-half of one percent (0.5%) of its total bid, in accordance with Section 4100 to 4114, inclusive, of the Public Contract Code for the State of California. The Bidder shall list the Subcontractor's license number and the portion of the Work that will be done by each Subcontractor. If the Bidder fails to specify a Subcontractor for any portion of the Work, the Bidder agrees to perform that portion of the Work itself, and represents that it is qualified to perform that portion of the Work itself. The Bidder's attention is invited to other provisions of the Public Contract Code related to the imposition of penalties for a failure to observe its provisions by using unauthorized Subcontractors or by making unauthorized substitutions.

2-1.04 **CONTRACTOR'S LICENSING LAWS.** Attention is directed to the provisions of Business and Professions Code Chapter 9 of Division 3 concerning the licensing of Contractors.

All Bidders at the time of bid submittal shall be licensed as Contractors in accordance with the laws of this State. Any Bidder or Contractor not so licensed is subject to the penalties imposed by such laws. The form of Contractor's license required is stated in the Notice to Contractors, provided that the City makes no representation as to whether the State may require other or additional licenses. It is the Bidder's and Contractor's responsibility to obtain the correct Contractor's licenses. Bidders shall be skilled and regularly engaged in the general class or type of Work called for under this Contract.

All Bidders and Contractors, including Subcontractors, shall have a current City business license before undertaking any Work.

2-1.05 **NONCOLLUSION DECLARATION.** By submitting a bid, the Bidder represents and warrants that such bid is genuine and not a sham or collusive or made in the interest or on the behalf of any person therein named, and that the Bidder has not, directly or indirectly, included or solicited any other Bidder to put in a sham bid, or any other person, firm, or corporation to refrain from bidding, and that the Bidder has not in any manner sought collusion to secure the Bidder an advantage over any other Bidder.

Bidders shall submit a properly completed and executed "Noncollusion Declaration" in the form required by Public Contract Code Section 7106 and provided with the Proposal (PROP-11).

2-1.06 **DISQUALIFICATION, REMOVAL OR OTHER PREVENTION OF BIDDING.** A bid may be rejected on the basis of a Bidder, any officer of such Bidder, or any

employee of such Bidder who has a proprietary interest in such Bidder, having been disqualified, removed, or otherwise prevented from bidding on, or completing a federal, state, or local project because of a violation of law or a safety regulation.

2-1.07 **PROPOSAL GUARANTY.** All bids shall be accompanied by one of the following forms of Bidder's security: Cash, a cashier's check, a certified check, or a Bidder's bond executed by an admitted California surety insurer, made payable to the City of Roseville, or any other form of security deemed acceptable by the City Attorney. The security shall be in an amount equal to at least ten percent (10%) of the amount bid. A bid will not be considered unless one of the form of Bidder's security is enclosed with it.

A Bidder's bond shall conform to the City's bond form in the Proposal and shall be properly filled out and executed.

2-1.08 **SCHEDULE OF BID PRICES.** Bidders are directed to submit firm unit and lump sum prices for all Work set forth in the Contract Documents on the Proposal Form entitled "Schedule of Bid Prices."

Unit prices and lump sum prices, as indicated, must be entered in the appropriate spaces provided in the Schedule of Bid Prices. If applicable, unit prices shall be multiplied by the quantities shown, and the total shall be inserted in the Amount column. In the event of any error or discrepancy between the unit price and the calculated amount, the unit prices shall govern. The City may correct any mathematical errors apparent on the face of the bid.

The amounts shown in the Amount column must be added together in arriving at the Grand Total Bid Price.

Amounts for Allowance bid items must be entered in the exact amount in the Amount column.

The prices included within the Schedule of Bid Prices shall include all costs for labor, materials, tools, equipment, services, Subcontractors, suppliers, taxes, insurance, shipment, delivery, overhead, profit, and all other costs necessary to perform the Work in accordance with the Contract Documents.

The Grand Total Bid Price shall be indicated in the Summary table form included with the Schedule of Bid Prices. The Grand Total Bid Price shall be the sum of the amounts bid for each of the designated portions of the Work, as more specifically described on the Schedule of Bid Prices form itself.

Full compensation for complying with the Contract Documents, including requirements of the Standard Specifications, the Standard Construction Specifications, Supplemental Conditions, and all warranties, shall be considered included in the bid items and no additional compensation shall be allowed therefor.

Full compensation for completion of all work as shown on the plans, as specified in the Specifications, and as directed by the City, shall be considered included in the bid items and no additional compensation shall be allowed.

Bidders are strongly discouraged from submitting unbalanced bids. As used herein, the term "unbalanced bid" is defined as any bid that does not include a reasonable proportionate allocation of indirect costs and profit of each bid item indicated in the Schedule of Bid Prices. The City reserves the right to reject any unbalanced bid if the City determines that there is a reasonable doubt that an acceptance of the bid will not result in the lowest ultimate cost to the City with regard to the work or a disproportionate distribution of contract funds.

The City reserves the right to delete any bid item in its entirety and/or significantly reduce the quantity of Work under a bid item. The City makes no representation that any Work

under a bid item will be performed during the course of the Project or that the Work will be performed at the quantities included in the Schedule of Bid Prices. As provided in the Standard Construction Specifications, for any deleted Work, Contractor shall not be entitled to payment of the indirect costs and profit included for said bid item. All bid items shall be considered distinct and severable from the remaining bid items, and each Bidder acts at its peril if its bid is unbalanced.

The City shall compare bids on the basis of the Grand Total Bid Price, which includes the base bid and any alternates designated on the Schedule of Bid Prices. Alternates may or may not be awarded, or may be awarded in any combination, at the City's discretion.

2-1.09 **WITHDRAWAL OF PROPOSALS.** Any bid may be withdrawn at any time prior to the time fixed in the Notice to Contractors for the opening of bids, provided that a request in writing, executed by the Bidder or its duly authorized representative, for the withdrawal of such bid is filed with the City Clerk. Facsimile and electronic mail requests are not acceptable. The withdrawal of a bid shall not prejudice the right of a Bidder to file a new bid. The withdrawal of any bid after the time fixed in the Notice to Contractors for the opening of bids will not be permitted.

2-1.10 **ADDENDUM.** Proposals shall include all costs and account for all Addenda issued prior to opening of bids. The Bidder is responsible for verifying that all issued Addenda have been received. An Addendum acknowledgment form for each Addendum shall be included as part of the Proposal submittal.

2-1.11 **PUBLIC OPENING OF PROPOSALS.** Proposals will be publicly opened and read at the time and place indicated in the Notice to Contractors. Bidders or their authorized agents are invited to be present.

2-1.12 **TRENCHING AND EXCAVATION WORK.** In accordance with the provisions of California Labor Code Section 6707, if the Work involves construction of a pipeline, sewer, sewage disposal system, boring or jacking pits, or similar trenches or open excavations, which are five feet (5') or deeper, each bid submitted shall contain, as a bid item, adequate sheeting, shoring, and bracing, or equivalent method, for the protection of life or limb, which shall conform to all applicable safety orders.

SECTION 3: EVALUATION OF BIDS

3-1.01 **BID EVALUATION PROCESS.** Bids will be evaluated to determine the apparent low Bidder. The apparent low Bidder will be determined on the basis of the Grand Total Bid Price, as shown in the Schedule of Bid Prices. If additive or deductive alternates are used in the Schedule of Bid Prices, the apparent low Bidder will be the Bidder with the lowest total of the bid prices for base contract items plus the alternates designated by the City as those that will be used for determining the lowest bid price. However, the City reserves the right to (1) not award any alternates or (2) award any combination of alternates.

In case of discrepancy between the total of the base contract items and any specified alternates and the stated Grand Total Bid Price, the total of the base contract items plus specified alternates shall prevail. Any mathematical errors that appear on the face of the bid will be corrected by the City and the City will use the mathematically corrected addition. For example, if the mathematical total of Bidder's base contract items plus specified alternates equals $1,000,000, but the Bidder has written $1,250,000 as the Grand Total Bid Price, the City will consider $1,000,000 to be the Bidder's Grand Total Bid Price for purposes of comparison to other Bidders and actual bid award. The City reserves its rights to reject or accept bids based on discrepancies between the stated Grand Total Bid Price and the actual mathematical total of the base contract bid items, plus specified alternates.

3-1.02 **REJECTION OF IRREGULAR PROPOSALS.** Proposals may be rejected in the City's sole discretion if they show any alterations of form, additions not called for, conditional bids, incomplete bids, erasures, or irregularities of any kind. However, the City reserves the right to waive any minor irregularities and informalities in any bid or in the bid procedure for any reason.

3-1.03 **COMPETITIVE BIDDING.** If more than one proposal is offered by any individual, firm, partnership, corporation, association, or any combination thereof, under the same or different names, all such proposals may be rejected. A party who has quoted prices on materials or Work to a Bidder is not thereby disqualified from quoting prices to other Bidders, or from submitting a bid directly for the materials or Work.

All Bidders are put on notice that any collusive agreement to control or affect the awarding of this Contract is in violation of the competitive bidding requirements of the City Charter, State Contract Act and the Business and Professions Code and may render void any Contract let under such circumstances.

3-1.04 **RELIEF OF BIDDERS.** If the Bidder claims a mistake was made in its bid, the Bidder shall give the Department written notice within five (5) Days after the opening of the bids of the alleged mistake, specifying in the notice in detail how the mistake occurred. No relief from a claimed mistaken bid shall be granted unless such mistake clearly appears on the face of the bid submitted to the City. Claimed mistakes on backup worksheets, spreadsheets, computerized bidding programs, or any other similar calculative bidding mistake which is not apparent on the face of the bid shall not under any circumstance be considered as a basis for relief. The burden of proving the occurrence of a mistake entitling a Bidder to relief from its bid rests entirely on the Bidder. Relief from bids shall be in the City's sole discretion.

SECTION 4: AWARD AND EXECUTION OF CONTRACT

4-1.01 **AWARD OF CONTRACT.** The City reserves the right to reject any and all proposals and to award (or not award) any combination of bid items at its option. Any such award will be to the lowest responsible Bidder whose proposal complies with the requirements prescribed for the bid items awarded. Such award, if made, will be made within sixty (60) business days after the opening of the proposals. If the lowest responsible Bidder refuses or fails to execute the Contract, or provide an acceptable Performance Bond, Payment Bond, and insurance certificate(s), the City may award the Contract to the second lowest responsible Bidder. Such award, if made, will be made within eighty-two (82) business days after the opening of proposals. If the second lowest responsible Bidder refuses or fails to execute the Contract, or provide an acceptable Performance Bond, Payment Bond, and insurance certificate(s), the City may award the Contract to the third lowest responsible Bidder. Such award, if made, will be made within one hundred four (104) business days after the opening of the proposals. The above time periods within which the award of Contract may be made are subject to extension for such further period as may be agreed upon in writing between the City and the Bidder concerned.

4-1.02 **RETURN OF BIDDER'S SECURITIES.** Within ten (10) Days after the award of the Contract, the City Clerk will return all Bidders' securities, other than Bidders' bonds, accompanying the proposals that are not to be further considered in making the award. Retained Bidders' securities will be held until the Contract has been fully executed, after which all Bidders' securities, except Bidders' bonds and any Bidders' securities that have been forfeited, will be returned.

4-1.03 **CONTRACT BONDS.** The successful Bidder shall furnish two (2) bonds in the form contained in the section entitled Insurance Broker Information Packet and Bonds. One (1) bond shall secure the payment of the claims of laborers, mechanics or materialmen employed on the Work under the Contract, and the other bond shall guarantee the faithful performance of the Contract.

Each of the two (2) bonds shall be in a sum equal to one hundred percent (100%) of the Contract Price. If the Contract Price increases by the issuance of Change Orders, the penal amounts of the bonds required shall increase accordingly. Sureties on each of said bonds shall be satisfactory to the City.

All alterations, extensions of time, extra and additional Work, and other changes authorized by the Standard Specifications, the Standard Construction Specifications, the Supplemental Conditions or any part of the Contract may be made without securing the consent of the surety or sureties on the Contract bonds.

Furthermore, the successful Bidder shall furnish a certificate from the County Clerk as required by California Civil Code of Procedure Section 995.660(a)(3).

4-1.04 **INSURANCE.** At the time of the execution of the Contract, the Contractor shall, at its own expense, procure, and at all times during the prosecution of the Work maintain in full force and effect Worker's Compensation Insurance, and Liability Insurance as specified in the Standard Construction Specifications. The Contractor shall provide a Certificate of Insurance in the form contained in the section entitled Insurance Broker Information Packet.

4-1.05 **EXECUTION OF CONTRACT.** The Contract shall be signed by the successful Bidder and returned, together with all the required Contract bonds and insurance

certificates, within fifteen (15) Days after the Contract has been awarded, or as otherwise directed, in writing, by the City.

If the Bidder is an individual, the Contract shall be executed personally by the Bidder. If the Bidder is a partnership, it is desirable that the Contract be executed by all of the partners, but it may be executed by one of them. If the Bidder is a corporation, it must be executed by two officers of the corporation consisting of (1) the chairman of the board, president or vice president; and (2) the secretary, assistant secretary, chief financial officer, treasurer or assistant treasurer, or by a person authorized by the corporation to execute written contracts on its behalf, and the corporate seal affixed thereto. In the alternative, a person other than an officer may sign the Contract, provided evidence satisfactory to the City is provided indicating the individual's authority to bind the corporation. If the corporate seal is not affixed to the Contract, or if it is executed by a person other than officers, or only by one officer, there must be attached to the Contract a certified copy of a resolution of the corporation authorizing such officer or person to execute written contracts for and on behalf of the corporation. If the Bidder is a joint venture, the Contract must be executed on behalf of each participating firm by officers or other individuals who have the full and proper authorization to do so.

4-1.06 **FAILURE TO EXECUTE CONTRACT.** Failure of the lowest responsible Bidder, the second lowest responsible Bidder, or the third lowest responsible Bidder to execute the Contract and file acceptable bonds and insurance as provided within fifteen (15) Days after the Contract has been awarded, or as otherwise directed, in writing, by the City, shall be just cause for annulment of the award and forfeiture of the Bidder's security. The successful Bidder may file with the City Clerk a written notice, signed by the Bidder or Bidder's authorized representative, specifying that the Bidder will refuse to execute the Contract if presented to

Bidder. The filing of such notice shall have the same force and effect as the failure of the Bidder to execute the Contract and furnish acceptable bonds within the time prescribed.

SECTION 5: BID PROTEST PROCEDURES

5-1.01 **POLICY/PROCEDURES.** It is the policy of the City to consider fully and adjudicate promptly protests filed by prospective Bidders relating to the City's bidding procedure or award of the Contract. Protests shall be filed and processed in accordance with Section 4.12.150 of the Roseville Municipal Code. A Bidder's failure to follow the bid protest procedures may result in rejection of the protest by the City.

III
PROPOSAL

PROPOSAL TO THE DEPARTMENT OF Public Works

Project: Dry Creek Greenway East Phase 1 Fence and Landscaping Project

Name of Bidder _____ Business Phone _____

Business Address _____

Place of Business _____

Contractor's License No. _____

License Expiration Date_____

License Classification Type _____

DIR Registration No. _____

Type of business organization: _____

*If a Corporation, incorporated under the laws of the State of: _____

The undersigned Bidder herewith submits this Proposal and binds itself on award by the City of Roseville under this bid to execute a Contract in accordance with its bid and the Contract Documents.

The Notice to Contractors, Instructions to Bidders, Form of Agreement, Standard Specifications, Standard Construction Specifications, Supplemental Conditions, Contract Drawings, and Addenda, if any, are made part of this bid and all provisions thereof are hereby accepted, and all representations and warranties are required thereby are hereby affirmed.

The work to be done is described in the Bidding Documents entitled _____ _____, City of Roseville, California. This offer shall be irrevocable for a period of sixty (60) Days after the date on which bids are opened.

The undersigned Bidder understands that any clarification made to the above or any new and different conditions or information submitted on or with its Proposal, other than that requested, may render the bid non-responsive.

The undersigned, as Bidder, declares that the only persons or parties interested in this Proposal as principals are those named herein; that this Proposal is made without collusion with any other person, firm, or corporation; that the Bidder has carefully examined the location of the proposed Work, the attached Form of Agreement, and the plans, Specifications, and other Contract Documents; and agrees if this Proposal is accepted, that it will contract with the City of Roseville, in the form of a copy of the Agreement contained in the Project Manual, to provide all necessary machinery, tools, apparatus and other means of construction, and to do all the work and furnish all the materials specified in the Contract Documents, in the manner and time therein prescribed, and according to the requirements of the Director, as therein set forth, and that the Bidder will take in full payment therefore prices indicated in the Schedule of Bid Items, including all work modified by addendum numbers _____. (IF NONE, STATE NONE).

Bids are required for all Bid Items. The amount of the Bid for comparison purposes will be the total of all items awarded.

The Bidder shall set forth for each item of work, in clearly legible figures, an item ("unit") price and a total for the item in the respective spaces provided for this purpose in the Schedule of Bid Items.

The prices included within the Schedule of Bid Items include all costs for labor, materials, tools, equipment, services, Subcontractors, suppliers, taxes, insurance, shipment,

delivery, overhead, profit, and for all other costs necessary to perform the Work in accordance with the Contract Documents.

Accompanying this Proposal is _____.

(Notice: Insert the words "Cash $_____," "Cashier's Check," "Certified Check," or "Bidder's Bond," as the case may be, in an amount equal to at least ten percent (10%) of the total of the Bid.)

NONCOLLUSION DECLARATION TO BE EXECUTED BY
BIDDER AND SUBMITTED WITH BID

The undersigned declares:

I am the _____ of _____, the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The Bidder has not directly or indirectly induced or solicited any other Bidder to put in a false or sham bid. The Bidder has not directly or indirectly colluded, conspired, connived, or agreed with any Bidder or anyone else to put in a sham bid, or to refrain from bidding. The Bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the Bidder or any other Bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other Bidder. All statements contained in the bid are true. The Bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, bid depository, or to any member or agent thereof, to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a Bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the Bidder.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on _____ [date], at _____ [city], _____ [state].

_____

END OF PROPOSAL

IV
AGREEMENT

A G R E E M E N T

THIS AGREEMENT, is made and entered into this _____day of _____, 20_____, by and between the City of Roseville, a municipal corporation, ("CITY"), and _____, a _____, ("CONTRACTOR"); and

W I T N E S S E T H:

WHEREAS, the City Council of the CITY, at a meeting held on the _____day of _____, 20_____, approved plans and specifications for the _____ _____

and directed the City Clerk to advertise for sealed proposals for doing said work and providing that bids be submitted on the _____ day of _____, 20_____; and

WHEREAS, the City Clerk, thereafter duly and regularly caused a notice to be published in the manner and for the time prescribed by law; and

WHEREAS, CONTRACTOR, pursuant to the provisions of said notice duly filed a bid with the City Clerk, a true copy of which bid is now on file in the office of the City Clerk, and is hereby referred to and by this reference made a part hereof as fully as if set forth at length herein; and

WHEREAS, all bids received pursuant to said notice were opened and examined and publicly declared at the time specified in said advertisement for bids and at a meeting of the City Council held on the _____ day of _____, 20_____, the Council found and

declared the bid of CONTRACTOR to be the lowest responsible bid and thereupon awarded a contract to CONTRACTOR to do the work referred to in the aforementioned specifications.

NOW, THEREFORE, the parties agree as follows:

1. THE WORK. CONTRACTOR agrees:

a. To do the work and furnish all the labor, materials, tools, supplies, equipment, superintendence, insurance, and bonds required for the _____

_____

in accordance with the Contract Documents (the Work).

b. To do and perform the Work contemplated hereby in a good and workmanlike manner under the direction of and to the satisfaction of the Director of Public Works of the City of Roseville.

2. PAYMENT. CITY shall pay CONTRACTOR _____

_____ dollars ($_____) for the Work to be done under this Agreement in accordance with the Contract Documents.

3. CONTRACT DOCUMENTS. The complete Agreement between the parties hereto consists of the following documents:

a. The advertisement for bids (including the notice to bidders, instructions to bidders and proposals);

b. The accepted bid;

c. Plans and specifications (including standard construction specifications, special provisions and construction details);

d. Bonds and insurance required by the specifications; and

e. This contract.

All documents specified above are intended to operate so that any work called for in any one and not mentioned in the other, or vice versa, is to be executed the same as if mentioned in all said documents.

4. LIQUIDATED DAMAGES. In the event CONTRACTOR does not complete the Work within the time specified, CONTRACTOR agrees that CITY will suffer damages. Inasmuch as the actual damages which would result from such breach by CONTRACTOR under this Agreement are uncertain, and would be impractical or extremely difficult to fix, CONTRACTOR agrees that it shall pay, or CITY shall deduct from CONTRACTOR's fee, the amount of $_____ per day as liquidated damages, in the event of such delay.

5. TIME OF COMPLETION. Time is of the essence of this Agreement. CONTRACTOR shall complete all Work under the Contract Documents within _____ Days of the date of this Contract. CONTRACTOR shall begin work by the date specified in the "Notice to Proceed" letter and shall diligently prosecute all of the Work under this Contract in all parts and requirements as defined in the Contract Documents.

6. SERVICE OF NOTICE. Any notice required or permitted to be given under this Agreement shall be deemed given when (a) personally delivered to the recipient identified below; (b) mailed by registered or certified mail, return receipt requested, postage pre-paid, to the address specified below; or (c) sent by facsimile, with confirmation of receipt, to the facsimile number identified below.

CITY OF ROSEVILLE	CONTRACTOR
_____	_____
_____	_____
_____	_____
_____	_____

CITY may also act through either its architect or construction manager if CITY expressly gives notice to CONTRACTOR, in writing, that CITY's designee has authority to act for CITY in a specific capacity.

7. DISPUTES. Disputes arising from this Agreement will be determined in accordance with the Contract Documents and Public Contract Code Sections 10240-10240.13.

8. GOVERNING LAW. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

9. INDEPENDENT CONTRACTOR. CONTRACTOR shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

10. SUCCESSORS IN INTEREST. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

11. MODIFICATION. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

12. SEVERABILITY. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

13. INTEGRATED AGREEMENT. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

14. CONTRACTORS LICENSE LAW. CONTRACTORS ARE REQUIRED BY LAW TO BE LICENSED AND REGULATED BY THE CONTRACTORS' STATE LICENSE

BOARD WHICH HAS JURISDICTION TO INVESTIGATE COMPLAINTS AGAINST CONTRACTORS IF A COMPLAINT REGARDING A PATENT ACT OR OMISSION IS FILED WITHIN FOUR (4) YEARS OF THE DATE OF THE ALLEGED VIOLATION. A COMPLAINT REGARDING A LATENT ACT OR OMISISON PERTAINING TO STRUCUTRAL DEFECTS MUST BE FILED WITHIN TEN (10) YEARS OF THE DATE OF THE ALLEGED VIOLATION. ANY QUESTIONS CONCERNING A CONTRACTOR MAY BE REFERRED TO THE REGISTRAR, CONTRACTORS' STATE LICENSE BOARD, P.O. BOX 26000, SACRAMENTO, CALIFORNIA 95826.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. _____, adopted by the Council of the City of Roseville on the _____day of _____, 20_____, and CONTRACTOR has caused this Agreement to be duly executed.

INSURANCE BROKER INFORMATION PACKET

INSURANCE BROKER INFORMATION PACKET

Project: Dry Creek Greenway East Phase 1 Fence and Landscaping Project

NOTICE TO CONTRACTOR:

For your convenience, this package contains the Requirements for Insurance and Bonds for this project, including the necessary City forms. You are required to return these forms in addition to the executed Contract within fifteen (15) calendar days after the award of the Bid, unless otherwise directed by City in writing. (See the Instructions to Bidders.)

Please insert the dollar amount of your accepted Bid into the blank on page INS-1 and present this entire package to your insurance broker if you are awarded the Bid.

Public Works Payment Bond	INS 9

NOTICE TO INSURANCE BROKER

Your client has been awarded a bid by the City Council of the City of Roseville to perform a public works project known as _____. The Contract Conditions for that project require your client ("the Contractor") to return certain evidence of insurance and bonds to the City Attorney of the City within fifteen (15) days after the Bid award, unless otherwise directed by the City in writing, or else the Bid award may be terminated and awarded to another company.

This package contains the information you will need as an insurance broker to provide the appropriate insurance and bonds to the City. The insurance coverages the Contractor needs are specified in the section entitled "Insurance Requirements." Please note that, in addition to the insurance certificate itself, copies of several endorsements must be actually furnished.

Please refer to Special Provisions for modifications of the Standard Construction Specifications, if any, and the requirements of this insurance packet.

Please use the standard City of Roseville Bond Forms provided in this package.

The Bonds required must each be in the penal amount of: $_____.

Bonds must be sent to the following staff person:

_____

_____

_____

Insurance documents must be provided using one of the following methods:

a. By email to roseville@ebix.com and riskmanagement@roseville.ca.us

b. By fax to (770) 335-5727 and (916) 774-5461

After using one of these methods, please **DO NOT** send the insurance certificate(s) by mail.

When forwarding the documents, please refer to the project name so that the documents can be matched with the Contract for which they are submitted.

Thank you.

INSURANCE REQUIREMENTS

The following sections are quoted from the Standard Construction Specifications:

7-1.06 **INSURANCE COVERAGE.**

A. Evidence of Maintenance Required. The Contractor shall, at its expense, procure and at all times maintain in full force and effect at a minimum the insurance required by this section on all of its operations; and the Contractor shall not allow any Subcontractor to commence work until similar insurance required of the Subcontractor has been obtained and filed. An original Certificate of Insurance, and copies of all required endorsements, all in a form approved by the Risk Manager, evidencing all required coverage or policies shall be filed after the award of the bid and prior to approval of the Contract by the City Council. Contractor shall provide ten (10) days prior written notice to the City of any reduction of coverage limits or cancellation of the coverage or policies shall be given to the City of Roseville as Certificate holder.

B. Qualifying Insurers. With the exception of the State Compensation Insurance Fund, all required insurance policies shall be issued by companies acceptable to the City and licensed to do business in the State of California and who hold a current policy holders alphabetic and financial size category rating of not less than AVII according to the most recent issue of Best's Insurance Reports.

C. Insurance Required.

1. **Commercial General Liability (CGL):** Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations with limits of no less than Two Million Dollars ($2,000,000) per occurrence for bodily injury, personal injury and property damage for projects under One Million Dollars ($1,000,000) and

limits of no less than Five Million Dollars ($5,000,000) per occurrence for bodily injury, personal injury and property damage for projects over One Million Dollars ($1,000,000). If a general aggregate limit applies, either the aggregate limit shall apply separately to this project or the general aggregate limit shall be twice the required occurrence limit.

The Commercial General Liability insurance shall include the following, copies of which shall be provided:

a. Inclusion of the City of Roseville, and its officers, agents, employees, and volunteers, as additional insureds (except for workers' compensation) as respects services or operations under the Contract. The additional insured endorsement for the general liability policy shall be at least as broad as the ISO CG 2010 10 01 combined with ISO CGL Endorsement CG 2037 10 01. Any other endorsement must be approved in writing by the City. Endorsements must include coverage for on-going and completed operations, which coverage shall be maintained for four (4) years following completion of the Project. Endorsements shall cover the City of Roseville, its officers, agents, employees, and volunteers.

b. The insurance shall provide coverage for claims by one insured against another insured and the policies shall not contain any cross-suits exclusions, cross-liability exclusions, or insured versus insured exclusions. The policies shall not contain any classification exclusions purporting to deny coverage for any work to be performed by Contractor or any of its Subcontractors.

c. Stipulation that the insurance is primary and noncontributory, as evidenced by a separate endorsement (CG 20 01 04 13 or an equivalent) or section of the policy, and that neither the City nor its insurers will be called upon to contribute to a loss.

d. Such insurance shall specifically cover the contractual liability of the Contractor.

e. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

f. Waiver of subrogation endorsement.

g. The Contractor shall furnish a certificate for the period covered.

2. **Automobile Liability:** Insurance Services Office Form Number CA 0001 covering Code 1 (any auto), or if Contractor has no owned autos, Code 8 (hired) and Code 9 (non-owned), with limits of no less than One Million Dollars ($1,000,000) per accident for bodily injury and property damage.

3. **Workers' Compensation:** In accordance with the provisions of the California Labor Code, Contractor is required to be insured against liability for Workers' Compensation or to undertake self-insurance. Statutory Workers' Compensation and Employers' Liability of at least One Million Dollars ($1,000,000) shall cover all Contractors staff while performing any work incidental to the performance or this Agreement.

4. **Professional Liability:** Professional Liability (Errors and Omission) Insurance appropriate to Contractor's profession, with a limit of liability not less than One Million Dollars ($1,000,000) per occurrence or claim and Two Million Dollars ($2,000,000) aggregate to cover all design and engineering services rendered by Contractor pursuant to the

Agreement. Coverage must commence from the first day that Contractor or any of its Subcontractors provided any design or engineering services in connection with the Project.

5. **Builder's Risk/Course of Construction Insurance Is ____ OR Is Not ____ Required by Risk Management:** The Contractor shall be responsible for all loss, damage or destruction whatsoever to the work called for by this Contract until the approval of a Notice of Completion or acceptance of the Work if no Notice of Completion is to be recorded.

The Contractor shall secure "All Risk" type of builder's Risk Insurance of the type covering one hundred percent (100%) of the value of the work performed under this Contract (the value is presumed to be the Contract amount unless otherwise stated in Supplemental Conditions) and all materials, equipment, or other items to be incorporated therein while the same are located at the construction site, a bonded warehouse, or its place of manufacture. At any time, the policy shall cover the value of the work completed. The policy shall cover hazards including the losses due to fire, explosion, hail, rain, lightning, flood (separate insurance as needed), vandalism, malicious mischief, wind, collapse, aircraft, and smoke.

The policies providing such insurance shall name the City as a loss payee as its respective interests may appear, and certified copies of such policies shall be filed with the City. The maximum deductible allowable under the Builder's All Risk policy shall be five percent (5%) of the Contract amount.

Builder's Risk Insurance is not required for coverage of losses in excess of five percent (5%) of the Contract amount for damages resulting from earthquake in excess of a magnitude of 3.5 on the Richter scale, or tidal waves. Coverage in the amount of five percent (5%) of the Contract amount for such losses is required.

6. **Pollution Coverage:** Contractor shall procure pollution liability coverage or other insurance covering claims for bodily injury or property damage arising out of the abatement, removal, storage, transportation, or other exposure to hazardous materials or pollutants, in limits not less than Two Million Dollars ($2,000,000). Contractor shall add the City and all parties required to be indemnified by Contractor as additional insured on all pollution liability policies.

7. **Higher Coverage Limits:** If Contractor maintains higher coverage limits than the amounts shown above, then the City requires and shall be entitled to coverage for the higher coverage limits maintained by Contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City.

8. **Claims Made Coverage:** Liability insurance coverage may not be written on a "claims made" or modified occurrence basis. The Certificate of Insurance must clearly provide that the coverage is on an "occurrence" basis.

7-1.06A **OTHER INSURANCE PROVISIONS.**

A. The requirements of the Standard Specifications as to types and limits of insurance coverage to be maintained by the Contractor, and any approval of insurance by the City, are not intended to, and shall not in any manner limit or qualify the liabilities and obligations otherwise assumed by the Contractor pursuant to the Contract, including, but not limited to, the provisions concerning indemnification, nor preclude the City from taking any other action available to it under any other provision of the Contract or law.

B. The City acknowledges that some insurance requirements contained in these Standard Specifications may be fulfilled by self-insurance on the part of the Contractor. However, this shall not in any way limit liabilities assumed by Contractor under the Contract.

Any self-insurance must be approved in writing by the City, in its sole discretion and shall not reduce the limits of liability. Any deductibles or self-insured retentions ("SIR") must be declared on the certificate of insurance and approved by City in writing. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

C. The Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Contract, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, the Contractor shall require its subcontractors to agree to be bound to the Contractor and the City in the same manner and to the same extent as the Contractor is bound to the City under this Contract. Additionally, the Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of the City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request. Alternatively, the Contractor may insure subcontractor(s) under its own policy.

D. The City, its officers, agents, employees, and volunteers are to be covered as insureds with respect to liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor; and with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts or equipment furnished in connection with such work or operations. Coverage shall not extend to any indemnity coverage

for the active negligence of the additional insured in any case where an agreement to indemnify the additional insured would be invalid under California Insurance Code Section 11580.04.

E. The limits of insurance required in this Contract may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the City (if agreed to in a written contract) before the City's own insurance shall be called upon to protect it as a named insured.

F. The insurance procured by Contractor shall be subject to the approval of the City, but any acceptance of insurance certificates by the City shall in no way limit or relieve Contractor of its duties and responsibilities under the Agreement.

G. Contractor shall be responsible for all premiums, deductibles, and self-insured retention applicable to the insurance it is required to procure under the Contract. All deductibles or self-insured retentions over five hundred thousand dollars ($500,000) must be approved by the City, in writing. Contractor shall be responsible for all deductibles, self-insured retention payments, and/or increased premiums incurred if the City's policies of insurance are forced to cover damages or respond to claims for which Contractor or its Subcontractors were obligated to provide insurance under the Contract.

H. Failure of the City to enforce in a timely manner any of the requirements of these insurance provisions shall not act as a waiver to enforcement of any of these provisions at a later date.

I. Contractor's indemnity obligations shall not be limited by these insurance provisions and shall survive the expiration of the Contract and the insurance provisions of the Contract shall likewise not be limited by the indemnity provisions of the Contract.

J. THE CITY RESERVES THE RIGHT TO WITHHOLD ANY PROGRESS PAYMENTS TO THE CONTRACTOR IN THE EVENT OF NONCOMPLIANCE WITH ANY INSURANCE REQUIREMENTS.

PUBLIC WORKS
FAITHFUL PERFORMANCE BOND

(Project: Dry Creek Greenway East Phase 1 Fence and Landscaping Project)

WHEREAS, the City of Roseville ("CITY") has awarded a bid and contract to _____ as contractor ("PRINCIPAL") for the public work described as _____ _____ (the "WORK"). The contract ("AGREEMENT"), for the public work described above, and all of its terms and conditions are incorporated by reference and made a part hereof; and

WHEREAS, the PRINCIPAL is required to furnish a bond in connection with the AGREEMENT guaranteeing its faithful performance; and

NOW, THEREFORE, we the undersigned PRINCIPAL and _____ _____, a _____, admitted and duly authorized to transact business under the laws of the State of California, as SURETY ("SURETY"), are held and firmly bound unto the CITY or its successors and assigns in the sum of _____ dollars ($_____) (which amount is not less than 100% of the AGREEMENT price) to be paid to the CITY or its successors and assigns; and for which payment, well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors or assigns jointly and severally, firmly by these presents.

The condition of this obligation is such that if the PRINCIPAL, or its heirs, executors, administrators, successors or assigns, shall abide by, and in all respects promptly and faithfully perform the covenants, conditions and provisions in said AGREEMENT and any alteration thereof made as therein provided, notice of which alterations to Surety being hereby waived, on its part to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless CITY, its officers, agents, employees, volunteers as therein stipulated, then this obligation shall be null and void; otherwise, this obligation shall be and remain in full force and effect.

As condition precedent to the satisfactory completion of the contract, the obligation of the PRINCIPAL and SURETY under this Bond shall remain in effect for a period of one (1) year after the completion and acceptance of the WORK. During that time, if the PRINCIPAL, its heirs, executors, administrators, successors or assigns fails to make full, complete and satisfactory repair and replacement or totally protect the CITY from any loss or damage made evident during that year which results from or is caused by either defective materials or faulty workmanship in the prosecution of the WORK, then the obligation shall remain in full force and effect. However, anything in

this paragraph to the contrary notwithstanding, the obligation of the SURETY shall continue so long as any obligation of the PRINCIPAL remains.

No prepayment or delay in payments, and no change, extension, addition or alteration of any provision of the AGREEMENT or in the specifications agreed to between the PRINCIPAL and the CITY, or any forbearance on the part of the CITY shall operate to relieve the SURETY. The SURETY hereby waives the provisions of Section 2819 of the California Civil Code. The SURETY waives all rights of subrogation against the CITY or any person employed by the CITY. If the contract price increases by the issuance of change orders, the amount specified in this bond shall increase by the same amount.

Whenever PRINCIPAL shall be and declared by CITY to be in default under the AGREEMENT, SURETY shall promptly remedy the default, or shall promptly do one of the follow at CITY's election:

1. Undertake through its agents or independent contractors, reasonably acceptable to CITY, to complete the AGREEMENT in accordance with its terms and conditions and to pay and perform all obligations of PRINCIPAL under the AGREEMENT, including without limitation, all obligations with respect to warranties, guarantees, and the payment of liquidated damages.

2. Reimburse CITY for all costs CITY incurs in completing the AGREEMENT, and in correcting, repairing or replacing defects in materials or workmanship and/or materials and workmanship which do not conform to the specifications in the AGREEMENT.

SURETY's obligations hereunder are independent of the obligations of any other surety for the performance of the AGREEMENT, and suit may be brought against SURETY and such other sureties, jointly and severally, or against any one or more of them, or against less than all of them without impairing CITY's rights against the others.

No right of action shall accrue on this bond to or for the use of any person or corporation other than CITY or its successors or assigns.

As part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by CITY in successfully enforcing such obligation, all to be taxed as costs and included in any judgment rendered.

[SIGNATURES NEXT PAGE]

IN WITNESS WHEREOF, this instrument has been duly executed by the PRINCIPAL and SURETY above-named, on the ____ day of _____, 20___.

PUBLIC WORKS
LABOR AND MATERIALS PAYMENT BOND

(Project: Dry Creek Greenway East Phase 1 Fence and Landscaping Project)

WHEREAS, the City of Roseville ("CITY"), has awarded a bid and contract to _____ as contractor ("PRINCIPAL"), for the public work described as _____ _____ (the "WORK"). The contract ("AGREEMENT"), for the public work described above, and all of its terms and conditions are incorporated by reference and made a part hereof; and

WHEREAS, the PRINCIPAL is required to furnish a bond in connection with the AGREEMENT guaranteeing payment of persons who provide labor and material; and

NOW, THEREFORE, we the undersigned PRINCIPAL and _____ _____, a _____, admitted and duly authorized to transact business under the laws of the State of California, as SURETY ("SURETY"), are held and firmly bound unto the CITY or its successors and assigns in the sum of _____ dollars ($_____) (which amount is not less than 100% of the AGREEMENT price) to be paid to the CITY or its successors and assigns; and for which payment, well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors or assigns jointly and severally, firmly by these presents.

The condition of the obligation is such that if the PRINCIPAL, its subcontractors, heirs, executors, administrators, successors or assigns fails to pay any of the persons named in Section 8004 or 9100 of the Civil Code of the State of California, or the amounts due under the Unemployment Insurance Code of the State of California, or any amounts required to be deducted, withheld and paid over to the Employment Development Department from the wages of employees of the PRINCIPAL and its subcontractors pursuant to Section 13020 of the Unemployment Insurance Code, with respect to work or labor performed by any such claimant, that the SURETY will pay for the same, in an amount not exceeding the sum specified in this bond, and also, in case suit is brought upon the bond, shall pay reasonable attorneys' fees, to be fixed by the Court.

This bond shall inure to the benefit of any and all persons, companies, and corporations entitled to file a Stop Payment Notice pursuant to the provisions of Section 9350 et seq. of the Civil Code of the State of California, so as to give a right of action to them or their assigns in any suit brought upon this bond.

No prepayment or delay in payments, and no change, extension, addition or alteration of any provision of the AGREEMENT or in the specifications agreed to between the PRINCIPAL and the CITY, or any forbearance on the part of the CITY shall operate to relieve the SURETY. The SURETY hereby waives the provisions of Section 2819 of the California Civil Code. The SURETY waives all rights of subrogation against the CITY or any person employed by the CITY. If the contract price increases by the issuance of change orders, the amount specified in this bond shall increase by the same amount.

As part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by CITY in successfully enforcing such obligation, all to be taxed as costs and included in any judgment rendered.

ADOPTION OF STATE SPECIFICATIONS

1. The State of California Department of Transportation ("Caltrans") Standard Specifications dated 2015, are hereby adopted as the Standard Specifications of the City of Roseville except insofar as they may be modified by these Standard Construction Specifications.

2. Except for Division 1, Section 2, numbering in these Standard Construction Specifications conforms to that in the Caltrans Standard Specifications. The existence of a section in these Standard Construction Specifications means that the corresponding section of the Standard Specifications is modified in some respect. Unless otherwise specified, the modified Standard Specification provisions are deleted entirely, and the provisions of these Standard Construction Specifications are substituted.

DIVISION 1. GENERAL PROVISIONS

SECTION 1. GENERAL

ACCEPTANCE. Shall mean the formal Acceptance by resolution of the Roseville City Council of an entire Contract which has been completed in all respects in accordance with the Plans and specifications and any modifications thereof previously approved, causing a notice of completion to be filed with the County Recorder.

ATTORNEY GENERAL. The City Attorney of the City of Roseville.

CITY ATTORNEY. The City Attorney of the City of Roseville.

CITY CLERK. Shall mean the City Clerk of the City of Roseville.

DEPARTMENT. Shall mean the Department of Public Works of the City of Roseville, also referred to as the Department of Contract Administration. References made to the Department of Transportation otherwise shall mean the State of California Department of Transportation.

DIRECTOR. Shall mean the Public Works Director of the City of Roseville or his or her duly authorized representative.

ENGINEER. Shall mean the Public Works Director of the City of Roseville or his or her duly authorized representative.

ESTIMATED COST. The estimate prepared by the Public Works Director of quantities of work to be performed.

LIQUIDATED DAMAGE. The amount to be deducted from payments due or to become due to the Contractor for delay, as set forth in the Special Provisions.

PLANS. The official Project Plans, Standard Plans, Improvement Plans, Construction Standards, profiles, typical cross sections, general cross sections, working drawings, and supplemental drawings, or reproductions thereof, approved by the Director which show the location, character, dimensions and details of the work to be performed. All such documents are to be considered as a part of the Plans whether or not reproduced in the Special Provisions.

In the above definition, the following terms are defined as follows:

a. Standard Plans - The Standard Plans of the Department of Transportation of the State of California.

b. Project Plans - The Project Plans are specific details and dimension peculiar to the Work and supplemented by the Standard Plans, insofar as the same may apply.

c. Construction Standards - The City of Roseville Design and Construction Standards.

STATE. Reference to the State or State of California shall mean City or City of Roseville unless the reference is to a law or regulation of the State, and reference to Sacramento shall mean Roseville unless otherwise noted.

SECTION 2. BIDDING

SECTION 2 SHALL BE DELETED IN ITS ENTIRETY AND REPLACED WITH THE FOLLOWING:

2-1.01 **PROPOSAL FORMS.** The Department will furnish to each Bidder a standard proposal form, which, when filled out and executed shall be submitted as its bid. Bids not presented on forms so furnished will be disregarded.

The proposal form is bound in a book together with the Notice to Contractors, special provisions, and Contract. The proposal shall set forth for each item of work, in clearly legible figures and words, an item price and a total for the item in the respective spaces provided, and shall be signed by the Bidder, who shall fill out all blanks in the proposal form as required therein.

All items shown on the schedule of bid items shall be properly filled in and shall include all costs of labor, materials, equipment, and State, Federal, or other taxes applicable to the transaction. The completed forms shall be without inter-lineations, erasures or alterations of any nature. If the proposal is made by an individual, his or her name and post office address must be shown; if made by a firm or partnership, the name and post office address of each member of the

firm or partnership must be shown; or if made by a corporation, the proposal shall show the name of the State under the laws of which the corporation was chartered and the names, titles, and business addresses of the president, secretary, and treasurer of said corporation. If the proposal is signed by an agent, a "Power of Attorney" must be filed with the proposal.

The proposal shall be submitted as directed in the "Notice to Contractors" under sealed cover plainly marked as a proposal, and identifying the project to which the proposal relates and the time and date of the bid opening therefor. Proposals which are not properly marked may be disregarded. Proposal forms shall be obtained from the Director of Public Works, City of Roseville, California. Proposal forms are not transferable.

2-1.02 **REJECTION OF PROPOSALS AND DISQUALIFICATION OF BIDDERS.** Proposals may be rejected if they show any alterations of the forms, additions not called for, conditional bids, incomplete bids, erasures or irregularities of any kind. More than one proposal from an individual, firm, partnership, corporation or association under the same or different names, will not be considered. Reasonable grounds for believing that any Bidder is interested in more than one (1) proposal for the work contemplated, will cause the rejection of all proposals in which the Bidder is interested. The City reserves the right to reject any and all proposals.

2-1.03 **PROPOSAL GUARANTY.** All bids shall be presented under sealed cover and accompanied by one (1) of the following forms of Bidder's security.

a. Cash, a cashier's check, a certified check, or a Bidder's bond executed by an admitted California surety insurer, made payable to the City.

b. The security shall be in an amount equal to at least ten percent (10%) of the bid amount. A bid will not be considered unless one (1) of the forms of Bidder's security is enclosed with it.

c. A Bidder's bond will not be accepted unless it conforms to a bond form approved by the City Attorney. Upon request "Bidder's Bond" forms may be obtained from the Department.

2-1.04 **WITHDRAWAL OF PROPOSALS.** Any bid may be withdrawn at any time prior to the time fixed in the public notice for the deadline submission of bids only by written request for the withdrawal of the bid filed with the Director. The request shall be executed by the Bidder or his or her duly authorized representative. The withdrawal of a bid does not prejudice the right of the Bidder to file a new bid. Whether or not bids are opened exactly at the time fixed in the public notice for opening bids, a bid will not be received after the deadline for submission of bids nor may any bid be withdrawn after the time fixed in the public notice for deadline for submission of bids. Immediately following the deadline for submission of bids all bids shall become the property of the City of Roseville and City is under no obligation to return the bids.

2-1.05 **RELIEF OF BIDDERS.** If the Bidder claims a mistake was made in his or her bid, the Bidder shall give the Department written notice within five (5) calendar days after the opening of the bids of the alleged mistake, specifying in the notice in detail how the mistake occurred. No relief from a claimed mistaken bid shall be granted unless such mistake clearly appears on the face of the bid submitted to the City. Claimed mistakes on backup worksheets, spreadsheets, computerized bidding programs, or any other similar calculative bidding mistake which is not apparent on the face of the bid shall not under any circumstance be considered as a

basis for relief. The burden of proving the occurrence of a mistake entitling a Bidder to relief from its bid rests entirely on the Bidder. Relief from bids shall be in the City's sole discretion.

2-1.06 **PREVIOUS DISQUALIFICATION, REMOVAL OR OTHER PREVENTION OF BIDDING.** A bid may be rejected on the basis of a Bidder, any officer of such Bidder, or any employee of such Bidder who has a proprietary interest in such Bidder, having been disqualified, removed, or otherwise prevented from bidding on, or completing a Federal, State, or local project because of a violation of law or a safety regulation.

2-1.07 **COMPETENCY OF BIDDERS.** If two (2) or more prospective Bidders desire to bid jointly as a joint venture on a single project, they must file an affidavit of joint venture with the Bid on a form approved by the City Attorney, and such affidavit of joint venture will be valid only for the specific project for which it is filed. If such affidavit of joint venture is not filed as aforesaid and approved by the City Attorney prior to the time for awarding bids on the specific project for which it is submitted, a joint bid submitted by said Bidders will be disregarded. No bid will be accepted from or a Contract awarded to any Bidder to whom a proposal form has not been issued pursuant to Section 2-1.06.

2-1.08 **GUARANTY AND WARRANTY.** The Contractor shall guarantee and warrant all materials supplied as being fit for the purpose intended. The Contractor shall guarantee and warrant all work performed as having been accomplished in a proper and workman-like manner. The guarantee and warranty required by this section shall continue for a period of one (1) year after Acceptance of the Work.

Should any failure of the work occur within a period of one (1) year, after Acceptance of the project by the City Council due to faulty materials, poor workmanship, or defective equipment, the Contractor shall promptly make the needed repairs at his or her expense.

The City is hereby authorized to make such repairs if the Contractor fails to make or undertake with due diligence the aforesaid repairs within ten (10) calendar days after being given written notice of such failure; provided, however, that in case of emergency where in the opinion of the Engineer, providing a reasonable attempt has been made to notify the Contractor, delay would cause serious loss or damages, or a serious hazard to the public, the repairs may be made or lights, signs, and barricades erected without prior notice to the Contractor, and the Contractor shall pay the entire cost thereof. At the completion of the work the faithful performance bond may be reduced at the discretion of the City Council to not less than ten percent (10%) of the Contract price to cover said guarantee.

Additional guarantees or warranties may be required by the Special Provisions.

SECTION 3. CONTRACT AWARD AND EXECUTION

3-1.04 **CONTRACT AWARD.** The right is reserved to reject any and all proposals. The award of the Contract, if it be awarded, will be to the lowest responsible Bidder whose proposal complies with all the requirements prescribed. Such award, if made, will be made within sixty (60) business days after the public opening of the proposals. If the lowest responsible Bidder refuses or fails to execute the Contract, the Roseville City Council may award the Contract to the second lowest responsible Bidder. Such award, if made, will be made within eighty-two (82) business days after the public opening of proposals. If the second lowest responsible Bidder refuses or fails to execute the Contract, the City may award the Contract to the third lowest responsible Bidder. Such award, if made, will be made within one hundred and four (104) business days after public opening of the proposals. The above time periods within

which the award of Contract may be made are subject to extension for such further period as may be agreed upon in writing between the City and the Bidder concerned.

All bids will be compared on the basis of the Director's estimate of the quantities of work to be done.

3-1.05 **CONTRACT BONDS.** The successful Bidder, simultaneously with the execution of the Contract, will be required to furnish a payment bond in an amount equal to one hundred percent (100%) of the Contract price, and a faithful performance bond in an amount equal to one hundred percent (100%) of the Contract price; said bonds shall be in a form approved by the City Attorney and shall be secured by a surety company satisfactory to the City Attorney. If the Contract price increases by the issuance of Change Orders, the penal amounts of the bonds required shall increase accordingly.

Furthermore, the successful Bidder shall furnish a certificate from the County Clerk as required by California Civil Code of Procedure Section 995.660(a)(3).

3-1.18 **CONTRACT EXECUTION.** The Contract, in form and contents satisfactory to the City, shall be executed by the successful Bidder and returned, together with the Contract bonds and certificates of insurance within fifteen (15) calendar days after written notice that the Contract has been awarded, or as otherwise directed, in writing, by the City. No proposal shall be considered binding upon the City until the execution of the Contract by the City.

3-1.20 **FAILURE TO EXECUTE CONTRACT.** Section 3-1.20, "Failure to Execute Contract" is added as follows:

"Failure of the lowest responsible Bidder, the second lowest responsible Bidder, or the third lowest responsible Bidder to execute the Contract and file acceptable bonds

and insurance as provided herein within fifteen (15) calendar days, or within a different timeframe specified by City in writing, after such Bidder has received notice that the Contract has been awarded to him or her, shall be just cause for the annulment of the award and the forfeiture of the Bidder's security to the City as Liquidated Damages. The successful Bidder may file with the Roseville City Council a written notice, signed by the Bidder or his or her authorized representative, specifying that the Bidder will refuse to execute the Contract if presented to him or her. The filing of such notice shall have the same force and effect as the failure of the Bidder to execute the Contract and furnish acceptable bonds and insurance within the time prescribed by Section 3-1.18."

SECTION 4. SCOPE OF WORK

There are no amendments to the Standard Specifications.

SECTION 5. CONTROL OF WORK

5-1.02 **CONTRACT COMPONENTS.** These Standard Construction Specifications, the Standard Specifications, the Standard Plans, the Improvement Plans, Construction Standards, Project Plans, project Special Provisions (and any addenda), the Agreement, Contract Change Orders, and all supplementary documents are all essential parts of the Contract between Contractor and the City. A requirement occurring in one (1) is as binding

as though occurring in all. They are intended to be complementary, and to describe and provide for a complete work.

In resolving inconsistencies among two (2) or more sections of the Contract Documents, precedence shall be given in the following order:

A. Special Provisions

B. City of Roseville Standard Construction Specifications

C. City of Roseville Design and Construction Standards

D. State Standard Specifications and Amendments to the State Standard Specifications, Standard Special Provisions, and Plans

E. Drawings

Should it appear that the work to be done or any of the matters relative thereto are not sufficiently detailed or explained in these specifications, the special provisions, or the Plans, the Contractor shall apply in writing to the Director for such further explanations as may be necessary and shall conform to them as part of the Contract. In the event of any doubt or question arising respecting the true meaning of these specifications, the special provisions or the Plans, reference shall be made to the Director, whose decision thereon shall be final.

In the event of any discrepancy, between any drawing and the figures written thereon, the figures shall be taken as correct. Detail drawings shall prevail over general drawings.

5-1.20B(5) **CITY OF ROSEVILLE ENCROACHMENT PERMITS.** Section 5-1.20B(5), "City of Roseville Encroachment Permits" is added as follows:

"The Contractor need not obtain a separate encroachment permit from the City prior to construction within street rights-of-way or other City rights-of-way. Execution of the Contract by the City shall be deemed an encroachment permit for work required by

the Contract within rights-of-way. All work shall conform to the rules and regulations of encroachment permits and shall be subject to the inspection and approval of the Director."

5-1.20B(6) **CITY OF ROSEVILLE BUSINESS LICENSE.** Section 5-1.20B(6), "City of Roseville Business License" is added as follows:

"The Contractor shall obtain a business license from the City prior to commencing work."

5-1.20B(7) **OTHER PERMITS.** Section 5-1.20B(7), "Other Permits" is added as follows:

"The Contractor in coordination with the Director shall procure any necessary permits which the City has not specifically mentioned as obtaining."

5-1.31 **JOB SITE APPEARANCE.** The Contractor shall maintain a neat appearance to the work. In any area visible to the public, the following shall apply:

When practicable, broken concrete and debris developed during clearing and grubbing shall be disposed of concurrently with its removal. If stockpiling is necessary, the material shall be removed or disposed of weekly.

The Contractor shall furnish trash bins for all debris from structure construction. All debris shall be placed in trash bins daily. Forms or falsework that are to be reused shall be stacked neatly concurrently with their removal. Forms and falsework that are not to be reused shall be disposed of concurrently with their removal.

Full compensation for conforming to the provisions in this section, not otherwise provided for, shall be considered as included in price paid for the various Contract items of work involved, and no additional compensation will be allowed therefore.

5-1.38 **MAINTENANCE AND PROTECTION RELIEF.** Section 5-1.38 is deleted.

5-1.43 **POTENTIAL CLAIMS AND DISPUTE RESOLUTION.** Section 5-1.43 is deleted in its entirety and replaced with the following:

5-1.43A **NOTICE OF POTENTIAL CLAIM.** The Contractor shall not be entitled to payment for any additional compensation for any act or failure to act by the City, including failure or refusal to issue a Change Order, or for the happening of any event, thing, occurrence or other cause unless he or she shall have given the City due written Notice of Potential Claim as hereinafter specified.

The written Notice of Potential Claim shall set forth the reasons for which the Contractor believes additional compensation will or may be due, the nature of the costs involved, and, insofar as possible, the amount of the potential claim. The said Notice as above required must have been given to the Director prior to the time that the Contractor shall have performed the Work giving rise to the potential claim for additional compensation, if based on an act or failure to act by the Director, or in all other cases within three (3) Days after the happening of the event, thing, occurrence or other cause giving rise to the potential claim.

If the Notice of Potential Claim does not include complete information about the claim or the parties do not execute a Contract Change Order in connection with the Notice of Potential Claim, Contractor shall submit a complete information about its claim for additional compensation and/or extension of time for performance within fifteen (15) calendar days after such work is performed. Failure to provide written notice of claim prior to undertaking such work or failure to timely submit a complete and specific information about the claim for

additional compensation and/or extension of the time for performance shall be deemed a waiver and abandonment of such claim.

If there is a dispute over any claim, the Contractor shall continue to work during the dispute resolution process in a diligent and timely manner as directed by the City, and shall be governed by all applicable provision of the Agreement.

The Contractor shall maintain cost records of all work that is the basis of any dispute. On a daily basis, Contractor shall submit to City completed daily forms, the format of which will be acceptable to the City, with respect to the Contractor's costs of performing the disputed work. These daily forms shall itemize all of Contractor's costs in performing the disputed work, including, but not limited to, all costs relating to materials, labor and equipment with respect to the disputed work. These daily forms shall provide names or identification and classification of affected workers, the hourly rate of pay and hours worked, and also the size, type, and identification number of equipment and hours operated. Said daily work forms shall be duly signed and verified by the Contractor or its authorized representative. The City's receipt of the Contractors' daily forms shall not constitute an approval of the Contractor's claim. Contractor's failure to submit the daily forms on a daily basis shall constitute a waiver of the Contractor's right to claim any additional compensation for the disputed work.

Each Contractor claim shall include full and complete information concerning the Claim. Contractor shall provide a clear, concise recital of the basis, upon which the claim is asserted, including a designation of the provisions of the Contract Documents upon which the claim is based. Contractor shall also include a statement as to the amount of time and/or compensation sought pursuant to the claim; if Contractor's claim arises from an ongoing occurrence, Contractor shall so state in its claim, including a description of the specific Work activities

affected by the claim. All costs, expenses or damages and extensions of time claimed shall be described in reasonable detail under the circumstances together with complete supporting documentation.

The City will review any timely Notice of Potential Claim and supporting information submitted by Contractor. In conducting this review, the City shall have the right to require the Contractor to submit such additional or supporting documents, data and other information as the City may require.

If an agreement can be reached which resolves the Contractor's claim, the parties will execute a Contract Change Order to document the resolution of the claim. If the parties cannot reach agreement with respect to the Contractor's claim, the Contractor shall still be obligated to comply with the claim identification provisions identified in these Standard Construction Specifications, including but not limited to Section 5-1.43B.

It is the intention of this Section 5-1.43A that differences between the parties arising under and by virtue of the Contract be brought to the attention of the Director at the earliest possible time in order that such matters may be settled, if possible, or other appropriate action promptly taken. The Contractor hereby agrees that he or she shall have no right to additional compensation for any Claim that may be based on any such act, failure to act, event, thing or occurrence for which no timely written Notice of Potential Claim as herein required was filed.

5-1.43B **CLAIMS.** Contractor must submit all Claims, for which it has previously submitted a Notice of Potential Claim, prior to Acceptance of the Work. Each such Claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the Claim.

Upon receipt of a Claim, the City shall conduct a reasonable review of the Claim and, within a period not to exceed forty-five (45) calendar days, or such further time as mutually agreed upon or necessary pursuant to Public Contract Code Section 9204, the City shall provide the Contractor a written statement identifying what portion of the Claim is disputed and what portion is undisputed. If the City does not respond to a Claim from the Contractor within the time specified herein, such Claim shall be deemed rejected in its entirety.

Any payment due on an undisputed portion of the Claim shall be processed and made within sixty (60) calendar days after the City issues its written statement.

If the Contractor disputes the City's written response, or if the City does not respond within the time specified herein, the Contractor may demand in writing an informal conference to meet and confer for settlement of the issues in dispute. Upon receipt of a demand in writing sent by registered mail or certified mail, return receipt requested, the City shall schedule a meet and confer conference within thirty (30) calendar days for settlement of the dispute.

Within ten (10) business days following the conclusion of the meet and confer conference, if the claim or any portion of the claim remains in dispute, the City shall provide the Contractor a written statement identifying the portion of the Claims that remains in dispute and the portion that is undisputed. Any payment due on an undisputed portion of the Claims shall be processed and made within sixty (60) calendar days after the public entity issues its written statement. Any disputed portion of the Claim, as identified by the Contractor in writing, shall be submitted to nonbinding mediation, with the City and the Contractor sharing the associated costs equally. The City and the Contractor shall mutually agree to a mediator within ten (10) business days after the disputed portion of the Claim has been identified in writing. If the parties cannot agree upon a mediator, each party shall select a mediator and those mediators shall select a

qualified neutral third party to mediate with regard to the disputed portion of the Claim. Each party shall be responsible for the fees and costs charged by its respective mediator in connection with the selection of the neutral mediator. If mediation is unsuccessful, the parts of the Claim remaining in dispute shall be resolved in accordance with Section 9-1.22.

5-1.46 **FINAL INSPECTION AND CONTRACT ACCEPTANCE.** When the Director has made the final inspection and determines that the Contract work has been completed in all respects in accordance with the Plans and specifications, the Director will recommend that the Roseville City Council formally accept the work, and immediately upon and after such Acceptance by the City, the Contractor will be responsible for the work done for a period of one (1) year.

SECTION 6. CONTROL OF MATERIALS

6-1.03 **LOCAL MATERIALS.** Local material sites used by the Contractor shall be graded so that, at the time of final inspection of the Contract, they will drain and will blend in with the surrounding terrain.

SECTION 7. LEGAL RELATIONS AND RESPONSIBILITY TO THE PUBLIC

7-1.02K(2) **WAGES.** The provisions of paragraphs 1and 2 of Section 7-1.02K(2) of the Standard Specifications are amended to read as follows:

"Pursuant to the provisions of California Labor Code Section 1773, the City has identified the source, stated below, of the general prevailing rate of wages applicable to the

work to be done, for straight time, overtime, Saturday, Sunday and holiday work. The holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of the particular craft, classification or type of workmen concerned. The wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm, and are incorporated herein as part of the Contract.

Pursuant to California Labor Code Section 1773.2, general prevailing wage rates shall be posted by the Contractor at a prominent place at the site of the work."

7-1.02K(6)(b) **EXCAVATION SAFETY.** For trenches or excavation five feet (5') or deeper, the Contractor shall obtain from the Division of Industrial Safety, a permit authorizing such construction.

7-1.02O **VEHICLE CODE.** Pursuant to the authority contained in Vehicle Code Section 591, the Department has determined that, within such areas as are within the limits of the project and are open to public traffic, the Contractor shall comply with all the requirements set forth in Vehicle Code Divisions 11, 12, 13, 14, and 15. Attention is directed to the statement in Section 591 that this section shall not relieve the Contractor nor any person from the duty of exercising due care. The Contractor shall take all necessary precautions for safe operation of equipment and the protection of the public from injury and damage from such equipment.

7-1.03 **PUBLIC CONVENIENCE.** Section 7-1.03 of the Standard Specifications is amended in part as follows:

1. Delete paragraph 10 ("Install signs, lights, flares . . .") and substitute the following:

"In order to expedite the passage of public traffic through or around the work, the Contractor shall install signs, lights, flares, temporary railing (type K), barricades, and other facilities for the sole convenience and direction of public traffic as may be required. Also, as may be required, the Contractor shall furnish competent flaggers whose sole duties shall consist of directing the movement of public traffic through or around the work. The cost of furnishing and installing such signs, lights, flares, temporary railing (type K), barricades, flaggers, and other facilities shall be included in the lump sum paid for traffic control and no additional compensation will be allowed therefor.

In addition to the requirements previously specified for furnishing facilities and flaggers to expedite the safe passage of the public through or around the work, the Contractor shall at his or her expense furnish and erect within or adjacent to the work such warning, regulatory, or guide signs, markers, or devices as are necessary."

2. Add a paragraph at the end of the section to read as follows:

"In addition to the requirements hereinbefore specified for furnishing facilities and flaggers for expediting the passage of public traffic through or around the work, the Contractor shall furnish and erect, within or adjacent to the limits of the Contract, such warning, regulatory, and guide signs as may be required. The Contractor shall furnish, install and remove all such signs. Payment for furnishing, installing and removing all such signs shall be included in the lump sum price paid for traffic control and no additional compensation will be allowed therefor."

7-1.04 **PUBLIC SAFETY.** It is the intent of the parties that the City is not an exposing, creating, controlling, or correcting employer under California Labor Code Section 6400. In accordance with generally accepted construction practices and State law, the Contractor

shall have the authority and be solely and completely responsible for conditions on the job site, including safety of all persons and property during performance of the Work. Moreover, the Contractor shall be the controlling employer and has the authority and responsibility to enforce worksite safety. The Contractor shall be responsible for conducting daily safety inspections and assuring all hazards and violations are abated. The Contractor is responsible for assuring that all subcontractors adhere to the minimum CAL/OSHA safety requirements and that each subcontractor has an effective CAL/OSHA IIP (Illness and Injury Protection Program) in place that specifically addresses all potential exposures, such as, but not limited to, fall protection, confined space, and trenching/shoring. These requirements shall apply continuously and not be limited to normal working hours. The Contractor shall be responsible for any delay costs or damages in the event the progress of Work is slowed or stopped due to a safety violation.

The services of the Director in conducting construction review of the Contractor's performance is not intended to include review of the adequacy of the Contractor's Work methods, equipment, bracing or scaffolding, or safety measures, in, on, or near the construction site. If a City employee observes a safety violation, the City employee will report the violation to the Contractor who is then responsible for assuring the violation is abated.

The Contractor is hereby informed that Work on this project could be hazardous. The Contractor shall carefully instruct all personnel working in potentially hazardous Work areas as to potential dangers and shall provide such necessary safety equipment and instructions as are necessary to prevent injury to personnel and damage to property. Special care shall be exercised relative to Work underground.

All Work and materials shall be in strict accordance with all applicable State, City, County, and Federal Rules, Regulations, and Codes, and attention is drawn to the requirements

of CAL/OSHA. The Contractor shall be solely responsible for compliance with all City, County and State blasting requirements and for any damages caused by his or her operations.

In accordance with California Labor Code Section 6705, the Contractor shall submit to the City specific plans to show details of provisions for worker protection from caving ground. This in no way relieves the Contractor from the requirement of maintaining safety in all operations performed by the Contractor or the Contractor's subcontractors. The detailed plan showing design of shoring, bracing, sloping or other provisions shall be prepared by a registered civil or structural engineer in the State of California as required. Acceptance by the City or its designated agent only constitutes acknowledgment of the submission and does not constitute review or approval of the designs, design assumptions or criteria, completeness of submissions, applicability to areas of intended use, nor implementation of the plans, which are solely the responsibility of the Contractor and his or her registered engineer.

Notwithstanding any classifications relative to the Tunnel Safety Orders, Work within confined spaces on this project is subject to the definitions and applicable provisions of California Code of Regulations Section 8400 et seq., Title 8.

The Contractor shall so perform its Work as not to expose personnel to, or to discharge into the atmosphere from any source whatever, smoke, dust, asbestos, toxic chemicals or other air contaminants in violation of the laws, rules, and regulations of the governmental entities having jurisdiction. Contractors or subcontractors removing one hundred or more square feet (100') of asbestos must be “Certified” in accordance with State law. All Work involving exposure to asbestos and all other hazardous materials shall be performed with protection of personnel in compliance with all applicable regulations and safety requirements.

Nothing in these Standard Construction Specifications is to be construed to permit Work not conforming to governing codes. When Contract Documents differ from governing codes, the Contractor shall furnish and install the higher standards called for without extra charge. All equipment furnished shall be grounded and provided with guards and protection as required by safety codes. Where vapor tight or explosion proof electrical installation is required by code, this shall be provided. In accordance with the provisions of Labor Code Section 6707, the Contractor shall provide adequate sheeting, shoring and bracing for employee protection, as provided in the proposal as separate Bid Items.

7-1.05 **INDEMNIFICATION.** The City of Roseville and its officers, agents, employees, and volunteers, including but not limited to the Director, shall not be answerable or accountable in any manner: for any loss or damage that may happen to the work or any part thereof; for any loss or damage to any of the materials or any things used or employed in performing the work; for injury to or death of any person, either workers or the public; or for damage to property from any cause which might have been prevented by the Contractor, his or her workers, or anyone employed by the Contractor or his or her subcontractors.

The Contractor shall be responsible for any liability imposed by law and for injuries to, or death of, any person including, but not limited to, workers and the public, or damage to property resulting from defects or obstructions, or from any cause whatsoever during the progress of the work or at any time before its completion and final Acceptance.

To the fullest extent allowed by law, the Contractor shall defend (through counsel acceptable to the City), indemnify, and save harmless the City of Roseville and its officers, agents, employees, and volunteers from all claims, suits, or actions of every name, kind, and description, brought forth, or on account of, injuries to or death of any person including, but not

limited to, workers and the public, or damage to property resulting from the performance of the Contract, except as otherwise provided by statute.

The duty of the Contractor to defend, indemnify, and save harmless includes, but is not limited to, the duties to defend as set forth in Civil Code Section 2778. The Contractor waives any and all rights to any type of express or implied indemnity against the City, its officers, agents, employees, or volunteers.

It is the intent of the parties that the Contractor will defend, indemnify, and hold harmless the City of Roseville, its officers, agents, employees, and volunteers from any and all claims, suits, or actions as set forth above regardless of existence or degree of fault or negligence, on the part of the City, the Contractor, the subcontractor or employee of any of these; except the duty does not apply where the injury or damage is due to the sole or active negligence or willful misconduct of the City.

The Contractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Contract for the full period of time allowed by law. The defense and indemnity obligations of this Contract are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Contract. The parties intend that the defense and indemnity obligations in this Contract shall be broadly construed.

In addition to any remedy authorized by law, so much of the money due the Contractor under and by virtue of the Contract as shall be considered necessary by the City may be retained by the City until disposition has been made of such suits or claims for damages.

The retention of money due the Contractor shall be subject to the following:

A. The City will give the Contractor thirty (30) calendar days' notice of its intention to retain funds from any partial payment which may become due to the Contractor prior

to Acceptance of the Contract. Retention of funds from any payment made after Acceptance of the Contract may be made without such prior notice to the Contractor.

B. No retention of additional amounts out of partial payments will be made if the amount to be retained does not exceed the amount being withheld from partial payments pursuant to Section 9-1.16F, "Retentions," of the Standard Construction Specifications.

C. If the City had retained funds and it is subsequently determined that the City is not entitled to be indemnified and saved harmless by the Contractor in connection with the matter for which such retention was made, the City shall be liable for interest on the amount retained at the legal rate of interest for the period of such retention.

7-1.06 **INSURANCE COVERAGE.** Section 7-1.06 Insurance in the Standard Specifications shall be deleted in its entirety and replaced with the following:

A. Evidence of Maintenance Required. The Contractor shall, at its expense, procure and at all times maintain in full force and effect at a minimum the insurance required by this section on all of its operations; and the Contractor shall not allow any Subcontractor to commence work until similar insurance required of the Subcontractor has been obtained and filed. An original Certificate of Insurance, and copies of all required endorsements, all in a form approved by the Risk Manager, evidencing all required coverage or policies shall be filed after the award of the bid and prior to approval of the Contract by the City Council. Contractor shall provide ten (10) days prior written notice to the City of any reduction of coverage limits or cancellation of the coverage or policies shall be given to the City of Roseville as Certificate holder.

B. Qualifying Insurers. With the exception of the State Compensation Insurance Fund, all required insurance policies shall be issued by companies acceptable to the

City and licensed to do business in the State of California and who hold a current policy holders alphabetic and financial size category rating of not less than AVII according to the most recent issue of Best's Insurance Reports.

C. Insurance Required.

1. **Commercial General Liability (CGL):** Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations with limits of no less than Two Million Dollars ($2,000,000) per occurrence for bodily injury, personal injury and property damage for projects under One Million Dollars ($1,000,000) and limits of no less than Five Million Dollars ($5,000,000) per occurrence for bodily injury, personal injury and property damage for projects over One Million Dollars ($1,000,000). If a general aggregate limit applies, either the aggregate limit shall apply separately to this project or the general aggregate limit shall be twice the required occurrence limit.

The Commercial General Liability insurance shall include the following, copies of which shall be provided:

a. Inclusion of the City of Roseville, and its officers, agents, employees, and volunteers, as additional insureds (except for workers' compensation) as respects services or operations under the Contract. The additional insured endorsement for the general liability policy shall be at least as broad as the ISO CG 2010 10 01 combined with ISO CGL Endorsement CG 2037 10 01. Any other endorsement must be approved in writing by the City. Endorsements must include coverage for on-going and completed operations, which coverage shall be maintained for four (4) years following completion of the Project. Endorsements shall cover the City of Roseville, its officers, agents, employees, and volunteers.

b. The insurance shall provide coverage for claims by one insured against another insured and the policies shall not contain any cross-suits exclusions, cross-liability exclusions, or insured versus insured exclusions. The policies shall not contain any classification exclusions purporting to deny coverage for any work to be performed by Contractor or any of its Subcontractors.

c. Stipulation that the insurance is primary and noncontributory, as evidenced by a separate endorsement (CG 20 01 04 13 or an equivalent) or section of the policy, and that neither the City nor its insurers will be called upon to contribute to a loss.

d. Such insurance shall specifically cover the contractual liability of the Contractor.

e. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

f. Waiver of subrogation endorsement.

g. The Contractor shall furnish a certificate for the period covered.

2. **Automobile Liability:** Insurance Services Office Form Number CA 0001 covering Code 1 (any auto), or if contractor has no owned autos, Code 8 (hired) and Code 9 (non-owned), with limits of no less than One Million Dollars ($1,000,000) per accident for bodily injury and property damage.

3. **Workers' Compensation:** In accordance with the provisions of the California Labor Code, Contractor is required to be insured against liability for Workers'

Compensation or to undertake self-insurance. Statutory Workers' Compensation and Employers' Liability of at least One Million Dollars ($1,000,000) shall cover all Contractors staff while performing any work incidental to the performance or this Agreement.

4. **Professional Liability:** Professional Liability (Errors and Omission) Insurance appropriate to Contractor's profession, with a limit of liability not less than One Million Dollars ($1,000,000) per occurrence or claim and Two Million Dollars ($2,000,000) aggregate to cover all design and engineering services rendered by Contractor pursuant to the Agreement. Coverage must commence from the first day that Contractor or any of its Subcontractors provided any design or engineering services in connection with the Project.

5. **Builder's Risk/Course of Construction Insurance (If Required by Risk Management):** The Contractor shall be responsible for all loss, damage or destruction whatsoever to the work called for by this Contract until the approval of a Notice of Completion or acceptance of the Work if no Notice of Completion is to be recorded.

The Contractor shall secure "All Risk" type of builder's Risk Insurance of the type covering one hundred percent (100%) of the value of the work performed under this Contract (the value is presumed to be the Contract amount unless otherwise stated in Supplemental Conditions) and all materials, equipment, or other items to be incorporated therein while the same are located at the construction site, a bonded warehouse, or its place of manufacture. At any time, the policy shall cover the value of the work completed. The policy shall cover hazards including the losses due to fire, explosion, hail, rain, lightning, flood (separate insurance as needed), vandalism, malicious mischief, wind, collapse, aircraft, and smoke.

The policies providing such insurance shall name the City as a loss payee as its respective interests may appear, and certified copies of such policies shall be filed with the City. The

maximum deductible allowable under the Builder's All Risk policy shall be five percent (5%) of the Contract amount.

Builder's Risk Insurance is not required for coverage of losses in excess of five percent (5%) of the Contract amount for damages resulting from earthquake in excess of a magnitude of 3.5 on the Richter scale, or tidal waves. Coverage in the amount of five percent (5%) of the Contract amount for such losses is required.

6. **Pollution Coverage:** Contractor shall procure pollution liability coverage or other insurance covering claims for bodily injury or property damage arising out of the abatement, removal, storage, transportation, or other exposure to hazardous materials or pollutants, in limits not less than Two Million Dollars ($2,000,000). Contractor shall add the City and all parties required to be indemnified by Contractor as additional insured on all pollution liability policies.

7. **Higher Coverage Limits:** If Contractor maintains higher coverage limits than the amounts shown above, then the City requires and shall be entitled to coverage for the higher coverage limits maintained by Contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City.

8. **Claims Made Coverage:** Liability insurance coverage may not be written on a "claims made" or modified occurrence basis. The Certificate of Insurance must clearly provide that the coverage is on an "occurrence" basis.

7-1.06A **OTHER INSURANCE PROVISIONS.**

A. The requirements of the Standard Specifications as to types and limits of insurance coverage to be maintained by the Contractor, and any approval of insurance by the City, are not intended to, and shall not in any manner limit or qualify the liabilities and

obligations otherwise assumed by the Contractor pursuant to the Contract, including, but not limited to, the provisions concerning indemnification, nor preclude the City from taking any other action available to it under any other provision of the Contract or law.

B. The City acknowledges that some insurance requirements contained in these Standard Specifications may be fulfilled by self-insurance on the part of the Contractor. However, this shall not in any way limit liabilities assumed by Contractor under the Contract. Any self-insurance must be approved in writing by the City, in its sole discretion and shall not reduce the limits of liability. Any deductibles or self-insured retentions ("SIR") must be declared on the certificate of insurance and approved by City in writing. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

C. The Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Contract, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, the Contractor shall require its subcontractors to agree to be bound to the Contractor and the City in the same manner and to the same extent as the Contractor is bound to the City under this Contract. Additionally, the Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of the City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request. Alternatively, the Contractor may insure subcontractor(s) under its own policy.

D. The City, its officers, agents, employees, and volunteers are to be covered as insureds with respect to liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor; and with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts or equipment furnished in connection with such work or operations. Coverage shall not extend to any indemnity coverage for the active negligence of the additional insured in any case where an agreement to indemnify the additional insured would be invalid under California Insurance Code Section 11580.04.

E. The limits of insurance required in this Contract may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the City (if agreed to in a written contract) before the City's own insurance shall be called upon to protect it as a named insured.

F. The insurance procured by Contractor shall be subject to the approval of the City, but any acceptance of insurance certificates by the City shall in no way limit or relieve Contractor of its duties and responsibilities under the Agreement.

G. Contractor shall be responsible for all premiums, deductibles, and self-insured retention applicable to the insurance it is required to procure under the Contract. All deductibles or self-insured retentions over five hundred thousand dollars ($500,000) must be approved by the City, in writing. Contractor shall be responsible for all deductibles, self-insured retention payments, and/or increased premiums incurred if the City's policies of insurance are forced to cover damages or respond to claims for which Contractor or its Subcontractors were obligated to provide insurance under the Contract.

H. Failure of the City to enforce in a timely manner any of the requirements of these insurance provisions shall not act as a waiver to enforcement of any of these provisions at a later date.

I. Contractor's indemnity obligations shall not be limited by these insurance provisions and shall survive the expiration of the Contract and the insurance provisions of the Contract shall likewise not be limited by the indemnity provisions of the Contract.

J. THE CITY RESERVES THE RIGHT TO WITHHOLD ANY PROGRESS PAYMENTS TO THE CONTRACTOR IN THE EVENT OF NONCOMPLIANCE WITH ANY INSURANCE REQUIREMENTS.

SECTION 8. PROSECUTION AND PROGRESS

8-1.04 **START OF JOB SITE ACTIVITIES.** The Contractor shall begin work by the date specified in the "Notice to Proceed" letter, and the Contractor shall thereafter diligently prosecute the work to completion.

The Contractor shall notify the Director, in writing, of his or her intent to commence work at least seventy-two (72) hours before work is begun. The notice shall specify the date on which the Contractor intends to begin work. If a project has more than one (1) location of work, a separate notice shall be given for each location.

Should the Contractor begin work in advance of issuance of a "Notice to Proceed," any work performed in advance of such issuance shall be considered to have been done at Contractor's own risk and as a volunteer.

SECTION 9. PAYMENT

9-1.11C **PAYMENT INCLUSIONS.** The following is added to Section 9-1.11C Payment Inclusions:

"No additional compensation will be made to the Contractor for claims of increased overhead costs occurring within the originally specified construction Contract period plus any time extensions granted by Change Order. No compensation for extended performance will be granted unless the delay exceeds more than half of the float time available at the time of the delay."

9-1.16E(4) **STOP NOTICE WITHHOLDS.** The City may, at its option and at any time, retain out of amounts due the Contractor, sums sufficient to cover claims (including costs and attorneys' fees), filed pursuant to California Civil Code Section 9350 et seq.

9-1.16F **RETENTIONS.** The Department shall retain five percent (5%) of the Contract price as part security for the fulfillment of the Contract by the Contractor.

9-1.16G **PAYMENT OF WITHHELD FUNDS.** Section 9-1.16G, "Payment of Withheld Funds" is added as follows:

"Except as otherwise prohibited by law, the Contractor may elect to receive all payments due under the Contract pursuant to without any retention. If the Contractor so elects, a deposit with the City of securities with a value equivalent to the retention that would otherwise be withheld by the City shall be made. Said security shall be as provided in California Public Contract Code Section 22300, and shall be approved by the City both as to sufficiency and form. In the alternative, the Contractor may elect to deposit such securities in an escrow account and enter into a standard form Escrow

Agreement for Security Deposits in Lieu of Retention. Blank Agreements are available from the Public Works Director and the City Attorney's Office."

9-1.17 **PAYMENT AFTER CONTRACT ACCEPTANCE.** "Final Payment" shall be made in accordance with this section. The Contractor shall, after the completion of the Contract, submit a final estimate of the amount of work done thereunder and the value of such work. Upon approval of the estimate by the Director, the City of Roseville shall pay the entire sum so found to be due after deducting therefrom all previous payments and all amounts to be kept and all amounts to be retained under the provisions of the Contract. All prior partial estimates and payments shall be subject to correction in the final estimate and payment. The final payment shall not be due and payable until the expiration of thirty five (35) calendar days from the date of Acceptance of the work by the City Council, and thirty-five (35) calendar days after filing of the Notice of Completion with the County of Placer.

No certificate given or payments made under the Contract, except the final certificate or final payment, shall be conclusive evidence of the performance of the Contract, either wholly or in part, and no payment (including the final payment) or certificate shall be construed to be an Acceptance of any defective work or improper materials. Final payment shall not release the Contractor from one (1) year guarantee of the work as provided in Section 7-1.17, "Acceptance of Contract" and Section 2-1.12 "Guarantee and Warranty" of these Specifications.

SECTION 14. ENVIRONMENTAL STEWARDSHITP

14-8.02 **NOISE CONTROL.** The provisions of Section 14-8.02 of the Standard Specifications are amended by adding the following:

"The Contractor shall additionally conform to the provisions of Roseville Municipal Code Chapter 9.24 where such provisions are more restrictive than these specifications."

14-9.01 **AIR QUALITY GENERAL.** The provisions of Section 14-9.01, "Air Quality General" of the Standard Specifications are amended by adding the following:

"Material to be disposed of shall not be burned unless the Contractor has obtained a permit to burn combustible material resulting from clearing and grubbing operations from the Placer County Air Pollution Control District and City of Roseville Fire Marshall. A copy of the permits shall be filed with the Director

before beginning any burning. All such burning shall be conducted in strict conformance with the provision stipulated in said permits and at such times and in such manner as to prevent fire from spreading to areas adjoining the right-of-way."

14-11.02A **ASBESTOS REMOVAL AND DISPOSAL.** Section 14-11.02A, "Asbestos Removal and Disposal" is added as follows:

"The Contractor shall comply with all rules, regulations, statutes and ordinances regarding asbestos removal and disposal, including but not limited to, 42 U.S.C. Sections 7401, 7412 and 7601 and 40 C.F.R. Part 61, Subpart M.

If the Contractor discovers that a building to be demolished or renovated contains asbestos containing material, the Contractor shall immediately cease work and notify the City."

END OF STANDARD SPECIFICATIONS

TEXT OF AB 626

Assembly Bill No. 626

CHAPTER 810

An act to add and repeal Section 9204 of the Public Contract Code, relating to public contracts.

[Approved by Governor September 29, 2016. Filed with Secretary of State September 29, 2016.]

LEGISLATIVE COUNSEL'S DIGEST

AB 626, Chiu. Public contracts: claim resolution.

Existing law prescribes various requirements regarding the formation, content, and enforcement of state and local public contracts. Existing law applicable to state public contracts generally requires that the resolution of claims related to those contracts be subject to arbitration. Existing law applicable to local agency contracts prescribes a process for the resolution of claims related to those contracts of $375,000 or less.

This bill would establish, for contracts entered into on or after January 1, 2017, a claim resolution process applicable to any claim by a contractor in connection with a public works project. The bill would define a claim as a separate demand by the contractor for one or more of the following: a time extension for relief from damages or penalties for delay, payment of money or damages arising from work done pursuant to the contract for a public work, or payment of an amount disputed by the public entity, as specified.

This bill would require a public entity, defined to exclude certain state entities, upon receipt of a claim sent by registered or certified mail, to review it and, within 45 days, provide a written statement identifying the disputed and undisputed portions of the claim. The bill would authorize the 45-day period to be extended by mutual agreement. The bill would require any payment due on an undisputed portion of the claim to be processed within 60 days, as specified. The bill would require that the claim be deemed rejected in its entirety if the public entity fails to issue the written statement.

This bill would authorize, if the claimant disputes the public entity's written response or if the public entity fails to respond to a claim within the time prescribed, the claimant to demand to meet and confer for settlement of the issues in dispute. The bill would require any disputed portion of the claim that remains in dispute after the meet and confer conference to be subject to nonbinding mediation, as specified. The bill would provide that unpaid claim amounts accrue interest at 7% per annum. The bill would prescribe a procedure by which a subcontractor or lower tier contractor may make a claim through the contractor.

This bill would require the text of these provisions, or a summary, to be set forth in the plans or specifications for any public work which may give rise to a claim. The bill would specify that a waiver of these rights is void and contrary to public policy, except as specified. The bill would also specify that it does not impose liability on a public entity that makes loans or grants available through a competitive application process, for the failure of an awardee to meet its contractual obligations.

By increasing the duties of local agencies and officials, this bill would impose a state-mandated local program.

This bill would, on January 1, 2020, repeal the provision establishing the claim resolution process.

This bill would specify that these provisions constitute a matter of statewide concern.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

The people of the State of California do enact as follows:

SECTION 1. Section 9204 is added to the Public Contract Code, to read:

9204. (a) The Legislature finds and declares that it is in the best interests of the state and its citizens to ensure that all construction business performed on a public works project in the state that is complete and not in dispute is paid in full and in a timely manner.

(b) Notwithstanding any other law, including, but not limited to, Article 7.1 (commencing with Section 10240) of Chapter 1 of Part 2, Chapter 10 (commencing with Section 19100) of Part 2, and Article 1.5 (commencing with Section 20104) of Chapter 1 of Part 3, this section shall apply to any claim by a contractor in connection with a public works project.

(c) For purposes of this section:

(1) "Claim" means a separate demand by a contractor sent by registered mail or certified mail with return receipt requested, for one or more of the following:

(A) A time extension, including, without limitation, for relief from damages or penalties for delay assessed by a public entity under a contract for a public works project.

(B) Payment by the public entity of money or damages arising from work done by, or on behalf of, the contractor pursuant to the contract for a public works project and payment for which is not otherwise expressly provided or to which the claimant is not otherwise entitled.

(C) Payment of an amount that is disputed by the public entity.

(2) "Contractor" means any type of contractor within the meaning of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code who has entered into a direct contract with a public entity for a public works project.

(3) (A) "Public entity" means, without limitation, except as provided in subparagraph (B), a state agency, department, office, division, bureau, board, or commission, the California State University, the University of California, a city, including a charter city, county, including a charter county, city and county, including a charter city and county, district, special district, public authority, political subdivision, public corporation, or nonprofit transit corporation wholly owned by a public agency and formed to carry out the purposes of the public agency.

(B) "Public entity" shall not include the following:

(i) The Department of Water Resources as to any project under the jurisdiction of that department.

(ii) The Department of Transportation as to any project under the jurisdiction of that department.

(iii) The Department of Parks and Recreation as to any project under the jurisdiction of that department.

(iv) The Department of Corrections and Rehabilitation with respect to any project under its jurisdiction pursuant to Chapter 11 (commencing with Section 7000) of Title 7 of Part 3 of the Penal Code.

(v) The Military Department as to any project under the jurisdiction of that department.

(vi) The Department of General Services as to all other projects.

(vii) The High-Speed Rail Authority.

(4) ”Public works project” means the erection, construction, alteration, repair, or improvement of any public structure, building, road, or other public improvement of any kind.

(5) ”Subcontractor” means any type of contractor within the meaning of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code who either is in direct contract with a contractor or is a lower tier subcontractor.

(d) (1) (A) Upon receipt of a claim pursuant to this section, the public entity to which the claim applies shall conduct a reasonable review of the claim and, within a period not to exceed 45 days, shall provide the claimant a written statement identifying what portion of the claim is disputed and what portion is undisputed. Upon receipt of a claim, a public entity and a contractor may, by mutual agreement, extend the time period provided in this subdivision.

(B) The claimant shall furnish reasonable documentation to support the claim.

(C) If the public entity needs approval from its governing body to provide the claimant a written statement identifying the disputed portion and the undisputed portion of the claim, and the governing body does not meet within the 45 days or within the mutually agreed to extension of time following receipt of a claim sent by registered mail or certified mail, return receipt requested, the public entity shall have up to three days following the next duly publicly noticed meeting of the governing body after the 45-day period, or extension, expires to provide the claimant a written statement identifying the disputed portion and the undisputed portion.

(D) Any payment due on an undisputed portion of the claim shall be processed and made within 60 days after the public entity issues its written statement. If the public entity fails to issue a written statement, paragraph (3) shall apply.

(2) (A) If the claimant disputes the public entity’s written response, or if the public entity fails to respond to a claim issued pursuant to this section within the time prescribed, the claimant may demand in writing an informal conference to meet and confer for settlement of the issues in dispute. Upon receipt of a demand in writing sent by registered mail or certified mail, return receipt requested, the public entity shall schedule a meet and confer conference within 30 days for settlement of the dispute.

(B) Within 10 business days following the conclusion of the meet and confer conference, if the claim or any portion of the claim remains in dispute, the public entity shall provide the claimant a written statement identifying the portion of the claim that remains in dispute and the portion that is undisputed. Any payment due on an undisputed portion of the claim shall be processed and made within 60 days after the public entity issues its written statement. Any disputed portion of the claim, as identified by the contractor in writing, shall be submitted to nonbinding mediation, with the public entity and the claimant sharing the associated costs equally. The public entity and claimant shall mutually agree to a mediator within 10 business days after the disputed portion of the claim has been identified in writing. If the parties cannot agree upon a mediator, each party shall select a mediator and those mediators shall select a qualified neutral third party to mediate with regard to the disputed portion of the claim. Each

party shall bear the fees and costs charged by its respective mediator in connection with the selection of the neutral mediator. If mediation is unsuccessful, the parts of the claim remaining in dispute shall be subject to applicable procedures outside this section.

(C) For purposes of this section, mediation includes any nonbinding process, including, but not limited to, neutral evaluation or a dispute review board, in which an independent third party or board assists the parties in dispute resolution through negotiation or by issuance of an evaluation. Any mediation utilized shall conform to the timeframes in this section.

(D) Unless otherwise agreed to by the public entity and the contractor in writing, the mediation conducted pursuant to this section shall excuse any further obligation under Section 20104.4 to mediate after litigation has been commenced.

(E) This section does not preclude a public entity from requiring arbitration of disputes under private arbitration or the Public Works Contract Arbitration Program, if mediation under this section does not resolve the parties' dispute.

(3) Failure by the public entity to respond to a claim from a contractor within the time periods described in this subdivision or to otherwise meet the time requirements of this section shall result in the claim being deemed rejected in its entirety. A claim that is denied by reason of the public entity's failure to have responded to a claim, or its failure to otherwise meet the time requirements of this section, shall not constitute an adverse finding with regard to the merits of the claim or the responsibility or qualifications of the claimant.

(4) Amounts not paid in a timely manner as required by this section shall bear interest at 7 percent per annum.

(5) If a subcontractor or a lower tier subcontractor lacks legal standing to assert a claim against a public entity because privity of contract does not exist, the contractor may present to the public entity a claim on behalf of a subcontractor or lower tier subcontractor. A subcontractor may request in writing, either on his or her own behalf or on behalf of a lower tier subcontractor, that the contractor present a claim for work which was performed by the subcontractor or by a lower tier subcontractor on behalf of the subcontractor. The subcontractor requesting that the claim be presented to the public entity shall furnish reasonable documentation to support the claim. Within 45 days of receipt of this written request, the contractor shall notify the subcontractor in writing as to whether the contractor presented the claim to the public entity and, if the original contractor did not present the claim, provide the subcontractor with a statement of the reasons for not having done so.

(e) The text of this section or a summary of it shall be set forth in the plans or specifications for any public works project that may give rise to a claim under this section.

(f) A waiver of the rights granted by this section is void and contrary to public policy, provided, however, that (1) upon receipt of a claim, the parties may mutually agree to waive, in writing, mediation and proceed directly to the commencement of a civil action or binding arbitration, as applicable; and (2) a public entity may prescribe reasonable change order, claim, and dispute resolution procedures and requirements in addition to the provisions of this section, so long as the contractual provisions do not conflict with or otherwise impair the timeframes and procedures set forth in this section.

(g) This section applies to contracts entered into on or after January 1, 2017.

(h) Nothing in this section shall impose liability upon a public entity that makes loans or grants available through a competitive application process, for the failure of an awardee to meet its contractual obligations.

(i) This section shall remain in effect only until January 1, 2020, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2020, deletes or extends that date.

SECTION 2.
The Legislature finds and declares that it is of statewide concern to require a charter city, charter county, or charter city and county to follow a prescribed claims resolution process to ensure there are uniform and equitable procurement practices.

SECTION 3.
If the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code.

SPECIAL PROVISIONS

FOR

Dry Creek Greenway East Phase 1 Fence and Landscaping Project

SCOPE OF SPECIAL PROVISIONS

1. The work described in these Special Provisions must be done in conformance with the latest edition of the City of Roseville Standard Construction Specifications, City of Roseville Design and Construction Standards, and Caltrans Standard Specifications and Plans, except insofar as they may be modified by these Special Provisions.

2. Numbering in these Special Provisions conforms to that in the Standard Construction Specifications. The existence of a section in these Special Provisions means that the corresponding section in the Standard Construction Specifications is modified in some respect. Unless otherwise specified, the Standard Construction Specification Provisions are deleted entirely, and the provisions of these Special Provisions are substituted.

3. The construction materials, payment, etc., for items of work shown in the proposal and on the plans, but not specifically mentioned in these Special Provisions are referred to the Standard Construction Specifications for conformance.

ORGANIZATION

Special provisions are under headings that correspond with the main-section headings of *the State Standard Specifications*. A main-section heading is a heading shown in the table of contents of the *Standard Specifications*.

Each special provision begins with a revision clause that describes or introduces a revision to *the State Standard Specifications* as revised by any revised standard specification.

Any paragraph added or deleted by a revision clause does not change the paragraph numbering of the *State Standard Specifications* for any other reference to a paragraph of the *State Standard Specifications*.

^^

DIVISION I GENERAL PROVISIONS

1 GENERAL

Add to section 1-1.07B:

Definitions and Abbreviations – Whenever in the State Standard Specifications, Special Provisions, Notice to Contractors, Proposal, Contract, or other contract documents the following abbreviations and terms are used, the intent and meaning shall be interpreted as follows:

Abbreviation or Term	Intent and Meaning
AGENCY	The Department of Public Works, City of Roseville
CITY	The City of Roseville and its applicable Departments
CITY COUNCIL	City Council of the City of Roseville, a Charter City in the State of California
CALTRANS	State of California, Department of Transportation
CRIHB	California Rural Indian Health Board
DEPARTMENT	The Department of Public Works, City of Roseville
STATE STANDARD SPECIFICATIONS	The State Standard Specifications issued by the State of California, Department of Transportation, dated 2015, and subsequent Revised Standard Specifications
ADMINISTRATOR	The Director of Public Works/City Engineer, as created by law; also the City Engineer

ENGINEER	City Engineer, and agents or assistants duly authorized by the Director of the Public Works to act on his behalf
DEPARTMENT OF TRANSPORTATION	State of California Agency
DEPARTMENT OF INDUSTRIAL RELATIONS	State of California Agency
DIVISION OF LABOR STANDARDS ENFORCEMENT	State of California Agency

Replace the following definitions in section 1-1.07B:

Director: Director of Public Works, City of Roseville

Engineer: City Engineer, and agents or assistants duly authorized by the Director of the Public Works to act on his behalf

Delete Columbus Day in Holidays table in section 1-1.07B:

^^

2 BIDDING

Add to section 2-1.01:

The bidder's attention is directed to the provisions in Section 2, "Bidding" of the State Standard Specifications and these special provisions for the requirements and conditions which the bidder must observe in the preparation of the proposal form and the submission of the bid.

Add between the 1st and 2nd paragraphs of section 2-1.06B:

The City of Roseville makes the following supplemental project information available:

Supplemental Project Information

Means	Description
Included as Appendix	Dry Creek Greenway East Phase 1 Trail Plans – Notes and Grading Sheets
Available for inspection at: City of Roseville	Final Geotechnical Design Report, Dry Creek Greenway East Phase 1, dated April 2021

Add to section 2-1.10:

In addition to the subcontractors required to be listed in conformance with Section 2-1.10, "Subcontractor List" of the State Standard Specifications, each proposal must have listed therein the portion of work that will be done by each subcontractor listed. A sheet for listing the subcontractors is included in the Proposal.

^^

3 CONTRACT AWARD AND EXECUTION

Replace paragraph of Section 3-1.06 with:

The Contractor must be properly licensed as a contractor from contract award through Contract acceptance (Public Contract Code § 10164).

^^

4 SCOPE OF WORK

Replace section 4-1.03 with:

The construction of the Dry Creek Greenway East Phase 1 Fence and Landscaping Project includes the following improvements:

1. Construction of a privacy fence
2. Planting and irrigation.

The work includes improvements including but not limited to clearing and grubbing, implementation of environmental mitigation requirements, excavation, minor grading as needed, fence construction, irrigation and planting, grading and erosion control measures, and all other improvements as shown on contract plans.

Add to section 4-1.06 with:

Attention is directed to Section 4-1.06, "Differing Site Conditions" of the State Standard Specifications.

During the progress of the work, if subsurface or latent conditions are encountered at the site differing materially from those indicated in the "Materials Information," log of test borings, other geotechnical data obtained by the Department's investigation of subsurface conditions, or an examination of the conditions above ground at the site, the party discovering those conditions must promptly notify the other party in writing of the specific differing conditions before they are disturbed and before the affected work is performed.

The Contractor will be allowed 15 days from the notification of the Engineer's determination of whether or not an adjustment of the contract is warranted, in which to file a notice of potential claim in conformance with the provisions of Section 9-1.17D(2), "Claim Statement" of the State Standard Specifications and as specified herein; otherwise the decision of the Engineer must be deemed to have been accepted by the Contractor as correct. The notice of potential claim must set forth in what respects the Contractor's position differs from the Engineer's determination and provide any additional information obtained by the Contractor, including but not limited to additional geotechnical data. The notice of potential claim must be accompanied by the Contractor's certification that the following were made in preparation of the bid: a review of the contract, a review of the "Materials Information," a review of the log of test borings and other records of geotechnical data to the extent they were made available to bidders prior to the opening of bids, and an examination of the conditions above ground at the site. Supplementary information, obtained by the Contractor subsequent to the filing of the notice of potential claim, must be submitted to the Engineer in an expeditious manner.

Full compensation for conforming to these requirements is considered as included in the contract price paid for various items of work and no additional compensation will be allowed therefor.

^^

5 CONTROL OF WORK

Add to section 5-1.01 with:

For the award of the "Project", the City and the Resident Engineer will provide inspection on an eight-hour (8) day and a forty-hour (40) week (Monday through Friday) basis only. The Contractor must reimburse the City at a rate of $**175 per hour** and the Resident Engineer at $225 per hour for all inspection in excess of those hours listed above, including designated holidays and weekends. Requests for authorization to perform work outside the hours of 7:00 a.m. to 4:00 p.m., Monday through Friday, must be made in writing at least 48 hours in advance.

Attention is directed to Section 7-1.03," Public Convenience" of the State Standard Specifications concerning project working hours.

Designated holidays are observed: New Year's Day, Martin Luther King Day, Presidents Day, Memorial Day, 4th of July, Labor Day, Veterans Day, Thanksgiving Day, the day after Thanksgiving and Christmas Day. When a designated holiday falls on a Saturday or Sunday, the preceding Friday or following Monday (respectively) shall be a designated holiday.

The Contractor must provide a competent person during normal working hours to assist the Engineer, when required, in checking lines and grades of the Contractor's layout and for measuring quantities for payment purposes. The Contractor must cooperate with the Engineer so that checking, and measuring may be accomplished with the least interference to the Contractor's operations. No additional compensation will be made to the Contractor for fulfilling this requirement.

Attention is directed to Section 81-4 (E) and 91-4 (E) of the City of Roseville Construction Standards regarding trenching within the existing roadway.

Replace the 2nd paragraph in section 5-1.02 with:

Any discrepancies or omissions found in the Contract Documents must be reported to the Engineer immediately. The Engineer will clarify discrepancies or omissions, in writing, within a reasonable time.

In resolving inconsistencies among two or more sections of the Contract Documents, precedence is given in the following order:

A. Notice to Contractors
B. Special Provisions
C. Project Drawings
D. City of Roseville Standard Construction Specifications (Latest Editions)
E. City of Roseville Design and Construction Standards and Amendments (Latest Editions)
F. City of Roseville Parks Construction Standards (Latest Edition)
G. 2015 Revised Standard Specifications

H. 2015 Caltrans Standard Specifications
I. 2015 State Revised Standard Plans
J. 2015 State Standard Plans
K. Supplemental Project Information

Addenda take precedence over all sections referenced therein. Figure dimensions on Drawings take precedence over scale dimensions. Detailed Drawings take precedence over general Drawings.

Replace section 5-1.05 with:

5-1.05 ORDER OF WORK

Prior to beginning work, the boundaries of the Environmentally Sensitive Areas (ESA) must be clearly delineated in the field. The boundaries must be delineated by the installation of temporary high-visibility fence.

Five working days prior to the start of any work, including grading, a qualified biologist, retained by the City will conduct mandatory Contractor/worker awareness training for construction personnel. The awareness training will be provided to all construction personnel to brief them on the need to avoid impacts on biological resources and the penalties for not complying with biological mitigation requirements. If new construction personnel are added to the project, the Contractor will ensure that the personnel receive the mandatory training from the biologist, or qualified person, before starting work. The training shall include relevant permit conditions and avoidance and minimization measures that protect sensitive species and habitats, as well as the penalties for non-compliance with state and federal laws, regulations, and permit requirements. The training shall include information about the life history and habitat requirements of Central Valley steelhead and Central Valley fall-run Chinook salmon, of the valley elderberry longhorn beetle, requirements to avoid damaging the elderberry plants, and their potential to occur in the project site, as well as the terms and conditions of the Project's Biological Opinions or other authorizing documents.

Prior to mobilization, the Contractor must contact Underground Service Alert (U.S.A.).

Attention is directed to "Water Pollution Control" of the State Standard Specifications

The Contractor must also prepare a traffic control plan that conforms to Section 12, "Construction Area Traffic Control Devices" of the City of Roseville Construction Standards, the California MUTCD and as described within these Special Provisions prior to construction. The traffic control plan must be approved by the City of Roseville Public Works Traffic Section.

Attention is directed to "Progress Schedule" of these special provisions regarding the submittal of a general time-scaled logic diagram within 10 days after approval of the contract.

Contractor is responsible for identifying specific project elements, equipment, and approval processes that may require a long lead time or adversely affect the project schedule and make allowance for incorporating these into the overall project schedule.

The first order of work shall be to place the order for long lead time materials and equipment. The Contractor must place the order within 15 working days after the Notice to Proceed and after approval of the submittal. Should the City have to supply the Contractor with material and/or

equipment to do the work, the Contractor will be charged accordingly per agreed upon cost. The Contractor must furnish the Engineer with a statement from the equipment vendor(s) that the order for said equipment has been received and accepted by said vendor(s). Said statement must include an anticipated date of delivery of said equipment to the Contractor. Said statement must be furnished to the Engineer within 15 calendar days of the Contractor's receipt of the Notice to Proceed. Lighting equipment must be completed by the end of the Contract. The Contractor must pay liquidated damages per the Special Provisions of this document if the installation of lighting cannot be completed within the above time frame.

The Contractor is responsible for determining the means and methods to obtain access to the project site.

Where improvements are immediately adjacent to property owners with landscaped or irrigated areas, Contractor must coordinate with the property owner to confirm the irrigation system to confirm irrigation system is not in conflict with, or has been relocated outside, the project improvements, and is in good working condition. Any damage to the existing irrigation by the Contractor must be repaired by the Contractor at the Contractor’s cost.

The Contractor must field verify the locations of existing irrigation systems prior to construction activities. No disruption of the existing irrigation watering system will be allowed during construction. All adjacent systems must maintain automatic programmed watering schedules throughout the construction. Full compensation for conforming to these requirements will be considered as included in the prices paid for the various contract items of work and no additional compensation will be allowed therefor.

Contractor is responsible for obtaining a building permit prior to beginning construction of the fence. All work and fees associated with obtaining this permit is considered as included in the prices paid for the various contract items of work and no additional compensation will be allowed therefor

Add to section 5-1.20B with:

In addition to the requirements of Section 5-1.20B of the State Standard Specifications, the Contractor must obtain a business license from the City of Roseville prior to performing work.

The City of Roseville has received the following permits.

Permit	Approval Date
City of Roseville Building Permit (BD25-2466)	**January 15, 2026**

The Contractor must comply with all permit conditions and requirements. The Contractor must apply for an amendment to the Building Permit referenced above to add the Contractor to the Building Permit, before starting work.

No separate measurement or payment must be made for compliance with permit requirements, extensions. The Contractor must include the costs associated with these items in the various bid items to which the Work relates.

Replace the paragraphs in section 5-1.26 with:

The requirements specified in the entire section of the State Standard Specifications are replaced as follows:

The Contractor is responsible to provide all surveys to control the lines, elevations, and dimensions of the work in conformance with the plans. Any deviation from the lines, elevations and dimensions shown on the plans must receive prior approval from the Engineer.

The Contractor is responsible for accuracy of his/her own layout work and is responsible and liable for the preservation of all established lines, grades, and layout points. Stakes damaged or destroyed by the public or operations of the Contractor will be replaced by the Contractor at his/her expense. The Contractor must submit all survey records to the Resident Engineer for the project records.

The Contractor is responsible for preparing the as-built drawings.

Full compensation for conforming to these requirements will be considered as included in the prices paid for the various contract items of work and no additional compensation will be allowed therefor.

Add to section 5-1.32 with:

Attention is directed to the provisions in Section 5-1.32, "Areas for Use" of the Standard Specifications and these special provisions.

The roadway right of way must be used only for purposes that are necessary to perform the required work. The Contractor must not occupy the right of way, or allow others to occupy the right of way, for purposes which are not necessary to perform the required work. The Contractor must not park any vehicles along residential streets within the project limits.

City owned property, easements and right of way must be used only for purposes that are necessary to perform the required work. The Contractor must not occupy the property, easements, or right of way, or allow others to occupy these, for purposes which are not necessary to perform the required work.

The Contractor must remove equipment, materials, and rubbish from the work areas and other City-owned property which the Contractor occupies. The Contractor must leave the areas in a presentable condition in conformance with the provisions in Section 4-1.13, "Cleanup" of the State Standard Specifications.

The Contractor must secure, at the Contractor's own expense, any other areas required for plant sites, storage of equipment or materials or for other purposes, if sufficient area is not available to the Contractor within the contract limits.

Add to the end of section 5-1.32:

Personal vehicles of your employees must not be parked on the traveled way or shoulders, including sections closed to traffic.

Add to section 5-1.36A with:

Add to section 5-1.36D with:

The City of Roseville is a member of the Underground Service Alert (USA). The Contractor must notify USA 1-800-642-2444 at least 72 hours in advance of beginning work on the project. The

Contractor is cautioned that there may be underground and overhead utility facilities within the work area including telephone, electrical, cable television, gas, water and sanitary sewer transmission facilities, and storm drainage collection facilities.

Where possible conflicts may exist, the Contractor must verify the grade and location of existing underground utility prior to any work by careful hand digging.

It is recognized by the City and the Contractor that the locations of existing utilities as shown on the plans are approximate, their actual location is unknown. Recognition is given to the fact there may be additional existing utilities unknown to either party to the contract. Location of utilities, as shown on the drawings, represents the best information obtainable from utility maps and information furnished by the various agencies and companies involved. The City warrants neither the accuracy nor the extent of the actual utilities involved.

All existing utilities are to remain in service and operational during construction. The Contractor is responsible to coordinate all his/her activities with all utility companies for the installation of the utilities that are shown to be done by the respective utility owners.

Perform all operations necessary to excavate, expose, and verify the location of existing utility mains and laterals that may cross or be in conflict with the proposed facilities and at tie-in locations.

Notify Underground Service Alert (USA) at 1-800-642-2444 and all utility companies which have underground facilities within the limits of work 72 hours before beginning any excavation work.

Where a possible at-grade conflict with existing underground utilities appears on the plans, determine its location a minimum of 100 feet ahead of the work prior to trenching unless prior pothole information is shown. Grade and alignment changes must be made only if approved by the Engineer.

The horizontal and vertical locations shown for the existing underground utilities are approximate. It is the Contractor responsibility to locate all utility lines in the construction area prior to excavation. Any damage to existing utility, structure, or service, whether or not indicated on the plans must be repaired at the Contractor's expense in a manner approved by the Engineer.

Submit a report for each pothole. The report must be typed and clearly drawn to show all necessary details, including:

1. Sketch showing the location, date, depth, conditions encountered, person in charge of potholing, and any other information requested by the Engineer

2. Utility and City Public Work person(s) notified

Do not proceed with excavation operations where underground utilities lie as shown on the plans or marked by USA until related potholing work has been completed to the satisfaction of the Engineer. Notify the Engineer of any potential conflicts with underground utilities.

Hand dig as necessary to protect existing utilities.

Notify the Engineer of conflicts in which there is less than two foot of separation between the existing and proposed utility.

In the event the Contractor discovers utilities not identified on the plans or by the utilities, the Contractor must immediately notify the Engineer and the utility owners by the most expeditious method reasonably available and later confirm in writing.

Full compensation for conforming to the requirements of this section, not otherwise provided for, is considered as included in the prices paid for the various contract items of work involved and no additional compensation will be allowed therefor.

^^

6 CONTROL OF MATERIALS

Add to section 6-1.03 of the RSS:

6-1.03B Submittals

6-1.03B(1) General

Not Used

Add to section 6-1:

6-1.06 BUY CLEAN CALIFORNIA ACT

6-1.06A General

The following materials or products are subject to the Buy Clean California Act (Pub Cont Code § 3500 et seq.):

Material or product	Material specifications
Carbon steel rebar	Section 52-1.02B, "Bar Reinforcement"
Structural steel	Section 55-1.02D(1), "General," – Structural Steel table or Section 99, "Building Construction"
Flat glass	Section 99, "Building Construction"
Mineral wool board insulation	Section 99, "Building Construction"

For product category rules and North America program operators for applicable materials or products, go to the METS website.

For projects with bid opening dates after November 30, 2018, through November 30, 2019, the Department collects existing environmental product declarations for materials or products subject to the Buy Clean California Act.

6-1.06B Definitions

environmental product declaration: Independently verified document created and verified in accordance with International Organization for Standardization (ISO) 14025 for Type III environmental declarations that identifies the global warming potential emissions of the facility-specific material or product through a product stage life cycle assessment.

product category rule: Program operator established rule based on the science of life cycle assessment that governs the development of the environmental product declaration for the material or product.

product stage: Boundary of the environmental product declaration that includes (1) raw material supply, (2) transportation processes, and (3) processing operations, including

operations such as melting, mixing, fabrication, finishing, curing, cooling, trimming, packaging and loading for transport delivery. Commonly referred to as a "cradle-to-gate" life cycle assessment.

program operator: Independent agency that supervises and confirms the full environmental product declaration development process in accordance with ISO 14025.

raw material supply: Upstream processes which can include allocations, extraction, refinement, reclamation, handling and processing of the constituents used in producing the material or product.

transportation processes: Includes transportation of raw, reclaimed or recycled material constituents from the supplier to the gate of the manufacturer, producer or fabricator. Includes transport of related waste products.

6-1.06C Submittals

At least 15 days before submitting environmental product declarations, you must register on the Department's Data Interchange for Materials Engineering. Follow the registration process at:

https://dime.dot.ca.gov/

Submit available environmental product declarations for applicable materials or products as informational submittals to the Department's Data Interchange for Materials Engineering and provide PDF copies to the Engineer.

Add to section 6-2.01A with:

Material testing for this project will be provided by the City as set forth in Section 6 "Control of Materials" of the State Standard Specifications.

The City uses a Quality Assurance Program (QAP) to ensure a material is produced to comply with the Contract.

Samples, certificates of compliance, list of materials and material sources, access to facilities, requests for testing and all other data relating to material testing shall conform to Section 6 "Control of Materials" of the State Standard Specifications. Contractor shall provide the Engineer with three (3) working days' notice of the need for materials testing.

The Engineer will deduct the costs for testing of materials and work found to be unacceptable, as determined by the tests performed by the Department, and the costs for testing of material sources identified by the Contractor which are not used for the work, from moneys due or to become due to the Contractor. The amount deducted will be determined by the Engineer.

Full compensation for conforming to all requirements specified in this section, "Control of Materials," shall be considered as included in the contract price paid for other items of work and no additional compensation will be allowed.

^^

7 LEGAL RELATIONS AND RESPONSIBILITY TO THE PUBLIC

Add to section 7-1.02M(2) of the RSS:

Hydrocarbon-fueled engines, both stationary and mobile, must be equipped with spark arresters pursuant to Pub Res Code § 4442 except for either of the following:

1. Motor trucks, truck tractors, buses, or passenger vehicles
2. Equipment powered by properly maintained exhaust-driven turbo-charged engines or equipped with scrubbers with properly maintained water levels

Each toilet must have a metal ashtray at least 6 inches in diameter by 8 inches deep, half-filled with sand, and within easy reach of anyone accessing the facility.

Locate flammable materials at least 50 feet away from equipment service, parking, and gas or oil storage areas. Each small mobile or stationary engine site must be cleared of flammable material for a radius of at least 15 feet from the engine.

Before clearing and grubbing, clear a fire break at the outer limits of the areas to be cleared and grubbed. Where clearing and grubbing limits allow, use a minimum fire break width of 20 feet. Each area to be cleared and grubbed must be cleared and kept clear of flammable material such as dry grass, weeds, brush, downed trees, oily rags and waste, paper, cartons, and plastic waste.

Cal Fire, USFS, and BLM have established the following adjective class ratings for 5 levels of fire danger for use in public information releases and fire protection signing: “low,” “moderate,” “high,” “very high,” “extreme.” Obtain the fire danger rating daily for the project area from the nearest Cal Fire unit headquarters, USFS ranger district office, or BLM field office. Monitor the National Weather Service daily forecasts for “fire weather watches” and “red flag warnings” covering the project’s locations.

If the fire danger rating is “extreme”, or “very high” or a “fire weather watch” is issued, then:

1. Falling of dead trees or snags must be discontinued.
2. No open burning is permitted and fires must be extinguished.
3. Welding must be discontinued except in an enclosed building or within an area cleared of flammable material for a radius of 25 feet.
4. Blasting must be discontinued.
5. Smoking is allowed only in automobiles and cabs of trucks equipped with an ashtray or in cleared areas immediately surrounded by a fire break unless prohibited by other authority.
6. Vehicular travel is restricted to cleared areas except in case of emergency.
7. Notify the City of Roseville Fire Department of planned activities as soon as the above fire rating is issued, and construction activities are planned within the project limits.

If the fire danger rating is “extreme” or a “red flag warning” is issued, take the precautions specified for a “very high” fire danger rating or a “fire weather watch” issuance, except:

1. Smoking is only allowed in automobiles and cabs of trucks equipped with an ashtray.
2. Work of a nature that could start a fire requires that properly equipped fire guards be assigned to such operation for the duration of the work.

The Engineer may suspend work wholly or in part due to hazardous fire conditions. The days during this suspension are non–working days. If field and weather conditions become such that the work is suspended, section 7-1.02M(2) will not be enforced for the period of the suspension.

Add to section 7-1.03:

The use of flagmen, barricades and construction signing shall comply with the current edition of the MUTCD and/or State of California Manual of Traffic Controls for "Construction and Maintenance Work Zones" or as required by the Engineer. All construction traffic control devices shall be in place and operational prior to beginning work or different phases throughout the contract.

The Contractor shall submit at the Pre-Construction meeting a plan showing traffic control measures, haul routes and / or detours for vehicles and pedestrians affected by the construction work to the Engineer for review and acceptance. A minimum of 5 working days will be required to review and provide the Contractor with comments on the plan. The Contractor will not be allowed to begin work until a traffic control plan has been accepted by the Engineer. A copy of the traffic control plan/detour plan must be kept at the job site at all times.

Unless otherwise approved by the City or provided for in these specifications, construction activities which are under City contract shall not be permitted at any time other than between the hours of 7:00 a.m. and 7:00 p.m., Monday through Friday, and between the hours of 8:00 a.m. and 8:00 p.m. on Saturday, when approved by the City, including state, federal and designated holidays.

The Contractor shall be responsible for informing the public of the traffic conditions existing within the construction area at all times by placement of appropriate warning and advisory signs. The Contractor shall provide and maintain all traffic control and safety items. The Contractor assumes sole and complete responsibility for job and site conditions during the course of construction, including safety of all persons and property. This requirement shall apply continuously 24 hours/day and shall not be limited to normal working hours.

Whenever vehicles or equipment are parked within a traffic lane, the shoulder area shall be closed with fluorescent traffic cones or portable delineators; placed on a taper in advance of the parked vehicles or equipment and along the edge of the pavement at 25-foot intervals to a point not less than 25 feet past the last vehicle or piece of equipment. A minimum of 9 cones or portable delineators shall be used for the taper. A C23 (Road Work Ahead) or a C24 (Shoulder Work Ahead) sign shall be mounted on a telescoping flag tree with flags. The flag tree shall be placed in a location approved by the Engineer.

Minor deviations from the requirements of this section concerning hours of work which do not significantly change the cost of the work may be permitted upon the written request of the Contractor, if in the opinion of the Engineer public traffic will be better served and the work expedited. Such deviations shall not be adopted until the Engineer has indicated his written approval. All other modifications will be made by contract change order.

The Contractor shall notify local residents 72 hours prior to cutting off their access for periods in excess of 2 hours. Notice must be given in writing two days prior to cutting off access and verbally the evening prior to cutting of access. The Contractor shall cooperate with local residents for access to the maximum extent physically possible.

The Contractor shall notify businesses 72 hours prior to impacting their driveway access. The Contractor shall cooperate with businesses for access to the maximum extent physically possible. If two driveways access a single business, one of those driveways shall remain accessible at all

times. If only one driveway is used for access to a business, half of that driveway shall remain open at all times.

Personal vehicles of the Contractor's employees shall not be parked on the traveled way or shoulders, including any section closed to public traffic. No equipment will be allowed to be parked within any traffic lane or median after work hours.

The Contractor shall notify the Engineer of his intent to begin work at least 3 days before work is begun. The Contractor shall cooperate with local authorities relative to handling traffic through the area and shall make his own arrangements relative to keeping the working area clear of parked vehicles.

Ten days prior to any City approved road or lane closures, the Contractor shall notify the Engineer (phone 916-746-1300). The Contractor shall notify the Engineer and seventy-two (72) hours in advance of any revisions to the road or lane closure schedules.

Full compensation for complying with the above requirements shall be considered as included in the payment for the various contract items of work involved, and no additional compensation will be allowed.

Replace the 7th paragraphs of section 7-1.04 with:

Provide flaggers whenever necessary to ensure that the public is given safe guidance through the work zone. Flagging must comply with section 12-1.

^^

8 PROSECUTION AND PROGRESS

Add to section 8-1.02 with:

Attention is directed to the provisions in Section 8-1.02, "Schedule" of the Standard Specifications and these special provisions.

In addition to Section 8-1.02, "Schedule," of the State Standard Specifications, the Contractor shall submit a draft progress schedule to the Engineer at the pre-construction meeting, final work progress schedule 10 days prior to work commencement of work, and within 5 working days of the Engineers written request at any other time. The progress schedule shall state the location of work with stationing, the anticipated begin and completion dates and the type of construction operation anticipated for the locations of work with stations. Work that exceeds the stated completion date shall be understood as being out of conformance with the progress schedule and these Special Provisions.

The progress schedule shall clearly show the sequence and interdependence of construction activities and shall list specifically activities for obtaining, delivering, installing and completing of each major piece of equipment, materials and other supplies.

The construction schedule shall:

a) Be a calendar-time scaled network diagram.

b) Include time for the Engineer to review submittals or inspect the work.

c) Identify the activities, which constitute the controlling operation or critical path.

The Contractor's schedule must minimize impacts to local residents, business owners, traffic and pedestrians. Where segments of the project work can be completed to avoid on-going impacts to adjacent property owners or the general public, such work must be scheduled to achieve this goal.

At the discretion of the Engineer, the Contractor shall attend a meeting one day per week for the duration of the project to discuss the project's schedule and construction issues with the City. Meetings will be held at a location to be determined at a later date by the City.

Once each month, or as deemed necessary by the Engineer, the Contractor shall submit a revised progress schedule and participate with the Engineer in a schedule review to update activity progress.

Strict conformance to the progress schedule shall be maintained and revisions to the progress schedule may be allowed only upon written approval by the Engineer.

Scheduling of change orders or extra work orders is the responsibility of the Contractor. The Contractor shall revise the schedule to incorporate all activities involved in completing the change orders or extra work order and submit it to the Engineer for review and approval. With the concurrence of the Engineer, change or extra work orders of a magnitude less than $500 do not need to be scheduled, unless the order affects the project schedule or outside parties.

If the Engineer finds the Contractor is entitled to an extension of any completion date under the provisions of the contract the Engineer's determination of the total number of days extension will be based upon the current analysis of the schedule and upon data relevant to the extension.

The Contractor acknowledges and agrees that delays to non-critical activities (those with float) will not be the basis for a time extension. Non-critical activities are those activities which, when delayed, do not affect the contract completion date. All float time will jointly belong to the City and Contractor.

Payment for work under this section shall be deemed included in other contract items, and no additional compensation shall be allowed therefor.

Replace paragraphs of section 8-1.04B with:

The Contractor shall begin work within 15 days after receiving the "Notice to Proceed" letter executed by the Director of Public Works or authorized staff and shall thereafter diligently prosecute the work to completion.

Preconstruction Meeting – A preconstruction meeting shall be held between the Contractor and the Engineer for the purpose of discussing the scope of work, contract drawings, specifications, existing conditions, materials to be tested, equipment to be used, and all essential matters pertaining to the prosecution and the satisfactory completion of the project as required. The Contractor's representative at this conference shall include all major superintendents for the work and may include major subcontractors and material suppliers.

Add to section 8-1.05 with:

All work, including punch list items, shall be completed within 66 **working days** from the beginning date specified in the **Notice to Proceed letter**. All punch list items shall be completed within the 66 working days prescribed above. A working day is defined as any weekday which is not a designated holiday listed in Section 5-1.01, "General".

Add to section 8-1.06 with:

In addition to the requirements specified in Section 8-1.06, “Suspensions”, of the State Standard Specifications, the following shall apply:

Suspensions of Work Ordered by the Engineer – If the performance of all or any portion of the work is suspended or delayed by the Engineer in writing for an unreasonable period of time (not originally anticipated, customary, or inherent to the construction industry) and the Contractor believes that additional compensation or contract time is due as a result of such suspension or delay, the Contractor shall submit to the Engineer in writing a request for adjustment within seven (7) calendar days of receipt of the notice to resume work. The request shall set forth the reasons for such adjustment.

Upon receipt, the Engineer will evaluate the Contractor’s request. If the Engineer agrees that the cost or time or cost and time required for the performance of the contract has increased as a result of such suspension and the suspension was caused by conditions beyond the control of and not the fault of the Contractor, its suppliers, or subcontractors at any approved tier, and not caused by the weather, the Engineer will make an adjustment (excluding profit) and modify the contract in writing accordingly. The Engineer will notify the Contractor of this determination whether or not an adjustment is warranted. No contract adjustment will be allowed unless the Contractor has submitted the request for adjustment within the time prescribed.

No contract adjustment will be allowed under the provisions specified in this section to the extent that performance would have been suspended or delayed by any other cause, or for which an adjustment is provided for or excluded under any term or condition of this contract.

Any contract adjustment warranted due to suspension of work ordered by the Engineer will be made in the same manner as provided for right-of-way delays in Section 8-1.07 “Delays”, of the State Standard Specifications.

Add to section 8-1.10 with:

The Contractor shall pay to the City of Roseville the sum of **$1,900 per day**, for each and every calendar day's delay in finishing the work (including resident engineer and inspection time) in excess of the number of working days prescribed.

Any progress payment made after the completion date shall not be construed as a waiver of liquidated damages.

^^

9 PAYMENT

Add to section 9-1.02A with:

Payment for all work bid at a price per unit of measurement shall be based upon actual quantities of work as measured upon completion, unless otherwise noted. The City does not expressly or by implication agree that the actual amount of work or material of any class will correspond to the estimated quantities given in the proposal. The Contractor shall make no claim for anticipated profits, or loss of profit for damages, or for any extra payment whatsoever because of any

difference between the amount of work actually done or material furnished and the estimated amount.

Replace section 9-1.06B and 9-1.06C with:

If the total bid item quantity differs from the quantity shown on the Bid Item List, no adjustment in unit price or lump sum cost will be made.

Replaced the 1st paragraph of section 9-1.16A with:

The Contractor shall submit all requests for progress payments using the forms included in Appendix B:

Form CC 1: Progress Payment Request - This form is to be completed and signed by the Contractor and attached as a cover sheet to each request for payment. This form will be mandatory on all contract payment requests.

Form CC2: Progress Payment Request (Detail) - This form may be used by the Contractor to provide the detail required to verify the payment quantities. (City will accept the Contractor's form if it provides the required information.)

Form CC3: Quantity Changes Verification Form - This form is required before any payment can be made based on actual quantities exceeding estimated quantities. At the conclusion of the project, the City will issue a "Balancing Change Order" incorporating all quantity increases and decreases in the contract item of work.

Add to section 9-1.17D(1):

The Contractor shall submit Form CC4: Final Release Form. This form must accompany all requests for final payment. (See Appendix B).

^^

DIVISION II GENERAL CONSTRUCTION

13 WATER POLLUTION CONTROL

Add to the end of section 13-1.01A:

Submit a water quality annual report for each reporting period from July 1st to June 30th.

Add to the end of section 13-3.01A:

This project's risk level is 2.

Replace the paragraphs in section 13-3.01D(2) with:

Discharges of stormwater from the job site must comply with the permit issued by the 5S/Central Valley RWQCB for National Pollutant Discharge Elimination System (NPDES) Permit (Order No. 2003-0005-DWQ), Permit No. CAS000004. The 5S/Central Valley RWQCB permit governs stormwater and

nonstormwater discharges resulting from construction activities at the job site. The 5S/Central Valley RWQCB permit may be viewed at City of Roseville Publics Work Counter.

Payment of Water Pollution Control and Job Site Management shall be considered in the various items of work and no separate payment will be made therefor.

^^

14 ENVIRONMENTAL STEWARDSHIP

Add to the end of section 14-1.02:

An ESA exists on this project.

Before starting job site activities, install temporary high visibility fence to protect the ESA and mark its boundaries.

Install signs 100 feet apart along the length and at the ends of the temporary high visibility fence identifying the area as an ESA. Place the top of each sign flush with the top of the fence.

The signs must:

1. Be weatherproof and fade-proof
2. Be from 8-1/2 to 11 inches high and from 11 to 14 inches wide
3. Have the following message in black letters: "WARNING. THIS FENCE SHALL NOT BE REMOVED OR RELOCATED WITHOUT WRITTEN AUTHORIZATION FROM THE CITY OF ROSEVILLE."

The message must be legible from a distance of 20 feet by persons with 20/20 vision or vision corrected to 20/20.

The signs may be made of laminated printed paper attached to an inflexible weatherproof backer board.

Attach the signs to the temporary high visibility fence with tie wire or locking plastic fasteners.

Maintain the signs until Contract acceptance.

ESA signs must:

1. Be weatherproof and fade-proof
2. Be from 8-1/2 to 11 inches high and from 11 to 14 inches wide
3. Have a message that is legible from a distance of 20 feet by persons with 20/20 vision or vision corrected to 20/20
4. Be attached to the ESA barrier with tie wire or locking plastic fasteners

The signs may be made of laminated printed paper attached to an inflexible weatherproof backer board.

Access to an ESA other than that described is prohibited.

Add to section 14-1.02

Temporary High Visibility Fence shall be measured per linear foot. Payment for Temporary High Visibility Fence shall include full compensation for furnishing all the labor, materials, tools, equipment, incidentals and for doing all the work involved installing temporary high visibility fence, as shown on the Plans, as specified in the State Standard Specifications, these Technical Specifications and as directed by the Engineer and no additional compensation will be allowed.

Add to the 1st paragraph of section 14-6.03A:

This project is within or near habitat for the regulated species shown in the following table:

Regulated Species

Federally listed threatened Valley elderberry longhorn beetle (*Desmocerus californicus dimorphus*) and its obligate host, elderberry shrubs (*Sambucus nigra* ssp. *caerulea*).
Federally threatened Central Valley steelhead (*Oncorhynchus mykiss*) and associated Critical Habitat, and Central Valley fall-run Chinook salmon (*Oncorhynchus tshawytscha*) and associated Essential Fish Habitat (EFH).

This project includes the sensitive habitats shown in the following table:

Sensitive Habitats

Jurisdictional wetlands
Jurisdictional Waters of the U.S.
Riparian
Oak Woodland

Add to section 14-6.03A:

Contractor's attention is directed to the requirements in the approved Dry Creek Greenway East environmental document and permits for this project. All mitigation measures presented in the approved permits and environmental document must be implemented.

Contractor's attention is directed to the Dry Creek Greenway East Phase 1 plan sheets provided in Appendix A. All tree preservation measures presented on the Dry Creek Greenway East Phase 1 Trail project notes sheets and grading sheets provided in Appendix A must be implemented.

Pursuant to Section 21081.6 of the CEQA Guidelines, a Mitigation Monitoring Plan (MMP) has been established for this project. The purpose of this program is to assure diligent and good faith compliance with the Mitigation Measures which have been recommended in the environmental document, and adopted as part of the project or made conditions of project approval, in order to avoid or mitigate potentially significant effects on the environment. The Contractor shall be responsible to read and adhere to the conditions of the mitigations approved in the Environmental Document.

The following mitigation measures must be implemented:

- Mitigation Measure 4.3-3a: Avoidance and Minimization Measures:

  The following measures shall be implemented to avoid or minimize effects to VELB and/or its habitat during construction of the proposed project.

  a. A worker awareness training program for construction personnel shall be conducted by a qualified biologist prior to beginning construction activities. The program shall inform all construction personnel about the life history and status of the beetle, requirements to avoid damaging the elderberry plants, and the possible penalties for not complying with these requirements. Written documentation of the training shall be submitted to the USFWS within 30 days of its completion.

  b. If elderberry shrubs can be retained within the project footprint, the City shall avoid indirect impacts by implementing the following measures, to the extent feasible, or equivalent measures agreed to in consultation with USFWS. Minimization measures include:

     1. Avoidance Area. An avoidance area shall be established at least 20 feet from the drip-line of an elderberry shrub for any activities that may damage or kill the elderberry shrub (e.g., trenching, paving, etc.).

     2. Fencing. All areas to be avoided during construction activities shall be fenced and/or flagged as close to construction limits as feasible.

3. Signage. Signage shall be posted every 50 feet along the buffer area with the following information, “This area is habitat of the valley elderberry longhorn beetle, a threatened species, and must not be disturbed. This species is protected by the Endangered Species Act of 1973, as amended. Violators are subject to prosecution, fines, and imprisonment.” The signs shall be clearly readable from a distance of 20 feet and must be maintained for the duration of construction.

4. Timing. To the extent feasible, all activities that could occur within 165 feet of an elderberry shrub, shall be conducted outside of the VELB flight season (March - July).

5. Erosion Control and Revegetation. Erosion control measures will be implemented to restore areas disturbed within 165 feet of elderberry shrubs and the affected area will be re-vegetated with appropriate native plants.

6. Chemical Usage. Herbicides will not be used within the drip-line of the shrub. Insecticides will not be used within 100 feet of an elderberry shrub. All chemicals will be applied using a backpack sprayer or similar direct application method.

7. Mowing. Mechanical weed removal within the drip-line of the shrub shall be limited to the season when adults are not active (August - February) and shall avoid damaging the elderberry.

8. Pre-construction and post-construction surveys. Pre-construction surveys shall document compliance with mitigation measures. The post-construction survey shall confirm that there was no additional damage to any of the elderberry shrubs than as described in this document.

9. Construction monitoring. A qualified biologist shall monitor the work area at project-appropriate intervals to assure that all avoidance and minimization measures are implemented. The amount and duration of monitoring will depend on the project specifics and shall be discussed with a USFWS biologist.

10. Elderberry Shrub Protection and Management Plan. The City will develop as part of the Section 7 consultation process with USFWS for the Dry Creek Greenway Multi-Use Trail project an elderberry shrub protection and management plan that will include how the buffer areas are to be protected, restored, and maintained after construction is completed and the City will ensure that ground disturbing activities on the project site do not alter the hydrology for shrubs to be protected or otherwise affect the likelihood of vigor or survival of elderberry shrubs. The Elderberry Shrub Protection and Management Plan shall be consistent with the City’s Open Space Preserve Overarching Management Plan.

- Mitigation Measure 4.3-4: Nesting Raptors: If any construction activities are scheduled to occur during the nesting season (February 15 through August 31), a pre-construction nesting bird survey must be conducted by a qualified biologist two weeks prior to construction to determine the presence/absence of nesting birds within the project area. Impacts to nesting raptors shall be avoided by establishing appropriate buffers around active nest sites identified during preconstruction raptor surveys. No project activity shall commence within the buffer areas until a qualified biologist has determined the young have fledged, the nest is no longer active, or reducing the buffer, in coordination with CDFW, would not likely result in nest abandonment. Monitoring of the nest by a qualified biologist during construction activities shall be required if the activity has potential to adversely affect the nest. Trees shall not be removed during the breeding season for nesting raptors unless a survey by a qualified biologist verifies that there are not active nests within the trees or within 500 feet of the trees proposed to be removed. A qualified biologist must be present on site during initial ground disturbance.

- Mitigation Measure 4.3-8: Avoid impacts or mitigate for impacts to Valley Oak Woodland, and other Sensitive Vegetation Alliances and Associations: To the maximum extent feasible, oak and riparian trees shall be avoided where possible and protection measures shall be implemented by

the Contractor to protect oak woodlands, riparian areas and associated native trees from project-related impacts.

Full compensation for completing all work associated with all environmental and permitting requirements, including all mitigation measures is considered as included in the various bid items and no additional compensation will be allowed therefor.

^^

DIVISION III EARTHWORK AND LANDSCAPE

17 GENERAL

Add to section 17-2.01:

Vegetation shall be cleared and grubbed only within the excavation and embankment slope lines. Removal of existing tree stumps and trees less than 6" diameter, as shown on plans, is included in clearing and grubbing. During the Pre-construction meeting and prior to site mobilization, the Contractor shall coordinate tree removal of trees designated for removal with City of Roseville – Park Maintenance Division staff. Tree stumps, logs and downed trees, within the limits of demolition, shall be removed as part of the Contractor's clearing and grubbing of the site.

Do not injure standing trees, plants, and improvements shown to be protected or not marked for removal.

Replace section 17-2.04 Payment:

Full compensation for all work associated with Clearing and Grubbing, including all tree trimming, is considered as included in the lump sum price paid for Clearing and Grubbing and no additional compensation will be allowed therefor.

Trees smaller than 6" diameter are considered as general clearing and grubbing and will not be paid for separately. Logs, stumps and downed trees are considered as general clearing and grubbing.

^^

20 LANDSCAPE

20-1 LANDSCAPE AND IRRIGATION IMPROVEMENTS

GENERAL

The work consists of:

1. Planting of new trees and shrubs shall be as shown on the project plans

Contractor is directed to Section 15 "Existing facilities" section of the State Standard Specifications for rerouting existing irrigation lines, sprinkler heads, and landscaping and repair any that would be damaged with the installation of the fence.

Any necessary planting shall conform to the provisions in Section 20, "Landscape," of the State Standard Specifications. Work consists of planting trees and plants as shown on plans.

See DIVISION XI MATERIALS for additional specifications related to planting and irrigation materials.

Plant materials shall meet or exceed the American Nurserymen Association standards, as specified in the current edition of American Standard for Nursery Stock published by the American Association of Nurserymen, Inc. Provide plant materials in accordance with applicable California Agricultural Codes.

Trees and plants shall be guaranteed to be in good, healthy, and flourishing condition of active growth at the end of two growing years from the date of final acceptance by the Engineer of the planting work.

Plants shall be vigorous and of normal habit of growth and shall be free of girdling roots, disease, insects, insect eggs and larvae. Trees shall have straight trunks with the leader intact, unless otherwise specified. All abrasions and cuts shall be completely callused over. Plants shall be of standard size for container and species, unless specified otherwise in the plans. Any undersized material shall be rejected. The heights of plants and of branching shall be measured where the branches are in normal positions. Plants shall not be pruned prior to delivery, except upon special approval.

Irrigation shall conform to the provisions in Section 20-10, “Existing Landscape,” of the State Standard Specifications, as amended by the latest version of the Revised Standard Specifications.

Prior to beginning any work adjacent to an existing irrigation system, the Contractor will coordinate with the Engineer and the property owner to test the irrigation system in the presence of the Engineer and the owner, in order to determine the limits and condition of the system. Note any existing deficiencies and outline proposed modifications necessary to permit construction of the proposed project improvements. Provide this information to the Engineer and the property owner prior to making any modifications to the system.

During construction, protect the irrigation systems to remain in place. Cap, relocate, and modify irrigation system as necessary to provide a working system that completely irrigates the existing landscaping similar to pre-project conditions. Schedule and test the system in the presence of the Engineer and the property owner.

It is the intention of this section of the Specifications, together with the plans, to accomplish the work of installing an irrigation and water supply system, which will operate efficiently and provide full coverage. The plans indicate the general arrangement of piping and equipment, but do not necessarily indicate all offsets, fittings, and accessories that may be required. The Contractor shall furnish any incidental materials and labor not specifically called for but required to complete the work intended.

MEASUREMENT AND PAYMENT

Tree and shrub planting shall be measured on a per unit (EA) basis.

Irrigation elements shall be measured and paid for per unit shown on the bid item list and shall include full compensation for furnishing all the labor, materials, tools, equipment and incidentals and for doing all the work involved in installing the irrigation equipment for the new landscaping as shown on the plans, testing and repairing the irrigation system complete in place, as shown on the Plans, as specified in the State Standard Construction Specifications, these Technical Specifications and as directed by the Engineer and no additional compensation will be allowed.

20-2 THREE-MONTH MAINTENANCE FOR LANDSCAPE ESTABLISHMENT

General

Work in this section includes the growing and maintenance operations necessary to establish the planting as installed per the project plans

Note that final acceptance and completion of the project will not occur until the end of the 3-month landscape maintenance period

Submittals

Soil Testing: Contractor shall collect 4 one-quart samples in the proposed planting areas and submit to Soil and Plant Laboratory of Santa Clara, (408) 727 0330, or other approved laboratory, for maintenance period fertilizer recommendations. Test results shall be made available to the City's Representative. Sample shall be a representative composite taken from several planting areas. Cost of soil test shall be paid for by the Contractor.

Materials

Fertilizer: Used during the course of the maintenance period shall be determined by soils test required under Part 1 of this Section. For bidding purposes only, assume the use of blood and bone meal, fishmeal, kelp or compost tea. Available from Lyngso Garden Materials, www.lyngsogarden.com.

Water: During the course of construction period water shall be paid for by the Contractor.

Herbicide: Herbicide shall NOT be used. use Integrated Pest Management for weed control as well as measures described on following page.

Execution

Time Limits: The maintenance period shall commence from the date of substantial completion as defined below, and extend for a 2-year period thereafter, or until the acceptance of Final Completion, whichever is longer.

Fertilizer Application: Fertilizer(s) shall be applied per Soil and Plant Laboratory recommendations. For bidding purposes, assume initial application to be four weeks after planting and subsequent applications to be at 45-day intervals.

Herbicide Application: Herbicide shall NOT be used. All planting areas shall be kept weed free by non-herbicide methods during this time period.

Weed Management:

- Identify key weeds: Contractor will identify key weeds present and design weed manage program to target those species.

- Invasive plants: Invasive plant species may have been included in the plantings inadvertently. Seedlings and/or suckers from those plants shall be removed by the Contractor. Refer to www.bayfriendly.org or www.cal-ipc.org for a list of invasive species. Remove all invasive plants not planted intentionally as noted in the Section below

- Controls: Cultural/Mechanical/physical methods will be used as the first choice in weed management.

    1) Monitor planting areas frequently to identify and eradicate weeds early in the growth stage prior to their setting seed.

    2) Cut or pull weeds using hand operated equipment where possible.

    3) Mulches shall be maintained at all times over soil surface that is not covered by vegetation.

Basic Requirements: All planting areas shall be kept weed-free during the maintenance period. Contractor shall mow the hydroseeded areas 2-3 times per growing season (mid-February – June 1st). All pest and disease control shall be the Contractor's responsibility. Settlement of soil and plants and soil erosion shall be repaired and areas replanted as required. No chemicals or herbicides nor gas-driven blower backpacks shall be used in the City of Roseville per the City's environmental policies.

Final Review: Contractor shall request a final review of the project at least five days in advance of the proposed date. Failure to request this notice shall automatically extend the date of completion. The maintenance period will continue until project is deemed complete.

Measurement and Payment
Full compensation of implementing a three month maintenance for landscape establishment shall be considered as included in the various items of work and no additional compensation will be allowed therefor.

DIVISION VIII MISCELLANEOUS CONSTRUCTION

80 FENCES

Replace section 80 with:

80-1 General

80-1.01 General

Construct the fencing as shown on the plans, per the State Standard Specifications, and these Special Provisions.

80-1.02 Post Holes

Measure post spacing parallel to the ground slope. Place each post in a vertical plumb position.

Drill post hole shafts plumb and dispose all removed material offsite. Dewater the holes and ensure they are clean before placing concrete.

Concrete for post holes shall follow the requirements for Minor Concrete.

80-1.03 Steel

Steel types required for the steel fence members are shown on the plans. Steel used in fencing is considered Miscellaneous Metal, and the following requirements of Section 75 of the State Standard Specifications apply: 75-1.01, 75-1.02A, 75-1.04, and 75-3.02C.

Submit copies of steel mill orders when orders are placed. Submit certified mill test reports before fabrication.

Store steel above-ground on supports. Keep material clean and dry.

80-1.04 Shop Drawings

Submit steel shop drawings for the fencing showing welding sequences and procedures, layout of the structure, details for connections not shown or dimensioned on the plans, material specifications and grade, proposed deviations from plans or specifications. Shop drawings only need cover a typical set of bays showing the walk gate, the hinged frame, a double post bay, and a typical bay.

80-1.05 Coating

Coat the steel as shown on the plans.

80-1.06 Redwood Slats

Redwood shall be of the type and grade shown on the plans. Wood

80-1.06 Redwood Preservative

Redwood shall be of the type and grade shown on the plans.

Deliver, store, and handle lumber per Section 57-1.02A of the State Standard Specifications.

Provide submittals per Section 57-2.01A(3) of the State Standard Specifications.

Redwood must be inspected and grade marked under the rules and specifications of the *Standard Specifications for Grades of California Redwood Lumber* published by Redwood Inspection Service.

The provisions of Sections 57-2.01B(3) and 57-2.01C apply.

80-2 Payment

The contract price paid per each fence post foundation shall include full compensation for furnishing all the labor, materials, tools, equipment, incidentals and for doing all the work involved in drilling, cleaning, and dewatering holes, disposing removed material, placing concrete, and placing rebar hoops, complete in place, as shown on the Plans, as specified in the State Standard Specifications, these Technical Specifications and as directed by the Engineer and no additional compensation will be allowed.

The contract price paid per each tubular steel fence post shall include full compensation for furnishing all the labor, materials, tools, equipment, incidentals and for doing all the work involved in providing steel of the type specified, coating, placing in concrete shafts, post-installed anchors, and baseplate, complete in place, as shown on the Plans, as specified in the State Standard Specifications, these Technical Specifications and as directed by the Engineer and no separate payment will be allowed.

The contract price paid per linear foot for tubular steel fence rails shall include full compensation for furnishing all the labor, materials, tools, equipment, incidentals and for doing all the work involved in providing steel of the type specified, coating, and welding, complete in place, as shown on the Plans, as specified in the State Standard Specifications, these Technical Specifications and as directed by the Engineer and no separate payment will be allowed.

The contract lump sum price paid for all hinged frames shall include full compensation for furnishing all the labor, materials, tools, equipment, incidentals and for doing all the work involved in providing steel of the type specified, coating, hinges, welding, and any incidental grading or removal of vegetation necessary for the gates to swing freely, complete in place, as shown on the Plans, as specified in the State Standard Specifications, these Technical Specifications and as directed by the Engineer and no separate payment will be allowed.

The contract square foot price paid for Redwood shall include full compensation for furnishing all the labor, materials, tools, equipment, incidentals and for doing all the work involved in grading, marking, delivering to site and storing appropriately, staining and sealing, and connecting to steel frames, complete in place, as shown on the Plans, as specified in the State Standard Specifications, these Technical Specifications and as directed by the Engineer and no separate payment will be allowed.

SECTION 32 8423 – PLANTING IRRIGATION

PART 1 - GENERAL

SUMMARY

Includes But Not Limited To:

1. Furnish and install planting irrigation system as described in Contract Documents complete with accessories necessary for proper function.

Related Sections:

2. Section 32 9113 Soil Preparation
3. Section 32-9120 Topsoil Placement and Grading
4. Section 32 9300 Plants

ADMINISTRATIVE REQUIREMENTS

Coordination:

5. Pre-Installation Conference: Schedule pre-installation conference before irrigation system installation begins.
6. Substantial Completion Walkthrough: With Project Manager or Owner's representative, plan and provide walk through after completion of irrigation system.
7. Irrigation Final Acceptance: With Project Manager or Owner's representative, plan and provide final walk through after completion of all work listed on Substantial Completion walk through list provided by Project Manager.

Pre-Installation Conference:

8. Participate in mandatory pre-installation conference:
   a. Irrigation Subcontractor's Representative and Foreman responsible for installation of irrigation system required to be in attendance.
9. Schedule pre-installation conference before irrigation system installation begins.
10. Review the following during the Pre-Installation Conference:
    a. Within project site, provide one (1) installed example of each type of irrigation detail for review and approval by Project Manager and Owner prior to beginning site work.
    b. Review required tests and inspections.
    c. Review Controller requirements.

Sequencing:

11. Install sleeves before installation of cast-in-place concrete site elements and paving, if sleeving is a part of landscape contract.

SUBMITTALS

Product Data:

12. Manufacturers cut sheets for each element of the system.

Informational Submittals:

13. Test And Evaluation Reports:
    a. Results of main line service pressure test before beginning work on system should be submitted as a report following testing and before burial of mainline.

Manufacturer Instructions:

14. Manufacturer's printed literature on operation and maintenance of operating elements of system.

15. Instruction Manual:
    a. Includes complete directions and instructions for system operation and maintenance, including winterizing, controller program worksheet and annual service and scheduling calendar based on local site specific conditions.
16. Complete instructions on how to drain entire backflow preventer to prevent freezing.

Qualification Submittals:

17. Irrigation Subcontractor:
    a. Minimum five (5) years experience in irrigation sprinkler installations.
    b. Minimum five (5) satisfactorily completed irrigation sprinkler installations in past three (3) years of projects similar in size, scope, and complexity required for this project before bidding.
    c. Produce evidence that it employs quality employees with specified experience and in a quantity sufficient to perform work of this Section within time limits established by Contractor.
    d. Agree to complete reporting documents, including:
        1) Provide Controller Instructional Training.
        2) Assist Project Manager in completing the Watering Schedule.
18. Irrigation Installer:
    a. Irrigation sprinklers shall be performed under direction of foreman or supervisor with minimum three (3) years experience in irrigation sprinkler installations similar in size, scope, and complexity.
    b. Foreman or supervisor required to attend pre-installation conference.
    c. Use trained personnel familiar with required irrigation sprinkler procedures and with interpreting Contract Documents/Plans.

Closeout Submittals:

19. Record Drawings:
    a. As installation occurs, prepare accurate record drawing to be submitted before final inspection, including:
        1) Detail and dimension changes made during construction.
        2) Significant details and dimensions not shown in original Contract Documents.
        3) Field dimensioned locations of valve boxes, manual drains, quick-coupler valves, control wire runs not in mainline ditch, and both ends of sleeves.
        4) Ohms reading report for grounding at controller and each grounding device in system.
        5) Take dimensions from permanent constructed surfaces or edges located at or above finish grade.
        6) Take and record dimensions at time of installation.
    b. Print full size copy of record drawing, color key circuits, and laminate both sides with 5 mil thick or heavier plastic. Provide 2 additional, non-mounted, 11 X 17 size copies: 1-nonlaminated and 1-laminated.
20. Operations And Maintenance Manual Data:
    a. Include in the Maintenance Manual the following information:
        1) Instruction manual that contains complete directions for system operation and maintenance, including winterizing, controller program worksheet and annual service and scheduling calendar based on local site specific conditions.
        2) Complete instructions on how to drain entire backflow preventer to prevent freezing.
        3) Manufacturer's cut sheets for each element of system.
        4) Parts lists for operating elements of system.
        5) Manufacturer's printed literature on operation and maintenance of operating elements of system.
21. Warranty Documentation:
    a. Manufacturer’s warranty information for each operating elements of system.
22. Photographs: Provide photographs prior to burial of key elements including but not limited to:
    a. Valves.

b. Drains.
c. Master Valves.
d. Flow Sensors.
e. Hydrometers.

23. Final payment for system will not be authorized until Closeout Submittals are received and accepted by Project Manager or Owners representative.

Maintenance Material Submittals:

24. Extra Components to Owner:
    a. Contractor to provide the following materials prior to the final inspection:
        1) 5 of each size of Spray Heads as specified on plans.
        2) 5 Spray nozzles of each type, size and radius as specified on plans (5 – 8Q, 5-8H, 5 – 10Q, etc.).
        3) 5 Rotator Heads as specified on plans
        4) 5 Rotator nozzles of each size and radius as specified on plans.
        5) 1 Control Valve of each type and size specified on plans.
        6) 1 Drip Zone Kit of each type as specified on plans.
        7) 1 bag for each size of emitters specified on plans.
25. Tools:
    a. Furnish following items before Final Closeout Review:
        1) One heavy-duty key for stop and waste or main shut-off valve.
        2) Square nut key for isolation valves.
        3) One quick coupler key with brass hose swivel.
        4) Keys to the controller closets.

QUALITY ASSURANCE

Regulatory Requirements:

26. Work and materials shall be in accordance with latest rules and regulations, and other applicable state or local laws.
27. Nothing in Contract Documents is to be construed as permitting work not conforming to these codes.

DELIVERY, STORAGE, AND HANDLING

During delivery, installation, and storage, protect materials from damage and prolonged exposure to sunlight.

WARRANTY

All work and materials shall be guaranteed for compliance with the contract requirements for one (1) year from date of completion of the establishment period. If unsatisfactory conditions or damage develop during the stipulated warranty period, contractor shall immediately place it in satisfactory condition. Guarantee shall also include the following:

28. Repairing or replacing defective materials or workmanship. If unsatisfactory conditions of damage develop during the warranty period that is not caused by owner's abuse or neglect, obvious vandalism, theft, or casualty to the property, it shall be deemed to be the result of faulty materials or workmanship. The contractor shall provide at no additional cost to the owner, all labor and material necessary to replace materials or to place the defective installation in a correct operating and satisfactory condition.
29. Filling and repairing depressions and replacing plantings due to settlement of irrigation system trenches.
30. Adjusting system to supply proper coverage of areas to receive water.
31. Ensuring system can be adequately drained.

32. At the end of the first season, shut off and winterize irrigation system.
33. At the beginning of the next season, re-commission system. Make adjustments and repairs as necessary to make system fully operational.

MAINTENANCE SERVICE

Initial Maintenance Service for landscape irrigation system: Provide maintenance by skilled employees of irrigation Installer. Begin maintenance immediately after final walk through the 90 day maintenance period.

34. Maintenance Period: 3 months from date of a successful final walk through as defined herein.

Continuing Maintenance Service: From Installer to Owner, in the form of a standard yearly (or other period) maintenance agreement, starting on date initial maintenance service is concluded. The services, obligations, conditions, and terms for agreement period are as follows:

35. Water Application & Scheduling:
    a. It is the responsibility of the contractor to conserve water and assure that all watering rules and regulations are followed. Any penalties, fines, or citations for watering ordinance violations shall be paid by the contractor.
    b. Irrigation shall be made by the use of the permanent irrigation systems. It is the contractor's responsibility to make sure that the irrigation system is maintained and operates properly.
    c. The irrigation contractor is responsible for the complete operation and maintenance of the irrigation systems, except as noted below. The contractor shall examine the irrigation system for damage or malfunction weekly and shall report damage or malfunction to the owner's authorized representative and irrigation manager (3rd party contract selected from Owner) in writing. If the contractor fails to report the broken or malfunctioning irrigation system components within two weeks of the breakage or malfunction, the contractor shall be responsible for all damages resulting from the broken irrigation system component.
    d. The irrigation system controller will be monitored by the irrigation manager and/or owner. Irrigation contractor to coordinate the following:
        1) Adjust watering times as to not overwater plantings. Use multiple-start times and short run times to prevent run-off.
        2) Drip systems should be left on for sufficient time to allow for saturation of the root zone.
        3) Do not allow run-off from any irrigation.
    e. When breakdowns or malfunctions exist, the contractor shall hand water, if necessary, to maintain all plant material in a healthy condition. If the irrigation repairs are major and will be billed as additional work (see items that qualify for additional work payments as outlined below), the labor costs for hand watering may also be submitted for payment as noted in the General Requirements section of these specifications. Do not wait for approval to begin hand watering if it is required to save the plantings.

36. Irrigation System Scheduled Maintenance:
    a. Each valve zone shall be observed for signs of damage on a bi-monthly basis during the irrigation season.
    b. The landscape maintenance contractor shall maintain the irrigation system, including cleaning of filter screens yearly or more often as needed, and flushing pipes, as part of this contract.
    c. Drip irrigation systems need periodic flushing to remove sediment. When flushing is necessary, it shall be performed as part of this contract. Drip systems shall be flushed at least once a year, more often as required. Open ends of drip lines and run

for at least 15 minutes at full flow to flush. It may be necessary to install flush outlets in order to flush the drip system.

d. Run-off of water from irrigation systems into or onto streets, sidewalks, stairs, or gutters is not permitted. The contractor shall immediately shut down the irrigation system and make adjustments, repairs, or replacements as soon as possible to correct the source of the run-off.

37. Irrigation System Repair:

a. The landscape maintenance contractor shall replace or repair, at the landscape maintenance contractor's expense, any irrigation components damaged, unless due to excluded damage. Repair shall be made within two weeks of the day the damage occurred. If the damage was due to excluded damage, the irrigation repairs will be paid for as additional work. The contractor shall make notification of needed repairs within two weeks of the day the damage occurred as noted in the General Requirements section of these specifications. Regardless of the cause of damage, the contractor shall take immediate action to prevent further damage by shutting off the damaged part of the irrigation system and commencing with hand watering as needed. As soon as possible after receiving written authorization to proceed, the contractor shall make repairs. The following items are considered to be minor repairs: damaged or clogged sprinkler nozzles, adjustment of sprinkler patterns or arcs, adjustment of sprinkler position (i.e; raise, lower, or straighten sprinkler head), replacement of clogged, broken, or missing barbed-style drip emitters, replacement or repositioning of drip distribution tubing smaller than 1/2 inch or 15 mm diameter. These minor repair items shall be corrected by contractor at contractor's expense.

b. Any replacement of irrigation system components shall be made with materials of the same manufacturer and model as the original equipment. Substitutions of materials other than original equipment will be approved only when the original equipment has been discontinued and is no longer available for purchase at any location. The substituted equipment must be completely compatible with the original and must be approved in advance by the owner's authorized representative.

c. All repairs to the system shall be identical to the original installation, unless approved otherwise in advance by the owner's authorized representative. If a change to the installation will result in lower future maintenance costs, less frequent breakage, or an increase in public safety, request authorization to make the change from the owner's authorized representative.

d. The contractor shall check the entire irrigation system bi-monthly for items such as dry spots and missing or malfunctioning irrigation components. Check for leaking valves, water running across sidewalks, water standing in puddles, or any other condition which hampers the correct operation of the system or the public safety. The contractor shall carefully observe plant materials for signs of wilting, indicating a lack of water. Plants which die due to irrigation failure will be considered to have died due to the contractor's negligence and shall be replaced at the contractor's expense.

e. Plastic sprinkler nozzles with bad patterns shall be replaced with new nozzles of the same flow and arc as part of the regular maintenance of the sprinkler system.

PART 2 - PRODUCTS

SYSTEM

Manufacturers:

1. Manufacturer Contact List (for reference only):
   a. Amiad www.amiadusa.com
   b. Apollo Valves by Conbraco Industries, Matthews, NC www.apollovalves.com
   c. Carson Industries LLC, Glendora, CA www.carsonind.com

d. Hunter Industries, San Marcos, CA www.hunterindustries.com
e. HydroPoint Data Systems, Inc., Petluma, CA www.hydrpoint.com
f. IPS Corporation, Compton, CA www.ipscorp.com
g. Netafim, Inc. www.netafimusa.com
h. Rain Bird Sprinkler Manufacturing Corp, Glendora, CA www.rainbird.com
i. T. Christy Enterprises, Inc. (Christy's), Anaheim, CA www.tchristy.com

Materials:

2. Pea Gravel:
   a. For use around drains, valves, and quick couplers.
   b. *1/2 inch* maximum dimension, washed rock.
3. Sand:
   a. For use of backfill around PVC pipe.
   b. Fine granular material naturally produced by rock disintegration and free from organic material, mica, loam, clay, and other deleterious substances.
4. Native Material: Soil native to project site free of wood and other deleterious materials and rocks over *1-1/2 inches.*
5. Topsoil: Approved material without rocks, roots, sticks, clods, debris, and other foreign matter over *1-1/2 inches* longest dimension.
6. Pipe, Pipe Fittings, And Connections:
   a. Pipe shall be continuously and permanently marked with Manufacturer's name, size, schedule, type, and working pressure.
   b. Pipe sizes shown on Drawings are minimum. Larger sizes may be substituted if at no additional cost to Owner.
   c. Pipe:
      1) Pressure Lines: Refer to irrigation schedule.
      2) Lateral Lines: Refer to irrigation schedule.
      3) Quick Coupler Piping: Refer to irrigation details.
   d. Fittings: Lateral Line - Same material as pipe, except where detailed otherwise. Mainline – All fittings to be sch. 80, except where detailed otherwise. All fittings 3" and larger to be Ductile Iron with self restraining fittings.
7. Sprinkler Risers:
   a. All stationary spray heads shall have pre-manufactured swing assemblies or equal approved as approved by Architect before installation – Refer to irrigation details.
   b. All 3/4" inlet rotor pop-up sprinklers shall have an adjustable pre-assembled swing assembly riser – Refer to irrigation details.
   c. All 1" inlet rotor pop-up sprinklers shall have an adjustable pre-assembled double swing joint riser – Refer to irrigation details.
   d. Pop-up rotor sprinkler heads shall have adjustable riser assembly, three ell swing joint assembly, unless detailed otherwise on Drawings – Refer to irrigation details.
   e. Pop-up sprinkler heads, shrub spray heads, bubbler heads, and stationary spray sprinkler heads shall have risers – Refer to irrigation details.
8. Automatic Irrigation Control Wiring:
   a. Control wire shall be Rain Bird 14-2 Maxi Cable. Run Maxi Cable in separate 1" gray electrical conduit. Change jacket color at all legs and label each section – note on as-built drawings. Use Blazing Maxi-cable jacket wire stripper - 8" jacket removed. Do not cut with knife. Use Paige Electric Decoder Cable Fuse Device at each leg junction. Install all wire junctions in 10" round valve box. Wire between decoder and valve shall be UF-UL listed, color coded PE insulated copper conductor direct burial size 14 and shall be located in separate 1" gray electrical conduit.
   b. Install all wire junctions in 10" round valve box.
   c. Paige Electric Cadweld Connection.
   d. Waterproof Wire Connectors:
      1) Control wire connections shall consist of a properly-sized wire nut inserted in a waterproof grease cap.
      2) Type Two Acceptable Products:
         1) DBR/Y-6 by 3M. White stress marks on bubbles must be visble for proper strain relief.
         2) Equal as approved by Architect before installation.

9. Automatic controllers – Existing on site. Consult with property manager for controller specifications.
10. Valves:
    a. Manual Drain Valves – Refer to Irrigation Schedule and Details.
    b. Automatic Valves – Refer to Irrigation Schedule.
    c. Hydrometer – Refer to Irrigation Schedule.
    d. Isolation Valves – Refer to Irrigation Schedule
    e. Quick Coupling Valves and Keys – Refer to Irrigation Schedule.
11. Valve Accessories:
    a. Valve manifolds – Refer to irrigation details.
    b. Valve Boxes And Extensions:
        1) Colors:
            1) Green: Lawn areas.
            2) Brown: Bare soil and rock areas.
        2) Type Two Acceptable Products:
            1) Carson Industries: Refer to irrigation details.
    c. Valve ID tags:
        1) Type Two Acceptable Products:
            1) Christy ID Tags.
            2) Equal as approved by Architect before use.
    d. Valve Box Supports: Standard size fired clay paving bricks without holes.
12. Drip System:
    a. Drip Valve Assembly
        1) Refer to Irrigation Schedule.
    b. Distribution Tubing:
        1) Refer to Irrigation Schedule and Details.
    c. Drip Emitters
        1) Refer to Irrigation Schedule and Details.
    d. Valve Boxes:
        1) Colors:
            1) Green: Lawn areas.
            2) Brown: Bare soil and rock areas.
        2) Type Two Acceptable Products:
            1) Carson Industries - Refer to Details.
            2) Equal as approved by Architect before use. See Section 01 6200.
13. Solvent Cement:
    a. Primer:
        1) Meet ASTM F656 standard and applicable sections of latest edition of 'Uniform Plumbing Code'.
        2) Meet NSF/ANSI standard for use on potable water applications.
        3) Low VOC emissions and compliant with LEED.
        4) Product: Weld-On P-70 primer by IPS or approved equal.
    b. PVC Solvent Cement:
        1) Heavy bodied, medium setting, high strength:
            1) Meet ASTM D2564 standard and applicable sections of latest edition of 'Uniform Plumbing Code'.
            2) Meet NSF/ANSI standard for use on potable water applications.
            3) Meet CSA standards for use in pressure and non-pressure potable water applications.
            4) Low VOC emissions and compliant with LEED.
            5) Product: Weld-On 711 Low VOC PVC Cement by IPS or approved equal.
14. Other Components:
    a. Recommended by Manufacturer and subject to Architect's review and acceptance before installation.
    b. Provide components necessary to complete system and make operational.

PART 3 - EXECUTION

EXAMINATION

Site Verification of Conditions: Perform pressure test at stub-out on main water line provided for irrigation system, or at near-by fire hydrant. Notify Architect if pressures over *100 psi* or under *75 psi* are found to determine if some re-design of system is necessary before beginning work on system.

PREPARATION

Protection:

1. Repair or replace work damaged during course of the Work at no additional cost to Owner. If damaged work is new, installer of original work shall perform repair or replacement.
2. Do not cut existing tree roots measuring over *2 inches* in diameter in order to install irrigation lines.

Layout of Irrigation Heads:

3. Location of heads and piping shown on Drawings is approximate. Actual placement may vary slightly as is required to achieve full, even coverage without spraying onto buildings, sidewalks, patios, fences, etc.
4. During layout, consult with Irrigation Designer to verify proper placement and make recommendations, where revisions are advisable.
5. Minor adjustments in system layout will be permitted to avoid existing fixed obstructions.
6. Make certain changes from Contract Documents are shown on record drawings.

INSTALLATION

Trenching and Backfilling:

7. Pulling of pipe is not permitted.
8. Excavate trenches to specified depth. Remove rocks larger than *1-1/2 inch* in any direction from bottom of trench. Separate out rocks larger than *1-1/2 inch* in any direction uncovered in trenching operation from excavated material and remove from areas to receive landscaping.
9. Cover pipe both top and sides with *2 inches* of sand as specified under PART 2 PRODUCTS. Remainder of backfill shall be topsoil as specified in Section 32 9120.
10. Do not cover pressure main, irrigation pipe, or fittings until Irrigation Designer has inspected and approved system.
11. Contractor to ensure that all pipe is properly bedded and all trenches are properly compacted. Contractor will be responsible for completely repairing settled trenches.

Sleeving and Conduits:

12. Sleeve all control wire in 1” Gray Electrical Conduit. Install in mainline trench beneath irrigation mainline with a minimum 4 inch separation. Extend conduit between and into all valve boxes. Provide 2” of foam backer rod in electrical conduit sealed with 2” of waterproof foam sealant obtained from pond equipment supplier in last 2” of conduit.
13. Sleeve water lines under walks and paving. Continue 1” gray electrical conduit with control wires under walks and paving. Extend sleeves and conduit *6 inches* minimum beyond walk or pavement edge. Cover sleeve ends until pipes and wires are installed to keep sleeve clean and free of dirt and debris.
14. Use one water pipe maximum per sleeve. Sleeve control wiring in separate sleeve.
15. Position sleeves with respect to buildings and other obstructions so pipe can be easily removed.
16. Glue all sleeve and conduit joints to keep water out.

Grades And Draining:

17. Grade piping so system can be completely drained or blown out with compressed air.
    a. Slope pipe to a minimum number of low points.
        1) At these low points, install:
            1) *3/4 inch* brass ball valve for manual drain. Do not use automatic drain valves.
            2) Install *2 inch* Class 200 PVC pipe over top of drain and cut at finish grade. Refer to details.
            3) Provide yellow hard plastic valve cap marker.
            4) Provide *three cu ft* pea gravel sump at outlet of each drain.
            5) Sumps to be installed no closer than 3 feet from any paved surface.
    b. Slope pipes under parking areas or driveways to drain outside these areas.
    c. Provide and install quick-coupling valve or valves in location for easy blowout of entire system.

Installation of Pipe:

18. Install pipe in manner to provide for expansion and contraction as recommended by Manufacturer.
19. Unless otherwise indicated on Drawings, install main lines and lateral lines connecting pop-up rotor and impact sprinklers with minimum cover of *18 inches* based on finished grade. Install remaining lateral lines, including those connecting drip tubing, with minimum of *12 inches* of cover based on finish grade.
20. Install pipe and wires under driveways or parking areas in specified sleeves *18 inches* below finish grade or as shown on Drawings. Install manual drain valves at low point in sleeve.
21. Locate no sprinkler head closer than *12 inches* from building foundation. Heads immediately adjacent to mow strips, walks, or curbs shall be *one inch* below top of mow strip, walk, or curb and have one to *3 inches* clearance between head and mow strip, walk, or curb.
22. Cut plastic pipe square. Remove burrs at cut ends before installation so unobstructed flow will result.
23. Make solvent weld joints as follows:
    a. Do not make solvent weld joints if ambient temperature is below *35 deg F.*
    b. Clean mating pipe and fitting with clean, dry cloth and apply one coat of P-70 primer to each.
    c. Apply uniform coat of 711 solvent to outside of pipe.
    d. Apply solvent to fitting in similar manner.
    e. Give pipe or fitting a quarter turn to insure even distribution of solvent and make sure pipe is inserted to full depth of fitting socket.
    f. Allow joints to set at least 24 hours before applying pressure to PVC pipe.
24. Tape threaded connections with teflon tape.
25. If pipe is 3 *inches* or larger*,* install using self restraining fittings and joints wherever change of direction occurs on PVC main pressure lines. Tighten bolts to manufacturer torque settings.

Control Valves And Controller

26. Install valves in plastic boxes with reinforced heavy duty plastic covers. Locate valve boxes within 12 inches of sidewalks and shrub bed edges with tops at finish grade. (Refer to Details).
27. Place *3 inches* minimum of pea gravel below bricks supporting valve boxes to drain box. Set valve boxes over valve so all parts of valve can be reached for service. Set cover of valve box even with finish grade. Valve box cavity shall be reasonably free from dirt and debris.
28. Wiring:
    a. Total length of wire in system is limited to 10,000 ft; maximum distance from any system device to controller is 4,000 ft.

b. Wire loops are permissible, but length of wire in loop is limited to 2,000 ft. for normal installation, it is recommended that paired wire be installed in 1 in 5 foot twist to reduce effects of nearby noise sources on communications.

29. Install Controllers, control wires, and valves in accordance with Manufacturer's recommendations and according to electrical code.
30. Extend extra control wires 24 inches and leave coiled in each valve box
31. Grounding devices as per plans and details.

Sprinkler Heads (refer to irrigation details):

32. Set sprinkler heads and quick-coupling valves perpendicular to finish grade.
33. Do not install sprinklers using side inlets. Install using base inlets only.
34. Set sprinkler heads at a consistent distance from existing walks, curbs, and other paved areas and to grade by using specified components or other method demonstrated in Pre-Construction Conference.

Drip Assembly (refer to irrigation details):

35. Install pipe providing for expansion and contraction as recommended by Manufacturer.
36. Cut tubing square and remove burrs at cut ends.
37. Locate drip emitter on uphill side of plant within rootball zone. Where significant slope does not occur, locate emitter on backside or building side of plant.
38. Set emitter to be visible to maintenance personnel.
39. Locate distribution tubing on top of soil but under filter fabric and bark or rock mulch.
40. Staple in-line tubing to ground at *6 foot* maximum intervals and within *12 inches* of ends and intersections.
41. Assembly Using 'Funny Pipe' Type Joints (refer to details).

Before installation of sprinkler heads and drip emitters, open control valves and use full head of water to flush out system.

Arrange valve stations to operate in an easy-to-view progressive sequence around building. Tag valves with waterproof labels showing final sequence station assignments. Note any changes on as-builts.

FIELD QUALITY CONTROL

Field Tests and Inspections:

42. Irrigation System:
    a. Notify Architect 2 working days minimum before conducting irrigation main line pressure test.
    b. Before backfilling main line, test pressure at *100 psi* minimum for 2 hours minimum and verify there are no leaks. Take pictures of the pressure gauge at the beginning of the 2 hours and at the end. Pressure gauge, pump and equipment for this test shall be provided by the contractor at no additional cost to the Owner. The test will be deemed acceptable if no leaks occur within the testing period. Such success shall be provided to the architect in writing prior to commencing further work. In the event that during the pressure test there is failure in the system and leaks do in fact occur, the contractor shall be responsible for repairing said leaks and beginning the pressure test again for complete 2 hour duration until full and complete success occurs with no leaks in the system. Any additional testing due to leaks shall be done at no additional cost to the Owner. Provide copies of the pictures to the Irrigation Designer.
43. Test Report:
    a. Report of Pressure Test results along with photographs of test results are to be provided to Irrigation Designer at completion of testing.
    b. Pressure test report shall be included in the Operation and Maintenance Manual.
44. Controller Testing:

a. Verify controller is installed correctly and will automatically adjust irrigation run times in response to environmental changes using sensor and/or weather information to manage watering times and frequency.

45. Pre-substantial Inspection:
    a. Project Manager will review irrigation system before substantial completion.
    b. Approval to irrigation system to be in writing.
46. Substantial Completion Walk Through:
    a. Notify Project Manager 2 working day's minimum notice of the day of request. Project Manager will inspect site and create list of non-conforming items to be resolved prior to Irrigation Final Acceptance. Date on this list will act as date of Landscape Substantial Completion.
47. Irrigation Final Walk Through:
    a. The contractor shall request a final walk through from the Project Manager by giving the Project Manager 48 hours advance notice of the day of request.
    b. Irrigation Final Acceptance will be awarded when all non-conforming work is brought into conformance.
    c. Project Manager will create signed certificate to be included in Operations and Maintenance Manual at completion of all non-conforming work.
    d. Once final walk through is completed, the architect will provide a written notice to begin the 90 day maintenance period.
48. Irrigation Controller, Central Controls, Two-wiring, Grounding, and Decoder Commissioning:
    a. Rain Bird will be doing commissioning for this project using their own service provider. Contractor will be required to comply with all Rain Bird commissioning requirements.
49. Post Maintenance Walk Through:
    a. Contractor will be responsible for maintaining the plant material and the irrigation system for a period of 90 days upon successful completion of final walk through.
    b. After the 90 day maintenance period, contractor shall request a post-maintenance walk through with the Project Manager by providing 48 hours advance notice to the architect of such request.
    c. The post maintenance walk through may consist of a comparison of pre-maintenance conditions of the irrigation system with the present conditions of the irrigation system. Should any non-conformance with the pre-maintenance condition occur, the architect will provide a punch list to the contractor for remedy, repair and/or replacement of equipment. Such remedy, replacement and/or repair shall be successfully completed by the contractor at no additional cost to the Owner prior to being relieved of the maintenance period and/or final payment made to the contractor by the Owner.
    d. Contractor shall remedy outstanding items on the Post Maintenance Walk Through to the satisfaction of the architect. The architect will notify both the Owner and the contractor of release of responsibility and final payment. Any irrigation product will be considered defective if it does not pass tests and inspections.

Non-Conforming Work: Non-conforming work as covered in the General Conditions applies, but is not limited to the following:

50. Underground Sprinkler System:
51. Correct any work found defective or not complying with Contract Document requirements at no additional cost to the Owner.

ADJUSTING

Adjust sprinkler heads to proper grade when turf is sufficiently established to allow walking on it without appreciable harm. Such lowering and raising of sprinkler heads shall be part of original contract with no additional cost to Owner.

Adjust sprinkler heads for proper distribution and trim so spray does not fall on building. Adjust sprinkler heads to be plumb.

Adjust watering time of valves to provide proper amounts of water to plants.

CLOSEOUT ACTIVITIES

Instruction of Owner:

52. After system is installed and approved, instruct Owner's designated personnel in complete operation and maintenance procedures.

END OF SECTION

SECTION 329113 - SOIL PREPARATION

PART 4 - GENERAL

SUMMARY

Includes But Not Limited To:

1. Perform soil preparation work as described in Contract Documents.
2. Furnish and apply soil additives as described in Contract Documents.

Related Sections:

3. Section 32-9120 Topsoil Placement and Grading
4. Section 32 9300 Plants
5. Section 33 4600 Subdrainage for foundations, slabs on grade, walls and landscape areas

REFERENCES

Reference Standards:

6. American Society For Testing And Materials:

    a. ASTM 1557-02, 'Standard Test Method for Laboratory Compaction Characteristics of Soil Using Modified Effort.'

ADMINISTRATIVE REQUIREMENTS

Pre-Installation Conference: Participate in pre-installation conference prior to excavation of existing or import of new topsoil. Provide certifications as stated in section 32 9120 and submittals of any product data, and samples as listed below at this pre-installation conference.

1.4 SUBMITTALS

A. Action Submittals:

7. Product Data: Product literature and chemical / nutrient analysis of soil amendments and fertilizers.
8. Samples: Sample of soil conditioner for approval before delivery to site. Include product analysis list.

B. Quality Assurance/Control

1. Submit test on imported topsoil by licensed laboratory before use. Topsoil report to include recommended fertilizers for shrubs and turf areas, recommended amendments such as gypsum, recommended quantities of organic matter to be added to the soil, and recommended long term fertilizing. Imported topsoil shall meet minimum specified requirements and be approved by Landscape Architect before use.

2. Informational Submittals:

1. Installer Reports: Delivery slips indicating amount of soil conditioner delivered to Project site.

PART 5 - PRODUCTS

MATERIALS

Incorporate soil amendments into topsoil used for Project as specified in section 329300 Plants.

Incorporate fertilizer into topsoil with application rates as stated in section 329300 to achieve ph balance, texture and composition as also stated in section 329300.

PART 6 - EXECUTION

PERFORMANCE

Add specified soil amendments at specified rates to lawn areas. Roto-till or otherwise mix amendments evenly into top 5 inches of topsoil. Incorporate and leach soil amendments which require leaching, such as gypsum, within such time limits that soil is sufficiently dry to allow proper application of fertilizer and soil conditioners.

END OF SECTION

SECTION 329120 - TOPSOIL PLACEMENT AND GRADING

PART 7 - GENERAL

SUMMARY

Includes But Not Limited To:

1. Perform topsoil placement and grading work required to prepare site for installation of landscaping as described in Contract Documents.
2. Furnish and apply soil additives as described in Contract Documents.

Related Sections:

3. Section 32 9113 Soil Preparation
4. Section 32 9300 Plants

REFERENCES

American Society For Testing And Materials:

5. ASTM 1557-02, 'Standard Test Method for Laboratory Compaction Characteristics of Soil Using Modified Effort.'

SUBMITTALS

Product Data: Product literature and chemical / nutrient analysis of soil amendments and fertilizers.

Samples and Certifications

6. Sample of soil conditioners and amendments for approval before delivery to site. Include product analysis list.
7. Sample of proposed imported topsoil with certification by a licensed and certified agronomist on the agronomist's letterhead with accompanying topsoil test report that certifies imported topsoils to be used meet the minimal requirements as specified in section 2..1.A below and the following:

    a. Report suitability of proposed imported soil for plant growth.
    b. State recommendations for nitrogen, phosphorus, and potash nutrients and soil amendments to be added to produce satisfactory planting soil suitable for healthy, viable plants and turf.
    c. Report presence of problem salts, minerals, or heavy metals; if present, provide additional recommendations for corrective action.

8. Included with the certification, state the location of the source of imported topsoil and account of recent use.

QUALITY ASSURANCE

Pre-Installation Conference: Participate in pre-installation conference prior to excavation of existing or import of new topsoil. Provide certifications stated above at this pre-installation conference.

PART 8 - PRODUCTS

MATERIALS

Topsoil:

1. Topsoil whether existing on site or imported that is to be used in landscaped areas, shall be fertile, loose, friable soil and must meet the following criteria:

    a. Chemical Characteristics:

        1) Acidity / alkalinity range: pH 5.0 to 8.2.
        2) Soluble Salts: less than 3.0 mmhos/cm.
        3) Sodium Absorption Ratio (SAR): less than 6.0.
        4) Organic Matter: 4% percent.

    b. Physical Characteristics:

        1) Gradation as defined by USDA triangle of physical characteristics as measured by hydrometer.

            1) Sand: 15 to 60 percent.
            2) Silt: 10 to 60 percent.
            3) Clay: 5 to 30 percent.

        2) Clean and free from toxic minerals and chemicals, noxious weeds, rocks larger than 1-1/2 inch in any dimension, and other objectionable materials.
        3) Soil shall not contain more than 2 percent by volume of rocks measuring over 3/32 inch in largest size.

PART 9 - EXECUTION

EXAMINATION

Do not commence work of this Section until grading tolerances have been met and approved by the civil engineer, architect and Owner.

PREPARATION

Protection: Protect utilities and site elements from damage.

Subsoil Preparation and Topsoil Placement:

1. Remove all foreign debris from planter areas, including concrete, asphalt, wood, branches, large rocks and other construction debris.
2. Rip, disk, or till top 12 inches (150mm) of existing subsoil to break up surface and eliminate impervious soil.
3. Verify subsoil grades. Correct high and low areas to proper grade as required.
4. Amend topsoil as stated above and in Section 329300 Plants and as recommended by the licensed and certified agronomist report with any additional recommendations prior to spreading.
5. Install topsoil to depth specified.

Surface Preparation:

6. Seven days maximum before beginning planting:
    a. Loosen area 12 inches deep, dampen thoroughly to 6 inches (150 mm) deep, and cultivate to properly break up clods and lumps.
    b. Rake area to remove clods, rocks greater than 1 ½", weeds, roots, and debris.
    c. Grade and shape landscape area to bring surface to true uniform planes free from irregularities and to provide drainage and proper slope to catch basins.
7. Limit use of heavy equipment to areas no closer than 4 feet from building or other permanent structures. Use hand guided tillers for preparation of areas closer than 4 feet

PERFORMANCE

Site Tolerances:

8. Total Topsoil Depth:

    a. Turf Cover Areas: 5 inches minimum.

    b. Groundcover Planting Areas: 5 inches minimum.
    c. Shrub Planting Areas: 12 inches minimum throughout entire shrub bed area.
9. Finish grade of planting areas before planting and after addition of soil additives at specified vertical distances below top of adjacent pavement, curb, walk, mow curb, step or building of any kind:

    a. Shrub And Ground Cover Areas: 2 inches below.
    b. Turf Cover Areas: 1 inch below.

Do not expose or damage existing shrub or tree roots.

Redistribute approved topsoil as stated above on site. Remove organic material, rocks and clods greater than 1-1/2 inch in any dimension, and other objectionable materials. Provide adequate approved topsoil required to bring surface to specified elevation relative to concrete site elements.

Where topsoil depth is 12 inches or greater, place topsoil in layers not to exceed 4 inches and, to prevent settling, compact to 85 percent relative density in accordance with ASTM D 1557. Do not place topsoil whose moisture content makes it prone to compaction during placement process.

Slope grade away from building for 12 feet minimum from walls at slope of 1/2 inch in 12 inches minimum unless otherwise noted. High point of finish grade at building foundation shall be 6 inches minimum below finish floor level. Direct surface drainage in manner indicated on Drawings by molding surface to facilitate natural run-off of water. Fill low spots and pockets with topsoil and grade to drain properly.

After landscape areas have been prepared, avoid rolling over topsoil areas with heavy objects except lawn rollers. Immediately before planting lawn and with topsoil in semi-dry condition, roll areas that are to receive lawn in two directions at approximately right angles with water ballast roller weighing 100 to 300 lbs, depending on soil type. Rake or scarify and cut or fill irregularities that develop as required until area is true and uniform, free from lumps, depressions, and irregularities.

END OF SECTION

SECTION 329300 - PLANTS

PART 10 - GENERAL

SUMMARY

Section Includes:

1. Plants.
2. Planting soils.

Related Sections:

3. Section 32 9113 Soil Preparation
4. Section 32-9120 Topsoil Placement and Grading

DEFINITIONS

Backfill: The earth used to replace or the act of replacing earth in an excavation.

Duff Layer: The surface layer of native topsoil that is composed of mostly decayed leaves, twigs, and detritus.

Finish Grade: Elevation of finished surface of planting soil.

Manufactured Topsoil: Soil produced off-site by homogeneously blending mineral soils or sand with stabilized organic soil amendments to produce topsoil or planting soil.

Pesticide: A substance or mixture intended for preventing, destroying, repelling, or mitigating a pest. This includes insecticides, miticides, herbicides, fungicides, rodenticides, and molluscicides. It also includes substances or mixtures intended for use as a plant regulator, defoliant, or desiccant.

Pests: Living organisms that occur where they are not desired, or that cause damage to plants, animals, or people. These include insects, mites, grubs, mollusks (snails and slugs), rodents (gophers, moles, and mice), unwanted plants (weeds), fungi, bacteria, and viruses.

Planting Soil: Refer to Section 329120 Topsoil Placement and Grading

Root Flare: Also called "trunk flare." The area at the base of the plant's stem or trunk where the stem or trunk broadens to form roots; the area of transition between the root system and the stem or trunk.

Subgrade: Surface or elevation of subsoil remaining after excavation is complete, or the top surface of a fill or backfill before planting soil is placed.

Subsoil: All soil beneath the topsoil layer of the soil profile, and typified by the lack of organic matter and soil organisms.

Surface Soil: Soil that is present at the top layer of the existing soil profile at the Project site. In undisturbed areas, the surface soil is typically topsoil; but in disturbed areas such as urban environments, the surface soil can be subsoil.

SUBMITTALS

Product Data: For each type of product indicated, including soils.

Samples of mineral mulch.

Samples of bark mulch.

Product certificates.

Maintenance Instructions: Recommended procedures to be established by Owner for maintenance of plants during a calendar year.

QUALITY ASSURANCE

Installer's Field Supervision: Installer required to maintain an experienced full-time supervisor on Project site when work is in progress.

5. Pesticide Applicator: State licensed, commercial.

Soil Analysis: Refer to Section 329120 Topsoil Placement and Grading

Provide quality, size, genus, species, and variety of plants indicated, complying with applicable requirements in ANSI Z60.1.

Preinstallation Conference: Conduct conference at Project site.

DELIVERY, STORAGE, AND HANDLING

Deliver bare-root stock plants freshly dug. Immediately after digging up bare-root stock, pack root system in wet straw, hay, or other suitable material to keep root system moist until planting.

Do not prune trees and shrubs before delivery. Protect bark, branches, and root systems from sun scald, drying, wind burn, sweating, whipping, and other handling and tying damage. Do not bend or bind-tie trees or shrubs in such a manner as to destroy their natural shape. Provide protective covering of plants during shipping and delivery. Do not drop plants during delivery and handling.

Handle planting stock by root ball.

Delivery of plants to occur after preparations for planting have been completed. Install plants immediately after delivery. If planting is delayed more than six hours after delivery, set plants and trees in their appropriate aspect (sun, filtered sun, or shade), protect from weather and mechanical damage, and keep roots moist.

WARRANTY

Special Warranty: Installer agrees to repair or replace plantings and accessories that fail in materials, workmanship, or growth within specified warranty and maintenance period.

6. Failures include, but are not limited to, the following:

   a. Death and unsatisfactory growth, except for defects resulting from abuse, lack of adequate maintenance, or neglect by Owner, or incidents that are beyond Contractor's control.
   b. Structural failures including plantings falling or blowing over.

c. Faulty performance of tree stabilization, edgings, and tree grates..

7. Warranty Periods from Date of Successful Final Walk Through as defined herein.

a. Trees, Shrubs, and Ornamental Grasses: 12 months.
b. Ground Covers: the 3 month period of time consistent with the 90-Day Maintenance Period.
c. Include the following remedial actions as a minimum:
   1) Immediately remove dead plants and replace unless required to plant in the succeeding planting season.
   2) Replace plants that are more than 25 percent dead or in an unhealthy condition at end of warranty period.
d. A limit of one replacement of each plant will be required except for losses or replacements due to failure to comply with requirements.
e. Provide extended warranty for period equal to original warranty period, for replaced plant material.

MAINTENANCE SERVICE

Initial Maintenance Service for Trees and Shrubs: Provide maintenance by skilled employees of landscape Installer. Maintain as required in Part 3. Begin maintenance immediately after plants are installed and continue until plantings are acceptably healthy and well established through the 90 day maintenance period.

8. Maintenance Period: 3 months from date of a successful final walk through as defined herein.

Initial Maintenance Service for Ground Cover and Other Plants: Provide maintenance by skilled employees of landscape Installer. Maintain as required in Part 3. Begin maintenance immediately after plants are installed and continue until plantings are acceptably healthy and well established but for not less than maintenance period below.

9. Maintenance Period: 3 months from date of a successful final walk through as defined herein.

PART 11 - PRODUCTS

PLANT MATERIAL

General: Furnish nursery-grown plants true to genus, species, variety, cultivar, stem form, shearing, and other features indicated in Plant Schedule or Plant Legend shown on Drawings and complying with ANSI Z60.1; and with healthy root systems developed by transplanting or root pruning. Provide well-shaped, fully branched, healthy, vigorous stock, densely foliated when in leaf and free of disease, pests, eggs, larvae, and defects such as knots, sun scald, injuries, abrasions, and disfigurement.

1. Trees with damaged, crooked, or multiple leaders; tight vertical branches where bark is squeezed between two branches or between branch and trunk ("included bark"); crossing trunks; cut-off limbs more than 3/4 inch in diameter; or with stem girdling roots will be rejected.
2. Collected Stock: Do not use plants harvested from the wild, from native stands, from an established landscape planting, or not grown in a nursery unless otherwise indicated.

Provide plants of sizes, grades, and ball or container sizes complying with ANSI Z60.1 for types and form of plants required. Plants of a larger size may be used if acceptable to Architect, with a proportionate increase in size of roots or balls.

Root-Ball Depth: Furnish trees and shrubs with root balls measured from top of root ball, which shall begin at root flare according to ANSI Z60.1. Root flare shall be visible before planting.

Labeling: Label at least one plant of each variety, size, and caliper with a securely attached, waterproof tag bearing legible designation of common name and full scientific name, including genus and species. Include nomenclature for hybrid, variety, or cultivar, if applicable for the plant as shown on Drawings.

If formal arrangements or consecutive order of plants is shown on Drawings, select stock for uniform height and spread, and number the labels to assure symmetry in planting.

INORGANIC SOIL AMENDMENTS

Lime: ASTM C 602, agricultural liming material containing a minimum of 80 percent calcium carbonate equivalent and as follows:

3. Class: O, with a minimum of 95 percent passing through No. 8 sieve and a minimum of 55 percent passing through No. 60 sieve.

Sulfur: Granular, biodegradable, and containing a minimum of 90 percent sulfur, with a minimum of 99 percent passing through No. 6 sieve and a maximum of 10 percent passing through No. 40 sieve.

Iron Sulfate: Granulated ferrous sulfate containing a minimum of 20 percent iron and 10 percent sulfur.

Aluminum Sulfate: Commercial grade, unadulterated.

Perlite: Horticultural perlite, soil amendment grade.

Agricultural Gypsum: Minimum 90 percent calcium sulfate, finely ground with 90 percent passing through No. 50 sieve.

Sand: Clean, washed, natural or manufactured, and free of toxic materials.

Diatomaceous Earth: Calcined, 90 percent silica, with approximately 140 percent water absorption capacity by weight.

Zeolites: Mineral clinoptilolite with at least 60 percent water absorption by weight.

ORGANIC SOIL AMENDMENTS

Compost: Well-composted, stable, and weed-free organic matter, pH range of 5.0 to 8.2 moisture content 35 to 55 percent by weight; 100 percent passing through 1-inch sieve; soluble salt content of 5 to 10 decisiemens/m; not exceeding 0.5 percent inert contaminants and free of substances toxic to plantings; and as follows:

Sphagnum Peat: Partially decomposed sphagnum peat moss, finely divided or granular texture, with a pH range of 3.4 to 4.8.

Muck Peat: Partially decomposed moss peat, native peat, or reed-sedge peat, finely divided or of granular texture, with a pH range of 6 to 7.5, and having a water-absorbing capacity of 1100 to 2000 percent.

Wood Derivatives: Decomposed, nitrogen-treated sawdust, ground bark, or wood waste; of uniform texture and free of chips, stones, sticks, soil, or toxic materials.

Manure: Well-rotted, unleached, stable or cattle manure containing not more than 25 percent by volume of straw, sawdust, or other bedding materials; free of toxic substances, stones, sticks, soil, weed seed, debris, and material harmful to plant growth.

FERTILIZERS

Bonemeal: 6-12-0 Commercial, raw or steamed, finely ground

Superphosphate is an inorganic, neutral source of phosphorus and is useful in alkaline calcareous soils of arid areas.

Superphosphate: Commercial, phosphate mixture, soluble; a minimum of 20 percent available phosphoric acid.

Commercial Fertilizer: Commercial-grade complete fertilizer of neutral character, consisting of fast- and slow-release nitrogen, 50 percent derived from natural organic sources of urea formaldehyde, phosphorous, and potassium in the following composition:

4. Composition: 1 lb/1000 sq. ft. of actual nitrogen, 4 percent phosphorous, and 2 percent potassium, by weight.

Slow-Release Fertilizer: Granular or pelleted fertilizer consisting of 50 percent water-insoluble nitrogen, phosphorus, and potassium in the following composition:

5. Composition: 20 percent nitrogen, 10 percent phosphorous, and 10 percent potassium, by weight.

Planting Fertilizer: Planting Tablets: Tightly compressed chip type, long-lasting, slow-release, commercial-grade planting fertilizer in tablet form. Tablets shall break down with soil bacteria, converting nutrients into a form that can be absorbed by plant roots.

6. Size: 21-gram tablets.
7. Nutrient Composition: 20 percent nitrogen, 10 percent phosphorous, and 5 percent potassium, by weight plus micronutrients.

2.5 PLANTING SOILS

A. Topsoil: Refer to Section 329120 Topsoil Placement and Grading

B. Planting Mix: Mixture of three parts good topsoil and one part well rotted composted manure, or approved commercial mix.

C. Planting Tablets: 21 gram Agriform 20-10-5.

2.6 MULCHES

A. Mineral Top Dressing Mulch: As indicated in Planting Legend or as approved by the Architect.

2.7 WEED-CONTROL BARRIERS

A. Composite Fabric: Woven, needle-punched polypropylene substrate bonded to a nonwoven polypropylene fabric, 4.8 oz./sq. yd or as approved by the Architect.

2.8 PESTICIDE

A. General: Pesticide registered and approved by EPA, acceptable to authorities having jurisdiction, and of type recommended by manufacturer for each specific problem and as required for Project conditions and application. Do not use restricted pesticides unless authorized in writing by authorities having jurisdiction.

2.9 MISCELLANOUS PRODUCTS

Root Barrier: #UB-24-2 root barrier manufactured by Deep Root Corporation or as approved by the Architect.

Antidesiccant: Water-insoluble emulsion, permeable moisture retarder, film forming, for trees and shrubs. Deliver in original, sealed, and fully labeled containers and mix according to manufacturer's written instructions.

Burlap: Non-synthetic, biodegradable.

PART 12 - EXECUTION

PLANTING AREA ESTABLISHMENT

Loosen subgrade of planting areas to a minimum depth of 12 inches Remove stones larger than 1 ½" inch in any dimension and sticks, roots, rubbish, and other extraneous matter and legally dispose of them off Owner's property.

1. Apply superphosphate fertilizer directly to subgrade before loosening.
2. Thoroughly blend planting soil off-site before spreading or spread topsoil, apply soil amendments and fertilizer on surface, and thoroughly blend planting soil.
3. Spread planting soil to a depth of 12 inches below mulch, but not less than required to meet finish grades after natural settlement. Do not spread if planting soil or subgrade is frozen, muddy, or excessively wet.

Finish Grading: Grade planting areas to a smooth, uniform surface plane with loose, uniformly fine texture. Roll and rake, remove ridges, and fill depressions to meet finish grades.

EXCAVATION FOR TREES AND SHRUBS

Planting Pits and Trenches: Excavate circular planting pits with sides sloping inward at a 45-degree angle. Excavations with vertical sides are not acceptable. Trim perimeter of bottom leaving center area of bottom raised slightly to support root ball and assist in drainage away from center. Do not further disturb base. Ensure that root ball will sit on undisturbed base soil to prevent settling. Scarify sides of planting pit smeared or smoothed during excavation.

4. Excavate approximately three times as wide as ball diameter.
5. Excavate at least 12 inches wider than root spread and deep enough to accommodate vertical roots for bare-root stock.
6. Do not excavate deeper than depth of the root ball, measured from the root flare to the bottom of the root ball.

Subsoil and topsoil removed from planting hole excavations may not be used as planting soil.

TREE AND SHRUB PLANTING

Before planting, verify that root flare is visible at top of root ball according to ANSI Z60.1.

Remove stem girdling roots and kinked roots. Remove injured roots by cutting cleanly; do not break.

Set stock plumb and in center of planting pit or trench with root flare 1 inch above adjacent finish grades.

7. Use approved planting soil for backfill.
8. Balled and Burlapped: After placing some backfill around root ball to stabilize plant, carefully cut and remove burlap, rope, and wire baskets from tops of root balls and from sides, but do not remove from under root balls. Remove pallets, if any, before setting. Do not use planting stock if root ball is cracked or broken before or during planting operation.
9. Balled, Potted and Container-Grown: Carefully remove root ball from container without damaging root ball or plant.
10. Fabric Bag-Grown Stock: Carefully remove root ball from fabric bag without damaging root ball or plant. Do not use planting stock if root ball is cracked or broken before or during planting operation.
11. Backfill around root ball in layers, tamping to settle soil and eliminate voids and air pockets. When planting pit is approximately one-half filled, water thoroughly before placing remainder of backfill. Repeat watering until no more water is absorbed.
12. Place planting tablets in each planting pit when pit is approximately one-half filled; in amounts recommended in soil reports from soil-testing laboratory. Place tablets beside the root ball about 1 inch from root tips; do not place tablets in bottom of the hole.
13. Continue backfilling process. Water again after placing and tamping final layer of soil.

TREE AND SHRUB PRUNING

Remove only dead, dying, or broken branches. Do not prune for shape.

Prune, thin, and shape trees, shrubs, and vines according to standard professional horticultural and arboricultural practices. Unless otherwise indicated by Architect, do not cut tree leaders; remove only injured, dying, or dead branches from trees and shrubs; and prune to retain natural character.

PLANTING AREA MULCHING

Install weed-control barriers before mulching according to manufacturer's written instructions. Completely cover area to be mulched, overlapping edges a minimum of 6 inches and secure seams with galvanized pins.

Mulch backfilled surfaces of planting areas and other areas as indicated on drawings.

14. Trees and Tree-like Shrubs in Turf Areas: Apply organic mulch ring of 3-inch average thickness, with radius around trunks or stems extending to drip line of tree. Do not place mulch within 3 inches of trunks or stems.
15. Organic Bark Mulch in Planting Areas: Apply 3-inch average thickness of mulch over whole surface of planting area, and finish level with adjacent finish grades. Do not place mulch within 3 inches of trunks or stems.
16. Mineral Mulch in Planting Areas ¾” Minus: Apply 3 -inch average thickness of mineral mulch over whole surface of planting area, and finish level with adjacent finish grades. Do not place mineral mulch within 3 inches of trunks or stems.
17. Mineral Mulch in Planting Areas 2” – 4” Cobble: Apply one layer in a 6 -inch average thickness from top of adjacent hardscape to top of topsoil of 2” – 4” cobble over whole surface of planting area, and finish level with adjacent finish grades. Do not place cobble within 3 inches of trunks or stems.

ROOT-BARRIER INSTALLATION

Install root barrier where trees are planted within 48” of paving or other hardscape elements, such as walls, curbs, and walkways and along each side of tree grate locations as shown in planting details.

Align root barrier vertically with edge of hardscape and run it linearly along and adjacent to the paving or other hardscape elements to be protected from invasive roots.

Install root barrier continuously for a distance of 4 feet in each direction from the tree trunk, for a total distance of 8 feet per tree as shown in planting details. If trees are spaced closer, use a single continuous piece of root barrier.

18. Position top of root barrier flush with finish grade.
19. Overlap root barrier a minimum of 12 inches at joints.
20. Do not distort or bend root barrier during construction activities.
21. Do not install root barrier surrounding the root ball of tree.

PLANT MAINTENANCE

Maintain plantings by pruning, cultivating, watering, weeding, fertilizing, mulching, restoring planting saucers, adjusting and repairing tree-stabilization devices, resetting to proper grades or vertical position, and performing other operations as required to establish healthy, viable plantings. Spray or treat as required to keep trees and shrubs free of insects and disease.

Fill in as necessary soil subsidence that may occur because of settling or other processes. Replace mulch materials damaged or lost in areas of subsidence.

Apply treatments as required to keep plant materials, planted areas, and soils free of pests and pathogens or disease. Use integrated best management practices whenever possible to minimize the use of pesticides and reduce hazards. Treatments include physical controls such as hosing off foliage, mechanical controls such as traps, and biological control agents.

PESTICIDE APPLICATION

Apply pesticides and other chemical products and biological control agents in accordance with authorities having jurisdiction and manufacturer's written recommendations. Coordinate applications with Owner's operations and others in proximity to the Work. Notify Owner before each application is performed.

Pre-Emergent Herbicides (Selective and Non-Selective): Apply to tree, shrub, and ground-cover areas in accordance with manufacturer's written recommendations. Do not apply to seeded areas.

Post-Emergent Herbicides (Selective and Non-Selective): Apply only as necessary to treat already-germinated weeds and in accordance with manufacturer's written recommendations.

CLEANUP AND PROTECTION

During planting, keep adjacent paving and construction clean and work area in an orderly condition.

Protect plants from damage due to landscape operations and operations of other contractors and trades. Maintain protection during installation and maintenance periods. Treat, repair, or replace damaged plantings.

After installation and before walk through for substantial completion, remove nursery tags, nursery stakes, tie tape, labels, wire, burlap, and other debris from plant material, planting areas, and Project site.

DISPOSAL

Remove surplus soil and waste material including excess subsoil, unsuitable soil, trash, and debris and legally dispose of them off Owner's property.

3.16 FIELD QUALITY CONTROL

A. Required Inspections:

22. Walk Through for Substantial Completion: Only after complete installation of the entire planting and irrigation system, the contractor shall request a walk through for substantial completion from the architect by giving the architect 48 hours advance notice of the day of request. Once accepted, the architect and the contractor will do a complete walk through of the landscaped area. The walk through for substantial completion shall consist of a Physical Walk Through- During this walk through the contractor and the architect will walk through each planting area and the architect will provide a written punch list of plant material and plant material edging, staking, guying and site furnishings, needing adjustment, replacement and/or repair and it will be the contractors responsibility to completely remedy the punch list provided prior to requesting a final walk through or beginning the maintenance period.

23. Final Walk Through: After successfully completing all outstanding items on the punch list provided by the architect at the walk through for substantial completion, the contractor shall request a final walk through from the architect by giving the architect 48 hours advance notice of the day of request. Once accepted, the architect and the contractor will review only those items listed on the punch list provided at the walk through for substantial completion to insure complete success and remedy has taken place. In the event of a successful final walk through the contractor shall begin a 90 day maintenance period. However, in the event complete success and remedy have not occurred related to the punch list provided at the walk through for substantial completion, the final walk through will be canceled and the contractor will be responsible for successfully remedying all items on the previous punch list prior to making a second request for a final walk through. Additionally, any requests beyond the initial request for a final walk through will be paid to the architect by the contractor at no additional cost to the Owner. The final walk through shall consist of a Physical Walk Through. During this walk through only items on the punch list for substantial completion will be reviewed. noting conformance or lack thereof.

24. Post Maintenance Walk Through- Upon a successful final walk through the contractor will be responsible for maintaining the plant material and the irrigation system for a period of 90 days. In the event the 90 day Maintenance Period overlaps with the winter season (between the dates of October 31st and April 1st), the contractor will commence the 90 day maintenance period beginning April 1st until a full 90 day maintenance period has been successfully achieved. The contractor is responsible for including a fee for the 90 day maintenance period in their initial bid for services. In the event that the contractor fails to include such fee in their initial bid, the contractor will still be responsible for the 90 day maintenance period as stated herein at no additional cost to the Owner. Once the 90 day maintenance period has elapsed, the contractor shall request a post maintenance walk through with the architect by providing 48 hours advance notice to the architect of such request. The post maintenance walk through will consist of a physical walk through to compare pre-maintenance condition of each planting area its present condition. Should any non-conformance with the pre-maintenance condition occur, the architect will provide a punch list to the contractor for remedy, repair and/or replacement of plant material,

equipment and site furnishings. Such remedy, replacement and/or repair shall be successfully completed by the contractor at no additional cost to the Owner prior to being relieved of the maintenance period and/or final payment made to the contractor by the Owner. Once the contractor has successfully remedied any outstanding items on the Post Maintenance Walk Through to the satisfaction of the architect. The architect will notify both the Owner recommending that the contractor be released of responsibility and final payment to the contractor be made.

END OF SECTION 329300

APPENDIX A

DRY CREEK GREENWAY EAST PHASE 1

TRAIL PLANS - NOTES AND GRADING

SHEETS

GENERAL NOTES:

1. ALL CONSTRUCTION SHALL CONFORM TO THESE PLANS, THE CITY OF ROSEVILLE STANDARD SPECIFICATIONS (LATEST EDITION), THE CITY OF ROSEVILLE DESIGN AND CONSTRUCTION STANDARDS, AND THE PROJECT SPECIAL PROVISIONS.
2. THE CITY OF ROSEVILLE IS A MEMBER OF THE UNDERGROUND SERVICE ALERT (U.S.A.) ONE-CALL SYSTEM. THE CONTRACTORS OR ANY SUBCONTRACTOR FOR THIS CONTRACT SHALL NOTIFY THE U.S.A. CENTER 48 HOURS IN ADVANCE OF PERFORMING ANY EXCAVATION WORK BY CALLING 1-800-227-2600. EXCAVATION IS DEFINED AS BEING 18 OR MORE INCHES IN DEPTH BELOW THE EXISTING SURFACE.
3. THE CONTRACTOR SHALL MARK IN WHITE PAINT ALL AREAS TO BE EXCAVATED PRIOR TO CONTACTING U.S.A. ANY AREAS NOT MARKED WILL NOT BE SUBJECT TO U.S.A., AND THE CONTRACTOR SHALL BE RESPONSIBLE FOR ANY DAMAGE RESULTING FROM EXCAVATION.
4. THE CONTRACTOR SHALL EXPOSE AND VERIFY LOCATIONS AND ELEVATIONS OF EXISTING UNDERGROUND UTILITIES PRIOR TO CONSTRUCTION OF THE NEW IMPROVEMENTS CONNECTING TO OR IN THE VICINITY OF THE IMPROVEMENTS.
5. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE PROTECTION OF ALL EXISTING MONUMENTS AND OTHER SURVEY MARKERS WITHIN THE CONSTRUCTION ZONE.
6. THE CONTRACTOR SHALL PLACE BOXED SURVEY MONUMENTS WITH 1-1/2" BRONZE HEAD SET IN CONCRETE (STD. DWG. ST-36) AT LOCATIONS TO BE DETERMINED BY THE ENGINEER.
7. AC SURFACE SHALL BE CUT TO A NEAT, STRAIGHT LINE PARALLEL OR PERPENDICULAR WITH THE STREET CENTERLINE AND THE EXPOSED EDGE SHALL BE TACKED WITH EMULSION PRIOR TO PAVING. THE EXPOSED BASE MATERIAL SHALL BE GRADED, RECOMPACTED, AND RESEALED PRIOR TO PAVING.
8. ANY EXISTING CONCRETE SURFACE TO BE REMOVED SHALL BE SAW CUT TO A NEAT, STRAIGHT LINE.
9. CURB RAMPS CONFORMING TO ALL ADA AND TITLE 24 REQUIREMENTS SHALL BE PLACED AT ALL NEW STANDARD CURB RETURNS (STANDARD DRAWING ST-27) AND STANDARD TYPE A-7 DRIVEWAYS. WHERE EXISTING RAMPS DO NOT MEET CURRENT ADA AND TITLE 24 REQUIREMENTS, THE RAMPS SHALL BE UPGRADED IN CONFORMANCE WITH MINIMUM TITLE 24 REQUIREMENTS. WHERE EXISTING RAMPS DO NOT INCLUDE DETECTABLE WARNING PANELS (TRUNCATED DOMES), PANELS SHALL BE RETROFITTED PER THE CONSTRUCTION STANDARDS.
10. THE CONTRACTOR SHALL SUBMIT A TRAFFIC CONTROL PLAN THAT SHALL BE ACCEPTED BY THE ENGINEERING DIVISION OF PUBLIC WORKS BEFORE START OF WORK IN RIGHT-OF-WAY AND SHALL BE IN ACCORDANCE WITH CALIFORNIA MUTCD LATEST EDITION. AT LEAST ONE LANE IN EACH DIRECTION SHALL REMAIN OPEN TO TRAFFIC UNLESS OTHERWISE SHOWN ON THE PLANS. TRAFFIC CONTROL HOURS ARE SUBJECT TO LIMITATION BY THE CITY. TRAFFIC CONTROL WITH LANE CLOSURES THAT AFFECT TRAFFIC FLOW MAY REQUIRE NIGHT WORK. IF, AS A PART OF TRAFFIC CONTROL MEASURES, A ROADWAY CLOSURE HAS BEEN APPROVED, THE CONTRACTOR SHALL NOTIFY DEVELOPMENT SERVICES CONSTRUCTION INSPECTOR 72 HOURS IN ADVANCE OF SETTING UP THIS CLOSURE.
11. DRAIN INLETS NOT WITHIN A PAVED AREA SHALL HAVE A 12" WIDE COLLAR OF 6" THICK P.C.C. OR 2" THICK AC
12. ALL UNDERGROUND UTILITIES WITHIN EXISTING OR PROPOSED CITY OF ROSEVILLE EASEMENTS SHALL REQUIRE A MINIMUM OF 90% COMPACTION ON THE TRENCH BACKFILL. COMPACTION OF BACKFILL BY JETTING IS NOT PERMITTED IN CITY OF ROSEVILLE RIGHT OF WAY AREAS OR WITHIN DEDICATED RECLAIMED WATER, STORM, SEWER OR WATER EASEMENTS AND MAINS.
13. PRIOR TO EXCAVATION OF TRENCHES 5 FEET OR DEEPER, THE CONTRACTOR SHALL SUBMIT TO THE PUBLIC WORKS DEPARTMENT OR ENVIRONMENTAL UTILITIES DEPARTMENT INSPECTOR A COPY OF THE COMPANY'S ANNUAL CALOSHA TRENCHING PERMIT AND A COPY OF THE COMPANY'S LETTER INFORMING CAL/OSHA OF THE TIME THE TRENCHING IS COMMENCING AND THE LOCATION OF THE WORK.
14. ALL PAINTED TRAFFIC STRIPES, ARROWS, AND PAVEMENT MARKINGS ON ROADWAYS SHALL BE CONSTRUCTED WITH THERMOPLASTIC MATERIAL TO THE SPECIFICATIONS SET FORTH IN CHAPTER 3 OF THE CALIFORNIA MUTCD LATEST EDITION. NON-REFLECTIVE PAVEMENT MARKERS SHALL CONSIST OF CERAMIC MARKERS ONLY CONFORMING TO CHAPTER 3 OF THE CALIFORNIA MUTCD LATEST EDITION.
15. THE CONTRACTOR SHALL TAKE EXTREME CARE TO PROTECT EXISTING SITE AND ADJACENT IMPROVEMENTS FROM DAMAGE. THE CONTRACTOR SHALL BE RESPONSIBLE TO REPAIR OR MAKE REPLACEMENT OF ALL CRACKED AND OTHERWISE ~~PRE-EXISTING~~ DAMAGED PUBLIC IMPROVEMENTS ALONG THE FRONTAGE OF THE PROJECT SITE ~~AND ANY DAMAGE~~ RESULTING FROM CONSTRUCTION TO CURRENT CITY STANDARDS ~~AND~~ AT THEIR OWN EXPENSE. THE EXTENT OF THE REPAIRS SHALL BE DETERMINED BY THE PUBLIC WORKS INSPECTOR AND SHALL BE COMPLETED PRIOR TO THE CITY ACCEPTANCE OF THE IMPROVEMENTS.
16. WHERE COMBINATIONS OF SIDEWALK OR CURB AND GUTTER ARE POURED CONTIGUOUS TO EXISTING, ALL ADJOINING EXISTING CONCRETE VERTICAL FACES SHALL BE DOWELED. ALL ABUTTING SIDEWALK ENDS SHALL BE DOWELED MID-SECTION VERTICALLY WITH TWO DOWELS FOR FOUR THROUGH SIX-FOOT WIDE SIDEWALK AND THREE DOWELS FOR WIDER SIDEWALK. ABUTTING CURB AND GUTTER ENDS SHALL BE DOWELED TWICE, 18 INCHES APART AT GUTTER PAN MID-SECTION. DOWEL CONNECTIONS OF LONGITUDINAL RUNS OF SIDEWALK TO BACK OF CURB SHALL BE THREE FEET ON CENTER. ALL DOWELS SHALL BE 16 INCHES LONG, GRADE 60; #4 REBAR PENETRATING FOUR INCHES. THE DOWEL HOLE SHALL BE 5/8-INCH DIAMETER AT A SLIGHT HORIZONTAL ANGLE FROM PERPENDICULAR. THE PENETRATING PORTION OF THE DOWEL AND THE ENTIRE (CLEANED) VERTICAL SURFACE OF THE ADJOINING, EXISTING CONCRETE SHALL BE THOROUGHLY COATED WITH STATE STANDARD TWO-PART EPOXY.
17. THE TYPES, LOCATIONS AND/OR DEPTHS OF EXISTING UNDERGROUND UTILITIES AS SHOWN ON THESE IMPROVEMENT PLANS WERE OBTAINED FROM SOURCES OF VARYING RELIABILITY. THE CONTRACTOR IS CAUTIONED THAT ONLY ACTUAL EXCAVATION WILL REVEAL THE TYPES, EXTENT, SIZES, LOCATIONS, AND DEPTHS OF SUCH UNDERGROUND UTILITIES. A REASONABLE EFFORT HAS BEEN MADE TO LOCATE AND DELINEATE ALL KNOWN UTILITIES. HOWEVER, THE ENGINEER CAN ASSUME NO RESPONSIBILITY FOR THE COMPLETENESS OR ACCURACY OF THE DELINEATION OF SUCH UNDERGROUND UTILITIES WHICH MAY BE ENCOUNTERED BUT WHICH ARE NOT SHOWN ON THESE DRAWINGS.
18. UTILITIES LOCATIONS ARE TAKEN FROM CITY AS-BUILT DRAWINGS AND FIELD REVIEWS. LOCATIONS OF THE GROUND FEATURES (MH, VALVES, ETC.) ARE APPROXIMATE AND SHOULD BE FIELD VERIFIED BY THE CONTRACTOR.
19. CONTRACTOR TO FOLLOW ALL MITIGATION MEASURES AS SPECIFIED IN THE DCGE TRAIL PROJECT EIR AND PERMITS OBTAINED FOR THE PROJECT. SEE SPECIFICATIONS FOR LIST OF APPROVED PERMITS.

STANDARD GENERAL NOTES:

1. THE CONTRACTOR AGREES THAT, IN ACCORDANCE WITH GENERALLY ACCEPTED CONSTRUCTION PRACTICES, THE CONTRACTOR WILL BE REQUIRED TO ASSUME SOLE AND COMPLETE RESPONSIBILITY FOR JOB SITE CONDITIONS DURING THE COURSE OF CONSTRUCTION OF THE PROJECT, INCLUDING SAFETY OF ALL PERSONS AND PROPERTY. THIS REQUIREMENT SHALL BE MADE TO APPLY CONTINUOUSLY AND NOT BE LIMITED TO NORMAL WORKING HOURS. THE CONTRACTOR FURTHER AGREES TO DEFEND, INDEMNIFY AND HOLD OWNER AND ENGINEER HARMLESS FROM ANY AND ALL LIABILITY REAL OR ALLEGED, IN CONNECTION WITH THE PERFORMANCE OF WORK ON THIS PROJECT, EXEMPTING LIABILITY ARISING FROM THE SOLE NEGLIGENCE OF ENGINEER.
2. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO OBTAIN ALL PERMITS NECESSARY TO PERFORM THE WORK SHOWN ON THESE PLANS FROM THE APPROPRIATE AGENCIES. REFER TO THE SPECIAL PROVISIONS FOR PERMITS NEEDED.
3. THE CONTRACTOR SHALL POST EMERGENCY TELEPHONE NUMBERS FOR POLICE, FIRE, AMBULANCE, AND THOSE AGENCIES RESPONSIBLE FOR MAINTENANCE OF UTILITIES IN THE VICINITY OF THE JOB SITE.
4. IF ARCHEOLOGICAL MATERIALS ARE UNCOVERED DURING GRADING, TRENCHING OR OTHER EXCAVATION, EARTHWORK WITHIN 100 FEET OF THESE MATERIALS SHALL BE STOPPED IN ACCORDANCE WITH SECTION 21-2E OF THE CITY OF ROSEVILLE CONSTRUCTION STANDARDS UNTIL A PROFESSIONAL ARCHEOLOGIST WHO IS CERTIFIED BY THE SOCIETY OF CALIFORNIA ARCHEOLOGY (SCA) AND/OR THE SOCIETY OF PROFESSIONAL ARCHEOLOGY (SOPA) HAS HAD AN OPPORTUNITY TO EVALUATE THE SIGNIFICANCE OF THE FIND AND SUGGEST APPROPRIATE MITIGATION MEASURES, IF THEY ARE DEEMED NECESSARY.

GRADING NOTES:

1. GRADING SHALL CONFORM TO APPENDIX CHAPTER 33 UBC, LATEST EDITION, AND TO THE RECOMMENDATIONS OF THE GEOTECHNICAL ENGINEERING REPORT BY CRAWFORD & ASSOCIATES, INC. DATED APRIL 2021 (CAInc FILE NO. 20-619.1, ENGINEERING DIVISION FILE NO. 308-992)
2. ALL EROSION AND SEDIMENT CONTROL MEASURES SHALL BE IMPLEMENTED AS SPECIFIED IN THE STORMWATER POLLUTION PREVENTION PLAN (SWPPP) FOR THIS PROJECT OR AS DETERMINED BY THE CITY INSPECTOR. THE SWPPP IS CONSIDERED A DYNAMIC DOCUMENT AND WILL CHANGE AS CONDITIONS WARRANT. PERMANENT EROSION AND SEDIMENT CONTROL MEASURES WILL BE CONSTRUCTED AS SHOWN ON THE SWPPP PLAN.
3. LOTS SHALL BE GRADED WITH A CONSTANT SLOPE ALONG THE FRONTAGE OF THE RIGHT-OF-WAY, FROM BUILDING SETBACK LINE TO BACK OF SIDEWALK. ALL TEMPORARY AND PERMANENT SLOPES STEEPER THAN 4:1 ALONG THIS FRONTAGE SHALL HAVE EROSION NETTING INSTALLED.
4. ALL REAR LOT CORNER ELEVATIONS SHALL BE EQUAL TO OR GREATER THAN THE HIGHEST ADJACENT PAD GRADE UNLESS SPECIFICALLY SHOWN ON THESE PLANS AND APPROVED BY ENGINEERING DIVISION.
5. NON-POTABLE WATER SHALL BE SPRAYED ON ALL EXPOSED EARTH SURFACES DURING CLEARING GRADING, EARTH MOVING, AND OTHER SITE PREPARATION ACTIVITIES. THE EXPOSED EARTH SHALL BE WATERED THROUGHOUT THE DAY TO MINIMIZE DUST.
6. TARPAULINS OR OTHER EFFECTIVE COVERS SHALL BE USED ON ALL STOCKPILED EARTH MATERIAL AND ON HAUL TRUCKS TO MINIMIZE DUST.
7. THE CITY SHALL HAVE THE AUTHORITY TO STOP ALL GRADING OPERATIONS, IF, IN OPINION OF CITY STAFF, INADEQUATE DUST CONTROL MEASURES ARE BEING PRACTICED OR EXCESSIVE WIND CONDITIONS CONTRIBUTE TO FUGITIVE DUST EMISSIONS.
8. ADJACENT STREET FRONTAGES SHALL BE SWEPT AT LEAST ONCE A DAY TO REMOVE SILT AND OTHER DIRT WHICH IS EVIDENT FROM CONSTRUCTION ACTIVITIES. REFER TO SCHEDULES WITHIN SWPPP.
9. THE CONTRACTOR SHALL BE RESPONSIBLE FOR CLEANING CONSTRUCTION VEHICLES LEAVING THE SITE ON A DAILY BASIS TO PREVENT DUST, SILT AND DIRT FROM BEING RELEASED OR TRACKED OFFSITE. REFER TO SWPPP FOR SPECIFIC REQUIRMENTS.
10. CONSTRUCTION SHALL STOP IF CULTURAL RESOURCES ARE SUSPECTED. IT IS POSSIBLE THAT PREVIOUS ACTIVITIES HAVE OBSCURED SURFACE EVIDENCE OF CULTURAL RESOURCES. IF SIGNS OF AN ARCHEOLOGICAL SITE, SUCH AS ANY UNUSUAL AMOUNTS OF STONE, BONE, OR SHELL, ARE UNCOVERED DURING GRADING OR OTHER CONSTRUCTION ACTIVITIES, WORK SHALL BE HALTED WITHIN 100 FEET OF THE FIND AND THE ROSEVILLE COMMUNITY DEVELOPMENT DEPARTMENT SHALL BE NOTIFIED. A QUALIFIED ARCHEOLOGIST SHALL BE CONSULTED FOR AN ON-SITE EVALUATION. THE ARCHEOLOGIST MAY REQUIRE ADDITIONAL MITIGATION.
11. SHOULD GRADING OPERATIONS UNCOVER HAZARDOUS MATERIALS, OR WHAT APPEARS TO BE HAZARDOUS MATERIALS, THE FIRE DEPARTMENT SHALL BE CONTACTED IMMEDIATELY AT (916) 774-5820. THE AREA, WHICH CONTAINS THE HAZARDOUS MATERIALS, SHALL BE MARKED OFF UNTIL AN INVESTIGATION BY A MEMBER OF THE FIRE DEPARTMENT IS CONDUCTED.
12. GRADES SHOWN OUTSIDE OF THE PUBLIC RIGHT OF WAY WITHIN THE APPROVED GRADING PLAN ARE SUBJECT TO FURTHER REVIEW AND MODIFICATION BY THE BUILDING DIVISION FOR COMPLIANCE WITH THE UNIFORM BUILDING CODE AND STATE OF CALIFORNIA TITLE 24 HANDICAP ACCESSIBILITY REQUIREMENTS.
13. THE CONTRACTOR/DEVELOPER IS EXPECTED TO COMPLY WITH THE FUGITIVE DUST CONTROL REQUIREMENTS FROM THE PLACER COUNTY AIR POLLUTION CONTROL DISTRICT: WWW.PLACER.CA.GOV/APCD
14. CONTAMINATED SOIL – DEVELOPER AGREES TO PROPERLY ADHERE TO ALL THEN CURRENT STATE AND FEDERAL REQUIREMENTS WHEN ANY EVIDENCE OF TOXIC, HAZARDOUS OR CONTAMINATED SOILS ARE ENCOUNTERED DURING ANY AND ALL EXCAVATION OR GRADING OPERATIONS, AND TO INDEMNIFY, DEFEND AND HOLD HARMLESS THE CITY OR ROSEVILLE, ITS OFFICERS, AGENTS AND EMPLOYEES, FROM ANY AND ALL LIABILITY, COSTS, CLAIMS, FEES, FINES, PENALTIES AND CLAIMS OF OR DAMAGE OF ANY TYPE WHATSOEVER. EXTRA COSTS FOR REMEDIATION AND/OR REMOVAL OF SOIL SHALL BE BOURN SOLELY BY THE DEVELOPER. THE PARTIES INTEND THAT THIS PROVISION BE BROADLY CONSTRUED.

EROSION/SEDIMENT CONTROL NOTES:

1. THE PROJECT STORMWATER POLLUTION PREVENTION PLAN (SWPPP) IS INCORPORATED BY REFERENCE INTO THIS SET OF PLANS. THE SWPPP IS CONSIDERED A DYNAMIC DOCUMENT AND WILL CHANGE AS CONDITIONS WARRANT. PERMANENT EROSION AND SEDIMENT CONTROL MEASURES WILL BE CONSTRUCTED AS SHOWN ON THESE PLANS.
2. A COPY OF THE SWPPP SHALL BE KEPT AND AVAILABLE AT THE PROJECT SITE AT ALL TIMES.
3. ALL EROSION AND SEDIMENT CONTROL MEASURES SHALL BE IMPLEMENTED AS SPECIFIED IN THE SWPPP AND/OR AS DIRECTED BY CITY INSPECTOR.
4. NO GRADING OR TRENCHING, EXCEPT AS REQUIRED FOR EROSION OR SEDIMENT CONTROL, SHALL OCCUR WITHIN 35 FEET FROM THE CENTERLINE OF PERENNIAL AND INTERMITTENT DRAINAGE SWALES BETWEEN OCTOBER 15 AND APRIL 15 EXCEPT AS APPROVED BY THE DEPARTMENT OF FISH AND GAME.
5. ALL EROSION AND SEDIMENT CONTROL MEASURES SHALL BE MAINTAINED IN ACCORDANCE WITH THE SWPPP.
6. THE CONTRACTOR SHALL ESTABLISH A SPECIFIC SITE WITHIN THE DEVELOPMENT FOR MAINTENANCE AND STORAGE OF EQUIPMENT OR ANY OTHER ACTIVITY THAT MAY ADVERSELY CONTRIBUTE TO THE WATER QUALITY OF THE RUNOFF IN ACCORDANCE WITH THE SWPPP.

STRIPING NOTES:

1. CONTRACTOR SHALL REMOVE ALL EXISTING NON-CONFORMING STRIPING (BY GRINDING) AND PAVEMENT MARKERS AND ALL EXISTING STRIPING THAT CONFLICTS WITH THE PROPOSED STRIPING. REMOVAL SHALL INCLUDE ALL TEMPORARY TRAFFIC STRIPES AND MARKINGS.
2. ALL PERMANENT PAINTED TRAFFIC STRIPES, ARROWS, AND PAVEMENT MARKINGS SHALL BE CONSTRUCTED WITH THERMOPLASTIC MATERIAL TO THE SPECIFICATIONS SET FORTH IN CHAPTER 3 OF THE LATEST EDITION OF THE CALIFORNIA MUTCD. NON-REFLECTIVE PAVEMENT MARKERS SHALL CONSIST OF CERAMIC MARKERS ONLY CONFORMING TO CHAPTER 3 OF THE LATEST EDITION OF THE CALIFORNIA MUTCD. THERMOPLASTIC MATERIAL SHALL BE APPLIED ONLY WHEN THE PAVEMENT SURFACE TEMPERATURE IS ABOVE 60 DEGREES FAHRENHEIT.
3. THE CONTRACTOR SHALL BE RESPONSIBLE FOR PROVIDING AND MAINTAINING ALL CONSTRUCTION SIGNING AND STRIPING AS REQUIRED BY THE MUTCD AND MUTCD CALIFORNIA SUPPLEMENT TO DELINEATE CONSTRUCTION HAZARDS AT HIS/HER EXPENSE.
4. ALL STRIPING ON TRAILS IS TO BE PAINT.

TREE PRESERVATION NOTES

1. GRADING AROUND TREES TO BE LIMITED TO OUTSIDE THE DRIPLINE. ANY TREE WELL GRADED SHOULD BE DRAINED TO SOME OUTFALL OR SWALE.
2. THE FOLLOWING CONDITIONS SHALL APPLY TO ENSURE THE PRESERVATION OF TREES:

2.1. EACH TREE OR GROUP OF TREES TO BE SAVED SHALL BE FENCED BY A CHAIN-LINK FENCE OR TEMPORARY FENCE DESIGNATED IN THE SPECIFICATION PRIOR TO ANY GRADING OR MOVEMENT OF HEAVY EQUIPMENT OR ISSUANCE OF ANY PERMITS.
2.2. FENCING SHALL BE LOCATED ONE FOOT (1') OUTSIDE THE DRIPLINE OF THE TREE OR TREES.
2.3. SIGNS SHALL BE POSTED ON ALL SIDES OF SAID FENCES STATING:

WARNING:
THIS FENCE SHALL NOT BE REMOVED
OR RELOCATED WITHOUT WRITTEN
AUTHORIZATION FROM THE
PLANING DEPARTMENT

3. THE GRADING PLAN FOR THE PROJECT HAS BEEN DESIGNED FOR NO GRADING TO OCCUR WITHIN THE DRIPLINE OF ANY OAK TREE UNLESS SPECIFICALLY APPROVED BY PLANNING DEPARTMENT AND SHOWN ON THESE PLANS. NO GRADES SHALL BE MODIFIED WITHOUT THE APPROVAL OF THE CIVIL ENGINEER AND THE CITY OF ROSEVILLE.
4. NO TRENCHING SHALL OCCUR BENEATH THE DRIPLINE OF ANY OAK TREE TO BE SAVED UNLESS STATED ON THESE PLANS "TRENCHING UNDER THIS TREE IS APPROVED".
5. PARKING OF VEHICLES AND EQUIPMENT OR STORAGE OF MATERIALS UNDER THE DRIPLINE OF TREES SHALL NOT OCCUR AT ANY TIME.

AIR QUALITY NOTES:

1. CONSTRUCTION EQUIPMENT EXHAUST EMISSIONS SHALL NOT EXCEED PLACER COUNTY APCD RULE 202 VISIBLE EMISSION LIMITATIONS. OPERATORS OF VEHICLES AND EQUIPMENT FOUND TO EXCEED OPACITY LIMITS ARE TO BE IMMEDIATELY NOTIFIED BY APCD TO CEASE OPERATIONS AND THE EQUIPMENT MUST BE REPAIRED WITHIN 72 HOURS. (BASED ON APCD RULE 202)
2. THE CONTRACTOR SHALL SUSPEND ALL GRADING OPERATIONS WHEN FUGITIVE DUST EXCEEDS PLACER COUNTY APCD RULE 228 (FUGITIVE DUST) LIMITATIONS. THE PRIME CONTRACTOR SHALL BE RESPONSIBLE FOR HAVING AN INDIVIDUAL WHO IS CARB-CERTIFIED TO PERFORM VISIBLE EMISSIONS EVALUATIONS (VEE). THIS INDIVIDUAL SHALL EVALUATE COMPLIANCE WITH RULE 228 ON A WEEKLY BASIS. IT IS TO BE NOTED THAT FUGITIVE DUST IS NOT TO EXCEED 40% OPACITY AND NOT GO BEYOND THE PROPERTY BOUNDARY AT ANY TIME. LIME OR OTHER DRYING AGENTS UTILIZED TO DRY OUT WET GRADING AREAS SHALL NOT EXCEED PLACER COUNTY APCD RULE 228 FUGITIVE DUST LIMITATIONS. OPERATORS OF VEHICLES AND EQUIPMENT FOUND TO EXCEED OPACITY LIMITS WILL BE NOTIFIED BY APCD AND THE EQUIPMENT MUST BE REPAIRED WITHIN 72 HOURS. ALL PROJECTS IN EXCESS OF 5 ACRES SHALL HAVE AN APPROVED DUST CONTROL PLAN FROM THE PLACER COUNTY AIR POLLUTION CONTROL DISTRICT. (BASED ON APCD RULE 228)
3. DURING CONSTRUCTION, TRAFFIC SPEEDS ON ALL UNPAVED SURFACES SHALL BE LIMITED TO 15 MILES PER HOUR OR LESS. (BASED ON APCD RULE 228 / SECTION 401.2)
4. DURING CONSTRUCTION, NO OPEN BURNING OF REMOVED VEGETATION SHALL BE ALLOWED UNLESS PERMITTED BY THE PCAPCD. ALL REMOVED VEGETATIVE MATERIAL SHALL BE EITHER CHIPPED ON SITE OR TAKEN TO AN APPROPRIATE RECYCLING SITE, OR IF A SITE IS NOT AVAILABLE, A LICENSED DISPOSAL SITE. (BASED ON APCD RULE 310)
5. A PERSON SHALL NOT DISCHARGE INTO THE ATMOSPHERE VOLATILE ORGANIC COMPOUNDS (VOC'S) CAUSED BY THE USE OR MANUFACTURE OF CUTBACK OR EMULSIFIED ASPHALTS FOR PAVING, ROAD CONSTRUCTION OR ROAD MAINTENANCE, UNLESS SUCH MANUFACTURE OR USE COMPLIES WITH THE PROVISIONS RULE 217. (BASED ON APCD RULE 217).
6. PROCESSES THAT DISCHARGE 2 POUNDS PER DAY OR MORE OF AIR CONTAMINANTS, AS DEFINED BY HEALTH AND SAFETY CODE SECTION 39013, TO THE ATMOSPHERE MAY REQUIRE A PERMIT. PERMITS MAY BE REQUIRED FOR BOTH CONSTRUCTION AND OPERATION. DEVELOPERS/CONTRACTORS SHOULD CONTACT THE DISTRICT PRIOR TO CONSTRUCTION AND OBTAIN ANY NECESSARY PERMITS PRIOR TO THE ISSUANCE OF A BUILDING PERMIT. (BASED ON THE CALIFORNIA HEALTH & SAFETY CODE SECTION 39013)

DRY CREEK GREENWAY EAST PHASE 1 TRAIL IMPROVEMENT PROJECT GENERAL NOTES

SHEET 2 — OF — 168

Xrefs: DCBT-C-BORDER
Images: cropped COR black logo.tif|cropped COR black logo.tif|Marc_Signature.jpg

GENERAL NOTES:

FIRE DEPARTMENT NOTES

1. AN APPROVED PROJECT SIGN SHALL BE PLACED AT VEHICLE ACCESS POINTS INTO THE PROJECT DURING CONSTRUCTION TO ASSIST EMERGENCY RESPONDERS. THE SIGN SHALL IDENTIFY THE ADDRESS, AS APPROVED BY THE CITY OF ROSEVILLE. SUCH SIGNS SHALL BE CLEARLY VISIBLE AND LEGIBLE FROM THE STREET FRONTING THE PROJECT.

2. PRIOR TO COMBUSTIBLE MATERIALS BEING BROUGHT TO THE SITE, FIRE APPARATUS ACCESS ROADS SHALL BE PROVIDED TO WITHIN 150 FEET OF ALL STRUCTURES AND COMBUSTIBLE STORAGE PILES. FIRE APPARATUS ACCESS ROADS SHALL BE FULLY PAVED AND SHALL BE DESIGNED TO SUPPORT THE IMPOSED WEIGHT OF A FIRE APPARATUS (34 TONS GVW), UNLESS PRIOR APPROVAL IS OBTAINED FROM THE FIRE DEPARTMENT FOR TEMPORARY ACCESS ROADS. ACCESS ROADS SHALL BE PROVIDED WITH A MINIMUM 20-FOOT ROADWAY WIDTH AND 13 FOOT 6 INCH VERTICAL CLEARANCE.

3. PRIOR TO COMBUSTIBLE MATERIALS BEING BROUGHT TO THE SITE, ANY REQUIRED ON-SITE FIRE HYDRANTS SHALL BE COMPLETED AND ACCEPTED BY THE ROSEVILLE FIRE DEPARTMENT.

4. CONSTRUCTION MATERIAL AND VEHICLES SHALL NOT OBSTRUCT FIRE APPARATUS ACCESS TO FIRE APPARATUS ROADS, FIRE HYDRANTS OR THE BUILDING.

5. BARRICADES SHALL BE PROVIDED TO PROTECT ANY NATURAL GAS METER, FIRE HYDRANT, FIRE DEPARTMENT CONTROL DEVICE, OR OTHER POSSIBLE PERTINENT EQUIPMENT OR DEVICES THAT MAY BE SUBJECT TO VEHICULAR DAMAGE.

6. PROVIDE AND MAINTAIN A MINIMUM 3-FOOT CLEAR SPACE AROUND FIRE PROTECTION EQUIPMENT.

7. THE BURNING OF COMBUSTIBLE CONSTRUCTION MATERIALS AND TRASH IS PROHIBITED.

8. ASPHALT AND TAR KETTLES SHALL NOT BE LOCATED WITHIN 20 FEET OF ANY COMBUSTIBLE MATERIAL, COMBUSTIBLE BUILDING SURFACE OR BUILDING OPENING. AN ATTENDANT SHALL BE WITHIN 100 FEET OF A KETTLE WHEN THE HEAT SOURCE IS OPERATING. A MINIMUM OF ONE (1) 20B:C PORTABLE FIRE EXTINGUISHER SHALL BE LOCATED WITHIN 30 FEET OF THE KETTLE, AND ON THE ROOF DURING ASPHALT COATING OPERATIONS.

9. DRYWALL AND OTHER TEMPORARY HEATING DEVICES SHALL BE OF AN APPROVED TYPE, LOCATED AWAY FROM COMBUSTIBLE MATERIALS AND ATTENDED AND MAINTAINED AT ALL TIMES. HEATING DEVICES SHALL NOT BE OPERATED AFTER NORMAL WORKING HOURS WITHOUT BEING ATTENDED TO ON AN HOURLY BASIS.

10. CUTTING AND WELDING OPERATIONS SHALL CONFORM TO THE HOT WORK PROVISIONS OF CHAPTER 35 OF THE FIRE CODE. A FIRE WATCH SHALL BE PROVIDED DURING HOT-WORK ACTIVITIES AND SHALL CONTINUE FOR A MINIMUM OF 30 MINUTES AFTER THE CONCLUSION OF THE WORK.

11. IF SITE SURVEY OR EARTH MOVING WORK RESULTS IN THE DISCOVERY OF HAZARDOUS MATERIALS IN CONTAINERS, OR WHAT APPEARS TO BE HAZARDOUS WASTES RELEASED INTO THE GROUND, THE CONTRACTOR OR APPLICANT SHALL IMMEDIATELY REPORT THE FINDING TO THE ROSEVILLE FIRE DEPARTMENT VIA PHONE AT (916) 774-5800. ALL SUSPECTED AREAS SHALL BE MARKED OFF WITH APPROVED SIGNAGE OR CAUTION TAPE UNTIL SUCH TIME THAT A REPRESENTATIVE FROM THE FIRE DEPARTMENT DETERMINES WHETHER THE RELEASE IS REPORTABLE OR NOT AND IF SITE REMEDIATION IS REQUIRED.

12. FIRE SAFETY DURING CONSTRUCTION SHALL COMPLY WITH CHAPTER 33 OF THE CALIFORNIA FIRE CODE.

13. ADEQUATE RADIO COVERAGE SHALL BE PROVIDED WITHIN BUILDINGS FOR PUBLIC SAFETY AGENCIES, AS REQUIRED BY FIRE CODE.

14. PORTABLE FIRE EXTINGUISHERS SHALL BE INSTALLED IN OCCUPANCIES AND LOCATIONS AS SET FORTH IN THE CALIFORNIA FIRE CODE AND AS REQUIRED BY THE CHIEF. PROVIDE A MINIMUM OF ONE (1) PORTABLE FIRE EXTINGUISHER WITHIN EACH TENANT SPACE. THE MAXIMUM TRAVEL DISTANCE TO THE FIRE EXTINGUISHER SHALL NOT EXCEED 75-FEET. THE MINIMUM RATING CLASSIFICATION FOR THE EXTINGUISHER SHALL BE NOT LESS THAN 2A-10B:C. THE MAXIMUM TRAVEL DISTANCE FROM ANY POINT IN A LIGHT HAZARD AREA OF CLASS A HAZARDS SHALL NOT BE MORE THAN 75 FEET FROM A CLASS 2A-10B:C. FIRE EXTINGUISHER AND ONE EXTINGUISHER SHALL BE PROVIDED FOR EACH 6,000 SQUARE FEET. THE MAXIMUM TRAVEL DISTANCE FROM ANY POINT IN AN ORDINARY HAZARD OF CLASS A HAZARDS AREA SHALL NOT BE MORE THAN 75 FEET AND ONE EXTINGUISHER SHALL BE PROVIDED FOR EACH 3,000 SQUARE FEET. THE MAXIMUM TRAVEL DISTANCE TO CLASS B EXTINGUISHERS IS EITHER 30 FEET OR 50 FEET DEPENDING UPON THE SIZE OF THE EXTINGUISHER AND THE CLASSIFICATION OF THE HAZARD. REFER TO UFC STANDARD NO. 10-1 FOR COMPLETE REQUIREMENTS. ALL PORTABLE FIRE EXTINGUISHERS SHALL HAVE A SERVICE TAG AFFIXED TO THEM SHOWING THAT THE EXTINGUISHER HAS BEEN SERVICED BY A CALIFORNIA STATE LICENSED FIRE EXTINGUISHER CONCERN. ALL FIRE EXTINGUISHERS SHALL BE ATTACHED TO A BRACKET OR WITHIN AN APPROVED CABINET. MAXIMUM DISTANCE FROM THE FLOOR SHALL NOT EXCEED 54-INCHES. SIGNAGE SHALL BE POSTED ABOVE THE EXTINGUISHER AND SHALL READ FIRE EXTINGUISHER.

15. THE REQUIRED MINIMUM FIRE FLOW FOR THE PROTECTION OF THE PROPOSED PROJECT IS ____ GALLONS PER MINUTE WITH 20 POUNDS PER SQUARE INCH RESIDUAL WATER PRESSURE REMAINING IN THE SYSTEM. A CHANGE IN ANY OF THE CONDITIONS MAY INCREASE THE REQUIRED FIRE FLOW.

16. ALL UNDERGROUND FIRE LINE SHALL BE HYDRAULICALLY PRESSURED AT 200 PSI FOR TWO-HOURS PER THE NFPA STANDARD FOR UNDERGROUND FIRE WATER LINE. AN INSPECTION SHALL BE REQUIRED TO WITNESS THE TEST WITH A SUBSEQUENT INSPECTION AFTER THE TWO-HOUR DURATION HAS EXPIRED.

17. TEMPORARY USE OF ON-SITE GENERATORS WITH OVER 60 GALLONS OF DIESEL FUEL SHALL REQUIRE A FIRE DEPARTMENT PERMIT AND MUST MEET THE REQUIREMENTS OF THE CHAPTER 6.95 OF THE HEALTH AND SAFETY CODE, THE ROSEVILLE FIRE DEPARTMENT AND THE NATIONAL FIRE CODES. CONTACT THE FIRE DEPARTMENT AT 916-774-5800 TO INITIATE THE PERMIT APPLICATION.

18. SECTION 10.6.2 OF NFPA 24 HAS BEEN AMENDED NOT TO ALLOW MECHANICAL JOINTS UNDER BUILDINGS. SEE CHAPTER 80 OF THE CALIFORNIA FIRE CODE, PAGE 519. PROVIDE DETAIL OF THE PROPOSED RISER AND UNDERGROUND DETAIL TO THE PAD.

19. CIVIL IMPROVEMENT PLANS SHALL BE RESUBMITTED IF IT HAS BEEN DETERMINED BY THE APPLICANT THAT AN ON-SITE FIRE PUMP WILL BE REQUIRED AS THE RESULT OF SUPPLYING 100 PSI RESIDUAL PRESSURE AT THE STANDPIPE ROOF OUTLET ACCORDANCE WITH NFPA 14, STANDARD FOR THE INSTALLATION OF STANDPIPE AND HOSE SYSTEMS.

20. THE SUBMITTED PRIVATE UNDERGROUND FIRE LINE SHALL BE REVIEWED AND APPROVED BY THE ENVIRONMENTAL UTILITIES DEPARTMENT (EUD) IN CONJUNCTION WITH THE FIRE DEPARTMENT (RFD) PRIOR TO REQUESTING FOR THE REQUIRED INSPECTION FROM THE RFD. THE FIRE SPRINKLER PLANS WILL NOT BE APPROVED BY THE RFD UNTIL THE UNDERGROUND SERVICE LATERAL HAS BEEN INSPECTED AND ACCEPTED BY THE RFD.

21. ALL PROPOSED BURIED BOLTS SHALL BE COATED WITH A LISTED PRODUCT SUCH AS CHRISTY'S HD-50.

22. ACCORDING TO NFPA 13, 6.3.1.1.1, THE UNDERGROUND FIRE LINE CANNOT EXTEND INTO THE BUILDING FURTHER THAN 24 INCHES.

23. AN 18 AWG MINIMUM GAUGE TRACER WIRE SHALL BE INSTALLED ALONG ALL NON-METALLIC UNDERGROUND PIPING IN ACCORDANCE WITH SECTION 604 OF THE CALIFORNIA PLUMBING CODE. NOTATIONS SHALL BE MADE ON THE RESUBMITTAL.

24. FIRE DEPARTMENT CONNECTION(S) SHALL BE WITHIN 2-FEET OF BACK OF CURB OR BACK OF WALKWAY, AND SHALL REMAIN UNOBSTRUCTED AT ALL TIMES.

25. ALL FIRE DEPARTMENT CONNECTIONS SHALL BE LABELED WITH THE APPROPRIATE ADDRESS.

26. MECHANICAL JOINTS SHALL BE INSTALLED AT AREAS NOTED PER THE EBBA THRUST RESTRAINT DESIGN PROGRAM SPECIFICATIONS.

27. CONDUITS SHALL BE INSTALL AND AVAILABLE FOR FUTURE MONITORING OF ALL FIRE PROTECTION DEVICES.

28. ALL WORK SHALL BE INSPECTED BY THE FIRE DEPARTMENT PRIOR TO INSTALLING GROUND MATERIALS.

29. TO SCHEDULE A FIRE DEPARTMENT INSPECTION FOR ANY ON-SITE WORK, FOLLOW THE DIRECTIONS USING THE CITY OF ROSEVILLE CITIZEN PORTAL AT PERMITSONLINE.ROSEVILLE.CA.US. THE FOLLOWING BD NUMBER BELOW SHALL BE USED WHEN SCHEDULING A FIRE DEPARTMENT INSPECTION. A BD NUMBER WILL BE ISSUED UPON APPROVAL. ALL INQUIRING REGARDING INSPECTIONS AND PERMIT FEES SHALL BE MADE BY CALLING (916) 774-5332.

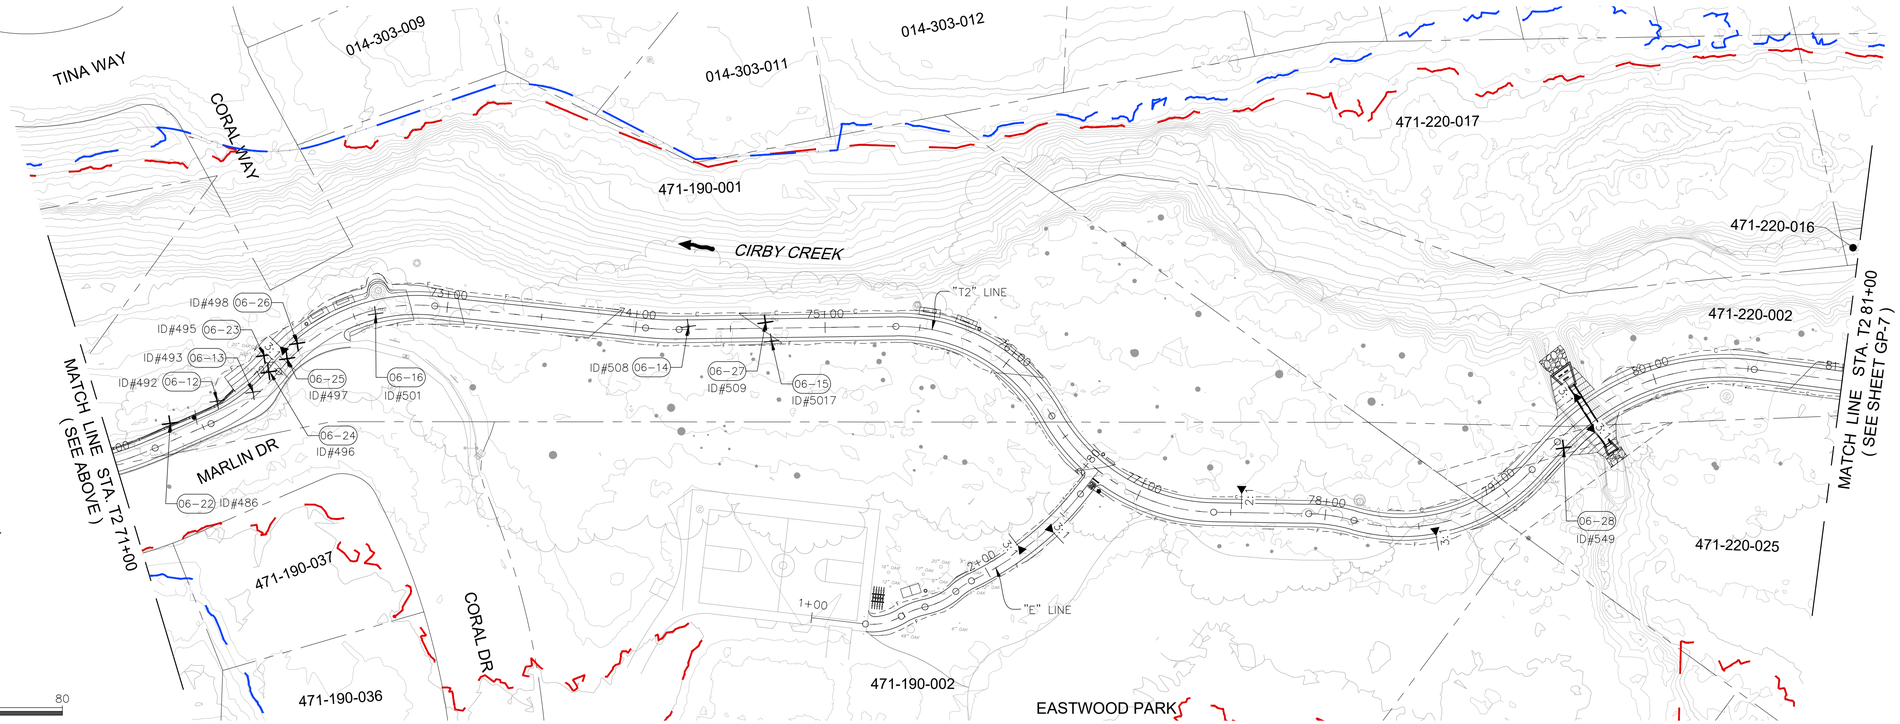
NOTES:



1. CONTRACTOR'S ATTENTION IS DIRECTED TO PERMITTING REQUIREMENTS AND SPECIFICATIONS REGARDING MITIGATION MEASURES.
2. CONTRACTOR MUST MINIMIZE IMPACTS TO ENVIRONMENTALLY SENSITIVE AREAS AND MUST BE FENCED OFF USING TEMPORARY FENCE TYPE ESA OR SIMILAR.
3. ALL OAK TREES WITHIN 20' OF PROPOSED IMPROVEMENT, NOT SHOWN TO BE REMOVED, MUST BE FENCED OFF USING TEMPORARY FENCE TYPE ESA OR SIMILAR.
4. CONTRACTOR'S ATTENTION IS DIRECTED TO PERMITTING REQUIREMENTS REGARDING ALL WORK, INCLUDING ACCESS STAGING AND TEMPORARY CONSTRUCTION ACTIVITIES, WHICH ARE WITHIN THE FLOODPLAIN, WITHIN THE CREEK BANKS AND WITHIN THE ORDINARY HIGH WATER MARK.
5. CONTRACTOR'S ATTENTION IS DIRECTED TO PERMITTING REQUIREMENTS REGARDING IMPACTS TO RIPARIAN HABITAT AND TREE REMOVAL.
6. CONTRACTOR MUST MAKE EVERY EFFORT TO MINIMIZE IMPACTS TO EXISTING VEGETATION. ANY IMPACTS TO TREES, NOT SHOWN ON THE PLANS, AND DEEMED NECESSARY TO FACILITATE TEMPORARY ACCESS, STAGING AND TEMPORARY CONSTRUCTION ACTIVITIES, MUST BE BROUGHT TO THE ATTENTION OF THE ENGINEER, BIOLOGICAL REPRESENTATIVE AND CITY ARBORIST.
7. CONTRACTOR MUST PREPARE A STAGING AND ACCESS PLAN FOR APPROVAL BY THE ENGINEER AT LEAST 14 DAYS PRIOR TO WORK COMMENCING.

Project Title: California Rural Indian Health Board (CRIHB) Fence

Project Location(s): 1020 Sundown Way and 726 Sunrise Avenue (APNs 471-220-002 and -025), Roseville, CA 95661

Project Description: The Public Works Department proposes to construct 950 linear feet of fence along the south side of the Dry Creek Greenway East – Phase 1 Trail, and immediately adjacent to property owned by the California Rural Indian Health Board (CRIHB), located at 1020 Sundown Way. Improvements include installation of an 8-foot tall redwood and steel fence, minor grading, and new landscaping. Most of the fence would be built on City-owned property, but a portion would follow along trail easement that crosses into western corner of the CRIHB's property. The fence would be appurtenant to CRIHB's facility and provide privacy between it and users of the public Dry Creek Greenway East trail.

Public Agency Approving Project: Roseville City Council

Agency/Individual Carrying Out Project: City of Roseville Public Works Department

Reason why this Project is Exempt: This project qualifies for a Class 11 Exemption as described in Section 15311 of the California Environmental Quality Act (CEQA) guidelines which states:

> "Class 11 consists of construction, or placement of minor structures accessory to (appurtenant to) existing commercial, industrial, or institutional facilities…"

The project involves the construction of a fence to provide privacy between a public trail and a property owned by the CRIHB and would be accessory to that property, so the Class 11 Categorical Exemption is applicable to the project.

Title:	Water Utility Staffing Study Project - Professional Services Agreement Amendment and Budget Adjustment
Contact:	George Hanson 916-746-1764 ghanson@roseville.ca.us

SUMMARY

Staff recommends approval of a professional services agreement amendment for the Water Utility Staffing Study Project, with Brown and Caldwell, Inc., to add $19,922 to the original not-to-exceed amount of $96,489, bringing the revised not-to-exceed amount to $116,411. Staff also recommends a budget adjustment in the amount of $19,922 to further fund the study. Funds for the budget adjustment will come from available resources in the Water Operations Fund.

RECOMMENDATION

Staff recommends that the City Council:

1. Adopt a resolution to approve the First Amendment to Professional Services Agreement with Brown and Caldwell, Inc. for the Water Utility Staffing Study Project and authorize the City Manager to execute it on behalf of the City of Roseville; and

2. Adopt an ordinance to approve a budget adjustment appropriating $19,922 of available resources in the Water Operations Fund to be applied to the non-capital multi-year Water Utility Staffing Study Project.

BACKGROUND

The City entered into an agreement with Brown and Caldwell, Inc. to provide planning services and data analysis for a Water Utility Staffing Study in accordance with the scope of services approved by City Council, August 16, 2024.

As part of planning efforts for a new Utility Operations Center, in 2020 the Environmental Utilities Department (EU) developed a conceptual plan for this project and, as part of that evaluation, developed staffing projections through buildout of the City (2020 Site Evaluation for City Services).

For the EU Rates Study which kicked off in 2022, the Water Utility developed a 10-year staffing projection as part of that study and extrapolated those projections to develop staffing projections through 2045.

EU also hired a consulting firm in 2023 who is conducting the environmental analysis and predesign work for the Utilities Operations Center. Based on the work by this consulting firm, staffing projections through 2050 have been developed.

All three effortsprovided distinctly varying information regarding staffing levels since the assumptions used

for all the efforts were always consistent.

This current study is to consolidate the data from the 3 previous efforts, validate the assumptions used, and establish a broader range of criteria that were not considered in the earlier efforts.

This study will also further evaluate staffing needs for the Water Utility Division based on Levels of Service (LOS). The LOS that is being conducted includes a comprehensive background review, staff interviews, field study, and a comparison analysis with similar-sized and similar function utilities.

A draft of the Staffing Alternatives Analysis was delivered by Brown and Caldwell, Inc. to the City in the fall of 2025. City and Brown and Caldwell staff have been reviewing and adjusting the analysis to reflect additional input provided by the Water Utility. As the project has evolved, additional work has been identified that was not contemplated in the original scope of work.

The following list itemizes the amendment scope items:

Project Management

- Preparation of Amendment 1 scope and budget.
- Project Management activities including schedule management, monthly client check-in calls, invoices, status reports, and team/client coordination incurred by an extension in contract length to manage the project through August 2026. This results in 14 months of additional PM activities.

Data Collection

- Preparation for and facilitation of an additional virtual LOS Workshop with two BC attendees.
- Extended field study preparation and review meetings, plus an extended field day meeting with 10 Water Utility groups.
- Additional staff interviews with SCADA, maintenance, and compliance teams.

Development of Study

- Extended review and adjustments to staffing alternatives.
- Individual alternatives review with each Water Utility Section Leader.

FISCAL IMPACT

The recommended professional services agreement amendment will add $19,922 to the original not-to-exceed amount of $96,489, bringing the revised not-to-exceed amount to $116,411. Staff is also recommending a budget adjustment of $19,922 to fund the amendment to fully cover the cost of the study. This will be funded from available resources in the Water Operations Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foresee a indirect physical change in the environment or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of a professional services amendment meets the above criteria and is not subject to CEQA. No additional environmental review is required.

RESOLUTION NO. 26-222

APPROVING A FIRST AMENDMENT TO PROFESSIONAL SERVICES AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND BROWN AND CALDWELL, INC., AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, a First Amendment to Professional Services Agreement for the Water Utility Staffing Study Project, by and between the City of Roseville and Brown and Caldwell, Inc., has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said first amendment is hereby approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this ___ day of _____, 2026, by the following vote on roll call:

FIRST AMENDMENT TO

PROFESSIONAL SERVICES AGREEMENT

Water Utility Staffing Study

THIS FIRST AMENDMENT TO AGREEMENT is made and entered into this 15th day of May, 2026, by and between the City of Roseville, a municipal corporation ("CITY"), and Brown and Caldwell, a California corporation ("CONSULTANT"); and

W I T N E S S E T H:

WHEREAS, CITY and CONSULTANT previously entered into a Professional Services Agreement dated September 18, 2024 ("Agreement") regarding Water Utility Staffing Study ("Project"); and

WHEREAS, CITY desires to amend the Agreement to include additional services as described in CONSULTANT's letter/proposal dated May 12, 2026, which is attached hereto as Exhibit "A" and incorporated herein by reference; and

WHEREAS, CONSULTANT is willing and able to provide such additional services.

NOW, THEREFORE, the parties agree as follows:

1. CONSULTANT shall provide additional services as described in Exhibit "A" of this First Amendment to Agreement.

2. Section 2 of the Agreement is amended by adding an additional paragraph to read as follows:

"CITY shall pay nineteen thousand, nine hundred twenty-two dollars ($19,922), in consideration of the additional services as set forth in Exhibit "A" to the First Amendment to Agreement. This brings the total not to exceed contract amount to one hundred sixteen thousand, four hundred eleven dollars ($116,411)."

3. All other provisions of the Agreement shall remain unchanged and in full force and effect.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this First Amendment to Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ___ day of _____, 20__, and CONSULTANT has caused this First Amendment to Agreement to be executed.

Roseville Staffing Evaluation

George Hanson
City of Roseville, Water Utility
316 Vernon St
Roseville, CA 95678

Project No. 152360

Subject: Amendment 01 Justification

Dear George:

Brown and Caldwell (BC) is currently under contract with the City of Roseville to provide planning services in accordance with the scope of services executed on August 16, 2024. The original contract amount was $96,489 for work anticipated between October 2024 and June 2025.

Draft Staffing Alternatives were delivered to the City of Roseville in October 2025. Brown and Caldwell is requesting the release of an additional $19,922 to address additional work requested since project initiation and to accommodate the extended project timeline. The City of Roseville will be responsible for providing timely feedback on the staffing alternatives, report, and outreach materials. BC will provide services for the contract, including this Amendment 01 up to the limit of the budget.

Attachment A – Amendment 1 Fee Proposal itemizes the additional funds requested to continue conducting the Staffing Evaluation. At this time, Phase 400 – Report Development and Phase 500 – Outreach tasks are not anticipated to require any additional level of effort, contingent upon the assumptions included in Attachment B – Schedule of amended steps for completion.

Attachment B – Schedule outlines the amended steps for the Staffing Evaluation, assuming all feedback from the City of Roseville was received by May 29, 2026.

The following list itemizes the amendment scope items.

Phase 100 – Project Management

- Preparation of Amendment 1 scope and budget.
- Project Management activities including schedule management, monthly client check-in calls, invoices, status reports, and team/client coordination incurred by an extension in contract length to manage project through August 14, 2026. This results in 14 months of additional PM activities.

Phase 200 – Data Collection

- Preparation for and facilitation of an additional virtual LOS Workshop with two BC attendees.

- Extended field study preparation and review meetings, plus an extended field day meeting with 10 Water Utility groups conducted by one BC field staff and one office staff coordinator.
- Additional staff interviews with SCADA, maintenance, and compliance teams.

Phase 300 – Development of Study

- Extended review and adjustments to staffing alternatives.
- Individual alternatives review with each Water Utility Section Leader.

Very truly yours,

Brown and Caldwell

Kirk Olds, Project Manager

Project Closed Out	August 14, 2026	

1. Additional review cycles, changed direction, and/or audience-specific outreach versions of the outreach slide deck may require additional budget or schedule adjustment.

ORDINANCE NO. 7077

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AUTHORIZING CERTAIN AMENDMENTS TO THE FISCAL YEAR 2025-26 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION MEASURE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. The City of Roseville Annual Budget, Fiscal Year 2025-26, is hereby amended as listed on the attached budget adjustment for the Water Utility Staffing Study Project.

SECTION 2. This ordinance is hereby declared to be an appropriation measure, immediately effective pursuant to the provisions of Section 5.03 of the Charter.

SECTION 3. The City Clerk is hereby authorized and directed to post a true copy of the foregoing ordinance in each of three (3) conspicuous locations in the City and she shall immediately after such posting enter in the ordinance book, under the record of the ordinance, a certificate under her hand stating the time and place of such publication by posting.

Roseville Staffing Evaluation

George Hanson
City of Roseville, Water Utility
316 Vernon St
Roseville, CA 95678

Project No. 152360

Subject: Amendment 01 Justification

Dear George:

Brown and Caldwell (BC) is currently under contract with the City of Roseville to provide planning services in accordance with the scope of services executed on August 16, 2024. The original contract amount was $96,489 for work anticipated between October 2024 and June 2025.

Draft Staffing Alternatives were delivered to the City of Roseville in October 2025. Brown and Caldwell is requesting the release of an additional $19,922 to address additional work requested since project initiation and to accommodate the extended project timeline. The City of Roseville will be responsible for providing timely feedback on the staffing alternatives, report, and outreach materials. BC will provide services for the contract, including this Amendment 01 up to the limit of the budget.

Attachment A – Amendment 1 Fee Proposal itemizes the additional funds requested to continue conducting the Staffing Evaluation. At this time, Phase 400 – Report Development and Phase 500 – Outreach tasks are not anticipated to require any additional level of effort, contingent upon the assumptions included in Attachment B – Schedule of amended steps for completion.

Attachment B – Schedule outlines the amended steps for the Staffing Evaluation, assuming all feedback from the City of Roseville was received by May 29, 2026.

The following list itemizes the amendment scope items.

Phase 100 – Project Management

- Preparation of Amendment 1 scope and budget.
- Project Management activities including schedule management, monthly client check-in calls, invoices, status reports, and team/client coordination incurred by an extension in contract length to manage project through August 14, 2026. This results in 14 months of additional PM activities.

Phase 200 – Data Collection

- Preparation for and facilitation of an additional virtual LOS Workshop with two BC attendees.

- Extended field study preparation and review meetings, plus an extended field day meeting with 10 Water Utility groups conducted by one BC field staff and one office staff coordinator.
- Additional staff interviews with SCADA, maintenance, and compliance teams.

Phase 300 – Development of Study

- Extended review and adjustments to staffing alternatives.
- Individual alternatives review with each Water Utility Section Leader.

Very truly yours,

Brown and Caldwell

Item ID: 2026-445

Title:	Dry Year Water Supply and Infrastructure Needs Assessment – Sole Source Professional Services Agreement
Contact:	Janice Gainey 916-774-5535 jrgainey@roseville.ca.us

SUMMARY

Staff recommends approval and award of a sole source professional services agreement to West Yost, Inc. in the amount of $74,800 for a Dry Year Water Supply and Infrastructure Needs Assessment. Funding for this project is from the Water Operations Fund. Staff further is requesting approval for a future amendment to execute the anticipated Phase 2 scope of work without returning to City Council as long as the Phase 2 cost does not exceed $60,000. With Phase 2 efforts included, the not-to-exceed budget for this project would be $134,800. This sole source request is similar to the Critical Dry Year Evaluation that West Yost conducted for the City in 2015 and allows West Yost to leverage, as applicable, the knowledge developed during the 2015 study for this current effort. Additionally, West Yost is currently updating the City's Distribution System's Current and Buildout Hydraulic Model, and this model will be utilized for this study. Funding for this project is from the Water Operations Fund.

RECOMMENDATION

Staff is recommending that the City Council:

1. Adopt a resolution to approve a Professional Services Agreement in the amount of $74,800 with West Yost Inc. for the Dry Year Water Supply and Infrastructure Needs Assessment and authorize the City Manager to execute it on behalf of the City of Roseville.
2. Approve authority for the City Manager or his designee to execute the Phase 2 Amendment without returning to City Council as long as the scope of work for the amendment does not exceed $60,000.

BACKGROUND

The City currently obtains 100 percent of its surface water supply from Folsom Lake. The drought conditions experienced in 2013 and into 2014 resulted in extremely low water levels in Folsom Lake. To address potential supply risk associated with potential prolonged dry conditions, the City conducted a Critical Dry Year Water Supply and Infrastructure Needs Assessment in 2015. The objectives of that study, conducted by West Yost, were to identify alternative water supplies, required infrastructure improvements, and revised operational protocols to meet both existing and future potable water demands and address potential supply risks. The City has been evaluating various solutions identified that can help mitigate the impacts of drought to the City's surface water supplies. One of the scenarios the City is considering analyzing is an alternate supply source from Sacramento Suburban Water District (SSWD).

The City is requesting West Yost conduct this assessment and prepare a Technical Memorandum (TM) summarizing the evaluation and its findings. The evaluation will focus on the ability to meet dry-year water supply conditions without supply from the City's Water Treatment Plant and supplement supply from SSWD instead. This will be similar to the Critical Dry Year Evaluation that West Yost conducted for the City in 2015 and allows West Yost to leverage, as applicable, the knowledge developed during the 2015 study

for this current effort. Additionally, West Yost is currently updating the City's Distribution System's Current and Buildout Hydraulic Model, and this model will be utilized for this SSWD study.

The proposal is for a not-to-exceed cost of $74,800, which is below the City Council limit of $75,000. This scope includes performing existing and future dry-year water supply and infrastructure needs assessments.

A second phase of this effort is contemplated that would additionally have the Consultant conduct an evaluation of the infrastructure needed from the SSWD water system to support reliable delivery of potable water supplies from SSWD to the City under critical dry year scenarios. This optional effort may include review of available SSWD water system information, coordination with SSWD staff, and/or development of planning-level hydraulic modeling to assess the ability of the SSWD water system to convey the quantity of water identified for evaluation under the dry-year scenarios.

This optional task would only be implemented if requested by the City and, if authorized to proceed, West Yost would submit a budget for the City's approval prior to initiating the work. The scope and fee could be defined once the task-specific objectives, data availability, and extent of coordination or modeling required are better defined.

Because authorization of the optional second phase of work would increase the contract amount above the Council limit, staff is proceeding with a request for sole source authorization at this time.

FISCAL IMPACT

The Dry Year Water Supply and Infrastructure Needs Assessment will be funded by existing budget appropriation within the Water Operations Fund for a not to exceed amount of $134,800.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The Dry Year Water Supply and Infrastructure Needs Assessment meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

4. Invest in well-planned infrastructure and growth
6. Deliver exceptional City services

Respectfully Submitted,
Janice Gainey, Principal Engineer

Sean Bigley, Environmental Utilities Director

RESOLUTION NO. 26-221

APPROVING A SOLE SOURCE PROFESSIONAL SERVICES AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND WEST YOST & ASSOCIATES, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, a Sole Source Professional Services Agreement for the Dry Year Water Supply and Infrastructure Needs Assessment, by and between the City of Roseville and West Yost & Associates, Inc., has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said Agreement is hereby approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

BE IT FURTHER RESOLVED, that the City Manager or his or her designee is authorized to execute an optional Amendment to Agreement for Phase 2 without further City Council approval, provided that the applicable budget is approved by the City Council and the total scope of work amount does not exceed sixty thousand dollars ($60,000).

PROFESSIONAL SERVICES AGREEMENT

Dry Year Water Supply and Infrastructure Needs Assessment

THIS AGREEMENT is made and entered into this____day of_____, 20_, by and between the City of Roseville, a municipal corporation ("CITY"), and West Yost & Associates, Inc., a California corporation ("CONSULTANT"); and

W I T N E S S E T H:

WHEREAS, CITY desires professional services consisting of identifying potential dry year water supply conveyance alternatives; and

WHEREAS, CONSULTANT has prepared a proposal dated April 22, 2026, which describes the scope of work to be performed by CONSULTANT, the budget for the work, and the schedule for performance of the work; and

WHEREAS, CONSULTANT is qualified and experienced to provide such professional services.

NOW, THEREFORE, the parties agree as follows:

1. Services. CONSULTANT shall perform, at the direction of CITY, the scope of services as described in EXHIBIT "A," attached hereto and incorporated herein by this reference.

2. Compensation. For its services provided hereunder, CONSULTANT shall be compensated on a time and expense basis in accordance with the budget estimate as described in

EXHIBIT "A." Total compensation shall not exceed seventy-four thousand, eight hundred dollars ($74,800).

CONSULTANT shall submit one monthly invoice for its services. Such invoices shall be delineated by task, the person performing the services, and the hourly rate, which shall be stated in time increments of not greater than one tenth (1/10) hours. CITY shall pay invoices within thirty (30) days after receipt, if the services specified in the invoice have been satisfactorily completed.

3. Indemnification. To the fullest extent allowed by law, CONSULTANT shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of CONSULTANT's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

CONSULTANT agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONSULTANT and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

CONSULTANT's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by

law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement. Notwithstanding any terms of this section, indemnification and defense obligations shall conform to California Civil Code Section 2782.8.

4. Insurance. CONSULTANT agrees to continuously maintain, in full force and effect, the following minimum policies of insurance during the term of this Agreement.

COVERAGE	LIMITS OF LIABILITY
Workers' Compensation	Statutory
Commercial General Liability	$1,000,000 each occurrence $2,000,000 aggregate Personal Injury: $1,000,000 each occurrence $2,000,000 aggregate
Automobile Liability	$1,000,000 combined single limit
Professional Liability (errors and omissions)	$1,000,000 per claim $2,000,000 aggregate

a. Form. CONSULTANT shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. CONSULTANT shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of CONSULTANT. The additional insured coverage under the CONSULTANT's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy,

and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. CONSULTANT shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Subcontractors. CONSULTANT agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, CONSULTANT shall require its subcontractors to agree to be bound to CONSULTANT and CITY in the same manner and to the same extent as CONSULTANT is bound to CITY under this Agreement. Additionally, CONSULTANT shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of CITY's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

f. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

g. Waiver of Subrogation. CONSULTANT hereby agrees to waive subrogation which any insurer of CONSULTANT may acquire from CONSULTANT by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all worked performed by CONSULTANT, its employees, agents and subcontractors.

h. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve CONSULTANT of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

5. Records. CONSULTANT and its subcontractors shall maintain all files and records relating to the services performed hereunder during the term of this Agreement and for a period of not less than one (1) year after the date of termination or expiration. Provided, however, that in the event of litigation or settlement of claims arising from the performance of this Agreement, CONSULTANT and its subcontractors shall maintain all files and records until such litigation, appeals or claims are resolved. Duly authorized representatives of CITY shall

have right of access during normal business hours and after reasonable notice to CONSULTANT's and subcontractors' files and records relating to the services performed hereunder and may review and copy the files and records at appropriate stages during performance of the services and during the one (1) year period following termination or expiration of this Agreement. CONSULTANT shall include this provision in its contracts with all subcontractors.

6. Time is of the Essence. CONSULTANT shall perform its services to meet the agreed schedule as expeditiously as is consistent with the exercise of professional skill and care and orderly progress of the Project. In no event with CONSULTANT be responsible for damages due to delays beyond CONSULTANT's reasonable control.

7. Prevailing Wages. When applicable, for purposes of this Agreement, CONSULTANT and its subcontractors shall comply with all applicable prevailing wage laws, e.g., but not limited to, California Labor Code Sections 1770 et seq. In accordance with said Section 1775, CONSULTANT shall forfeit as a penalty to the City two hundred dollars ($200) for each calendar day or portion thereof for each worker paid less than the prevailing rates for such work or craft in which such worker is employed for any work done on-site under the Agreement by CONSULTANT or by any subcontractor in violation of the provisions of the Labor Code and in particular, Labor Code Sections 1770 to 1780, inclusive. In addition to said penalty and pursuant to said Section 1775, the difference between such stipulated prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the stipulated prevailing wage shall be paid to each worker by CONSULTANT or the applicable subcontractor.

Pursuant to the provisions of California Labor Code Section 1773, the contracting department has identified the source, stated below, of the general prevailing rate of wages

applicable to the site to be done, for straight time, overtime, and holiday work. The holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of the particular craft, classification or type of worker concerned. These wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm.

Pursuant to Labor Code Section 1773.2, general prevailing wage rates set forth above, which forms a part of this Agreement, shall be posted by CONSULTANT at a prominent place at the work site. Prevailing wage rates to be posted at the work site will be furnished by the contracting department. The possibility of wage increases is one of the elements to be considered by CONSULTANT in determining its proposal and will not under any circumstances be considered as the basis of a claim against CITY or the Agreement.

8. Compliance with Laws. CONSULTANT shall comply with all federal, state and local laws, ordinances and policies as may be applicable to the performance of services under this Agreement.

9. Ability to Perform. CONSULTANT agrees and represents that it has the time, ability and professional expertise to perform the services required under this Agreement.

10. Public Contracts: Conflicts of Interest. CONSULTANT's duties and services under this Agreement shall not include preparing or assisting CITY with any portion of the CITY's preparation of a request for proposals, request for qualifications, or any other solicitation regarding a subsequent or additional contract with CITY. CITY shall at all times retain responsibility for public contracting, including with respect to any subsequent phase of this project. CONSULTANT's participation in the planning, discussions, or drawing of project plans or specifications shall be limited to conceptual, preliminary, or initial plans or specifications. CONSULTANT shall cooperate with CITY to ensure that all bidders for a subsequent contract

on any subsequent phase of this project have access to the same information, including all conceptual, preliminary, or initial plans or specifications prepared by CONSULTANT pursuant to this Agreement.

11. Governing Agreement. In the event of any conflict between this Agreement and its EXHIBITS, the provisions of this Agreement shall govern. In the event of any conflict between any of the EXHIBITS, the provisions of the first in order of attachment shall govern.

12. Assignment. CONSULTANT is employed to perform unique personal services. CONSULTANT shall not assign this Agreement without the prior written consent of CITY. CONSULTANT shall not employ or otherwise incur any obligation to pay other specialists or experts for services in connection with this Agreement, without prior written consent of CITY.

13. Independent Contractor. CONSULTANT, inclusive of its agents, officers, employees, volunteers, independent contractors, and subcontractors, shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

CONSULTANT and CITY agree that: (a) CONSULTANT is free from the control and direction of CITY in connection with the performance of the work; (b) CONSULTANT is providing services directly to CITY; (c) CONSULTANT has and will maintain at all relevant times a business license; (d) CONSULTANT maintains a business location that is separate from CITY; (e) CONSULTANT is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) CONSULTANT actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) CONSULTANT advertises and holds itself out to the public as available to provide the same or similar services; (h) CONSULTANT provides its own tools,

vehicles, and equipment to perform the services; (i) CONSULTANT has negotiated its own rates; (j) CONSULTANT set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONSULTANT has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

14. Representations and Warranties. CONSULTANT warrants that it has not employed or retained any company or person, other than a bona fide employee working for CONSULTANT, to solicit or secure this Agreement, and that it has not paid or agreed to pay any company or person, other than a bona fide employee, any fee, commission, percentage, brokerage fee, gift or any other consideration, contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, CITY shall have the right to terminate as void this Agreement, without liability, or, in its discretion, to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such fee, commission, percentage, brokerage fee, gift or contingent fee.

15. Successors in Interest. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

16. Copyright, Ownership and Use of Materials. All tangible material ("Material") created or delivered pursuant to this Agreement is considered a work made for hire under the Copyright Act. To the extent such Material does not qualify as a work made for hire, CONSULTANT hereby assigns to CITY all right, title, and interest, including but not limited to all copyrights, in all Material created by CONSULTANT in its performance under this Agreement. Material constitutes the scope of work outlined in Exhibit A and attached hereto, and all written and other tangible expressions, including but not limited to, drawings (including computer aided drawings), papers, documents, reports, surveys, renderings, exhibits, sketches, maps, models, prints, paintings or photographs, in any and all media or formats in which such

materials have been created or are maintained. All Material furnished by CONSULTANT is, and shall remain, the property of CITY.

CONSULTANT shall execute any documents necessary to effectuate such assignment. In the event that CONSULTANT uses, employs, designates, or retains any person or entity who is not an employee of CONSULTANT, to perform any work required of it pursuant to this Agreement, CONSULTANT shall require said person or entity to execute an agreement containing the preceding paragraph.

17. Termination of Agreement. The City may terminate this Agreement without cause by giving CONSULTANT ten (10) days advance written notice from the City Manager. CONSULTANT may terminate this Agreement without cause by giving CITY thirty (30) days advance written notice. In the event of termination through no fault of CONSULTANT, CITY shall compensate CONSULTANT for services performed as of the date of termination, upon the release to CITY of all Material hereunder, in any and all media or formats in which such materials have been created or are maintained. CITY retains the right to receive and use any Material, notwithstanding any termination or any dispute regarding the amount to be paid.

18. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance hereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

19. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

20. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

21. Notices. Any notices to parties required by this Agreement shall be delivered personally or mailed, U.S. first class postage prepaid, addressed as follows:

CITY OF ROSEVILLE	CONSULTANT
Environmental Utilities Department Attn: Sean Bigley 2005 Hilltop Circle Roseville, CA 95747	West Yost & Associates, Inc. Attn: Charles Duncan 2020 Research Park Drive, Suite 100 Davis, CA 95618

Either party may amend its address for notice by giving notice to the other party in writing.

22. Integrated Agreement. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No._____, adopted by the Council of the City of Roseville on the____day of_____, 20__, and CONSULTANT has caused this Agreement to be executed.

SUBJECT: Proposal for Engineering Services—Dry Year Water Supply and Infrastructure Needs Assessment

Dear George:

In response to your request, West Yost is pleased to submit this proposed scope of services and corresponding cost estimate to provide engineering services associated with identifying potential dry year water supply conveyance alternatives from Sacramento Suburban Water District (SSWD), in support of the City of Roseville's (City's) existing and buildout potable water demands.

BACKGROUND

The City currently obtains 100 percent of its surface water supply from Folsom Lake. As a result of the dry conditions in 2013, which continued into 2014, the potential for a "dead pool" condition occurred in early 2014. Under dead pool conditions, all flows out of Folsom Lake, including water supplies for the City, would stop due to the historical low water level in the lake. The dead pool volume for Folsom Lake equates to a volume of approximately 100,000 acre-feet (af). This is approximately 10 percent of the total reservoir capacity of 977,000 af and 20 percent of historical average wintertime storage of about 500,000 af.

Fortunately, enough rainfall occurred in the early months of 2014 to avoid a dead pool condition. However, based on these unprecedented conditions, future operation of Folsom Lake may be modified and, if the dry conditions persist, the future water supply from Folsom Lake to the City could be significantly reduced or stopped completely. These extraordinary conditions prompted the City to conduct a Critical Dry Year Water Supply and Infrastructure Needs Assessment in May 2015 to identify alternative water supplies, required infrastructure improvements and revised operational protocols to meet both existing and future potable water demands.

The conclusion of the May 2015 evaluation was that overall, the City's existing potable water system could provide adequate system pressures to existing customers during the dry year conditions by reducing system demands (conservation). A new pump station at Pleasant Grove Boulevard should be considered to deliver the excess groundwater supply from Pressure Zone (Zone) 4 to Zone 1, and a new pump station at PFE Road would be required to deliver emergency water supply from SSWD because the hydraulic head at the SSWD emergency connection point is lower than the City's Zone 1.

The City's buildout system could provide adequate system pressures to the existing and future customers during the dry year conditions with future groundwater wells, storage tanks and pump stations. It was recommended that the City consider relocating some of the proposed future groundwater well sites to Zone 1 to reduce the pumping requirement from Zone 4 to Zone 1 during the off-peak demand condition. Additionally, the City should consider the potential of including a delivery location for the Sacramento River supply in Zone 1, near the intersection of Baseline Road and Woodcreek Oaks Boulevard, once the Sacramento River Water Supply Project (RiverArc) is closer to development. This could be an alternative site to the Sierra Vista Reservoir Site.

Based on the City's concern regarding the reliability of its Folsom Lake water supply, the City requested West Yost to conduct this assessment and prepare a Technical Memorandum (TM) summarizing the evaluation and its findings. The evaluation will focus on the ability to meet dry-year water supply conditions without supply from the City's Water Treatment Plant and supplement supply from SSWD instead.

SCOPE OF SERVICES

The following is a list of the key tasks necessary to perform this proposed scope of services, each further described below:

- Task 1. Project Management and Meetings
- Task 2. Collect and Review Data
- Task 3: Perform Existing Dry-Year Water Supply and Infrastructure Needs Assessment
- Task 4: Perform Future Dry-Year Water Supply and Infrastructure Needs Assessment (Scenario #1)
- Task 5: Perform Future Dry-Year Water Supply and Infrastructure Needs Assessment (Scenario #2)
- Task 6: Prepare Technical Memorandum

Task 1. Project Management and Meetings

West Yost will provide overall project management activities to keep this project on schedule and within budget. The day-to-day management activities will include the scheduling of resources to perform the work, coordination among the project team, and communication of project progress with City staff. We will also provide brief status reports with our monthly invoice submittal.

West Yost will organize and participate in progress meetings to present interim work products and discuss project issues. These meetings will be scheduled approximately once a month and will focus on the review of completed evaluations and obtaining input from City staff on the development of the TM.

Task 1 Assumptions

- It is assumed that all progress meetings will be conducted online via Microsoft Teams.

Task 1 Deliverables

- Monthly progress reports.
- Up to two (2) Microsoft Teams meetings at 1-hour each.

Task 2. Collect and Review Data

West Yost will review available materials and supplement or update these materials as needed to gain a complete understanding of the water supply, water demand and delivery options for the City. This work will include meeting with City staff to identify and collect pertinent data, studies, reports, and to debrief on the City's discussions with SSWD on the amount of water available from SSWD during a dry year. West Yost also assumes that the City will provide both the existing and future demand conditions to be used in the evaluations, as well as any changes that were recommended in the 2015 evaluation that have been implemented.

As part of Task 2, West Yost will meet with the City and SSWD to further discuss the amount of available water supply under dry-year conditions and the potential points of connection into the City's Zone 1 and/or Zone 4. West Yost assumes that this will be a Microsoft Teams meeting and will not be longer than one hour.

Task 2 Assumptions

- The City will provide West Yost the demand conditions that they would like West Yost to evaluate with the hydraulic model.
- It is assumed that the City will provide the level of conservation West Yost should assume for the dry-year alternative.
- West Yost assumes that the City will reach out to SSWD leadership prior to the joint meeting to align both the City and SSWD with the conceptual plan of receiving dry-year water supply from SSWD.
- Update on the amount of water and connection location/pressure to assume are available from the SSWD during a dry year demand/supply condition.

Task 2 Deliverables

- No deliverable will be provided for this task. Findings will be incorporated into Task 6.

Task 3. Perform Existing Dry-Year Water Supply and Infrastructure Needs Assessment

West Yost will develop and evaluate a single dry-year water supply alternative that will provide the City with operational flexibility to meet existing "dry-year" maximum day demands. Maximum day water demands will be evaluated under a single potable water demand reduction scenario representative of an existing maximum day demand in the City reduced to represent the mandatory conservation requirements for a dry-year water condition. West Yost will run a static model simulation with the hydraulic model assuming that sources of supply could come from the following:

1) No flow from the City's Water Treatment Plant (assumption is there is no available flow from USBR through Folsom Lake)
2) Treated water through interties from PCWA and/or SSWD
3) Groundwater supply from existing City production wells
4) Treated water supply from a new connection from SSWD to Zone 1

West Yost will run a static simulation with the hydraulic model under existing maximum day with a reduction to represent mandatory conservation required during a dry-year water condition scenario and develop a recommended supply scheme for the City to consider. Depending on the location and the quantity of SSWD water supplied to Zone 1 (this will be confirmed during meeting with SSWD leadership team in Task 2), West Yost will develop the recommended infrastructure to distribute the water and maintain minimum pressure and flow criteria.

West Yost will summarize the results and recommendations from the above evaluations into a set of tables and graphics. West Yost will set up a meeting via Microsoft Teams to review the tables and graphics with the City and develop any input for the future demand evaluations.

Task 3 Assumptions

- The City will provide West Yost with the amount of supply to assume is available from the City's existing wells.
- The City will supply West Yost with the mandatory conservation required during a dry-year water condition as a percentage that West Yost can supply to the static model of the existing maximum day demand condition.
- It is assumed that the City will provide the maximum amount of supply that West Yost can assume is available from SSWD during a dry year evaluation.
- It is assumed the City will provide West Yost the points of connection into either Zone 1 or Zone 4 from SSWD.

Task 3 Deliverables

- A set of tables and graphics summarizing the evaluation and results of City's potential surface water supplies and delivery options. Tables and graphics will be submitted electronically via PDF to the City. A virtual meeting will be held to discuss the methodology, the results and obtain comments (combined with Tasks 4 and 5).

Task 4. Perform Future Dry-Year Water Supply and Infrastructure Needs Assessment (Scenario #1)

West Yost will develop and evaluate dry-year water supply alternatives that will provide the City with operational flexibility to meet future maximum day demands. Maximum day water demands will be evaluated under a single future potable water demand reduction scenario representative of a maximum day demand in the City reduced to represent the mandatory conservation requirements for a dry-year water condition. Once the future demand set has been developed, West Yost will run a static simulation with the hydraulic model assuming that sources of supply could come from the following:

- No flow from the City's Water Treatment Plant
  (assumption is there is no available flow from USBR through Folsom Lake)
- Treated water through interties from PCWA and/or SSWD
- Treated water through a new intertie from SSWD to Zone 1
- Groundwater supply from existing and proposed future City production wells

West Yost will run a static simulation with the hydraulic model under a future maximum day with a reduction to represent mandatory conservation required during a dry-year water condition scenario and develop the optimized supply scheme. Depending on the location and the quantity of SSWD water supplied to Zone 1 (this will be confirmed during meeting with SSWD leadership team in Task 2), West Yost will develop the recommended infrastructure to distribute the water and maintain minimum pressure and flow criteria.

West Yost will summarize the results and recommendations from the above evaluations into a set of tables and graphics. West Yost will set up a meeting via Microsoft Teams to review the tables and graphics with the City.

Task 4 Assumptions

- The City will provide West Yost with the amount of supply to assume is available from the City's existing and proposed wells.
- The City will supply West Yost with the mandatory conservation required during a dry-year water condition as a percentage that West Yost can supply to the static model of the future maximum day demand condition. It is assumed that the City will provide the maximum amount of supply that West Yost can assume is available from SSWD during a dry year evaluation.
- It is assumed the City will provide West Yost the points of connection into either Zone 1 or Zone 4 from SSWD.

Task 4 Deliverables

- A set of tables and graphics summarizing the methodology used to define the long-term reliability and cost effectiveness of City's potential surface water supplies and delivery options. Tables and graphics will be submitted electronically via PDF to the City. A virtual meeting will be held to discuss the methodology, the results and obtain comments (combined with Tasks 3 and 5).

Task 5. Perform Future Dry-Year Water Supply and Infrastructure Needs Assessment (Scenario #2)

Task 5 will build upon the methodology and modeling framework developed under Task 4 and will evaluate a second dry-year supply scenario that differs in the quantity and/or point(s) of delivery of SSWD water. Using the same future maximum day demand condition with mandatory conservation applied, West Yost will update the hydraulic model to reflect the revised SSWD supply assumptions and perform a static simulation.

West Yost will compare Task 5 results to Task 4 to evaluate any changes to recommended infrastructure. Where appropriate, differences in supply distribution, pressure performance, and required capital improvements will be summarized.

Task 5 Assumptions

- Same as Task 4.

Task 5 Deliverables

- A set of tables and graphics summarizing the methodology used to define the long-term reliability and cost effectiveness of City's potential surface water supplies and delivery options. Tables and graphics will be submitted electronically via PDF to the City. A virtual meeting will be held to discuss the methodology, the results and obtain comments (combined with Tasks 3 and 4).

Task 6. Prepare Technical Memorandum

West Yost will integrate City comments to the previously submitted tables and graphics that have been prepared in the above tasks and develop sections of the Draft Dry Year Water Supply and Infrastructure Needs Assessment TM.

Following City review of the Draft TM, a virtual meeting will be held to discuss review comments and questions. The Draft TM will then be updated to integrate appropriate comments (updated Draft TM). After City review of the updated Draft TM, a Final TM will be prepared and submitted to the City.

Task 6 Assumptions

- It is assumed that the City will provide written comments that are aggregated into one marked up version of the Draft TM for West Yost to integrate into an updated Draft TM.
- City would provide another consolidated set of comments on the updated Draft TM for integration into the Final TM.

Task 6 Deliverables

- Submit two (2) draft and one (1) final electronic copies of the TM presenting a summary of West Yost's findings, conclusions and recommendations.

Task 7 (Optional Task). Evaluation of SSWD Water System

At the City's request, West Yost can support evaluation of the infrastructure needed from the SSWD water system to support the new intertie with the City. This optional effort may include review of available SSWD water system information, coordination with SSWD staff, and/or development of planning-level hydraulic modeling to assess the ability of the SSWD water system to convey the quantity of water identified for evaluation under the dry-year scenarios. Findings would be summarized in tables and graphics and incorporated into Task 6 as appropriate.

The level of effort and associated budget for this optional task has been developed based on the following assumptions:

- SSWD will provide available water system information, which may include GIS data, system maps, facility information (pump stations, tanks, pipelines), and hydraulic model files (if available).
- The hydraulic model provided by SSWD will be suitable for planning-level evaluation and will not require calibration or updates. Up to two (2) steady-state modeling scenarios will be developed and evaluated.
- If a hydraulic model is not available, West Yost will perform a simplified, planning-level evaluation using available system information and reasonable engineering assumptions.
- Coordination with SSWD and the City will include up to two (2) virtual meetings (up to 1 hour each) to review assumptions, available data, and preliminary findings.
- Evaluation will focus on the ability of the SSWD system to convey the identified dry-year supply quantities to the proposed intertie location(s); detailed design is not included.
- Results will be developed at a planning level of detail to support decision-making and will not constitute design-level recommendations.
- Findings will be incorporated into the Technical Memorandum prepared under Task 6; no standalone TM will be prepared.

This optional task will only be implemented if requested by the City, and if authorized to proceed, West Yost will submit a budget for the City's approval prior to initiating the work. Once the task-specific objectives, data availability, and extent of coordination or modeling required are better defined, the assumptions used for this proposal may be modified.

Task 7 Assumptions

- If a hydraulic model is available, up to two (2) steady-state modeling scenarios will be developed and evaluated.
- If a hydraulic model is not available, a simplified, planning-level evaluation using available system information and reasonable engineering assumptions will be performed.
- Results will be developed at a planning level of detail to support decision-making.

Task 7 Deliverables

- Findings, conclusions, and recommendations will be incorporated into Task 6 TM.

PROJECT BUDGET

West Yost's proposed level of effort and budget for each of the tasks described above is shown in Table 1. West Yost will perform the scope of services described above (without Task 7) on a time-and-expenses basis, at the billing rates set forth in West Yost's attached Billing Rate Schedule, with a not-to-exceed budget of $74,800. Any additional services not included in this scope of services will be performed only after receiving written authorization and a corresponding budget augmentation.

Table 1. Estimated Project Hours and Budget

Task	Level of Effort, hours	Estimated Budget, dollars
Task 1. Project Management and Meetings	28	$9,100
Task 2. Collect and Review Data	38	$10,300
Task 3. Perform Existing Dry-Year Water Supply and Infrastructure Needs Assessment	49	$12,500
Task 4. Perform Future Dry-Year Water Supply and Infrastructure Needs Assessment (Scenario #1)	49	$12,500
Task 5. Perform Future Dry-Year Water Supply and Infrastructure Needs Assessment (Scenario #2)	49	$12,500
Task 6. Prepare Technical Memorandum	67	$17,900
Total Project Hours and Budget	**280**	**$74,800**

SCHEDULE

West Yost understands the City's desire to have this work completed as soon as possible. West Yost will provide the Draft TM to the City for review and comment twelve (12) weeks after notification to proceed with this project.

We appreciate this opportunity to continue to provide the City of Roseville with water supply planning assistance and look forward to another interesting and challenging project. Please call me if you have any questions or would like any additional information.

Sincerely,
WEST YOST

Charles T. Duncan, PE
President

Title:	Phillip Road and Westpark Drive Bikeway Project - Capital Improvement Project Approval, Budget Adjustment, and Approval of Plans and Specifications and Authorization to Call for Bids
Contact:	Samuel Benjamin 916-746-1305 sbenjamin@roseville.ca.us

SUMMARY

Staff recommends approval to establish a new Capital Improvement Project - the Phillip Road and Westpark Drive Bikeway Project, approve a budget adjustment in the amount of $350,000 from the General Fund Capital Reserve Fund to fund the improvements, approve the plans and specifications for the project, and authorization for staff to call for bids. The project will create a new bicycle route from the Placer Valley Soccer Complex and surrounding neighborhoods to West Park High School by adding lane markings, striping, and a new trail segment. Construction is anticipated in summer 2026.

RECOMMENDATION

Staff recommends the City Council:

1. Approve the establishment of a new Capital Improvement Project - Phillip Road and Westpark Drive Bikeway Project;

2. Adopt the attached ordinance to approve a budget adjustment in the amount of $350,000 from the General Fund Capital Reserve Fund to fund the project; and

3. Approve the plans and specifications for the project and authorize staff to call for bids.

BACKGROUND

The Phillip Road and Westpark Drive Bikeway Project will create a new bicycle route from the Placer Valley Soccer Complex and surrounding neighborhoods to West Park High School. The project will add approximately 2,200 linear feet of two-way cycle track along existing pavement on Westpark Drive from the Phillip Road intersection to just north of Pistachio Park, add shared lane markings on Phillip Road and through the Placer Valley Soccer Complex parking lot, and construct approximately 730 linear feet of new bike trail along the Pistachio Park baseball field.

The two-way cycle track will be separated from traffic by a 2.5-foot buffer zone and allow bicycle movement in both directions on one side of the road. Additionally, new bike refuge zones and crosswalks will be installed at the Phillip Road and Westpark Drive intersection to provide an entrance and exit onto the cycle track on Westpark Drive.

The cycle track, shared lane markings, and new section of bike trail will create a continuous connection from the existing bike path at Westpark Drive and Bickleigh Loop to the Placer Valley Soccer Complex entrance at Westbrook Boulevard, further advancing the progress made on the City's Active Transportation

Plan.

The Public Works Department's Streets Maintenance Division will construct the new sections of asphalt bike trail, while the striping and concrete work will be completed by a contractor. Construction of the project is anticipated to begin in summer of 2026. Construction plans and specifications for the project have been completed and are attached.

Public Works staff will work closely with the Public Affairs and Communications Department to keep the community informed of the project and its impacts. Notifications may include, but are not limited to: door hangers, mailers, signage, email newsletters, website (roseville.ca.gov/PublicWorks), and social media updates.

FISCAL IMPACT

Construction of the project is estimated to cost $350,000 and the requested funding will be from the General Fund Capital Reserve Fund.

ENVIRONMENTAL REVIEW

Two segments of the proposed bikeway project were previously analyzed by the City Council. A bike path along Westpark Drive from its intersection with Bickleigh Loop north to Blue Oaks Boulevard was approved as part of the West Roseville Specific Plan (WRSP) and evaluated in the WRSP EIR (Certified February 2004, SCH No. 2002082057). The proposed project would implement a portion of this previously planned bike path, from Pistachio Park to Phillip Road.

The segment of the proposed bike path was approved as part of the Pistachio Park Master Plan, which was evaluated in the Environmental Review Checklist, Pistachio Park (F-56) Project Addendum to WRSP EIR (June 2018). Portions of the paths approved as part of the master plan have been constructed, and the proposed project would complete the internal bike and pedestrian circulation system approved in the master plan for the southern portion of Pistachio Park. The proposed bike path would make minor changes to the exact location of portions of the bike path, but the proposed changes would not result in any new or increased impacts.

Construction of these two segments of the Phillip Road-Westpark Drive Bikeway Project was previously evaluated in the WRSP EIR (February 2004) and Pistachio Park (F-56) Project Addendum to the WRSP EIR (June 2018), and staff has determined that this portion of the proposed project are within the scope of the project covered by the WRSP EIR. As discussed in the Specific Plan EIR, the EIR provides environmental analyses of community infrastructure and facilities, including parks, pedestrian bridges, and bike trails, to the extent applicable. The Pistachio Park Addendum further details bike and pedestrian paths that are consistent with the proposed project. Because the project is consistent with the WRSP, WRSP EIR, and Pistachio Park Addendum, no new effects would be expected to occur and all applicable mitigation measures from the WRSP EIR and Pistachio Park Addendum will be implemented during the construction of the Phillip Road-Westpark Drive Bikeway Project. Because these segments of the proposed project meet the requirements identified in Section 15183 of the State CEQA Guidelines, no additional CEQA review is required for these portions of the project is required.

Unlike the Pistachio Park and Westpark Drive segments of the proposed project, the two remaining segments of the proposed bike path along Phillip Road and through the Placer Valley Soccer Complex and

the crosswalks at Phillip Road and Westpark Drive had not previously been evaluated in any prior CEQA documents. However, these portions of the proposed project involve the minor alteration of an existing facility, specifically in the form of the addition of new bicycle lanes and pedestrian crossings without the creation of additional automobile lanes, which is categorically exempt from CEQA as a Class 1 Exemption (State CEQA Guidelines Section 15301). Additionally, the construction of three retaining structures to support the proposed bike refuge zones are categorically exempt from CEQA as a Class 4 Exemption (State CEQA Guidelines Section 15304) because they would involve the minor alteration and grading of land with a slope of less than 10 percent without removing any trees or affecting a waterway or wetland. The Exemption for these portions of the proposed project has been prepared and no further CEQA action is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

4. Invest in well-planned infrastructure and growth

Respectfully Submitted,
Samuel Benjamin, Junior Engineer

Jason Shykowski, Public Works Director

ORDINANCE NO. 7078

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AUTHORIZING CERTAIN AMENDMENTS TO THE FISCAL YEAR 2025-26 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION MEASURE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. The City of Roseville Annual Budget, Fiscal Year 2025-26, is hereby amended as listed on the attached budget adjustment for the Phillip Road and Westpark Drive Bikeay project.

SECTION 2. This ordinance is hereby declared to be an appropriation measure, immediately effective pursuant to the provisions of Section 5.03 of the Charter.

SECTION 3. The City Clerk is hereby authorized and directed to post a true copy of the foregoing ordinance in each of three (3) conspicuous locations in the City and she shall immediately after such posting enter in the ordinance book, under the record of the ordinance, a certificate under her hand stating the time and place of such publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville, this _____day of_____, 2026, by the following vote on roll call:

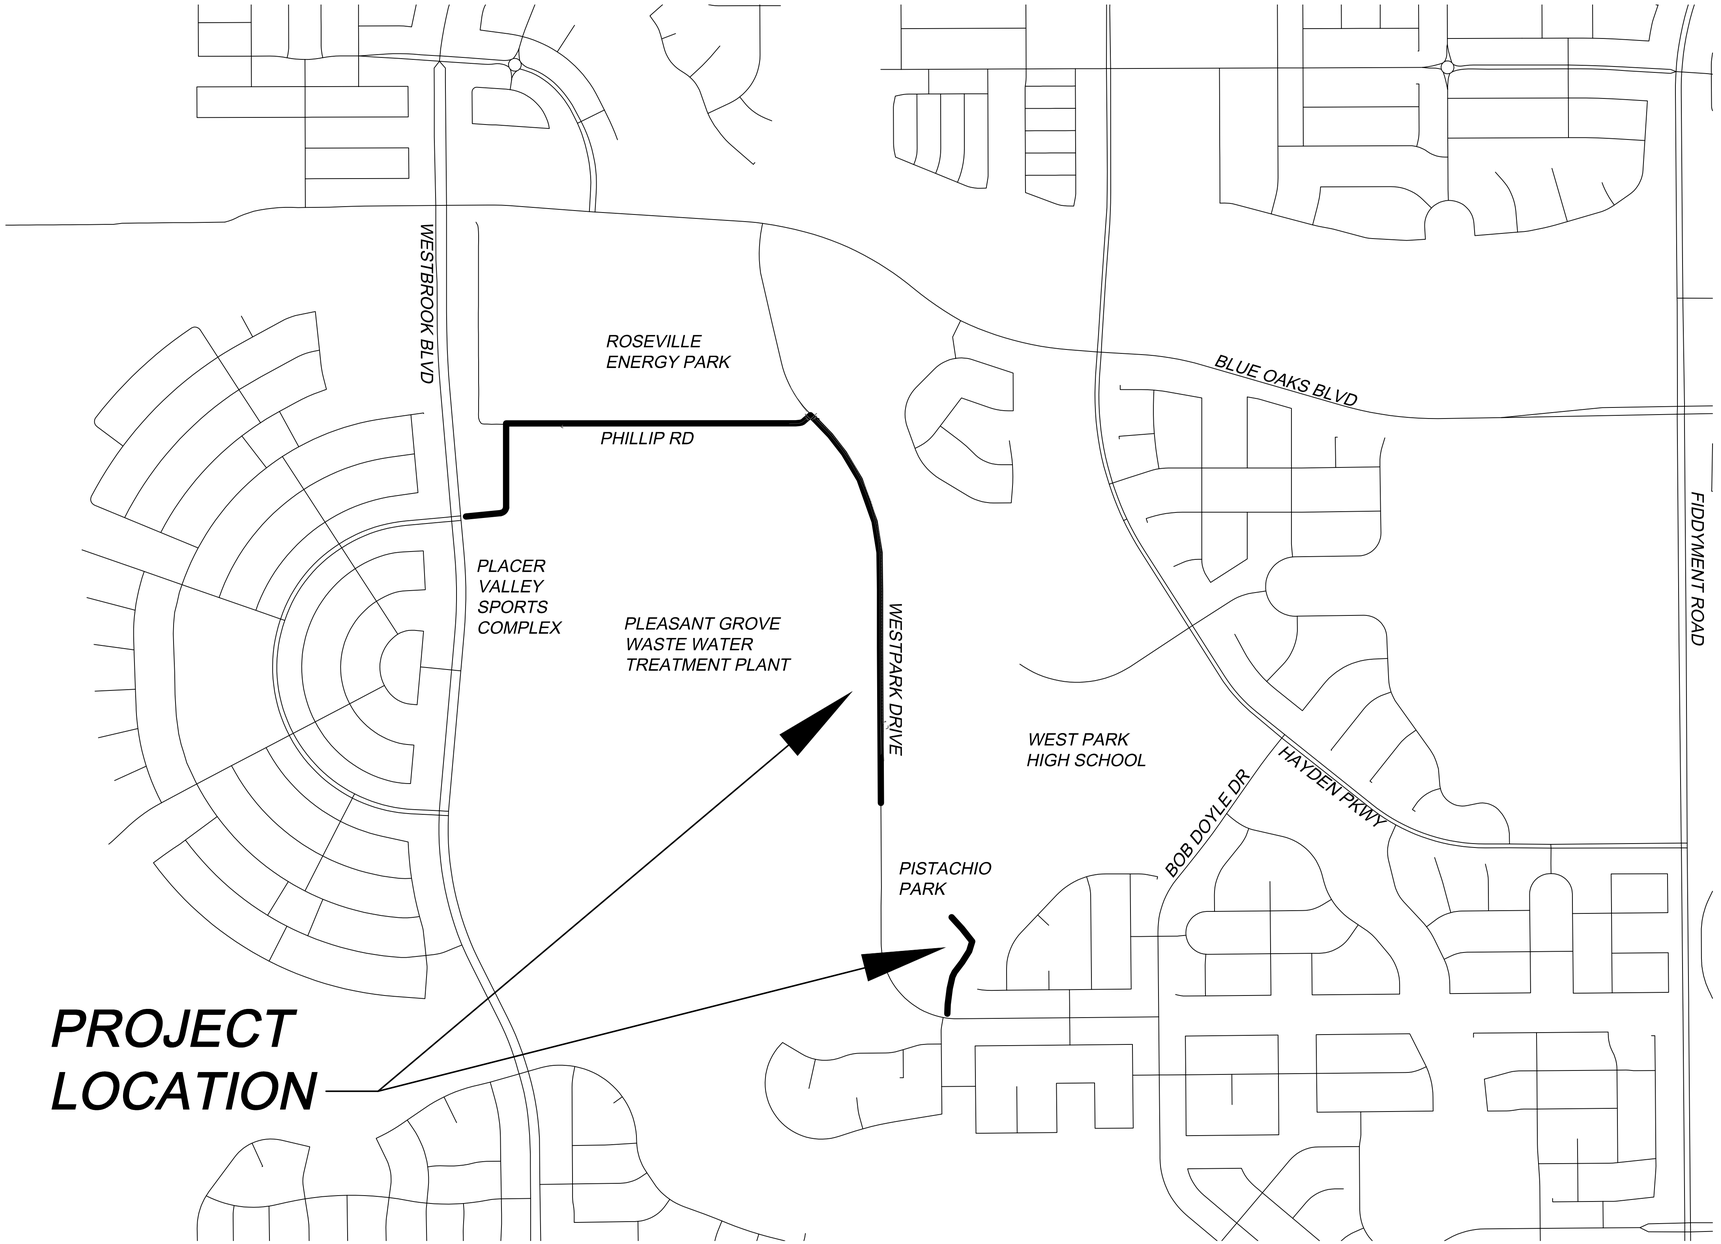
FUND BALANCE TOTAL				(350,000)	

Justification for Budget Adjustment:



The Public Works department recommends that Council authorize the establishment of a new Capital Improvement Project – Phillip Rd and Westpark Dr Bikeway project (500711) and adopt an ordinance to approve a budget adjustment appropriating $350,000 in the General Fund Capital Reserve Fund (1012) to the Project to establish a bike route for students traveling to and from West Park High and neighboring subdivisions.

This project is intended to establish a bike route for students traveling to and from West Park High and neighboring subdivisions. Shared road symbols will be added along Phillip Rd through the Placer Valley Soccer Complex parking lot. A two-way cycle track will be added to Westpark Dr and a new section of bike trail will be added near Pistachio Park.

CITY OF ROSEVILLE
PUBLIC IMPROVEMENTS REQUIREMENTS

GENERAL NOTES:

ALL CONSTRUCTION SHALL CONFORM TO THESE PLANS, THE MOST CURRENT EDITION OF THE CITY OF ROSEVILLE STANDARD CONSTRUCTION SPECIFICATIONS, MOST CURRENT EDITION OF THE CITY OF ROSEVILLE DESIGN AND CONSTRUCTION STANDARDS, AND THE 2015 STATE OF CALIFORNIA STANDARD PLANS, SPECIFICATIONS AND SPECIAL PROVISIONS, AND AMENDMENTS TO THE 2015 STATE OF CALIFORNIA STANDARD PLANS, SPECIFICATIONS AND SPECIAL PROVISIONS. THE CONTRACTOR SHALL HAVE SIGNED PLANS IN POSSESSION PRIOR TO BEGINNING WORK.

THE CITY OF ROSEVILLE IS A MEMBER OF THE UNDERGROUND SERVICE ALERT (U.S.A.) ONE-CALL PROGRAM. THE CONTRACTOR OR ANY SUBCONTRACTOR FOR THIS CONTRACT SHALL NOTIFY MEMBERS OF U.S.A. 48 HOURS IN ADVANCE OF PERFORMING EXCAVATION WORK BY CALLING TOLL-FREE NUMBER: (800) 642-2444.

THE CONTRACTOR SHALL MARK ALL AREAS TO BE EXCAVATED PRIOR TO CONTACTING U.S.A. ANY AREAS NOT MARKED WILL NOT BE SUBJECT TO U.S.A. AND THE CONTRACTOR SHALL BE RESPONSIBLE FOR ANY DAMAGE RESULTING FROM EXCAVATION.

THE TYPES, LOCATIONS AND/OR DEPTHS OF EXISTING UNDERGROUND UTILITIES AS SHOWN ON THESE IMPROVEMENT PLANS WERE OBTAINED FROM SOURCES OF VARYING RELIABILITY. THE CONTRACTOR IS CAUTIONED THAT ONLY ACTUAL EXCAVATION WILL REVEAL THE TYPES, EXTENT, SIZES, LOCATIONS, AND DEPTHS OF SUCH UNDERGROUND UTILITIES. A REASONABLE EFFORT HAS BEEN MADE TO LOCATE AND DELINEATE ALL KNOWN UTILITIES. HOWEVER, THE ENGINEER CAN ASSUME NO RESPONSIBILITY FOR THE COMPLETENESS OR ACCURACY OF THE DELINEATION OF SUCH UNDERGROUND UTILITIES WHICH MAY BE ENCOUNTERED BUT WHICH ARE NOT SHOWN ON THESE DRAWINGS.

THE CONTRACTOR SHALL EXPOSE AND VERIFY LOCATIONS AND ELEVATIONS OF EXISTING UNDERGROUND UTILITIES PRIOR TO CONSTRUCTION OF THE NEW IMPROVEMENTS, CONNECTING TO EXISTING IMPROVEMENTS AND UTILITIES.

THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE PROTECTION OF ALL EXISTING MONUMENTS, OTHER SURVEY MARKERS, STREET SIGNS AND OTHER IMPORTANT OBJECTS ON THE JOB SITE.

A.C. SURFACE SHALL BE CUT TO A NEAT, STRAIGHT LINE PARALLEL WITH OR PERPENDICULAR TO THE STREET CENTERLINE AND THE EXPOSED EDGE SHALL BE TACKED WITH EMULSION PRIOR TO PAVING. THE EXPOSED BASE MATERIAL SHALL BE GRADED, RECOMPACTED, AND RESEALED PRIOR TO PAVING.

THE CONTRACTOR SHALL SUBMIT A TRAFFIC MANAGEMENT PLAN WHICH SHALL BE ACCEPTED BY THE CITY OF ROSEVILLE PUBLIC WORKS ENGINEERING DIVISION BEFORE START OF WORK IN THE RIGHT-OF-WAY AND SHALL BE IN ACCORDANCE WITH THE LATEST EDITION, WITH REVISIONS, OF THE CALIFORNIA MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES. IF, AS PART OF TRAFFIC CONTROL MEASURES, A ROADWAY CLOSURE HAS BEEN APPROVED, THE CONTRACTOR SHALL NOTIFY THE ENGINEERING DIVISION INSPECTOR 72 HOURS IN ADVANCE OF SETTING UP THE CLOSURE.

ALL EXISTING CONCRETE SURFACE TO BE REMOVED SHALL BE SAW CUT TO A NEAT, STRAIGHT LINE AND SHALL BE REMOVED TO THE ADJACENT JOINTS.

THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE PROTECTION OF ALL PEDESTRIANS, VEHICULAR TRAFFIC, EXISTING LANDSCAPE, AND SURVEY MARKERS WITHIN THE CONSTRUCTION LIMITS.

UTILITIES LOCATIONS ARE TAKEN FROM CITY AS-BUILT DRAWINGS AND FIELD REVIEWS. LOCATIONS OF THE GROUND FEATURES (MH, VALVES, ETC.) ARE APPROXIMATE AND SHOULD BE FIELD VERIFIED BY THE CONTRACTOR.

CONTRACTOR SHALL LOCATE AND PROTECT IN PLACE ALL DETECTOR HANDHOLES WITHIN THE PROJECT LIMITS. DETECTOR HANDHOLES DAMAGED BY THE CONTRACTOR SHALL BE REPLACED AT THE CONTRACTORS EXPENSE.

STANDARD GENERAL NOTES:

THE CONTRACTOR AGREES THAT, IN ACCORDANCE WITH GENERALLY ACCEPTED CONSTRUCTION PRACTICES, THE CONTRACTOR WILL BE REQUIRED TO ASSUME SOLE AND COMPLETE RESPONSIBILITY FOR JOB SITE CONDITIONS DURING THE COURSE OF CONSTRUCTION OF THE PROJECT, INCLUDING SAFETY OF ALL PERSONS AND PROPERTY. THIS REQUIREMENT SHALL BE MADE TO APPLY CONTINUOUSLY AND NOT BE LIMITED TO NORMAL WORKING HOURS. THE CONTRACTOR FURTHER AGREES TO DEFEND, INDEMNIFY AND HOLD OWNER AND ENGINEER HARMLESS FROM ANY AND ALL LIABILITY REAL OR ALLEGED, IN CONNECTION WITH THE PERFORMANCE OF WORK ON THIS PROJECT, EXEMPTING LIABILITY ARISING FORM THE SOLE NEGLIGENCE OF ENGINEER.

THE DIGOUTS SHALL BE EXCAVATED TO A DEPTH OF 4 INCHES. IF UNSUITABLE MATERIAL IS DISCOVERED, THE CONTRACTOR WILL NOTIFY THE ENGINEER FOR APPROVAL OF EXCAVATION AND BACKFILL. IF THE ENGINEER DOES NOT APPROVE THAT THE MATERIAL IS UNSUITABLE PRIOR TO EXCAVATION AND BACKFILL, THE CONTRACTOR WILL BE RESPONSIBLE FOR THE COST OF EXCAVATION AND BACKFILL.

EXCAVATIONS SHALL BE ADEQUATELY SHORED, BRACED AND SHEETED SO THAT THE EARTH WILL NOT SLIDE OR SETTLE AND SO THAT ALL EXISTING IMPROVEMENTS OF ANY KIND WILL BE FULLY PROTECTED FROM DAMAGE. ANY DAMAGE RESULTING FROM A LACK OF ADEQUATE SHORING, BRACING AND SHEETING, SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR AND HE SHALL EFFECT NECESSARY REPAIRS OR RECONSTRUCTION AT HIS OWN EXPENSE. THE CONTRACTOR SHALL PROVIDE ADEQUATE SHEETING, SHORING, AND BRACING OR EQUIVALENT METHOD, FOR THE PROTECTION OF LIFE OR LIMB, WHICH SHALL CONFORM TO THE APPLICABLE CONSTRUCTION SAFETY ORDERS OF THE DIVISION OF INDUSTRIAL SAFETY OF THE STATE OF CALIFORNIA. THE CONTRACTOR SHALL ALWAYS COMPLY WITH OSHA REQUIREMENTS AND SHALL PROVIDE THE CITY OF ROSEVILLE WITH A COPY OF THE OSHA PERMIT.

IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO OBTAIN ALL PERMITS NECESSARY TO PERFORM THE WORK SHOWN ON THESE PLANS FROM THE APPROPRIATE AGENCIES. REFER TO THE SPECIAL PROVISIONS FOR PERMITS NEEDED.

THE CONTRACTOR SHALL PROVIDE ALL LIGHTS, SIGNS, BARRICADES, FLAGGERS OR OTHER DEVICES NECESSARY TO PROVIDE FOR SAFETY.

THE CONTRACTOR SHALL POST EMERGENCY TELEPHONE NUMBERS FOR POLICE, FIRE, AMBULANCE, AND THOSE AGENCIES RESPONSIBLE FOR MAINTENANCE OF UTILITIES IN THE VICINITY OF THE JOB SITE.

STATIONING HEREON IS ALONG STREET CENTERLINE UNLESS OTHERWISE SHOWN OR INDICATED. ALL STATIONING IS APPROXIMATE.

ALL EXISTING UTILITIES AND IMPROVEMENTS THAT BECOME DAMAGED DURING CONSTRUCTION SHALL BE COMPLETELY RESTORED TO THE CITY OF ROSEVILLE CURRENT STANDARDS AND TO THE SATISFACTION OF THE ENGINEER, AT THE CONTRACTOR'S SOLE EXPENSE.

IF ARCHEOLOGICAL MATERIALS ARE UNCOVERED DURING GRADING, TRENCHING OR OTHER EXCAVATION, EARTHWORK WITHIN 100 FEET OF THESE MATERIALS SHALL BE STOPPED UNTIL A PROFESSIONAL ARCHEOLOGIST WHO IS CERTIFIED BY THE SOCIETY OF CALIFORNIA ARCHEOLOGY (SCA) AND/OR THE SOCIETY OF PROFESSIONAL ARCHEOLOGY (SOPA) HAS HAD AN OPPORTUNITY TO EVALUATE THE SIGNIFICANCE OF THE FIND AND SUGGEST APPROPRIATE MITIGATION MEASURES, IF THEY ARE DEEMED NECESSARY. IN ACCORDANCE WITH SECTION 21-2E OF THE CITY OF ROSEVILLE CONSTRUCTION STANDARDS, THE ROSEVILLE COMMUNITY DEVELOPMENT DEPARTMENT SHALL BE CONTACTED IMMEDIATELY.

THE CONTRACTOR SHALL MEET AND FOLLOW THE ENVIRONMENTAL PROTECTION AGENCY'S (EPA) NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) REQUIREMENTS IN EFFECT AT THE TIME OF CONSTRUCTION.

SHOULD IT APPEAR THAT THE WORK TO BE DONE OR ANY MATTER RELATIVE THERETO IS NOT SUFFICIENTLY DETAILED OR EXPLAINED ON THESE PLANS, THE CONTRACTOR SHALL REQUEST IN WRITING FROM THE ENGINEER SUCH FURTHER EXPLANATIONS AS MAY BE NECESSARY.

STRIPING NOTES:

UNLESS OTHERWISE NOTED ON THE PLANS, THE CONTRACTOR SHALL REPLACE ALL PAVEMENT DELINEATION ON THE SAME ALIGNMENT. BEFORE OBLITERATING ANY PAVEMENT DELINEATION, THE LOCATION OF THE PAVEMENT DELINIATION SHALL BE REFERENCED BY THE CONTRACTOR WITH A SUFFICIENT NUMBER OF CONTROL POINTS TO REESTABLISH THE ALIGNMENT. THE REFERENCES SHALL ALSO INCLUDE THE LIMITS OR CHANGES IN STRIPING PATTERN, INCLUDING ONE- AND TWO-WAY BARRIER LINES, LIMIT LINES, CROSSWALKS AND OTHER PAVEMENT MARKINGS.

CONTRACTOR SHALL REMOVE ALL EXISTING NON-CONFORMING STRIPING (BY GRINDING) AND PAVEMENT MARKERS AND ALL EXISTING STRIPING THAT CONFLICTS WITH THE PROPOSED STRIPING.

ALL RAISED PAVEMENT MARKERS SHALL BE FURNISHED AND INSTALLED AT THE CONTRACTOR'S EXPENSE AND SHALL BE AS SPECIFIED BY THE CITY OF ROSEVILLE CONSTRUCTION STANDARDS AND THE LATEST EDITION, WITH REVISIONS, OF THE CALIFORNIA MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES.

ALL TRAFFIC STRIPES, ARROWS AND PAVEMENT MARKINGS SHALL BE CONSTRUCTED WITH THERMOPLASTIC MATERIAL TO THE SPECIFICATIONS SET FORTH IN SECTION 84 OF THE STATE OF CALIFORNIA DEPARTMENT OF TRANSPORTATION (CALTRANS) STANDARD SPECIFICATIONS (LATEST EDITION). THERMOPLASTIC MATERIAL SHALL BE APPLIED ONLY WHEN THE PAVEMENT SURFACE TEMPERATURE IS ABOVE 60 DEGREES FAHRENHEIT.

THE CONTRACTOR SHALL BE RESPONSIBLE FOR PROVIDING AND MAINTAINING ALL CONSTRUCTION SIGNING AS REQUIRED BY THE CALTRANS TRAFFIC MANUAL TO DELINEATE CONSTRUCTION HAZARDS AT HIS EXPENSE.

LANE LINES MUST ALIGN THROUGH INTERSECTIONS.

CONTRACTOR SHALL INSTALL BIKE LOOP LEGENDS WHERE EXISTING AND NEW BIKE LANE LOOPS ARE INSTALLED.

CITY OF ROSEVILLE

DEPARTMENT OF _____

Name of Project:_____

NOTICE TO CONTRACTORS

NOTICE IS HEREBY GIVEN THAT sealed Proposal will be received at the Office of the City Clerk, 311 Vernon Street, Roseville, California, until _____ at 3:00 p.m. Late proposals will be rejected. No exceptions.

The Proposals will be publicly opened and read by the City Clerk or designee of the City of Roseville at 3:05 p.m. on _____, 20__ at the Office of the City Clerk located at 311 Vernon Street, Roseville California for the following project:

_____.

A pre-bid meeting will be held at _____

_____.

A Project Manual, including all Contract Documents and the Proposal forms for bidding this project, may be obtained on-line from the City of Roseville's website at https://www.roseville.ca.us/business/procurement_services/bids_rfps. All communications relative to this project shall be conducted through Public Purchase.

Bids shall be submitted on the City's Proposal Forms included in the Project Manual, plainly endorsed with the Bidder's name together with signed acknowledgement of any and all addenda. Proposal Forms shall be securely sealed in a suitable envelope marked with the name

and address of the Bidder, and marked in capital letters on the front and back of the envelope as follows:

[NAME OF PROJECT]

(Name of Bidder)

(Address of Bidder)

Whether mailed or personally delivered, all bids shall be addressed to the City of Roseville, Office of the City Clerk, 311 Vernon Street, Roseville, California, 95678.

Each bid must be accompanied by a Bid Guaranty in the form of a Certificate of Deposit, Certified or Cashier's Check, Bidder's Bond or Irrevocable Standby Letter of Credit in an amount equal to at least ten percent (10%) of the Bidder's Grand Total Price. The Bid Guaranty will be retained by the City and applied to any and all damages sustained by the City in the event that the successful Bidder fails or refuses to enter into the Contract awarded to it and to furnish all required bonds and Certificates of Insurance. The City intends to award the Contract to the lowest responsible Bidder based on the Grand Total Bid Price for all components of the Project. To the extent allowed by law, the City reserves the right to reject any and all bids and/or to waive any irregularities or informalities in any bid or in the bidding procedure. The City specifically reserves the right to not award the Contract after the opening of bids.

Any bid may be withdrawn at any time prior to the time fixed in the public notice for the deadline submission of bids only by written request for the withdrawal of the bid filed with the City Clerk. The request shall be executed by the Bidder or his or her duly authorized representative. The withdrawal of a bid does not prejudice the right of the Bidder to file a new bid by the submission deadline. Whether or not bids are opened exactly at the time fixed in the

public notice for opening bids, a bid will not be received after the deadline submission of bids nor may any bid be withdrawn after the time fixed in the public notice for deadline for submission of bids. Immediately following the deadline for submission of bids all bids shall become the property of the City of Roseville and the City is under no obligation to return bids.

Bids will be examined and reported to the City Council within sixty (60) business days after the bid opening. Except as permitted by applicable law, no Bidder may withdraw its bid for a period of sixty (60) business days after the date of bid opening. Each Bidder will be notified of any award of the Contract by the City.

The City will affirmatively ensure non-discrimination on the basis of one or more of the following: race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, or military and veteran status in the award and administration of contracts that it awards.

Pursuant to Public Contract Code Section 22300, the successful Bidder may submit certain securities in lieu of the City withholding retention of payments during the Project.

The City has determined that the Contractor shall possess a valid Class ___, _____ Contractor's license at the time that the bid is submitted, as well as any other license classification as may be required by the laws of the California for the performance of the work specified in the Contract Documents. Said license shall be maintained during the Contract period. Failure to possess the specified license shall render the bid nonresponsive and will act as a bar to the award of the Contract to any Bidder not possessing such a license at the time of bid submittal. The Contractor shall provide certification of the license, its number and the expiration date on the proposal form.

The work is to be done in Placer County. Pursuant to California Labor Code Section 1773, the City has ascertained the General Prevailing Rate of Wages in the County in which the work is to be done to be as determined by the Director of Industrial Relations of the State of California. The Contractor is hereby made aware that information regarding prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm. The Contractor is required to post a copy of the applicable wage rates at the job site. Attention is directed to Section 7 "Legal Relations and Responsibility" of the Standard Construction Specifications.

Pursuant to Labor Code Section 1771.1(b), notice is hereby given that a contractor or subcontractor shall not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any contract for public work, as defined in Labor Code Sections 1720, et seq., unless currently registered and qualified to perform public work pursuant to Labor Code Section 1725.5 or exempt from registration requirements pursuant to Labor Code Section 1725.5(f). It is not a violation of Labor Code Section 1771.1 for an unregistered contractor to submit a bid that is authorized by Section 7029.1 of the Business and Professions Code or by Section 10164 or 20103.5 of the Public Contract Code, provided the contractor is registered to perform work pursuant to Labor Code Section 1725.5 at the time the contract is awarded or is exempt from registration requirements pursuant to Labor Code Section 1725.5(f). The Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

Vehicles with a GVWR greater than 8,500 lbs. and light – duty package delivery vehicles operated in California may be subject to the California Air Resources Board Advanced Clean

Fleets regulations. Such vehicles may therefore be subject to requirements to reduce emissions and air pollutants. For more information, please visit the CARB Advanced Clean Fleets webpage at https://ww2.arb.ca.gov/our-work/programs/advanced-clean-fleets. In addition, certain off-road diesel vehicles may be subject to the CARB In-Use Off-Road Diesel-Fueled Fleets Regulation. For more information, please visit the CARB In-Use Off-Road Diesel-Fueled Fleets Regulation webpage at https://ww2.arb.ca.gov/our-work/programs/use-road-diesel-fueled-fleets-regulation.

All questions prior to the deadline for bid submissions shall be directed to the attention of _____ via _____ at _____. The deadline for submissions of questions and clarifications regarding the Contract Documents is _____ calendar days before the deadline for bid submissions. Only Addenda issued by the City are binding.

_____
City Clerk, City of Roseville

Dated: _____

Published: _____

INSTRUCTIONS TO BIDDERS

SECTION 1. GENERAL

1-1.01 **GENERAL.** These Instructions to Bidders form a part of the Contract Documents. Capitalized terms are defined in Standard Construction Specifications Section 1.

1-1.02 **EXAMINATION OF PLANS, CONTRACT DOCUMENTS AND SITE OF THE WORK.** The Bidder shall examine carefully the site of the Work and all the Contract Documents, including these Instructions to Bidders, and shall inform itself of the conditions relating to the execution of the Work. Failure to do so will not relieve the successful Bidder of its obligation to enter into an Agreement and complete the Work in strict accordance with the Contract Documents. Conditions relating to the execution of the Work include the requirements of federal, state, and local laws, statutes and ordinances relative to the execution of Work, including, but not limited to, applicable regulations concerning prevailing wage rates, non-discrimination in the employment of labor, protection of the public, employee health and safety, and environmental protection.

The submission of a bid shall be conclusive evidence that the Bidder has investigated and is satisfied as to the conditions to be encountered, as to the character, quality, and scope of Work to be performed, the quantities of materials to be furnished, and as to the requirements of all the Contract Documents.

1-1.03 **EXISTING INFORMATION.** Where the Department has made investigations of site conditions, including subsurface conditions in areas where Work is to be performed under the Contract, such investigations are made only for the purpose of study and design. City does not represent that such conditions as found in these investigations or inferences or conclusions drawn as a result of these investigations will represent actual site

conditions and hereby disclaims any liability as a result of Contractor's or Bidder's reliance on such investigations. City will presume that all Bidders have conducted their own site investigations, including investigations of subsurface conditions. Where such investigations have been made, Bidders or Contractors may, upon written request, inspect the records of the Department as to such investigations subject to the conditions set forth in these Instructions to Bidders. Such inspection of records may be made only at the location noted above. The records of such investigations are not a part of the Contract Documents and are shown solely for the convenience of the Bidder or Contractor. The City assumes no responsibility whatsoever with respect to the sufficiency or accuracy of the investigations made, the records thereof, or of the interpretations set forth therein or made by the City in its use thereof. The City makes no warranty or guarantee, either express or implied, that the conditions indicated by such investigations or records are representative of those existing throughout such areas, or any part thereof, or that unforeseen developments may not occur, or that materials other than, or in proportions different from those indicated, may not be encountered.

No information derived from such inspection of records of investigations or compilation thereof made by the City, the Department or from the Engineer, or his or her assistants, will in any way relieve the Bidder or Contractor from properly examining the site and making such additional investigations as it may elect, or from properly fulfilling the terms of the Contract.

SECTION 2: BID REQUIREMENTS

2-1.01 **PROPOSAL FORMS.** The Department will furnish to each Bidder standard Proposal Forms, which, when filled out and executed may be submitted as the bid. Proposals shall include all pages in the Project Manual with page numbers marked "PROP" plus the Addendum acknowledgment form (front sheet) from all Addenda received by the Bidder. Proposals shall be removed from the Project Manual. The full Project Manual shall not be submitted with the proposal. Bids not presented on forms so furnished will be disregarded.

The Proposal and one (1) copy thereof shall be submitted as directed in the "Notice to Contractors" under sealed cover plainly marked as a Proposal, and identifying the project to which the Proposal relates and the date of the bid opening therefor. Proposals which are not properly marked may be disregarded.

All blank spaces in the Proposal must be completed, as required, in ink. All price information shall be shown, clearly legible, in figures where required.

The Bidder shall sign the Proposal in the blank space provided therefor. If the Bidder is the sole owner, the Proposal shall be signed by the owner. If the Bidder is a corporation, the legal name of the corporation and its State of incorporation shall be set forth and the Proposal shall be signed by at least two officers authorized to sign contracts on behalf of the corporation. If the Bidder is a partnership, the true name of the firm shall be set forth, the names and addresses of all partners shall be given and the Proposal shall be signed by a partner in the firm authorized to sign contracts on behalf of the partnership. If the Bidder is a joint venture, the Proposal shall be signed on behalf of each participating company by officers or other individuals who have the full and proper authorization to do so. If the Proposal is signed by an agent of the Bidder other than an officer of a corporation or a member of a partnership, a notarized Power of

Attorney must be on file with the City prior to opening of bids or must be submitted with the Proposal. If requested by the City, the Bidder shall promptly submit evidence satisfactory to the City of the authority of the person signing the Proposal.

2-1.02 **SUBMISSION OF BIDS.** Bids must be submitted at the prescribed time and location specified in the Notice to Contractors. Any submission received after the prescribed time shall be rejected, regardless of whether or not bids are opened exactly at the prescribed time.

Any unauthorized conditions or qualifications entered on, or changes made to, the Proposal may render it invalid and may cause its rejection.

No telegraphic, telephonic, or facsimile or other electronically transmitted bids will be considered.

2-1.03 **REQUIRED LISTING OF PROPOSED SUBCONTRACTORS.** Each Proposal shall list the name, address and Contractor license number of each Subcontractor to whom the Bidder proposes to subcontract portions of the Work in an amount in excess of one-half of one percent (0.5%) of its total bid, in accordance with Section 4100 to 4114, inclusive, of the Public Contract Code for the State of California. The Bidder shall list the Subcontractor's license number and the portion of the Work that will be done by each Subcontractor. If the Bidder fails to specify a Subcontractor for any portion of the Work, the Bidder agrees to perform that portion of the Work itself, and represents that it is qualified to perform that portion of the Work itself. The Bidder's attention is invited to other provisions of the Public Contract Code related to the imposition of penalties for a failure to observe its provisions by using unauthorized Subcontractors or by making unauthorized substitutions.

2-1.04 **CONTRACTOR'S LICENSING LAWS.** Attention is directed to the provisions of Business and Professions Code Chapter 9 of Division 3 concerning the licensing of Contractors.

All Bidders at the time of bid submittal shall be licensed as Contractors in accordance with the laws of this State. Any Bidder or Contractor not so licensed is subject to the penalties imposed by such laws. The form of Contractor's license required is stated in the Notice to Contractors, provided that the City makes no representation as to whether the State may require other or additional licenses. It is the Bidder's and Contractor's responsibility to obtain the correct Contractor's licenses. Bidders shall be skilled and regularly engaged in the general class or type of Work called for under this Contract.

All Bidders and Contractors, including Subcontractors, shall have a current City business license before undertaking any Work.

2-1.05 **CALIFORNIA AIR RESOURCES BOARD REGULATIONS.** Contractor shall comply with any applicable regulations of the California Air Resources Board ("CARB") set forth below.

A. In-Use Off-Road Diesel-Fueled Fleets. If Contractor will use vehicles subject to Cal. Code Regs., tit. 13, §§ 2449 et seq. for the project, it shall submit a valid Certificate of Reported Compliance to the City as provided in § 2449(n).

B. Advanced Clean Fleets. Pursuant to Cal. Code Regs., tit. 13, § 2013(i)(1), the Contractor shall submit to the City either a signed statement stating that it is not subject to the High Priority and Federal Fleets regulation of title 13, CCR section 2015 through 2015.6, or a document evidencing that it is listed on the CARB Advanced Clean Fleets webpage as a compliant fleet.

2-1.06 **NONCOLLUSION DECLARATION.** By submitting a bid, the Bidder represents and warrants that such bid is genuine and not a sham or collusive or made in the interest or on the behalf of any person therein named, and that the Bidder has not, directly or indirectly, included or solicited any other Bidder to put in a sham bid, or any other person, firm, or corporation to refrain from bidding, and that the Bidder has not in any manner sought collusion to secure the Bidder an advantage over any other Bidder.

Bidders shall submit a properly completed and executed "Noncollusion Declaration" in the form required by Public Contract Code Section 7106 and provided with the Proposal (PROP-11).

2-1.07 **DISQUALIFICATION, REMOVAL OR OTHER PREVENTION OF BIDDING.** A bid may be rejected on the basis of a Bidder, any officer of such Bidder, or any employee of such Bidder who has a proprietary interest in such Bidder, having been disqualified, removed, or otherwise prevented from bidding on, or completing a federal, state, or local project because of a violation of law or a safety regulation.

2-1.08 **PROPOSAL GUARANTY.** All bids shall be accompanied by one of the following forms of Bidder's security: Cash, a cashier's check, a certified check, or a Bidder's bond executed by an admitted California surety insurer, made payable to the City of Roseville, or any other form of security deemed acceptable by the City Attorney. The security shall be in an amount equal to at least ten percent (10%) of the amount bid. A bid will not be considered unless one of the form of Bidder's security is enclosed with it.

A Bidder's bond shall conform to the City's bond form in the Proposal and shall be properly filled out and executed.

2-1.09 **SCHEDULE OF BID PRICES.** Bidders are directed to submit firm unit and lump sum prices for all Work set forth in the Contract Documents on the Proposal Form entitled "Schedule of Bid Prices."

Unit prices and lump sum prices, as indicated, must be entered in the appropriate spaces provided in the Schedule of Bid Prices. If applicable, unit prices shall be multiplied by the quantities shown, and the total shall be inserted in the Amount column. In the event of any error or discrepancy between the unit price and the calculated amount, the unit prices shall govern. The City may correct any mathematical errors apparent on the face of the bid.

The amounts shown in the Amount column must be added together in arriving at the Grand Total Bid Price.

Amounts for Allowance bid items must be entered in the exact amount in the Amount column.

The prices included within the Schedule of Bid Prices shall include all costs for labor, materials, tools, equipment, services, Subcontractors, suppliers, taxes, insurance, shipment, delivery, overhead, profit, and all other costs necessary to perform the Work in accordance with the Contract Documents.

The Grand Total Bid Price shall be indicated in the Summary table form included with the Schedule of Bid Prices. The Grand Total Bid Price shall be the sum of the amounts bid for each of the designated portions of the Work, as more specifically described on the Schedule of Bid Prices form itself.

Full compensation for complying with the Contract Documents, including requirements of the Standard Specifications, the Standard Construction Specifications, Supplemental

Conditions, and all warranties, shall be considered included in the bid items and no additional compensation shall be allowed therefor.

Full compensation for completion of all work as shown on the plans, as specified in the Specifications, and as directed by the City, shall be considered included in the bid items and no additional compensation shall be allowed.

Bidders are strongly discouraged from submitting unbalanced bids. As used herein, the term "unbalanced bid" is defined as any bid that does not include a reasonable proportionate allocation of indirect costs and profit of each bid item indicated in the Schedule of Bid Prices. The City reserves the right to reject any unbalanced bid if the City determines that there is a reasonable doubt that an acceptance of the bid will not result in the lowest ultimate cost to the City with regard to the work or a disproportionate distribution of contract funds.

The City reserves the right to delete any bid item in its entirety and/or significantly reduce the quantity of Work under a bid item. The City makes no representation that any Work under a bid item will be performed during the course of the Project or that the Work will be performed at the quantities included in the Schedule of Bid Prices. As provided in the Standard Construction Specifications, for any deleted Work, Contractor shall not be entitled to payment of the indirect costs and profit included for said bid item. All bid items shall be considered distinct and severable from the remaining bid items, and each Bidder acts at its peril if its bid is unbalanced.

The City shall compare bids on the basis of the Grand Total Bid Price, which includes the base bid and any alternates designated on the Schedule of Bid Prices. Alternates may or may not be awarded, or may be awarded in any combination, at the City's discretion.

2-1.10 **WITHDRAWAL OF PROPOSALS.** Any bid may be withdrawn at any time prior to the time fixed in the Notice to Contractors for the opening of bids, provided that a request in writing, executed by the Bidder or its duly authorized representative, for the withdrawal of such bid is filed with the City Clerk. Facsimile and electronic mail requests are not acceptable. The withdrawal of a bid shall not prejudice the right of a Bidder to file a new bid. The withdrawal of any bid after the time fixed in the Notice to Contractors for the opening of bids will not be permitted.

2-1.11 **ADDENDUM.** Proposals shall include all costs and account for all Addenda issued prior to opening of bids. The Bidder is responsible for verifying that all issued Addenda have been received. An Addendum acknowledgment form for each Addendum shall be included as part of the Proposal submittal.

2-1.12 **PUBLIC OPENING OF PROPOSALS.** Proposals will be publicly opened and read at the time and place indicated in the Notice to Contractors. Bidders or their authorized agents are invited to be present.

2-1.13 **TRENCHING AND EXCAVATION WORK.** In accordance with the provisions of California Labor Code Section 6707, if the Work involves construction of a pipeline, sewer, sewage disposal system, boring or jacking pits, or similar trenches or open excavations, which are five feet (5') or deeper, each bid submitted shall contain, as a bid item, adequate sheeting, shoring, and bracing, or equivalent method, for the protection of life or limb, which shall conform to all applicable safety orders.

SECTION 3: EVALUATION OF BIDS

3-1.01 **BID EVALUATION PROCESS.** Bids will be evaluated to determine the apparent low Bidder. The apparent low Bidder will be determined on the basis of the Grand Total Bid Price, as shown in the Schedule of Bid Prices. If additive or deductive alternates are used in the Schedule of Bid Prices, the apparent low Bidder will be the Bidder with the lowest total of the bid prices for base contract items plus the alternates designated by the City as those that will be used for determining the lowest bid price. However, the City reserves the right to (1) not award any alternates or (2) award any combination of alternates.

In case of discrepancy between the total of the base contract items and any specified alternates and the stated Grand Total Bid Price, the total of the base contract items plus specified alternates shall prevail. Any mathematical errors that appear on the face of the bid will be corrected by the City and the City will use the mathematically corrected addition. For example, if the mathematical total of Bidder's base contract items plus specified alternates equals $1,000,000, but the Bidder has written $1,250,000 as the Grand Total Bid Price, the City will consider $1,000,000 to be the Bidder's Grand Total Bid Price for purposes of comparison to other Bidders and actual bid award. The City reserves its rights to reject or accept bids based on discrepancies between the stated Grand Total Bid Price and the actual mathematical total of the base contract bid items, plus specified alternates.

3-1.02 **REJECTION OF IRREGULAR PROPOSALS.** Proposals may be rejected in the City's sole discretion if they show any alterations of form, additions not called for, conditional bids, incomplete bids, erasures, or irregularities of any kind. However, the City reserves the right to waive any minor irregularities and informalities in any bid or in the bid procedure for any reason.

3-1.03 **COMPETITIVE BIDDING.** If more than one proposal is offered by any individual, firm, partnership, corporation, association, or any combination thereof, under the same or different names, all such proposals may be rejected. A party who has quoted prices on materials or Work to a Bidder is not thereby disqualified from quoting prices to other Bidders, or from submitting a bid directly for the materials or Work.

All Bidders are put on notice that any collusive agreement to control or affect the awarding of this Contract is in violation of the competitive bidding requirements of the City Charter, State Contract Act and the Business and Professions Code and may render void any Contract let under such circumstances.

3-1.04 **RELIEF OF BIDDERS.** If the Bidder claims a mistake was made in its bid, the Bidder shall give the Department written notice within five (5) Days after the opening of the bids of the alleged mistake, specifying in the notice in detail how the mistake occurred. No relief from a claimed mistaken bid shall be granted unless such mistake clearly appears on the face of the bid submitted to the City. Claimed mistakes on backup worksheets, spreadsheets, computerized bidding programs, or any other similar calculative bidding mistake which is not apparent on the face of the bid shall not under any circumstance be considered as a basis for relief. The burden of proving the occurrence of a mistake entitling a Bidder to relief from its bid rests entirely on the Bidder. Relief from bids shall be in the City's sole discretion.

SECTION 4: AWARD AND EXECUTION OF CONTRACT

4-1.01 **AWARD OF CONTRACT.** The City reserves the right to reject any and all proposals and to award (or not award) any combination of bid items at its option. Any such award will be to the lowest responsible Bidder whose proposal complies with the requirements prescribed for the bid items awarded. Such award, if made, will be made within sixty (60) business days after the opening of the proposals. If the lowest responsible Bidder refuses or fails to execute the Contract, or provide an acceptable Performance Bond, Payment Bond, and insurance certificate(s), the City may award the Contract to the second lowest responsible Bidder. Such award, if made, will be made within eighty-two (82) business days after the opening of proposals. If the second lowest responsible Bidder refuses or fails to execute the Contract, or provide an acceptable Performance Bond, Payment Bond, and insurance certificate(s), the City may award the Contract to the third lowest responsible Bidder. Such award, if made, will be made within one hundred four (104) business days after the opening of the proposals. The above time periods within which the award of Contract may be made are subject to extension for such further period as may be agreed upon in writing between the City and the Bidder concerned.

4-1.02 **RETURN OF BIDDER'S SECURITIES.** Within ten (10) Days after the award of the Contract, the City Clerk will return all Bidders' securities, other than Bidders' bonds, accompanying the proposals that are not to be further considered in making the award. Retained Bidders' securities will be held until the Contract has been fully executed, after which all Bidders' securities, except Bidders' bonds and any Bidders' securities that have been forfeited, will be returned.

4-1.03 **CONTRACT BONDS.** The successful Bidder shall furnish two (2) bonds in the form contained in the section entitled Insurance Broker Information Packet and Bonds. One (1) bond shall secure the payment of the claims of laborers, mechanics or materialmen employed on the Work under the Contract, and the other bond shall guarantee the faithful performance of the Contract.

Each of the two (2) bonds shall be in a sum equal to one hundred percent (100%) of the Contract Price. If the Contract Price increases by the issuance of Change Orders, the penal amounts of the bonds required shall increase accordingly. Sureties on each of said bonds shall be satisfactory to the City.

All alterations, extensions of time, extra and additional Work, and other changes authorized by the Standard Specifications, the Standard Construction Specifications, the Supplemental Conditions or any part of the Contract may be made without securing the consent of the surety or sureties on the Contract bonds.

Furthermore, the successful Bidder shall furnish a certificate from the County Clerk as required by California Civil Code of Procedure Section 995.660(a)(3).

4-1.04 **INSURANCE.** At the time of the execution of the Contract, the Contractor shall, at its own expense, procure, and at all times during the prosecution of the Work maintain in full force and effect Worker's Compensation Insurance, and Liability Insurance as specified in the Standard Construction Specifications. The Contractor shall provide a Certificate of Insurance in the form contained in the section entitled Insurance Broker Information Packet.

4-1.05 **EXECUTION OF CONTRACT.** The Contract shall be signed by the successful Bidder and returned, together with all the required Contract bonds and insurance

certificates, within fifteen (15) Days after the Contract has been awarded, or as otherwise directed, in writing, by the City.

If the Bidder is an individual, the Contract shall be executed personally by the Bidder. If the Bidder is a partnership, it is desirable that the Contract be executed by all of the partners, but it may be executed by one of them. If the Bidder is a corporation, it must be executed by two officers of the corporation consisting of (1) the chairman of the board, president or vice president; and (2) the secretary, assistant secretary, chief financial officer, treasurer or assistant treasurer, or by a person authorized by the corporation to execute written contracts on its behalf, and the corporate seal affixed thereto. In the alternative, a person other than an officer may sign the Contract, provided evidence satisfactory to the City is provided indicating the individual's authority to bind the corporation. If the corporate seal is not affixed to the Contract, or if it is executed by a person other than officers, or only by one officer, there must be attached to the Contract a certified copy of a resolution of the corporation authorizing such officer or person to execute written contracts for and on behalf of the corporation. If the Bidder is a joint venture, the Contract must be executed on behalf of each participating firm by officers or other individuals who have the full and proper authorization to do so.

4-1.06 **FAILURE TO EXECUTE CONTRACT.** Failure of the lowest responsible Bidder, the second lowest responsible Bidder, or the third lowest responsible Bidder to execute the Contract and file acceptable bonds and insurance as provided within fifteen (15) Days after the Contract has been awarded, or as otherwise directed, in writing, by the City, shall be just cause for annulment of the award and forfeiture of the Bidder's security. The successful Bidder may file with the City Clerk a written notice, signed by the Bidder or Bidder's authorized representative, specifying that the Bidder will refuse to execute the Contract if presented to

Bidder. The filing of such notice shall have the same force and effect as the failure of the Bidder to execute the Contract and furnish acceptable bonds within the time prescribed.

SECTION 5: BID PROTEST PROCEDURES

5-1.01 **POLICY/PROCEDURES.** It is the policy of the City to consider fully and adjudicate promptly protests filed by prospective Bidders relating to the City's bidding procedure or award of the Contract. Protests shall be filed and processed in accordance with Section 4.12.150 of the Roseville Municipal Code. A Bidder's failure to follow the bid protest procedures may result in rejection of the protest by the City.

PROPOSAL TO THE DEPARTMENT OF _____

Project:_____

Name of Bidder _____ Business Phone _____

Business Address _____

Place of Business _____

Contractor's License No. _____

License Expiration Date_____

License Classification Type _____

DIR Registration No. _____

Type of business organization: _____

*If a Corporation, incorporated under the laws of the State of: _____

The undersigned Bidder herewith submits this Proposal and binds itself on award by the City of Roseville under this bid to execute a Contract in accordance with its bid and the Contract Documents.

The Notice to Contractors, Instructions to Bidders, Form of Agreement, Standard Specifications, Standard Construction Specifications, Supplemental Conditions, Contract Drawings, and Addenda, if any, are made part of this bid and all provisions thereof are hereby accepted, and all representations and warranties are required thereby are hereby affirmed.

The work to be done is described in the Bidding Documents entitled _____ _____, City of Roseville, California. This offer shall be irrevocable for a period of sixty (60) Days after the date on which bids are opened.

The undersigned Bidder understands that any clarification made to the above or any new and different conditions or information submitted on or with its Proposal, other than that requested, may render the bid non-responsive.

The undersigned, as Bidder, declares that the only persons or parties interested in this Proposal as principals are those named herein; that this Proposal is made without collusion with any other person, firm, or corporation; that the Bidder has carefully examined the location of the proposed Work, the attached Form of Agreement, and the plans, Specifications, and other Contract Documents; and agrees if this Proposal is accepted, that it will contract with the City of Roseville, in the form of a copy of the Agreement contained in the Project Manual, to provide all necessary machinery, tools, apparatus and other means of construction, and to do all the work and furnish all the materials specified in the Contract Documents, in the manner and time therein prescribed, and according to the requirements of the Director, as therein set forth, and that the Bidder will take in full payment therefore prices indicated in the Schedule of Bid Items, including all work modified by addendum numbers _____. (IF NONE, STATE NONE).

Bids are required for all Bid Items. The amount of the Bid for comparison purposes will be the total of all items awarded.

The Bidder shall set forth for each item of work, in clearly legible figures, an item ("unit") price and a total for the item in the respective spaces provided for this purpose in the Schedule of Bid Items.

The prices included within the Schedule of Bid Items include all costs for labor, materials, tools, equipment, services, Subcontractors, suppliers, taxes, insurance, shipment,

delivery, overhead, profit, and for all other costs necessary to perform the Work in accordance with the Contract Documents.

Accompanying this Proposal is _____.

(Notice: Insert the words "Cash $_____," "Cashier's Check," "Certified Check," or "Bidder's Bond," as the case may be, in an amount equal to at least ten percent (10%) of the total of the Bid.)

NONCOLLUSION DECLARATION TO BE EXECUTED BY
BIDDER AND SUBMITTED WITH BID

The undersigned declares:

I am the _____ of _____, the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The Bidder has not directly or indirectly induced or solicited any other Bidder to put in a false or sham bid. The Bidder has not directly or indirectly colluded, conspired, connived, or agreed with any Bidder or anyone else to put in a sham bid, or to refrain from bidding. The Bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the Bidder or any other Bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other Bidder. All statements contained in the bid are true. The Bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, bid depository, or to any member or agent thereof, to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a Bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the Bidder.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on _____ [date], at _____ [city], _____ [state].

END OF PROPOSAL

A G R E E M E N T

THIS AGREEMENT, is made and entered into this _____day of _____, 20_____, by and between the City of Roseville, a municipal corporation, ("CITY"), and _____, a _____, ("CONTRACTOR"); and

W I T N E S S E T H:

WHEREAS, the City Council of the CITY, at a meeting held on the _____day of _____, 20_____, approved plans and specifications for the _____ _____

and directed the City Clerk to advertise for sealed proposals for doing said work and providing that bids be submitted on the _____ day of _____, 20_____; and

WHEREAS, the City Clerk, thereafter duly and regularly caused a notice to be published in the manner and for the time prescribed by law; and

WHEREAS, CONTRACTOR, pursuant to the provisions of said notice duly filed a bid with the City Clerk, a true copy of which bid is now on file in the office of the City Clerk, and is hereby referred to and by this reference made a part hereof as fully as if set forth at length herein; and

WHEREAS, all bids received pursuant to said notice were opened and examined and publicly declared at the time specified in said advertisement for bids and at a meeting of the City Council held on the _____ day of _____, 20_____, the Council found and

declared the bid of CONTRACTOR to be the lowest responsible bid and thereupon awarded a contract to CONTRACTOR to do the work referred to in the aforementioned specifications.

NOW, THEREFORE, the parties agree as follows:

1. THE WORK. CONTRACTOR agrees:

a. To do the work and furnish all the labor, materials, tools, supplies, equipment, superintendence, insurance, and bonds required for the _____

_____

in accordance with the Contract Documents (the Work).

b. To do and perform the Work contemplated hereby in a good and workmanlike manner under the direction of and to the satisfaction of the Director of Public Works of the City of Roseville.

2. PAYMENT. CITY shall pay CONTRACTOR _____

_____ dollars ($_____) for the Work to be done under this Agreement in accordance with the Contract Documents.

3. CONTRACT DOCUMENTS. The complete Agreement between the parties hereto consists of the following documents:

a. The advertisement for bids (including the notice to bidders, instructions to bidders and proposals);

b. The accepted bid;

c. Plans and specifications (including standard construction specifications, special provisions and construction details);

d. Bonds and insurance required by the specifications; and

e. This contract.

All documents specified above are intended to operate so that any work called for in any one and not mentioned in the other, or vice versa, is to be executed the same as if mentioned in all said documents.

4. LIQUIDATED DAMAGES. In the event CONTRACTOR does not complete the Work within the time specified, CONTRACTOR agrees that CITY will suffer damages. Inasmuch as the actual damages which would result from such breach by CONTRACTOR under this Agreement are uncertain, and would be impractical or extremely difficult to fix, CONTRACTOR agrees that it shall pay, or CITY shall deduct from CONTRACTOR's fee, the amount of $_____ per day as liquidated damages, in the event of such delay.

5. TIME OF COMPLETION. Time is of the essence of this Agreement. CONTRACTOR shall complete all Work under the Contract Documents within _____ Days of the date of this Contract. CONTRACTOR shall begin work by the date specified in the "Notice to Proceed" letter and shall diligently prosecute all of the Work under this Contract in all parts and requirements as defined in the Contract Documents.

6. SERVICE OF NOTICE. Any notice required or permitted to be given under this Agreement shall be deemed given when (a) personally delivered to the recipient identified below; (b) mailed by registered or certified mail, return receipt requested, postage pre-paid, to the address specified below; or (c) sent by facsimile, with confirmation of receipt, to the facsimile number identified below.

CITY OF ROSEVILLE	CONTRACTOR
_____	_____
_____	_____
_____	_____
_____	_____

CITY may also act through either its architect or construction manager if CITY expressly gives notice to CONTRACTOR, in writing, that CITY's designee has authority to act for CITY in a specific capacity.

7. DISPUTES. Disputes arising from this Agreement will be determined in accordance with the Contract Documents and Public Contract Code Sections 10240-10240.13.

8. GOVERNING LAW. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

9. INDEPENDENT CONTRACTOR. CONTRACTOR shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

10. SUCCESSORS IN INTEREST. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

11. MODIFICATION. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

12. SEVERABILITY. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

13. INTEGRATED AGREEMENT. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

14. CONTRACTORS LICENSE LAW. CONTRACTORS ARE REQUIRED BY LAW TO BE LICENSED AND REGULATED BY THE CONTRACTORS' STATE LICENSE

BOARD WHICH HAS JURISDICTION TO INVESTIGATE COMPLAINTS AGAINST CONTRACTORS IF A COMPLAINT REGARDING A PATENT ACT OR OMISSION IS FILED WITHIN FOUR (4) YEARS OF THE DATE OF THE ALLEGED VIOLATION. A COMPLAINT REGARDING A LATENT ACT OR OMISISON PERTAINING TO STRUCUTRAL DEFECTS MUST BE FILED WITHIN TEN (10) YEARS OF THE DATE OF THE ALLEGED VIOLATION. ANY QUESTIONS CONCERNING A CONTRACTOR MAY BE REFERRED TO THE REGISTRAR, CONTRACTORS' STATE LICENSE BOARD, P.O. BOX 26000, SACRAMENTO, CALIFORNIA 95826.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. _____, adopted by the Council of the City of Roseville on the _____day of _____, 20_____, and CONTRACTOR has caused this Agreement to be duly executed.

INSURANCE BROKER INFORMATION PACKET

Project:_____

NOTICE TO CONTRACTOR:

For your convenience, this package contains the Requirements for Insurance and Bonds for this project, including the necessary City forms. You are required to return these forms in addition to the executed Contract within fifteen (15) calendar days after the award of the Bid, unless otherwise directed by City in writing. (See the Instructions to Bidders.)

Please insert the dollar amount of your accepted Bid into the blank on page INS-1 and present this entire package to your insurance broker if you are awarded the Bid.

NOTICE TO INSURANCE BROKER

Your client has been awarded a bid by the City Council of the City of Roseville to perform a public works project known as _____. The Contract Conditions for that project require your client ("the Contractor") to return certain evidence of insurance and bonds to the City Attorney of the City within fifteen (15) days after the Bid award, unless otherwise directed by the City in writing, or else the Bid award may be terminated and awarded to another company.

This package contains the information you will need as an insurance broker to provide the appropriate insurance and bonds to the City. The insurance coverages the Contractor needs are specified in the section entitled "Insurance Requirements." Please note that, in addition to the insurance certificate itself, copies of several endorsements must be actually furnished.

Please refer to Special Provisions for modifications of the Standard Construction Specifications, if any, and the requirements of this insurance packet.

Please use the standard City of Roseville Bond Forms provided in this package.

The Bonds required must each be in the penal amount of: $_____.

Bonds must be sent to the following staff person:

_____

_____

_____

Insurance documents must be provided by email to roseville@ebix.com. When sending the documents via email, please refer to the project name so that the documents can be matched with the Contract for which they are submitted. Thank you.

INSURANCE REQUIREMENTS

The following sections are quoted from the Standard Construction Specifications:

7-1.06 **INSURANCE COVERAGE.**

A. Evidence of Maintenance Required. The Contractor shall, at its expense, procure and at all times maintain in full force and effect at a minimum the insurance required by this section on all of its operations; and the Contractor shall not allow any Subcontractor to commence work until similar insurance required of the Subcontractor has been obtained and filed. An original Certificate of Insurance, and copies of all required endorsements, all in a form approved by the Risk Manager, evidencing all required coverage or policies shall be filed after the award of the bid and prior to approval of the Contract by the City Council. Contractor shall provide ten (10) days prior written notice to the City of any reduction of coverage limits or cancellation of the coverage or policies shall be given to the City of Roseville as Certificate holder.

B. Qualifying Insurers. With the exception of the State Compensation Insurance Fund, all required insurance policies shall be issued by companies acceptable to the City and licensed to do business in the State of California and who hold a current policy holders alphabetic and financial size category rating of not less than AVII according to the most recent issue of Best's Insurance Reports.

C. Insurance Required.

1. **Commercial General Liability (CGL):** Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations with limits of no less than Two Million Dollars ($2,000,000) per occurrence for bodily injury, personal injury and property damage for projects under One Million Dollars ($1,000,000) and

limits of no less than Five Million Dollars ($5,000,000) per occurrence for bodily injury, personal injury and property damage for projects over One Million Dollars ($1,000,000). If a general aggregate limit applies, either the aggregate limit shall apply separately to this project or the general aggregate limit shall be twice the required occurrence limit.

The Commercial General Liability insurance shall include the following, copies of which shall be provided:

a. Inclusion of the City of Roseville, and its officers, agents, employees, and volunteers, as additional insureds (except for workers' compensation) as respects services or operations under the Contract. The additional insured endorsement for the general liability policy shall be at least as broad as the ISO CG 2010 10 01 combined with ISO CGL Endorsement CG 2037 10 01. Any other endorsement must be approved in writing by the City. Endorsements must include coverage for on-going and completed operations, which coverage shall be maintained for four (4) years following completion of the Project. Endorsements shall cover the City of Roseville, its officers, agents, employees, and volunteers.

b. The insurance shall provide coverage for claims by one insured against another insured and the policies shall not contain any cross-suits exclusions, cross-liability exclusions, or insured versus insured exclusions. The policies shall not contain any classification exclusions purporting to deny coverage for any work to be performed by Contractor or any of its Subcontractors.

c. Stipulation that the insurance is primary and noncontributory, as evidenced by a separate endorsement (CG 20 01 04 13 or an equivalent) or section of the policy, and that neither the City nor its insurers will be called upon to contribute to a loss.

d. Such insurance shall specifically cover the contractual liability of the Contractor.

e. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

f. Waiver of subrogation endorsement.

g. The Contractor shall furnish a certificate for the period covered.

2. **Automobile Liability:** Insurance Services Office Form Number CA 0001 covering Code 1 (any auto), or if Contractor has no owned autos, Code 8 (hired) and Code 9 (non-owned), with limits of no less than One Million Dollars ($1,000,000) per accident for bodily injury and property damage.

3. **Workers' Compensation:** In accordance with the provisions of the California Labor Code, Contractor is required to be insured against liability for Workers' Compensation or to undertake self-insurance. Statutory Workers' Compensation and Employers' Liability of at least One Million Dollars ($1,000,000) shall cover all Contractors staff while performing any work incidental to the performance or this Agreement.

4. **Professional Liability:** Professional Liability (Errors and Omission) Insurance appropriate to Contractor's profession, with a limit of liability not less than One Million Dollars ($1,000,000) per occurrence or claim and Two Million Dollars ($2,000,000) aggregate to cover all design and engineering services rendered by Contractor pursuant to the

Agreement. Coverage must commence from the first day that Contractor or any of its Subcontractors provided any design or engineering services in connection with the Project.

5. **Builder's Risk/Course of Construction Insurance Is ____ OR Is Not ____ Required by Risk Management:** The Contractor shall be responsible for all loss, damage or destruction whatsoever to the work called for by this Contract until the approval of a Notice of Completion or acceptance of the Work if no Notice of Completion is to be recorded.

The Contractor shall secure "All Risk" type of builder's Risk Insurance of the type covering one hundred percent (100%) of the value of the work performed under this Contract (the value is presumed to be the Contract amount unless otherwise stated in Supplemental Conditions) and all materials, equipment, or other items to be incorporated therein while the same are located at the construction site, a bonded warehouse, or its place of manufacture. At any time, the policy shall cover the value of the work completed. The policy shall cover hazards including the losses due to fire, explosion, hail, rain, lightning, flood (separate insurance as needed), vandalism, malicious mischief, wind, collapse, aircraft, and smoke.

The policies providing such insurance shall name the City as a loss payee as its respective interests may appear, and certified copies of such policies shall be filed with the City. The maximum deductible allowable under the Builder's All Risk policy shall be five percent (5%) of the Contract amount.

Builder's Risk Insurance is not required for coverage of losses in excess of five percent (5%) of the Contract amount for damages resulting from earthquake in excess of a magnitude of 3.5 on the Richter scale, or tidal waves. Coverage in the amount of five percent (5%) of the Contract amount for such losses is required.

6. **Pollution Coverage:** Contractor shall procure pollution liability coverage or other insurance covering claims for bodily injury or property damage arising out of the abatement, removal, storage, transportation, or other exposure to hazardous materials or pollutants, in limits not less than Two Million Dollars ($2,000,000). Contractor shall add the City and all parties required to be indemnified by Contractor as additional insured on all pollution liability policies.

7. **Higher Coverage Limits:** If Contractor maintains higher coverage limits than the amounts shown above, then the City requires and shall be entitled to coverage for the higher coverage limits maintained by Contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City.

8. **Claims Made Coverage:** Liability insurance coverage may not be written on a "claims made" or modified occurrence basis. The Certificate of Insurance must clearly provide that the coverage is on an "occurrence" basis.

7-1.06A **OTHER INSURANCE PROVISIONS.**

A. The requirements of the Standard Specifications as to types and limits of insurance coverage to be maintained by the Contractor, and any approval of insurance by the City, are not intended to, and shall not in any manner limit or qualify the liabilities and obligations otherwise assumed by the Contractor pursuant to the Contract, including, but not limited to, the provisions concerning indemnification, nor preclude the City from taking any other action available to it under any other provision of the Contract or law.

B. The City acknowledges that some insurance requirements contained in these Standard Specifications may be fulfilled by self-insurance on the part of the Contractor. However, this shall not in any way limit liabilities assumed by Contractor under the Contract.

Any self-insurance must be approved in writing by the City, in its sole discretion and shall not reduce the limits of liability. Any deductibles or self-insured retentions ("SIR") must be declared on the certificate of insurance and approved by City in writing. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

C. The Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Contract, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, the Contractor shall require its subcontractors to agree to be bound to the Contractor and the City in the same manner and to the same extent as the Contractor is bound to the City under this Contract. Additionally, the Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of the City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request. Alternatively, the Contractor may insure subcontractor(s) under its own policy.

D. The City, its officers, agents, employees, and volunteers are to be covered as insureds with respect to liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor; and with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts or equipment furnished in connection with such work or operations. Coverage shall not extend to any indemnity coverage

for the active negligence of the additional insured in any case where an agreement to indemnify the additional insured would be invalid under California Insurance Code Section 11580.04.

E. The limits of insurance required in this Contract may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the City (if agreed to in a written contract) before the City's own insurance shall be called upon to protect it as a named insured.

F. The insurance procured by Contractor shall be subject to the approval of the City, but any acceptance of insurance certificates by the City shall in no way limit or relieve Contractor of its duties and responsibilities under the Agreement.

G. Contractor shall be responsible for all premiums, deductibles, and self-insured retention applicable to the insurance it is required to procure under the Contract. All deductibles or self-insured retentions over five hundred thousand dollars ($500,000) must be approved by the City, in writing. Contractor shall be responsible for all deductibles, self-insured retention payments, and/or increased premiums incurred if the City's policies of insurance are forced to cover damages or respond to claims for which Contractor or its Subcontractors were obligated to provide insurance under the Contract.

H. Failure of the City to enforce in a timely manner any of the requirements of these insurance provisions shall not act as a waiver to enforcement of any of these provisions at a later date.

I. Contractor's indemnity obligations shall not be limited by these insurance provisions and shall survive the expiration of the Contract and the insurance provisions of the Contract shall likewise not be limited by the indemnity provisions of the Contract.

J. THE CITY RESERVES THE RIGHT TO WITHHOLD ANY PROGRESS PAYMENTS TO THE CONTRACTOR IN THE EVENT OF NONCOMPLIANCE WITH ANY INSURANCE REQUIREMENTS.

Bond No. _____
Premium $_____

PUBLIC WORKS
FAITHFUL PERFORMANCE BOND

(Project: _____)

WHEREAS, the City of Roseville ("CITY") has awarded a bid and contract to _____ as contractor ("PRINCIPAL") for the public work described as _____ _____ (the "WORK"). The contract ("AGREEMENT"), for the public work described above, and all of its terms and conditions are incorporated by reference and made a part hereof; and

WHEREAS, the PRINCIPAL is required to furnish a bond in connection with the AGREEMENT guaranteeing its faithful performance; and

NOW, THEREFORE, we the undersigned PRINCIPAL and _____ _____, a _____, admitted and duly authorized to transact business under the laws of the State of California, as SURETY ("SURETY"), are held and firmly bound unto the CITY or its successors and assigns in the sum of _____ dollars ($_____) (which amount is not less than 100% of the AGREEMENT price) to be paid to the CITY or its successors and assigns; and for which payment, well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors or assigns jointly and severally, firmly by these presents.

The condition of this obligation is such that if the PRINCIPAL, or its heirs, executors, administrators, successors or assigns, shall abide by, and in all respects promptly and faithfully perform the covenants, conditions and provisions in said AGREEMENT and any alteration thereof made as therein provided, notice of which alterations to Surety being hereby waived, on its part to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless CITY, its officers, agents, employees, volunteers as therein stipulated, then this obligation shall be null and void; otherwise, this obligation shall be and remain in full force and effect.

As condition precedent to the satisfactory completion of the contract, the obligation of the PRINCIPAL and SURETY under this Bond shall remain in effect for a period of one (1) year after the completion and acceptance of the WORK. During that time, if the PRINCIPAL, its heirs, executors, administrators, successors or assigns fails to make full, complete and satisfactory repair and replacement or totally protect the CITY from any loss or damage made evident during that year which results from or is caused by either defective materials or faulty workmanship in the prosecution of the WORK, then the obligation shall remain in full force and effect. However, anything in

this paragraph to the contrary notwithstanding, the obligation of the SURETY shall continue so long as any obligation of the PRINCIPAL remains.

No prepayment or delay in payments, and no change, extension, addition or alteration of any provision of the AGREEMENT or in the specifications agreed to between the PRINCIPAL and the CITY, or any forbearance on the part of the CITY shall operate to relieve the SURETY. The SURETY hereby waives the provisions of Section 2819 of the California Civil Code. The SURETY waives all rights of subrogation against the CITY or any person employed by the CITY. If the contract price increases by the issuance of change orders, the amount specified in this bond shall increase by the same amount.

Whenever PRINCIPAL shall be and declared by CITY to be in default under the AGREEMENT, SURETY shall promptly remedy the default, or shall promptly do one of the follow at CITY's election:

1. Undertake through its agents or independent contractors, reasonably acceptable to CITY, to complete the AGREEMENT in accordance with its terms and conditions and to pay and perform all obligations of PRINCIPAL under the AGREEMENT, including without limitation, all obligations with respect to warranties, guarantees, and the payment of liquidated damages.

2. Reimburse CITY for all costs CITY incurs in completing the AGREEMENT, and in correcting, repairing or replacing defects in materials or workmanship and/or materials and workmanship which do not conform to the specifications in the AGREEMENT.

SURETY's obligations hereunder are independent of the obligations of any other surety for the performance of the AGREEMENT, and suit may be brought against SURETY and such other sureties, jointly and severally, or against any one or more of them, or against less than all of them without impairing CITY's rights against the others.

No right of action shall accrue on this bond to or for the use of any person or corporation other than CITY or its successors or assigns.

As part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by CITY in successfully enforcing such obligation, all to be taxed as costs and included in any judgment rendered.

[SIGNATURES NEXT PAGE]

IN WITNESS WHEREOF, this instrument has been duly executed by the PRINCIPAL and SURETY above-named, on the ____ day of _____, 20___.

PUBLIC WORKS
LABOR AND MATERIALS PAYMENT BOND
(Project: _____)

WHEREAS, the City of Roseville ("CITY"), has awarded a bid and contract to _____ as contractor ("PRINCIPAL"), for the public work described as _____ _____ (the "WORK"). The contract ("AGREEMENT"), for the public work described above, and all of its terms and conditions are incorporated by reference and made a part hereof; and

WHEREAS, the PRINCIPAL is required to furnish a bond in connection with the AGREEMENT guaranteeing payment of persons who provide labor and material; and

NOW, THEREFORE, we the undersigned PRINCIPAL and _____ _____, a _____, admitted and duly authorized to transact business under the laws of the State of California, as SURETY ("SURETY"), are held and firmly bound unto the CITY or its successors and assigns in the sum of _____ dollars ($_____) (which amount is not less than 100% of the AGREEMENT price) to be paid to the CITY or its successors and assigns; and for which payment, well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors or assigns jointly and severally, firmly by these presents.

The condition of the obligation is such that if the PRINCIPAL, its subcontractors, heirs, executors, administrators, successors or assigns fails to pay any of the persons named in Section 8004 or 9100 of the Civil Code of the State of California, or the amounts due under the Unemployment Insurance Code of the State of California, or any amounts required to be deducted, withheld and paid over to the Employment Development Department from the wages of employees of the PRINCIPAL and its subcontractors pursuant to Section 13020 of the Unemployment Insurance Code, with respect to work or labor performed by any such claimant, that the SURETY will pay for the same, in an amount not exceeding the sum specified in this bond, and also, in case suit is brought upon the bond, shall pay reasonable attorneys' fees, to be fixed by the Court.

This bond shall inure to the benefit of any and all persons, companies, and corporations entitled to file a Stop Payment Notice pursuant to the provisions of Section 9350 et seq. of the Civil Code of the State of California, so as to give a right of action to them or their assigns in any suit brought upon this bond.

No prepayment or delay in payments, and no change, extension, addition or alteration of any provision of the AGREEMENT or in the specifications agreed to between the PRINCIPAL and the CITY, or any forbearance on the part of the CITY shall operate to relieve the SURETY. The SURETY hereby waives the provisions of Section 2819 of the California Civil Code. The SURETY waives all rights of subrogation against the CITY or any person employed by the CITY. If the contract price increases by the issuance of change orders, the amount specified in this bond shall increase by the same amount.

As part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by CITY in successfully enforcing such obligation, all to be taxed as costs and included in any judgment rendered.

IN WITNESS WHEREOF, this instrument has been duly executed by the PRINCIPAL and SURETY above-named, on the _____ day of _____, 20__.

ADOPTION OF STATE SPECIFICATIONS

1. The State of California Department of Transportation ("Caltrans") Standard Specifications dated 2015, are hereby adopted as the Standard Specifications of the City of Roseville except insofar as they may be modified by these Standard Construction Specifications.

2. Except for Division 1, Section 2, numbering in these Standard Construction Specifications conforms to that in the Caltrans Standard Specifications. The existence of a section in these Standard Construction Specifications means that the corresponding section of the Standard Specifications is modified in some respect. Unless otherwise specified, the modified Standard Specification provisions are deleted entirely, and the provisions of these Standard Construction Specifications are substituted.

DIVISION 1. GENERAL PROVISIONS

SECTION 1. GENERAL

ACCEPTANCE. Shall mean the formal Acceptance by resolution of the Roseville City Council of an entire Contract which has been completed in all respects in accordance with the Plans and specifications and any modifications thereof previously approved, causing a notice of completion to be filed with the County Recorder.

ATTORNEY GENERAL. The City Attorney of the City of Roseville.

CITY ATTORNEY. The City Attorney of the City of Roseville.

CITY CLERK. Shall mean the City Clerk of the City of Roseville.

DEPARTMENT. Shall mean the Department of Public Works of the City of Roseville, also referred to as the Department of Contract Administration. References made to the Department of Transportation otherwise shall mean the State of California Department of Transportation.

DIRECTOR. Shall mean the Public Works Director of the City of Roseville or his or her duly authorized representative.

ENGINEER. Shall mean the Public Works Director of the City of Roseville or his or her duly authorized representative.

ESTIMATED COST. The estimate prepared by the Public Works Director of quantities of work to be performed.

LIQUIDATED DAMAGE. The amount to be deducted from payments due or to become due to the Contractor for delay, as set forth in the Special Provisions.

PLANS. The official Project Plans, Standard Plans, Improvement Plans, Construction Standards, profiles, typical cross sections, general cross sections, working drawings, and supplemental drawings, or reproductions thereof, approved by the Director which show the location, character, dimensions and details of the work to be performed. All such documents are to be considered as a part of the Plans whether or not reproduced in the Special Provisions.

In the above definition, the following terms are defined as follows:

a. Standard Plans - The Standard Plans of the Department of Transportation of the State of California.

b. Project Plans - The Project Plans are specific details and dimension peculiar to the Work and supplemented by the Standard Plans, insofar as the same may apply.

c. Construction Standards - The City of Roseville Design and Construction Standards.

STATE. Reference to the State or State of California shall mean City or City of Roseville unless the reference is to a law or regulation of the State, and reference to Sacramento shall mean Roseville unless otherwise noted.

SECTION 2. BIDDING

SECTION 2 SHALL BE DELETED IN ITS ENTIRETY AND REPLACED WITH THE FOLLOWING:

2-1.01 **PROPOSAL FORMS.** The Department will furnish to each Bidder a standard proposal form, which, when filled out and executed shall be submitted as its bid. Bids not presented on forms so furnished will be disregarded.

The proposal form is bound in a book together with the Notice to Contractors, special provisions, and Contract. The proposal shall set forth for each item of work, in clearly legible figures and words, an item price and a total for the item in the respective spaces provided, and shall be signed by the Bidder, who shall fill out all blanks in the proposal form as required therein.

All items shown on the schedule of bid items shall be properly filled in and shall include all costs of labor, materials, equipment, and State, Federal, or other taxes applicable to the transaction. The completed forms shall be without inter-lineations, erasures or alterations of any nature. If the proposal is made by an individual, his or her name and post office address must be shown; if made by a firm or partnership, the name and post office address of each member of the

firm or partnership must be shown; or if made by a corporation, the proposal shall show the name of the State under the laws of which the corporation was chartered and the names, titles, and business addresses of the president, secretary, and treasurer of said corporation. If the proposal is signed by an agent, a "Power of Attorney" must be filed with the proposal.

The proposal shall be submitted as directed in the "Notice to Contractors" under sealed cover plainly marked as a proposal, and identifying the project to which the proposal relates and the time and date of the bid opening therefor. Proposals which are not properly marked may be disregarded. Proposal forms shall be obtained from the Director of Public Works, City of Roseville, California. Proposal forms are not transferable.

2-1.02 **REJECTION OF PROPOSALS AND DISQUALIFICATION OF BIDDERS.** Proposals may be rejected if they show any alterations of the forms, additions not called for, conditional bids, incomplete bids, erasures or irregularities of any kind. More than one proposal from an individual, firm, partnership, corporation or association under the same or different names, will not be considered. Reasonable grounds for believing that any Bidder is interested in more than one (1) proposal for the work contemplated, will cause the rejection of all proposals in which the Bidder is interested. The City reserves the right to reject any and all proposals.

2-1.03 **PROPOSAL GUARANTY.** All bids shall be presented under sealed cover and accompanied by one (1) of the following forms of Bidder's security.

a. Cash, a cashier's check, a certified check, or a Bidder's bond executed by an admitted California surety insurer, made payable to the City.

b. The security shall be in an amount equal to at least ten percent (10%) of the bid amount. A bid will not be considered unless one (1) of the forms of Bidder's security is enclosed with it.

c. A Bidder's bond will not be accepted unless it conforms to a bond form approved by the City Attorney. Upon request "Bidder's Bond" forms may be obtained from the Department.

2-1.04 **WITHDRAWAL OF PROPOSALS.** Any bid may be withdrawn at any time prior to the time fixed in the public notice for the deadline submission of bids only by written request for the withdrawal of the bid filed with the Director. The request shall be executed by the Bidder or his or her duly authorized representative. The withdrawal of a bid does not prejudice the right of the Bidder to file a new bid. Whether or not bids are opened exactly at the time fixed in the public notice for opening bids, a bid will not be received after the deadline for submission of bids nor may any bid be withdrawn after the time fixed in the public notice for deadline for submission of bids. Immediately following the deadline for submission of bids all bids shall become the property of the City of Roseville and City is under no obligation to return the bids.

2-1.05 **RELIEF OF BIDDERS.** If the Bidder claims a mistake was made in his or her bid, the Bidder shall give the Department written notice within five (5) calendar days after the opening of the bids of the alleged mistake, specifying in the notice in detail how the mistake occurred. No relief from a claimed mistaken bid shall be granted unless such mistake clearly appears on the face of the bid submitted to the City. Claimed mistakes on backup worksheets, spreadsheets, computerized bidding programs, or any other similar calculative bidding mistake which is not apparent on the face of the bid shall not under any circumstance be considered as a

basis for relief. The burden of proving the occurrence of a mistake entitling a Bidder to relief from its bid rests entirely on the Bidder. Relief from bids shall be in the City's sole discretion.

2-1.06 **PREVIOUS DISQUALIFICATION, REMOVAL OR OTHER PREVENTION OF BIDDING.** A bid may be rejected on the basis of a Bidder, any officer of such Bidder, or any employee of such Bidder who has a proprietary interest in such Bidder, having been disqualified, removed, or otherwise prevented from bidding on, or completing a Federal, State, or local project because of a violation of law or a safety regulation.

2-1.07 **COMPETENCY OF BIDDERS.** If two (2) or more prospective Bidders desire to bid jointly as a joint venture on a single project, they must file an affidavit of joint venture with the Bid on a form approved by the City Attorney, and such affidavit of joint venture will be valid only for the specific project for which it is filed. If such affidavit of joint venture is not filed as aforesaid and approved by the City Attorney prior to the time for awarding bids on the specific project for which it is submitted, a joint bid submitted by said Bidders will be disregarded. No bid will be accepted from or a Contract awarded to any Bidder to whom a proposal form has not been issued pursuant to Section 2-1.06.

2-1.08 **GUARANTY AND WARRANTY.** The Contractor shall guarantee and warrant all materials supplied as being fit for the purpose intended. The Contractor shall guarantee and warrant all work performed as having been accomplished in a proper and workman-like manner. The guarantee and warranty required by this section shall continue for a period of one (1) year after Acceptance of the Work.

Should any failure of the work occur within a period of one (1) year, after Acceptance of the project by the City Council due to faulty materials, poor workmanship, or defective equipment, the Contractor shall promptly make the needed repairs at his or her expense.

The City is hereby authorized to make such repairs if the Contractor fails to make or undertake with due diligence the aforesaid repairs within ten (10) calendar days after being given written notice of such failure; provided, however, that in case of emergency where in the opinion of the Engineer, providing a reasonable attempt has been made to notify the Contractor, delay would cause serious loss or damages, or a serious hazard to the public, the repairs may be made or lights, signs, and barricades erected without prior notice to the Contractor, and the Contractor shall pay the entire cost thereof. At the completion of the work the faithful performance bond may be reduced at the discretion of the City Council to not less than ten percent (10%) of the Contract price to cover said guarantee.

Additional guarantees or warranties may be required by the Special Provisions.

SECTION 3. CONTRACT AWARD AND EXECUTION

3-1.04 **CONTRACT AWARD.** The right is reserved to reject any and all proposals. The award of the Contract, if it be awarded, will be to the lowest responsible Bidder whose proposal complies with all the requirements prescribed. Such award, if made, will be made within sixty (60) calendar days after the public opening of the proposals. If the lowest responsible Bidder refuses or fails to execute the Contract, the Roseville City Council may award the Contract to the second lowest responsible Bidder. Such award, if made, will be made within eighty-two (82) calendar days after the public opening of proposals. If the second lowest responsible Bidder refuses or fails to execute the Contract, the City may award the Contract to the third lowest responsible Bidder. Such award, if made, will be made within one hundred and four (104) calendar days after public opening of the proposals. The above time periods within

which the award of Contract may be made are subject to extension for such further period as may be agreed upon in writing between the City and the Bidder concerned.

All bids will be compared on the basis of the Director's estimate of the quantities of work to be done.

3-1.05 **CONTRACT BONDS.** The successful Bidder, simultaneously with the execution of the Contract, will be required to furnish a payment bond in an amount equal to one hundred percent (100%) of the Contract price, and a faithful performance bond in an amount equal to one hundred percent (100%) of the Contract price; said bonds shall be in a form approved by the City Attorney and shall be secured by a surety company satisfactory to the City Attorney. If the Contract price increases by the issuance of Change Orders, the penal amounts of the bonds required shall increase accordingly.

Furthermore, the successful Bidder shall furnish a certificate from the County Clerk as required by California Civil Code of Procedure Section 995.660(a)(3).

3-1.18 **CONTRACT EXECUTION.** The Contract, in form and contents satisfactory to the City, shall be executed by the successful Bidder and returned, together with the Contract bonds and certificates of insurance within fifteen (15) calendar days after written notice that the Contract has been awarded, or as otherwise directed, in writing, by the City. No proposal shall be considered binding upon the City until the execution of the Contract by the City.

3-1.20 **FAILURE TO EXECUTE CONTRACT.** Section 3-1.20, "Failure to Execute Contract" is added as follows:

"Failure of the lowest responsible Bidder, the second lowest responsible Bidder, or the third lowest responsible Bidder to execute the Contract and file acceptable bonds

and insurance as provided herein within fifteen (15) calendar days, or within a different timeframe specified by City in writing, after such Bidder has received notice that the Contract has been awarded to him or her, shall be just cause for the annulment of the award and the forfeiture of the Bidder's security to the City as Liquidated Damages. The successful Bidder may file with the Roseville City Council a written notice, signed by the Bidder or his or her authorized representative, specifying that the Bidder will refuse to execute the Contract if presented to him or her. The filing of such notice shall have the same force and effect as the failure of the Bidder to execute the Contract and furnish acceptable bonds and insurance within the time prescribed by Section 3-1.18."

SECTION 4. SCOPE OF WORK

There are no amendments to the Standard Specifications.

SECTION 5. CONTROL OF WORK

5-1.02 **CONTRACT COMPONENTS.** These Standard Construction Specifications, the Standard Specifications, the Standard Plans, the Improvement Plans, Construction Standards, Project Plans, project Special Provisions (and any addenda), the Agreement, Contract Change Orders, and all supplementary documents are all essential parts of the Contract between Contractor and the City. A requirement occurring in one (1) is as binding

as though occurring in all. They are intended to be complementary, and to describe and provide for a complete work.

In resolving inconsistencies among two (2) or more sections of the Contract Documents, precedence shall be given in the following order:

A. Special Provisions

B. City of Roseville Standard Construction Specifications

C. City of Roseville Design and Construction Standards

D. State Standard Specifications and Amendments to the State Standard Specifications, Standard Special Provisions, and Plans

E. Drawings

Should it appear that the work to be done or any of the matters relative thereto are not sufficiently detailed or explained in these specifications, the special provisions, or the Plans, the Contractor shall apply in writing to the Director for such further explanations as may be necessary and shall conform to them as part of the Contract. In the event of any doubt or question arising respecting the true meaning of these specifications, the special provisions or the Plans, reference shall be made to the Director, whose decision thereon shall be final.

In the event of any discrepancy, between any drawing and the figures written thereon, the figures shall be taken as correct. Detail drawings shall prevail over general drawings.

5-1.20B(5) **CITY OF ROSEVILLE ENCROACHMENT PERMITS.** Section 5-1.20B(5), "City of Roseville Encroachment Permits" is added as follows:

"The Contractor need not obtain a separate encroachment permit from the City prior to construction within street rights-of-way or other City rights-of-way. Execution of the Contract by the City shall be deemed an encroachment permit for work required by

the Contract within rights-of-way. All work shall conform to the rules and regulations of encroachment permits and shall be subject to the inspection and approval of the Director."

5-1.20B(6) **CITY OF ROSEVILLE BUSINESS LICENSE.** Section 5-1.20B(6), "City of Roseville Business License" is added as follows:

"The Contractor shall obtain a business license from the City prior to commencing work."

5-1.20B(7) **OTHER PERMITS.** Section 5-1.20B(7), "Other Permits" is added as follows:

"The Contractor in coordination with the Director shall procure any necessary permits which the City has not specifically mentioned as obtaining."

5-1.31 **JOB SITE APPEARANCE.** The Contractor shall maintain a neat appearance to the work. In any area visible to the public, the following shall apply:

When practicable, broken concrete and debris developed during clearing and grubbing shall be disposed of concurrently with its removal. If stockpiling is necessary, the material shall be removed or disposed of weekly.

The Contractor shall furnish trash bins for all debris from structure construction. All debris shall be placed in trash bins daily. Forms or falsework that are to be reused shall be stacked neatly concurrently with their removal. Forms and falsework that are not to be reused shall be disposed of concurrently with their removal.

Full compensation for conforming to the provisions in this section, not otherwise provided for, shall be considered as included in price paid for the various Contract items of work involved, and no additional compensation will be allowed therefore.

5-1.38 **MAINTENANCE AND PROTECTION RELIEF.** Section 5-1.38 is deleted.

5-1.43 **POTENTIAL CLAIMS AND DISPUTE RESOLUTION.** Section 5-1.43 is deleted in its entirety and replaced with the following:

5-1.43A **NOTICE OF POTENTIAL CLAIM.** The Contractor shall not be entitled to payment for any additional compensation for any act or failure to act by the City, including failure or refusal to issue a Change Order, or for the happening of any event, thing, occurrence or other cause unless he or she shall have given the City due written Notice of Potential Claim as hereinafter specified.

The written Notice of Potential Claim shall set forth the reasons for which the Contractor believes additional compensation will or may be due, the nature of the costs involved, and, insofar as possible, the amount of the potential claim. The said Notice as above required must have been given to the Director prior to the time that the Contractor shall have performed the Work giving rise to the potential claim for additional compensation, if based on an act or failure to act by the Director, or in all other cases within three (3) Days after the happening of the event, thing, occurrence or other cause giving rise to the potential claim.

If the Notice of Potential Claim does not include complete information about the claim or the parties do not execute a Contract Change Order in connection with the Notice of Potential Claim, Contractor shall submit a complete information about its claim for additional compensation and/or extension of time for performance within fifteen (15) calendar days after such work is performed. Failure to provide written notice of claim prior to undertaking such work or failure to timely submit a complete and specific information about the claim for

additional compensation and/or extension of the time for performance shall be deemed a waiver and abandonment of such claim.

If there is a dispute over any claim, the Contractor shall continue to work during the dispute resolution process in a diligent and timely manner as directed by the City, and shall be governed by all applicable provision of the Agreement.

The Contractor shall maintain cost records of all work that is the basis of any dispute. On a daily basis, Contractor shall submit to City completed daily forms, the format of which will be acceptable to the City, with respect to the Contractor's costs of performing the disputed work. These daily forms shall itemize all of Contractor's costs in performing the disputed work, including, but not limited to, all costs relating to materials, labor and equipment with respect to the disputed work. These daily forms shall provide names or identification and classification of affected workers, the hourly rate of pay and hours worked, and also the size, type, and identification number of equipment and hours operated. Said daily work forms shall be duly signed and verified by the Contractor or its authorized representative. The City's receipt of the Contractors' daily forms shall not constitute an approval of the Contractor's claim. Contractor's failure to submit the daily forms on a daily basis shall constitute a waiver of the Contractor's right to claim any additional compensation for the disputed work.

Each Contractor claim shall include full and complete information concerning the Claim. Contractor shall provide a clear, concise recital of the basis, upon which the claim is asserted, including a designation of the provisions of the Contract Documents upon which the claim is based. Contractor shall also include a statement as to the amount of time and/or compensation sought pursuant to the claim; if Contractor's claim arises from an ongoing occurrence, Contractor shall so state in its claim, including a description of the specific Work activities

affected by the claim. All costs, expenses or damages and extensions of time claimed shall be described in reasonable detail under the circumstances together with complete supporting documentation.

The City will review any timely Notice of Potential Claim and supporting information submitted by Contractor. In conducting this review, the City shall have the right to require the Contractor to submit such additional or supporting documents, data and other information as the City may require.

If an agreement can be reached which resolves the Contractor's claim, the parties will execute a Contract Change Order to document the resolution of the claim. If the parties cannot reach agreement with respect to the Contractor's claim, the Contractor shall still be obligated to comply with the claim identification provisions identified in these Standard Construction Specifications, including but not limited to Section 5-1.43B.

It is the intention of this Section 5-1.43A that differences between the parties arising under and by virtue of the Contract be brought to the attention of the Director at the earliest possible time in order that such matters may be settled, if possible, or other appropriate action promptly taken. The Contractor hereby agrees that he or she shall have no right to additional compensation for any Claim that may be based on any such act, failure to act, event, thing or occurrence for which no timely written Notice of Potential Claim as herein required was filed.

5-1.43B **CLAIMS.** Contractor must submit all Claims, for which it has previously submitted a Notice of Potential Claim, prior to Acceptance of the Work. Each such Claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the Claim.

Upon receipt of a Claim, the City shall conduct a reasonable review of the Claim and, within a period not to exceed forty-five (45) calendar days, or such further time as mutually agreed upon or necessary pursuant to Public Contract Code Section 9204, the City shall provide the Contractor a written statement identifying what portion of the Claim is disputed and what portion is undisputed. If the City does not respond to a Claim from the Contractor within the time specified herein, such Claim shall be deemed rejected in its entirety.

Any payment due on an undisputed portion of the Claim shall be processed and made within sixty (60) calendar days after the City issues its written statement.

If the Contractor disputes the City's written response, or if the City does not respond within the time specified herein, the Contractor may demand in writing an informal conference to meet and confer for settlement of the issues in dispute. Upon receipt of a demand in writing sent by registered mail or certified mail, return receipt requested, the City shall schedule a meet and confer conference within thirty (30) calendar days for settlement of the dispute.

Within ten (10) business days following the conclusion of the meet and confer conference, if the claim or any portion of the claim remains in dispute, the City shall provide the Contractor a written statement identifying the portion of the Claims that remains in dispute and the portion that is undisputed. Any payment due on an undisputed portion of the Claims shall be processed and made within sixty (60) calendar days after the public entity issues its written statement. Any disputed portion of the Claim, as identified by the Contractor in writing, shall be submitted to nonbinding mediation, with the City and the Contractor sharing the associated costs equally. The City and the Contractor shall mutually agree to a mediator within ten (10) business days after the disputed portion of the Claim has been identified in writing. If the parties cannot agree upon a mediator, each party shall select a mediator and those mediators shall select a

qualified neutral third party to mediate with regard to the disputed portion of the Claim. Each party shall be responsible for the fees and costs charged by its respective mediator in connection with the selection of the neutral mediator. If mediation is unsuccessful, the parts of the Claim remaining in dispute shall be resolved in accordance with Section 9-1.22.

5-1.46 **FINAL INSPECTION AND CONTRACT ACCEPTANCE.** When the Director has made the final inspection and determines that the Contract work has been completed in all respects in accordance with the Plans and specifications, the Director will recommend that the Roseville City Council formally accept the work, and immediately upon and after such Acceptance by the City, the Contractor will be responsible for the work done for a period of one (1) year.

SECTION 6. CONTROL OF MATERIALS

6-1.03 **LOCAL MATERIALS.** Local material sites used by the Contractor shall be graded so that, at the time of final inspection of the Contract, they will drain and will blend in with the surrounding terrain.

SECTION 7. LEGAL RELATIONS AND RESPONSIBILITY TO THE PUBLIC

7-1.02K(2) **WAGES.** The provisions of paragraphs 1and 2 of Section 7-1.02K(2) of the Standard Specifications are amended to read as follows:

"Pursuant to the provisions of California Labor Code Section 1773, the City has identified the source, stated below, of the general prevailing rate of wages applicable to the

work to be done, for straight time, overtime, Saturday, Sunday and holiday work. The holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of the particular craft, classification or type of workmen concerned. The wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm, and are incorporated herein as part of the Contract.

Pursuant to California Labor Code Section 1773.2, general prevailing wage rates shall be posted by the Contractor at a prominent place at the site of the work."

7-1.02K(6)(b) **EXCAVATION SAFETY.** For trenches or excavation five feet (5') or deeper, the Contractor shall obtain from the Division of Industrial Safety, a permit authorizing such construction.

7-1.02O **VEHICLE CODE.** Pursuant to the authority contained in Vehicle Code Section 591, the Department has determined that, within such areas as are within the limits of the project and are open to public traffic, the Contractor shall comply with all the requirements set forth in Vehicle Code Divisions 11, 12, 13, 14, and 15. Attention is directed to the statement in Section 591 that this section shall not relieve the Contractor nor any person from the duty of exercising due care. The Contractor shall take all necessary precautions for safe operation of equipment and the protection of the public from injury and damage from such equipment.

7-1.03 **PUBLIC CONVENIENCE.** Section 7-1.03 of the Standard Specifications is amended in part as follows:

1. Delete paragraph 10 ("Install signs, lights, flares . . .") and substitute the following:

"In order to expedite the passage of public traffic through or around the work, the Contractor shall install signs, lights, flares, temporary railing (type K), barricades, and other facilities for the sole convenience and direction of public traffic as may be required. Also, as may be required, the Contractor shall furnish competent flaggers whose sole duties shall consist of directing the movement of public traffic through or around the work. The cost of furnishing and installing such signs, lights, flares, temporary railing (type K), barricades, flaggers, and other facilities shall be included in the lump sum paid for traffic control and no additional compensation will be allowed therefor.

In addition to the requirements previously specified for furnishing facilities and flaggers to expedite the safe passage of the public through or around the work, the Contractor shall at his or her expense furnish and erect within or adjacent to the work such warning, regulatory, or guide signs, markers, or devices as are necessary."

2. Add a paragraph at the end of the section to read as follows:

"In addition to the requirements hereinbefore specified for furnishing facilities and flaggers for expediting the passage of public traffic through or around the work, the Contractor shall furnish and erect, within or adjacent to the limits of the Contract, such warning, regulatory, and guide signs as may be required. The Contractor shall furnish, install and remove all such signs. Payment for furnishing, installing and removing all such signs shall be included in the lump sum price paid for traffic control and no additional compensation will be allowed therefor."

7-1.04 **PUBLIC SAFETY.** It is the intent of the parties that the City is not an exposing, creating, controlling, or correcting employer under California Labor Code Section 6400. In accordance with generally accepted construction practices and State law, the Contractor

shall have the authority and be solely and completely responsible for conditions on the job site, including safety of all persons and property during performance of the Work. Moreover, the Contractor shall be the controlling employer and has the authority and responsibility to enforce worksite safety. The Contractor shall be responsible for conducting daily safety inspections and assuring all hazards and violations are abated. The Contractor is responsible for assuring that all subcontractors adhere to the minimum CAL/OSHA safety requirements and that each subcontractor has an effective CAL/OSHA IIP (Illness and Injury Protection Program) in place that specifically addresses all potential exposures, such as, but not limited to, fall protection, confined space, and trenching/shoring. These requirements shall apply continuously and not be limited to normal working hours. The Contractor shall be responsible for any delay costs or damages in the event the progress of Work is slowed or stopped due to a safety violation.

The services of the Director in conducting construction review of the Contractor's performance is not intended to include review of the adequacy of the Contractor's Work methods, equipment, bracing or scaffolding, or safety measures, in, on, or near the construction site. If a City employee observes a safety violation, the City employee will report the violation to the Contractor who is then responsible for assuring the violation is abated.

The Contractor is hereby informed that Work on this project could be hazardous. The Contractor shall carefully instruct all personnel working in potentially hazardous Work areas as to potential dangers and shall provide such necessary safety equipment and instructions as are necessary to prevent injury to personnel and damage to property. Special care shall be exercised relative to Work underground.

All Work and materials shall be in strict accordance with all applicable State, City, County, and Federal Rules, Regulations, and Codes, and attention is drawn to the requirements

of CAL/OSHA. The Contractor shall be solely responsible for compliance with all City, County and State blasting requirements and for any damages caused by his or her operations.

In accordance with California Labor Code Section 6705, the Contractor shall submit to the City specific plans to show details of provisions for worker protection from caving ground. This in no way relieves the Contractor from the requirement of maintaining safety in all operations performed by the Contractor or the Contractor's subcontractors. The detailed plan showing design of shoring, bracing, sloping or other provisions shall be prepared by a registered civil or structural engineer in the State of California as required. Acceptance by the City or its designated agent only constitutes acknowledgment of the submission and does not constitute review or approval of the designs, design assumptions or criteria, completeness of submissions, applicability to areas of intended use, nor implementation of the plans, which are solely the responsibility of the Contractor and his or her registered engineer.

Notwithstanding any classifications relative to the Tunnel Safety Orders, Work within confined spaces on this project is subject to the definitions and applicable provisions of California Code of Regulations Section 8400 et seq., Title 8.

The Contractor shall so perform its Work as not to expose personnel to, or to discharge into the atmosphere from any source whatever, smoke, dust, asbestos, toxic chemicals or other air contaminants in violation of the laws, rules, and regulations of the governmental entities having jurisdiction. Contractors or subcontractors removing one hundred or more square feet (100') of asbestos must be “Certified” in accordance with State law. All Work involving exposure to asbestos and all other hazardous materials shall be performed with protection of personnel in compliance with all applicable regulations and safety requirements.

Nothing in these Standard Construction Specifications is to be construed to permit Work not conforming to governing codes. When Contract Documents differ from governing codes, the Contractor shall furnish and install the higher standards called for without extra charge. All equipment furnished shall be grounded and provided with guards and protection as required by safety codes. Where vapor tight or explosion proof electrical installation is required by code, this shall be provided. In accordance with the provisions of Labor Code Section 6707, the Contractor shall provide adequate sheeting, shoring and bracing for employee protection, as provided in the proposal as separate Bid Items.

7-1.05 **INDEMNIFICATION.** The City of Roseville and its officers, agents, employees, and volunteers, including but not limited to the Director, shall not be answerable or accountable in any manner: for any loss or damage that may happen to the work or any part thereof; for any loss or damage to any of the materials or any things used or employed in performing the work; for injury to or death of any person, either workers or the public; or for damage to property from any cause which might have been prevented by the Contractor, his or her workers, or anyone employed by the Contractor or his or her subcontractors.

The Contractor shall be responsible for any liability imposed by law and for injuries to, or death of, any person including, but not limited to, workers and the public, or damage to property resulting from defects or obstructions, or from any cause whatsoever during the progress of the work or at any time before its completion and final Acceptance.

To the fullest extent allowed by law, the Contractor shall defend (through counsel acceptable to the City), indemnify, and save harmless the City of Roseville and its officers, agents, employees, and volunteers from all claims, suits, or actions of every name, kind, and description, brought forth, or on account of, injuries to or death of any person including, but not

limited to, workers and the public, or damage to property resulting from the performance of the Contract, except as otherwise provided by statute.

The duty of the Contractor to defend, indemnify, and save harmless includes, but is not limited to, the duties to defend as set forth in Civil Code Section 2778. The Contractor waives any and all rights to any type of express or implied indemnity against the City, its officers, agents, employees, or volunteers.

It is the intent of the parties that the Contractor will defend, indemnify, and hold harmless the City of Roseville, its officers, agents, employees, and volunteers from any and all claims, suits, or actions as set forth above regardless of existence or degree of fault or negligence, on the part of the City, the Contractor, the subcontractor or employee of any of these; except the duty does not apply where the injury or damage is due to the sole or active negligence or willful misconduct of the City.

The Contractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Contract for the full period of time allowed by law. The defense and indemnity obligations of this Contract are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Contract. The parties intend that the defense and indemnity obligations in this Contract shall be broadly construed.

In addition to any remedy authorized by law, so much of the money due the Contractor under and by virtue of the Contract as shall be considered necessary by the City may be retained by the City until disposition has been made of such suits or claims for damages.

The retention of money due the Contractor shall be subject to the following:

A. The City will give the Contractor thirty (30) calendar days' notice of its intention to retain funds from any partial payment which may become due to the Contractor prior

to Acceptance of the Contract. Retention of funds from any payment made after Acceptance of the Contract may be made without such prior notice to the Contractor.

B. No retention of additional amounts out of partial payments will be made if the amount to be retained does not exceed the amount being withheld from partial payments pursuant to Section 9-1.16F, "Retentions," of the Standard Construction Specifications.

C. If the City had retained funds and it is subsequently determined that the City is not entitled to be indemnified and saved harmless by the Contractor in connection with the matter for which such retention was made, the City shall be liable for interest on the amount retained at the legal rate of interest for the period of such retention.

7-1.06 **INSURANCE COVERAGE.** Section 7-1.06 Insurance in the Standard Specifications shall be deleted in its entirety and replaced with the following:

A. Evidence of Maintenance Required. The Contractor shall, at its expense, procure and at all times maintain in full force and effect at a minimum the insurance required by this section on all of its operations; and the Contractor shall not allow any Subcontractor to commence work until similar insurance required of the Subcontractor has been obtained and filed. An original Certificate of Insurance, and copies of all required endorsements, all in a form approved by the Risk Manager, evidencing all required coverage or policies shall be filed after the award of the bid and prior to approval of the Contract by the City Council. Contractor shall provide ten (10) days prior written notice to the City of any reduction of coverage limits or cancellation of the coverage or policies shall be given to the City of Roseville as Certificate holder.

B. Qualifying Insurers. With the exception of the State Compensation Insurance Fund, all required insurance policies shall be issued by companies acceptable to the

City and licensed to do business in the State of California and who hold a current policy holders alphabetic and financial size category rating of not less than AVII according to the most recent issue of Best's Insurance Reports.

C. Insurance Required.

1. **Commercial General Liability (CGL):** Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations with limits of no less than Two Million Dollars ($2,000,000) per occurrence for bodily injury, personal injury and property damage for projects under One Million Dollars ($1,000,000) and limits of no less than Five Million Dollars ($5,000,000) per occurrence for bodily injury, personal injury and property damage for projects over One Million Dollars ($1,000,000). If a general aggregate limit applies, either the aggregate limit shall apply separately to this project or the general aggregate limit shall be twice the required occurrence limit.

The Commercial General Liability insurance shall include the following, copies of which shall be provided:

a. Inclusion of the City of Roseville, and its officers, agents, employees, and volunteers, as additional insureds (except for workers' compensation) as respects services or operations under the Contract. The additional insured endorsement for the general liability policy shall be at least as broad as the ISO CG 2010 10 01 combined with ISO CGL Endorsement CG 2037 10 01. Any other endorsement must be approved in writing by the City. Endorsements must include coverage for on-going and completed operations, which coverage shall be maintained for four (4) years following completion of the Project. Endorsements shall cover the City of Roseville, its officers, agents, employees, and volunteers.

b. The insurance shall provide coverage for claims by one insured against another insured and the policies shall not contain any cross-suits exclusions, cross-liability exclusions, or insured versus insured exclusions. The policies shall not contain any classification exclusions purporting to deny coverage for any work to be performed by Contractor or any of its Subcontractors.

c. Stipulation that the insurance is primary and noncontributory, as evidenced by a separate endorsement (CG 20 01 04 13 or an equivalent) or section of the policy, and that neither the City nor its insurers will be called upon to contribute to a loss.

d. Such insurance shall specifically cover the contractual liability of the Contractor.

e. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

f. Waiver of subrogation endorsement.

g. The Contractor shall furnish a certificate for the period covered.

2. **Automobile Liability:** Insurance Services Office Form Number CA 0001 covering Code 1 (any auto), or if contractor has no owned autos, Code 8 (hired) and Code 9 (non-owned), with limits of no less than One Million Dollars ($1,000,000) per accident for bodily injury and property damage.

3. **Workers' Compensation:** In accordance with the provisions of the California Labor Code, Contractor is required to be insured against liability for Workers'

Compensation or to undertake self-insurance. Statutory Workers' Compensation and Employers' Liability of at least One Million Dollars ($1,000,000) shall cover all Contractors staff while performing any work incidental to the performance or this Agreement.

4. **Professional Liability:** Professional Liability (Errors and Omission) Insurance appropriate to Contractor's profession, with a limit of liability not less than One Million Dollars ($1,000,000) per occurrence or claim and Two Million Dollars ($2,000,000) aggregate to cover all design and engineering services rendered by Contractor pursuant to the Agreement. Coverage must commence from the first day that Contractor or any of its Subcontractors provided any design or engineering services in connection with the Project.

5. **Builder's Risk/Course of Construction Insurance (If Required by Risk Management):** The Contractor shall be responsible for all loss, damage or destruction whatsoever to the work called for by this Contract until the approval of a Notice of Completion or acceptance of the Work if no Notice of Completion is to be recorded.

The Contractor shall secure "All Risk" type of builder's Risk Insurance of the type covering one hundred percent (100%) of the value of the work performed under this Contract (the value is presumed to be the Contract amount unless otherwise stated in Supplemental Conditions) and all materials, equipment, or other items to be incorporated therein while the same are located at the construction site, a bonded warehouse, or its place of manufacture. At any time, the policy shall cover the value of the work completed. The policy shall cover hazards including the losses due to fire, explosion, hail, rain, lightning, flood (separate insurance as needed), vandalism, malicious mischief, wind, collapse, aircraft, and smoke.

The policies providing such insurance shall name the City as a loss payee as its respective interests may appear, and certified copies of such policies shall be filed with the City. The

maximum deductible allowable under the Builder's All Risk policy shall be five percent (5%) of the Contract amount.

Builder's Risk Insurance is not required for coverage of losses in excess of five percent (5%) of the Contract amount for damages resulting from earthquake in excess of a magnitude of 3.5 on the Richter scale, or tidal waves. Coverage in the amount of five percent (5%) of the Contract amount for such losses is required.

6. **Pollution Coverage:** Contractor shall procure pollution liability coverage or other insurance covering claims for bodily injury or property damage arising out of the abatement, removal, storage, transportation, or other exposure to hazardous materials or pollutants, in limits not less than Two Million Dollars ($2,000,000). Contractor shall add the City and all parties required to be indemnified by Contractor as additional insured on all pollution liability policies.

7. **Higher Coverage Limits:** If Contractor maintains higher coverage limits than the amounts shown above, then the City requires and shall be entitled to coverage for the higher coverage limits maintained by Contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City.

8. **Claims Made Coverage:** Liability insurance coverage may not be written on a "claims made" or modified occurrence basis. The Certificate of Insurance must clearly provide that the coverage is on an "occurrence" basis.

7-1.06A **OTHER INSURANCE PROVISIONS.**

A. The requirements of the Standard Specifications as to types and limits of insurance coverage to be maintained by the Contractor, and any approval of insurance by the City, are not intended to, and shall not in any manner limit or qualify the liabilities and

obligations otherwise assumed by the Contractor pursuant to the Contract, including, but not limited to, the provisions concerning indemnification, nor preclude the City from taking any other action available to it under any other provision of the Contract or law.

B. The City acknowledges that some insurance requirements contained in these Standard Specifications may be fulfilled by self-insurance on the part of the Contractor. However, this shall not in any way limit liabilities assumed by Contractor under the Contract. Any self-insurance must be approved in writing by the City, in its sole discretion and shall not reduce the limits of liability. Any deductibles or self-insured retentions ("SIR") must be declared on the certificate of insurance and approved by City in writing. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

C. The Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Contract, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, the Contractor shall require its subcontractors to agree to be bound to the Contractor and the City in the same manner and to the same extent as the Contractor is bound to the City under this Contract. Additionally, the Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of the City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request. Alternatively, the Contractor may insure subcontractor(s) under its own policy.

D. The City, its officers, agents, employees, and volunteers are to be covered as insureds with respect to liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor; and with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts or equipment furnished in connection with such work or operations. Coverage shall not extend to any indemnity coverage for the active negligence of the additional insured in any case where an agreement to indemnify the additional insured would be invalid under California Insurance Code Section 11580.04.

E. The limits of insurance required in this Contract may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the City (if agreed to in a written contract) before the City's own insurance shall be called upon to protect it as a named insured.

F. The insurance procured by Contractor shall be subject to the approval of the City, but any acceptance of insurance certificates by the City shall in no way limit or relieve Contractor of its duties and responsibilities under the Agreement.

G. Contractor shall be responsible for all premiums, deductibles, and self-insured retention applicable to the insurance it is required to procure under the Contract. All deductibles or self-insured retentions over five hundred thousand dollars ($500,000) must be approved by the City, in writing. Contractor shall be responsible for all deductibles, self-insured retention payments, and/or increased premiums incurred if the City's policies of insurance are forced to cover damages or respond to claims for which Contractor or its Subcontractors were obligated to provide insurance under the Contract.

H. Failure of the City to enforce in a timely manner any of the requirements of these insurance provisions shall not act as a waiver to enforcement of any of these provisions at a later date.

I. Contractor's indemnity obligations shall not be limited by these insurance provisions and shall survive the expiration of the Contract and the insurance provisions of the Contract shall likewise not be limited by the indemnity provisions of the Contract.

J. THE CITY RESERVES THE RIGHT TO WITHHOLD ANY PROGRESS PAYMENTS TO THE CONTRACTOR IN THE EVENT OF NONCOMPLIANCE WITH ANY INSURANCE REQUIREMENTS.

SECTION 8. PROSECUTION AND PROGRESS

8-1.04 **START OF JOB SITE ACTIVITIES.** The Contractor shall begin work by the date specified in the "Notice to Proceed" letter, and the Contractor shall thereafter diligently prosecute the work to completion.

The Contractor shall notify the Director, in writing, of his or her intent to commence work at least seventy-two (72) hours before work is begun. The notice shall specify the date on which the Contractor intends to begin work. If a project has more than one (1) location of work, a separate notice shall be given for each location.

Should the Contractor begin work in advance of issuance of a "Notice to Proceed," any work performed in advance of such issuance shall be considered to have been done at Contractor's own risk and as a volunteer.

SECTION 9. PAYMENT

9-1.11C **PAYMENT INCLUSIONS.** The following is added to Section 9-1.11C Payment Inclusions:

"No additional compensation will be made to the Contractor for claims of increased overhead costs occurring within the originally specified construction Contract period plus any time extensions granted by Change Order. No compensation for extended performance will be granted unless the delay exceeds more than half of the float time available at the time of the delay."

9-1.16E(4) **STOP NOTICE WITHHOLDS.** The City may, at its option and at any time, retain out of amounts due the Contractor, sums sufficient to cover claims (including costs and attorneys' fees), filed pursuant to California Civil Code Section 9350 et seq.

9-1.16F **RETENTIONS.** The Department shall retain five percent (5%) of the Contract price as part security for the fulfillment of the Contract by the Contractor.

9-1.16G **PAYMENT OF WITHHELD FUNDS.** Section 9-1.16G, "Payment of Withheld Funds" is added as follows:

"Except as otherwise prohibited by law, the Contractor may elect to receive all payments due under the Contract pursuant to without any retention. If the Contractor so elects, a deposit with the City of securities with a value equivalent to the retention that would otherwise be withheld by the City shall be made. Said security shall be as provided in California Public Contract Code Section 22300, and shall be approved by the City both as to sufficiency and form. In the alternative, the Contractor may elect to deposit such securities in an escrow account and enter into a standard form Escrow

Agreement for Security Deposits in Lieu of Retention. Blank Agreements are available from the Public Works Director and the City Attorney's Office."

9-1.17 **PAYMENT AFTER CONTRACT ACCEPTANCE.** "Final Payment" shall be made in accordance with this section. The Contractor shall, after the completion of the Contract, submit a final estimate of the amount of work done thereunder and the value of such work. Upon approval of the estimate by the Director, the City of Roseville shall pay the entire sum so found to be due after deducting therefrom all previous payments and all amounts to be kept and all amounts to be retained under the provisions of the Contract. All prior partial estimates and payments shall be subject to correction in the final estimate and payment. The final payment shall not be due and payable until the expiration of thirty five (35) calendar days from the date of Acceptance of the work by the City Council, and thirty-five (35) calendar days after filing of the Notice of Completion with the County of Placer.

No certificate given or payments made under the Contract, except the final certificate or final payment, shall be conclusive evidence of the performance of the Contract, either wholly or in part, and no payment (including the final payment) or certificate shall be construed to be an Acceptance of any defective work or improper materials. Final payment shall not release the Contractor from one (1) year guarantee of the work as provided in Section 7-1.17, "Acceptance of Contract" and Section 2-1.12 "Guarantee and Warranty" of these Specifications.

SECTION 14. ENVIRONMENTAL STEWARDSHITP

14-8.02 **NOISE CONTROL.** The provisions of Section 14-8.02 of the Standard Specifications are amended by adding the following:

"The Contractor shall additionally conform to the provisions of Roseville Municipal Code Chapter 9.24 where such provisions are more restrictive than these specifications."

14-9.01 **AIR QUALITY GENERAL.** The provisions of Section 14-9.01, "Air Quality General" of the Standard Specifications are amended by adding the following:

"Material to be disposed of shall not be burned unless the Contractor has obtained a permit to burn combustible material resulting from clearing and grubbing operations from the Placer County Air Pollution Control District and City of Roseville Fire Marshall. A copy of the permits shall be filed with the Director

before beginning any burning. All such burning shall be conducted in strict conformance with the provision stipulated in said permits and at such times and in such manner as to prevent fire from spreading to areas adjoining the right-of-way."

14-11.02A **ASBESTOS REMOVAL AND DISPOSAL.** Section 14-11.02A, "Asbestos Removal and Disposal" is added as follows:

"The Contractor shall comply with all rules, regulations, statutes and ordinances regarding asbestos removal and disposal, including but not limited to, 42 U.S.C. Sections 7401, 7412 and 7601 and 40 C.F.R. Part 61, Subpart M.

If the Contractor discovers that a building to be demolished or renovated contains asbestos containing material, the Contractor shall immediately cease work and notify the City."

END OF STANDARD SPECIFICATIONS

TEXT OF AB 626

Assembly Bill No. 626

CHAPTER 810

An act to add and repeal Section 9204 of the Public Contract Code, relating to public contracts.

[Approved by Governor September 29, 2016. Filed with Secretary of State September 29, 2016.]

LEGISLATIVE COUNSEL'S DIGEST

AB 626, Chiu. Public contracts: claim resolution.

Existing law prescribes various requirements regarding the formation, content, and enforcement of state and local public contracts. Existing law applicable to state public contracts generally requires that the resolution of claims related to those contracts be subject to arbitration. Existing law applicable to local agency contracts prescribes a process for the resolution of claims related to those contracts of $375,000 or less.

This bill would establish, for contracts entered into on or after January 1, 2017, a claim resolution process applicable to any claim by a contractor in connection with a public works project. The bill would define a claim as a separate demand by the contractor for one or more of the following: a time extension for relief from damages or penalties for delay, payment of money or damages arising from work done pursuant to the contract for a public work, or payment of an amount disputed by the public entity, as specified.

This bill would require a public entity, defined to exclude certain state entities, upon receipt of a claim sent by registered or certified mail, to review it and, within 45 days, provide a written statement identifying the disputed and undisputed portions of the claim. The bill would authorize the 45-day period to be extended by mutual agreement. The bill would require any payment due on an undisputed portion of the claim to be processed within 60 days, as specified. The bill would require that the claim be deemed rejected in its entirety if the public entity fails to issue the written statement.

This bill would authorize, if the claimant disputes the public entity's written response or if the public entity fails to respond to a claim within the time prescribed, the claimant to demand to meet and confer for settlement of the issues in dispute. The bill would require any disputed portion of the claim that remains in dispute after the meet and confer conference to be subject to nonbinding mediation, as specified. The bill would provide that unpaid claim amounts accrue interest at 7% per annum. The bill would prescribe a procedure by which a subcontractor or lower tier contractor may make a claim through the contractor.

This bill would require the text of these provisions, or a summary, to be set forth in the plans or specifications for any public work which may give rise to a claim. The bill would specify that a waiver of these rights is void and contrary to public policy, except as specified. The bill would also specify that it does not impose liability on a public entity that makes loans or grants available through a competitive application process, for the failure of an awardee to meet its contractual obligations.

By increasing the duties of local agencies and officials, this bill would impose a state-mandated local program.

This bill would, on January 1, 2020, repeal the provision establishing the claim resolution process.

This bill would specify that these provisions constitute a matter of statewide concern.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

The people of the State of California do enact as follows:

SECTION 1. Section 9204 is added to the Public Contract Code, to read:

9204. (a) The Legislature finds and declares that it is in the best interests of the state and its citizens to ensure that all construction business performed on a public works project in the state that is complete and not in dispute is paid in full and in a timely manner.

(b) Notwithstanding any other law, including, but not limited to, Article 7.1 (commencing with Section 10240) of Chapter 1 of Part 2, Chapter 10 (commencing with Section 19100) of Part 2, and Article 1.5 (commencing with Section 20104) of Chapter 1 of Part 3, this section shall apply to any claim by a contractor in connection with a public works project.

(c) For purposes of this section:

(1) ”Claim” means a separate demand by a contractor sent by registered mail or certified mail with return receipt requested, for one or more of the following:

(A) A time extension, including, without limitation, for relief from damages or penalties for delay assessed by a public entity under a contract for a public works project.

(B) Payment by the public entity of money or damages arising from work done by, or on behalf of, the contractor pursuant to the contract for a public works project and payment for which is not otherwise expressly provided or to which the claimant is not otherwise entitled.

(C) Payment of an amount that is disputed by the public entity.

(2) ”Contractor” means any type of contractor within the meaning of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code who has entered into a direct contract with a public entity for a public works project.

(3) (A) ”Public entity” means, without limitation, except as provided in subparagraph (B), a state agency, department, office, division, bureau, board, or commission, the California State University, the University of California, a city, including a charter city, county, including a charter county, city and county, including a charter city and county, district, special district, public authority, political subdivision, public corporation, or nonprofit transit corporation wholly owned by a public agency and formed to carry out the purposes of the public agency.

(B) ”Public entity” shall not include the following:

(i) The Department of Water Resources as to any project under the jurisdiction of that department.

(ii) The Department of Transportation as to any project under the jurisdiction of that department.

(iii) The Department of Parks and Recreation as to any project under the jurisdiction of that department.

(iv) The Department of Corrections and Rehabilitation with respect to any project under its jurisdiction pursuant to Chapter 11 (commencing with Section 7000) of Title 7 of Part 3 of the Penal Code.

(v) The Military Department as to any project under the jurisdiction of that department.

(vi) The Department of General Services as to all other projects.

(vii) The High-Speed Rail Authority.

(4) ”Public works project” means the erection, construction, alteration, repair, or improvement of any public structure, building, road, or other public improvement of any kind.

(5) ”Subcontractor” means any type of contractor within the meaning of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code who either is in direct contract with a contractor or is a lower tier subcontractor.

(d) (1) (A) Upon receipt of a claim pursuant to this section, the public entity to which the claim applies shall conduct a reasonable review of the claim and, within a period not to exceed 45 days, shall provide the claimant a written statement identifying what portion of the claim is disputed and what portion is undisputed. Upon receipt of a claim, a public entity and a contractor may, by mutual agreement, extend the time period provided in this subdivision.

(B) The claimant shall furnish reasonable documentation to support the claim.

(C) If the public entity needs approval from its governing body to provide the claimant a written statement identifying the disputed portion and the undisputed portion of the claim, and the governing body does not meet within the 45 days or within the mutually agreed to extension of time following receipt of a claim sent by registered mail or certified mail, return receipt requested, the public entity shall have up to three days following the next duly publicly noticed meeting of the governing body after the 45-day period, or extension, expires to provide the claimant a written statement identifying the disputed portion and the undisputed portion.

(D) Any payment due on an undisputed portion of the claim shall be processed and made within 60 days after the public entity issues its written statement. If the public entity fails to issue a written statement, paragraph (3) shall apply.

(2) (A) If the claimant disputes the public entity’s written response, or if the public entity fails to respond to a claim issued pursuant to this section within the time prescribed, the claimant may demand in writing an informal conference to meet and confer for settlement of the issues in dispute. Upon receipt of a demand in writing sent by registered mail or certified mail, return receipt requested, the public entity shall schedule a meet and confer conference within 30 days for settlement of the dispute.

(B) Within 10 business days following the conclusion of the meet and confer conference, if the claim or any portion of the claim remains in dispute, the public entity shall provide the claimant a written statement identifying the portion of the claim that remains in dispute and the portion that is undisputed. Any payment due on an undisputed portion of the claim shall be processed and made within 60 days after the public entity issues its written statement. Any disputed portion of the claim, as identified by the contractor in writing, shall be submitted to nonbinding mediation, with the public entity and the claimant sharing the associated costs equally. The public entity and claimant shall mutually agree to a mediator within 10 business days after the disputed portion of the claim has been identified in writing. If the parties cannot agree upon a mediator, each party shall select a mediator and those mediators shall select a qualified neutral third party to mediate with regard to the disputed portion of the claim. Each

party shall bear the fees and costs charged by its respective mediator in connection with the selection of the neutral mediator. If mediation is unsuccessful, the parts of the claim remaining in dispute shall be subject to applicable procedures outside this section.

(C) For purposes of this section, mediation includes any nonbinding process, including, but not limited to, neutral evaluation or a dispute review board, in which an independent third party or board assists the parties in dispute resolution through negotiation or by issuance of an evaluation. Any mediation utilized shall conform to the timeframes in this section.

(D) Unless otherwise agreed to by the public entity and the contractor in writing, the mediation conducted pursuant to this section shall excuse any further obligation under Section 20104.4 to mediate after litigation has been commenced.

(E) This section does not preclude a public entity from requiring arbitration of disputes under private arbitration or the Public Works Contract Arbitration Program, if mediation under this section does not resolve the parties' dispute.

(3) Failure by the public entity to respond to a claim from a contractor within the time periods described in this subdivision or to otherwise meet the time requirements of this section shall result in the claim being deemed rejected in its entirety. A claim that is denied by reason of the public entity's failure to have responded to a claim, or its failure to otherwise meet the time requirements of this section, shall not constitute an adverse finding with regard to the merits of the claim or the responsibility or qualifications of the claimant.

(4) Amounts not paid in a timely manner as required by this section shall bear interest at 7 percent per annum.

(5) If a subcontractor or a lower tier subcontractor lacks legal standing to assert a claim against a public entity because privity of contract does not exist, the contractor may present to the public entity a claim on behalf of a subcontractor or lower tier subcontractor. A subcontractor may request in writing, either on his or her own behalf or on behalf of a lower tier subcontractor, that the contractor present a claim for work which was performed by the subcontractor or by a lower tier subcontractor on behalf of the subcontractor. The subcontractor requesting that the claim be presented to the public entity shall furnish reasonable documentation to support the claim. Within 45 days of receipt of this written request, the contractor shall notify the subcontractor in writing as to whether the contractor presented the claim to the public entity and, if the original contractor did not present the claim, provide the subcontractor with a statement of the reasons for not having done so.

(e) The text of this section or a summary of it shall be set forth in the plans or specifications for any public works project that may give rise to a claim under this section.

(f) A waiver of the rights granted by this section is void and contrary to public policy, provided, however, that (1) upon receipt of a claim, the parties may mutually agree to waive, in writing, mediation and proceed directly to the commencement of a civil action or binding arbitration, as applicable; and (2) a public entity may prescribe reasonable change order, claim, and dispute resolution procedures and requirements in addition to the provisions of this section, so long as the contractual provisions do not conflict with or otherwise impair the timeframes and procedures set forth in this section.

(g) This section applies to contracts entered into on or after January 1, 2017.

(h) Nothing in this section shall impose liability upon a public entity that makes loans or grants available through a competitive application process, for the failure of an awardee to meet its contractual obligations.

(i) This section shall remain in effect only until January 1, 2020, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2020, deletes or extends that date.

SECTION 2.
The Legislature finds and declares that it is of statewide concern to require a charter city, charter county, or charter city and county to follow a prescribed claims resolution process to ensure there are uniform and equitable procurement practices.

SECTION 3.
If the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code.

SPECIAL PROVISIONS
FOR THE
CITY OF ROSEVILLE

PHILLIP RD – WESTPARK DR BIKEWAY PROJECT

SCOPE OF SPECIAL PROVISIONS

1. The work described in these Special Provisions shall be performed in conformance with the latest editions of the City of Roseville Standard Construction Specifications, City of Roseville Design and Construction Standards, 2015 State of California Standard Specifications, Amendments to the 2015 Standard Specifications, 2015 Standard Special Provisions, and 2015 Standard Plans, except insofar as these Special Provisions may modify them.

2. With the exception of section 2, "Bidding," numbering in these Special Provisions conforms to that in the State Standard Specifications. The existence of a section in these Special Provisions means that the corresponding section in the Standard Construction Specifications, State Standard Specifications, and/or State Revised Standard Specifications is modified in some respect.

3. The construction materials, payments, etc., for items of work shown in the proposal and on the plans, but not specifically mentioned in these Special Provisions are referred to the Standard Construction Specifications, State Standard Specifications, and/or State Revised Standard Specifications for conformance.

DISCREPANCIES AND OMISSIONS

Replace section 5-1.02 with:

A component in one Contract part applies as if appearing in each. The parts are complementary and describe and provide for a complete work.

Any discrepancies or omissions found in the Contract Documents shall be reported to the Engineer immediately. The Engineer will clarify discrepancies or omissions, in writing, within reasonable time.

In resolving inconsistencies among two or more sections of the Contract Documents, precedence shall be given in the following order:

1. Special Provisions
2. City of Roseville Standard Construction Specifications
3. City of Roseville Design and Construction Standards
4. Amendments to the 2015 State Standard Specifications
5. 2015 State Standard Specifications
6. 2015 State Standard Plans
7. Drawings

Addenda shall take precedence over all sections referenced therein. Figure dimensions on Drawings shall take precedence over general Drawings. Detailed Drawings shall take precedence over General

Drawings. Specific specifications take precedence over a general specification. Specification in a section takes precedence over a specification referenced by that section.

If a discrepancy is found or confusion arises, submit an RFI.

DIVISION I GENERAL PROVISIONS

1 GENERAL

Add to section 1-1.06:

1-1.06 ABBREVIATIONS

BMP	Best Management Practice
CAMUTCD	California Manual on Uniform Traffic Control Devices

Replace the definition for holiday in section 1-1.07B with:

1-1.07B GLOSSARY

Holiday: Holiday shown in the following table:

Holidays

Holiday	Date observed
New Year's Day	January 1st
Martin Luther King Day	Third Monday in January
President's Day	Third Monday in February
Memorial Day	Last Monday in May
Independence Day	July 4th
Labor Day	First Monday in September
Veteran's Day	November 11th
Thanksgiving Day	Fourth Thursday in November
Day after Thanksgiving	Fourth Friday in November
Christmas Day	December 25th

When a designated holiday falls on a Saturday or Sunday, the preceding Friday or following Monday (respectfully) shall be a designated holiday.

2 BIDDING

Add section 2-1.00:

2-1.00 SCOPE

The bidder's attention is directed to the provisions in section 2, "Proposal Requirements and Conditions", of the Standard Construction Specifications for the requirements and conditions which he/she must observe in the preparation of the proposal form and the submission of the bid.

Add section 2-1.08:

2-1.08 OBTAINING PLANS AND SPECIFICATIONS

A Project Manual, including all Contract Documents and the Proposal forms for bidding this project, may be purchased or downloaded on-line from Public Purchase service at http://www.publicpurchase.com/. The service requires that the Contractor establish a username and password in order to download and/or order plans and specifications.

Add section 2-1.11:

2-1.11 SUBMITTAL OF PROPOSALS

In addition to the requirements of the Notice to Contractor's and the Standard Construction Specifications, proposals must be submitted to the City Clerk, under sealed cover and plainly marked on the outside, PHILLIP RD – WESTPARK DR BIKEWAY PROJECT, no later than the date and time of public submittal of proposals as specified in the Notice to Contractor's. Any addenda to these Special Provisions or other contract documents shall be acknowledged where indicated.

Add section 2-1.13:

2-1.13 QUESTIONS

Question shall be submitted in writing to http://www.publicpurchase.com/ no later than 7 working days prior to the bid opening. Questions submitted after the above listed deadline will not be addressed. The City will respond in writing to the questions no later than 3 working days prior to the bid opening.

3 CONTRACT AWARD AND EXECUTION

Add to section 3-1.02A:

3-1.02A GENERAL

For a Base Bid/Alternate Bid project, the City of Roseville shall determine the apparent lowest responsive/responsible bidder, at the time of bid opening, based on the lowest total of the Base Bid plus the Alternative Bid items. The City of Roseville, if it chooses to award, shall award the lowest responsible/responsive bidder based on the lowest total of the Base Bid plus any Alternative Bid item(s) at the City's discretion. Depending on budget constraints, the actual project may, at the City's discretion, include items from only the Base Bid or from the Base Bid plus one or more Alternate Bid items. The Contractor must submit for all Base Bid and all Alternate Bid items. No response or response of zero on any bid item shall be deemed a non-responsive bid.

4 SCOPE OF WORK

Add to section 4-1.01:

4-1.01 GENERAL

The project consists of curb ramp, bike ramps, bicycle refuge zone, driveway, miscellaneous concrete, vegetation removal, pavement marking removal, temporary striping, permanent striping.

Add to the list in the 1st paragraph in section 4-1.06B:

4-1.06B CONTRACTOR'S NOTIFICATION

3. During the progress of the work, if material is discovered that the Contractor believes may be material that is hazardous waste, as defined in Section 25117 of the Health and Safety Code, that is required to be removed and disposed at a Class I, Class II, or Class III disposal site in accordance with provisions of existing law, the party discovering such conditions shall promptly notify the other party in writing before conditions are disturbed and before the affected work is performed.

Add to section 4-1.13:

4-1.13 CLEANUP

The Contractor shall remove all temporary pavement delineation.

Prior to submitting the final payment request, the Contractor shall remove all reference markings (i.e. USA markings, striping reference points, utility reference points) placed during the course of work by pressure washing.

5 CONTROL OF WORK

Add to section 5-1.01:

5-1.01 GENERAL

All work is subject to inspection and approval by the Engineer. The Contractor shall notify the Engineer, along with all affected utility companies, 2 working days in advance of the start of work to coordinate and schedule inspection staff.

The City will provide 1 inspector and 1 resident engineer for an 8 hour day and 40 hour per week basis only, excluding designated City, State, or Federal holidays. The Contractor shall reimburse the City in the amount of $226.00 per hour for inspection and $250.00 per hour for Resident Engineer costs for time in excess of 8 hours per day, 40 hours per week, or inspection performed during designated City holidays. Designated City holidays are listed in section 1-1.07B, "Glossary."

The Contractor shall provide a competent person during normal working hours to assist the Engineer, when required, in checking the Contractor's layout and for measuring quantities for payment purposes.

The Contractor shall cooperate with the Engineer so that checking and measuring may be accomplished with the least interference to the Contractor's operations.

Add to Section 5-1.20A:

5-1.20A GENERAL

The Contractor shall cooperate with other forces constructing, relocating, and/or modifying facilities within the project limits. The Contractor shall coordinate his work with that of others, including utility companies, and, other local agencies to prevent delays.

It is understood and agreed that the Contractor has considered in his bid all of the permanent and temporary utility appurtenances in their present and/or relocated positions as shown on the plans or as described in the specifications, and that no additional compensation will be allowed for any delays, inconvenience, or damages sustained due to any interference from said appurtenances or the operation of moving them. In addition, the Contractor shall not be allowed any additional compensation for delays

of inconvenience sustained by the Contractor due to the City not having City-supplied equipment ready for pick-up. In such a case, the City may increase the number of working days for the contract.

Five days prior to beginning work, the Contractor shall provide to the Engineer, in writing, the name and telephone number of a representative who is directly involved with this project, and under the supervision of the Contractor. The Contractor's representative may be contacted by City staff during non-working hours including nights, weekends and holidays in the case of any public inconvenience and/or emergency relating to the Contractor's operations. The Contractor representative shall not be replaced by another company employee for the duration of the project without a written explanation from the Contractor which has been approved by the Engineer. Should a new representative be used, he/she shall be knowledgeable of the project, the events, and/or revisions that may be occurring.

City of Roseville Maintenance forces may undertake crack filling or pavement repair work concurrently with the Contractor's work. The Contractor shall cooperate with these forces and schedule so that the work can progress to completion in a minimum time frame.

Add to section 5-1.20B(1):

5-1.20B(1) GENERAL

The Contractor shall obtain a business license from the City of Roseville prior to performing the work.

The Contractor may use water from City of Roseville fire hydrants provided that the required permits are obtained and the Contractor has paid the associated fees. The contractor shall supply the Engineer with a copy of the required permits.

More information regarding hydrant permits can be found by following the link below:

https://www.roseville.ca.gov/environmental_utilities/utility_infrastructure_and_projects/hydrant_permit.php

Add to section 5-1.20B(4):

5-1.20B(4) CONTRACTOR-PROPERTY OWNER AGREEMENT

The Contractor is responsible for making arrangements to stock-pile and store equipment outside the public right-of-way as work is performed. Personal vehicles of the Contractor's employees shall not be parked on the traveled way, shoulders, or private property, including any section closed to public traffic.

The Contractor shall secure easements at their own expense for any areas required for plant sites, storage of equipment or materials, or for any other purposes. Before occupying any easement area, the Contractor shall provide the Engineer a written statement from each property owner verifying easement acquisition.

Staging areas located on private property shall be restricted to properties where the property owner has given written authorization to the Contractor for use of said property. The Contractor shall submit, at the preconstruction conference, documentation of the written authorization from the property owner(s). Prior to final acceptance of the project, the Contractor shall provide the Engineer a written statement of release from each property owner that granted an easement for the Contractor's operations.

Replace section 5-1.26 with:

5-1.26 CONSTRUCTION SURVEYS

The Contractor shall be responsible to provide all surveys to control the lines, elevations and dimensions of the work in conformance with the plans. Any deviation from the lines, elevations and dimensions shown on the plans must receive prior approval from the Engineer. Where new construction connects to

existing facilities, the Contractor shall check and establish the exact location prior to construction of the facility.

The Contractor shall be responsible for the accuracy of his/her own layout work and shall be responsible and liable for the preservation of all established lines, grades and layout points. Stakes damaged or destroyed by the public, or operations of the Contractor, will be replaced at the Contractor's expense.

Add to section 5-1.36 of the Revised Standard Specifications:

5-1.36 PROPERTY AND FACILITY PRESERVATION

The Contractor shall notify Underground Service Alert (USA) at (800) 642-2444 at least 72 hours in advance of beginning work on the project. The Contractor is cautioned that there are underground and overhead utility facilities within the work area including telephone, electrical, cable television, gas, water and sanitary sewer transmission facilities, fiberoptic, traffic, and storm drainage collection facilities.

The scope of this project is not anticipated to interfere with existing underground or overhead utilities other than to raise manhole and valve covers to grade as necessary. However, the Contractor shall take notice of existing utility covers and trench lines. The Contractor shall use extreme caution when excavating, raising manholes, and paving in the vicinity of such facilities.

The Contractor shall visit the site of the proposed work and determine the quantity and location of the manholes, valve covers and utility appurtenances to be encountered in the proposed work area and adjust his/her bid accordingly. Damage to such utilities resulting from the Contractor's operations to complete the project shall be repaired at the Contractor's expense.

Where possible conflicts exist, the Contractor shall verify the grade and location of existing underground utilities by careful hand digging prior to beginning work. In the event the Contractor discovers existing utilities within the limits of the excavation, the Contractor shall immediately notify the Engineer and the affected utility owner by the most reasonable expeditious method and later confirm in writing. All required relocation of existing facilities that interfere with the work shall be made by the owning agencies.

All existing utilities are to remain in service during construction. The Contractor shall be required to work around existing utility poles that will remain in the curb or sidewalk. The Contractor shall also be required to work around existing utility poles that are not within the actual pavement sections. Minor changes in alignment of slopes shall be made to avoid direct conflict that will interfere with the intended purpose of the facility.

Add to Section 5-1.36E of the Revised Standard Specifications:

5-1.36E SURVEY MONUMENTS

Within the project limits, there are various types of survey monuments including monuments within wells/boxes and unprotected monuments within the existing asphalt.

The contractor shall protect all monuments in place. The City may conduct a post construction survey to determine if a monument has been disturbed, obliterated, or otherwise obscured during construction. The Contractor shall be responsible for all costs to re-establish the survey monuments that disturbed, obliterated, or otherwise obscured during construction to the latest City Standards or as directed by the Engineer.

Add section 5-1.36F:

5-1.36F IRRIGATION FACILITIES

It shall be the responsibility of the Contractor to protect existing roadway facilities (including but not limited to culverts, manholes, monuments, railings, signs, traffic signal detectors, and other roadway appurtenances). Facilities damaged due to the Contractor's operations shall be repaired or replaced, as directed by the Engineer, at the Contractor's expense.

In the event that a sign is knocked down or street maintenance type work is required in the City of Roseville, the Contractor shall immediately call Street Maintenance at (916) 774-5790 during business hours or (916) 847-1611 during non-business hours so a repair crew can be dispatched.

6 CONTROL OF MATERIALS

Add to section 6-2.02A:

6-2.02A GENERAL

Material testing for this project will be provided by the Contractor as set forth in section 6 of the State Standard Specifications and the most current City of Roseville's Quality Assurance Program. The Contractor shall perform all testing to verify compliance with the Specifications of any and all materials furnished by the Contractor. The Contractor shall submit and receive the Engineer's approval of all compliance test results prior to incorporating materials into the project. The Contractor may elect to place material without the approved certificates of compliance and mix designs at Contractor's own risk. The Contractor shall notify the Engineer in writing to get the approval of placement of material without approved certificates of compliance and mix design, and $10,000 will be withheld from the Contractor's progress payment for each certificate of compliance and mix design until the certificate of compliances and mix designs are submitted and approved.

Samples, certificates of compliance, lists of materials and material sources, access to facilities, requests for testing and all other data relating to material testing shall conform to section 6 of the State Standard Specifications, "Control of Materials." Contractor shall provide the Engineer with 5 working days' notice of the need for material testing.

7 LEGAL RELATIONS AND RESPONSIBILITY TO THE PUBLIC

Add to section 7-1.02K(5):

All work shall be constructed during the following working hours:

Add to section 7-1.04:

7-1.04 PUBLIC SAFETY

The Contractor shall cooperate with and notify the local police and fire departments, refuse, ambulance services, transit, hospitals, and Public Works Street Division of proposed construction operations 5 days before work is to begin.

The Contractor shall be responsible to notify and coordinate their schedule with schools that may be in or adjacent to the projects area.

8 PROSECUTION AND PROGRESS

Add to section 8-1.01:

8-1.01 GENERAL

The Contractor shall prepare a Traffic Control Plan that conforms to section 12, “Temporary Traffic Control.”

The work shall be performed in conformance with the phases of construction shown on the Contractor's Traffic Control Plan. Traffic Control that does not conflict with work in subsequent traffic control phases may proceed concurrently with work in preceding phases on single roadway segment.

For this project:

1. Concrete work
2. Remove pavement markings
3. Temporary Striping
4. Place Permanent Striping

Replace section 8-1.02 with:

8-1.02 SCHEDULE

The Contractor shall submit a progress schedule to the Engineer at the preconstruction conference. The progress schedule shall state the street name, the anticipated start and completion dates and the type of construction operation anticipated for each street, and an alternate date in the event the Contractor does not meet their schedule. Work that exceeds the stated completion date shall be understood as being out of conformance with the progress schedule and these Special Provisions. Strict conformance to the progress schedule shall be maintained and should the Contractor not meet their schedule liquidated damages shall apply as outlined in these Special Provisions, the only acceptable delay is due to weather. The Contractor shall submit a revised progress schedule within 5 working days of the Engineers written request.

Scheduling of change orders or extra work orders is the responsibility of the Contractor. The Contractor shall revise the schedule to incorporate all activities involved in completing the change orders or extra work order and submit it to the Engineer for review and approval. With the concurrence of the Engineer, change or extra work orders of a magnitude less than $500 do not need to be scheduled, unless the order affects the project schedule or other outside parties.

If the Engineer finds the Contractor is entitled to an extension of any completion date under the provisions of the contract the Engineer's determination of the total number of days extension will be based upon the current analysis of the schedule and upon data relevant to the extension.

Replace section 8-1.03 with:

8-1.03 PRECONSTRUCTION CONFERENCE

Prior to the start of construction, a preconstruction conference will be called by the Engineer for the purpose of discussing with the Contractor the scope of work, contract drawings, specifications, existing conditions, materials to be tested, equipment to be used, and all essential matters pertaining to the prosecution and the satisfactory completion of the project as required. The Contractor's representation at

this conference shall include all major superintendents for the work and may include major Subcontractors and material suppliers.

The Contractor shall be responsible to coordinate utility relocations within the project area. Coordination of utilities within the project limits, including relocations and maintenance of existing facilities and additions thereto, shall be confirmed in writing by utility representatives and the Contractor at this conference or within 5 working days thereafter.

Add to section 8-1.04:

8-1.04 START OF JOBSITE ACTIVITIES

The Contractor shall begin work within 15 calendar days after the issuance of the Notice to Proceed.

This work shall be diligently prosecuted to completion before the expiration of 20 Working Days beginning no later than the fifteenth calendar day after the date shown on the Notice to Proceed.

Notify the Engineer in writing that all work has been completed. The Engineer will create a punch list of items to be addressed prior to acceptance. Complete all punch list items within the contract working

Add to section 8-1.10A:

8-1.10A GENERAL

The City specifies liquidated damages (Pub Cont Code § 10226). Liquidated damages, if any, accrue starting on the 1st day after the expiration of the working days through the day of Contract acceptance except as specified in sections 8-1.10B and 8-1.10C.

The Engineer will provide written notice of non-conformance to the Contractor within 24 hours of the violation. All Contractor's equipment, machinery, traffic control, and personnel shall be off of the pavement and all lanes shall be open to traffic to be considered as full compliance.

Any progress payment made after the completion date shall not be construed as a waiver of liquidated damages.

Add to section 8-1.10B:

8-1.10B FAILURE TO COMPLETE WORK PARTS WITHIN SPECIFIED TIMES

The roadway shall be fully opened to traffic by the end of the roadways last working hour. The Contractor shall pay to the City liquidated damages of $1,000 per hour for each hour, or portion of an hour, after the last working hour is exceeded and that a traveled lane remains closed due to the Contractor’s operations.

After the working hours of the roadways are exceeded by 1 hour of the last working hour, the Contractor shall pay to the City liquidated damages of $2,000 per hour for each hour, or, portion of an hour, that a traveled lane remains closed due to the Contractor’s operations.

For other failures to complete work within a specified time, unless otherwise specified herein, the Contractor shall pay to the City liquated damages of $2,000 per hour for each hour, or, portion of an hour, that the work remains incomplete.

The Engineer will provide written notice of non-conformance to the Contractor within 24 hours of the violation. All Contractor's equipment, machinery, traffic control, and personnel shall be off of the pavement and all lanes shall be open to traffic to be considered as full compliance.

Any progress payment made after the completion date shall not be construed as a waiver of liquidated damages.

Add to section 8-1.10C:

8-1.10C FAILURE TO COMPLETE WORK PARTS BY SPECIFIED DATES

For other failures to complete work by a specified time, unless otherwise specified herein, the Contractor shall pay to the City liquated damages of $2,000 per hour for each hour, or, portion of an hour, that the work remains incomplete.

The Engineer will provide written notice of non-conformance to the Contractor within 24 hours of the violation. All Contractor's equipment, machinery, traffic control, and personnel shall be off of the pavement and all lanes shall be open to traffic to be considered as full compliance.

Any progress payment made after the completion date shall not be construed as a waiver of liquidated damages.

Add to section 8-1.13:

8-1.13 CONTRACTOR'S CONTROL TERMINATION

The Contractor is responsible for all material and/or equipment necessary to perform the project as specified. Should the City have to supply the Contractor with time, material, or equipment to complete work beyond that which is specified herein, the Contractor shall be billed accordingly.

9 PAYMENT

Add to section 9-1.02A:

9-1.02A GENERAL

Payment for all work bid at a price per unit of measurement will be based upon actual quantities of work as measured upon completion. The City does not expressly or by implication agree that the actual amount of work or materials of any class will correspond to the estimated quantities given in the proposal. The Contractor shall make no claim for anticipated profits, or loss of profit, for damages, or for any extra payment whatever because of any difference between the amount of work actually done or materials furnished and the estimated amount.

The percentage paid for "Traffic Control System" and "Placement and Maintenance of BMPs" bid items on each progress payment shall be based on percentage of actual work completed excluding those items not to exceed 100%.

Add to section 9-1.16A:

9-1.16A GENERAL

The Contractor shall submit all requests for progress payments using the forms included in Appendix A:

Form CC1: Progress Payment Request - This form is to be completed and signed by the Contractor and attached as a cover sheet to its request for payment. This will be mandatory on all contract requests.

Form CC2: Progress Payment Request – Detail - This form may be used by the Contractor to provide the detail required to verify payment quantities. (City will accept the Contractor's standard form if it provides the required information).

Form CC3: Quantity Change Verification Form - This form is required before any payment can be made based on actual quantities exceeding estimated quantities. At the conclusion of the contract, the City will issue a "Balancing Change Order" incorporating all quantity increases and decreases in the contract items of work.

Replace Reserved in section 9-1.17A with:

9-1.17A GENERAL

The Contractor shall submit:

Form CC4: Final Release Form - This form must accompany all requests for final payment (see Appendix A).

DIVISION II GENERAL CONSTRUCTION

12 TEMPORARY TRAFFIC CONTROL

Add to section 12-1.01:

12-1.01 GENERAL

Attention is directed to sections 7-1.03, "Public Convenience," 7-1.04, "Public Safety," and 12, "Temporary Traffic Control," of the Revised State Standard Specifications, State Standard Specifications, Standard Construction Specifications, and these Special Provisions. Nothing in these Special Provisions shall be construed as relieving the Contractor from the requirements of section 7-1.04, "Public Safety."

Delete section 12-1.04:

12-1.04 PAYMENT

Add to section 12-3.32

12-3.32 PORTABLE CHANGEABLE MESSAGE SIGNS

In addition to Section 12-3.32 of the State Standard Specifications, portable changeable message sign shall be furnished, placed, operated and maintained for the duration of the project at those locations indicated on the plans or where designed by the Engineer in conformance with the provisions in Section 12, "Construction Area Traffic Control Devices," of the State Standard Specifications and these Special Provisions. Contractor shall provide portable changeable message signs at the beginning and end of each roadway segment to be resurfaced and at each segments intersection with an arterial roadway (both directions). City of Roseville roadway classifications can be found by following the link below and clicking on the "California Road System (CRS) Map" link on the website:

https://dot.ca.gov/programs/research-innovation-system-information/office-of-highway-system-information-performance

Portable changeable message signs shall be placed at least 10 working days prior to the start of initial work and shall remain in place for the duration of the work. Changeable message signs shall state the street the work is taking place, the dates, the time of work and type of work. Changeable message signs shall be turned off after initial work on a roadway segment is complete and no work is anticipated on a segment for five (5) working days. Prior to resuming work on a roadway segment, changeable message signs shall be turned on five (5) working days in advance.

The contract price paid for each Portable Changeable Message Signs shall include full compensation for furnishing all labor, materials, tools, equipment, maintenance, relocating, removal, and incidentals, and for doing all work involved in placing, maintaining, and removing Changeable Message Signs, complete in place, as shown on the plans, as specified in the State Standard Specifications and these Special Provisions, and as directed by the Engineer and no additional compensation will be allowed therefor.

Add to section 12-4.01A:

12-4.01A GENERAL

At the preconstruction conference, the Contractor shall submit a Traffic Control Plan showing traffic control measures and/or, if approved, detours for vehicles and pedestrians affected by the construction work. A minimum of 7 working days will be required to review and provide the Contractor with comments on the plan. The Contractor shall revise the plan per the City's comments until the plan is accepted by the Engineer. The Contractor will not be allowed to begin work until the Engineer has accepted the traffic control plan.

The Contractor shall be responsible for informing the public of the traffic conditions existing within the construction area at all times by placement of appropriate warning, and advisory signs. The Contractor shall provide and maintain all traffic control and safety items. The Contractor assumes sole and complete responsibility for job and site conditions during the course of construction, including safety of all persons and property. This requirement shall apply continuously 24 hours per day and shall not be limited to normal working hours.

The Traffic Control Plan shall cover all stages of work, per site, and include (but not limited to) the following information and detail: (1) Street closures and detours if allowed; (2) construction, warning, detour and restriction signs, including "No Parking", “Loose Gravel”, “Construction Area Speed limit Signs, “and “Bump Ahead” signs; (3) temporary striping and pavement markers; (4) barricades; (5) flashing arrow signs; (6) lighted message boards; (7) portable delineators; (8) traffic cones; (9) lights, flares, flaggers, and spacing’s.

A copy of the accepted Traffic Control Plan must be kept at the job site at all times.

Temporary lane closures will be allowed only during approved working hours. During the closures, the contractor shall maintain access to adjacent properties. No lane closures may begin without an approved traffic control plan. Contractor shall provide at least 1 lane in each direction on all existing streets throughout the construction project unless otherwise approved in writing by the Engineer.

The Contractor shall cooperate with and notify the local police and fire department, ambulance services, hospitals, post office, refuse collectors, schools and school districts, transit, and residents of proposed construction operations and traffic control operations a minimum of 5 working days before work is to begin in each work area. If changes are made to the Traffic Control Plan, Contractor shall re-notify at least 2 working days before work is to begin. In addition, the Contractor shall make available a 24 hour telephone number in case of emergencies and/or problems.

The Contractor will be responsible for notifying residents and businesses of the proposed construction. Notifications shall be distributed to residents and businesses within a 100 feet radius of the job limits, including residents and businesses located on streets adjacent to the construction.

Notifications to affected residents and businesses within the work areas and shall consist of one phase which shall be performed for all roadway treatments applications.

The phase consists of the Contractor posting “No Parking” signs on barricades 48 hours prior to the work on streets that allow parking where required. The “No Parking” signs shall also include the exact working day that the construction work will take place. A warning indicating that vehicles will be towed away at the owner’s expense shall also be included on the “No Parking” signs. In addition, the Contractor shall make available a 24 hour telephone number in case of emergencies and/or problems and shall post the telephone number on the “No Parking” signs. The Contractor shall be responsible for placing temporary “No Parking” signs in advance of any construction activity. Barricades shall be placed a maximum of 500 feet apart, on both sides of the affected street. This shall be repeated for any subsequent construction operation portion of work. At the preconstruction conference, the Contractor shall provide the Engineer a copy of the proposed notification “No Parking” for acceptance.

The Contractor shall be responsible for placing “Construction Speed Limit” signs on both sides of the affected street 1 hour prior to the street being opened to traffic after placement of chip seal. The speed limit for the “Construction Speed Limit” signs cannot be less than 10 mph below the posted speed. At the preconstruction conference, the Contractor shall submit to the Engineer a sample “Construction Speed Limit” sign for acceptance. Signs shall be placed a maximum of 500 feet apart, on both sides of the affected street.

Emergency access to driveways, intersections, and residential streets shall be maintained at all times. If vehicles are parked in the working area, the Contractor shall not attempt to move the vehicle. The Contractor shall notify the Engineer immediately, and the Engineer shall make proper arrangements to remove the vehicle.

Lane and street closure shall not be allowed without proper advance warning devices, signing and flag persons in conformance with the State Standard Specifications and these Special Provisions. At the completion of each working day, all lanes of traffic shall be open to the public. Street closure shall not be allowed on schedule refuse collections days.

The provisions in this section shall not relieve the Contractor from his/her responsibility to provide such additional devices or take such measures as may be necessary to comply with the provisions in Section 7-1.09, "Public Safety.”

Traffic Control shall include all labor, tools, equipment and materials required to provide, maintain, and remove all signage, flagmen, temporary barricades, and appurtenances to provide traffic control within the project limits as set forth in the State Standard Specifications, California Manual on Uniform Traffic Control Devices (CAMUTCD), these Special Provisions, and as directed by the Engineer.

The Contractor shall have on their payroll a competent person responsible for all traffic control required for this project. The person shall be on site at all times whenever traffic control is in effect. Contractor shall identify this person at the preconstruction conference.

Should the Contractor decide to subcontract the traffic control portion of this project, the Subcontractor shall be available as previously described. In addition, the Contractor shall also appoint a person to oversee the traffic control operations. The Contractor's appointee shall be available and responsible to implement the necessary traffic control plan according to the accepted traffic control plan and the latest edition of the California Manual on Uniform Traffic Control Devices (CAMUTCD).

Any vehicle used to place, maintain, or remove components of a traffic control system on multilane highways at night shall be equipped with a Type II flashing arrow sign which shall be in operation at all times while the vehicle is being used for placing, maintaining, or removing said components. The sign shall be controllable by the operator of the vehicle while the vehicle is in motion.

During the working hours, the Contractor may, with the Engineer’s approval, close 1 of the traffic lanes of and existing 2 lane road, to perform the required work. The contractor shall maintain two-way traffic. Lane closure shall not be allowed without proper advance warning devices and signing, and flag person control in conformance with the State Standard Specifications and these Special Provisions. The Engineer shall

be the sole judge of the spacing, length, and sequence of the lane closure areas. At the completion of each working day, all existing lanes of traffic shall be maintained open to traffic and temporary traffic markers shall be placed (if necessary). Provisions must be made for the uninterrupted passage of emergency vehicles through the project limits at all times, regardless of controlled traffic conditions existing at the time.

If any component in the traffic control system is displaced, or ceases to operate or function as specified, from any cause, during the progress of the work, the Contractor shall immediately repair said component to its original condition or replace said component and shall restore the component to its original location.

If there is a discrepancy and/or the Traffic Control Plan submitted and approved by the City is not followed Contractor shall correct the discrepancy within 1 hour. If this is not mitigated the Contractor will stop work as directed by the Engineer.

Replace section 12-4.02A(2) with:

12-4.02A(2) DEFINITIONS

See section 1-1.07B of these Special Provisions for designated holidays.

Add to section 12-4.02C(3)(a):

12-4.02C(3)(a) GENERAL

Non-compliance with the traffic lane closure hours as specified in these Special Provisions shall result in a deduction from the Contractor's progress payment(s) as specified in section 8-1.10B.

Replace section 12-4.05D with:

12-4.05D PAYMENT

Full compensation for conforming to all requirements specified in section 12, "Temporary Traffic Control," excluding sections 12-3.32, "Portable Changeable Message Signs" and 12-6, "Temporary Pavement Delineation," shall be considered as included in the contract lump sum price paid for "Traffic Control System."

Replace the first sentence in section 12-6.01 with:

12-6.01 GENERAL

Section 12-6 includes specifications for placing temporary pavement delineation.

Add to section 12-6.01:

Nothing in these Special Provisions shall be construed as reducing the minimum standards specified in the California MUTCD or as relieving the Contractor from the responsibilities specified in Section 7-1.04, "Public Safety."

Whenever existing thermoplastic traffic stripes, pavement markings and pavement markers are obliterated the minimum temporary pavement delineation to be provided shall be a single coat of waterborne traffic line paint applied in conformance with section 84, “Markings” of the State Standard Specifications and these Special Provisions.

Temporary pavement delineation shall be placed in three stages of work; temporary pavement delineation shall be placed after existing thermoplastic striping is removed. After any existing thermoplastic pavement striping, markings, and pavement markers or temporary paint has been obliterated by construction operations, a single coat of waterborne traffic line paint shall be installed prior to opening the traveled way to public traffic or as determined by the Engineer. No significant difference in alignment between temporary paint and the existing thermoplastic stripes and markings shall be allowed. If, in the opinion of the Engineer, a misalignment exists it shall be repaired to the satisfaction of the Engineer at the Contractors expense.

Temporary pavement delineation on the final pavement surface shall be laid out in its final location, with the exception of locations where significant striping changes are to be made (changed lane assignments, new lanes, etc), by a C-32 – Parking and Highway Improvement Contractor licensed contractor. Temporary pavement delineation on the final pavement surface shall be temporary raised pavement markers and shall only be used for lane line delineation, limit lines and yield lines shall be a single coat of paint. The temporary raised pavement makers shall be the peel and stick variety. All raised pavement markers shall be removed prior to the placement of permeant pavement delineation. Temporary raised pavement markers shall be continuously maintained such that all lanes are clearly identified at all times. Failure to place permanent pavement delineation within 14 days of the final surface shall require the contractor to remove and replace all temporary delineation and be assessed damages.

Add to section 12-6.03B:

12-6.03B TEMPORARY LANE LINE AND CENTERLINE DELINEATION

Temporary laneline or centerline delineation consisting entirely of pavement markers placed on longitudinal intervals of not more than 24 feet shall be used on lanes open to public traffic for a maximum of 14 days. Prior to the end of the 14 days, the permanent pavement delineation shall be placed. If the permanent pavement delineation is not placed within the 14 days, additional temporary pavement delineation shall be provided at the Contractor's expense. The additional temporary pavement delineation to be provided shall be equivalent to the pattern specified for the existing pavement delineation for the area, as determined by the Engineer.

If no-passing centerline pavement delineation is obliterated, install the following temporary no-passing zone signs before opening lanes to traffic:

1. W20-1 (Road Work Ahead) sign from 1,000 to 2,000 feet in advance of the no-passing zone
2. R4-1 (Do Not Pass) sign at the beginning of the no-passing zone and at 2,000-foot maximum intervals within the no-passing zone
3. W7-3a (Next ___ Miles) plaque beneath the W20-1 sign for continuous zones longer than 2 miles
4. R4-2 (Pass With Care) sign at the end of the no-passing zone

The Engineer determines the exact location of temporary no-passing zone signs. Maintain the temporary no-passing zone signs in place until you place the permanent no-passing centerline pavement delineation.

Remove the temporary no-passing zone signs when the Engineer determines they are no longer required for the direction of traffic.

Add to section 12-6.04:

12-6.04 PAYMENT

Full compensation for conforming to all the requirements specified in section 12-6, “Temporary Pavement Delineation” shall be considered as included in the lump sum contract price paid for “Temporary Pavement Delineation.”

13 WATER POLLUTION CONTROL

Add to section 13-1.01A:

13-1.01A SUMMARY

BMP devices shall conform to those shown within the City of Roseville’s Storm Quality BMP Guidance Manual for Construction. The acceptable DI protection is shown in Appendix D of these Special Provisions and shall be installed and maintained by the Contractor. BMP’s shall remain in place during the full construction processes, plastic and or roofing paper is not acceptable to be used for drainage covers.

Add to section 13-1.04:

13-1.04 PAYMENT

Full compensation for conforming to all requirements specified in section 13, “Water Pollution Control” shall be considered as included in the contract lump sum price paid for “Placement and Maintenance of BMPS.”

14 ENVIRONMENTAL STEWARDSHIP

Add to section 14-8.02:

14-8.02 NOISE CONTROL

Noise level requirements shall apply to all equipment used on the project including, but not limited to, trucks, transit mixers or transient equipment that may not be owned by the Contractor. The use of loud signals shall be avoided in favor of light warnings except those required by safety laws for the protection of personnel.

19 EARTHWORK

Add section 19-1.01A:

19-1.01A SUMMARY

In addition to the requirements of Section 19-1.01 of the State Standard Specifications, the following shall apply:

The Contractor shall perform all excavation required for the complete project, to the lines and grades as shown on the Project Plans, as described in these Special Provisions, and as directed by the Engineer.

HAZARDOUS MATERIAL DISPOSITION:

During the course of trenching, grading, grinding, or other excavation, should potentially hazardous materials or other questionable materials be encountered, the City's Resident Engineer shall be contacted immediately. The Contractor shall mark the site. The City will respond within 24 hours to investigate the site and render an opinion on the questionable materials regarding future action at the site. The intent is to minimize schedule delays to the construction.

The City will be responsible for delineating any required exclusions zones, removing and containerizing questionable material, as well as monitoring the work site for compliance with applicable health and safety compliance.

Removed material will be contained in drums, or drop boxes, depending on the volume, and temporarily staged within the fenced area behind the existing building located at the west side of the parking lot. The staging duration will only be long enough to obtain analytical laboratory results and confirm disposition instructions on the material. For each discovery, it is anticipated the material will be staged for less than 30 days.

19-2.02 UNSUITABLE MATERIAL

In addition to the requirements of Section 19-2 of the State Standard Specifications, the following shall also apply:

Should unsuitable material be encountered which, in the opinion of the Engineer, cannot be stabilized, the Contractor shall remove the unsuitable material to the dimensions and limits directed by the Engineer. The Contractor shall use extra care in excavating unsuitable materials so as not to aggravate the conditions. If, in the opinion of the Engineer, the Contractor's methods and equipment are increasing the amount of unsuitable materials to be excavated, the Engineer will require the Contractor to take necessary steps to correct the situation. Should the problem continue, the Contractor shall pay all costs beginning from the time correction steps were last implemented.

When unsuitable material is removed and disposed of, the resulting space shall be filled with material suitable for the planned use. Unsuitable materials shall be removed from the job site and not incorporated into embankments.

The Contractor shall make provisions to replace all material identified as unsuitable prior to placement of hot mix asphalt. Typical treatment for unsuitable base will include excavation of 12" of material, placement of Tensar BX1200 Geogrid or equal, and placement of Class II ab.

The estimated quantity for "Unsuitable Material" is for bidding purposes only and an estimated 500 cubic yards has been included. The quantity can be extended, reduced, or deleted at the discretion of the Engineer, with no change in the unit bid price. If unsuitable material is discovered, the Contractor will notify the Engineer for approval of excavation and backfill. If the Engineer does not approve that the material is unsuitable prior to excavation and backfill, the Contractor will be responsible for the cost of excavation and backfill.

The contract unit price paid per cubic yard for Unsuitable Material shall include full compensation for furnishing all labor, materials, tools, equipment, excavation, backfill, geogrid, aggregate base, compaction, removal and incidentals, and for doing all work involved in constructing Unsuitable Material, complete in place, as shown on the plans, as specified in the State Standard Specifications and these

Special Provisions, and as directed by the Engineer and no additional compensation will be allowed therefor

73 CONCRETE CURBS AND SIDEWALKS

Add to section 73-1.01:

73-1.01 GENERAL

All concrete curb ramps, bike ramps, driveways, and bicycle refuge zones shall be installed per provisions in Section 73 of the Caltrans Standard Specifications, Roseville Construction Standard Details ST-21 and as shown on the plans including the following provisions:

All concrete curb ramps, bike ramps, driveways, and bicycle refuge zones shall be Class A, six sack, Type II mix, and shall conform to provisions in Section 90 of the Caltrans Specifications.

Add to section 73-3.01:

73-3 GENERAL

All curb ramp layouts (center of ramp), bike ramps, bicycle refuge zones, and driveways shall be approved by the engineer prior to demolition of existing concrete sidewalk, curb and gutter.

Curb ramps shall be constructed as shown on plans consisting of concrete curb ramp paving, detectable warning panel, curb and gutter, retaining curbs and asphalt plug. Under this item of the proposal, the Contractor shall include the cost for demolishing, clearing and grubbing, grading, furnishing, placing, finishing and curing, of the concrete curb and gutter, concrete curb, asphalt plug, and concrete paving in the unit price of the bicycle curb ramp per bid item. Bid price shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals for doing all work, complete in place, including the placement of rebar, placement of aggregate base and asphalt pavement as shown on the plans, as specified in the Standard Specifications and these special provisions, and as directed by the Engineer.

Bike ramps shall be constructed as shown on plans consisting of concrete bike ramp paving, curb and gutter, retaining curbs and asphalt plug. Under this item of the proposal, the Contractor shall include the cost for demolishing, clearing and grubbing, grading, furnishing, placing, finishing and curing, of the concrete curb and gutter, concrete curb, asphalt plug, and concrete paving in the unit price of the bicycle curb ramp per bid item. Bid price shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals for doing all work, complete in place, including the placement of rebar, placement of aggregate base and asphalt pavement as shown on the plans, as specified in the Standard Specifications and these special provisions, and as directed by the Engineer.

Bicycle refuge zones shall be constructed as shown on plans, consisting of concrete paving, detectable warning panel curb and gutter, retaining curbs, and asphalt plug. Under this item of the proposal, the Contractor shall include the cost for demolishing, clearing and grubbing, grading, furnishing, placing, finishing and curing, of the concrete curb and gutter, concrete curb, detectable warning panel, asphalt paving, and concrete paving in the unit price of the bicycle refuge zone bid item. Bid price shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals for doing all work, complete in place, including the placement of rebar, placement of aggregate base and asphalt pavement as shown on the standard plans, as specified in the Standard Specifications and these special provisions, and as directed by the Engineer.

Driveway per ST-21 shall be constructed as shown on plans, consisting of concrete paving, curb and gutter, and asphalt plug. Under this item of the proposal, the Contractor shall include the cost for demolishing, clearing and grubbing, grading, furnishing, placing, finishing and curing, of the concrete curb and gutter, concrete curb, asphalt plug, and concrete paving in the unit price of the driveway per ST-21 bid item. Bid price shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals for doing all work, complete in place, including the placement of rebar, placement of aggregate base and asphalt pavement as shown on the standard plans, as specified in the Standard Specifications and these special provisions, and as directed by the Engineer.

DIVISION IX TRAFFIC CONTROL DEVICES

81 MISCELLANEOUS TRAFFIC CONTROL DEVICES

Add the following to section 81:

81-3.01A Summary

Pavement markers shall be installed per provisions in section 85 of the City of Roseville Construction Standards and these Special Provisions.

Pavement markers shall be applied at all locations where existing pavement markers are obliterated or covered as a result of construction operations.

At locations where bike lane striping is used to channelize traffic, acceleration lanes, right turn deceleration lanes and bus turnouts, both stripes shall be detail 38. Reflective pavement markers shall be placed along both stripes.

81-3.03A General

The Contractor shall be responsible for removal and establishing alignment of all pavement markers outlined on the plans. The Contractor shall place lane lines, centerlines, no passing zones – two way direction lines, channelizing lines, and fire hydrant markers. The Contractor shall be responsible for placing all pavement markers.

81-3.04 PAYMENT

Full compensation for conforming to all requirements specified in section 81-3, “Pavement Markers” shall be paid for at the contract lump sum price paid for “Pavement Striping and Markings, Pavement Markers (Thermoplastic)”, “Pavement Striping and Markings, Pavement Markers (Paint)”, and “Remove Pavement Markings, Striping, and Markers.”

82 SIGNS AND MARKERS

Add to section 85-5.02l:

82-5.02l K71 VERTICAL DELINEATOR

A vertical delineator is shown on the Bid Item List as a Type K71 Delineator.

Add to section 82-5.03:

82-5.03 CONSTRUCTION

Vertical delineators shall be installed per the following procedure:

A - Locate and mark surface where post(s) will be installed.

B - Use 1” wide Carbide drill bit. C - Drill hole 5 3/4” deep.

D - Remove drill debris powder by air pressure

E - Insert Nylon reinforcement screen flush to road surface

F - Fill hole with 2 part adhesive resin

G - Insert metal anchor sleeve

H - Let cure

I - Remove anchor sleeve protective cap, using T-Bar insert through top center of post and screw base plate directly into bonded anchor sleeve until secure.

Add to section 82-5.04:

82-5.04 PAYMENT

The contract price paid for each Type K71 Delineator shall include full compensation for furnishing all labor, materials, tools, equipment, maintenance, relocating, removal, and incidentals, and for doing all work involved in placing, maintaining, and removing Type K71 Delineator, complete in place, as shown on the plans, as specified in the these Special Provisions, and as directed by the Engineer and no additional compensation will be allowed therefor.

84 MARKINGS

Add to section 84-1.01:

84-1.01 GENERAL

Traffic stripes and pavement markings shall be installed per provisions in section 84 of the City of Roseville Construction Standards and these Special Provisions.

Before obliterating any pavement delineation, the alignment and location of the pavement delineation shall be referenced by the Contractor with a sufficient number of control points to reestablish the alignment and location. The references shall also include the limits or changes in striping pattern, including limit lines, crosswalks and other pavement markings.

Traffic stripes and pavement markings shall be replaced at all locations where existing traffic stripes and pavement markings are obliterated or covered as a result of asphalt resurfacing operations.

Unless otherwise noted on the plans, the Contractor shall replace all pavement delineation on the same alignment and location.

Add to section 84-2.02:

84-2.02 MATERIALS

The kind of paint to be used (solvent borne, water borne or acetone-based) shall be determined by the Contractor based on the time of year the paint is applied and local air pollution control regulations.

Thinning of paint will not be allowed.

Paint shall be tested prior to use or the manufacturer shall provide the Engineer with a Certificate of Compliance. The certificate shall certify that the paint complies with the specifications and that paint manufactured to the same formulation and process has previously passed State testing. A list of manufacturers that have produced paint meeting State specifications is available from the Transportation Laboratory. (Material supplied by manufacturers other than those that have manufactured approved paint will require complete testing.)

Add to section 84-2.03A:

84-2.03A GENERAL

The Contractor shall be responsible for removal and establishing alignment of all Pavement Traffic Stripes and Pavement Markings outlined on the plans.

Add to section 84-2.04:

84-2.04 PAYMENT

Unless otherwise indicated, all traffic striping and markings shall be thermoplastic. Paint traffic striping and markings shall only be installed on trails.

Full compensation for conforming to all requirements specified in section 84, “Markings” shall be paid for at the contract lump sum price paid for “Pavement Striping and Markings, Pavement Markers (Thermoplastic)”, “Pavement Striping and Markings, Pavement Markers (Paint)”, and “Remove Pavement Markings, Striping, and Markers.”

Add to section 84-10:

84-10 Pavement Marking (Green)

84-10.01 General

Pavement Marking (Green) shall consist of methyl methacrylate resins with hardwearing aggregate and premium pigments, MMax EF Green Corundum by Ennis-Flint or approved equal. Color lane treatment shall be applied per manufacturer’s instructions.

84-10.2 Measurement and Payment

The contract price paid per square foot for Pavement Marking (Green) shall be considered full compensation for meeting all of the provisions of this section, furnishing all labor, materials and equipment necessary to complete the work, as shown on the plans and specified herein. No additional compensation will be made therefor.

END OF SPECIAL PROVISIONS

Notice of Exemption

To: Placer County Clerk
Recorder's Office
2954 Richardson Drive
Auburn, CA 95603

From: City of Roseville
Development Services Dept.
311 Vernon Street
Roseville, CA 95678

Project Title: Phillip Road – Westpark Drive Bikeway Project

Project Location(s): Phillip Road between Westpark Drive, through the Placer Valley Soccer Complex to Westbrook Boulevard.

Project Description: The Public Works Department is proposing the approval and construction of a new bicycle route between Westpark High School and the Placer Valley Soccer Complex. Two segments of the bike path, through Pistachio Park and within the existing right-of-way of Westpark Drive, have already been analyzed and approved by the City Council. This action proposes a new segment to the approved bike path that would connect Westpark Drive to Westbrook Boulevard at its intersection with Brookstone Drive via Phillip Road and through the Placer Valley Soccer Complex.

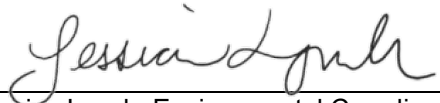
This newly proposed segment would add shared lane markings on Phillip Road and the existing access road located within the Placer Valley Soccer Complex. A portion of the bike path would use the existing paths within the soccer complex. The shared lane markings would end at the intersection of Phillip Road and Westpark Drive, where two new crosswalks and bike refuge zones would be added. The bike refuge zones would provide an entrance to the approved bike path along Westpark Drive.

Retaining structures would be constructed at the northwest, southwest, and southeast corners of the Phillip Road and Westpark Drive intersection to support the crosswalks and bike refuge zones.

Public Agency Approving Project: Roseville City Council

Agency/Individual Carrying Out Project: City of Roseville Public Works Department

Reason why this Project is Exempt: The project qualifies for Class 1 and Class 4 Categorical Exemptions as described in Sections 15301 and 15304 of the California Environmental Quality Act (CEQA) guidelines which state:



> "Class 1 consists of the…minor alteration of existing public…facilities…or topographical features, involving negligible or no expansion of existing or former use… Examples include but are not limited to:
>
> (c) Existing highways and streets, sidewalks, gutter, bicycle and pedestrian trails, and similar facilities (this includes road grading for the purpose of public safety), and other alterations such as the addition of bicycle facilities, including but not limited to bicycle parking, bicycle-share facilities and bicycle lanes, transit improvements such as bus lanes, pedestrian crossings, street trees, and other similar alterations that do not create additional automobile lanes." And

"Class 4 consists of minor public or private alterations in the condition of land, water, and/or vegetation which do not involve removal of healthy, mature, scenic trees… Examples include, but are not limited to:

(a) Grading on land with a slope of less than 10 percent…"

The project consists of the addition of a new bicycle facility and bicycle/pedestrian crossings that use existing rights-of-way and do not create additional automobile lanes, consistent with the Class 1 Categorical Exemption. The project would also add three retaining structures at corners of the intersection of Philip Road and Westpark Drive, which would not result in the removal of healthy or mature trees, consistent with the Class 4 Categorical Exemption. The project would not result in expansion of automobile capacity or use or removal of trees. Therefore, the Class 1 and Class 4 Categorical Exemptions apply.

Title:	Underground Storage Supplement – Professional Services Agreement
Contact:	Janice Gainey 916-774-5535 jrgainey@roseville.ca.us

SUMMARY

Staff recommends approval and award of a professional services agreement to GEI Consultants, Inc. in the amount of $284,277 for Development of an Underground Storage Supplement to Support Long-Term Banking of Middle Fork Project Water Supplies. Funding for this project is from the Water Operations Fund.

RECOMMENDATION

Staff recommends that the City Council adopt a resolution to approve a Professional Services Agreement with GEI Consultants, Inc., and authorize the City Manager to execute it on behalf of the City of Roseville.

BACKGROUND

The City of Roseville provides water service to a growing and diverse community and maintains a diversified water supply portfolio that includes:

- Central Valley Project (CVP) surface water via a water supply contract with the Bureau of Reclamation.
- Middle Fork Project (MFP) surface water obtained through a water supply contract with Placer County Water Agency (PCWA).
- A well-established Aquifer Storage and Recovery (ASR) Program.

PCWA holds the underlying water rights for the Middle Fork Project. Any effort to store, bank, account for, or recover MFP water through an Underground Storage Supplement will require ongoing coordination and collaboration with PCWA, including alignment on regulatory pathways, accounting approaches, and operational concepts.

To further strengthen long-term water resilience, particularly in light of climate change and hydrologic variability, the City seeks to develop an Underground Storage Supplement (USS) that allows for:

- Long-term banking of MFP water supplies
- Expanded use of existing and planned ASR infrastructure
- Enhanced multi-year storage and recovery capabilities
- Improved drought protection and operational flexibility

The USS is envisioned as a complementary strategy to the City's ASR program and broader conjunctive use operations, potentially involving new regulatory pathways, accounting frameworks, institutional arrangements, and operational strategies developed in coordination with PCWA.

On April 3, 2026, the City issued a Request for Proposals for Professional Services seeking a qualified consulting team to develop a regulatory-ready and implementation-focused USS. On April 16, 2026, three (3) firms proposed on the Project. The proposals were evaluated by a panel including Environmental Utilities Department staff and PCWA staff. The panel ranked each firm based on the criteria specified in the Request for Proposals (RFP) No. 08-182. The panel shortlisted two consultants and after interviews selected GEI Consultants, Inc. for the award.

FISCAL IMPACT

The total project budget needed for the Development of an Underground Storage Supplement (USS) to Support Long-Term Banking of Middle Fork Project (MFP) Water Supplies is $284,277 and will be funded through existing budget appropriations within the Water Operations Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)).

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

4. Invest in well-planned infrastructure and growth
6. Deliver exceptional City services

Respectfully Submitted,
Janice Gainey, Principal Engineer

PROFESSIONAL SERVICES AGREEMENT

Underground Storage Supplement

THIS AGREEMENT is made and entered into this 13th day of May, 2026 by and between the City of Roseville, a municipal corporation ("CITY"), and GEI Consultants, Inc., a Massachusetts corporation ("CONSULTANT"); and

W I T N E S S E T H:

WHEREAS, CITY desires professional services in regards to the development of an underground storage supplement; and

WHEREAS, CONSULTANT has prepared a proposal dated April 16, 2026, which describes the scope of work to be performed by CONSULTANT, the budget for the work, and the schedule for performance of the work; and

WHEREAS, CONSULTANT is qualified and experienced to provide such professional services.

NOW, THEREFORE, the parties agree as follows:

1. Services. CONSULTANT shall perform, at the direction of CITY, the scope of services as described in EXHIBIT "A," attached hereto and incorporated herein by this reference.

2. Compensation. For its services provided hereunder, CONSULTANT shall be compensated on a time and expense basis in accordance with the budget estimate as described in

EXHIBIT “B,” attached hereto and incorporated herein by this reference. Total compensation shall not exceed two hundred eighty-four thousand, two hundred seventy-seven dollars ($284,277).

CONSULTANT shall submit one monthly invoice for its services. Such invoices shall be delineated by task, the person performing the services, and the hourly rate, which shall be stated in time increments of not greater than one tenth (1/10) hours. CITY shall pay invoices within thirty (30) days after receipt, if the services specified in the invoice have been satisfactorily completed.

3. Indemnification. To the fullest extent allowed by law, CONSULTANT shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of CONSULTANT's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

CONSULTANT agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONSULTANT and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

CONSULTANT’s responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by

law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

4. Insurance. CONSULTANT agrees to continuously maintain, in full force and effect, the following minimum policies of insurance during the term of this Agreement.

COVERAGE	LIMITS OF LIABILITY
Workers' Compensation	Statutory
Commercial General Liability	$1,000,000 each occurrence $2,000,000 aggregate Personal Injury: $1,000,000 each occurrence $2,000,000 aggregate
Automobile Liability	$1,000,000 combined single limit
Professional Liability (errors and omissions)	$1,000,000 per claim $2,000,000 aggregate

a. Form. CONSULTANT shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. CONSULTANT shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of CONSULTANT. The additional insured coverage under the CONSULTANT's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the

additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. CONSULTANT shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Subcontractors. CONSULTANT agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, CONSULTANT shall require its subcontractors to agree to be bound to CONSULTANT and CITY in the same manner and to the same extent as CONSULTANT is bound to CITY under this Agreement. Additionally, CONSULTANT shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of CITY's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

f. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

g. Waiver of Subrogation. CONSULTANT hereby agrees to waive subrogation which any insurer of CONSULTANT may acquire from CONSULTANT by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all worked performed by CONSULTANT, its employees, agents and subcontractors.

h. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve CONSULTANT of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

5. Records. CONSULTANT and its subcontractors shall maintain all files and records relating to the services performed hereunder during the term of this Agreement and for a period of not less than one (1) year after the date of termination or expiration. Provided, however, that in the event of litigation or settlement of claims arising from the performance of this Agreement, CONSULTANT and its subcontractors shall maintain all files and records until such litigation, appeals or claims are resolved. Duly authorized representatives of CITY shall

have right of access during normal business hours and after reasonable notice to CONSULTANT's and subcontractors' files and records relating to the services performed hereunder and may review and copy the files and records at appropriate stages during performance of the services and during the one (1) year period following termination or expiration of this Agreement. CONSULTANT shall include this provision in its contracts with all subcontractors.

6. Time is of the Essence. Time is of the essence of this Agreement.

7. Prevailing Wages. When applicable, for purposes of this Agreement, CONSULTANT and its subcontractors shall comply with all applicable prevailing wage laws, e.g., but not limited to, California Labor Code Sections 1770 et seq. In accordance with said Section 1775, CONSULTANT shall forfeit as a penalty to the City two hundred dollars ($200) for each calendar day or portion thereof for each worker paid less than the prevailing rates for such work or craft in which such worker is employed for any work done on-site under the Agreement by CONSULTANT or by any subcontractor in violation of the provisions of the Labor Code and in particular, Labor Code Sections 1770 to 1780, inclusive. In addition to said penalty and pursuant to said Section 1775, the difference between such stipulated prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the stipulated prevailing wage shall be paid to each worker by CONSULTANT or the applicable subcontractor.

Pursuant to the provisions of California Labor Code Section 1773, the contracting department has identified the source, stated below, of the general prevailing rate of wages applicable to the site to be done, for straight time, overtime, and holiday work. The holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining

agreement of the particular craft, classification or type of worker concerned. These wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm.

Pursuant to Labor Code Section 1773.2, general prevailing wage rates set forth above, which forms a part of this Agreement, shall be posted by CONSULTANT at a prominent place at the work site. Prevailing wage rates to be posted at the work site will be furnished by the contracting department. The possibility of wage increases is one of the elements to be considered by CONSULTANT in determining its proposal and will not under any circumstances be considered as the basis of a claim against CITY or the Agreement.

8. Compliance with Laws. CONSULTANT shall comply with all federal, state and local laws, ordinances and policies as may be applicable to the performance of services under this Agreement.

9. Ability to Perform. CONSULTANT agrees and represents that it has the time, ability and professional expertise to perform the services required under this Agreement.

10. Public Contracts: Conflicts of Interest. CONSULTANT's duties and services under this Agreement shall not include preparing or assisting CITY with any portion of the CITY's preparation of a request for proposals, request for qualifications, or any other solicitation regarding a subsequent or additional contract with CITY. CITY shall at all times retain responsibility for public contracting, including with respect to any subsequent phase of this project. CONSULTANT's participation in the planning, discussions, or drawing of project plans or specifications shall be limited to conceptual, preliminary, or initial plans or specifications. CONSULTANT shall cooperate with CITY to ensure that all bidders for a subsequent contract on any subsequent phase of this project have access to the same information, including all

conceptual, preliminary, or initial plans or specifications prepared by CONSULTANT pursuant to this Agreement.

11. Governing Agreement. In the event of any conflict between this Agreement and its EXHIBITS, the provisions of this Agreement shall govern. In the event of any conflict between any of the EXHIBITS, the provisions of the first in order of attachment shall govern.

12. Assignment. CONSULTANT is employed to perform unique personal services. CONSULTANT shall not assign this Agreement without the prior written consent of CITY. CONSULTANT shall not employ or otherwise incur any obligation to pay other specialists or experts for services in connection with this Agreement, without prior written consent of CITY.

13. Independent Contractor. CONSULTANT, inclusive of its agents, officers, employees, volunteers, independent contractors, and subcontractors, shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

CONSULTANT and CITY agree that: (a) CONSULTANT is free from the control and direction of CITY in connection with the performance of the work; (b) CONSULTANT is providing services directly to CITY; (c) CONSULTANT has and will maintain at all relevant times a business license; (d) CONSULTANT maintains a business location that is separate from CITY; (e) CONSULTANT is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) CONSULTANT actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) CONSULTANT advertises and holds itself out to the public as available to provide the same or similar services; (h) CONSULTANT provides its own tools, vehicles, and equipment to perform the services; (i) CONSULTANT has negotiated its own

rates; (j) CONSULTANT set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONSULTANT has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

14. Representations and Warranties. CONSULTANT warrants that it has not employed or retained any company or person, other than a bona fide employee working for CONSULTANT, to solicit or secure this Agreement, and that it has not paid or agreed to pay any company or person, other than a bona fide employee, any fee, commission, percentage, brokerage fee, gift or any other consideration, contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, CITY shall have the right to terminate as void this Agreement, without liability, or, in its discretion, to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such fee, commission, percentage, brokerage fee, gift or contingent fee.

15. Successors in Interest. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

16. Copyright, Ownership and Use of Materials. All tangible material ("Material") created or delivered pursuant to this Agreement is considered a work made for hire under the Copyright Act. To the extent such Material does not qualify as a work made for hire, CONSULTANT hereby assigns to CITY all right, title, and interest, including but not limited to all copyrights, in all Material created by CONSULTANT in its performance under this Agreement. Material constitutes the scope of work outlined in Exhibit A and attached hereto, and all written and other tangible expressions, including but not limited to, drawings (including computer aided drawings), papers, documents, reports, surveys, renderings, exhibits, sketches, maps, models, prints, paintings or photographs, in any and all media or formats in which such materials have been created or are maintained. All Material furnished by CONSULTANT is,

and shall remain, the property of CITY.

CONSULTANT shall execute any documents necessary to effectuate such assignment. In the event that CONSULTANT uses, employs, designates, or retains any person or entity who is not an employee of CONSULTANT, to perform any work required of it pursuant to this Agreement, CONSULTANT shall require said person or entity to execute an agreement containing the preceding paragraph.

17. Termination of Agreement. The City may terminate this Agreement without cause by giving CONSULTANT ten (10) days advance written notice from the City Manager. CONSULTANT may terminate this Agreement without cause by giving CITY thirty (30) days advance written notice. In the event of termination through no fault of CONSULTANT, CITY shall compensate CONSULTANT for services performed as of the date of termination, upon the release to CITY of all Material hereunder, in any and all media or formats in which such materials have been created or are maintained. CITY retains the right to receive and use any Material, notwithstanding any termination or any dispute regarding the amount to be paid.

18. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance hereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

19. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

20. Severability. If any of the provisions contained in this Agreement are for any

reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

21. Notices. Any notices to parties required by this Agreement shall be delivered personally or mailed, U.S. first class postage prepaid, addressed as follows:

CITY OF ROSEVILLE	CONSULTANT
Environmental Utilities Department Attn: Sean Bigley 2005 Hilltop Circle Roseville, CA 95747	GEI Consultants, Inc. Attn: Chris Petersen 11010 White Rock Road, Suite 200 Rancho Cordova, CA 95670

Either party may amend its address for notice by giving notice to the other party in writing.

22. Integrated Agreement. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No._____, adopted by the Council of the City of Roseville on the___day of_____, 20__, and CONSULTANT has caused this Agreement to be executed.

EXHIBIT “A”

Our approach is designed to move the USS from its initial concept into a framework ready for regulation and implementation, with ongoing coordination between the City and PCWA. Each step logically follows the previous one, ensuring that regulatory, technical, operational, and institutional aspects are aligned and support each other. The upper portion of Figure 2 illustrates the progress the City has made in developing the ASR Program since the early 2000s, highlighting how the City's ASR program not only benefits local water supply but also supports the broader region. The groundwater and surface water projects identified in Figure 2 were completed by GEI team members and highlight our unique expertise and experience for advancing the City's USS project. During Task 1 (Initiation and Data Review), GEI will assemble and review the available data and information our files to establish the foundational information needed for this project. We will then hold early meetings with PCWA and the City to identify any additional information needed for the USS process with the State Board, including operational frameworks of the ASR program.

GEI will then expand the project concept during Tasks 2, 3, and 4 by providing technical support, developing a water accounting strategy, and documenting this in a Draft USS Project Description. This draft will include a permitting strategy and supporting graphics, first reviewed by the City and then by PCWA. After receiving comments, a second meeting with the City and PCWA will address any final changes before finalizing the USS Project Description. Once the City and PCWA agree on the draft, it will be used to effectively communicate the project's objectives to regional regulators and stakeholders, including SWRCB, RWA, USBR, NASb GSAs, and the Water Forum.

GEI will assist the City in arranging meetings with these and other potential agencies and stakeholders to both educate and gather feedback. Input from regulators and interested parties may lead to changes in the USS Project Description and GEI will work with the City to determine if any changes could benefit the City's long-term interests. It is anticipated that minor improvements will be made as the USS Project Description is finalized. Once complete, GEI will support the City in accomplishing Task 5, which outlines a clear path for water rights compliance with the SWRCB and any necessary actions, agreements, or contract amendments. The goal is to ensure the City can fully utilize their ASR infrastructure with maximum flexibility and in accordance with all applicable regional, State, and Federal requirements and agreements.

Tasks and subtask descriptions are organized by overall task objective, discussion of approach methodology and rationale, listing of subtasks required for completion of task, description of task deliverable(s) and a list of GEI assumptions for cost estimating.

Task 1 – Project Initiation and Data Review

OBJECTIVE: Establish a clear project foundation, confirm goals and assumptions, and align roles, decision criteria, and coordination protocols with the City and PCWA.

DISCUSSION: GEI will support the City in achieving the task objective by compiling and reviewing information, organizing and leading a project kick off meeting with PCWA midway into our review of existing information and in close coordination with City staff. This early coordination with PCWA will be used to confirm expectations related to water rights administration, accounting considerations, and regulatory pathways. During this early coordination period, GEI will also help establish the number and purpose of meetings with PCWA throughout the completion of this project. GEI will document all meetings by providing agendas at least one week before each meeting followed by summaries of key outcomes and action items within 24 hours following each meeting. GEI will provide both a project management plan and data review memorandum as deliverables for this task. It should be noted that GEI already has much of the information that we believe is needed to complete this project because we completed a comprehensive data compilation and review process in 2018-2020 for the GwSP. In fact, our Technical Memorandum No. 1 was a data review memorandum summarizing all information reviewed and how we intended to use each data source in the GwSP. This TM summarizes the many planning documents, contracts, agreements, and hydrogeologic and groundwater information already organized and available to GEI for use in completing this new project.

SUBTASKS:

Subtask 1.1 Project Kick Off Meetings: Conduct an initial project kickoff meeting with City staff for the purpose of introducing and orienting all project staff, to review objectives and approach to completing the work and to plan for a second kickoff meeting with PCWA. The purpose of the meeting with PCWA is to confirm objectives, scope, and expectations,

identify key decision points, and agree on number and frequency of project coordination meetings during completion of this project.

Subtask 1.2 Data Compilation and Review: Review relevant background materials, including ASR permits and operational history, MFP and CVP contracts, and applicable PCWA planning or policy documents. GEI will provide the City with a request for information above and beyond what GEI has already compiled for the GwSP which will include the following as a minimum:

- Regional Water Authority's most current COSANA Model files used for groundwater modeling in the North American Subbasin for the GSP and 2027 update.
- All relevant communication with PCWA regarding water rights actions required for the City to inject and store MFP water in the underlying aquifer.
- Summaries of any communication with City staff have had with SWRCB staff regarding USS and water rights permitting vehicles for the City's injection and storage of MFP water.
- Most recent water demand estimates above and beyond those provided in most recent planning documents, which GEI has in-house but we need to verify this is the best demand information available.

Subtask 1.3 Project Management Plan (PMP): This document will include the final negotiated scope of work and project schedule but will also identify key assumptions, decision points, and information gaps that need to be filled early in the project. The PMP will provide a structured approach for coordination with PCWA that supports transparency, timely review, and alignment throughout the project. Furthermore, the PMP will present purpose and intended outcomes of each project meeting between GEI and the City, with PCWA, SWRCB and other agencies such as USBR, RWA and Water Forum. This document will be the roadmap for both GEI and City staff to follow toward successful completion of this project.

Subtask 1.4 Data Review Memorandum: This memorandum will list all the data and information resources compiled for use in completing the USS project. This memorandum will include a data table listing all information resources and how this information will be used to inform specific project tasks. The memorandum will be provided early for the project so that GEI and the City are both confident that we are using best information available for completion of this important project for the City.

DELIVERABLES:

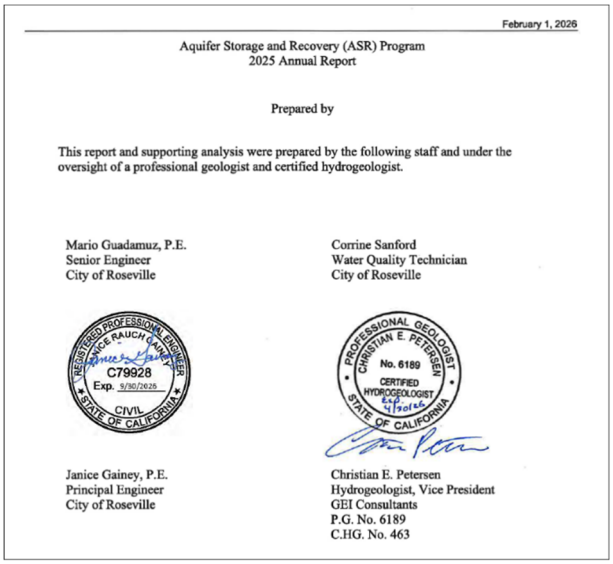
- Draft and Final Project Management Plan
- Draft and Final Data Review Memorandum, including proposed PCWA coordination approach

ASSUMPTIONS:

- One 90-minute kick-off meeting with City staff at the City's office including GEI's Project Manager and Principal-in-Charge, and key discipline leads.
- One 90-minute kick-off meeting with PCWA and City staff at PCWA's office also including GEI's Project Manager, Principal-in-Charge, and key discipline leads.
- Requests for information by GEI will be provided by City staff within 2 weeks.
- GEI will be provided with a single set of review comments by the City on each draft deliverable within 2 weeks of GEI submitting review drafts to the City.

Task 2 – Regulatory and Institutional Framework Assessment

OBJECTIVE: Identify and evaluate feasible regulatory, legal, and institutional pathways for establishing a USS associated with MFP supplies.



DISCUSSION: GEI will develop a Regulatory and Institutional Framework for the City's ASR program that results in compliance with all applicable local, State and Federal regulations, agreements, and policies. This activity will involve a combination of applying GEI's knowledge of recharge and the regional setting with research evaluating applicable California Water Code, State Board and SGMA requirements including verification of understanding and approaches with local, regional and state agency representatives. Since the objective is to create a Framework, frequent meetings with regulatory agencies are not expected. However, it may be necessary to reach out to agency representatives to confirm requirements and strategies for permitting and compliance. Regulatory concepts and institutional frameworks will be discussed with City staff and PCWA to confirm feasibility and alignment before contacting others if needed.

SUBTASKS:

Subtask 2.1 Regulatory Evaluation: GEI will identify applicable State and Federal regulatory requirements, including considerations under the California Water Code (such as pending AB2026), SWRCB processes, and SGMA requirements. For the completion of this subtask, GEI will review Water Code Divisions addressing water rights, storage, and groundwater authority, including:

- Division 2 – Water (Sections 1000–5951)
- Division 6 – Conservation, Development, and Utilization of State Water Resources (Sections 10000–12999)
- Division 14 – California Water Storage District Law (Sections 39000–48401)
- Water Code §1242 and §1242.1, which authorize flood-flow diversions for recharge under newly expanded authority.

GEI will also research and document SWRCB's water rights and recharge permitting process which typically includes either a Temporary or Long-Term permit for underground storage. In the case of the City, we will verify that completion and filing of the USS is the only action required for a permit by SWRCB.

February 1, 2026

Aquifer Storage and Recovery (ASR) Program
2025 Annual Report

Prepared by

This report and supporting analysis were prepared by the following staff and under the oversight of a professional geologist and certified hydrogeologist.

Mario Guadamuz, P.E.
Senior Engineer
City of Roseville

Hydrogeologist, Vice President
GEI Consultants
P.G. No. 6189
C.HG. No. 463

GEI staff have been supporting the City with ASR General Order Compliance since 2021.

GEI will also outline the requirements of SGMA in basin in the vicinity of and including the City. GEI developed the GSP for the NASb so we are well aware of these requirements but because SGA and the GSAs are currently in the process of evaluating the adequacy of the GSP as part of the 5-year update process, we will verify that our understanding is correct. Then as part of this we will document how the City's ASR program integrates with the GSP showing how recharge supports the sustainability indicators (e.g., water levels, subsidence, water quality).

Subtask 2.2 Evaluation of Linkages with Existing Permits: GEI will evaluate how a USS will complement or expand upon the City's existing ASR permits. GEI will evaluate the need to update or modify any existing permits including their permit with the Central Valley Regional Water Board through the ASR General Order as well as their permit to serve drinking water through the Division of Drinking Water through the SWRCB.

Subtask 2.3 Governance and Institutional Evaluation: Assess institutional and governance considerations, including the role of PCWA as the MFP water rights holder, accounting and ownership frameworks, and inter-agency coordination requirements. Identify potential agreements, amendments, or coordination mechanisms needed to support USS implementation.

Subtask 2.4 Regulatory and Institutional Framework Memorandum: GEI will deliver a concise framework document that provides step by step actions for achieving regulatory compliance, an example of which may include:

- Map all applicable Water Code provisions, especially those related to water rights and flood-flow recharge authority.
- Determine the appropriate SWRCB permitting pathway, USS versus temporary or long-term permits.
- Coordinate early with the Division of Water Rights, the local GSA and RWA to ensure consistency with the GSP and Sacramento Regional Water Bank.
- Prepare technical documentation, including:
  - Water availability analysis.
  - Demonstration of no-injury to other water users.
  - Monitoring and accounting plans consistent with SGMA BMPs.
  - Likely not needed since the City completed an Environmental Impact Report for your ASR program, but it needed complete CEQA review to ensure alignment with statewide recharge guidance.

DELIVERABLE:

- Draft Regulatory and Institutional Framework Memorandum. Comments received on the draft will be incorporated in the Implementation Roadmap developed in Task 5.

ASSUMPTIONS:

- This task is a desk top study and will not involve meetings with regulatory agencies per se however, GEI may contact agencies representatives to verify our understanding of specific regulatory or institutional requirements.

Task 3 – Technical and Hydrogeologic Evaluation

OBJECTIVE: Evaluate the technical feasibility of supporting USS objectives of local storage of MFP water using existing and planned ASR infrastructure.

DISCUSSION: Much of the supporting information can be drawn from the GwSP itself or supporting information compiled for that strategic planning effort completed in May of 2020. Relevant GwSP information includes:

- Water Supply and Demand Evaluation.
- Recharge Evaluation including calculation of aquifer storage potential.
- Groundwater Infrastructure Evaluation including well assessment, identification of interties, water quality. evaluations, regional and local pumping impacts on groundwater levels, and design recommendations for future ASR wells and cost estimates.

GEI is also supporting the City with reporting required in compliance with the City's ASR General Order adopted by the Central Valley Regional Water Quality Control Board in 2012. The information contained in the Annual Reports and supporting Data Management System will be utilized by GEI in completion of this task. GEI will provide the supporting technical information required by the State Board for the USS.

Our experience with the City's ASR program will allow us to identify any potential constraints.

GEI's approach to completing this task begins with reaching a common understanding with PCWA on timing and volume of available MFP water for aquifer storage in the City, a water availability analysis. We will then verify that groundwater storage capacity exists for storage of both MFP water and CVP water currently utilized by the City for their ASR program. Then we will evaluate the number, location, injection, and extraction capacity of existing and planned ASR wells to be sure they are adequate for operating in a pattern consistent with both available water and the USS and other potential State Board requirements. Next, we will evaluate aquifer impacts resulting from the operation pattern developed above including groundwater level, groundwater quality and changes in groundwater flow patterns and rates of groundwater flow. GEI will identify any potential constraints through a range of likely operational scenarios to be sure permit and regulatory standards are not violated. This analysis will also reveal the range of storage capacity in the basin which will be useful in water planning to ensure both local supply reliability with potential for participating in future transfers and exchanges to generate revenue to offset the City's cost to operate the maintain the ASR program. In addition to maximizing use of empirical groundwater data and analytical approaches to characterizing current and future aquifer and well impacts, GEI has included an optional task to perform numerical groundwater modeling which may reduce the uncertainty in our future forecasts. Technical assumptions and findings will be reviewed with City staff to ensure consistency with existing ASR operations and groundwater management practices.

SUBTASKS:

Subtask 3.1 Surface Water Availability Analysis: The GEI Team will support the quantification of timing and availability of MFP water for use in the City's ASR program. This analysis would include the integration of both CVP and MFP water in the ASR program along with existing demands being served by the same infrastructure. PCWA serves its retail customers and contractors with surface water from its MFP supply and Bureau of Reclamation CVP contract supply. As part of the support provided to PCWA for its ongoing water rights extension, Western Hydrologics adapted its model called the American River Integrated Operations model (ARIOps) to incorporate Amendment 1 to the Contract between PCWA and the City relating to water supplies and exchanges. ARIOps is run on a daily timestep for water years 1922 through 2021 and can use both the historic hydrology and the CalSim3 2023 Central tendency hydrology. This time period covers a wide range of hydrologic conditions. Assuming PCWA will allow the City access to this work, the model assumptions will be reviewed, and any adjustments will be made to the model, if necessary. The model will then be executed and water supply deliveries to the City can be extracted from the output. Model results will provide information to the City about the long-term water supply reliability.

Subtask 3.2 Infrastructure Assessment: GEI will assess the suitability of current and planned ASR facilities for long-term storage and recovery associated with the USS. GEI will use results of the water supply availability analysis completed in Task 3.1 to inform the volume and timing water availability for injection into aquifer storage. GEI will work with the City to develop the optimal storage volume and duration of storage given agreed upon criteria such as hydrologic year type, current and future water demand in the City. Once the optimal range of ASR operations is agreed to with the City, GEI will evaluate the adequacy of the City's current and planned number and location of ASR wells and the feasibility of this infrastructure in meeting the City's ASR objectives for both water resiliency and banking to meet local needs and potentially as a revenue generation source through transfers and exchanges.

GEI staff have significant hands-on experience supporting the City with well design, construction, and testing services.

Subtask 3.3 Aquifer Impact Analysis: GEI will evaluate groundwater impacts and sustainability considerations in coordination with applicable groundwater management frameworks. GEI will evaluate how operation of the ASR program changes groundwater levels in the representative monitoring wells established in the NASb GSA. GEI will compare projected water level changes in the proposed operation of the ASR program against minimum thresholds established in these wells located in and near Roseville. To remain in compliance with SGMA, the ASR program will need to be operated to ensure that groundwater levels in and near the ASR well field always remain safely above the representative monitoring wells in and near Roseville. GEI will work with the City to develop ASR operation plan that achieves this goal.

In addition, GEI will utilize information obtained from the 6-month injection cycle currently in progress with 3,200 acre feet stored through mid-April and planned to continue until June 2026. This empirical data set is an excellent source of information on the impact of long-term injection and storage of surface water in groundwater levels and water quality within the Mehrten Formation beneath Roseville and the surrounding area. GEI will quantify the mounding of groundwater that occurred during this injection cycle and calculate aquifer hydraulic properties including transmissivity and storativity utilizing groundwater changes in response to the recovery of groundwater levels in and near the injection wells following the end of the 6-month injection cycle. GEI will then calculate changes in groundwater flow rates that occur as the local groundwater mound grows in response to extended injection periods. This information will be used to calculate changes in groundwater flux rates (losses) outside the city boundaries. Using this information, GEI will work with the City in agreeing on the optimal operation range of water levels during ASR operation to maximize storage and minimize losses.

Subtask 3.4 Water Quality Evaluation: GEI will review water quality considerations related to long-term storage and recovery. GEI has a large data set of historic groundwater quality information built up over the many years that GEI has been assisting the City in complying with the ASR General Order. The quarterly and annual reports demonstrating compliance with the Monitoring and Reporting Plan have been developed by GEI and the City for delivery to the CVRQCB for verification of water quality compliance. GEI has developed and maintains chemographs showing water quality changes for general chemistry constituents over time. GEI will add to this baseline of historic water quality data, the new water quality data obtained during the ongoing 6-month injection cycle ending in June 2026. GEI will highlight changes in water quality that have occurred and identify both water quality improvements as well as degradation that may have occurred during the 6-month ASR cycle. This empirical information will be used by GEI to predict water quality changes that will likely occur based on optimal ASR operation program established in the tasks above.

Subtask 3.5 Opportunity, Constraint and Risk Analysis: Identification of technical constraints, risks, and opportunities is an important step is developing a sustainable ASR operation framework that complies with local, regional, State, and Federal regulations, policies, and guidance. This information will be used to develop the operational and accounting framework described in Task 4. **Table 2** in project understanding is an initial listing of GEI's understanding of potential project challenges, GEI's mitigation approach to maximize beneficial outcomes and create opportunities for the City's success. GEI will work with the City to build this table out through completion of this task.

Subtask 3.6 Complete the Draft USS: GEI will complete the USS form with the technical information required. **Table 1** in project understanding outlines the USS required information and the likely sources of information to be used by GEI in completing the form.

GEI will compile and review this information from the sources proposed in Table 3 and other sources to be identified by GEI and the City during completion of this task.

Optional Subtask 3.7 Groundwater Modeling: GEI believes that the existing groundwater modeling results, developed using the CoSANA Model for the GSP completed by GEI in 2020, can effectively support the analysis required for this proposal. Additionally, significant groundwater modeling has been conducted under RWA's contracts to meet SGMA requirements for the NASb and to assess losses related to the Sacramento Regional Water Bank. GEI considers this previous modeling to be adequate for the work described in this proposal.

This optional groundwater modeling task is included for two main reasons:

1. The City or PCWA may prefer to have technical information provided to the State Board through the USS process further supported by additional modeling of future ASR operations, utilizing either the SRM or COSANA models.
2. The City may wish to conduct its own groundwater modeling to optimize ASR operations both currently and in response to potential future changes in conditions.

If the City chooses to proceed with this option, GEI will provide comprehensive groundwater modeling services as needed.

- Model step up and adjustment of aquifer parameters to match those to be measured during the recovery portion of the ongoing 6-month 2026 injection cycle schedule to end in June 2026.
- Development of up to three modeling scenarios as agreed upon by the City with potential input from PCWA and RWA
- Review and document model application and results

DELIVERABLE:

- Draft Technical Feasibility Memorandum including the completed draft USS form. Comments received on the draft will be incorporated in the Implementation Roadmap developed in Task 5.

ASSUMPTIONS:

- Review and assessment of aquifer impacts resulting from 6-month 2026 injection cycle will inform this task.
- Bullet 1 above and review of existing model applications in Roseville and the region will inform in sufficient detail of future predictions of aquifer impact resulting for ASR operations under the USS.
- Water quality evaluations in the task will primarily be informed from the following three information sources: 1) Previous ASR pilot testing and injections episodes, 2) Quarterly and Annual Reports for ASR Permit compliance with RWQCB, and 3) Results of 6-month 2026 Injection cycle involving all wells.

Task 4 – Operational and Accounting Framework Development

OBJECTIVE: Develop practical operational and accounting concepts that support long-term water banking while remaining consistent with PCWA requirements.

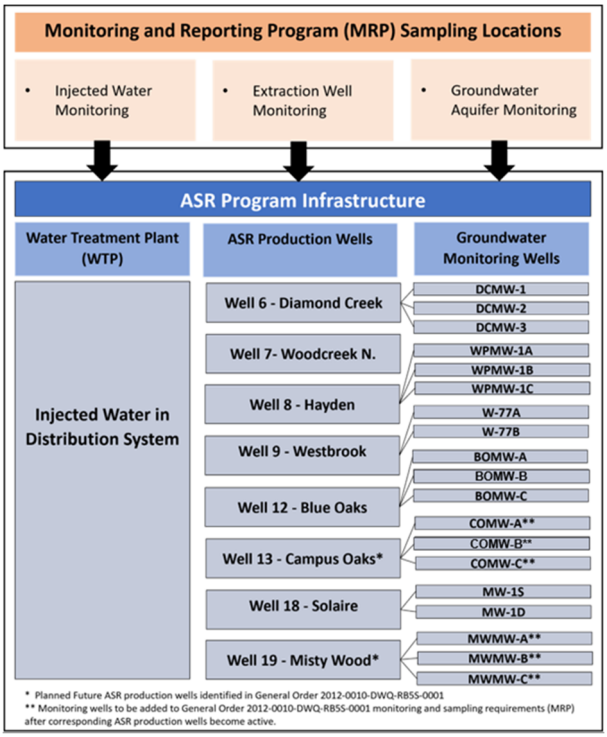
DISCUSSION: Building on prior tasks, Task 4 involves the development of detailed operational protocols and accounting methodologies that will underpin USS water banking, storage, and extraction activities. GEI will define triggers and metrics for water recovery during droughts, emergencies, or multi-year operations. Methodologies for banking, tracking, and allocating stored water will be developed using scenario planning, quantitative modeling, and benchmarking against regional best practices. Models for integration with CVP, ASR, and other conjunctive use operations will be refined in joint technical sessions with City and PCWA teams to confirm technical and institutional viability.

Special attention will be given to aligning these operational and accounting frameworks with PCWA's water rights administration and reporting practices. Draft concepts will be socialized for review and collaborative refinement through structured meetings and workshops with PCWA and City staff. Deliverables will include the USS Operations and Accounting

Framework, comprising all technical methodologies, institutional protocols, and scenario analyses necessary to support City policy and regulatory approval.

SUBTASKS:

Subtask 4.1 Concept Development: Develop concepts for water banking and accounting methodologies appropriate for long-term storage of MFP supplies. GEI will work with the City to ensure banking operation and accounting concepts align with PCWA's water rights administration and reporting requirements. These efforts will be informed by the Sacramento Regional Water Bank Water Accounting Framework.



Subtask 4.2 Development of Recovery Triggers: Define recovery triggers and operational protocols for drought, emergency, and long-term storage scenarios.

Subtask 4.3 Integration of Roseville MFP Water: Identify integration considerations with CVP supplies, existing ASR operations, and broader conjunctive use strategies.

Subtask 4.4 USS Operations and Accounting Framework:

DELIVERABLE:

- Draft USS Operations and Accounting Framework. Comments received on the draft will be incorporated in the Implementation roadmap developed in Task 5.

GEI has a very strong working knowledge of the City's ASR infrastructure based on our On-Call ASR Support for Roseville.

Task 5 – Implementation Roadmap

OBJECTIVE: Provide a clear, phased roadmap to advance the USS from concept toward implementation.

DISCUSSION: In Task 5, GEI's project support results in a detailed, phased roadmap that takes the USS from advanced concept through regulatory and operational launch. Our plan will identify key milestones and decision points, applicable permitting and regulatory approval steps, and required interagency agreements or amendments. GEI will include a critical path timeline with estimated durations and dependencies will be developed, including review and coordination milestones with PCWA for formal concurrence, agreement development, and joint regulatory engagement as needed.

The roadmap will feature a detailed implementation matrix, outlining dependencies, critical actions, and risk registers. City and PCWA roles, responsibilities, and handoff points will be clearly defined, supporting collaborative governance and transparent tracking as the USS progresses through regulatory milestones to operational phases. The USS Implementation Roadmap will serve as a dynamic, actionable project guide that is updated in response to regulatory feedback and project learning. The roadmap will reflect City and PCWA roles and identify coordination points necessary to maintain alignment.

GEI is in a great position to deliver a successful USS Implementation Formation given our relevant experience in developing GSP.

SUBTASKS:

Subtask 5.1 Implementation Guide: Develop a phased implementation roadmap in the form of a narrative description which identifies key milestones, decision points, permitting requirements, agreements, and estimated timelines.

Subtask 5.2 Coordination Plan: Identify coordination milestones with PCWA, including review and concurrence points and opportunities for joint regulatory engagement.

Subtask 5.3 Implementation Matrix and Schedule: GEI will develop an implementation matrix listing key milestones and decision points, regulatory approvals and required amendments or new agreements. We will also provide an implementation schedule showing activities, durations and dependencies between implementation activities and required near-term actions and longer-term steps to support informed decision-making by the City.

Subtask 5.4 Implementation Strategy Report: GEI will prepare a report drawing from the outcomes of each task above and providing a clear roadmap for the City in pursuing the USS and all other supporting regulatory and institutional actions need to ensure the successful recharge and banking of MFP water in the basin underlying and adjacent to the City. Memoranda developed in the tasks above along with comments received on this draft will be incorporated into the roadmap as chapters or appendices depending on Roseville preference. This report will be a useful tool for the City in implementing their USS project but also for gaining support from the regulatory community and potential banking partners in the future.

DELIVERABLE:

- Draft and Final USS Implementation Report/Roadmap.

Task 6 – Project Management

OBJECTIVE: To provide robust and proactive project management services that ensure the successful advancement of the USS for the City, delivered on time and on budget.

DISCUSSION: GEI will provide comprehensive project management services to support the City in advancing the USS from concept through a regulatory-ready and implementation-focused framework. This work will include coordinating with City staff via e-mail and bi-weekly project coordination meetings to review technical progress, resolve issues, and ensure coordinated input across agencies. GEI will also manage monthly project invoicing, maintaining clear documentation and cost tracking consistent with City requirements. Finally, GEI will provide quality control review of all deliverables—leveraging GEI's established QA/QC practices and internal subject-matter reviewers—to ensure that all technical products are accurate, complete, and responsive to the scope and objectives of the USS planning effort.

SUBTASKS:

Subtask 6.1 Biweekly Project Coordination Meetings: GEI will lead bi-weekly project meetings with the City for the period of 1 year for a total of 20 project meetings assuming a March 1, 2026 start date. Each meeting will be 60 minutes in duration and include GEI's project manager and one technical staff. The number and duration of these meeting will be evaluated quarterly to ensure the meetings are making the best use of the project budget.

Subtask 6.2 Invoicing and Progress Reporting: GEI will prepare a progress report to accompany monthly invoices

***Subtask 6.*3 Quality, Budget and Schedule Control:** Before any deliverable is submitted to the City for review, GEI's designated in-house reviewer will carefully evaluate each item to ensure accuracy and completeness. The GEI project manager will utilize Earned Value methodology to plan project activities, track progress, and communicate status updates. This approach provides a clear overview of both budget and schedule performance, allowing for early identification of any potential issues. If challenges arise, GEI will promptly notify the City during our bi-weekly meetings so we can collaborate on effective solutions.

DELIVERABLES:

- Agenda's and meeting summaries
- Monthly progress reports with each invoice
- GEI's quality control customized for this project

ASSUMPTIONS:

- Monthly invoices and progress reporting will be completed in 2 hours each month
- Each GEI deliverable will be reviewed by GEI's assigned in hours reviewer with a budget of 4-8 hours per deliverable depending on level of complexity.

EXHIBIT “B”

Tab L: Cost Proposal

The Cost Estimate provided on the next page has been developed using a task-based structure specifically aligned with the Scope of Work outlined for the USS project. Each task budget reflects the required level of technical effort, staff expertise, and necessary coordination, particularly at key milestones and regulatory checkpoints.

Labor hours are carefully estimated for each subtask based on its complexity and the expertise required. Senior-level team members lead project initiation, regulatory reviews, and project management, while technical specialists and analysts contribute more hours during technical, hydrogeologic, and modeling activities. Key personnel remain involved throughout all phases to maintain continuity and consistency in deliverables and project documentation. The hours per task and staff member are distributed to allow focused effort during project milestones and review periods.

Billing Rates and Assumptions

Billing rates are set according to staff roles and experience, with senior staff and subject matter experts carrying a higher hourly rate due to their specialized involvement in technical oversight and regulatory coordination. Mid-level engineers, analysts, and technical staff are assigned to research, modeling, and report preparation. All rates reflect GEI's standard 2026 schedule.

Subconsultant Costs (if Applicable)

We are proposing a 10% mark-up on Western Hydrologic costs.

Total Not-to-Exceed Cost and Optional Services

For Tasks 1-6 our estimate is based on our understanding of the work to be completed to meet the City's objectives as stated in the RLP. If selected for this work, GEI is willing to modify our progression and scope of work to accommodate the City's budget if our estimate is outside the bounds of the City's existing budget.

Title:	Substation Transformer Civil Construction - Construction Agreement
Contact:	David Angel Jimenez 916-774-5698 dangel-jimenez@roseville.ca.us

SUMMARY

Staff recommends approval of a construction agreement with Arrow Driller Inc. dba Arrow Construction in the amount of $379,100 to provide civil construction services at Fiddyment and Sierra Vista Substations for the installation of substation transformers. Staff additionally requests authorization for the City Manager or designee to approve and pay for contract change orders that could increase the contract amount by no more than 10%, or $37,910, for a total not to exceed $417,010. Funding is included in the Electric Department's FY2025-26 budget in the Electric Fund.

RECOMMENDATION

Staff recommends that the City Council adopt a resolution to approve a Construction Agreement with Arrow Driller Inc. dba Arrow Construction for the Substation Transformer Civil Construction project and authorize the City Manager to execute it on behalf of the City of Roseville.

In addition, staff recommends that the City Council authorize the City Manager, or designee, to approve change orders for the project, consistent with the contract terms, provided that the net cost of all change orders shall not exceed ten percent (10%) of the contract price.

BACKGROUND

The construction works at Fiddyment Substation and Sierra Vista Substation are required to site new substation transformers. A new concrete foundation at Fiddyment Substation will be constructed to site a new spare substation transformer. It will be used in the event of failure elsewhere in the system or to allow Roseville Electric to be more responsive to new development when a new substation is required to be constructed, as current transformer lead times are in excess of three years. At Sierra Vista Substation, expansion of the containment pit is necessary to meet substation transformer oil spill containment requirements. The oil containment currently in place was designed for a different transformer design; the transformer purchased for this installation has approximately 2,000 gallons more oil than the containment was designed to accommodate. When Sierra Vista Substation was initially constructed, the second transformer was not required, but all necessary appurtenances were installed to facilitate this installation.

The City Council approved the plans and specifications and authorized the call for bids at the March 4, 2026, meeting. Subsequently, Roseville Electric solicited bids through Request for Quotations 07-126 Substation Transformer Civil Construction, seeking a contractor to provide the necessary construction services. Staff received four bids, which were opened on April 22, 2026. After staff review of the bids, Arrow Construction was determined to be the lowest responsive bidder.

FISCAL IMPACT

The fiscal impact of the agreement with Arrow Driller Inc. dba Arrow Construction is $379,100 with a 10%,

or $37,910, contingency not to exceed $417,010. Funds are available in the Electric Department's FY2025-26 budget in the Electric Fund.

ENVIRONMENTAL REVIEW

The proposed project involves the minor alteration of an existing facility. This activity is categorically exempt from CEQA as a Class 1 Exemption (State CEQA Guidelines Section 15301). The Exemption has been prepared and no further CEQA action is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

4. Invest in well-planned infrastructure and growth
6. Deliver exceptional City services

Respectfully Submitted,
David Angel Jimenez, Power Engineer

Daniel Beans, Electric Utility Director

RESOLUTION NO. 26-224

APPROVING A CONSTRUCTION AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND ARROW DRILLERS, INC. DBA ARROW CONSTRUCTION, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, a Construction Agreement for the Substation Transformer Civil Construction Project, by and between the City of Roseville and Arrow Drillers, Inc., has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said agreement is hereby approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

BE IT FURTHER RESOLVED that the City Manager or his designee is authorized to approve change orders for the project, consistent with the contract terms, provided that the net cost of all change orders shall not exceed ten percent (10%) of the contract price.

PASSED AND ADOPTED by the Council of the City of Roseville this ___ day of _____, 2026, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

_____
MAYOR

ATTEST:

_____
City Clerk

AGREEMENT

THIS AGREEMENT, is made and entered into this_____day of_____, 2026, by and between the City of Roseville, a municipal corporation, ("CITY"), and Arrow Driller Inc. DBA Arrow Construction, a California Corporation, ("CONTRACTOR"); and

WITNESETH:

WHEREAS, the City Council of the CITY, at a meeting held on the_____day of _____, 20_____, approved plans and specifications for the Substation Transformer Civil Construction and directed the City Clerk to advertise for sealed proposals for doing said work and providing that bids be submitted on the 22nd day of April, 2026; and

WHEREAS, the City Clerk, thereafter duly and regularly caused a notice to be published in the manner and for the time prescribed by law; and

WHEREAS, CONTRACTOR, pursuant to the provisions of said notice duly filed a bid with the City Clerk, a true copy of which bid is now on file in the office of the City Clerk, and is hereby referred to and by this reference made a part hereof as fully as if set forth at length herein; and

WHEREAS, all bids received pursuant to said notice were opened and examined and publicly declared at the time specified in said advertisement for bids and at a meeting of the City Council held on the_____day of_____, 20_____, the Council found and

declared the bid of CONTRACTOR to be the lowest responsible bid and thereupon awarded a contract to CONTRACTOR to do the work referred to in the aforementioned specifications.

NOW, THEREFORE, the parties agree as follows:

1. THE WORK. CONTRACTOR agrees:

a. To do the work and furnish all the labor, materials, tools, supplies, equipment, superintendence, insurance, and bonds required for the Substation Transformer's Civil Construction in accordance with the Contract Documents (the Work).

b. To do and perform the Work contemplated hereby in a good and workmanlike manner under the direction of and to the satisfaction of the Director of Public Works of the City of Roseville.

2. PAYMENT. CITY shall pay CONTRACTOR THREE HUNDRED SEVENTY NINE THOUSAND ONE HUNDRED dollars ($ 379,100.00) for the Work to be done under this Agreement in accordance with the Contract Documents.

3. CONTRACT DOCUMENTS. The complete Agreement between the parties hereto consists of the following documents:

a. The advertisement for bids (including the notice to bidders, instructions to bidders and proposals);

b. The accepted bid;

c. Plans and specifications (including general conditions, supplemental conditions, special provisions and construction details);

d. Bonds and insurance required by the specifications; and

e. This contract.

All documents specified above are intended to operate so that any work called for in any one and not mentioned in the other, or vice versa, is to be executed the same as if mentioned in all said documents.

4. LIQUIDATED DAMAGES. In the event CONTRACTOR does not complete the Work within the time specified, CONTRACTOR agrees that CITY will suffer damages. Inasmuch as the actual damages which would result from such breach by CONTRACTOR under this Agreement are uncertain, and would be impractical or extremely difficult to fix, CONTRACTOR agrees that it shall pay, or CITY shall deduct from CONTRACTOR's fee, the amount of $ 500.00 per day as liquidated damages, in the event of such delay.

5. TIME OF COMPLETION. Time is of the essence of this Agreement. CONTRACTOR shall complete all Work under the Contract Documents within 65 Days of the date of this Contract. CONTRACTOR shall begin work by the date specified in the "Notice to Proceed" letter and shall diligently prosecute all of the Work under this Contract in all parts and requirements as defined in the Contract Documents.

6. SERVICE OF NOTICE. Any notice required or permitted to be given under this Agreement shall be deemed given when (a) personally delivered to the recipient identified below; (b) mailed by registered or certified mail, return receipt requested, postage pre-paid, to the address specified below; or (c) sent by facsimile, with confirmation of receipt, to the facsimile number identified below.

CITY OF ROSEVILLE	CONTRACTOR

Fax: 916-787-3797 Phone: 916-774-5698	Fax: 916-640-0600 Phone: 916-825-6906

CITY may also act through either its architect or construction manager if CITY expressly gives notice to CONTRACTOR, in writing, that CITY's designee has authority to act for CITY in a specific capacity.

7. DISPUTES. Disputes arising from this Agreement will be determined in accordance with the Contract Documents and Public Contract Code Sections 10240-10240.13.

8. GOVERNING LAW. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

9. INDEPENDENT CONTRACTOR. CONTRACTOR shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

10. SUCCESSORS IN INTEREST. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

11. MODIFICATION. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

12. SEVERABILITY. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

13. INTEGRATED AGREEMENT. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

14. CONTRACTORS LICENSE LAW. CONTRACTORS ARE REQUIRED BY LAW TO BE LICENSED AND REGULATED BY THE CONTRACTORS' STATE LICENSE

BOARD WHICH HAS JURISDICTION TO INVESTIGATE COMPLAINTS AGAINST CONTRACTORS IF A COMPLAINT REGARDING A PATENT ACT OR OMISSION IS FILED WITHIN FOUR (4) YEARS OF THE DATE OF THE ALLEGED VIOLATION. A COMPLAINT REGARDING A LATENT ACT OR OMISISON PERTAINING TO STRUCUTRAL DEFECTS MUST BE FILED WITHIN TEN (10) YEARS OF THE DATE OF THE ALLEGED VIOLATION. ANY QUESTIONS CONCERNING A CONTRACTOR MAY BE REFERRED TO THE REGISTRAR, CONTRACTORS' STATE LICENSE BOARD, P.O. BOX 26000, SACRAMENTO, CALIFORNIA 95826.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No._, adopted by the Council of the City of Roseville on the _____day of_____, 20_____, and CONTRACTOR has caused this Agreement to be duly executed.

RE: RFQ 07-126 Substation Transformer Civil Construction

***************ADDENDUM THREE**************

Staff:

- David Angel-Jimenez
- Mitch Larkin

Please note the following revisions, which represent one attachment:

Our responses to the questions below, that were posted on the public purchase website for RFQ 07-126, constitute Addendum Number Three:

Question 1: Please confirm that the pre-bid meeting will take place on April 2, 2026 at 11:00AM CT (9:00 AM PT).

Response 1: Yes. Per the details listed in the Pre-Bid conference section, the mandatory pre-bid job walk will be held on April 2, 2026 at 9:00AM PT (11:00AM CT).

Question 2: What is the engineer's estimate for this project?

Response 2: An engineer's estimate has not been prepared for this project. Please bid based on the scope of work and specifications listed in the project manual including any addendums.

Question 3: Plans call out 2" Fiberglass Grating. Are there specifications for those? If so, can those be provided?`

Response 3: The specifications for the 2" Fiberglass Grating are as follows: Molded square fiberglass grating with dimensions 2"x2"x2" (or approved equivalent) shall be used over the oil containment pit. The grating shall be green in color and have a grit coating. It shall be capable of supporting a uniform load of 250-lbs/ft2 and a concentrated load of 500-lbs/ft2 using a 5:1 safety factor, with a deflection not to exceed 0.25 inches.

You must acknowledge receipt of this addendum by including a signed copy with your proposal submittal.

Please note the following revisions, which represent one attachment:

Topics discussed and questions asked at Fiddyment Substation:

Note 1: The conduits to the transformer foundation will now be connected to Pull Box "B". Please see the attached updated drawings.

Question 1: Will there be any work associated with the primary and secondary connections to the transformer?
Answer 1: No. The transformer will be a spare unit without any primary or secondary connections.

Question 2: The transformer pad drawing shows 1" conduits to be used for the sump pump. Where will the sump pump be located and where should the conduit be routed?
Answer 2: The sump pump shall be located on the northeast corner of the transformer containment closest to pull box "B". The 1" conduits shall be terminated in pull box "B". See the attached updated drawings.

Question 3: Does the sump pump have an oil stop valve or are they manually operated?
Answer 3: Roseville crews will be installing the sump pump and all controls associated with it.

Question 4: Do the pull boxes have existing knockouts?
Answer 4: Pull box "B", near the 12kV switchgear, does have existing knockouts. Pull box "MWPB1" does not. Please see the attached pictures for reference.

Question 5: Can the existing knockouts be used?
Answer 5: The existing knockouts are for 4" conduit. If used for the 2" conduits for this project, they should be filled in with grout.

Question 6: Does the depth of the knockouts in the pull box align with the depth of conduits specified in drawing 326C1-04?
Answer 6: See attached page 2.1 and drawing number 5.1 from Roseville Electric's Construction Standards. As shown in drawing 5.1, the existing 4" knockouts are about 3' deep. The minimum depth of the conduit addition in this project shall be revised to be 3' deep. Additional conduit requirements and specifications can be found on the attached page 2.1. This change will be reflected in the attached updated drawings.

Topics discussed and questions asked at Sierra Vista Substation:

Note 2: The drawings show a 6" gap between the existing circuit breaker pad and the new personnel housekeeping pad. It is acceptable to pour the new pad without the 6" gap if the proposers find it to be an easier option.

Note 3: The civil design for the containment pit extension at Sierra Vista Substation is currently under review. The current design, shown in the project manual, is a conservative design. As such, the work to be done for the containment extension may be reduced. Final confirmation of the design is expected by April 15th, at the latest. Proposers will be notified via addendum.

Note 4: If the existing layer of Gunite is disturbed, replacement will be required as detailed in drawings 395C2-01 and 395C2-03.

Question 7: Does there need to be a gap between the new additional containment and existing transformer containment?
Answer 7: Similar to the housekeeping pad, Roseville is open to having a gap, or not, between the existing and new containment. Final construction also depends on the design review per Note 3 of this addendum.

Question 8: Will Roseville extend the RFQ end date if the scope of work at Sierra Vista changes per Note 3?
Answer 8: If there are any changes that reduce the scope of work at Sierra Vista, there will, likely, not be an end date extension. A 1-week extension may be considered given the right circumstances.

Question 9: Was an engineer's estimate created for this RFQ?
Answer 9: No, an engineer's estimate was not created.

You must acknowledge receipt of this addendum by including a signed copy with your proposal submittal.

I acknowledge receipt of Addendum One

Name Daniel B. Jones.

PROPOSAL TO THE DEPARTMENT OF Electric

Project: Substation Transformer Civil Construction

Arrow Drillers Inc. D.B.A.

Name of Bidder Arrow Construction Business Phone 916-640-0600

Business Address 1850 Diesel Dr. Sacramento, CA. 95838

Place of Business Same

Contractor's License No. 708757

License Expiration Date 6-30-

License Classification Type A

DIR Registration No. 1000001881

Type of business organization: Corporation

*If a Corporation, incorporated under the laws of the State of: California

City of Roseville Business License No. 00820650

The undersigned Bidder herewith submits this Proposal and binds itself on award by the City of Roseville under this bid to execute a Contract in accordance with its bid and the Contract Documents.

The Notice to Contractors, Instructions to Bidders, Form of Agreement, Specifications, General Conditions, Supplemental Conditions, Contract Drawings, and Addenda, if any, are made part of this bid and all provisions thereof are hereby accepted, and all representations and warranties are required thereby are hereby affirmed.

The work to be done is described in the Bidding Documents entitled Substation Transformer Civil Construction, City of Roseville, California. This offer shall be irrevocable for a period of sixty (60) Days after the date on which bids are opened.

The undersigned Bidder understands that any clarification made to the above or any new and different conditions or information submitted on or with its Proposal, other than that requested, may render the bid non-responsive.

The undersigned, as Bidder, declares that the only persons or parties interested in this Proposal as principals are those named herein; that this Proposal is made without collusion with any other person, firm, or corporation; that the Bidder has carefully examined the location of the proposed Work, the attached Form of Agreement, and the plans, Specifications, and other Contract Documents; and agrees if this Proposal is accepted, that it will contract with the City of Roseville, in the form of a copy of the Agreement contained in the Project Manual, to provide all necessary machinery, tools, apparatus and other means of construction, and to do all the work and furnish all the materials specified in the Contract Documents, in the manner and time therein prescribed, and according to the requirements of the Director, as therein set forth, and that the Bidder will take in full payment therefore prices indicated in the Schedule of Bid Items, including all work modified by addendum numbers 1, 2, & 3. (IF NONE, STATE NONE).

Bids are required for all Bid Items. The amount of the Bid for comparison purposes will be the total of all items awarded.

The Bidder shall set forth for each item of work, in clearly legible figures, an item ("unit") price and a total for the item in the respective spaces provided for this purpose in the Schedule of Bid Items.

The prices included within the Schedule of Bid Items include all costs for labor, materials, tools, equipment, services, Subcontractors, suppliers, taxes, insurance, shipment, delivery, overhead, profit, and for all other costs necessary to perform the Work in accordance

with the Contract Documents.

Accompanying this Proposal is BiddBond.

(Notice: Insert the words "Cash $_____," "Cashier's Check," "Certified Check," or "Bidder's Bond," as the case may be, in an amount equal to at least ten percent (10%) of the total of the Bid.)

The names of all persons interested in the foregoing Proposal as Principals, are as follows: Michael Wegner & Sal Rivera

If SOLE OWNER, execute here:

I sign as sole owner of the business named above:

If PARTNERSHIP, one or more partners sign here:

The undersigned certify that we are partners in the business named above and that we sign this bid with the full authority to do so:

BIDDER'S BOND

City Council of the City of Roseville

KNOW ALL MEN BY THESE PRESENTS:

That we Arrow Drillers Inc. dba Arrow Construction, as PRINCIPAL, and Fidelity and Deposit Company of Maryland a, Illinois Corporation and duly authorized to transact business under the laws of the State of California, as SURETY, are held and firmly bound unto the City of Roseville in the penal sum of Ten Percent of Total Amount Bid dollars ($10% of Total Amount Bid), being at least TEN PERCENT (10%) OF THE TOTAL AMOUNT OF THE BID of the Principal above named, submitted by said Principal to the City of Roseville, acting by and through the Public Works Director, for the work described below, for the payment of which sum in lawful money of the United States, well and truly to be made, to the Director of the Department to which said Bid was submitted, we bind ourselves, our heirs, executors, administrators and successors, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH,

That whereas the Principal has submitted the above-mentioned Bid to the City Council of the City of Roseville, as aforesaid, for certain construction specifically described as follows, for which Bids are to be opened at the Office of the City Clerk located at 311 Vernon Street, Roseville, California, on April 22nd, 2026 FOR

Substation Transformer Civil Construction

(Copy here the exact title of work as it appears on the Proposal.)

NOW, THEREFORE, IF THE AFORESAID PRINCIPAL is awarded the Contract and, within the time and manner required under the Contract Documents, after the prescribed forms are presented for signature, enters into a written Contract, in the prescribed form, in accordance with the Bid, and files all insurance and two (2) Bonds with the Department, one (1) to guarantee Faithful Performance and the other to guarantee Payment for Labor and Materials, as required by law, then this obligation shall be null and void; otherwise, it shall be and remain in full force and effect.

IN WITNESS WHEREOF, we have hereunto set our hands and seals on this 13th day of April, 2026.

NONCOLLUSION DECLARATION TO BE EXECUTED BY
BIDDER AND SUBMITTED WITH BID

The undersigned declares:

I am the Estimator of Arrow Construction, the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The Bidder has not directly or indirectly induced or solicited any other Bidder to put in a false or sham bid. The Bidder has not directly or indirectly colluded, conspired, connived, or agreed with any Bidder or anyone else to put in a sham bid, or to refrain from bidding. The Bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the Bidder or any other Bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other Bidder. All statements contained in the bid are true. The Bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, bid depository, or to any member or agent thereof, to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a Bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the Bidder.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on April 22, 2026 [date], at Sacramento [city], California [state].

(Signature of Declarant)

DISQUALIFICATION QUESTIONNAIRE

The Bidder shall complete, under the penalty of perjury, the following questionnaire:

Has the Bidder, any officer of the Bidder, or any employee of the Bidder who has proprietary interest in the Bidder, ever been disqualified, removed, or otherwise prevented from bidding on, or completing a federal, state, or local government project because of a violation of law or a safety regulation?

5. Testing plan and log with respective testing agencies.
6. Re- test or re-work plan
7. Three phase quality control plan that includes preparatory, initial, and follow up procedures.
8. Procedures for completion.

We have attached a partial sample of our QA & QC plan for your review.

6.13.3 C. Quality Control Plan-.pdf

A. Provide an organizational chart and resumes of your dry utility crews and their Project Managers/ Superintendent and Safety Manager. Resumes should evidence experience in and around energized electric utilities.

Response:

Please see attached organizational chart.
6.13.4 A. Organizational Chart.pdf

Having consistently performing services of this exact nature, and operating out of our Sacramento office, our team includes four Project Managers and six Superintendents, each bringing specialized expertise to the table.

Dan Jones will serve as the designated Project Manager for this contract. However, the City of Roseville will maintain the ability to tap into Arrow's additional corporate resources and personnel as necessary to ensure project success.

Executive Management

Mike Wegener | President Mike brings over 37 years of construction experience, with more than 31 years specifically focused on underground construction. He holds a degree in Civil Engineering from Santa Clara University (Class of 1985) and is a Registered Professional Engineer in California. His 32+ years of experience spans civil design, construction sales, and horizontal drilling. Mike manages Arrow's administrative and financial

departments and is a past president of the local chapter of the CFMA (Construction Financial Management Association).

**Sal Rivera | COO, Secretary & Treasurer** Sal has over 40 years of experience in underground and general engineering construction. He serves as the company's RMO with a CA Contractor "A" License. Having performed most aspects of utility construction firsthand, Sal provides practical, field-tested insight into project management. His career includes leadership roles at Copenhagen Utilities and Irish Construction, moving from Foreman to Superintendent and Project Manager. Sal has managed Arrow's operations and marketing since 2001, ensuring all projects meet specifications to the client's complete satisfaction.

**Joe Reyes | General Manager** Joe has more than 32 years of experience in the industry, having worked for several mid-sized construction firms ($10M–$50M range). At Arrow, he focuses on operations and management. He previously served as Area Manager for the Modesto office, where he grew the workforce and managed profitability. Joe is bilingual—a critical asset in today's construction industry—and is known for an incredible work ethic, treating Arrow's business with an owner's level of dedication.

Project Management

**DAN JONES |** Project Manager / Estimator Dan has over 30 years' experience in the construction industry and over 25 years of firsthand experience in work around or near energized facilities. Over the past two decades, he has fostered respected relationships with governing municipalities, engineers, utility departments, arborists, and land managers throughout Sacramento County and surrounding cities.

Dan joined Arrow in 2000 and has worked in every capacity—from Laborer and Operator to Foreman, Purchasing Manager, and now Estimator/Project Manager. This "ground-up" experience provides him with unparalleled insight into project execution. He has completed specialized courses in Project Management and Construction Financial Management.

Key Experience & Current Projects: Dan manages a diverse portfolio including substation construction, underground utilities, directional drilling, structural concrete, and general engineering projects ranging from $1,000 to $60,000,000.00.

- **SMUD Annual Civil Construction (2023–Current):** Providing labor, equipment, and materials for greenfield and brown field substation builds, infrastructure repair and improvements. These substations range from 110 to 600 volts (LV) to 12kV to 230kV (HV). Responsibilities include estimating, scheduling, public outreach, permitting, subcontractors, safety, communication with SMUD Field Engineers and Managers, production goals, progress billings, asbuilts, and quality control.

- **Civil Downtown Construction (2023–Current):** Specialized work in high-density areas involving the placement of large manholes, conduit duct bank systems, and structural concrete repairs.
- **Structural Concrete Construction & Repair (2023–Current):** Focused on structural repairs in energized substations, manholes, and facilities throughout SMUD's service territory.

Field Supervision: Superintendent

TYLER PHILLIPS: Superintendent brings over 28 years of construction industry expertise to the team, specializing in general engineering and complex underground utility projects. Since joining us in 2016, he has established himself as a top-performing Superintendent, consistently delivering projects with gross revenues ranging from $2,000 to $24M.

Tyler's diverse portfolio includes:

- Energy Infrastructure: Full transmission and distribution substation builds (including control buildings) and distribution line maintenance.
- Civil Works: Mass grading, paving, structural concrete placement, and EV charging station installations.
- Utilities & Demolition: Comprehensive wet/dry utility projects and full-scale site/building demolition.

Having personally performed nearly every aspect of utility construction, Tyler offers invaluable practical insight into crew and equipment utilization, production goals, and site safety. He served as the Superintendent for every project listed in this RFP, ensuring continuity and high-level quality control.

Certifications & Training:

- 40-Hour & 10-Hour HAZWOPER
- Confined Space & Competent Person Trained
- Traffic Control / Flagging & UPRR Trained

CHRIS SHARP: Superintendent brings over 31 years of veteran experience to the construction industry, with a specialized focus on underground project management. Since joining our team in 2017, he has served as a Lead Foreman on all projects listed in this RFP. Over the past 2 years Chris has been promoted to Superintendents and is managing contracts with gross revenues ranging from $1,000 to $7M.

Before joining the team, Chris built a robust career at firms such as California Resources Corporation, Normandie Group, and Ortega Construction. His deep field experience includes:

- Utility Infrastructure: Expert installation of both wet and dry utilities.

- Heavy Equipment: Skilled operation of a vast variety of specialized construction machinery.
- Site Management: Direct oversight of job site safety, resource management, and daily production goals.
- Operational Excellence: Handling complex product installations while maintaining positive public and customer relations.

Chris's hands-on background allows him to bridge the gap between high-level project specs and practical, on-the-ground execution, ensuring every goal is met with precision.
Certifications & Training:

- 40-Hour HAZWOPER
- RT Trained
- Confined Space
- Competent Person Trained
- Traffic Control / Flagging
- UPRR Trained
- CPR / First Aid Certified

Field Supervision: Foremen

Given the diverse nature of these projects, we assign Foremen based on the specific skill set required for the task. Arrow currently employs 13 Foremen with a combined experience of over 239 years working in and around high-voltage energized facilities.

Below is a selection of a few qualified Foremen available to SMUD:

d. **Antonio Garcia:** brings over 28 years of field-proven experience to the team, specializing in the management of complex civil engineering and underground utility projects. Since joining Arrow in 2019, Antonio has successfully overseen projects with gross revenues ranging from $1,000 to $20M.
Antonio is a versatile leader with deep technical knowledge in:
   - Infrastructure & Utilities: Expert installation of distribution line infrastructure, dry utilities, and comprehensive concrete work.
   - Civil Operations: Extensive experience in mass grading, precision paving, and site preparation.
   - Specialized Equipment: Proficient in the operation of a wide range of machinery, including directional drill rigs, backhoes, excavators, loaders, and compaction equipment.

   As a Foreman, Antonio is responsible for the critical day-to-day success of a site, focusing on rigorous quality control, resource management, and meeting daily production goals while maintaining excellence in public relations.
   Certifications & Training:
   - 40-Hour HAZWOPER Certified
   - Competent Person Trained
   - Confined Space Certified
   - Traffic Control & Safety
   - CPR / First Aid Certified

e. **Joe Gill:** brings over 18 years of specialized construction and infrastructure experience to the team. Since joining us in 2022, Joe has played a critical role in the field, serving as a Foreman on all SMUD projects identified in this RFP.
Joe's expertise spans high-voltage environments and complex civil works, including:
- Substation & Energy: Specialized construction and complete rebuilds of substations.
- Civil Engineering: Expert-level structural concrete placement, grading, and paving.
- Utility Infrastructure: Comprehensive installation of both wet and dry utility systems.
- Technical Operation: Proficiency across a vast variety of heavy equipment, ensuring versatile site coverage.

As a Foreman, Joe manages the daily intersection of safety and production. He is responsible for resource management, maintaining strict daily production goals, and ensuring high-quality product installation while maintaining professional public and customer relations.
Certifications & Training:
- 40-Hour HAZWOPER Certified
- Competent Person Trained
- Confined Space Certified
- CPR / First Aid Certified
- Traffic Control & Safety

f. **Shawn Garbarino:** is a veteran Foreman with over 28 years of experience in the underground construction industry. A cornerstone of the Arrow team for over 17 years, Shawn has successfully managed a diverse range of projects with gross revenues from $1,000 to $3M.
Shawn has played a key role in the execution of every project listed in this RFP, bringing specialized expertise in:
- Dry Utility Infrastructure: Expert installation and management of complex dry utility systems.
- Heavy Equipment Operation: Proficiency across a vast variety of specialized construction machinery, ensuring on-site versatility.
- Project Continuity: Leveraging nearly two decades of company-specific standards to lead teams through high-stakes installations.
- Site Leadership: Directing daily operations with a focus on resource management, production goals, and maintaining professional public relations.

As a Foreman, Shawn prioritizes job site safety and quality control, ensuring that every project phase aligns with both client specifications and Arrow's rigorous internal standards.
Certifications & Training:
- 40-Hour HAZWOPER Certified
- Competent Person Trained
- Confined Space Certified
- Traffic Control / Flagging Trained
- CPR / First Aid Certified

Notice of Exemption

To: Placer County Clerk
Recorder's Office
2954 Richardson Drive
Auburn, CA 95603

From: City of Roseville
Development Services Dept.
311 Vernon Street
Roseville, CA 95678

Project Title: Spare Substation Transformer Project

Project Location(s): Sierra Vista Substation, 1550 Westbrook Boulevard (APN 499-010-063-000) and Fiddyment Substation, 6821 Fiddyment Road (APN 478-440-004-000), Roseville, CA 95747.

Project Description: Roseville Electric is proposing to make improvements to the Sierra Vista Substation and Fiddyment Substation to support enhanced reliability of the existing power supply. The project would expand the substation transformer containment pit at Sierra Vista Substation to meet transformer oil containment requirements. At the Fiddyment Substation, the project would also add a new concrete pad to site a new spare transformer used only to support reliability of the existing power supply and would not result in an expansion of use or capacity. All proposed improvements would be sited entirely within the substation parcels.

Public Agency Approving Project: Roseville City Council

Agency/Individual Carrying Out Project: Roseville Electric Utility

Reason why this Project is Exempt: The project qualifies for a Class 1 Categorical Exemption as described in Section 15301 of the California Environmental Quality Act (CEQA) guidelines which states:

> "Class 1 consists of the…minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of existing or former use… Examples include, but are not limited to: (a) Interior or exterior alterations involving such things as interior partitions, plumbing, and electrical conveyances; [and] (b) Existing facilities of both investor and publicly owned utilities used to provide electrical power, natural gas, sewerage, or other public utility services…"

The project consists of expanding the containment pit at the Sierra Vista Substation to meet oil containment requirements and the addition of a new concrete pad and spare transformer, to the Fiddyment Substation. The project would not result in expansion of use or capacity. Consequently, the Class 1 Categorical Exemption applies.

Lead Agency Contact Person: David Angel-Jimenez, Roseville Electric (916-774-5698).

Item ID: 2026-425

Title:	Confined Space Rescue Services - Contract Purchase Agreements
Contact:	Drew Yarbrough 916-746-1656 dyarbrough@roseville.ca.us

SUMMARY

Staff recommends approval of two, five-year contract purchase agreements for on-call confined space rescue services: one with Pro Safety & Rescue, Inc. (PSR) with a not-to-exceed amount of $500,000, and one with Hazardous Materials Institute LLC, doing business as California Safety Training (CST) with a not-to-exceed amount of $250,000. These two contracts will provide Roseville Electric Utility with support for confined space rescue services during maintenance activities at Roseville's power plants. Funding for the first year of the agreements in the amount of $100,000 for PSR and $50,000 for CST is included in the Electric Department's proposed FY2026-27 budget in the Electric Fund. Future funding is subject to the City Council's approval of the respective budgets.

RECOMMENDATION

Staff recommends that the City Council adopt two resolutions authorizing the City Manager to execute Contract Purchase Agreement (3005283) with Pro Safety & Rescue, Inc. and Contract Purchase Agreement (3005298) with Hazardous Materials Institute LLC, doing business as California Safety Training for on-call confined space rescue services.

BACKGROUND

The City owns and operates three power plants. The facilities require maintenance to heat recovery steam generators, tanks, pressure vessels and other equipment that necessitates confined space entry. California OSHA requires all confined space entries have rescue services onsite to perform life-saving rescue and extrication in case emergency conditions develop in the space.

Roseville Electric Utility solicited proposals through Request for Proposal No. 07-117 Generation Confined Space Rescue Services for the three power plants. Two vendor proposals were received and evaluated based on qualifications of firm and team, experience, references, project understanding and plan, and required documents. The evaluation team reviewed and scored the vendor proposals, selecting both Pro Safety & Rescue, Inc (PSR) and Hazardous Materials Institute LLC, doing business as California Safety Training (CST) as the firms to provide the requested scope of services as they both scored high across these criteria. Two firms were selected due to the critical nature of the services to help ensure availability of support during power plant maintenance activities.

FISCAL IMPACT

The cost of the agreement with PSR will not exceed $500,000. The cost of the agreement with CST will not

exceed $250,000 for a total not-to-exceed amount of $750,000 over a five-year period. Funding for the first year of the agreements in the amount of $100,000 for PSR and $50,000 for CST is included in the Electric Department's proposed FY2026-27 budget in the Electric Fund. Future funding is subject to the City Council's approval of the respective budgets.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA (CEQA Guidelines §15061(b)(3)). The approval of the two contract purchase agreements for confined space rescue services meets that criteria. No additional CEQA review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

4. Invest in well-planned infrastructure and growth
6. Deliver exceptional City services
1. Ensure a safe and healthy community

Respectfully Submitted,
Drew Yarbrough, Power Plant Operations & Maintenance Supervisor

Daniel Beans, Electric Utility Director

Description of Labor, equipment and/or materials

The vendor shall provide the services called for under the City of Roseville Request for Proposal (RFP)# 07-117 and vendor's proposal thereto titled "RFP 07-117: Roseville Electric Division - Confined Space Rescue Services" (hereinafter "Proposal"). The terms and scope of work of the City of Roseville RFP# 07-117 and the vendor's Proposal are herein made part of this Contract Purchase Agreement and fully incorporated by reference. All work must be quoted approved in advance by an authorized representative of the Roseville Energy Plant (REP) utilizing the attached "Tab F: Cost Proposal" rate sheet.

Please contact Drew Yarbrough with the REP at (916)746-1656 or dyarbrough@roseville.ca.us for questions regarding this agreement.

*The total agreement amount is an approximation only. The City does not guarantee whatsoever the actual value of this contract.

Contract Terms and Conditions

1. To the fullest extent allowed by law, Contractor shall defend, indemnify, and save and hold harmless City, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of Contractor's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from City's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed. Contractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

2. Contractor is an independent contractor, and shall not be considered an officer, agent or employee of the City.

3. Without the written consent of the City, this Agreement is not assignable by Contractor either in whole or in part.

4. Time is of the essence of this Agreement.

5. At any time during the term of this Agreement, the City has the right to terminate this Agreement, provided Contractor is given thirty (30) days written notice. City's termination shall be without further liability to City; however, Contractor shall be entitled to all costs reasonably incurred prior to the date of termination. Contractor acknowledges that City may terminate this Agreement should funds not be appropriated by its governing body to continue services under this Agreement.

6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.

7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.

8. Unless notified to the contrary, in writing, the City assumes that the Contractor has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement.

9. All fair employment practices must be adhered to. In addition, if the project referenced on this service agreement is a Public Works project, all prevailing wage laws must be complied with. For prevailing wage contracts over $25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm. In compliance with Labor Code Section 1773.2, as may be amended from time to time, Contractor shall cause a copy of this website to be posted at each jobsite, as applicable.

10. Contractor agrees to the below insurance requirements:

    a. Unless otherwise specified, the Contractor shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance

Docusign Envelope ID: AE7D277C-C2D8-4E4A-8A6D-7F62BA926925

coverage.

b. Form. Contractor shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

c. Additional Insureds. Contractor shall also provide a separate endorsement or section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage, except for Workers' Compensation. Such insurance shall specifically cover the contractual liability of Contractor. The additional insured coverage under the Contractor's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office (ISO) CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be:

(1) the minimum coverage and limits specified in this Agreement; or
(2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

d. Cancellation/Modification. Contractor shall provide thirty (30) days written notice to City prior to cancellation or modification of any insurance required by this Agreement.

e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.

f. Subcontractors. Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, Contractor shall require its subcontractors to agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under this Agreement. Additionally, Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

g. Self-Insured Retentions. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

h. Waiver of Subrogation. Contractor hereby agrees to waive subrogation which any insurer of Contractor may acquire from Contractor by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or

Docusign Envelope ID: AE7D277C-C2D8-4E4A-8A6D-7F62BA926925

Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Contractor, its employees, agents and subcontractors.

i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Contractor of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.

11. Contractor shall comply with all federal, state, and local laws and ordinances, including but not limited to the City's storm water regulations, as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances may result in monetary fines and cancellation of this Agreement. Refer to www.roseville.ca.us/stormwater for links to more information on the City's storm water regulations.

12. In the event that the terms of any attachment or exhibit conflict with any terms of this Agreement, the terms of this Agreement shall control.

13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original hereof.

14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

17. For purposes of this Agreement, the terms "Contractor," "Consultant," and "Supplier" are used interchangeably.

18. If the project referenced on this agreement is a Public Works project, then the following shall apply: No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

19. Contractor/consultant's duties and services under this agreement shall not include preparing or assisting the public entity with any portion of the public entity's preparation of a request for proposals, request for qualifications, or any other solicitation regarding a subsequent or additional contract with the public entity. The public entity entering this agreement shall at all times retain responsibility for public contracting, including with

Docusign Envelope ID: AE7D277C-C2D8-4E4A-8A6D-7F62BA926925

respect to any subsequent phase of this project. Contractor/consultant's participation in the planning, discussions, or drawing of project plans or specifications, if any, shall be limited to conceptual, preliminary, or initial plans or specifications. Contractor/consultant shall cooperate with the public entity to ensure that all bidders for a subsequent contract on any subsequent phase of this project have access to the same information, including all conceptual, preliminary, or initial plans or specifications prepared by contractor pursuant to this agreement.

20. If the project referenced on this agreement is a Public Works project, then the following shall apply: Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.

21. Contractor certifies that Contractor, its employees, directors, officers, agents, subcontractors, vendors, and volunteers are not presently debarred, excluded, suspended, declared ineligible, voluntarily excluded, or proposed for debarment, exclusion, suspension, or ineligibility by any federal, state, or local department or agency.

22. The Levine Act (Govt. Code, Section 84308) requires a Party (and its agent(s), if any) to a Proceeding before the City of Roseville that involves any action or consideration related to their contract, license, permit, or other entitlement for use, to disclose any campaign contributions made to City elected or appointed officers totaling more than $500 within the twelve (12) months prior to the City decision and while a proceeding is pending, and includes certain prohibitions on contribution activity thereafter. If applicable campaign contributions have been made by Contractor and/or its agent(s), Contractor is responsible for compliance, including for its disclosure obligations, if any, as further described at: https://www.roseville.ca.us/government/departments/city_clerk/transparency/levine_act.

23. This Agreement may be amended via change order, but only if such change order is made in writing, approved by the City, and signed by both parties.

24. CONTRACTOR agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONTRACTOR and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

    CONTRACTOR and CITY agree that: (a) CONTRACTOR is free from the control and direction of CITY in connection with the performance of the work; (b) CONTRACTOR is providing services directly to CITY; (c) CONTRACTOR has and will maintain at all relevant times a business license; (d) CONTRACTOR maintains a business location that is separate from CITY; (e) CONTRACTOR is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) CONTRACTOR actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) CONTRACTOR advertises and holds itself out to the public as available to provide the same or similar services; (h) CONTRACTOR provides its own tools, vehicles, and equipment to perform the services; (i) CONTRACTOR has negotiated its own rates; (j) CONTRACTOR set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONTRACTOR has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

25. If Contractor produces any "web content" pursuant to this Agreement, as that term is defined in section 35.104 of Title 28 of the Code of Federal Regulations, as may be amended, Contractor shall ensure that any such web content is in full compliance with all applicable requirements of the most current version of the Web Content Accessibility Guidelines, the Americans with Disabilities Act, Code of Federal Regulations and/or

California law. Contractor shall defend, indemnify, and hold harmless City, its officers, employees, and agents from and against any and all claims, liabilities, damages, or expenses arising out of Contractor's failure to comply with such requirements. This provision shall survive expiration and/or termination of this Agreement.

The supplier named hereon by the acceptance of this order agrees to the provisions of this document titled "Contract Purchase Agreement" and all accompanying terms, conditions, and attachments.

Insurance Submission Process

The City of Roseville Human Resources/Risk Management Department uses a service called EBIX to manage our insurance certificate tracking.

How It Works

- The vendor's contact information is entered into EBIX. EBIX will contact the vendor to request proof of insurance.
- The Vendor can forward the request to their Insurance Agent(s) if necessary.
- Vendor/Insurance Agent submits insurance to EBIX by email to roseville@ebix.com or by fax to (770) 325-5727. After faxing or emailing the certificate, please DO NOT send the certificate by mail to EBIX. Please do not mail, email or fax any certificates to the City of Roseville.
- Once submitted, EBIX reviews the insurance documentation. If there are deficiencies, EBIX will send a follow up letter or email requesting additional information.

Questions Regarding Insurance Submission: Contact EBIX at (951) 652-4239
Questions Regarding Insurance Requirements Contact Risk Management at (916) 774-5202

RE: Contractor and Grantee Compliance with Economic Sanctions Imposed in Response to Russia's Actions in Ukraine

Dear Vendor:

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (EO) regarding sanctions in response to Russian aggression in Ukraine. The EO is located at https://www.gov.ca.gov/wp-content/uploads/2022/03/3.4.22-Russia-Ukraine-Executive-Order.pdf.

The EO directs all agencies and departments that are subject to the Governor's authority to take certain immediate steps, including notifying all contractors and grantees of their obligations to comply with existing economic sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law.

This correspondence serves as a notice under the EO that as a contractor or grantee, compliance with the economic sanctions imposed in response to Russia's actions in Ukraine is required, including with respect to, but not limited to, the federal executive orders identified in the EO and the sanctions identified on the U.S. Department of the Treasury website (https://home.treasury.gov/policy-issues/financial-sanctions/sanctions-programs-and-country-information/ukraine-russia-related-sanctions). Failure to comply may result in the termination of contracts or grants, as applicable.

Please note that for any agreements or grants valued at $5 million or more you must report to the City of Roseville your compliance with economic sanctions including steps you have taken in response to Russia's actions in Ukraine, including, but not limited to, desisting from making new investments in, or engaging in financial transactions with, Russian entities, not transferring technology to Russia or Russian entities, and directly providing support to the government and people of Ukraine.

Sincerely,
